KEEP ON... Backing the Attack! WITH WAR BONDS

VOLUME 40 MUNDAY, KNOX COUNTY, TEXAS, THURSDAY, MAY 3, 1945 NUMBER 44

## Funeral Rites For W. W. McCarty Held Tuesday

### Lengthy Illness Fatal To Local Jeweler

Walter W. McCarty, well known local jeweler, passed away at the family home in Munday at 6:20 a. m. Monday, following an illness of several months.

Mr. McCarty was born in Van Zandt County on January 19, 1886, and was 59 years, 3 months and 11 days of age. He came to Munday in 1925, first operating a barber shop here and later entering the jewelry business.

Surviving him are his wife, Mrs. Ola McCarty of Munday and six children, who are: Stanley McCarty, Munday; Miss Imogene McCarty, Munday; Culver McCarty, Electra; Mrs. G. W. Russell, Denver City; Mann McCarty, who is serving in the U. S. Army in Italy; and Mrs. J. W. Newman of Wichita Falls.

Two brothers, Jerome McCarty of Arizona and E. A. McCarty, Rio Grande City, Texas; a sister, Mrs. Hugh Griffin of Electra, and five grandchildren also survive.

Funeral services were held from the First Methodist Church in Munday at 4:30 p. m. Tuesday, May 1, conducted by Rev. Luther Kirk of Slaton, assisted by Rev. Don Davidson and Rev. W. H. Albertson, both of Munday.

Interment was in the Johnson cemetery by the Mahan Funeral Home.

Pallbearers were Roe Myers, Bryan Cammack, Worth Gafford, Lee Haymes, Austin Caughran, C. J. Reese, Lyle Stodghill and M. F. Billingsley.

## Slash Made In Sugar Rations

A 25 per cent cut in sugar rations was announced Monday night by the Office of War Information, which declared the United States sugar reserves to be at "rock bottom."

The new stamp, number 36, good for five pounds and became valid Tuesday, must last four months instead of three, OWI announced in behalf of OPA and the War Food Administration.

A slash was also made in canning sugar, the maximum available now being only 15 pounds, instead of 20 pounds.

Mr. J. H. Kultgen of Fort Worth district manager of War Price and Rationing Boards, announced this week that because of abnormally low sugar stocks and high military needs, a reduction in the amount of canning sugar became necessary.

"Sugar panels have been advised to make 15 pounds or less the maximum amount to a person, he said, "and 100 pounds the maximum issued to a family, effective at once."

## Ralph Schumacher Goes To Miami Beach

MIAMI BEACH, T/Sgt. Ralph G. Schumacher, 28, of Route 2, Munday, Tex., has arrived at Army Air Forces Redistribution Station No. 2 in Miami Beach for reassignment processing after completing a tour of duty outside the continental United States.

Medical examination and classification interviews at this post pioneer of several redistribution stations operated by the AAF Personnel Distribution Command for AAF returnee officers and enlisted men, will determine his new assignment. He will remain at the redistribution station about two weeks, much of which will be devoted to rest and recreation.

As a B-17 Fortress radio operator-gunner, Technical Sergeant Schumacher flew 35 missions in the European theater of operations, winning the Air Medal with five oak leaf clusters. His wife, Alice, and his parents, Mr. and Mrs. August Schumacher, live on Route 2, Munday, Texas.

## GILLILLAND BOY IS WOUNDED BY JAPS

Pfc. Wayne E. Clark, who is serving with the 96th division, had his left arm broken by a Jap rifle shot. He was wounded on April 1, and is in a general hospital in the Marianas Islands.

Clark is the son of Mr. and Mrs. H. W. Clark of Gilliland.

Mrs. Earl Pruitt visited with relatives in Abilene last Thursday.

## Conference On G. I. Bill of Rights Is Held Wednesday

A conference on the "G. I. Bill of Rights" was held by members of the war veterans planning committees in Benjamin on Wednesday night of this week.

The County Agent and home demonstration agent invited 73 community leaders, which include members of the Victory Council, bankers, preachers, school superintendents and representatives of all governmental agencies.

Many methods for providing aid, re-employment, hospitalization, educational aid and other phases of helping returning veterans were discussed. County Agent R. O. Dunkle explained the objectives of the conference.

Speakers on the program include Jack Idol, Mr. Dunkle, W. R. Moore, T. E. Ballew of the Farm Security Administration, S. H. Southall of the U. S. Employment Service, Clay F. Grove, Miss Lucile King, L. B. Donehoo, C. R. Elliot, W. C. Albright, M. D. McGaughy, Miss Willie Mae Dunham and J. A. Wilson.

## Legion's Service School Slated For Stamford May 11th

Roy Duke, Jones county service officer, American Legion, has announced that a service school will be held in Stamford on the Legion hall beginning at 8:00 Friday morning, May 11.

Sid A. Lowery, department service officer, and J. B. Alcorn, district rehabilitation chairman will be on hand to conduct the school. Anyone interested in the affairs of returning veterans, and especially county and post service officers in Jones and surrounding counties are urged to attend the school. Mr. Duke said filing of veteran's claims is becoming more exacting under new laws of the Veterans Administration, and anyone having anything to do with filing these claims, should avail themselves of the information they will get at this service school.

There will be an open meeting in the evening beginning at 8:00 o'clock to which the public is invited. Speakers, well informed on the rights and benefits of veterans and their families, will be present to discuss these rights and benefits. Fathers, mothers, brothers, sisters, or anyone with relatives in the service, are especially urged to attend this open meeting.

There will be discussion conducted at which time any question concerning individual problems such as insurance, loans, allotments, dependents allowances, education, vocational training and numerous other benefits will be answered.

Mr. Duke and Vernon D. Hart, Post 100, American Legion, host of the service school, are very anxious that everyone interested in veteran's affairs will be present.

## Now In England

A STRATEGIC AIR FORCE STATION, England—Lt. Alphonse M. Kuehler, husband of Mrs. Mary Kuehler of Route 2, Munday, recently arrived in this war theatre of operations and received a brief orientation course at this station designed to help him adjust himself to life in a combat zone.

Lt. Kuehler will soon transfer to his permanent station from which America's fighting planes cover our advance into Germany.

Prior to entering the Army Air Forces, he was employed as an assembler by the Consolidated Aircraft Corp., San Diego, Calif.

## Brazos Valley Softball League Organized; Schedule Begins Soon

At a meeting of representatives of each team, held here last Monday night, the Brazos Valley Softball League was formed, and W. C. Cunningham of Munday was elected president of the league.

Composing the league will be teams from Rhineland, Sunset, Goree, Knox City, Weinert, and Munday.

Each team will play one game a week. Some of the games have been scheduled for Sundays, but arrangements are being made to play the Munday games at night during the week. A new diamond has been prepared, and lights from the football field are to be used in order that many of the games can be played at night.

The schedule has been divided into two parts, which will make up a

## Feeds Hungry Howitzer In Germany

Pfc. John W. Ratliff, son of Mr. and Mrs. Will Ratliff of Goree, a cannoner in a field artillery unit, loads a shell in a 155-millimeter howitzer on the Seventh Army front in Germany.

A graduate of Goree High School in 1941, Ratliff was employed as mechanic at the Ratliff Service Station in Munday before entering the army two years ago. He has been overseas 15 months and wears the Good Conduct ribbon and four battle stars.

## FOY BAIN BARNETT LIBERATED FROM PRISON CAMP IN GERMANY

T/Sgt. Foy Bain Barnett, son of Mr. and Mrs. W. O. Barnett of Goree and grandson of Mr. and Mrs. S. T. Easley of Munday, has written relatives that he was liberated from a German prison camp by Allied forces about April 15.

Barnett was reported missing in action several weeks ago, and this was the first word relatives had heard from him.

## Work Begins On Locker Plant

The lots on which the Munday Frozen Food Locker Plant is to be constructed have been cleared off, and sand and gravel are being hauled onto the site. Work of laying the foundation and beginning construction of the locker building is expected to begin within the next few days.

Tile and cement for the building are expected daily, and J. R. Taylor, manager, expressed the hope that Munday's locker plant will be completed by August 1.

## O. V. MILSTEAD JR. IS HOME FROM WEST INDIES

O. V. Milstead Jr., came in last week from the British West Indies and is spending a 45-day leave here with his parents, Mr. and Mrs. O. V. Milstead, Sr.

Milstead is stationed on the St. Loueisa Island, which is an air base of 250 square miles. He is in the Quartermaster's Corps, and will report back to his station when his leave is up. He says that Munday looks good to him.

## Weather Report

Weather report for the period of April 26th to May 2nd, inclusive, as recorded and compiled by H. P. Hill, Munday U. S. Cooperative Weather Observer:

	Temperature	
	LOW	HIGH
1945 1944	1945 1944	
April 26	42 53	68 86
April 27	50 46	68 70
April 28	55 47	75 77
April 29	49 52	74 73
April 30	52 58	79 79
May 1	62 59	90 71
May 2	57 55	84 84

Rainfall to date this year, 7.76 inches; rainfall to this date last year, 7.46 inches; rainfall since Nov. 1, 1944, 11.83 inches.

## ARRIVES IN ITALY

Mr. and Mrs. Louis Cartwright received a letter from their son, Cpl. Alonzo S. Cartwright, on April 26 stating that he has arrived safely in Italy.

## DEPUTY GROUP COMD.

Mr. and Mrs. Ed Jones of Goree have received a letter from their son, Lt. Col. Paul A. Jones, stating that he is a deputy group commander. Paul is with the U. S. Air Forces in Italy, having returned to the combat zone after spending a furlough here several months ago.

## McCelvey Jones Is Selected For Special Training

McCelvey Jones, son of Mr. and Mrs. John Ed Jones, received a letter this week from the Army Service Forces, Eighth Service Command, Dallas, informing him that he has been selected for army specialized training. A portion of the letter explaining the program follows:

"The Commanding General has directed me to inform you that you have achieved a satisfactory score on the ASTRP qualifying test administered on April 12, 1945. Congratulations; you have earned the opportunity to start college training under the Army Specialized Training Reserve Program.

"This program is a form of military scholarship offered by the War Department to qualify young men. The scholarship includes transportation to a designated college or university, uniforms, tuition, housing, messing, necessary instructional material and such medical care as is normally provided by the institution. The uniform equipment includes the regulation uniform of a soldier with special insignia for the ASTRP—the lamp of knowledge and the sword of valor set forth in blue on a golden background.

McCelvey will enter this training, possibly in June, and satisfactory completion of the first course will likely entitle him to advanced courses.

## Vera Boy Now Doing Sea Duty

Aboard a Light Cruiser in the Pacific—Recently out of recruit training at San Diego, Calif., R. E. Massey, seaman, second class, USNR, son of Mr. and Mrs. E. C. Massey, Vera, Texas, is at sea as a member of the crew of this crack cruiser.

Massey was a freshman at Texas A. and M. College, taking an agricultural course, when he enlisted last November. He plans to finish his college work after the war.

His battle station is powder passer for one of the cruiser's batteries of guns. His new ship had a record of more than 30 engagements in the Pacific when he joined her.

