Odd Bits Salvaged
At Random

(By Aaron Edgar)

Our subscribers are a wonderful "batch" of people. Just wonderful!

They've been responding wonderfully to our appeal, and J. A.'s, for them to come in and renew their subscriptions.

You see, we mailed out cards with our picture and J. A.'s picture on it, telling them we looked and found their paper had expired, or was about to expire. Boy! Those cards have been coming in from all corners of the county and lots of places in the state.

And we've had some compliments on the paper along with the deal, too. Take T. A. Walker, for instance. He came in Saturday and without any priming on our part just opened up and said it looked like we were trying to give service; he liked the paper and was gonna keep taking it.

He cited one of his relatives, who, he said, cast aside other papers he was taking until he had absorbed the Munday Times.

We catch so much criticism and so few compliments that our chest just swelled up like nobody's business!

Then Mrs. A. J. V. Johnson paid us her annual visit. She did not get one of our cards, but it was time for her to make that annual visit. It usually costs her between \$10 and \$12 to come in, but she enjoys it.

Before he passed away, Uncle Andy always came in and sent the paper to a number of his children, his brother, and some other relations. Mrs. Johnson is keeping up that good work.

Her eyesight is failing, but Mrs. Johnson is still pretty spry for her age. She knows her relatives, all of whom used to live here, enjoy the home town paper, and she enjoys sending it to them. We always have pleasant memories of this good woman's visit to the office.

John Terry set us back on our haunches for a spell. He called us aside at the post office, said he got a card and he was mad. Guessed he wouldn't read the paper any more.

He looked mad, and we thought he was mad. Then he starts in to explain. "You put J. A.'s name under his picture, and you put your hand over your face so we couldn't tell it was you," he says, "and I'm mad about it."

We apologized; John handed us two bucks and said keep it coming.

Later in the day, he came in with two bucks for his daughter, Mrs. W. B. Payne, and said he was still mad. Guess he got in a good humor, though. It was costing him too much to stay mad!

Henry Followell was in Monday with two "batwings". His boy, Dorman, was home from Texas Tech and found our card laying around.

"Go pay that subscription," Dorman says. "Let's not get J. A. riled up, because he's some character." So to appease the wrath of J. A., and to make us happy, Henry shelled out the kale.

Tug Nesbitt called on us for an enjoyable visit Saturday. Tug spent 30-some-odd years here, and it's still home to him, even though he's a Dallas boy, now. Tug left \$2.50 with us to signify he wants our publication another year.

"I see by your sheet that you were in Dallas for opening day of the fair," he says, and laughs at this country boy's experiences in the city. Tug said he'd learned to stay away from the fair on opening day.

Once a year may be too often for Elzo Moorman, over Goree way, to visit us. We just wouldn't know; anyway, Elzo "decorated" the mahogany with four bucks and said: "Set 'er up for two years."

New Aluminum Foil Now Being Used At Local Locker Plant

It looks like tin foil, but it isn't. It's aluminum foil, so they say, and it's the newest idea in wrapping foods for the frozen food locker.

This new foil paper has been put into use by the Munday Locker Plant, and J. C. Shockey, manager, believes it will prove very satisfactory.

It's calculated to keep frozen foods longer, in that deterioration will not penetrate into the package when paper becomes broken.

The new paper seals itself, in that it freezes to the foods, and does not require sealing with tape. Shockey says that, added to its other qualities, it is a great time saver at the plant.

E. J. Cude Added To Police Force

Announcement was made this week that E. J. Cude, former nightwatchman in Munday, has been added to the Munday police force during the fall months.

An addition to the force was thought necessary during the time many transient laborers were in this section, although the influx of transients has not contributed to lawlessness thus far.

Mr. Cude is serving on night duty, it was reported.

Vets School To Hear Discussion Of G. I. Insurance

Mr. George A. Sessums, Veterans Insurance Officer, will be in the Munday Elementary School Auditorium, Thursday night, at 7:30 P. M. to discuss G. I. Insurance. All veterans enrolled in the Vocational school will be present, and Mr. Sessums extends an invitation to every veteran in Knox County to attend.

Mr. and Mrs. Arthur Smith, Jr. and Mr. and Mrs. Travis Lee attended the fair in Dallas last week end and also attended to business matters.

Hugh Burnison Resting Well In Knox Hospital

Hugh Burnison, well known Knox county farmer who was shot last Saturday, is reported to be "resting well" in the Knox county hospital, with some improvement being shown in his condition.

Mr. Burnison was taken to the hospital Saturday night after he had been injured at about 7:30 p. m. by a .32 caliber bullet at his home in the Thorp community. The bullet pierced his spine, according to reports, resulting in paralysis of the lower extremities. Some doubt was expressed as to whether the wounded man would regain use of his lower limbs.

His daughter, Miss Louise Burnison, was released on \$3,000 bond Sunday, after she was charged with assault with intent to kill in connection with the shooting. The charges were filed in the court of Justice of the Peace John C. Rice. Sheriff Homer T. Melton stated that Miss Burnison waived examining trial.

