

Weekly Health LETTER

Issued by Henry A. Holle, M. D., State Health Officer of Texas

AUSTIN—A flood, two epidemics, and a bad polio season marred the public health picture in Texas during 1954, a review of health department activity shows.

In late June the Rio Grande, maddened by 10 to 20 in rain, ran wild through five border counties. The highest flood crests in the river's history inundated vulnerable water treat-

ment plants, increasing the danger of water-borne disease outbreaks. Public health engineers put plants back into operation within nine days. This, and emergency vaccination programs, forestalled a crisis.

In August an epidemic of mosquito-borne encephalitis struck hundreds of victims in Hidalgo County. State Health Department laboratory experts identified the cause as Saint Louis virus, which had never before occurred in epidemic form in this area.

Psittacosis in isolated flocks of turkeys plagued health officials all spring and summer. The first outbreak 48 employees of a Corsicana packing plant in May. Other cases cropped up in scat-

tered areas, but the disease was finally smothered by a tight program of flock sanitation.

The year just past was both disheartening and encouraging concerning polio. It was disheartening because 3107 cases made 1954 the second worst polio year in state history; encouraging because of the high hopes held for the success of the Salk vaccine field trials of last spring.

Some 35,000 Texas second-graders took part in the field trials, and state and county health officials since then have been quietly collecting blood samples and recording data which must be analyzed before the true significance of the vaccine will be known. Results will be announced next spring.

Week end guests in the home of Mr. and Mrs. Elmer Cude were Mr. and Mrs. W. R. Black and children of McKinney.

S/Sgt. James Brady, whose home is in Sherman, and who is stationed in Limestone, Maine, visited with Mr. and Mrs. Zane Franklin several days last week. Sgt. Brady and Mr. Franklin are war buddies.

CARD OF THANKS

Our heartfelt thanks to our many friends who extended sympathy and help in our recent sorrow in the passing of our loved one. For the beautiful floral offerings and other kindnesses we are deeply grateful.
Mrs. Nell Stratton.

THE STATE OF TEXAS

TO: The Unknown heirs of Mrs. Fannie P. Bunts, and all persons owning or claiming any interest in the Estate of Fannie P. Bunts, deceased, Defendants, Greeting:

You are hereby commanded to appear before the Honorable County Court of Knox County, at the Court House thereof, in Benjamin, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 31st day of January, A. D. 1955, then and there to answer Plaintiff's Petition filed in said Court, on the 13th day of December, A. D. 1954, in this cause, numbered 835 on the docket of said court and styled Estate of Fannie P. Bunts, Deceased, and C. H. Potter and S. L. Potter, Plaintiffs vs. All persons claiming any interest in estate of Fannie P. Bunts, deceased, and the unknown heirs of Fannie P. Bunts, deceased, defendants.

A brief statement of the nature of this suit is as follows, to-wit:

This is an action to declare heirship, filed by C. H. Potter and S. L. Potter, alleging that they are the sole heirs of Fannie P. Bunts, deceased, and are entitled to the entire estate of the said Fannie P. Bunts, deceased, both of real and personal property, and against the unknown heirs of Fannie P. Bunts, deceased, and all persons owning or claiming any interest in her estate, as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this pro-

cess shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Benjamin, Texas, this 13th day of December, A. D., 1954.

Attest:

ZENA H. WALDRON,
Clerk, County Court, Knox

Many Thanks --

TO ALL OUR FRIENDS and CUSTOMERS:

As of January 1, 1955, we have sold the Stodghill Home and Auto Supply to DONALD DECKER of Munday, who will continue to operate the Firestone Store.

We have operated this business since January 1, 1952, and during these three years we have enjoyed your wonderful patronage and the many friendships which have continued to be ours.

Needless to say, we leave this business with many fond memories of you and your patronage.

We solicit your continued patronage for the new owner, and we believe he will do his best to serve you in the home and auto line in every way possible.

We will continue to make our home in Munday, and will devote our entire time to farming interests in this area. We will continue to be a part of the community, sharing with you your joys and sorrows as they come into our midst.

Again thanking you for your fine patronage and endearing friendships, we remain,

Yours very sincerely,

Mr. and Mrs. J. L. Stodghill

What's in it for you?

