

Haskell County Farmer's Rites Held Sunday

Rites For R. B. Guess Held At Roberts

Rebus B. Guess, prominent Haskell county farmer and frequent visitor to Munday, passed away at the Haskell county hospital at 6:30 p. m. Friday, January 3, following a short period of illness.

Funeral services were held at the Roberts community Baptist church at 3 p. m. last Sunday, being conducted by Rev. H. R. Whately, Haskell Baptist pastor, and Rev. Walter Copeland, Weintert Baptist church pastor. Burial was in the Roberts cemetery.

Auction Sale Has Large Run

The Munday Livestock Commission Co. reports another good run of cattle and hogs for last Tuesday's sale, with prices continuing to be good.

Canner and cutter cows sold from \$8.75 to \$10.50; butcher cows, \$11 to \$12.50; fat cows, \$13 to \$15; butcher bulls, \$10 to \$12.50; fat bulls, \$13 to \$14.25; ramme calves, \$9 to \$11; butcher calves, \$11.50 to \$15.50; fat calves, \$16 to \$21; butcher yearlings, \$11.50 to \$16; fat yearlings, \$16.50 to \$21.50.

Dan Billingsley Buys Local Station

Announcement was made this week that Dan O. Billingsley has purchased the Texaco Service Station, located a half block south of the traffic signal in Munday, and he assumed operation of the business on Thursday morning.

Mr. Billingsley will continue to handle Texaco gas and oils, and promises the most efficient service possible. He invites the continued patronage of his friends and former customers of the station.

Knox Chapter To Confer Degrees

The regular meeting of Knox Chapter No. 260 R. A. M. will be held on Tuesday evening of next week at the Masonic Hall.

Several candidates for degrees will be present at this time, and a full evening of work is anticipated. The meeting will open at 7 p. m.

HOME ON VISIT

Pfc. Dan Martinez, Jr., visited his parents, Mr. and Mrs. Dan Martinez, Sr., during the Christmas holidays. He has been stationed at Scott Field, Ill., for the past seven months, and has now been transferred to Finker Field, Okla.

BIRTH ANNOUNCEMENT

Mr. and Mrs. Douglas Meinzer are announcing the arrival of a daughter, who was born January 3, and weighed seven and one-half pounds. The little daughter has been named Judy Ann. The mother is the former Bobbie Floyd, and is reported to be doing nicely.

Mr. and Mrs. Sam A. Roberts of Haskell visited in the home of Mr. and Mrs. J. W. Roberts a while Wednesday.

Goree To Have Modern Theatre In Near Future

Among most recent and modern improvements for the town of Goree is the addition of a modern theatre, which is expected to be open to the public around February 1.

The theatre building, located just west of Rogers Drug Store, has been completely remodeled and refinished. New and modern projecting machines and sound equipment have been purchased and are being installed.

Work on the theatre has been hindered somewhat by the recent cold weather, but it is expected to be opened on or soon after February 1.

The modern theatre will be operated by Mr. and Mrs. George Nix.

Arledge Ranch Herd Sale Nets High Prices

Nineteen bulls in the annual Arledge Ranch Hereford sale, east of Vera, sold Monday afternoon for an average of \$526, and 25 females made an average of \$539, according to records of the sale.

Top bull of the sale was Bilt-Rite Rupert 5th, sold on a bid of \$1,650 to Bryant Edwards of Henrietta, who with his brother, Kirk Edwards, were the principal bull buyers. J. J. Keeter of Throckmorton was among bidders on this animal and later bought a young bull and some of the females.

Top female was Princess Rupert 47th, sold on a bid of \$2,500 to the Flying L Ranch of Davis, Okla., and the contending bidder was the Alamo Stock Farms, San Antonio, which later purchased other females.

The crowd was small, due to the recent cold spell that left roads covered with sleet and snow.

Abilene Christian College, Abilene, was the biggest buyer of females in the sale.

Dr. E. P. Bunkley of Stamford purchased several cattle. R. T. Alexander and sons, Canadian, paid \$700 for a young bull, Bocaldo Rupert 17th. Kingford Farms, Siloan Springs, Ark., paid \$750 for Miss Rupert 2nd. West B'Gins Ranch, Dallas, purchased Princess Rupert 7th for \$600. Jerry Bohannon, Midland, purchased a heifer for \$400 and another for \$500. Tommy Potts of Memphis bid in Lady Tone 5th for \$500, and D. A. Neely of Memphis paid \$770 for Rupert Tone 126th.

Better Sugar Supply Is Seen

Texas homemakers can now look with renewed hope toward an improved sugar supply.

Miss Gwendolyn Jones, food preservation specialist of the Texas A. and M. College Extension Service, calls the attention of housewives to a recent statement by Secretary of Agriculture Clinton P. Anderson concerning possibilities of increased home sugar supplies.

"Barring unpredictable disasters sugar will be available to increase rations in the United States by one 5-pound stamp by April 1, 1947. It is believed that the sugar supply situation will warrant further increases later in the year, but at this time it is top early to specify amounts."

A step toward a better sugar supply was taken January 1, says Miss Jones, when a spare stamp for five pounds of sugar was made good by the OPA. The spare stamp will be valid until April 30.

Judging from reports from the U. S. Department of Agriculture, it is likely that the second stamp for 1947 will be made good before the spare stamp expires, predicts Miss Jones. When this happens, the present ration of five pounds of sugar every four months will be increased.

Jim Grammer of Lamesa returned to Munday last Sunday night from Alabama, where he visited his parents during the Christmas holidays. He and Mrs. Grammer and children are spending a few days with Mrs. Grammer's mother, Mrs. G. E. Elland, before returning to their home in Lamesa.

Aristocratic White Face

Beau Sensation 44th and his owner, E. W. Moutray, Abilene Hereford breeder, appear proud of the pedigree behind the outstanding sire, whose pedigree traces back to Anxiety 4th, imported to America from England in 1881 and known as the "Improver" of American Herefords. The bull shown will be sold in the Moutray auction to be held at the ranch near Baird on February 1st.

E. E. Nix Loses Eye Wednesday In Freak Accident

E. E. Nix, well known Knox county farmer, suffered a painful injury and the loss of his right eye in a freak accident on Wednesday of last week.

Mr. Nix was burning trash at his farm home west of Munday, when heat from the fire caused a bottle to burst, and a piece of glass pierced his right eye. He was rushed to a Wichita Falls hospital, where it was found that removal of the eyeball was necessary.

Mr. Nix was brought home Saturday, and is reported to be getting along nicely.

Tuck Whitworth Begins Duties As Chief of Police

D. E. (Tuck) Whitworth, well known Munday resident, was recently named chief of police for the City of Munday.

Mr. Whitworth was administered the oath of office and assumed his duties here on January 1, 1947. He has had considerable experience as a peace officer, having served with the U. S. Border Patrol for several years.

Mr. Whitworth asks the cooperation of all Munday citizens in assisting with law enforcement and keeping the town law abiding.

Area Soil Conservation Meeting Is Scheduled January 21st At Haskell

Plans are being progressed rapidly for a series of five meetings on Soil Conservation throughout the West Texas and Panhandle territory served by the Fort Worth and Denver City and Wichita Valley Railways, sponsored by local committees comprised of representatives of these railroads, local banks, Chamber of Commerce, and county agents, and others interested in this work, including the Second National Bank of Houston.

Entertaining as well as enlightening programs are being arranged. The first of the five scheduled meetings will be in Haskell at 2:30 p. m. Tuesday, January 21st in the Haskell County District Court Room, with F. W. Martin, county agent, presiding. A. C. Pierson, cashier for Haskell National bank and chairman of the Agricultural Committee of the Haskell Chamber of Commerce, A. E. Drake, general agent, Burlington Lines, Abilene, and Martin are in charge of arrangements.