Mogul-Bulldog Game Is Among Top In District

The mighty Stamford Bulldogs, yet undefeated in district play, will invade the Munday Mogul territory next Friday night for one of the top-notch games of District 11-A. The game is called for eight o'clock.

The Bulldogs are holding top position, along with Anson, in the district thus far, and they will be out to protect that standing.

The Moguls, defeated by both Throckmorton and Anson, will be waging a battle to hold their standing as high on the district ladder as possible.

Many of the Mogul team were reported sick the first of this week, and Coach Billy Cloud was faced with the problem of getting them back to health and into first class shape for the game Friday night.

The Munday-Stamford game has been an interesting one each season; it is expected to be a thriller for football fans. The largest crowd of the season is expected to be on hand for this battle.

Historical Exhibit Shows Texas Women for 60 Years

With controversy raging over women's current fashions, an historical exhibit to show how Texas women have looked for the last 60 years has been assembled at the Hall of State, in Dallas, for the State Fair and to continue through the winter. A gift of 12 miniature figures, in exact reproductions of Texas fashions since 1887, were presented by Arthur L. Kramer, left, Dallas civic leader, to Dr. Herbert Gambrell, right, director of the Dallas Historical Society. They are seen above with two of the figures. The miniatures, made in collaboration with the costume wing of the Metropolitan Museum of Art in New York, cover the fads of the wasp waist, the bustle, the Gibson Girl, hobble skirt, rising skirts after World War I, the curveless flapper, the depression's ankle-length skirts, and the modern 1947 cocktail dress.

Shockey Attends Meeting of Frozen Foods Association

J. C. Shockey of the Munday Locker Plant returned home Sunday after attending the Texas Frozen Food Locker Association meeting in Fort Worth on October 16, 17 and 18. Mr. Shockey said the meeting was well attended by representatives from all over the state. Over 200 locker plants were represented at the educational conclave, which took place at the Blackstone Hotel.

Highlighting the conference were sessions headed by such well-known refrigeration, frozen food and locker experts as E. C. Spencer, national president of the association; Frank Miles, editor of the National Frozen Food Magazine, and Walter Cassey of Beaumont.

These men brought through discussions on maintaining high standards of quality foods through advanced methods and techniques, ways to increase services and to improve facilities in processing foods.

Attendance At State Fair Sets A New Record

Dallas—Texans have something new to brag about this week, as their State Fair of Texas set a new all-time high attendance record. When the gates swung shut Sunday midnight on the 62nd anniversary show, count showed that 1,763,921 persons had been to the Fair during its 16-day run.

This is 123,935 more visitors than attended the 1946 Fair which itself broke all previous records.

The new record upholds Texas' claim to having the world's biggest state fair. Biggest single day was the middle Sunday, Oct. 12, when 221,320 visitors swarmed over the 187-acre grounds and through the mammoth exhibit halls. Attendance went past the 100,000 mark on eight out of the 16 days of the Fair.

Simultaneously with the close of the 1947 season, R. L. Thornton, president of the big statewide institution, announced that the Fair would take bids immediately on Automobile, Aviation and Reconstruction of a new \$700,000 creation Building, to be ready for next year's Fair.

HAS OPERATION

R. L. Ratliff, co-owner and operator of the Munday Livestock Commission Co., submitted to a major operation at a Dallas hospital last Tuesday. Reports coming from the hospital are to the effect that he is resting nicely. Mrs. Ratliff is at his bedside.

Rule Plans For Two-Day Event Armistice Day

Plans are complete for a two day Armistice Day celebration in Rule November 10 and 11, according to Dpn W. Davis, commander of the Hager-Weaver post of the American Legion.

The tenth annual celebration will be opened at 2:00 p. m. Monday with horse races. Several have already entered the event, according to Jim Cross, chairman. To close the day will be the dance at the Legion Hut. The dance floor has been enlarged, and every needed repair has been made to add to the comfort of the guests of the evening. Jack Free and his orchestra will furnish the music. November 11, the main day of the event, will be opened with the Old Fiddler's contest 9:00 a. m. followed by the pet parade at 10:30. The main parade will be at 11. This was a colorful event last year and promises to be even better this year, as the business men are already making plans for their floats in the parade. The barbecue lunch will start at 11:30 and continue thru 1:30.

The highlight of the day will be the game between Rochester and Rule. Ten thousand football fans witnessed this game last year. To close the day and the celebration will be two Big Dances, one in the school gym. Played by Jack Free and his orchestra and the Hillbilly dance at the Legion Hut.

Football Boys Of Goree Are Honored At Steak Dinner

Mr. and Mrs. Buster Coffman were host to the football boys, Saturday evening at the cafe with a steak dinner honoring them for their good playing and splendid sportsmanship they displayed when they defeated the Benjamin team Friday night with a score of 20 to 18.

Those present besides the ball team were coach Carver and Mrs. Carver, Miss Carol Coffman and the host, Mr. and Mrs. Buster Coffman.

Mack Didn't Get A Good Workout

The fire alarm sounded just after dark Saturday. The populace of Munday made a rush toward town, thinking they'd get to see "Mack" the new fire truck in a real, honest-to-goodness workout.