Every Texan profits in a large way from every barrel of crude oil and every cubic foot of natural gas produced in the State.

Directly. Taxes paid by the petroleum industry to support all agencies of the State Government, including schools, old age assistance, and welfare institutions, totaled \$170 million in 1954, more than a third of all the taxes collected by the State. And, in addition, the industry pays millions in other taxes to counties, school districts, and municipalities.

Indirect profits are even greater. Industry employees receive and spend about \$850 million a year; royalty and lease payments to landowners add up to \$500 million. Most of this money passes promptly into trade channels.

As a result, you'll find oil dollars on every

balance sheet in Texas and in every bank account, including your own.

... But you can't figure profits in money alone.

The chief profit from the production of oil and natural gas rests in what these fuels do: In the miles you cover with your car... in heat for your home... in the usefulness of articles made from petroleum hydrocarbons... in the power that moves long trains across the continent and turns the wheels of the large industrial plants.

This profit Texans share with all Americans. It is reflected in the American standard of living, which is the world's highest; and it provides a dividend of national security, because a well developed, efficiently operated petroleum industry is one of the major resources in the U. S. arsenal for national defense.

NOXIOUS WEED THREAT

Drouth relief hay shipped to Texas in recent months can have mixed effects—it can be a blessing and a curse.

No one can doubt the value of hay for hungry cattle on barren ranges. Yet, right along with it comes reports of the spread of weeds from seed mixed with the hay.

Plant quarantine inspectors of the Texas Department of Agriculture have uncovered the fact that a number of weeds previously 'foreign' to Texas are springing up on land nudged of grass by the drouth. It now develops that cattle are helping spread these weeds.

Hay that is carelessly harvested or baled may contain an undue amount of weeds. These bales entering Texas are consumed by livestock. Much of the weed seed can pass through the digestive tract of cattle unharmed and ready for germination.

A number of stockmen report their pastures are covered with new weeds which sprung up in this manner. This was especially true in fields heavily overgrazed where no grass was present to prevent weeds getting a foothold.

Farmers and stockmen importing hay into Texas, or who are buying from truckers bringing hay from out of state, are urged to examine the hay thoroughly before purchasing. If an undue amount of foreign plant matter is present, it would be best, in the long run, to refuse the hay. Otherwise, controlled feeding in pens would be a preventive measure although this is not practical in most cases.

Outbreaks of strange weeds on ranges should be called to the attention of the Texas Department of Agriculture at Austin. Material on methods of control of noxious weeds will be sent upon request.

DANGER OF SOIL COMPACTION CITED

Soil compaction some day may rank with erosion as a factor limiting crop production, says Jack H. Barton, extension soil and water conservationist.

Land use for intensive cultivation and grazing is in greatest danger.

Compacting of the soil, says Barton, begins to limit crop production when the soil particles are pushed together so closely the movement of air and water through the soil is restricted. Plant roots upon reaching the compacted layer—or hard pan—begin to grow in a lateral direction.

Soil compaction is often associated with clay and clay loam soils. The conservationist says they also form in sandy and medium organic type soils.

"Best remedy for this condition is to work with nature and not against her," says Barton. He urges farmers to simplify tillage operations to decrease the number of trips over a field with heavy equipment. Avoid working or grazing fields that are too wet.

A good rotation system will increase the organic content of the soil. Well-fertilized, deep rooted crops will help crack the hard pan, Barton says.

A compacted soil holds less water and is more subject to erosion than a soil without this hard layer, he says.

Play Table Top

FOR youngsters, to whom play is important business, a play table will be most welcome. It's easy to convert an old desk or card table to this purpose, or to build a brand new one.

Most important part of the table, whether new or rebuilt, is a splinter-free, durable surface that requires little care. Excellent for the top is Masonite Tempered Presdwood, a hardboard widely used in industry for workbench tops and in super-markets as shelving and checkout counters.

This surface will take a lot of punishment. If the youngster decides to pound on it, let him; no harm will be done. Many model railroad sets are located on tables faced with Tempered Presdwood, as illustrated. Tracks for electric models should be bolted down, so the table may be used for other purposes, too, when the child tires of his train.