## EIGHT FISH TIP SCALES AT OVER 140 POUNDS

Four local men returned home last week from Possum Kingdom lake with such evidence of their fishing skill that they caused many waters to set out hooks in the lake's waters over the week end. No one returned with such a take, and with evidence to back it up, as did these four.

Earl and Paul Pruitt, Red Thompson and Earl Nichols were the four with "fishermen's luck" that happens only once in a lifetime. They brought home eight fish that weighed over 140 pounds.

Largest of the catch was a 28-pound monster, a channel cat. Three others weighed 20 pounds or over, while the other four were little rascals, weighing from 13 to 18 pounds.

## Keep Up With Rationing

### REMINDERS

MEATS, FATS—Red stamps Y5, Z5, and A2 through D2, expire June 2; Red stamps E2 through J2, expire June 30; Red stamps K2 through P2, expire July 31. Red stamps Q2 through U2 validated May 1, expire August 31.

PROCESSED FOODS—Blue stamps H2 through M2, expire June 2; Blue stamps N2 through S2, expire June 30; Blue stamps T2 through X2, expire July 31. Blue stamps Y2, Z2, A1, B1, C1, validated May 1, expire August 31.

GASOLINE—A-15 coupons good for four gallons.

SUGAR STAMPS—Stamp 35, expires June 2. Stamp 36 validated May 1, expire August 31.

FUEL OIL—Period 1, 2, 3, 4, 5 coupons, good for ten gallons per unit, continue valid throughout the country for the rest of the heating year.

SHOES—Airplane stamps 1, 2, and 3 in book three, good indefinitely.

## Joe Edd Sweatt To See Interesting Things On His Good Neighbor Trip

Joe Edd Sweatt, the 4-H Club boy of Knox county, who has been selected to make the first "Good Neighbor Trip" in to Old Mexico has received notice that he will travel with 23 other boys from Texas, and that Mr. L. L. Johnson, state boys 4-H Club agent, will be adult advisor and guide throughout the whole trip.

All the boys in the delegation have been advised to send in information relative to their shirt sizes and that each shirt will bear the insignia of a large "T," which will stand for the state of Texas, and the boys have also been advised that comfortable clothing, especially shoes, would be worn, for the reason that there will be a lot of walking and that the weather temperature will range from hot to cold. Each boy in the group will also provide himself with two pair of good serviceable khaki trousers and each boy will have a grey hat similar to those worn by Texas cattlemen.

In checking the records we find that twelve of the boys who will be in the group have studied Spanish and that three speak the language. The three boys who speak Spanish will be on the banquet program, which will be held in Mexico City on the night of May 27th.

The itinerary for the 4-H Club boys to Old Mexico is as follows:

May 27—Assemble in Laredo. Hotel Hamilton, night banquet.

May 28—Depart from Laredo early hour; lunch in Monterrey. Night Hotel Sierra Gorda, Victoria.

May 29—Depart morning hour for Zimapan. Lunch in Tamamunchale. Night Hotel Fundicion in Zimapan. Travel through tropical country.

May 30—Leave early for Pachuca. Stop at Great Pyramids of Teotihuacan (one of these is larger than those in Egypt.) Hotel Ontario in Mexico City. Arrive about 2 p. m. Lunch. The afternoon program to be arranged. Travel through beautiful mountainous country part of the day.

May 31—City trip by motor. Visit National Palaces. Banquet at Ontario Hotel.

June 1—Program to be arranged. June 2—Cuernavaca and Texco. Luncheon Hotel Rancho Telva.

June 3—Morning Floating Gardens of Xochimilco. Afternoon bullfight.

June 4—After lunch motor to Zimapan. Hotel Fundicion.

June 5—Night in Valles the Casa Grande Hotel.

June 6—Lunch in Victoria; night Gran Hotel Ancira in Monterrey. See the city.

June 7—After luncheon motor to Laredo. Night Hotel Hamilton.

## Sgt. Geo. Jones Of Goree Given Third Cluster

An Eighth Air Force Bomber Station, England.—Technical Sergeant George D. Jones, Jr., son of Mr. and Mrs. George D. Jones, Sr., Goree, Texas, has been awarded a third Oak Leaf Cluster to his Air Medal for "exceptionally meritorious achievement" while participating in sustained bomber combat operations over enemy occupied continental Europe, it recently was announced by the Commanding General of the Eighth Air Force.

The citation accompanying the award read in part: "The courage, coolness and skill displayed by this enlisted man upon these occasions reflect great credit upon himself and the armed forces of the United States."

Sgt. Jones has flown on some of the Eighth Air Force's roughest missions including Mersburg, Stuttgart, Ludwigshafen and Munster. Other successful bombing assaults credited to Sgt. Jones are those in the Ruhr Valley area where marshalling yards, bridges, and other lines of communication have been knocked out by our heavy bombers in coordination with the advances made by the U. S. ground troops near the battle line.

Before joining the 398th heavy bombardment group commanded by Lt. Col. Lewis P. English, El Paso, Texas, Sgt. Jones received training at Amarillo, Texas, and Las Vegas, Nevada. He was graduated from Goree high school in 1943. He entered the Army in May of the same year.

Mrs. Gene Tonn of Haskell spent last Sunday with her parents, Mr. and Mrs. O. W. Lee.

## Gives His Life

Pfc. Robert Ray Lowe, son of Mr. and Mrs. E. R. Lowe of Haskell, was killed March 30 on Negros Islands, in the Philippines. He has been in the service since November 1943 and overseas since April, 1944. A twin brother, Cpl. John Dray Lowe, has been in the Southwest Pacific two years. The two had visited each other in recent weeks.

## Mrs. W. C. Elliott, County Pioneer Passes Away

Mrs. W. C. Elliott, 68, pioneer of Knox County, passed away at 3:15 Thursday morning at the Knox County hospital. She had been ill for some time.

Mrs. Elliott was born in Lee County, Miss., on July 20, 1876. She was married to W. C. Elliott on January 25, 1891. They came to Texas a year later, moving to Wood County, later moving to Knox County. They are former residents of Munday, but had been living at Knox City for the past several years.

Mr. and Mrs. Elliott observed their golden wedding anniversary in 1941, when a family reunion was held and a host of friends called. Mrs. Elliott was active in church and social affairs until ill health forced her to stop.

Mother of 13 children, Mrs. Elliott is survived by her husband and ten of her children. They are: Mrs. Allie Wright, Hale Center; Mrs. Leano Proctor, Long Beach, Calif.; Miss Clifford Elliot, Knox City; Mrs. Statha Harris, Pampa; Miss Blanche Elliot, Knox City; John Elliot, Childress; Chester Elliot, Lubbock; Mrs. Melvin Strickland, Munday; Mrs. Wilma Horton, Wichita Falls and Howard Elliot, of Milesheo.

Funeral services were held from the Methodist Church in Knox City at four o'clock Friday afternoon, conducted by Rev. Lloyd Hamilton, pastor.

## BIRTH ANNOUNCEMENT

Mr. and Mrs. Clinton C. Allen of Amarillo are announcing the arrival of a daughter, who was born on Friday, April 27, at Amarillo. Mother and daughter are reported doing fine. Maternal grandmother is Mrs. Nell Hardin of Munday.

Mrs. M. L. Joyce was a visitor in Abilene over the week end.

## WAR BONDS in Action

Official U. S. Navy Photo. Fake attack. Lt. L. E. Newcomer, USNR, saw Jap planes drop dummy parachutes on Luzon to confuse U. S. invaders. War Bonds helped supply the parachute equipment he wears. U. S. Treasury Department

"What a Man Does For Himself Dies With Him—  
What He Does For His Community Lives On and On."

## "THE MAN WHO IS TWELVE YEARS OLD"

"The Man Who is Twelve Years Old," a poem by Maurice Smiley, has become a symbol of the prayers and hopes with which countless Americans, and people of all nations, are following the International Conference at San Francisco.

Mr. Smiley's verses, saluting youth, have been given nation-wide prominence as the result of a campaign undertaken by one of our country's leading business concerns, to help center public attention on the Conference.

Without mentioning their own business in any way, except for a sponsorship signature, the General Cable Corporation has run the Smiley poem in newspapers from coast to coast. An inspiring illustration of a twelve year old boy is used as a background for the poem.

Because of this broad publicity in more than a thousand newspapers, delegates to the Conference as well as the general public undoubtedly will have a clearer vision of the fundamental importance to future generations of the deliberations which are taking place to-day.

Mr. Smiley's poem, which has found a place in the hearts of countless thousands, is given below:

"There's a man that I know, and he lives near you,  
In a town called Everywhere;  
You might not think he's a man from his hat  
Or the clothes he may chance to wear;  
But under the jacket with many a patch  
Is a heart more precious than gold—  
The heart of a man 'neath the coat of a boy,  
A man who is twelve years old.

We never may know what the future will make  
Of the boys that we carelessly meet,  
For many a statesman is now at school,  
And Presidents play in the street.  
The hand that is busy with playthings now  
The reins of power will hold;  
So I take off my hat and gladly salute  
This man who is twelve years old."

## INTOLERANCE IN SHEEP'S CLOTHING

Never in the history of this nation have members of the medical profession and the sciences had to spend so much time discussing matters of political significance. Some look upon the distraction of these men from their work as a sign of progress, of social consciousness, although in the past when scientific studies have been diluted with political controversy, it has always been considered a blight. Why is it so different now?

History books record the barbaric dogmas and autocratic oppression that hampered the great men of science in ages past. We all realize that mankind would be far ahead of where it is today if intolerance had not interfered with the free pursuit of scientific research. For over a century, science in this country has worked in uninterrupted freedom. Medical men in the United States, up to now, have never had to give a thought to political questions. Their efforts centered one-hundred-per-cent on the technical business of making people healthy. They have felt secure in their freedom, under our form of government—so secure that they are stunned when they realize the picture has changed and that government is no longer a protection, but a menace.

Proposals to make government the master of medicines in a blind grab for a medical Utopia, are simply a new form of intolerance. The age-old struggle of science against ignorance and abuse is raging again—and we call it "social" progress!

## WHAT KIND OF FREEDOM?

The president of the American Federation of Labor, in objecting to the Russian proposal that German labor be forced to rebuild damaged cities in war-torn Europe, says: "Hitler and those responsible for the war must be punished, but the people throughout the world, including labor everywhere, must be made free and must be guaranteed the right to enjoy the blessings and the benefits of freedom, liberty and democracy."

Without arguing the merits or demerits of the Russian proposal, the remarks about guaranteeing the freedom of labor will be taken with several grains of salt.

In the United States, a man cannot work at the basic trades without first joining specified labor organizations, whether or not he wishes to, and paying initiation fees and assessments. Just try to work without "joining" if you doubt this.

Is this the kind of labor "freedom, liberty and democracy" the world is to have?

Why kid ourselves about freedom in the United States when an individual must pay for the right to work, even on a government war job!

## THE MUNDAY TIMES

Published Every Thursday at Munday

J. W. Roberts . . . . . Editor, Owner and Publisher  
Aaron Edgar . . . . . News Editor  
Entered at the Postoffice in Munday, Texas, as second class mail matter, under the Act of Congress, March 2, 1879.