Mack came out of his stall, but he didn't have to go but a few yards after reaching the street. An automobile had caught fire on the corner of the square, and the blaze was soon extinguished by means of Mack's booster tank. Mack went back into his stall to resume his vigil.

Mr. and Mrs. Bill Brown of Abilene visited with relatives here last Saturday. Mrs. Brown remained until Monday for a longer visit with her mother, Mrs. Joe Mae Davis.

Moguls Romp On Haskell 27-12 Friday Night

The Moguls got their hard-driving tactics back for a while last Friday night, as they smashed their way to four first-half touchdowns to take an easy 27-12 victory from the fighting Haskell Indians. The game was played on the local field.

Clifton Swain, fullback, climaxed a 60-yard drive in the first quarter by going through the center of the line for the remaining three yards and a touchdown. Billy Bouldin converted by smashing through tackle.

In the second period the Moguls put on the steam and resumed more their 1946 form, as they chalked up three more counters to close the half with a 27-0 score. Bouldin tossed 29 yards to Swain to set up the second score, then he drove off tackle across the goal line. Bouldin then passed to Haynie for the extra point.

A short time later, Swain smashed through the line on a quick opening play, averted the secondary and raced 53 yards for the third score.

The fourth counter came just before the end of the first half, when Bouldin passed to Montgomery for 20 yards and Munday's final touchdown. Bouldin circled right end for the extra point.

The Haskell Indians drove 60 yards in the third period, with Dodson carrying four yards for their first counter. On the second play of the fourth stanza, Strain broke loose and raced for 60 yards for the final touchdown. The Indians failed at both conversion tries.

Munday made a goalward drive in the fourth period, with Swain hitting the line in an attempt to cross the goal. He fumbles on the goal line, and the ball rolled out into the end zone for a touchdown.

The lineups were as follows: Munday: Montgomery, left end; Moore, left tackle; Smith, left guard; Lowrance, center; Yarbrough, right guard; Scott, right tackle; Haynie, right end; Bouldin, quarter; Baker, left half; Waheed, right half, and Swain fullback.

Haskell: Lusk, left end; Trice, left tackle; Matthews, left guard; B. Smith, center; Alvis, right guard; Turner, right tackle; Fritz, right end; Dodson, quarter; Foster, left half; Strain, right half; Bill Smith, fullback.

Wichita Falls Shriners Give Program Here

A group of Shriners and their wives of Wichita Falls, headed by Dick Lindsey, Chief Rabban of Maskat Temple, gave a very enjoyable program last Monday night at the Munday school gymnasium.

The program opened with an enjoyable feed at the lunch room, being served by the ladies of the lunch room. The group then assembled in the gymnasium for the program.

Mr. Lindsey gave a brief report of the work the Shrine is doing. Chiefly among the accomplishments mentioned was the support of crippled children's hospitals throughout the nation. Enjoyable talks were made by other members of Maskat Temple.

A very enjoyable musical program was given, consisting of vocal solos and duets, featuring some very talented singers of Wichita Falls. At the close of the program, motion pictures were shown of the last Shrine ceremonial in Wichita Falls and of the Shrine convention in Atlantic City, N. J.

W. B. Farley Opens Car Upholstery Shop

Announcement was made Monday that W. B. Farley, formerly of Crowell, has opened a car upholstery shop in Munday, being located on the highway south of Jewell's Courts.

Mr. Farley is experienced in car upholstery work, and says he will specialize in general car upholstery and making seat covers to order. He invites the patronage of motorists of this area.

The Boy Scout Troop at the Texas Scottish Rite Hospital for Crippled Children in Dallas, maintained by voluntary financial aid, gets a lesson in knot tying from Ned Fritz, chairman of the Youth Welfare Committee of the Junior Chamber of Commerce, sponsor of the scout troop composed entirely of hospital patients. The boys take their scouting seriously despite their illness.

WAGES AND RETAILING

Dr. Paul H. Nystrom, who is both Professor of Marketing at Columbia University and Chairman of the Limited Price Variety Stores Association, recently presented an exhaustive statement on retail prices to a Congressional Joint Committee. In one section he touched on the influence of the rising costs of wages and salaries in the retail field. Since 1939, average hourly wage rates have more than doubled. In the variety stores, which are fairly typical of retail business in general, wages amount to more than half of the total cost of operation. Every wage increase of 10 per cent increases the total expense rate by more than 5 per cent. As Dr. Nystrom says, "There is no way in which the trade as a whole can meet such increases except by increases in the gross margins that make up a part of the prices that the consuming public must pay."

That is how wage rates affect retailing. Their influence on the costs of manufacturing should also be thoroughly realized by this time. The old theory that we could have ever-increasing wages and static prices has been exploded. Every major wage increase, of necessity, has sent prices another notch higher.

