Odd Bits Salvaged  
By The Editor

"Say, you went to sleep before the convention was over," she says to us at the breakfast table Tuesday.

"Well, I couldn't find anyone there I knew," we reply. "I couldn't find either C. E. Williams or Kathryn Duff."

These are two people we know personally whom we knew were attending the Democratic National Convention in Los Angeles.

Williams of Knox City, is Knox County's own delegate to the Demo. caucus. The Williams family, including the children, Eddie and Phil, left last Friday in their private plane to attend the convention.

Miss Duff is representing her newspaper, The Abilene Reporter-News, at the big to-do and is firing back some very interesting articles on the convention. With all the milling around in the convention hall Monday night, we were unable to spot either of them.

Of course there were other activities than those in the convention hall, and from the empty seats shown on TV, many were at these activities. Not all the convention news is found in the convention hall.

Some 150 persons who went from Texas to Los Angeles for the convention were not much better off than we were. They were those who failed to get tickets and were forced to view the convention via TV from Johnson's downtown headquarters. We possibly had the edge on them in one particular. We went to bed and to sleep before the night's activities were over.

It appears from the rousing start of the convention, that "the Democrats are in." No matter who is nominated, he will be "the next president of the United States." But, of course, the Republicans haven't held their convention.

Reminds us of the story of the little boy who told his father the other team was leading 14-0 in the ball game. When the father remarked that they were getting beat pretty badly, the boy replied "We ain't been to bat, yet!"

The pictures of water coursing along Miller Creek you see in this paper was made by us last Friday as the heavy rains along the upper reaches of the creek sent the little stream on a mild rampage. This is the type of water that will fill the Miller Creek Reservoir; when, and if, the dam is constructed. As it was Friday, it was "lost water," 'cause there was no dam to hold it.

We said "when, and if" because we understand opposition to the Miller Creek project are still seeking ways and means of halting activities on the project, both here and at Haskell. They may be right, and they may not be.

Like some time ago, a person asked us what we thought of the project. Our reply was: "Well, we don't know whether we can't afford to carry it through, or whether we can't afford not to." That is a matter to ponder over.

We had a nice crowd in Munday for the first Bargain Day event held Wednesday and sponsored by the merchants of Munday. People seemed to be looking and buying up the numerous bargains offered in the local stores.

Attracting most attention among the shoppers were the little girls dressed up like elderly women and going the rounds along the square. We think this was an event enjoyed by the kiddies themselves and by all older people who saw them. We heard several of the girls decide they were not ready for high heels for some years, yet.

The second Wednesday in each month has been set aside as Bargain Day for at least six months. We hope you'll keep coming to them. Local merchants do, too. It's sorta their way of saying "thank you" for your patronage.

Mrs. Matt Kreitz and Mrs. John Weiss and children of Bastrop and Mrs. Rose Ann Johnson of Dallas are visiting relatives and friends in Knox County.

## Fred F. DeVaney To Speak At 91st District Masonic Meeting At Haskell

Fred DeVaney, Grand Secretary of the Grand Chapter R.A.M. and Grand Recorded of the Grand Council R & S M of Texas will address the masons of the ninety first district when they meet in Haskell, Texas on evening of July 19th. Dinner will be served in the dining hall of the Masonic Lodge at 7:00 p. m. and be followed by a short business session and DeVaney's address will begin at 8:00 p. m.

Fred DeVaney is known nationally for his oratory and interpretations of Masonic symbolism and Masonic Traditions, having received all the chartered and Honorary Degrees of York Rite Masonry and he is also a thirty second degree Scottish Rite Mason. His Masonic biography and experience constitutes the ambition of all zealous masons but few indeed attain. Among a few of his Masonic honors include being a member of the Texas Lodge of Research, Grand Representative of the Grand Chapter of Idaho to Texas, Grand Representative of the Grand Chapter of Massachusetts to Texas, Chaplain of the Order of the Silver Trowel, charter member of the DeMolay Conclave and now serving as Standard Bearer of the Red Cross of Constantine, secretary of the Grand Council of Anointed High Priests of Texas.

Mr. DeVaney is a member of the degree team of Karem Temple of Waco, a member of the Order of the Eastern Star having served its Grand Chapter on Registration, Jurisprudence and

Stral Committees. Fred Forrest DeVaney was born in Waco, Texas on February 4, 1920 and a graduate of the public schools of that city, a graduate of Baylor University, graduate of Southwestern Baptist Theological Seminary of Fort Worth and being a Baptist Minister has held pastorates at a number of Texas Baptist Churches.

## Repairs Made To City Hall

Work was started last week on repairing portions of the City Hall in Munday in order to convert it into more rooms for the convenience of everyone.

Included in the additional space will be a 12x28 meeting room or conference room, which will be open to the public. It will be air conditioned and equipped with comfortable chairs and counsel table. This will be located on the upper floor and will be strictly private.

