

Boy Scouts To Get Wastepaper Next Saturday

To Canvass Town For Paper Collection

Announcement made by the Munday troop of Boy Scouts that they have set next Saturday, February 3, as wastepaper collection date for Munday.

The wastepaper drive, formerly conducted by the American Legion, has been taken over by the Boy Scouts, and it is hoped that Munday will supply a large collection for the drive Saturday.

Scouts will canvass the business and residential districts, and everyone is asked to have their old papers bundled and ready when they call at the homes.

Those living outside the city should bring their papers in. Wastepaper is one of the most vitally needed war materials.

Haskell Youth Killed Sunday In Tractor Mishap

Floyd Tankersley, 14, son of Mr. and Mrs. Roy Tankersley of Haskell county, was fatally injured late Sunday when a tractor he was driving got out of control and overturned on the highway north of Rule.

Floyd was driving the tractor from Rule to the Tankersley farm near O'Brien. His father was following in a car and witnessed the accident. As the youth attempted to steer the machine to one side to allow a car to pass, he seemed to lose control, and the tractor overturned, pinning him underneath.

Help had to be summoned before the youth could be removed from underneath the tractor, and he was pronounced dead when taken to the Knox county hospital.

Surviving are his parents, a sister, Mrs. Jack Fisher of California; two brothers, Herschel of Knox City and Lloyd of Haskell.

Local Seabee Commended For Heroic Action

Camp Parks, Calif.—Two Seabees risked their lives to save a drowning soldier. Each of the heroic Navy builders today holds three letters of commendations from the Army and Navy.

The honors are held by George Dever, 34-year-old baker, second class, of West Glen's Falls, N. Y., and Walter Loving, 22-year-old first class seaman, of Munday, Texas. Pvt. Lloyd Rider, who was stationed with an Army unit at Dutch Harbor, Aleutian Islands, owes his life to their swift and fearless action.

Pvt. Rider was descending an ice-covered ladder from the dock to boat on a cold December night when he slipped and tumbled into the water. Seabee Dever and Loving dove to the rescue of the soldier, who was drifting face down and unconscious, his head having struck the boat as he fell.

The rescue was doubly dangerous in view of the frigid water and sub-zero atmosphere. For nearly 15 minutes the Seabees struggled in the darkness to tow the helpless soldier through water that was flecked with ice. They were exhausted and their hands were lacerated by the time that they were helped on to the dock by other soldiers.

It was eight hours before the soldier regained consciousness. The Seabees were stationed at Dutch Harbor with the 85th Naval Construction Battalion. Now they are at Camp Parks while the battalion awaits a new assignment.

RED CROSS OFFICIAL SPEAK AT KNOX CITY

The Knox City Study Club will present Mrs. Frieda Kennedy, national representative of the American Red Cross, in a program on Saturday afternoon, February 3, at three o'clock.

This program will be held at the Methodist church in Knox City, and the public is cordially invited to attend.

Mrs. G. D. Jones, Goree.
Mrs. Clarence Gauntt, Goldthwait, Texas.
Miss Barbara Lynn Odell, Woodson.

W. W. McCarty, Munday.
Mrs. Isadora McCoy, Munday.
Mrs. E. L. Hughes, O'Brien.
Mrs. T. C. Walker, O'Brien.
Mrs. C. J. Harcrow, Rochester.
Mrs. Gene Michels and baby daughter, Munday.
T. A. Beideman, Aspermont.
Mrs. T. G. Carney, O'Brien.
Katheryn Knox, Throckmorton.

Patients Dismissed Since Tuesday, January 23, 1945:

Mrs. J. J. Justiss, Goodnight.
Mrs. J. O. Hills, Rule.
Mrs. J. T. Offutt, Munday.
Mrs. Witzel Whitmire, Throckmorton.
Baby James Gary Arnold, Vera. Chas. Adams, Vera.
J. W. Fuller, Vera.
Mrs. Lewis Hester and baby daughter, Rochester.
G. C. Conwell, Munday.
Mrs. Leroy Nunn, O'Brien.
Wanda Mae Stone, Munday.
Thurman Johnson (Col.), Munday.

Mrs. D. B. Shipman, Vernon.
Mrs. Earl Pruitt, Munday.
G. W. Vernon, Rule.
Mrs. J. J. Denton Jr., Knox City.
Mrs. D. H. Craddock, O'Brien.
Mrs. J. O. Archer, Vera.
Mrs. J. C. McNelly, and baby son, Rochester.
Jeanette Draper, O'Brien.
Mrs. C. A. Qualls and baby daughter, Benjamin.

Births:
Mr. and Mrs. Lewis Hester, Rochester, a daughter.
Mr. and Mrs. J. C. McNelly, a son, Rochester.
Mr. and Mrs. C. A. Qualls, Benjamin, a daughter.

Auction Sale Reports Big Run

The Munday Livestock Commission Co. reports a big run of cattle for last Tuesday's sale. All classes of cattle sold fully steady with last week's markets.

anner and cutter cows sold from \$5.00 to \$8 per hundred; butcher cows, \$8.50 to \$10; fat cows, \$10.50 to \$12; butcher bulls, \$7.50 to \$9.50; fat bulls, \$10 to \$11.50; butcher yearlings, \$9.50 to \$12; fat yearlings, \$12.50 to \$18.80; rannier calves, \$7 to \$8.50; butcher calves, \$9 to \$12, and fat calves, \$12.50 to \$14.
Eighteen cows and calves sold by the head for \$165.00.

BIRTH ANNOUNCEMENT

Mr. and Mrs. Control Qualls of Benjamin are the parents of a baby girl who was born on Sunday, January 28, at the Knox county hospital. Mother and daughter are doing nicely. The child's father is serving in the Navy Seabees and is overseas.

WAR BONDS in Action

Doughboys unloading projectiles in the European front to be hurled against the Nazi. War Bonds pay for these shells as well as establish savings for your needs ten years hence. Buy War Bonds.

B-29 Power Comes From Superfactory

A Two huge Boeing B-29 Superfortresses, great new stratosphere bombers featuring some of the most outstanding and daring aerodynamic developments of the war, are seen flying in formation with a Boeing Flying Fortress, (upper left) the B-17G. Half again as large as the Fortress, and with the speed of a pursuit plane, the four-engine B-29 still continues to draw Japan's blood.

Borleske To Speak At Rotary Meeting Friday

R. Vincent Borleske

R. Vincent Borleske of Walla Walla, Wash., prominent figure in Rotary International, will speak at the Munday Rotary Club's meeting next Friday night. A number of visitors from other towns are expected to be here for the meeting, scheduled at 7:30 p. m.

Mr. Borleske has been athletic director and graduate manager of Whitman College in Walla Walla since 1915. He has been president of the athletic coaches of the Pacific Northwest Conference since 1935, and is a past director of the Walla Walla Chamber of Commerce.

He is a member and past president of the Walla Walla Rotary Club and has served Rotary International as district governor and as committee member. For 1944-45, he is a member of the extension committee of Rotary International for the western half of the United States and Canada, Alaska and Hawaii.

Sgt. Joe Lane Is Home From Overseas

Mr. and Mrs. Ed Lane of Munday received a telegram last Saturday from their son, Staff-Sgt. Joe Lane, that he had arrived in San Antonio, returning from overseas duty. This was the first word they had heard from him since early December.

Sgt. Lane, tail gunner on a B-26 Marauder, had been serving overseas about ten months and was based in France when he was returned to the states.

Mr. and Mrs. Lane are expecting their son home this week for a visit.

Guy S. Hardin Is Promoted To Sgt.

An Eighth Air Force Bomber Station, England.—Promotion of Guy S. Hardin, of Munday, Texas, from corporal to sergeant, has been announced at the 388th Bomb. Group, commanded by Lieutenant Colonel Chester C. Cox, of Superior, Wis.

Sergeant Hardin is a parachute rigger at this Eighth Air Force B-17 Flying Fortress station. His duties include the packing of parachutes after they have been used, and also periodical inspections to assure correct functioning when jumps are made.

He is the son of Mrs. Nell Hardin of Munday. Before entering the AAF he was engaged in farming.

