

Tests Of 2, 4-D Made On Weeds Of Knox County

The effects of the new harmon spray known as the 2, 4-D is being tried on several of the very noxious pest like weeds and mesquites in Knox County, to determine its effectiveness in killing plants.

County Agent Dunkle, has secured a small amount of this new harmon spray known as 2, 4-D, and is making several tests over the county in order to learn of its effectiveness in killing many of the noxious weeds and plants.

Reports on the effectiveness of 2, 4-D sprays and dusts in killing many annual and preannual weeds indicate that this chemical is indeed a very promising weed killing agent. 2, 4-D treatments have given generally good control of the common lawn weeds and a great number of the garden weeds. This new chemical should be handled with care as it becomes toxic to animals when eaten in relatively large amounts however, under ordinary pasture conditions, the spray residue does not kill the grass and does not become toxic to sheep or cattle.

Even though all answers are not known, wide use of 2, 4-D in weed killing formulations to control a great variety of noxious weeds and plants is indicated for 1946. In most instances treated plants show no ill effects the first few days, but die slowly over a period of several weeks.

County Agent To Help Farmers To Get Farm Labor

Knox County farmers desiring to hire someone to assist them with their farm work are asked to get in touch with the County Agent, R. O. Dunkle, and to furnish him with information relative to the kind of work and the rate of pay.

The United States Employment Service and the Extension Service are cooperating in the placement of the returned veterans or anyone else seeking employment. Provisions are also made whereby an applicant seeking employment may also get in touch with the County Agent and the applicants request will be handled within the county, if possible, and if not, it can be referred to the United States Employment Service office in this territory.

Veterans or anyone who has a particular occupation qualifications will be placed according to their particular occupation ability.

Former Resident Dies April 28th At Bentonville, Ark.

E. P. Dodson, former resident of Knox County and progressive farmer and dry goods merchant here for a number of years, passed away at his home in Bentonville, Ark., on April 28th.

Mr. Dodson was a loyal christian and a member of the Church of Christ. All who knew him looked on him with esteem and regarded him as one of Knox County's best citizens. He moved to Rogers, Ark., several years ago, later moving to Bentonville.

Funeral services were held at Bentonville on April 29th, after which Mrs. Benton left with his body for Atlanta, Georgia, where burial was made.

Austrian Winter Peas Successful As Winter Cover Crop

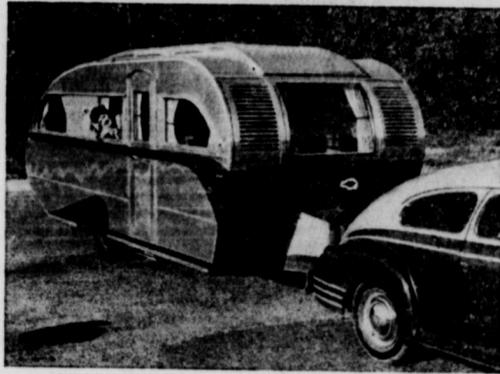

Emmett Partridge, well known Knox County farmer, is proving that Austrian winter peas are successful, both as a winter cover crop and for soil improvement.

He has a small patch planted to the peas this year, and exhibited some of the peas here Tuesday. The peas reached a nice growth and in addition has a very heavy crop of peas on the vines.

Partridge is sold on the peas for soil improvement and as a cover crop. In addition, he said, cattle have begun to graze the peas since they have put on a crop of fruit.

When cooked, the peas have a similar taste to English peas, he said. Miss Helen Homer of Wichita Falls spent the week end with her parents, Mr. and Mrs. K. G. Homer and with other relatives.

Fly-Weight Trailer

A sight to cheer the heart of a house-hungry public is the trailer shown above as pictured in the May issue of Science Illustrated magazine. Aircraft materials and methods have been combined to make this trailer only half as heavy as prewar models. Windows are made of transparent plastic.

B. A. Yarbroughs Buy Terry Hotel; Assume Management Here On Monday

Currington Is New Manager Of Locker Plant

Virgil C. Currington of Abilene came in the first of this week and took over his duties as manager of the Munday Locker Plant. He succeeds J. R. Taylor, manager here since the plant was opened, who has sold his interests in the business and is returning to Abilene.

Mr. Currington was recently released from the service, after spending some time in the 20th Air Force. He plans to make some changes which will make for a more efficiently operated plant.

Mrs. Currington is here with her husband, and will also be employed in the locker plant. During the war she served as a nurse at Young Hospital at Roscoe.

The new manager announced that an immediate clean-up of the chill room is scheduled, and announced Tuesday that no more animals will be accepted for killing and processing for a week or more, or until this work is completed.

The processing rooms will be completely cleaned out and repainted, Currington said, "and new germicidal lamps, which prevent mold, will be installed in these departments. When this work is completed the processing of meats will again be resumed and all meats accepted for processing will be placed in the locker boxes as soon as possible.

The grounds on the outside of the building will also be completely cleaned up. The plant is expected to again resume processing operations in about ten days.

The plant will remain open during this time and during open hours, so customers will have access to their locker boxes.

Goree All Stars Wallop Hen House 9 At Paducah, 7 to 6

The Goree All-Star softball team journeyed to Paducah last Thursday night, May 2, to play Jack West's Produce team.

Goree came out on top of a very close game, 7 to 6, behind the effective pitching of Red Denham. Paducah was leading 6 to 4, in the top half of the seventh inning, when a three run rally by the Goree boys put them in front.

A return game will be played in Goree in the near future, and fans can expect another close game as the boys from Cottle County have a very good team.

Bible School At Presbyterian Church Is Slated In June

Members of the Presbyterian Church are sponsoring a Vacation Bible School, which will be held at the Munday Church beginning the first week in June.

Teacher in the school will be from Richmond, Va., home of the Presbyterian Training School. Name of the teacher will be announced later.

Those of the church and of this area are asked to begin making plans now to attend the school.

Prizes Awarded Winners In Hog Show Saturday

Awards of cash premiums totaling \$75 were made Saturday to twelve members of the Future Farmers of America at the first sow and litter show of the chapter held under the sponsorship of the Munday Junior Chamber of Commerce. The sponsoring organization raised the prize money and made the awards.

Prize of \$10 for the first place went to Ronald Foshee, whose Duroc show with litter of ten pigs was adjudged winner. Second prize of \$8 was awarded to Charles Hardin for his Duroc sow and nine pigs, while third place winner of \$7 was Jesse George Smith, who exhibited a duroc sow and litter of eight.

Fourth and fifth place, with \$5 prizes each, went to Clifton Swain and Dick Swope, both exhibiting exhibiting Hampshire sows and litters. Six other contestants were also awarded \$5 each on their exhibits. They are D. G. Chamberlain, Charles Roden, Delbert Montgomery, Bobby Howell, H. C. Claborn and Gene Brown.

A total of 12 sows with litters totalling 96 pigs were entered in the show. The chapter boars, one Duroc and one Hampshire, were also shown and were awarded \$5 each.

The show was staged as part of the livestock improvement program of the Future Farmers chapter here.

Lester C. Burk, vocational agricultural teacher at Seymour, was judge, while Kenneth Baker, president of the chapter, was superintendent of the show, which was staged on the public square south of the city hall in specially constructed pens. Lumber for the pens was furnished by C. P. Baker.

The sows were all property of the Future Farmers chapter and had been given the contestants under an agreement whereby each is to give another boy a gilt from the litters.

A number of pigs in the exhibit were tagged for sale. Charles Hardin sold \$62 worth of pigs and has his brood sow and three pigs left. Several other members also sold their pigs.

Auction Sale Has Busy Day

The Munday Livestock Commission Co. reports a good run of hogs and cattle for last Tuesday's sale. Prices paid for cattle were as follows:

Canner and cutter cows, \$6 to \$8; butcher cows, \$8.50 to \$10; fat cows, \$10.50 to \$12.75; butcher bulls, \$9 to \$10.50; fat bulls, \$11 to \$12.50; rannic calves, \$7.50 to \$9; butcher calves, \$9.50 to \$12.50; fat calves \$13.50 to \$16.75; butcher yearlings, \$9.50 to \$13; fat yearlings, \$13.50 to \$17.25.

Several cows and calves sold by the head at prices ranging from \$80.00 to \$135.00 per pair.

HOME FROM JAPAN

Lieut. and Mrs. H. A. Pendleton, Jr., and daughter came in Monday for a visit with Lieut. Pendleton's parents, Mr. and Mrs. H. A. Pendleton, Sr., and with other relatives and friends. Lieut. Pendleton has been serving in the Pacific area, and part of his time was spent with the occupational forces in Japan. He received his discharge several days ago at San Antonio, where his wife and little daughter met him after his return to the states.

RECEIVES DISCHARGE

Capt. Aristel D. Thompson, who served with the U. S. Forces in both the European and Pacific theaters, recently returned from the Pacific and has received his discharge. He came in the first of this week for a visit with his wife, his parents and other relatives.

HOME FROM CALIFORNIA

Misses Ethel and Mildred Stengel, who have been employed in San Diego, California came in last week to make their home here with their father, Mr. Chas. Stengel of Rhineland.

C. A. Minton of Houston spent the first of this week here, visiting his sister, Mrs. F. L. Bowley, and other relatives. This was the first time Mr. Minton and Mrs. Bowley had been together in about 17 years.

