

Bronze Star
Medal Awarded
Everett Pruitt

First Lieut. Everett Pruitt of Munday, who is serving in the Headquarters Company, 415th Infantry of the U. S. Army, has just recently been awarded the Bronze Star Medal.

Lieut. Pruitt, whose wife, Mrs. Virginia E. Pruitt and little daughter reside at Munday, also holds the Combat Infantryman's Badge, Silver Star Medal, Purple Heart award, Bronze Oak Leaf Cluster to the Purple Heart, and the Distinguished Service Cross.

He is a graduate of Munday High School and of the George Pepperdine College, Los Angeles, Calif., where he majored in business administration. He has the B. S. degree.

His most recent award was for "meritorious service in connection with military operations in Germany from 22 March to 7 May, 1945. During this period of combat Lieut. Pruitt performed his duties as Information and Reconnaissance Platoon leader in a conspicuously meritorious manner. On one occasion he led a twenty-four hour reconnaissance mission deep into enemy territory, returning with information which proved invaluable in the subsequent advance of his regiment. On this and many other occasions, Lieut. Pruitt performed actions above and beyond the call of duty which contributed materially to the success of his regiment, and his actions exemplify the finest traditions of the American officer and combat leader."

40 Registrants
Reclassified By
County Board

Forty registrants of Knox County were reclassified by the local board at its regular meeting in Benjamin last Tuesday. They are as follows:

- Class 1-A: W. B. Thompson, Charles R. Posey, Jr., Doyle R. Franklin, T. W. Struck and Clyde A. Murphree.
- Class 1-C, Ind.: Edward B. Teaff, Lonnie B. Saunders, John E. Nelson, Juan L. Enriquez, Concepcion H. Munoz, Joe E. Gillespie, John K. Bullion, Nolan O. Parker and Walter J. Schumacher.
- Class 1-C, Disc.: Joseph C. Randolph, Guy Robinson, Dudley B. Myers, Calvin L. F. Westerman, Leon W. Wimberly, and Howard M. Hendrix.
- Class 2-A: Chester L. Yates
- Class 2-A (L): Albert C. Boggs.
- Class 2-A (F): Wilbern C. Pearson.
- Class 2-B: Grady R. Hardin.
- Class 2-B (F): Cecil W. Cheek.
- Class 4-F: Fred C. Robinson, Clarence Davis, Letser E. Payne, Encarnasion G. Valladarez, Rabe H. Crouch, Glenn E. Paul, Blaz Sosa, Luis Flores, Kenneth W. Henson, Melvin A. Lowery, M. M. Boe.
- Class 4-A: Leonard C. Kyle, Frank S. Griffith, James P. Tolose and Joe A. Brown.

MRS. ORA COLLINS IS
INJURED IN ACCIDENT

Mrs. Ora Colline, well known Munday resident, received a fractured hip in a fall at her home last Friday evening. She received medical treatment here, and was taken to Fort Worth Saturday by an ambulance from the Mahan Funeral Home, and entered the Harris Memorial Hospital for treatment. According to the latest reports, Mrs. Collins is showing improvement.

Weather Report

Weather report for the period of June 28th to July 4th, inclusive, as recorded and compiled by H. P. Hill, Munday U. S. Cooperative Weather Observer:

	TEMPERATURE	LOW	HIGH
June 28	1945	78	101
June 29	1944	70	102
June 30	1944	78	100
July 1st	1945	73	96
July 2nd	1945	68	85
July 3rd	1945	69	87
July 4th	1945	65	87

Rainfall this week, 1.52 inches; rainfall this year, 11.19 inches; rainfall to this date last year, 12.47 inches; rainfall since Nov. 1, 1944, 15.26 inches.

Grasshopper Poison Is Available

Knox City Man
Gets Bronze Star

First Lt. John H. Atterbury, Jr., son of Mr. and Mrs. J. H. Atterbury, Knox City, has been awarded the Bronze Star medal for heroic achievement against the enemy on April 26, near Auburg, Germany.

Citation accompanying the award reads: "Lieutenant Atterbury, platoon leader, employed his platoon on the left flank of the leading echelon of Company B, Fifth Infantry, when the company was ordered to cross the Danube River and take the city of Auburg. As the platoon approached the city, it was pinned down by intense enemy machine gun and mortar fire. With utter disregard for personal safety, Lieutenant Atterbury led his platoon forward through the hall of fire and captured a 20 mm gun, several machine guns, and well equipped enemy personnel. Lieutenant Atterbury's courageous action enabled his platoon and company to advance to its objective."

The officer's wife, the former Josephine Parrish, is making her home in Hamlin with her parents, Mr. and Mrs. Elam Parrish.

We're Forty Now!

THE MUNDAY TIMES BEGINS ANOTHER YEAR WITH THIS ISSUE

With last week's issue, The Munday Times discarded "Volume 40" and this week we start out on 41. That means we're reached another year of continuous publication. We're forty years old, and are beginning on our forty-first year.

What the new year holds in store for us, we don't know—but we're beginning with the same spirit of faith and confidence that this pioneer newspaper people of the early 1900s did when they established The Times. With the same type of friendliness and cooperation which The Times readers and advertisers have accorded us in the past, we know the new year will not be a failure. The war, the Japs, the weather and other things cannot keep us—or our community—from going forward with that type of cooperation. So we enter into our forty-first year with confidence, and with the determination to give you the very best home town newspaper possible at all times. With that in view, we ask your continued cooperation and good will.

BENJAMIN SERGEANT
IS AWARDED MEDALS

Sgt. Floyd A. Nunley of Benjamin, who has been serving overseas in India was awarded the Distinguished Flying Cross and Air Medal. Sgt. Nunley has been in the service since January 1942 and overseas since September, 1944. His wife and year old daughter, Patricia Ann reside in Benjamin.

AMERICAN HEROES
by WOODY COWAN

PIERRE, South Dakota, can be proud of Lt. Robert Pershing Williams. Decorated with the Navy Cross and the Distinguished Flying Cross, Lt. Williams, spotting a German sub while piloting a Navy Torpedo Bomber in the Atlantic, attacked the enemy without supporting fighter planes. He released four depth charges, all of which exploded close, sinking the sub and throwing enemy personnel into the water. For his heroism and extraordinary achievement Lt. Williams received the Gold Star. War Bonds buy depth charges for such heroic service. U. S. Treasury Department

Farmers Buy War Bonds for Future Expansion

ON FARMS throughout the Nation this scene is being repeated daily in anticipation of the Mighty Seventh War Loan as farmers buy War Bonds with an eye to future electrical developments planned in the post-war period. Victory Volunteer Edward Schroer, right, of Cole County, Missouri, sells a War Bond to Vernon Wade, center, while County Extension Agent Clyde Brown casts an appraising eye on Wade's fine span of Missouri mules.

Munday Observes
A Quiet July 4th

Stamford P. C. A.
Invests \$20,000
In War Bonds

Munday was like the proverbial "ghost town" for one day—that day being Wednesday, July 4th, when business houses closed their doors in celebration of Independence Day. Very little activity was seen on the streets during the day. More business houses were closed than at any other time during recent years. Only the cafes remained open. A few merchants spent a portion of the day in their offices, possibly working on reports or "catching up" on those things that had been pigeon-holed during rush hours. There might have been very few who went somewhere, but they were not in the business portion of town for long. Some went on fishing trips or outings, some took the holiday advantage of attending the Texas Cowboy Reunion in Stamford, while others just plain stayed at home and enjoyed the cool weather and early-morning shower. The Fourth was observed quietly, and, in most cases, very sensibly—and those who had stood up under the grind of several months of steady work enjoyed this opportunity for an extra day of rest.

The current \$20,000 purchase is credited on county goals in the association territory as follows: \$5,000 each to Haskell and Jones County quotas, \$4,000 to Knox County, \$1,500 each to Dickens and Stonewall County quotas and \$1,000 each to Kent, King and Shackelford county quotas. Production Credit Association in Texas are investing \$863,000 of their own funds in war bonds during the current drive. This represents practically all of the net increase in member-owned stock and earnings since the end of September 1944.

Newton Sherman,
Formerly of Munday
Accident Victim

Word was received here last week of the death of Newton Sherman, who was in an automobile tractor accident near Blythe, Calif. Sherman has a brother, E. J. Sherman, who lives in Aspermont, and a sister, Mrs. Lola Ferguson, of Haskell. He was driving his tractor on a highway at about 10 p. m. when it was struck by an approaching automobile, killing him instantly, according to testimony given at the inquest in Blythe. Mr. Sherman was born at Munday, but had been a resident of California for many years.

Annual Outing
For 4-H Clubs to
Be At Seymour

The annual 4-H Club camp for Knox County 4-H Club boys and girls will be held jointly with Baylor County at Seymour at the City Park on July 13th and 14th. Each boy and girl attending must be a regular 4-H Club member and one who is conducting a 4-H demonstration. It is going to be somewhat difficult to arrange for all the necessary food and each boy and girl attending the camp is asked to bring the following material and food articles, such as a swim suit, towel, soap, bedding, fruit, eggs, bread, meat, pork & beans, onion, tomatoes, pickle, cookies, shortening and skillet. The 4-H Club sponsors in each community are also urged to attend the camp and to help direct many different activities.

SGT. ALSTON MORROW
RETURNS TO STATES

Relatives here received a telegram from Sgt. Alston Morrow last Saturday, informing them that he had landed in New Jersey. Morrow, a cook in the U. S. Air Forces, had been stationed in England for about 34 months. He is expected home sometime this week to spend a furlough with his parents and other relatives. Morrow, who married while in England, expects to bring his wife and little daughter to America to make their home within a few months. Toby Lane and Joe Spann were visitors in Lubbock and Brownfield over the week end.

FARM FOLLIES

The whole country knew that Jack White worked hard on his farm day and night. It's too bad, you'll allow, that he's not working now. CARE on farms would save arms, legs, and sight. NATIONAL FARM SAFETY WEEK, July 22-28, 1945. NATIONAL SAFETY COUNCIL.

War Bond Quota
Practically Assured

Agent Explains
Ways To Combat
The Cotton Flea

It is nearing the time when many Knox County cotton farmers will be making flea hopper counts in order to determine the damage that is being done by this most injurious insect of the cotton plant. Examinations should be made weekly on the terminal buds of the cotton beginning when the cotton plants have from six to eight leaves or are forming squares. If the flea hoppers are present in damaging number, small blackened scales about the size of a pin's tip of an inch in size, will be observed and young flea hoppers can be found in the terminal buds, if the use of the insect catching net is used. Dusting should be started with 10 pounds of dusting sulphur per acre applied early in the morning, when the flea hopper damage is observed, and that the number of flea hoppers caught in the net exceeds 15 to 25 flea hoppers per one hundred sweeps across the tops of the cotton. Flea hoppers usually attack young, rapid growth, tender cotton, and are not so likely to be observed on slow growing stunted cotton. Flea hopper nets made by Mr. G. S. Dowell, of the vocational agricultural department of Munday, Texas, are on sale at cost at each. The use of these flea hopper nets in determining flea hopper infestation are more accurate and much faster than by trying to examine each terminal bud of the cotton by hand.