Delinquent subscribers urged to renew

Renewal subscriptions have been coming in nicely during recent weeks; however, there are quite a few who have not renewed their Munday Times for another year.
Look at your expiration date! If it reads 12-1-44, your subscription expired on last December 1. If it reads 1-15-45, it expired January 15.
In early February we plan to correct our mailing list, and in compliance with postal regulations and the government's order to conserve newsprint, all subscribers who are delinquent will be removed from the list.
If your subscription has expired, or will expire within the next few weeks, let us have your renewal now!
Subscription rates remain the same; \$1.50 in Knox and adjoining counties; \$2.00 beyond the 50-mile limit.

Funeral For Mrs. Wiswell Is Held Saturday

Mrs. Minnie Alice Wiswell, a former resident of Knox county, died on Friday, January 26, at Oklahoma, Texas, where she had been making her home during recent years.

Mrs. Wiswell was born in Hale county, Texas, on March 4, 1864, and was 80 years, 10 months and 22 days of age. Her husband passed away on June 20, 1937, and was buried at Munday. Mr. and Mrs. Wiswell resided in this county for several years.

When a young girl, Mrs. Wiswell was converted and joined the Baptist church.

Funeral services were held from the Mahan Funeral Home at 1:30 last Saturday afternoon, conducted by Rev. Mathis, Baptist pastor of Oklahoma. Burial was beside her husband in the Johnson cemetery.

Surviving are a sister, Mrs. Ida Patterson of Tipton, Okla., and the following nieces: Mrs. Foreman, Munday; Mrs. Hooker, Tipton, Okla., and Mrs. Hill, Oklahoma.

1945 Auto Tags Now Available

The new 1945 auto license tags went on sale in Knox county on Thursday of this week. They will be sold through February and March, but must not be placed on automobiles before March 1, it was announced.

Deadline for purchasing the 1945 license plates is April 1, 1945.

The license plates are on sale at Benjamin, at the office of E. B. Sams, tax collector. Instead of the usual two plates per car, auto owners will receive only one plate this year, and this is to be attached to the rear of the vehicle.

At the time the order for manufacture of the 1945 license plates was placed with the Texas Prison System, ruling of the War Production Board prohibited any state from the issuance of more than one full-size metal license plate per vehicle for the 1945 registration year.

All other tags for previous registration years will be removed when the new plate is attached on March 1st.

Locker Plans Await Approval

Latest reports on plans for the frozen food locker plant in Munday are that approval has not yet been granted for materials, but is expected almost daily.

Since plans were submitted to the Dallas office of the War Production Board, a few other details had to be worked out. Various agencies connected with granting approval for the plant have indicated approval will be made.

Work on the plant is expected to begin as soon as possible after the "go ahead" signal is given.

Weather Report

Weather report for the period of Jan. 25th to Jan. 31st, inclusive, as recorded and compiled by H. F. Hill, Munday U. S. Cooperative Weather Observer:

Temperature			
LOW		HIGH	
1944	1943	1944	1943
Jan. 25	34	52	79
Jan. 26	28	57	58
Jan. 27	39	40	60
Jan. 28	30	35	49
Jan. 29	24	42	54
Jan. 30	25	46	43
Jan. 31	35	43	53

Rainfall this year, 1.55 inches; rainfall this date last year, 1.72 inches.

HOME FOR VISIT

J. W. Willis, seaman first class in the navy, was home on a few days' leave recently to visit his parents, Mr. and Mrs. U. B. Willis of Goree. This was his first time to be home in the past 15 months.

Miss Thelma Atkinson has resigned her position in the local schools and left this week for Canyon, where she will work on her degree in West Texas State Teachers' College.

Stamford P. C. A. Holds Its Annual Meet On Friday

Post-War Credit Dis- cussed; Officers Elected

Approximately 605 members, wives and guests attended the annual meeting of the Stamford Production Credit Association in Stamford last Friday, January 26, 1945.

J. L. Hill, Jr., secretary-treasurer, reported \$2,657,000.00 in loans made to 1234 farmers and stockmen during 1944.

The Stamford PCA has been serving farmers and stockmen in Jones, Haskell, Knox, Kent, King, Stonewall, Shackelford, and Dickens counties for the past eleven years. The membership now totals 1350. Beginning from scratch eleven years ago, members have accumulated an investment of \$182,000.00 in the capital stock of their association, with earned surplus of \$82,000.00. These two items are now 76 per cent of the total capital structure.

Stockholders elected J. F. McCulloch of Stamford and Clark Forbis of Afton to the association board of directors. Other members of the board whose terms carry over are J. B. Pumphrey of Old Glory, C. G. Burson of Haskell, and Lasater Hensley of Spur.

"The Stamford Production Credit Association has a vital role in the post war financing program," said J. B. Pumphrey, president. "We are looking ahead and planning for the future so that we can meet the new demands of our members and help them through the difficult changing production and marketing conditions they will encounter in the period of adjustment following the war. We have met the challenges of the war years and are now preparing for the admitted uncertainties of the post war period."

Lt. Edward Havran Returned Home

First Lieut. Edward F. Havran, who has been serving overseas, came in last Monday to spend a leave with his parents, Mr. and Mrs. Adolph Havran.

Navigator with the Eighth Air Force, based in England, Lt. Havran has seen much aerial action against Nazi-occupied Europe. He served overseas for eight months and completed thirty-five missions against the enemy.

Lt. Havran will visit his parents, who reside between Munday and Knox City, for about two weeks.

Weinert Wins Goree Tourney

The Weinert high school basketball team defeated the Goree independents in the final game of the invitation tournament at Goree last Saturday night, 35 to 26.

In the consolation game, Goree high school defeated the Munday team 32-24.

Mason Harlan of the Goree Independents was the high point man of the tournament, rolling up 24 points in the three games.

Teams entered in the tournament were Old Glory, Munday, Weinert, Mattson, Goree high school, Goree independents, Sunset and O'Brien.

Cotton Ginnings

Census reports submitted The Times by Hoyle A. Sullins of Vera, special agent for the Department of Commerce, bureau of the census, shows that 20,415 bales of cotton were ginned in Knox county from the crop of 1944 prior to January 16, 1945.

This is over 1000 bales more than was ginned last year, the report showing 19,372 bales over the same period from the crop of 1943.

TO WORKERS MEET

Rev. W. H. Albertson and Mrs. J. F. Simpson represented the Munday Baptist church at the associational workers' meeting at Weinert last Tuesday. They reported a very interesting meeting.

Mr. and Mrs. P. B. Broach Jr. of Bakersfield, Calif., came in last week for several days visit with relatives and friends.

What He Does For His Community Lives On and On."

PETROLEUM PROMISES!

"There are still a great many people who take promises seriously—who neither make them glibly with indifferent intent, nor readily condone the violations of pledges made by others," says William R. Boyd, Jr., chairman, Petroleum Industry War Council.

"In the vast growing American petroleum industry there exists a firm determination to accept responsibilities that have been thrust upon it by the essentiality of its products to modern society." With this responsibility in mind, says Mr. Boyd, it promises:

1. Its continued and complete devotion to America's first and greatest task today—the winning of the war and the securing of an enduring peace.
2. Its unending effort to serve the American people with an adequate supply of those countless petroleum products that have become so necessary to modern living.
3. Its unceasing acceptance of its responsibility in maintaining and improving the already high standards of employment and opportunity in the petroleum industry.
4. Its unreserved realization and proper discharge of its duties as one of the great basic elements of the nation's economy.
5. Its constant and continued search for new and greater sources of petroleum, more and better petroleum products, and greater opportunities for employment and service.

SAVE YOUR OWN BACON

Knowledge of fire causes and of conditions which permit a small fire to become serious, is very essential to fire prevention. Without such knowledge, inspections are valueless. A simple report that a cellar contained rubbish, or a stove was selling cotton batting in the basement area, means little. But if this rubbish is beneath the stairs or the cotton is open on a table at the foot of the main stairway, any experienced fireman can visualize the inferno he would have to go through to reach a fire in the basement.

Study shows that a large percentage of fires endangering life and property originate in basements and cellars. Such fires may result from an accumulation of paper and boxes, or the improper use of spigots instead of pumps for the discharge of oil from drums, or the continued use of defective stoves, or any one of several causes which even though corrected, could develop between inspections.

Repeated fires of this character emphasize the inaccessibility of fires in cellars and basements. As a result, the important facts to be considered in controlling such fires, are the location of stairways and other entrances, and providing means of fighting fires in basements from other than an interior stairway.