SHORTFED CATTLE

SCRIP IN BIG SUPPLY
FORT WORTH — Livestock trade on the first marketing day of the new year was featured by above normal numbers of shortfed cattle, especially yearlings and heifers. Also, a larger than normal offering of sheep and lambs, plus some additional weakness in hog prices as supplies in the Corn Belt were again large.
 At Fort Worth well finished mature steers, cows and bulls drew firm prices Monday, but the large percentage of the run which was yearlings and heifers showing signs of light feeding or shortfeeding periods sold around 50 cents or more lower.
 The numerous lots of heifers in the run indicated that again this week there were likely to be larger numbers of them offered. This bears out estimates made earlier this Fall that more heifers were on feed in the

Southwest than earlier estimates indicated.
 Very good demand for highly fitted slaughter cattle developed and most observers at Fort Worth feel that mature heavy steers are going to grow increasingly scarce in this region as the season progresses, and that more and more young cattle will make up the beef supply.
 Stocker and feeder trade was brisk on the kinds with quality, and the plainer sorts were inclined to drift along with the lower grade slaughter kinds.
 Choice fat calves were steady, and the plain and medium butcher sorts were weaker.
 Good and choice slaughter steers and yearlings bulked at \$19 to \$24, and the common, plain and medium butcher kinds cashed at \$12 to \$18.50, with some ratty kinds of yearlings around the \$10 mark.
 Fat cows sold mostly from \$10 to \$11.50, a few heiferish kinds above that figure. Canners and cutters sold mainly from \$6 to \$9.50, some high yielding cutters of western type, or of Brahman extraction, to \$10. Virtually no merchandise kinds sold under \$6.
 Best weighty bulls again cashed at \$12 to \$13, individuals above that figure. Lighter weights and commoner kinds sold mostly from \$9 to \$11.50, except some activity on stocker bulls of the lighter weights was noted.

Some stocker bulls sold from \$10 to \$13.
 Good and choice slaughter calves cleared at \$15 to 19, with best creepfed heavies to \$20. Common and medium slaughter kinds sold from \$11 to \$15, and culls cashed around the \$10 mark.
 Good and choice stocker calves cashed at \$17 to \$20, and were quotable at \$21. Yearling stockers sold mostly from \$19 down, but were quotable at \$21. Yearling stockers sold mostly from \$19 down, but were quotable above that when choice, with straight loads quotable to \$20 and better. Replacement cows cleared at \$8 to \$12.

HOGS WEAK TO 25c LOWER ON MONDAY
 The hog market again felt the impact of large runs in the Middle West, and prices at Fort Worth were 25 cents lower. Top hogs scored \$18.25, and the lighter kinds, as well as fat backs, finished kinds, etc., sold from \$17 to \$18.
 Sows were weak to 50 cents lower at mostly \$15.50 downward, a few lightweights above that range.
 Texas hog prices were again well ahead of most Corn Belt averages at the start of this week, and despite the estimate that 1955's Texas pig crop will be 15 per cent above last year observers at Fort Worth feel that hog growers will still be in a relatively advantageous position. Reason for this is that despite the increase in Texas production, it will still be some 37% behind the ten-year average.
 This leaves Texas pork production still far short of Texas pork consumption. In fact, packers at Fort Worth estimate that more than 75% of the pork eaten in Texas last year was shipped in from out-of-state either as live hogs or pork products.

FAT LAMBS BREAK
 50c TO \$1 CWT.
 The run was predominantly fat lambs on the market at Fort Worth Monday, and as the trade developed it soon was apparent that some of the previous week's advances were going to be rubbed out. By the time clearance was completed the slaughter lambs were 50 cents to \$1 lower, with woolled lambs topping at \$19, and shorn lambs with a No. 1 pelt \$18 and \$18.50 and below.
 Shippers paid up to \$18.50 down some No. 1 pelts. Most good and choice slaughter lambs sold from \$17 to \$19, and medium and lower grades sold from \$10 to \$16. Feeder lambs sold from \$17 to \$19, and medium and lower grades sold \$10 to \$16. Feeder lambs sold mostly from \$16 downward in small lots, with sizeable strings to shippers as mentioned above at more money.
 Most other kinds of sheep and lambs were steady and rather poorly tested. Slaughter yearlings were quoted from \$10 to

Old ewes drew \$5 to \$6.50 and old bucks sold around \$4. Breeder ewes were quotable from \$6 to \$12.