Knox County was practically assured of meeting her quota in E Bonds for the Mighty Seventh War Loan drive as The Times went to press. The county's quota of \$270,000 was almost subscribed last Saturday, when the drive officially closed, and purchases this week are expected to put her over the top. An official report from Fort Worth district headquarters listed Knox County as lacking \$5,037 on her quota as of July 2. Bond purchases have continued this week, and purchases through Saturday will be counted on the drive. W. E. Braley, county chairman, said Wednesday he had every reason to believe that the county was over, and that Munday's quota of \$91,000 would be oversubscribed by a small margin. He expressed his sincere appreciation to every citizen of the county, as well as the committeemen, who by their purchases and cooperation have again caused Knox County to meet her full obligations in this drive. Knox County has never failed to meet her quota in any of the seven War Loan Drives.

Revival Will
Begin Sunday At
Local Church

On Sunday, July 8, the revival meeting will begin at the local Methodist Church. Rev. Don Davidson, pastor, will do the praying, and he will be assisted by the Cockrell brothers. Rev. Alby J. Cockrell of Aspermont, who led the singing for the meeting last year, will be back for this meeting. He will also direct the youth meetings each evening at eight o'clock. Rev. Averett B. Cockrell of Coahoma will direct the visitation campaign and will lead the children's services each evening at eight o'clock. Both will sing in special music arrangements each evening. Morning services will be held at 10 o'clock each week day morning, except Saturdays. The evening services will be held at 8:45 p. m. on the lawn of the church. Visitors are welcome, and the entire community is offered a rare treat in the singing these visiting preachers will do. The meeting will continue through a period of two weeks.

J. L. Glidewell
Is Discharged On
Point System

Cpl. Joy L. Glidewell, mortar gunner with the 83rd division of the Ninth Army, is one of the first soldiers from Truscott to be discharged from the army by the point system. Cpl. Glidewell, 25, received his discharge at Fort Sam Houston on June 15, with a total of 118 points. He has the Infantry Combat Badge, Good Conduct Ribbon and five battle stars. He fought in the Normandy invasion, in Northern France, the Ardennes sector and through Germany. The 83rd division was the first to reach the Rhine River. His division was relieved by the Russians on the Elbe River, only 30 miles from Berlin, in early May. Cpl. Glidewell is the son of Mr. and Mrs. R. B. Glidewell of Truscott. He is married to the former Pauline Lindsey of Cooper, and has a small daughter and a son, who were born while he was fighting during the "Battle of the Bulge."

Elzie M. Jackson
Wounded on Luzon;
Now In California

Mrs. Elzie Jackson has received a telegram from the War Department, stating that her husband, Pfc. Elzie M. Jackson, was wounded on Luzon, Philippine Islands, on June 12. He was serving with the 130th Infantry, 33rd Division. Mrs. Jackson has also received letters from her husband stating that he was wounded in both his arms and in his back. He has returned to the states for hospitalization, landing at Hamilton Field, Calif., on June 29. He expects to be transferred nearer home soon. Pfc. Jackson is the son of Mr. and Mrs. Luther Jackson of the Hefner community. Mrs. Jackson is the former Marcelle West.

County Gets
Rain This Week

Rains that have ranged from showers in some sections to downpours in others have brought needed moisture to dry farm and ranch lands of Knox County during the past week. The first rain came on Thursday night, and showers and heavy rains have added moisture since that time. Munday received two hard showers Friday, from what appeared to be no cloud at all—only a small thunderhead. The clouds gathered after passing over Munday, and several farmers in the vicinity of Gore reported a downpour of around four inches Friday. A number of crops were washed out and covered up by the heavy rain. Additional rain on Wednesday brought another .82 of an inch to the Munday area, and the total for the week was 1.52 inches, according to H. P. Hill, U. S. weather observer.

Fire Destroys
Outhouse At Mahan
Home Tuesday

The Munday Fire Department was called to the Wade Mahan home last Tuesday afternoon, where fire destroyed an outhouse used for storage. Origin of the blaze was not readily determined. The building was practically destroyed by the time the firemen had laid the long line of hose from the nearest fire plug to the building. Quite a few articles, such as a gas stove, a day couch, fruit jars, etc., were destroyed in the blaze.

Sgt. and Mrs. G. M. Hawkins and daughter, Jan, of Lubbock spent several days last week visiting with Mrs. Hawkins' mother, Mrs. J. B. Bowen, and with other relatives and friends.

EDITORIAL PAGE

"What a Man Does For Himself Dies With Him—
What He Does For His Community Lives On and On."

REAL SECURITY

Job security is understandably a primary concern of millions of people, even in these days of manpower shortages. From this concern springs the tendency to look to government for reassurance, regardless of consequences.

On the question of how American workmen can achieve greater security, the comment of a spokesman for the coal industry is worthy of consideration. Speaking of the miners, he says: "The miner's improved working and living conditions of today are possible only because under the American system efficient management, cooperating with and having a responsibility to labor, has created the opportunity to work. Greater security depends on a continuation of that system, free from government strangulation."

When private management and labor work together as independent producers and the government acts as umpire, the workers in the long run are assured of fair treatment and progressive improvement. Government pulls for him. But when government is both employer and arbiter and private management is eliminated, government pulls for nobody but itself. There is no higher authority, no umpire to see that the game is played fairly.

Private employment under private management is, in a sense, merely the implement by which labor stays free of government oppression. Is this not real security?

VITAL WAR FOODS ARE EFFICIENTLY USED

More efficient utilization of all of the food nutrients of milk is one of the most significant wartime developments. During the past few years, much greater quantities of butter and of other dairy products, have been used as human food.

Food values of butterfat have been accepted to the extent that practically all of it has been used as human food ever since cows were domesticated. It is only in comparatively recent years that the vital importance of the high quality proteins, sugars, minerals and vitamins of milk have begun to be fully appreciated. This realization has been demonstrated by the current tremendous increase in the consumption of fluid milk and milk products. During the years of 1930 and 1934 inclusive, consumers in the U. S. used an average of less than 193 quarts of milk per person in terms of all fresh fluid milk and all the products made from whole milk. That consumption has risen steadily since then.

In 1944 our average consumption of all whole milk, and food products made from whole milk, amounted to an equivalent of 244 quarts of milk per capita. This is an increase of 28.6 per cent over the consumption of those same products in 1934. "Both the increased consumption per capita and the more efficient utilization of these ingredients," states Mrs. Ethel Austin Martin, Director of Nutrition for the National Dairy Council, "have been important factors in maintaining the nutritional standards of the nation during this war period."

FEEDING PEOPLE TOUGH JOB

A food authority recently made the observation that: "The farmers of America are winning the battle of production on the food front, and the nation's consumers may reasonably expect that the 1944 food supply will equal or exceed the near record total of 1943." But food "in the raw" on the farm is not food on the table ready to eat.

Food is usually produced many miles from the point of consumption. No matter how much is produced, it is of no benefit to consumers until it is distributed. The food distribution industry has been operating so efficiently during the emergency that few people recognize the vital link which it provides between the producer and consumer. Nor is there outward indication of the struggle of food distributors to keep retail channels functioning smoothly in the face of a dismaying manpower shortage and other operating problems.

A short time ago, one representative of a large food chain store told of the exhausting effort of a handful of butchers to supply retail outlets with cut meat where women serve as clerks in the meat departments. These butchers have so far kept pace with demand. The counters and cases display the same expert touch as when each shop was staffed by an expert butcher. Consumers live in blissful ignorance of this particular shortage in experienced personnel. Similar problems are encountered in practically every phase of distribution. They have been overcome by ingenuity, resourcefulness and hard work.

No one knows better than the retailer the difficulties of moving food from the farm to the table under wartime conditions.

A JUGGLING ACT

With all due respect to the OPA and the perplexing problems with which it is confronted, the fact remains that many absurdly unfair rulings have been continued in force.

Its Highest Price Line Limitation order, referred to as MPR 330, is a classic example. Under that order, a store which sold a certain line of goods at certain prices on an arbitrarily fixed date in 1942, is not allowed to raise the price even though goods are no longer manufactured to sell at that price. On the other hand, a store that had no price limitation on the arbitrary date in 1942, can buy goods in question at manufacturers' current prices, and sell them at higher prices.

After such inconsistencies are pointed out to the OPA, one can only believe that its refusal to correct them is due to its hope that the public will think that it is holding prices down on certain commodities, when it is merely juggling figures and penalizing low cost retail stores. This does not benefit the consumers, nor control inflation.

The public understands the importance of rationing and wishes to cooperate, but it is confused and discouraged by the complicated rules and restrictions with which it is expected to comply and still carry on. It is instances like the foregoing, multiplied a thousands and ten thousands times, that are awakening the people to the danger of a growing and uncontrolled bureaucracy. OPA makes its own job harder by such practices.

The only hope of the people for correction of bureaucratic inefficiency, is to turn to Congress, because while bureau heads claim to have open minds, they leave policy decisions to subordinates with closed minds. The people are sick and tired of the endless red tape with which they have contended in the simplest affairs of life, while straining to do their part, and work and save to help win this war.

THEY HELP SAVE LIVES

As part of its continuous work in promoting fire prevention, the National Board of Fire Underwriters established annual Gold Medal Awards Competition for outstanding public service in the field of fire prevention, the National Board of Fire Underwriters and radio stations. The national winners for 1944 were the Christian Science Monitor of Boston, and Radio Station WLS of Chicago.

The Monitor had conducted a five-year civic crusade in the interest of community fire safety, which resulted in the enactment of a new building code (the first since 1907), a new set-up for public protection headed by a State Board of Standards and Appeals, a new awareness of the fire hazards that still must be removed.

Station WLS was selected "for its practical and consistent year-around efforts on behalf of rural fire prevention as a wartime service to agriculture. Typical of such service was the arranging and broadcasting of a demonstration showing how the building of 3,000-gallon farm cisterns could provide water for fighting rural fires, which stimulated specific attention to the problem in over 200 communities."

After giving worthy mention to other newspapers and radio stations, the judges said: "Despite some of the set-backs caused by haste, America's record of all-out war production, to a greater extent than is generally recognized, has been made possible by the fire and accident prevention measures produced by years of experience and continuously promoted by press and radio. By singling out a few worthy examples, we take pleasure in paying tribute to the whole host of newspaper editors and radio directors who so ably serve the best interests of their communities and the nation."

Irvin S. Cobb said: "If it ever becomes my misfortune to go insane, I want to go live in Washington where I will not be noticed."

