Contributions

If you itemize deductions on Long-Form 1040, a deduction, subject to certain limitations, is allowed to individuals for the contributions they make to recipients such as the following:

(1) Organizations, funds, etc., created and operated exclusively for religious, charitable, scientific, literary, or educational purposes, or for the prevention of cruelty to children or animals, if they are organized under the laws of the Federal, State or U. S. territorial governments, are non-profit and do not conduct propaganda or otherwise attempt to influence legislation.

(2) Domestic fraternal societies operating under the lodge system, if contributions are to be used exclusively for purposes noted in the (1) above.

(3) Any state, territory, or possession of the United States or any political subdivision, or the United States or the District of Columbia, if contributions are exclusively for public purposes.

(4) Non-profit Veterans' groups, or trust or foundations for such groups, organized in the United States or any of its possessions.

(5) Non-profit cemetery companies owned and operated ex-

clusively for the benefit of their members, or to any non-profit corporation chartered solely for burial purposes as a cemetery corporation and not permitted by its charter to engage in any business not necessarily incident to that purpose.

Some examples of the treatment of contributions are:

You CAN deduct gifts to:

Churches, including assessments

Salvation Army
Red Cross or Community Chests

Non-profit schools and hospitals

Veterans Organizations
Boy Scouts, Girl Scouts, and other similar organizations

Non-profit organizations primarily engaged in conducting research or education for alleviation and cure of diseases.

You CANNOT deduct gifts to:

Relatives, friends, other individuals, political organizations, or candidates

Social Clubs

Labor Unions

Chambers of Commerce

Propaganda Organizations.

The deduction is allowable only for the taxable year in which the contribution is actually paid. A mere pledge of a contribution does not give rise to a deduction.

Amount of Contributions Deductible: In general, the deduction for contributions may not exceed 20% of your adjusted gross income. Under the new

Is This Your "Oscar"?

Is this attractive doll coming to your town? Could be Cook County School of Nursing, in the heart of Chicago's great Medical Center, is planning a King's Size Homecoming in June which will attract its Alumni from all parts of the country. "Miss Oscar," shown here with a student nurse and a member of the welcoming committee, will be awarded to Alumni in the area which has the largest number of nursing recruits to the school this year.

The celebration marks the twenty-fifth anniversary of the school and also marks the seventy-fifth anniversary of the Illinois Training School for Nurses to which Cook County School owes its rich heritage — 75 years of nursing service in Cook County Hospital.

Chicago Alumni are working with the Hospital Medical staff to provide three days of clinics, lectures, sightseeing and a rousing welcome to nursing and medical Alumni from coast to coast.

1954 law, there is a special additional deduction up to 10% for contributions made to churches, a convention, or association of churches, tax-exempt educational institutions, and tax-exempt hospitals, which must be computed as explained below. If all your contributions were to these churches, school, and hospitals, you can deduct up to 30% of your adjusted gross income. To compute the deduction for contributions, you should first figure the contributions to these special institutions to the extent of 10% of your adjusted gross income and the amount in excess

of 10% should be added to the other contributions to which the 20% limitation applies. If all contributions to churches, schools, non-profit hospitals, and other allowable organizations do not exceed 20% of adjusted gross income, then you may deduct the full amount of your actual allowable contributions.

Engine KNOCK signals power-loss...

STOP KNOCK

with ESSO Extra for '55

STOP MOTOR OIL KNOCK WITH HUMBLE UNIFLO

Humble Esso Extra gasoline for '55 will give you the best anti-knock performance you've ever had.

But motor oil can also cause knock. Some oils form combustion chamber deposits that raise compression ratios even higher, increase a high compression engine's tendency to knock. These deposits also cause pre-ignition ping.

Humble Uniflo motor oil does not form knock-causing deposits. Thus, in effect it raises the anti-knock performance of your gasoline.

Uniflo also saves gasoline, lengthens battery life, gives you

superior lubrication and cooling. You use the same grade the whole year around.

When you use both Esso Extra gasoline and Uniflo motor oil, you're using the best performance combination ever.

