

## Kracker Krumbs

Odd Bits Salvaged  
at Random

An alibi is easy to find by fans of a team that has lost an important football game, but we believe, along with lots of Mogul boosters, that the game last Friday night would have been different if five of our Moguls had not been suffering injuries. And most of them were our key men, one of whom never did enter the game.

k-k

The irony of it all is that the Moguls had played all games this season without serious injuries, with all the injured players getting hurt in practice, then faced an important game with injuries and after being idle one week. Well, they didn't win the game, but the Moguls kept the respect and admiration of all their followers.

k-k

We found this little note coming in our mail Monday, and it's very timely with the hunting season right upon us:

k-k

"There's isn't a deer, duck, turkey, dove or quail in Texas worth the price of a permanent injury or death to a hunter, says E. H. Cooper, extension wildlife conservation specialist. As he sees it, there is little excuse for hunting accidents if the basic rules of safety are observed. Don't take chances and see that fellow hunters respect and obey the same safety rules you follow."

k-k

News travels fast, and sometimes the news gets out before those making the news make it!

k-k

Mayor M. F. Billingsley reported Monday that news had gotten out that the deal was closed for our prospective tourist court and cafe and the material is already on the ground for construction to begin. Truth of the matter is the papers on the land transaction had not been signed last Monday.

k-k

The five who took off Saturday afternoon to attend the Baylor-A&M football game in Waco said they were a tired five when they arrived home about 4 a. m. Sunday. In the group were two A&M rooters and three for Baylor, but they were too tired upon arriving home to carry on an argument.

k-k

He'll probably know whether he has oil or not before this gets in the mails, but we hope Lee Isbell gets it and the rig moves on. It kinda bothers us to watch those lights from our bedroom window—and wonder!

k-k

Munday merchants—15 of them this time—are sponsoring another Dollar Day next Monday, and from some of the things listed in their ads, it will be a dilly of a bargain day. Indications are, too, that this will be their last one until after the Christmas season and arrival of the New Year, so it may be to the advantage of everyone to shop these Dollar Day stores.

k-k

Uncle Bob Gaines has answered the final summons. His life-span was long. He was nearing 86 years of age and had spent nearly a half-century in the Munday area. He was a good man and loyal Mason.

k-k

It was paying him deep respect to call him "Uncle Bob." We remember meeting him on the street one day, and as we spoke he thought we called him Mr. Gaines. He stopped us and said: "Not listen here, you call me 'Uncle Bob' after this." We'll miss him, too.

k-k

That very much appreciated shower Monday night served as another reminder that we are another step closer the end of the drouth. H. P. Hill, who keeps a record of the way the weather cuts up in Munday, reported .85 of an inch of rain. This brings the year's total to 9.30 inches, which is less than half of what we got last year—and it was a dry year!

## HOME FROM HOSPITAL

Mrs. Lee Haymes, who underwent surgery at a Wichita Falls hospital last Thursday, was able to be brought home last Tuesday. She will recuperate at her home some two weeks before resuming her teaching duties in the Munday schools.

## PTA Sponsors Retirement Bill

In keeping with one of their primary objectives, "To secure adequate laws for the care and protection of children and youth," the local PTA unit and the Texas Congress of Parents and Teachers are supporting Amendment 4 in the November 6th election. This amendment provides for the revision of the present Texas Teacher Retirement System.

Teachers are asking the right to increase their own retirement contributions; the State will match the deposits of the teachers. The improved system will provide disability benefits, as well as providing a minimum retirement benefit of \$100 for any teacher now retired or for any teacher coming to retirement with 20 years or more of service and attaining the age of 60.

The amendment represents the most economical approach to solving the problem of teacher shortage. It will cost an average of 50 cents per year per Texan to provide this improved program.

## Junior Team To Play Seymour

Suffering defeat of 2-0 in their game with Seymour, the Junior High football team will be trying for vengeance when they meet them Thursday (tonight) on Scruggs Field. The game will start at 7:00 o'clock and the admission will be 25 cents for students and 50 cents for adults. The Junior High team beat Knox City by a score of 12 to 7.

H. C. Couch, coach, announces that a benefit game will be played on Tuesday, November 6, on Scruggs Field between the Junior High team and the Munday freshman team. Proceeds from this game will go toward buying jackets for the Junior High team. Admission will be 25 and 50 cents, and game time will be at 7 p. m. As an added attraction, Mr. Jackson will have his Senior High band performing at half-time.

## Graveside Service For Yeager Infant

Graveside services for the infant son of Mr. and Mrs. Troy Yeager were held at 3:30 p. m. Saturday at Johnson Memorial Cemetery with Rev. J. F. Michael, pastor of the First Methodist Church, officiating. McCauley Funeral Home was in charge of arrangements.

The child, who passed away at 8:10 a. m. Saturday, is survived by his parents, a sister, Kathleen; a brother, Charles, and his grandparents, Mr. and Mrs. E. F. Yeager.

Mr. and Mrs. Joe B. Roberts, Mrs. Chester Bowden and Mrs. Levi Bowden attended Grand Chapter, Order of the Eastern Star, in Fort Worth last week. Mrs. Levi Bowden was a delegate from the Munday Chapter.

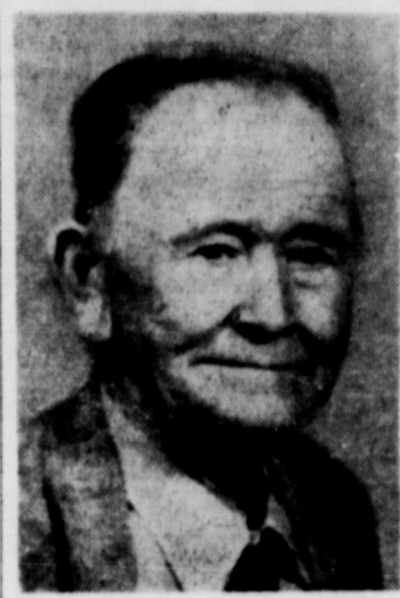

## Crippled Moguls Drop District Game To Iowa Park Hawks On Friday Night

Knowing the Moguls had a strong pass defense, the Iowa Park Hawks shelved their aerial attack last Friday night and resorted to smashing ground offensive to stage a second half comeback and upset the Munday Moguls, 14 to 6, in a decisive district game.

The injured Moguls grabbed a 6-0 lead on the first play of the second quarter when Amerson, playing with a broken thumb, corked a 26-yard pass to end Gerald Tidwell. Tidwell wrestled the ball from a defending Hawk and raced 50 yards for the touchdown. Amerson's conversion kick went wide.

The Hawks had a touchdown nullified on the drive following the Mogul TD. Starting from the Mogul 23, Klinkerman pitched out to Donnie Todd, who took the pigskin across, but Iowa Park drew a penalty on the play. The march stalled when Amerson intercepted a Hawk pass on the 23.

Munday took the second half kickoff and rolled to the Iowa Park 22-yard line. There the injured Amerson fumbled, and Iowa Park recovered. From this point, Iowa Park drove on across the goal stripe, the biggest gain of

"UNCLE BOB" GAINES

## Knox County Hospital Notes

Patients in the hospital October 29, 1956:

E. R. Hobert, Munday; Mrs. J. C. Angle, Knox City; Miss Bertha Sweatt, Knox City; L. F. Benham, Odessa; J. S. Shannon, Munday; M. G. Nix, Munday; Mrs. G. C. Cargill, and baby, Knox City; Lupe Sanchez, Knox City; Mrs. Walter Brown, Munday; Charlotte Perdue, Knox City; O. W. Caussey, Knox City; Mrs. C. Williams and baby, Munday; Mrs. E. F. Descoteaux, Munday; A. E. Propps, Knox City; Virginia Quintana, O'Brien.

