

Federal Crop Insurance May Be Made Available

Applications from at least 50 farms in the country will be required to make Federal Crop Insurance available to Knox county growers, according to Emmett Partridge, chairman of the county AAA committee.

"In the interest of sound program administration," Mr. Partridge said, "Congress has required that crop insurance be limited to those counties in which a minimum participation is obtained."

"I am confident," he added, "that Knox county cotton growers will more than meet this requirement. After all, crop insurance is the only protection available to farmers against the many production risks over which they have no control."

Under the crop insurance program, growers may insure their cotton crops, and cottonseed if desired, up to 75 percent of their average yields, or up to 50 percent if less protection is desired. Applications can be made in the county AAA office, or may be filed with local authorized agents. Application must be made prior to planting the crop, but in no case later than April 25. All cotton producers—whether sharecroppers, tenants or owners may apply for crop insurance on their interest in the crop.

According to Mr. Partridge, the federal insurance program is written on a commodity rather than cash basis. Coverage, premiums and indemnities are all calculated in terms of pounds of cotton. Transaction, however may be simplified by translating the commodity amounts into cash equivalents.

The payment of indemnities on crop losses will vary with the growing season under the new cotton insurance program. For instance, if losses occur after it is too late to reseed to cotton, but prior to the first cultivation, the indemnity will be 40 percent of the maximum coverage. The land, of course, may be put to another use by the farmer. If loss occurs between the first cultivation and the end of harvest, the indemnity will be 75 percent of the maximum coverage. Under this adjustment method, the Corporation deducts for harvesting costs which are not incurred. Protection will be for the full 100 percent of the maximum coverage between harvest and delivery to the gin.

Indemnities are paid by means of certificates, Mr. Partridge said, which may be translated into their cash equivalents, or may be used as collateral for government-sponsored commodity loans.

Pfc. Tuggle Wins The Bronze Star

With the 7th Infantry Division in the Philippines.—Private First Class Elvin O. Tuggle of Munday, Texas, recently was awarded the Bronze Star in connection with this division's combat operations against the Japanese on Leyte Island in the Philippines.

During an attack on Leyte, Pvt. Tuggle heroically exposed himself to intense enemy fire to repair a machine gun that had been disabled by an enemy bullet.

He later distinguished himself when he crawled 75 yards into heavy Jap fire and dragged a wounded comrade to safety.

In addition to this newly won citation, Tuggle also wears the Combat Infantry Badge, the American Defense ribbon, the Asiatic-Pacific ribbon with three battle stars denoting his three combat missions against the enemy in that theater, and the Soldier's Good Conduct ribbon.

He attended school at Munday prior to joining the army in 1942. His father, Mr. Ben B. Tuggle, lives at Route 1, Munday.

Designation Made On County Road

County Judge J. C. Patterson announced last week that he has received official notification that designation has been made by the Texas Highway Commission of a farm-to-market road from Knox City six miles to the crossing of the Brazos river. It will extend to the Brock community later.

At present the road is gravelled and surfaced, but will be caliche and paved in time. Ultimately it will connect Knox City with U. S. highway No. 82, about 18 miles west of Benjamin.

A Brighter Future

A chance to learn the three R's despite a crippled little body, is being given Dolores Ann Ridens, 6, Dallas, and other thousands of Texas' handicapped children, through funds raised by the annual Easter Seal sale of the Texas Society for Crippled Children. Dolores stands behind an Easter Seal poster which appeals for funds to carry on the medical and educational aid made possible by the sale of the seals.

Munday Soldier Is Wounded Near Colmar, Germany

The 55th General Hospital, England.—Private Homer W. Weaver, 35, of Munday, Texas, infantryman wounded during fighting in Colmar, Germany, is now recuperating at this United States Army general hospital in England.

"His condition is showing steady and satisfactory improvement," said his ward surgeon, Captain Clarence Mandelkern of Philadelphia, Pennsylvania.

"We had taken the town and were fighting to hold it," said Pvt. Weaver. "I started out to bring in some German prisoners and was caught in a heavy barrage. Mortar shrapnel hit me in the left elbow and shoulder. Our company aid man came right out and gave me first aid. Later he got me back to an aid station."

Evacuated through the chain of medical installations, he was flown to England. He has received the Purple Heart.

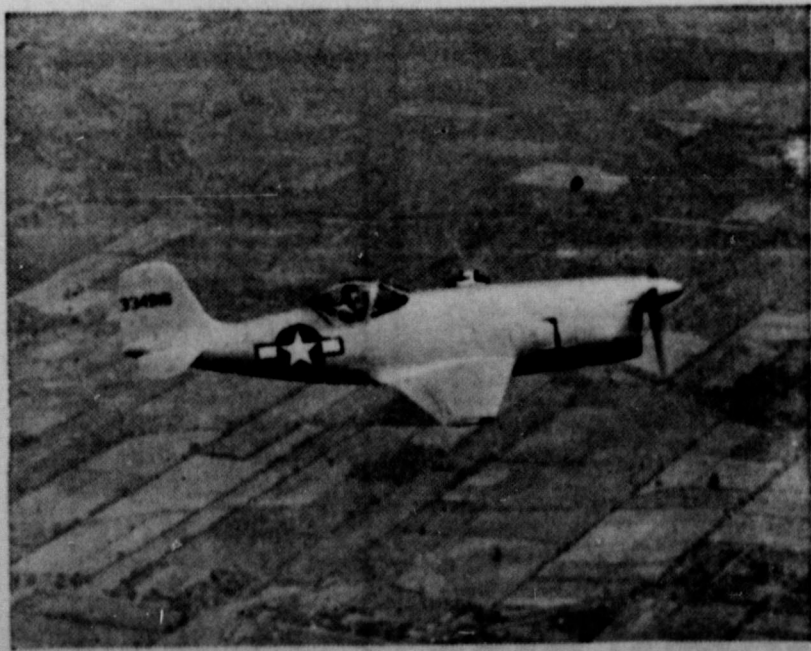

A former rancher, Pvt. Weaver entered the army in March, 1943, and trained at Camp Hood, Texas. His brother, Ivy Weaver, is serving with a military police unit in the United States.

His wife, Mrs. Ruth Weaver, lives in Munday.

MOVE TO AUSTIN

Dr. and Mrs. Hollis B. Douglas and daughter, Bernice, have sold their home in Munday and left last Sunday for Austin to make their home. Dr. Douglas, who operated a dental office here for a number of years, will establish an office in Austin.

All Wood Fighter Design Among Newest Army Products

This flight shot shows the Bell Aircraft designed XP-77, an all wood fighter weighing less than 4000 pounds and capable of high speed, high altitude performance.

The ship is the result of a successful engineering experiment to see whether the trend toward heavier and heavier fighters could be reversed without sacrifice of high performance characteristics. Experiments such as this are expected to facilitate future Army and industry developments of fighter aircraft.

Former Munday Resident Dies At San Angelo

Robert W. Murphy, a former resident of Knox county, and a retired merchant, died in his sleep at his home in San Angelo on Sunday morning, March 11. He was 89 years of age.

Mr. Murphy was born at Tazewell Courthouse, Va., on January 8, 1857. He went to Weatherford in 1887, and it was there he was married to Miss Maud Baker on August 1, 1890. She died at San Angelo October 10, 1943.

Mr. and Mrs. Murphy moved to Munday in 1908. He retired from active business and moved to San Angelo in 1920.

Mr. Murphy operated the first variety store in Munday. It was located in the building now occupied by the Peysen Garage. He also served as secretary of the Munday school board while here.

Surviving children include Mrs. Roberta Parks and E. E. (Pat) Murphy of San Angelo and B. H. Murphy of Austin.

Funeral services were held in San Angelo.

WORKERS CONFERENCE PROGRAM OF HASKELL BAPTIST ASSOCIATION

The Workers Conference Program of the Haskell Baptist Association will be held next Tuesday at The First Baptist Church in Munday. The general theme, "Winning to Christ." Following is the program:

- 10:30—Song Service.
- 10:45—The Religious Sinner—Arlas Williams.
- 11:15—The Wicked Sinner—T. A. Keenan, Knox City.
- 11:45—The Dying Sinner—S. E. Stevenson, Goree.
- 12:15—Lunch.
- 1:30—Board Meeting.
- 2:30—The Repenting Sinner—C. A. Powell, Rule.

Brother Of W. H. Hart Dies At Cisco

S. D. Hart of Cisco, brother of W. H. Hart of Munday, died suddenly at his home last Tuesday evening. He was 63 years old.

The two brothers had been to Lampassas to the bedside of their mother. On returning, W. H. Hart let his brother out of the car near his home and upon reaching Munday he found a telegram telling of his brother's death. He died of a heart attack a few minutes after entering his home.

He is survived by his wife, one son and two daughters.

Funeral services will be held at Cisco at 2:30 Saturday afternoon.

MUNDAY INFANTRYMAN IS PROMOTED IN ITALY

WITH THE FIFTH ARMY, ITALY—Corporal Manfred R. McCarty, son of Mr. and Mrs. W. W. McCarty of Munday, has been promoted to staff sergeant with the 349th "Krautkiller" Infantry Regiment of the Fifth Army in Italy. He is a mess sergeant.

Sgt. McCarty has been overseas for a number of months, and has sent several souvenirs of the battle country home to his relatives.

Double Farm Champ Visits Capitol

Cong. Sam Rayburn, speaker of the House of Representatives, listens with interest to Donald F. Sullivan (right) 19, Potsdam, N.Y., telling how he won two national farm youth championships the past year. Sullivan, in Washington to speak at the 4-H Club Week breakfast, was national 4-H leadership champion and winner of the A & P Food Stores' award of \$500 in the production-marketing contest of the National Junior Vegetable Growers' Association in 1944. Paul Reyer, 16, of Lubbock, was top Texas winner in 1944 vegetable growers' contest and received a sectional award of \$100.

Rev. C. H. Young Dies In Norman

Rev. C. H. Young, 83, father of Rev. S. H. Young of Stamford and district superintendent of the Stamford Methodist district, died on Wednesday, March 14, at the home of another son, M. C. Young of Norman, Okla.

He had been a Methodist minister for 50 years and was well known throughout West Texas. He served pastorates at Moran, Elbert, Hermleigh, Clyde, Pluvanna, Blackwell, and in several Oklahoma churches.

Mrs. Young passed away in 1942. Survivors, in addition to the sons living in Stamford and Norman, are two other sons, C. W. of Eastland and J. M. of Lubbock, and two daughters, Mrs. A. R. Scheer of Minnesota and Mrs. Bob Bolger of Missouri.

Funeral services were held at Eastland at three o'clock last Friday afternoon, conducted by Dr. O. P. Clark, pastor of the First Methodist church in Abilene and long-time friend of the Young family.

Goree School To Present Program

A miscellaneous program will be given in the Goree high school auditorium on Tuesday evening, March 27, at 8:30 o'clock, being presented by members of student body.

Admission will be 35 cents for adults and 15 cents for all school children.

The third and fourth grades will present a western square dance. "The Trolley Song" will be sung by the girls of the eighth grade. The juniors and seniors will present two one-act plays: "Mildred Is My Name," and "Oh! Say Can You Sing."

Keep Chickens Up

Gardening time is here, and many Munday residents have early gardens and flowers coming up.

Several complaints are being made about loose chickens disturbing the gardens and flower beds of neighbors. All people are urged to keep their chickens penned up so they won't be destroying the gardens as they are being started.

UNDERGOES MAJOR OPERATION IN DALLAS

J. A. Warren, well known Munday resident, underwent a major operation at the Baylor Hospital in Dallas last Sunday. He went to Dallas several days earlier for treatment.

His daughter, Mrs. L. W. Hobert and Mrs. Jo Mae Davis, returned home last Sunday after attending his bedside, as reported that his condition was very encouraging.

Gene Floyd F. 2/c returned to his base at New York Thursday after spending a 14-day leave here with his wife and his parents, Mr. and Mrs. G. T. Floyd of the Sunset community and with other relatives.

Club Boys To Again Grow New Grain Sorghum

Fourty three Knox county 4-H club boys for the third successive year are introducing into the county another improved variety of grain sorghum, according to R. O. Dunkle, county agent.

The new variety for 1945 will be that one known as Chinch Bug Resistant Milo (7088), which was developed by the Chillicothe Experiment Station, by Mr. J. R. Quinby, superintendent.

Each club boy wanting the seed will receive it at the next regular club meeting, which will be held at their regular club meeting dates March 19-20-21, in nine different clubs.

This chinch bug resistant milo is a cross between Texas Milo and Hegari, Mr. Quinby explains that the crossing of the two varieties of grain sorghum has increased the yields five bushels per acre and that this chinch bug resistant variety is repulsive to the chinch bugs and with their seven years field tests has never been attacked by the chinch bug and no losses have occurred on account of this troublesome insect.

This variety of milo is not particularly designed for combine harvesting, but Mr. Frank Cerveny, of the Rhineland community, states that he has had good success in harvesting it with a combine. Mr. Quinby, of the Chillicothe Experiment Station, states that an enormous labor cost can be paid with the increased yields of chinch bug resistant milo over that of combine varieties such as Martin, Plainsman and Caprock.

Another interesting feature in the growth of this chinch bug variety is that it is equally well adapted to early and late plantings. But much better stands have been obtained in the early plantings when the seed is treated with cerean dust, which kills all fungus diseases of the soil that will injure seed germination.

4-H Club boys throughout Knox county are selecting planting dates for their new varieties of grain sorghums, beginning April 15th, through May 5th, for early planting and beginning June 15th through July 1st for late planting. The reason for skipping the month of May is on account of the grain sorghum reaching a critical stage of development during the dry period of the last fifteen days in July and the first fifteen days in August.

Masons Hold District Meet At Knox City

The regular quarterly meeting of the Ninety-first District Masonic Association was held with Orient Lodge in Knox City last Tuesday evening. Host lodges were Knox City, Benjamin and Rochester.

