

Kracker KrumbS

Odd Bits Salvaged
At Random

(By Aaron Edgar)

They want to put the weight of the world on our shoulders. They want us to krumber krackers about a heap of things.

Just Monday morning, a subscriber wanted us to do some krumbering about where the paved road from Rhineland will come into town. According to his idea, the logical way is for it to follow the old Rhineland road and be accessible to both Rhineland and Hefner.

And then into town right down Munday avenue, if you're familiar enough with the new street names to know where that is. It's the street that runs right in front of the Times office, and on north.

In the view of many, that's the best route for the paved road to take, but we've heard too objections to that route. Which all goes to prove that "you can please some of the people some of the time" but not all of them all of the time.

But of more interest to us is not where it will come into town, but when it's coming.

We got word through a daily paper of an interview with an engineer and our county judge in which it was said this pavement was on this year's program. Then we learn, via the grapevine route, that it can't possibly be done this year.

And with a school bus coming in from Gilliland next year to bring high school students to the Munday schools, it's pretty imperative that the strip be paved just as soon as is at all possible.

So where's it coming? And when's it coming? A pretty good idea to be doing some research work on.

Another fellow wanted us to fuss about those "black market" automobiles—those \$500 or more bonus money that a lot of people poop off in order to get a new car.

But, shucks! We ain't got much of a fuss coming there. We can't even buy at list price, if we could get one for list, so the bonus money isn't worrying us one whit.

They wanted us to fuss about getting the town sprayed—which we did—but blamed if the town wasn't sprayed before we could get our krumbS in the mails.

But along comes a shower two days later, which is believed to have made the spraying less effective. We sat out in a neighbor's yard Saturday night, then went home and applied rubbing alcohol to mosquito bites like all get-out.

So the town needs spraying again, and town leaders are ashamed to ask our good neighbor to do it again.

What lots of folks want is for the town to own its own spraying machine—and that is a prospect, too.

They wanted us to rease a howl about a traffic light at the school grounds—which we did. And lots of people, especially ladies with small children, cooperated with the howling.

We got action! Yep, the highway department took a traffic count; then turned down the light proposal because too few cars passed on that particular day. And we were back at zero on the light idea.

They wanted us to call attention to the deplorable condition of our high school building—and 195 people went to the polls on Tuesday of last week and voted 181 to 14 for issuance of \$110,000 in bonds to remedy that situation.

And school officials hope to have money enough to construct a lunch room on the elementary school grounds, so the tiny tots won't have to cross the highway to get to the lunch room.

We fuss and fume, and rave and rant. Some things get results, and some we almost plumb get stymied on. But we'll get a street sweeper some of these days, too.

A former resident from down Galveston way sent us word that if we'd all get brooms, and shovels, and wheelbarrows, and those stick

Mr. and Mrs. Rufus White, Knox City, a Son.
Mr. and Mrs. J. L. Harlan, Goree, a Daughter.
Mr. and Mrs. James Carden, Munday, a Daughter.
NO DEATHS.

C. D. A. Membership Committee Briefed; Ready To Start

A majority of members of the Community Development Association's membership committee attended a meeting of directors last Monday night, at which time plans were laid for beginning the membership drive.

It was pointed out that every business firm, every individual and every farmer in this immediate area who is interested in the advancement of the community is invited to join the organization. Dues have been set up so that a program of development and sponsored activities can be carried on without additional drives for money.

The membership committee was briefed on plans for memberships, and they plan to begin the membership drive within the next few days.

Knox Students In Summer School At HSU, Abilene

Abilene—Three persons from Munday and four from Goree are among the 1105 students enrolled for the first six weeks of summer school at Hardin-Simmons, Alton B. Lee, registrar, has revealed.

Munday residents attending summer school are Marilyn Bowden, Sue Partridge Meeks, and Mrs. Irene Bardwell, while those from Goree are Mrs. Wm. M. Taylor, Ava Thibaud, Mrs. Bernice Ruthford, and Mrs. Frances Akins.

The 1105 enrollment figure is the highest yet reached by the University during a summer session. The current term will close July 10 with a second six weeks session scheduled to begin on July 12. A three weeks class will be held from August 20 through September 9.

HAS APPENDECTOMY

Bill Warren, small son of Mr. and Mrs. W. W. Warren, was taken to the Knox county hospital last Monday where he underwent an appendectomy. Latest reports are to the effect that Bill is doing nicely.

Misses Marilyn Bowden and Joy Agnew, students in Hardin-Simmons University in Abilene, spent the week end with Marilyn's parents, Mr. and Mrs. Chester Bowden.

Farm, Ranch Club Is Formed For This Area

A meeting of farmers and those interested in agriculture and animal husbandry was held in Wichita Falls on Tuesday of last week, at which time the Wichita Farm and Ranch Club was formed. The club is to serve North Texas and Southern Oklahoma.

Officers are: president, first, second and third vice presidents, a secretary and a treasurer. Thirty three directors were named from the area to be served.

The purpose of the club is "to advance agriculture and animal husbandry in North Texas and Southern Oklahoma, and to stimulate, promote and encourage the business of producing and marketing livestock, agricultural and dairy products."

The two directors from Knox county are Jack Idol of Benjamin and W. R. Moore of Munday.

Attending the meeting were Mr. Moore, Mr. Idol, E. H. Nelson, L. B. Patterson, Clay F. Grove, W. E. McNeill, Moody Johnson and W. E. Braly.

Knox County Girls Attend Encampment

The district III encampment for 4-H girls was held June 14 to 17 at Leuders Baptist Encampment grounds.

Twelve counties were represented with 91 girls, 15 adult leaders and 18 county home demonstration agents.

Two items were made in club craft work. First were stools which the girls bottomed with hickory bark and treated with hot linseed oil. Next was a leather coin purse, laced with narrow strips of plastic.

The highlight of the camp was rifle practice in charge of Mr. R. E. Callender of College Station and Mr. Jack Garrett of Abilene. Carolyn Stone of Gilliland made third place with a score of 236 points.

Other things of great interest were talks on "Wild Life" by Mr. Callender, "Metal Work" by Mrs. Callender and "Camp Life" by Mrs. Florence Low of College Station.

Those attending from Knox County included: Miss Butler, county home demonstration agent, Mrs. Joe Patterson, Munday, club sponsor; Shirley Patterson, Munday; Jo Ann Tackett, Sunset; Norma Jones, Truscott; Jo Ann Burgess and Carolyn Stone of Gilliland.

The girls would like to express their thanks to the agents, the sponsors and Myrtle Negy, District agent, for an enjoyable and well planned camp program.

Their thanks also go to Rev. Littleton and his staff for the grounds and the delicious food.

Father Of Wade Mahan Passes Away At Wellington Home

J. A. Mahan of Wellington, father of Wade T. Mahan, passed away at his home in Wellington at 1 a. m. Wednesday. Mr. Mahan suffered a light stroke, which was his third in recent years, about two weeks ago. He developed pneumonia several days before his death.

Mr. Mahan was one of the earliest pioneers of Collingsworth county, having settled in that section in 1888. He farmed on a section of land about 10 miles southeast of Wellington, being engaged in farming there for many years. He was 88 years of age.

Surviving him are his wife and four children; Mrs. Walter Poling of Hollis, Oklahoma; Mrs. Allen Harper of Edinburg, Wilson Mahan of Long Beach, California, and Wade T. Mahan of Munday. A number of grandchildren also survive.