Patients dismissed since Monday, Oct. 21, 1956:

Mrs. S. P. Keny, Knox City; Mrs. H. M. Thompson, Knox City; Mrs. Raymond White, Knox City; Mrs. Troy Yeager, Munday; Tom West, Benjamin; Geo. Torres, O'Brien; Mrs. M. E. Burgess, Munday; Mrs. Ray Sanchez, Munday; O. Guerrero, O'Brien; Ricardo Marquez, Munday; Cruz Alsides, O'Brien; Hoyt Lovelace, Knox City; Mrs. Gerald Morris, Munday; W. L. Roberts, Knox City; Mrs. Mary Parson, Knox City; Mrs. E. Acuna, Truscott; Willis Pack, Knox City; Ricardo Lara, O'Brien; Mrs. J. F. Adcock, Benjamin; Mrs. Lynn Stephens and baby, Benjamin; H. B. Hern, Rochester; Mrs. Effie Howard, Knox City; Mrs. A. B. Gallia, Knox City; Mrs. Joe C. Spann and baby, Munday; Paul Jump, Comanche, Okla.; Elven De Los Slaves, Fort Worth; S. Sanchez, O'Brien; Mrs. Jack Freeman, O'Brien.

Births:

Mr. and Mrs. G. C. Cargill, Knox City, a son; Mr. and Mrs. Chas. Williams, Munday, a son.

Deaths:

Mr. George McIlroy, Haskell.

## WEINERT 4-H CLUB GIRLS HOLD MEETING

The Weinert 4-H Club girls met on October 25 in the eighth grade room.

Sherry Hix was appointed food demonstrator, and Oneida Walker, clothing demonstrator. The girls studied "Good Tributes to Health."

## Last Rites For Robert L. Gaines Held On Sunday

Funeral services for Robert L. "Uncle Bob" Gaines, pioneer resident of this area, were held at 2:30 p. m. Sunday from the Church of Christ in Munday.

Mr. Gaines, who was lovingly known as "Uncle Bob," passed away Saturday afternoon at a rest home in Haskell, where he had been taken several days earlier. He had been in failing health for several years and was seriously ill about a month.

Born in Arkansas on November 1, 1870, Uncle Bob was 85 years, 11 months and 26 days of age. He was married to Mrs. Ida Roundtree on March 12, 1900. His wife preceded him in death several years ago.

Mr. Gaines had been a resident of this area for 48 years, and he was engaged in farming southeast of Munday until his retirement several years ago.

Minister Ray Custis of Haskell officiated at the service and was assisted by Rev. J. F. Michael, pastor of the Munday Methodist Church. Burial was in Johnson Memorial Cemetery under the direction of McCauley Funeral Home.

Serving as pallbearers were Levi Bowden, Otis Simpson, Terry Harrison, Lee Haymes, Aaron Edgar and Ray Holcomb.

A loyal member of the Knox Masonic Bodies, including the Blue Lodge, Chapter and Council, at Munday, brother Masons laid him to rest with Masonic services at the graveside. E. T. Goss of Seymour was in charge.

Surviving him are three sons, T. J. Gaines of San Pablo, Calif.; George A. Gaines of Denuba, Calif.; and J. R. Gaines of Munday; three daughters, Mrs. Lena Maynard of Lubbock, Mrs. Mary Whitworth of Munday and Miss Florence Gaines of Munday; 11 grandchildren and 10 great grandchildren; two brothers, Till Gaines and John Gaines, both of Yuba City, Calif.

**TEXAS DEMOC HEAD**—Speaker of the Texas House of Representatives, Jim Lindsey of Texarkana, is the new chairman of the State Democratic Party. Chosen as one of the Five Most Outstanding Young Men in Texas last year, Lindsey, at 30, is the youngest Speaker and youngest Party Chairman in the state's history.

## MISS LITTLEFIELD IS LEGION QUEEN

Miss Gayle Littlefield has been chosen queen to represent the American Legion Post 44 at Knox City Saturday, November 3. The program will start at 7:00 p. m. and the district queen will be chosen at 8:00. All veterans and their families are urged to attend and everyone is invited.

Drive carefully. The life you save may be your own!

## Weather Report

For seven days ending 7 p. m. Oct. 30, 1956 as compiled by H. P. Hill, U. S. Weather Observer.

	LOW	HIGH
1956-1955		1956-1955

## Oil Activities

Women Wednesday were in process of completing the No. 1 J. F. Lowrance, northeast of Munday, which is believed to be a good producer.

Texoma Drilling Co. has spotted two wildcats in the county. They are: No. 1 A. F. Homer, nine miles northwest of Munday, to 2500 feet, and No. 1 H. M. Michels, six miles northwest of Munday, also 2500 feet.

Christe-Stewart Drilling Co. has plugged its No. 1 M. M. Henderson at 2159 feet, three miles northwest of Munday.

Recent locations staked in Knox County include:

Jack C. Staley et al No. 1 El Nora Broach, two miles southeast of Munday, to 2100 feet; John Stewart No. 1 Walter Mooney, two miles northeast of Goree, to 1950 feet; Willard M. White of Fort Worth No. 1 Louis Cartwright, three miles southeast of Munday, to 2000 feet; Winfrey Drilling Co. of Electra No. 1 Claudia E. Jones, five miles north of Goree, to 1950 feet.

Texas Drilling Co. reported two completions in the Goree Field. No. 8 Buster Coffman, three-fourths miles of southeast Goree, flowed 192 barrels of 36 gravity oil in 12 hours. Total depth was 1771 feet. No. 9 Coffman flowed 87 barrels per day. Hole was bottomed at 1796 feet.

Fain and McGaha reported a failure when No. 1 G. L. Pruitt, 1 1/2 miles southwest of Munday, was abandoned at 2127 feet.

Four new wildcat locations were reported at the end of last week. They are:

Arthur H. Bruner & Co. No. 1 R. M. Myers, four miles west of Munday, to 2000 feet; I. Dee Campbell No. 1 Lee Isbell, just north of the City of Munday, to 2100 feet; Nortex Oil and Gas Corp. No. 1 J. A. Hill, 3 1/2 miles southwest of Goree, to 2500 feet; and Ted A. Norwood et al No. 1 B. Melton, four miles northeast of Munday, to 2200 feet.

Phillips Johnson et al of Lubbock reported a new Tannehill pool opener 1 1/2 miles southeast of Munday with completion of the No. 1 J. R. King. Pumping potential was 29.1 barrels of 34 gravity oil per day from open hole with pay topped at 1,816 feet.

Jack Dennison et al completed the No. 1 J. J. Birkenfeld for a daily pumping potential of 100 barrels of 35 gravity crude 1 1/2 miles south of Goree. Total depth was 1792 feet.

Ajax Oil and Development Co. has staked the No. 1 A. Brown, six miles north Munday, as a 2300-foot wildcat.

## 13th District Legion Meeting Is Set At Knox City November 3 and 4

BERNIE ARNOLD  
13th Dist. Commander

## Moguls To Play At Archer City

Still nursing injuries, all of which are improving, the Munday Moguls have been holding daily practice sessions this week in preparation for another important district game. They will go to Archer City on Friday night for their battle against the strong Wildcats.

Early this week, it was believed most of the injured Moguls would be able to play in this game, though their injuries may not be completely healed. Practice sessions have been centered on tactics of combatting the heavy Wildcat line.

This will be the last game away from home this season, and Mogul fans are making plans for a good turnout for this game.

The two remaining games, Holiday on November 9, and Crowell on November 16, will be played on the home field.

## SERVING IN LOUISIANA

**CAMP LEROY JOHNSON, LA.**—Pvt. Alvin W. Thomas, whose wife, Virginia, lives in Benjamin, is a member of the 394th Transportation Battalion at Camp Leroy Johnson, La.

Thomas, son of Mr. and Mrs. J. R. Thomas, 2708 Grinnell st., Lubbock, is a mechanic in the battalion's 71st Transportation Company. He entered the Army in February 1956 and last stationed at Fort Eustis, Va.