The meeting opened with a delicious supper of roast beef and all the trimmings at 7:30. Later the group assembled in the lodge room. After a Master Mason's lodge was opened the meeting was turned over to H. D. Arnold of Goree, president of the association.

The address of welcome was given by S. N. Reed of O'Brien, with response by M. F. Billingsley of Munday. Fred Stockdale of Haskell was the principal speaker, giving an interesting address on the subject, "What Makes You A Mason."

The next meeting will be held at Haskell on the third Tuesday in June, at which time officers for the coming year will be elected.

All lodges in the district were represented except Throckmorton. Knox City led the attendance with 25; Munday was second with 19 present.

Former Munday Girl Gets Purple Heart For Husband

The Purple Heart, awarded posthumously, has been received by Mrs. J. R. Morgan, Jr., the former Miss Evelyn Offutt, for her husband.

Cpl. Morgan was wounded on Leyte island on November 5, 1944, and died November 7. His home was at Red Springs, Texas.

Cpl. Morgan had been overseas for the second time only four months when he was killed. He had spent nine months in the Hawaiian Islands during 1942 and 1943.

Funeral For Joe Blake Held Last Saturday

Joe Blake, well known resident of the Rhineland community, passed away at the family home northwest of Munday last Thursday afternoon. Mr. Blake had been in poor health for several months.

Born at Johnsbury, Ill., on February 12, 1862, Mr. Blake was 83 years, one month and three days of age. He had resided in Knox county for a number of years, where he was engaged in farming.

Mr. Blake was the father of eleven children. Four sons, Peter, Mathias, William and George, preceded him in death. He is survived by his wife and seven children, who are:

Mrs. Elizabeth Stengel, Mrs. Lena Albus and Louis Blake, all of Munday; Anton Blake, Wichita Falls; Mrs. Eva Bichsel, Nazareth, Texas; William Blake, Roseville, Calif., and Gertrude Blake, Bartlesville, Okla., and a brother, Chris Blake of Chicago, Ill.

Funeral services were held from the St. Joseph's Catholic church in Rhineland at nine o'clock last Saturday morning, conducted by Rev. Herman Laux, O. S. B., pastor. Burial was in St. Joseph cemetery by the Mahan Funeral Home.

pallbearers were Charles Stengel, Peter Albus, Fred Redder, Victor Redder, Leo Fetsch and Henry Claus.

11 Registrants Are Reclassified

Only eleven registrants were reclassified by the Knox County Local Board at their regular meeting last Tuesday. They are as follows:

- Class 1-A: Aubrey O. Hediger.
- Class 1-C, Disc.: Fred H. Wiles and Robert L. Moorman.
- Class 2-A (F): Roy Tomlinson, Denny W. Davis Jr., and Jack Hickman.
- Class 2-B: Bobby Roberson.
- Class 2-C: John H. Alexander.
- Class 2-C (F): Frank W. Driver and Raymond Draper.
- Class 3-D: Francis D. Tidwell.

Derald G. Gray With Air Forces At Italy Base

15th AAF in Italy.—S/Sgt. Derald G. Gray, son of Mr. and Mrs. B. D. Gray, Munday, Texas, is an airplane mechanic in Italy with the Fifteenth Air Force Liberator group which has been awarded the Distinguished blue and gold Citation Badge.

Sgt. Gray, who entered the air force in October, 1942, secured his mechanical training in Amarillo, Texas. He joined his present organization in the fall of 1943, coming overseas the following spring.

The group received the citation for its successful attack on the Floridendorf oil refinery and rail yards in Vienna, Austria, last June, when Col. Walter E. Arnold, Jr., El Paso, Texas, was commanding the group.

On the way to the target, the bombers were attacked by rocket-firing fighters, which continued their running battle even after heavy AA fire was bracketing the bombers. Despite flak and fighters, the group dropped its bombs in what has been called the best incendiary bomb pattern ever achieved in the Fifteenth Air Force.

Severe damage was inflicted on the enemy installations and oil production was substantially reduced for months.

The fighters continued their attacks for more than an hour but were unable to down a single bomber. The Liberator gunners destroyed eight enemy aircraft, probably destroyed three more and severely damaged one.

The group, now commanded by Col. John B. Cornett, Waco, Tex., began combat operations with the Fifteen Air Force last spring and has completed more than 130 missions.

HOME ON FURLOUGH

Jot Hynes, seaman second class in the navy, left last week for Dallas to report back to duty after spending a 30-day furlough here with his mother, Mrs. J. O. Hynes, and other relatives. Jot spent 18 months in service in the South Pacific area. His wife, who is making her home in Abilene, also visited here during Jot's furlough.

What Hé Does For His Community Lives On and On."

THE CHURCH SPEAKS FOR FREEDOM

The steady expansion of governmental authority over the individual in this country is alarming spokesmen for American churches. One of them, Dr. Paul Hutchinson of Chicago, for 20 years managing editor of the Christian Century, warns: "We are going to have a more tense situation between the church and the state after the war than before."

"The constantly growing powers of the state have to be challenged by the church in the interests of freedom."

"If we have a period of economic disturbances and uncertainty after the war, in which the state is pledged to supply 60 million jobs, we will discover that the attainment of such a goal will be possible only with the aid of some species of what we call planning."

"We all recognize the dangers of uncontrolled individualistic competition in business. Nevertheless, we have to recognize that planning, when planned by the state, involves the power of the state to control the individual, including the most minute details of his life."

"What many people do not realize is that when government plans run into difficulties, the only way government has to deal with these difficulties is to ask for more power."

"It is this process by which the state seeks to increase its power that eventually brings us to the place where all the power is controlled by the state. Then you have a totalitarian state."

"The churches of Europe woke up to this situation, but not until the totalitarian government was there... I hope in this country we have the foresight to see this danger early and stand for the freedom of the individual."

FREE INDUSTRY DID IT

There are a lot of things the people of the United States have to be proud of, and not the least of these are the industries that stand as a monument to the individual initiative and enterprise of American citizens.

How well the petroleum industry has served our country in meeting military and civilian needs is brought out by a special report submitted January 22, 1945, by a sub-committee of the Committee on Interstate and Foreign Commerce of the House of Representatives. On the subject of oil supply, the report said:

"The industry, our many governmental agencies involved in this program, and the nation as a whole have achieved remarkable results, especially when measured by the difficulties involved. The production of crude oil, the basic supply of its products, though handicapped by a shortage of production materials, of labor supply, overloaded transportation, and without any rise in price comparable to other industries, has reached the greatest volume in history."

"The United Nations entered the war with a very small production of 100-octane fuel. The United States has achieved the almost impossible by stepping up its daily production from 45,000 barrels in December, 1941, to more than 500,000 barrels. Oil, from the standpoint of its inherent value, is one of the cheapest products that money can buy."

"For this magnificent accomplishment, unstinted praise is due to the genius and productive capacity of the American petroleum industry, production and refinement; to all the transportation agencies concerned; to competent military planning, for supplies, for the right kind at the right time, and at the right place."

IN THE AIR

More and more are men in industry and agriculture voicing a fear that the stage is being set for total government domination of basic production activity in the United States.

"The farmer senses it just as he senses changes in the weather. The industrialist senses it, banking on it, the electric industry has definitely felt it, transportation sees it growing in various branches of that industry, and many lines of business are aware of pressure that makes private operation constantly more difficult."

"When bureaucratic demands are finally made that industry cannot comply with, those who would have government become all powerful, will say: 'Private enterprise has failed—government must take over.'"

"No one has more to lose before the onward march of all-powerful government, than the workman. Wherever government dominates, the individual becomes a slave to an official aristocracy. He finally loses his liberty when a 'benevolent' despotism feeds him with a gilded spoon for which he has to pay."

THE MUNDAY TIMES

Published Every Thursday at Munday

J. W. Roberts, Editor, Owner and Publisher
Aaron Edgar, News Editor

Entered at the Postoffice in Munday, Texas, as second class mail matter, under the Act of Congress, March 2, 1879.

In second zone, per year \$2.00

The Munday Times is Democratic, yet supporting only what it believes to be right, and opposing what it believes to be wrong, regardless of party politics, publishing news fairly, impartially.

NOTICE TO THE PUBLIC: Any erroneous reflection upon the character, standing, or reputation of any person, firm or corporation which may appear in the columns of this paper, will be gladly corrected upon due notice being given to the publisher, at the Munday Times office.

THEY SHOULD BE HEARD

Advocates of state controlled medical care like to point to rapidly expanding voluntary prepaid medical programs and infer that the sudden action of medicine to broaden medical service is nothing more than the result of a psychological kick in the pants—threatened government domination.

Perhaps the doctors have moved more rapidly in attempts to perfect various health plans than would have been the case had they not realized that state medicine was a rising threat to present high medical standards. In some cases they have probably moved too rapidly from the standpoint of good medical care. They are frankly fighting against time to save a medical system which they feel has given this country much and will give it still more if given the opportunity.

If it had not been for the unflagging interest of the American medical profession in the cause of scientific progress, there would be no controversy today over the question of how medical care should be administered. There would be nothing to administer! It is precisely because medical men have sought through the centuries for solutions to the mysteries of disease and death, that mankind has in its possession a priceless store of medical knowledge. The doctors apply this knowledge to the benefit of the people as broadly as they know how. Not until a comparatively recent time did the health of the people under progressive scientific advancement reach the point where it was an insurable risk. And now that it has reached that point, those who helped put it there, should have a voice in solving problems of medical care.

WHO'S NEXT?

The stark tragedy that accidental fire can bring is vividly revealed in a brief news report from a small West Coast community. According to the report, four little girls were trapped asleep in an upstairs bedroom while their parents were out. A neighbor saw flames licking the roof of the dwelling and turned in an alarm. The volunteer fire department arrived in two minutes, but the fire had already cut off any chance of rescue.

The account went on to state that, "The fire was caused by a defective flue in the kitchen chimney. The bodies of two girls were found at the head of the stairs, where they had been overcome by smoke and fire; another body was under a bed, and the fourth girl collapsed on the bedroom floor. The body of the family dog was found in another bedroom."

This is typical of the fire tragedies that fire prevention authorities are doing their level best to teach the public how to avoid. In this case, a defective flue, a common hazard that could have been repaired quickly and cheaply, produced the fatal spark, shattering a family and the lives of four children. Tomorrow a defective wire, an oily rag, an overheated stove, a misplaced cigarette or one of countless other simple menaces will reach out to destroy another family, a hundred families. The columns of the press are filled with these "minor" items day after day.

Will your family be next?

"WE GOT POWER—NOT ALIBIS"

"...The end product of the utility industry is service. Your service is not less important but it is less tangible than fabricated materials. For this reason, and this season alone, the magnificent contributions of your industry, for the most part, have gone unheralded. You have served best, perhaps, when the least attention is called to your services—when they are supplied in such an unassuming way that they are taken as a matter of course. We, of the Army Engineers, know of your work at first hand—know it and appreciate it."—Maj. Gen. Eugene Reybold, Chief of U. S. Army Engineers.

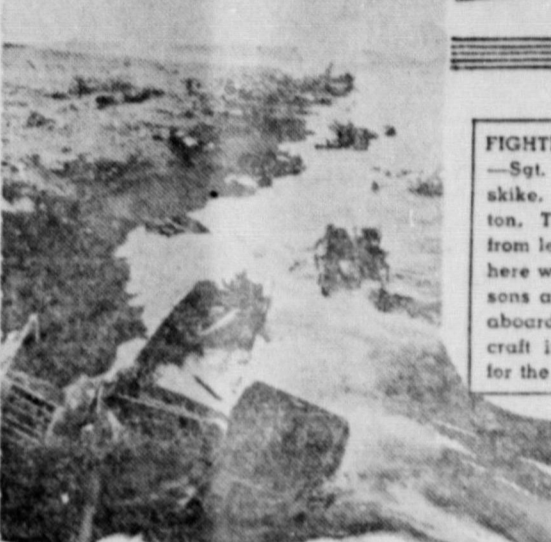

In The WEEK'S NEWS

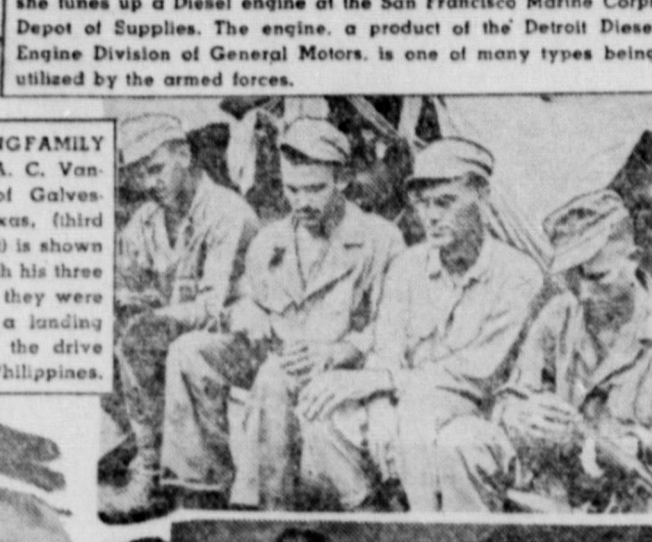

VERY NICE—That's the word for Marie Wilson, young movie star, and for the outfit she is shown modeling.

MARINE MECHANIC—Marine PFC Geraldine Bower gives a reverse twist to the old story that a woman's place is in the home as she tunes up a Diesel engine at the San Francisco Marine Corps Depot of Supplies. The engine, a product of the Detroit Diesel Engine Division of General Motors, is one of many types being utilized by the armed forces.