The entirely new gasoline with the highest performance rating ever offered Texas motorists.

When your car knocks, you're losing power, burning too much gasoline, dirtying your engine. Knock—even ping—is more than a noisy inconvenience—it's expensive, too.

But you can stop knock with Humble's Esso Extra for '55. This entirely new gasoline has the highest octane rating (anti-knock quality) offered Texas motorists.

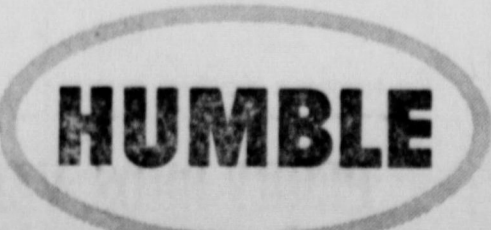

It's an absolute must for the new high compression 1955 engines.

And it assures the improved performance of any car, any make, any model.

Get the Esso Extra habit! . . . Your car will give you performance you never dreamed it had!

No. 1 in Texas

Now, more Texans than ever before prefer Esso Extra to any other premium gasoline.

News From The U. S. Congress

Congressman Frank Ikard

According to officials of the U. S. Geological Survey, the drought from which Texas is suffering ranks among the eight major droughts of the last six hundred years. It has been in full sway one one part of the state or another for the last ten years, and during most of that period it has affected not only our farmers and stockmen, but the economy of the whole state. It is during periods of drought such as this that we are most appreciative of the importance of water conservation. The Weather Bureau reports that the average annual rainfall in Texas produces some 360,000,000 acre-feet of water within the state each year. Of this amount, only 9% is direct runoff to streams, and only 1.5% soaks in the ground. The remaining 89.5% is consumed by plants, evaporates, or is just lost completely. How to trap, use, and conserve more of this water is probably the Number One question facing the state of Texas today. There is in existence definite programs now being carried out in the state by the Soil Conservation Service and the Corps of Engineers to develop methods, plans, and means for better water conservation. Both of these organizations are very

effective and efficient; however, their plans necessarily take time, and they are handicapped in many instances by lack of funds. There is undoubtedly a need for additional legislation in this field which will be considered and I hope favorably acted upon during this session of Congress.

The latest figures indicate that the present population in this country is about 163.5 million people, which is an increase of 50% since 1920 and an increase of 24% since 1940. Even more important is the fact that since 1951, our population has grown 9 million which is equivalent to the total growth of our country during the decade of the Thirties. This tremendous trend of population increase could mean great activity and prosperity to this country for generations to come. Our increased agricultural production and efficiency would indicate that we would have no trouble feeding our population. The recent housing boom should pretty well catch us up for places for the families to live. Certainly there can be enough clothing produced to clothe any reasonable increase in population. Everyone should consider the great opportunities that lie ahead rather than being filled with despair and should face the future with hope and enthusiasm because it is only by doing this that we can keep our economy expanding and our cultural and religious institutions alive to the tremendous challenge that

lies ahead. Mr. and Mrs. Tom White of Wichita Falls were visitors in Washington this week. Also, Senator George Moffett of Chilocco, Grand Master of the Grand Lodge of Texas, was here.

Texas Official Travel Maps Out

AUSTIN—A special accordion wrap-around fold has been developed and is one of the features of the 1955 Official Texas Travel Map which is being published today, it was announced in Austin by D. C. Greer, State Highway Engineer. The old wheeze about needing another map as a guide for refolding an opened travel map is not true of the Texas map, he pointed out.

In addition to the simpler folding map used, the map is also easier to read than ever before. The rapid growth of the Texas Highway System has presented more of a problem each year in preparing the map. The system has been growing at the rate of about 3,000 miles a year, he said, and space must be found somehow for this additional mileage. Most of the topographical relief has been taken off this year, so that more essential information may be read easily and quickly.

"The map can also be truly considered a Texas production," Greer went on to say, "since the paper is made in East Texas from Texas trees, and the map is printed right here in Texas, too." The colorful pictorial side of the map this year features events and state scenes of general interest, and emphasizes the fact that regardless of what you want to see, it's in Texas, Greer stated.