Many basements are bound to remain a serious fire menace unless they are provided with a sprinkler system which, if not supplied by a connection to a street main, could be fed by hose lines from a fire engine.

The foregoing simple suggestions will enable any person having the well-being of his property and community at heart, to safeguard his own premises at little or no cost, with possibility of great saving to himself.

THE NEW LINK IN TRANSPORTATION CHAIN

Few industries will enter the postwar era with a wider field of operation before them, than will air transport. For increased business, the world is its market. No longer will it be confined to one country. This fact, however, will create problems because the companies will become subject to a multiplicity of regulations by various governments.

In spite of the hurdles that lie ahead, the industry plans to keep the United States in the lead in the field of air activity. Air cargo transport will accelerate the entire tempo of postwar merchandising, in fields of fashions, specialty goods, perishable foods and exports, in the opinion of Major Benjamin H. Namm, first vice-president of the National Retail Dry Goods Association. Mr. Namm visions entirely new markets opened up.

The coordination of airplanes with existing methods of transportation, including trucks, express, railroads, steamships, and storage warehouses, is essential to give our nation the last word in transport service. The people of the United States are such great travelers and shippers that it will take the combined facilities of every agency to meet their needs. The airplane will add the last link to give the super service.

In The WEEK'S NEWS

TOUGH GHOSTS—Hardly visible in white winter camouflage outfits, these members of an American artillery unit proved more awesome than ghosts could be to Nazis in Sivolat area in Belgium, where they pushed the Germans back.

FOOD FOR FIGHTERS—Good fighters need good food, and our American fighters got the best. Here are loaves of nourishing bread, baked in a portable field kitchen right behind front lines in France.

SKY COMMUTER—William P. Lear, president of Lear, Incorporated, and Major in Civil Air Patrol, pilots his own plane between his New York offices and company's plants and branches in Piquette, Ohio; Grand Rapids, Mich.; and Los Angeles. Lear plants, now producing critical electrical aircraft control and communication systems, will also build home radios after the war.

BULL'S EYE—Well, not quite, but lovely Patricia Munsel, star of opera, concert and Sunday afternoon "Family Hour" broadcasts, likes to test her skill at darts. "And," she says, "there's no better time for this popular party game than Valentine's Day."

HOME AT LAST! Two-year-old Marilyn Schwarz, Jersey City, holds small brown puppy sent to her from New Guinea, 15,000 miles away, by Army transport plane.

CHECK!—Perfect, both for eye-catching outfit and eye-catching beauty, is Andrea King, movie star, who models this unusual play suit to good advantage.

WAR BONDS in Action

"Tin Fish" goes down a hatch on first stage of its journey to sink an enemy vessel. War Bonds pay for these deadly missiles used in submarines and also save money for your post-war necessities.

SCHOOL CHILDREN PICKED COTTON

College Station — Dallas county school children are credited with saving a large part of that county's cotton crop by County Agricultural Agent A. B. Jolley. The Garland high school was dismissed for two weeks during a critical period, and all its teachers and a large percentage of students helped farmers gather the crop. A similar procedure was followed by the Cedar Hill high school. Each day during the period the Richardson high school turned out one class for cotton picking, and the Rowlett grade school also released some of its students.

CHECK ON DRIED FOODS

College Station — The government is conducting a six-month sales test in Grand Rapids, Mich., this month to determine consumers' reactions to a number of dehydrated vegetables. Among the products offered for sale under the plan are dehydrated beets, onions, carrots, diced Irish potatoes, Julienne Irish potatoes, and diced sweet potatoes.

Beware Coughs from common colds That Hang On

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

EXPERIENCE
However learned or eloquent, man knows nothing truly that he has not learned from experience.—Wieland.

In all instances where our experience of the past has been extensive and uniform, our judgment as to the future amounts to moral certainty.—James Beattie.

Experience is victor, never the vanquished; and out of defeat comes the secret of victory. That to-morrow starts from to-day and is one day beyond it, robs the future with hope's rainbow hues.—Mary Baker Eddy.

To most men experience is like the stern lights of a ship, which illumine only the track it has passed.—Coleridge.

No man was ever so completely skilled in the conduct of life, as not to receive new information from age and experience.—Terence.

Nor deem the irrevocable Past, As wholly wasted, wholly vain. If, rising on its wrecks, at last To something nobler we attain.—Longfellow.

I GIVE YOU TEXAS by BOYCE HOUSE

Usually, we think of poets as dreamers—but they can be men of action, too. Rupert Brooke anticipated his own death in battle on a foreign field in World War I and, writing of his grave, penned, "Think only this of me... that there's a spot that is forever England." Joyce Kilmer, who wrote "Trees," gave his life in that war. His battle poem, "Rouge Bouquet," is very beautiful.

Alan Leeger foreshadowed his own going in the poem that begins, "I have a rendezvous with death." And the stirring lyric, "In Flanders Field," was written by Col. McCrae of the Canadian Army only a short time before he fell in battle.

C. L. Douglas, news editor of the Fort Worth Press, is the author of several excellent books, among them "Cattle Kings of Texas" and "James Bowie." It was many years ago when we first met. A committee of ministers was waging a campaign to clean up conditions in Fort Worth and I was assigned to cover a meeting of the committee, having joined the news staff of the Star-Telegram only a short time before. The session was not public but I arrived early and pointed out that the hall outside was wide open to the bitterly cold north wind, so the ministers agreed to allow me to "sit in" on the meeting.

Soon after the conference began, Douglas, then a reporter for the Press, arrived but, having already been told it was a closed meeting, he remained outside for an hour. I recognized him from his daily "column," which carried his picture.

I volunteered to act as typist, when a set of resolutions was to be prepared and then took a copy out to the waiting journalist. In a very respectful tone, he asked, "Will that be all?" and I realized he did not know I was a rival reporter but thought I was one of the preachers! The temptation was irresistible. In the most solemn voice at my command, I replied, "No, Brother Douglas, that will be all."

It was not until the next day that he learned the difference.

Mr. and Mrs. W. H. Griffin attended the funeral of a brother-in-law, Mr. J. N. Condon, who died at Throckmorton on January 21 of a heart ailment. Mr. Condon was a pioneer resident of this section, having resided near Throckmorton for more than 50 years.

Mrs. Mabel Hall has had word from her son, Capt. Quince Hall, who is overseas, stating that he is well.

First Lieut. D. S. Tillotson, who is serving with the Marines at Washington, D. C., was a visitor in the home of his sister and husband, Mr. and Mrs. F. G. Daniell, last week.

Mrs. George Hurst and children of Portland, Oregon, were visitors in the F. G. Daniell home last week. Mrs. Hurst is a sister of Mrs. Daniell. Mrs. Hurst, Lieut. Tillotson and Mrs. Daniell went to Abilene last Saturday to attend a family gathering in the home of their mother, Mrs. Etta Tillotson.

Jonell Fitzgerald is visiting her sister-in-law, Mrs. Morris Fitzgerald in San Angelo.

Mr. and Mrs. Phillip Jones and children of Dallas are here for a visit with their parents.

Mr. and Mrs. Hugh Heard and children of Dallas were week end visitors with Mr. Heard's parents, Mr. and Mrs. W. S. Heard.

Capt. and Mrs. James A. Cunningham and little son of Washington, D. C., are here for a visit with

Mrs. Cunningham's parents, Mr. and Mrs. W. C. Ratliff. They will also visit Capt. Cunningham's mother in Abilene and with relatives at other points.

Miss Chloe Dell Stalcup of Graham was a week end visitor with her parents and with friends.

Mrs. Opal Johnson and son, Royse, are visiting Mrs. Johnson's mother-in-law, Mrs. H. O. Johnson, and other relatives at Winters.

Mr. and Mrs. O. D. Claburn of Knox City were Sunday visitors with Mr. Claburn's parents, Mr. and Mrs. S. M. Claburn. Mrs. Claburn has been on the sick list, but is improving.

Mr. and Mrs. Lloyd Kirk of Iowa Park were week end visitors with their daughters and families, Mr. and Mrs. Louis Hutchins and Mrs. Taylor Couch and children. They also visited in the home of Mr. and Mrs. J. W. Laningham.

Mary Jean Stevenson, who has been attending Hardin-Simmons University in Abilene, is at home for the present and will enroll for nurse's training at an early date.