**SUBSCRIPTION RATES**  
In first class, per year \$1.50  
In second class, per year \$2.00

## BOSSY FEEDS THE NATIONS

Convincing evidence of world-wide improvements in food selection is found in the War Food Administration purchases during the present emergency. Never before have milk and its products played so important a part in the nutrition and rehabilitation of afflicted peoples.

During 1944, this war agency purchased foods for lend lease, territorial emergency, and for use by the Red Cross and similar humanitarian organizations to the extent of a little over one billion, five hundred and fifty million dollars. Of this more than two hundred and forty million dollars were spent for dairy products. In other words, nearly sixteen per cent of all such food expenditure were for the products of America's dairy industry. This compares with two per cent of dairy products in such feeding programs during and after the first World War, according to the United States Department of Agriculture.

Most of the sacrifices which Americans are making through curtailed supplies of butter, cheese, ice cream and milk are going to the fighting forces, states the National Dairy Council. However, another important reason for the scarcity of these vital foods is due to the recognition on the part of the Red Cross and other agencies, of the need for proper nutrition in recovered areas where serious malnutrition exists.

## A MINE AT EVERY MILE POST

The discovery of Germany's gold reserve in an abandoned German salt mine was front page news in this country. Stories of the fabulous treasure read like pirate tales of old. Doughboys and generals gasped at the sight of the glittering metal—tons of it. Each ton was estimated to be worth \$1,000,000. And, according to reports, there were approximately 100 tons of the precious metal sealed behind a massive wall in the mineshaft—a hundred million dollars. Here was tangible money wealth that could be touched and understood.

It has been many years since the so-called common people have possessed gold. Governments have gone to great trouble to build up the myth that gold is of no value. They have gone to equally great trouble to see that none of this "worthless" metal remains in the hands of the people.

At any rate a few American soldiers have seen real gold. They know what a hundred million dollars looks like. They don't have to be mathematicians to put two and two together and get a comprehensible picture of the Federal debt of the United States. They can see that it would take some 3,000 German salt mines each stocked with a hundred million dollars worth of gold to pay off the Federal debt, or, stated another way, a mine at every milepost from Los Angeles to New York.

And still the spenders of public money plan to pour out more and more borrowed billions after the end of the war. Economy in government, like gold, has become a legend.

## A SURE TEST

Of one thing we can be certain, in spite of the accusations flying back and forth between government officials and food producers—the producers, being in the last analysis mostly independent farmers, will produce as long as there is a shadow of possible profit. When profits cease to exist, they must cease to operate because they do not have the capital to produce merely out of patriotism. Thus, as time goes on and specific items disappear from the market, you may be pretty certain that costs prohibit production. Once the immediate pressure of government purchases is relieved, this will be a sure test.

"Where is the head bookkeeper?" "Gone to the race, boss." "What? In the middle of our annual audit?" "Yes, sir. It was our only chance to balance the books."

## Red Cross Clubmobilers' Coffee, Doughnuts Reach All War Theatres

IT'S A RUGGED LIFE these Red Cross Clubmobile Girls lead. Left: A camouflaged woodland is their "home," where they must wash clothes and selves as well as prepare for the next day's clubmobiling. Below: The clubmobile girls come up smiling, though, and here one of them serves hot coffee and doughnuts to an anti-aircraft gun crew which is too busy to leave its post.

THE Red Cross clubmobile probably will come out of this war as a legend, just as the "Rose of No-Man's Land" came out of the last. Comedy, tragedy, and plain hard work are day-to-day routine to the clubmobile girls who slog through mud, coax their trucks up hills and stand under the burning sun to dish up American doughnuts and coffee to crowds of fighting men.

The now-famed clubmobile was "born" in the fall of 1942, when the first mobile combination club and coffee-and-doughnut dispenser took to the road. Today, Red Cross clubmobile units serve American forces in every theatre of war.

Trained Red Cross girls—and when the fighting's close, a male supervisor—staff the clubmobiles, and the lumbering dough-carts are a welcome sight to ever-hungry GIs. Many of the vans carry phonographs and records, candy, gum and cigarettes, as well.

Clubmobile girls were a familiar sight in England long before D-day.

Soon after invasion, a clubmobile unit landed in France and within 24 hours was making doughnuts and brewing coffee for a famous infantry division. When it became "too hot" at the front, the crew set up roadside canteens in rear areas until recalled up the line.

At Roetgen, first town in Germany taken by American forces, five American Red Cross girls set up a doughnut-and-coffee curb service until, three days after the town fell, an army-drab coated clubmobile, "Bearcat", took over the job in the railroad village. The "Bearcat" was part of a contingent of clubmobiles attached to Lt. Gen. Courtney Hodges' First Army.

On the homeward trek after the first visit to Roetgen, the huge clubmobile was stopped short by an attacking enemy plane. The girls grabbed their helmets and made a dash for the ditches only a few feet away. Thirty miles back into Belgium, at their headquarters which were mighty still in comparison to

the front lines, the girls laid plans for their second visit to our troops in Germany.

Clubmobile "dockettes" have a different sort of job. They work under port security, and only the clubmobile captain knows the number of men to be served in advance. Technically, the dockettes are known as clubmobile-rangers. The "ranger" part includes all the dock operations—from moving pushmobiles loaded with doughnuts to washing out 400-cup coffee urns.

As Merrill's Burma Marauders began their long night marches to the jungle front, they were met on the Ledo Road by Red Cross workers. Clubmobile service is a standard fixture on the Road. To men in outlying units, daily visits by the clubmobile bring refreshments, friendly talk and recorded "jive."

The gallant clubmobilers, even when GI boots and raincoats take them out of the Powers-model class, have become real-life pin-up girls for our men overseas.

## Gems Of Thought

### FLOWERS

Flowers are God's thoughts of beauty taking form to gladden mortal gaze.—Wilberforce.

By cultivating the beautiful we scatter the seeds of heavenly flowers, as by doing good we cultivate those that belong to humanity.—Howard.

Flowers are love's truest language.—Park Benjamin.

"Tis writ on earth, on leaf and flower: Love hath one race, one realm, one power.—Mary Baker Eddy

There is not the least flower but seems to hold up its head and to look pleasantly, in the secret sense of the goodness of its heavenly Maker.—South

Every rose is an autograph from the hand of God on His world about us. He has inscribed His thoughts in these marvellous hieroglyphics which sense and science, have, these many thousands years, been seeking to understand.—Theodore Parker.

The Alcazar is a place in Seville built by the Moorish kings.

## Texas Legislative Sidelights

By Senator "Cotton" George Moffett

The end of a busy session is in sight. More important bills and resolutions have been introduced at this session than at any other for fifteen years. Over seventy-five constitutional amendments have been proposed. Perhaps eight or ten may finally be submitted to the people for their approval or disapproval at an election to be held in late August of this year.

It is now fairly certain that no new taxes will be levied at this session. Some changes probably will be made in present taxes. A recent decision of the United States Supreme Court has made it necessary that this state levy taxes at the same rate on Texas insurance companies, that it levies on out-of-state companies. Heretofore, the Texas companies enjoyed a considerably lower rate. Also, in the past, telephone companies have paid a higher rate to the state than telephone companies. They will probably be placed on an equal basis by this Legislature.

I have many inquiries about the federal laws and regulations concerning allotments and allowances from those in the service and their dependents. These matters are handled entirely by the federal government, mostly through the Veterans Bureau. This session of the Texas Legislature has authorized each county to employ a Veterans County Service Officer to handle

all of these cases. I was the author of the bill, and sincerely hope that each county will employ such an officer soon. My deep-seated belief is that there is a real need for such an official, and the need will increase as the time goes on.

Reports are that crop prospects in Northwest Texas are good. I hope they continue, for good crops and good prices mean prosperity for the people, no matter what the Legislature does.

### DISTRICT AGENT NAMED

Floyd Lynch, Eastland County agriculture agent for the past three years, joined the headquarters staff of the A. and M. College Extension Service on April 22 as district agent for Extension District 10. He succeeded A. L. Smith who was acting district agent for a year. The district comprises 24 counties centering around San Antonio.

Native of Rains County, Lynch taught school for seven years after being graduated with the B. S. degree at the East Texas State Teachers College, Commerce. He joined the Extension Service as assistant county agricultural agent in Nueces County on November 1, 1935, and on September 1, 1937, was advanced to county agricultural agent in Jones County. He was transferred to his recent assignment in Eastland County on February 16, 1942.

In his county work, Lynch specialized in livestock improvement, soil conservation, agronomy and 4-H Club demonstration work.

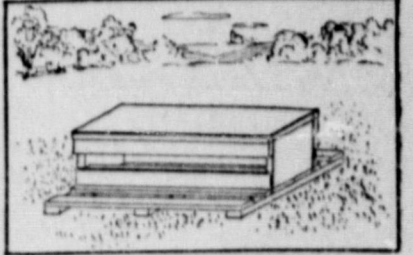

The average speed of propellers in use today's commercial airplanes is between 1600 and 1850 revolutions per minute.

## Fixing Up the Farm

by BURTON WILLIAMS

### Outdoor Poultry Feeder

GOOD equipment is the secret of success in poultry raising. A weatherproof outdoor feeder, for example, will encourage proper feeding and prevent waste and contamination of feed. The feeder shown below is made largely of asbestos cement board, so it can be easily cleaned and disinfected.

A feeder of this type is strong and durable. It holds almost two bushels of mash. Like many other needed articles of poultry equipment, it can easily be made at home.

Partially shaded places are best for range feeders during the summer months. Pullets will go without feed during the heat of the day unless it is easy to get and in a shaded area.

Complete instructions for making the feeder illustrated above can be obtained free by writing the Asbestos Farm Service Bureau, 221 North LaSalle St., Chicago 1, Ill.

Color combinations as well as flavor combinations are important to remember in meal preparations, Dr. Jet Winters, chairman of the Texas State Nutrition Council at the University of Texas, says. Good food need not be dull, and meal preparations can be an art, she says.

**Washington News Letter**

By Congressman Ed Gossett

Washington, D. C. April 27—The House of Representatives this week passed the Interior Department appropriation for the fiscal year which begins July 1, 1945. This appropriation amounted to \$102,602,628. That's a lot of money. However, it represents a cut of \$38,743,419 from the amount requested by the Bureau of the Budget. On a percentage basis that is a substantial reduction.

The Department of Interior controls many bureaus and activities. Among these are Secretary's office, Commission of Fine Arts, Bonneville Power Administration, High Commissioner of the Philippine Islands, Office of Fishery Coordination, Solid Fuels Administration for War, Southwestern Power Administration, Grazing Service, General Land Office, Bureau of Indian Affairs, Bureau of Reclamation, Geological Survey, Bureau of Mines, National Park Service, Fish and Wildlife Service, and Territories.

This week several letters came to my office from ranchers making inquiry about mesquite eradication programs. I have been urging the Department of Agriculture to push their scientific research for mesquite which infests a large section of America. Certain agricultural experts now claim to have a simple method of killing mesquite. The mesquite is cut and a bit of new chemical matter rubbed into the wood. Most of this chemical is now being used in making insecticides for use of our troops. It may be available in large quantities after the war.

