It's very nearly but not exactly accurate. In arithmetic a near miss will never satisfy teacher. The same principle applies to insurance. You may think, because you are approximately covered, that you are well protected. But often when disaster comes it strikes the chink in your armor—the hole in your insurance coverage. That is one reason why you should have an experienced agent in your community handle your insurance. Another is that the competent agent represents only strong capital stock insurance companies.

with new Thunderbird Styling with new Lifeguard Design

A glance tells you that the '56 Ford has the long, low lines... the dazzling beauty of the fabulous Ford Thunderbird.

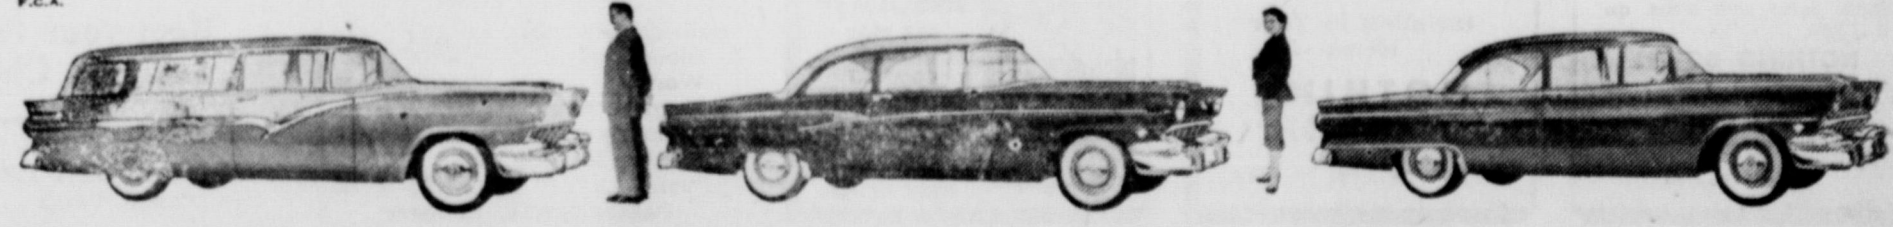

But wait till you touch the gas pedal! Then you'll know that Ford goes like the Thunderbird, too. With the new 202-h.p. Thunderbird Y-8 engine, available in Fordomatic Fairlane and Station Wagon models, you'll pass with new confidence, smile at hills.

And there's even bigger news! It is Lifeguard Design. With the cooperation of leading universities, medical associations and safety experts, Ford found that most serious accident injuries were caused by the driver being thrown against

the steering post, occupants being thrown forward against hard surfaces, or from the car. So, Ford developed a new Lifeguard steering wheel with a deep-center structure to help protect you from the steering post... Lifeguard double-grip door locks to give added protection from doors springing open under shock... optional Lifeguard cushioning for instrument panel and sun visors, to help lessen injury from impact... optional seat belts that help keep occupants securely in their seats.

Come in soon! See the '56 Ford, test its power, and learn what Lifeguard Design means for the greater safety of you and your family. Then you'll know exactly why the '56 Ford is...

the fine car at half the fine-car price!

Weekly Health LETTER

Issued by Henry A. Holle, M. D., State Health Officer of Texas

AUSTIN—Digestive disorders rank second only to the respiratory diseases, primarily colds and influenza, as the leading cause of time lost on the job, declares Dr. Henry A. Holle, Commissioner of Health. Even though indigestion may not make one actually ill, or miss work, it may hinder your work, or interfere with your sleep and pleasure in living. It may turn one into a grouch.

The digestive tract, especially the stomach, is very sensitive to disturbances in other parts of the body. Indigestion can be due to one or more of many causes which makes self diagnosis pretty difficult. Don't try to doctor yourself but see your physician if you have repeated attacks.

The cause of indigestion may be irregular habits of eating and drinking. It may be a symptom of a disease of the digestive system such as gall bladder, appendix, ulcer or cancer. It may be caused by nervousness or from emotional tensions. Sometimes the beginning of a disease of the heart, kidneys, liver and other organs is indicated by indigestion.