Worst of all, the productivity of labor—in both manufacturing and retailing—has been generally lower than before the war, despite the record wages and the demand for still more increases. That is where labor defeats itself. When workers fail to put out a good day's work, prices go higher than would otherwise be the case—and the dollar buys less. We must have maximum production per man, in every line of industry and trade, if we are to maintain high wages and, at the same time, keep prices from getting out of hand.

IMPERIALISM IN REVERSE

One of the favorite habits of the left wing is to denounce American capital as imperialistic. When American companies go abroad to develop untouched material resources in foreign countries, the old argument runs, their purpose is to exploit and enslave people.

The truth differs enormously from such pronouncements. The world is watching an excellent example of that today in the Middle East where American money, engineers, and executive genius are bringing into production some of the greatest oil fields on earth. Before the Americans came, very little had been done to make use of this resource. And when the Americans did come, at the invitation of the reigning monarch, they did a great deal more than merely get the oil out and make as much profit as possible. They signed a contract with the Arabian government which has given the country an unprecedented prosperity. They established experimental farms, to show native peoples better methods of agriculture than they

THE HEALTH QUESTION

In one of his recent speeches, Senator Taft touched on the problem of medical care. He emphasized his complete opposition to socialization of medicine, and to government insurance schemes which would profess to give "free" medical care to all the people. He then said that a percentage of the people are unable to pay for the service they need, and that here the government should fill the gap by appropriating funds to help state and county bodies meet the bills of the indigent.

This is an intelligent approach to the health question, and a bill incorporating Mr. Taft's proposals is scheduled for consideration by the next Congress. There is no reason on earth why all the taxpayers should contribute billions a year to provide medical service for the majority of people, who are perfectly able to pay for it either in the traditional manner or through membership in one of the voluntary prepaid medical care plans. The mere administration of so grandiose a scheme would require the creation of an enormous bureaucracy, would make the pay and promotion of doctors a political matter, and would be a long step toward socialized medicine.

The use of Federal funds, locally administered, to assist those who cannot even afford to join the inexpensive plans is an entirely different matter. It fits in with modern concepts of the responsibilities of the government. It would in no way regiment doctors or encourage socialization of the profession. And it would properly solve one of the last remaining major medical care problems we have.

had ever known. They established modern clinics, and instructed native doctors in modern preventive and curative medicine. They built roads and communities. In short, they brought a large measure of civilization with them.

American enterprise knows that it must give as well as take—that sides to a bargain must get their fair share of the benefits and the profits. American industry abroad is raising living standards wherever it goes.

Trash, papers, ice cream containers, etc., on the city lawn of Munday on Monday morning pretty much resembles the State Fair grounds after a big day of celebration. But the fair has clean-up crews to make the grounds neat for the next day's visitors.

Milk cows are creatures of habit. Proper handling of cows on a regular schedule is the essence of good dairy management.

The use of sheds or protective enclosures this winter is a good way to avoid weather diseases in livestock.

Helps Save Daily Slice of Bread

American housewives can take a conservation tip from Gloria Whalen, popular Walter Thornton pin-up model, who carefully recloses the waxed paper wrapper on a loaf of bread immediately after preparing her "between exercise" snack. Reclosing protects the freshness of the loaf, prevents waste, and lends support to President Truman's "Save Food for Europe" program. One slice of bread saved by each housewife, says the U. S. Department of Agriculture, means a national saving of one million pounds of bread daily.

Frank Knapp was in with a \$20 bill, but we couldn't get but \$2.00 of it. Frank said he needed the rest of it in his business. Don't we all?

Among our Benjamin callers was A. H. Sams, who came in Saturday. He's always on the dot, or

several days ahead of time, as was the case this time.

He was followed closely by W. J. Tidwell of Goree, who offered an apology because he couldn't think to renew up when he was in town.

Many more came in, but this column is full, already. Many sent their renewals by mail, and that's good, too.

Anyway, you've helped us pay our note this month, but there's another one due next month, so just keep coming in and shelling out.

Happiness is rampant with us when you're as nice to us as you were all last week. Thanks a heap!

HERE FROM GREENVILLE

Mrs. W. G. Norton of Greenville came in last Thursday night for a visit with her son and daughter-in-law, Mr. and Mrs. Joe B. Norton, and with her little grandson, Gary Wayne. Mrs. Norton spent the first of this week in Wichita Falls, visiting her brother, B. M. Dinamore, superintendent of schools in Wichita county.

Mrs. Mae Stewart of Weinert was a business visitor in Munday last Monday.

Mr. and Mrs. B. H. Smith and little daughter, Zelma, of Crowell visited with Dr. and Mrs. O. E. Dickinson last Sunday.

J. C. Campbell spent the first of this week in Dallas, attending the markets to buy merchandise for the Campbell Variety Store.

"Take Pen in Hand"

This column has been running for so long that its readers, in towns like ours all over the country, are beginning to "take pen in hand" and write us what they think.

Some of them take me over the coals for what I say—like the column I ran on planting alfalfa. Others write, "I liked your column yesterday, but . . ." All of them have different points of view.

From where I sit, that's the way it should be. Everybody's entitled to an opinion—and it's those very differences, and friendly criticism,

that make for tolerance and better understanding—whether it's ideas on planting alfalfa or choosing between beer and cider.

