

# THE MUNDAY TIMES

Volume XXVII.

Munday, Texas, Thursday, November 19, 1931.

Number 28,32

## Rev. Crowe Comes Back To Munday; Laney To Circuit

The annual conference of the Northwest Texas district, Methodist Episcopal Church, South, closed its session on Sunday at Vernon with the reading of the appointments. The Rev. John H. Crowe was returned to the Munday church, however, a change was made in the Munday circuit, the Rev. C. W. Parmenter, who has been on the work the past year, having been transferred to McAdoo, and the Rev. J. A. Laney, pastor at McAdoo, was transferred to the Munday circuit. The transfer, according to the Rev. Parmenter, was made in order that the Rev. Laney might have high school facilities for his children. The Rev. Parmenter has done a most excellent year's work on the circuit and we are sure that the members of his congregations will regret that he is being transferred to another field, but will welcome the opportunity to cooperate fully with the new pastor.

Among the assignments made by the conference that will be of interest to the citizens of Munday and vicinity are the following: Rev. E. Gaston Foots, pastor at Haskell was transferred to San Jacinto church at Aguirre. Rev. C. H. Meador was sent to Miami. Rev. J. O. Haynes was returned to Lubbock as pastor of the First church. Rev. M. R. Pike was returned to the Rochester-O'Brien charge. Rev. R. V. Tooley was returned to Woodson. Rev. B. J. Osborn was returned to Crowell. Rev. W. J. Mayhew was transferred from Estelina to Ralls.

## Rumor Afloat That Valley Shops Will Be Moved Stamford

From the Stamford Leader: One of the interesting items of news on the streets this week is the probable removal of the round house at Wichita Falls to Stamford, the argument being that Stamford is the logical place for the round house of the Valley. The work, which is pointed out can be done here cheaper and to better advantage. This being the logical place for the Spur line, the north and south end of the Valley, it is almost certain the change will be made. It will be a fine thing for Stamford as it will mean quite a number of men to move here and then pay out a lot of money here.

## BRUSHY NEWS

Church and Sunday school were well attended Sunday. Rev. Parks of Goree was called as pastor. Mr. and Mrs. Floyd Conwell have been entertaining a fine baby girl in their home since November 16. Mr. and Mrs. Pierce of Haskell, and Mr. and Mrs. J. E. Suggs were visitors in the home of Mr. and Mrs. Walter Weatherford, Sunday afternoon. Gertha Patrick spent the weekend with Miss Faye Britton. Miss Valene Hibbitt visited Miss Opal Miller, Saturday night. Mr. and Mrs. Herman Mays and family left for Fige county last week, where they will make their home. Mrs. Velvie Bowman has been dangerously ill the last few days. Mr. and Mrs. Edgar Lowe visited Mrs. Lane's mother, Mrs. T. C. Williams, Sunday afternoon. Mr. J. R. Hicks of near Munday, spent Friday night with his son and family, Mr. and Mrs. Walter Hicks. A heavy rain fell in this section November 16, and will be a great help to the grain. —Reporter.

Jimmy giggled when the teacher read the story of a man who swam a river three times before breakfast. "You do not doubt that a trained swimmer could do that, do you?" "No sir," replied Jimmy, "but I wonder why he didn't make it four times, and get back to the side where his clothes were."

## Sheriff Elliott Is Commended After Audit of Accounts

Sheriff C. R. Elliott has recently received a letter from Geo. H. Sheppard, State Comptroller of Public Accounts, informing him that he is just \$3.60 long in his accounts, and has that much coming from the State of Texas, according to an audit made of Mr. Elliott's accounts as Sheriff and Tax Collector for the term ending December 31, 1930. The audit was made by Geo. F. Rainbolt, a representative of the Comptroller's Department.

The audit covers Mr. Elliott's term as Tax Collector, and reflects credit on his painstaking care in looking after the county's business, for when it is considered that many thousands of dollars are handled through this office it is indeed an accomplishment to show so small an error, and that in favor of the State.

In his letter to Mr. Elliott Comptroller Sheppard expresses his sincere thanks for the courtesies and assistance given Mr. Rainbolt in making the audit, which requires considerable time, since every account cared for by the Tax Collector must be completely checked, and the report reflects credit upon Mr. Elliott and his helpers.

## Cemetery Work To Be Continued By Munday C. of C.

At the regular semi-monthly luncheon of the Munday Chamber of Commerce on Thursday noon of last week it was decided that the organization will continue to look after the keeping of the cemetery, and the committee which so efficiently looked after this work last year was retained. They are Dr. Ammons, J. A. Caughran and Leland Hannah, and they were authorized to employ a caretaker and make collection of funds for this purpose. While the cemetery funds are about depleted, it is believed that those who are interested in the keeping up of the cemetery will readily respond to the call and will assist in keeping the work going, and an urgent request is made that those living away from Munday make a remittance to this committee toward keeping this work going. The committee has employed a sexton who has done a most excellent job, and they plan to keep the work going. If you are interested in this work mail your check to either of the above named committeemen.