Offices of the Justice of Peace and Chief of Police will be moved to the southeast corner of the building, and it is planned for the Chamber of Commerce and Public Library to be moved into the southwest corner of the building.

These portions of the building are undergoing general repair to the ceilings, walls and floor, and repainting and additional electric wiring will be done.

## Water Board Has Meeting Tuesday

The board of directors of the North - Central Texas Municipal Water Authority met on Tuesday, July 12 in regular session in the P. C. A. office in Munday, with all members present. Also present were Bob Nichols of the engineering firm of Freeze & Nichols of Fort Worth, consulting engineers for the Authority, and Frank McMahon, representing the investment bankers for the Authority.

Mr. Nichols made a report of the progress being made on the proposed lake, the dam site being finally established as being on the Harry Portwood ranch, south-east of Bomarton.

The lake will be a 25,000 acre-foot lake, with provisions being made at this time to increase the capacity to 40,000 acre-feet if the water requirements should become necessary at a future date. The greatest depth of the lake at the dam will be 66 feet, with an average depth of approximately 33 feet. This will make this lake a greater depth than the Stamford lake, which has an average depth of approximately 12 feet, and will produce approximately 1,000 acre-feet more water per year than Stamford lake because of this greater depth and less evaporation, according to the engineers.

## SUFFERS STROKE

Otis Simpson suffered a stroke last Thursday at Weatherford enroute to Dallas to get his wife. He is now hospitalized at a Methodist Hospital in Dallas undergoing treatment. He is reported to be doing alright but will have to remain quite for some time.

Mr. and Mrs. Tom Morton visited his parents near Lubbock last Sunday.

Miss Carolyn Hobert visited friends in Dallas over the week end.

BACK WATER — From overflowing Miller Creek is shown here. Pond of water in upper left is some three-fourths mile from spot where picture was taken. Tall trees in background are along main channel of creek. Picture was taken Friday afternoon on C. P. Baker place, near the line of Haskell and Throckmorton County.

LOST WATER — Is shown here coursing under the old Miller Creek bridge, near the Frank Allen ranch home, from rains last week. Water was nearing floor of bridge but highest rise was not expected for some eight hours longer. Notice chunks and limbs being carried downstream. This is "lost water" for this area, because there's no dam on Miller Creek to catch it.

## Prizes Awarded In Girls' Dress Up Contest Here

Two dozen or more little girls of Munday were "lady shoppers" Wednesday morning as they dressed up in high heels, long skirts and fashionable hats to take part in the shopping spree during Munday's first Bargain Day event.

Many of the little ladies, who were hard to recognize, drew smiles and admiring stares from adults as they went from store to store on their shopping tour. Some had trouble in manipulating their high heels, but all had fun during the morning.

The Munday Chamber of Commerce awarded cash prizes to the three adjudged the best dressed. Judges were anonymous persons who reviewed the girls on their trek of the town. Cameras clicked continuously as the girls' admirers took their pictures.

The winners are: Mary Sue Mitchell, first place; Paula Pendleton, second, and Sharon Boggs, third. Awarding of prizes was the method in which the Chamber of Commerce participated in the Bargain Day event.

Mr. and Mrs. Lewis Fincannon and sons of Abilene visited his mother and sister, Mrs. Bertha Fincannon and Mildred last Sunday.

## Farm Bureaus Of 3-County Area To Meet Here Friday

L. B. Patterson, president of the Knox County Farm Bureau, has announced a 3-county Farm Bureau meeting for Friday, July 15 at 7:30 p. m. at the Munday school auditorium.

This meeting is sponsored jointly by the Knox County Farm Bureau and the Farm Bureaus of Haskell County and Baylor County. Its purpose is to discuss urban and rural relations and a discussion on "What is Parity?" who pays for it, who gets the benefits" and all about parity.

Principal speaker will be Bob Cherry, extension economist from A&M College, who will discuss parity. Plans are to have another interesting speaker on the program.

A special invitation is extended to all Farm Bureau members of the three counties, merchants of the areas, and all others interested, to attend this meeting.

## Groups Seeking Dissolution Of Water District

A group of citizens of Munday, Haskell and Goree, have reportedly filed petitions with the Commissioners Court of Knox and Haskell counties asking for an election to be held to determine whether or not the North-Central Texas Municipal Water District should be dissolved.

Two petitions were presented the Knox County Commissioners Court last Monday — one from Munday and one from Goree — bearing between 50 and 75 signatures, it was stated. A sum of \$200 in cash was "put up" for the purpose of calling the election.

The petitions were presented by Ed King, Abilene attorney for the group opposing the Miller Creek reservoir. Meeting with the court were Oates Golden of Munday, J. E. Walling and C. E. Smith, both of Haskell, and Mr. King.