Dr. Lytle Adams, to whose grass seeding method I referred in a recent news letter, also has a mesquite eradication process. Dr. Adams shoots a small arsenic bullet into the mesquite. The arsenic method has proven sound except for the difficulty of injection. Dr. Adams may have the answer.

Many wartime developments offer tremendous possibilities for industrial and scientific progress in the postwar world, and should add to the comfort and prosperity of this country. One such item is fabricated steel. During the war we have greatly simplified and expanded our steel production. Several plants have been built in Texas.

A good friend from Texas tells me a company in which he is interested has plans for making prefabricated steel barns and bins. These barns will be delivered to the farmer in packages ready for quick, simple assembly. They will be rat-proof, termite-proof, all weather resistant, and will cost about one-third what a barn or bin now costs to build.

This reminds me of one of the big problems now facing the wheat farmers of Texas. A letter from Bert Self of Crowell tells me he expects a million and a half bushels of wheat to be produced in that area, and that wheat movement should start around May 28.

This year the interior warehouses are filled with grain and a great shortage will exist in freight cars to move it. Texas farmers may suffer great losses on their wheat crop this season. This wheat stored in interior warehouses should have been moved out. Terminal warehouses are only about half full at this time, and big port warehouses are practically empty, so I am told. Some well informed persons advise me the Commodity Credit Corporation is to blame for this situation.

Two small business men at home have written me this week complaining of OPA's refusal to let them sell stoves. It does seem absurd that the small merchant should have to ask OPA for permission to handle such items. This is one of the many forms of regimentation that must certainly go as soon as the war is over.

**China**

By GEORGE S. BENSON  
President of Harding College  
Searcy, Arkansas

QUASHING Hirohito's dream of great empire will not finish the United States' job in the Orient. Chinese, 450 million of them, already are holding out imploring hands toward America. Most of them don't know what they need but this fact only tightens our obligation because we do know what's good for them. They need slow, regular feedings of the diet on which America grew strong.

On a diet of Christianity, encouragement for initiative, free enterprise and protection for investments, America grew in 150 years from 13 rustic colonies to be the world's most powerful nation. China has had none of it. Since the year One China has had everything but a chance, so it had nothing. Fertile soil, timber, iron, coal, oil and manpower, China has had. But China stayed poor.

China's FAR-SIGHTED leaders Chance in China are frankly bidding for capital investments from other countries when the war is over. It is America's invitation; no other big country will have capital at the end of the war. Will China be a good place for Americans to invest money in the post-war years? Will it be a good frontier for adventurous young Americans to enter as industrial pioneers?

Both these questions have the same answer. China offers opportunity only if investments will be safe there after the war. Less than ten years ago when I lived there nobody, except in a few favored spots, dared to own a paying business. If local warlords didn't confiscate such enter-

prises, bandits would plunder them. Chiang Kai-shek will remedy this, I trust, if he can enjoy united cooperation from his present allies.

A Huge DEVELOPMENTS that Market might take place in China in 25 years of private enterprise are staggering to think about. China's population is three times ours. China has one billion dollars invested in industry, we have 130 billion. America's capital investment is \$600 per person; China's is \$2.50. Chinese still farm with hoes while their soldiers fight with American-made guns.

Some short-sighted person is almost certain to ask: "Why should we help industrialize China, teach them how to build wealth and beat us at our own game?" The idea is silly. We will prosper with China. Prosperous customers always help. For instance, there are 130 million people in the lands south of El Paso. Not one-tenth as many live in industrialized Canada. But Canada buys approximately as much from us.

China needs 25,000 locomotives, 20 million tractors and other items in proportion. China also has valuable things to trade for America's goods. It would take 390 billion dollars to make her vast interior like the United States industrially, but nine billion would bring her up to about our horse-and-buggy days. After that she could finance herself. If we can help Chiang Kai-shek to stabilize China politically there is little doubt the cash would be available.

**Goree News Items**

Miss Jonell Fitzgerald of Dallas was here during the week end for a visit with her parents, Mr. and Mrs. A. P. Fitzgerald, and other relatives.

Mrs. Mary Williams of Llano and her grandson, Sgt. Ben Dale Barnett of Waco are visiting Mrs. Williams' sister, Mrs. Sallie Farris and her daughter and family. Supt. and Mrs. H. D. Arnold. Sgt. Barnett went on to Oklahoma City with his grandmother Barnett, where they are visiting relatives.

All of Goree and surrounding territory rejoiced with Mr. and Mrs. W. O. Barnett last Sunday evening when they received a letter from their son T/Sgt. Foy Bain Barnett, who had been reported missing in action. He stated that he had been a prisoner of war and had been liberated.

Mr. and Mrs. Murphy Pennington and family of Lamesa were visitors here with Mrs. Pennington's parents, Mr. and Mrs. C. B. Thompson, and other relatives.

Mr. and Mrs. Claude Reed of Weimert were visitors with Mrs. Reed's parents, Mr. and Mrs. I. J. Troy, last week.

this week were two long-time friends, Lieutenant Vernon Greer of Austin and Jim Beverly of San Juan. Lt. Greer, an engineer with the Texas Highway Department in civilian life, is just back from two years in Alaska and the Aleutians. Jim Beverly, formerly of Amarillo, was at one time Attorney General and later Governor of Puerto Rico, and is now a leading attorney in San Juan.

**TREE PLANTING CEREMONY**

Every baby born in the community during the last two years was honored at a tree planting program arranged recently by the Palo Duro home demonstration club in Moore County.

The trees, Chinese elms, were planted along the country road which leads into the community. In addition to the eight which were dedicated to the community's new babies, two others have been planted as a tribute to county home demonstration agents who have served in the county. Miss Dyora Crowder has been the agent for nearly four years.

About fifty men, women and children attended the tree-planting program. County Agricultural Agent G. C. Shearer conducted the demonstration with the help of the men and boys present. Mothers and the children to whom the tree was dedicated stood by, while club members gave appropriate quotations on trees.

**LOCALS**

Misses Bennie McGregor and Peggy Bumpas of Dallas spent the week end with Miss Bumpas' parents, Mr. and Mrs. M. A. Bumpas. Mrs. Bumpas accompanied them here, after spending several days visiting relatives in Dallas.

Milton Thompson, F. 1/c, left Saturday morning for Alameda, Calif. He was accompanied to Sweetwater by his parents, Mr. and Mrs. C. M. Thompson.

Miss Betty Golden, who is attend-

ing school in Denton, spent the week end here with her parents, Mr. and Mrs. Oates Golden.

Mrs. Howard Collins visited with relatives in Seymour over the week end.

O. H. Spann, Jr., who is attending school in Arlington, spent the week end with his parents, Mr. and Mrs. Oscar Spann.

Mrs. Frank Bowley spent several days last week with relatives at Red Springs.

Mrs. A. B. Warren and Mrs. Joe Duke and daughter, Jo Ann, visited with relatives in Haskell last Sunday.

## Peggy Richmond Honored At Tea On Monday Evening

An event of unusual interest was a gift tea, honoring Mrs. Peggy Richmond on Monday evening from 8:30 til 10:00 at the Munday Study Club house.

The reception room was beautifully decorated with pink roses and yellow snapdragons, this color scheme being used throughout the decorations. Dainty miniature lace fans in pastel colors were given as plate favors.

Guests of honor were the honoree, Mrs. Richmond, the groom's mother, Mrs. Francis Richmond of Seymour, and the bride's mother, Mrs. Chas. Haynie, Sr., Mrs. Chas. Haynie Jr., of Rule was another out-of-town guest.

Hostesses for this lovely event were Meses. W. C. Cunningham, Arisiel Thompson, J. R. Burnison, Jimmie Grammer, G. R. Eiland and J. O. Bowden.

Mr. and Mrs. Dan Groves visited their son, Utah, at Camp Wolters last Sunday. Their daughter and son-in-law, Mr. and Mrs. H. D. Matthews Jr., and Mrs. J. P. Groves and grandson, Jerry accompanied them.

## Rhineland Girl And Seymour Man Wed On April 18

Sgt. Julius Vita of Seymour and Miss Margaret Birkenfeld of Rhineland were married on Wednesday, April 18. The wedding took place in St. Joseph's Church in Rhineland, with Father Herman Laux performing the nuptials, assisted by Father Paul Mosler, O. M. I. of Seymour.

The wedding was quite a formal affair. Miss Stella Vita of Fort Worth acted as bridesmaid, and Mr. Joe Simck of Bomarton was best man. Carol Birkenfeld, nephew of the bride, was ring bearer, and Edith Hancock, niece of the groom, was flower girl.

The bride wore a lovely gown of white satin. Her fingertip length veil was headed with sweetheart-shaped cap and adorned with orange blossoms. She carried a bouquet of pink roses and white carnations.

The bridesmaid wore gown of pink net, over satin. The flower girl wore a gown of white net over satin.

The bride, who is the daughter of Mrs. A. F. Homer, was reared at Rhineland. She graduated from high school there. She is a very attractive young lady and is deservedly popular among the Rhineland people and others who know her.

The groom is the son of Mrs. J. J. Vita of Seymour and is a native of Baylor County. Sgt. Vita has been in the service for three and one-half years and spent 32 months of that time in India, where he was in the ground crew of the U. S. Air Force. He has been in Tucson, Ariz., for four months. He and his bride left last week for Tucson to make their home.

A large dinner was served at four o'clock following the wedding, at the home of the bride. Approximately 100 guests attended.

A dance was given in the evening at the Rhineland community hall.

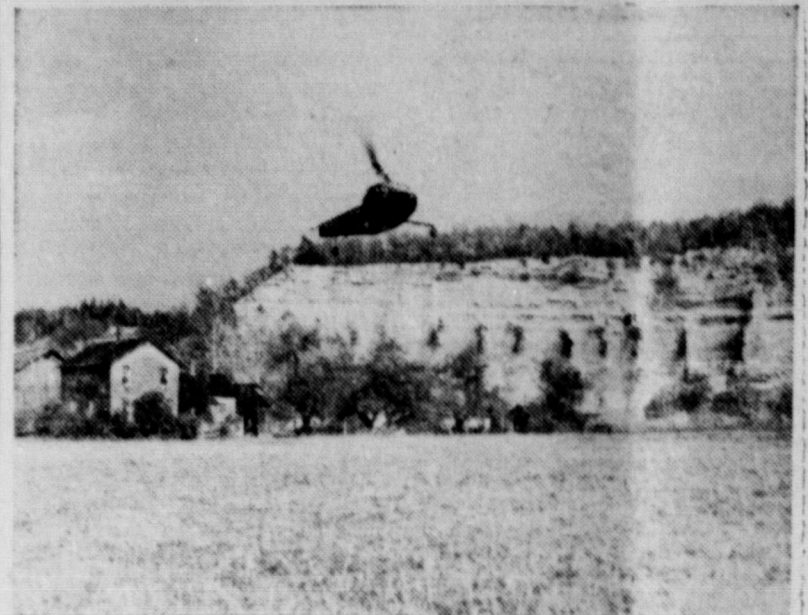

Mr. and Mrs. Charles Jones of Jackboro visited with Mr. and Mrs. J. F. Draper of Goree over the week end.