## RHINELAND

The fall team of the schools opened Monday. The attendance was not as good as expected. Miss Helen Herring left last week, Sunday, for Wichita Falls. Mrs. Herman Brinkman of Amarillo, Texas, is visiting with Mr. and Mrs. Joe Koenig and family. Prof. and Mrs. John J. Hoffman and family were in Wichita Falls and Scotland last Saturday. Mr. Frank Kuehler had the misfortune of hurting his hand last Saturday while he was handling cotton bolls. Mr. and Mrs. Peter Albus are the proud parents of a little girl. Mr. and Mrs. Victor Reider are entertaining a little daughter in their home. Mr. Lawrence Brinkenfield of Nazareth, Texas, returned home last Sunday. Mr. Albert Andree of Abilene, Texas, was here on business last week. The little son of Mr. and Mrs. Francis Albus burned his hand on Wednesday morning by trying to stand up with the aid of the gas stove. —Reporter.

"Say, Dad, I got in trouble at school today and it's all your fault. Remember when I asked you how much a million dollars was?" "Yes I remember." "Well, the teacher asked me to-day, and 'helluva lot' isn't the right answer?" H. F. Barnes, local depot agent, was transacting business in Fort Worth last Tuesday.

## Knox City Boy Is Winner In State 4-H Club Contest

E. L. Parks, Jr., of Knox City, will go to Chicago on November 27th as a result of having been declared one of the winners in the Texas 4-H Club contest, according to an announcement made last week by M. T. Payne, state boy club agent of the Extension Service of Texas A. and M. College. The list includes twenty-one farm boys representing practically every section of the state, and twenty boys and girls from the National 4-H Club Congress at the International Livestock Show late in November. The Santa Fe Railroad will be host to nineteen of the boys and Armour Company to the rest. The Texas boys will be provided with uniform cowboy hats for the trip. The Knox City youth received recognition in the contest by virtue of having produced 1 1/2 tons of milo maize per acre on twenty acres. The planting and cultivation of the maize was under the direction of W. E. Jones, county agent.

Other winners and their accomplishments were as follows: Doss Buntin, Plainview, Hale county, net profit of \$251.94 in one acre of 892.50 in show ring prizes, from three beef calves. Norman Berry, Seagraves, Gaines county, net profit of \$251.94 in one year from five dairy cows. Howard Pogue, Tulsa, Swisher county, profit of \$72.56 and \$103.30 fair premiums for mtwelve pigs. Sam B. Gillette, Canutillo, El Paso county, rated as Texas 4-H Club champion cotton grower with yield of more than two bales an acre on seven acres and net profit from crop of \$180.21. Arlyle Elliott, Lubbock, Lubbock county, who cut 3590 bundles from five acres of hegar.

Roy Simmons, Erath, Lamb County, who produced sixty bushels of hegar an acre on five acres. Jack Barnhart, Gainesville, Cook county, net profit of \$40.39 on 115 pullets that began laying in July. Harold Barrett, Hamlin, Jones county, egg production of 147 eggs a hen from flock of 176 hens to which he added 275 chicks. The annual Armour and Company trip to Chicago for the baby beef club championship of Texas was won by Elmer Johnson, Sudan, Lamb county, profit above feed cost of \$68.25 in feeding fifteen head of Hereford calves. Howard O'Daniel, Tulla, Swisher county, won gold watch given by Thomas E. Wilson, Chicago, to Texas 4-H Club boy considered champion livestock producer of state. O'Daniel raised and fed Hereford calves in carlot quantity. He is now entered for regional championship with the possibility of winning a trip to Chicago also. The demonstrations were supervised by county agents who supervised the activities of about 17,000 club boys in 180 counties of Texas, judging was on the basis of yield, profit, story and effect of the demonstration on the community. —Reporter.

## ARMISTICE PROGRAM

Sunset Consolidated held a service in honor of the World War veterans on Wednesday, November 11, at 8:45 o'clock. The invocation by Reverend Parmenter, was followed by a song, "There's a Long, Long Trail", sung by Myrtle Evans and Elsie Graham of Knox City. Mr. Almonrade, one who was in active service in the war, stood at attention during the pantomime, "Story of the World War in Song." Immediately after the program given in the auditorium there was a flag ceremony in front of the building. The classes passed in review in true military style to the flagpole. Orders were given, taps were played, "Star-Spangled Banner" was sung by the entire school, and a salute to the flag was given. We were glad to have the visitors who were present. We only wish that more could have been there to help us honor the ex-soldiers. Mr. and Mrs. W. H. Chapman, Mr. and Mrs. D. T. Mauldin and others from Munday attended the annual conference at Vernon on Sunday.

## GOLDEN GLEAMS

Let justice be done though the world perish.—Motto of Ferdinand I.  
A prince favors but on a few can fall, but justice is a virtue shad'ed by all.—Dryden.  
Where the offense is, let the great axe fall.—Shakespeare.  
He that is void of fear, may soon be just; and no religion binds men to be traitors.—Ben Jonson.  
He only judges right who weighs, compares, and in the sternest sentence which his voice pronounces, ne'er abandons charity.—Wordsworth.