For Lieut. Gov.

Drew C. Nichols, above, Travis County veteran of World War II, is a candidate for lieutenant governor of Texas. Stating the belief that the new atomic age demands a new type of public official, Nichols said: "I propose a more scientific approach to the problems of government, within a Christian democracy."

Knox County Hospital Notes

Patients in the Knox County Hospital May 7, 1946.

O. L. Patterson, Benjamin, Judy Higgins, Goree, Billy Hertel, Sagarton, Mrs. O. A. Barker, Mabelle, Sim Michels, Rochester, Mrs. Robert Winstead, Gilliland, Homer Nash, Stamford, C. E. Durham, Knox City, Mrs. J. R. Bradberry, Knox City, Mrs. Derrel Adams, Knox City, Mrs. W. L. Aldridge, Knox City, S. H. Ward, Knox City, Mrs. D. B. Shipman, Vera, Mrs. Herbert Montgomery, Munday, Mrs. C. T. Cochran, Knox City, Mrs. Homer Lain, Munday, Mrs. Ernie Reynolds, Munday, Baby Reynolds, Munday, Mrs. W. L. Carden, Munday, Baby Carden, Munday, Mrs. C. C. Stone, Munday, Henry Cooner, O'Brien, Sarah Postel, Knox City, Baby Postel, Knox City.

Patients dismissed since Tuesday, April 30, 1946.

Mrs. C. B. Buys, O'Brien, G. W. Woodward, Knox City, Mrs. E. E. Thompson, Knox City, Mrs. A. D. Westman, Munday, Clyde Day, Knox City, Grady Hudson, Benjamin, Mrs. W. W. Perkins, Mineral Wells.

Baby Perkins, Mineral Wells, Mrs. W. P. Shirley, Rochester, Mrs. Leroy Melton, Benjamin, F. D. Jarvis, Munday, Mrs. C. M. Scrifers, Gilliland, Mrs. S. J. Burleson, Rochester, Mrs. O. P. Howard, O'Brien, Mrs. T. G. Carney, O'Brien, Dwain Short, Rochester, M. A. Ida Bell Foster, Goree, M. G. Nix, Munday, Mack Ford, Munday, Gienna Sue Collier, Benjamin, O. D. Reid, Knox City, Mrs. Chas. Kay, Rochester, Mrs. B. J. Cochran, Aspermont.

Births:

Mr. and Mrs. W. L. Carden, Munday, a Daughter, Mr. and Mrs. W. W. Perkins, Mineral Wells, a Son, Mr. and Mrs. Ernie Reynolds, Munday, a Son, Albert and Sarah Postel, Knox City, a Son.

Knox Wildcat Cements Casing

South of Truscott in Knox County, the Cities Service Company set and cemented five and one-half inch casing at 6300 feet in its No. 1 Doris Mulkey, in block 44, section 163, H&TCRR survey and is waiting on cement. The test, a wildcat, one of the most important under way in this district, was drilled to total depth of 6785 feet in Ellenberger, which was topped a 6718 feet. Perforations will be made in a bend formation which showed 250 feet of oil in a drill-stem test at 6227-44 feet and the result will be watched with interest.

Mrs. J. B. Scott, who recently underwent an operation at the Baylor County Hospital, Seymour, has returned home and is reported to be getting along nicely.

Munday Municipal Country Club Is Planning Golf Tourney In Early June

Many Delegates Here For Legion Convention

A large number of delegates, representing the twenty-five posts of the 15th district, were present for the American Legion's spring convention here last Sunday. It was estimated that nearly 500 Legionnaires were present.

The north side of the public square was jammed with people for the street dance Saturday night, which was the beginning of activities for Legionnaires. Music for the dance was furnished by Bill Latham and his "Melody Boys."

At 9:30 Sunday morning, a service officers' school was held at the school auditorium. This school was closed in time for church services, and many of the delegates attended church here.

A barbecue dinner was held at the City Park at the noon hour, and the business session was held at the school auditorium at two o'clock Sunday afternoon. District officers and delegates to the state convention were elected.

Among high-ranking men here for the convention was Railroad Commissioner Olin Culbertson, Herman G. Nami of San Antonio, Department Commander, was unable to get here.

Most of the sessions were in charge of C. F. Johnson of Barkburnett, 13th district commander. Legion membership of the 13th district now numbers 5,333, practically double that of last year.

New Insecticide May Be Welcomed By Cotton Farmers

A new insecticide has been recently discovered by the United States Bureau of Entomology in Waco, Texas, according to R. O. Dunkle, County Agent. This new insecticide is known as Benzene Hexachloride, which will probably out shire DDT in many respects in controlling cotton insects. The experimental tests at Waco prove that it kills the boll weevil better and more quickly than the old stand by, calcium arsenate, it also kills more cotton leaf worms, flea hoppers and cotton lice than many other standard insecticides. However, Benzene hexachloride is not as effective against the boll worm as is DDT.

As far as the cotton grower is concerned, this new insecticide is still in the experimental stage and only small amounts are being manufactured in the United States at the present time, only enough is available to supply the entomologist for use in large experimental tests this year. If continued success is obtained at the Waco laboratory, this year, this new insecticide will perhaps be available to cotton growers in 1947.

Leo Guffey Leases Market At Piggly Wiggly Store

Announcement was made Wednesday that Leo Guffey has returned from Amarillo and has leased the meat market at Piggly Wiggly grocery, taking charge on Wednesday.

Mr. Guffey, who is well known here, has been employed in the market of the Furr Food Stores in Amarillo for the past several months. His family will remain in Amarillo until the close of school, after which they will return to Munday, and Mrs. Guffey will assist her husband in the market. She is also employed at the Furr Food Store.

Both Mr. and Mrs. Guffey solicit the patronage of all former customers, as well as that of new customers. The market will continue to feature home-killed beef and a nice assortment of other meats and market products.

The market has been operated for the past year by Ruby Hammons, under lease agreement.

BIRTH ANNOUNCEMENT

Mr and Mrs. Ernie Reynolds are the parents of a 9-pound boy, who was born last Monday morning at the Knox County Hospital. Mother and son are reported to be doing nicely.

Interest in golf has staged a comeback here since the organization of the Munday Municipal Country Club several weeks ago and golfers can be seen on the course every afternoon. The course was opened for play on Sunday, April 28.

Quite a bit of work has been done on the course, and local golfers say it is in better condition than ever before. The greens have been reconditioned, with new sand and oil placed on all of them, and the fairways are in good shape.

Wade Mahan, president of the club, stated Wednesday that plans are now under way for holding a city tournament early in June.

The club boasts approximately 60 active members, including a few from Goree and Knox City. Of these Winston Blacklock promises to be good timber for area tournaments this summer. He shows a 32 on the 35 par course a few days ago, which is believed to be a record for the local course.

This year the local club will also be host to the Tri-County Golf Association Tournament, which will be held in August. The association is composed of members from Haskell, Baylor and Knox Counties.

Work of refurbishing the club house is now under way, getting it ready for club's activities, as well as for social and civic activities.

New Variety Of Grain Sorghums Being Planted

Forty eight 4-H Club boys of Knox County and three farmers in different communities are planting for the first time, three new varieties of combine grain sorghums that have been grown at the Chillicothe Experiment Station for the past three years. These three new varieties grown this year in Knox County for the first time are Midland Milo, which was developed by the Hays, Kansas, Experiment Station, and two Double Dwarf Sooner Milos, there being both yellow and white strains, both are pure milos that have large seeds of good color and quality, but like other milos they are susceptible to chinch bug and charcoal rot, but they will undoubtedly find a place in Knox County where insect and disease damage are not encountered, according to R. O. Dunkle, County Agent.

The Midland is early in maturing and stands up better than other varieties. But the stalks and seed branches are full of juice and this juiciness may delay harvesting or even prevent it until after frost. The Chillicothe Experiment Station advises late planting of this variety because of this feature of high moisture content in the stalk and head.

Worm Damage To Fruit Crops Is Expected

LUBOCK.—Fruit crops in the South Plains area should be protected against worms this year, according to Dr. W. W. Yocum, professor of horticulture at Texas Technological College.

A spray of lead arsenate, composed of about one to two tablespoons of the compound to one gallon of water, should be used, Yocum says.

Apple trees particularly should be sprayed at once in order that a dose of poison may get into the blossom end of the apple before it closes. The worms try to enter there, and unless spraying is done before the blossom end closes, the poison will be ineffective.

DR. KENNETH WIGGINS VISITS RELATIVES HERE

Dr. Kenneth Wiggins, who has recently released from the service at Camp LaJuna, N. C., spent several days here last week visiting with relatives. His wife accompanied him here.

Dr. Wiggins is entering the University of Minnesota at Minneapolis soon for special study in the division of anesthesiology. He spent some time in the Pacific theater, but has been stationed in the states for several months.

"What a Man Does For Himself Dies With Him—
What He Does For His Community Lives On and On."

WHERE IS OUR BUTTER?

Many of us would be astonished to be told that we've already had our butter. Yet that would come very close to being the correct answer.

True we haven't had it as butter. But we have had the butter, in the form of increased amounts of milk, and other of its products, points out the National Dairy Council. Last year the American people consumed about 16 billion pounds more milk as fluid milk and cream than the average for the years 1935 to 1939. That amount of milk would make almost six pounds of butter apiece for every man, woman, and child in the United States, and still leave as much milk and cream as was had in the years 1935 to 1939.