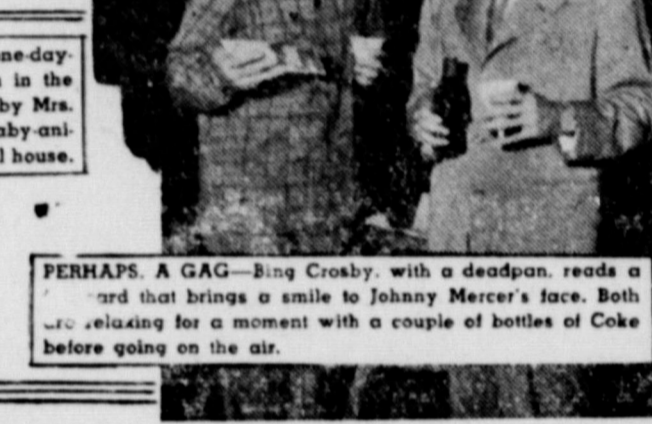

FIGHTING FAMILY—Sgt. A. C. Vanskike, of Galveston, Texas, (third from left) is shown here with his three sons as they were aboard a landing craft in the drive for the Philippines.

WAR'S WRECKAGE—Home front take notice! A part of the two beach, shown after the invasion, illustrates why war production at home must be kept at top speed. This is the toll of battle in equipment losses; let's do our share in keeping new supplies going to the boys.

LEOPARD CUB—This one-day-old Black Leopard, born in the Bronx Zoo, is being fed by Mrs. Fred Martini, famous baby-animal nurse in zoo's animal house.

PERHAPS, A GAG—Bing Crosby, with a deadpan, reads a card that brings a smile to Johnny Mercer's face. Both are relaxing for a moment with a couple of bottles of Coke before going on the air.

Gems Of Thought

THOUGHT
The key to every man is his thought. Sturdy and defying though he look, he has a helm which he obeys, which is the idea after which all his facts are classified.—Emerson.

It is thought, and thought alone, that divides right from wrong; it is thought, and thought only, that elevates or degrades human deeds and desires.—George Moore.

By purifying human thought, this state of mind permeates with increased harmony all the minutiae of human affairs.—Mary Baker Eddy.

If, instead of a gem or even a flower, we could cast the gift of a lovely thought into the heart of a friend, that would be giving as the angels give.—George Macdonald.

At Learning's fountain it is sweet to drink, But 'tis a nobler privilege to think.—John Godfrey Saxe.

As he thinketh in his heart, so is he.—Proverbs 23:7.

I GIVE YOU TEXAS

by BOYCE HOUSE

History, the way most historians tell it, is a story of glory—but it is not all plumed knights and heroism and sacrifice; there is sometimes a sorry and sordid side, too.

Take for example the battle San Jacinto. When Houston and his army were falling back before the hosts of Santa Anna (prior to the battle, of course), the Texans camped on the premises of a well-to-do settler named Donahoe. The men needed wood for camp fires and they began to chop down some trees whereupon Donahoe (with no gratitude for the service that these men were rendering to Texas, including him) complained to Houston.

The General called his soldiers together and said, "Under no circumstances shall you lay an axe to Mr. Donahoe's trees" and that gentleman's breast swelled with joy. Houston continued, "Don't you see that Mr. Donahoe's rail fence will

provide the fuel needed?"

So these men who, in a few days were to offer their blood and their lives for the freedom of Texas and, incidentally to make secure the land title of Mr. Donahoe, proceeded to use the fence rails for fuel.

We have a few individuals of the type and stripe of Donahoe in Texas today—who want the war fought without inconvenience to themselves.

The town oracle would back up every statement with an offer to bet. When he predicted the election of a certain candidate, another citizen expressed disagreement, whereupon the first man said, "I'll bet you a hundred dollars." The other replied, "I'll call you on one condition—that is, if I win, you are to pay the \$100 as, and when I want it." This was agreed to—and Sir Oracle's candidate lost. But when the loser offered to pay off, the other said, "No,—I don't want the money now."

Next day, the know-it-all was holding forth in the postoffice to a group waiting for the mail to be put up when the winner walked in and interrupted, "Bill, I want a dollar." The sum was paid and the bystanders, knowing of the terms of the wager, laughed. A day or so later, Bill was again giving his views to a cluster when the winner broke in, "I want another dollar." This was paid over.

But when the third such occurrence took place, the loser said, "Here's all the rest of that money, you blankety-blank; I'm not going to have you come up to me 97 more times this way."

In This Free Country, You Are The Boss of Your Dollars!

The dollars you earn are yours. You are the boss. It is up to you whether you spend them wisely . . . waste them foolishly . . . save a reasonable number of them.

But remember one thing. The way you handle the dollars you now earn means a lot to your country and your family—both now and in the future.

You can save those extra dollars by investing in War Bonds.

Be Quick To Treat Bronchitis

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes.

Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics.

No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. (Adv.)

Powerful Magnet Removes Pin From Child's Stomach

SCHENECTADY.—Betsy Johnston, 3-year-old daughter of Mr. and Mrs. H. Johnston, Schenectady, N. Y., was frisky as a cat today, showing no effects of a 2-inch bobby pin she accidentally swallowed last Saturday and which four days later was skillfully removed by a 4-foot tube injected down her throat with a special magnet assembly attached to the end.

The unusual operation which saved her from the possibility of serious consequences was performed at Ellis Hospital by Dr. Arthur Q. Penta of Schenectady. It was made possible by the rapid response which General Electric made to his request for a specially fashioned Alnico magnet. Using this magnet, the doctor fished out in 30 seconds the pin, which had remained in the child's abdomen for four days.

According to her parents, Betsy was holding the bobby pin in her mouth, preparatory to inserting it in her hair when it accidentally went down her throat. She was rushed to the hospital, and there a fluoroscopic picture showed it had become lodged in her stomach. When it did not pass on of its own accord, the doctor decided to probe for it through a bronchoscope tube, and called on W. K. Kearsley of the General Electric research laboratory to furnish the special magnet. From the time he inserted the magnet down the bronchoscope tube until the powerful magnet grasped the pin and allowed it to be removed only half a minute had elapsed, the doctor reported.

Commenting on the speed with which the magnet located the bobby pin and permitted it to be fished out, Dr. Penta said that if the object had remained in the child's intestine, it might have punctured the organ's walls and resulted in serious complications. He said that several similar operations have been performed in a like manner recently and declared that this procedure with a magnet opened up a new field for doctors.

Postal receipts in Texas last year were some four million dollars higher than in 1943, according to the University of Texas Bureau of Business Research. Total receipts in 1944 were \$29,948,283, and in 1943, they were \$25,488,774.

TOWN and FARM in WARTIME

Prepared by OFFICE OF WAR INFORMATION

Civilians At War

The Government needs and asks its citizens in this 172nd week of the war to:

1. Retread, recap and repair every worn and usable tire to avoid a serious breakdown of automobile transportation.
2. Join your neighbors now in locating vacant lots for community gardens. Beginning March 26, applications for extra gas for travel necessary to cultivate victory gardens will be accepted by your ration board.
3. Fill one of the 2,100 essential jobs in 50 war plants manufacturing rockets, which are needed in far greater quantities to hasten victory.

Butter Set-Aside Increased For April and May

The War Food Administration has fixed the butter set-aside quota (amount of butter put aside for government purchase) for April at 40 percent of production, and for May at 55 percent of production. Previously, during February and March, the set-aside percentages were 20 and 25 percent respectively. Efforts are being made to maintain butter production and to keep the available civilian supplies flowing into trade channels on a fairly even monthly basis. During April and May quantities of creamery butter for civilians will be about 80,000,000 pounds as compared with an average of about 82,000,000 pounds during February and March.

Housewives Must Get Canning Sugar Allotment From Ration Boards

The Office of Price Administration says there will be enough sugar to preserve as much fruit as was actually "put up" in our homes last year. The same amount of sugar (700,000 tons) has been set aside this year for home canning as was set aside last year. Last year, however, 300,000 tons more sugar than the total amount allocated for home canning was bought by housewives. A large part of this sugar was bought with stamp 40, the home canning stamp, and much of it was used for ordinary household purposes. This year's total sugar supply is smaller than it was in 1944. If any over-issuance of canning sugar were allowed, it would have to come out of the amount allowed for other home use. In 1945 no stamps will be validated for canning sugar. Housewives will be given sugar coupons for home canning by their local boards. Each housewife's home canning sugar allotment will be based on the amount of canning she did last year and the amount she plans to do this year. She will be allowed up to a maximum of 20 pounds per person, or 160 pounds to a single family, even though the family may contain more than eight persons.

Non-Highway Farm Gasoline Increase For Second Quarter Of 1945

The nation's food growers will get extra gasoline for non-highway use during the second quarter of 1945, says PAW. Petroleum Administrator Harold L. Ickes has announced the allocation of 1,276,000 barrels of automotive gasoline a day for U. S. civilian consumption in the second quarter of 1945, comprising the months of April, May and June. Compare with the quantity of gasoline made available to civilians in the corresponding quarter of 1944, the new allocation is 19,000 barrels a day greater, the additional fuel being assigned to the War Food Administration for farm use. Commenting on this,

Feed Everything You Grow

with this complete, balanced diet

The Approach

By GEORGE S. BENSON
President of Harding College
Searcy, Arkansas

PLANNED Economy was advocated in Germany by a small group of theorists as long ago as 1880. The large mass of politically minded Germans considered them harmless cranks and toyed with their ideas abstractly for all of ten years before they saw danger in them. Serious consideration of Planned Economy started among conservative thinkers in Germany only about 50 years ago.

Fifteen or 20 years passed without much outward change. Planned Economy remained in the background. Everybody seemed conscious of it. More and more people admitted believing that parliaments had a right to enact written laws against the workings of competition as they understood them. In fact, every time a German became dissatisfied with conditions he thought about Planned Economy.

A Good FINALLY 1914 came, bringing World War I. Germany quickly went all-out for Planned Economy. It was a shrewd political move. People reasoned feebly that open competition must cost something, and accepted the new order in the name of efficiency; to win the war. All industry went hurriedly under government control, and the dreams of yesterday's unpopular minority became the rule.

Government managers eliminated new and growing industrial plants. Huge monopolies grew larger still. It was the easy way for government because a few big concerns are less trouble to

manage than a large number of small ones. Competitors entered into cartels to hike prices and hide incompetence. They divided markets like pies and traded customers as if they were sheep.

Enter DEFEATED in World War I, burdened with reparations, lame of man-power, Germany took a still bigger dose of government control. By 1935 Hitler was dictating to a race of conservatives who could still remember laughing at the economic planners and saying, "It can't happen here." Planned Economy had given way to National Socialism; in other words, plain dictatorship.

We have Planned Economy in America now, a powerful weapon for rough work such as we are obliged to do, but Planned Economy is still habit-forming medicine. If America is to be prosperous again, this drug must be used sparingly. Rationing is effective if it's necessary, poisonous if it's not. Rationing, in its only safe form, is held to an irreducible minimum — not taken for effect.

America's defenders and her allies must be fed. Also must the people at home understand that their government is still a power that's friendly to them. Returning now to the easy rationing rules of last September and October would yield more support voluntarily than Hitler himself could get with his three-speed machine: (1) Planned Economy, (2) Regimentation, (3) Dictatorship.

Deputy Administrator Davies said: "The quantity of gasoline required for non-highway farm use always rises sharply in the second quarter to provide fuel for spring plowing, cultivating and planting, and we have provided for that increase as usual. This year we were asked for an unusually large quantity, with the explanation that it was hoped to enlarge the productive farm acreage of our country by about 10,000 acres. There has been an increase in the number of tractors added to the nation's farm equipment, and we are informed that plans have been worked out to run all tractors 20 percent more hours per day."

No Restriction on Rotenone Content Of 1945 Insecticides

Rotenone supplies for the current crop year (October 1944 through September 1945) will be approximately the same as for the previous year, WPB says. Shipping facilities for importing the unprocessed rotenone from South America still constitute a problem. However, supplies of rotenone for essential commercial, farm, home and victory garden insecticide requirements are expected to be favorable, according to WPB. There are no restrictions on the permissible rotenone content of insecticides during the current agricultural year, as the result of a policy adopted jointly with the War Food Administration, WPB pointed out. This policy is intended to enable manufacturers to offer finished insecticides having a rotenone content necessary for adequate crop protection.

Rationed Food Allotment For Industrial Users To Be Reduced

With civilian supplies of meats, sugar, butter and canned fruits and vegetables at lowest point since the war began, OPA has announced two actions designed to bring industrial use of rationed foods into line with these small supplies. Industrial users include bakers, manufacturers of other rationed products in which rationed foods are used as ingredients. The two actions are: (1) Beginning April 1, 1945, the allotments of all rationed foods for most industrial users will be reduced; (2) between March 16, 1945 and June 15, 1945, physical inventories of rationed foods and ration buying power in the form of checks, coupons, etc.) in excess of adequate working inventories will be taken up. The action thus announced is the third of three steps planned last December. The first was taken on December 26, when the backlog of old, unneeded ration stamps in consumer hands was taken up and all consumers were put on an equal basis as the year began. The second step came on March 6, when provision was made for taking up the excess

"spending power" of restaurants, hotel dining rooms, and other institutional users.

Invest Farm Profits In War Bonds

By Frank L. Eversull, President North Dakota Agricultural College
The Wartime Farm Program is for more extensive than growing and harvesting crops. It involves a way of life and an expansion program that will meet the needs of a post-victory America and a post-victory world. Those of us who are close to the soil will long remember the magnificent contribution agriculture has made to the winning of the war in spite of limitations of manpower, privations of equipment and overtaxed transportation facilities. American farmers have done the most gigantic task in the face of the most terrific odds in the history of agriculture.

Today the farmer finds himself in possession of money and financial banking, the like of which he has not experienced before. There is certainly a tendency to spend these richly earned gains to buy the equipment and to do the jobs on farm properties that have been indicated during the last ten years. But he is face to face with the problems of shortages, rationing and poor materials.

