(By Aaron Edgar)

"Pigs is pigs," so a writer said once, and predictions is predictions. Wade Mahan, the Roger Babson of Munday, has come up with a few predictions that we thought worthy of filling this "colyum" this week. Here they are:

(By Wade T. Mahan)

Economically, politically, athletically (that's a good word), and socially, I predict the following for the year 1948.

The long awaited paving program for the streets of Munday will be completed.

You will get that note paid I have to think up some new gag for pulling our legs for our subscriptions.

There will be less wheat harvested in this area than in 1947, but more cotton ginned and more hulls burned for the benefit of hay fever fans.

By the years-end used cars will sell for less than new ones of the same make. Won't that be suppin'?

There will not be as many new business buildings built in Munday as in 1947, but residential construction will continue at the present pace.

Deposits in the First National Bank will remain above \$3,000,000.00 throughout 1948, but my account will be overdrawn on December 31st.

C. R. Elliott will continue to carry more weight around town than any other business man.

Winston Blacklock will win the City golf championship for the second consecutive year and will reach the finals in the Tri-county tourney at Haskell.

The Munday Moguls will be starting from scratch and if voted into a Class A district will not win more than one conference game in '48. They might win three if they play in class B. The town should support them if they do not win any.

Billy Boudin will begin a college career that will be more outstanding athletically (theres that word again) than that of any Mogul of recent years.

There are two or three other members of this year's squad who have the physical ability to do likewise.

There will be 108 deaths in Knox County, only 14 of which will occur in the city limits of Munday. 37 will be buried in Johnson Cemetery. One of the 108 will be from a plane crash, three from automobile accidents. Two will be suicides and one murder.

Speaking of Johnson Cemetery, it will continue to be the best kept small town cemetery in this section throughout '48. John Reneau, R. L. Ratliff and other members of the Cemetery Ass'n. should be commended for a service well rendered—but they probably won't be.

The proposed new Methodist Church building will be completed and paid for during the year.

I predict that anyone you find here or elsewhere in 1948 who still has both his tonsils and appendix is either very young or is a Doctor.

Some golfer will make a hole-in-one at the Munday golf course in '48—more than likely some duffer about Travis Lee's speed who can't break a hundred, and he will probably do it on hole number 9.

Aaron will learn who rented the new C. L. Mayes building early in 1948.

The best food served in Knox County in '48 will be found at the annual Thanksgiving dinner served by the good people of Rhineland, an event I predict will be (Continued on Page Three)

Munday Library Gets New Books By Donations

A number of new books have been donated to the Munday Public Library recently, and their addition to the shelves gives the public a larged variety of reading material.

Mrs. Helen McClure, the former Helen Smith of Munday, has donated several novels in addition to the following books:

Human Destiny by Leconte de Novy, Vespers In Vienna by Bruce Marshall, 70 Miles From a Lemon, by Haydie Yates; The Side of the Angels, by Robert McLaughlin; Give Us Our Dream, by Arthursmoe Goertz; The Story of Mrs. Murphy, by Natalie Anderson Scott; Singing Waters, by Ann Bridge; B. F.'s Daughter, by John P. Marguard, and Mrs. Mike, by Benedict and Nancy Freedman.

Mrs. Fred Broach has also donated to the library, House Divided, by Ames Williams.

Book of the Month

"Gus The Great," by G. W. Duncan, a book of the month, is a recent addition to the shelf of novels.

This is primarily the story of a circus and one so true and so complete as to make it the last word in our long shelf of circel fiction. At the same time, in its three-ring frame, with something doing in every ring every minute, it contrives to tell the tale of the rise and decline, the loves and ambitions, that had made up the life of the typical American town from which this circus started. In its broader, it is a tale of the manners, the weakness, and the strength of our American way of life, as it bloomed in the earlier part of this century under the older free enterprise system. And a circus, with its crises of boom and bust, its moments of dubious moral compromise, and its occasional bursts of sacrifice—the show must go on, you know, and the rubes aren't going to stop it—is not a bad vehicle with which to explain certain American prophecies.

