

Moguls Romp Over Indians By Score of 18-0

In a game that was characterized by fumbles, pass interceptions and numerous penalties for rule infractions, the Munday Moguls romped over the Haskell Indians last Friday night to win another District 11-A conference game, 18-0. The game was played on Indian field.

Joe Spann returned an intercepted pass to the Haskell 10-yard line in the first quarter, and from there the ball was ran over for the Moguls' first touchdown. The try for extra point was by the pass route, which was incomplete.

Haskell advanced to the Mogul 20-yard line with a couple of nice passes that gained 35 yards, but lost the ball. Munday then staged a ground drive to the Haskell five before losing the ball on downs. Haskell kicked out, and again Munday ran the ball to scoring position with line plays and end runs.

Late in the third quarter, Swain drove over after this long drive on running plays. This time Johnny Spann's kick was wide, and the score remained 12-0.

Late in the fourth quarter, Haskell was attempting to score by an aerial attack, but Haynie intercepted an Indian pass on the 45-yard line, eluded several tacklers and ran the entire distance to cross the goal marker standing up for the third touchdown. Another pass for extra point was incomplete.

Thus the Moguls continued their winning streak, and Haskell remained in cellar position in the conference standing.

Starting lineups were as follows:

Munday: Joe Spann, left end; Jackie Moore, left tackle; James Cadwell, left guard; Harold Green, center; Kelton Tidwell, right guard; Joe Yarborough, right tackle; Lloyd Haynie, right end; Johnny Spann, fullback; Billy Bouldin, quarter; Delbert Montgomery and John Brown, halves.

Haskell: Kenneth Tooley, left end; Herbert Vines, left tackle; Edward Corzine, left guard; Monte Fritz, center; Rex Powers, right guard; James Turner, right tackle; Giles Kemp, right end; James Foster, quarter; James Strain, fullback; James Dodson and Huey Bledsoe, halves.

Former Resident Passes Saturday At California Home

Friends here received a telegram from Edwin Heald, former employee of the First National Bank here, last Monday informing them of the death of his father J. M. Heald.

Mr. Heald passed away at his home in San Diego, Calif., last Sunday night. He was around 80 years of age.

Mr. Heald made his home in Knox county for a number of years before moving to California. He resided about two miles west of Munday and was well known to all of the county's old timers.

Funeral services were held at San Diego, Calif., last Tuesday afternoon.

County Schools Get State Money

Knox County received state money amounting to \$3.00 per capita, it was announced Wednesday by Merick McGaughey, county superintendent.

This payment makes a total of \$9.00 per capita which Knox schools have received this year, it was stated, with the first payment of \$6.00 coming in August.

Because of an increase in the per capita apportionment from the state this year, the county schools will receive a total of \$41.00 per capita.

HERE FROM CALIFORNIA

Mrs. Ruby Riggan of Fullerton, Calif., came in the first of last week for a visit with her brother and sister-in-law, Mr. and Mrs. M. F. Billingsley, and other relatives. This was the first time Mr. Billingsley and Mrs. Riggan had seen each other in 34 years. Mrs. Riggan also visited relatives at Terrell and other points while in Texas.

Mr. and Mrs. J. C. Reagan and children of Spur spent the week end in the home of Mrs. Reagan's mother, Mrs. Etta Webb, and with other relatives.

Knox County Hospital Notes

Patients in the Knox County hospital October 22, 1946:

Mrs. J. R. Lane, Munday
Mrs. W. M. Satterwhite, Knox City.

Mrs. Gene Shackelford, Lelia Lake, Texas
Mrs. W. T. Cartwright, Benjamin.

Charlie Mae Lamb, Knox City.
Russell Hollingsworth, Rochester.

Mrs. T. H. Allen, Vera.
Mrs. A. B. Long, Grow.
Mrs. T. C. Posey, Knox City.
Jim Norman, Rule.

Miss Laverne Covey, O'Brien.
Mrs. H. L. Hardy, Throckmorton
Baby Hardy, Throckmorton.

Patients dismissed since Tuesday, October 15, 1946:

Mrs. T. H. Gothard, Seymour.
J. C. Saunders, Knox City.
Jimmie Leech, Knox City.

Mrs. E. N. Montandon, Munday.
Baby Montandon, Munday.
Mary Ann Haney, Truscott.

Mrs. Adrian, West, Benjamin.
Neives Sandobel, San Benito.
Mrs. T. G. Carney, O'Brien.
Mrs. O. O. Posey, Knox City.

Baby Posey, Knox City
Elease, Sanez, Rochester.
Mrs. Johnny Epley, Rochester.
Gayle Holmes, Rochester.

Mrs. J. J. Denton Jr., McCamey.
Baby Denton, McCamey.
Mrs. A. O. Nail, Benjamin.

Mrs. D. E. Williams, Rochester.
Baby Williams, Rochester
Mrs. A. S. Herndon, Knox City.
Mrs. Jack Coulter, Amarillo.

Mrs. Thos. Surell, Munday.
A. U. Hathway, Munday.
Boyd Meers, Munday.
Mrs. Lester Kinnibrugh, Vera.

Mrs. Chas. Mapes, Haskell.
Baby Mapes, Haskell.
Mrs. Morris Ford, Munday.
Mrs. A. E. Propps, Knox City.

Mrs. C. J. McKinney, O'Brien.
Baby McKinney, O'Brien.

Births:
Mr. and Mrs. H. L. Hardy, Throckmorton, a daughter.
Mr. and Mrs. J. J. Denton, Jr., McCamey, a daughter.

Mr. and Mrs. E. N. Montandon, Munday, a son.

Club Booth Wins Prize At Haskell Fair

The Munday Home Demonstration Club entered a booth in the club exhibit at the Central-West Texas Fair at Haskell on October 11, 12 and 13.

Scrap leather was the theme for their booths. Posters showing sources of scrap leather and uses and methods of working it were featured in the exhibits, along with finished products made by the club women.

The local club's booth won second place at the fair, which carried with it a prize of \$11.00.

Several individual entries were made by different members of the club, almost all of which won either first or second prize.

Eamesway Man To Give Demonstration Of Culling Flock

R. T. Morrow, who operates the Banner Produce here, announced Wednesday that a poultry culling demonstration will be held at his produce next Saturday afternoon at four o'clock.

Mr. M. L. Sharpe, specialist in the Eamesway method of poultry culling will be in charge of the demonstration. He will take live poultry, determine what's wrong with the bird by the Eamesway method, then actually show his audience where the trouble is.

Morrow stated that 500 pounds of Mar-Ket feed will be given away during the demonstration. Nothing will be sold during the demonstration, and the entire public is cordially invited to attend.

Munday Girl On McMurry Chanters

Miss Frances Smith of Munday was among the 30 McMurry College Chanters who sang for the Sixth District Federation of Texas Music Clubs in San Angelo on October 19.

On the way to San Angelo, the group stopped at Winters, Ballinger, and Miles, where they presented programs at the three high schools.

U. S. O. AND BOY SCOUT DRIVE TO OPEN MONDAY

Travis Lee, chairman of the combined U. S. O. and Boy Scout finance drive, announced Thursday that the drive will open next Monday, October 28, and will continue through October 31. A concerted effort will be made to raise Knox county's quota during these four days.

Knox county has always met its quota in these important drives, and county leaders feel that Knox citizens will not fall short this time.

The county quota is smaller this year than during war-time, and it is believed all the people will contribute readily to these two worthy causes.

Mr. and Mrs. C. R. Parker spent several days in Dallas last week, visiting their daughter and family, Mr. and Mrs. Alan Seale, and attending the Texas State Fair.

March of Dimes Director Named

George D. Wilson, of Houston, has been named Texas State Chairman of the 1947 March of Dimes, Basil O'Connor, president of the National Foundation for Infantile Paralysis, has announced.

A prominent civil and religious leader, Mr. Wilson was formerly president of both the Board of Trustees of Houston University and the Board of Education of Houston's Public Schools. He is vice chairman of the Harris-County Chapter of the American Red Cross and is one of the Houston chairmen of the National Conference of Christians and Jews.

Mr. O'Connor, in making known Mr. Wilson's acceptance of the chairmanship, revealed that in coping with the 1946 outbreaks of infantile paralysis the National Foundation sent to its chapters in the field more than two and a half million dollars in epidemic aid up through September.

"Many of this year's polio patients," Mr. O'Connor said, "will require hospitalization and care for a long period of time. The after-care of these patients will be more expensive than treatment in the acute stage of the disease. The high cost of epidemics points up the real need for the services of public-spirited men such as Mr. Wilson. His efforts will prove of great value in the forthcoming appeal."

Mr. Wilson is also Chairman of the Harris County Chapter of the National Foundation and was formerly County Chairman of the 1945 and 1946 March of Dimes.

Two Important Activities

Soon a drive will be started to raise funds for two important activities. They are the combined U. S. O. and Boy Scout drives, and local leaders are anxious that Knox county do her part.

Knox county has been asked to raise \$2,700 for the combined drive. Of this amount, some \$900 goes to the U. S. O., and around \$1,800 to the Boy Scout movement.