## County Expected To Poll Big Vote In General Election On Next Tuesday

Next Tuesday is the date—when Democrats and Republicans will go to the polls and elect their national leaders, president and vice president, for another four years.

Indications are that a heavy vote will be polled in Knox County and throughout the nation, as the vote-getting campaigns are fast growing to a close for both parties.

In addition to national candidates, voters of Texas will also be voting on several constitutional amendments which are printed on the ballot. Eight of these will appear on the general election ballot, but through a procedural slip-up, a ninth will be considered at a special election on November 13. The gist of these amendments and arguments pro and con are:

1. Authorized the legislature to compensate persons fined or imprisoned for crimes they did not commit. Pro: Would make amends for hardship unjustly imposed on the innocent. Con: Might open the door to numerous fraudulent claims.

2. Allows county commissioners courts to vary allocations of (Continued on last Page)

Legionnaires and Auxiliary members of the 13th Congressional District will assemble at Knox City on Saturday and Sunday, November 3-4 for their annual fall convention. A. L. Fitzgerald, Commander of Teague-Carpenter Post No. 229, announced today.

All sessions will be held at The American Legion Home. The festivities will begin at 7:00 p. m. Saturday, November 3, when the local Post will sponsor a home talent contest from 7:00 to 8:00 and a Queen's contest to decide the Queen of the 13th Congressional District of The American Legion, and other talent is being assembled for the entertainment of the visiting guests.

Sunday morning the delegates will register at 8:00 a. m. and be served coffee from 8:00 to 9:00 a. m. at The American Legion Home. At 10:00 a. m. the joint session of the American Legion and Auxiliary will open with a Memorial Service. Address of Welcome will be given by Charles E. Silk, Superintendent of Schools and Response by Jimmy Horany of Archer City. Congressman Frank Icard of Wichita Falls, Senator George Moffett of Chillicothe, Vice Commander Walter Breeding of Cleburne and Craig Laine of Fort Worth, member of the Board of Trustees, will also address the joint session.

The visiting delegates will be entertained with a Luncheon at noon at the Legion Home.

The business session of The American Legion will convene at 2:00 p. m. and will be presided over by Bernie Arnold of Wichita Falls, 13th District Commander. Mrs. Hazel Madden of Wichita Falls, President of the Auxiliary for the 13th District will preside over the Auxiliary.

The 13th District was the leading District in membership for the Department of Texas in 1956. Every effort will be put forth to repeat the operation this year.

## Weinert Minister Moves To Melrose

Damon Smith, minister of the Church of Christ in Weinert for the past two years, left last week with his family for Melrose, N. M., to serve as minister of the Church of Christ there.

Mr. Smith, a former member of the Munday Lions Club, was instrumental in organizing the Weinert Lions Club about a year ago and was very active in both clubs.

The Smiths have two children, Glenda Gaye, aged 7, and Gaylain Dee, 4.

## Rural Route Fleet Wins Recognition

The rural route fleet of the Louisiana-Texas postal region won driver safety recognition in the 25th Annual National Fleet Safety Contest of the National Post Office, to a statement today by Postmaster Lee Haymes.

The postal region's 2,500 drivers placed third in the passenger car division, based on performance from July 1955 through June 1956. Announcement of the rankings was made at ceremonies in the La-Salle Hotel in Chicago October 25.

During the year the rural carriers of the two-state region covered 31,060,814 miles with an accident rate of only .08 accidents per 100,000 miles. Rural carriers of the Munday Post Office contributed to this outstanding safety record.

More than 1800 fleets operating in excess of 229,000 vehicles and traveling 4,867,000 miles, competed in the silver anniversary contest, largest of its kind in the world.

## RHINELAND SCHOOL TO RE-OPEN MONDAY

Maurice Hughes, principal of Rhineland High School, announced Tuesday that classes will begin again on Monday morning, November 5th.

School at Rhineland has been recessed for several weeks so students might help in the fall cotton harvest.

The election will be held at the Community Hall instead of the High School on November 6th due to the starting of school.

**TEXAS SHORTHORN IS 3-TIME GRAND CHAMP**—Kamar Red Lavender 2d, is pictured as she was made grand champion Shorthorn female at The State Fair of Texas, Dallas. It was the third time this smooth red shorthorn had won grand champion honors, others being at the Ozark Empire and Oklahoma State Fairs. Owned by Schofield Ranch, Austin, Texas, the animal is shown by Vernon Schofield while Allan Atison, Chicago, secretary of the American Shorthorn Breeders' Association, presents the award.

### IF THE CANAL WERE CLOSED

The productive abilities of the U. S. oil industry is one of the economic wonders of the world. These abilities are well highlighted in an interview conducted by U. S. News & World Report with the head of a major American oil company which operates on an international scale.

Europe requires 3 million barrels of oil a day, of which 800,000 go to the Mediterranean via pipeline and the remaining 1.2 million barrels travel through the Suez Canal. The oil leader was asked this big question—if the Canal were closed to traffic and Europe could no longer get those 1.2 million barrels a day from the Middle East, how much of the loss could we make up and send to Europe by tanker?

The oil man's answer was this: "We would have to step up production in this country by about a million barrels a day—a little less than that, possibly. We would have to increase production in Venezuela. We would be able to get a little bit out of Canada. On that basis—and without converting the 'Little Inch' pipeline back oil from gas—we could take care of the needs of the United States and Europe with the world's present tanker fleet."

Closure of the Canal, of course, would be a calamity, and all hope that it will not come to pass. In addition, as a matter of national policy we could not indefinitely provide Europe with oil out of our own continental resources. However, this statement provides vivid proof that the American oil industry is capable of meeting an incredibly high normal demand for oil—and, if necessary, meeting a great new emergency demand at the same time.

### YOU'RE PAYING MORE IN TAXES

"Our tax bill is going UP—not down," writes Sylvia Porter, the business analyst.

This may surprise a good many people, who think only of federal taxes when they think of taxes at all. But it's a fact—and the reason for it is found in local government. Miss Porter cites figures showing that, in the last fiscal year, state tax collections reached an all-time peak of \$13,300,000,000—an increase of \$1,700,000,000 over the preceding year. State debts are also at an all-time high.

The moral is plain: We must demand economy in the state house and all other centers of local government, as well as in the Capital in Washington, D. C.

### TIMING POLIO VACCINATION

Polio has brought needless tragedy to thousands of Americans this year—needless because we now possess the means of preventing better than four out of five cases of paralysis from this cause—and more will be stricken next year. Just how extensive the human damage will be in 1957 depends on how many of us act now to protect ourselves and our families.

The time element is vital because it takes eight months to space out properly the vaccine shots required for maximum protection. Only by starting at once will you have time to complete the three-shot series before warm weather brings another uptrend of the disease next year.

Each of the three shots is important. The whole effect is to enable the human system to produce the antibodies that destroy the polio virus before it can reach the nerve centers. The third is the clincher; it provides long-lasting protection at the highest level attainable—a level comparable to the immunity conferred by a natural attack of the disease itself.

Medical authorities recommend that the second shot be administered four to six weeks after the first, and the third, seven months after the second. If you haven't started yet, there is no better time than the present.

Don't be put off by that old misnomer, "infantile paralysis." Your children need this protection, but if you are under 36 years old you should have it too—for their security as well as your own. Polio's attack has been shifting in recent years. It is striking more frequently at adults and as a rule it hits them even harder than it does children. This may mean disaster to the whole family.

Don't let it happen to you and yours. Get in touch with your doctor now.

### THERE AIN'T NO SANTY CLAUS!

The News-Herald, of Cuba City, Wisconsin, has printed a timely letter from a reader, Elizabeth Lippitt. Here it is: "Santa Claus is coming' to town," his sled drawn by a Republican elephant and a Democratic donkey, with presents for everyone.