Besides this 13 billion pounds more milk was made into cheese, dry-whole-milk, evaporated milk, and ice cream, than in those pre-war years. That amount of milk accounts for almost 5 pounds of butter per person. In the case of these concentrated milk products, it is only fair to point out that most of the extra production was shipped overseas for American armies, and for relief.

The important point, in the opinion of the National Dairy Council, is that Americans are eating better. These improved diets call for much greater quantities of dairy products. While American dairymen are producing at an all time high, they haven't been able to keep pace with the demand, and until production and economic conditions are such, that they can catch-up with this demand, consumers must realize that they can't drink their butter, and spread it on their bread too.

THE BEGINNING OF CIVILIZATION?

The State Department has drawn up an American proposal for international atomic control to be submitted to the United Nations, which is encouraging. The proposal is based upon a report written for the State Department by a committee of leading scientists and business men who literally worked night and day for two months as practical men trying to find a solution to a practical problem.

Life magazine sums up their efforts in the following words: "Their answer... sensibly recognizes that not even the atom can frighten nations into mutual trust. So... the report would set up an Atomic development authority which would work toward full international control by stages, none of them irreversible. In effect the U. S. would share its atomic secrets with the ADA only as fast as Russia and other countries gave ADA personnel the right to free entry and inspection of all atomic facilities. The ADA would gradually take the title to all uranium deposits and processing plants and would also build them in other countries. But it would do this on such a schedule that at every step 'any nation such as the U. S. will still be in a relatively secure position, compared to any other nation.'"

"An important fact turned up by the committee is that fissionable material can be 'denatured,' i. e., rendered useless for explosives while useful for peaceful applications. The ADA would distribute only denatured plutonium among member countries. To turn this into the dangerous variety can only be done by a difficult and hard-to-conceal process..."

If mankind can adjust itself constructively to the atomic age it will for the first time be justified in applying the term "civilization" to its collective endeavors.

INFLATION NOT NUMBER 1 PROBLEM

Controlling inflation is not the nation's number one problem. The number one problem is how to preserve representative government in the face of inflation. It may be impossible to control inflation due to natural forces over which the people have no control. It is possible to preserve representative government because that is a political question and political questions are clearly within the power of the people to decide.

The argument is often heard that unless inflation is controlled, the resulting chaos will automatically destroy freedom, and history is called upon to support such an argument. But in answer to this it can be said that there has never been another nation in history like the United States. Her people are highly literate, closely integrated by modern communication and transportation, and well informed on the problems of the day. They have been taught almost from the cradle that their heritage of independence is their most valued possession. Nothing can take this heritage away from them. If it is lost, they alone must lose it. If they should realize now that the suffering of inflation will be as nothing compared to the suffering of political tyranny once it has a secure hold upon their lives.

No, inflation is not the nation's number one problem.

THE CATCH IS HUMAN NATURE

Usually when people are forced into doing what they do not want to do, or think they cannot do, or when natural laws are contravened by man-made laws, the reaction is incalculable. Compulsory health insurance is one of these instances. If it is adopted, the financial cost may boomerang in unexpected ways against the millions it was designed to protect. For example, it is proposed that half the cost of government-controlled medical care be borne by employers who would be taxed an amount equal to the medical care payroll deduction of the employee. This sounds good to the worker but many economists believe that such a levy against employers would upset the economic system that, in the end, the worker would have to pay both his own and his employer's share.

According to an authority who has spent fifteen years studying the actual working of compulsory health insurance in various countries, "this might happen in any one of a number of ways. The price of goods might go up, and his (the workers) wages buy less. The employer might substitute machinery for some workers, and cut production to lay off others. Unemployment would result, and a wage cut would follow. Certain economists contend that the resulting wage plus the employer's tax would just equal the former wage. If such a contention is true, the worker will have to decide whether health insurance is worth 6 per cent of his income to him. That is almost half again as much as he now pays on the average—for medical attention."

It is an old story. You can't get something for nothing.

RIISING STATE EXPENDITURES

"Many of the states apparently have accepted the abnormal revenues of wartime prosperity as normal... The weakness of such reasoning may be illustrated by reference to state revenues for 1940 or 1941... That the reduction of cessation of war spending may return revenues to a point near their levels seems to have been largely overlooked."

"It is unnecessary to point out that sound state financial planning should result in the balancing of expenditures with revenues. Over short periods expenditures may exceed revenues, but this should be expected to occur only under emergency conditions and for essential state services. If expenditures consistently exceed revenues, the state is certain to become engulfed in financial problems."

"It is apparent that a careful study of taxes, other revenues and expenditures would be helpful in most states. Awareness of this problem is evidenced in more than twenty states where the taxes and financial administration are being studied by legislative or executive committees. Several of the reports have been completed which clearly disclose need for improvement in the existing state financial systems."

"... Unless the states are successful in planning for postwar expenditures and revenues, state finances may fall to a critical level."—The Tax Foundation, New York.

The dinner started with cream of tomato soup. The main course was a giant rib roast, with mashed potatoes and broccoli. Soft rolls of white flour were served, with two patties of butter to a plate. Dessert was apple pie with ice cream. There was coffee with cream and sugar. The speaker cleared his throat, "We are a bankrupt nation..." he began—Lincoln (Neb.) State Journal.

"Dad, what was your great ambition when you were a kid?"

"To wear long pants, son. And I've got my wish. If there's anybody in this country that wears his pants longer than I do, I'd like to see him."

The hens of the United States require about 320,000 tons of calcium a year to put shells on the eggs they lay.

By BOYCE HOUSE

Uncle Hank says, "There may be a shortage of shirts in Texas but there's no shortage of stuffed shirts."

Getting around over the State: A touch of the Southwest, on the courthouse lawn in Plainview is a windmill... Saw a cowboy leading his horse across the Colorado River bridge at Austin—and they were walking on the bridge sidewalk... P. B. Ralls of Ralls has a collection of walking canes, 84 of them... Sign in O'Donnell, "Hamburger and chili king; 141 miles to the next."

Somewhere on the high seas is a present destined for this columnist: it is a Japanese word, 440 years old, and is the gift of Lt. Col. Ralph Yarborough of Austin, whose Army division—the 97th—was the only one to serve in both Europe and the Pacific. Among his many important assignments has been directing the military government in an area containing one-seventh of the population of Japan. Col. Yarborough has received two battle stars, a bronze star, a commendation citation and ribbon.

A little Texas story: A farmer living near one of the big cities became quite noted for his weather predictions, which were more accurate than the official forecasts. At last, the weather forecaster of the city decided to learn what other's system was, so he drove to the farm and found the old fellow plowing. The visitor (let's call him Brown) did not introduce himself but opened the conversation with: "You are very successful in predicting the weather; how do you do it?"

The farmer replied, "My method is simple; I just see what that fool

Political Announcements

The Munday Times is authorized to announce the following candidates for office in Knox county, subject to the action of the Democratic Primaries:

- For County Superintendent of Public Instruction: MERRICK MCGAUGHEY (Re-election) JACK W. QUALLS
- For District Attorney, 50th Judicial District: JOE REEDER, JR. THOS. F. GLOVER (Re-election, Second Term)
- For County Treasurer: WALTER SNODY (Re-election)
- For Commissioner of Precinct No. Three: G. E. RYDER
- For Sheriff of Knox County: L. C. (LOUIS) FLOYD (Re-election) HOMER T. MELTON E. J. CUDE
- For Commissioner of Precinct Two: L. A. (LOUIS) PARKER (Re-election)
- For Tax Assessor and Collector: EARL B. SAMS (Re-election) M. A. (Buddy) BUMPAS, JR.
- For Commissioner, Prec. Four: GEORGE NIX (Re-election)
- For County Clerk of Knox Co.: M. T. CHAMBERLAIN (Re-election)
- For District Clerk: N. S. KILGORE (Re-election)
- For County Judge: J. C. PATTERSON (Re-election) Wm. GRIFFITH
- For Representative, 114th District of Texas: CLAUDE CALLAWAY (Re-election)
- For Commissioner, Prec. 1: ED SHAVER T. A. (Tom) STOGNER
- For State Senate, 23rd District: GEORGE MOFFETT (Re-election)
- For U. S. Congress, 13th Dist.: MACK TAYLOR ED GOSSETT (Re-election)

HUGH BEATTY GOES BACK TO OLD JOB

Mr. and Mrs. Hugh Beatty have returned to Munday to make their home, and Hugh is returning to his old position at Atkeison's Food Store.

After spending several months in the service, Hugh was released because of the illness of his wife's father. After several months he entered the service again and was sent to the European theater. He received his discharge about a month ago.

MY MOTHER

In all the world there is no lovelier name: "Mother," we speak it, and to every heart A thousand memories lift like a flame To warm and comfort us. So much a part A mother is of every gracious thing: Of home, a kitchen, fires burning red. The kettles of the earth that dance and sing, Clean linen, lamplight, and the smell of bread. She is so much of life itself, we say The name, and swift as wings set free The heart goes home, goes flying home today. To Mother, waiting there for you and me, And love enfolds us like a living flame. There is magic, music comfort in the name! —Contributed.

Mr. and Mrs. Bud Collins of Floydada visited with relatives and friends here over the week end.