Building future citizens is an activity in which everyone is engaged. An important thing in this building is the Boy Scout movement.

"The unfinished task of the U. S. O. is an essential part of the unfinished task of winning the war," states President Truman. "The appeal of the U. S. O. should have prompt, generous and universal support."

The Boy Scouts and U. S. O. need and deserve your unstinting support. For the sake of tomorrow's America, give while there is still time—today!

4 Local Students At ACC, Abilene

ABILENE.—Abilene Christian College, opening her forty-first session on October 3, had a record enrollment of 1430 students, a 11 per cent increase over last year. Of this number, 585 were veterans. By classes there were 771 freshmen, 320 sophomores, 195 juniors and 144 seniors.

Included in those enrolling for the 1946-47 fall semester were the following from Munday: Jeane Davis, sophomore, daughter of Mrs. Jo Mae Davis; R. G. Stevens, freshman, son of Mr. and Mrs. J. B. Stevens; Kenneth Whittemore, sophomore, son of Mr. and Mrs. Ed Whittemore, and Marion P. Phillips, freshman, son of Mr. and Mrs. P. C. Phillips.

TOBY LANE IS HOME UP FOR A DISCHARGE

Toby Lane, who has been serving in the U. S. Marines and stationed at Treasure Island, California, came in last Friday for a visit with his parents, Mr. and Mrs. Ed Lane.

Toby is spending a furlough here, and is due to receive his discharge on November 8th.

Mr. and Mrs. Frank Russell and daughter went to Lubbock last Sunday to visit Mr. Russell's father, G. W. Russell, who is undergoing treatment in the clinic hospital there.

Weather Report

Weather report for the period of Oct. 18th thru Oct. 23rd, inclusive, as recorded and compiled by H. P. Hill, Munday U. S. Cooperative Weather Observer:

Oct. 23	65 42	87 77

Rainfall for this year 20.87; rainfall to this date last year, 20.18.

Moguls Take Trip Friday To Play Stamford

Locals Hold Second Place In 11-A

Holding second place in District 11-A standing this week, with two wins and one tie, the Munday Moguls will journey to Stamford next Friday night to see if the two teams exchange places in the district standing.

Although Stamford's Bulldogs haven't too much of a showing thus far, the locals are preparing for a stiff game there Friday night. Stamford has always given the Moguls plenty of trouble, with the locals taking but few wins from the Bulldogs during their years in the district.

The Moguls are classed as surprise threats for the district 11-A championship, and Friday night's game will determine whether they continue in the running.

The Pied Pipers of Hamlin, leaders in the district, have an open date Friday—then on next Friday, November 1, they come to Mogul field for a district encounter.

Anson entertains Albany, and Haskell plays at Rochester in a non-conference game. Throckmorton also has an open date.

Last Week's Results
Hamlin 14, Stamford 0.
Anson 25, Throckmorton 6.
Munday 18, Haskell 0.

Team—	District Standings			
	W	L	T	Pct.
Hamlin	3	0	0	1.000
Munday	2	0	1	.833
Stamford	2	1	0	.667
Anson	2	1	0	.667
Throckmorton	0	2	1	.167
Albany	0	1	0	.000
Haskell	0	4	0	.000

Games This Week
Munday at Stamford.
Albany at Anson.
Haskell at Rochester.

Plans For Carnival Are Going Forward

Plans are nearing completion for the Halloween carnival, which will be held at the Munday school auditorium on October 31, under the sponsorship of the Munday Parent-Teachers Association.

Various school classes are planning booths of fun and entertainment and other events for the carnival. One of these is the pie auction which is sponsored by the fifth grade students.

The carnival will be a gala occasion for all students, teachers, parents and patrons, and the entire public is cordially invited to attend.

An admission charge of 5 cents for children and 10 cents for adults will be made. This will be for the queen's coronation and program that will follow.

ARTHUR MITCHELL BACK AT HOME; DOING FINE

Arthur Mitchell was brought home from the Wichita Falls hospital on Wednesday last week, and is reported to be recuperating nicely from his major operation.

"Mitch" is able to walk about the house and is receiving quite a bit of company. He will not be back at his duties at West Texas Utilities Co. for some time, yet, realizing that it will be necessary to "take it easy" for several weeks.

Discipline Problems Discussed At Bus Drivers Institute Last Tuesday

An interesting and profitable school bus institute was held in Benjamin on Tuesday, October 22, with County Supt. Merick McGaughey presiding.

An interesting discussion led by Supt. J. L. Hill of Benjamin and Supt. W. C. Cox of Munday brought out many of the discipline problems that arise in connection with pupil transportation.

Patrolman J. W. Musgrove of the Department of Public Safety, with headquarters in Wichita Falls discussed legal requirements and State Department of Education rulings in regard to transportation.

The following attended the meeting:
Tom Walker, T. M. Spruce and Arnold Land, bus drivers of Sunset; George Davis and E. G. Parkhill, bus drivers of Knox City; J. H. McGaughey and Mrs. Tom Bow-

Knox County Vocational School Discusses New Agricultural Plan

Completion Of Harrell Bldg. Slated Soon

Construction work on the Harrell building, being erected just north of the post office by E. W. Harrell, is getting along nicely and the building is expected to be completed within the near future.

Bricklayers completed their work several weeks ago, and other work has been delayed because of shortage of materials and other difficulties faced by the contractor. The concrete floor has been run, roofing and gutters installed, and the building was sealed this week. It is yet to be plastered and the large plate glass front remains to be installed.

G. H. Beaty of Munday is the general contractor in charge of the work.
This new building will house the Harrell Hardware and Furniture store. Mr. Harrell stated this week that the store would not be moved into its new quarters until after Christmas.

Knox Teachers Meeting Slated For Friday

All teachers in the Knox county schools will hold an all day meeting in Benjamin on Monday, October 28, beginning at 9:45 a. m. The meeting will be in the Benjamin school building. All schools will dismiss for the day, and attendance at the meeting will count as a regular school day.

The Knox County Teacher's Association will assemble and elect officers and delegates for the school year. According to the plan set forth by the present association president, Supt. J. L. Hill of Benjamin, teachers will then divide into sections for discussion of problems pertaining to their particular phases of school work.

"This should be one of the most profitable school days of the entire year," those in charge stated. "Teachers need to compare notes on the most effective ways to present the school work to pupils. This meeting will be an opportunity to do that very thing. Teachers also need to meet and discuss problems that pertain to their profession, and its improvement. These questions will also be discussed at this first teacher's meeting of the school year."

FIFTH GRADE TO HOLD PIE AUCTION AT CARNIVAL

Fifth grade students are planning to hold a pie auction at the Halloween carnival to be staged at the Munday school auditorium on October 31. This is expected to attract many of the carnival goers.

Mothers of fifth grade students will make their pies which will be sold at auction.

Mr. and Mrs. Homer C. Parker and family returned to their home in Riverside, Calif., last Saturday after two weeks' visit in the home of Mr. and Mrs. C. R. Parker.

Time Approaches For Killing Frost, Records Show

Literature from College Station advises us that the time for the first killing frost is rapidly drawing near. This is further substantiated by a Climatic Summary prepared by the Wichita-Brazos Soil Conservation District, Jack Idol, Chairman, which advises November 10th is the average first killing frost date for a thirty year period. This information was compiled from weather records at Munday, Knox City and Haskell.

This means that to secure best results succulent bundle crops must be cut prior to the frost date. Most grain sorghums of the county will be matured enough for cutting after the frost date, however, which may come a little earlier or later this year.

A SON IS BORN INTO THE WILLIAMS FAMILY!

"Dad, what's a good name for a boy?"
This question was put to P. V. Williams from his son, Jack, who called on the morning of October 8 to announce the birth of a son to be and Mrs. Williams at Farmingdale, Long Island, New York.
Jack indicated the son would be Jack, Jr. He weighed 7 pounds and 7 ounces. Mother and son are doing nicely.
This is the first grandson born into the P. V. Williams family, and everybody's walking on air about it. Posey is Mr. Williams to the H. A. Pendletons and W. R. Moores!

"What a Man Does For Himself Dies With Him— What He Does For His Community Lives On and On."

LET'S VOTE FOR THIS AMENDMENT

Texas Legionnaires should all go to the polls Thursday, November 7 and by their votes assure the passage of a proposed constitutional amendment which will create a Veterans' Land Board which is designed to give 10,000 Texas veterans farms and ranches.

This amendment has twice received the backing of the American Legion, at the Fort Worth War Conference in 1945 and at the recent state convention in Galveston. Since our organization is the leading one dedicated to veterans' activities, it behooves us all to make a special effort to get out and vote for its passage.

And it will require a special effort. It will be voted upon two days following the general election the first Tuesday in November. A clerical slip-up made it necessary to hold a separate election two days later than the general election.

Land Commissioner Bascom Giles, who is sponsoring the bill, has asked The Texas Legion News to bring before Texas Legionnaires the urgency of getting out the vote on November 7.