HANDICAPS DON'T STOP THESE BOY SCOUTS

Members of Boy Scout Troop 28 in Dallas are celebrating a big event this Fall—the 10th anniversary of the troop at the Scottish Rite Hospital for Crippled Children, where a youngster with the desire to be a Scout is likely to become a reality regardless of the handicaps that might be involved. More than 1,500 Texas boys have started or continued their Scout work despite the fact they are patients at the hospital. Taking their Scout oath before starting their weekly meeting are some of the dozen members. Left to right, are 11-year-old Ronnie Vaughn of Weinert; Garry McClary of Sherman, and Jim Kitchen, 15, of Carrollton. Standing (left to right): Hospital President John McKee, Dallas; Scoutmaster Dave Morton of the Dallas Jaycees, and C. Russell Smith, Jr., of the Scottish Rite or Jaycees, sponsors of the troop.

tion. In children a sudden upset stomach may be the advance notice of a cold, influenza or some other contagious disease.

If you want to avoid indigestion, take a look at some of your everyday living habits. Do you eat a variety of well prepared foods at regular meal times? Having good companionship at meals helps you to relax, and have a good time. Rest a little while before eating if you are overly tired. Balance your work with a reasonable amount of play, so that you have the recreation you need. But do not over do it; get plenty of rest and sleep each night.

A person can probably eliminate recurring indigestion by using common sense living habits; if indigestion persists, see your doctor and follow the treatment he prescribes. You will then feel ready for work, meals and recreation.

NEW VIGOR FOR SWEET POTATO INDUSTRY

The Texas sweet potato industry is having growing pains. Although it was far from puny—grossing some \$10 million in good years—recent developments show promise of making the "yam" a really robust commodity in state farm economy.

The Texas Sweet Potato Law has been in effect just over a month. And already, some changes have had to be made to help move the crop to market this year.

The law calls for grading, inspecting and proper shipping of potatoes under certification of the Texas Department of Agriculture. Originally, U. S. No. 1 and U. S. No. 2's, along with unclassified grades, had to be boxed in standard approved cases to prevent damage and assure uniform quality. But the law failed to reckon with Texas' production capacity.

Standard packing cases, approved by law, fell short of the demand. As a result, a change in regulations was made to allow unclassified grades to be shipped in bulk. This is a temporary measure good only until November 15. After that date, unclassified potatoes must be crated according to original specifications the same as No. 1's and 2's.

Sweet potatoes are grown widely in East Texas, with a new development on the High Plains area and in South Texas in recent years. Upshur, Titus, Cass, Smith, Morris, Van Zandt, Wood, Robertson and Leon counties are the traditional leaders until now.

Texas grows some of the finest sweet potatoes found anywhere. However, lack of consistent grading was the principal deterrent in outside markets until this year. The new law was designed specifically to correct this lack.

The new grading standards are essentially the same as those of the United States Department of Agriculture. As a matter of fact, in some ways they are a little better—which should give Texas a slight edge on out-of-state mar-

kets when the facts become generally known.

Some difficulties will be encountered from time to time. But the first hurdles have been taken successfully. Inquiries or problems should be addressed to John White, Commissioner of Agriculture, Capitol Station, Austin 14, Texas.

STATE FAIR HONOR

State Fair of Texas Award of Honor winners have been named for each of the 12 Extension districts and have been released by Floyd Lynch, state 4-H club leader.

This is a special recognition award and is made annually by the State Fair of Texas to one boy and girl in each of the Extension districts and one Future Farmer and Future Homemaker in each Vocational area in the state. Selections are based upon the all-around record of the member and their achievements in both leadership and production activities.

The 4-H boys who will receive the awards and the counties they represent include Leon Langford, Farmer; Mack Shurbet, Hale; Bob Bates, Wichita; James Hollingsworth, Navarro; Jerry Smith, Upshur; Carl Calhoun, Midland; Jimmy Whitten, Schleicher; Jerry Johnston, Limestone; Horace Wells, Walker; Robert Pfluger, Travis; Micheal Presswood, Liberty and Johnny Ruf, Brooks county.

The 12 girls who will receive the awards are Royce Pyeatt, Castro; Judine Young, Swisher; Tommy Lenior, Stephens; Melita Cook, Dallas; Patricia Stevens, Upshur; Shirley Skains, Upson; Leslie Wink, Coke; Margaret Owen, Burnet; Jean Biggerstaff, Nacogdoches; Barbara Egg, DeWitt; Janet Avera, Brazoria and Adelaide Heider, Jim Wells county.