These meetings are designed to bring home to banker, business man, farmer, and laymen alike the fact that in the United States approximately 200 millions of acres of land, about two-thirds of the best crop land in the nation, have either been destroyed for further use as farm land or have been seriously damaged by erosion, and to point to a solution to this problem.

Principal speaker at each meeting will be O. Dooley Dawson, vice-president and manager of the Agricultural Department of the Second National Bank of Houston, who joined the bank's staff in September 1945, at the inception of this new department. A graduate of Texas A. & M. in 1932 with a degree in agriculture, Dawson spent 11 years with the U. S. Soil Conservation Service in Texas before joining the bank's organization. He has worked in every region in east and central Texas, from the Red River to the Gulf, and thus acquired a practical knowledge of the native soils before becoming connected with Second National.

As manager of this agricultural department, the first such department in a commercial city bank, he has traveled during the last 15 months thousands of miles over the state, carrying a message of soil conservation directly to some 20,000 farmers.

HERE'S WHY PROFESSORS SEE TRIPLE If professors at the University of Wichita think they're seeing triple, it's probably the Batt brothers from nearby Augusta, Kans. The 20-year-old triplets, reading Ted, Joe and Lee from left to right above, are all veterans of two years service in the Navy, and studying at the university under educational provisions of Public Law 346 administered by the Veterans Administration. Ted is majoring in aeronautics, Lee is studying dramatics, and Joe is taking a premedical course.

Mercury Skids 10 Below In Coldest Weather In Years

Polio Causes Being Traced, March Of Dimes Will Give Aid To Victims

Paulette Goddard, of the "Hollywood Players" CBS Wednesday show has appeared on screen and radio with most of Hollywood's outstanding leading men, but has missed one—to her disappointment. He's Gregory Peck, and now the "Players" director is scouting around for a suitable story for the two stars.

Orchard Planting Recommended For January-February

The County Agents office is now receiving inquiries to the proper time to plant fruit and nut trees. January and February is the proper time to set fruit trees and yard shade trees. February and March are the correct planting months for most nut trees. Fruit and nut trees can be successfully grown in Knox County according to Mr. J. K. Johnson, of Munday, Texas. To be successful, however, requires planning. The orchard should be set, if possible, in a deep sandy loam sloping toward the north. Only proven varieties for the locality should be planted. Mr. Johnson recommends the following peach tree varieties: Early Wheeler, Earl Elberta, Mammoth J. H. Hale and Crumble October.

Mr. John Wilson of Knox County, advises that pecans can also be grown successfully in Knox County if planted in a plot with holes dug deep into the soil, and watered by subirrigation the first few years. Mr. Wilson likes the Burkett variety best for Knox County, but advises that pecans must be treated for rosette with Zinc Sulphate. English walnuts grafted on black walnuts will produce in Knox County, according to Mr. Johnson experiments.

Fruit is necessary for a balanced diet, and nuts add variety to farm dishes.

Additional information on planting may be secured in "Orchard Management," "The Pecan in Texas," and "Beautifying the Farmstead," bulletins found in the county agents office.

Glenn Dobbs Is Selected All-Star All-American Pro.

Glenn Dobbs, the Brooklyn Dodgers' spectacular "one-man backfield," was a unanimous choice for the United Press All-American Conference All-Star team recently, according to an article in a recent issue of the New York Times.

Dobbs and six other rookies playing their first season of professional football made the all-star eleven.

The Dodger triple-threat star was far out in front of the rest of the league in total offensive yardage, with 1,919. Dobbs was a popular member of the Munday school for several years, and spent most of his youth at Munday.

The entire first team all-star backfield was made up of first-year pros. Besides Dobbs, the quartet included Otto Graham, passing star of the Cleveland Browns, at quarterback; Orban (Spec) Sanders, shifty running threat of the New York Yankees, at halfback, and Marion Motley, hard-hitting Cleveland fullback.

Mr. and Mrs. James Dyke of Abilene visited with relatives here a short while last Thursday.

Another milestone in mankind's ceaseless quest for the answers to the baffling problems posed by infantile paralysis will be reached January 15-30, when the annual March of Dimes, spearhead of the quest, takes place, it was announced today by Claude E. Reed, chairman of the Drive Committee in Knox City.

"While the disease is by no means a new one," Mr. Reed said, "it wasn't until 1789 that it was recognized as a distinct disorder and the long series of investigations into it began. But it wasn't until 1938 that organized and concerted efforts to assist and treat polio victims and to study causes and possible means of prevention and cure of the disease, were begun. The National Foundation for Infantile Paralysis.

"The National Foundation, supported solely by March of Dimes funds, still hasn't got all the answers," said Mr. Reed, "but it intends to remain on the job until it has. And the only way it can, is through continued public support of the March of Dimes."

Quoting from an annual report released by Mr. Basil O'Connor, president of the National Foundation, Mr. Reed highlighted the history of the Foundation in its battle against the disease.

"The Foundation came into being," he said, "as a result of accidental circumstances.

"In the early 1920's a man named Joseph was stricken by infantile paralysis in Panama. Later, badly crippled, he returned to his family's summer home in Warm Springs, Ga. There, while swimming in the Spring's waters, he noticed that strength was gradually being restored to his withered limbs.

"The news spread, and Franklin D. Roosevelt, stricken at Sempello Island, New Brunswick, came to hear of the now famous health resort. He went there first in the fall of 1924, beginning the long association with his 'second home' that ended only with his death in 1945.

"In 1926, after receiving a favorable report from orthopedic experts, Mr. Roosevelt bought some 1,200 acres of land surrounding the Springs and incorporated Georgia Warm Springs as a non-stock, non-profit organization to serve handicapped polio victims.

"By 1938 it was realized that while treatment of polio was important, what was needed was a long-term plan for scientific research into the cause and prevention of this virus disease. Also local facilities for medical care of polio victims everywhere were totally inadequate. Thus, Mr. Roosevelt organized the National Foundation, a tight-knit network of Mr. Basil O'Connor in charge.

"Today, through voluntary contributions to the annual March of Dimes for Infantile Paralysis to lead, direct and unify the fight against infantile paralysis, with (Continued on page 8)

All-Star Cagers To Begin Schedule On Friday Night

A bunch of former high school basketball players have organized into an all-star team, and will open their schedule by playing Rule on Friday night of this week at 7:30 o'clock, at Rule.

Another game is scheduled at Haskell, to begin at the same hour Tuesday night.

The all-stars have been working out several nights under the direction of Don L. Ratliff, coach. Ratliff and J. B. Stevens are team sponsors.

It is their plan to have a fast and efficient team, one that will give any group of high school or all-star players plenty of trouble. They are receiving the hearty cooperation of Supt. W. C. Cox and Coach Clyde Latham, of the local school.

The all-star players are: Glen Lowrance, John Voss, Keith Cartwright, Bully Ratliff, Hulen Montgomery, Hoss Bledsoe, Kenneth Harrison, Everton Hosea, Herbert Stodghill and Steve Harrison.

After nearly 10 days of near-zero and sub-zero weather, Knox county people are enjoying the "balmy days" of this week when the thermometer gets down to just about freezing during the night.

Many are going about the job of repairing frozen water pipes which burst during the cold spell. Pipes, they learned when the "thaw" came, had burst inside the house, under the house and outside the house. Plumbers have been doing a record business, while many residents of Munday have been doing their own repairs.

The mercury skidded to 10 below zero last Saturday morning, which is a record of many years, and believed to be a record for the period in which official records have been kept in Munday. Several mornings brought below zero readings during last week.

Six inches of snow was recorded by H. P. Hill, U. S. weather observer for Munday. Mr. Hill had gone to Wichita Falls on Thursday and records of his official daily readings were not available at press time.

The snow brought considerable moisture to the county, and the moisture and cold are reported to be very good for wheat crops which have been suffering from rust for the past several years.