Brown predicts, then I predict just the opposite and I hit it nearly every time."

That story suggests the one about the pioneer who was asked, "Are you pretty good about figuring out what the weather is going to be?" He answered, "I was until the government took the weather over—and now I can't figure what it's going to do, at all."

We Buy Poultry, Eggs and Cream

IT TAKES COTTON TO PRODUCE COTTONSEED MEAL-CAKE CUBES-PELLETS AND HULLS

The critical need for Cottonseed Meal, Cake and Hulls makes it imperative that more Cotton be grown in 1946. That's the only way to get more Cottonseed Feed Products. Oil mills and others are using bulletins, advertisements, news items and many other methods to help farmers make cotton more productive and profitable, in a balanced farming and livestock program... Cattlemen, industry and consumers look to more cotton production in 1946 to supply needed feed, food and fiber.

W. E. Robinson, r., of Wichita Falls and Lieut. J. C. Bush of Sheppard Field spent Sunday visiting with Mr. and Mrs. W. E. Robinson, Sr., and Ruth. W. E. Robinson, Jr., and daughter, Margie Lee, returned to Wichita Falls with their husband and father after spending a week here.

Mrs. Ethelda Mae Connell, employee of K. M. A. C. station in San Antonio, is visiting her parents, Mr. and Mrs. W. E. Robinson and

her grandparents, Mr. and Mrs. W. S. Heard, and other relatives.

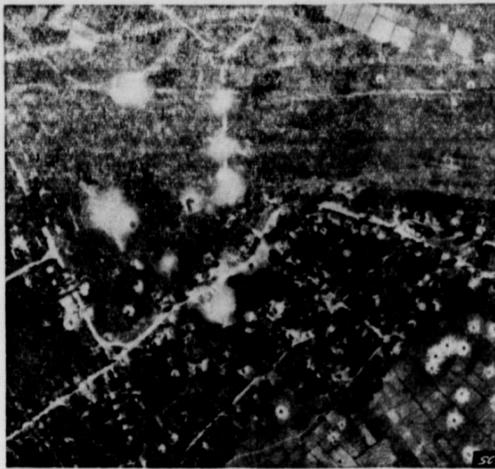

Mrs. Cecil Oliver and two daughters of Wichita Falls are visiting her mother, Mrs. Lessie Jackson, and Mr. Oliver's parents, Mr. and Mrs. G. S. Oliver.

Mr. and Mrs. Leo Cunningham spent last Sunday visiting with Mrs. Cunningham's grandmother, Mrs. C. A. Young of Wichita Falls. Mr. and Mrs. George White of Graham met them there, and Anita White accompanied her parents back to Graham.

Mr. and Mrs. E. O. Johnson and Royce and Mr. and Mrs. Gillie Hutchins and family, Goree; Mr. and Mrs. C. S. Baker, Mr. and Mrs. G. S. Cathey and Mr. and Mrs. D. M. Kiser of San Angelo spent Sunday visiting with E. N. Miller, who is a patient in the Stamford hospital. Mr. Miller is improving some, according to latest reports.

Miss Naomi Jean Miller spent the week end in Stamford with her father, E. N. Miller, and Mrs. Mil-

Revolutionize Future Air Attack

Official U.S. Army Photograph

Greatly increased accuracy in future bombing attacks is forecast in this remarkable, just-released photo of guided bombs at work. Taken from 10,000 ft. during a test raid on a Jap-held bridge late in the war, it shows three guided bombs, called Azon, bursting squarely on target. To left, standard bombs simultaneously released explode wide of bridge; and scores of craters testify to failure of previous standard bomb attacks. Developed by Gulf Oil research for the Air Forces, Azon bombs are steered by the bombardier through radios in their tails right on the target. Introduced in final stages of the war, guided bombs have since been improved. The Razon bomb, an advance over Azon, has been developed, adding still further precision to U.S. airpower.

Mr. and Mrs. J. J. Perkins of Wichita Falls Makes \$1,000 Gift To Allied Youth

The Texas office of Allied Youth, Inc., 514 North Ervay, Dallas, recently received a check in a letter from Mrs. J. J. Perkins in which she writes:

Dear Mr. Bridges:
I am enclosing a check of \$1,000.00 for Allied Youth work in Texas.

I am convinced that you are doing a wonderful work and I am glad to have a small part in helping the youth of America.

Allied Youth, Inc., is a national organization offering a program of alcohol education and alcohol-free recreation to young people. It functions in the community clubs known as Posts, organized in the high schools, among the young people of a church, or on a community basis.

The national organization, with its own building at 1709 M Street, N. W. Washington, D. C., is directed by a strong board of nationally distinguished leaders in the fields of education, religion and social service, and is financed through the voluntary contributions of interested friends. W. Roy Breg, a former Texan and a highly successful leader of young people, is Executive Secretary.

To give closer and more effective supervision to the extension of Allied Youth activities in Texas, a State Advisory Committee has been formed. The Committee includes a number of men who have long been interested in the problems of young people and who recognize in the Allied Youth program a means of giving timely aid at a point where there is great need. The prevalence of social

drinking cannot be ignored. Young people in their teens are under great social pressure to "go with the crowd" in the matter of indulgence in alcoholic beverages. Allied Youth believes they can be aided most by sound education and a wholesome recreation program in which drinking has no place.

The plan is to work throughout Texas organizing Allied Youth Posts in high school and church groups. Through these, the program of education begins and is carried on systematically, and good times without drinking becomes the rule. The experience on a national basis shows that young people want and welcome the Allied Youth program.

Local Area Sponsoring Committees are being set up in various centers in Texas to encourage and sponsor the Allied Youth program. Among the first of these committees are those in: Abilene, Austin, Corpus Christi, Fort Worth, Houston, San Antonio, Tyler, and Wichita Falls.

Much has already been done in

ler. Mrs. Ida Davis and son of Dallas and Mrs. Opal Tipton, also of Dallas, are visiting their parents, Mr. and Mrs. J. W. Sanders.

Mr. and Mrs. Raymond Caldwell of Wichita Falls and Mr. and Mrs. T. M. Tucker attended a reunion at the home of Mr. and Mrs. W. R. Caldwell last Sunday.

Irene Vaughn has returned from a visit with her brother, B. L. Vaughn, and his family, and her sister, Cleo, of Abilene.

Mr. and Mrs. Ben B. Hunt and Mr. and Mrs. George Hunt attended the funeral of Mrs. Ben Hunt's sister, Mrs. Elmo Neely of Olney last Friday.

Porter Fitzgerald has returned from a visit to Atlanta, Georgia.

Mrs. W. L. Moore is rather ill at this writing.

Mrs. J. C. Segler of Dundee spent the week end with her parents, Mr. and Mrs. W. A. Moore.

Texas through the efforts of Executive Secretary Breg who has frequently toured the state, through the program of the Texas State Allied Youth Advisory Committee, and Texas Field Secretary Asa Bridges.

Dallas, with active Posts in five high schools, has already become a strong center of activity, and good reports are coming in from other communities.

The Allied Youth program is recommended by the Texas Department of Education, by the United States Commissioner of Education, and by the Executive Secretary of the National Association, and is endorsed by J. Edgar Hoover, F. B. I., as well as many leading educators and church men and women throughout the country.

In Texas, the program is supported entirely by voluntary contributions. The budget for 1946 is \$25,000, and is in course of being subscribed. Contributions to Allied Youth, Inc., by individuals or corporations may be deducted from federal income tax.

Weekly Health LETTER

Issued by Dr. Geo. W. Cox
M. D., State Health Officer
of Texas

Austin.—With a total of 5,906 cases of mumps having been reported in Texas in the first seventeen weeks of this year, Dr. Geo. W. Cox, State Health Officer, has issued a statement stressing the fact that the contagion factor exists before symptoms appear, and urging isolation of all patients, in order to control the spread of this disease.

Mumps is transmitted by direct contact with an infected person and with articles freshly soiled by the secretions or discharges from the mouth or nose of persons having the disease. It takes from 12 to 26 days for mumps to manifest itself after the infection takes place. The disease can be easily transmitted, but one attack usually establishes immunity although second attacks sometimes occur.

characteristic symptom of mumps is a painful swelling of the salivary glands. Sometimes there is an involvement of other portions of the body causing disturbances in the digestive, nervous, circulatory, and genito-urinary systems. The disease is usually accompanied by a temperature rise which more often than not is mild.

"That patient suffering with this disease should be isolated from other members of the family immediately upon the suspicion that mumps exists, and the family physician should be called promptly," Dr. Cox advises. "In the meantime, complete rest in bed is indicated. The doctor's orders should be followed strictly. Violat-

ing his instructions can lead to serious injury, which may permanently affect the individual's health."

Chief Petty Officer Ozey Arnold of the Navy was here over the week end for a visit with his uncle and aunt, Mr. and Mrs. Dee Perry. He and Mr. and Mrs. Perry also visited with relatives in Plainview over the week end.

Have Your Planting Cottonseed

Kemgas Delinted
Recleaned, Graded and Treated
With Ceresan At The Munday
Kemgas Plant

This method is recommended by the Texas Experiment Station and the USDA for controlling the germs of cotton diseases on seeds and insect pests in seeds; saving chopping expense; reducing losses from root rot; improving and hastening germination and increasing yields.

Kemgas Delinted Seed Are Planted With Corn Plates At The Rate Of 5 To 7 Pounds Of Seed Per Acre.