Highlights of the amendment are that it was passed unanimously by the house and senate of the last legislature; that the board will be composed of the governor, attorney general and general land commissioner; that such board is given authority in concurrence with the legislature to issue bonds up to \$25,000,000 for the purchase of additional land from the federal government, individual and other state agencies located in every sector of the state; that bonds bearing three per cent interest will be sold to other state departments carrying heavy surplus funds now un-invested, thus ELIMINATING THE NECESSITY OF ANY ADDITIONAL TAXES.

It should be pointed out that under the amendment veterans would NOT be required to "homestead" or live upon their land. They also would not be prohibited from selling their equity.

It is planned that farms ranging from 50 acres to ranches up to 2500 acres be purchased by the veterans, thus providing a wide variety of crop and livestock production in various parts of Texas. Each veteran would be limited to a maximum purchase of \$5,000. His bid and check would be accompanied with a photostatic copy of his discharge. The entire purchase routine is planned to be dressed down to the simplest possible form with a minimum of usual red tape.

Only Texas veterans will be allowed to enter bids. The land would be sold either for all cash or for as low as one tenth down payment with notes to run for 40 years bearing four per cent interest per annum. Finally the veteran purchaser retains a seven eighth mineral fee on sulphur and fifteen sixteenth on oil and gas.

In this amendment, Texas is proposing to do something tangible for its own veterans. Many are anxious to enter the ranching and farming business on a modest scale. Commissioner Giles has received more than 5,000 inquiries from men and women veterans.

We urge every post commander to bring this matter to the attention of his members and do everything in his power to get out a vote Thursday November 7 to assure passage of this amendment. —Texas Legion News.

THE CAUSE OF FIRE

According to a survey by the National Board of Fire Underwriters, based upon claim records covering a five-year period, three out of four fires start from causes involving carelessness, inattention, or plain accidents. Most of these fires could be prevented by good housekeeping and cautious habits.

Almost 30 per cent of fires result from careless use of matches and smoking materials. More than 10 per cent are caused by defective electric wiring and appliances—misuse of that great servant, electricity. Over 23 per cent stem from lack of care in the use of cooking and heating equipment. And more than 11 per cent are the result of carelessness with open lights and inflammable liquids.

Here is a tragic tribute to American carelessness, indifference and plain laziness which will cost us some \$600,000,000 in property values and more than 10,000 lives this year. Failure to replace a dollar light cord may destroy a \$25,000 home, and its occupants with it. The kind of "economy" that prevents us from calling the furnace man when the heating plant acts up may result in a holocaust. And the housewife who uses gasoline to clean her clothes at home is inviting complete disaster.

The war against fire is being conducted with unusual vigor this year. Its purpose is to save your property and your life. But it can't succeed unless you join the ranks of its armies.

OIL PRODUCTS FOR THE FARM

New developments in petroleum products are helping the farmer save money by making his equipment last longer and operate more efficiently. That is the gist of talks made by the laboratory staff of one of the major oil companies to a group of farm editors and writers who recently met in Chicago.

During the war the oil industry, working its research laboratories at top efficiency, made rapid progress in developing such valuable products as rust preventives, insecticides and better lubricants for a variety of purposes. These war-born products are now being made available for farmers and other civilian users to employ in the arts of peace.

It is estimated that a modern farm of a few hundred acres requires an investment of about \$35,000 in mechanical equipment. Proper maintenance of that machinery is thus one of the most important farm tasks. Every year added to the life of a tractor, a combine, a mower or any other piece of high-priced equipment means more money in the farmer's pocket. And the farmer makes use of a long list of other oil products besides lubricants and fuel. These include paints, weed killers, waxes, polishes, leather preservatives, desiccants, and applications which guard fabrics against mildew.

The oil industry, through its constant scientific progress, is making an increasing contribution to the life of the American people.

THE AIR OF FREEDOM

"Christianity is not a static, weak, timid thing in its philosophy," writes Paul Mallon. "It prouls ingenuity, encourages use of talents, proposes advancement, recognizes the natural differences between men, and proposes reward for effort . . . It will work because it will produce . . ."

"What they (Christians) need to do is to make Christianity work—in all reason and common sense, using the utmost of their abilities to attain the utmost measure of truth, to employ their own abilities according to their talents, to promote a justice in accord with Christian principles. That also happens to be good democratic doctrine. The Constitution never guaranteed happiness—only the right to pursue it."

The underlying tenet of Christianity is the importance of the individual. And the importance of the individual is also the underlying tenet of our political, social and economic system. It is not an accident that the free church exists only where all other freedoms are guaranteed and maintained. It is, instead, inevitable. Freedom is an absolute—it cannot be preserved in one facet of a nation's life and denied in another.

Nor is it accidental that the utmost material progress has been made in lands where spiritual and economic freedom exist. We cannot, for example, draw a line between the free church and the free business. Both stem directly from the identical principle. Both are part of the great ideal which says, in effect, that individual man has rights which must never be abrogated.

Individual enterprise, in any field, blooms only in the air of freedom. The preservation of that air is the greatest problem confronting this chaotic world.

UNBALANCED ECONOMY

It has been estimated that cooperative enterprises exempt from Federal income taxes did a \$12,000,000,000 business in 1945. Tax-exempt business is expanding rapidly and making a more formidable gash in the nation's tax revenue needed to run government.

The question is, How can a national economy work with a large percentage of its productive machinery tax exempt, which requires that remaining business be overly taxed? This is an unhealthy condition and an injustice to those who pay the taxes.

With the government seeking new sources of revenue, private business would do well to make an issue of the growing list of tax exempt "free riders."

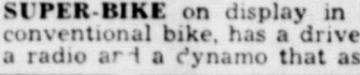

People, Spots In The News

EX-BLIND BOY GOES SIGHTSEEING after cornea operations to both eyes over a period of one year. Jack Wisnowski, 15 years old of Verona, Pa., totally blind until two years ago, takes in sights of New York.

IT TAKES TOUGH GLASS TO RESIST THIS—Three of the most devastating products of nature—ice, flame and the feminine figure—have here been combined by an imaginative photographer at Toledo to test the amazing properties of an extra-strong type of glass. Supporting 600 pounds of ice and 120-pound Vivienne Howren, a plate of tuff-flex, heat-tempered for strength by technicians of Libbey-Owens-Ford Glass Company, successfully resists cracking flames on one surface and freezing cold on the other. The glass, used in war for Army searchlight covers, today goes into transparent doors for stores, offices and railroad cars.

SUPER-BIKE on display in London, England, is lighter than conventional bike, has a drive shaft instead of chain. It also has a radio and a dynamo that assists the rider to climb hills.

rusts and smuts, another variety, (Marion), resistant to this disease, smuts, stem rust, and moderately resistant to crown rust, has been grown in the area for several years. With Marion and the better new varieties coming on, in two or three years there should be no need to suffer loss from this cause although, in all likelihood, there will be other setbacks to correct.

When the fungus of Helminthosporium is already on the seed at planting time it may reduce germination or destroy the plant in the seedling stage. If the infected plant isn't killed at once it may be stunted in early growth, with blackening of the lower parts, death of the roots, and premature drying of the stem.

Indications are that all oats varieties that received their crown rust resistance from the South American variety, Victoria, are susceptible to this Helminthosporium blight. These varieties, all spring-sown ones, are Boone, Cedar, Control, Forvie, Osage, Overland, Tama, Ventura, Vicland and Vikota.

N. A. Chastain visited relatives and friends in Spur over the week end. On Saturday, he attended the Texas Tech-Baylor football game in Lubbock.

Miss Betty Golden, who is attending T. S. C. W. in Denton, spent the week end with her parents, Mr. and Mrs. Oates Golden.

Charles Baker and Mrs. Joe Bailey King left Sunday for Dallas, where they spent several days attending the markets and buying merchandise for the Baker-Me-Carty store.

Mr. and Mrs. Jim Grammer and children, all of Lamesa, spent the week end here with their mother, Mrs. G. R. Eiland, Sr., and with other relatives.

Mr. and Mrs. Otis Simpson and two children visited with relatives in Lubbock last Sunday.

AAA FARM NEWS

(This is the eighteenth of twenty-two articles that will appear in this newspaper on the need for soil conservation, the amount of soil conservation being carried out, crop insurance, commodity loans, Marketing quotas, and other programs of interest to farmers.)

Other War Jobs

AAA committeemen have been well qualified to handle wartime distribution of scarce items. A knowledge of the approximate amounts of materials which could be made available to the county and of the amounts needed by farmers in the county has enabled them to judge which farm needs should be filled first. AAA committeemen have assisted in the approval of applications and the issuance of preference certificates.

Farm engines, electric motors, hay-drying equipment, and light plants were scarce items for farm use throughout most of 1946. Lumber was used more rapidly than it was produced. AAA service in connection with applications for these items was continued until September 1945. Applications for lumber for farm construction were handled until October 1945.

Committees assisted in the distribution of available trucks, truck and tractor tires, gasoline and fuel oil, where they would contribute most to necessary farm transportation and food production. Committee assistance was terminated on July 1, 1945, when the Office of Defense Transportation and the Office of Price Administration took over all functions of their programs.