Mrs. L. L. Hendrix and daughters, Billie and Johnnie, of Lubbock were visitors with Mrs. Hendrix's parents, Mr. and Mrs. E. J. Jones, and with Mr. and Mrs. Sam Hampton recently.

B. B. Jones of Slaton visited in the home of Mr. and Mrs. E. J. Jones over the week end.

Washington News Letter

By Congressman Ed Gossett

Washington, D. C., Jan. 27.—This letter is being written on my 43rd birthday, which is slightly under the average age of Congressmen.

The Wallace-Jones controversy has been the main subject of discussion on the domestic front in Washington. Within the Department of Commerce at this time under Mr. Jones' administration is the Defense Plants Corporation with 10 billion dollars invested in war plants, the Federal Reserve Corporation with commitments in excess of five billions, and the Defense Supplies Corporation, which is the agency paying all government subsidies. Subsidy payments to date include 659 million dollars on meats, 117 million on butter, 86 million 100 thousand on flour, 11 million 300 thousand on stripper oil production since August, various transportation subsidies aggregating 297 million, etc.

The largest and most important of these financial agencies in the Department of Commerce is the Reconstruction Finance Corporation of which Mr. Jones has been the head since its creation during the Hoover administration. The RFC has made 32 billion dollars in commitments and 18 billion dollars in disbursements. On these operations Mr. Jones states the government will make five hundred million dollars profit.

The best opinion in Washington is those so-called financial agencies will be taken out of the Department of Commerce and after that is done Mr. Wallace will be confirmed as Secretary of Commerce.

The President sent another nomination to the Senate this week which may stir up some controversy and which would now receive considerable attention but for the Jones-Wallace feud. This nomination is that of Mr. Aubrey Williams, former director of the National Youth Administration, to become the new head of the Rural Electrification Administration. Nearly everyone is anxious to see REA succeed, and wants it well administered. A recent report to Congress on REA reveals a splendid record of progress and service.

At the end of the last fiscal year REA had made 869 loans to co-operatives totaling \$387,630,670. Repayment schedules called for a return of \$58,482,400 by the end of the last fiscal year, and payments actually totaled \$74,970,316. All the borrowers total delinquencies amounted to only \$277,000. During 1943 REA showed a gross profit of 14 per cent while during 1944 it showed a gross profit of 16 per cent. The 1940 census showed 7,642,000 farm homes of which 2,351,000 were electrified.

A "Harry Bridges Victory Committee" is stirring up a little friction behind the scenes in Congress with its efforts to secure a dismissal of the deportation proceedings pending against the notorious Mr. Bridges, long president of the International Longshoremen's and Warehousemen's union on the West Coast. The fact that some of the dock workers unions over which Harry Bridges rules have held to a 30-hour work week during war time should not be helpful to his case. I still do not regret my vote some two years ago for the deportation of Mr. Bridges.

Some Washington experts say an over-supply of currency in this country has boomed vast black market operations, hoarding, and tax evasion. It is pointed out that five years ago we had in circulation only 7 billion 600 million dollars in currency while now we have more than 25 billion 300 million in circulation. The black market operator

Alfred D. Reckley, 21, Pittsburgh, Pa., radio operator, poses smiling now. War Bonds are providing treatment for the wounds he sustained while flying a bomber on a mission over Central Germany.

A piece of shrapnel sent Pfc. Charles Shropshire, 21, Lexington, Ky., to the hospital, where his leg wound is mending, thanks to War Bonds. Shropshire was wounded in a sudden Nazi assault while setting up a machine gun on a Belgium front, when the enemy shell struck close enough to wound. Buy more Bonds, Shropshire urges.

Tech. Sgt. Paul Fordham, 31, Southampton, N. Y., was one of three men injured when an Eighth Air Force Flying Fortress took a shelling over Germany. The damaged plane got back to England, but this B-17 engineer was knocked out with a shattered left thigh. Now he has an extra good word for all the people at home who buy War Bonds to heal wounded fighters.

Everett Pruitt Is Honored As "Yank Of Week"

On Thursday, Jan. 25, Lieutenant Everett E. Pruitt of Munday was honored on the nationwide Abbott and Costello program, heard over NBC at ten p. m., EWT, when the "Yank of the Week" salute was directed to him.

In saluting Lieutenant Pruitt, the announcer said: "Tonight, we salute Lieutenant Everett E. Pruitt of Munday, Texas. In one night he led a patrol across the Roer river through mine fields and into Siegfried line positions. He brought back three wounded men under machine gun and artillery fire and single-handedly fought off eight Germans with a rifle and hand grenades until the wounded men were safely away. In your honor Lieutenant Pruitt, the makers of Camels are sending to our fighters overseas 400,000 Camel cigarettes."

The following (censored) details of Lieut. Pruitt's heroic action comes from the 104th Timberwolf Infantry Division in Germany:

Munday Officer Fights Against Odds

Three of his six men were wounded by Schu-mine, another had gone back to get help, he was on the wrong side of a deep, swift-moving river, there was no bridge, and the Jerries were closing in. The whole thing looked pretty black; the big picture was getting considerably smaller. But Lieutenant Everett E. Pruitt, Headquarters Company, 415th Infantry Regiment, and a resident of Munday, Texas, got back—and brought all his men with him.

Shortly after midnight the patrol had crossed the river Roer and penetrated 400 yards into enemy fortifications. Taking advantage of the effect of the extreme cold on enemy security, Lt. Pruitt and his patrol approached a known stronghold directly. Just as he ordered his men to close up behind him, things began to happen.

There was a loud explosion at the end of the line. One of the men had stepped on a Schu-mine which had severely injured his foot. Lt. Pruitt applied first aid, and he and another member of the patrol began to carry the wounded man to safety—when the man who was helping stepped on another Schu-mine. All hell had broken loose, as grazing

pays the legal price by check and gives a bonus in cash. Largest black market transactions involve such commodities as meat, gasoline, nylon stockings, and liquor. Experts say many Americans are hiding large bills in safe deposit boxes, mattresses, tin cans, trunks, etc. These people of course do not buy war bonds.

Officials are delighted with the progress of our armed forces in the Philippines. In no campaign anywhere has such valuable and loyal aid been given by guerrilla forces. Their work has far exceeded our fondest hopes and expectations. It's a marvelous tribute to American administration. Nowhere in the world's history has an alien and conquered people so loyally supported the country which imposed dominion upon them. The Philippines will have earned the independence which will be given shortly after the war.

Admiral King and General Marshall this week gave members of Congress a three-hour confidential report on the progress of the war.

Elliott Roosevelt's recommended promotion to Brigadier General may run into trouble.

small arms fire made every movement hazardous. While seeking cover from the fire, a third man stepped on a Schu-mine.

Lt. Pruitt sent one of the men back to secure litter bearers and to call for protective artillery fire. Then, with the two remaining men, he began the job of getting the wounded back across the river.

He held off an eight-man German patrol with his carbine, as the uninjured aided the wounded in a 400-yard crawl. From time to time he deliberately exposed himself to draw fire away from the wounded.

Slowly and painfully the smashed bridge was reached, but under a hail of enemy fire, getting across to the other side looked like an impossible task. After an eternity, they found comparative safety under the first drop of the span. For the first time the Jerries realized that their prize was getting away. As they rushed in, Lt. Pruitt fired his carbine into their midst until it jammed. The next deadliest thing—(sheet missing)—

LOCALS

Miss Lola Jones, who is attending school in Denton, spent the week end with home folks here.

Mr. and Mrs. J. L. Stodghill and Herbert Stodghill visited with relatives in San Antonio over the week end.

Mrs. Leroy Henderson of Ardmore, Okla., visited her parents, Mr. and Mrs. W. R. Mitchell, several days last week.

Mr. and Mrs. Charles Leaverton of Bakersfield, Calif., visited with friends here the first of this week.

Mr. and Mrs. B. Hassen of Hamlin visited with relatives and friends here the first of this week.

Spanish Rice Is Point Saver

Meatless dishes full of rich, meaty flavor are popular these days when we are all short on points. Spanish rice is one of these dishes, hearty enough to satisfy and full of flavor because of its combination of rice, tomatoes and cheese.

Rural and suburban homemakers who use butane or propane ranges will find that Spanish rice bakes evenly so that each grain of rice is fluffy and tender, and the flavor of tomatoes and cheese is thoroughly developed. The heat which they have in a "bottled" or "tank" gas oven will brown this dish quickly and evenly without drying it out.