This is the time when agriculture should plan for the future. No adequate planning can be made which does not include a maximum investment in War Bonds. These securities will furnish the necessary financial undergirding to guarantee adequate equipment and buildings to make farming a genuine way of life in the days which are to come. Saving is the only way to keep debts down, to eliminate inflation, and to be prepared for the needs of a new agriculture when this war shall have been won.

There is no better advice to give and no better words to heed than these—Invest every cent of your surplus money in War Bonds and

Reduced Supply of Fats And Oils For U. S. In 1945.

The total supply of fats and oils in the United States will be substantially reduced in 1945, according to the Bureau of Agricultural Economics. Demand for fats and oils is expected to continue strong in 1945. Military demands at present are heavy, both for the expanded military program and for relief distribution in areas under military jurisdiction. Requests for Lend-Lease and other exports, including exports to liberated countries, continue large. With national income now at the highest level in the nation's history, civilians would consume larger quantities than will be available for civilian use. Prices of most fats and oils probably will remain at ceiling levels through the summer at least. The increasing stringency in supplies of fats and oils is reflected in recent government regulations to aid War Procurement. According to preliminary estimates, domestic disappearance of fats and oil products in 1944 was over 10.3 billion pounds (in terms of fat content), about 400 million pounds more than in 1943. The major factor in this increase was expanded production of soap for the military, with some increase for civilians. Civilian consumption of food fats was reduced about one pound per capita in 1944 from the 1943 level. If exports, including military shipments for relief, continue large in 1945, domestic disappearance of all fats and oils probably will be reduced five to 10 percent because of the smaller total supply of fats available, the Bureau of Agricultural Economics said.

Mr. and Mrs. Leo Guffey and children of Amarillo visited relatives and friends here over the week end.

Mr. and Mrs. Jack Bilderback were business visitors in Wichita Falls last Saturday.

Miss Janice Patterson, who is employed with the Federal Crop Insurance Corp., and recently transferred from Chicago, Ill., to Denver, Colo., is here this week for a visit with her parents, Mr. and Mrs. Patterson.

Mr. and Mrs. Marvin Peek and little son of Paint Rock spent several days here recently with Mrs. Peek's parents, Rev. and Mrs. W. H. Albertson.

Rev. Don R. Davidson attended the funeral of Rev. C. H. Young in Eastland last Friday.

Mrs. W. R. Moore, Mrs. R. L. Ratliff and Misses Helen Jane Ratliff and Charlotte Williams were visitors in Wichita Falls last Saturday.

IT PAYS TO ADVERTISE

My voice has been better than usual lately. Could that new wallpaper from Cameron's have anything to do with it?

LOCALS

W. H. Hart was called to Lampasas last Friday to the bedside of his mother, who is seriously ill.

J. C. Harpham was a business visitor in Dallas the first of this week.

HAS OPERATION

Mrs. Otis Simpson submitted to a major operation at a Wichita Falls hospital last Saturday morning. Latest reports from the hospital are that she is doing as well as can be expected.

Mrs. Mary Lois Zeckser of Abilene spent the week end with her parents, Mr. and Mrs. G. H. Beatty.

Cpl. Chas. P. Baker returned to his post at Camp Blanding, Fla., this week after spending a furlough with his parents, Mr. and Mrs. C. P. Baker, and other relatives. Mr. and Mrs. Baker and son, Kenneth, took him to Dallas Tuesday.

Mrs. George Beatty spent the week end in Mineral Wells with her parents, Mr. and Mrs. J. Baker.

Mrs. D. W. Mitchell and Mrs. Kirby Fitzgerald were business visitors in Abilene last Thursday.

Mr. and Mrs. John Spann spent the week end with Mr. and Mrs. George Spann and Zell Spann in Dallas.

USE
ACIDOX AND GERMOZONE
IN THE
Care of Birds With Coccidiosis
HOW TO USE
Both Acidox and Germozone are easy to use and can be used in any kind of a drinking fountain. Just add one tablespoonful of Acidox to each gallon of drinking water every other day. On days when Acidox is not used, add one tablespoonful of Germozone to each gallon of drinking water. Continue this treatment for two weeks. This gives the birds seven days of treatment with each medicine.

"What a Man Does For Himself Dies With Him—
What He Does For His Community Lives On and On."

THE CHURCH SPEAKS FOR FREEDOM

The steady expansion of governmental authority over the individual in this country is alarming spokesmen for American churches. One of them, Dr. Paul Hutchinson of Chicago, for 20 years managing editor of the Christian Century, warns: "We are going to have a more tense situation between the church and the state after the war than before."

"The constantly growing powers of the state have to be challenged by the church in the interests of freedom."

"If we have a period of economic disturbances and uncertainty after the war, in which the state is pledged to supply 60 million jobs, we will discover that the attainment of such a goal will be possible only with the aid of some species of what we call planning."

"We all recognize the dangers of uncontrolled individualistic competition in business. Nevertheless, we have to recognize that planning, when planned by the state, involves the power of the state to control the individual, including the most minute details of his life."

"What many people do not realize is that when government plans run into difficulties, the only way government has to deal with these difficulties is to ask for more power."

"It is this process by which the state seeks to increase its power that eventually brings us to the place where all the power is controlled by the state. Then you have a totalitarian state."

"The churches of Europe woke up to this situation, but not until the totalitarian government was there. . . I hope in this country we have the foresight to see this danger early and stand for the freedom of the individual."

FREE INDUSTRY DID IT

There are a lot of things the people of the United States have to be proud of, and not the least of these are the industries that stand as a monument to the individual initiative and enterprise of American citizens.

How well the petroleum industry has served our country in meeting military and civilian needs is brought out by a special report submitted January 14, 1945, by a sub-committee of the Committee on Interstate and Foreign Commerce of the House of Representatives. On the subject of oil supply, the report said:

"The industry, our many governmental agencies involved in this program, and the nation as a whole have achieved remarkable results, especially when measured by the difficulties involved. The production of crude oil, the basic supply of its products, though handicapped by a shortage of production materials, of labor supply, overloaded transportation, and without any rise in price comparable to other industries, has reached the greatest volume in history."

"The United Nations entered the war with a very small production of 100-octane fuel. The United States has achieved the almost impossible by stepping up its daily production from 45,000 barrels in December, 1941, to more than 500,000 barrels. Oil, from the standpoint of its inherent value, is one of the cheapest products that money can buy."

"For this magnificent accomplishment, unstinted praise is due to the genius and productive capacity of the American petroleum industry, production and refinement; to all the transportation agencies concerned; to competent military planning, for supplies, for the right kind at the right time, and at the right place."

IN THE AIR

More and more are men in industry and agriculture voicing a fear that the stage is being set for total government domination of basic production activity in the United States.

The farmer senses it just as he senses changes in the weather. The industrialist senses it, banking on it, the electric industry has definitely felt it, transportation sees it growing in various branches of that industry, and many lines of business are aware of pressure that makes private operation constantly more difficult.

When bureaucratic demands are finally made that industry cannot comply with, those who would have government become all powerful, will say: "Private enterprise has failed—government must take over."

No one has more to lose before the onward march of all-powerful government, than the workman. Wherever government dominates, the individual becomes a slave to an official aristocracy. He finally loses his liberty when a "benevolent" despotism feeds him with a gilded spoon for which he has to pay.

THEY SHOULD BE HEARD

Advocates of state controlled medical care like to point to rapidly expanding voluntary prepaid medical programs and infer that the sudden action of medicine to broaden medical service is nothing more than the result of a psychological kick in the pants—threatened government domination.

Perhaps the doctors have moved more rapidly in attempts to perfect various health plans than would have been the case had they not realized that state medicine was a rising threat to present high medical standards. In some cases they have probably moved too rapidly from the standpoint of good medical care. They are frankly fighting against time to save a medical system which they feel has given this country much and will give it still more if given the opportunity.

If it had not been for the unflagging interest of the American medical profession in the cause of scientific progress, there would be no controversy today over the question of how medical care should be administered. There would be nothing to administer! It is precisely because medical men have sought through the centuries for solutions to the mysteries of disease and death, that mankind has in its possession a priceless store of medical knowledge. The doctors apply this knowledge to the benefit of the people as broadly as they know how. Not until a comparatively recent time did the health of the people under progressive scientific advancement reach the point where it was an insurable risk. And now that it has reached that point, those who helped put it there, should have a voice in solving problems of medical care.

WHO'S NEXT?

The stark tragedy that accidental fire can bring is vividly revealed in a brief news report from a small West Coast community. According to the report, four little girls were trapped asleep in an upstairs bedroom while their parents were out. A neighbor saw flames licking the roof of the dwelling and turned in an alarm. The volunteer fire department arrived in two minutes, but the fire had already cut off any chance of rescue.

The account went on to state that, "The fire was caused by a defective flue in the kitchen chimney. The bodies of two girls were found at the head of the stairs, where they had been overcome by smoke and fire; another body was under a bed, and the fourth girl collapsed on the bedroom floor. The body of the family dog was found in another bedroom."

This is typical of the fire tragedies that fire prevention authorities are doing their level best to teach the public how to avoid. In this case, a defective flue, a common hazard that could have been repaired quickly and cheaply, produced the fatal spark, shattering a family and the lives of four children. Tomorrow a defective wire, an oily rag, an overheated stove, a misplaced cigarette or one of countless other simple menaces will reach out to destroy another family, a hundred families. The columns of the press are filled with these "minor" items day after day.

Will your family be next?

"WE GOT POWER—NOT ALIBIS"

"...The end product of the utility industry is service. Your service is not less important but it is less tangible than fabricated materials. For this reason, and this season alone, the magnificent contributions of your industry, for the most part, have gone unheralded. . . You have served best, perhaps, when the least attention is called to your services—when they are supplied in such an unassuming way that they are taken as a matter of course. We, of the Army Engineers, know of your work at first hand—know it and appreciate it. . ."—Maj. Gen. Eugene Reybold, Chief of U. S. Army Engineers.

In The WEEK'S NEWS

VERY NICE—That's the word for Marie Wilson, young movie star, and for the outfit she is shown modeling.

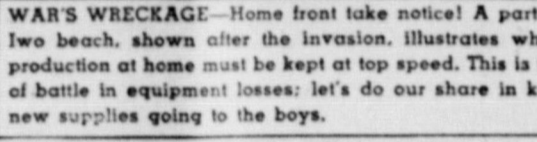

MARINE MECHANIC—Marine PFC Geraldine Bower gives a reverse twist to the old story that a woman's place is in the home as she tunes up a Diesel engine at the San Francisco Marine Corps Depot of Supplies. The engine, a product of the Detroit Diesel Engine Division of General Motors, is one of many types being utilized by the armed forces.

FIGHTING FAMILY—Sgt. A. C. Vanskite, of Galveston, Texas, (third from left) is shown here with his three sons as they were aboard a landing craft in the drive for the Philippines.

PERHAPS, A GAG—Bing Crosby, with a deadpan, reads a card that brings a smile to Johnny Mercer's face. Both are relaxing for a moment with a couple of bottles of Coke before going on the air.

WAR'S WRECKAGE—Home front take notice! A part of the two beach, shown after the invasion, illustrates why war production at home must be kept at top speed. This is the toll of battle in equipment losses; let's do our share in keeping new supplies going to the boys.

LEOPARD CUB—This one-day-old Black Leopard, born in the Bronx Zoo, is being fed by Mrs. Fred Martin, famous baby-animal nurse in zoo's animal house.

Gems Of Thought

THOUGHT

The key to every man is his thought. Sturdy and defying though he look, he has a helm which he obeys, which is the idea after which all his facts are classified.—Emerson.

It is thought, and thought alone, that divides right from wrong; it is thought, and thought only, that elevates or degrades human deeds and desire.—George Moore.

By purifying human thought, this state of mind permeates with increased harmony all the minutiae of human affairs.—Mary Baker Eddy.

If, instead of a gem or even a flower, we could cast the gift of a lovely thought into the heart of a friend, that would be giving as the angels give.—George Macdonald.

At Learning's fountain it is sweet to drink, But 'tis a nobler privilege to think.—John Godfrey Saxe.

As he thinketh in his heart, so is he.—Proverbs 23:7.

I GIVE YOU TEXAS
by BOYCE HOUSE

History, the way most historians tell it, is a story of glory—but it is not all plumed knights and heroism and sacrifice; there is sometimes a sorry and sordid side, too.

Take for example the battle San Jacinto. When Houston and his army were falling back before the hordes of Santa Anna (prior to the battle, of course), the Texans camped on the premises of a well-to-do settler named Donahoe. The men needed wood for camp fires and they began to chop down some trees whereupon Donahoe (with no gratitude for the service that these men were rendering to Texas, including him) complained to Houston.

The General called his soldiers together and said, "Under no circumstances shall you lay an axe to Mr. Donahoe's trees" and that gentleman's breast swelled with joy. Houston continued, "Don't you see that Mr. Donahoe's rail fence will provide the fuel needed?"

So these men who, in a few days were to offer their blood and their lives for the freedom of Texas and, incidentally to make secure the land title of Mr. Donahoe, proceeded to use the fence rails for fuel.

We have a few individuals of the type and stripe of Donahoe in Texas today—who want the war fought without inconvenience to themselves.

The town oracle would back up every statement with an offer to bet. When he predicted the election of a certain candidate, another citizen expressed disagreement, whereupon the first man said, "I'll bet you a hundred dollars." The other replied, "I'll call you on one condition—that is, if I win, you are to pay the \$100 as, and when I want it." This was agreed to—and Sir Oracle's candidate lost. But when the loser offered to pay off, the other said, "No,—I don't want the money now."

Next day, the know-it-all was holding forth in the postoffice to a group waiting for the mail to be put up when the winner walked in and interrupted, "Bill, I want a dollar." The sum was paid and the bystanders, knowing of the terms of the wager, laughed. A day or so later, Bill was again giving his views to a cluster when the winner broke in, "I want another dollar." This was paid over.