In The WEEK'S NEWS

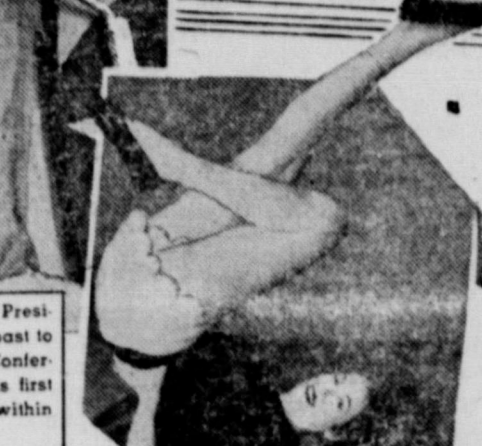

OLE SWIMMIN' HOLE—Even in the midst of battle, Americans can't resist the urge of the old swimming hole. Here, on bloody Okinawa, Yanks of the Sixth Marine Division utilize a bomb crater as pool, with smashed Jap plane in background.

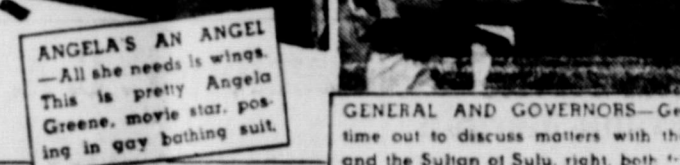

THE WIRE THAT REMEMBERS—Note Host, Merchandise Manager of Lear Home Radios, predicts that the Lear Wire Recorder, "the wire that remembers," which will be a special recording feature on the Lear Home Radio sets, will revolutionize the radio for home entertainment.

FLYING PRESIDENT—President Truman flying to coast to close World Security Conference in San Francisco. Is first U. S. President to fly within borders of our country.

Gems Of Thought

PRUDENCE

Prudence is a conformity to the rules of reason, truth, and decency, at all times and in all circumstances.—John Mason.

Those who, in the confidence of superior capacities of attainments, neglect the common maxims of life, should be reminded that nothing will supply the want of prudence.—Samuel Johnson.

The divine ruling gives prudence and energy; it banishes forever all envy, rivalry, evil thinking, evil speaking and acting; and mortal mind, thus purged, obtains peace and power outside of itself.—Mary Baker Eddy.

The greatest good is prudence; a more precious thing even than philosophy; from it spring all the other virtues.—Epicurus.

Let prudence always attend your pleasures; it is the way to enjoy the sweets of them, and not be afraid of the consequences.—Jeremy Collier.

Prudence is a quality incompatible with vice, and can never be effectively enlisted in its cause.—Burke.

RESCUE IN LABRADOR WILDERNESS

A Coast Guard helicopter drops gently to the surface of a frozen-over lake near a remote weather station with one of 11 Canadian plane crash victims rescued by the Coast Guard craft from the bleak wilderness of North Labrador. The helicopter is landed on a strip of canvas to prevent the floats from freezing to the ice. With Coast Guard Lt. August Kleisch, of Cincinnati, Ohio, as pilot, the helicopter took aboard the marooned fliers by means of a rope ladder and moved them, one at a time, to the weather station 32 miles away.

Goree News Items

T. S. Hollis, A. M. M. 2/c in the Navy, and Mrs. Hollis and little daughter, Sharon Lee of Norman, Okla., were week end visitors here with Seaman Hollis' grandmother, Mrs. Margaret Madole, and with Dr. and Mrs. W. M. Taylor.

Mr. and Mrs. W. R. Couch have had word from their son, Pfc. Wayne Couch, who is serving with the forces in the South Pacific, that he is well. Some interesting snapshots were made by Pfc. Couch and Cpl. Forrest Daniell, showing some of the activities of the soldiers in that area. The boys are anxious to finish the war and come home to stay.

Seaman and Mrs. Dennie Ford came in Tuesday for a furlough with relatives.

Capt. Gene Heard left last Friday for his post of duty after a visit here with his parents, Mr. and Mrs. W. S. Heard, and other relatives.

Miss Bernice Goode and a group of young people enjoyed a picnic and outing at the Seymour Park last Monday afternoon.

Mrs. Ella Lawson has returned from Littlefield, where she visited her daughter and family. A granddaughter, Frankie Denham, returned with her and will spend the summer here.

Hai McCauley and daughter, Pattie, of Los Angeles, Calif., left for their home last Friday after spending three weeks with Mr. McCauley's parents, Mr. and Mrs. W. F. McCauley.

Mr. and Mrs. Arnold Haskin and daughter, Connie Jo, have returned from a trip to the Rio Grande Valley. They visited relatives in San Benito and Harlingen, and also at San Antonio. An aunt, Mrs. Nanie Heath of San Antonio, accompanied them home for a visit.

Mrs. John Polson, who has been a patient in the hospital at Lubbock where she underwent surgery, is at home and is improving. Mrs. Polson will return to the hospital in August for further treatment.

Mrs. E. B. Crites left last Friday for Paris, where she is visiting her daughter-in-law, Mrs. Ben Crites, and her children.

Miss Eunice Thornton of Wichita Falls was a recent visitor here with her parents, Mr. and Mrs. Walter

LETTERS FROM THE PEOPLE

BENJAMIN BOY TELLS OF ITALY EXPERIENCES

The following is a letter from Cpl. C. W. Harbert, Jr., who is with the Army Air Forces glider division in Italy, to his parents, Mr. and Mrs. Wallace Harbert of Benjamin, who are now in defense work in Houston:

Guidonia, Italy
June 9, 1945

Dear Mother and Dad,
Well, things have quieted down over here, and we are back in Central Italy. We are living in buildings in a small place called Guidonia, 26 kilometers from Rome. Some place that Rome.

I guess you wonder how I can tell you all this. Censorship is being relaxed, and we can tell where we are.

I will try to tell a little about what we have done, and see if it gets through. We left Newport, Va. on April 1, 1944, arrived at Oran, North Africa on April 17. About half of our company pulled in at Oran; the others went to pull in somewhere else. They were bombed and 500 soldiers were killed.

We changed boats at Oran, and arrived in Naples on April 28. We did alright on the boat. I didn't get sea sick. For five or six days out I didn't eat anything. From then on I couldn't get enough to eat. We had two meals a day—"C" rations.

When we left Naples, we rode in German box cars for two days and nights, and arrived at Bari. We stayed there for six or seven days. Jerry planes came over several times.

Things were not going to good there at that time, so one night we pulled out for Sicily. There were 164 men in my outfit. We lost one man in Naples, one or two in Bari, and two just before we went to Sicily.

We led a very uneventful life in Sicily. We got our gliders there and came in them into Italy.

I have several pictures I made in Rome, Pisa, and Florence. Have several rolls I have not had a chance to have developed.

I have a miniature leaning tower of Pisa made of chalk, but it got broke. It was really nice, I had it rolled up in a shirt and had it in my pack. It just couldn't stand the gaff, I guess.

I don't know how long we will be here. I like it O. K. It's a lot better than some places I have been.

I think we are to bring re-captured American prisoners of war back from Northern Italy to Naples to put them on boats to the states.

I have noly 56 points, so I don't have to worry about being sent back to the states on points. I don't have enough time over here to be sent back on rotation, so I don't imagine I'll be home for a time.

It's been kind of a home coming around here the past two days. Hickman came out yesterday. He was transferred into M. P. outfit and is on duty in Rome. He is trying to get back into our outfit, but don't know if he will make it or not.

Elton Patterson (son of Judge and Mrs. J. C. Patterson) came out a few days ago. He was in a rest camp near here, found out where I was and came to see me. We went to Rome and saw the sights.

Mother, you can't even imagine how glad I was to see him. Meeting a friend from home over here means something. Red has aged since I saw him last; however, that's been several years.

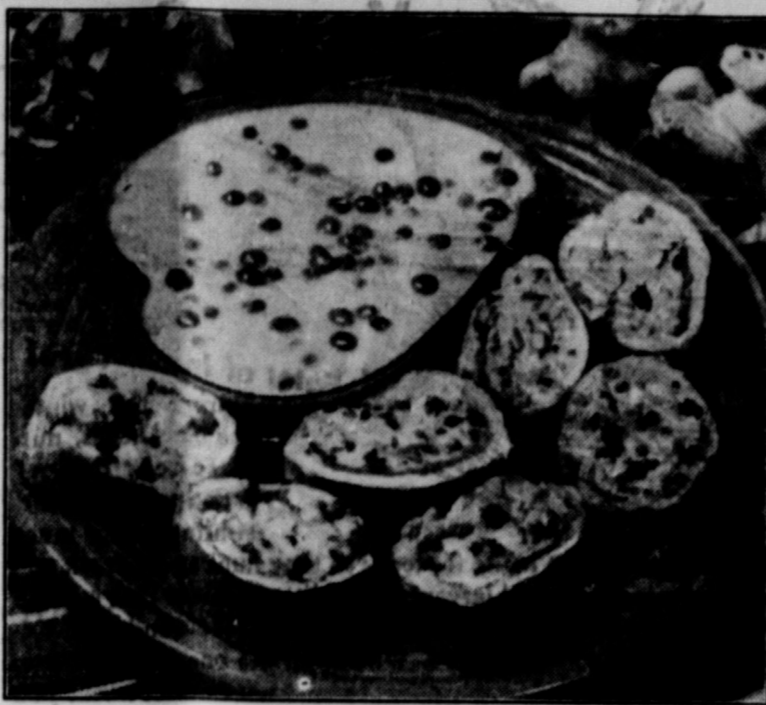

A lot of boys from around here are getting killed and wounded in the Pacific theatre. Every Knox county paper tells of two or three, sometimes more.

I must go now, will write you again soon.
All my love,
C. W.

Mrs. Sid Castles, Miss Dorothy Castles, Mrs. George Castles and little daughter, Ann, and Lient. and Mrs. Jack Castles, all of Anson visited in the home of Mr. and Mrs. E. W. Harrell several days last week. Lieut. Castles recently returned to the states after being liberated from a German P. O. W. camp.

Mrs. G. R. Elland, Jr., of Dallas came in last week for a visit with her husband's parents, Mr. and Mrs. G. R. Elland, and with other relatives.

Tender Egg Rolls Are Timely New Dish

GOLDEN egg rolls, hot and tender. Served with bright green peas in cream, make this appetizing luncheon entree. Though new to your menu planning book, flaky egg rolls are easy to make — simply spread a rectangle of biscuit dough with flavorful egg filling, roll up like a jelly roll and bake. Slice to serve.

Egg Roll Serves 4
Biscuit Dough:
1/2 cup blended shortening
2 cups sifted flour
1 teaspoon baking powder
1/2 teaspoon salt
1/2 cup milk

Sift together the flour, baking powder and salt. Cut in the blended shortening until the mixture is the consistency of cornmeal. Add milk, stirring until a soft dough is formed. Turn on a lightly floured board and knead a few times. Roll out into an 8 x 12-inch rectangle.