## Thanksgiving Will Be Observed With Service Wednesday

Thanksgiving will be observed by all the churches of Munday with a union service at the Presbyterian church on next Wednesday evening at 7:30, at which service the principal address will be delivered by the Rev. John H. Crowe, pastor of the Methodist church. The mid-week prayer meetings at the various churches will be cancelled for this union service and everyone is cordially invited to attend. While we have not been definitely informed of their plans, it is presumed that the business houses of the city will close in observance of the day, as has long been the custom.

Sunset Consolidated held a service in honor of the World War veterans on Wednesday, November 11, at 8:45 o'clock. The invocation by Reverend Parmenter, was followed by a song, "There's a Long, Long Trail", sung by Myrtle Evans and Elsie Graham of Knox City. Mr. Almonrade, one who was in active service in the war, stood at attention during the pantomime, "Story of the World War in Song." Immediately after the program given in the auditorium there was a flag ceremony in front of the building. The classes passed in review in true military style to the flagpole. Orders were given, taps were played, "Star-Spangled Banner" was sung by the entire school, and a salute to the flag was given. We were glad to have the visitors who were present. We only wish that more could have been there to help us honor the ex-soldiers. Mr. and Mrs. W. H. Chapman, Mr. and Mrs. D. T. Mauldin and others from Munday attended the annual conference at Vernon on Sunday.

## Few Munday Folks Know History Of Its Development

The history—or that is, all of the history—of a town, city or community, is never all set down in the records one will find in the history books. It is doubtful if there is any town, city or community, which has ever undertaken to set down an accurate record of the events transpiring there which mark its development year by year. Munday probably has no such record, and there is probably a lot of important happenings in and around here which have had much to do with its progress which few, if any, can tell definitely about. They may know in a general way when, this or that, took place, and in a general way may be able to tell about it. But to get right down to the actual facts, there are few who could give accurate information. For this character of historical data, almost every town usually relies upon some particular citizen who takes a special interest in such things. Folks who like to keep tabs on events in this way sometimes set these happenings down in note books to be referred to in years to come. Some rely entirely upon their memory, but are able to discuss them fairly intelligently if the occasion arises. Now Munday is probably regarded as an average town of its size in the country, and its advancement has been marked in other towns. Yet it is doubtful if there are many citizens here who could tell you off hand when certain events took place. Yet these events are just as important in the history of the place as would be the fighting of a great battle, or some other historic event which would find its way into the history books of the nation, and certainly of this particularly state. Just for instance now, let's test your knowledge of the more or less commonplace things which have taken place here. They are called commonplace now, because they are found so generally everywhere one may go. However, at the time they came into being they were regarded as of signal importance, and truly so for they have played a large part in the general advancement of civilization. How many of the readers of this paper can tell us just when the first telephone was installed here, and where? There are numbers of them now, but the installation of the first instrument was an important event in the history of this place. How many can tell when the first automobile arrived and who was its owner? How many can tell when electric lights were first installed in the homes here, and when electric power was first offered for sale in running motors? How many can tell us when the

## Million Dollar Outlay Will Be Shown In Picture

Since arranging for the special Ford exhibit which was announced in last week's Times, E. H. Bauman, local Ford dealer, states he has been successful in arranging for a most outstanding exhibit known as the "Million-Dollar Model A Chassis."

A cut-away motor is mounted in a regular Model "A" chassis frame, showing very clearly all rotating parts of the motor. The transmission and clutch are also cut away, as is the rear axle assembly and wheels. The name, "Million-Dollar Chassis," has been given to this exhibit by people throughout the country who have been viewing this unusual Ford Show. Expressions such as "million-dollar quality" have been suggested because of the strikingly demonstrated quality and refinement that the Ford Motor Company, through its vast organization, has been able to build into all its products. In the eyes of the average laymen, this Million-Dollar Chassis is demonstrative of what can be accomplished by a Company whose policies are to produce an automobile of outstanding quality and refinement, building the car not to price, but to quality. You are especially invited to attend the Ford Show, which will be held at Bauman Motor Co., Friday and Saturday, November 20-21.

## FIRST BAPTIST CHURCH

We are fast approaching the end of this Baptist Stewardship Revival Campaign. The interest and response has been excellent all the way through. Next Sunday morning just before the preaching service Mrs. Blacklock's Sunday School class will present a little playlet that will be very interesting and impressive. The service next Sunday will be a special Thanksgiving service. The sermon will be in keeping with the occasion. This is not intended in any way to take the place of a Thanksgiving service that may be arranged by the town. If you are not worshipping somewhere else next Sunday we give you a special invitation to come to our service. W. H. ALBERTSON.

## FIRST METHODIST CHURCH

John H. Crowe, Pastor  
Sunday  
Church School 9:50 a. m.  
J. A. Caughran, Supt.  
Morning Worship 11:00 a. m.  
Sermon by pastor.  
All Departments of Young People's Division meet at 6:50 p. m.  
Evening Worship 7:00 p. m.  
Sermon by the pastor.  
Tuesday  
The Women's Missionary society will meet in social and business meeting at 3:00 p. m. At this time election of officers for the new year will be held.  
Wednesday  
Mid-week devotional service 7:15. Choir practice, Mrs. H. T. Myles, director.