Tractors plant more acres per day as there are few stops to refill with seed and no fuzz and trash to choke planters, cause skippy rows, and delay planting operations while the boxes are being cleaned.

Kemgas delinted seed come up quicker and grow off faster enabling cultivation a week earlier.

For further information write or phone:

Mrs. Cunningham Honored At Shower Thursday Evening

On Thursday evening from 8 to 9 p. m., a surprise shower was given Mrs. W. C. Cunningham in the home of Mrs. H. A. Owens. The home was beautifully decorated in blue and white larkspur and pink roses.

As the guests arrived, Mrs. Beddingfield assisted them in registering in a baby book made by Mrs. Frances Baker.

Wedding Of Ruth Betts, Allen Loving Is Announced

Announcement has been made of the recent marriage of Miss Ruth Betts, daughter of Mr. and Mrs. Lim Betts of Seymour, to Allen Loving, son of Mr. and Mrs. Ira Loving of Seymour. The wedding took place in Seymour and was performed by the justice of peace.

The bride wore a beige dress with gold trim and red accessories.

Mr. and Mrs. Bob Hofer of Fort Worth were attendants for the bridal couple.

The bride was reared in Seymour.

The bridegroom was reared at Goree. He enlisted in the Navy and spent three years with the 85th Battalion, recently receiving his discharge.

The young couple left for Fort Worth, where they plan to make their home.

HOME FROM GERMANY

Major C. F. Woodall, who has been serving in Germany, has returned to the States and he and Mrs. Woodall were here last week for a visit with Mrs. Woodall's parents, Mr. and Mrs. Frank Trammell. They are on vacation in Old Mexico this week. Mrs. Woodall plans to return to Germany with him at the end of his leave.

After guests had arrived, Mrs. Cunningham opened the gifts which were in a basinette, with a stork standing nearby with pink and blue ribbons streaming from his mouth to the basinette. Guests then entered the dining room, which was beautifully decorated with pink roses and candles.

Mrs. Frances Baker poured the punch, while Mrs. Owens assisted at the dining table. Guests were served tiny rolled sandwiches, filled cookies, salted nuts and punch.

Plate flavors were napkins folded and pinned with a tiny gold safety pin, so as to represent a small diaper.

The following guests were present: Mmes. Clyde Nelson, J. H. Bardwell, J. C. Gafford, Buell Bowden, Jack Qualls, Clyde Latham, Worth Gafford, Ray Holcomb, A. L. Smith, Weldon Smith, Fred Broach, Jr., Sied Waheed, C. P. Baker, Jim Reeves, Bud Nelson, Raymond Ratliff, H. F. Jungman, D. C. Eiland, Chan Hughes, Joe Bailey King, Mauryce Blacklock, and the hostesses, Mrs. Frances Baker, Mrs. Jack Beddingfield and Mrs. H. A. Owens.

Pint-Sized Inferno

A new lamp whose molten electrode glows at more than 5800 deg. C., the hottest source ever used by man to provide light, is the West-ern Union Telegraph Company's concentrated-arc lamp shown above as pictured in the May issue of Science Illustrated, new science magazine. The lamp can project lantern slides without the lenses normally required to focus the rays, as in this demonstration where a 19-watt bulb is used to project its own picture.

Tom Cloud And Miss Jonell Hill Wed On April 25th

Announcement was made this week of the marriage of Tom Cloud and Miss Jonell Hill, who were united in marriage on Thursday evening, April 25.

The wedding was performed at 8:15 o'clock by Rev. Phillips, minister of the Church of Christ, in his home. Only attendants were Mr. and Mrs. Gene Shackelford, brother-in-law and sister of the bride.

Mrs. Cloud is the daughter of Mr. and Mrs. J. A. Hill of Munday. She attended the Munday schools, graduating in 1945.

Mr. Cloud is the only son of Mr. J. L. Cloud of Goree. He served in the Army Air Forces from 1943 to 1946.

The couple are making their home near Munday.

New Deal Club Meets Thursday In Pendleton Home

Members of the New Deal Bridge Club were entertained on their regular meeting date, last Thursday afternoon, in the home of Mrs. Paul Pendleton.

After several games of bridge were enjoyed, delicious refreshments were served to the following:

Mmes. A. V. Kemletz, Arthur Smith, Jr., Carl Jungman, Jack Mayes, Wade Mahan, J. C. Harpham, Gene W. Harrell and the hostess, Mrs. Chan Hughes was a guest for refreshments.

Munday H. D. Club Meets Wednesday In Phillips Home

The Munday Home Demonstration Club met on Wednesday, May 8, in the home of Mrs. Coy Phillips in a business and social meeting.

The house was called to order by the president, Mrs. J. B. Broach. Minutes of the previous meeting was read by the secretary, Mrs. D. C. Swindle, and approved. New and old business was attended to, the members voting to meet at 2:30 p. m. in the future, instead of two o'clock.

Mrs. Clyde Taylor gave a very interesting review of the book, "The Snake Pit."

Games were played, and prizes were awarded to Mrs. D. C. Swindle and Mrs. Clyde Taylor. Refreshments were served to the following members and guests:

Mmes. Louis Cartwright, Clyde Taylor, G. L. Pruitt, Raymond Hargrove, G. L. Conwell, J. B. Broach, H. C. Hawes, R. E. Foshee, J. C. Gollehon, Joe Paterson, A. M. Searcey, Otis Simpson, D. C. Swindle, Ralph Weeks, Les Phillips, Mrs. Henslee and the hostess, Mrs. Phillips.

The next meeting will be with Mrs. Clyde Taylor. All members are urged to be present.

NATIONAL 4-H CLUB CAMP IS ANNOUNCED

The first National 4-H Club to be held since 1941 will take place in Washington, D. C., June 11-18, according to James W. Potts, 4-H Club specialist for the Texas A. and M. College Extension Service.

The Camp will be held on the campus of the American University in Washington. Adequate additional facilities, including the use of barracks adjacent to the main campus, have been made available by the United Navy Department, Mr. Potts says.

The selection of boys and girls from Texas who will attend the camp will be announced later.

Mrs. Alton Leach of Vera was a business visitor here last Tuesday.

Home Canners Are Asked To Check Gage On Pressure Cookers

Home canners who have the dial type gage on their pressure canners should have it checked with a master gage before they begin canning this year, according to Gwendolyn Jones, specialist in food preservation for the Texas A. and M. College Extension Service.

The weighted type gage will need nothing but thorough cleaning.

As the gage is the guide to temperatures inside the steam pressure cooker, is very important that it registers correctly. If jars have been heated too little, they will spoil later, Miss Jones explains. Or if they have been heated too much the food will lose nutritive value, flavor and desirable texture. This year when canned garden vegetables will help stretch world food supplies it is particularly important not to take chances on losing a single jar.

Chances are that a gage can be checked in the community. The county home demonstration agent may be able to put housewives in touch with someone who can check it. A dealer who sells canners may have a master gage or the public service department of the power company may have one.

If it is necessary to send it to the manufacturer, it should be carefully wrapped and marked "fragile".

Finally, if it does register high or low, Miss Jones suggests typing a reminder tag on the canner which states just how many pounds of pressure to allow.

TO MOTHER'S BEDSIDE

R. M. Almanrode left last week for Livingston, Tennessee, where he is attending the bedside of his mother for about two weeks.

Relatives And Friends Guests In Weber Home, Goree

Mr. and Mrs. George Weber of Goree entertained a number of relatives and friends in their home on Sunday, May 5. Those present included the following:

Mr. and Mrs. Claude Menges and Mr. and Mrs. Leslie Polson, Fort Worth; Mr. and Mrs. Raymond Melton and daughters, Rama Lee and Margie Anne, Garner; Mr. and Mrs. Herman Spann, League City; Mrs. Tommie Bramlett, Edmond, Okla.; Mr. and Mrs. C. S. Polson, Burkburnett; Mrs. Josie Dixon, Eldorado, Okla.; Mr. and Mrs. Loyd Patterson, Munday; Mr. and Mrs. Douglas Smith and children, Gordon and Glenda Nell; Mr. and Mrs. Sid Polson and son, Wayne; Joe and Tom Weber, Mrs. Kate Glasgow, all of Goree, and Mr. and Mrs. A. G. Jones of Swenson.

GETS DISCHARGE

Mr. and Mrs. Wilkie Guinn and twin daughters are here for a visit with relatives and friends. Mr. Guinn recently received his discharge from the army.

Billie Lou Spelee and Frankie Trammell of Wichita Falls visited relative here over the week end.

You are always welcome to any of our services. We do not expect everything in our services to be acceptable to everybody but we do believe every service has enough acceptable help to be a blessing to your spiritual life. Your presence is always a blessing to us.

READER'S DIGEST PUBLISHES MANUAL OF SMALL-BUSINESS IDEAS

Publication of a 128 page manual of ideas for starting small businesses is announced by the Reader's Digest in the May issue.

Entitled "A Business of Your Own," the booklet is an outgrowth of the magazine's \$25,000 prize contest for unusual small-business ideas. The manual is published as a nonprofit service, the editors state, its purpose being to stimulate individual enterprise. It is addressed to war veterans with little capital, and to others ambitious to start their own businesses. The material includes selected prize contest entries, and articles adapted from the Digest and other sources. Advice on avoiding the common hazards of new business is given.