Filling:
6 hard-cooked eggs
1/2 cup minced celery
1 tablespoon minced parsley
1/2 cup salad dressing
1 teaspoon salt
1 teaspoon prepared mustard
2 teaspoons horseradish

Chop eggs, add celery, parsley, salad dressing and seasonings. Blend together. Spread filling over dough evenly to within one inch of the edges. Roll up like a jelly roll. Press ends together to prevent filling from cooking out. Place on a baking sheet. Bake in a hot oven (450° F) about 25 minutes or until well browned.

Conserving our sugar ration calls for dessert recipes that use little or no sugar, like these crunchy little pecan balls that require only 1/4 cup honey for sweetening. So delicious they really do "melt in your mouth" these are ideal for party refreshments.

Pecan Balls
Yield: About 4 dozen

1 cup blended shortening
1/2 cup honey
2 teaspoons vanilla
2 cups sifted flour
1 teaspoon salt
2 cups finely chopped pecans

Cream blended shortening, honey and vanilla until fluffy. Sift flour with salt and add to creamed mixture, blending thoroughly. Add chopped pecans, mix well. Shape into balls the size of walnuts and place on a greased baking sheet. Bake in a slow oven (325° F) about 20 minutes. Cool, then roll in powdered sugar.

brother and family, Mr. and Mrs. Walter Counts, in Rule over the week end.

Mrs. Eli Murphy of Clarksdale, Miss., came in last week for a visit with her son-in-law and daughter, Mr. and Mrs. E. L. Morgan.

E. V. Shackelford, who has been serving as relief depot agent at Iowa Park, returned to his home in Goree last week and checked in as depot agent there last Thursday.

Miss Edith Simons and Mrs. Carl Morgan, who are attending school in Denton, visited with home folks here over the week end.

Many Types Of Employment Count On Social Security

Wichita Falls.—Most types of employment are covered under the old-age and survivors insurance provisions of the Social Security Act, said R. L. Surles, manager of the Wichita Falls Field Office of the Social Security Board. He pointed out, however, that cooks, maids, butlers, chauffeurs, and gardeners, who are employed by private families, are not included under the law. If these same workers should secure jobs in hotels, cafes, service stations, or in other commercial or industrial establishments, they would be included by the system.

Employment not covered by the old-age and survivors insurance system of the Social Security Act in general consist of: farm labor; domestic service; government, city, and state employment; work for an educational, charitable, or a non-profit organization; certain types of professional work and services performed for a son, daughter, spouse, or parent.

Generally speaking, covered employment is a job in a factory, shop, mine, mill, store, office, garage, or bank.

Sied Waheed and son, Donald, spent the week end in Lubbock, visiting with Mrs. Waheed and children, and with other relatives.

Mr. and Mrs. C. H. Giddings left last week for points in Kansas, where they are visiting with Mr. Giddings' mother and other relatives.

C. C. Drapper of Dallas visited with relatives and friends here over the week end.

Fixing Up the Farm by BURTON WILLIAMS

Portable Granaries
PORTABLE granaries, built sturdy and durable, come in handy on the farm these days, with existing storage facilities filled to overflowing. Not only are they easy and inexpensive to build but they offer conversion possibilities when storage demands decrease.

Such granaries can be built largely of non-critical, fireproof materials. Lumber is needed only for framework. Non-critical asbestos cement board is ideal for floors and sidewalls, nailed to the inside of the frames. The same material also makes excellent weatherproof roofs. Asbestos cement board will protect the grain against wind, rain, snow, moisture and rodents. It is rigid and strong and can be cut with ordinary tools and fitted together tightly to prevent leakage of grain.

The joints beneath the sheets can be made waterproof by setting edges of the sheets in asphalt plastic.

Portable granaries may be placed at convenient points on the farm. Among conversion possibilities are brooder houses, milk houses, fuel storage bins, hog farrowing houses and seed grain storage bins.

Truscott Club Meets Thursday At Baptist Church

Mrs. C. A. Bullion was hostess to members of the Truscott Home Demonstration Club on Thursday afternoon, June 28, in the basement of the Baptist Church.

Mrs. J. R. Brown presided over the brief business session. The remainder of the time was spent at stenciling, each person having brought materials with which to work. Some very attractive bedroom and kitchen curtains, tea towels, guest towels and luncheon cloths were finished during the afternoon.

The next meeting will be held on Thursday, July 12.

Wesleyan Service Guild Has Social Monday Evening

Members of the Wesleyan Service Guild met last Monday night at the Methodist church for a business and social meeting. Hostesses for the occasion were Mrs. J. W. Massey and Ruth Baker.

Miss Merle Dingus was leader of the program, "For Better Understanding," with interesting parts being given by Mrs. Forrest Yancy and Mrs. Joe Bailey King.

At the close of the social hour, brownies and apricot sherbert were served to the following:

Mmes. Dan Bilingsley, Forrest Yancy, Oscar Spann, Don Davidson, Lane Womble, Joe Bailey King; Misses Merle Dingus, Florence Gaines and the hostesses.

Mr. and Mrs. Vernon Benson and Miss Wanda Joyce Benson, formerly of Benjamin, have gone to Oak Ridge, Tenn., to accept employment in defense work.

Benjamin Family Holds Reunion As Son Returns Home

A family reunion was held in the home of Mr. and Mrs. Wynan Meinzer of Benjamin recently, honoring their son, L. H. Meinzer, C. M. M., better known as Punie, who has been in the Southwest Pacific for over 32 months. Others present were Mr. and Mrs. Pete Meinzer, and Mr. and Mrs. Bob Meinzer, San Diego, Calif.; Mr. and Mrs. Bert Swaner and daughters of Holiday and Mrs. Eugene Howse of Fort Worth. All of their children were present except Douglas, who is in the Pacific, and Buck, who is in Europe.

Mrs. M. I. Shipman of Oak Ridge, Tenn., was also a guest in the Meinzer home.

Monthly Social Of WSCS Held At Travis Lee Home

Members of the Methodist W. S. C. S. met last Monday afternoon at the home of Mrs. Travis Lee for their regular monthly social.

Mrs. Lee Haymes was leader of the program, "The Door of Understanding." Mrs. Haymes was also in charge of the meditation. Mrs. H. A. Pendleton gave a very interesting talk on the topic of the day.

Mrs. M. F. Billingsley, president, was in charge of the business meeting, which was followed by the social hour.

Present were Mmes. Eb Lowe, S. A. Bowden, W. R. Ford, G. R. Eiland, H. A. Pendleton, Joe B. Roberts, Chester Borden, Don Davidson, W. R. Moore, M. F. Billingsley, Lee Haymes, J. R. Bate-man, Miss Shelly Lee and the hostesses. G. S. Dowell and Rev. Davidson were guests.

REFRIGERATOR FREEZING

If garden peas, beans or greens get ahead of family appetites now and then, a small quantity may be held over in freezing compartment of the home of the refrigerator, according to Mrs. Winifred J. Leverniz, specialist in food preservation of the A. and M. College Extension Service.

For finest eating quality, garden vegetables must be gathered when they reach just the right stage of maturity and tenderness. Left in the garden beyond this stage, they lose their flavor and food value and become tough. Gardeners will be wise to pick all vegetables when they are just right, even if there are more than the family can use one day. The surplus may be frozen and kept in the refrigerator for meals a few days ahead.

Wash and prepare the vegetables as for cooking. Put them in a cheese-cloth bag and dip in boiling water for the length of time recommended for freezing in lockers—approximately two minutes. Then cool immediately by dipping in ice water. Drain and place vegetables in cellophane bags, seal with hot iron and place in the freezing compartment of the refrigerator. Vegetables frozen this way will be ready to cook in just a few minutes. Never try to hold them longer than a week or two in the refrigerator.

Lieut. Jack Pippin, who returned home several weeks ago from England, where he served with the U. S. Air Forces, has received his discharge. He came in this week for a visit with friends here.

Miss Martha Hannig, who is attending Hardin-Simmons University in Abilene, spent the week end with her parents, Mr. and Mrs. Frank Knapp of Rhineland.

Sied Waheed and son, Donald, attended the rodeo performance at the Stamford Cowboy Reunion last Monday night.

Friends and Enemies in the VICTORY GARDEN

During the winter the chickadees, nuthatches, downy woodpeckers and similar birds must draw on nature's store house for food; so they hunt every crack and crevice for insect eggs and larvae. Naturalists estimate that a single one of these birds will eat at least one hundred thousand such tidbits per month and often more. When you see one of these little fellows working head downward in the winter on a tree trunk you know he is making things easier for the Victory gardener next year.

War Against Insects

In the summer the good work continues. These birds eat spiders, beetles, bugs, caterpillars, moths and other insects and help keep the bug population down. The gardener will still have his troubles with bugs, especially with aphids which should be sprayed with black leaf 40; and with chewing insects that call for lead arsenate or similar sprays, but without the birds he would be overrun.

Caution In Using Insect Poison Is Needed Precaution

Texas Victory gardeners—there were more than one million of them last year—should use great caution in handling some of the spray and dust insecticides which they will use on their vegetables this year, says R. O. Dunkle, County Agent. Many of these mixtures are harmless to humans, while others contain active poisons. Many death-dealing combinations are required to control worms and bugs which dine off gardens.

Extra precaution should be taken in handling and using arsenical mixtures such as calcium arsenate, lead arsenate and paris green; and equal care exercised with sodium fluoride, sodium fluosilicate, cryolite and nicotine compounds, Dunkle says. When mixing or applying insecticides keep the mouth and eyes protected and the body well covered. Do not spray or dust with legs, arms, or shoulders bare; and wash face and hands thoroughly after contact with any insecticide. It also is a good practice frequently to wash clothing worn while spraying.

Dunkle suggests these additional safeguards: Don't keep sodium fluoride or other insecticides where foods are stored, and always see to it that containers are plainly marked, kept tightly closed and placed well out of reach of children. He cautions not to leave open containers in which materials are being mixed, nor set aside batches of prepared insecticides where animals can lick them in passing. Domestic animals and livestock should not be allowed to feed on crop remnants which have been sprayed, nor have access to drinking water contaminated by poisonous insecticides.

As further precautions he recommends burning bags which contained insecticide material, and burying discarded materials deeply and away from water supply or drainage. Arsenical containers should be burned in the open with care to avoid exposure of persons or animals to the fumes.

Scholarship To Texas Tech Goes To Bobby Broach

Bobby Broach, local vocational agriculture student and Future Farmer of America received a scholarship in Texas Technological College this week. Bobby has completed two years of vocational agriculture in the local school and has been president of the Vernon District F. F. A. This scholarship is given by the Sears-Roebuck Foundation and is the most valuable scholarship awarded through the Munday high school. It is worth \$150.00 and is paid to the student in cash when he enters college.

Mr. G. S. Dowell, vocational agriculture teacher received the following notice on the Fourth of July: "Your applicant, Bobby Broach, has been accepted as one of the boys to receive a scholarship for the agricultural division of Texas Tech College given by the Sears-Roebuck Foundation. These scholarships are based on leadership, character, interest in agriculture, scholarship and a determination to finish college." Mr. Dowell is an alumnus of the institution.