The coldest weather came during a "lull" in the winds, and the fact that a very little wind was blowing made it easier on all who were weathering the cold weather.

As the sun came out and warmer weather prevailed, the snow began to melt, and only traces of snow and ice are seen Thursday.

E. O. Jamison Of Knox City Dies On Last Sunday

E. O. Jamison, 75, pioneer West Texan and retired merchant and banker of Knox City, passed away at 1:30 p. m. Sunday, January 5, at the Knox county hospital. He had been very low, suffering from a heart ailment, for over a week.

Born in Denton county, Mr. Jamison moved to Knox City in 1906 from Seymour. He had lived there since that time, acquiring extensive farm and ranch holdings in addition to his mercantile and banking business.

He was connected with the Knox City bank for a number of years, and many are those whom he had helped with his foresight, sound advice and financial loans. Many old timers are prompt to say that "Knox City was truly built around E. O. Jamison."

He is survived by his wife and one son, Orland Jamison, who several months ago moved from Knox county to his ranch near Colorado Springs, Colo. Mr. Jamison and family had been visiting his parents in Knox City since before Christmas.

Funeral services were held from the First Methodist church in Knox City at 2:30 p. m. Monday, being conducted by Rev. Vernon Henderson, pastor. Burial was in the Knox City cemetery.

Bank Deposits Continue High

Knox county people started off the year, 1947, in good financial condition, if a record of deposits in the First National Bank of Munday can be taken as a criterion.

Deposits in the local bank remain at a high level, the bank's financial statement published in this issue of the Munday Times shows. The statement shows deposits as of December 31, 1946, showing a gain of \$384,489.67 over those of three months ago, when the last financial statement was published.

Total deposits on December 31, 1946, stood at \$3,157,816.14, and of this amount \$2,939,668.39 was in deposits of individuals, partnerships and corporations.

Recent visitors in the Dee Perry home were two of Mrs. Perry's brothers, Vernon Horton and family of Merkel, and Mr. and Mrs. O. A. Horton of Arlington.

"What a Man Does For Himself Dies With Him—
What He Does For His Community Lives On and On."

THE ATLANTA FIRE

The gastly hotel fire in Atlanta was the worst of a series of similar disasters. It was followed the next day by a fire in a Saskatoon, Canada, hotel which took eleven lives, and different from the Atlanta holocaust only in degree.

The cause of the recent hotel burnings are not completely known. In all cases, the fires started at night or in the early morning and some time elapsed before alarms were sent in and fire fighters arrived on the scene. And in all cases the fires spread with a most incredible rapidity and fire fighting equipment in the buildings either unused or was completely inadequate.

It seems certain that in some instances local fire ordinances were either unenforced, or outmoded. For example, there seems to have been no adequate provision for shutting off areaways and thus controlling the pressures generated by the fire. Inside fire escapes, stairways and elevator shafts became chimneys through which fire and smoke raged unchecked throughout a whole building, almost instantly.

Every community should now take immediate steps to assure if possible that more such horrible fires will not occur. The first step is the modernization and stiffening of codes concerning building, and the correction of fire hazards in existing buildings. Sprinkler systems and fire doors which are essential in warehouses and factories, are a hundred times more important in hotels and buildings housing large numbers of people. The second step is constant inspections of public premises and rigid enforcement of the law. It is too late to save those who died horribly in Atlanta and Saskatoon. What we can do is to prevent such sacrifices to carelessness and in difference in the future.

A BILLION DOLLARS SAVED TAXPAYERS

The virtual demise of OPA is saving the American taxpayer over 1,000,000,000 a year. That billion is the money that used to be paid out to producers as subsidies in the days of all-inclusive price control.

The subsidy was a means of providing the consumer something at less than its going market value—and then collecting the difference from him at the end of the year by adding it to his tax bill. For the last fiscal year, Congress appropriated \$700,000,000 for meat subsidies, \$560,000,000 for dairy products, and \$215,000,000 for flour.

The elimination of OPA resulted in immediate price rises to offset the discontinued subsidies—the consumer again paid the full cost of what he purchased at the time of purchase. That was responsible for most of the price increases that followed decontrol.

The end of these subsidies is a healthy sign. The subsidy principle may be used in normal times to encourage the production of high-cost products desired by the government. But to subsidize part of the cost of producing and selling common commodities, such as foods, is to distort the price picture and to place the economy on a false and shifting foundation. We are attaining a more stabilized price structure now, based upon today's cost of doing business. Elimination of the subsidy, like the elimination of price control itself, was an unavoidable first step in revitalizing the machinery of supply and demand.

TAX READJUSTMENT

It seems now inevitable that the next Congress will make a start on a long-range program of government economy and tax revision. Any tax reduction will necessarily be determined by the size of future national budgets.

It is very easy to say that we should keep on soaking the rich, and that whatever tax cuts are made should practically all be in favor of the worker of small moderate means. The ability to pay will always be a determinative factor in tax policy. However, extortionate taxes on cooperations and large incomes destroys the very source of capital which is needed to develop new industries, new scientific discoveries, and to create jobs and opportunities for all. The average man is the loser when that happens.

John W. Hanes' president of the Tax Foundation, recently made some suggestions of merit. It is Mr. Hanes' opinion that income tax rates should start at 20 per cent and rise to 54 per cent in the \$50,000 bracket, 54 per cent in the \$200,000 bracket, and reach 70 per cent maximum at \$1,000,000-plus. He urges that earned income should be treated much more generously than at present, which would be

ONE MILLION MORE BUREAUCRATS

In a recent magazine article, Senator Robert A. Taft, who will be among the leaders of the next Congress, strongly described the dangers inherent in the pending Wagner-Murray-Dingell public health bill.

The measure would result in the creation of a fund of three to five billion dollars a year—some of which would be taken out of worker's earnings in the form of another social security tax and some of which would be provided by the Treasury. As a result, he wrote, "The political patronage . . . would be tremendous. To operate the machinery required would take anywhere from 250,000 to 1,500,000 employees—in addition to the medical profession. More than 50,000,000 cases would have to be checked every year as a basis for payment and statistical information. Federal bureaus of this nature are notoriously inefficient, expensive and political. The medical bureau would have to send investigators into every home. It is hard to conceive a measure which would more surely lead to an all-powerful central government than Federal compulsory health insurance."

Mr. Taft commented on the claim that medical service in this country is inadequate, an admitted fact. "The health of the United States as a whole is as good as that of any nation and better than that of most." He conceded the need of additional medical service in this country is inadequate, and cannot pay for it, and is sponsoring a bill to that effect. And he made this telling point: "The fundamental issue is whether the government shall look after the indigent or whether it shall look after the entire population."

The Wagner-Murray-Dingell bill is not designed to help the needy alone. It is, on the other hand, designed to regiment medicine, and to take us a long step toward state medicine, at an enormous cost in coin and in our basic liberties. It should be defeated.

STRIKING AGAINST ALL THE PEOPLE

The Portland, Oregon, Journal came to the heart of the coal controversy when it observed that it was a quibble to say that the strike was directed against the government or the mine owners. Instead, said the Journal, "It was directed against the nation's factories and railroads, against the farmers, the storekeepers, the babies, against John Doe and Richard Roe and their neighbors along Main street in Tankville. The mine operators at one time made the lot of the miners pitiable indeed—but they have been brought into line and the government itself became the employer. Now the boss of the miners, holding the whip hand, is insisting upon the very principle against which he screamed at the employers—domination, coercion, oppression. Whatever the rights-and-wrongs of the controversy itself may be, no man should have the power to defy his government, his president, and his fellow-country men."

The strike issue in all industry has gone far beyond the question of whether workmen are entitled to higher pay, shorter hours or other benefits. Those matters could be equitably decided and settled through the normal processes of collective bargaining.