Roger Babson Gives Business And Financial Outlook For 1948

By Roger W. Babson

1. 1948 will be, more or less, of a duplicate of 1947. Certainly there will be no "depression" as so many pessimists are talking about, but fundamental conditions will become increasingly less favorable. Watch out after November 2, 1948.

General Business
2. The above paragraph applies mostly to gross business. Certain industries will show smaller net profits. This means that, in some cases, dividends may be less in 1948. Remember some things may be allocated or rationed again in 1948.

3. The reconversion from war to peace has been entirely completed; war surpluses are pretty well disposed of; and 1948 will even show a resumption of military purchases.

4. Inventories, quoted both at their price values and their volumes, will increase during 1948. Both raw materials piles and manufactured goods will be in greater

supply during 1948.

Commodity Prices
5. Notwithstanding the above paragraph, some allocations or priorities may be reinstated in 1948. The public is sick of high prices and will make demands for some price controls in the case of certain products in short supply.

6. The retail price of some goods, other than food products, will be higher during 1948 as the final turn has not yet been reached for all types of goods.

7. We expect to see the peak in wholesale commodity prices sometime during 1948. We, therefore, advise going easy on inventories, especially on borrowed money.

8. Retail price changes will lag after wholesale prices changes. This explains why we expect retail prices on good quality merchandise to hold up for awhile after wholesale prices begin to decline. BUT 1948 WILL BE A YEAR OF WAR PREPARATIONS.

Farm Outlook
9. The total farm income for 1948 should approximately equal that of 1947; but we forecast lower prices for wheat, corn, and certain other products. Farmers should certainly diversify more in 1948, get out of debt, put money into improvements, and prepare for real trouble someday.

10. The supply of certain vegetables, fruits, and fish products should increase during 1948 and the price of these should fall off barring some weather, insect, or blight catastrophes.

11. Meat will be in shorter supply in 1948 than in 1947. Should the current propaganda to "eat less and have a better figure" gain popularity, upward pressure on meat prices would be greatly reduced.

12. Farmers will try to get both 1948 Presidential candidates to promise further subsidies.

The above four Farm Forecasts assume normal weather which we do not attempt to predict.

Lower Taxes
13. The Federal debt will be decreased during 1948.

14. No personal taxes will be increased during 1948 and there will be some reductions, perhaps 5 per cent to 10 per cent in the upper brackets and the entire elimination of those in the lower bracket.

15. We forecast that the new tax bill will enable a man to share his income tax equally with his wife without sharing his income or property.

16. The 25 per cent tax limit on long-time gains will remain unchanged.

Retail Sales
17. Goods on counters will be of better grade in 1948, even if retail

prices hold up.

18. There will be many "mark-down sales" of goods of inferior quality and curbs on installment buying may return.

19. The dollar value of all retail sales in 1948 should at least equal 1947.

20. The unit value of retail sales will be less in 1948 than in 1947; there will be fewer customer purchases in most stores, although each customer may visit more stores to "shop around".

Foreign Trade
21. Our foreign trade will be less in 1948 than in 1947. We shall help Europe; but it will be on a more economical and efficient scale.

22. More foreign loans will be made during 1948; but many of these will be direct to business concerns rather than to political governments.

23. There will be considerable competition from other countries in legitimate foreign trade, where the credit is good. Other countries will not compete with us in our "charities"; but they certainly will compete for all profitable business.

24. Throughout 1948 war talk and uprisings will continue; but no World War III will start in 1948. WAR PREPARATIONS WILL ACCELERATE.

LABOR OUTLOOK
25. 1948 will see an average hourly wage rise of 5 per cent to 7 per cent. Lower income taxes should increase buying power, but this will be about offset by further rises in the cost of living.

26. There need be no more unemployment in 1948 than in 1947; but "Unemployment Insurance" will be taken advantage of by too many unprincipled people.

27. Wages will gradually rise as the Taft-Hartley Bill puts a checkrein only on their labor leaders, but not on Union membership. Hence, the bitter hatred against this Bill will gradually subside. The Bill is merely an "SEC" for labor leaders who need it today as much as investment bankers needed the SEC which was started ten years ago.