Young Broach will enter college in September and expects to keep up his agriculture interests here while attending college and to make a career of agriculture work.

Auction Sale Has Busy Day

The Munday Livestock Commission Co. reports a big run of cattle for last Tuesday's sale. All classes of cattle sold steady for the week. Canner and cutter cows sold from \$5.50 to \$7; butcher cows, \$7.50 to \$10; fat cows, \$10.50 to \$12.50; butcher bulls, \$6.50 to \$8.50; beef bulls, \$9 to \$11; butcher yearlings, \$10 to \$12.50; fatlings, \$12 to \$15; rannie calves, \$6.50 to \$8.50; butcher calves, \$9 to \$12; fat calves, \$12.50 to \$14.75.

WAR BONDS in Action

U. S. Treasury Department

WARTIME MILK PROGRAM

A PROGRAM planned to secure the milk needed for wartime by assisting dairy farmers to develop more efficient production methods is now under way on a national scale.

Sponsored by the U. S. Department of Agriculture, the War Food Administration and State Extension Services which includes the county agricultural agents, in cooperation with the Dairy Industry Committee, the 8-Points in the program are:

- (1) Grow an abundance of high-quality roughage.
- (2) Balance your herd with your feed supply.
- (3) Keep production records on each cow in your herd.
- (4) Practice disease-control methods.
- (5) Produce milk and cream of the highest quality.
- (6) Adopt labor-saving methods.
- (7) Take care of your land.
- (8) Develop a sound breeding program.

the rate of payment on butterfat should encourage the production of butter, particularly in the farm-separated cream areas.

The seven dairy industry associations whose thousands of members are represented in the Dairy Industry Committee are: American Butter Institute, National Cheese Institute, Dairy Industries Supply Association, American Dry Milk Institute, Evaporated Milk Association, International Association of Ice Cream Manufacturers, International Association of Milk Dealers.

Mrs. Allen Seale and two children of Dallas are here for a visit with Mrs. Seale's parents, Mr. and Mrs. C. R. Parker and other relatives.

Miss Sula Bell Cox, who is employed in Wichita Falls, has returned to her work after spending her vacation here with her mother and other relatives.

G. B. Hammett was a business visitor in Wichita Falls last Friday.

REID'S HARDWARE

"Yessir, Jim's got a great system"

A GREAT SYSTEM for Jim, that is. But a little unfair to the other swimmers. Swimming a race or running a business is pretty easy when you don't have to pull your own weight!
Take government-owned electric power-systems, for example. They pay little or no taxes. When they need money, they can call on the U. S. Treasury and get it at little or no interest. If they have losses, why worry? You, as a taxpayer, will take care of that.
Business-managed power-systems do not have these special privileges. They pay their full share of taxes, pay fair interest on any loans, pull their own weight all the way through.
Fortunately for you and your tax bill, over 80% of all the electric power in this country is produced by tax-paying, self-supporting electric companies owned and operated by millions of Americans.
And how well are these companies doing their job?
Electricity is still available at low pre-war prices. There is enough to meet even the gigantic demands of war. And there will be plenty to help give you greater comfort and convenience in the electric living of the post-war world.
* Listen to "THE SUMMER ELECTRIC HOUR" with Robert Armstrong's Orchestra and guest stars. Every Sunday afternoon, 3:30, CWT, CBS Network.

FOR PROFITS . . .
Bring us your poultry, eggs, cream and hides. Here you'll always receive courteous treatment and highest possible prices.

At The Churches

BENJAMIN METHODIST CHURCH
J. P. Patterson, Pastor
CALENDAR
Preaching Second and Fourth Sundays at 11:00 a. m.
Church school 10:00 a. m. each Sunday.

METHODIST CHURCH
Don R. Davidson, Pastor
10:00 a. m. Church School, A class and a welcome for everyone.
11:00 a. m. Morning worship. Gospel messages with a spirit of humble ministry.
7:30 p. m. League meeting for Youth. An opportunity for training for Christian service in a happy fellowship.
8:30 p. m. Evening Preaching Service. An informal service with evangelistic messages and good congregational singing.
This church program is for you.

There are four different time zones in the United States—Eastern, Central, Mountain, and Pacific.

FIRST BAPTIST CHURCH

Read the 27th chapter of Matthew and come to the service next Sunday. You will receive a blessing, you will be taking your place in the Lord's service, and you will be setting a good example for some one else; all three of which are worthy things to do.

Memorial service for Frank E. Morgan, son of Mr. and Mrs. Era Morgan, who was killed in action on Okinawa June 17th, will be held at the church Sunday afternoon at 2:30 o'clock.

There will be no service Sunday night on account of the meeting at the Methodist Church. Hear Brother Davidson, and pray for the meeting.

W. H. Albertson.

SOME THINGS TO REMEMBER ABOUT THE BOMARTON CIRCUIT
Next Sunday, July 8, is quarterly conference at Hefner. The district superintendent will preach at 11 a. m.

m. Dinner will be served at noon, and the conference will be held in the afternoon. I hope we will have good reports. Bomarton will ask for a full time preacher.

The meeting at Union Chapel will begin on Friday night, July 13, and close on Sunday night, July 22. We will have as our preacher, Rev. R. L. Butler, pastor of the Methodist Church at Throckmorton, who has traveled the Holy Land, and we hope you will hear his lecture on the Holy Land.

At Hefner, the meeting begins July 27—on Friday night before the 5th Sunday, with Grady Adcock, pastor of the Methodist Church at Goree, as our helper.

I hope you will keep these dates in mind, or where you can rehearse them. May I see you there?
J. R. Bateman, pastor.

Spring rides no horses down the hill.
But come on foot, a goose-girl still.
And all the loveliest things there be
Come simply so, is seems to me.

DDT, often called the "miracle insecticide", is not yet available to civilians.

National Income

By GEORGE S. BENSON
President of Harding College
Searcy, Arkansas

HOW WELL a man lives is a matter that depends largely upon his income and how he divides it. How well the people of any nation live is a similar matter. It depends upon the national income and how it is divided. Just like family income, national income changes from year to year and it is not always divided the same way.

National income is the grand total of what everybody in the nation earns.

The United States Department of Commerce keeps track of our national income figures pretty well, year by year. Already we know that the income of all Americans totaled 160.8 billion dollars in 1944 and that workers got 72% of it, or 116 billion dollars. By "workers," I mean people who draw wages and small clerical salaries. Corporation profits that year ran just under ten billion dollars or 6%.

Worker's THERE is a popular Reward notion that people who work don't get very much of the fruits of their toil. Not long ago somebody repeated a 40-year-old piece of political propaganda to me, believing it every word. He said, "Here in America 2% of the people have 90% of the wealth." There is not much to say about this statement: It is not true. It has never been nearly true.

Last year the national-income dollar went like this: 72% to American workers, 6% to corporations, 8% to small businesses in the form of profit, 7% to farmers as return on what they produced, and another 7% split several ways:

to landowners and stockholders in form of rents and dividends, and to money lenders in the form of interest. Of course all years aren't alike but they vary less than you might think.

Mutual NATIONAL income Effort bobbles up and down but working people always get most of it. Back in 1939, which was a typical pre-war year, our national income was not half as high as last year's: 79.8 billion dollars to be exact. Then workers got 68% of it, and 6% was corporation profit; not much change in how the income was divided, but less than half as much money for everybody.

Back in 1929, the year Hoover succeeded Coolidge as President, national income was 83.3 billion dollars; bigger then, than in 1939. Corporation profits were higher—9% as against 6% in recent years. But wage earners and office help were getting 64% of national income, even then. In 1932 (the depression) when corporations generally earned 8% less than nothing, wages climbed to 97% and still some working people went hungry.

A fair analysis leads to this observation: Workers, laborers and clerical people get more money with the slightly smaller percentage of a big national income than with the bigger percentage of a small national income. Moral— we will all fare better working together for a big national income than by wrangling about who gets most of it, and then having a small one.

the public cooperate wholeheartedly with the local sanitation policy," declared Dr. Geo. W. Cox, State Health Officer.

"Consider, for example, the seasonal housefly hazard. It has been determined that 120 eggs are laid by a single female at one time and that a generation is produced every ten days at summer temperature. Thus, the possibility of reproduction during the warm months of a single fly runs into many millions. While the housefly does not bite, it is dangerous because it breeds and feeds upon both filth and food.

"Again, rats are the source of several diseases of man including plague, typhus fever, infectious jaundice, and trichinosis, to mention some of the more important ones. Homes can be made comparatively ratproof by removing rubbish and garbage accumulations and by closing avenues of access. Approved poisons and traps should be employed when a real problem presents itself.

"Removal of containers of stagnant water such as tin cans and barrels will do much to eliminate the mosquito for householders. The householder needs to devote more seasonal attention to mosquito eradication than he is today if this is to be properly controlled.

"In general, good and thorough housekeeping, inside and out, is the personal and civic duty of every home dweller. It not only adds to the pleasure of living and removes disease hazards, but increases the appearance of one's surroundings."

Florida, with an increase in population of 27.9 per cent, was the fastest growing state during the period of 1930-40.

FOR SALE—Ford tractor and equipment; 3-bottom mould board plow; feed grinder; cream separator, and other farm equipment. Jones and Eiland. 51-tfc.

Navy To Restrict Overseas Mailing of Papers, Magazines

DALLAS—Facing gigantic mail problems, the Navy is putting into effect regulations restricting the mailing of newspaper and magazines to Navy, Marine and Coast Guard personnel overseas. Beginning July 1, 1945, post offices will accept only publications that are requested in writing by the addressee.

The new plan will release approximately 1500 men from the distribution and directory service of second class mail to process letter mail which has increased 108 per cent in the last year.

Figures from the Fleet Post Office, San Francisco, California, reveal that total mail has risen from 49,719,867 pieces in May, 1944, to 106,129,750 pieces in May, 1945. Postal officials expect this quantity to rise still farther.

Aware that magazines and newspapers are essential for the morale of men in forward areas, the Navy will offset the curtailment of individual subscriptions by a bulk shipment plan which for the first time will enable ship stores to stock a wide variety of full-size magazines.

To assure immediate magazines availability, the Navy will buy 8,000 packages weekly of the overseas editions now used by the Army. The first shipment will be sent the end of June, each package supplying a range of reading matter for 150 men.

The Navy, in addition, will expand the original selection of magazines. Based on reading preferences of the men, 295,000 copies monthly of 55 other magazines which do not have overseas editions will be purchased. In the middle of July, this group will be sent for sale at every shore station and ship and is expected to be the permanent plan of magazine distribution to Navy men, giving them the same reading choice they would have at their own home news stand.

Sgt. Jerry Kane left last Monday to report for duty at the air base at Sioux Falls, Idaho. Jerry spent about four weeks here with his wife and daughter and with other relatives following his return from overseas.