History repeats itself in curious ways. In the early years of this century, the excesses of a few capitalists led to the enactment of a long series of restrictive laws controlling business, beginning with the anti-trust statutes.

of benefit to all workers at all income levels. He advocates the elimination of double taxation on corporate dividends. Mr. Hanes believes in equitable tax adjustments that will not destroy the incentive to produce, invest and employ.

This is a pattern for a tax program that Congress should consider.

Ex Libris... By William Sharp

Gas Research Gives New Uses For Gas Homes

American homes and industry may look to even greater advancements in the fields of gas utilization and developments of new applications, as a result of a comprehensive research program of the American Gas Association.

This is a feature of the annual report of R. H. Hargrove, president of the A. G. A., and vice president and general manager of the United Gas Pipe Line Company of Shreveport.

"The gas industry of the United States has demonstrated its traditional stability and soundness by passing through the difficult re-conversion period without losing a step in its march of progress," Mr. Hargrove said.

An Old Bill Of Sale

F. P. Stevens of Coleman has received a copy of his old home paper, printed at Cynthiana, Indiana, in which appears the following unique sale bill of the days of 1849, in old Kentucky:

A Sale
Having sold my farm, and am leaving for "Oregon Territory" by ox team, will offer on March 1st, 1849, all of my personal property to-wit:

- All ox teams, except two teams, Buck and Ben and Tom and Jerry;
- 2 milk cows; 1 gray mare and colt; 1 pair of oxen and yoke; 1 baby yoker; 2 ox carts; 1 iron plow with wood mole board; 800 feet of popular weather boards; 1000 three-foot clapboards; 1500 ten-foot fence rails; 1 60-gallon soap kettle; 85 sugar troughs, made of white ash timber; 19 gallons of maple syrup; 2 spinning wheels; 30 pounds of mutton tallow; 20 pounds of beef tallow; 1 large loom made by Jerry Wilson;

Dr. J. F. Tomlinson
Dentist
Office over Home Furniture Co.
MUNDAY, TEXAS

3000 poles; 100 split hoops; 100 empty barrels; 1 32 gal barrel of John-Miller whiskey, 7 years old; 20 gallon of apple brandy 1 40-gallon copper still; 4 sides of oak tanned leather; 1 dozen real hooks; 2 handle hooks, 3 scythes and cradles; 1 dozen wooden pitchforks; one-half interest in tan yard; 1 32 caliber rifle; bullet molds and powder horn; rifle made by Ben Miller; 50 gallons of soft soap; hams, bacon and lard; 40 gallons of sorghum molasses, six head of fox hounds, all soft mouthed except one.

At the same time I will sell my six negro slaves—2 men, 35 and 50 years old; 2 boys 12 and 18 years old; 2 mulatto wenches, 40 and 30 years old. Will sell all together to same party, as will not separate them.

My home is 2 miles south of Versailles, Kentucky, on McConn's ferry pike. Sale will begin at 8 o'clock a. m. Plenty to drink and eat.

J. L. Moss.
—From Coleman Democrat Voice
Note: A sale of that kind would draw a crowd these days, bigger than a West Texas Chamber of Commerce Convention.

Mr. and Mrs. Grady Weaver and family of Wellington spent several days here last week visiting with Mr. Weaver's mother, Mrs. D. B. Weaver, and with other relatives.

Mr. and Mrs. Rex Holder and son returned to their home in Clarksville last Saturday after several days' visit here with Mr. Holder's parents, Mr. and Mrs. D. E. Holder, Sr., and with other relatives.

FARM NEWS

New Cotton Crop Insurance Contract Announced

Farmers who apply for Federal all-risk insurance on their 1947 cotton crop will be offered a simplified Federal Crop Insurance Corporation contract designed to provide coverage more nearly equal to the investment in the crop at the different stages of production than in previous years, the USDA has announced.

The 1947 cotton program will offer substantially the same type of insurance protection as in 1946. Producers will be insured against loss in cotton yields due to practically all unavoidable causes. The changes in the program relate to the amount of coverage the farmer is given at various stages of cotton production.

In 1947 each farm will be placed in one of the 35 coverage groups according to the average yield per acre established for the farm. Three levels of insurance will be offered for each coverage group with the farmer selecting the level he prefers. Level A gives the lowest coverage; Level B, a little higher; and level C, the highest. There will be one premium rate for all farms in each of the three levels expected that extra hazardous farms will have higher rates. The rate for Level A will be the lowest and for level C, the highest. Protection will be increased proportionately as the stage of production is advanced before the crop is damaged. There are four stages of production:

First Stage: After it is too late to plant cotton but before the first cultivation.

Second Stage: After the first cultivation but before laying by.

Third Stage: After laying by but before harvest.

Fourth Stage: After harvest and to the end of the insurance period.

Here is an example of how the new procedure operates: A farmer in coverage group No. 17 selects insurance coverage under level B. If he suffers a loss in the first stage of production, he would be insured or 37 pounds of lint cotton per acre; in the second stage 60 pounds; in the third stage, 112 pounds; and in the fourth stage,

150 pounds.

The County Agricultural Committee will have tables showing what each insured farmer's contract covers at every stage of his production. In this way, there should be no misunderstanding about the amount of coverage applicable to a farm at any time a loss should occur.

The closing date for accepting applications is January 31, 1947.

Payment of indemnities and premiums under Federal all-risk crop insurance on cotton crops will be based on a fixed cotton price for 1947 instead of the cash cotton prices used in previous programs, Chairman Emmett Partridge of the Knox County Agricultural Conservation Committee has announced.

The cotton price to be used in determining these payments will be 90 per cent of the average price of cotton for the month of July on the ten spot-cotton markets, he said. Both indemnities and premiums are figured in pounds of cotton and converted to dollars and cents to make payments, he stated.

Under previous programs, the figures used for this conversion has been the cash price of cotton on the date the premium was paid and the date the farmer received his indemnity payment.

Using a fixed price for cotton will speed up the payment of crop insurance indemnities to farmers, Chairman Partridge said. Farmers will also know that the price of cotton used to figure their premiums will be the same one on which their indemnity payments will be based.

Federal all-risk crop insurance is now being offered on the 1947 cotton crop. Full information on coverage, premium rates and other provisions of the program can be obtained from the county office in Benjamin.

The closing date for accepting applications is January 31, 1947.

Phosphate And Lime On Pastures Pays Off

Most any livestock producer would be interested in securing 700 pounds of 43 per cent cottonseed meal at a reasonable cost. According to an experiment made by the Texas Experiment Station at their

People, Spots in The News

NO PLACE LIKE HOME—Though the doors of these cages at American Can Company's research laboratory in Maywood, Ill., are always open, the guinea pigs never jump out. Technician Jesse Goode, says it "just never occurs to them." Even if it did, he asks, "where else would they be fed as well as they are here when being used for food nutrition studies?"

FRINGE ON TOP AND BOTTOM is the latest in ladies' swim suits.

BEATING SUGAR FAMINE in Germany as mountains of sugar beets are unloaded at one of eight factories in the American Occupation zone where beets are processed into sugar. The vegetable contains about 13 per cent sugar.

Beaumont, Texas station, the forage from the unfertilized pasture. This is equivalent to 700 pounds of 43 per cent cotton seed meal.

This experiment conducted over a period of nine years proves that the use of fertilizer and lime on pastures greatly increases both the quantity and the quality of the forage grown. The amount of forage was more than doubled while the percentage of phosphoric acid in pasture plants was increased about 50 per cent and that of protein about 20 per cent.

These findings show why the improved fertilized pastures are more productive and more nutritious than usual improved pastures. They result in increased range carrying capacity and heavier and better cattle and other livestock. Livestock producers interested in learning more about this experiment can secure additional information by writing Dr. R. D. Lewis, Director, Texas Agricultural Experiment Station, A. and M. College, College Station, Texas and requesting bulletin No. 1039.