## J. A. Caughran Is Chosen Methodist S. S. Superintendent

The Rev. J. H. Crowe announces the appointment of J. A. Caughran as superintendent of the Sunday school of the First Methodist church. Mr. Caughran succeeds G. R. Eiland, who recently resigned after a three year term of service. The membership of the church appreciates the faithful and efficient service rendered by Mr. Eiland and regrets that he finds it necessary to leave the office. However, this regret is tempered by the fact that the Sunday school will have the services of so capable and loyal a man as Mr. Caughran. Plans for the new year's work will soon be outlined and the school is expected to make further progress this next year.

Judge: "How far were you from this spot when these cars collided?"  
Witness: "Twenty-two feet and nine inches."  
Judge: "how do you know it was exactly that distance?"  
Witness: "Because I measured it thinking some fool might ask me."

How many can tell us about the telegraph and when it was first used as a means of communication in and out of Munday. How many remember the date highway 30 was finished through the county, and when our streets were paved? There are any number of things of this character which most of us have passed up in the mad rush of development and have, or are now, paying but little heed to. It would be very interesting to everyone here to make a list of just such things as these and test his memory of when he first knew them to be in use in Munday. They may not be regarded of much consequence just now, yet they have had much to do with the progress of this town, and the advancement of its people, commercially, educationally, socially and every other way.

## Moguls Will Tangle With Knox City In Thanksgiving Game

Arrangements have been completed to play the annual Thanksgiving game between the Munday Moguls and the Knox City Greyhounds in Munday. For some time it seemed that this game might not be played because of the difficulty of arranging a schedule after Munday joined the Interscholastic League. The Moguls have had hard luck this year in the matter of winning games, but perhaps too much was expected of them. The team is composed of inexperienced boys, and in every game they have been outweighed several pounds to the man. It is natural for football fans to place the blame for the poor showing upon the shoulders of the coach, but the best coach in the world cannot win football games unless he has the material. A coach cannot make a football team out of green material in one year. The team and coach have received words of praise for their fighting spirit and sportsmanship from every club they have played. When Munday and Knox City tie up in a game of football, past records and "hope" mean nothing, and this year will be no exception. Both clubs have been pointing all year to this game and victory for either club will make a successful season out of an otherwise disastrous one. Plans are being completed to have the entire student body of both schools present for the kick off, therefore, it looks as if the game this year will be the most colorful that has ever been played between these two schools. The kick off will be at 2:30 o'clock on Thanksgiving, so let's all give the Moguls the encouragement they deserve by being there with plenty of vim and pep!

## Cotton Ginnings In County Show Gain Over Last Year

Cotton ginning in Knox county shows a gain of 6,482 bales over the ginnings of last year, according to the report of W. H. H. Griffin, special agent of the Department of Commerce. Mr. Griffin's report shows that last year for the period ending November 1, there were 14,156 bales ginned in the county prior to that date, while the report this year shows that there were 20,638 bales ginned prior to that date, an increase this year of 6,482 bales.

## Five Year Old Girl Pulls 165 Pounds Bolls In One Day

Little Nadine Laney, 5-year old daughter of Mr. and Mrs. Loyd Laney, residing on the Kelly Johnson farm four miles northwest of Munday, is probably the champion boll-puller of Knox county to be age, having pulled 165 pounds in one day recently. If there are others who have beaten her this we would like to hear from them.

## Mat Dillingham Is New Superintendent For Utilities Co.

A Change was made in the local management of the West Texas Utilities Company last week when W. S. Dickerson, who has been superintendent of this district for the past three years, was transferred to Merkel in the same capacity and Mat Dillingham, who has held the Merkel position was transferred to Munday. Mr. and Mrs. Dickerson left the latter part of last week for Merkel and Mr. Dillingham and family arrived here the latter part of the week. During the time Mr. Dickerson has been a resident of Munday he has proven himself to be a most excellent citizen, and was ever ready to put his shoulder to the wheel and work for the betterment of the community at large, and his many friends in Munday and throughout the district will regret to learn of his departure. We extend to Mr. Dillingham and family a most cordial welcome to Munday, and we are sure that they will soon become full-fledged Mundayites, and will cooperate fully in all the community's undertakings.

## SOPHOMORE CLASS OF SUNSET SCHOOL IS ENTERTAINED WITH PARTY

The Sophomore class of Sunset Consolidated School was entertained in the home of Mr. and Mrs. D. H. Henry on Friday evening at 7:30 o'clock. Chrysanthemums made the plate of pimento cheese sandwiches and hot chocolate more attractive. Various games were played and many songs were sung. Those enjoying the evening were: Misses Edna Hudson, Maud Land, Olive Mae Partridge, Eva Reed, Elma Clarke, Dolly Nix, and Velma Henry, and Messrs. T. R. Bushy, Morrison Harbor, Arnold Land, Harold Partridge, Clyde Voss, Alton Crouch, Elwood Hackney, Vern Henry, Howard Voss, Rex Howell, Lucian Pevey, and Mr. and Mrs. Davenport and the class sponsor, Miss Rike. Harvey Lee of Truscott spent the week end here visiting in the home of his parents, Judge and Mrs. Oliver W. Lee. The Rev. T. C. Willett, formerly pastor of the Methodist church here, stopped here for a brief visit with friends on Monday morning while enroute to his home at Hamlin, where he was again assigned as pastor at the Vernon conference, and he expressed himself as being well pleased at being returned to the work there.