The more folks air their differences right out in public, with a neighborly respect for the other person's liberties and point of view, the closer we are to the American principle of individual freedom—whether it's in a choice of crops or beverages.

ADVERTISEMENT FOR BIDS

Sealed proposals will be received by the County Commissioners of Knox County, Texas, in the office of Will Griffith, County Judge, Benjamin, Texas, until 2:00 p. m., Thursday, October 30, 1947.

At which time and place all of the proposals then received will be publicly opened and read aloud. Any bid received after the hour named hereinabove will be returned unopened.

The work to be done consists of the construction of a one story addition to Knox County Hospital at Knox City, Texas, and certain alterations to existing building as shown on the drawings and specifications prepared by Wilson and Patterson, Architects. Separate proposals will be received for general construction, plumbing and heating, electrical work, and furniture and equipment.

Copies of the drawings, specifications and other proposed Contract Documents are on file and may be seen at the offices of the Architect, 209 Majestic Building, Fort Worth, Texas. One (1) set of such documents may be obtained upon deposit of Twenty-Five (\$25.00) Dollars, which deposit

will be refunded to each actual bidder upon return of such documents in good condition within three (3) days after the bid opening. Additional sets may be obtained upon similar deposits, but the cost of reproduction of the set will be deducted from the refund. Similar deduction will be made from the deposit of other than bidders.

Proposals may not be withdrawn for a period of thirty (30) days from and after the time established for opening bids. Each proposal, to be eligible for consideration, must be accompanied by a certified check or Bidder's Bond, in the amount of five (5%) per cent of the total amount of the respective proposal, to insure the Owners against loss occasioned by the bidder's failure to execute a contract, if awarded, or to furnish satisfactory Contract Surety.

The right is reserved, as the interests of the Owner may require, to accept any or reject all proposals, or to over-look any irregularities or informalities in any proposals received.

Knox Prairie Philosopher Turns From International Situation To The Problem Of Milk Cow At Home

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek pretends to be wanting our advice in his letter this week, but publishing his letters is enough without giving him advice too.

Dear editor:

I know what with big international problems confrontin the world it ain't no time to be discussin small affairs and the individual is supposed to be swallowed up in the gulf of world-wide situations or somethin along that line, but try as I will I can't help but give some of my thought to my own affairs out here on Miller Creek, and I understand even the President takes time off occasionally from global affairs to think of personal things like votes.

At anyrate, I would like to have your opinion on the cattle market, as I figure your opinion on the cattle market is worth as much as your opinion on the cotton market or the United Nations or who caused high prices.

I have a Jersey cow out here which I reckon I ought to sell, at least she's about stopped givin milk and don't seem to get the same nourishment she needs to out of Johnson grass hay, but I can't make up my mind whether it would be economically sound to do it. Should I sell her now while prices is high, or hold on to her until the next war when things may be even higher?

As I see it, any farm ought to have at least one cow, but changin cows is a serious undertakin. You take mine, she has sort of gotten used to the place in the last ten or eleven years, knows my fences as good as I do, in fact I say fence but in some places it's only a single strand of bobwire, in some places not even bobwire, just a piece of balin wire, and in some places just a hint of a fence, but my cow has sort of given up ambition, greener pastures don't appeal to her much no more, and while I don't get much use out of her it's a big satisfaction to know I can depend on her to stay at home. A new cow would give more milk, but wouldn't stay at home and by the time I got through spendin money on new fences and payin damages to my neighbors for tramped up gardens and corn fields, there wouldn't be no profit in it. If you was me, would you sell? Is it better to have more milk and more worry, or less milk and no worry?

Yours faithfully,
J. A.

Elvis Hutchinson, Miss Thompson Are Married Sunday

The marriage of Miss Mauvooren Thompson, daughter of Mr. and Mrs. T. L. Thompson of Munday, and Elvis Hutchinson, son of Mr. and Mrs. Salem Hutchinson of Knox City, was solemnized Sunday afternoon at three o'clock in the home of the bride's parents, Rev. Don R. Davidson, pastor of the Munday Methodist church, officiated.

Double ring wedding vows were read as the couple stood before an archway of greenery, accented with baskets of roses. Mrs. H. E. Thompson of Seymour, sister-in-law of the bride, lighted the candles. A record player furnished the traditional wedding music for the ceremony.

The bride wore a brown wool suit with brown accessories and a white feather hat. She carried a white Bible topped with pink rose buds and showered with maline and satin ribbons. For something old she wore a gold bracelet worn by her mother at her wedding. Something borrowed was a white linen handkerchief.

Billie Fern Thompson served as her sister's attendant. She wore a gray wool suit with brown accessories and a corsage of white carnations.

Earl Hutchinson, brother of the groom, served as best man.

At the wedding reception, the table was laid with a lace cloth centered with a four tiered wedding cake surrounded with fern. Mrs. Bill Glover of Seymour, sister of the groom, cut the cake and Mrs. J. C. Mills of Abernathy, sister of the bride, poured the punch.