But when the third such occurrence took place, the loser said, "Here's all the rest of that money, you blankety-blank; I'm not going to have you come up to me 97 more times this way."

Powerful Magnet Removes Pin From Child's Stomach

SCHENECTADY.—Betsy Johnston, 3-year-old daughter of Mr. and Mrs. H. Johnston, Schenectady, N. Y., was frisky as a colt today, showing no effects of a 2-inch bobby pin she accidentally swallowed last Saturday and which four days later was skillfully removed by a 4-foot tube injected down her throat with a special magnet assembly attached to the end.

The unusual operation which saved her from the possibility of serious consequences was performed at Ellis Hospital by Dr. Arthur Q. Penta of Schenectady. It was made possible by the rapid response which General Electric made to his request for a specially fashioned Alnico magnet. Using this magnet, the doctor fished out in 30 seconds the pin, which had remained in the child's abdomen for four days.

According to her parents, Betsy was holding the bobby pin in her mouth, preparatory to inserting it in her hair when it accidentally went down her throat. She was rushed to the hospital, and there a fluoroscopic picture showed it had become lodged in her stomach. When it did not pass on of its own accord, the doctor decided to probe for it through a bronchoscope tube, and called on W. K. Kearsley of the General Electric research laboratory to furnish the special magnet. From the time he inserted the magnet down the bronchoscope tube until the powerful magnet grasped the pin and allowed it to be removed only half a minute had elapsed, the doctor reported.

Commenting on the speed with which the magnet located the bobby pin and permitted it to be fished out, Dr. Penta said that if the object had remained in the child's intestine, it might have punctured the organ's walls and resulted in serious complications. He said that several similar operations have been performed in a like manner recently and declared that this procedure with a magnet opened up a new field for doctors.

Postal receipts in Texas last year, were some four million dollars higher than in 1943, according to the University of Texas Bureau of Business Research. Total receipts in 1944 were \$29,948,283, and in 1943, they were \$25,488,774.

Once chipped, an enamelware pan is no longer safe to use.

Be Quick To Treat Bronchitis

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes.

Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics.

No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. (Adv.)

In This Free Country, You Are The Boss of Your Dollars!

The dollars you earn are yours. You are the boss. It is up to you whether you spend them wisely . . . waste them foolishly . . . save a reasonable number of them.

But remember one thing. The way you handle the dollars you now earn means a lot to your country and your family—both now and in the future.

You can save those extra dollars by investing in War Bonds.

TOWN and FARM in WARTIME

Prepared by OFFICE OF WAR INFORMATION

Civilians At War

The Government needs and asks its citizens in this 172nd week of the war to:

1. Retread, retap and repair every worn and usable tire to avoid a serious breakdown of automobile transportation.
2. Join your neighbors now in locating vacant lots for community gardens. Beginning March 26, applications for extra gas for travel necessary to cultivate victory gardens will be accepted by your ration board.
3. Fill one of the 2,100 essential jobs in 50 war plants manufacturing rockets, which are needed in far greater quantities to hasten victory.

Butter Set-Aside Increased For April and May

The War Food Administration has fixed the butter set-aside quota (amount of butter put aside for government purchase) for April at 40 percent of production, and for May at 55 percent of production. Previously, during February and March, the set-aside percentages were 20 and 25 percent respectively. Efforts are being made to maintain butter production and to keep the available civilian supplies flowing into trade channels on a fairly even monthly basis. During April and May quantities of creamery butter for civilians will be about 80,000,000 pounds as compared with an average of about 82,000,000 pounds during February and March.

Mr. and Mrs. Rex Howell

The Approach

By GEORGE S. BENSON
President of Harding College
Searcy, Arkansas

PLANNED Economy was advocated in Germany by a small group of theorists as long ago as 1880. The large mass of politically minded Germans considered them harmless cranks and toyed with their ideas abstractly for all of ten years before they saw danger in them. Serious consideration of Planned Economy started among conservative thinkers in Germany only about 50 years ago.

Fifteen or 20 years passed without much outward change. Planned Economy remained in the background. Everybody seemed conscious of it. More and more people admitted believing that parliaments had a right to enact written laws against the workings of competition as they understood them. In fact, every time a German became dissatisfied with conditions he thought about Planned Economy.

A Good FINALLY 1914 came, excuse bringing World War I. Germany quickly went all-out for Planned Economy. It was a shrewd political move. People reasoned feebly that open competition must cost something, and accepted the new order in the name of efficiency; to win the war. All industry went hurriedly under government control, and the dreams of yesterday's unpopular minority became the rule.

Government managers eliminated new and growing industrial plants. Huge monopolies grew larger still. It was the easy way for government because a few big concerns are less trouble to

manage than a large number of small ones. Competitors entered into cartels to hike prices and hide incompetence. They divided markets like pies and traded customers as if they were sheep.

Enter DEFEATED in World War I. burdened with reparations, a lame of man-power, Germany took a still bigger dose of government control. By 1935 Hitler was dictating to a race of conservatives who could still remember laughing at the economic planners and saying, "It can't happen here." Planned Economy had given way to National Socialism; in other words, plain dictatorship.

We have Planned Economy in America now, a powerful weapon for rough work such as we are obliged to do, but Planned Economy is still habit-forming medicine. If America is to be prosperous again, this drug must be used sparingly. Rationing is effective if it's necessary, poisonous if it's not. Rationing, in its only safe form, is held to an irreducible minimum — not taken for effect.

America's defenders and her allies must be fed. Also must the people at home understand that their government is still a power that's friendly to them. Returning now to the easy rationing rules of last September and October would yield more support voluntarily than Hitler himself could get with his three-speed machine: (1) Planned Economy, (2) Regimentation, (3) Dictatorship.

keep them against the day of their maturity.

Reduced Supply of Fats and Oils For U. S. in 1945.

The total supply of fats and oils in the United States will be substantially reduced in 1945, according to the Bureau of Agricultural Economics. Demand for fats and oils is expected to continue strong in 1945. Military demands at present are heavy, both for the expanded military program and for relief distribution in areas under military jurisdiction. Requests for Lend-Lease and other exports, including exports to liberated countries, continue large. With national income now at the highest level in the nation's history, civilians would consume larger quantities than will be available for civilian use. Prices of most fats and oils probably will remain at ceiling levels through the summer at least. The increasing stringency in supplies of fats and oils is reflected in recent government regulations to aid War Procurement. According to preliminary estimates, domestic disappearance of fats and oil products in 1944 was over 10.3 billion pounds (in terms of fat content), about 400 million pounds more than in 1943. The major factor in this increase was expanded production of soap for the military, with some increase for civilians. Civilian consumption of food fats was reduced about one pound per capita in 1944 from the 1943 level. If exports, including military shipments for relief, continue large in 1945, domestic disappearance of all fats and oils probably will be reduced five to 10 per cent because of the smaller total supply of fats available, the Bureau of Agricultural Economics said.

Winston Blacklock was a business visitor in Dallas on Tuesday and Wednesday.

Mr. and Mrs. Leo Guffey and children of Amarillo visited relatives and friends here over the week end.

Mr. and Mrs. Jack Bilderback were business visitors in Wichita Falls last Saturday.

Miss Janice Patterson, who is employed with the Federal Crop Insurance Corp., and recently transferred from Chicago, Ill., to Denver, Colo., is here this week for a visit with her parents, Mr. and Mrs.

Patterson.

Mr. and Mrs. Marvin Peek and little son of Paint Rock spent several days here recently with Mrs. Peek's parents, Rev. and Mrs. W. H. Albertson.

Rev. Don R. Davidson attended the funeral of Rev. C. H. Young in Eastland last Friday.

Mrs. W. R. Moore, Mrs. R. L. Ratliff and Misses Helen Jane Ratliff and Charlotte Williams were visitors in Wichita Falls last Saturday.

IT PAYS TO ADVERTISE

My voice has been better than usual lately. Could that new wallpaper from Cameron's have anything to do with it?

LOCALS

W. H. Hart was called to Lampasas last Friday to the bedside of his mother, who is seriously ill.

J. C. Harpham was a business visitor in Dallas the first of this week.

HAS OPERATION

Mrs. Otis Simpson submitted to a major operation at a Wichita Falls hospital last Saturday morning. Latest reports from the hospital are that she is doing as well as can be expected.

Mrs. Mary Lois Zeckser of Abilene spent the week end with her parents, Mr. and Mrs. G. H. Beatty.

Cpl. Chas. P. Baker returned to his post at Camp Blanding, Fla., this week after spending a furlough with his parents, Mr. and Mrs. C. P. Baker, and other relatives. Mr. and Mrs. Baker and son, Kenneth, took him to Dallas Tuesday.

Mrs. George Beatty spent the week end in Minerals Wells with her parents, Mr. and Mrs. J. Baker.

Mrs. D. W. Mitchell and Mrs. Kirby Fitzgerald were business visitors in Abilene last Thursday.

Mr. and Mrs. John Spann spent the week end with Mr. and Mrs. George Spann and Zell Spann in Dallas.

AT FIRST SIGN OF A

COLD

USE 666

Cold Preparations as directed

Deputy Administrator Davies said: "The quantity of gasoline required for non-highway farm use always rises sharply in the second quarter to provide fuel for spring plowing, cultivating and planting, and we have provided for that increase as usual. This year we were asked for an unusually large quantity, with the explanation that it was hoped to enlarge the productive farm acreage of our country by about 10,000 acres. There has been an increase in the number of tractors added to the nation's farm equipment, and we are informed that plans have been worked out to run all tractors 20 percent more hours per day."

No Restriction on Rotenone Content Of 1945 Insecticides

Rotenone supplies for the current crop year (October 1944 through September 1945) will be approximately the same as for the previous year, WPB says. Shipping facilities for importing the unprocessed rotenone from South America still constitute a problem. However, supplies of rotenone for essential commercial, farm, home and victory garden insecticide requirements are expected to be favorable, according to WPB. There are no restrictions on the permissible rotenone content of insecticides during the current agricultural year, as the result of a policy adopted jointly with the War Food Administration, WPB pointed out. This policy is intended to enable manufacturers to offer finished insecticides having a rotenone content necessary for adequate crop protection.

Rationed Food Allotment For Industrial Users To Be Reduced

With civilian supplies of meats, sugar, butter and canned fruits and vegetables at lowest point since the war began, OPA has announced two actions designed to bring industrial use of rationed foods into line with these small supplies. Industrial users include bakers, manufacturers of other unrationed products in which rationed foods are used as ingredients. The two actions are: (1) Beginning April 1, 1945, the allotments of all rationed foods for most industrial users will be reduced; (2) between March 16, 1945 and June 15, 1945, physical inventories of rationed foods and ration buying power in the form of checks, coupons, etc.) in excess of adequate working inventories will be taken up. The action thus announced is the third of three steps planned last December. The first was taken on December 26, when the backlog of old, unneeded rations stamps in consumer hands was taken up and all consumers were put on an equal basis as the year began. The second step came on March 6, when provision was made for taking up the excess

"spending power" of restaurants, hotel dining rooms, and other institutional users.

Invest Farm Profits In War Bonds

By Frank L. Eversull, President North Dakota Agricultural College

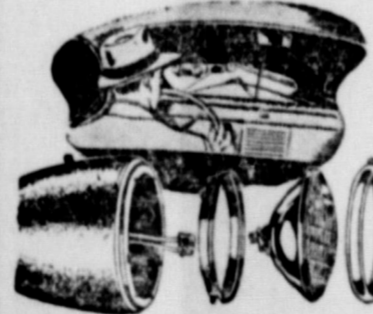

The Wartime Farm Program is for more extensive than growing and harvesting crops. It involves a way of life and an expansion program that will meet the needs of a post-victory America and a post-victory world. Those of us who are close to the soil will long remember the magnificent contribution agriculture has made to the winning of the war in spite of limitations of manpower, privations of equipment and overtaxed transportation facilities. American farmers have done the most gigantic task in the face of the most terrific odds in the history of agriculture.

Today the farmer finds himself in possession of money and financial banking, the like of which he has not experienced before. There is certainly a tendency to spend these richly earned gains to buy the equipment and to do the jobs on farm properties that have been indicated during the last ten years. But he is face to face with the problems of shortages, rationing and poor materials.

This is the time when agricultural should plan for the future. No adequate planning can be made which does not include a maximum investment in War Bonds. These securities will furnish the necessary financial undergirding to guarantee adequate equipment and buildings to make farming a genuine way of life in the days which are to come. Saving is the only way to keep debts down, to eliminate inflation, and to be prepared for the needs of a new agriculture when this war shall have been won.

There is no better advice to give and no better words to heed than these—Invest every cent of your surplus money in War Bonds and

For Your Protection on the Highway!

Valera Ann Albus Honored At Party On Her Birthday

Honor guest for a party last Sunday on the occasion of her seventh birthday was Valera Ann Albus, daughter of Cpl. and Mrs. C. J. Albus.

Games and contests were enjoyed by the young guests, with prizes being awarded to Patricia Ann Homer and Marlene Kuchler. During the late afternoon the three-tiered birthday cake was cut and served with jello and hot chocolate.

Enjoying the party were: Deloras and Anita Kuenler, Elaine Kritz, Shirley and Janice Herring, Annette Duesterhaus, Lillian Decker, Rose Ann Wilde, Patricia Ann Homer, Juanita Decker, Lemelly and Marlene Kuchler, Arleida, Lois Mae and Maynard Moore, Norma Jean, Valera, Mary Janelle, Marilyn and Mary Alice Albus, James Claus, Clarence Decker, Cecil Kuenler, James Albus and Gerard Kuenler.

Mr. and Mrs. E. C. Stapp of Lockney spent the first of this week in Goree, visiting in the home of Mr. and Mrs. E. V. Shackelford. They left Wednesday for Olney for a visit with a son, Clifton Stapp.