Activities of The Colored People
 Sunday school was well attended at both churches. The presiding elder, Rev. C. R. Rutherford, held communion service at the Methodist church at the 11 o'clock service.
 The schools seems to be off to a good start in the new year. Mrs. Calvin, teacher of the elementary department, and her students wish to thank Mr. L. A. Bowden for the lovely Christmas tree he gave them. It was highly appreciated.
 Mrs. Calvin succeeded in her effort to carry her students on an educational tour. A school bus was furnished by the school board for the trip. Several of the students from the other department accepted the opportunity to go, and also the principal, Mrs. A. D. Rutherford, and six of the parents. This was the first event of this kind in the history of the Munday school.
 The tour was made in the city of Fort Worth. The new Greyhound bus station was the first stop on the tour. There we had hot coffee, sandwiches and other drinks for the children.
 Next, they visited the beautiful restricted Negro addition in the Rossdale Park area, where no homes are built for less than \$10,000. Beautiful new schools, new churches, and all kinds of places of business are found in this locality.
 The next place was the Vandervoort's ice cream factory. That was the most interesting place of all. The children were shown how all the different kinds of machinery worked in the processing of milk in many different ways. That one scene was worth the entire trip.
 Next they went to the Forest Park Zoo, where they had a chance to see all the wild animals they have been studying about in geography. At last they went down town and visited many places of interest including Leonard Bros. shopping center, a city within itself. Then the trip back to Munday.
 Mr. Dee Allred was the driver of the bus. He was one of the nicest men we have ever known. He showed every courtesy and kindness to us we could wish for. We hope, should we have a chance to go on our next year, that Mr. Allred will be our driver.

What's the new news in the '55 cars?

Is it V-8 Power? Ford has had it since 1932

Is it suspended pedals? Ford introduced them in 1952

Is it Ball-Joint Suspension? Ford had it in 1954

Is it oil and battery signal lights, curved instrument panel, rotary door latches, push-button door handles, power-lifts for all windows, Overdrive, Hotchkiss Drive? Ford has had all of them, too!

Is it hood-high fenders? Ford introduced them in 1952

Knox Prairie Philosopher Wants Wrap-Around Seat And A Futuristic Furrow-Control Put On His Tractor

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek has been reading about the new cars, his letter this week indicates.

Dear editor:

I have been readin about all the new models of automobiles, the 1955 numbers with such beauty it takes coined words to describe them, and have been wondering why the tractor manufacturers don't catch on.

For example, new automobiles just ain't new automobiles, they are moto-amic or futuristic or power-packed or fire-domed, etc. The windshields aren't just windshields, they're super-scenic, swept-back and wrapped-around. The bodies are flair-fashioned, with flying color, zig-zagging two-color, etc.

As I say, why don't the tractor people get on the ball?

I don't know whether it would make goin up one row and down

J. A.

another any more fun, but a farmer is entitled to just as many beautiful words as a city car driver, and I have been thinking up some words to describe new tractors.

Instead of saying this tractor has a seat on it, why not say it has a wrap-around seat with cloud-like comfort-control?

A tractor with row-appeal and jet-action furrow-hugging is what I'm looking for.

Instead of saying it has three

or four speeds forward and one reverse, why not say it has multiple-choice forward-flight and bounce-free backing-up?

As for colors, I understand these new cars you see zipping along the highway with flair-fashioned fenders and metal-in-action zig-zagging color schemes are designed to give the impression they're in motion even when they're standing still, and that's exactly the kind of color scheme I'm hunting for on a tractor. Get the thing out to the middle of the field, leave it there, and take off fishing, and as far as your wife could tell looking out the kitchen window the tractor is still moving up and down.

However, understand, I don't want this thing to get too far beyond the beautiful word stage. For example, my tractor doesn't have a gas gauge on it, and I hope it never does. Running out of gas on a tractor is a little different from running out of gas in a car. When you run out of gas in your car, it's a nuisance, but it's different on a tractor, at least it is when I'm on one. All you do is turn the switch off, get off the thing, stretch your legs, kick the tires affectionately, walk off to a comfortable spot, rest and fool around until noon, go home and eat, and take a can of gas back with you in the afternoon.

Yours faithfully,
J. A.

Mr. and Mrs. Terrell Pettit of Littlefield visited friends here one New Years day.