Funeral services were scheduled for 3:30 Thursday afternoon from the First Methodist church in Wellington, which church he served as a steward for over a quarter century.

BATTLE OF BRAINS... In a grueling three-hour competitive examination at the A. and M. College of Texas, 215 honor graduates of Texas high schools fought it out for fifty thousand dollars worth of college scholarships. The fifty winners, who will receive four-year Opportunity Awards at Texas A. and M. College, were announced today. Selected on the basis of need, scholarship, leadership and character, winners will receive \$200 to \$300 per year, plus an opportunity to earn other college expenses, for their full four years.

Top-Notch Golfers In Finals For Tri-County Tourney Here On Sunday

Top-notch golfers of Knox, Haskell and Baylor counties are battling it out here this week to determine who will be in the 36-hole finals next Sunday for the championship of the Tri-County Golf Association. Thirty-two players entered the two top flights, with a total of 88 players making up the six flights.

Joe Morrow, Munday, who turned in a qualifying score of 68, two under par, for medalist honors, has won two matches to place him in the semi-finals with Jeff Graham of Knox City. Graham beat Byron Shupee of Seymour, tri-county champion two years ago, in his second match.

Other semi-finals matches in the Championship flight is between Winston Blacklock of Munday and Chick Nolen of Seymour. Blacklock won from Lamoine Blacklock and Chad Wilson, while Nolen beat David Moorhouse and D. E. Holder, Jr., to win places in the semi-finals.

Only three players had reached the semi-finals in the first flight through Tuesday. Buck Everitt plays M. L. Blohm, and Sam Hampton will play the winner of the R. E. Winsted-Neil Chastain match.

Many golfers and golf fans are expected to line the course next Sunday to see the tri-county best as they go through the finals.

Matches played through Tuesday of this week are as follows:
Championship Flight
First Round: Joe Morrow, medalist, beat Lindsey Carter; Dan Billingsley won from Buel Gibson; Jeff Graham downed Tom Craddock; Byron Shupee beat Bobby Hill; Chad Wilson won over Ray Holcomb; Winston Blacklock took out his brother, Lamoine; D. E. Holder, Jr., defeated Charles Richmond, and Chick Nolen beat David

Telephone System For City Of Munday Very Indefinite

Mr. Robinett of Seymour, district manager of the Southwestern Associated Telephone Co., was here last Monday night and met with the board of directors of the Community Development Association in regard to more recent requests for an adequate telephone system in Munday.

Mr. Robinett talked at length of his company's plans for future development, stating that Munday was scheduled for an improved system which is included in the five-year program of the company. No definite date for installing a modern system could be given.

It was pointed out that this was the same "stereotyped talk" which was made another local civic organization nearly two years ago, but still no definite promise of relief being made.

After an hour of discussion, the meeting was brought to a close, with results being termed as "very unsatisfactory" to the directors and people of the Munday area.

Extra Push Needed To Get Bond Quota

Just a little extra push will put Knox county over her quota in the Security Bond Drive, which closes on Wednesday, June 30, according to W. E. Braly, county chairman.

Citizens who are able to buy bonds, especially those of the Series E issue, are urged to put in that "extra push" and help the county to raise its quota. The county always raised her quota during the war bond drives, but there has been a general slackness in buying the peace-time bonds.

People are especially urged to buy bonds as a security measure, and to help curb inflation.

Mr. Braly stated the county had sold about 75 per cent of its quota, and he feels that a little extra effort will put her over in fine shape.

Dr. and Mrs. A. A. Smith were business visitors in Wichita Falls last Tuesday.

Weather Report

Weather report for the period June 17th through 23rd 1948 as compiled by H. P. Hill, Munday U. S. Cooperative Weather Observer:

	Temperature	
	LOW	HIGH
1948-1947		
June 17	75 67	103 95
June 18	77 70	105 95
June 19	70 67	98 88
June 20	75 67	99 87
June 21	75 70	99 96
June 22	79 77	100 97
June 23	66 70	94 87

Rainfall to date this year, 9.34 inches. Rainfall to this date last year, 14.03 inches. Rainfall this week, 2.00 inches.

Knox County 4-H Club Boy Winner Of District Heavy Litter Contest

Don Johnson, 4-H Swine demonstrator, of Munday, Texas, was declared District winner of the Heavy Litter Contest, sponsored by the Sears Foundation, when district headquarters recorded his litter weight of 431 pounds. Competing against sixty four members from eight counties of this area Don was far out in the lead of any member from any other county, except Knox. For this distinction he was awarded \$25.00 worth of hog lot equipment.

Following strikingly close to Don was Ernest McGaughey, of Vera, Texas, his pigs weighed 430 pounds. For taking second place in the district Ernest was awarded \$20.00 in hog lot equipment.

Dan Deason, of Clay County and Charles Graf, of Wilbarger County, won third and fourth places respectfully.

Stanton Brown, of Benjamin and Don Lyles, of Bluegrove, tied for fifth place. For this distinction each boy was awarded \$12.50. Stanton's pigs weighed 329 pounds.

Heavy Rain On Wednesday Brings Relief

Many Crops Destroyed By High Wind And Sand This Week

Heavy rains which set in at about eight o'clock Wednesday morning brought relief from the hot windy days which have brought havoc to young crops in Knox county.

The wind which blew hard Friday and through the first of this week started sand shifting, and as the blow spots grew larger and larger, many young crops were blown out.

Farmers did "everything in the book" in an attempt to stop the

The official rain gauge registered a total of 1.85 inches in Munday, according to H. P. Hill, local U. S. weather observer. A shower Sunday evening brought this week's total up to about two inches.

Estimates are that between 10 and 15 percent of local crops were destroyed by wind and sand during the high winds of Friday through Tuesday.

shifting sands and save their crops, and finally were about to give up hope. Lots of cotton and feed were destroyed in several communities of the county.

Some farmers reported complete fields of cotton and grain destroyed, while others were damaged in patches. With time getting late for cotton planting, much of this acreage is expected to be replanted to feed. "Patch farming" in the damaged areas will make the working of these crops more difficult.

Although it brought relief from wind and sand, the rain Wednesday, which ranged from light showers at times to heavy downpours, is expected to bring some damage to young crops which had not yet gotten large enough to be worked out. The rain will, however, give plenty of moisture for replanting of those acres which were blown out.

M. H. S. Seniors Of 1928 To Hold Reunion Sunday

The 1928 senior class of Munday high school will hold a reunion here on Sunday, June 27. Members who are able to attend the reunion will meet at the American Legion hall next Sunday afternoon.

Members of the class are: Truman (Preacher) White, Truman Mann, Otis Burnett, Elton Busby, Homer Lain, Arch Vassar, Martin Prichard, Onetta Blanton (Mrs. Elton Busby), Anie Matt Tate (Mrs. Clyde Angel), Delphine Hendrix (Mrs. Elmo Wilson), Ora Lee Parks, Eloise Phillips (Mrs. Fatheree) Christine Fritz, Mildred Guinn (Mrs. Hutchins), Evelyn Curry (Mrs. J. Capp), Ruby Manuel (Mrs. McAdams), Gladys Cume-Carty, Odell Freeman (Mrs. Chenuault), Arva Harris (Mrs. Spade), Lucille Collins (Mrs. Isham Brown), Bertha McNeill, and Ruby Myers (Mrs. Earl McNeill).

All are still living except Otis Burnett, who gave his life in service of his country.