Assistance is furnished livestock producers in securing phosphate and lime for fertilizing pastures through the Agricultural Conservation Program and many livestock producers of Texas have availed themselves of this assistance and greatly improved their pastures.

Washington News Letter

By Congressman Ed Gossett

Washington, Jan. 3—Today is the opening day of the 80th Congress. Joe Martin, Republican of Massachusetts, has just been elected Speaker of the House of Representatives. He is the 45th person to be elected Speaker since the convention of the first Congress 158 years ago. The Republican now control Congress for the first time in 16 years, and New England has its first speaker in 21 years. Joe Martin has served in the House for 22 years, is 62 years of age, is a newspaper publisher and a bachelor. He lives in North Attleboro, Mass., in the house he was born in. He is not considered a brilliant man but is universally regarded as sincere and honest and is well liked by the House membership generally. He was elected Speaker by a vote of 244 to 182, all Republicans voting for Joe Martin and all Democrats voting for Sam Rayburn. Mr. Rayburn made a generous speech in his introduction of his successors and was roundly applauded by the House.

During the last several days all members of both parties have been caucusing in an effort to select leaders and employees for the 60th Congress. After much urging, Mr. Sam Rayburn was persuaded to take the minority leadership of the Democratic party. It is generally considered that his acceptance of this draft saved the Democrats much bitterness and con-

flict in the selection of their leader in the House. During his 34 years of service in the House of Representatives, Mr. Rayburn has become thoroughly familiar with the legislative machinery and will better serve our section of the country than would some leader from the north or northeast.

Both Republicans and Democrats generally agree that President Truman has taken on added stature and has considerably enhanced his prestige in recent weeks. His refusal to accept dictation from John L. Lewis, and his declaring hostilities to have ceased, and his surrender of numerous war powers, and his apparent determination to get the country back to a peacetime basis has improved White House relations very much.

The 21 members of the House who represent Texas have met and organized our delegation for the next session. The chairman of the organization rotates on a basis of seniority. Our new chairman for this session is the Honorable Geo-

H. Mahon of Colorado City, who has served in the Congress for 12 years. Honorable Wingate Lucas, of Fort Worth district was elected secretary of the delegation.

Because of the reorganization bill a great many problems have to be solved in the assignment of members to new committees. The ten Democratic members of the Ways and Means Committee constitute the Committee on Committees for Democratic members and will have the responsibility of deciding conflicts for House committee membership.

The case of Senator Bilbo is now being argued in the Senate. It is a mean, knotty, and unfortunate problem and will cause a lot of bitterness in the very beginning of the new Senate. Some say Bilbo is guilty, others that he is innocent. Some contend that a state has a horse thief to represent them if they sodesire. Some say that the Republicans will drive Bilbo from the Senate just as a means of playing partisan politics and winning favor with radical minorities in the big states of the northeast. Others say, if Bilbo is ejected the people of Mississippi will reelect him overwhelmingly as a protest against outside interference with their personal affairs. The country will be glad when the Bilbo affair fades from the scene.

Miss Jeanelle Partridge, who is teaching in the Beaumont schools, left last Saturday on return to Beaumont after spending the holidays with her parents, Mr. and Mrs. R. C. Partridge. Mr. Partridge took her as far as Wichita Falls, and she made the remainder of the trip by train.

Mr. and Mrs. J. E. Reeves went to Denton last Sunday to take their daughter, Jean, who is attending T. S. C. W. They returned home Monday.

Mr. and Mrs. A. E. Richmond spent last Sunday in the home of Mr and Mrs. M. D. Richmond of Haskell.

CARD OF THANKS

We take this method of expressing our sincere thanks and appreciation to everyone who were so kind and thoughtful toward us in our dark hour of sorrow, in the death of our darling baby.

We especially want to thank Rev. Albertson for his services, and the men who sang the beautiful songs. May God bless each of you, is our prayer.

Friendly Folks KEEP PORCH LIGHTS BURNING

It's Safer Too!

Look up and down any street tonight—many of the most attractive homes in daytime are now dark and uninviting after nightfall.

Turn on the porch light and even the most modest homes stand out as the most charming and gracious in the neighborhood. Where the light is burning you feel that a cordial greeting awaits, that hospitable folks are inside, and that friends are always welcome.

Maybe you haven't been conscious of the friendly significance of that beckoning light. Drive out tonight and feel the difference when you pass the lighted homes.

For one month—two hours nightly—you display this outdoor sign of friendship for about the price of one-half pack of cigarettes. Surprisingly cheap, isn't it?

Arnold Kitchens, Margaret Sowell Wed In Seymour

Mr. Arnold Kitchens and Miss Margaret Sowell were united in marriage on Saturday, December 28, in Seymour.

The bride is the daughter of Mr. and Mrs. Sowell of Goree, and Mr. Kitchens is the son of Mrs. Charlie Yates of Munday.

The young couple were accompanied by Mr. and Mrs. James L. Sowell and Mr. and Mrs. Bill McDonald of Seymour.

The couple will leave in a short while for San Angelo, Texas, to make their home, and their many friends wish for the ma long and happy married life.

Lewis Washburn, Carlyn Feemster Marry January 4

Announcement was made this week of the marriage of Lewis U. Washburn of Munday and Miss Carlyn Feemster of Vera.

The couple were united in marriage on Saturday, January 4, at 8:30 p. m. at the Methodist parsonage in Munday, Rev. Don Davidson performing the ceremony.

Mrs. Washburn is the daughter of Mr. and Mrs. Ralph Feemster of the Vera community, and Mr. Washburn is the son of Mr. and Mrs. C. E. Washburn, who reside on route two, Munday.

Mr., Mrs. Baker Observe Golden Wedding Date

Quietly and without much ado, Mr. and Mrs. W. A. Baker, beloved pioneer Munday couple, celebrated their golden wedding anniversary on Sunday, December 22.

Both were in their usual places at morning services at the Methodist church, and a highlight of the celebration was the family dinner held in the home of Mr. and Mrs. C. P. Baker, and attended by most of the family.

During the afternoon, many old friends called on the Bakers to wish them many happy returns. The visitors were served cake and coffee from the lace-laid dining room table. Centerpieces for the table was a three-tiered wedding cake with golden candied robuds as decorations. Gold-colored candles in gold holders lighted the table.

Jack Smart and Dorothy L. Stephens Marry December 7

Miss Dorothy Laverne Stephens, daughter of Mr. and Mrs. W. H. Stephens of Goree, became the bride of Jack Smart, son of Mr. and Mrs. T. C. Smart of Waco on Saturday, December 7, 1946, at the Baptist parsonage in Goree.

Rev. S. E. Stevenson, pastor performed the ceremony. Only at-

Midget - - But Plenty Hot!

CHICAGO, ILL.—So small you hardly know it's there, this little model in front of the radiator (not the one on the left), displaces larger units and provides heat for 2½ rooms. Its many types of installation make it the most versatile in today's home-heating field. Stewart-Warner's new midget furnace is a self-contained, gas burning unit, installed by one man in three hours. It requires only a gas and an electric connection, and an air duct to the outside. Weighing about 70 pounds, it can be recessed in a room wall, ceiling or floor, or between two rooms giving ample warm air to both. It features automatic modulation to a pre-set temperature, warmed air propelled by blower, and a sealed flame. It is an adaptation of heating principles used in aircraft during the war.

tendants were the bride's parents. After a visit in the home of Mr. Smart's parents in Waco, the couple will make their home in Goree.