One-half million copies of the 1954 map were distributed to travelers last year. Requests were almost equally divided between out-of-state tourists and Texans, Greer said.

Wesleyan Service Guild Meets On Monday Night

The Wesleyan Service Guild of the Methodist Church met in its regular meeting last Monday evening at the church. Mrs. Joe Bailey King was in charge of the mission study on India, Parkistan and Ceylon.

Mrs. C. P. Baker read the scripture, and those taking part on the program included Mrs. Erin McGraw, Mrs. E. R. Ponder, Mrs. King, Mrs. Weldon Smith, and Misses Ruth Baker and Merle Dingus.

After a short business meeting, refreshments were served to the following members and guests:

Mrs. C. P. Baker, Levi Bowden, Aaron Edgar, J. C. Harpham, H. R. Hicks, Joe Bailey King, Erin McGraw, J. W. Massey, E. R. Ponder, John C. Spann, Weldon Smith, Oscar Spann, Layne Womble, S. E. Brown, J. H. Amerson, R. M. Almanrode, Maxie Ireland and Misses Ruth

Local Woman Is Honored On Her 85th Birthday

Mrs. O. W. Lee was honored on her 85th birthday on Monday, February 28, with a "come and go" reception at her home. Miss Colleen Wheeler served as hostess.

Mrs. W. P. Farrington and Mrs. Lee Haymes each brought the honoree a beautiful birthday cake. Dr. R. L. Newsom was her first visitor.

During the day approximately 30 friends called and were served the cake with coffee or orange crush. Among the guests who called during the afternoon was Rev. Doyle Ragle, Methodist pastor.

Mrs. Lee received a number of beautiful and useful gifts.

The annual Texas 4-H roundup is scheduled for June 7-9 and will be held on the campus of Texas A. & M. College.

Weekly Health LETTER

Issued by Henry A. Holle, M. D., State Health Officer of Texas

AUSTIN—Most of us take hearing for granted. It probably has never occurred to us what a change it would make in our lives if we were suddenly deprived of it. We seldom think of the numerous sounds we hear during the day, sounds which keep us in close touch with the world about us. For those who can't hear, or who have difficulty hearing, it's almost like living in a different world, declared Dr. Henry A. Holle, State Health Officer.

There are many children, more than a million it's estimated, who live in this other world. They have either been born deaf or have lost much, or maybe all, of their hearing since birth. Being somewhat cut off from the world, the deaf child is frustrated because he can't communicate his feelings and needs to others. A sense of inferiority and hostility is frequently the result.

Most hearing loss in children is the result of repeated colds and infections in the ears, nose and throat. Such infections can cause what we know as conduction deafness. If such infections are not treated early, a child's hearing may receive permanent damage. Hearing loss may follow measles, scarlet fever, influenza or meningitis. These diseases may result in what is referred to as nerve deafness.

Enlarged adenoids, the result of infections, account for many cases of partial loss of hearing. The overgrown adenoids block up the little tubes that lead from the throat to the ears. These tubes must be open and clear for

Safe Driver

Texas Motor Transportation Association has honored C. C. Draper of Central Freight Lines, Inc., Dallas, as "Driver of the Month" for February.

A coveted certificate recognizes Draper's excellent record of driving 15 years and over a million miles without a single chargeable accident.

Draper was commended by the company for his outstanding job with an award of 25 shares of Central Freight Lines stock. The line driver rolls a tractor-trailer and has spent all of his 17 years behind the wheel for the one employer.

Draper is 47 years old and the father of five children. He is the brother of Mrs. Kirby Fitzgerald of Munday.

He was nominated for the TMTA award by R. H. Lisman, Central president and general manager, and Henry B. Lewis, safety supervisor for the firm.

good hearing. For these children, curing infection isn't enough. Their adenoids may have to be removed. Otherwise, they may suffer permanent hearing loss.