Mrs. Hutchinson is a graduate of Munday high school and recently has been employed in the Richmond Jewelry store. Mr. Hutchinson is a graduate of Knox City high school. For two years, he served in the Navy and has been farming since receiving his discharge.

After a short wedding trip, the couple will be at home in Knox City.

BOYCE HOUSE
"Gives You Texas"
Upon what little things, great achievements sometimes depend. Many years ago, there came to the mining rush town of Virginia City, the famous humorist of the day—Artemus Ward. After the lecture that night, Ward and several newspapermen did a little celebrating which climaxed with Ward and a young and obscure reporter walking over the roof-tops in the business district. They were almost fired upon as burglars. The reporter was Mark Twain.
Did you ever hear the "rebel yell"? I, Hardin, secretary of the Kentucky Historical Society, wrote your columnist, asking for assistance in preserving the battle-cry

of the Confederacy for posterity. The distinction of being the youngest member of the Chamber of Commerce goes to Vanessa Sharpl B. Ryan, one day old. Her father Vance Bryan, a former Texan, is owner of the luxurious Jack Tar Courts in Hot Springs, Ark.—Neal Estes, Carthage editor, stops his car at all railroad crossings. "I said that he once drove across a brother, an attorney remarked, "on after a train had passed and it's true that one train went by just a little bit ago but the railroad owns the line and it reserves the right to run a train every minute."
And that reminds me of the story of the young ranchman who was strolling along with a pretty girl when they saw a calf on one side of a fence thrust its head through the fence and rub its nose against its mother's face, in the adjoining pasture. The rancher sighed romantically and said, "I wish I could do that." The girl said, "Well why don't you?" It's your cow, isn't it?

Fire In Cotton Does Damage To 90,894 Bales

The boll weevil is a deadly enemy of the cotton industry, each year consuming millions of dollars worth of cotton, and is consequently the object of a mighty battle on the part of the farmers.

But another deadly enemy who gets only a fraction of the industry's attention compared with the weevil, is the "fire-packed" bale, according to John H. Todd, spokesman for the National Cotton Compress and Cotton Warehouse Association.

The "fire-packed" bale is one in which a spark or bit of fire is accidentally encased in the gin.

In the 1946-46 season, 90,894 bales of cotton were damaged by fire. At today's prices, that would be more than 14 million dollars worth of cotton. This staggering loss brought about a drive throughout the cotton belt to fight cotton fires and particular emphasis was placed on the "fire-packed" bale. Results of the drive were reflected in the fine record of the 1946-47 season, when in the first half of the season the number of cotton fires were reduced by 40 per cent and the total number of bales involved in fires by 79 per cent.

Records of the Cotton Warehouse Inspection Service show that for the most recent period studied (the first half of the 1946-47 season), 47 per cent of all cotton fires were definitely caused by "fire-packed" bales. On top of this it is believed that the majority of the 39 per cent of cotton fires attributed to "unknown causes" also resulted from fire packed bales.

It is reasonably believed that approximately 87 per cent of all cotton fires occurring during the first half of the 1946-47 season were

attributed to "fire-packed" bales, Mr. Todd stated.

Again this year the drive is being pushed against cotton fires by the Compress-Warehouse Association, the National Cotton Council, the National Cotton Ginners Association, the Cotton Warehouse Inspection Service, and the U. S. D. A.

The "fire-packed" bale is the scourge that the industry must choke out, Mr. Todd declared, and urged that all ginners either segregated bales suspected of being "fire-packed" for 48 to 72 hours or notify the warehouseman of each bale that is suspected in order that the warehouseman may segregate it.

One fire-packed bale endangers thousands of other bales if not segregated, Mr. Todd emphasized. "If we are to maintain the fine record of last season again this

year," he added, "and save the industry many millions of dollars in fire losses, we must all pull together to stamp out the largely preventable 'fire-packed' bale."

Miss Helen Haymes, O. H. Spann, Jr., and Wayne Rodgers, of McMurry College visited last week end with their parents, Mr. and Mrs. Lee Haymes, Mr. and Mrs. O. H. Spann, Sr., and Mr. and Mrs. Walter Rodgers.

Good Wheat Pays Profits

Charles Sheldon, Panhandle wheat farmer, went to Ft. Worth to sell wheat of his Moore county farm and came home with a story which County Agent J. B. Waide, Jr., thinks every Texas grower ought to hear.

The story gives a good answer to the question; why plant high quality wheat seed?

Sheldon, contacting a big Ft. Worth mill, was told by the manager that the mill wasn't too interested in buying Moore county wheat. It seems that there were several carloads of wheat in the railroad yard at the time, all of it from a county near Moore, but none of the millers would bid on it because of its poor-baking quality.

The manager then took Sheldon through a laboratory where the mill had installed a considerable and costly amount of equipment recently. In order to meet competition, the manager said, the mill had run baking tests on each car of wheat to see that the quality was good enough to use in making domestic flour. The company also had wheat experts who were able to identify different wheat varieties and who were training elevator operators in grain identification. Sheldon was told that poor quality wheat was always detected and that the only outlet for it was the export trade. The company had its own figures on Moore county, and the manager told Sheldon that 15 percent of the wheat in his county was of poor-milling quality.