Mr. and Mrs. Branham Payne of Hamlin were week end guests of Mr. and Mrs. John Terry. Mr. Payne, who has been manager for a grocery concern at Hamlin, is making a change and will be associated with one of the large chain grocery concerns, and was expecting a message advising him where to report. Mrs. Payne will be remembered as Miss Olga Terry.

## Friday and Saturday Specials

CRANBERRIES, 2 quarts	25c
APPLES or ORANGES, 2 dozen	25c

#### Plans for Boop-oop-o-Doop

The faculty of Munday High is planning a "heap big time" for everyone on the evening of December 4. The queen race will have ended, and on that evening, the girl receiving the most number of votes will be crowned "Football Queen", in great state. But before this takes place there will be plenty of fun with laughter, thrills, shivers and screams for all. Some of the outstanding features will be "The House of Terrors" (this one will be even worse than last year's well remembered one), "The Wild Man", "The Human Car", "The Largest Baby in the World", "The Spider Woman", and best of all, "Chucking the Negro."

When you enter the door you will receive a ticket with a number on it, and at the close the person having the lucky number will receive a grand prize. It has not been fully decided what the prize will be, but it will be worth receiving.

The student arrangement committee appointed to help arrange for the carnival is composed of Vincent Lane, Lowry Rigby and Otis Perdue.

#### —Beat Knox City—

P-E-P!

The pep squad, under the direction of Miss Chapple, is changing from a dead organization to a live, fighting, cooperative group of girls.

In a recent meeting the club voted some new rules and regulations, and discussed activities for the game with Knox City. The girls are going to be there one hundred per cent strong, with plenty of pep and vitality, to help the

boys win by sheering for them. They are planning a parade before the game, and a stunt between halves.

**If baby has COLIC**

**CRY** in the night. Colic! No cause for alarm if Castoria is handy. This pure vegetable preparation brings quick comfort, and can never harm. It is the sensible thing when children are ailing. Whether it's the stomach, or the little bowels; colic or constipation; or diarrhea. When tiny tongues are coated, or the breath is bad. Whenever there's need of gentle regulation. Children love the taste of Castoria, and its mildness makes it safe for frequent use.

And a more liberal dose of Castoria is always better for growing children than strong medicine meant only for adult use.

### FEDERAL LAND BANK LOANS

5 1/2 -- Per Cent -- 5 1/2

A long term loan with the option to pay at any interest date, provided the payment to be made is out of one's own funds. And contrary to the general belief, THIS LOAN DOES NOT CARRY ANY LIABILITY ON YOUR FARM, OTHER THAN YOUR OWN LOAN.

This loan offers a saving of \$10.00 on the \$1,000.00 over any loan offered by any Loan Company in Texas.

The Munday National Farm Loan Association

JOHN ED JONES, Secretary-Treasurer  
PHONE No. 100 MUNDAY, TEXAS

Slaughter the Greyhounds, boys. The pep squad is behind you! Boop-oop-o-Doop New Members of Home Economics Club Initiated

Well girls, you missed a wonderful time if you were not at the Home Economics club party last Friday night. It was given at the Home Economics cottage, where all the new members were initiated.

I shall attempt to tell you of the torture that the new members had to endure. They first received a slapping on the face with a wet rag; then their faces were greased with lard and their hair was plaited and tied with bright colored strings. But the fun was just beginning because each of the poor creatures had to roll a tin can around the Home Economics kitchen. A visit to the dentist soon proved whether their teeth were clean or not. To make sure their teeth would be clean for a few days in the future, the dentist, Dorothy Matlock, brushed their teeth with Dutch cleanser (which was really meal, soda and mustard).

It was more than comical when the initiates were made to sit on their hands on the floor while everyone else enjoyed popcorn balls. But at last we had mercy on them and gave them each a pop corn ball.

Every one who attended the party reported a "swell" time, even though it was Friday 13th.

#### —Beat The Greyhounds!

Reverend Albertson Speaks to High School.

Friday morning, Brother Albertson, pastor of the First Baptist church, spoke to the students of Munday High School on the subject of character building. He compared the failures in life with the "nubbins" of the corn field. We were urged to continue in our pursuit toward the building of character. He compared seed with people, and showed how the environment would affect both and how, in turn, good seed would survive in spite of the bad environment.

This talk was very inspiring to the student-body, and they extend a cordial invitation to Brother Albertson to visit the high school often.

#### Boop-oop-o-Doop

The student-body is glad to have Miss Clifford back again, after an absence of a few days.

#### —Beat Knox City—

Lane's Lowdown  
Folks, I guess the Moguls are going to have to get hostile and win their next two games. In fact should the Moguls win their next two games, the school and the Mo-

gul fans of Munday would consider the season a very successful one.

#### —Beat Seymour—

I think that the school or the football squad could not give Coach Palmer enough praise for the way he has handled the Mogul Football Team. The school and the team should show their appreciation in some way for his endless interest and untiring efforts.