Help also was given farmers to obtain copper wire, utility connections, ammunition, and fertilizers; to procure plant-bed cloth for tobacco and other crops in designated areas; to procure and distribute brick in critical areas for construction of flues and firebacks for curing tobacco; to distribute hames and gypsum; to locate and procure used internal-combustion engines; to inform farmers on priority assistance under War Production Board orders.

Feed Distribution

AAA committeemen continued to supervise the distribution of protein meal and feed. Although protein set-asides were discontinued in February 1945, shortages developed from time to time in critical areas throughout the Nation. Regular trade channels furnished help to relieve shortages on a voluntary basis when such situations were called to their attention by State and county committees.

Local committees worked with other agencies of Government in routing custom combines through the Great Plains wheat area to aid in harvesting.

Miss Jeanne Davis, who is attending Abilene Christian College, spent the week end with her mother, Mrs. Jo Mae Davis, and other relatives.

Mrs. O. W. Lee returned home last Sunday from Fort Worth, where she spent a week with her son and daughter-in-law, Mr. and Mrs. Sidney Lee.

Mrs. Eula Roberts returned home Saturday from Denton and Talco, where she visited with relatives for about a month. Her sister, Mrs. Godfrey of Denton, came home with her for a visit.

Mr. and Mrs. H. A. Pendleton, Jr., of Wichita Falls visited relatives and friends here over the week end.

Looking Ahead

LEAVING New York at eleven o'clock A.M. I flew to London in just 20 hours. A flight to London shows how the world is growing smaller. Our relations with other countries are becoming much more intricate as the globe shrinks, and our great need is better understanding which will beget wisdom.

For 20 years I have had a great personal interest in studying the secret of national prosperity, which of course is the sum of each individual's prosperity within the nation. This interest was first awakened when in 1925 I observed the poverty of China for the first time.

More Than COUNTRIES having equal resources are not always equally prosperous. That is an axiom most of our people accept readily. They have come to know, sometimes subconsciously, that our democracy is mixed of more, and perhaps finer, ingredients than statistical reports of national resources will show.

Surely, what makes one nation happy, peaceful, wealthy, need not make another nation troublesome and ripe for revolution from within. Truly, there are many ingredients in the recipe for national well-being.

Today, when the popular catchword, even internationally, is "security," we know that one of the most valued ingredients is prosperity. If people everywhere could understand and achieve the conditions necessary for prosperity, every home - neighbor and

every world-neighbor would benefit. This is like a good deed that pays off for everybody.

What is CURRENTLY, the secret? I am concluding a stay of eight weeks in Europe. On the itinerary are England, Norway, Denmark, Sweden, the Netherlands, Belgium, Switzerland, and France. The objective is to study political, economic, social, and religious conditions in each country, with a hope of arriving at definite and significant conclusions regarding the secret of individual and national prosperity.

If we can be sure why it is that American wage earners and farmers can purchase with their earnings two times as much food, clothing, shelter, and transportation as the workers on any other continent can purchase with their wages, we shall then understand the factors we must preserve as vital to all of us in our period of reconstruction.

For awhile, I would like to be your European observer, for it is my conviction that some important lessons can be pointed up by studying our continental neighbors. Ours is a great economy. If we in America can have enough foresight to cooperate for the sake of production, our land can long remain the land of freedom and plenty.

Beginning next week, this column will survey postwar England, and will then proceed with some significant observations of continental nations.

Pullers Needed To Harvest Cotton In West Texas

COLLEGE STATION.—Cotton growers in almost every county in West Texas are crying for pullers to help in the cotton harvest.

State Farm Labor Supervisor C. Hohn, of the Texas A and M. College Extension Service, reports that Dawson County needs 1500 additional workers to harvest cotton. There is a demand for the same number in Scurry County, as cotton begins to come in, is calling for 1000 laborers. Very few counties in West Texas have enough migrant help, and pullers are being paid from \$1.50 to \$2.50 at the gin.

Since the yield of cotton throughout West Texas is below standard, farmers are having a hard time holding the pullers on the job, says Hohn. Laborers "keep looking for greener fields and are losing valuable time", he adds. There are about 33,000 migrant laborers in the cotton pulling areas now, and Extension agents and farm labor assistants are working constantly on replacements as workers move to other areas. Bad weather has caused many pullers to leave West Texas and go to other sections where the housing situation is better.

A call for help from the Plains wheat country has come in also, says Hohn. Plains counties need tractor hands for plowing and seeding and year-around workers are being offered from \$2.50 to \$7.00 a day.

Mr. and Mrs. George Salem left last Sunday for Dallas, where they spent several days attending the markets and purchasing merchandise for The Fair Store. They also visited with relatives while in Dallas.

Lamoine Blacklock and Miss Johnnie Maude Hendrix visited in the home of Mr. and Mrs. John Proctor of Quanah last Sunday.

Miss Martha Ann Reynolds, who is attending Hardin Junior College in Wichita Falls, spent the week end with her parents, Mr. and Mrs. Bud Reynolds.

Mr. and Mrs. W. V. Tiner spent last Sunday night in Abilene, visiting with their son-in-law and daughter, Mr. and Mrs. James Dyke.

Mr. and Mrs. E. B. Littlefield and daughter, Gayle, spent the week end in Anson, visiting with relatives and friends.

Mrs. Ruby Kethley and daughter, Mrs. Shirley Roberson, of Abilene visited in the home of Mr. and Mrs. P. V. Williams the latter part of last week.

Mrs. P. V. Williams and daughter, Charlotte; Mrs. Jerry Kane and Mrs. Joe Bill Pierce spent the latter part of last week in Dallas, where they attended the Texas State Fair.

From where I sit... by Joe Marsh

On Playing the Fiddle Badly

A favorite recreation in our town is getting together in one or another's home and making music. There's somebody at the piano; a guitar; a fiddle player; and Molly Birtles even has a harp!

What comes out isn't the best music in the whole world. In fact, a lot of it is downright bad. But nobody even thinks to question or to criticize.

Because the spirit of harmony is there—harmony between folks who like each other's company, who enjoy the simple, homey atmosphere

—with nothing more exciting than old songs, and a glass of moderate beer or cider.

From where I sit, it's a heap more important to be a poor fiddle player, than not to play at all. More important to be a part of the American scene—with its community music, home entertainment, friendly glass of beer—than to hold out for professional perfection. (Besides, I like to play the fiddle—even badly!)

Joe Marsh

Cattle Tick Is Almost Extinct

After 40 years, time is running out for the cattle fever tick, according to the U. S. Department of Agriculture. The work of eradicating the tick from the Southern States, in progress since 1906 under the direction of the Bureau of Animal Industry, and later undertaken in Puerto Rico, and the Virgin Islands, is now nearing completion.

Probably no section of the United States has enjoyed greater benefits from a BAI project than tick eradication has brought to the Southern States. The beneficial results of this work are felt throughout the South in the way of better herds of beef cattle and the fostering of a rapidly growing dairy industry. Annual losses from the disease have been reduced from \$40,000,000 to less than \$400,000 last year.

The eradication campaign, which in the early days aroused such skepticism and even violent opposition, has been carried out with the close cooperation of State and county authorities and cattle owners. When the work began, the cattle disease, then commonly known as Texas fever, transmitted through the bite of the tick, was one of the most serious diseases of livestock. For many years the cattle industry of the South was retarded and hampered by this parasite and the resulting poor condition and quality of the cattle raised in the tick-infested areas. The marketing of cattle from nearly one-quarter of the country was impeded owing to quarantine restrictions necessary in handling ticky cattle in separate portions of public stockyards, and the require-

Shortages of Fats And Oils Serious

COLLEGE STATION.—Shortages of fats and oils are now more serious than during the war years and little improvement can be expected, according to B. F. Vance, state director of the Production and Marketing Administration.

Per capita consumption of fats and oils in 1942, for both food and non-food uses, was about 71 pounds. That figure has been dropping gradually since then, with preliminary estimates for 1946 placed at 62 pounds, the lowest since the depression year of 1933.

Loss of imports and low output of domestic oils have caused a decline in food use of fats and oils from 45 pounds per person in 1942 to 39 pounds this year. Non-food uses, especially of fats, for soap, have remained fairly constant, declining from about 14 pounds in 1942 to only 11 pounds for 1946, Vance explains. This figure would be even less, he adds, if Texas housewives had not done such an excellent job of saving used fats. But the job is far from complete, he warns, as a slack in the efforts of housewives in saving fats now will mean even less soap.

The present meat shortage places additional responsibilities on every housewife to do a more conscientious job of saving used fats, the PMA director says. Local butchers are still buying used fats at four cents per pound. The present meat shortage places additional responsibilities on every housewife to do a more conscientious job of saving used fats, the PMA director says. Beta Chi Chapter Meets Recently In Haskell Home

Beta Chi chapter of the Kelta Kappa society held its first meeting of the year recently in Haskell, at the home of the president, Mrs. Arlos Weaver. Haskell members were hostesses.

During the business session, the new year books were handed out, and changes in the constitution were explained.

Mrs. Iva Palmer and Mrs. B. B. Campbell were elected as delegates to an educational meeting to be held in Waco on October 19.