Fortunately, says County Agent Waide, Sheldon's wheat was not among the 15 percent, and he got a good price for it.

BENJAMIN NEWS

140 Million Capitalists

By GEORGE S. BENSON
President of Harding College
Searcy, Arkansas

"SOAK THE RICH" used to be quite a popular slogan in some quarters. Whether the same words are used today, the same idea still appeals to a large number of people. The plan put forward by these folks boils down to one main issue: limit the incomes of citizens in the high brackets and divide it among the other people. By putting more money in the hands of more people, they hope to attain a greater prosperity.

However, this economic Utopia theory runs afoul of economic fact and economic law. Its basic platform is hinged on the idea that most of the nation's money is held by a comparative few. A greater misconception is hardly possible. In the light of sound reasoning and cold statistics, the absurdity of this notion is obvious. No other civilization has seen a more equitable distribution of wealth among its peoples.

All Are FOR EXAMPLE, a Sharing tabulation of income tax returns for 1942 shows the full impact of the results of our American system. In that year the group of individuals receiving income of less than \$5,000 annually, representing 96% of the country's population, paid 47% of all federal personal income taxes. This, too, is the group which since 1931 has averaged at least 88% of the nation's annual income.

In comparison, some 1,321,000 people reported incomes in excess of \$5,000 during the same year. This group — approximately 4% of the population — paid 53% of all federal personal income taxes.

In the above-\$5,000 group, only 22.3% of their income came from interest, dividends, rents, royalties and fiduciaries. This is a far cry from the well worn "coupon clippers" line of attack of radical planners.

Soak Whom? CURIOUSLY enough, the lower income groups are far from being the underdog in distribution of income from these sources. The above-\$5,000 group was responsible for 37% of all income from interest, dividends, and fiduciary income, while the below-\$5,000 group pocketed 63% of the income from the same sources. The lower income groups have a large stake in the nation's business and industry.

If these planners could limit the incomes of all individuals to \$10,000 before taxes and other fixed charges, some \$5.2 billion would be available for distribution to the lesser income people. Representing little more than 4% of the national income, it would amount to only \$40 per capita. Provided, of course, that there had been no economic or financial loss in the process of redistribution.

This would be a costly price to pay for the destruction of incentive, which would inevitably follow. Most "venture" capital would disappear. Since this is the source of all industrial progress, the immediate and certain result would be a breaking down of the national economy, a reduction of national income and of individual income. Freedom of the individual and his unlimited incentive for gain are dependent on each other. This way, everyone benefits.

"And I don't mean electric light bill, either. It's a service bill today!"

- Because lights are only a small part of it. It's a cooking bill and a cleaning bill, a heating bill and a cooling bill, and a hot-water bill, as well. It covers food preservation and entertainment, washing and ironing, and sewing and a lot of other things besides. It's the biggest bargain in your family budget. When the cost of practically every thing else has gone UP, the price of your electric service has stayed modestly LOW. You are now getting twice as much electricity for your budget dollar as you did 20 years ago—electricity is doing many, many more jobs than it did then.

Veterans News

Nearly 65,000 World War II veterans in Texas, Louisiana and Mississippi reinstated lapsed National Service Life Insurance policies worth \$450,000,000 during the past eight months under the liberal provisions still in effect, the Veterans Administration announced.

Reinstatements in the tri-state area administered by VA's Dallas Branch Office were part of 900,000 reinstatements worth five-and-a-half billion dollars for the entire nation during this period.

Holders of lapsed term policies who have not yet reinstated have only a little more than two months in which to do so under the plan now available, VA said.

Until January 1, 1948, such veterans need only fill out a three-question application form and pay two monthly premiums, one for the 31-grace period during which

the insurance was continued without payment, and the other for the current month.

Beginning next January 1, veterans with policies which have been lapsed more than three months will be required to take a physical examination and qualify as insurable risks.

Term policies issued prior to January 1, 1946, may be continued on that basis up to eight years from date of issuance. For policies taken out after that date, the term period is five years.

These policies may be converted to any of the six permanent plans available at any time before expiration of the term. They are ordinary life, 20-payment life, 30-payment life, 20-year endowment, endowment at age 60, and endowment at age 65.

Veterans with souvenir firearms and explosives such as grenades, live shells and the like have been urged by the Commissioner of Internal Revenue to have them made unserviceable in order to protect both their own lives and the lives of their families.

Full information on how and where weapons and explosives may be deactivated can be obtained from the Alcohol Tax Unit, Bureau of Internal Revenue, New Orleans, Louisiana.

Questions and Answers
Q. What books and equipment does Veterans Administration supply or pay for while a veteran is taking education or training under the G-I Bill?
A. VA pays for all books and equipment that the school requires of all students in the same course.

Named to Head March of Dimes

George D. Wilson

Appointment of George D. Wilson, Houston businessman and civic leader, as Texas State Chairman for the 1948 March of Dimes was announced today by Basil O'Connor, president of the National Foundation for Infantile Paralysis.