#### —Beat Knox City—

As every one knows Knox City and Munday have been bitter rivals for a long period of time. The Knox City Greyhounds come to Munday Thanksgiving. Because of rivalry this should be the best game of the season for both teams and we all hope the Moguls will keep the victory at home.

#### —Beat Seymour—

The Moguls' journey to Seymour next Friday for their last conference game. The Moguls should win because their success would re-establish confidence in themselves and this would aid in their victory over Knox City.

#### —Beat Knox City—

I think the Olney team should win the conference because they have clean record with no defeats. Crowell and Chillicothe have only one defeat each and Chillicothe has a game with Olney. If Chillicothe should win, that would make Crowell, Chillicothe and Olney all tied for the championship honor.

#### —Beat Seymour—

Well folks, basket ball starts this week and from the material in school the Moguls should win the County championship this year. We have a few letter men back this year. We, also, have some material that may keep these letter men warming the bench.

#### —Beat Knox City—

Munday is very fortunate to have Mr. Hardegree as basket ball coach again this year. With Mr. Hardegree as coach, and the valuable material available Munday should make an enviable record in this interesting sport.

#### —Beat Seymour—

The girls' basket ball team will also start regular practice Mon-

day. Although there are only three players in school who received letters last year, it is expected that they will have a good team because of the "winning material" that will compose it. Miss Chapple will coach the team.

Goodbye folks, I will have to stop but I will see you in Seymour and we will help the Moguls come home victorious.

#### Boop-oop-o-Doop

#### —SOPHOMORES—

We have certainly been having some good football games in our Algebra classes, since the girls are playing the boys. Thursday, the girls of class "A" won, and the boys of class "B" won; but Friday the girls won in both classes. Each member of the class who works his Algebra problem correctly is given six points. At the end of the class period the points are counted and the winning team is given a premium of six points. These games stimulate interest in classwork, and cause the members

#### —SOPHOMORES—

Senior boys of the Mogul squad, do your part in helping the Moguls beat Knox City, and other members of the Senior class will do their part in rooting on the side lines and in the pep squad!

We have not had many class entertainments this year, but we are looking forward to the Indian Pow Wow! Our Junior friends are going to entertain us with before long—As has already been mentioned, this entertainment is our reward for beating the Juniors in the magazine selling contest we participated in about a week ago. We know for certain that this entertainment will be a "wow", since the Juniors and their sponsor, Miss Chapple, will be responsible for it.

#### —Wallop the Greyhounds—

#### —JUNIORS—

The Juniors, Red Feathers, are planning an Indian Pow Wow where the Seniors, Green Feathers, will be entertained in a "heap big" way. We want to show the Seniors that we are good losers by giving them the best entertainment possible.

In the queen race, we Juniors are only a few hundred votes behind the Seniors, and we are going to work harder than ever in order to beat them, so that our representative will be crowned queen.

#### Boop-oop-o-Doop

#### —SOPHOMORES—

We have certainly been having some good football games in our Algebra classes, since the girls are playing the boys. Thursday, the girls of class "A" won, and the boys of class "B" won; but Friday the girls won in both classes. Each member of the class who works his Algebra problem correctly is given six points. At the end of the class period the points are counted and the winning team is given a premium of six points. These games stimulate interest in classwork, and cause the members

of the classes to study and to try a little harder.

Sophomores, life is a season of golden hours for those who value their time properly. It is a dreary waste of lost opportunities for those who place little or no value on it. Make your minutes count if you would make life profitable as a whole.

#### —Slaughter Knox City—

#### —FRESHMEN—

Friday, the English class was turned into a courtroom. We are glad to say that no one has been found "not guilty" of reading his fiction book. Our judge and lawyers have proved themselves very capable of conducting court.

The girls of the Home Economics Club who were initiated Friday night reported that the initiation was very light, although their

noses and knees were rather sore.

We freshmen are more enthusiastic than ever over the queen race, since at the last counting of votes our representative, Maxine Lane, and the Sophomore representative had the same number of votes. We are going to work hard, and we sincerely hope that our representative wins.

### Are These Efficient Servants Working In Your Home?

THERE are literally hundreds of efficient Electrical Servants which inexpensively will assume the hard and distasteful work in your home. They cost so little, and operate at such slight expense, it is truly "penny wise and pound foolish" to struggle along without them.

Electric Vacuum Cleaners, Ranges, Washers, Refrigerators, Toasters, Waffle Irons and a multitude of other appliances will assume your house-cleaning, cooking and laundering worries; electric heating pads, curling irons, teakettles and sewing machines will fill important needs in every home.

When these efficient and dependable Electrical Servants, operating for but a pennies a day, will eliminate the drudgery from your home, shouldn't you profit by their use at once?

Convenient Terms can be arranged on the purchase of one or more of these essential appliances. Call in at the Merchandise Showroom today.

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule and adds only a small amount to your total bill?

**BACK TO A SOUND PRINCIPLE OF GOVERNMENT**

Our young Attorney General, James V. Alford, evidently entertains some old-fashioned ideas, which have been cropping out here of late and are causing grave concern in the camps of the monopolists, which have been completely demolished and given the stamp of approval by all Federal Government agencies in late years.