Not all children with a hearing loss can regain it. A serious infection, such as meningitis, can completely destroy the patient's hearing ability. As soon as deafness is suspected the child should be taken to an ear specialist for a complete examination.

CARD OF THANKS

The kindness of friends and neighbors during the illness and after the death of our husband and father will always remain with us as a precious memory. Our gratitude for your help and expressions of sympathy cannot be adequately expressed.

WORLD DAY OF PRAYER OBSERVED AT VERA METHODIST CHURCH

World Day of Prayer was observed in Vera Friday, February 25th from 2:30 to 4:00 P. M. in the First Methodist Church. Four churches were represented in the council of United Church Women program: the First Christian Church, First Methodist Church and the Presbyterian Church of Seymour and the First Methodist Church, Vera.

The worship service of meditation and prayer was given by Mrs. Wesley Trainham, Mrs. Tom Hurd, Mrs. A. K. McLaughrey, Mrs. G. F. Boone and Rev. S. A. Wolfe, pastor of the host church.

Ushers were Mrs. J. M. Roberson and Elizabeth Brown.

An inspired dramatic skit—"Fruit of the Vine" was presented with Mrs. J. D. Jefecoat and Mrs. Wesley Trainham as narrators.

In the presentation were Mrs. Olen Coffman, Mrs. Clyde Beck, Mrs. Finis Bratcher, Brenda Beck, Finis Bratcher, Robert Coffman, Mrs. Ailyn Laws, Elizabeth Brown, Carol McLaughrey, Barbara Lee Coffman, Betty Jo and Barbara June Townsend.

Mrs. Jess Trainham was pianist with Mrs. Hoyle Sullins directing the singing.

Mrs. S. A. Wolfe was responsible for the impressive worship center. A liberal offering was taken to be divided equally between the Division of Foreign Missions and the Division of Home Missions, National Council of Churches which allocates it for interdenominational work.

BURNET COUNTY CLUB LAMBS SOLD
FORT WORTH—Another of the fine commercial feeding programs that are gaining such wide popularity in the programs for 4-H and FFA youths was cl-

maxed when about 500 lambs and 50 people from Burnet County converged on the sheep barns at Fort Worth.
 The Burnet County program is recognized as one of the best in the state, and the lambs sold at good prices. Some in feeder flesh sold for \$18, and others with more fat at \$19 and \$19.50. They had short skin credits, mostly No. 3 pelts.
 Some fancy full woolled lambs topped at \$22, and some choice milk fat lambs topped at \$22, also.
 Slaughter lambs averaged 50 cents lower at Fort Worth Monday, while feeders and older sheep were steady. Feeders sold

at \$20 down.
SCAB UNDER CONTROL, DIPPING IN PROGRESS
 Livestock Sanitary Commission offices in Fort Worth reported that all sheep involved in the current outbreak of scab in Kinney, Maverick and Valde counties are believed to have had their first dipping and the matter is under control, according to J. D. Jones of this office.
 It has been feared that if the matter became serious a resumption of dipping at all market and community sales might be necessary. However, Jones in talking with this writer Monday expressed the view the situation was fully under control.

CATTLE SCAB IN COLORADO FOUND
 Ten southeastern counties in Colorado are engaged in a dipping and eradication campaign against scab. Work is progressing well according to latest reports.

TEXAS' CALF CROP WAS NEW RECORD!