Lowrance Family Holds Reunion Here During Holidays

Mr. and Mrs. J. F. Lowrance had their children and their families home for Christmas, except one son-in-law, Dallas Gray, who was unable to attend. Those present included the following:

Mr. and Mrs. J. F. Lowrance and Johnnie, Doyle, Glenda and Freida, of Goree; Mr. and Mrs. W. F. Prater and Leo, Bobby, William, Jerry and Charles, of Haskell; Mrs. Dallas Gray and Nancy Wayne and Marigale, San Antonio; Mr. and Mrs. C. B. Reid and Norma and Ann, Lamesa; Mr. and Mrs. J. W. Malone and Joe, Jr., and Wynell, Sweetwater; Mr. and Mrs. D. R. Love and Marcie, Mr. and Mrs. E. H. Lowrance, Mr. and Mrs. T. V. Lowrance, Pampa.

This was the first time the family had been together since September, 1941.

Brushy Sunday School Class Has Social Recently

Class 3 of the Brushy Baptist Sunday school held their quarterly social and business meeting on Monday evening, December 23, in the home of Mr. and Mrs. Edgar Lowe.

With the teacher, Mrs. Lowe, presiding, the class began its organization by electing the following officers: President, Margaret Jean Bowman; vice president, Letitia Cooke; secretary, Janice West; chairman of activities, Nancy Bowman; reporter, Winona Pace.

The business meeting was followed by a sing-song of Christmas carols by the entire group. The story of Christ's birth as recorded by Luke was read by Letitia Cooke, followed by a prayer by Mrs. Walter Rutherford, and a very interesting message by the pastor, Rev. Byrd.

The highlight of the evening was the distribution of gifts from the

beautifully decorated Christmas tree to each member present. Several games were enjoyed, after which a refreshment plate was served to the following members and guests:

Wilma Byrd, Nancy Joe and Margaret Jean Bowman, Winona Pace, Letitia Cooke, Janice and Martha Ann West, Jimmy Lynn and Robert Cooke, Bobby John and Eugene Howard, Cooper and Bill Rutherford, Lyndol and James Yandell, Joline Hendrix, Rev. and Mrs. O. C. Byrd and Bobby, Mrs. Vester Bowman, Mr. and Mrs. Walter Rutherford and the host and hostess.

Activities Of The Colored People

Service was conducted on the 29th at Scott Chapel with the pastor, Rev. Taylor, in charge.

Rev. S. L. Sanders preached on Christmas night at the Church of God in Christ and conducted the service through the 28th, with Rev. J. W. Williams as helper.

The school is thanking Miss Fannie Isbell for the nice books.

Pvt. J. B. Brooks was discharged last week, and is now home with his wife and other relatives.

Mrs. T. V. Scott spent the holidays in Bellesville, Texas, with her parents.

Miss Grace Hawkins of Chicago visited Mrs. Elnora Hendrick last week, also Mrs. Hendrick's niece of San Antonio spent a few days with her.

Mr. and Mrs. Simon Williams house was destroyed by fire on the 21st of December. They are now located at Mrs. Aline Johnson's, and whatever you desire and are blessed to give will be appreciated. They will later be located at their home place across from Scott Chapel church. "He that giveth to the poor lendeth to the Lord."

Pvt. Sammie Lee Hayden spent the week end with his wife, Mrs. Mary Hayden.

Mr. and Mrs. Webber are the proud parents of a baby boy. Mrs. Webber is now home with her mother, Mrs. Mary Hayden, for a few days.

Col. and Mrs. M. L. Joyce and little son, Joe Thomas, of Rising Star spent the Christmas week-end holidays here with Mrs. Joyce's mother, Mrs. J. B. Bowden, and other relatives.

Rev. and Mrs. O. A. McBrayer and daughter, Linda Kay, of Dallas; Rev. and Mrs. F. M. McBrayer of Denver City, and Mr. and Mrs. Mike Leary and daughter of California were recent visitors in the home of Mr. and Mrs. W. E. Sherrod.

Veterans' News

Transfer of the U. S. Naval Hospi-
 tal at New Orleans to the Veter-
 ans Administration for tempo-
 rary use has been approved by
 President Truman and the Federal
 board of Hospitalization.

The Naval hospital, which has a
 600-bed capacity, will be opened
 to veterans as quickly as a suitable
 staff can be assembled, Dr. Lee
 D. Cady, VA's Medical Director
 for Texas, Louisiana and Missis-
 sippi, said.
 In addition to the temporary
 facilities at New Orleans, VA's
 medical service now has 7,260 beds
 available for veterans in hospitals
 in the tri-state area administered
 by the VA Dallas Branch Office.
 A total of 144 American veter-
 ans were studying in education-
 al institutions of 16 foreign
 countries under the GI Bill on Octo-
 ber 1, the Veterans Administrat-

on disclosed.
 Two hundred and twenty-three
 others also attended foreign
 schools up to the same date, but
 143 had concluded short summer
 courses, chiefly in Mexico and Can-
 ada, and the remaining 80 had
 discontinued their studies for a
 variety of reasons.
 Of the grand total of 367 who
 had enrolled in foreign schools
 under the GI Bill up to October 1,
 164 had attended schools in Mex-
 ico and 111 in Canada.
 About 40 per cent of all veterans
 studying abroad were enrolled in
 English-speaking countries.
 The average age of veterans
 studying outside the United States
 was 28.5 years, compared with the
 average age of 26 for students at
 entrance into U. S. Schools.
 Liberal arts was the most popu-
 lar course; Latin-American courses
 were second, and medical ranked
 third.

The Veterans Administration
 had certified more than 10,000 dis-
 abled veterans of World War II
 for vehicles by October 31 in the
 "Automobiles for disabled veterans
 program."
Questions and Answers
 Q. How many offices does the
 Veterans Administration have and
 where are they located?
 A. The Veterans Administrat-
 has a central office in Washington,
 D. C., and 13 branch offices located
 in strategic centers of population.
 In addition, it has one or more re-
 gional office field stations or sub-
 regional offices in each state. Some
 of these are larger and have wider
 activities than others but all are
 charged with the duty of assisting
 veterans and their dependents.
 Q. Are persons who assist in the
 presentation of pension or compen-
 sation claims to Veterans Admin-
 istration permitted to charge for
 their services?
 A. It is unlawful for any per-
 son, whether he be an attorney or
 agent admitted to practice before
 the Veterans Administration or not
 to charge or collect any fee for
 services in respect to a claim. How-
 ever, the law provides that the
 Administrator of Veterans aff-
 airs may regulation authorize
 payment of fees in an allowed case
 to an admitted attorney or agent
 who has filed a valid power of at-
 torney in that case. Such fees are
 deducted from the monetary bene-

fits allowed.
 Q. What identification data
 should I give in writing about my
 claim for benefits administered by
 the Veterans Administration?
 A. If you are making applica-
 tion you should give your full name,
 grade, organization, serial num-
 ber, date of entrance into service,
 date of discharge, and date and
 place of birth. After the claim is
 filed it will be assigned a claim
 number which should be mentioned
 in all subsequent communications.
 Q. Does the name "United
 States Government Life (convert-
 ed) Insurance" include "National
 Service Life Insurance"?
 A. No. "United States Govern-
 ment Life Insurance" is insurance
 issued to World War I veterans
 or to persons who applied for same
 while in active service before Octo-
 ber 8, 1940. "National Service

Cold Weather Calls For CAKE

During freezing weather, cattle need
 cake, meal and hulls, or plenty of dry
 bundle feed to "pull them through" and
 prevent costly loss of weight or deaths.

Cottonseed Cake, Meal and Hulls are
 back again to help you get through the
 cold winter months. Lay in your supply
 now, for present needs and for the se-
 vere cold that is so common during Jan-
 uary and February in the southwest.

We can supply your needs now for Cot-
 tonseed Products if you will order prom-
 ptly.

Mrs. P. L. Ferguson, teacher in the local schools, returned home last Sunday night from Kansas City, Mo., where she spent the holidays with relatives.