Mr. Alford's latest move is against the big oil companies, which have openly formed combines in flagrant violation of our anti-trust laws, which have seemingly been forgotten by our law-enforcement agencies.

The big combines come back with the plea that their action has the approval of the Federal Trade Commission, but Mr. Alford reminds them that there still remains some small vestige of State's rights, despite the tendency in recent years to relinquish all regulatory problems to centralized boards and commissions at Washington.

Mr. Alford reminds the oil companies and the Federal Trade Commission that the grand old State of Texas still possesses some regulatory authority and has a young Attorney General who has some old-fashioned ideas about State's rights, and we'll see whether or not all of the powers of the individual states have been swept away in regulating combines of big business.

Every citizen who believes in

the principles of state's rights and local self-government as against a centralized government in Washington by appointed boards and commissions should give this move of our young Attorney General a hearty applause.

**ANOTHER WAY OF LOOKING AT IT**

Ever since the politicians created the "power trust" a few years ago, we have been privileged to hear criticisms of the utilities and utility regulations from many persons holding high government offices.

It is, therefore something of a pleasure to have President Hannah of the National Association of Railroad and Utilities Commissioners, bring these critics to book. At the recent annual meeting of his Association he said: "The champions of centralized government and of federalization of the agencies of regulation who advocate stripping the states so far as possible of their sovereign rights, which would make them only outlying provinces, as it were, will find little comfort if they will take survey of the nation as it stands today in the shadow of the greatest financial crisis in its history, when they find the utilities corporations, which are solely under state regulation, are weathering the storm better than are all other agencies of commerce and trade, and that their securities have de-

preciated less than other securities on the market today. This, in my opinion, grows out of the fact that the state regulating bodies in a vast majority of the states must, under the law, pass upon the issuance of bonds and stocks of these various utility corporations, and these issues are always kept within the limit of sound financing and below the rate base which is the actual valuation of the physical properties of the corporations which are used and useful in the public service. In other words, the valuation adopted for utility securities issues reflects what the property is actually and honestly worth with all the water squeezed out of it."

What would happen to utilities and investors if these affairs were directed by a Federal commission, sitting at Washington, takes little imagination to forecast. Such a body would have no conception of local problems and needs. It would be dictated by the most powerful of all political bodies—the Congress. And, it is safe to say, the result would be chaos. Whenever the heavy hand of bureaucracy falls on a business, that business starts the death-spiral.

State regulation has resulted in an absolutely sound utility structure. It has caused, with the aid of the utilities themselves, better service, lower rates. The political gods of paternalism are going to have a hard time getting around this.—Manufacture and Industrial News Bureau.

State regulation has resulted in an absolutely sound utility structure. It has caused, with the aid of the utilities themselves, better service, lower rates. The political gods of paternalism are going to have a hard time getting around this.—Manufacture and Industrial News Bureau.

**AMARILLO MAYOR WINS FIGHT AGAINST UTILITIES**

AMARILLO, Nov. 12.—Amarillo has brought the Southwestern Bell Telephone company to terms, thus completing its victory over every public utility in the struggle for lower rates. It has also cut the cost of water and taxes.

The city has not evaded a single issue but has taken the trouble and pains to challenge, and fight to a satisfactory settlement every utility and tax problem.

"With the rest of the world, Amarillo is on a new economic plane," says Mayor Ernest O. Thompson, who has led this battle against the utility giants. "Incomes are reduced. We decided that the only way to get along under the new order of things was to adjust the burden of the people in proportion."

The city took the first step, reducing taxes more than 26 percent. The tax rate was cut from \$1.35 per \$100 to \$1, and valuations were not increased to neutralize this cut. City tax reductions are based on 75 percent of actual values. The \$1 tax rate was set up last year and again this year. The city's fiscal affairs have been rearranged to that with the present rigid economies continuing into the future, the \$1 rate can be used for the next seven years at least.

"Our people appreciate the low tax rate now in effect and in prospect for so long a time ahead," says Mayor Thompson.

The second step also was taken by the city, in reducing the water rates. By introducing every material economy in the municipally owned plant the price was reduced from 50 cents per 1,000 gallons to 27 cents, saving the people a great deal of money yet leaving enough profit to pay every requirement of interest and sinking fund, set up a depreciable reserve and earn the comfortable surplus of \$158,000 each in bank.

After putting its own house in order, the city government next tackled the gas rate. The spectacular fight, lasting more than a year and attracting national attention, brought the price down

from 45 cents per 1,000 cubic feet to 27 cents, this rate being written into the long-time franchise.

Negotiations with the company producing electricity brought the price down from 9 cents per k. w. h. to 7 cents for domestic users, while the electricity used in schools of the city and for street lighting and pumping costs 1.3 cents per k. w. h.

The gas and electric cuts save the people of Amarillo \$500,000 a year in pocket, or \$10 for every man, woman and child in this city of 50,000.

The last step was to secure a cut in telephone rates. A reduction of 25 cents per month for residences and 50 cents for business phones was obtained. But the City Commission, joined by the Chamber of Commerce and thousands of citizens, continued the fight, which is now drawing to a close. The Telephone company announced at Tuesday night its positive assurance that terms would be reached "satisfactory to the city."