Spanish Rice

(Serves 4)

- 2 cups cooked rice
 - 1 large onion, chopped
 - 1 green pepper, chopped
 - 1/2 cup celery, chopped
 - 2 cups fresh cooked tomatoes
 - 2 tbsp. fat
 - 1/2 tsp. salt
 - 1/2 tsp. pepper
 - 1/2 cup grated cheese
 - 1/4 cup buttered crumbs
- Cook tomatoes, onion, green pepper, celery and fat for 15 minutes. Add rice and seasonings. Mix well and pour into a greased casserole. Cover with buttered crumbs mixed with cheese and bake in a moderate-ly hot (375° F.) oven 30 minutes or until crumbs are browned.

ments at home, built 33 clothes closets, remodeled 15 clothes closets, made 22 hat stands and 39 shoe racks, cleaned 45 sewing machines, made 36 dresses forms, sewed and knitted for Red Cross, folded bandages and packed boxes for soldier boys in hospital at Sheppard Field for Thanksgiving and Christmas.

One hundred eighty four women reported raising a garden with an estimated yield of 110,200 pounds.

The women have spent quite a bit of time on home improvement. Seventy three pieces of furniture have been refinished, six coffee tables made from picture frames, 9 floor lamps made from steering wheels of old cars, 2 trunks remodeled, 20 serving trays, 40 sewing cabinets, 25 lawn chairs made, 1156 pieces of pottery painted, 150 refinished walls, 22 painted their house, 549 added cotton articles of bedding, 21 added mattresses, 169 pieces furniture refinished, 57 chairs reupholstered, 65 chairs and divans upholstered and 21 slip covers made and 5 chairs made from old car seats.

The fact that now most every farm home has some furniture that has been re-upholstered or remodeled in some way is the result of the Extension Program.

Through co-operative marketing seven hundred and eighty families were served. The following things were bought co-operatively: Pottery pineapple, scrap leather, hickory bark, imitation rush and maximum thermometers.

One hundred and forty six club women reported buying war bonds, 31 families salvaged fats, 14 salvaged tin and 45 others.

The women and girls have assisted with the farm work by taking on additional farm jobs as follows: Driving tractors, hauling grain, gathering corn, hauling feed, milking, pulling bolls, sledging cotton, chopping cotton, stacking feed, feeding cattle, branding, feeding hogs, breaking stable, running combines and cutting and shocking feed stuff.

Weekly Health LETTER

Issued by Dr. Geo. W. Cox
M. D., State Health Officer
of Texas

Austin — National Social Hygiene Day will be observed on Wednesday, February 7, and in Texas, according to Dr. Geo. W. Cox, State Health Officer, all local health agencies are planning to participate.

Throughout the past year the Texas State Department of Health has carried on a large-scale persistent and effective campaign against syphilis and gonorrhea, the venereal disease enemies of national health.

These campaigns, Dr. Cox declared, have helped to keep venereal disease infections from spreading and have played a major part in aiding servicemen and civilian industrial workers to stay on the job. In fact, man-days lost through such infections, in the armed forces and in industry, have been brought to an all time low and Texas can list this gratifying result among its contributions to the nation's military and industrial achievements.

"Even though medical science has produced new drugs and medical research has found new methods to combat these diseases," Dr. Cox

EASY-TO-MAKE

SOFT, drapable rayon fabrics are easily handled by the home sewer, and conform to the new feminine formality being stressed today. Here a rayon mossy crepe is featured in an afternoon dress which combines two of the best current style details—gently gathered, three-quarter sleeves, and a draped surplice neckline. The ingenious seamstress should be especially careful this year to choose rayon fabrics which have passed good wear tests and bear labels giving care-for suggestions.

People, Spots In The News

HOW MANY SOLDIERS?—Look again. Yank in olive drab stands out like a sore thumb, but one at right in snow cape, now being worn by Yanks on the Western Front, is almost invisible.

SOME SHELLS—The Sea Shell Queen, Ardis Sheffer, of St. Petersburg, Fla., displays nice shells.

SHELLS FOR EISENHOWER—Answering the call for more shells on the Western Front, the Pullman-Standard Car Manufacturing Company steps up production of eight-inch projectiles by installing a new straight-line automatic forging unit that turns out missiles at a much faster rate than its old unit. These girls are inspecting the forgings.

stated, "they are still formidable enemies. Fortunately, we now have facilities available for diagnosis and treatment of venereal disease, for all citizens of Texas who cannot afford private care."

Through new awareness among community and health leaders and law enforcement authorities, there has been tremendous progress made in the control of venereal diseases in Texas, but it must be remembered that in our democracy a community will have no better control of venereal diseases and the repression of prostitution, than the citizens of that community want and willing to support.

"Let us make Wednesday, February 7, V-day in the war on venereal diseases," Dr. Cox urged. "It can be done if we want it done badly enough."

Mrs. J. R. Burnison and Mrs. A. D. Thompson were business visitors in Wichita Falls last Saturday.

Truscott H. D. Club Meets Thursday With Mrs. Stoker

Mrs. Bill Stoker was hostess to members of the Truscott Home Demonstration Club on Thursday, January 25.

Mrs. J. R. Brown presided over the short business session and was also leader of the program, "A Good Citizen is Informed." A very interesting and instructive parliamentary drill was conducted by Mrs. J. E. Stover.

Mrs. S. O. Turner gave "Study of Terrell's Law" and "Study of Butter and Margarine Controversy" was given by Mrs. H. P. Gillespie. After the program, a collection was taken for the infantile paralysis campaign fund.

The next meeting will be on Thursday afternoon, February 8, in the home of Mrs. J. E. Stover.

Mr. and Mrs. M. F. Billingsley and son, Bob, spent the week end in Dallas, visiting with Mrs. Billingsley's mother, Mrs. M. B. Bounds.

Mrs. W. V. Tiner, Mrs. Glenna Dyke of Walters, Okla., and Lint, and Mrs. James Dyke were visitors in Abilene last Monday.

Faculty Members Entertained With Dinner Party

Members of the Munday school faculty were entertained with a dinner party in the home of Mr. and Mrs. Winston Blacklock last Monday evening. Hostesses were Mrs. Blacklock, Miss Lucy Sfogner and Mrs. Amy Moore.

Following a delicious dinner, several games of eighty-four were enjoyed.

Present were Mr. and Mrs. G. S. Dowell, Mr. and Mrs. R. B. Bowden, Mr. and Mrs. James H. Bardwell, Mr. and Mrs. W. C. Cunningham, Hubert Owens, Mmes. A. D. Thompson, Maurycie Blacklock and Frances Bayse Baker; Misses Gail Reynolds and Toby Baird.

Mrs. Irene Meers had as her guests last Sunday, T/Sgt. Earl D. Meers of Barksdale Field, La., Pvt. Boyd Meers of Camp Hood, Texas, and their families, also Mr. and Mrs. Floyd Meers of Seymour.

Mrs. Clara Bouldin was a visitor in Dallas the latter part of last week.

Mr. and Mrs. C. H. Howard were business visitors in Lamesa over the week end. They returned by way of Lubbock.

IT PAYS TO ADVERTISE

REMEMBER WHEN

—women's hats were held in place by two or three hatpins? Long affairs they were, some with large fancy heads, jewel studded and ornately decorated with metal work. Putting on and taking off a hat was a real feminine art that required a mite of patience along with the skill of adjusting the pins. Remember?

week indicates a new Japanese policy, National War Fund agencies will continue to send relief supplies to our men on a regular schedule.

A Marine officer recently dropped a tip as to why that famed corps has been able to set such a fine fighting record: a large proportion of the corps is made up of Texans!

At one time, 27 per cent of all Marine volunteers came from the Lone Star state. Even now, Texas contributes far more than its per capita share to the ranks of the fighting leathernecks!

Two residents of West Texas, have recently been wounded in fighting abroad, but both are expected to recover. They are Pfc. Ernest Hutya, 22, who was hit while fighting inside Germany, and Pfc. Leo Klimitchek, 20, who was wounded in Luxembourg.

And from a Nipponese prison camp comes word from Jerry Hines, whose Mansfield, Texas, parents had not heard from him in more than a year. Jerry wrote that he was in "fair" health, but that his spirits were undimmed.