Carrie Nation's maiden name was Moore. Her first husband's name was Gloyd. She became famous as a saloon-wrecker after she married David Nation.

Weekly Health LETTER

Issued by Dr. Geo. W. Cox
M. D., State Health Officer
of Texas

Austin, Texas.—"Environmental sanitation is the public health term for clean, safe housekeeping whether it applies to a private home and its surroundings or to towns and cities. Among other things, it insures safe drinking water, proper garbage and sewage disposal, the safe service of wholesome food including milk, rat and insect control, and general cleanliness of the premises. However, for environmental sanitation to be effective, it is essential that not only public health officials but the citizens living in their respective homes or operating establishments serving

TEXANS SHARE in the WAR

Good news for all Texans... and for thousands of army officers and enlisted men... was the appointment of Lt. Gen. Walton H. Walker as commandant of the army's Eighth Service Command.

For all can be sure that the doughty Texan will do a good job there, as he did in Europe, where he commanded an armored unit for Gen. George H. Patton.

General Walker, who took his new post in Dallas on June 22, was honored the day before when his home-town, Belton, celebrated "Walker Day." Complete with parade, barbecue and the appearance of Gov. Coke Stevenson and other notables, the gala day told the Texas general that his neighbors truly welcomed him home and to his new job.

Maj. Gen. Richard Donovan, who preceded General Walker as commanding general of the Eighth Service Command, made thousands of friends in Texas, and was a staunch supporter of all civic and patriotic enterprises within the state. When he was recently transferred to Washington, Wayland D. Towner, general manager of the United War Chest of Texas, said: "General Donovan was a tower of strength in our campaigns on behalf of the National War Fund, as he was in all other war-related efforts. His all-out support helped Texas achieve its almost-miraculous success in the 1943 and 1944 drives."

State and county war chest leaders recall the many appearances made by army personnel during last year's National War Fund campaign. They recall the colorful "War Chest Commando" unit which toured a large portion of the state, and which could not have done its work without the six officers and men who took part under assignment by General Donovan.

Now comes a typical Texan—General Walker—to command of the Eighth Service Command, and Texans naturally feel that this help for their patriotic enterprises will continue.

General Walker, one of the most famed field commanders during the bloody battles that preceded our victory over Germany, is a vigorous, scrapping Texan—every inch a soldier. A graduate of West Point, he is termed a master at the intricate task of commanding large army units.

That he will take a prominent part in Texas enterprises is inevitable. Already admired and loved by the people of the state, he is

Spraying for insect enemies should be so done as to avoid killing our friends. Black leaf 40 sprays for aphids will not kill bees, nor will lead arsenate for it does not get into the honey.

in a position to exert civilian, as well as military leadership.

As a soldier and veteran of long months of overseas fighting, he knows the real value of USO, War Prisoners Aid, United Seamen's Service and other National War Fund agencies which serve our fighting men.

Every state and local leader who takes part in the October war fund drive in Texas will be inspired to greater effort by the fact that this great Texas military leader is with them in their work.

Old Boss Visits Disabled Vet. To Offer Job Back

SCHENECTADY, N. Y.—Servicemen a mite worried about getting their old jobs back will have little need for concern if they had a boss before the war like that of Sgt. Garrett Waldron, this city. In Waldron's case, the mountain went to Mohammed, or more specifically, the boss went to the former employee.

Sgt. Waldron, whose legs were amputated in a German prison camp, recently concluded a convalescent furlough here during which time the home folks' celebration was topped off by a visit from a General Electric personnel man.

What made it still nicer was that the visitor himself was a former GI Joe, who now wears an artificial leg resulting from wounds received in Italy. Elmer Jebo, the former high school athletic coach turned personnel interviewer, confined his talk to hashing over the old times, then popped the \$64 information. "Any-

Texas Teachers Plan To Save Many Lives By Handbook On Safety Hints

AUSTIN, Texas, July 5.—Forty representatives of Texas public schools, selected from all over the state, will start tomorrow, at the University of Texas, on an effort to save the lives of nearly one thousand Texas school children annually.

They hope to keep 3,000 each year from permanent injury.

The job set for them is the writing of two handbooks for public school teachers on safety. One is for teachers in elementary schools, the other for teachers in the secondary schools. More than 20,000 copies of the elementary school handbook, alone, will be distributed.

The handbooks and other teaching materials which from the conference will be offered for use in the schools of this county.

The work of preparing the handbooks will consume the months of July and August. Nothing quite like it has ever been done.

Sponsored by the Texas Safety Association, which contributed \$4,000 to help defray personal expenses of school teachers and administrators doing the work, the job is under the joint direction of the State Department of Education and the University of Texas. The State Department of Public Safety is cooperating.

The task "shows the most promise of anything going on in the county this summer," Dr. Herbert J. Stack of New York University wrote Supt. L. A. Woods and Cecil L. Yarbrough, Director of Safety Education in Wood's office.

Working with Yarbrough and the representatives of local schools will be Dr. David K. Brace, head of the physical and health education department of the University of Texas, and Dr. Henry J. Otto and C. J. Alderson of the University faculty.

About a dozen national experts in different fields of safety will assist the Texas school people with information and advice, Yarbrough said.

"The figures of the Texas Safety Association show that 855 school children were killed accidentally in Texas last year," Yarbrough said today. "That is one-third of the school children who died from all causes. Of the total, 274, or an average of more than one in each Texas county lost their lives in traffic accidents. But the rest—nearly 600—and more than two-thirds of the 3,000 permanently injured were killed in other accidents. Picnic accidents, hunting and fish-

ing tragedies, even games, all cost lives. We want to get at those accidents, too.

"We're going about writing this handbook from the angle that it's smart to be safe, to know how accidents can be avoided. All other safety stuff has emphasized 'don't's'.

"We'll put the book into the hands of teachers with helps that will show how to get the idea to the children in attractive form.

"We don't expect to accomplish wonders with the program the first year. We are practically starting from scratch. Some programs have been worked out in other states, and some materials written. But Texas is so big and has such varied problems that we're having to do the whole job from a Texas angle.

"I feel—and Dr. Woods feels—that if we save the lives of a dozen youngsters in our first year all our work has been worth while."

School teachers and administrators to help in preparation of the new safety handbook have been selected to obtain people from every type of school conditions, Yarbrough said.

Sgt. and Mrs. Jack Sandford of Sheppard Field spent last Sunday here, visiting with Mrs. Dave Eliand.

Marilyn Jean Bowden and Peggy Clough are visiting in the home of Marilyn's aunt, Mrs. O. B. Paulsel of Waco, Texas.

LOCALS

A New "House of Magic" for Postwar America

"... one of the strongest guarantees of progress and world peace is continuous scientific preparedness through industrial research."

General Electric has approved plans for a new \$8,000,000 Research Laboratory. This expenditure has tremendous significance. Scientific research has contributed much to our progress as a nation.

"Many things have been discovered during this war, and we can and must develop them into better things for peacetime.

"Today we have 550 research people on our staff. These new facilities will not only give increased outlet for their abilities, but will provide opportunities for new research minds with new talents.

"From this new laboratory we think new achievements will come. In the past, G-E research has contributed much to better living in America—not only through new developments in x-ray, electricity, metallurgy, electronics and chemistry, but also through reduced cost and increased efficiency, as in the modern incandescent lamp.

"Even more than in the past the laboratory will emphasize research in pure science—continuing and expanding the work begun by Dr. Whitney and the late Dr. Steinmetz forty-five years ago.

"To find new facts of the physical world, to extend the limits of knowledge, is a forward step in creating More Goods for More People at Less Cost."

W. B. Sullivan
President
GENERAL ELECTRIC COMPANY

New \$8-million-dollar G-E Research Laboratory will be built five miles east of Schenectady, New York, on the Mohawk River. The geographic location offers special advantages for television, high voltage x-ray, and radar research. Buildings with 300,000 square feet of floor space will accommodate an expanded post-war research staff of about 800. Research rooms will be a scientist's paradise of equipment for experiments in chemistry, physics, mechanics, electronics. It is hoped that construction can start in six months.

Hear the G-E radio programs: The G-E All-girl Orchestra, Sunday 10 p. m. EWT, NBC—The World Today news, Monday through Friday 6-6:45 p. m. EWT, CBS—The G-E House Party, Monday through Friday 4:00 p. m. EWT, CBS.

FOR VICTORY—BUY AND HOLD WAR BONDS

GENERAL ELECTRIC

Washington News Letter

By Congressman Ed Gossett

Washington, D. C., June 29—Complaints of the sugar shortage continue to flood this office. Last year per capita civilian consumption in America was 84 pounds. This year only 70.8 per capita is available. A sugar expert has given me the following figures, for which I cannot vouch for any of the sugar produced in Puerto Rico, Hawaii, Cuba, and the Dominican Republic. 1945 production estimates are: Puerto Rico 500,000 tons, Hawaii 890,000 tons, Dominican Republic 450,000 tons, Cuba 3,850,000 tons, U. S. sugar beets 1,000,000 tons, U. S. sugar cane 450,000 tons. From this supply the following deductions must be made: certain allotments to the British Empire which before the war received all the Dominican sugar and one-third of Cuban production; 1,200,000 tons to the military. Sugar shortages occur as follows: 50,000 tons in U. S. beet sugar production, 50,000 tons in U. S. cane sugar production, 100,000 tons in Puerto Rican production, 50,000 tons in Hawaiian production. Thus normal civilian supplies are cut over 3,000,000 tons.

Some reasons given for these shortages are OPA price limitations, Commodity Credit Corporation's restrictions on subsidies, labor and machinery shortage, etc. We have no acreage limitations in this country at present, but much acreage has been diverted from sugar production to more profitable crops. It seems proper foresight on the part of War Food Administration and OPA should have averted this situation.

Some of us this week tried unsuccessfully to strike from the 38 billion dollar Army supply bill a provision that none of the money should be spent to purchase oleomargarine. The dairy lobby continues to be successful in placing policies above principle in such discriminations against this healthful, wholesome, palatable product made largely from cotton seed oil.

The Rural Electrification Administration appropriation bill passed the House this week. The REA sought 230 millions, the Bureau of the Budget recommended 160 millions. The Appropriation Committee brought in a bill recommended only 50 millions. However, we finally increased this allotment to 120 millions. This represents authorized loans and will be repaid to the government. REA has done a splendid job of public service.

An amendment to the OPA bill now before Congress is hoped will relieve the meat situation. This amendment permits anyone to slaughter livestock upon receipt of sanitation certificate from the Department of Agriculture.

It was my privilege this week to meet and visit briefly with Lieut. General L. K. Truscott, Jr. who succeeded General Mark Clark in command of the Fifth Army in Italy, and who has just returned to this country. General Truscott was born in Navarro County, Texas, the

son of a country doctor. His grandfather, James J. Truscott, organized Knox County in which is located the town of Truscott, named for him.