Formal presentation of the awards will be made in Dallas on the evening of October 14 when the winners and their parents will be honor guests at a banquet given by the State Fair with the Rural Youth Committee in charge. The winners will join with thousands of other rural youth the next day... their day at the Fair.

Guests in the home of Mr. and Mrs. Jim Gaines during the week end were Mr. and Mrs. Robert Gaines of Dallas and Mr. and Mrs. J. R. Hitchcock and Mary of Knox City.

Mrs. T. G. Bengel has returned home after a weeks visit with her nephew, Stewart Rowen, and wife in Cleburne. She accompanied Mrs. Temple of Seymour.

Knox Prairie Philosopher Explains Why Population Figures In The U. S. Are Bound To Continue Going Up

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek has an odd theory this week, but that's not odd for him. Dear editor:

I was out here on my farm yesterday afternoon wandering around just to be doing, most people have to have a purpose for nearly everything they do but I don't follow that policy, there are some aimless things worth doing in this life just for the doing and no man should be called on to explain why, when I took a newspaper away from one of my cows, she was chewing on it, lack of minerals in her diet, I guess, and she can have it back when I get through with it. Me and my cows operate on a free-choice basis, they chew and I read any paper we can get hold of.

I sat down and smoothed it out and over an inside, or unchewed, page I ran into an article that got me to thinking.

According to it, the population of the United States will be 190 million by 1975, and the population of Texas will almost double, coming up to over 12 million. That's only 20 years from now.

While I didn't know there was any particular shortage of people in this world—the way it looks now the ones we got have a hard enough time getting along—I guess the people making the estimate know what they're talking about and we might as well face it, but what puzzled me is that nobody ever really explains why the population is increasing.

I think I know why. The reason is that the automobile manu-

J. A.

facturers are making cars so fast the public is having a hard time buying all of them and yet if production is cut back it'll throw some people out of work and set

up a chain reaction and consequently the only way to keep things from falling to pieces is to keep the population figures ahead of automobile production.

There are two things Americans can't stand, one is to see a car dealer with more cars than he can sell, and the other is to see a man walking when he could be riding, and my theory is that population figures are now definitely tied in with car production as definitely as deer are to the amount of grass available, and the population and car figures hve no way to go but up. It may get crowded eventually.

Yours faithfully,
J. A.

Research Paces Oil's Progress

There are three reasons why America's petroleum industry has been able to supply the ever-increasing demand for energy called for by our mechanized way of life: 1, it has fearlessly invested its capital in the hazardous search for oil and gas; 2, it has steadily expanded its facilities; and 3, it has conducted endless research to find better, more efficient ways to make the oil products America needs.

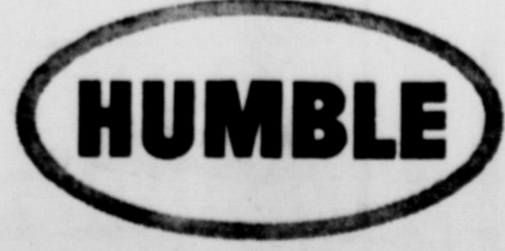

Research! That's the key to the petroleum industry's progress. And the Humble Company assures itself a place of leadership in this field with two great research laboratories.

In the Humble Research Center in Houston scientists and engineers study all phases of finding, producing, and conserving oil and gas.

In the Research Laboratory at Humble's Baytown, Texas, Refinery, highly skilled technicians seek to develop new and better petroleum products, to improve those we already have, and to develop methods for making these products more efficiently.

just as America's progress depends on oil, so oil's progress depends on research.

Jimmy Massey And Miss Jerry Brooks United In Marriage

Miss Jerry Brooks of Goree and Jimmy Massey of Munday were united in an informal ceremony on Friday morning, September 23 at the home of the bride's parents in Goree. Payne Hattox, minister of the Church of Christ in Munday, officiated in the ceremony.

The bride is the daughter of Mr. and Mrs. Leroy Brooks of Goree and the groom is the son of Mr. and Mrs. Charlie Massey of Munday.