About \$1,000,000 a year has been saved to the people of Amarillo in cash, which they would have had to pay under the old tax and utility rates. This explains in a measure why Amarillo has been able to stay in the "white spot" of the Nation's Business map for the past 30 months.

"The best part of our struggle," says Mayor Ernest O. Thompson in summing up the results, "is that there have been no hard feelings. The utility companies and people alike are happy to have stepped down to a permanent new rate level."

**WANT ADS**

NOTICE—We have moved first door west of Munday Hotel. Will appreciate all mattress work. Call in and see us. Get our prices on New and Old beds made over.—S. S. STAR, Prop.

**SOUR STOMACH**

JUST a tasteless dose of Phillips' Milk of Magnesia in water. That is an alkali, effective yet harmless. It has been the standard antacid for 50 years. One spoonful will neutralize at once many times its volume in acid. It's the right way, the quick, pleasant and efficient way to kill all the excess acid. The stomach becomes sweet, the pain departs. You are happy again in five minutes.

Don't depend on crude methods. Employ the best way yet evolved in all the years of searching. That is Phillips' Milk of Magnesia. Be sure to get the genuine. "Milk of Magnesia" has been the U. S. Registered Trade Mark of the Charles H. Phillips Chemical Company and its predecessor Charles H. Phillips since 1875.

### This and that

**The Building of Sound Teeth**  
 There was a recent article published in the Literary Digest which states that caries (decay) of teeth can not only be prevented by diet, but that no tooth that is beginning to form will often be filled in by tooth substance, when the patient is put upon the proper diet.

Dr. Thomas, of the Harvard Dental School in his book, "Teeth, Diet and Health," gives cogent reasons why natural food has so much influence upon the formation and preservation of the teeth. Europeans from the rural district of Europe as a rule possess strong, sound teeth. They live principally on black bread, with abundance of fruits and vegetables. They grind their grains at home or on some neighboring mill. They have no means of separating the constituents of the grains. Consequently they eat little or no refined white flour bread.

Dr. Thomas says that "the ravages of dental disease increase in direct proportion to the advance of civilization. Modern diet lacks vitamins and calcium (lime) salts. Important constituents of our food are destroyed by refining and overcooking. Yet the elements that are removed in this way are positively essential, not only to sound teeth, but to good health."

Fyorrhea has become a scourge among American people. It can be produced artificially in animals by feeding them on deficiency foods. In experiments upon guinea pigs, all the symptoms of pyorrhea (which is supposed to be a mild form of scurvy) ensued, with the attendant bleeding, pus laden gums and loosened teeth when the animals were fed upon improper diets.

McCullum wrote, that "by dividing a large number of closely related rats and feeding them from very early life on diets of different qualities, some can be made to form perfect teeth which remain healthy until the animals are old, whereas others feed less satisfactory diets have teeth which have poor texture and decay early. In these experiments no other influence than diet operated. Phosphorus and calcium are essential to the growth and health of the bones and teeth. When foods are eaten with an insufficient amount of these elements the bones and teeth suffer. Whole milk contains large amounts of calcium and phosphorus. Probably, milk is the best tooth building material that we have. Sherman says that children assimilate the elements of milk better than vegetables. He goes on to say that they should be fed abundantly on vegetables and milk.

It is very essential in tooth building to eat hard, coarse food that requires thorough chewing in order to exercise the teeth and surrounding tissues. This improves the circulation and brings the

blood to nourish the parts. Soft mushy diets composed of refined foods promote tooth decay. Uncooked foods such as celery, carrots, cabbage, tomatoes and fruits help to cleanse the mouth as well as the blood. Diseased gums and teeth indicate poor health and too little natural vitamin-filled foods.

**Who Squeals Loudest?**  
 "Farmers are always squealing" is a phrase often used by many who do not farm, but plenty of others have been squealing recently.

Speaking about this very thing, Russell Lord in his new book, "Men of Earth," says:

"The late war made a newspaper hero of the farmer and put money in his pocket. But he has been paying ever since for those few years of economic and emotional expansion. Ever since 1919 he has been taking it on the chin. "He has taken it, for the most part, standing up. With less than half the grievance, Big Business, it has since become evident, can hop up and down as fast and squeal twice as loud. Industry has been depressed for only about two years at this writing; Agriculture has suffered a twelve-year depression."

**HOGS FOR SALE**  
 We have some nice butcher hogs for sale. Also some thorough-bred Duroc Jersey gilts for sale.

### BOWELS need watching

Let Dr. Caldwell help whenever your child is feverish or upset; or has caught cold.  
 His simple prescription will make that bilious, headachy, cross boy or girl comfortable, happy, well in just a few hours. It soon restores the bowels to healthy regularity. It helps "break-up" a cold by keeping the bowels free from all that sickening mucus waste.  
 You save a famous doctor's word for this laxative. Dr. Caldwell's record of having attended over 3000 births without loss of one mother or baby is believed unique in American medical history.  
 Get a bottle of Dr. Caldwell's Syrup Pepsin from your drugstore and have it ready. Then you won't have to worry when any member of your family is headachy, bilious, gassy or constipated. Syrup Pepsin is good for all ages. It restores the bowels; increases appetite—makes digestion more complete.