Goree Study Club Meets Recently With Miss Goode

Miss Berniece Goode was hostess at a recent meeting of the Goree Woman's Study Club. The president, Mrs. Georgia Maples, presided.

Mrs. S. E. Stevenson was leader of the program, giving a very interesting and instructive program. Mrs. Taylor followed Mrs. Stevenson's review with a stirring account of the history of Yugoslavia. Mrs. H. D. Arnold closed the program with a story of the Balkans.

The home was decorated with the season's flowers, and at the close of the program, a delightful refreshment plate was served to the following members:

Mmes. Trooid, Hampton, Stewart, Taylor, Maples, Coffman, Stevenson and the hostess.

Mrs. W. M. Taylor Hostess At Bridge On March 17th

Shure an' twas a perfect day; the finest in some time, this St. Patrick's Day, March 17, and emerald green shone on shurba and leaves and the sky was O! so blue, when Mrs. W. M. Taylor of Goree was hostess for three tables of bridge.

Guests arriving at 3:00 p.m. were enchanted with the lovely and artistic arrangement of peach and pear blossoms. St. Patrick himself sporting a coat and hatband of green and with a nosegay in his hand, cavorted on score pads and tally cards.

Following a series of games, a delicious salad plate and ice tea were served.

Enjoying the lovely party were: Mmes. C. E. Johnson and L. P. Nolen of Seymour, Leslie McClure of New York City, T. G. Bengue, W. C. Cunningham, C. L. Mayes, W. E. Bradley, Carl Jungman, H. F. Jungman and Miss Maud Isbell, all of Munday; Mrs. Orb Coffman of Goree and Dr. and Mrs. Taylor.

Geo. C. Hammack, Mrs. Frances Lowe Wed In Lubbock

Announcement was made this week of the marriage of George C. Hammack and Mrs. Frances Lowe, both of Munday. The wedding ceremony was performed in the home of Mr. and Mrs. Lattimore Ewing, 2509 25th street, Lubbock, at four o'clock last Sunday afternoon. Rev. Hereford, pastor of the First Baptist church, read the marriage vows.

A reception in the Ewing home followed the ceremony.

Mrs. Hammack has resided in Munday for several months. She is employed at the local Piggly Wiggly store.

Mr. Hammack is well known here, having lived in Munday for a number of years. He recently sold his interest in the Munday Dairy, and has accepted a position at Atkison's Food Store.

The couple will continue to make their home in Munday, where they have purchased a residence.

Family Reunion Held In Honor Of Pfc. S. J. Wallace

Pfc. S. J. Wallace has been home on a convalescent furlough from Wm. Beaumont General Hospital at El Paso.

Pfc. Wallace served 11 months with the medical section of the Air Transport Command at the base in England before he was injured on December 4. While he was home, the A. D. Wallace family held a reunion in his honor.

Those present were: Pfc. Wallace, his wife and two daughters of Seymour; Mr. and Mrs. Homer Rowell and daughter, Happy, Texas; Mrs. S. R. Hudson, Goree; Mr. and Mrs. Lawson Wallace and son, Mr. and Mrs. Louis Wallace and family, Mr. and Mrs. Emmitt Wallace and children, Mr. and Mrs. I. S. Donaldson, Mrs. Elmer Dean and children, Miss Joyce Wallace and Miss Jocita Studer, Seymour; Mrs. Veron Donaldson and children and the host and hostess.

There are two sons and one grandson in overseas service who were unable to attend. They are Pvt. Willmer Wallace, army, serving with the general hospital in France; Lonnie Wallace, navy, in the Pacific, and J. D. Rowell, navy, in the Pacific.

Local Woman Is Elected Officer In Beta Chi Chapter

Mrs. Hazel Weaver of Weinert was elected president of the Beta Chi Chapter of Delta Kappa Gamma at a recent meeting held in Weinert.

Other officers include Mrs. Scott Green of Haskell, first vice president; Mrs. Otis Cash, Knox City, second vice president; Mrs. O. W. Malloy, Haskell, secretary; and Mrs. G. S. Dowell, Munday, treasurer.

Educational trends was the theme of the program. Mrs. E. R. Wilson spoke on Preserving Our National Cultural Values. Establishing New Careers After the War was discussed by Mrs. Rozelle Wilkinson, and Julia Wilham chose Improving Schools for Tomorrow as her subject.

Mrs. O. L. Jamison of Knox City and Mrs. H. H. Cowan of Weinert were initiated into the chapter.

Hostesses included Mrs. Weaver, Mrs. Wilkinson, Julia Williams, Mrs. Fred Monke, Mrs. Lucy Hattox and Mrs. Wilson.

Munday H. D. Club Meets Wednesday At Local School

The Munday Home Demonstration Club ladies met on Wednesday, March 14 in the elementary school building.

The study for the day was Terrell's Law, and this was given by Mrs. Patterson, Mrs. Gollehon and Mrs. Foshee. Plans were also made for a poultry sale, which will be held on Saturday, March 31.

Eleven club members were present at this meeting.

Jackie Mayes of Amarillo spent several days during the week end with relatives and friends here. His grandmother, Mrs. W. M. Mayo, took him to Wichita Falls last Monday on his return to Amarillo.

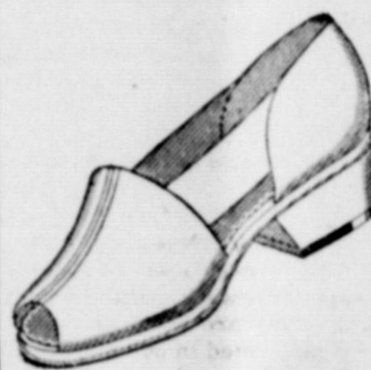

Weather Report

Weather report for the period of March 15 to March 21, inclusive, as recorded and compiled by H. P. Hill, Munday U. S. Cooperative Weather Observer:

	Temperature

WOLFE'S ROSSBERRY—The New Berry Sensation FREE: Write and get Wolfe's new Berry Catalogue in natural color. Contains complete facts, color pictures and prices of the Rosberry. Rose R. Wolfe, Texas Horticulturist who has introduced a number of new fruits and nuts, discovered and introduced this sensational berry that you have been reading about or have heard about over the radio. Rosberry was created by the famous Luther Burbank and has broken all records for production and outstanding merits. It is the greatest berry ever discovered. Grows like a Boysenberry, loaded with giant-size, 2 x 1 inch, wine-colored, delicious berries. Has the combined flavor of Boysenberry and raspberry with some sweet added. Those who have tried it are re-setting their whole patch with Rosberry. Rosberry is really the dream berry—the ideal that we have all wanted for so long. Grows anywhere.

Every year can and should have some Rosberries growing in the back yard. Now is the time to plant, so get your copy of Wolfe's Berry Special. Write today to Wolfe Nursery, Dept. W., Stephenville, Texas and your catalogue will be mailed immediately. Get yours while the supply lasts!

Senior News
Well exams are over and the Seniors are breathing easy again. Most everyone made good grades! The Seniors have started to memorize the second act of their play. We are planning to give one of the best plays this year. We hope everyone will be present when it is presented.

Senior Life
The Acosta family was blessed on November 25, 1926 with a heavenly bundle, which they call Idella.

Idella's first school days were spent in the little school of Myers. Then she went to Welbert until she was a freshman and from there she went to Munday until she finished her sophomore year. After nine years of rambling around she finally landed at Sunset.

Idella was secretary of her class during her Freshman year and is now vice-president of the senior class. She was also in the Junior

play. Idella is well liked by all the members of her class. Some of her favorites are:
Color—Green.
Song—"My Dreams Are Getting Better All The Time."
Sport—Basketball.
Teacher—Mrs. Morgan.
Pastime—Looking for a certain boy from Benjamin.

After her graduation she plans to attend McMurry or A. C. C. We the senior class, wish her a lot of luck whatever she does.

Junior News
Our reporter is absent today, so don't be surprised at anything said in this column this week.

We had a rather short vacation this week end, because we went to school last Saturday. All of us are agreed on one thing, and that is, we don't like school on Saturdays. Those "shot-em-ups" are too good to miss.

Some of the grades were rather poor this past six weeks, yet some could be classed as being "fair ones." We all could do better and do we need to!

We find, after talking to Mrs. Morgan, that our book reports are lacking, also, our poetry lines. Our class wants to have a party soon, but we don't know what kind or when it will be, just so it is a party.

Classes have just about gotten back to normal after a hectic week we have just experienced. However, we juniors are beginning to wonder if our geometry is going to get us anywhere. These "pop-up" quizzes are coming a little too frequently for our comfort.

Maybe next week the reporter will be back, and the news will be more interesting and informative. Here's hoping.

Sophomore News
The Sophomores seem to be pretty happy this week, because the six weeks exams are over. Most of us were disappointed in our algebra grades. There were only three that passed. We hope to have more to pass this six weeks. All of us were proud of our English grades.

Algebra II enjoyed being taught by Mr. McElroy Tuesday.

It's strange but some of the Home Ec. girls have gained weight this last half (couldn't be because of those good cakes, candies, and pies we have been cooking?)

Now that spring is here everyone seems to have the spring fever, there are even rumors of a party or a picnic around. We hope one of these rumors blossoms out into a reality.

Eighth Grade News
We are sorry that Munday could not arrange to play us last week. However, we hope to play them in baseball sometimes soon.

All of us have resolved to study more next six weeks.

We are planning to have a theater party sometimes this week.

Some of us seem to have forgotten our book reports.

Majorie visited her grandmother and grandfather, Mr. and Mrs. W. T. Freeman of Weatherford, Texas.

Mr. and Mrs. J. W. Malone of King county, visited Lorene Sunday.

Mary went shopping in Seymour Saturday.

Edward reported a very enjoyable time, he went swimming!

Donald visited his grandmother.

Mrs. Crouch of Lamesa.

Freshman News
The Freshmen are proud to say that their six weeks exams are over. Some of us made good but we need not say about the others. Everyone is dreading to see their report cards which will be passed out Wednesday.

The Freshmen have started writing the lives of the students of high school.

On July 9, 1931, in Electra, Texas a red headed and brown eyed girl was born. Her first days of school were spent at Odessa, Texas. She came to Sunset in 1942 and is now finishing up her Freshman year.

Some of her favorites are:
Color—Blue.
Subject—Home Ec.
Sport—Volleyball.
Pastime—Reading.
Song—Saturday Night.
Actor—John Wayne.
Actress—Claudette Colbert.
Her name will be given next week.

Seventh Grade News
We all enjoyed writing our Autobiography this week. We had lots of fun reading them today and looking at pictures.

Verdenes uncle from Oklahoma City came to visit her. His name is Howard Poyner.

We elected new flag monitors and they were Royce, and Betty.

Tommy Yost's grandmother Mrs. Beecher spent the day with her Sunday.

Jerry Dicken's cousin, Jimmy Don and Bobby Lee Jordan spent Saturday night and Sunday with him.

We are expecting Munday to pay back our visit in volleyball. If they don't hurry up and come we will think they are afraid of us but, anyway they are good sports we think.

Fifth and Sixth Grade News
Most everyone is very well pleased with our grades this week but are resolving to do better next time.

We are sorry that Imogene Hodges has moved to Knox City. We shall miss you very much Imogene.

J. L. Walker had a birthday yesterday. It would be on a Sunday. He had a large chocolate cake with 12 candles.

Gloria Michel is absent today. She has gone to Wichita Falls to do some Easter shopping.

Our best citizens last week were Ida Acosta and Joyce Smithers.

Third and Fourth News
Mrs. Willard Bauman and sons, Charles and Paul, visited in Elaine's home this week end.

Sunday, Louise's grandparents Mr. and Mrs. Malone from Knox City visited in her home.

Joan and Carolina Bryan spent Sunday with Charles Everett Yost.

Zealda Rae Tucker from Munday visited Patsy Ann Saturday night.

We are glad to have Fannie and Jessie Mora back in school.

Harold went fishing in Wild Horse creek Sunday.

Jessie Acosta has a new baby calf.

Sue went to Seymour with her family Saturday.

Donald visited his uncle at Needmore Sunday.

Charles Parker's grandmother and his aunt from Hefner visited in his home Sunday.

First and Second Grade News
Loyce and Joyce spent Sunday with their cousin, Glenna.

Lester Lee bought himself a new "pop" gun while he was in town Saturday.

Joe Leon spent the week end in Austin visiting his brother who is there in school.

Betty Joan's sister and her family of Anson spent the week end here visiting her parents.

Jerry's mother spent the week end at home with Jerry and her

parents. Loreta spent Sunday in Goree visiting her grandparents.
Ruthie's grandmother who has been rather ill is improving.
Jeanette's sister is ill of pneumonia.

We were sorry to have Nelda move away. We hope she will like to attend Knox City school.

Those on the second grade honor roll are:
Tommy, J. R., Jeanette, Ruth, Dolores, Neli, and Jerry.

Those on the first grade honor roll are: Martha Smith, Sue Voss, Robert Hertel, Jackie Fitzgerald, Howard Jungman, Lester Lee Phillips, Glenn Bruce, Joe Voss, Jerry Don

Watson, and Jo May Newbrough. The Group I, second grade got a new reader last week. Group I, first grade also got a new reader. This group will have completed as many as twenty books by the end of school.

Cadet Nurses Hildegard Kasper and Gwendolyn Groves of the Wichita Falls General Hospital, visited in the home of Mr. and Mrs. Dan Groves and family over the week end.

Mr. and Mrs. Gene Tonn of Haskell spent last Sunday in the home of Mrs. Tonn's parents, Mr. and Mrs. O. W. Lee.

LET BANNER SERVE YOU WITH PURE ICE

We are now making deliveries to the residential section and will be glad to serve you regularly with Banner Ice. Call us when you need ice service.

We will supply you with plenty of ice, with regular deliveries by our truck, or you may call at our plant for your needs.