For the exchange of wedding vows the couple stood before an altar of white mums and gladiolas with fern.

Miss Sue Hudson of Goree was maid of honor. The bridegroom was attended by Boyd Baker of Munday.

Given in marriage by her father, the bride wore a street length dress of blue silk, with black accessories. She completed the costume with a white carnation atop a white Bible. The maid of honor wore a blue faille with navy accessories and a corsage of pink carnations.

A reception was held following the ceremony. The bride's table was laid with white lace over pink. The three tiered cake was topped by a miniature bridal couple and surrounded by pink baby mums. Miss Hudson presided at the punch bowl and the cake was served by Miss Florene Hammons.

The bride is a graduate of Goree High School and will continue her schooling at Draughn's Business College in Wichita Falls.

Myra Elizabeth Hobbs Honored On Her 6th Birthday

Mr. and Mrs. Weldon Hobbs of Goree honored their daughter, Myra Elizabeth, with a party on her sixth birthday on Saturday, October 8, in the home of her grandparents, Mr. and Mrs. Bill Hobbs.

Several games were played, and pictures were made of her little guests during the afternoon. She received many nice gifts. Refreshments were served to the following:

Shirley and Danny Jackson, Mike Yeats, Danny Miller, Glenie Faye Bingham, Gayle Beecher, Beverly Harlan, Jackie Barber, and Mmes. Pete Beecher, Tom Miller, Dude Coffman, Felton Jackson, Bill Yeats, Everette Barber, Mary Turner and Sharon. Mr. and Mrs. Bill Hobbs and the honoree.

Those sending gifts included Janice Peek, Lynell Jetton, Mr. and Mrs. Bill Orsak and Jean, Mr. and Mrs. Porter Blankinship, Dr. and Mrs. W. M. Taylor, Mrs. Maggie Madole, Mr. and Mrs. Sam Hampton and Butch and Freddie Reidenbach.

Mr. and Mrs. Rusty Doran of Odessa and Mrs. Aline Koenig and sons, David and Robert, of Oklahoma City, were week end guests of their parents, Mr. and Mrs. W. C. Bevers.

The groom is a graduate of Munday High School and since serving his time in the Air Force is employed in Wichita Falls.

After a wedding trip the couple returned to Wichita Falls to make their home.

MULLING WITH MULLER
By Edna M. Muller

Now here's something that's really sensible and certainly useful. A hanging beauty box! Attractive in the bathroom, the locale for the majority of women to put on their make-up, you have a place for all those bottles and jars — out of the way of "little hands." The front can be let down to become a make-up shelf. 20x17 1/2 is a convenient size and you'll be amazed at all the items it can hold. A mirrored back will add a bit of glamour and you can decorate the outside with wallpaper, decals, or even a brilliant lacquer.

The first cool breeze that blows in my direction at the end of summer brings the desire to paint, reupholster or do something to freshen up and give our home a new or different look. One of the "musts" for us this year is doing over the playroom floor. No other room takes the punishment this one does so we've practically decided that the All-Vinyl flooring is probably our best buy. This is no light statement — I've been looking them over. Did you know, for instance, that if you hit All-Vinyl flooring a hard blow with a hammer that 15 minutes later you can't tell where the blow was struck? (Not that you make a habit of hammering your flooring, but it gives you an idea how heavy tables, etc., won't leave a permanent mark.) Being factory pre-polished it has a lasting luster and won't crack even when bent nearly double which makes it ideal for rounded edges and contour coving. It's scratch-resistant, which makes me very happy, and maybe best of all grease, alcohol and even ink wipe clean with a sandy cloth. It is so resistant to stain damage and dirt! I can have pre-cut tiles or full 45-inch wide rolls which take care of most needs. My problem now is making a selection from one of the stunning 18 decorator colors.

BIRTH ANNOUNCEMENT

Mr. and Mrs. H. E. Walker are announcing the arrival of a grandson on September 29. He is Johnny Lee Walker of Adalantho, Calif. He weighed 5 pounds and 12 1/2 ounces and is the son of Mr. and Mrs. J. L. Walker of Adalantho, Calif.