Mr. and Mrs. Bill Womble and daughter of Dallas, Mr. and Mrs. Joe Layne Womble and son of Midland and Mr. and Mrs. Wayne Hardin of Knox City were guests in the home of Mr. and Mrs. Wayne Womble during the holidays.

CARD OF THANKS

As we are unable to thank each of you personally, we take this method of thanking each of our friends for your kind words of sympathy, the food, the beautiful flowers at the death of our father, R. L. Cooke.

May each of you find such friends in your dark hours, is our prayer.

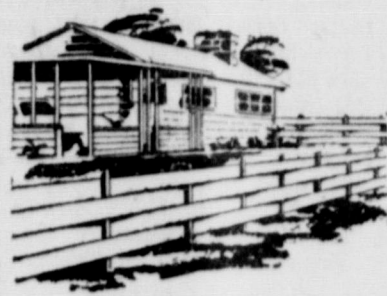

The Cooke Family.

Modern: Woven Fence

WHAT'S new around the home? Well, it's a woven fence, which will enhance the appearance of anyone's house.

Easy to construct, a woven fence is both distinctive and practical. Set your 4-inch square posts in concrete spaced about four feet apart and two and a half to three feet deep.

An easy-to-handle, long-lasting fencing material for this purpose is Masonite 1/4" Siding, available at lumber yards in strips 12 feet long and in widths of 12, 16 or 24 inches. Slightly round the edges of the siding and bring the joints into moderate contact.

The Tempered Presdwood siding is fastened to the posts with five-penny galvanized siding or galvanized box nails spaced not more than 4 inches apart and not closer than 1/2" to the edges.

Paint the Masonite as soon as possible after application, using a primer-sealer and two finish coats.

Mr. and Mrs. Charles Williams and Glyn Ray of Waco visited their parents, Mr. and Mrs. Grady Williams of Goree, during the holidays.

Mrs. Gillie Lewis has returned to her home in Roby after spending the holidays with her sisters, Mrs. Jim Proffitt and Mrs. Claude Hill.

FORMER RESIDENT DIES AT FORT WORTH

Mrs. F. L. Bowley of Munday received word Wednesday night of the death of her sister, Mrs. G. W. Gardener of Fort Worth. Mrs. Gardener, a former resident of Munday, will be remembered by old timers as Mrs. Jim Owen. Mrs. Bowley left Thursday morning for Fort Worth to attend the funeral. Arrangements were incomplete at the time of her departure.

Mr. and Mrs. V. F. Albus and children spent the week end with relatives in Groom.

Miss Valera Albus spent the past week with her cousin, Miss Anita Kuhler, in Amarillo.

Rural school in Texas are keeping pace with urban schools despite a 66 percent drop in number since 1949. Findings of a recent survey made by the Texas Agricultural Experiment Station are given in a new bulletin, 783, Rural Education in Transition. It's available from the Agricultural Information Office, College Station.

ATTEND CHURCH EVERY SUNDAY

Last Rites For Robert L. Cooke Held December 21

Funeral services for Robert Lafayette Cooke were held from the Brushy Baptist Church at 3 p. m. December 21, 1954, with Rev. Oscar Byrd of Hobbs, Texas, officiating. He was assisted by Rev. Clyde Cooke of Abilene, pastor of the Brushy Church.

Burial was in Brushy Cemetery under the direction of Laningham Funeral Home of Goree.

Mr. Cooke was born in Cook County in 1876, and was 78 years, 10 months and 2 days of age. He passed away December 20.

He married Louise Letitia Haskins on July 27, 1898. To this union were born five sons and two daughters; Mack of Goree, Lynn of Bomarton, Sam of Farwell, James of Goree, Mrs. W. C. Williams, Pettit, and Mrs. J. A. Griffith, Colcord, Oklahoma. Also surviving are 14 grandchildren and eight great grand-

children. His companion and one son preceded him in death.

He moved to Haskell County in 1900, settling in the Brushy community, and had resided there since that time. He was converted and baptized into the Baptist church in 1917. He was a charter member of the Goree Masonic Lodge.

Pallbearers were Verster Bowman, Lester Bowman, Cody West, J. D. Hicks, G. C. Conwell and Oran Chamberlain.

Drive carefully. The life you save may be your own!