Bobby Broach left last week for Lubbock to resume his studies in Texas Tech after spending the holidays with his parents, Mr. and Mrs. Fred Broach, Sr.

Weekly Health LETTER

Issued by Dr. Geo. W. Cox M. D., State Health Officer of Texas

Austin—Now that the winter season is here and pork and pork products are more freely used, warning against insufficient cooking of pork is given by Dr. Geo. W. Cox, State Health Officer. Trichinosis is caused by a parasite in the muscles of pigs. This parasite may occur in large numbers in infested meat.

Dr. Cox explained that a disease condition known as trichinosis is caused by a microscopic organism called the trichina or muscle worm. The young worms, or larvae, are found in the muscles of infected pigs. When this meat is eaten raw or is undercooked, the unharmed larvae grow in the human intestines into adult worms which are carried by the lymphatic tissue and blood stream to the muscles where they become encysted. This period of invasion gives rise to the symptoms of the disease. The severity of the illness is dependent upon the number of trichinae originally consumed.

"While the adult parasites are in the human intestines they may cause acute diarrhea," Dr. Cox said, "which at first can be mistaken for typhoid fever or dysentery. This may start anywhere the first to the fourth day after eating the infested pork and may last one to several days. Later a puffiness of the eyes may appear together with various degrees of pain in the muscles, particularly those of the calf of the leg, the upper arm, the shoulders and the jaws."

Dr. Cox declared that since no adequate treatment is known, prevention is very important. The worms cannot be seen by the unaided eye, so inspection of pork

COTTON CONSUMPTION

Austin—Cotton consumption in Texas mills totaled 18,715 running bales in November according to data from the Bureau of the Census compiled by the University of Texas Bureau of Business Research. This represented a 14 per cent decrease from October but was 19 per cent above cotton consumption of November 1945. Consumption of cotton lint was 2,262 running bales in November, or an increase of 32 per cent over October's 1,720 bales and 39 per cent over November's 1,627 bales in 1945.

CARD OF THANKS

We wish to express our sincere thanks to every one who were so kind to us during Mr. Cude's recent operation and stay in the hospital. Especially do we thank the dear friends for the love offering sent to us on Christmas day, and the ones who visited us and sat up nights at the hospital. May God richly bless you all.
Mr. and Mrs. E. J. Cude
And Children

COTTONSEED PRODUCTION

Austin—Cottonseed crushed in Texas during November rose to 122,861 tons, an increase of 19 per cent, while cottonseed received at the mills fell 38 per cent, leaving stocks at the end of the month 3 per cent less than October, according to Bureau of the Census figures analyzed by The University of Texas Bureau of Business Research.

Activities in cottonseed production declined from November of 1945. Cottonseed received at the mills showed a 35 per cent loss; cottonseed crushed fell off 4 per cent; and stocks at the end of the month reflected a 13 per cent decrease.

Freshmen News

We all enjoyed the snow holidays. There was snowball fights, skating, rolling in the snow, and building snowmen by all of us. We have mid-term exams this week. Some of us wish the snow had waited until this week to snow. We are glad to have Patsy Stone back with us today after having quite a long illness. The girls are getting along pretty well with their dresses in Home Ec.

Junior News

We Juniors returned to school this morning relaxed and ready to start studying after a week end of snow and laughter. We have mid-term exams this week and oh how we are studying. All note books are due also. We all enjoyed the holidays and wish it would snow more often so we wouldn't have to come to school. We all are working hard in our annual and hope it to be a success.

Senior News

All of us are very busy studying for mid-term exams and getting those terrible things called note-books ready to hand in. That vacation we got because of the snow

was very handy because we needed it to work on our book-keeping notebooks.

We hear rumors that we are going to loose one of class members soon. Glenna Dean is going to move. By the end of the year we may not have any seniors to graduate, with some moving away and others making such low grades.

Sixth Grade News

We are all dreading our tests. Marge Hardin visited her sister in rep. Gloria Michel's relatives from Panhandle visited here over the week end. Jeanette Hawkins spent Sunday with her cousin near Weinert. Gloria, where were you last week end? It couldn't have been at Le-veurs store, could it? Doris and Roy have up quiet a case.

Jeanette, why haven't you been going to Weinert lately? We wonder why Madge was so interested in going to Pep, to visit her sister.

First and Second Grade News
 Mickey's cousin, Larry Don Lane, from Knox City has moved into the community.
 Betty Jean visited her cousin at Weinert, yesterday.

All of the class enjoyed the snow. About five of the pupils made snowmen.
 Patricia visited her grandmother at Knox City during the snow holidays. Laverne West missed several days last week because of illness.

Third Grade News

We had a terrible snowstorm the last part of the week and you should see all of the yards. Every child in the third grade made a snowman in their yards. Carlene's brother's goldfish froze under the water and died. Martha said she got her fill of Snow ice-cream.

Mrs. Andrews said that she had a hard time keeping Mary Evaline warm. She is the age that just crawls around everywhere.

Sixth and Seventh Grade News
 We have enjoyed the snow and snow-ball fights as well as the brief holiday, but are having to do double time reviewing for exams. Emmogene Hill visited in Munday Sunday with her uncle and aunt, Mr. and Mrs. E. J. Cude.

Monopolism

By GEORGE S. BENSON
 President of Harding College
 Searcy, Arkansas

NORWAY has little government-managed industry, as such. The only things wholly owned and operated by the government are the post office, telephone, telegraph, electric power, and railroads. There seems to be no agitation for extension of government ownership and management. In fact some leaders feel the trend is in the other direction and that the government has shown no ability to provide efficient service.

However, cooperatives are numerous in Norway. Entirely different from government management, they nevertheless control the buying and selling of almost everything and are monopolistic in nature. The effective organizations of the co-ops, while individually owned, have been used in some instances for extension of government control. Subsidies have been offered to farmers cooperatives in an effort to please everybody: the producers with higher prices and the purchasers with low prices.

Wait 'TIL THE COMPLETE-You're Old NESS of the cooperative monopoly may be seen in the association of drug store operators, to which all operators belong. To open a new drug store a man would first have to become a member of the association and get its approval, after which he would appeal to the government which could never grant a license unless the applicant were admitted to the association.

Drug store operators admit no new members except at their own pleasure, and then seldom except to replace a member who has died. I was told that an aspirant

to the drug industry can seldom be admitted to the association and obtain permission to operate his own store before he is 45 years old.

Plenty of UNDER the right Frontiers kind of economic climate, the Norwegian people could raise their standard of living. And this right climate Communism can never provide. Norway does not lack for frontiers. Their farms produce as many bushels of grain per acre as our farms. The fishing waters of Norway are not surpassed. Possibilities for electric power are the best in the world. Manufacturing and lumbering offer only the ordinary difficulties. The country is not over populated. Yet their standard of living is not more than half as high as that in America.

When forward looking Norwegians try to modernize an industry; they are met squarely with the deadening hand of monopoly, either private or public. If one fishing company manages to find a way to sell its products at a good price, while another company exports its fish to Europe for a lower price, the former company pays a tax which goes to the second company for the sake of equalization.

This policy invariably discourages excellence and tends to mediocrity. A premium is thus placed on inefficiency and on failure to make money. But a realistic incentive system, based upon honest competition throughout, could soon make little Norway one of the most prosperous small nations in the world.

Trial Plantings Of Harry Vetch Are Being Practiced

Farmers cooperating with the Wichita-Brazos Soil Conservation District have planted their trial plantings of Harry Vetch and most report that they have a good stand. Some farmers that have planted the vetch are Alvie Russell, Lee Smith, League Davis Ranch, Harry Beck, Jack Idol and W. J. Townsen. These trial plantings were made to test this wonderful legume crop in this section.