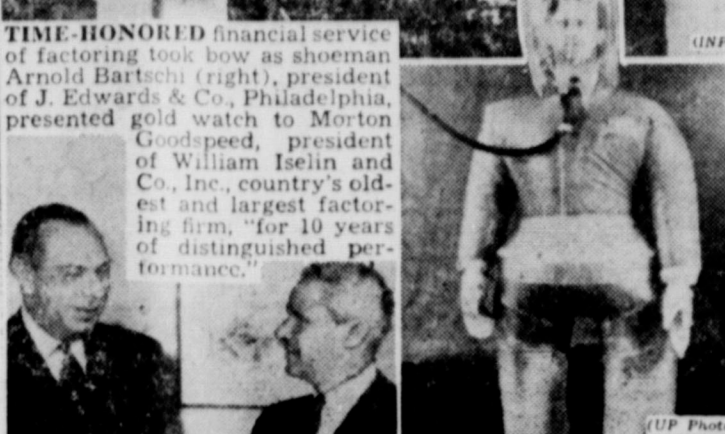

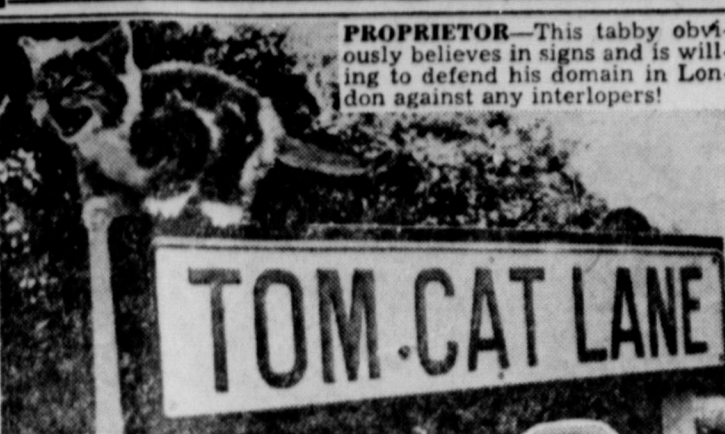

The USDA figures just released on Texas' calf crop in 1954 indicate a total of 4,259,000, about one percent above the 1953 total of 4,211,000. It was the biggest calf crop on record, according to the department.
 Expressed percentage-wise as the numbers of cows and heifers two-years-old or older, it meant that the crop was 87 percent. This unusually high percentage came about despite drought. Calf crop was 85 percent in 1953, and average for the past ten years was 80 percent.
 In the United States 42,210,000 calves, or 3 percent more, were raised in 1954. The 1953 total was 40,947,000. It was also an all-time record.

FED CATTLE LOWER AT FORT WORTH

Fed cattle were 50 cents and some bids \$1 lower at Fort Worth Monday. Heavy supplies at Northern markets, plus the fact recent prices grade for grade at Fort Worth have been above the Corn Belt averages, was credited with weakening of the prices.

Choice steers topped at \$24. Cows were steady, and bulls unchanged. Calves were 50c to \$1.00 lower, heavyweights to \$21 and \$21.50, and mostly \$20.50 down. Stocker calves sold from \$22

HOGS TOP AT \$17 IN MONDAY TRADE
 Butcher hogs opened at a top of \$17 at Fort Worth Monday. This was steady to 25 cents lower than last week's close. Buyers again were emphasizing the meat-type hogs and paying the better prices for those kinds. Sows were steady at \$15.50 down.

Knox Prairie Philosopher Favors Pay Raise For Our U. S. Congressmen But Wants The Farmers Included, Too

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek seems to want to attach a rider on the Congressional pay bill, his letter this week reveals.

Dear editor:

Being interested in the welfare of the country, which includes the welfare of Congressmen, I naturally have been interested in the efforts being made to increase the salary of the latter up in Washington.

A lot of reasons have been given as to why Congressmen ought to make more money, that is, more money on their regular government pay check, this has no reference to anything that comes in on the side in some cases. I don't know whether Congressmen are as smart as state office holders or not but I know of one or two cases where a state employee can take a \$6,000-a-year salary and in a few

years become wealthy, by sheer economy and financial genius. I guess, like turning off the lights at home except the one he's sitting under, at any rate, to get on with what I was saying, out of all the reasons given why Congressmen ought to have their salaries increased, the one I liked best is this:

Living costs have gone up, and it wouldn't do to keep the pay so low that only a rich man could afford to serve in Congress. Now that makes sense to me,

PERENNIAL FAVORITE

Perennial feminine favorite is the cardigan. This sweater in fine novelty cotton knit is designed by Smartee in such color combinations as honey and black or turquoise and black. The versatile cotton cardigan, completely washable, may be worn with skirts or slacks.