Congressman John Lyle of Corpus Christi, who fought under Truscott in Italy, says he is the finest officer in the American Army, and but for him the Anzio beachhead would never have been held.

By the way, the old saying that generals die in bed is false as far as this war goes. To date we have had 15 generals killed and have lost 11 admirals.

Two dramatic bits of world pagentry occurred this week on opposite sides of the earth. On June 24 in Moscow the Russians held their victory parade. 640 German battle flags, captured by the Red Army and headed by Hitler's personal standard, were dragged around the Red Square and in appropriate setting, and with great ceremonial, hurled one at a time into the gutter in front of Lenin's tomb. In San Francisco on June 26, 50 nations affixed their signatures to a world charter designed to make obsolete future celebrations such as occurred in Moscow.

Incidentally, a curious angle to the San Francisco conference is the survival of French as the language of diplomacy. All documents, to be official at the conference, had to be transcribed in both French and English.

Private Durlley B. Davis, Jr. of Henrietta, who spent four months in a German prison camp, came to see me this week. He was liberated by the Russians and thinks them great people. He is proud of a fine camera given him by a Russian Lieutenant. Technical Sergeant Chadwick E. Wilson of Electra, just back from 24 months overseas, is now in the office. We are trying to help him get transportation for his English wife and baby to America.

Jane Burke, better known as Calamity Jane, was an Italian scout and for several years carried government mail between Deadwood, S. D. and Custer, Montana.

When others fail him, the wise man looks to the sure companionship of books.—Andrew Lang.

Gather Ye Rosebuds

THIS rayon print shows its pretty border to excellent advantage in this posy-picker dress. The new turn-back cap sleeves match the bordered collar. A rayon dress like this is cool to wear—and easy to care for because the semi-sheer rayon fabric has passed laboratory washing and wear tests. Look for informative labels on rayon fabrics to tell you about washability.

Hot, Sultry Days Increase Your ICE NEEDS

Banner Ice Co. is ready to supply your needs in any amount. You always get pure, fresh ice when you use Banner Ice.

Let us place you on our regular delivery run, or serve you from our convenient dock at the plant. Your business will be appreciated.

For Better Ice—Use Banner Ice!

Banner Ice Co.

The Woman Listener

By Sally Welles

EXTRA-CURRICULAR ACTIVITIES of the "Right To Happiness" cast include a new contest held daily before rehearsal. It's called the Word Game—a word-for-the-day is chosen and then each participant works himself into a lather thinking up words which can be made out of the letters of the master word.

David Gothard

After ten minutes of deep concentration and brow-wrinkling, contestants hand in their lists. When the scoring is completed, losers must contribute to a nearby Red Cross box. At the present writing David Gothard (Dwight Grammer) is champion word-maker. "Right To Happiness" is heard Monday through Friday over NBC.

Truth or Consequences, that hilarious Saturday night quiz program, has left New York and will come to you from NBC in Hollywood while Ralph Edwards and his troupe are making a movie at RKO Studios there. Edwards and his family, by the way, will live in Hedy LaMarr's former home during their stay on the Coast. The new picture is tentatively titled "Radio Stars On Parade." First Hollywood-originated "Truth or Consequences" program was heard March 17th.

Three interesting facts about the three leading characters of "Life Can Be Beautiful" (CBS Monday through Friday) are: Alice (Chichi) Reinheart was a child prodigy who made her piano debut at the age of eight... Ralph Locke (Papa David) is an expert swimmer with five medals for distinguished lifesaving feats... John (Stephen) Holbrook started his career running a ski school in Canada.

"Butch" Brent goes to war! Lawson Zerbe, who has been playing interne John Brent so convincingly in "Road of Life" (NBC Monday through Friday) has volunteered for the American Field Service, and will leave shortly for overseas duty... Newcomers to this daytime

serial are Bill Griffith and Vivian Holt in the roles of Mr. and Mrs. Baedeker, wealthy philanthropic supporters of the Wiley Memorial Hospital at which Dr. Brent is chief of staff. Griffith has been heard in some 13 radio programs, a number of Broadway productions, and has recently returned from Hollywood where he was narrator for several documentary films. Miss Holt is not only familiar to radio fans but has also won applause as a guest soloist with such outstanding musical organizations as the New York Philharmonic Orchestra.

Behind the scene of "Information Please" you will find the office of Dan Golenpaal, who is creator, owner and producer of the famous Monday evening NBC show. Each week, for the forthcoming program, Mr. Golenpaal's organization selects the questions from those sent in by listeners—often they wade through as many as 60,000!

Lillian Leigh, gal cut-up on "The Jack Kirkwood Show" (CBS Monday through Friday), manages to find time to pursue her favorite hobby of collecting despite a five-day-a-week broadcast schedule. Lillian is the proud owner of many an extensive collection, ranging from newspaper clips on front page war headlines to phonograph records to tiny china animals. Out of all of this wealth, however, she avers that her most prized possession is none other than one Jack Kirkwood... and why not... Lil is Mrs. Jack Kirkwood in private life!

When asked what his favorite compositions are, Dr. Koussevitzky, 79-year-old conductor of "The Boston Symphony Orchestra" (Saturday evening, Blue Network), always replies in favor of the selection he is about to perform. His skill at programming for 21 years of concerts with the orchestra shows his love for all music.

HANGER DRY SEERSUCKERS

Seersuckers need no ironing, except along the seams, but they're supposed to be dried to shape, and at the Westinghouse Home Economics Institute, that means hanger-drying: Put garment on ordinary coat hanger (be sure it's rustproof or else wrap in clean cloth); anchor hanger to line with clothespin on each side of hook; then gently shape sleeves and waist and straighten hem.

BEFORE PREHEATING

Always place oven racks in position before preheating the oven, Westinghouse home economists advise. Plus being easier to handle when cold, it's wasteful of heat to leave the oven door open while adjusting hot oven racks.

In China the mourning color is white; in early Egypt it was yellow; Ethiopia, brown; Turkey, violet.

Placing flowers on the graves of the dead originated with the ancients, who believe the deceased enjoyed the fragrance of the flowers.

Mr. and Mrs. D. R. Donaho of Goree had as their guests last Sunday, Mr. and Mrs. Price Baxley and family of Childress, Mr. and Mrs. Jim Proffitt of Munday, Mr. and Mrs. George Crouch and daughters, Mrs. Cathrine Knefely and Mrs. Leon Latham and family of Bonarton. In the afternoon they all went to see another sister, Mr. and Mrs. John Smith of Munday, and her son, E. D. USSERY and wife.

Willard Reeves has returned to his Navy V-12 training at Georgia Tech, Atlanta, after spending several days here with his parents, Mr. and Mrs. J. E. Reeves.

Miss Mary Lee Swindell of Wichita Falls spent the week end here with Miss Jean Reeves and with her uncle and aunt, Mr. and Mrs. J. B. Reneau.

Mrs. Jack Newman has returned to Wichita Falls, where she is employed, after spending her vacation here with her mother, Mrs. W. W. McCarty, and with other relatives.

I GIVE YOU TEXAS by BOYCE HOUSE

"In Court," said the sign on the lawyer's door:

"Back in ten minutes," on many more.

"Gone to the Hospital," on the doctors' plate,

On another, "Sit down and wait."

"Will be back soon," on the broker's book,

"Collecting rents," on my agent's hook.

They were all so busy, a thing quite new,

Very sorry was I that I had nothing to do;

So I went out to the circus ground, And every man in the big top found!

(Anonymous)

Says the Wood County Democrat:

You can not bring about prosperity by discouraging thrift.

You can not strengthen the weak by weakening the strong.

You can not help the small men by tearing down the big men.

You can not help the poor by destroying the rich.

You can not lift the wage-earner by pulling down wage-payer.

You can not keep out of trouble by spending more than your income.

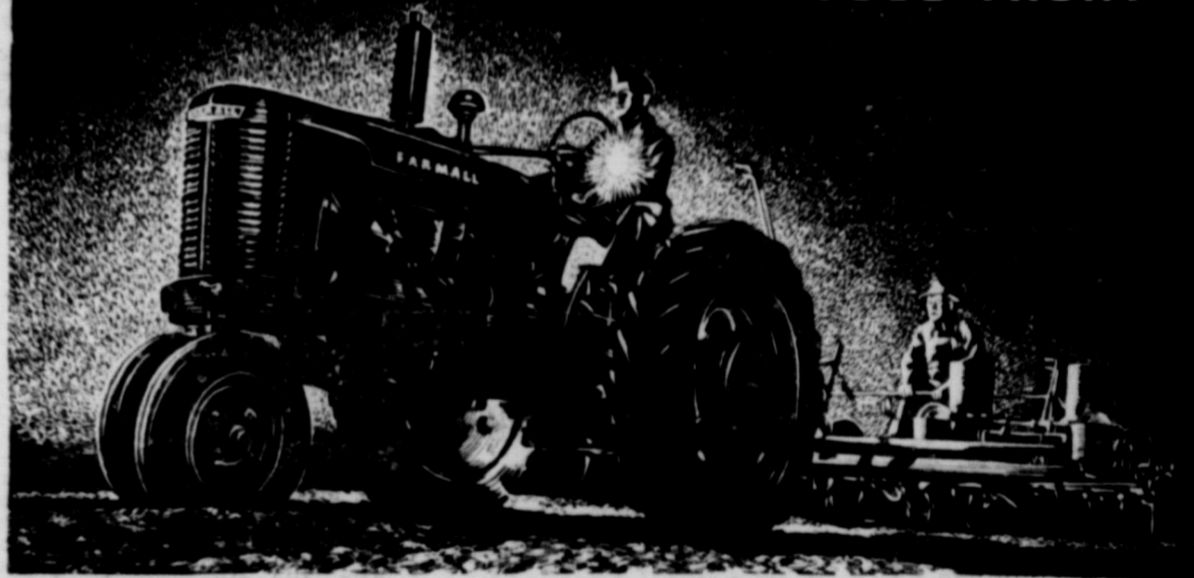

You can not further the brotherhood of man by inciting class

FOR VICTORY

Many a soldier devotes his furlough to day-and-night mechanized operation on the home farm. This is Cpl. Delmar Von Horn, Jr. with his dad at Jefferson, Iowa.

Night Shift ON THE FOOD FRONT

THEY DID IT BEFORE— THEY CAN DO IT AGAIN With Farmall Tractor Power

Throughout the Spring, from the Rockies to the Atlantic seaboard, worried farmers searched the skies for signs of clear weather, but the cold rains fell relentlessly.

For more than a month the seed should have been germinating in the warm soil. Millions of acres lay unplanted because the ground was too wet for preparation of the seed bed and too cold for germination of the seed.

Only a generation ago there could have been but one outcome—crop shortage and food scarcity. Nature allows scant time for planting when the warm sun waits till late May or June before drying the soggy soil. Horses are too slow and tire too quickly to get the job done then.

But the farmers remember May of 1943—only two years ago—when their fast, untiring tractors averted crop failure. Then, too, rains flooded the fields and the month was all but spent before they could go in on the land and plant.