John C. McFerrin Of Benjamin Rated As Army Marksman

Private John C. McFerrin of Benjamin has recently completed a basic training program in Company B of the 1st Battalion, 22nd Infantry Regiment, 4th Infantry Division at Fort Ord, Calif., and is on orders for further duty in Fort Belvoir, Va.

He received a rating of marksman with the M-1 rifle. His parents, Mr. and Mrs. Bert McFerrin, reside on star route, Benjamin.

McFerrin, who is 18 years of age, enlisted for three years of service. He attended Benjamin high school.

Congress, March 2, 1879.

MUNDAY'S NEEDS FOR 1948

1. A modern and up-to-date high school building, to care for the present and future educational needs of our children.
2. A waterworks system that meets all requirements of health, sanitation and supply.
3. A street sweeper that will keep our pavement clean enough to be recognized as pavement.
4. A clean-up campaign of lasting effect; yes, one that extends even across the tracks.
5. Completion of our drainage and paving program, which will probably be accomplished this year.
6. More activity among our civic organizations, looking forward to, and planning for, a better Munday in the future.

WE DON'T HAVE FAMINES

Every now and then news items appear to the effect that meat production is declining. And this, in turn, is picked up by extremists who dolefully predict meat "famines" by a given date. As an example, some of the Washington crape-hangers seemed sure that such a famine would appear by last May Day.

May Day came and went, and there was no meat famine—there wasn't even a shortage, in spite of the fact that the packing industry was plagued by a strike. That was just one more example of the way industry is geared to meet the nation's needs, and to deal with developments as they occur.

For 1948 as a whole, Federally-inspected meat production will be under 1947. But it will be about 15 per cent above the prewar average. Production is not and cannot be constant from month to month. During the third quarter, for instance, there is always a decrease, for seasonal reasons. The packers handle that by storing meat to release during periods when receipts are light. It's like the old story about strawberry jam. The jam is made in the spring when the crop comes into bearing. But people eat the jam all the year round.

Going farther, at the present time it looks as if there will be a decrease in well-finished cattle from the corn belt states. But a title of other grades, such as Commercial, will be available in adequate supply. On top of that, a step-up in hog marketings recently occurred and has helped to improve the meat situation as a whole.

Meat is a complicated business, and some of the fears of famine are based on a lack of understanding of how it works. But talk of serious shortages just doesn't make sense. According to the industry's experts, your butcher will continue to have plenty to offer.

PAYING FOR A STRIKE

The house organ of a Tennessee Coal Company recently ran this little piece under the heading, Stray Thoughts: "The coal industry has just had a long, costly strike. The employees of our mines have lost several hundred thousand dollars. Our country will suffer in many directions from shortages and higher prices. We have, due to the strike, given our customers terrible service. We have

The Munday Times is Democratic, yet supporting only what it believes to be right, and opposing what it believes to be wrong, regardless of party politics, publishing news fairly, impartially, and honestly.

STATE MUST NOT CONTROL DOCTORS

The strongest argument against socialized medicine is not the enormous drain on the taxpayers it would entail, important as that is. It lies in the fact that the profession of medicine, like the practice of the arts and the higher crafts, is almost entirely dependent on individual ambition, ability, and incentive for progress.

The doctor, like the musician or playwright, works in cooperation with others to gain some given end. But this is not the kind of flat, unimaginative mass effort that characterizes the working of a bureaucracy, where mediocrity gets the rewards, and brilliance and enterprise are frowned upon. The individual must be supreme. One of his chief assets is the right to experiment in an atmosphere of freedom. He must be ready to intelligently deal with the new and the uncharted. He cannot be bound by a set of inflexible rules.

When the state runs everything, a man's politics are all important. That, and his ability to earn favoritism from the bosses, determine the kind of job he gets. But when politics and patronage determine what doctor shall be chosen for promotion, or what writer or musician shall be published and heard, a shameful decline in standards is the inevitable result—as the Soviet Union so thoroughly proves. In the case of the arts, it forces the people to see inferior plays or read inferior books. In the case of medicine, it costs lives.

There is no relationship quite like that between the doctor and those he serves. The state must not be permitted to destroy it.

earned distrust of us and our product as a fuel. "Strange as it may sound . . . we do not know and never have known the reason for the strike. The operators paid the money and had no further authority. Nothing was gained except to show the enormous power of John L. Lewis."

There, in words that anyone can understand, is the plain, unvarnished truth. The fact that the strike is over for the time being must not be allowed to obscure the real issue that it raised. That issue is this: One man has a dictator's power over the economic life of the nation—over its defense program, its vital foreign aid policy, the welfare and prosperity of its people, the jobs of its workers, and the prestige of its government. That is not an exaggeration. Coal is the cornerstone of our economic system. Let its production be long enough prevented, and the whole machine must come to a stop.

The welfare of organized labor itself depends on ending this power. And if labor will not do that—if it continues to accept and applaud the excesses of its leaders—the people must act through their government. Senator Ball has suggested that industry-wide bargaining, whereby a whole industry may be shut down overnight at the whim of a labor czar, be outlawed. That may be the only solution.

The average person forms an opinion by adding to a small measure of information a dash of imagination and a large quantity of prejudice, shaking well with emotion.

Fixing Up the Farm

by BURTON WILLIAMS

Protect Feed From Rats

WITH high grain prices narrowing the margin of profit for millions of farmers, all possible measures should be taken to reduce cost of production. One way in which farmers can cut needless expense is to reduce the heavy losses of grain caused by rats.

A vigorous rat extermination program, of course, is essential for best results. Other steps also should be taken, however, to protect stored grain from rodents.

For storage of small amounts of grain which the farmer wishes to keep handy, galvanized steel containers are highly recommended. Grain stored in such containers is fully protected. Rats cannot gnaw through galvanized steel; and the tight-fitting lid defies the most determined rodent.

A further measure of effective rat control is the use of similar containers as receptacles for kitchen food scraps. Exposed refuse is inviting to rats, but food in rat-proof cans offers them nothing for sustenance. Galvanized steel containers may be obtained at most hardware stores.

Primary feed storages should be constructed of rat-proof building materials. Such products as asbestos cement board, when used as an interior lining for walls and floors, provide an effective barrier which rats cannot penetrate.

From where I sit . . . by Joe Marsh

They let the Wives in!

The ex-GI's of our town entertained their wives the other night at one of their "feeds" of hamburger sandwiches and ice cold beer. (The girls had hinted that they'd like to see what went on when their husbands got together!)

Being wary, the boys provided chicken sandwiches and cake and cider—for those wives who might have other tastes. But though they were grateful for the choice, most of the wives agreed that hamburger sandwiches and beer were a mighty pleasant combination.

After the "feed" the husbands took their wives on at a game of darts, and later they played "indications." The party broke up around ten, with the boys agreeing that it was mighty successful.

From where I sit, it's this companionship among young couples today, and their moderation in a sensible beverage like beer, that's won the younger generation such a wholesome reputation.

Knox Prairie Philosopher Can't Understand Uproar Over Some Silly Broadcast On The Voice Of America

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek probably is looking at the radio situation from the wrong angle, which isn't the first time he has looked from that position.

Dear editor:
While I don't depend much on my radio to keep me posted on world events, due to the fact a radio ain't designed particularly for a reflective mind like a newspaper is, as absorb information ain't like chopin cotton and one time ain't as good as another to do it, you got to be in the right mood. With a radio though you have to listen right then, when the announcer is givin the news, or you miss it, but a newspaper you can lay back on the bank in the shade and rest, fold it over your face to keep off the goats, doze awhile, and wake up and it's still there and you can pick up the news whenever you feel like putting around to it and your mind is

J. A.

fresh.