Good news came this week, too, for Charles A. Musselman, United War Chest of Texas field representative. The UWTC official's son, an army doctor, was captured on Ibatan, and for many months his parents had received no word from him. But this week Mr. Musselman received two short notes, in which Dr. Jim Musselman reported his health good and asked for news from home.

Cpl. Harry Morgan of Abbott is now serving as a radio-gunner with the famed "Lone Rangers" heavy bomber unit in the South Pacific... Corp. Bill Thomas of Mansfield has won the Silver Star medal for gallantry... Capt. Edwin Weldon, former Henderson attorney and veteran of six Pacific island invasions, has been promoted to major... Lt. John Byrom of Gatesville, pilot of a B-17 bomber, now wears the Air Medal, won in European skies... and Lt. Alvin Franek of West has been given the coveted Distinguished Flying Cross in addition to a presidential citation for his work as a fighter pilot in Europe.

The "Texas Air Force" and the "Lone Star Army" are still in there fighting!

Dates for the annual University of Texas Round-Up have been set for April 6 and 7. John A. McCurdy, executive secretary of the Ex-Students Association, has announced.

Mrs. J. E. Richardson and Mr. and Mrs. Orville Cranfill and children of Lorenzo and Mr. and Mrs. A. K. Tartt and daughter, Allison Kaye, of Abilene were visitors in the home of Mr. and Mrs. D. E. Holder last Sunday.

WAR BONDS in Action. Illustration of a woman placing a flower on a soldier's casket. Text: Belgium woman places flowers on blanket-covered body of American soldier killed by sniper in her backyard. He gave his life for her freedom. Buy War Bonds to help his buddies continue the fight.

Mrs. Glenna Dyke of Walters, Okla., visited relatives and friends here over the week end.

Mrs. Hattie Williams of Abilene came in last week for several days visit with her brother-in-law and sister, Mr. and Mrs. D. E. Holder.

Mrs. Alice Allen returned home last week after spending several weeks with relatives in Marfa, Alpine and Pecos.

Mr. and Mrs. Leland Hannah were business visitors in Dallas several days last week.

Sport News

Tuesday night, of last week, the Sunset Eagles played the Munday Moguls. The Eagles came out victorious, with the scores being 31-16. The Junior boys lost their game, but they put up a good fight.

Friday night the Eagles met the Benjamin Mustangs in a thrilling game, in the Sunset gym. The Mustangs were in the lead by three points at the end of the third quarter. But the Eagles took the lead at the end of the fourth quarter after sacking two field goals and a free pitch. The scores were 20-22 at the end of the game. The Eagles have a perfect record so far this year, having won all the 26 games they have played.

Junior News

IN MEMORY OF OUR CLASSMATE, T. W. HERTEL

The members of our class mourn the loss of one of our dearest friends and classmates, T. W. Hertel, whom we have been associated with since our first day of school. We remember the happy times we have had together since that time, how we would argue over our grades and fight over our childhood sweethearts. To us these memories will always linger in our hearts.

T. W., we wish to thank you for all those precious souvenirs of life that you left us. You were so dependable, so understanding, so full of comradely fun, and such an appreciative friend.

We cannot find words with which to express our loss of you.

Sophomore News

This finds us starting a new semester. All are hoping that we make better grades this last half. This half the sophomores hope to have more parties and other activities, than we had the last half. In English we take grammar instead of literature, in Home Ec. the girls are taking cooking instead of sewing. We are studying powers and roots in Algebra and in World History we are studying about people that speak our language.

Say if anyone happens to see a student walk in the wrong class don't think anything about it. They are changing the schedule so much no one knows where to go.

Our class regrets the loss of our friend and fellow student, T. W. Hertel.

Secret Anti-Blackout Suit Revealed

Wing Commander W. R. Franks, O.B.E. (center), assisted by LAC R. D. Harris, adjusts the laces of the Mark III model of an anti-blackout suit as he fits it on Flight Lieut. J. A. Carr. Once laced on and fitted to a flar the suit can be zipped off or on in a matter of seconds.

DETAILS of one of the best-kept secrets of the war—the Franks Flying Suit — which eliminates "blackout" in high-speed flying, were released from RCAF Headquarters recently. Invented in 1939 by W/C William R. Franks, O.B.E., formerly of the University of Toronto, the suit has been in restricted operational use off British and U. S. aircraft carriers since 1942.

Developed by the R.C.A.F. and the Banting Institute, University of Toronto, the "F.F.S.", as it is known in secret air force documents, prevents "blackout" in fighter pilots, thus giving Allied air forces a tremendous tactical advantage in swirling dogfights.

"Blackout" is an air force term for temporary blindness, sometimes leading to unconsciousness, caused by the action of centrifugal force on the pilots of fast-maneuvering aircraft. Abrupt changes of direction at high speeds greatly increase this effect, known in air force medical circles as "G". Without the Franks flying suit, many pilots "blackout" at five "G"—or five times the normal pull of gravity at the earth's surface. With the suit, vision and consciousness remain unimpaired.

At "7G" a 150-pound pilot weighs more than half a ton and his four-

ton fighter is heavier than a Lancaster bomber. His blood grows heavy as iron and "pools" in his feet and legs, where his heart can't pump it into the brain.

By an ingenious adaption of a scientific principle hit upon by Dr. Franks back in 1938, the "F.F.S." provides pressure against the pilot's body which automatically compensates for the internal forces set up by increased "G". Columns of fluid such as air or water are contained in a rubber skeleton lining and held comfortably close to the pilot's body from ankles to chest by non-stretchable fabric. When sharp turns at high speeds build up "G" in the pilot's blood stream, a corresponding force from the suit balances pressure inside and out and permits the normal flow of blood to his brain.

Since W/C Franks tested his first suit back in 1940, more than 250 modifications have been made. It now comes in seven standard sizes and by lacing devices and specially constructed zippers the suit fits every size and build like a flexible, skin-tight suit of underwear. Its skeleton construction permits the pilot to breathe and it can be kept open until the pilot is ready to go aloft. Then it is zipped tight and the suit filled with air or water.

On Baptist Hour

Dr. Louie D. Newton, Baptist Hour speaker for next Sunday, February 14th, will have Dr. J. H. Rushbrooke of London, England, as his guest in the broadcast, as announced by the Radio Committee, S. B. C., S. F. Lowe, director, Atlanta, Georgia.

Dr. Rushbrooke is president of the Baptist World Alliance, and his five minute message comes from London, England, via short wave.

By an ingenious adaption of a scientific principle hit upon by Dr. Franks back in 1938, the "F.F.S." provides pressure against the pilot's body which automatically compensates for the internal forces set up by increased "G". Columns of fluid such as air or water are contained in a rubber skeleton lining and held comfortably close to the pilot's body from ankles to chest by non-stretchable fabric. When sharp turns at high speeds build up "G" in the pilot's blood stream, a corresponding force from the suit balances pressure inside and out and permits the normal flow of blood to his brain.

It took a week of Father's wages

But it wasn't so extravagant as it seemed. Hats were bigger then—and also fewer. Mother's hand-made mauve velour was good for several seasons.

Today, Mother's hat bills may total as much or more than the price of that quaint old velour. But she gets many more hats for her money.

It's much the same with electric bills. If yours seem about the same as they did years ago, it's because you are enjoying so many more electric conveniences now. And you're getting far more electricity for your money than you ever did before—about twice as much today as you did 15 years ago.

Not only has the price of electricity come down steadily through the years, but it has stayed down while war sent other costs climbing.

Hard work and good business management by your friends in this company will continue to make electricity dependable, cheap—one of the big bargains of all time.

TOWN and FARM in WARTIME

Prepared by OFFICE OF WAR INFORMATION

Call To Arms

Your Government needs and asks its citizens in this 16th week of the war to:

1. Answer the emergency call for 5,000 medical WACS. Women from 20 to 50 are needed immediately for non-professional medical work in U. S. Army hospitals.
2. Help to relieve the Doctor and Nurse shortage by taking a Red Cross Nursing Course to learn how to care for your own family.
3. Remember 1944 income tax return forms do not provide for payment of the unforgotten portion of your 1942 tax due March 15. Separate statements are being mailed.
4. Write your serviceman cheerful, re-assuring and frequent letters. Use V-Mail when you write overseas.
5. Beware of complacency. When the war news is good, redouble your efforts on the home front. Set an example your boy can be proud of.