"Uncle Sam has millions for farmers who don't plant, millions for workers who don't work, millions for everyone's retirement, and billions for the upkeep of tired foreigners. All this and a debt of \$278 billion, too . . . . ."

"Won't some kind soul tell Americans the awful truth—there just ain't no Santy Claus!"

## WHAT DOES THE BIBLE SAY?

### That For Which We Stand

1. We stand for the Bible as God gave it, and hold that it is the only divinely inspired book in the world (2 Tim. 3:16-17). We uphold its perfection. We hold that only what is taught in the Bible is right (Acts 17:11). We maintain that it can be understood, and that it never contradicts itself, for it came from God.

We stand therefore against any idea or notion that is contrary to the Bible. Conscience is not always a good guide (Jer. 10:23). Human opinion must never be exalted above what God said. We oppose and deny any thing and everything that cannot be proved by the Bible its self, since the Bible contains the "Perfect law of liberty," (Ja. 1:25). Wee be unto any man that will change "add to," or "take from" the Bible (Rev. 22:18-19).

2. We stand for the religion of Christ as a perfect and final

religion. Christ is its "author and finisher," (Heb. 12:2), and no man can improve upon it. Christianity, as Jesus gave it, is the only true religion.

We stand therefore against any counterfeit or imitation of the religion of Christ. A religion which demands less than Christ demanded, is a false religion. Any hope of heaven, built on anything else than what Christ said, is an empty hope (Matt. 7:24-27).

3. We stand for the gospel that Jesus gave (Mark 16:15-16). This gospel has power to save lost sinners (Rom. 1:16). And is "able to save" (James 1:21-22). Those who refuse to obey this gospel will be lost (2 The. 1:7-9). No other doctrine is divine. We stand, therefore, against the "doctrines of men," (Matt. 15:9) and we warn all men that there is no other gospel (Gal. 1:8-9). To follow another means to leave God (2 Jn. 9), and to reject Christ (Lk. 6:46).

To be continued next week.

PAYNE HATTON, Evangelist

## Weekly Health LETTER

Issued by Henry A. Hoile, M. D., State Health Officer of Texas

AUSTIN—"The falling leaves of red and brown" mean happy times for most Texans. Football, Thanksgiving, deer season and relief from hot summer days are on the Texas scene.

But fall also means shorter days and longer hours of darkness. The sun sets earlier and twilight begins between five and six o'clock. Motorists beware.

Reports made to the Department of Health's Vital Statistics Division show over half of all traffic deaths occur from night accidents, even though less driving is done at night than during daylight hours. About one-third of pedestrian traffic deaths occur between 5 and 8 p. m.

Dusk is considered the most hazardous time of day both for

motorist and for pedestrians. There is too much daylight for automobile and street lights to be effective, and there is not enough daylight to see clearly.

The early morning hours of winter present the same hazard, but the fatigue factor is much higher for evening driving. Everyone is fresh and wide awake in the mornings, but may be tired and not so careful at the end of a long day.

For the next six months you have a greater chance than ever of being forced to drive after dark. In addition, rain and other poor road conditions increases during these months.

Pedestrians are mainly responsible for their own safety when darkness falls, because drivers cannot see them easily. They should wear light colored clothing and always walk facing oncoming traffic.

For motorists, the first traffic safety measure should be to reduce your speed at dusk. In Texas, the night speed limit is 55 miles per hour as compared to 60 for the daylight hours. Dark-

## LOCALS

Mr. and Mrs. Gordon Swaner, Mrs. Bert Swaner and daughters, Brenda and Linda, of Arlington; Jerry Swaner of Texas Tech, Lubbock, and Mrs. Myrtle Meizer of Benjamin visited Mrs. W. A. Floyd and Earl and other relatives here last Saturday and Sunday.

Mr. and Mrs. Melvin Strickland and her sisters, Misses Blanche and Clifford Elliott of Knox City, visited the girls' sister and husband, Mr. and Mrs. L. A. Proctor, in San Angelo last Sunday.

COMPLETE PLANT  
 FOOD MAKES  
 GARDENING  
 SUCCESS EASY!

Plants thrive when they get the proper nourishment they require from the soil. The easy way to be sure your lawn and flowers are properly fed is to feed everything you grow with Vigoro, complete plant food.

Vigoro is clean, odorless, sanitary, and easy to use. It's economical, you only need 4 pounds of Vigoro per 100 sq. ft. We have the supplies you need.

### Mrs. Gene Thompson Directs Program Of Munday Study Club

Members of the Munday Study Club met October 26 at the club house with Mrs. Fred Broach as hostess.

Mrs. Thompson directed a very interesting and informative program on "The American Way-Good International Relations". She introduced Mrs. A. L. Smith who spoke on "The Middle East-Nations of Unrest", and Mrs. M. H. Reeves who spoke on "America's Contribution to Eastern Stability".

Mrs. Thompson read excerpts from letters written by Mrs. Roy Saunders, formerly of Munday, who with her husband has been sent to Indonesia by the government to teach modern methods of farming to the Indonesian people. Mrs. Saunders told in her letters many interesting things of their home life and about the country.

Mrs. W. O. Ratliff, president, conducted the business session and presented Mrs. G. R. Eiland, district chairman of Transfer of Property, who reported on the workshop held in Fort Worth recently for the Federated Clubs of 1st district. Mrs. Earl N. Buchanan of Fort Worth, president of 1st district, presided at the meeting. She has chosen as her theme for her administration, "Federation, a Woman's World".

### Engagement Of Betty Jo McNeill Is Announced

Mr. and Mrs. Earl McNeill are announcing the engagement and approaching marriage of their daughter, Betty Jo, to Muri W. Feenster. The groom-elect's parents are Mr. and Mrs. Robert Feenster of Vera.

Miss McNeill is a graduate of Munday high school and is a junior at Midwestern University in Wichita Falls. Mr. Feenster, a graduate of Vera high school, is presently employed by the civilian personnel at Sheppard Air Force Base.

The couple will be married at 7:30 p. m. November 8, in the home of the bride-elect's grandparents, Mr. and Mrs. W. E. McNeill.

### Tin Can Social To Be Sunday For Methodist Youth

The Methodist youth will hold their "recreation house" from 6 to 7 p. m. Sunday in the fellowship hall of the First Methodist church.

An evening of fun, a barrel of food is promised. Admission will be a can of food.

I can, you can, we can come to the "Tin Can Social" at 6 p. m. Sunday. Bring a can of food.

Keeping house for a family of twelve on the sidewalks of the British port of Hongkong is no easy task for these refugees from communist China. A major problem is to find food. CROP gifts help these families and others resettled by Church World Service in housing developments.

### Skeleton Unearthed By Gilliland Boys Is Believed To Be That Of Indian Youth

A skeleton, believed to be that of an Indian chieftian's young son, was discovered Monday by Teddy Horn and Alton Burgess, Gilliland grade school students, and was unearthed Monday by Knox County and state officers.

The skeleton, which had scores of bracelets on the arm and leg bones, was found Sunday evening by two boys playing in the Wichita River brakes north of Benjamin and was reported Monday to the Knox County Sheriff's office.

Led by Knox County Sheriff H. T. Melton, a group, composed of H. C. Stone, Knox County deputy sheriff, Lee Bivins, Munday Chief of Police, Tom Bullington, Knox County Attorney, O. W. Welch, Gilliland, Leonard Welch, Gilliland, Tate Pittman, game warden for this area, Bill Rider, Benjamin, Burns Ray, Munday, Charles Carroll, Elton Carroll, Gilliland, and the two youngsters who discovered the skeleton, went to the site Monday afternoon to investigate.

It was located about one mile out in the brakes in the bottom of a dry creek bed, which had apparently been washed out by recent rains.