28. Any labor legislation during 1948 will be to amend the Taft-Hartley Bill and to raise minimum wages.

Inflation
29. The Inflation Era which we have forecast for several years will remain at this stage until November 2, 1948. There will be no printing of currency or government borrowing in 1948.

30. 1948 will see a public reaction against "feather bedding", "workless" jobs, and union rules which result in slow-ups. More labor-saving machinery will be installed. The public is gradually realizing that inflation can be beaten only by increased production.

31. Sometime during 1948 production in many lines will have caught up with consumption which will prevent further price increases in such lines.

32. There will be many inflation and price investigations during 1948. Both the Democrats and Republicans will try to lay the blame for high prices on the other party.

Stock Market
33. We believe that 1948 will be a year of switching, for various reasons. One of these will be an attempt to get out of stocks of companies which have most of their assets in big "vulnerable-in-

case-of-war" cities into companies whose assets are well distributed and safe from attack.

34. The Administration will try to keep the Dow-Jones Industrial Averages between an upper ceiling of around 185 and a floor of around 165. Commodity speculators will be cured.

35. The wisest will not try to pick any special "winners" in 1948; but will diversify broadly and those who have too many stocks will gradually build up good reserves, in cash or Governments, for the big break which will come someday.

36. Careful buyers of stocks will insist on making full payment and avoid borrowing during 1948.

From where I sit... by Joe Marsh
Thad's Feet Hurt
After a long, hard day's work on the farm, Thad's idea of how to spend an evening is to take off his shoes, and relax with a mellow glass of beer.
But his missus has other ideas. After being in the house all day, she's all for walking to the village, if it's only for a soda. Likes to see people, catch the latest gossip. But Thad says, no, his feet hurt! Began to cause unpleasantness in Thad's home.
Then Bill Webster got up with an idea. If Thad takes the missus to
Andy's Garden Tavern, Thad can relax with his glass of beer, and the missus can also chat with all the neighbors there. Each gets his (or her) own way.
Worked, too! In fact, now the missus likes an occasional temperate glass of beer herself. And Thad finds it's pleasanter to enjoy his beer with good companions, rather than alone. In fact, his feet stopped hurting too!

Here's **One thing**
your dollars buy more of
than ten years ago!
What can you buy today that is priced lower than it was ten years ago? It's hard to think of anything, isn't it? But there is one main item... that's the low-cost, dependable electric service brought to you by Reddy Kilowatt, your electric servant.
Actually, the average price of a kilowatt hour of electric service to residential users is about one-sixth LESS than in 1937.
And it's less despite the fact that taxes, wages, the cost of materials and equipment are up—away up—to us, which necessitates increased efficiencies in all operations and finance.
Every effort is being made to keep the cost of electric service low so that you can continue to enjoy more of its comforts and conveniences.

Knox Prairie Philosopher Lists His Resolution For 1948, Which He Won't Have Much Trouble Keeping

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek seems to be starting the new year off about like he finished the old one, as his letter this week reveals.

Dear editor:
I been readin about New Year's resolutions people have been makin in a d predictions the experts have been makin and I figured you might be interested in the kind of resolutions and predictions I been workin on out here on Miller Creek while I've been recoverin from Christmas.

J. A.

As I see it, most folks waste their time makin impossible resolutions, but I take a more practical approach to the problem.
For example, in the first place, I have resolved not to fix the front gate, it has hung by one hinge ever since I can rememoer and as far as I'm concerned it can stay that way in 1948, or drop off completely. Don't do no good noway as the fence is half down ten feet from the gate and wouldn't hold no stock if the gate was fixed, oiled and padlocked.
However, I do not intend to fix my roof in 1948, I patched it twice

this year and it's leakin just as bad as ever and life is too short and there's too much thinkin to be done in a atomic age to waste time patchin a roof that won't stay patched. I hereby resolve to let the blame thing leak all it pleases and if my wife hollars and complains about it I can't help it, if she wasn't hollarin about that she'd be hollerin about something else.

Also, I do not intend to have any better crop in 1948 than I had in 1947, which wasn't no better than 1945, which wasn't no better than 1944, which was the year I made a crop failure.