IT PAYS TO ADVERTISE

FIRST BAPTIST CHURCH

Next Sunday is Mother's Day, also, the last Sunday of Christian Home Week. The services will be in keeping the day. Surely we will want to go to church that day in honor of our mothers. Then, too, may we think about the place that the Christian Home has in our world today.

There will be a sing-song and general get-together for the entire church Saturday night. Program will begin at eight o'clock. You are cordially invited.

W. H. Albertson.

Most Car Deaths Are On Highways

SUMMER MOTORISTS WARNED ON TEMPTATION TO SPEED

A speed violation was reported for one out of every three fatal motor vehicle accidents in 1945, according to Thomas N. Boate, special service director of the National Conservation Bureau, who warns warm-weather drivers that "most fatal accidents occur on the straight and wide open highways."

He said that with the advent of the warmer weather there is more temptation to speed and consequently a greater danger. People get out on an open highway on bright sunny days and forget all about speed restrictions or hazards. They are in a hurry to get to the seashore or country and squeeze in a few extra minutes of enjoyment and relaxation.

"Each state should put an absolute limit on speed," Mr. Boate urged, "with speed limits zoned downward consistent with highway construction and traffic conditions. The National Conservation Bureau, accident prevention division of the Association of Casualty and Surety Executives

STAR GAZING? Well, maybe. The three charming young ladies pictured above are contestants in the Santa Rosa Round-Up Beauty contest to be staged in Vernon May 29-June 2. The winner of the event will be offered a tour of the film capital. From left to right the beauties are Laverne Kleschick, Avinell Dyer and Dot Miller, all of Vernon.

Methodist WSCS Meets On Monday

James W. McMorris, now of Seymour, was here Thursday for a visit with friends. James recently received his discharge from the army after having served overseas. He formerly operated the O. K. Rubber Welders shop here.

Mr. and Mrs. G. Parrott and daughter, Vaneta, and Mr. and Mrs. "Nig" London, all of Throckmorton were here last Tuesday, visiting with friends and attending the livestock auction sale.

Mrs. John Moore and little son, Richard, of Corpus Christi came in last week for a visit here with Mrs. Moore's mother, Mrs. J. R. Smith, and with other relatives and friends.

Members included Mrs. Shelly Lee and Mmes Oates Golden, Chester Bowden, J. A. Caughran, S. E. McStay, H. A. Pendleton, D. E. Holder, Don Davidson, E. E. Lowe, W. T. Ford, Gill Wyatt, J. C. Rice, G. W. Dingus and the hostess, Mrs. S. A. Bowden.

Time of the next meeting was changed to 4 p. m. each Monday, beginning next Monday.

Mr. and Mrs. H. H. Bledsoe spent the week end here with Mr. Bledsoe's parents, Mr. and Mrs. R. L. Ratliff, and with other relatives.

Oscar Tooley of Haskell and Mrs. Don Davidson visited with relatives in Vernon last Friday.

Mrs. Garland Hawkins and daughter of Sweetwater are here for two-weeks visit with Mrs. Hawkins' mother, Mrs. J. B. Bowden, and other relatives.

Mr. and Mrs. J. Dee McStay and little son, Johnnie, of Vernon spent last Thursday here with Mr. McStay's mother, Mrs. S. E. McStay.

Mrs. Wayne Eads and little daughter, Connie, have returned from a visit with relatives in and near Stephenville.

Mrs. W. H. Simmons, Mrs. Spivey and Mrs. Chester Pogue of Truscott were business visitors here last Tuesday.

Miss Frances Brooks of Wichita Falls visited with Mrs. G. R. Eiland and Mrs. D. C. Green last Saturday.

HOME FROM INDIA

Mr. and Mrs. W. A. Jungman received a telegram last Tuesday from their son, Sgt. Walter Jungman, Jr., stating he had landed in India for quite some time. He also stated he would be home soon.

Mrs. W. B. Walsh of Red Springs is here for a visit with her son and wife, Mr. and Mrs. W. W. Walsh.

Mrs. A. B. Sams of Benjamin was a business visitor here last Monday.

Mrs. W. R. Hertel, Mrs. W. M. Hertel and Mrs. Ida Hertel of Benjamin were business visitors in Munday last Tuesday afternoon.

LAMOINE BLACKLOCK RECEIVES DISCHARGE

Lamoine Blacklock, who has been serving in the U. S. Coast Guard for four years, received his discharge this week at St. Louis, Mo. Mr. and Mrs. B. L. Blacklock left Thursday for Fort Worth to meet him.

Blacklock served in Washington and Orgeon for about three years, and during the past year he has made trips to Japan and China.

Mr. and Mrs. Lonnie Offutt and nephew, Gary, spent the week end in Fort Worth.

USE 666

Leo Guffey Now In Charge Piggly Wiggly Market

The Piggly Wiggly market, which has been operated by Ruby Hammons for the past year, has been leased by Leo Guffey, who assumed charge Wednesday of this week.

Guffey and his wife both will be on duty at the market. Both have been employed by Furr Food Store's market in Amarillo for some time.

The market will continue to feature home killed beef and a nice assortment of other meats and products. The new management will appreciate your business.

Chairmen For Cowboy Reunion Are Announced

The Texas Cowboy Reunion will be able to put on their shows this year come rain or shine according to President W. G. Swenson. Over 1,000 cubic yards of sand has been hauled and placed in the arena, making a covering some five inches deep.

The board of directors are again extending an invitation to the American Quarter Horse Association to put their "official" show in conjunction with this year's 16th annual showing of the Texas Cowboy Reunion.

All work chairman have been named for the year by the president and attendance is expected to exceed last year's record. Chairmen named were:

Henry Andrews, legal; Roy Arledge, quarter horses; A. C. Bishop, sponsors; Sam Baize, stall reservations; A. C. Bishop, advertising and publicity; Grady Bowdry and Robert Dickenson, ranch chuck wagons; W. M. Braymer, decorations; Chas. E. Coombes, entertainment and registrations; K. K. Francis, lighting; R. E. Hall, sponsors' dances; L. M. Hardy, concessions and booths; Chas. G. English, souvenir programs; L. W. Johnson, tickets and admissions; Dr. L. F. Metz, first aid; Henry Osment, police and parking; George J. Smith, gates, grandstands and grounds; A. M. G. Swenson, rodeo events; A. C. Humphrey, parade; C. F. Upshaw, pioneer cowboys' chuck wagon.

Motor Transports Of Texans Helping County Schools

AUSTIN.—The Texas motor transportation industry last year contributed heavily toward the education of Knox County school children and in the construction and maintenance of the county's highway system, it was revealed today in an analysis of the industry's special tax payments released by Lynn B. Shaw, general manager of the Texas Motor Transportation Association.

The 2,571 scholastics in Knox county benefitted to the extent of \$9,255—\$3.60 for the education of every school child in the county or in excess of 13 per cent of the total education bill.

Trucks and buses paid \$55,709 in special taxes that went toward construction and maintenance of highways in Knox County.

The industry contributed a total of \$39,000,000 in special taxes, a ten million dollar increase over the preceding year, and this figure represents only proceeds from gasoline and license fee taxes paid by more than 280,000 motor trucks and buses, both commercial and private, in Texas. It does not include federal or regular state taxes, such

Contestants Give Cross Section of Girls' 4-H Work

Nine district contestants for the Maggie W. Barry Scholarship represent the cream of the crop among Texas older 4-H Club girls, a judging committee from the A. and M. College Extension Service said this week after visiting the aspirants. Winner will be announced in the near future. The scholarship, which is considered the highest honor available to a 4-H Club girl, is awarded annually by the Texas Home Demonstration Association.

District winners eligible to compete for the top honor include: Joy Williams, Shamrock, Wheeler County, District 1; Norma Jean Schuler, Lorenzo, Crosby County, District 2; Fay Ryder, Gilliland, Knox County, District 3; Marie Smith, Crandall, Kaufman County, District 4; Eddie Virginia King, Howland, Lamar County, District 5; Wanda L. Weems, Rotan, Fisher County, District 7; Lanelle Ridele, Buda, Travis County, District 8; Georgene Laverne Mengers, Skidmore, Bee County, District 10; and Dorothy Requardt, Conroe, Montgomery County, District 11.

Members of the committee of judges representing the Extension home demonstration staff were Miss Lorene Stevens, 4-H specialist; Miss Alice A. Wheatley, assistant 4-H Club specialist; and Mrs. Eloise T. Johnson, specialist in family life education.

Every girl the committee saw excels in one or more demonstrations. . . food production, home improvement, clothing, or landscaping. Every girl is versatile and useful in the home, and all are prominent in their 4-H Club, school and church activities. The judges place considerable emphasis on these leadership indications. Practically every girl has given a demonstration to adults in a home demonstration club, they found. On the days of the committee's visits the girls wore dresses they made themselves.

Several have done sewing for their families. One exhibited special interest in repairing tractors and farm machinery, while another had shingled and papered her home. Miss Stevens says the girls were modest, but self-assured and gave evidence of good health and nutrition.

Chairmen For Cowboy Reunion Are Announced

The Texas Cowboy Reunion will be able to put on their shows this year come rain or shine according to President W. G. Swenson. Over 1,000 cubic yards of sand has been hauled and placed in the arena, making a covering some five inches deep.