Mrs. Frank Bowley Is Hostess For Munday H. D. Club

Mrs. Frank Bowley was hostess to the Munday Home Demonstration Club on October 12, in her home at 2:00 p. m.

Each elective officer was present to dispose of her duties in the general business procedure.

Miss S. C. Kinsey, the new county agent, very capably gave the demonstration of "Advanced Dressmaking". This was a challenge to each one present to use caution in selecting materials as well as ready-to-wear. Sewing will be a general theme in the club work for several months, which has added much interest among the members.

Mrs. Bowley served refreshments to Miss Kinsey, Mmes. R. M. Almanrode, Buster Pape, Johnny Peysen, Joe Patterson, J. O. Tynes, Fred Lain, Dick Moore and S. G. Smith.

The club will meet with Mrs. Peysen on October 26 when the discussion will be "Holiday Foods". Anyone interested in the management of their home is welcome.

Miss Jo Ann Duke of Wichita Falls visited relatives here over the week end.

Helpful Facts On Wrappings Packages Available Free

Helpful facts about wrapping and shipping packages are contained in a well illustrated pamphlet entitled "Packaging and Wrapping Parcels for Mailing" available free at the Munday Post Office Oct. 15, 1955. Postmaster Lee Haymes announced today.

A new publication excerpted from the Postal Manual, this pamphlet describes the types and sizes of cartons best suited for outer and inner shipping containers; gives details for the internal protection for goods being shipped; lists hints on wrapping chinaware, stemware, framed pictures, books, and other goods; and gives instructions for marking various types of parcels to insure the quickest possible delivery.

Written instructions are highlighted by numerous illustrations showing how to wrap and the packages securely. Drawings of various types of containers and boxes and the best way to use protective material to guard goods against breakage are also used.

"If used in conjunction with the free pamphlet, "Domestic Postage Rates and Fees", issued a few months ago, this pamphlet should answer practically all questions any user of the mails might have on fees, rates, special services, and protection of parcels in transit," Mr. Haymes commented.

The postmaster emphasized that much of the delay in delivery of parcels, particularly at Christmas, and most of the damage enroute is due to lack of knowledge of basic rules to follow in mailing packages.

"I hope patrons of the Munday Post Office will avail themselves of these two free pamphlets: "Packaging and Wrapping Parcels for Mailing," Post Office Department Publication No. 2; and

Frank Cerveny was a visitor in Temple the first of this week.

Mrs. Payne Hattox visited her mother in Lueders last Monday.

Few common cattle parasites are costly to livestock producers as cattle grubs. They take several million dollars annually in the form of damaged hides, lowered meat quality and reduced dairy production. Apply control measures when they begin to appear in the backs of cattle during the fall months. Rotenone will do the job.

The annual Texas Dress Revue for 4H girls will be held on the State Fair grounds at Dallas on October 15.

Stockers Strong, Heifers In Much Better Demand
FORT WORTH—Demand for replacement cattle and calves was very broad again this week. Once again the spread between heifer and steer prices was nar-

rowed. Many sales 50 cents higher were noted in Monday's trade and some heifer calves and yearling heifers were up 50 cents to \$1 per hundred.
A few sales of steer calves up to \$21 and \$21.50 were noted on Monday, and buyers and salesmen alike agreed that strictly choice lightweights were quotable to \$22 or better. Heifer calves reached \$19, a new higher for the class except feeder calf sales, for the season. S. S. Barrett, Jefferson County, Oklahoma, had a pen of 45 heifer calves weighing 383 pounds at \$19 on Monday.

Stocker cows were again in very broad demand, most sales between \$8 and \$13 per hundred. A few lightweights above that range. One load of cows at \$12.75 dolared around \$116 per head and were not the best.

Over 155,000 Cattle At Twelve Major Markets

The largest offerings of cattle of the Fall season was reported Monday by the twelve major markets where over 155,000 head were reported. The calf run was over 16,000, about 2,000 ahead of last week, but about 6,000 under the same date last year. Trend on receipts of calves seems to be getting more pronounced—that fewer calves are being marketed this season.

Slaughter calves at Fort Worth were fully steady, due to the competition from stocker buyers. Cows, bulls and grassy steers and yearlings were weaker. Highly fitted grainfed cattle were steady.