T. R. Smith of Fort Worth visited his wife and children here over the week end.

Miss Maryon Huskinson spent the week end with relatives in Wichita Falls.

Mr. and Mrs. James Draper and Mr. and Mrs. O. C. Murry of Brownfield visited with Mr. and Mrs. J. F. Draper at Goree and with relatives here and at Benjamin over the week end.

## HELICOPTER MOVIES MADE HERE FOR LATIN AMERICAN SHOWINGS

A scene from recent motion picture made in this country for Latin American showings, demonstrating a helicopter landing in inaccessible valley.

A specially-made motion picture showing how helicopters work, and how they are able to operate without the usual elaborate landing facilities, is to be distributed in Latin America under the auspices of the Coordinator of Inter-American Affairs.

Much of the 'footage' was filmed near Buffalo, New York, in the Zoar Valley, where a helicopter developed by Bell Aircraft Corporation went through its paces for the camera. The helicopter's ability to rise and descend vertically, to move sideways, or backwards, will make it adaptable in post-war

days to operations in areas where terminal airways facilities are not available.

Specialized uses now being planned for American-made helicopters include crop dusting, pipe line patrol, emergency rescue work, short cargo deliveries, air ambulance service and commuter planes not ordinarily served by air terminals.

Latin Americans have evinced particular interest in the helicopter because of the difficult terrain which exists in many South American countries.

## Family Reunion Held Sunday In Dan Routon Home

Mr. and Mrs. Dan Routon held a family reunion in their home last Sunday, honoring their two sons who are in the service and who were home at this time.

All of the children were present, including Pvt. and Mrs. Earl Routon and daughters, Pvt. and Mrs. Loyd Routon and family, Mr. and Mrs. Kenneth Johnson and Danny, Mr. and Mrs. J. D. Hicks and Glendon; also, Mr. and Mrs. Harold McBeth and Mr. and Mrs. Bud Reeves and daughters of Knox City.

Pvt. Earl Routon is home on his 12-day furlough and will leave next Sunday for Ft. George G. Meade, Md. Pvt. Loyd Routon has returned to Camp Wolters, where he is stationed.

## HOME MADE FARM MACHINERY

Necessity being the maternal parent of invention, the labor shortage has revived the Yankee ingenuity to make things which will serve as substitutes. The war has made Texans and nutmeggers, tarheels and Michiganders, and all other species of the American race one big family of Yanks if this inventive streak is an indication. Numerous reports from county agricultural agents have come to headquarters of the A. and M. College Extension Service about the clever and workable devices farmers have assembled from discarded wheels, screws, wire cable and other items around the farm.

For example, a Hansford County farmer made a grain loader from parts in his junk pile. The grain is lifted through a piece of five-inch well casing by means of an endless chain and paddles. County Agricultural Agent Zack Jagers describes it as a combination bull-dozer-hopper type with augers extending from each side of the hopper. An iron bumper was built into it so that the truck being loaded could push it into a pile of grain. A hinged side may be raised to form a hopper for receiving a load from a truck. It also is equipped with wheels and a tractor hitch. But more important, it works and replaces a lot of scoopers.

## FIELD SEEDS....

When you want Field Seeds, look our stock over. We have all of the popular varieties of the best seeds.

Don't take a chance—get the best!

## ATKEISON'S

## BLACK MAGIC

THE magic of black is doubled by the effective use of contrasts. Here a black rayon blouse is teamed with a spun rayon skirt striped in pink and black. There's no problem about "wear" or "care" for this smart rayon outfit. Both skirt and blouse carry labels, telling you the rayon fabric has passed tests for hand washing, color, permanence of finish, strength and many other important qualities. It's wise to read labels when shopping for rayons because they give you reliable information about the serviceability of the fabric.

## Activities of Colored People

Mrs. Fannie Mae Johnson spent the week end in Abilene visiting her daughters, Mrs. Willie Pearl Hill and Mrs. Minnie Lee Williams.

Mr. Ben Hill was in town Monday moving his things to Abilene.

M. J. Johnson Jr. returned to his job in Plainview, Texas last Monday.

Mr. and Mrs. Marcellus Johnson are entertaining their granddaughter, Joyce Evelyn Gardner of Abilene this week.

Most of the members of the West Beulah Baptist church attended the Board at Anson, Texas over the week end. A hearty welcome awaits everyone at the West Beulah Baptist church at all times.

## LETTERS FROM THE PEOPLE

### TWO LEFLAR BROTHERS TELL OF MEETING IN GERMANY

Following is a portion of a letter from Sgt. William L. Leflar, who tells his parents, Mr. and Mrs. W. G. Leflar, of meeting his brother, Sgt. James W. Leflar, somewhere in Germany.

I guess I don't have to tell you this is really a happy time for us. He is just the same as the last time I saw him over three years ago. We have talked over the old times and planned the future.

It is getting so dark I can't see how to write. Bill will finish this tomorrow and explain this strange coincidence.

I am sure you wonder how we met, so here is the unbelievable story.

I was driving a truck about six miles from my gun position when I got caught in a traffic jam. The driver of a truck going the opposite direction hollered and asked me if I knew where "A" Battery was, after he had seen the 910th on the bumper of my truck.

I looked around and couldn't believe my eyes, because there sat Jimmie beside the driver. We saw each other about the same time, and what a mad scramble there was! That was about 6:00 p. m. Tuesday, the tenth. I brought him back to my position, and he stayed with me until Thursday morning. I took him back to his base and spent most of the day with him. He is only twenty miles away, and I am sure we will see each other again several times before you get this letter.

Of course I knew him at first glance, but he has changed lots. He is much heavier than when I last saw him, and his face is so full that he looks like a prize fighter. He is in perfect health and is as fit as a can be, so don't worry about him any more.

We talked about so many things that I can't start to tell you, so at this time I will sum up the story with this sentence: I have been in one traffic jam that I will always remember!

Love,  
Bill

## Legal Notice

Citation By Publication of Final Account THE STATE OF TEXAS

To the Sheriff or any Constable of Knox County Greeting:

Chris Birkenfeld, Administrator of the Estate of Henry Birkenfeld, Deceased having filed in our County Court his Final Account of the condition of the Estate of said Henry Birkenfeld, Deceased, numbered 400 on the Probate Docket of Knox County, together with an application to be discharged from said Administration.

## HEFNER NEWS

(Mrs. E. J. Jones, Correspondent)

The fifth Sunday meeting here was attended by several ministers, including Elder J. W. Condieff and wife and Elder George Nicholson of Hamlin, Elder J. Baird of Macado, Rev. Joe L. Sheets of Haskell and Prof. Willard Willis of Stamford. Fine services were enjoyed Saturday, Sunday, and Sunday night. Lunch was served to all the congregation at the noon hour.

Mr. and Mrs. Abb Hutchens of Rochester were guests of Mr. and Mrs. Homer Lambeth last Sunday

afternoon.  
Pvt. Charles Railsback of Fort Sill, Okla., spent the week end with his parents and family here.

Mrs. Ray Jackson is visiting her husband who is stationed at Camp Hood, Texas.

Pvt. Taylor Cooksey of Fort Sam Houston spent last Thursday and Friday with home folks here.

Miss Julia Marlow of Haskell spent this week end with Miss Gloria Merdock.

Mrs. Roy Jones of Wichita Falls is spending this week with relatives and friends at Hefner and Goree.

Mrs. Joe Tidwell is spending a few days in New Mexico with her sister who is ill.

Mrs. Ed A. Jones and son, Clarence Jones, spent the week end at Gladewater with Mrs. Jones' sister, Mrs. Lona Griffin, who is in a hospital there.

Mr. and Mrs. A. A. Brooks have moved to Goree, where they have purchased a home.

Mrs. Lizzie McKensie, Mr. and Mrs. A. S. Haskin, all of Seymour attended services at the Friendship Church last Sunday.

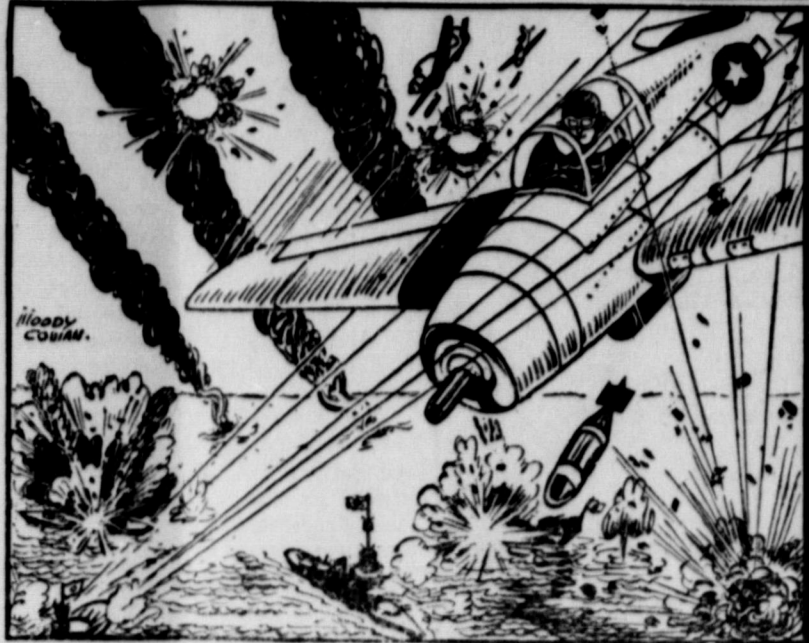

Miss Belle Standlee has returned from a visit with a sister at Commerce. She will go to Vernon next week for a visit with relatives and old friends.

Mr. and Mrs. Bryan Walton and children have moved to Wichita Falls to make their home. Their friends regret their moving out of this community.

Mr. and Mrs. John Peck are now living in Hefner, in a little house

## AMERICAN HEROES

by WOODY COWAN

COMDR. JAMES HAILE MINI, U.S.N., already holder of a DFC, has been awarded a Navy Cross for leading a flight of carrier planes against the Japs in the Philippines. He so deployed his command that they severely damaged six major combat vessels. Despite heavy anti-aircraft fire, he made an accurate bomb-run on a battleship, scoring a direct hit with a 1000-pound bomb. War Bonds helped pay for the planes and bombs that enabled the Manila-born officer to render that foe ineffective. His home now is at Vallejo, California.  
U. S. Treasury Department

near the Methodist church.  
Ray Jackson, who is stationed at Camp Hood, is home to spend a furlough with relatives and friends.

## Lieut. Richmond Receives Fifth Oak Cluster

AN EIGHT AIR FORCE BOMBER STATION, England—With more than 30 missions over Germany to his credit, First Lieutenant Albert Edward Richmond, 25-year-old bombardier on a B-17 Flying Fortress, from Munday, Texas recently won his sixth decoration—the fifth Oak Leaf Cluster to the Air Medal in recognition of "exceptionally meritorious achievement."