But I do listen to the radio occasionally, pickin up a political address now and then, and it's handy to have around to turn up loud when you wife is givin instructions or commentin on all the repairs the place needs or how well the neighbors is doin and their crops is clean, and I was surprised at all the fuss stirred up over the kind of broadcasts the Voice of America has been sendin to them South American countries.

As I understand it, Congress was in a uproar because the programs was silly, full of nonsense, written by amateurs, and full of untruths, and what I want to know is why the uproar? Are them South American countries any better than we are? If we can stand them kinds of programs day in and day out, 365 days a year, they ought to be able to stand em once a week.

I say they ought to be treated just like the folks at home. Ain't entitled to no better programs than we get. We ought to send em the same stuff we get, and even throw in a few broadcasts from political candidates. Ain't nobody in South America no better'n we are.

If the Republicans and the Democrats expect me to listen in to their convention programs, they better finance me a new battery for my radio, but do you hear any Congressman or Senator gettin in a uproar about my plight?

Yours faithfully,
J. A.

COTTON FOR COLD

Well camouflaged and warm, too, these members of the 82nd Airborne Division plod through the snow during "Exercise Snowdrop" at a northern post. The National Cotton Council reports the soldiers are wearing light-weight, wind resistant cotton garments made of very tightly constructed fabrics. The outer cotton uniform is used over a softer and more resilient undergarment and provides more warmth and comfort than heavy overcoats.

Burrus Feed Mills. A year later, he was made the company's sales manager and, in 1935, just a year after that, he became general manager.

At that time, the company's travelling sales force consisted of only two men. Today, the sales force numbers 30 and the company's products are sold extensively in 12 states and a dozen foreign countries. In addition to the mills in Dallas, McKinney and San Benito, soon Akins will have the thrill of seeing Burrus new mill, in Ft. Worth, open—one of the biggest—and the most modern—feed mills in all the world.

Busy and successful business executive, Wiley Akins finds time for the duties of good citizenship. He is on the Baylor University board of trustees, was chairman of the board of deacons of his church for five years, makes frequent speeches on "the training of youth" through 4-H Clubs and Future Farmers of America and is an honorary member of the FFA, an honor bestowed by the boys themselves in recognition of outstanding service.

Wiley Akins says, "A man can

do little without friends."

If a writer swipes from another writer, that's plagiarism. But if he swipes from many writers, that's research. (I don't remember who I swiped that from!)

And Kin Hubbard declared the hardest thing to do is to disguise your feelings when you put a flock of relatives on the train go-

H. B. SAMS

Attorney-At-Law

Office On Second Floor of Court House
BENJAMIN, TEXAS

—Specializing In—
Land Titles, Domestic Relations, Income Tax Matters.

In a world filled with so many lurid and disturbing events, it is somehow reassuring to turn to the contemplation of the life of a man like my friend, Wiley Akins. His isn't so much a spectacular career as a record of step-by-step progress because he was ready for each new and enlarged opportunity.

He was born on a farm in Hill County in 1903, one of a family of eight boys and five girls. After school, he worked in a grocery store; during summers, he plowed, chopped cotton, picked cotton, milked and the other tasks of farm life. After graduating from Bynum school and Hillsboro High, Akins went to work for a wholesale grocery in the office but "part-time" on the road. He showed such an aptitude for selling that soon he was a full-time salesman.

For six years, Akins was territory salesman for one of the largest feed companies in the United States.

After running his own wholesale and retail feed store in Tyler for a year, he sold out to become East Texas sales representative for

The All-Purpose Farm Vehicle

• Come in and see the new all-purpose farm "Jeep." Drive around in it. Feel the mighty surge of power from its world-famous Willys-Overland "Jeep" Engine and the sure-footed pull of "Jeep" 4-wheel-drive. This one vehicle operates plows, harrows, mowers, seeders and other farm implements. It tows 5,500 lbs. or hauls 800 lbs. The "Jeep" takes you across the pasture or into town. It powers your farm machinery. See how a "Jeep" can spread its cost over a wide variety of jobs the year around. You will use it as a light farm tractor, a truck, a runabout and a mobile power unit. Find out how the "Jeep" can save you real money.

Sunset H. D. Club Meets June 17th With Mrs. Hicks

The Sunset Home Demonstration Club met June 17th in the home of Mrs. Bob Hicks.

There was a very interesting discussion on "Preparation of Appetizing Summer Foods". And that of "A Salad Combination the Family Likes."

A very delicious punch and cake were served to Meses. Jerry Nix, Gill Wyatt, Weldon Floyd, S. H. Shannon, Layne Womble, Loretta Floyd and the hostess.

The next meeting will be July 1st in the home of Mrs. Layne Womble.

Hefner H. D. Club Meets June 15th With Mrs. Payne

The Hefner Home Demonstration Club met Tuesday, June 15th, in the home of Mrs. Harold Payne. Nine members being present.

The demonstration of tray making was continued from the last meeting.

Plans were made for a picnic for club members and their families for Friday evening, June 25th, at the home of Mr. and Mrs. Ben Holder. All members are urged to come and bring a picnic supper for their families.

The next meeting will be in the home of Mrs. Geo. Weber on July 6th.

Members present were: Meses. Billie Hutchens, Ben Holder, Hamp Jones, J. T. Murdock, Bob Lambeth, Turner Standie, Geo. Weber, Felton Lambeth and the hostess.

Shaw Reunion Is Held At Seymour Over Week End

The Seymour Park was a place of interest to those of the "Shaw" generation on June 19th and 20th of this year.

All the relatives from miles around gathered there for a Family Reunion.

Food and bedding were brought for the occasion and most all enjoyed the outside relaxation.

The food was served cafeteria style and consisted of fried chicken, ham, roast, salads, pickles, olives, potato chips, stuffed eggs, and a variety of cookies, pies and cakes, with punch and tea to drink.

After talking over old times and discussing experiences, beds were made about 12:00 o'clock.

The next day more people were coming in that wasn't there thru the night also more delicious food.

After serving lunch on Sunday the children played games and enjoyed a nice cool swim, while the older ones were still visiting, talking, and taking pictures.

Those present for this pleasant occasion consist of the following eighty-two people: Mrs. Lucile Stodghill, Marie, Ruthie, Betty, Herbert, and Cathy Rodgers, Mr. and Mrs. C. R. Griffith, Carl Roddy, and Herbert Jean, Mr. and Mrs. L. C. Guinn, Sr., Alfred, Jerry, Shirley, and Patsy, Mr. and Mrs. Chester Lain, Patsy, Danny Lee and Sharon Kay, Mr. and Mrs. L. C. Guinn, Jr., Gene, Ann, and Sue, Mr. and Mrs. Thurman Newkirk, Louis James, and Billy, Mrs. Donie Leffler, Joanne, Laqueta, Jessie Louis, Swendolyn, and July all from Munday. Those from out of town: Mr. and Mrs. Leon Reagan, La Vonne Dean, and Barbara Ann, Spur, Mrs. Irma Rankin, Big Springs, Mr. and Mrs. J. C. Reagan, Jackie and Brenda, Spur, Mrs. Herman Clark, Ft. Worth, Mrs. Annie M. Johnson, Marlin, Mr. and Mrs. J. T. Shaw, Spur, Mr. and Mrs. Doyle Wheeler and D. T. Cone, Mr. and Mrs. Ray Jackson, Waylan and Bobby Ray, Goree, Mr. and Mrs. Ralph Cypert and Clara Sue, Knox City, Mr. and Mrs. Roy Harrell, Carol Lynn, Kenneth Ray, Roy, Jr., Ralls, Mr. and Mrs. C. A. Reagan, Vera, Mr. and Mrs. A. A. Reagan, Westbury, L. I. N. Y., Mr. and Mrs. W. D. West, Wanda, Billy and Joyce, Seymour, Mr. and Mrs. W. S. Gu-

Valentine Cook was a business visitor in Abilene last Tuesday evening.