There's a number of other resolutions I could make, but I include them in the general resolutions not to do no better financially in 1948 than I did in 1947 and to wind up the new year like I did the old one, which is holdin on to the burnt end of the stick, although I wouldn't miss it for nothin.

In regard to predictions, I predict, don't make no difference what Roger Babson says, that most folks will come up short on the first of every month, and that 1948 will be the most promisin year we've had, although there won't be one candidate in 50 who can deliver.

Yours faithfully,
J. A.

resumed this year.

As true in 1948 as ever—You can't change the past, but you can run the present by worrying over the future.

The United States will make great strides in winning the diplomatic war with Russia. Germany and France will accomplish much on the road to recovery.

My wife will pay a fancy price for someone's discarded junk that someone was thoughtful enough to label antique. (G—ess what? I do not care for antiques).

The Harrell Hardware building will continue to draw favorable comment from out of town people passing through Munday. And speaking of the Harrells, I have good reason to predict an outstanding future as a salesman for Gene Harrell.

The population of Knox County will be less than at the end of 1947, but the population of Munday will be greater.

The most overworked citizens of Munday in 1948 will be Dr. D. C. Eiland, Dr. R. L. Newsom and Harvey Lee.

Improvement in City properties started in 1947 by purchase of the New Fire truck, new street '48. The biggest single improvement being the above mentioned paving program. The greatest remaining need at the end of '48 for our city will be a complete new city water works. Of course a big part of that infernal drainage problem will probably still be with us. This is assuming that we have whipped the cleanup problem by the end of '48.

Lyle Stodghill will donate more time and energy working on worthwhile charitable and civic affairs than any other individual in Munday.

Both the Boy scout and Girl scout organizations will make

much progress in 1948.

The Jaycees, Rotary Club and Chamber of Commerce will accomplish more for the good of our town than in 1947.

W. E. Braly will have more influence on the lives of more people than any individual in Knox County. It is a responsibility that I do not envy him.

Most New Years resolutions for 1948 will have been broken by the time you read this.

New business and professional men will come to Munday in '48 just as Neil Chastain, Joe Bob Stevens, Wayne and Jeff Mitchell, Neil Brown, Don Boyles, I. V. Cook, Bill Smith, Sam Luster, W. C. Cox, and others have come in the past two or three years.

Aware that 1948 is Leap Year, I still predict that there will be fewer weddings in Knox County than in 1947, and likewise, fewer divorces will be granted.

The following excerpt from Lincoln's Second Inaugural Address is as worthy of our thought and consideration as it was when first spoken in 1865 . . . "With malice toward none, with charity for all, firm in the right as God gives us to see for him who shall have borne battle, and care for his wi-

Bobbie Barton And Mrs. Dorothy Fisher Marry In Haskell

Mrs. Dorothy Fisher became the bride of Bobbie Barton last Wednesday night, December 31, at the Methodist parsonage in Haskell, with the Rev. Harrell reading the double ring ceremony.

The bride and groom exchanged marriage vows standing before white carnations, sweetpeas, and mums with fern and red roses making the completion on each side.

Dressed in a powder blue dress with black accessories, the bride wore a corsage of white roses. As the traditional something old, something new, something borrowed, something blue, the bride carried blue gloves; her watch, a gift of the groom, was something new. As something old and borrowed, she carried a handkerchief belonging to her aunt, Mrs. Etta Ford, which had been in the family for fifty years.

Miss Florence Mitchell attended the bride as maid-of-honor. She was attired in a powder blue dress with black accessories. Her corsage was of red rose buds.

Bonner Barton, brother of the groom, was best man.

Mrs. Barton is the daughter of Mrs. Dessie Fields of Munday. She graduated from high school at Whitesboro, Okla. in 1941. She was an outstanding basketball player four years, two of which she was a lettered member of the team. During her junior and senior year, Mrs. Barton was chosen queen of her class.

The groom is the son of Mr. and Mrs. C. A. Barton of Munday and was a graduate of Goree high school in 1937. He attended Daughens College at Wichita Falls and in 1940, entered into the army. While overseas, he served in the Philippines Islands and was stationed in Colorado when in the states. Mr. Barton received his discharge in September 1946 and began employment at the West Texas Cottonoil Co. in Munday.