The Texas bombardier is the son of Mrs. Florence Richmond of Seymour, and his wife, Mrs. Peggy Jo Richmond, lives at Munday. He flew with the 100th Bombardment Group, a unit of the Eight Air Force's Third Air Division.

Lt. Richmond has served as lead bombardier for his squadron on 25 missions. One of his "leads" was an attack by his squadron on an armament plant at Berlin, and he also has participated in two other attacks on targets at the Nazi capital and at Peltz, Munich, Narnburg, Ludwigshafen, Stuttgart, Bernau, Bremen, Hanover, Dresden, Munster, and other plants where important military objectives are located.

A former student of Seymour High School, Lt. Richmond was employed by the British-American Oil Co. before he entered the Army Air Forces. He came in last week to spend a furlough with relatives in this area.

## Two Local Men Complete Course In Aviation Mechanics

AMARILLO ARMY AIR FIELD—Pvt. Albert J. Brown, son of Mr. and Mrs. Anton Brown, and Cpl. Delbert K. Beauchamp, son of Mr. and Mrs. W. B. Johnson have completed their course of study as aviation mechanics in this Army Air Forces Technical Training School.

Their graduation from this technical school now fits them for airplane maintenance. They will be sent to an air base where they will assist in keeping America's B-17 Flying Fortresses and B-29 Super Fortresses in the air for the allied victory.

In addition to completion of the schedule of academic and practical studies as aviation mechanics, they have been thoroughly drilled in military tactics and defense and courses of physical training that have conditioned them to meet all requirements of American soldiers.

## ROXY

Munday, Texas

AUTHORIZED Dealer for J. I. Case Farm Machinery. Reid's Hardware.

## Goree Man's Outfit Fires Big Gun Into Italy's Po Valley

WITH THE FIFTH ARMY, ITALY—Pfc. Walter J. Hudson, cannoner, son of Mrs. Roberta Hudson of Goree, is a member of the 339th Field Artillery Battalion, which has been pouring steel into German targets in Italy's Po Valley since last October 31, when it fired a dozen 155-millimeter howitzer shells across the highway connecting Rimini and Bologna.

In combat 328 of its first 365 days in Italy, the battalion fired 85,000 rounds weighing more than 4000 tons at the enemy.

The 339th fights on the Fifth Army front as a part of the 88th "Blue Devil" Division.  
So close was the battalion to doughboys in the offensive on Rome, Battery B was subjected to German machinegun fire near Ciampino Airport, just below the capital. The Battalion fired across the Tiber River on fleeing enemy troops only 1000 yards away. Battery A recently captured three Germans who were on patrol. In the Mt. Grande region, the 339th was the target of enemy mortar fire.

The 339th landed in North Africa in December, 1943 and entered combat by shooting across the Garigliano River in Italy March 7, 1944. Displacing 16 times, the battalion reached Rome, where its guns were put into operation along the Via Flaminia.

A red letter day in the unit's annals is last July 12, in the course of which the 339th destroyed two German tanks, two trucks and several artillery pieces, damaged several tanks and a self-propelled gun,

killed several horses and drove enemy personnel out of a forest, killing many of them.

The battalion supported operations that bridged the Arno river and pushed ahead to a point east of Futa Pass. The outfit fired 1300 shells in the opening day of the Gothic Line battle and continued to pour out more than 1000 rounds a day as Allied troops knifed thru Futa Pass. Then the battalion went through Goga Pass to positions near Firezuola, where batteries often were isolated by floods. The outfit's course in October, 1944, followed the Firezuola-Imola road to Castel Del Rio and thence to Belvedere. For a period of 10 days early in October, the big howitzers concentrated heavy fire on German artillery pieces, mortars and personnel.

Beyond Sassoleone, the 339th's howitzers were hitched to tractors, increasing their mobility in muddy mountain country.

In one month in the fall, the battalion fired 14,350 shells.  
It marked the end of 1944 by firing on a battery of four German guns on the last day of the year, scoring one direct hit and starting 14 fires.

Lieutenant Colonel M. D. Avery, St. Paul, Minnesota, commands the 339th.

## ON WAY HOME

Mrs. T. R. Smith has received word that her son, S/Sgt. Richard R. Smith of the 15th Air Force in Italy, has completed his missions and is enroute to the good old U. S. A.

Mr. and Mrs. Glen Crawley of Lubbock visited with Mrs. Jack Mayes and other friends here a while Sunday.

Repairing of All Kinds  
Munday, Texas

While representatives of almost 50 United Nations are meeting in San Francisco, the real peace is being made by the men fighting abroad. Spear-headed by the "Texas Army"...the famed 36th Division troops are fast convincing the Nazis of the virtues of peace and penalties of war. And on the other side of the world, where tens of thousands of Texans are fighting the Japs, our "peace" program also is being enforced to the tune of roaring guns.

And wherever there is fighting, Texans continue to be in the midst of it. The Nazis learned something of Texans ingenuity recently when a group of 32 German soldiers, heavily armed, captured Corp. Worth Medesett of Thrall and two companions. Taken to a Nazi prison camp deep in Germany, the Texas trio dug out their German dictionaries and quickly learned a few phrases of the enemy tongue. Then they convinced their captors of the futility of continuing the fight against onrushing Allied troops... and ended up by capturing the town and 16 German soldiers, without firing a shot!

Even in the WAC, Texans lead. In one WAC platoon stationed at Advanced Allied Force Headquarters in Italy, more than half the unit's strength is made up of girls from the Lone Star State.

Among Texans in the group are Corp. Ivah Knight of Lubbock, Sgt. Eva Brown of Apple Springs, Sgt. Marion McKee of Austin and Fort Worth, Corp. Edith Legg of Dallas, and Corp. Ethel Keigwin of Galveston. The girls are doing a full share of winning the war, handling telephone switch-boards, radio communications and general office work.

Deep in the heart of Germany, two fighting men from Llano, staged a reunion last week. They were Granville Smith and Amos Underwood, Texas cousins.

In a letter to relatives, in which he told of the meeting, Underwood also told of the destruction heaped upon German cities by Allied airmen.

"I have seen Cologne," he wrote, "and I have never seen such total destruction in all my eight months of battle through France, Belgium, Luxembourg and Holland."

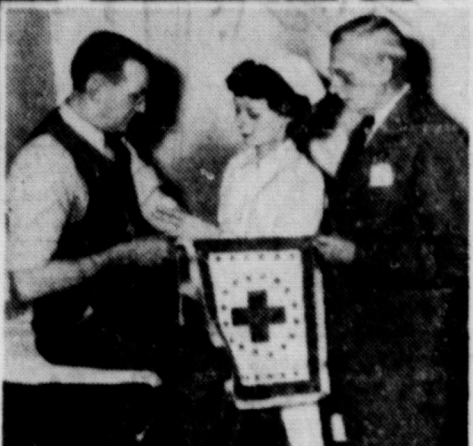

And back home in Texas, one of the airmen who helped pound Germany into submission this week told one of the most remarkable stories of the war...the story of his escape from behind enemy lines after being shot down over Austria. The flyer, S/Sgt. Joe Prickryl of Taylor, walked and crawled for 48 days through enemy territory, after being injured when he parachuted from his flak-riddled plane. He is at home for a rest, but soon will be back in the fight.

And on the home front, Texans are now organizing war chests units in all countries, in preparation for the annual drive "for our own and our allies" which will start on Oct-

## LETTERS FROM THE PEOPLE

BRUCE C. HOLDER WRITES PARENTS OF WOUNDS

Germany, April 11, '45  
Dearest Mother and Daddy,  
Hello folks, how are you today? Fine I hope. This leaves me feeling fine and enjoying another good rest in a hospital.

Oh yes, I got hit again, but still not bad. Just enough to get sent to a hospital. Got it in the left leg this time, but not bad. I can walk anywhere I want to. Might not go too far, but can go to the mess hall. Course I would have to be hurt pretty bad not to go to chow.

I sure have been getting a lot of mail lately, but now I won't get any until I get back with outfit. But that won't be long, maybe a week or two. I hope the war is over long before then. I wish it would be over today. We are so tired of fighting the Germans. They are whipped, but still they won't quit.

They want to kill every one of us they can. They don't mind losing four or five just to get one of us, and as long as they feel that way we will have to keep on fighting. We will be in Berlin in a little while if nothing happens, and it is hard to stop us now. We sure have cover-

ber I. Field representatives of the state war chest are enrolling county chairmen, treasurers and publicity chairmen, to direct the campaign in each county. If you are called on, accept! It is your chance to help win the war and serve our fighting men!

ed lots of country lately. I know you have been keeping up with every move we have made.

Guess you know more about the "big push" than we do. We don't get much news. About all we know is where we are, and a lot of the time we don't know that. We have gone through so many towns I don't know where all we have been. Sometime we don't even stop in a town—not a shot is fired. That is the kind of town I like to take. But they won't let us stay there. We have to fight for a town before we can stay. I like to go in a town and see white flags in every window.

Then I feel pretty good, and we have seen lots of them. We have seen some of them that didn't have any white flags. They are the kind I don't like.

It sure is a pretty day here. This is a pretty country. I don't see why folks can't be satisfied. They are going right along with their farming. Wheat sure is pretty, that is all we see now. but all the farmers are at work getting their land ready for something—I don't know what they raise over here.

They raise a lot of sugar beets and use them for feed. They chop them up and feed them to hogs and cows. I guess they make good feed. They have good cows and hogs and horses. A lot of them use oxen. I saw a man yesterday that had an ox and horse to a wagon. You see most anything over here.

I was hit April 6 below the knee. Not bad at all, so don't worry about me. I feel fine and am getting plenty to eat and a good place to sleep and rest, so I am going to do a lot of both.

Love,  
Bruce.

Mrs. Troy Warren of Haskell spent last Sunday afternoon with her parents, Mr. and Mrs. U. S. Rogers.

Mrs. Ruby Kethley returned to her home in Abilene last Sunday after a week's visit with relatives here and at Goree.

## State Schools Need \$33,364,000 For Construction

HEAVY WARTIME BIRTH RATE TO PLACE ADDED STRAIN ON EDUCATION SYSTEM

Texas will need to spend an estimated \$33,364,000 in immediate postwar years for new school buildings and for repairs to present structures to adapt its school system to anticipated heavier enrollments and to educational changes, according to a survey just released by the American Association of School Administrators. This is a conservative figure, the survey reveals, as many communities have not yet ascertained future school requirements.

The report bears out U. S. Bureau of Census figures, which show that wartime births in Texas are running 31 percent above peace years.

Larger enrollments, as well as wartime developments, will greatly influence future school design, it is predicted by Reginald E. Marsh, nationally known school architect and member of the postwar planning committee of the American Institute of Architects, New York chapter.

"Such facilities as cafeterias and lunchrooms will be designed for general educational purposes and installed in many more schools," Marsh says. "Floors and wainscoting of tile will make them attractive and easily cleaned for use before and after lunch as study halls, music rooms and club meeting places."