Mrs. Louise Rice and Mrs. Dorothy Prosser of Lubbock are visiting with Mr. and Mrs. W. W. Warren and other relatives here this week.

Mr. and Mrs. O. B. Paulsel of Fort Worth spent the week end with Mrs. Paulsel's parents, Mr. and Mrs. T. A. Brown and other relatives.

Mrs. J. L. Arrott and children of Palo Pinto, Mrs. R. J. Ross of Mineral Wells and Miss Norma Gaye Krah of Oklahoma City, Oklahoma, visited in the home of Mr. and Mrs. T. J. Mitchell last Monday afternoon.

Dress Revue For Club Girls Slated Friday

June 25th is the big day for Knox County 4-H Club Girls who have been working on clothing this year. The Dress Revue will be held in the American Legion Hall at Knox City, at 2:30 p. m.

There will be four judging divisions in the contest:

1. Simple Blouse.
2. Gathered skirt.
3. Cotton School Dress—Junior Division—(4-H Girls not 14 years old by January 1, 1948.)
4. Cotton School Dress—Senior Division—(4-H Girls 14 years or older on January 1, 1948.)

A medal will be awarded the winner of each division. Winner of the Senior Division will be eligible to attend State 4-H Round-Up August 16-20, and enter the State Dress Revue.

4-H members may enter three of the four divisions, if they have constructed a garment in each class. A total of sixty five gathered skirts have been made by club members, fifteen blouses and twenty eight school dresses.

Girls entering the contest must bring or send their garments to the Legion Hall by 9:00 a. m., June 25th, and be there to model them before the judges at 11:00 a. m.

An impartial staff of judges has been selected, headed by Miss Louise Newman, Haskell County Home Demonstration Agent.

Everyone interested is invited to attend, and a special invitation is extended to all 4-H club girls, their mothers and home demonstration club members.

Miss Eloise Gray and Melvin Gray returned last week after a two weeks vacation visiting with their sister and family, Mr. and Mrs. W. B. Talbert at Houston and also other points along the coast.

Dick Harrell returned to Dallas last Thursday after a week's visit here with his parents, Mr. and Mrs. E. W. Harrell, and other relatives. Mr. and Mrs. Harrell took him to Dallas, returning home Friday.

CARD OF THANKS
I wish to express my thanks to both white and colored while in my sorrow. May God bless you all.
Mrs. Mary Hayden. 1tp.

HOME FROM HOSPITAL
Mrs. Lee Haymes returned home Wednesday after spending some ten days in a Wichita Falls hospital for medical treatment. She is reported to be feeling "pretty good" and stood the trip home just fine.

Mrs. Ida A. Calloway of Cleburn is here visiting her daughters, Mrs. Ben Tuggie and Mrs. H. E. Walker and other relatives.

Hopper Control Formula Given For Grape Vine Leaves

Recently I have been called upon for information concerning a small insect that thrives by the hundreds in among grape vines and on the leaves of the vine. The adult insect is about an eighth of an inch long, and the wings are pretty marked with yellow and red. During the summer the young and adult insects are light yellowish in color. The insects usually stay on the underside of the leaves and swarm out in large numbers when disturbed by shaking the leaves and vines. The insects attack the leaves by sucking the juices out of them. Soon the leaves begin to turn yellow and shrivel. The grapes will shrivel, dry up, and sometimes even the vines are killed.

How are these insects controlled? Simply spray the vines thoroughly, especially under side of leaves, with "Black-leaf 40" at the rate of 1 part Black-leaf 40 to 1500 parts water (1 teaspoon full to one gallon water).

Earl R. Ponder.

HEFNER NEWS

(Mrs. E. J. Jones, correspondent.)

Regular church services were held Sunday at Friendship Baptist church. The Pastor, R. T. Guthrie, was in charge. Sunday school was held at 10:00 a. m.

Some from here are attending the Rev. B. B. Crimm tent meeting in Seymour.

Brother R. T. Guthrie has just returned from a trip to El Paso, where he attended services at the church he attended when a boy. He really enjoyed going back to his boyhood church.

Mrs. Emma Jones is visiting with relatives in New Mexico this week.

Mr. and Mrs. Felton Jones and Sandra Ruth of San Angelo spent a few days here last week with the Hamp Jones and with relatives in Goree, Munday and Sunset. They left Saturday morning for their home.

Rex Peeples of Sammerwood, Texas, who has been visiting Scotty and Danny Ponder, has returned home.

Bobby Joe Tuggle left for Fort Worth last Sunday where he has accepted a position with the consolidated air craft Co.

H. A. Pendleton left Tuesday for Dallas, where he is spending several days attending to business matters.

Mr. and Mrs. Gene Harrell and daughter, Natalie, left Thursday morning for Stillwater and Oklahoma City, Oklahoma, where they will visit with relatives.

Mrs. A. H. Mitchell visited with relatives in Baird over the week end. She was accompanied home by Mr. Mitchell's mother, Mrs. Joe Mitchell, who is visiting for about two weeks.

Miss Charlott Hannah and Miss Julie Massey returned last Sunday from a weeks visit with the Riley B. Harrells in Texas City.

Mr. and Mrs. H. G. Williams and Charles were joined in Abilene by Mr. and Mrs. C. P. Williamson and Bill for a pleasant week end visit in Fort Worth and Itasca, with relatives.

Mr. and Mrs. R. F. Coppage of Dallas is spending this week with Mrs. Coppage's sister and husband, Mr. and Mrs. T. C. Merrell.

Kidneys Must Work Well-

For You To Feel Well
24 hours every day, 7 days every week, never stopping, the kidneys filter waste matter from the blood. If more people were aware of how the kidneys must constantly remove surplus fluid, excess acids and other waste matter that cannot stay in the blood without injury to health, there would be better understanding of why the whole system is upset when kidneys fail to function properly. Burning, scanty or too frequent urination sometimes means that something is wrong. You may suffer nagging backache, headaches, dizziness, rheumatic pains, getting up at night, swelling. Why not try Doan's Pills? You will be using a medicine recommended the country over. Doan's stimulate the function of the kidneys and help them to flush out poisonous waste from the blood. They contain nothing harmful. Get Doan's today. Use with confidence. At all drug stores.

DOAN'S PILLS

Attend Some Church Next Sunday

FIRST METHODIST CHURCH
Wm. G. Barr, Pastor

Rev. Barr, Pastor of First Methodist Church announces the following services for Sunday June 28:

Sunday School At 10:00 a. m.
There are classes for all ages. Visitors and new members are welcome. Joel Massey is Gen. Supt. and Earl McNeil is Secretary.

Morning Church At 11:00 a. m.
The Pastor will conduct the service. Mrs. Oscar Spann will direct the choir and Miss Janie Spann will be the pianist. The minister will deliver the message at this hour. The public is invited.