In 1943, most farmers drove their tractors

from dark to dark, and longer. Many planted around the clock, working in two or three shifts. They made one of the greatest crops in history.

In today's war-torn world—with hunger and disease already stalking many peoples—even one major crop failure could bring famine. This is why the sound of tractors and planting machinery was heard, day and night, from the Plains states to the Eastern seaboard—why headlights stabbed the darkness over the fields.

America's farmers are doing it again, in spite of an unprecedented combination of adverse circumstances—bad weather, shortages of machines and shortages of manpower. For the second time in three years, they are relying upon their tractor-powered machines to help rescue large areas of the world from catastrophe. More of these tractors are products of International Harvester than of any other company.

**Early Increase
In Cotton Goods
Is Now Likely**

MEMPHIS, Tenn.—Prospective increases in labor supplies for spinners and weavers, and the possibility that a "production incentive" formula may come out of current conferences in Washington cited by the National Cotton Council today as the only visible hopes for an early increase in civilian cotton fabric supplies.

Public expectations that immediate relief would follow the end of the war in Europe were based on the assumption of military cutbacks which cannot be made until personnel from the European theater have been redeployed and re-equipped, Council spokesmen said. Such expectations ignored the basic fact that the Pacific war is almost entirely a "cotton war."

Even in high priority goods outside the field of direct military equipment, supplies are still far under requirements. Manufacturers who provide cotton bags for the movement of livestock and poultry feed face the prospect of a 300 million yard deficit this year as against 1944, despite the fact that bag fabrics have priority status.

In the case of shortening and margarine made from cottonseed oil, and meat produced from cottonseed meal, shortages of raw material at the farm level are having direct effect on civilian supplies, reports the Council. In the case of fabrics, however, available raw material is well in excess of processing facilities.

Comparing the 9.5 billion yard production of cotton fabrics in 1944 with the 11.3 billion yards produced in 1942, Council President Oscar Johnston declared that spinners and weaver had "accomplished the impossible" in preventing an even more drastic decline. "With essential workers taken by the draft, with no new machinery, with impractical and confusing price regulations, and with much unskilled labor siphoned off by new high-wage industries," he declared, "cotton spinners and weavers have worked wonders under tremendous handicaps."

"Decreasing pressure on manpower supplies is the most encouraging factor in today's fabric supply picture. Cooperation of federal agencies, added to it, can mean an early increase, though not full relief of a situation which at times has approached the intolerable."

HOME ON LEAVE

Cecil Bookout, baker in the Navy who served 21 months in England, and Mrs. Bookout were here the latter part of last week for a visit with friends. Cecil is spending his leave with his parents, Mr. and Mrs. J. F. Bookout of Wichita Falls, and with relatives and friends in this area.

HEFNER NEWS

(Mrs. E. J. Jones, Correspondent)

Independence Day was spent quietly here. We had a good rain, and crops are being cultivated.

A quarterly conference will be held next Sunday at the Methodist Church.

Misses Faye Colthorpe of Slaton and Leola Jones of Sterling City were Sunday guests or relatives here.

Mr. and Mrs. Lloyd Hendrix and daughter, Joline, of Lubbock were visitors here with relatives and friends. They also attended the Texas Cowboy Reunion at Stamford.

Mr. and Mrs. Vernon Rouston's son underwent a tonsillectomy this week, but is now doing fine.

Mr. and Mrs. Walter Mooney were business visitors in Wichita Falls last Tuesday.

Mrs. Nanie Heath of San Antonio is spending several weeks with her brother, Charlie Haskins, and with other relatives and friends here.

Mr. and Mrs. A. L. Haskin and Connie Jo have returned from a visit with relatives and friends at Harlingen.

Mmes. Jeff Peek, John Peek,

and A. A. Brooks have returned from the Plains where they attended the funeral of their nephew. The young man was a senior in high school. He was on a lake, swimming with a group of companions when he accidentally drowned.

Virgil Peek of Goree took his aunt to the funeral of his cousin.

Mr. and Mrs. J. Williams and family of Brushy spent Sunday in the home of Mr. and Mrs. John B. Martin.

Mrs. Laura Butler of Goree visited in the home of Mr. and Mrs. John Martin over the week end.

Mrs. Lucy Coursey of Goree visited in the home of Mr. and Mrs. George Weber over the week end.

**James P. Nelson Is
Engineer Graduate**

Among those graduating recently from an intensive course of Basic Engineering training at Service Schools here was James P. Nelson, Munday, Texas.

His training has been designed to fit him for a specialized Navy job in the long Pacific war ahead, and also for skilled work in industry when peace comes.

Graduates from the ten courses taught here at the Service Schools are sent to sea, to shore stations, or to advanced schools for further duty.

**Herring Bros.
Have Long Talk
In The Pacific**

Two brothers, sons of Mr. and Mrs. Frank Herring of Munday recently had a "good time talking over all sorts of things" when they were reunited in the South Pacific. They were Bernard Herring, S. K. 2/c, now on Leyte, and Weldon Herring S. 2/c (Y), upon whose ship the visit took place. They wrote their parents from aboard ship.

"I sure was surprised to see Sonny come aboard," Weldon wrote. "We were talking about him when a boat came alongside and I said, 'There he is now!' and I was sure tickled to death."

"We had to drive 18 miles after dark to take him back. We didn't go by car! We went by boat! I'm sure he's afraid of water because I found that out as soon as I saw him come up the gangway."

Bernard enlisted in the Navy on July 30, 1942, and has been in the South Pacific since July, 1944. He is 22 years old.

Weldon is now at Samar, working in the personnel office. He enlisted July 10, 1944, and has been in the Philippines since May, 1945. He is 19 years of age.

**Nephew of Local
People Serving On
Heavy Cruiser**

Weldon E. Welch, seaman first class of Cleburn and nephew of Mr. and Mrs. Ben Tuggle of Munday, has been serving on a veteran fighting ship now standing off Okinawa with all batteries pounding away at the crumbling enemy stronghold and its dwindling Jap defenders.

The cruiser has harried the Japs for three years of Pacific warfare. She won her reputation as a top fighting unit in the memorable slugging match against the Japs off Savo Island in November, 1942.

She added to her reputation at all the major Pacific stops—Bougainville, Salamaua, Guadalcanal, the Aleutians, the Gilberts and Marshalls, Carloines and Marianas, Iwo Jima and the Ryukyus.

Now deep in the Western Pacific she is gunning for more glory. In a week of softening Okinawa before invasion, it was estimated the ship destroyed or knocked out 19 heavy and light anti-aircraft emplacements, eight heavy and light gun batteries, a number of automatic revetments.

In addition, it is estimated she killed 2000 Jap troops, and demolished 10 trucks, five tanks, a supply dump, one hangar, a lighthouse, three road junctions and four attacking aircraft.

The custom of presenting the keys of a city goes back to medieval times, when every fortified town in Europe was surrounded by walls and people could only enter or leave by the gates.

The per capita cost of operating our Government for the first year (1789) was approximately 20¢.

In 1812 Louisiana was admitted to the Union as a State, with boundaries as they are now.

Frank Winfield Woolworth was the founder of the ten cent store, in February, 1879.

AMERICAN HEROES
by WOODY COWAN

ALTHOUGH wounded and bleeding, an explosion threatening from a fire in the bomb bay and the co-pilot wounded from a shell burst in the cockpit, Lt. Edward S. Michael flew a B-17 back to England to save his comrades. Once he lost consciousness. But the plane that your War Bonds helped to provide brought him through. We will need many more such planes in the war against Japan. Buy and hold War Bonds.

U. S. Treasury Department

**Board, Lodging
May Be Counted On
Social Security**

Wichita Falls.—It has been found through developing information pertaining to claims for old age and survivors insurance that some employers do not understand that wages may include other items than cash, R. L. Surles, manager of the Wichita Falls Social Security Board Office said today.

In cases where an employer hires an individual and agrees to pay him a certain wage per day, week, or month, plus his board and lodging, these last two items are also considered wages under the law.

The worker's wages, as reported by his employer when he makes his tax report, are credited to the individual "social security account" maintained for each worker according to his social security account number by the Social Security Board. These credits, it was explained, are used to compute the amount of benefits that may be due when a claimant files for benefits.

**P. C. A. Directors
To Attend Meeting
Held In Abilene**

Officers and directors of the Stamford Production Credit Association plan to attend a conference of directors of four associations serving 31 counties in this area, July 6-7 at Hotel Wooten in Abilene, according to Secretary-Treasurer J. L. Hill, Jr.

Those who will represent the Stamford Association are President J. B. Pumphrey of Old Glory, Vice-president J. F. McCulloch of Stamford, Directors C. G. Burson of Haskell, Lasater Hensley of Guthrie, Clark Forbis of Afton and Mr. Hill.

**Candy Welcomed
Gift After A Hard
Okinawa Battle**

The capture of Skyline Ridge on Okinawa was celebrated with a box of fudge made by Mrs. Laura Moore of Fort Worth and sent to her husband, Pfc. Henry Moore, who received the box immediately after the ridge was secured. A Munday boy helped to distribute the candy.

The action is described in a clipping from a Honolulu paper received by Mrs. Moore. The men of the 32nd infantry, 7th Division, has been fighting for two days with tanks, hand grenades and bayonets to capture the hill from the Japs. Casualties had been extremely heavy.

After the victory when the mail was delivered and Moore opened the box of fudge topped with walnuts, and excited private first class Elvin Tuggle of Munday, grabbed the candy and ran down the line passing it out.

Tuggle is the son of Mr. and Mrs. Ben Tuggle of Munday, and has been since promoted to sergeant.

HOME FROM EUROPE

Sgt. Litt Lemley, who served a number of months in the European Theater of Operations, has been home for a visit with his wife and other relatives. He went to San Antonio the first of this week, and expects to receive his discharge there.

**Fixing Up
the Farm**
by BURTON WILLIAMS

Time-Saving Ideas

ON ALMOST every farm the manpower shortage has placed a premium on new time-saving ideas that will permit high production to be maintained with limited help. Old, time-consuming habits are being discarded, and quicker and easier methods are being substituted.

State agricultural colleges have joined with farmers in putting time-savers into practical application and they can supply you with many short-cuts. As an example, for generations farmers have been making daily trips to feed their stock from large granaries. But now every step must count. Fifty

to 100 miles a year can be saved by constructing simple feed bins which can be well-located and filled from a wagon or truck once every week or two.

The size of the bins and the number of units will be determined by the demand for various kinds of feed in a particular location. All that is needed is a few pieces of lumber for framing, and a few pieces of large asbestos cement board for walls, floor and cover. Applied on the inside of the framing, asbestos cement board provides a shelter for feed which is fire-proof, weather-proof and rat-proof. It is non-critical, generally available and easy to cut with ordinary tools.

Frank Winfield Woolworth was the founder of the ten cent store, in February, 1879.