Marsh also foresees increased accent on physical education and vocational training as a result of Selective Service findings. Athletic

## WAR BONDS in Action

**"Diesel Stove."** War Bonds furnished Seabees with equipment needed to construct this stove from salvage on which pretty Philippine girl cooks meal for hungry folks on Tinian. U. S. Treasury Department

facilities, he believes, will be increased and where joint community and school needs can be served tile swimming pools may be installed.

Nursery schools will probably be made part of the school system, according to Marsh. "Set up near war plants, they have relieved mothers for home work and at the same time proved of educational benefit to children," he says.

Census figures highlight coming school problems of Texas. They

show 444,700 births in the 1941-43 period, 31 per cent more than in 1933-35, when 339,274 infants were born. Population shifts, easing pressure on some schools, will intensify it for others in 1947, as children of 1933-35 start leaving elementary grades and bumper

1941-43 crop begins knocking at school doors for admission.

Mrs. Joe Bill Pierce and little daughter returned home last Sunday from Denton, where they had been visiting with Lieut. Pierce's parents for about two weeks.

MUNDAY, TEXAS

I don't care if it is "Minnesota" paint from Cameron's. You have to get that spot off your new suit.

There's a man that I know, and he lives near you,  
In a town called Everywhere,  
You might not think he's a man from his hat  
Or the clothes he may chance to wear;  
But under the jacket with many a patch  
Is a heart more precious than gold—  
The heart of a man 'neath the coat of a boy,  
A man who is twelve years old.

We never may know what the future will make  
Of the boys that we carelessly meet,  
For many a statesman is now at school,  
And presidents play in the street.  
The hand that is busy with playthings now  
The reins of power will hold,  
So I take off my hat and gladly salute  
This man who is twelve years old.

Maurice Smiley

## TOWN and FARM in WARTIME

Prepared by OFFICE OF WAR INFORMATION

### Civilians At War

The government needs and asks its citizens in the 178th week of the war to:

1. Stay in the fight against a wartime rise in prices. Inflation will remain a danger until supply and demand regain a normal balance. Buy only what you need. Save your money for the better products to come after the war.
2. Ask your local salvage committee whether your community has tin collection facilities. If so, save and turn in all discarded tin cans.
3. Serve all the daytime hours you can spare if you are a trained Nurse's Aide. Empty the training Red Cross has given you, thus releasing registered graduate nurses to use their special skills.

### Nationwide Campaign Under Way

To Check Automobile Brakes An Automobile Brake Check Program, sponsored by the International Association of Chiefs of Police in cooperation with government agencies, started April 15 and will end June 1. Purpose of the program is to help save passenger cars from the scrap heap, to maintain adequate transportation for war workers, and to reduce traffic accidents. In 1944, it is estimated, some 250,000 cars were scrapped after they

were damaged beyond repair in accidents. To determine whether your brakes are adequate to stop your car in time, a simple brake check is recommended. The check is made by placing an object one inch thick at the base of the brake pedal, and pushing down the brake pedal. If it strikes the object before the brakes begin to take hold, they are inadequate and may be in dangerous condition. Between April 15 and June 1, traffic officers will check passenger cars involved in (1) accidents, (2) in traffic violation in which case the driver, and (3) cars operated in a manner indicating faulty brakes.

### Oil Stove Requirements Tightened, More Electric Ranges Authorized

Eligibility for certificates permitting purchase of oil cooking stoves is being tightened to make sure that the increasingly scarce supplies go to consumers who need them most. GFA has announced. Under the new provisions, Local War Price and Rationing Boards in the Emergency Oil Shortage Area (all states except Arizona, Louisiana, New Mexico, Texas and parts of California and Florida) will issue certificates for oil cooking stoves only if consumers need to replace oil cooking stoves that they have been using for at least six months before making application, or if a coal or wood stove can not be used. Coal and wood stoves are not rationed. The new requirement is being made an eligibility test for oil heating stoves also. Its purpose is to prevent persons from acquiring an oil unsuitable oil stove and establishing eligibility for a new oil heating or cooking stove, OPA said.

Assignment of authorizations for production of 57,816 additional domestic ranges during the second, third and fourth quarters of 1945 has been announced by WPB. Standard size four-burner ranges are authorized to the amount of 44,816 and the remaining 13,000 will be three-burner apartment-type ranges. About two-thirds of the range production authorized is expected to be available to certified institutions and individual consumers. The remainder is intended for the military services and for housing projects approved by the National Housing Agency, WPB said.

### War Bonds For Postwar Security

By M. F. Miller, Dean and Director College of Agriculture, University of Missouri

The farmers of the country are among our most patriotic citizens. They can be depended upon to meet their obligations, insofar as possible, in contributing to the war emergency.

Farmers have been cutting down their indebtedness appreciably during the period of high prices which has accompanied the war, and this is as it should be. However, these same individuals have found it possible to buy War Bonds in very material quantities.

In addition to the patriotic urge which farmers have for investing in War Bonds, it is highly essential to their future welfare that they provide reserve funds for later years. They will need reserves for all types of farm improvements which have been greatly neglected during the war. They will need funds for soil improvement. They will need funds for insuring protection against low prices of farm

## MILK GOAL FOR 1945

DAIRY farmers are being asked to produce a record flow of milk this year to meet the Government's goal of 120,582,000,000 pounds for wartime needs.

With less farm help and about the same amount of feed, dairymen are asked to produce in 1945 the largest volume of milk ever attained. Efficiency is the keynote of the 1945 program sponsored by the War Food Administration, U. S. Department of Agriculture, State Extension Services including county agents, in cooperation with the Dairy Industry Committee. Greater farm efficiency will make it possible to meet the goal.

Cows to be capable of maximum production must be completely healthy. Only those cows have the ability to produce a profit annually. Irregular breeders, cows with diseased or infected udders, low producers are the animals that destroy efficiency.

Good feed, good cows and good management combine to produce the maximum quantity of milk efficiently. Proper handling of all milking equipment, proper milking, efficient cleaning and proper cooling insure a good produce with no milk wasted and a profitable market.

The 8-Points are: (1) Grow an abundance of high-quality roughage. (2) Balance your herd with your feed supply. (3) Keep production records on each cow in your herd. (4) Practice disease-control methods. (5) Produce milk and cream

labor-saving methods. (7) Take care of your land. (8) Develop a sound breeding program.

Announcement of the dairy production rates for the balance of 1945 also should help to stimulate efficiency since dairymen can now plan their year's production. Whole milk rates are approximately the same as for 1944, when blend prices were by far the highest on record. In addition, the decision to increase the rate of payment on butterfat should encourage the production of butter, particularly in the farm-separated cream areas.

her own painting or stenciling. The girls all did splendid work and were quite interested in their accomplishments. They were all eager to take their cup towels, etc. home to show their mothers.

Mr. Dunkle gave the boys a demonstration on "The Control of the Screwworm Fly and the Prevention of Screwworm Losses in Livestock."

In each of the meetings it was explained to the club members that the screwworm fly spends the winter months in the coastal plains area of Texas and migrates to this section arriving here about the first to the tenth of May. Another peculiar characteristic of the screwworm fly is that the female fly does not deposit her eggs on any animal except one that is wounded, warm blooded, and alive. The eggs hatch within three to four days and the young worm feeds inside the wound.

To guard against screwworm infestation the county agent recommends that stockmen watch all livestock injuries and especially when screwworms are known to be present in the area. The best screwworm remedy is the government formula of screwworm Smear No. 62 to all open wounds until they are healed. For wounds already infested Smear No. 62 is best applied with a one inch paint brush. Material is simply swabbed into the wound. Care must be taken to push it into all of the pockets made by the worms and painted around the wound.

All 4-H Club members who attended the meetings were advised to acquaint their fathers and neighbors with the screwworm remedy, known as Screwworm Smear No. 62, which is recommended by the United States Department of Agriculture. Inferior ingredients will not protect injured animals against screwworms.

Ranchmen and veterinarians all strongly recommend that all infested wounds be treated without removing the worms from the wound.

The constitution of the State of Massachusetts, still essentially the organic law, was formed in 1870. The Federal Constitution was ratified in 1778.

Ashes of burned money can be analyzed and redeemed.

### LOCAL BOY REPORTS GERMANS ON THE RUN

Cpl. Howard G. Bruce of Munday has been in Holland, and France, and is now with the American forces in Germany. He reported he was getting along fine, with the exception of one foot which was pretty badly mashed.

Bruce reported to relatives that the Germans were on the run, and it seemed they couldn't find a stopping place.

India and Afghanistan are connected by the Khyber Pass.

### PAIN IN YOUR BACK

Indicate that your bladder and kidneys need attention. The fluids that flow through them are irritating. CIT-ROS will quickly bring these fluids back to normal. Pain ceases and gradually the soreness leaves. A new remedy for lumbago is at your druggist. \$1.00. Get it today at

## 4-H Club Meetings In County Are Attended By 472 People In April

Four hundred and fifty-seven 4-H Club boys and girls and fifteen sponsors attended the eleven 4-H club meetings held by the agent, Lucile King and R. O. Dunkle, during the month of April.

The demonstrations given were "Stenciling" and "Millinery" for the girls and "Life History of Screwworm Fly and How to Get Rid of the Screwworm" for the boys. All girls were not given the same demonstration, as the girls in three clubs were too small to do millinery, so they were given stenciling.

The 4-H Club boys and girls met in joint meetings for the business session and then met in separate divisions for the demonstration. The boys were in charge of the business meetings. During the business meeting awards were made to some outstanding 4-H Club members. Lucile King, home demonstration agent, presented Joannie Loree Jackson of Vera club with a Gold Star pin as an award for being selected Knox county's Good Star Girl of 1944. The agent also announced that Paula Jean Allen, of Vera club, had been selected as scholarship contestant of District 3. R. O. Dunkle, county agent, presented Carro Reed Gover of Benjamin, a gold pin as an award for producing the Reserve Champion Calf in 1944. He also announced that Joe Todd Sweet of Sunset club, had been selected as a member of the first "Good Neighbor Trip" to Old Mexico. He is one of twenty-four boys of Texas who will make the trip.

After the business meeting the meeting was turned over to the county agent and home agent. The boys met in one room and the girls in another.

Miss King gave the girls a demonstration on millinery. Lucile King was asked to bring an old felt hat, trimming, thread, needles, thimble, pins, scissors, a clothes brush and a nail brush.

The agent had each girl remove lining and all trimmings from hats,

then she showed them how to brush their hats with the nap of the felt. Next came the cleaning of the felt with naphtha. It was stressed to use as little naphtha on brush as possible and to brush with the nap of the felt to prevent spotting.

After the hats were cleaned then came the designing. The girls were seated in a chair and the agent began designing the hats. Soon the girls and the sponsors were designing hats. After the hats were designed the agent showed hats that she had made. These were kept to the end so the girls would design hats to suit themselves and to learn to create things. If they were shown at first every girl would have wanted their hat made like the ones the agent showed.

Seventy hats were cleaned and restyled or made new at these meetings. The girls showed a lot of initiative and interest.

They cut patterns, borrowed some of the hats and were very enthusiastic in learning. The sponsors were equally as interested as the girls. Some of the sponsors brought hats to be designed.