Only close friends of the couple attended the wedding. They were: Mr. and Mrs. Billie Mitchell, Mr. and Mrs. Forrest Yancy, Miss Florence Mitchell, Bonner Barton, Mrs. Eva Ray Estes, and Miss Jerry Polster.

After a short wedding trip to Shawnee, Okla. and other points of interest, Mr. and Mrs. Barton will make their home in Munday where Mr. Barton will continue his work at the West Texas Cottonoil Co.

Dodge Introduces New Trucks

Among the 248 basic gross vehicle weight chassis models just announced in the new Dodge "Job-Rated" truck line is this B-1-H tractor of 128-inch wheelbase, 15,500 pounds gross vehicle weight (1 1/2-ton nominal rating) and 28,000 pounds gross train weight. The trucks have many new features.

Dodge Offers 248 New Trucks In New Line

Detroit, Mich., Dec. 29.—A completely new line of Dodge "Job-Rated" trucks comprising 248 basic chassis models ranging from 4,500 to 23,000 pounds gross vehicle weight, and up to 40,000 lbs. gross train weight was announced today by L. F. VanNortwick, Director of Truck Sales of the Dodge Division, Chrysler Corporation.

Some models of the new trucks will be displayed starting January 7 by Reeves Motor Company in Munday, Texas.

A combination of massive strength and smoothly flowing lines is the keynote of styling for the new trucks. They were designed to combine appearance with comfort, safety, performance, economy and ease of handling.

Front axles have been moved back and engines have been moved forward to place more of the gross vehicle weight on the front axle and provide better weight distribution. The wheelbase for conventional models through the 2-ton has been reduced eight inches, while the 2 and one half and 3-ton models have been reduced six inches. The new trucks have been engineered so that despite the shorter wheelbase, the cab-to-axle dimensions remain practically unchanged, making it possible to use the same length bodies as before.

New ease of handling and driving has been provided by the shorter wheelbases and wider tread front axle, together with gross steering, which is a new feature on all conventional cab models. The cross steering permits a 37-degree turning angle both right and left. Drivers now can park or back into alleys or up to loading platforms with much greater ease. Road shock through the steering wheel is greatly reduced by the cross steering, which has the drag link running parallel with the front axle.

Standard, de luxe and custom cabs provide more room, more visibility, more safety, and more comfort for the driver.

Seat width has been increased to 57 and one fourth inches to permit three large men to ride without crowding. The chair-height seats provide leg support under the knees and can be adjusted

seven inches. The natural back support also is adjustable for maximum comfort.

The seat cushion utilizes air in combination with coil springs to provide comfort. A hand control allows the driver to adjust cushion buoyancy to his weight or road conditions.

Comfort in any season or weather is provided by an all-weather heating and ventilating system which is an ingenious combination of truck heater, defroster vents, vent windows, cowl ventilator, and fresh air intake.

De luxe and custom cabs have what is termed "360-degree vision" through increased glass area and installation of rear quarter windows. Windshield and windows of the new "Pilot-House" cabs are higher and wider, adding to vision and safety. Drivers can enter or leave the conventional cab easily from either side since the gear shift and emergency brake levers have been moved forward to give clear floor space from door to door.

Conventional models can be road-serviced from the left side as the fuel tank, oil filler, radiator filler, and battery are so located.

Dodge has seven different engines to handle the power requirements of its new line. Numerous engine improvements have been made.

Braking systems are larger and improved. Front and rear axles have increased load-carrying capacity. Front springs are longer. Radiator cores have been redesigned to facilitate better cooling. Exceptional improvements have been made in frame construction.

Mr. R. J. Smith of San Jon, N. Mex. is here visiting her sisters, Mrs. John B. Reneau, Mrs. Elmer Dickerson, and Mrs. Clay Grove and other relatives.

After spending the holidays with her parents, Mr. and Mrs. P. W. Albus, Miss LaVerne Albus left last Sunday for Sioux City, Iowa, to resume her studies at Briar Cliff College.