For Better Ice—Use Banner Ice!

Banner Ice Co.

Munday, Texas

Do You Need A Grain Bin?

You cannot get any steel grain bins but we can get you a sectional, portable, wooden grain bin. These bins are easily erected, tight, and are shipped complete. Grain can be stored where you need it and the bin can be moved at the end of the season. Because of the low cost and large capacity of these bins no priorities or permit to build are required. These bins are from \$225 up and can be purchased up to 2000 bushel capacity. If you need a grain bin let us know at once.

Washington News Letter

By Congressman Ed Gossett

WASHINGTON, D. C., March 16.

Of the many complicated bills now being studied by Congressional Committees one of the most difficult is before the House Committee on Banking and Currency. It proposes American adherence to the Bretton Woods convention setting up an international bank designed to help stabilize international currency.

Testifying before the Committee this week Secretary Morgenthau was questioned by Congressman Jesse Sumner of Illinois. Addressing the Secretary, she began, "You are more of a diplomat than I am." Mr. Morgenthau replied, "I won't agree with that," to which Chairman Spence of Kentucky added, "Mr. Secretary, that proves you are a diplomat."

Figures placed in the Congressional Record this week on national milk production show Wisconsin to lead all states of the union by a large margin, with 14 billion pounds. The second state is Minnesota with over 8 billion pounds. Next leading states in order are New York, Iowa, and Michigan. Texas' 1944 production was nearly four and a half billion pounds.

Washington has proclaimed a recent news photo of raising the flag on Iwo Jima as unquestionably the picture of the year. Senator O'Mahoney of Wyoming proposes to use this picture on a postage stamp. Representative Hendricks of Florida has introduced a resolution to create a Marine memorial in the City of Washington by copying in bronze and stone an exact replica of this photograph. It is an actual picture of four Marines hoisting Old Glory to a flagpole on a pile of two rocks. Most of the many statues in Washington are cold and lifeless, and some are ridiculous in their attempt to depict historical events. The proposed memorial would outrank all statuary in grandeur and exact portrayal of outstanding

heroism. Lieut. General Walter Krueger, who has been recommended for promotion to four-star rank was born in Germany. He is considered one of the ablest officers of the American army and is typical of many fine officers of German blood now serving this country.

On the subject of officers, at last count Texas had 64 generals on active duty. Figures show Texas A. and M. to have more ex-students in the officer personnel of the American Army than West Point.

Within the City of Washington there are 6,667 acres of parks owned and supervised by the National Park Service of the Department of Interior.

A history-conscious friend, discussing the Americans' capture of the Ludendorff bridge at Remagen this week reminded me that the loss of bridges has often played important roles in wars. He contends the failure of Lee's ragged and starving soldiers to destroy a bridge across the Appomattox River in 1865 hastened the fall of the Confederacy. Deaf Smith did a better job at San Jacinto. His destruction of a bridge enabled Houston decisively to defeat the army of Santa Anna. Maybe the Lord was looking after the Americans at Remagen as He did the Israelites of old in the crossing of the Red Sea.

At a luncheon of the Texas delegation this week Senator Tom Connally of Texas, Chairman of the Senate Foreign Relations Committee, gave us an off-the-record report on the just completed Pan-American Conference in Mexico City. An agreement was entered into there which will be known in history as the Act of Chapultepec. In effect, the 20 American republics in attendance simply adopted the Monroe Doctrine as their own.

The incendiary bombs now being used on Japan are vast improvements over the fire bombs heretofore used. They scatter over a wide area a sort of gasoline jelly which burns for a long period of time and is almost impossible to extinguish.

On Thursday Captain Walter Jenkins of Wichita Falls paid me a visit in my office. He is serving with our army in Italy, and had flown across the Atlantic, having left Italy on Wednesday. He has come home for a short leave before returning to his post of duty. Not

People, Spots In The News

INTERLUDE—En route to the Iwo Jima invasion, these battle-tired Marines take time out for a brief swimming party over the side of their invasion transport. "Hey, Skinny—so deep!"

SEAMS EASY—Elaine Kirkwood "stitches up" a tobacco pouch for a G.I. Joe on an electronic sewing machine at B. F. Goodrich. The material is the synthetic, Koroseal, and the electronic action firmly fuses the seams, no thread being used.

quite 18 years ago the world was amazed at Lindbergh's non-stop flight from New York to Paris. It is interesting to speculate what may take place in aviation within the next 18 years.

War Veterans To Find Employment At United States Steel

DAILOS, TEXAS.—Anticipating the future employment of handicapped war veterans, United States Steel Corporation has catalogued thousands of jobs in its subsidiary organizations in order that such disabled men can be placed where they may work safely and productively.

The Corporation survey, it was announced here this week, reveals that even the most severely disabled veterans can qualify for many types of jobs.

Subsidiary companies of U. S. Steel employ approximately 350,000 persons in plants and offices throughout the nation, including Texas and Oklahoma.

According to the announcement many wounded veterans already have returned to the steel pro-

Weekly Health LETTER

Issued by Dr. Geo. W. Cox
M. D., State Health Officer
of Texas

AUSTIN.—A good old fashioned spring house cleaning in every city and community in Texas would do a great deal toward furthering good health in this state, according to Dr. Geo. W. Cox, State Health Officer, who said in Austin today, "From a practical standpoint the old adage that 'Cleanliness is next to Godliness' is still well worth emphasizing."

A general clean-up program of state-wide preparations with the objective of bettering health conditions for our citizenship should include surface cleaning, drainage, the graveling of streets and alleys, the cleaning of all parks and playgrounds and the clearing of weeds and rubbish off of vacant lots.

"The destruction of mosquito breeding places and fire hazards, the proper disposal of garbage and trash and the general cleaning up of all premises will be," said Dr. Cox, "of inestimable value in helping to keep down summer health hazards. Good community housekeeping and ordinary sanitary measures require the prompt removal of all waste matter in and around yards and homes in order to abate the danger of disease."

"Such a clean-up program will also eliminate fire hazards, which in itself may help to avoid property damage or deaths by fire."

duction line, where U. S. Steel mills alone are producing more of the vital war material than all of the enemy countries combined.

CARD OF THANKS

We take this means of expressing our thanks to everyone who were so kind and thoughtful to us in the illness and death of our husband and father, Joe Blake. Your every word and deed of kindness and the beautiful floral offerings were deeply appreciated.

The Blake Family.

Get Ready To Fight Insects

Oil up your spray guns because the time is near to treat vines and fruit trees against damage by worms, bugs and disease.

Two or three applications of spray or dust may mean the difference between a good crop of fruit and one which is almost worthless, says R. O. Dunkle, county agent. The first spray should be applied as soon as most of the blossoms have fallen, especially on plum and peach trees, to control worms. The spray is easy to make. Simply mix a half pound of lead arsenate with sixteen gallons of water and sheet it.

Dunkle says that in applying the spray you should try to get it on all of the young leaves and also to thoroughly coat the whole surface of the tiny peaches and plums. About ten to fourteen days after the first one give the trees a second spraying. This is to prevent early disease damage, decay of the fruit, and as a further control of worms. The second spray mixture consists of one half pound of lead arsenate, two and one half pounds of wettable sulphur, and sixteen gallons of water.

A third and final spraying should be applied three to four weeks before the fruit ripens. Use a sprayer with enough pressure to create a fine mist which will cover the entire surface of the fruit. This will prevent rot spores from getting a foothold on any unsprayed portions of it. The lead arsenate is omitted from the final spray mixture, but the same amount of wettable sulphur and water as in the second spray remain.

While you're among the trees take a last look at the trunk and framework branches for any remaining san jose scale. If any are found, apply a mixture of one pound of dry lime sulphur in three gallons of water with a paint brush to the infested area. Don't neglect this, Dunkle says, because the scale will increase so rapidly that the tree may be killed before fall. In applying the mixture don't let it come into contact with new foliage. The solution will injure it.

AT CAMP WOLTERS

Pvt. Ivy L. Thompson, 26, son of Mr. and Mrs. Ed Thompson of Goree, has arrived at the Camp Wolters infantry replacement training center to begin his basic training as an infantryman. He has been assigned to a battalion stressing rifle training.

Miss Lillian Cerveny, cadet nurse in the John Sealy Hospital at Galveston, spent the week end here with her parents, Mr. and Mrs. Joe Cerveny, and with other relatives.

Major and Mrs. Jimmy Kennedy and daughter of Fort Sill, Okla., spent the week end in the home of Mr. and Mrs. Dorse Rogers. Mrs. Kennedy is Mrs. Rogers' sister.

Mrs. Hal Pendleton and daughter of Dallas spent the week end with relatives here.

Miss Dixie Atkison of Dallas spent the week end with her parents, Mr. and Mrs. R. D. Atkison, and with other relatives.

THE OLD JUDGE SAYS . . .

"When you think of the sacrifices our fighting men are making in this war, it's hard to figure out how we'll ever repay them, isn't it, Judge?"

"Yes, it really is, Tom. There are only certain things we can do. Such as . . . write them cheerful letters often. Send them favorite gifts from time to time. Work harder than ever to provide them with everything they need to finish their job quickly. Buy more and more War Bonds . . . especially during the current drive . . . to

pay for the ammunition and fighting equipment they must have."

"All that still seems kind of small compared with what they're doing for us, Judge."

"True, but it's about all we older folks back home can do, Tom. Except one more thing. And that is to be sure our fighting men come home to the same kind of country they left behind. The kind of country their letters tell us they want. Nothing changed that they don't want changed while they're away and unable to express their wishes."

This advertisement sponsored by Conference of Alcoholic Beverage Industries, Inc.

panied them home for a visit.

Mrs. Roy Sanders and children of Haskell visited in the home of Mrs. Sanders' parents, Mr. and Mrs. H. A. Pendleton, over the week end.

INSTALL FLUES FOR VENTING GAS HEATING EQUIPMENT WHEN REMODELING OR BUILDING

Only when heating is vented are stuffy air and wall sweating eliminated. Since flues are required, heating should be planned as part of house.

LONE STAR GAS COMPANY

Texans in the armed services seem to have worked out their own technique for winning this war. When the boys get tired of seeing too many Germans, they simply go out and capture a double handful.

Pvt. G. B. Terry, Hillsboro, took three at one crack during the winter fighting in Belgium.

Then Pfc. Charles Heinze, Thrall, really hit the jackpot. He wrote his mother, Mrs. Emma Heinze, that he had taken 20 Germans into surrendering, much to his own surprise. The exploit brought Heinze the bronze star for bravery.

Sgt. John F. Pettus, Goliad, with the help of an officer, came within one of doing as well. He and a buddy, both fighting with the 1st (Powder River) division in Italy, were slightly wounded and started for a dressing station with the officer. They saw two Germans sitting in front of a pillbox and started shooting. Other Germans took up the fight from nearby points. Pettus and the officer kept the fight going while the third soldier went back for help. Presently white flags began to appear from all around. When the surrendering was all over Sgt. Pettus and his officer were astounded to find they had captured one officer and 26 enlisted men.

Two Mansfield, Texas, brothers, T. E. and R. C. (Buddy) Baxter, sons of Mr. and Mrs. H. E. Baxter, met for the first time in two years in the European theater of war recently. The older, T. E., is an ambulance driver, his brother a medi-

cal technician. Texas soldiers are winning promotions on the war fronts. Roy F. Humes, Jr., Turnersville, has been made a captain in the air corps after completing 45 combat missions over Europe. Harvey Lee Hahn, who graduated from West high school in 1940, received a battlefield promotion from staff sergeant to second lieutenant in the Philippines. Sgt. Raymond E. Kasper, Rosebud, fighting with the 66th Armored Regiment, was promoted to staff sergeant on the battlefield in Europe.

The gallantry of Texas fighting men the world around continues to draw the recognition of medals and decorations in ever increasing numbers. Just a few from the many:

Silver stars have been received by Lt. Hal G. Bowers, Cleburne, pilot of a fighter-bomber in Europe; Pfc. Melville C. Roberson, Breckenridge, driving an ambulance in Germany; Sgt. G. D. Sudberry, former Winters roller rink stunt man.

Bronze stars have been awarded T/4 Marcus W. Burnam, and T/4 Cecil A. Kerr, Jr., both of Lubbock; Lt. Carlton F. McMillan, Kilgore; S/Sgt. Frank C. McCorkle, Jr., Tyler; Pfc. Roy L. Warren, Plainview; T/5 Bill Kennington, Tuscola.

Lt. Col. Fred D. Beans, Marine Corps, whose home is at Cleburne, has won the navy cross for action on Bougainville Island. Distinguished Flying crosses have gone to Lt. Robert E. Wilson, Jr., Plainview and Maj. Ormond D. Hatcher, German.

And helping to run what is left of battered Cologne is a former Texas school man. Lt. Col. R. L. Hiles, Rosebud, former superintendent of schools at Georgetown, has been appointed deputy governor.

Give now—to the American Red Cross.

GETS PROMOTION

Mr. and Mrs. W. A. Harris have received word that their son, Wayne M. Harris, was recently promoted from machinist's mate to A. M. M. I. 3/c. Wayne is in the naval air force and stationed in Hawaii.

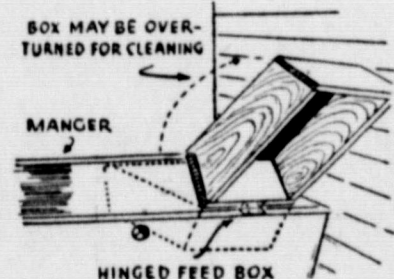

Pvt. Arthur Smith, who is stationed at Sheppard Field, visited his wife and his parents, Dr. and Mrs. A. A. Smith, over the week end.

Mr. and Mrs. Glen Bilbrey of Brownfield spent the week end with relatives here and at Goree.