Civilian Supplies Will Be Low

Supplies of meat, butter, sugar, canned and packaged foods, clothing, and many durable goods will be smaller in 1945, OPA advises. Record buying and increased military demands in 1944 greatly reduced reserves, which have so far helped meet demands. The present scarcity of metal household equipment and appliances will remain acute until peacetime production can be resumed. At the same time more people will be eager to replace equipment and household furnishings that are now more nearly worn out. Shortages always generate an urge to pay higher prices to get more. This increases the dangers of inflation. In 1945, OPA states, supplies will be large enough to meet essential civilian needs but much smaller than the amount people could buy with the money they will have to spend. The OPA program to meet this situation asks rigid compliance with rationing regulations and price ceilings, plus restraint in buying and a high level of savings, including war bond purchases.

QUICK RELIEF FROM Symptoms of Distress Arising from STOMACH ULCERS DUE TO EXCESS ACID

Free Book Tells of Home Treatment that Must Help or it Will Cost You Nothing. Over two million bottles of the WILLARD TREATMENT have been sold for relief of symptoms of distress arising from Stomach and Duodenal Ulcers due to Excess Acid—Poor Digestion, Sour or Upper Stomach Gasiness, Heartburn, Sleeplessness, etc., due to Excess Acid. Sold on 15 days' trial! Ask for "Willard's Message" which fully explains this treatment—free.

Ration Free Shoe Sale Coming Up

Limited quantities of men's and women's shoes may be sold to consumers ration-free at specified price reductions during the two weeks period of February 19 through March 3, OPA announces. Two-fold purpose of the temporary ration holiday, OPA states, is to give consumers the benefit of extra shoe mileage that otherwise might remain unused on dealers' shelves, and to help dealers clear their stocks of the normal accumulation of odds and ends and broken sizes. Before rationing, each shoe were customarily disposed of in seasonal clearance sales. OPA estimates that about 4,500,000 pairs of shoes will be sold in this special ration-free sale.

Cut Automobile Ration

A cut of one-third will be made in the number of new passenger cars available for rationing in February, when the quantity will amount to 2,000 cars on a national basis, or 1,900 less than in preceding months, OPA reports. The action will leave about 12,000 new cars in the nation's stockpile.

War Bonds Keep Farm Debts Safe

"Encourage farmers to maintain a proper balance between making payments on mortgages and investing in war bonds," says the American Bankers Association in a bulletin addressed to the rural bankers of America.

Bankers are advised to "encourage farmers to maintain a proper balance between making payments on mortgages and investing in war bonds. If a person pays a mortgage all up now, and then has to get another one after the war he may not be able to get terms as favorable as those he now has."

The bankers also call attention to the fact that "wear and tear on farm machinery and buildings must be paid for eventually, whether or not the mortgage is all paid off. A farmer will probably be in a safer position to end up the war with a moderate sized mortgage at a low interest rate and a good savings in war bonds than no mortgage, no bonds, and badly run-down buildings and equipment."

This is a part of the program of the American Bankers Association aimed at getting farmers to build up large enough war bond reserves to give them financial protection in the postwar period.

O. H. Spann of N. T. A. C., Arlington, spent the week end with his parents, Mr. and Mrs. Oscar Spann.

Mrs. Martin Pritchard and Irene Eideon of Bomarton were business visitors here last Monday.

Herman and Elvin Baker of Oklahoma City spent the week end here with their father, J. W. Baker.

Canada Supplies 40 Percent of Aluminum

Heat treating sheets of aluminum which have been rolled wafer thin.

The R.C.A.F. maintains inspectors at the Kingston, Ont., plant who check propeller production.

THE aluminum industry in Canada provides what is possibly the most spectacular story of wartime expansion in any industry in any country. In 1932, the last full year of peace, the total production of aluminum in Canada was not quite 143 million pounds. In 1945, the industry turned out 885 million pounds. The combined exports to the United Kingdom and the United States in 1932 were about 70 million pounds. Last year, after providing for all domestic war production, more than 444 million pounds were exported to Britain and 465 million pounds were sold to the United States.

Established at Shawinigan Falls before the Boer War, the Aluminum Company of Canada supplied the trivium Canadian needs of that war and of the first World War. Today, this same company operates a number of smelters among which is the largest in the world.

The principal requirements for the making of aluminum in Canada are bauxite from the tropics of South America, cryolite from Greenland, and grade ferspar from Newfoundland and the United States, and electric power from the rivers of Quebec. At present about one-quarter of all the power consumed in Canada is used in this one industry, and the industry itself has been responsible for the development of much of the power it consumes.

ing to have a fine time when we start making speeches. I have an idea that it's not going to be the Sophomores.

Our class has decided to have room club meetings every Friday. We intend to have a little program every meeting. By the time we've had Public Speaking two weeks, we should be able to conduct a meeting very well, as we are learning parliamentary procedure.

Freshmen Report

This week, with all of the mid-term examinations over, the freshmen have sort of relaxed. Something extra-ordinary happened last week. Everyone in the freshmen class passed his English exam with flying colors.

We were sorry to have one of our classmates absent all last week. That was tough luck Jeanette.

Dennis Wilde was absent again Monday. We hope that he will be back again very soon.

With the sun peeping out every once in a while the high school boys have been trying to play some softball this week.

Eighth Grade News

Everyone is glad that those dreadful examinations are over. We all made fairly good grades. Everyone's brain seems to be lighter this week.

We hope that we got to take Civic this second semester. We got second place in reading.

books. We are going to try to get first place next time.

The boys seem to enjoy reading funny books more than getting their lessons.

The girls are all anxious to start playing volleyball.

Seventh Grade News

We are all very glad that mid-term examinations are over. Everyone made satisfactory grades.

In Arithmetic class we have begun studying angles. The general opinion is that we'll dread next examination day.

Our class had a meeting last Friday morning. We chose a name for our club, "The Busy Bees Club." The girls are going to bring material on good citizenship at our next meeting and the boys are going to bring small inventions.

PECANS OUT-DO THEMSELVES

College Station — Pecan trees in Lampasas county have "over-extended themselves" for the war effort by bearing four million pounds of nuts during the recent harvest. County Agricultural Agent Ross B. Jenkins of the A. and M. College Extension Service says universitymen cannot get labor to dig all the pecan trees ordered from that section of the state. He has given hundreds of persons advice on suitable varieties.

Editorial

Le your task a job, or a golden chance? That is a question that we should ask ourselves every day of our lives. Will we go on doing the same thing that we did yesterday, or the day before, or will we use what we are doing to day as a stepping stone for what we will do tomorrow? The successful people of the world do the latter.

Established at Shawinigan Falls before the Boer War, the Aluminum Company of Canada supplied the trivium Canadian needs of that war and of the first World War. Today, this same company operates a number of smelters among which is the largest in the world.

Le yours just a job? That's what it is considered today, but tomorrow when we are looking for stepping stones to success it will be considered a golden chance.

one reported any after-effects. Wonder why? We wish to thank Mrs. John Albus 'cause we really had a wonderful time and the refreshments were delicious.

While we were reviewing for examinations, Miss Claus asked the English class why Edgar Allen Poe became famous. Louis answered, "He knew all of the stanzas of The Raven."

Sophomore News

Something new has been added. Our class is now taking Public Speaking. Somebody is surely go-

class motto, flower, and colors so we can order our invitations. Before we reach our decision you will probably see a few seniors parade around with some "black eyes," for Cleo seems to think that blue and green should be our colors, which Harold insisted that we have orange and red.

Junior News

Hurray! Those mid-term exams are finally over, and the Juniors are once more the happy-go-lucky kids they used to be. Bet the teachers were really surprised to find that most of us passed and made good grades besides. We had been given up as hopeless cases long ago, but, after all, miracles do happen sometimes.

Senior News

We are all our natural selves once again. The mid-term exams are over and thank heavens. The seniors have decided to make a turn for the better during the next semester. Maybe it's a grand idea. We are very busy deciding on our

Charles always thought no one could put anything over him but he changed his mind Sunday night when he was given a surprise birthday party. And I do mean surprise 'cause he knew nothing about it, or did he?

We want to thank Mrs. Albus for the wonder party, for we all had a swell time.