At the site, the group uncovered several more bones, more of the brass bracelets, and two pieces of an iron implement.

The skeleton was first believed to be that of a Spaniard. The skeleton was also linked with buried treasure in this area. There are several tales of lost Spanish gold and silver mines in the brakes of Knox County, along with legends of buried gold supposed to have been left by Spaniards, Indians, and outlaws.

The skull was found about four feet under the top of the ravine, while the remaining bones were

about one or two feet lower. Dozens of the brass rings covered the bones.

The iron, apparently a lance, was buried deeper in the ravine. The skull, which had been brought to the Knox County Sheriff's office by Horn and Burgess, was in very good condition and Sheriff Melton and his office investigated to determine if it was an Indian skeleton.

No further investigation will be made by the sheriff's office, but the find sparked the chance of additional Indian relics or treasures being buried in that area of the Knox County brakes.

### HALLOWEEN CARNIVAL IS HELD AT GOREE

The Parent-Teacher Association of Goree sponsored a Halloween Carnival Monday night in the Goree gym. The queen of the carnival, Jean Orsak, was crowned by Jerry Brown during a pretty coronation ceremony on an appropriately decorated stage.

Following the coronation, a talent show entertained the capacity crowd. First place winners were Randy Patterson imitating Elvis Presley as Cindy Hunt bopped. Second place winner was Pamela Yates singing "Courtin' In The Rain." Third place was taken by "The Bopsters", Linda Lee Latham and Dorothy Harrison. Several other entries were well received by the crowd.

Each class sponsored a booth in regular carnival style, ranging from several kinds of food to various games and entertainment. The PTA wishes to thank everyone who helped to make this event possible.

Use The Classifieds to Buy, Sell!

Look: A Small Workbench

EVEN a simple table can be made into a workbench. If there's limited space, a small table, of the right height, will serve, or build a table just the size you want. It isn't difficult with framing lumber, shiplap boards for a top and a working surface of Masonite 1/2" Tempered Presdwood.

Any way you look at it, the bulky workbenches of yesteryear have given way to a more compact variety. Many are less than two feet wide, for example, and some aren't over three feet long.

Lots of good home workshop projects can be carried out just as successfully on a small workbench, or table fixed up like one. One ingredient most of them have in common—a tough, durable working surface, usually Masonite Tempered Presdwood, which is popular for this use because it's been found so satisfactory in industrial workbenches. If and when it wears out, just remove it and attach another sheet of the material, available at most lumber yards.

Even an apartment can have a workbench of the type illustrated. A portable one, which fits over a kitchen table when needed, is made by framing a panel of Tempered Presdwood with 1 by 2-inch lumber (on edge), so it will slip over the table. For padding, use an old blanket. Store the portable workbench top in a closet or utility room when it's not being used.

### Supt. Cox Speaks On Teacher Retirement

W. C. Cox, superintendent of the Munday School, spoke to the Munday Study Club recently on the teacher retirement bill that is to come up in the November 6 election.

Mr. Cox told of the serious condition of the schools in Texas that are already short 7,000 teachers. He stated that this bill was not for the special benefit of the present teachers but to encourage the youth to see that they can make teaching a profession and still have the security for the future that any other profession will provide.

This bill will receive the support of the club and Mrs. W. O. Ratliff, president of the club, urged all members to go to the polls on November 6 and vote.

### THANKSGIVING FAVORITES ARE ON NOVEMBER PLENTIFUL FOODS LIST

A bountiful Thanksgiving feast can easily be prepared from the U. S. Department of Agriculture's November plentiful foods list.

Supplies of turkeys, pork and potatoes are so large that USDA is urging the food trades to give extra emphasis to them.

Other meats, in addition to the Thanksgiving turkey, include beef, broilers and fryers as well as lamb and frozen haddock and ocean perch fillets.

Also on the plentiful list are eggs, milk and other dairy products, rice and peanut butter.

Fruits and vegetables include such holiday favorites as cranberries, pears, dates, potatoes, cauliflower, cabbage and pinto beans.

The plentiful foods list is based on a USDA survey of actual supplies available in the major trade areas of the state.

### Munday Girl In ACC Marching Band

Diane Hobert of Munday is a member of the 1956 Abilene Christian College Marching Band.

Miss Hobert is the daughter of Mr. and Mrs. Chamler E. Hobert. Diane served as a member for 5 1/2 years in the Munday Mogul High School band.

Under the direction of Douglas Fry, the marching band presents an elaborate program of music and maneuvers at each "home" football game, and accompanies the football team on occasional trips during the season.

In addition, the 100 piece band sometimes plays for pep concerts and parades in cities in which the games are held.

Doe Clough, who had been visiting in Fort Worth, returned here with them.

Mr. and Mrs. Joe Williams and children of Ozona were guests of her parents, Mr. and Mrs. Jim Reeves, last Monday night and Tuesday. Mrs. Williams and children remained for a two week's visit.

Mrs. Addie Hopper has returned to her home in Norman, Okla., after a few weeks visit with her sister, Mrs. R. F. Suggs.

Mr. and Mrs. J. C. Regan and family visited Mrs. C. A. Regan

and Mrs. R. F. Suggs last Monday afternoon.

Dr. and Mrs. Delmon E. Alexander and children were guests of her parents, Mr. and Mrs. J. L. Cupp, in Waco over the week end and attended the Baylor and A&M football game on Saturday night.

Alfred Guinn of Wichita Falls spent the week end with his mother, Mrs. Bess Guinn.

Drive carefully. The life you save may be your own.

### CARD OF THANKS

Our recent sad loss leaves us with grateful hearts toward neighbors and friends. Their comforting expressions of sympathy and thoughtfulness will always be remembered.

The Family of R. L. Gaines. Itc

HERE'S HOW

### EISENHOWER IS A BETTER DEMOCRAT THAN STEVENSON

### TEXAS DEMOCRATS FOR EISENHOWER

You are a free Texan... You can vote any way you like. Regardless of what you may have heard, it is perfectly legal to split your ticket if you want to, just as it is legal to vote the Democratic ticket straight, or the Republican ticket straight. The purpose of the ballot is to determine what the people want. And if you want to vote for Eisenhower and Nixon—then cast the rest of your ballot for the Democratic nominees—that is your privilege. Don't let anyone tell you otherwise! BY LAW YOUR VOTE MUST BE COUNTED.

(Pub. Adm.—Paid for by Texas Democrats for Eisenhower, Walden Hart, Director.)

Byron Parrish was chief of police in Ranger during the oil boom and he cleaned up the town, calling it "bad men", including the leader, whom he dismissed, whipped and gave hours of labor.

But with the coming of law and order, the majority of the city commission decided that the methods of the former Texas Ranger were too rigorous and so, one day, when he was out of town, a special session was held and he was discharged.

Nearly 10 years later, while I was in Stephenville for a murder trial, the man who was police commissioner in Ranger during the boom was there as a witness and, during a recess, we chatted in the corridor of the old courthouse and he told me about it. He said:

"As police commissioner and also because I was Parrish's friend, I was given the job by the other commissioners to break the news to him that he had been dismissed. But when he got back to town, he heard about it right away and he came storming into my office. I was seated at a table and tried to calm him but he was in a rage. I protested that I was his friend but this had little effect.

"Then I got a little irked myself and said, 'You are armed—but I got no further. Parrish, who was standing, drew a pistol and slid it across the table. 'There's a gun; pick it up,' he said. But

I just let it lay there. I knew how quick he was on the draw and how straight he could shoot. "Gradually, he became calmer and we parted on good terms. "In a day or two, he left Ranger."

The boom-day police commissioner emerged unharmed from the clash with the gun-fighter but was destined to meet a violent death. He owned a ranch near Ranger and drove into town almost daily. One day, while driving across the railroad track near town, he was struck by a train and killed.