The 1948 campaign to be held Jan. 15-30, will mark the tenth anniversary of the National Foundation, established by Franklin D. Roosevelt to "lead, direct and unify" the fight against infantile paralysis. The March of Dimes each January is the sole support of the National Foundation.

Mr. Wilson formerly headed the trustees of the University of Houston, the Houston Board of Education and the Junior Chamber of Commerce. He has been active in the American Red Cross and served on the Presiding Bishop's Committee on Laymen's Work of the Protestant Episcopal Church. He was 1947 March of Dimes chairman for Texas.

In announcing that Mr. Wilson had accepted the state chairmanship, Mr. O'Connor revealed that since 1942 infantile paralysis has taken a tragic toll, with more than 72,000 Americans having been stricken.

"Thousands," he warned, "continue to face a long fight for recovery. This summer, fortunately, we had a 'breathing spell' as polio incidence nationally did not approach the awful total of 1946.

"The cost of the 1946 epidemic alone will run to some \$30,000,000, without taking into account the large sums necessary to care for those stricken this summer. We do not know what 1948 may bring, but we must be prepared."

better future for me?

A. Yes. You may change your course providing you have VA's permission to do so. If the facts in your case indicate that a change will be to your interest, VA will grant authorization for the change.

Q. Is out-patient treatment available to a veteran with a non-service-connected disability?
A. No.

Q. I was a member of the Waac but did not continue in the service when it became the WAC. Am I entitled to hospitalization in a Veterans Administration Hospital?
A. Yes, if you meet eligibility

requirements.

Q. I work in the day and would like to know if I may enroll in a night school or take a part-time course under the G-I Bill?
A. Yes.

Lone Star Folks are Working...

You hear and read a lot these days about this troubled world. Some believe that the end is near. Some labor-management strife continues in the news, some prices, judged by pre-war levels, are high, and it must be true that we have a fifth column actively at work to change our form of government. The foreign situation is exasperating. From one point of view, things generally are in a state of confusion, and to some, disaster looms ahead.

But here in Texas and Oklahoma, where Lone Star furnishes gas service to homes and industry, most folks are living well, having babies, going to church, improving their homes, educating their children, and turning in a good day's work for a good day's pay. These people have faith in themselves, in their country, and in their communities. They are willing to work. They know that in America a man can still be what he wants to be.

Self Reliance and Hard Work made our country. Self Reliance and Hard Work will keep us free!

Busiest seasons for Lone Star folks—more than 4,000 men and women—are summer and early fall when we're working to get the system ready to meet winter's peak demand.

Call Loafers And Save Grain As Conservation

Charles Lackman, Head of President Truman's Food Committee, appointed to conserve and save food in this country and thus establish a surplus of food to send Europe, has turned his pleas this week toward poultry raisers.

Lackman received promises from grain distillers and bakeries, and advocated for a while poultry-less Thursdays. The latter drew quite a barrage from many of the experts, however, who claimed that the poultry continued to gorge precious grain worth more than the saved meat.

The latest and most practical solution, at least as far as Knox County is concerned, is the saving of grain through the culling of "boarder" hens. Many poultry raisers have not been culling their flocks close the past few years. A recent participant in this food and grain saving plan was Clarence Woodward, Benjamin Grain Elevator Operator, Mr. Woodward had a flock of 65 hens, and was only receiving a few eggs per day. Recognizing the fact that he had a bunch of "boarders" on his hands, Mr. Woodward called the County Agent to assist him in culling them out. Thirty nine non-

layers were sent on their way to help starving Europe. Twenty six layers were kept. Woodward, who believes in the old adage "That if you take care of your pennies the dollars will take care of themselves," states that he is feeding less than half the amount of feed now and is not missing an egg since culling.

Universal culling throughout Knox County, but would help feed the nation and save much needed grain.

Charts on culling and other information on poultry may be obtained from J. M. Carpenter, County Agent.

Miss Albus was feature editor of the Briar Cliff Courier, student newspaper, last year.

Vegetables Canned For 'Adopted' Family

There have been many stories of the adoption of destitute European families by Americans. But here is a story of the adoption of a Texas family by a Texas group. When a tornado hit, the little destruction was equal to any town of Higgins last spring, the "blitz." Assistance for the stricken town poured in from all over the country.

Members of the Rehm Home Demonstration Club in Hartley county knew that it would take time for family life to recover from the loss of home and property. So they decided to "adopt" a Higgins family.

The ladies of the club met together last month and canned 100 quarts of corn and 39 quarts of green beans to be delivered to their adopted family, a concrete example of the kind of help they are giving.

The project has been very popular with every one in the community, Norma Lee Lantz, county home demonstration agent, says, and other clubs in the county are adopting families, too.

Mr. and Mrs. Derald Gray attended the wedding of Wilfred Bellinghausen and Junita Matthews at Rhineland last Tuesday. Mrs. Bellinghausen is formerly of California. She and Mrs. Gray were classmates at Texas Technological College at Lubbock.