Forty-six 4-H Club members and two sponsors attended the three demonstrations given by the agent on stenciling. Stenciling was used with these groups as they were too small for the hat demonstration. Twenty-nine cup towels, lunch cloths, head scarfs, and radio scarfs were stenciled.

The agent brought some stencils already cut. She showed the girls how to select a pattern for cutting stencils. After they were traced on the paper she showed them how to use a single edged razor blade to cut the stencil. Each girl chose her stencil, pinned it on her cloth while the agent prepared the paint. The agent showed the girls how to paint the stencils and then each child did

"Maybe it will look right if I stand on my head," said Alice

Alice couldn't seem to understand. The Mock Turtle sighed deeply, drew one flipper across his eyes, and began again.

"This line is the cost of living going up—and that line is the cost of electricity coming down. Now do you see?"

"No," said Alice, doubtfully. "why don't they go together? One of them must be upside down."

Sobs suddenly choked the Mock Turtle.

Alice was eager to please. "Maybe it will look right," she said, "if I stand on my head!"

There is an Alice-in-Wonderland flavor to the simple facts about electricity.

The average price of household electricity has actually come DOWN since war began—while the cost of most other things was going UP.

There has been no shortage of electricity—the basic raw material of all war production—though most other important war materials have necessarily been scarce or rationed.

That record is the result of careful planning and hard work by America's business-managed electric companies. And it is your assurance of plenty of cheap electricity for peace-time job production—and for all the new electric conveniences you'll enjoy after the war.

13.2%, says the U. S. Bureau of Labor Statistics

### Senior News

The Senior play went over with a "bang" last Friday night. We had a very nice crowd, but would have had a better one had the weather permitted. We wish to thank everyone for being present. Since our play is over we seniors are beginning to plan our graduation exercises.

There are several seniors on the honor roll this last six weeks. They are as follows: Loyce Milford, Joyce Milford, Christine Lindsey, Mildred Yost, Idella Acosta, Juanita Draper, Wendell Partridge, Billy Matthews, and Mart Hardin.

The grades were averaged last week to see who would be valedictorian and salutatorian at Sunset this year. Christine Lindsey was valedictorian with an average of 91.750. Mart Hardin was salutatorian with an average of 91.566.

### Junior News

We are completing our last few weeks of our Junior year in high school. The teachers are getting us prepared for our final examination. This year has been a happy one and we can say that we have learned a lot in the subjects we are taking. We have enjoyed our teachers very much and we hope they have forgiven us for being so mean at times. The basketball boys are planning their annual trip to Lake Kemp next week end. Everyone is planning to have a swell time.

Due to circumstantial factors beyond our control we only have F. and Barbara Jane on the honor roll this last six weeks.

### Freshman News

The life that was published last was that of Elizabeth Harlan.

The name of the person to whom the following description belongs will be published next week.

On February 8, 1931 a small bundle was dropped from Heaven which landed in Knox City, Texas. The family which received the bundle was very proud to add another branch to its family tree. The bundle was a girl who has blonde hair and blue eyes. Her first days of school were spent at Imperial California in 1936, but later came back to Knox City. She came to Sunset in February of this year and is now finishing her Freshman year.

Some of her favorites are:  
 Subject: English  
 Teacher: Mrs. Morgan  
 Pastime: Reading  
 Hobby: Collecting salt and pepper shakers  
 Sport: Tennis  
 Actress: Gale Storm.  
 Actor: Lon McCallister  
 Eighth Grade News  
 The girls played a very enjoyable

game of baseball last Thursday with Weinert. The score was 21-7 in favor of Weinert.

We would like very much for them to come back again. We hope to match a game with them this week. The boys are playing very hard. They are trying to match some games.

We are planning to have a "tacky party" May 3.

We all enjoyed the Senior play, "It's A Deal," Friday night.

**First and Second Grade News**  
 Jeanette is back with us after being out of school last week because of illness.

Jo May and Claude are absent today because of illness. Jo May was out of school all last week.

Betty Lou's sister, Billie Marie has gone to Wichita Falls to work in a hospital.

One of Carlene's uncles who lives at O'Brien was repairing his house top when he fell off and was injured badly.

Joe's mother left for Austin this morning to bring Joe's brother home from school.

Loretta's great granddaddy Hunter is in the hospital.

Nell was in Mineral Wells Sunday to see an Uncle who is in Camp Walters.

Jeanette has an aunt in the hospital.

Jerry went to Mineral Wells Sunday to see his Uncle Utah.

Those on the honor roll are: First Grade: Sue Voss, Robert Hertel, Lester Phillips, Martha Smith, Glenn Bruce, Jackie Fitzgerald, Howard Jungman, Jo Mae Newbrough, and Carlene Morgan and Joe Voss.

Second Grade: Delores Parker, J. R. Booe, Nell Johnson, Ruth Burton, Tommy Walling, Jerry Groves, Jeanette Draper, Loretta Floyd, Bobbie Harlan, Claude Hill, and Donald Hill.

Seventh Grade News  
 We had a very enjoyable time at the weiner roast and party at Betty Yost's Thursday night.

We are planning a theatre party this week.

Verdine Poyner wrote a play for our English class this week. Good! Verdine, let's have another.

The flag monitors, this week are Jerry Dickens and Bessie Lancaster.

Patricia Johnson spent Sunday in Mineral Wells, while she was there she saw Possum Kingdom Dam.

Our honor roll students are: Helen Parker, Loyce Reddell, Betty Sue Yost, Betty Matthews, Royce Reddell, Deckey Walker, and Tom-

## Ex Libris... By William Sharp

HE PUT THE SUN IN ITS PLACE!

### Raymond L. Butler Now At San Antonio

SAN ANTONIO AVIATION CADET CENTER, TEX.—At the San Antonio Aviation Cadet Center, potential pilots, bombardiers and navigators are receiving preflight training to prepare them for aerial instruction and duties as aircraft members in the Army Air Forces.

The future fliers are subjected to a rigorous 10-week program of instruction covering physical, academic and military training. At the Cadet Center they study maps and charts, aircraft identification, small arms and other subjects while being conditioned physically for the long training period ahead. Bombardiers, navigators and pilots receive the first five weeks of preflight instruction as a group, then are separated for specialized training.

Cadets now in training from Texas include: Raymond Lester Butler, Route one, GORE.

Seaman Bobby Haymes, who is stationed at Norfolk, Va., came in the first part of this week to spend a 10-day furlough with his parents, Mr. and Mrs. Lee Haymes, and with other relatives.

mie Frances Yost.

Fifth and Sixth Grade News  
 We have been having some lovely baseball games but were very sorry when Shirley Yost was struck with a base ball bat. She is doing nicely and we hear that she will be back to school tomorrow.

Driscoll and Sarah Riddle's brother was wounded while fighting in Germany. A letter from him, though, stated that he was improving.

Jeanette Hawkins spent Sunday with Flora Mae Pool at Rochester.

We are writing poems in English today and will take a vote to see who is the best composer. Who knows, some one in this class may write "A Garden of Verse" some day that will equal Robert Louis Stevenson's.

Students on the honor roll are Gladys Simmons, Jeanette Hawkins, Shirley Yost and Gloria Michels.

Third and Fourth Grade News  
 Mrs. J. M. Crouch is here visiting Elaine's home.

Goldie went to Rochester yesterday afternoon to visit her cousin.

Louise's grandparents, Mr. and Mrs. Balone and her grandmother Mrs. Balone visited in her home Sunday.

Patsy's and Jenna Lee's aunt and cousins from Weinert visited her yesterday.

Opal and James went to Comanche this last week end.

Jimmy's cousins, Lloyd and Mari-beth visited him yesterday.

Charles Parker's grandfather Mr. Holder visited him Sunday.

Mr. and Mrs. Green from Brock visited in Mildred's home this week end.

Charles Everett visited his grandparents in Munday.

Mr. and Mrs. Otis Cash spent the day at Sue's home Sunday.

The honor roll students are: Jimmy Burl Morgan, Kay Leon Wilson, Charles Everett Yost, Glenn Doyle Watson, Kay Frances Atchley, Jonny Matthews, Shirley McAfee, Lois Ann Michels, and Sue Ann Richardson.

The fourth grade that are on the honor roll are: Elaine Nix, and Goldie Faye Reeves.

### Veterans' Rights To Claim Readjustment Said Clarified

Information has been received by the office of the Texas Unemployment Compensation Commission, 1613 Pease Street, Vernon, Texas, clarifying the rights of veterans in filing claims for readjustment allowances. It has been reported that in some cases erroneous information has been received by veterans, leading them to believe that even though they are physically unable to work, they are eligible for readjustment allowances.

The Veterans Administration refers them to the law stating that in order to be deemed eligible for allowances during a period of continuous unemployment, the claimant must be able to work on the effective date of his first claim.

The following statement has been issued:

"As a corollary to the law, it is clear that if a veteran claimant's period of unemployment is interrupted by a period of employment, he must be able to work at the time he files an additional claim or otherwise reopens his claim.

"Although the veteran must be able to work at the time the initial claim is filed he will not be considered ineligible during any period after the initial claim if he becomes ill during his claim series.

"In order to be eligible for readjustment allowances a veteran must have been discharged or released from active duty under conditions other than dishonorable after ninety days or more of active duty, or by reason of an injury or disability incurred in line of duty, and must have served after September 16, 1940, and prior to the termination of the war."

For further information, a commission representative can be contacted at the court house in Seymour, from 10 a. m. till 12 noon, Thursday, May 10, and every other Thursday thereafter until further notice.

Queer language, English.  
 For example, a novelist says that his heroine "went off in a huff", probably a 1941 model huff, and the hero "left with misgivings" but without nothing is said as to whether she was a blonde or a brunette. And somebody is always firing at somebody else named "Random," or "Will".  
 A character in a short story was always "devouring books with rel-

### POST-WAR PLANS FOR SERVICE MEN

Farm and ranch-reared servicemen from Mason County hope to return to agriculture when the war is over, judging from answers to a questionnaire recently sent them by the County's Veteran Advisory Committee.

Seventy-six of 149 servicemen replied were engaged in farming or ranching before enlistment, and 94 of 149 hope to return to a farm or ranch, they said. Eighty-nine expressed a desire to buy a farm or ranch. Thirty-five indicated they wanted to resume their education, 10 of them preferring training in agriculture.

County Agricultural Agent Edward S. Hyman says the committee is advising the servicemen of the assistance which will be offered to veterans in getting located in agriculture.

Mrs. J. P. Groves returned last Saturday from Abilene, where she was a guest in the home of her uncle and aunt, Mr. and Mrs. S. M. Allen.

Pvt. Albert J. Brown and Pvt. Lowell D. Emery of the Amarillo Army Air Field spent the week end in the home of Mr. and Mrs. Anton Brown of Rhineland.

## Attention Farmers!

We have just received a car load of California Acala planting seed and have had one-half of this car acid delinted and the other half machine delinted.

Acid delinted \$8.75 per hundred lbs.  
 Fuzzy seed \$2.00 per bushel

These seed are all sacked in new bags and carry the state of Texas certification showing 88 per cent germination and free from all grass seed.