During the social hour, tea, sandwiches and cookies were served to members from Stonewall, Knox, Throckmorton and Haskell counties.

Hefner H. D. Club Elects Officers For New Year

The Hefner Home Demonstration Club held a meeting on Tuesday, October 15, in the home of Mrs. T. H. Jones.

After the meeting was opened, minutes of the previous meetings were read and approved, and a report was heard of the county council meeting. New officers were elected for another year, as follows:

Mrs. J. T. Murdock, president; Mrs. Clarence Jones, vice president; Mrs. Elkin Warren, secretary-treasurer; Mrs. Homer Lambeth, council representative; Mrs. Lloyd Kind, alternate; Mrs. E. J. Jones, reporter.

The next meeting will be on November 5 in the home of Mrs. Walter Mooney at 2:30 p. m. All members are urged to attend.

Mr. and Mrs. Gene Harrell and daughter, Natalie, returned home Tuesday from Oklahoma and other points where they had been visiting relatives for about two weeks.

Marjorie Campbell, Andrew J. Vlasman Marry In Austin

The marriage of Miss Marjorie Ruth Campbell to Andrew John Vlasman took place at the beautifully decorated All Saints Church in Austin last Saturday evening, the Rev. Edmund Seimohn reading the single ring rites.

The bride, daughter of Mr. and Mrs. William A. Campbell of Lockney, is a graduate of the University of Texas, where she was a member of Beta Alpha and Sigma Iota Epsilon honorary fraternities and of Campus League of Women Voters. She has been employed by the Bureau of Business Research at the university for the past two years.

Mr. Vlasman is connected with an automobile firm in Iowa City, Iowa. The son of John Vlasman of Wellman, Iowa, and Mrs. Charles Zone of Holland, Mich., he is also a graduate of the University of Texas. He served with the Navy in the Pacific before receiving his degree last June.

Miss Mary Jane Rugel sang "My Hero" and "Yours Is My Heart Alone," accompanied by Miss Jean Norvell at the organ. Miss Norvell also played "Ave Maria," "One Alone" and "Serenade" as well as traditional wedding marches.

The bride, given in marriage by her father, chose an ivory slipper satin gown, fashioned with sweetheart neckline, long fitted sleeves and bustle effect at the waist. The full skirt extended into a court train. Her veil was caught to a coronet of seed pearls and she wore an heirloom diamond lavalier, carried a single white orchid, showered with Stephanotis and streamers.

She was attended by Miss Loraine Campbell as maid of honor, and Mrs. J. G. Voight of College Station and Miss Peggie Dooie of Austin.

M. C. Whalen of Pinehurst was best man. Charles D. Reedstrom of Houston and G. W. Bruffey Jr. of Austin were ushers.

A reception was held after the ceremony at the home of the bride's aunt, Mrs. F. O. Campbell of Austin.

For their wedding trip, Mr. and Mrs. Vlasman are driving to Iowa City, stopping in Dallas and Kansas City. They will make their home in Iowa City.

Out-of-town guests at the wedding included the bride's parents; Mr. and Mrs. Homer Lee, Miss Ida Spann, Munday; Mr. and Mrs. J. C. Borden and Mr. and Mrs. O. H. Spann, Munday; Mr. and Mrs. George Spann and Mrs. Walter Hardwicke, Dallas; Mrs. Dick Ford, Lawton, Okla.; Mrs. A. L. Appleby, San Antonio; Mr. and Mrs. J. G. Voight, College Station.

Mr. and Mrs. Earl L. Clayborn returned to their home in Marysville, Calif., this week after spending several days with relatives and friends here. They were on three weeks vacation, and also visited relatives in Fort Worth and other points.

Millinery Magic

Pretty Ruby Lawton displays her millinery magic by fashioning her own hat for the big football game. Her simple formula can be duplicated in a few minutes. Here's how: Attach hat elastic to each end of a grosgrain ribbon (one inch wide and twelve inches long). Then take another grosgrain ribbon five inches wide and eighteen inches long and fold into bow. Take four large mums and seven baby mums from waxed paper and arrange in interesting fashion and attach to bow with corsage pins. Then fasten entire arrangement onto the one-inch ribbon and slip on over head. To insure maximum beauty and freshness keep mums in waxed paper until last minute.

Relatives And Friends Guest In Knox City Home

Mrs. J. A. Sweatt of Knox City entertained a number of her children, grandchildren, great-grandchildren and friends in her pioneer home near Knox City on Saturday and Sunday, October 12 and 13. Those present included the following:

Miss Bettha Sweatt, Knox City; Mr. and Mrs. Ed Herenden, McKinney; Billy Ellensburg, Allen; Mr. and Mrs. G. W. Sweatt and Mr. and Mrs. Burnice Sweatt and Gary Dale, Kress; Mr. and Mrs. Hollis Sweatt and Barbara Sue, Mr. and Mrs. Charles Keising and Karen Jo, Mr. and Mrs. Wade Reddell, Judith Ann, Jimmie Land and Bill Wade, all of Plainview.

Mr. and Mrs. L. C. Sweatt and Mr. and Mrs. Houston Sweatt, Munday; Mr. and Mrs. R. C. Partridge, Mr. and Mrs. S. H. Reed and Mr. and Mrs. Walter Harris, all of Munday; Mr. and Mrs. E. W. Harrison and Mr. and Mrs. Novel Wright and son, Knox City.

Those who were unable to attend were Mr. and Mrs. S. V. Sweatt of Sunray, and Mr. and Mrs. W. C. Sweatt and family of Lovington, N. M.

Mr. and Mrs. Oscar West were business visitors in Austin last week end.

WHAT PARENT-TEACHER MEMBERSHIP MEANS TO EVERY PARENT

To me, as a parent, membership in a Congress P. T. A. offers:

1. An opportunity to belong to an organization that is known and respected all over the nation for its work toward the betterment of children and youth.

2. An opportunity to become a better parent, growing in understanding not only of my own children but of all children everywhere.

3. A better perspective on my own problems through sharing the problems of others.

4. An awareness of the needs of all children as revealed by a broadening acquaintance with their parents, their teachers, and their way of life.

5. An opportunity to help meet these needs, not only for my own children but for all the children in the community at large, and a voice in shaping the purposes and policies of both school and community.

6. A voice in determining the kind of education my child shall be given.

7. An opportunity to confer with the teachers in the regular course of events, without embarrassment to either them, myself, or my child.

8. A means by which I am kept up to date on the progress of events as they affect the welfare of children.

9. A place of my own among others who observe and care for the same things to which, as a parent, my best efforts are dedicated.

10. An opportunity to serve my country by adding my services to a state-wide and nation-wide program of work as it relates to the needs and interests of children and youth in the local community.

WHAT PAENT-TEACHER MEMBERSHIP MEANS TO EVERY TEACHER

To me, as a teacher, membership in a Congress parent-teacher association offers:

1. An opportunity to belong to an organization that is nationally known and universally respected.

2. An opportunity to meet the people of my community even while I am still a newcomer.

3. A better understanding of the importance of teaching as a profession.

4. An enlarged understanding of the needs of children and youth as revealed by an improved acquaintance with their parents and their home environments.

5. A sense of partnership in the greatest enterprise of all, the bringing up of children who are sound in mind, in body, and in character.

6. An opportunity for personal growth in service and understanding.

7. A broader personal horizon, with an ever-renewed appreciation of the problems and values that extend beyond the classroom.

8. A closer contact with the community in which I serve, and an opportunity to exert a constructive influence by helping to

BEAU CATCHER

Munday H. D. Club Meets Wednesday With Mrs. Gollehon

The Munday Home Demonstration Club met in the home of Mrs. J. C. Gollehon on Wednesday afternoon, with ten old members and three new ones answering the roll call.

Those present gave their orders J. O. Bowden. The devotional was given by Mrs. Reeves.

The president informed members of things they should know and do in the W. M. U. work. Reports were given by officers and committees. Two new members and one visitor were introduced to the group.

Each member brought foods which will be sent to a missionary. Mrs. Walter Skiles and Mrs. A. U. Hathaway prepared the refreshments of cream and cake for this meeting. Fifteen members were present.

The next meeting will be held November 18 in the home of Mrs. J. O. Bowden, with Mrs. Joe Patterson as co-hostess.

for satin. Orders will be finished at the next meeting. All wishing to place orders are asked to please be present.

Refreshments were served to Mrs. J. B. Scott, G. L. Pruitt, Chester Linn, Leland Floyd, J. B. Graham, Frank Bowley, Clint Hawes, J. O. Tynes, R. E. Foshee, Louis Cartwright, Joe Patterson, D. C. Swindle and the hostess.

The next meeting will be in the home of Mrs. J. O. Tynes on November 13. Benjamin will be guests on that date in an achievement day program.

U. S. Department of Agriculture now estimates the nation's 1946 cotton crop at 9,171,000 bales—second smallest crop since 1884.

Texas dairymen cannot afford to keep low-producing cows.

An electric cooperative organization at Tahoka, Texas, has received a loan of over \$400,000 for system improvements and for 431 miles of line serving 751 rural consumers.