Vesper Service At 6:30 p. m.
At this service special attention will be given the older people. They will be allowed to name their favorite hymn or song to be sung. Member of the congregation are asked to bring the elderly people, shut-ins, etc. to the service in their cars. The Pastor will speak on the subject of "Evening Glories" as a special theme for the elderly people.

Youth Fellowship At 7:30 p. m.
The young people will meet in the church and the Juniors and Intermediates will meet in the church basement. Recreation and refreshments will follow after the worship.

THE CLOSED DOOR
Oh, blessed little church, with your door closed so tight;
No songs, no prayers, no sermons from your pulpit of light;
Our hearts are heavy as this first sabbath is so quiet.
But your every effort shall be rewarded, and your messengers are so many today.
God's every promise is never forgotten, and one, we know, doth truly say:
Where two or three are gathered in my name, there I shall also be;
And within all your meetings there was never less than three!
You have kept the torch burning for two-score years and more.
You have held high his banner, given courage to the weary, and clothed the hungry and the poor.
Now I am sure he bids you except his blessings; be quiet and know that he is God;
Be a monument of testimony, your faith in him confessing, following the path your predecessors trod.

Editor's note: The above was written by Mrs. H. T. Williams of

Clovis, N. M., daughter of the late W. O. Sargent, upon learning that the Union Chapel church had closed.

Veterans' News

Student veterans entitled to increased monetary benefits because they have more than one dependent are reminded by VA of two important deadline dates to be observed if they are to receive increased allowances retroactive to April 1.

One deadline affects veterans

taking full-time educational courses. The other affects veterans taking part-time courses, combination school-job training courses are entitled to increased benefits due to new subsistence-earned income ceilings.

Veterans in full-time educational courses who are entitled to \$120 monthly subsistence because they have more than one dependent must submit evidence of additional dependency before July 1 in order to have the higher payments retroactive to April 1.

Veterans with more than one dependent and taking part-time school training, combination courses or who are affected by the increased income ceiling must submit proof of additional dependency by September 1. In most cases, veterans in this group may submit this evidence on a form which they will receive from VA.

Veterans who lose subsistence, compensation or pension checks should notify immediately the appropriate Veterans Administration Regional Office.

VA said a veteran losing such a check should write a letter giving his full name and address, his claim number and the date and amount of the check. He should also state what the check was for and the circumstances surrounding its loss.

On being notified of the check's loss, VA determines first if it may have been found and returned to the U. S. Treasury. If so, the check will be re-mailed to the veteran. If not, VA will request the Treasury to stop payment and take necessary steps to reimburse the veteran.

A veteran who finds his check after reporting its loss should notify VA and hold the check until

T. P. A. President Accepts Key

Robert Matherne (right) of Baytown, newly-elected president of the Texas Press Association, is shown receiving from Paul M. Fulks (left) of Wolfe City, retiring president, the golden diamond-studded key to the Texas Treasure Chest at the State Fair of Texas upon his election by the press group last week in San Antonio. Witnessing the ceremony is Millard Cope, Marshall News Record, who represented the Texas Newspaper Publishers Association at the con-

vention. The golden-key, which is being passed down from president to president, will be used 38 years hence to open the treasure chest on the 100th anniversary of the State Fair. Embedded in 1908 in a monument to the founders of the State Fair, the chest contains historical documents and copies of more than 100 Texas newspapers. Mr. Matherne is publisher of the Baytown Sun, and Mr. Fulks is publisher of the Wolfe City Sun.

CARD OF THANKS

We wish to take this method of expressing our sincere thanks and gratitude to the many friends in Goree and Munday who were so much comfort in the bereavement and death of our husband and father.

The kind deeds, words of sympathy and lovely floral offerings were appreciated more than mere words can express.

Mrs. C. C. Maloney, Sr.,
Mr. and Mrs. Max D. Maloney,
Mr. and Mrs. C. C. Maloney, Jr.,
Miss Margaret Maloney,
Mrs. Mary Stewart and Steven Joe Stewart. 1tc.

200,000 Acres Of Knox County Land In Crops

Approximately 200,000 acres in Knox County in 1948 are devoted to crops, according to an estimate made by J. Max Carpenter, county farm agent, and representative of the Soil Conservation Service.

Small grain acreage was 72,000 acres, cotton 64,000 acres; sorghum grains, 52,000; corn, 1,000 acres; and alfalfa 799 acres, with summer fallowing placed at 2,000 acres.

Most agricultural lands in the county are in the south and southeast parts, with mostly pastures in the southwest and west.

"Ranges on the north side are very good with sufficient rain for a time," Carpenter said. "West and southwest the rains were very spotted and ranges can be pronounced only 'had' Carpenter said.

In a very dry area production of alfalfa is irregular, but the nearly 800 acres yielding it may be found in the lowlands about Vera and Rhineland, the spots near the Salt Fork of the Brazos river.

In the last two weeks cotton has shown rapid growth, but in some parts will require additional moisture. In the area between Munday and Knox City feedstuff is heading and should make good crops if additional moisture falls. Generally over the area, except westward where rains were very spotted, crop prospects have been improved with recent showers, Carpenter said.

In the Munday sector, where rains were generous, feedstuff

and cotton are making rapid growth.

During the spring months many cattle from ranches to the westward were shipped to Kansas, Colorado, Montana and other feeding grounds, according to Carpenter. The Santa Fe railroad shipped locally more cattle this spring than for several years.—Abilene Reporter-News.

Mrs. N. A. Chastain and son, Neil A., of Spur spent the week end here with Mr. Chastain.

H. B. Stubblefield and his crew of combine workers left last week for the north plains, where they are combining wheat.

M. H. Lee, Jr., of Lemon Cove, Calif., spent the week end here, visiting his brother, Travis Lee, and other relatives.

Miss Billie Jo Dickerson of Wichita Falls spent the week end with her parents, Mr. and Mrs. Elmer Dickerson.

Mr. and Mrs. T. J. Mitchell spent Saturday night in Aspermont with Mrs. Mitchell's sister, Mr. and Mrs. R. E. Higgins.

Mr. and Mrs. Worth Gafford have returned home from Turlock, Calif., where they have been visiting with their daughter and son-in-law, Mr. and Mrs. Frank Nance, Jr.

Mr. and Mrs. R. M. Almanrode and Barbara Jane attended the wedding of Miss Margaret Partidge and Cad Wingert at Gainesville last Saturday night.

Miss Billie Lou Speck of Wichita Falls visited her parents, Mr. and Mrs. Ardell Speck last week end.

Car, Truck, Tractor Needs

Furniture, Including Antiques, Being Repaired By Class Of Colored Veterans

Twenty-two colored boys of this country who saw service in World War II are learning a trade that will be of future benefit to them, and they are at the same time helping many people in the county and from other points who have good furniture that is in need of repairs.

This is a furniture repair and upholstery class being sponsored by the Knox County Vocational School for Veterans, of which John Inman of Munday is instructor.

Several months ago, the colored boys started out, knowing nothing about furniture repairing and upholstery. But they had a will to learn and an instructor who knew

how to teach them. Now they are doing high class furniture repair and upholstery work.

Soon the news of how these colored boys were learning a trade reached other places, and some moved here from Prairie View and Honey Grove to enroll in the class.

In commenting on the progress these boys have made, Fred H. Brownlee of Amarillo, district trades and industry supervisor for veterans schools, stated that this was one of the best classes in his district.