Manger Feed Box

EVEN such a simple job as cleaning a manger feed box can take a lot of valuable time. Here's a labor-saving tip: attach the feed box in the manger with a hinge, as shown in the drawing below. It is then the work of a few seconds to tip up the box and remove cobs, chaff and hay stems.

Another feeding short cut which will save steps as well as time is a silage cart, which can be made by mounting a box on a pair of low wheels. The box should be sloped at one end to accommodate a scoop.

The silage cart can be pushed under the silo chute for loading, then wheeled along the feed alley in front of the cows. A cart of this kind will cut many miles of walking from the year's work.

E. E. Huckabee of Quitman was a visitor here last week with his aunt, Mrs. George Maples.

Mr. and Mrs. R. B. Coulson and granddaughter of Wichita Falls spent a few days last week in the home of Mrs. Coulson's parents, Mr. and Mrs. F. G. Oliver.

Mr. and Mrs. J. M. Plowman have recently received word from their son, Seaman 1/c Charlie Plowman, who has been serving with the naval forces overseas for more than a year, that he is well and that the boys are anxious to finish this war. Another son, Pfc. Johnnie E. Plowman, and wife of Fort George Meade, Md., were here for a furlough. His wife remained to spend some time with her husband's parents. Pfc. Plowman returned to his

post last week.

Mr. and Mrs. Clarence Knight of Wichita Falls are announcing the birth of a baby daughter, born March 13. The baby has been named Patricia.

Mrs. Rachel Meek of Idabel, Okla., was a visitor here last week with her sister and husband, Mr. and Mrs. E. E. Patrick.

Mrs. Francis Brown and children of San Diego, Calif., are here for a visit with Mrs. Brown's parents, Mr. and Mrs. D. R. Donoho.

Mrs. J. H. Bilbrey, who has been on the sick list for some time, continues to improve.

Mrs. Pauline Blankenship has had word from her husband, Pfc. Louis Blankenship, who is serving with the ambulance corps, that he is well. He is overseas.

Miss Marjorie Arnold was a week end visitor with her parents, Mr. Mrs. H. D. Arnold.

Joe Weber has had recent word from his son, who is serving overseas for more than two years, that he is safe and well.

J. W. Fowler has returned from Phoenix, Ariz., and other points, where he visited relatives for several days.

Mrs. Jack Suggs has recent word from her husband, Seaman Suggs, who is stationed in Hawaii, that he is well. He sends greetings to everyone.

Postal receipts reported to the University of Texas Bureau of Business Research indicate that receipts were larger in January than they were in January a year ago. Total receipts were \$2,758,530, and in January 1944, they were \$2,141,037.

SAFETY GOES HAND IN HAND WITH CONSERVATION

COLLEGE STATION.—Now that spring work is in full swing, folks should do a little refresher work on farm and home safety, judging from reports of safety experts who say accidents increase along with heavier and increased tasks.

Even simple gardening tools offer some hazards, points out Mrs. Bernice Claytor, specialist in home improvement for the A. and M. College Extension Service. Split, rough, or broken handles on turning forks and other tools may result in infections from splinters, although rough places can easily be smoothed with sandpaper. Split, broken, or sharp-edged handles should be replaced, of course.

Here are some other safety pointers on use of ordinary tools:

Carry cutting tools with the blade facing downward.

Never leave a hoe, rake, or fork lying or standing with the head pointing up.

Do not use any substitute for a hammer.

Never leave a scythe or sickle hanging in a tree.

Apply first aid to any cut or scratch, no matter how slight.

Along with these safety suggestions, Mrs. Claytor recommends good care of tools. Rusty spades and the like should be brightened with kerosene and steel wool or emery cloth. Tools should be sharpened and kept that way, but digging tools should not be sharpened to too thin an edge. Dirt should be cleaned off digging tools each time they are used.

Mr. and Mrs. Lavel Bilbrey of Sundown, Texas, spent the week end with relatives here and at Goree. Mrs. Bilbrey's sister, Mrs. McKenzie, accompanied them home for a visit.

Mr. and Mrs. B. M. Haymes and son, Bill, of O'Donnell visited with Mr. Haymes' brother, Lee Haymes and family, and with Mrs. Haymes' mother, Mrs. J. A. Hendrix, and children were visitors in Lubbock over the week end.

Mr. and Mrs. Rex Howell and children were visitors in Lubbock over the week end.

HOME FROM SERVICE

George White, Jr., came in the latter part of last week from San Diego, Calif., where he had been in naval training. He has received a medical discharge.

Mr. and Mrs. H. F. Jungman attended the fat stock show in Fort Worth last Friday.

Mr. and Mrs. Bill Hertel and son, William, Mrs. Carl Jungman and Henry Michels, Jr., attended the fat stock show in Fort Worth last Thursday.

Mrs. Ida Davis of Anson, mother of Mrs. E. W. Harrell, is here for an extended visit in the Harrell home.

REDDYBOX TRADE MARK

FOR BETTER LIVING

We hope it won't be long before the big transports steam into our coastal ports, bringing home our boys from every part of the world. Then the time will come when we can engage in full time peace operations once again. Reddy Kilowatt will then put full steam behind a program for better living for his customers—it will mean that folks will increasingly depend upon him for the function of labor-saving devices and appliances that have con-

tributed, in full measure, to the highest standard of living in the world. This high standard of living has been attained because of your adherence to quality and to service—and so, after victory, this tax-paying and self-supporting company, by hard work and experience and sound business management, will bring new services to add luster to the American way of life.

West Texas Utilities Company

Jean Reeves To Appear In Concert

DENTON—The Texas State College for Women symphony orchestra, only all-girl symphony in the state, will go to Dallas March 24 for its concert to be dedicated to the TSCW exes in the service and brother, sweethearts, and husbands of the 2500 students now in college. A chorus of 55 voices will assist in the program which will be broadcast over WFFA from 4:45 to 5:15 p. m.

Ex-students and friends of the college will be special guests in the station's studio and exes chapters throughout the state have been invited to arrange special meetings for the afternoon.

Miss Jean Reeves, daughter of Mr. and Mrs. J. E. Reeves of Munday, will appear with the college chorus at the concert.

Syrup And Honey Sugar Substitute

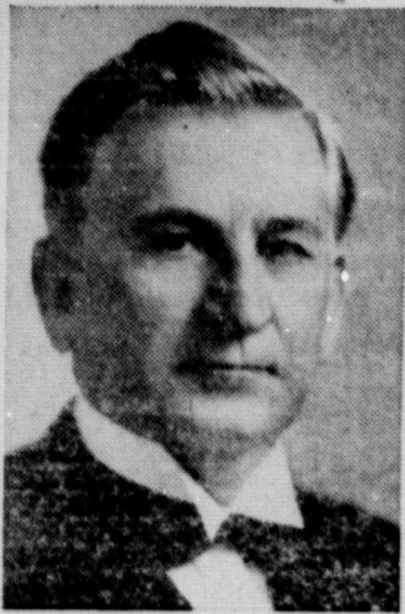

Austin.—"The civilian will have to depend more and more on molasses, honey, maple sugar, and corn syrup for sweetening this year," Dr. Jet Winters, president of the Texas Nutrition Council, with headquarters on the University of Texas campus, reports.

There will be less sugar available, according to reports from the War Food Administration, Dr. Winters said, and the home-maker will have to "juggle" recipes to use half sugar and half syrup sweetener, she suggested.

Sugar savers, she said, are: serve cooked foods hot to enjoy their fullest flavor and sweetness; save syrup from canned fruit to sweeten other fruit, pudding sauces, or beverages; a pinch of salt develops flavor and makes food seem sweeter; be sure all sugar is completely dissolved to get its full sweetness.

Misses Helen and Audrey Phillips are visiting their sister, Mrs. Docia Garnier of San Antonio, this week.

On Baptist Hour

Honorable Pat M. Neff, Governor of Texas and now President of Baylor University, the largest Baptist College in the world, will be the Baptist speaker for next Sunday morning, March 25th, as announced by the Radio Committee of the Southern Baptist Convention, S. F. Lowe, Director, Atlantic, Georgia.

Dr. Neff is serving his second term as President of the Southern Baptist Convention.

That the audience of the 1945 Baptist Hour has been unusually large is evidenced by the fact that the pieces of fan mail received requesting copies of the addresses this year will exceed 50,000 for the current series.

A new new Baptist Hour series which has as its devotional subject, "Looking Unto Jesus," will be broadcast during April, May and June at the same hour on Sunday morning and over most stations now carrying the current series.

Watch your Baptist papers and your local secular press for further announcements concerning the stations.

On May 6th, the Radio Committee will broadcast a Centennial program of the Southern Baptist Convention featuring high points of historic interest throughout the entire country.

Speakers from several different points of special interest will be

BENJAMIN METHODIST CHURCH

J. P. Patterson, Pastor

CALENDAR

Preaching Second and Fourth Sundays at 11:00 a. m. Church school 10:00 a. m. each Sunday.

March 25 Services

We are delighted to announce that Prof. T. E. Holcomb, superintendent of the Knox City school, Knox City, Texas, will deliver an address at our church on our service as Laymen's Day. Our church building is just north across the highway from the Benjamin high school. Said service will be at 11 o'clock, March 25. We consider our laymen fortunate in the selection of Brother Holcomb, and we are grateful to Brother Holcomb for accepting the invitation of the Benjamin Methodist church to be with us on this occasion. Each year our laymen hold a service, and this service is on the time locally selected for the occasion.

Remember to bring your offering for The Crusade for Christ and turn it over to our treasurer to be sent to the proper authorities for the fund.

J. P. Patterson, pastor.

THE METHODIST CHURCH

Don R. Davidson, Pastor

10 a. m. Church School. A class with a welcome for everyone. 11 a. m. Morning Worship. The pastor will bring the message.

6:15 p. m. M. Y. F. Young people will enjoy this fellowship. 7 p. m. Evening Preaching. An informal service you will appreciate.

Wednesday, Choir practice at 7:30 p. m. Bible study at eight o'clock.

FIRST BAPTIST CHURCH

The Workers Conference of the Haskell Baptist Association meets with our church next Tuesday. A good program has been arranged, and is published elsewhere in this paper. We appreciate greatly the publicity our papers over the Association are giving to these meetings. The program begins at 10:30 and the last speaker goes to bat at 2:30. Come Tuesday. Lunch will be served by the women of the church.

A good missionary program is being arranged for next Sunday morning, to be given after the Sunday school hour.

LETTERS FROM THE PEOPLE

BUDDY BUMPAS WRITES FROM IWO JIMA

The following is a letter from Pfc. M. A. (Buddy) Bumpas, to his parents, Mr. and Mrs. M. A. Bumpas: March 5, '45

Suribachi, Iwo Jima

Dear Mom and Dad,

I guess that you have already decided that I was here at Iwo Jima. I should have written sooner, but it just seemed as if I could not get a round to it. I wrote Sue the first chance I got to write; but only had enough stationery for one letter, so I could not write you one also.

I have spent most of my time since the push started on top of Suribachi, the volcano, on an O. P. observation post, where Old Glory stands. It was grand to see it go up.

It gets pretty cold at night, but I have plenty of warm clothes and blankets. I have had all the food, water and sleep that I needed, so please do not continue worrying about me.

I have gotten several letters since we came ashore, all of them from you and Suzie. It is really nice to get mail this far away from all of you. Letters seem to almost take me home again.

I shaved today for the first time, and took a shower in the rain and changed my clothes for the first

picked up during the broadcast, the program opening with a broadcast from the auditorium of the First Baptist Church of Augusta, Ga., where the convention was organized in 1845.

The Baptist Hour programs can be heard at 7:30 a. m. CWT in Texas over Radio Stations, KGNC, Amarillo, KPRC, Houston, and WFAA, Dallas.

time, so I feel like a new man. Happy birthday, Dad.

Love,

Bud.

Mr. and Mrs. Bumpas have received another letter written on March 11. Buddy's wife and son are making their home here with Mrs. Bumpas' parents, Mr. and Mrs. W. R. Mitchell.

Buddy received his communications training at San Diego, Calif., and Camp Pendleton, Calif. He sailed for overseas from Oceanside, Calif., last September. He is now with A Btry. 2nd 155 b. m. Howitzer Bn. on Iwo Jima.

Lieut. Leo E. Jones, who has been stationed at Great Lakes, Ill., has been transferred to Camp Peary, Va., where he is taking advanced training in the navy. He is the son of Mr. and Mrs. E. J. Jones and a brother of Mrs. Sam Hampton of Goree.

Mr. and Mrs. E. V. Shackelford of Goree were in Wichita Falls over the week end, where Mr. Shackelford, who was recently injured in an auto accident, underwent a physical checkup.

Mrs. H. R. Keeney of Plainview visited in the home of Mr. and Mrs. Press Phillips last week.

HOW TO SECURE FACTS ON SOCIAL SECURITY

Wichita Falls, Texas, March 20.—It's much better to get the real facts on your questions concerning social security than it is to rely upon the word of some one not familiar with the law. Social Security Board field officers furnish facts on many problems, such as:

Why is a social security account card necessary? What jobs are covered under the

ATKEISON'S FOOD STORE

Sells Poultry Feed, Stock Feed, and Salt. A large stock at all times.

law? Why benefits may be endangered by a worker having more than one account card? What the account number means to a wage earner? What are survivors' benefits and who gets them? What are retirement benefits and to whom are they paid? How may a wage earner find out about his wage record? How much will "my own" benefits amount to at age 65? How may a wage earner get a correction on his wage statement? These and many more questions will be answered by any Social Security Board field office. All information is free and the manager will be glad to cooperate, said R. L. Surles, manager of the Wichita Falls field office of the Social Security Board, 412 Federal Building.

NOTICE OF FARMERS UNION MEETING

A call meeting of Munday Local No. 1662, Farmers Union of America, will be held on Saturday, March 24, at 2:30 p. m. for the purpose of paying the annual dividends. All members of the Munday local are urged to be present.