The board of directors are again extending an invitation to the American Quarter Horse Association to put their "official" show in conjunction with this year's 16th annual showing of the Texas Cowboy Reunion.

All work chairman have been named for the year by the president and attendance is expected to exceed last year's record. Chairmen named were:

Announcing Change In Ownership

This is to announce that the Terry Hotel, which has been owned and operated here for over 25 years, has been purchased by Mr. and Mrs. B. A. Yarbrough.

This change was made effective with the closing of the deal last Monday, and the new owners are now in full charge of the hotel.

It is our aim to continue to render every hotel service possible to our customers, making this your "home away from home." We invite the patronage and good will of all old customers and solicit the patronage of new customers.

Bus Tickets Sold Here

The bus station will be maintained here, as usual, and all busses through Munday will make stops here. We'll always be glad to advise you on bus schedules and connections.

Let us serve you in every way we can be of service.

Terry Hotel
Mr. and Mrs. B. A. Yarbrough

Answers Given To Veterans Problems

Q. Is there any restriction on the use of the money secured from a loan guaranteed by the Veterans Administration?

A. Yes. Funds secured from a loan may be used only to purchase, build, repair, alter, or improve a home or farm to be occupied by the veteran, or to purchase a business, business property, or equipment to be used by the veteran for the purpose of earning a livelihood.

Q. In an emergency, how can a veteran secure admission to a veterans hospital?

A. Before proceeding to a Veterans Administration Hospital, the veteran or someone acting for him should communicate with the nearest VA contact unit or hospital by telephone or telegraph, and request authority for admission and for transportation, if necessary. Prior authority is needed before a person can be reimbursed for any expenses incurred in such travel.

Q. Should a man who obtains National Service Life Insurance from the Government while in the military or naval service retain such insurance after discharge?

A. By all means, because the premium rates are low in comparison with the rates of private insurance, especially in view of the valuable protection granted. After separation from active service, veterans cannot apply for new National Service Life Insurance and the obtaining of new insurance with private companies will have to be accomplished at his present age for which rates would necessarily be higher. Furthermore, the additional medical examination which would be required for a new non-government policy might disclose

some impaired health condition which would bar the granting of new insurance by the private company. If the veteran has let his National Service insurance lapse, he should seek its reinstatement at once.

C. P. Baker and Mrs. Joe Bailey King were in Fort Worth last week, where they attended the shoe markets to buy merchandise for the Baker-McCarty Store.

Mr. and Mrs. Buck Tidwell and Ben W. Bowden were in Stephenville last Sunday to attend the homecoming at John Tarleton College and to attend the memorial service held there Sunday afternoon, honoring ex-students of the college who lost their lives in World War II. Ralph Tidwell was among the large group of ex-students honored at the memorial service.

Miss Bernice Douglas of Denton visited friends here over the week end.

Miss Maryon Huskinson of Wichita Falls visited with relatives and friends here the latter part of last week.

Mr. and Mrs. Bryan Cammack and children spent the week end in Maador, visiting with relatives.

Mrs. Irene Meers left last Monday evening for Hot Springs, New Mexico, where she is visiting her sister for about ten days.

Rev. Chas. Sargent of Roaring Springs was here over the week end for a visit with relatives and friends. Rev. Sargent is pastor of the Methodist Church at Roaring Springs.

Washington News Letter

By Congressman Ed Gossett

Washington, D. C., May 8.—As I am in Texas this week, this letter is being written by my secretary from notes and suggestions which I left in my Washington office before my departure.

One important development this week was the government's curtailment of passenger and freight services by the nation's railroads as a result of a coal shortage due to the strike-bound coal mines. This will force a general curtailment of all industry, and the complete shut-down of some basic lines. In our complex economy a coal shortage, a steel shortage, or a transportation shortage has wide effect on all of our people.

As I have said many times in the past few years, the power of labor union leaders over American economy is an insult to our democracy. The current coal strike is the most serious problem on the domestic front at this time, and unless it is settled soon our reconversion program will be paralyzed and production on all fronts will be bottlenecked.

According to figures of the Civilian Production Administration, more tin cans are used for canning dog food than for any other one item, and beer cans is a close second. Both dog-food canners and brewers have had their quotas of tin cans eliminated entirely.

We Americans have a habit of thinking that we, as the greatest nation and the wealthiest one, have everything we need within our own boundaries. World War II proved this to be entirely untrue. When the Japanese occupied the Pacific territories, we lost our largest sources of supply of rubber, tin, hemp, pepper, and other spices, to mention only a few items.

A good many of my friends at home have written me about the great waste of supplies and materials on the part of the armed services. While this is admitted, in confidence, by high-ranking military officials, and is common knowledge to many, the difficulty is that little can be done unless specific names, dates, places, items, and destruction are observed. Otherwise, getting investigations and corrections of such waste is similar to prosecuting a person without being able to produce any evidence against him.

Among the most popular bulletins published by the Department of Agriculture are those concerning the control of insects and bugs. Obnoxious insects are no respecters of persons or places. The Capitol and House Office Buildings have been so infested with cockroaches recently that one member introduced a bill to increase federal control over insecticides. Though Congress hasn't acted on the bill, the buildings are now in process of having the cockroaches exterminated free. A manufacturer of roach-killer offered to rid the buildings of these bugs, and is now at work. Control of rats in government buildings is also a problem. It would seem that if the Pied Piper of Hamelin could appear anywhere in the United States he might be able to get a job.

On Sunday, May 12, we will observe Mother's Day. Frank E. Hering of South Bend, Indiana, proposed before a convention of Eagles Lodge on February 7, 1904, that a day be selected on which the lodges should pay homage to mothers. In 1907 Miss Anna Jarvis proposed the manner and time for such observance, and is generally given credit for having conceived the idea. Mother's Day was first celebrated in the city of Philadelphia on May 10, 1908. By Presidential proclamation dated May 8, 1914, flags were flown on government buildings in honor of the day. The custom was introduced in England in 1913.

Mrs. Wm. B. Payne left last Sunday for Sanatorium, Texas, to be with her husband, who is undergoing treatment there.

Miss Betty Frances Belcher of Dallas spent the week end here, visiting with her grandparents, Mr. and Mrs. J. C. Call.

Mr. and Mrs. E. W. Harrell, Mrs. Gene Harrell and daughter, Natalie, and G. H. Beatty were business visitors in Wichita Falls last Tuesday.

Miss Quintna Wiggins of Wichita Falls visited with relatives and friends here over the week end.

Pitzer Baker and son, Charles, were in Dallas the first of this week, attending the markets and purchasing merchandise for the Baker-McCarty Store.

Mr. and Mrs. Glenn Dobbs of Frederick, Okla., and Mr. and Mrs. J. P. McGraw of Vernon visited relatives and friends here over the week end.

A. P. I. Planning On Large-Scale Farm Program

NEW YORK—A comprehensive program designed to link more closely two of the nation's largest industries—agriculture and petroleum—will be undertaken by the American Petroleum Institute, President William R. Boyd, Jr., announced today.

An agricultural Development Committee now is being formed, Mr. Boyd said. Its country-wide personnel will be announced as soon as selections are completed. Major objectives of the Committee will be:

1. Continued and expanded research into products that combine those of the farm and the oil field, and new uses for them.

2. Study of insecticides, fungicides, weed destroyers, fruit ripeners, liquid fertilizers and similar petroleum products.

3. Furtherance of soil conservation and fertility maintenance programs.

4. Study of efficient and profitable farm mechanization.

The Committee will work with government agencies and farm organizations, Mr. Boyd said, and will make public without charge all results of its studies. "The rapid growth of farm mechanization," he said, "has made agriculture an important customer of the petroleum industry. It is therefore only natural for us to help that customer remain prosperous and to assist him in efficient operation."

"Farmers now use more than

three and one half billion gallons of petroleum products annually and the total is expected to increase. On its part, the petroleum industry uses directly more than 40 millions pounds of agricultural products a year."

There are approximately 2,200,000 tractors in use on American farms at present, with an expected increase of 200,000 machines a year for the next several years. The use of petroleum products for flame weeding, cotton picking, tobacco curing, hay drying, wood preserving and spraying also is increasing steadily, and farm roads continue to absorb steadily-mounting quantities of asphalt.

Help Europe's Hungry People

Every person in Knox County has a part to take in cutting down starvation among the war-weary men, women and children throughout the world. It is the immediate job ahead in building a lasting peace-loving people. Food production is particularly the field of rural Americans. It is where they can make a vital contribution to the building of the peace.

One step to meet the emergency was Secretary Anderson's request that farmers increase their goals for planting of wheat, corn, grain sorghum, soybeans, and smooth, dry, edible peas.

Miss Betty Golden, who is attending school in Denton, and Miss Juanita Golden of Dallas spent the week end here with their parents, Mr. and Mrs. Oates Golden.

Mr. and Mrs. George Saem spent the first of this week in Dallas, visiting with their daughters, Alva and Nadine, who are attending Southern Methodist University. They also attended the markets to purchase merchandise for the Fair Store.

Mrs. Robert Green and two daughters visited with Mrs. Green's mother, Mrs. C. K. Mosby, and other relatives in Wichita Falls over the week end.

LET'S ALL BE GOOD FRIENDS

We've known most of you for a long time and have enjoyed serving you. We like you to call us by our first names, too. It's more friendly. Our aim has always been to give you the best merchandise plus courteous service.