The boys have a will to learn and a will to work. A visit to their place of work—just west of the colored school—will find them occupied each evening. Inman gets in

OVERSEAS CHRISTMAS STILL ECHOES

Results of Christmas gifts sent to employees of French and British company affiliates by The Timken Roller Bearing Company still pour into the Canton, O., offices of the company. Shown with some of hundreds of letters received is William E. Umstatt, President of Timken.

4800 employees in the two countries each received one of the parcels which contained some 25 pounds of canned meats, shortening, fruits, chocolate, whole milk powder, egg powder, tea, sugar, fruit juice, soap and yeast. For convenience and safety in handling and delivery the company turned the job over to CARE. A flood of touching letters has been the result and Timken officials feel well repaid for their effort.

a dilapidated piece of furniture, calls several of the boys around, gives them pencil and paper, and tells them to write down all the things that the piece of furniture needs to put it back in good shape.

He then checks their recommendations and puts them to work.

Of the 22 boys enrolled in this class, two are from Goree, eight from Knox City and the remainder from Munday.

They're getting "quite a trade from Munday people who have learned of their ability. Some of the advanced students are specializing in the repair of antique furniture, and quite a room full of antiques are now on hand to be repaired.

Outside of the Munday trade, this class has done repair and upholstery work on furniture from such points as Brownwood, Newsum, Amarillo, Paducah, Wichita Falls, Honey Grove and Dallas.

They do this work "for free", too, because Uncle Sam is paying them to learn this trade. They delight in taking a piece of rickety furniture just to see what they can do with it. And it generally comes out in a jam-up good state or repair.

The boys have organized a social club, with each one chipping in two-bits a week to the club fund. Then once each month they use this money to throw a big feed at their monthly social, to which

KITCHEN MEMO BY JEAN CLARKE

Oven-baked desserts can be cooked along with the roast to save time and fuel. **Banana-Coffee Souffle**, one of these, is nourishing and flavorful. Melt 2 tbsp. butter in a saucepan. Remove from heat and stir in 3 tbsp. flour. Gradually add 1/4 cup strong coffee, 1/4 cup milk and cook over low simmer flame stirring constantly until nicely smooth and thick. Combine 1/4 cup sugar, 4 egg yolks, gradually stirring these into cooked mixture. Add 3 mashed medium-sized bananas, Beat 4 egg whites until stiff but not dry. Fold into banana mixture. Pour into 1 1/2 qt. soufflé dish which has been buttered on bottom only. Bake in slow gas oven (325°) 40 to 45 mins. Serves 6.

The most reliable buyer's guide to gas appliances for the home is the Seal of Approval of the American Gas Association Testing Laboratories. For example, nearly 600 tests and requirements must be met on a gas range before it can be produced and sold to the homemaker.

If your biscuits burn on the bottom and still remain rather pale on top, your baking sheet may be too large which tends to hold the heat from the burner to the bottom instead of radiating around the oven evenly. There should be at least one inch of space between the baking sheets and all four sides of the oven.

Hot butter and syrup makes a richer-tasting spread for waffles. Add 2 tbsp. butter to 1 cup extra-sweet corn syrup, heat until butter is melted, then serve hot.

As soon as baked potatoes are cooked, cut them criss-cross on the top to keep them fluffy. Add butter and serve at once.

Fertilized Wheat Land Produces Well On Plains Area

Wheat with fertilizer and wheat without fertilizer showed quite a difference on Hale county farms, reports County Agent Manuel W. Ayers.

Mr. F. B. (Buck) Hunt, who lives 10 miles northwest of Plainview, has several plots for demonstration purposes, and is finding out quite a bit about how good fertilizer really is.

On his 350 acres, Hunt has tried several different farm management practices where he uses different amounts of fertilizer on his plots. On one wheat plot Hunt applied 200 pounds of ammonium nitrate last fall before sowing. Another section is in summer fallow wheat land, and some has been planted to wheat only year after year. One plot under each of these conditions was left as a check plot.

The fertilized wheat on summer fallow looks as if it is doing the best of all, says Hunt. He estimates about 45 bushels to the acre.

The unfertilized on summer fallow is estimated at around 30 bushels. On one plot of wheat following milo where no fertilizer has been added, only 7 bushels per acre is expected.

With an investment of a little short of \$7 per acre for the fertilizer and an expected 15 bushels increase in acreage because he applied the fertilizer, Hunt is looking forward to \$30 more per acre at the current market quotations.

Hunt realizes that commercial fertilizer is not the whole answer to keeping the soil at its highest producing level. In order to maintain his soil fertility, he will have to develop a crop rotation system using winter legumes and other cover crops that add humus to the soil.

Hunt is not the only one. Quite a few farmers in Hale county are having similar experience with fertilizers on irrigated crops this year, reports Ayers, and just as many are working out a legume rotation system to keep their soils up to a high level of production.

Mr. and Mrs. Roscoe Partridge visited in Fort Worth and Dallas last week end.

Bobby and Ben Allen Yeager of Amarillo are here for several days visit with their uncle and aunt, Mr. and Mrs. J. C. Shockey.

Mr. and Mrs. J. R. Burnison visited Mr. and Mrs. A. D. Thompson in Austin over the week end.

P. V. Williams was a business visitor in Dallas the first of this week.

The girls are invited. Yep, they have lots of fun—and they're learning a trade. Chances are most of these boys will find profitable employment when their period of training is over.

More Money On Range Land With Soil Conservation

The proper management of range land by means of a conservation plan as worked out by district co-operators with assistance from range technicians of the soil conservation service means more money at the end of the year. The fact that good management of your range results in more than double the available tonnage of forage is food for thought for ranchers and farmers in the Wichita-Brazos Soil Conservation District, especially when the management involves no outlay of cash—only stocking so as to leave a generous residue of litter and practicing some deferred summer use. Handling the range like this is leaving one dollar on the range this year to make two next year. It is good business to be generous with the range. Not only will more forage be available each year as good conservation practices are put into practice, but a higher calf crop results, fewer death loss, heavier cows, less expense in handling, etc.

Farmers and ranchers in the Wichita-Brazos Soil Conservation District who are interested in obtaining the maximum profit from their range land will not stock their pastures with more cattle so as to get all the grass, but stock according to the long-time carrying capacity of that pasture which will provide for a carry over of ungrazed forage each year. A farmer

or rancher is 1 sing money who does not practice conservation ranching on his range.

Conservation on the range is but one of the many practices being applied to the land by co-operators of the Wichita-Brazos Soil Conservation District.

Vera Seniors Make Trip To New Orleans

Editor's Note: The following story of the Vera seniors' trip was received in the mails last Saturday:

On Monday morning of May 24, 1948, the Vera senior class, composed of Billy Blyde Laws, Becky J. Bowdoin, Patsy Ruth Kinnibrough, Goldie Richards, Peggy Ruth Knight and Marvin Jones; their sponsors, Mr. and Mrs. Homer D. Bentley, Mrs. Wayne Knight and Mrs. Emmett Richards, and the bus driver, Charles Robertson, left for New Orleans, La.

We drove to Marshall, where we spent the first night in the Whispering Pines, a beautiful park. The next day we drove to Baton Rouge, where we got lost and crossed the Mississippi river three times, twice on the bridge and once on a ferry, and then on to New Orleans where we spent two nights.