Comparative prices: Good and choice fed steers and yearlings \$19-22.75; common and medium grades \$12-18; fat cows \$10-12; canners and cutters \$7-10.50; bulls \$9.50-13.25; good and choice slaughter calves \$16-18; baby beef heavies above that range and quotable with yearlings; cull to medium killers \$9-15; stocker steer calves \$21.50 down; heifers \$19 down. Steer yearlings \$19 down.

Hogs Open Weak, Near 100,000 Reported Monday

Receipts of hogs around the major market circle were just short of the 100,000 mark, and

Feeder Show Judges Being Picked For October 21

Four judges have been named for the special feeder event at Fort Worth October 21. Again the Texas Hereford Association is picking widely known cattlemen. D. Burns, boss of the Pitchfork Ranches; Kirk Edwards, Clay County; Ferd Slocum, Cresson, and J. L. Renick, Llano have accepted bids to judge. All are owners and operators of some of the best commercial Hereford herds in the country and their ability and knowledge of cattle is outstanding. Two other judges will be named.

Interesting side-light is the fact the Wichita (Kansas) Union Stockyards is staging a similar show and sale this week. Patterned exactly after these Fort Worth events.

prices were weak to 25 cents lower at Fort Worth Monday. Top hogs sold at \$15.75 to \$16, equalling the lowest point of the year. Top hogs sold down to \$16 in September and also in March this year. Sows were 50 cents lower at \$14 down.

Secretary of Agriculture Benson met with representatives of the swine industry last week. It was suggested that USDA should step into the pork market if and when hogs dropped to \$14. Pork purchased would just about total one week's production of the nation's packers. It would be used in school lunch's and institutions. No plan to go into freezer storage with pork was advanced. Meeting with Benson were representatives of producers and processors.

Sheep And Lambs Sell Strongly Again Monday

Fat lambs topped at \$20 again at Fort Worth Monday. Feeder lambs of the better kinds sold readily again at \$17. The good and choice fat lambs drew \$18 to \$20, and cull, common and medium killing lambs sold from \$11 to \$17. Stocker and feeder lambs sold from \$14 to \$17.

Old ewes sold mostly around \$5 to \$5.50, though freshly shorn canners would be quotable under that range. Old bucks sold around \$4 to \$4.50. Old wethers were quoted from \$8 to \$12. Yearling muttons sold around \$12 to \$15.50, culls around \$9 to \$11.

Speaking of PUBLIC SAFETY

Modern street lighting is a powerful force for safety after dark, according to reports from cities throughout the nation to the National Street and Traffic Safety Lighting Bureau. For example:

• In Dayton, O., service and buildings director George F. Baker said, "A lighted city is a live city." Last year, when Dayton's extensive street lighting modernization program was nearly complete, traffic deaths during the hours of darkness dropped 41 per cent.

• Police Chief Frank Evans of Peoria, Ill., reports, "Crime definitely is down in Peoria. There are no shadows for the criminal to hide in with the modern lighting system. There's no doubt of its effectiveness."

• Total traffic accidents in six Connecticut communities, after modern relighting of streets, dropped from 253 to 192, instances of property damage fell from 203 to 163, and the cost of these accidents declined from \$106,000 to \$46,000.

• From El Paso, Tex., Police Chief Risinger declares, "We don't need statistical evidence to show the value of street lighting on the south side. You drive the holdup men and the assaulters off the street as soon as you light them."

• Police Chief Roland R. Kelley of Fort Lauderdale, Florida, believes modern new street lighting will reduce traffic accidents to a minimum. Relighting the main traffic artery through town reduced accidents on that street more than 50 per cent!

The experience of these and many other cities, the Lighting Bureau declares, establishes the tremendous importance of modern street lighting for protection against night crime and traffic accidents. David Baldwin, National Safety Council spokesman, says, "Properly designed, properly installed and properly maintained street lighting... we need much more of it today than we have now."

Roy Bouldin and a friend, Roger Lawrence, who are stationed at Perrin Air Force Base in Sherman, were week end guests in the home of Mr. and Mrs. M. L. Wiggins.