IT PAYS TO ADVERTISE

Simply delicious RAISIN BUNS

THIS black and white checked spun-rayon-and-wool dress will look equally at home in the office or over the dinner table. Notice the smooth shoulder line, the easy-cut sleeves, and the slim skirt that is designed for comfort. It's especially important that your office-to-date clothes be made of fabrics that will serve you well. Spun-rayon-and-wool blends combine warmth and serviceability with the softness and drapability of American Viscose.

Baptist W. M. S. Has Business And Social Meeting

Mrs. Charley Haynie was hostess to members of the Woman's Missionary Society of the Baptist church last Monday afternoon at three o'clock for the regular business and social meeting.

Mrs. M. H. Reeves, president, was in charge of the session, which was opened by prayer led by Mrs.

enlighten the community as to the objectives and goals of modern public education.

9. An opportunity to serve my country by uniting my efforts with those of 3,910,106 men and women who cherish what I cherish and seek the things I seek.

We Cordially Invite You To See The Eamesway Method Of

Poultry Culling

Mr. M. L. Sharpe, the Eamesway Man, will give a demonstration of this method of poultry culling at our place next Saturday afternoon at four o'clock. We invite you to be present for the demonstration. There is no guesswork in the Eamesway Method.

FREE: Mar-Ket Feed

During the demonstration, we will give away, absolutely free, 500 pounds of the new Mar-Ket Laying Mash. Mar-Ket Feeds have been made better by the addition of "Ultra-Life," new minerals that make Mar-Ket the leading feed of today.

While here, sign up with us to have your flock culled "The Eamesway Way". Mr. Sharpe will be working this territory a few days next week.

Banner Produce

Agriculture In America Shows Values Increase

COLLEGE STATION.—American agriculture has increased in value practically 90 per cent since 1940, and was worth 101.5 billion dollars at the beginning of 1946.

This dollar valuation of U. S. agriculture is shown in a study recently released by the Bureau of Agricultural Economics in Washington D. C. Indicating that the figure is still on the rise, the Bureau's survey showered a 12 per cent increase since 1945.

Significant point brought out in the study might be that very little of the increase in agriculture's value was the result of improvements of farms and farm property. Very large part of the increase has come from price increases on farm products and from accumulations of money due to large sales. The report indicated that approximately 800 million dollars that were added to farmers' cash holdings during the war will have to be re-invested in improvements of farms and equipment that weren't maintained through the period 1942-45.

Property of farmers' and other owners of farm businesses accounted for 93.2 billion dollars of the total dollar worth of agriculture. The remaining 8.3 billions were taken up by creditor's claims. Although farmers' mortgage debts declined during 1943, they did not decline as much as in previous years, and actually increased in 20 states.

There were 315,400 persons employed in manufacturing industries in Texas during August, the Bureau of Business Research at the University of Texas reports. The data was compiled in cooperation with the Bureau of Labor Statistics, and represents an increase of two per cent over July, and 14 per cent below August, 1945.

FIXING UP the HOME

LIGHTING THE KITCHEN
 THE kitchen is the workroom of the home. The average homeowner spends from five to seven hours a day in the kitchen. Yet kitchen lighting has been altered little in the past decade. Tests made in factories during the war proved that light is the greatest single factor in combating fatigue.

It is true that most kitchen planners nowadays locate the sink beneath a window, yet in actual practice not all kitchens lend themselves to this arrangement. In too

many cases the housewife stands in her own light when she prepares foods and is consequently tired and nervous without realizing the cause of the trouble.

An inexpensive light fixture above the sink will pay dividends in convenience and increased efficiency far beyond the cost and trouble of installation. This is true even when the sink has a window above it, for at least a portion of all kitchen tasks must be performed after sun-down.

Fluorescent tubes recessed in the wall above the sink give excellent light and a look of stream-lined modernism, but ordinary incandescent bulbs, properly shaded, are equally satisfactory. Well-insulated, shock-proof fixtures are a wise choice.

Ship Ahoy
 by GEORGE S. BENSON
 President of Harding College
 Searcy, Arkansas

Looking Ahead

UPSTREAM from Niagara Falls a short distance, the weather-beaten hulk of a wrecked yacht lay for years in mid-channel. I saw it once, clinging precariously to the rough, stone river-bed while the swift current lashed violently at its decaying sides. A Canadian, native of Welland County, told me the story of the derelict, a thriller if I ever heard one, and worth repeating.

Several miles up the river, this comfortable little craft rode at anchor one night in quiet water. The skipper and some guests were sleeping peacefully on board when, by some unexplained circumstance, the boat came loose from her moorings. Nobody waked for a long time. The boat drifted with the current, which was not fast at first but gradually gained speed as it neared the falls.

Start to THE KEEL was grinding on the nodulated rock bottom before the boat's unsteady motion roused any of the sleepers. Then they all got active at once. Most of them had no idea what to do first. Some actually began accusing one another and trying to fix the blame for losing the anchor—this, with the thundering cataract in plain hearing, destruction only a few seconds away.

The skipper was a man of action and presence of mind. While his guests suffered panic, he went below and blasted a hole in the hull with dynamite. The crippled craft took on water fast and settled to bottom in the swift

stream. Then it lodged! Days like months passed before the handful of frightened people could be brought ashore, but no lives were lost. Quick action saved them.

Paying CERTAINLY the the Price skipper loved his boat and hated to sacrifice it. He wished something might have waked him a mile up stream where life and property both could have been saved, but he paid the price of survival. America's ship of state is, this very day, drifting down a channel toward a cataract: the same channel through which Italy, Germany and Russia have passed, and the one France and England are entering now.

The United States of America has drifted far but our engines are still in condition and the boat is not out of control. Still there is time for our leadership, not only our people from revolution, but the personal freedom our forefathers fled monarchs and despots to obtain and fought desperately to keep. The way to ruin is via central planning, government-management, -direction, -control, -ownership.

Government ownership is full concentration of authority—a pretty name for despotism. The trend is unmistakable, the tragic course is familiar. It is time to turn back under power toward individual liberty: freedom of faith, freedom of speech, the right to own property and the right to buy and sell. While we have the only large seaworthy yacht on the river, it's time for quick action.

Activities Of Colored People

Service was grand on Sunday at the Church of God in Christ. At Scott's Chapel, service was held all day.

Dunbar school wishes to express its appreciation to Mrs. P. V. Williams, Mrs. Pruitt, and others who have given magazines to the school.

Mr. Earnest Mask, Jr., of San Francisco, Calif., visited his wife and son, who are visiting her parents, Mr. and Mrs. Tom Whitney. Appreciation service, conducted by Rev. S. L. Sanders, is being held from Thursday night through Sunday night at the Church of God in Christ. The district superintendent, Rev. W. W. Fields, will preach Saturday night, also Rev. A. C. Bennett of Abilene, a great singer, will be present.

A cake will be given away Saturday night.

Correcting a statement made on last week: Rev. Taylor and his wife were guests in the home of Mr. and Mrs. Fisher, instead of Mr. and Mrs. Scott.

LOCALS

Dr. J. D. Smith of Haskell spent last Friday night with his son-in-law and daughter, Mr. and Mrs. J. W. Roberts.

Mrs. C. E. Hogan and son, James, of Fort Worth were visitors here over the week end.

Mrs. Frank Tate of Haskell was a business visitor here last Monday.

IN MEMORY OF JAMES HOWARD HILL

A precious from us has gone—a voice we loved so well. A place is vacant in our home, which never can be filled.
'Tis hard, so hard, to break the cord that love has bound together. 'Tis hard to say the words, that we must part forever.
And then we look up higher, and know that we can go beyond this vale of sorrow, where there will be no wee.
He was a smiling boy of four, happy little one, and his cute ways and sayings filled his home with joy.
He was watched over both day and night, and everything was done for him that loving hands could do. We should have went in gladness when we saw his relief, for he had suffered awful, and now, he is in peace.
Someday we will go to meet him in Heaven, where he's gone. Looking down on us, waiting for us to come on.
By a friend,
Mrs. Jif Frost.