A man laid down a book in disgust, and said, "I can write a better novel than that." "Then why don't you?" his wife challenged. He had never written anything but he proceeded to write "The Last of the Mohicans."

on fresh shorn kinds. Old wethers drew \$8 to \$12.00.

Good and choice slaughter steers and yearlings drew \$16 to \$23.50 and common and medium offerings sold from \$10 to \$16. Fat cows cashed at \$10 to \$12.50, and canners and cutters drew \$6.50 to \$10. Bulls sold from \$8 to \$12, a few higher.

Good to choice slaughter calves at \$14 to \$18, some heavy weights around 600 pounds to \$19. Common and medium slaughter calves sold from \$10 to \$14, while culls sold from \$8 to \$9. Stocker steers calves of medium to good grades sold from \$14 to \$18.50, and steer yearlings of medium to good grades sold from \$13.50 to \$17.50. Stocker cows cashed at \$7 to \$3.50. Stocker heifers and heifer calves averaged \$2 to \$3 under similar stocker steer calves.

**STATE COTTON ACREAGE ALLOTMENTS & MARKETING REFERENDUM ANNOUNCED**

The U. S. Department of Agriculture has announced the 1957 state acreage allotments for upland cotton; the national allotment for extra long staple cotton and set December 11 as the date for a referendum on marketing quotas for the 1957 cotton crop.

The total allotments available for distribution in the states were set by the USDA at 17,585,463 acres. The total allotment for Texas was set at 7,547,503 acres which includes 10,974 acres as Texas' share of the national reserve. The Agricultural Act of 1956 provides that a national acreage reserve of 100,000 acres be apportioned among States on the basis of the estimated needs of each State for additional acreage to establish minimum farm allotments under the act.

The marketing quota for the 1957 crop upland cotton was announced on August 31 as 11,014,493 bales of 500 pounds gross weight. The marketing quota for extra long staple cotton, just announced, is 76,565 bales, and the national acreage allotment was set at 89,357 acres for the 1957 crop.

At least two-thirds of the cotton producers voting in the December 11 referendum must favor the marketing quotas if they are to be effective on the 1957 crops. Whether quotas are approved or disapproved, 1957 cotton acreage allotments will remain in effect as a condition of eligibility for price support.

The USDA announcement said that the state acreage allotments would be apportioned among counties and the county allotments among farms according to provisions of the law and regulations issued by the Secretary of Agriculture. Individual farm acreage allotments will be mailed to operators of cotton farms prior to the referendum.

Mrs. W. O. Mays over the week end were her twin brothers and their wives, Mr. and Mrs. Alvin Day of Pampa and Mr. and Mrs. Altus Day of Mexia. Their father, Charles Day, who has been visiting his daughter the past five months, returned home with them.

Mr. and Mrs. Robert Gaines of Dallas and Gordon Gaines of Ropesville visited their parents, Mr. and Mrs. Jim Gaines over

the week end and attended the funeral of R. L. Gaines on Sunday afternoon.

Little Miss Renee Watkins of Wichita Falls spent the week end with her grandparents, Mr. and Mrs. W. E. Reynolds.

Miss Janie Haynie of Fort Worth visited her parents, Mr. and Mrs. Charlie Haynie, Sr., and other relatives and friends here last Sunday and Monday.

**FOR SALE**—Rock veneer building joining tourist cabins on east. Can be converted into drive-in cafe, about 2000 concrete floor space. 20x24 building attached on northwest corner. 8x8 foot bath house, standard fixtures, lavatory, commode, overhead shower 20-gallon gas water heater, attached to drive-in cafe on northeast corner. If interested see or call O. V. Milstead, phone 4901 or 4451. 15-4tc

**Tex Says He's No Expert But He Believes Ike Is**

The other night a bunch of us were sitting around in the drug store after the football game, drinking coffee and talking. You know how it is after a game in a small town, especially after the home team loses. Nearly every man in the crowd had a theory as to why we didn't win the game. Most of them, of course, blamed the coach. I couldn't help remembering that before we consolidated the county schools we didn't even have enough boys to make up a football team. And these same football experts who were saying what Rockne or Bud Wilkinson would have done, up until a few years ago they didn't know a football from a watermelon.

But that's the way it is in a small town (and in big ones, too, I understand). I guess there's no real harm done, although sometimes it's pretty rough on the coach.

I guess we have a right, in this free country, to be self-appointed experts in any line we want to pick out. It seems to me that most people choose either football or politics.

Take this presidential election coming up next Tuesday: During the last few weeks I have heard so many stories and theories from so many different political experts that I nearly get confused sometimes. I have to stop and think that the fellow who is talking probably doesn't know any more about it than I do, and that helps me keep straightened out.

In fact, I guess I have had my mind made up all along. To make no bones about it, I like Ike. He's a man you can always look up to and respect—the kind of

man you'd be proud to point out to any person, from any country on the face of the globe, and say: "That's our President!"

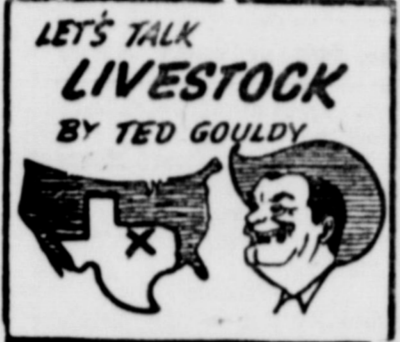

About Adlai, now, I'm not so sure. Of course, if he was elected, he would be my President, too, and I would hope he'd do a lot better than most people around here seem to think he would. This is something I don't think we need to worry about, because from all I can hear and read, Ike is going to win it again.

It seems to me that if Adlai ever had a chance around here, he threw it away when he came out with that H-bomb business. Now, the folks in our town don't know much about H-bombs, except that they don't want any personal dealings with them. Our scientific knowledge of H-bombs is about on a par with our football knowledge, I reckon. But we do know one thing: We don't want some misguided, inexperienced fellow fooling around with our national defense. When it comes to trusting what Bulganin says or what Eisenhower says, I'll take Ike. So will the rest of the country, if I don't miss my guess.

Just before we broke up the other night Doc Brown came into the drug store, and somebody asked him: "Hey, Doc, how's Ike doin'?" Doc said: "Well, it's a busy campaign for the medical profession. Last week Ike went and got his heart examined; and I understand that this week Adlai is going to get his head examined."

Yours truly,  
*Tex*

(Pol. adv. paid for by Texas Democrats for Eisenhower, Wilson Hart, Director.)

**PORT WORTH**—Fed steers and yearlings were slow and weak at Fort Worth again Monday, most bids were around 50 cents or more lower. Cows made up about one-third of the cattle numbers and moved in an active trade at stronger prices. Other cattle and calves were active and fairly steady.

Butcher hogs sold 25 cents lower and sows were weak to 50 cents lower. Butcher hogs topped at \$15 to \$15.25 and less desirable weights and grades cashed at \$11 to \$14.75, with some pigs at \$10 to \$11. Sows sold from \$12 to \$14.

Sheep and lambs were fully steady. Good and choice slaughter lambs sold from \$18 to \$20, while cull to medium sorts sold from \$10 to \$17. Stocker and feeder lambs drew \$13 to \$17.

Fat ewes sold from \$5 to \$5.50, and others cashed at \$3 to \$5 with the lower end of the price range

**FOR SALE**—Good residence property, ideally located on paved street. Two 4 or 5-room rock veneer houses, modern in every respect. 8-room strictly modern duplex with private baths, newly redecorated, completely furnished, air conditioners. All rented and can be seen by appointment only. Good rent property. See or call O. V. Milstead, phone 4451 or 4901. 15-4tc

### Good Idea To Vary School Fire Drill Routes Experts Say

Fire drills are held regularly in schools. The usual exits are utilized. But what provisions are made for the possibility of one exit — perhaps two — being blocked by fire?