Just before we got to New Orleans we met two other Texas school buses. They were both

The New Look begins early, when it comes to ice cream. And why shouldn't it? asks the National Dairy Council. Because ice cream is not only tops for taste but doctors recommend it for sound nutrition and better health for young and old, summertime or any day in the year.

Weekly Health LETTER

Issued by Dr. Geo. W. Cox
M. D., State Health Officer
of Texas

Austin—“Few, if any, people have escaped the inconvenience and the annoyance of athlete's foot. It is said to be the third most common skin disease of the summer, and, contrary to popular opinion, the fifth most prevalent disorder in the winter.”

So says Dr. George W. Cox, State Health Officer, in a recent press release. Dr. Cox explains that athlete's foot is due to a small, mold-like growth or fungus which thrives on moist, warm parts of the body such as the feet.

“The infection of athlete's foot is usually gotten directly or indirectly from someone else,” Dr. Cox says, cautioning that the most likely places to contact the infection are around bath houses, locker rooms, and other public places where people go barefoot.

“It is probable that at least one-half of all adults suffer from the infection at some time.”

In suggesting some effective measures to be taken to prevent initial cases and avoid recurrent attacks of the disease, Dr. Cox emphasized drying carefully between the toes; use of a mild alcoholic solution on these areas aft-

er drying; liberal applications of talcum powder in the socks and the shoes; and wearing socks that are absorbent but not coarse. “Ill fitting shoes are often the source of athlete's foot, Dr. Cox warns. “Shoes that rub and chafe should be corrected or discarded.”

C. B. Jones of Mineral Wells was a business visitor here the first of this week.

Before Your Prescription Is Filled

Before a pharmacist can fill your prescription, he must pass a series of tests, given by the Board of Pharmacy of his state. After the applicant for a pharmacist's license has successfully completed four years of professional college work, he still must satisfy the Board of Pharmacy that he knows his job. Only then is he permitted to join with the physician in protecting your health.

All prescriptions at our drug store are filled by a registered pharmacist, so you may feel assured that your prescription is in careful hands when filled by us.

Let us fill your prescriptions.

Mr. and Mrs. W. L. McKee

Located next door to barber shop.

GOREE, TEXAS

from near Lufkin.

Our first day in New Orleans was spent in sight seeing. We drove down in the French quarters, where we went through the French museum and saw many interesting and unusual things. We went through the old French Cathedral which was built sometime in the 1760's. One particular thing of interest about the cathedral was the fact that they bury their priest in the sanctuary of the church. Another thing of interest was in the ceiling of the church, where they have a big hand-painted picture of every priest that had been pastor of the church including the present one.

That afternoon we took a sight-seeing tour of the harbor on the “President”, a large excursion ship.

Then that night we went out to the carnival grounds, where we had a wonderful time.

The next day we crossed the Huey P. Long bridge, which is the longest bridge in the south, and we drove to New Iberia, La., where we spent the night. New Iberia is the oldest city in the state.

The next day we drove to Orange, Texas, where we crossed the

tallest bridge in the south, and then on to Galveston where we spent two nights. We had a wonderful time on the beach, but came home with blistered backs and legs. While we were in Galveston, we were joined by Miss Mozelle Richards, who came over from Houston.

The next day, which was Sunday, we drove over to Houston where we spent about an hour. We left there and drove to Huntsville, where we stopped at one of the state prison farms, but we couldn't go through as it was Sunday. We spent our last night in Fairfield, which is about 33 miles south of Corsicana.

The last day we drove to Corsicana where we stopped, and Mrs. Bentley visited with her brother. We got home about five o'clock Monday afternoon, May 31, and were very happy to be at home once more!

Miss Martha Ann Reynolds of Wichita Falls spent the week end here with her parents, Mr. and Mrs. W. E. Reynolds.

Geo. Salem visited relatives in Rochester last Sunday.

New Maytag Home Freezer Serves also as Kitchen Table

Here is just one of the many unusual features of this new freezer which keeps foods right in your kitchen, where most convenient. Top is perfectly flat, of acid-resisting porcelain-on-steel. Fold-down leaf attachment gives additional space for food preparation, and may be used as a breakfast table. Food capacity, 6 cubic feet net—

holds 300 pounds of meat, or 240 pounds of mixed packages (average) of meat, fruit and vegetables. Counter-balanced lid opens easily—stays up without holding. Quick food defroster, for foods requiring it, utilizes compressor heat. Be sure to come in, first chance, and see these and other features for yourself.

Have you seen this amazing new Range?

The MAYTAG Dutch Oven Gas Range

- Cooks superbly by conventional cooking methods
- Cooks automatically; you don't even need to be there
- Cooks by the never-equalled Dutch Oven method

Come in today and see its many features. See the Sizzle Service Broiler, shown at left. See how the Spiral Flame burners focus the heat—and save gas. Note how easily it's kept sparkling clean, because top and burner bowls are all in one piece of porcelain. In every way you'll find the Maytag Dutch Oven Gas Range is truly outstanding. See it right away!

Second Round: Cartwright won from Phillips and Roden beat Tucker. Cartwright and Roden in finals.

BUSINESS FAILURES

Only four Texas businesses failed in May according to Dun and Bradstreet reports to the University of Texas Bureau of Business Research.

There were 5 failures in April 1948 and 2 in May 1947.

Business fatalities for the first five months of 1948 totaled 27, compared to 17 in the like period per failure in May, \$23,000 in April, and \$17,000 in May 1947.

Miss Wilma Tuggle left Tuesday of this week for Fort Worth to stay with her brother, Mr. and Mrs. Alton Tuggle and work during the summer months.

Apples may be kept for several months in the natural state if in good condition and are stored properly.

Munday To Make Second Try To Get Town Drained, Date Aug. 9th

MUNDAY, June 17. (HW)—Munday will make its second try August 9 to "waterproof" itself from recurring flood waters.

The Knox County Commissioners court, in session this week at Benjamin, acted favorably upon the petition of Mayor W. R. Moore and 56 other citizens to conduct a hearing at Benjamin August 9 at 10 a. m. for the creation of Knox County Drainage District No. 1. The petition was filed with the court June 1.

In April a petition by Munday citizens came up for a hearing before the court at Benjamin but both advocates and opponents agreed to recall it after a hearing, mostly farmers in the vicinity of Munday, objected to their lands being incorporated in the defined drainage area. Mayor Moore told the court then that it would be withdrawn and another petition would be circulated for a drainage area that would embrace only the corporate limits of the city. The session was rather heated for several minutes.

Munday, lying in a saucer, is subject to serious overflows from flash flood waters from the territory south and southwest of town. Several years ago drain water submerged many of the business streets, ran into buildings, ruining stocks. The only solution is to

divert the flood waters through a series of canals to the eastward, preventing its running into the business section.

A three-inch rain here about ten days ago filled main streets with lakes of water but the rainfall southwest was not heavy enough to bring about an accumulation to cause heavy damage.

Installation of sidewalk curbing has helped the situation and the paving of 49 blocks in the city limits is expected to help in the flood solution, officials declared.—Abilene Reporter-News.

Truscott Pastor Resigns To Go To Mineral Wells

Rev. Claude H. Harris, pastor of the Truscott Baptist church for the past nineteen months, has rendered his resignation to become effective immediately.

Sunday, June 20, was the pastor's last day with the Truscott church. He has accepted the pastorate of the Calvary Baptist church in Mineral Wells.

Rev. Harris and his wife have done splendid work with the Truscott church, and they made many friends who bid them Godspeed in their new work at Mineral Wells.