Alonso Cartwright left last Sunday for College Station after spending the holidays with his parents, Mr. and Mrs. Louis Cartwright. Alonso is a student at A. & M.

Mr. and Mrs. Howard A. Rogers and little son, Clyde M., of Dallas spent a few days in Munday recently, guests of Mr. Eugene Cartwright. Alonso is a student at A. & M. Mrs. Addie Layan, and other relatives.

Activities Of The Colored People

DuPar Christmas program was rendered Thursday night, December 18. The carols and speeches were enjoyed by all who were present. Santa Claus gave out the gifts to each individual as his name was called. It must be mentioned that all the gifts given to the children were given by the P. T. A. organization. This is one of the yearly projects of the parents and teachers.

The teachers wish to express their appreciation for the lovely gifts given them by the children and patrons. We, in behalf of the school, hope the entire city a joyous New Year and may God bestow his many blessings on our nation and others.

When Your Back Hurts

And Your Strength and Energy Is Below Par

It may be caused by disorder of kidney function that permits poisonous waste to accumulate. For truly many people feel tired, weak and miserable when the kidneys fail to remove excess acids and other waste matter from the blood.

You may suffer nagging backache, rheumatic pains, headaches, dizziness, getting up nights, leg pains, swelling. Sometimes frequent and scanty urination with smarting and burning is another sign that something is wrong with the kidneys or bladder.

There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. It is better to rely on a medicine that has won country-wide approval than on something less favorably known. Doan's have been tried and tested many years. Are at all drug stores. Get Doan's today.

Veterans' News

More than 52,000 veterans in Texas, Louisiana and Mississippi were admitted to Veterans Administration hospitals during the past year, VA's Dallas Branch Office reported this week.

The report showed that 143,000 treatments and 24,000 examina-

tions of veterans in the tri-state area were given by VA in out-patient clinics during the same period.

VA offices in the three states dispatched 11,000,000 pieces of mail and conducted 1,700,000 personal interviews with veterans during 1947.

Direct payments to veterans in the Dallas Branch Area during the year amounted to more than \$425,000,000. This included disability compensation, death claims, insurance settlements, and tuition and subsistence to veterans in schools or training.

At the end of the year, VA was paying disability compensation to 81,000 veterans in the three states.

More than 43,000 loans on homes, farms or businesses were granted by VA during 1947, bringing the cumulative total for the three states to 75,200 loans with \$27,400,000 guaranteed by the government.

Veterans in training in the three-state area at year's end totaled almost 254,000. The number in school or institutional work increased 63 percent compared to a 15 percent decrease in the number of veterans training on-the-job.

Around 75,000 veterans reinstated lapsed National Service Life Insurance amounting to \$510,000,000 during the year.

Postal laws and regulations pertaining to delivery of checks for many benefits administered by VA have been modified for the greater convenience of veterans and beneficiaries.

The new regulations allow checks to be placed in city and county post offices boxes, and in mail receptacles on the routes of

lay or rural mail carriers. Checks received are mainly for disabled veterans and for subsistence allowance of veterans in school.

QUESTIONS AND ANSWERS

Q. What is vocational advisement all about and why is it required under Public Law 16?

A. The main purpose of vocational advisement is to determine whether a disabled veteran should train for a profession, or for a particular trade or occupation based on his previous education, experience, personal desires and present ability. The veteran is interviewed by highly trained specialists who will consider his desires, but are required to advise him against starting a course for which his aptitudes or physical limitations do not insure reasonable likelihood of success. In short, this advisement is mandatory under the program to insure the disabled veteran's proper rehabilitation.

Q. Under Public Law 16, must I go to a vocational school or may I go to a liberal arts college, a high school, or similar institution?

A. You may enroll in any VA-approved educational institution or training establishment offering the course of training which VA has found you need to insure your proper rehabilitation in line with your own desires.

Q. Will my disability compensation be reduced if I go into training under Public Law 16 or under the G-I Bill?

A. No.

Q. I am receiving compensation for injuries received during World War II and would like to know if my compensation check is subject to seizure by creditors or for

taxes?
A. No.