Here's what the Safety to Life Committee of the National Fire Protection Association recommends:

It is good practice in conducting school fire drills frequently to assume that a given doorway or doorway is not usable because of fire or smoke and the children must leave the building by some other route.

A large sign may be used to indicate that fire blocks an exit. Of course there could be no advance warning of where the sign would be placed.

Thus teachers and pupils gain a practical opportunity to learn different escape routes before the fire gong sounds for the real thing.

November, 1956, at 10:00 o'clock A. M. as the day and time to hear such application, which hearing shall be had in the County Court Room in the Court House of such County at Benjamin, Texas, and which hearing may be continued as provided by law in such matters.

CITY..... TEXAS

on the 30th day of October, 1956, filed with the County Clerk of Knox County, Texas, an application for authority to make oil and gas leases and mineral exploration and development on the following described real estate belonging to such Estate situated in Knox County, Texas, and described as follows:

The first lease is to cover the following land situated in Knox County, Texas, and being an undivided one-half (1/2) interest in and to fifteen-sixteenths (15/16) of the mineral rights including oil, gas and other minerals on, under and upon Sub-Survey or Block No. 2 out of original Survey No. 13, Certificate No. 7, Abstract No. 16, patented by the State of Texas to George Griswold as assignee of D. G. Burnett and containing 172 acres, more or less.

The second lease is to cover all that undivided one-half (1/2) interest in and to that certain tract and parcel of land in Knox County, Texas, being a part of Abstract No. 19, Certificate No. 8, patented by the State of Texas to George Griswold as assignee of David G. Burnett, Patent No. 841, Volume 11, Survey No. 14. Said tract of land herein covered by this lease is known and described according to a map of plat of Rhineland Colony in said Knox County, Texas, as made and prepared by Joseph Riesdorff as Sub-Survey No. 4 and containing 160 acres out of said original Survey No. 14.

That L. A. Parker, Judge of the County Court of Knox County, Texas, on the 30th day of October, 1956, duly entered his order designating the 12th day of No-

IT PAYS TO ADVERTISE

## Knox Prairie Philosopher Favors A New Commuting Tax Law Provided It Can Be Applied To His Farm, Too

Editor's note: The Knox Prairie Philosopher on his Johnson grass on Miller Creek may have an idea this week, but you never can tell.

J. A.

Dear editor: Everybody who can remember from one campaign promise to another has just about given up any hope of ever getting a cut in taxes, so as resourceful Americans the only thing that's left to do is figure out more ways to charge up more things to expense, to whittle down on your income tax.

Consequently I was very pleased to read in a copy of a newspaper which a campaign worker left here last week while he was urging me to go to the polls and vote, which is the only reason I can think of going there in the first place, that a candidate running for office up in New York has come out for a plan to allow people to charge up as expense against their income tax the cost of traveling back and forth to get to work, or commuting, as they call it up there.

According to him, big business is allowed to charge up all sorts of expense items, such as entertaining, hauling customers around, attending conventions, etc., and the average person ought to be allowed to charge up the cost of getting to and from work.

This is a fine idea and I hope you throw your influence behind it, if you haven't misplaced it.

For example, say a man lives five miles from his work, which a lot of farmers will be doing if farming doesn't improve and they can swing a job in town, he ought to be allowed to charge up the cost of traveling back and forth as a legitimate expense on his income tax.

Or take me. Now I don't plan on getting a job in town because the farming situation may be bad, the farming situation has been bad most of my life but not bad enough to drive me to a job in town where somebody else is boss, but there's some traveling to and from work on a farm. For example, say I'm starting out to

dig some post holes. Anybody who has ever dug post holes by hand knows it takes considerable psychological build-up to tackle the job, sometimes requiring a fishing trip just to strengthen your nerve.

If a man travels fifteen or twenty miles and fishes a while to improve his frame of mind before setting in to build a fence, what's different in that from a commuter's train out of the hurly-burly of New York in the late afternoon to your home in the country so your nerves can recuperate over night for the battle in the city the next day?

This sounds like a good law to me and I hope you'll dig out your influence and help get it passed. Clean off your desk and see if you can't find it somewhere around there.

Yours faithfully,  
J. A.

## BAPTISTS BELIEVE... EVERY CHRISTIAN IS A PRIEST

The Bible plainly sets forth this great doctrine. Every Christian is his own priest, and therefore needs no one else to act as a priest for him to stand between him and the end. The Apostle John wrote of Jesus Christ that he "made us kings and priests unto God"—(Revelation 1:6). The Apostle Peter wrote to early believers, "Ye are . . . a royal priesthood" (1 Peter 2:9). The Apostle Paul wrote, "There is one God, and one mediator between God and men, the man Christ Jesus" (1 Timothy 2:5). We do not need someone on earth now to petition God in our stead. Since every Christian is a priest, he can intercede with God for himself. He can approach God directly through Christ the great High Priest. Christ alone has authority to forgive our sins.

The Christian priesthood forms a brotherhood of all Christians and not a religious rule of priests, or hierarchy. The New Testament churches did not set apart any special persons as priests. Baptists follow their example. They believe that every Christian is his own priest, and that the pastor is no more a priest than any member of the church.

The priesthood of the believer rests upon truth. Christ spoke to each individual when he declared, "Ye shall know the truth, and the truth shall make you free" (John 8:32). The gifts

and knowledge of God come directly to each individual Christian. No third party is necessary. "He (the Holy Spirit) shall teach you all things . . ." (John 14:26). The priests of the New Testament—all Christian believers—know God in spirit and in truth. Theirs is the knowledge of experience. The first followers of Jesus learned this great spiritual truth. Jesus said "Flesh and blood hath not revealed it unto thee, but my Father which is in heaven" (Matthew 16:17).

Because each person can approach God for himself, no man can act for another in spiritual matters. A husband cannot be a priest for his wife. A mother cannot be a priest for her child. A minister cannot do for members of his church what God expects them to do for themselves.

All Christians are priests. As such we can draw near to God with boldness, through our High Priest, Jesus Christ, to offer sacrifices of praise and good works. The person who has not become a follower of Christ may go to God directly in prayer and declare his desire to follow Christ. The priesthood of believers is a doctrine of spiritual vitality, not of mere religious forms. Each believer becomes a priest and his body becomes a human temple in which God lives. The great Christian Apostle, Paul, wrote: "Know ye not that ye are the temple of God, and that the Spirit of God dwelleth in you" (1 Corinthians 3:16).

### Election—

(Continued from Page One)

tax money without special elections. Pro: Greater flexibility would make for greater efficiency in county financial management. Con: Commissioners Courts would have too much authority.

3. Adds other colleges to the building program financed by the University of Texas permanent fund and authorized investment of the fund in corporate stocks and bonds as well as government bonds. Pro: Would provide an increase in college building money without new taxes. Con: Risk involved in wider investments is not worth the possible return.

4. Increases the benefits of teacher retirement system. Pro: Would attract more persons to the dwindling profession. Con: Would increase taxpayer obligations and take a larger nick out of teachers' salaries.

5. Authorizes another \$100,000,000 bond issue for veterans land buying. Pro: Program has been put in order and additional money is needed to enable more

veterans to participate. Con: Program does not merit public confidence; only about one per cent of Texas veterans have benefited.

6. Provides a different oath of office form for elective and appointive officials. Pro: Would clarify present inconsistencies. Con: Clutters constitution with minor details.

7. Requires competent medical or psychiatric testimony before commitment of a person to a mental institution and allows waiver of jury trial, except in criminal cases. Pro: A mentally ill person should not be "convicted" as a criminal. Con: Jury trial is a safeguard against "railroad" of persons into mental institutions.

8. Permits judge to deny bail to persons convicted of two previous felonies. Pro: Would curb habitual criminals. Con: Right of bail is one of our fundamental civil rights.