S. W. Hutchens, Cooperator with the District East of Rochester, Texas, has combined his love grass seed and reports that he will have about 200 pounds of seed. Mr. Hutchens baled his first crop of grass and harvested the fall crop for seed.

Trial plantings of Canadian Wild Rye grass and Crested Wheat Grass on Lee Smith's ranch are looking good. These grasses are very good winter and spring pasture grasses that show much promise of bridging the gap between small grain pasture and Sudan grass.

The above practices are some of ordinate Soil Conservation pro-Wichita-Brazos Soil Conservation Cooperators in establishing a co-the many practices use by the gram worked out with the farmers and ranchers by the Soil Conservation Service technicians.

Miss Sue Partridge returned to Hardin-Simmons University, Abilene, on Thursday of last week after spending the holidays with her parents, Mr. and Mrs. R. C. Partridge.

Be Quick To Treat Bronchitis

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Creomulsion blends beechwood croosote by special process with other time tested medicines for coughs. It contains no narcotics. No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. (Adv.)

The Rexall Store

"The Most Complete Drug Store in Knox County"
 Munday - Weinert

A true happening that is more amazing than fiction:

During World War I, a group of soldiers on a troop ship en route to France sat at and talking. None knew any of the others beyond a nickname, "Bill" or "Joe" or "Tex". One of them said:

"When the war is over, I know what I'm going to do. I'm a geologist and a pretty good one, too, if I do say so. I'm going to open up an oil field."

One of the others asked, "where?"
 "In Texas."
 The other said, "Yes, but Texas is a pretty big place; whereabouts in Texas?"

"In Eastland County."
 "Whereabouts in Eastland County."
 "Near Rising Star."

The questioner persisted: "Any particular location?"
 "Yes," replied the soldier-geologist, "on the Hilburn farm."

The man who had been asking all the questions said, "My father and I own that farm."
 He was H. S. Hilburn, now publisher of the Plainview News.

After the war, a well was drilled and the Hilburn field was discovered.

A bill was introduced in the Texas Senate some years ago which would have deprived Texas Christian University of a good many thousands of dollars from land it owns. T. C. U. is supported by members of the Christian denomination and their friends. This was during the depression and, if the income of T. C. U. were reduced, those whose contributions were its main support would have had to make more sacrifices, when already

85%

of all water used in the home is hot!

SIZING of water heater is all important

The average family dirties-up a full acre of dishes and three miles of clothes each year. No wonder automatic laundries and dish washers are meeting with so much enthusiasm.

But, most important of all is the supply of hot water with which to operate these labor-saving machines. They are an addition to the other 140 needs for hot water. So today, 85 per cent of all water used in the home is hot!

In your modernizing plans a new automatic water heater of ample capacity deserves first consideration. See your water heater dealer or gas company about sizing water heater to your particular needs.

SIZING CHART for automatic storage gas water heaters

Number Bathrooms	Number Bedrooms	Storage Capacity Gallons
1	1 or 2	30
1	3 or 4	40
2	2 or 3	40
2	4 or 5	50
3	3	50
3 or 4	4 or 5	75

Area Soil—

(Continued from Page One)

000 persons in 92 scheduled meetings.

Before entering the Soil Conservation Service, Dawson taught vocational agriculture. He lettered in football and track while in college.

The agricultural department of the Second National Bank was created by C. M. Malone, while he was president of Guardian Trust Company. Mr. Malone became vice chairman of the board of Second National when the two banks merged on December 29, 1945.

In addition to talks on soil conservation and better farming methods, Dawson will show a moving picture entitled "This is Our Land" made by Ethyl Corporation, which demonstrates just what has happened to millions of acres of rich top-soil. The purpose is to bring information which is thought by Second National Bank and Burlington Lines' officers to be helpful to communities wherever it is shown.

Polio Causes—

(Continued from Page One)

Foundation chapters serves the nation's 3,070 counties, as well as Alaska, Hawaii and Puerto Rico. These chapters work through recognized welfare and health agencies to give immediate and unstinting aid to infantile paralysis victims regardless of age, race, creed or color.

"The National Foundation, while not maintaining its own research laboratories, makes cash grants to qualified universities, hospitals and laboratories throughout the country, recruiting the best scientific minds available for research in the prevention and cure of polio.

"In the eight years of its existence," Mr. Reed concluded, "the National Foundation has authorized nearly \$20,000,000 for research, epidemic aid and education. Funds from the March of Dimes made this possible. Half of the sum contributed to the March of Dimes is retained by local chapters for care of infantile paralysis patients. The other half goes to national headquarters for research, training and education, and emergency aid in epidemics."

Postmaster Lee Haymes is local committee member, and will conduct the drive in Munday through the schools and churches, and by personal contact.

New Tractor To Meet Needs Of Small Farmer

Denison—Designed specifically to meet the needs of the small farmer, the first Texas-made farm tractor will begin rolling off the assembly lines at the Jaques Power Saw Co. factory here this month.

The new tractor, named "The Mighty Mite," is the result of a thorough study of the equipment need of small farmers, particularly those farming less than 50 acres according to J. C. Jaques, senior partner.

Weighing approximately 600 pounds, "The Mighty Mite" is 5 and one half feet long, about 4 feet high and 4 feet wide. Powered by an air-cooled gasoline engine it can operate for an entire day on four gallons of gasoline.

"If we are to save the small farmer, industry must move quickly to meet his needs," Jacques pointed out. "Census figures show that in Texas alone the number of farms less than 100 acres in size dropped from 289,000 in 1930 to 215,000 in 1940—a drop of 74,000—and this trend is continuing.

"There are good reasons for it. Farm work has been too hard and the profits too low. Industry has helped the large farmer tremendously by the manufacture of equipment for his needs. As a result, while the number of small farms in Texas was decreasing, the number of large farms was increasing. "The Mighty Mite" is a step to-

ward helping the small farmer. It has three great advantages," Jacques said. "Number one. It can perform a multitude of tasks. No. 2. It is easy and economical to operate. No. 3. It is priced so the smallest farmer can afford it.

"We designed it to take the place of the two-horse team on the small farm." It can be operated for less than the cost of feeding work animals, and there is no feed bills when the tractor is not in use.

"Equipment such as 'Mighty Mite' will do more than anything to revive small farming and will enable the little fellow to keep his head above water."

Some of the uses for the new tractor are:

It can pull a plow or disc to prepare ground for planting.

It pulls a bulldozer blade or Fresno for building roads and terraces and for cleaning barnyards and corrals.

Developing a road speed of 15 miles per hour, it can haul a trailer to market or around the farm.

It will operate a power saw for cutting trees and clearing ground.

A posthole digger can be attached for building fences.

It has a power-take off so that it can be used as a stationary power plant.

Among other uses visualized by Jacques are:

Large landowners can now equip each of their tenants with his own set of farm implements.

People with large gardens or truck patches will find the tractor the answer to many of their farming needs.

Operators of airports and warehouses can use the tractor for pulling gang trailers, gang mowers and planes.

Although a new factory is being planned for the exclusive manufacture of "The Mighty Mite," the tractor will be made initially at the Jaques Denison plant, which also manufactures power saws, portable sawmills, posthole diggers, earth-boring machines, and other farm equipment.

LIVESTOCK SHIPMENTS

Austin—Texas livestock shipments took a downward turn in November after soaring in October with the removal of OPA control over meat prices, according to figures released by the Bureau of Business Research of the University of Texas.

The total 10,262 cars shipped were 17 per cent below October's 12,382 and were 13 per cent less than shipments made in November 1945.

Shipments of hogs showed the only increase over October, 62 per cent, and rose 133 per cent over November 1945. Shipments of cattle fell 15 per cent from October.

Miss Betty Golden, who spent the holidays with her parents, Mr. Oates Golden, has returned to Denton to resume her studies in T. S. C. W.