From all reports, the Juniors thoroughly enjoyed themselves at the party Sunday night. Funny, no

Boy Scout Week, February 8-14, To Be Observed

Perhaps not everyone realizes what a great world asset has developed from the Boy Scout movement. The problems that will face the democratic nations in a post-war world will be not merely economic. They will be psychological as well. Whole countries will have to develop new habits of thinking and foster a spirit of cooperation with each other based on mutual tolerance and respect.

Around the world the Scout movement for over three decades has proved to be an effective means of building understanding and good-will among youth. Before the war the world Scout membership numbered more than three million. Over seventy lands had Boy Scouts, all with the same ideals and enjoying practically the same program. Their regularly scheduled world jamborees or camps brought together every four years 25,000 and 50,000 boys from all over the world. The International friendships formed by these boys have spread in every widening circle.

Both Mussolini and Hitler feared the power of Scouting and abolished the Scout organizations in their countries in favor of their own heel-clicking, hate-fostering youth programs. In the invaded countries they have persecuted Scouts with special vindictiveness. But Scouts met in secret and kept in touch with each other through the International Scout Bureau in London. They are reported to take up where they left off as each country is liberated.

Now the Boy Scouts of America in observing their 35th Anniversary takes the theme "Scouts of the World—Brothers Together." The principles engendered by the Boy Scout Program have the chance to be one of the strong links in universal world peace.

SUGAR SELF-DENIAL

College Station — Members of the Montgomery Springs Home Demonstration Club agreed several months ago to apply for sugar with which to prepare Christmas sweets for McCloskey Hospital. After the application had been refused by the district OPA office, the women volunteered to squeeze enough sugar from their own supply to prepare the box, anyway. About 30 pounds of homemade cookies, candy and pecans were sent.

The current membership of the Boy Scouts of America is one million, eight hundred thousand boys and men.

Scouting Helps Insure Peace

"Be Prepared"

BOY SCOUT WEEK

FEBRUARY 8TH-14TH 1945

THE 35TH ANNIVERSARY

OF THE
BOY SCOUTS OF AMERICA

Over 1,800,000 Members

As the United Nations move forward to victory, programs such as Scouting step forward to do their part in insuring the peace. The theme of the 35th anniversary celebration of the Boy Scouts of America from Feb. 8th to 14th is "Scouts of the World—Brothers Together."

Farmers Acquainted With Feed and Food Goals At Recent Meetings

Three hundred and fifty nine Knox county farmers attended the nine educational meetings that were held to acquaint farmers with Knox county food and feed goals for 1945. This series of meetings were much better attended than any that have been held in the past three years, according to R. O. Dunkle, county agent.

Knox county farmers fully realize that the task of agricultural production is not as difficult to solve as those of the 1,200 of the Knox county boys who are now in the armed forces, and who must suffer the hazards of enemy fire, cold weather, and in many cases shortage of food and adequate clothing. All farmers attending the meetings seemed anxious to accept his full responsibility toward full production in spite of the repair parts, materials and not to mention the problem of risks.

Miss Lucile King, county home demonstration agent, appeared as first speaker on the program and stressed the importance of production needs. Miss King mentioned that the most needed products of the farm were more grain, more meat, and more fruit. The production of the farm that were less needed, according to Miss King, is cotton, eggs, sheep and goats. Miss King also distributed grape cuttings to all farmers attending the meeting.

Doyle Thomas, secretary of the County Agricultural Conservation Association explained the farm program for 1945, and mentioned most of the soil improving practices on which payment would be made in 1945. The most popular practice, according to Mr. Thomas, is terracing, contour farming, and deep breaking of sandy land. Before any of these practices can be carried out the producer must have prior approval of the county committee, according to Mr. Thomas.

Mr. Emmett Partridge, chairman of the County Agricultural Conservation Association, discussed the support price program for 1945, which he explained would be very similar to that of 1944. Many questions were asked Mr. Partridge by farmers relative to farm storage which will perhaps be very satisfactory and profitable to the farmers in 1945.

R. O. Dunkle, county agent, discussed the importance of farmers checking their farm machinery for possible repair, part needs and reporting to their implement dealers by April 1, so that material may be allocated for their manufacture.

The county agent also exhibited a rainfall chart, according to records kept by H. P. Hill, of Munday, and discussed planting dates of grain sorghums, according to expected rainfall. It seems from the chart and from Chillicothe Experiment Station records, that the most satisfactory planting dates are from April 15th to May 1st and from June 15th to July 1st. These two planting dates will escape the July and August droughts when the grain sorghums are in a critical stage of development and grain yield will be much more satisfactory. Good seed and rates of planting were also subjects brought up for discussion by the farmers. Varieties of the different grain sorghums were exhibited and discussed as to their respective adaptation to early or late planting.

Mr. Charlie Cape of the Soil Conservation Service, discussed soil moisture and how it could be preserved for plant growth by following a system of suitable mulching. Mr. Cape explained that any tillage practice that would leave crop residue on the surface to shade the ground would lessen evaporation of soil moisture.

Miss Quintna Wiggins, who has been attending school in Denton, is visiting Mr. and Mrs. J. Weldon Smith this week. She leaves soon for Houston to begin technician's training at Jeff Davis Hospital.

Activities of Colored People

Rev. D. B. Medows, pastor of the West Beulah Baptist church, sponsored a rally in behalf of the sea room last Sunday evening. The amount raised was \$20.68.

Services will be conducted each night this week. Preaching will begin Thursday night.

Rev. S. L. Sanders preached on last Sunday night at the Church of God in Christ, Sunday school Sunday morning, with Supt. Mrs. Charity Cherry in charge, was reported good.

The Y. P. W. U. is making progress with Charles Smith as leader and Mrs. Elmo Hendric as teacher. Pvt. Cornia Moore and wife, Rev. S. L. Sanders, Mrs. Octavius Williams and George Hendric of Haskell were guests for dinner in the home of Gus Johnson last Sunday. Jess Gardley and wife made a business trip to Abilene last Friday.

Services will be conducted next week by Pastor Alexander at the Church of God in Christ. Everyone is invited.

Wade Mahan was a business visitor in Seymour last Monday.

It's A Long Way To Luzon Beach Head

Dallas — Texans are accustomed to wide open spaces and great distances. But even Texans must be impressed by the distances the Navy must travel in order to reach and supply the battlefronts in the Pacific. The distance the Navy must travel to transport men and material to the American beachhead on Linkayen Gulf on Luzon, in the Philippines, is so great that if it were possible for sound to cover it, San Francisco could not hear the booming of the warships' guns until more than eight hours after they were fired.

Or put it another way: The distance from San Francisco to Luzon is about nine times across Texas. Or still another way: You could travel by direct line from Seattle, Washington, to Miami, Florida; turn around and make the round trip a second time; then go back to Miami, and you still would not have covered the mileage one of the Navy's ships must cover in delivering a war cargo from San Francisco to the beachhead and returning.

But not all the Navy's ships can leave from San Francisco. Some of them pull out of East Coast ports

EXPENDITURES HIGH

Austin, Texas.—Texans spent more money in 1944 than they did in 1943 in the merchandise field, a report from the University of Texas Bureau of Business Research shows.

In spite of certain wartime shortages, 14.6 per cent more money was spent last year than in the year before, and women's specialty shops showed the largest percentage gain in dollar sales, with 17.1 per cent increase.

Major Paul A. Siple, a former Boy Scout, made three trips to the Antarctic with Rear Admiral Richard E. Byrd.

and have to go through the canal. This almost doubles the distance. There are 6,974 statute miles from San Francisco to the Lingayen Gulf; and 6,957 statute miles from New York to San Francisco by ship.

Mrs. J. E. Edwards, former resident, now living at Rochester, was a business visitor here Tuesday.

Leland Hannah was a business visitor in Lamesa the first of this week.

Mrs. Mauryse Blacklock was a business visitor in Abilene last Monday.

GOODYEAR

ENDS UP MILES AHEAD

All tire manufacturers have access to the same standard synthetic rubber. But Goodyear chemists and production men change it to Goodyear tread rubber . . . so tough that reports of 38,000 miles or over are not unusual. You're miles ahead when you choose bonus mileage Goodyears for your car.

SUPERIOR IN TREAD

These two good-looking, safe, long-lasting treads (All-Weather or Rib) are extra tough, extra resistant to wear . . . designed for safe riding comfort.

SUPERIOR IN BODY

More, tighter-twisted, low-stretch, patented Supertwist cords give the body extra strength . . . resiliency to cushion road shock, minimize wear for many more, safe miles.