Weekly Health LETTER
Issued by Dr. Geo. W. Cox
M. D., State Health Officer of Texas

AUSTIN.—From a health standpoint, life after forty begins to be more complicated for the average individual, than it was in his earlier years. According to Dr. Geo. W. Cox, State Health Officer, the principal health foes confronting people in middle life are heart disease, cancer, kidney disease, high blood pressure, hardening of the arteries, apoplexy, diabetes, and arthritis.
Middle aged people of today are healthier than were those of preceding generations, and the present generation, when they reach middle age, should enjoy better health than their parents of today.
Medical care in middle life has two important phases. The first is going to the doctor at regular intervals for a complete physical checkup, whether or not there have been symptoms that suggest the need for medical attention. The second is prompt attention to any illness which may mean the difference between prompt recovery and continued good health and prolonged invalidism. It is difficult to say which of these phases is the

Fire Attacks A Home In Every Two Minutes

Fire starts in an American home every two minutes on the average, day and night, all year round, warns the National Board of Fire Underwriters in calling attention to the increasing threat of fire. Destruction by fire in 1946 is highest in history, and all householders have been urged to take safety precautions.
With the housing shortage causing nationwide concern, these safety steps are recommended by the National Board of Fire Underwriters not only for Fire Prevention Week but for every week in the year:
Be sure you have proper fuses in your box as "safety valves" for your electric system, and do not substitute fuses of larger ampere than your electrician advises—15 amperes usually is correct. Have all electrical work or extensions of wiring done by an expert electrician.
Do not look for gas leaks with an open flame. Call the gas company if you think you have a leak.
Keep candles or open lights away from combustible decorations and costumes—and warn smokers, too.
Clean out papers, rubbish, litter and discard items from attics, cellars and closets frequently.
Keep plain and oil rags or mops in tightly closed metal cans, unless you can dispose of them at once.
Empty hot ashes into metal containers instead of wood boxes or cartons.
Clean chimneys, furnaces, and stoves of soot. Check them carefully and have needed repairs made. Call in a heating expert if your furnace is inefficient and does not provide enough heat.
Look for beams or partitions that are blackened by heat radiated from a furnace or stove. Safe clearance for hot parts of heating plant should be at least 18 inches. If this is not possible, insulate with asbestos.
Do not use gasoline, benzine or naphtha or other inflammable liquids for cleaning anywhere in the house, and do not store them.
Do not use kerosene to quicken fires.

more important.
It has been found that men and women who faithfully pursue the habit of regular health examinations and who follow the advice arising from them tend to live longer, more satisfactorily, and freer from disease than those who simply take a chance and go to the doctor only when pain or disability forces them to give up their normal activities.
It is also a fact that many diseases of middle age respond to treatment in early stages whereas if neglected until later stages they often cause permanent invalidism and even death.
Good advice for persons over forty is that they have regular physical examinations and obtain prompt medical attention for any and all illnesses.

Bobby Haymes, who is attending North Texas Agricultural College at Arlington, spent the week end with his parents, Mr. and Mrs. Lee Haymes.

Mr. and Mrs. Lamoine R. Skiles and daughter, Jeanie Caren, and Mr. and Mrs. C. W. Sorrels, all of Stamford, were visitors in the home of Mr. and Mrs. Walter Skiles last Sunday.

Mr. and Mrs. L. E. Skaggs of Hillsdale, Okla., were visiting Mrs. N. E. Sweatt and daughters on last Sunday.

Mr. and Mrs. Carl Mahan and daughters, Mary Charles and Linda, of Abilene visited relatives and friends here over the week end.

Misses Helen Haymes and Louise Seigelmier of McMurry College, Abilene, spent the week end with Helen's parents, Mr. and Mrs. Lee Haymes.

Mr. and Mrs. A. C. Boggs, Sr., of Haskell visited in the homes of Mr. and Mrs. M. Boggs and Mr. and Mrs. A. C. Boggs, Jr., last Sunday.

Martha Ann West, who is attending Hardin-Simmons University in Abilene, spent the week end with her family and friends here. Martha Ann has been elected president of the freshman class at H. S. U.

A line of traffic moved along the broad California highway just out of Berkeley. The wind blew smoke from a burning garbage dump across the road. One driver found himself wrapped in the smoke, suddenly slowed down. Result: 25 cars piled-up, 13 people injured. The Texas Safety Association asks motorists: When you are plugging along bumper to bumper in a traffic line or nudging a single car ahead of you, do you ever think what the car ahead of you suddenly stopped or slowed down? Such a thought might lead you to allow a little more space for a safety. Such a thought might lead you to allow a little more space for a safety margin. No matter how good a driver you are, to be safe you have to consider the other fellow's ability and temperament and his problems.

Veterans' News

Contact offices of the Veterans Administration are fast becoming familiar places to war veterans of the Southwest, judging by the reports of Contact Representatives.

From January through September of 1946, a total of two million contacts were handled by VA representatives in Texas, Louisiana and Mississippi.

More than 1,334,000 were personal contacts. Some 391,444, veterans phoned in questions and requests for information, while 279,752 contacts involved correspondence.

The desire for information on new veterans legislation enacted by Congress in August drew large numbers of ex-servicemen to VA contact offices during September. Veterans getting ready to go back to school in September also paid thousands of calls to VA offices for guidance.

Another phase of contact activity—that of preparing benefit applications—went forward as usual with Contact Representatives preparing 41,138 applications in August and 35,373 in September.

Since V-J Day the number of patients in Veterans Administration hospitals of Texas, Louisiana and Mississippi has increased 42 per cent, VA medical service officials report.

The total on V-J Day was 5,296 compared with 7,503 on September 30th of this year.

The number of patients in VA hospitals throughout the nation has increased 29 per cent since the Japanese surrender.

To meet the mounting need for veterans' hospitalization, VA will construct nine new hospitals in the tri-state Dallas branch during the next two and one-half years.

World War II veterans entering business on VA-guaranteed loans are setting out on some unusual enterprises.

A Jackson, Miss., Air Corps veteran operates a complete children's shops. Down in New Orleans, La., a former artilleryman has opened a frozen food factory. The former nurses in Seguin, Texas, have bought and are now managing a hospital.

Questions And Answers: Medical Q. I served only four months

in the army before I got a dependency discharge. Now I'm in need of an operation. Am I eligible to enter a Veterans hospital?

A. Yes, any veteran is eligible for hospitalization at a VA hospital providing he served at least 90 days in the armed forces and that his discharge is other than dishonorable. However, to be treated for non-service connected ailments, you must sign a statement that you are financially unable to pay for private treatment.

Q. Can a veteran be cared for in a private hospital at the expense of the government?

A. Yes, provided the ailment was incurred in or aggravated by service in the armed forces and prior authorization is obtained from VA Regional office. In the case of female veterans, the ailment need not be service-connected.

Q. Can I be treated at a VA hospital for malaria that didn't evidence itself until after I was discharged from the Army?

A. Yes, The VA rules that malaria may be service-connected even though no attacks occurred prior to the veteran's release from service. Therefore, you may be hospitalized in a private hospital if an emergency or in a VA hospital. Out-patient medical treatment may also be authorized. If your illness is serious enough, you may also file a disability claim.

Q. Is a veteran's family entitled to care in a VA hospital?

A. Not unless they have attained eligibility in their own right by reason of service in the armed forces.

Q. May I be furnished a wheel chair by the VA?

A. Yes, if you have a service-connected disability requiring the use of one.

Q. May an honorably discharged member of the WAC obtain hospital treatment and domiciliary care in a VA facility?

A. Yes. Former members of the WAC, as well as any other women's organization in the armed forces, are entitled to the same treatment as male veterans.

Picture History Of 36th Division Comes Off Press

AUSTIN.—Just off the press and in the mails for distribution to subscribers is a 360-page pictorial history of Texas' own 36th Division's combat from the bloody shores of Italy through France, Germany and Austria, it is announced many and Austria, it is announced Dallas, of the Division Association.

Publication of the history consummates an agreement made with the soldiers of the Division when they were on occupation duty in Germany. After deactivation of the Division, the Association agreed to fulfill all terms of the contract, although the price of the history had been set overseas so low there was question whether or not publishers in the United States could deliver on all promises.

Through more than 200 pages are pictures and text that tell the story of the Division's gallant fighting through the tortuous Italian mountains and winter; its rout of the enemy from Rome and north; its brilliant drives through France; its conquering of the vaunted Siegfried Line that was supposed to guard Germany; and its rapid push through Hitlerland into Austria, where it was pursuing the Boche when surrender came. Through 150 pages are a roster of the more than 50,000 soldiers of the Division in combat. All initial subscriptions having

General Eisenhower Salutes the Boy Scouts

Courtesy, Kansas City Star

"The Boy Scout Movement merits the unstinted support of every American who wants to make his country and his world a better place in which to live. Its emphasis on community service and tolerance and world friendship promotes a speedier attainment of the enduring peace among men for which we all strive.

"By developing among its members both a spirit of sturdiness, self-reliance and a realization of the need for cooperative effort in every major enterprise, the Movement is a prime force in preparing tomorrow's men for their duty to themselves, their country and their world.

"Here in the United States the Boy Scouts of America has accomplished much in its years of service. But today, more than ever before, we need expansion of its membership and influence."
—Dwight D. Eisenhower, General of the Army

Good Roads Amendment Receives Support Of Many People Of Texas

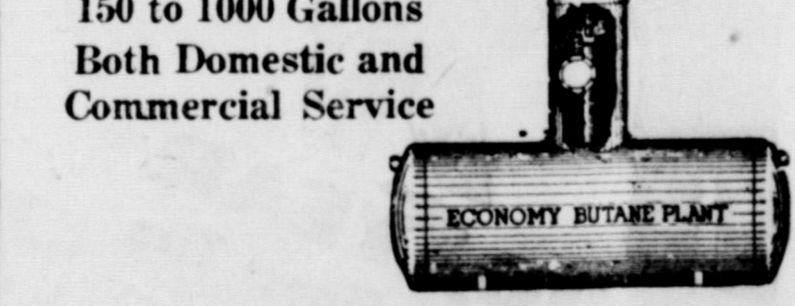

AUSTIN.—The board of directors of Texas Citrus and Vegetable Growers and Shippers Association unanimously approved a resolution this week endorsing the Good Roads Constitutional Amendment which comes up for a vote of the people of Texas in the November 5th General Election.