Moguls Blank Rule Cats 36-0 On Friday Night

It was a stampede last Friday night when the Class A Munday Moguls met the Class B Rule Bobcats in their annual engagement on Bobcat Field. The Moguls marked up an easy 36-0 victory over the Cats, but it hasn't always been this way in the past when the two teams got together.

All the Mogul touchdowns, except one, came from dive plays which cut over the Bobcat line.

The one exception was a 40-yard run by Wyman Tidwell after he intercepted a pass in the third quarter.

The Bobcats had one score called back in the fourth quarter because of illegal motion in the backfield, and were on the Rule three-yard line when the game ended.

Wyman Tidwell, Mogul half-back, opened the scoring with a 50-yard jaunt through the middle of his line.

Gary Cure scored in the second period when he drove over from the five.

Don Wallace dashed over from the 18 in the third frame.

Cure counted again in the fourth with a 45-yard run around right end.

Freddy Carem ended the scoring when he cut over from the Bobcat 18-yard line. All of Cure's attempted kicks were no good.

Funeral Services For Mrs. Sprabary Held Wednesday

Funeral services for Mrs. Opal Faye Sprabary, 23, were held from the First Baptist Church in Munday at 4 p. m. Wednesday with the pastor, Rev. Robert H. Lloyd, officiating. Burial was in Johnson Memorial Cemetery by McCauley Funeral Home.

Mrs. Sprabary, daughter of Mrs. R. F. Horan of Munday, succumbed to fatal burns which she received in an explosion and fire at Odessa on September 27. She had been hospitalized at Odessa since that time. She lived in Munday until about five years ago, when she moved to Odessa.

Besides her mother and step-father, she is survived by two children, Jackie Faye and Frankie LaVerne, both of Munday; a brother, T. D. Wallace of the U. S. Marines, a sister, Ola Mae Rhea of Odessa; two half-sisters, Wanda Cook and Betty Boyd, both of Odessa; two half-brothers, R. L. Humphrey of Abilene and W. M. Humphrey of Phoenix, Ariz.; three step-brothers, Bill and Joe Horan of Fort Worth and Robert Horan, Jr., with the U. S. Air Forces in Trenton, N. J., and one step-sister, Mrs. Frances Hackney of Fort Worth.

Palbearers were Hub Ford, Hubert Hitt, Chan Hughes, Ardelle Spelce, R. M. Almanrode and V. F. Moore.

Fire Prevention Week, October 9-15

Farm fire losses in the nation were 13 percent higher in 1954 than for the year before and the increase was the greatest for any year since 1948. Members of the Texas Farm and Ranch Safety Committee believe that many things can be done by rural residents to stop this upward trend and at the same time save much of the estimated \$157 million of property which went up in smoke last year.

The committee suggests a thorough inspection of all buildings on the farm and the elimination of fire hazards. They point out that one of the major causes of fires in barns and out-buildings is electrical faults. Studies made in two states have shown that a lot of the trouble was in the fuse box—the wrong size fuses were being used. Do not, warns the committee, use any fuse except one with the amperage to go with the size of the wire in the circuit. Don't overload the fuse box.

Check all wiring, they caution, for frayed insulation, loose or sagging wires and fixtures and don't try to make repairs until the electricity has been turned off.

Spontaneous combustion is the number one cause of fires in farm barns. Hay should be well cured before it is stored and the storage area should be well ventilated. Flammable liquids should not be stored closer than 50 feet to buildings and preferably underground.

Lightning is responsible for many farm fires. Rods of the right size and material properly installed and maintained can eliminate this fire hazard.

Number one cause of farm home fires, says the committee, is defective or over-heated heating, cooking and other equipment. Other major causes are careless use of gasoline or kerosene; defective or overheated chimneys and flues; sparks from the chimney and electrical faults. Find the hazards and remove them and you can keep your farm out of the fire statistics, says the committee.

Mrs. O. H. Spann, Jr. and her daughter, Cindy, of Sweetwater, are spending this week with her parents, Mr. and Mrs. Jack Clowdis.

Mr. and Mrs. V. M. Lee and Ronnie of Denison visited her mother, Mrs. S. E. Robertson, and other relatives over the week end.

Mr. and Mrs. Oscar Spann were Sunday guests of Mr. and Mrs. O. H. Spann, Jr. and daughter in Sweetwater.