9. Authorized the legislature to give aid with federal assistance to citizens permanently and totally disabled by a mental or physical handicap. Pro: State has a moral obligation to those needy persons. Con: Tie-in with federal program would lead to more federal encroachment.

### Motorists Urged To Have Inspection Of Cars Made Early

Getting early automobile safety inspections may mean the difference between life and death, according to G. C. Morris, executive secretary of the Highway Safety Council.

During the first month of the current inspection period, which will run through April 15, only 4 per cent of the registered vehicles in Texas had been inspected.

"The importance of inspections has been proven by Department of Public Safety statistics," Morris said. "In 1951, before the inspection law went into effect, mechanical defects were a causative factor in 19 per cent of the fatal accidents in Texas. Last year, that figure had been reduced to 5 per cent.

"These figures show beyond a doubt that a person whose car is in good mechanical condition is much less likely to be involved in a fatal accident," Morris said. "A person who waits until the last minute to get his car inspected is taking a dangerous gamble with his own life."

Last year, 43 per cent of the vehicles inspected in Texas needed some adjustment or repair, and the average cost for such services was only eighty-eight cents, according to the Department of Public Safety.

### TAILORED FOR FALL

Dark tailored cotton by Dan River is glamorized by braid-edged trim from throat to waist. Added fashion sparkle is found in rhinestone-set buttons. Skirt has kick-pleat for ease in walking.

### Cotton Men Agree Mechanization Is Key To The Future

Mechanization can go a long way in solving the basic problems of cost and quality, thus insuring cotton a bigger and better future in its competitive battle for present-day markets.

Such was the consensus of representatives of the cotton industry and allied interests at the tenth annual Beltwide Cotton Mechanization Conference recently in Atlanta.

Keynoting the conference, Rhea Blake, executive vice president of the National Cotton Council, analyzed the nature of cotton's competition and the need for low production costs and high quality if existing markets are to be held and new ones gained. His talk emphasized the opportunities offered by mechanization in attaining these goals.

Panel discussions during the three-day conference stressed research needs in mechanizing cotton production, from breeding through harvesting, and ways in which new machines and techniques can be put to use quickly and profitably by cotton farmers. The discussions emphasized how cotton farming efficiency can be increased through the breeding of varieties better adapted to mechanization and through improved land preparation, planting, and fertilization practices.

Experts from the Department of Agriculture, the farm equipment industry, and the cotton ginning industry took part in talks on the growing and processing of cotton so as to maintain its high

### TERRY TOWEL DO WORK IN KITCHEN

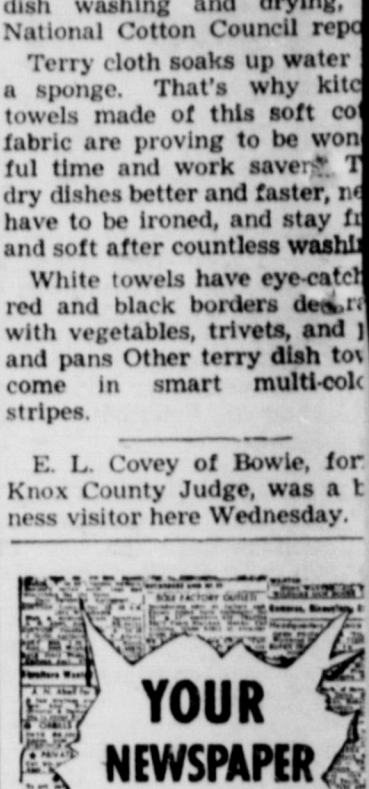

New terry towels are designed to speed up the daily chore of dish washing and drying, National Cotton Council reports.

Terry cloth soaks up water like a sponge. That's why kite towels made of this soft fabric are proving to be wonderful time and work savers. Terry dishes better and faster, need to be ironed, and stay fresh and soft after countless washings.

White towels have eye-catching red and black borders decorated with vegetables, trivets, and pans. Other terry dish towels come in smart multi-color stripes.

E. L. Covey of Bowie, former Knox County Judge, was a business visitor here Wednesday.

You will find strange words in the U. S. Constitution: "Congress has the power to define and punish piracies and felonies committed on the high seas, and offences against the law of nations." No man owns the high seas, and no nation rules it. So that when a crime like piracy takes place, the law does not look upon it as against any one nation, but against the law of nations.

For centuries, all maritime nations have had the right under international law to capture on the high seas persons guilty of piratical acts and to punish them. Piracy is an international crime, but each country punishes it under its own laws. Any nation has the right and duty to police the high seas, and any pirate loses the protection of the flag he may be flying.

As one court put it, the pirate is "treated as an outlaw, as an enemy of all mankind."

How far this idea of the "enemy of mankind" may go, is now a question before world opinion.

The Treaty of Versailles, for example, held that Germans who had broken the law and customs of war should go to trial before the courts of the victors.

Though World I Germans did not do so, those of World War II faced trial and were convicted at Nuremberg. The right of victors to try war criminals has been warmly debated ever since.

Where did we get the idea that there is a law of nations?

It comes to us through centuries of international trade, commerce, war, and treaty making. Chiefly it came down through Roman law, and found expression in the belief that God promulgated a law of nature through man's reason which is binding on men and nations.

(This column, based on Texas law, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who knows the facts because the facts may change the application of the law.)

"The Rexall Store"

By John C. White, Commissioner

**The Farmer: Political Stormcenter**

With the 1936 presidential election campaigns currently reaching their peak, the farm issue had graduated to an all-time high in political debate.

The farm problem is a living campaign issue—more than a political football to be booted around and more than an interesting debate to be observed by the voting public. And the point in question is not whether something should be done, but rather exactly what must be done.

No one will fail to recognize that American farmers are living in a state of depression completely out of keeping with the overall picture. However, few people really understand why the problem is so acute with farmers, and even fewer know how seriously the farm problem could affect other areas of American economy.

**Principle of Parity**

Everyday questions of "why can't the farmers take their own chances like I do in my business?" and "what's with this parity stuff?" come from those who have a warped picture of the greedy farmer who wants everything for nothing.

That just isn't so. Necessity of government control in agricultural economy can be explained through its unique position as an individual, dependent economic segment.

In nearly all phases of economy there are checks and balances which will keep the costs of labor, living, production, and marketing in near-balance because of their strict interdependence.

Unhappily with the farmer, his dependence on other areas of trade is not reciprocal except where his purchasing power is concerned. And this is very important.

But the farmer's supply has grown to a point of almost constantly exceeding consumer demand. Yet, he must market his crop somehow or else be ruined. And when he gets to the market place, the farmer must be able to sell his goods at a rate which will be in line with his buying power.

And that's exactly what parity prices are—dollars-and-cents prices that give to farm commodities the same purchasing power the commodities had in a selected base period when prices

received and paid by farmers were considered in good balance.

By this reasoning, the farmer's parity ratio now should range at least up to 100 per cent because everything he buys, plus his taxes and interest rates, are at an all-time high.

But under present "flexible" price supports, parity ratio has plummeted while farm costs have skyrocketed. The parity formula has been completely cockeyed.

If any other business this could never work; increased costs would be passed on to the next in line and so on down to the consumer. Why should the farmer have to suffer the brunt of economic shock?

He can not prosper under present controls, nor can he survive without proper controls.

The issue must be resolved. And it will be, one way or another, on election day, November 6.

**CITY IS INVITED TO HAVE "DAY" AT FORT WORTH SHOW**

Munday has been given an invitation to have a special day at the Southwestern Exposition and Fair Stock Show. A letter to the Chamber of Commerce from W. R. Watt, president-manager of the Fort Worth exposition, Jan. 25-Feb. 3, states:

"The 'days' of the cities add colors and contribute much to the success of the Stock Show and we are grateful for your participation in the past."

Lee Haymes visited with his wife in the Bethania Hospital in Wichita Falls last Saturday and Sunday.