Prescription Service

We offer you a complete prescription service. Two registered pharmacists on duty here, so one will always be on hand to wait on you. Promptness and efficiency are what you get when you bring your prescriptions to . . .

in Munday it's

EILAND'S Drug Store

Only Two More Hatches

May 13 & 20

Chicks will come off on May 13 and again on May 20, and after that date our incubators will be shut down for a while.

If you are anticipating getting baby chicks, let us have your order before these hatches come off.

Plenty Red Chain Feeds

We have a good supply of feeds on hand, and feed comes in regularly so it will always be fresh and good.

We recommend Red Chain feeds for all feeding purposes. Red Chain is "The Quality Feed" for poultry and livestock. Let us supply you.

We also have a good stock of poultry medicines and remedies.

How do you like your Eggs?

Reddy Kilowatt as a trouble-shooter isn't worrying about your eggs—or whether you want 'em soft boiled, fried, scrambled—or if you like eggs at all.

But he is worrying about keeping your electric service flowing along as usual. If that means eggs for your breakfast, okay then, that's why he's up on a storm-lashed power pole.

And, he'll stay there till he gets your line repaired—in spite of hot wires sputtering around him. In spite of rain . . . lightning . . . thunder . . . and a high wind howling, "Watch out, fella, we're gonna hit it again!"

You don't have to send him a check for his trouble. You won't pay any more on your electric bill—to cover his hard, wet work and the materials he uses. Charges are you'll never know a line went out.

This kind of service is routine stuff for Reddy, and the electric company he works for. Storms—the repairs and cost—are all prepared for and handled in a businesslike way. But it isn't an easy job. Keeping your electric service dependable and cheap is the result of careful planning and sound business management.

West Texas Utilities Company

Veterans Get Preference In Purchase Of New Farm Machinery In This Area

Preference certificates for the purchase of new farm machinery and equipment are being issued to veterans under War Food Order 155, according to J. L. Matthews, assistant in agricultural planning for the A. and M. College Extension Service. More than 60,000 certificates were issued during the month of February.

The order provides that a World War veteran who is a share cropper or who operates a farm as an owner or tenant may apply for a veteran's preference certificate for new machinery and equipment for the purpose of establishing or re-establishing himself as a farmer. Applicants are accepted by the county agricultural conservation committee for the county in which

equipment is to be used. Preference certificates under War Food Order 135 may be obtained at the AAA office at Benjamin. A veteran must show that he has need for the equipment, that he has been unable to obtain new or used equipment, and that supplying of new equipment will tend to increase food production.

Preference certificates are issued for each item of equipment based on minimum needs as determined by the local committee. The certificates are presented to a local dealer, who is required to give such orders priority provided the veteran meets the price and sale terms for payment for the equipment.

Because of recent extensive work

Albert S. Mauzey Here In Interest Of His Candidacy

Albert S. Mauzey of Nolan County was in town last Tuesday, meeting with local voters in the interest of his candidacy for the office of Associate Justice of the 11th Court of Civil Appeals.

Mr. Mauzey is serving his 14th year as district judge of his district. The eleventh judicial district is composed of the following counties:

Baylor, Borden, Brown, Callahan, Coleman, Comanche, Dawson, Eastland, Erath, Fisher, Haskell, Howard, Jones, Knox, Mitchell, Nolan, Palo Pinto, Scurry, Shackelford, Stephens, Stonewall, Taylor and Throckmorton.

Government Ready To Accept Wheat Donations, UNRRA

COLLEGE STATION. — Donations of wheat now will be accepted by the U. S. D. A. for transfer to U. N. R. R. A. to use in relief feeding abroad, according to an announcement from Director Ide P. Trotter of the Texas A. and M. College Extension Service. The only condition set up is that donations must be in not less than carload lots. The range is from 1,350 bushels to about 2,000 bushels to the carlot.

The Government does not intend to take title to such donated relief wheat and it will receive it either on the basis of freight collect or prepaid. In cases where the freight is not advanced by the donors, arrangements will be made for such expense to be out of U. N. R. R. A. funds.

Secretary of Agriculture Clinton P. Anderson has wired explanations of the wheat donations program to a number of leading farm organization and farmers' marketing association heads. Churches and organizations as well as individuals, may arrange to donate wheat in carloads by making direct contact with their area director of the Grain Branch of P. M. A. Texas donors may contact their area director at Dwight Building 1004 Baltimore Avenue, Kansas City 13, Missouri.

interruptions in steel production and the present work stoppages in farm machinery manufacturing plants production of most essential items during February was extremely low and preference certificates were especially needed to obtain equipment.

JOHN BOLES IN NEW ROLE. When Railroad Commissioner Beauford Jester, left, launched his candidacy for the Democratic gubernatorial nomination in Corsicana John Boles, right, famed Texas baritone of stage, screen and radio, was present to lead the overflow crowd in singing "The Eyes of Texas," which the two sang together often while glee club mates at the University of Texas.

County Council Meets On Friday In Assembly Room

The Knox County Home Demonstration Council met in the assembly room at the Court House, Friday, May 3rd, and nine clubs were represented with 27 members present. This being "guest day" for Gilliland Club, they had six members present.

All clubs reported their Club Activities and most are keeping up their meetings, even though we do not have an Agent at this time, but are expecting the Extension Department to make a selection soon.

All committee Chairmen gave reports and the Educational Chairman gave reports of six new members since the first of April.

As we are getting such an accumulation of magazines in the Library, it was decided to not accept any more, and save the space for books. Ten new books which were ordered some time back have been received and checked into the Library.

The delegates which were sent to the District Meeting at Seymour, gave an account and report of the programs had there.

A motion was made and carried for us to have an Encampment with Haskell County, on August 20 and 21st if we can secure the privileges of the Munday Park at that date, and all clubs turned in order and money for pineapple which will arrive sometime in the very near future.

Mrs. Irene Meers had as her guests over the week end Mr. and Mrs. Floyd Meers and Mr. and Mrs. Burl Meers, all of Seymour; Mr. and Mrs. Lee Faulkner, Bellevue; Mr. and Mrs. Bud Collins, Floydada; Mr. and Mrs. A. H. Ladd, Wichita Falls, and Mrs. Boyd Meers and children, Munday.

Hardin-Simmons Looking For Large Summer Enrollment

Abilene.—Tenative plans for the first six-weeks session of summer school at H.S.U., to begin with registration June 4, call for an expected 500-600 students, according to Dean R. A. Collins.

With the record attendance expected, classes will begin daily at

Weather Report

Weather report for the period of May 2nd thru May 8th, inclusive, as recorded and compiled by H. P. Hill, Munday U. S. Cooperative Weather Observer:

	Temperature	
	LOW	HIGH
1946 1945	1946 1945	1946 1945
May 2	55 57	77 84
May 3	49 49	83 69
May 4	59 39	81 74
May 5	54 51	81 83
May 6	57 55	90 95
May 7	52 65	83 81
May 8	63 50	77 80

Rainfall this week, .21 inches; rainfall to date this year, 3.92 inches; rainfall to this date last year, 7.76 inches and rainfall since Nov. 1, 1945, 4.59 inches.

West Virginia ranks fifth among the states in the production of natural gas and first east of the Mississippi.

There are now 1021 public schools using visual aid service, whereas in 1941 there were only 280 schools using the service, and 623 in 1945.

The original of Texas cattle brands will be told at the annual meeting of the Texas Folklore Society at the University of Texas, May 17-18, by Orlan Sawey, tutor in English at the University.

The United States now has 394 petroleum refineries.

A Want Ad in The Times Pays

FOR SALE
The Fundamental Baptist Church at Gore, Texas will accept sealed bids on the church property.

The property consists of lots number 1-2-3-4-5 and 6 in block No. 42 in the town of Gore, Texas. The building is 36 feet by 40 feet, 12 foot wall frame building with 2x6 studs, siding on out side and ceiled throughout on inside with beaded ceiling.

The Committee reserves the right to accept or reject any and all bids. Sealed bids to be opened by committee, Tuesday May 21st, 1946, at 3 p. m. at church building. Ben B. Hunt, Clerk, Gore, Texas. 44-2tp.

7-a. m. and continue through to 5:30 p. m. Two six-weeks terms will be offered, with students allowed to carry a maximum of 12 hours, and the long terms will be followed by one three-weeks term in which one course may be taken.

A majority of the heads of departments will be in residence for the summer session, and the complete schedule of courses and instructors will be released within a few days, Dean Collins said.

Already many students, including quite a few veterans, have shown interest in the aviation

course, which will be offered for the first time. This ground school course offering meteorology and ground work for pilot training will be conducted in conjunction with the more advanced training at Municipal Airport.

Veterans enrolling in this course will have the cost of their tuition as well as the cost of all time in the air paid by the Veteran Administration, Dean Collins added. More definite information on enrollment for the new aviation course will be released from the dean's office.

Reasons for Growing More COTTON in '46

No. YOUR SURE CROP IS COTTON

Every crop has good years and bad; even the best farms and best crops have bad years. But, year-in and year-out, Cotton is outstanding for its ability to produce. Compare Cotton with your other crops and you'll agree—it's your "Surest" crop.

DEPEND ON COTTON AND GROW MORE OF THIS "SUREST" CROP IN 1946.