The board, which determines the policy for the entire organization, declared, "Good Roads are vital to the welfare of the citrus and vegetable growers and shippers who are dependent upon farm-to-market roads and primary highways to transport their products from farms to the terminals and markets."

Austin E. Anson, Harlingen, executive manager of Association, said that the organization is composed all citrus growers and said, "because they are almost all solely dependent upon the trucks in transporting their products from the fields to packing houses; and

been filed in accordance with contract, the book is now available to others. To veterans of the Division, a price of \$4.20 has been set. That includes, also, one year's membership in the 36th. Division Association, which has a headquarters address of Box 2714, Capitol Station, Austin, Texas. To all others and the general public, the price is \$5.00 per copy.

The Rexall Store

"The Most Complete Drug Store in Knox County" Munday — Weinert

HEFNER NEWS

(Mrs. E. J. Jones, Correspondent)

Church services will be held at the Baptist Church here next Saturday night and Sunday.

The Hefner gin is kept quite busy, since favorable weather has come so farmers can gather their cotton.

Mrs. Jimmie Haskin of Pittsburg, Pa., has come in to be at the bedside of her father, Mrs. J. Shaw, who is very sick.

Miss Thelma Autman of Denton was a week end visitor with Mrs. Marion Jones. The two were old friends and neighbors in Baylor county.

Mrs. J. H. Cooksey has returned from Dallas, where she visited her sister, Mrs. Lizzie Mareble, and her family for a few days.

Mrs. Turner Standlee's mother of Vernon has returned home after visiting her new grandson and

thoroughfares.

In adopting the resolution supporting the Good Roads measure, the board proclaimed that utilization of these funds for construction and maintenance will guarantee to the people of Texas construction of an integrated road system on a long range basis to meet their transportation requirements.

Anson added, "We know that it costs our citrus and vegetable growers and shippers an additional four cents per mile to drive over dirt rather than paved roads. We also realize that our cars and trucks get two miles less per gallon of gas over those dirt roads. The reduced cost of operation and the fact that farm-to-market roads and primary highways ultimately assured by the amendment will make it easier for us to gain a better profit from our products and makes it even doubly important that we strongly support and urge the adoption of the Good Roads Amendment."

Family here. Mrs. J. E. Cure, and Mrs. C. B. Warren were business visitors in Goree the first of this week.

Fruits and vegetables grown in Texas require from two to seven days by rail to the central markets. By cargo plane, perishables can be on any market in the country within 10 to 12 hours after packing.

Mr. and Mrs. Roy Cutbirth and daughter, Patricia, and Mr. and Mrs. Burnice Andrews, all of Abilene, visited with Mrs. Cutbirth's mother, Mrs. T. C. Lowry, and other relatives here Sunday.

Mrs. J. W. Hedden and Mr. and Mrs. Kenneth McNeill and daughter of Holden, Mo., spent several days here last week, visiting with Mrs. G. R. Eiland and other relatives. Mrs. Hedden and Mrs. Eiland are sisters.

Boys and Girls in 4-H Clubs

are doing a grand job...they are learning how to be better farmers and homemakers through extension courses and practical experience.

County agents report that young members of 4-H Clubs are using Reddy Kilowatt to provide clean, cool and comfortable living quarters for their meat animals.

The cost of electric power to increase and assure better production on farms is low—and the small investment in electric help means considerable in increased income at the market.

Reddy Kilowatt and the 4-H Club boys and girls are planning tomorrow's farm management as a more promising vocation for trained men and women.

Farm Diseases Cured By Germ War Research

SCHEENECTADY. — Biological or germ warfare research may sound terrifying to all of us, but one consoling thought is that this research has proved valuable in the control of some cattle and poultry diseases which heretofore were incurable.

Several vaccines have been developed, according to Dr. Gerald Wendt of New York City, editorial director of Science Illustrated magazine, who spoke on a General Electric Science Forum program here over WGY. Dr. Wendt also mentioned several ways by which crop growth could be retarded or regulated for the farmers' economic advantage.

"Vaccines have been developed, giving thorough protection to hens from the total fatal diseases of fowl plague and Newcastle disease," Dr. Wendt asserted. "A completely satisfactory vaccine is also being produced for controlling

dimerpest, a disease now absent from North America, but to which many thousands of our cattle are susceptible. The same is now true in Canada, where, as a result of wartime research, a vaccine is available which gives complete protection."

Of far more interest to American farmers are other magic-like results obtained in the laboratories of the University of Chicago by the staff working under the direction of Professor Ezra J. Kraus, and at Camp Detrick, Frederick, Md., under Dr. A. J. Norman of Iowa State College, Dr. Wendt said.

"For example," the editor-scientist pointed out, "a chemical that can destroy the edible tubers of a potato crop when used at the rate of only one pound per acre also can be used at harvesting time when it will cause the plant to wither without injuring the tuber.

"Another chemical can be utilized to eliminate weeds during the growing season without injuring the potato plant in the least.

"While some of these chemicals are persistent killers, others can be employed to clear the soil of weeds, but then rapidly disappear, so that useful crops, weed-free, can be planted on the same soil during

SAN ANTONIO, TEXAS (Special)—General Jonathan M. Wainwright, Fourth Army Commander and Army advisor for the Texas USO Campaign, visits a USO Show ward performance on its tour of Brooks General Hospital at San Antonio, Texas.

In the picture above are Helene Denizan, USO performer of Lemhurst, Long Island, N. Y., General Wainwright, Vernon R. Rogers, Rt. 1, Sadler, Texas, and a friend.

General Wainwright, the hero of Bataan, congratulated members of the USO Camp Show "Breeding Along" on the "Perfectly wonderful job" USO is doing for the morale of the men in hospitals. He said "USO all over the world has rendered inestimable service to our armed forces. Hostilities have ceased but the USO must carry on."

Referring to the Texas drive to raise its \$800,000 quota of the \$19,000,000 necessary to carry on USO activities in 1947, General Wainwright said "May your campaign be a huge success."

USO activities scheduled to continue through 1947 include 135 USO Camp Shows playing Army, Navy, and VA hospitals and overseas bases, 400 clubs in the United States and in the Pacific areas where the Army and Navy have requested them and hundreds of USO Traveler's Aid Lounges in the United States.

the same growing season.

"Other uses for growth regulators are to increase the yield of apples by two or three tons per acre without loss of quality; to produce blueberries without seeds, and tomatoes of increased size, to retain leaves and fruit on trees for a longer period of time, and to delay the sprouting of potatoes and fruit trees in spring until weather conditions are more favorable."

Dr. Wendt declared that eventually any living plant process may be brought under control through critical use of some growth-regulating substance. He said "this means that every agricultural or horticultural practice which affects growth development, ripening or storage, can be influenced to economic advantage."

Publications of value to students studying architecture have been presented to the department of architecture at the University of Texas by the French Embassy in New York, Hugh L. McMath, chairman, said. Books and newspapers featuring such subjects as "Architecture Today," "Art and Industry," and "French Architecture" were included in the gift.

"Education for the Atomic Age" will be the theme of a broadcast from Radio House at the University of Texas during National Education Week November 10-16. The special broadcast will be given in cooperation with the Texas State Teachers Association and the National Education Association.

Tree Borers Damaging Local Fruit Trees

Peach tree borers caused much damage to many orchards in Knox County this past summer by boring into the trunk of the tree and bleeding it of its food. Since borers cannot be properly treated until late fall, now is the time for treatment.

In Knox County the proper time to treat these insects is between October 20 and November 15. The ground around the base of the tree must be clean of all grass, and weeds by shallow cultivation. Level the ground for a distance of six to eight inches around the tree. Do not disturb the ground too deep. For each tree six years of age or over, use one ounce by weight of Paradi-chlorobenzene (P. D. B.) spread in a circular band one inch wide around the base of the tree. Keep the inner line of the band about two inches from the tree. Do not apply the P. D. B. crystals on any projecting roots. After placing the crystals in the above manner, take a shovel and cover them with about 4 inches of fine earth and pack down. For trees under 6 years of age, use one-half ounce of P. D. B. Crystals per tree applied in the same manner.

Leave the crystals covered with earth for about six weeks.

STENGEL FAMILIES RETURN FROM TRIP

Mr. and Mrs. Jerry Stengel, accompanied by Mr. Stengel's parents, Mr. and Mrs. Fred Stengel, returned from Racine, Wisconsin, where they visited with E. J. Stengel and family.

They reported having a very nice trip to points of interest, such as the tomb of Mr. Heinz, who contributed \$1,000,000 to the seminary at Mendeleville, Ill. They also made a tour of the Massey-Harris factory, where E. J. Stengel previously was employed.

Success is built on small margins. The fastest runner in the world can't run five per cent faster than ordinary runners.

Soil fertility is the foundation of profitable farming.