The county attorney of Knox County took the matter under advisement and will advise the court at a later date. It was learned Wednesday that the county attorney would request an opinion on the matter from the Attorney General at Austin.

A similar petition was presented the Commissioners Court at Haskell, and it was stated the county attorney at Haskell ruled that the Commissioners Court had no authority to call such an election.

Mr. and Mrs. Pete Cena of Glendale, Calif. spent last week with her brother and wife, Mr. and Mrs. D. E. Holder. They left for home last Friday and Mr. and Mrs. Holder accompanied them to Lubbock and visited over the week end with their son, D. E. Holder, Jr., and family.

## Two Negro Youths Drowned Sunday While Swimming In Tank Near Munday

Two Negro boys drowned shortly before noon last Sunday in a stock tank on the Joe Bailey King farm, about ten miles southeast of Munday.

Dead are Charles E. Dickson, 11, of route one, Goree, and K. D. Sanders, 12, of Munday.

The boys were fishing in the tank with Charles' two brothers and another Munday youth, and evidently decided to go swimming.

H. H. Cowan, who farms near the scene, helped get the youths out of the tank. The Munday Fire Department was called to the drowning scene but was not

successful in its efforts to revive the boys.

Dr. D. C. Eiland of Munday arrived at the scene shortly after the fire department, but the victims had been dead several minutes.

Double funeral services were held at 4 p. m. Wednesday from West Beulah Baptist Church in Munday. Burial was in Old Goree Cemetery under direction of McCauley Funeral Home.

The Dickson youth was born May 14, 1949 in Texarkana. He had resided in the Goree area since September 1959.

Surviving are his mother, Mrs. Rozell Reed; his father, Willie Dickson of California; two brothers, Leon and James Dickson, and two half-brothers, Tommy and Michael Reed, all of the home; one sister, Willie M. Dickson of the home; and his grandmother, Mrs. Ozzie B. Thomas of Houston.

Born Aug. 6, 1947, the Sanders boy had lived in Munday since 1957. He is survived by his foster mother, Bobby Isaac of Munday.

## New Operator At Bud's Beauty Bar

Miss Mary Janelle Albus, a recent graduate of Jack's Beauty School in Wichita Falls, will assume her duties as operator at Bud's Beauty Bar next Monday. She will give special on hair styling on her first day with the local shop.

Bud Phillips, owner of the shop, stated Miss Albus will also keep the shop open on Mondays and Saturdays. He invites the people of this area to come in and give the new operator a trial.

EVANGELIST — For the gospel meeting which begins Friday, July 15, at the Church of Christ in Goree, is Carl Mables, above, of Crosbyton. Singing will be directed by Dan Danner of Abilene. The meeting will continue through July 24 with services held at 8 a. m. and 8 p. m. during the week and at 10 a. m. and 8 p. m. on Sundays. Only evening services will be held on Saturday. The public is invited to attend.

## Former Munday Resident Dies On July 6th

Funeral services for Louie P. Jones, 74, of Amarillo were held at 2 p. m. July 8 in Griggs Pioneer Chapel. Burial was in Memorial Park cemetery, Amarillo. He died July 6th in North-west Texas Hospital after a long illness. Officiating were Rev. Vel D. Crosby, associate pastor of the Polk Street Methodist church and the Rev. R. R. Gilbreath, retired Methodist minister.

Mr. Jones was a member of the First Methodist Church in Munday. Pallbearers were Peter Crofford, Jack Warren, Bobby Barton, S. H. Haile, Orville Matlock and Denton Harrell.

A retired farmer, Mr. Jones was born in Parker County on September 13, 1885. He married Celia Mae Matlock February 14, 1904 and they celebrated their Golden Wedding Anniversary in 1954.

Mr. and Mrs. Jones moved from Parker County to Knox County in 1915 settling in the Hefner community. They moved to Munday in 1930 and on to Amarillo in 1942.

He is survived by his wife, Celia, of the home; four daughters, Mrs. A. C. Elliott (Lois) of Electra, Mrs. E. Carl Smith (Lorene) of Wichita Falls, Mrs. J. W. Akin (Katherine) of Forney and Mrs. Ralph Pellow (Fern) of Kansas City, Mo. Two sisters, Mrs. Eunice Holden and Mrs. Vivian Chessnut, both of Fort Worth; five grandsons, two great grandsons and two great granddaughters.

Guests in the home of Mr. and Mrs. G. P. Burns for the fourth of July holidays were Mr. and Mrs. Henry Thompson of Midland, Mr. and Mrs. Tom Walker, Ronnie and Patti Price and Mrs. Ann Cheek and Donovan all of Fort Worth.

## Notes From Knox Farms, Ranches

By Jack Moore, Knox County Agent

Farmers and ranchers in Knox County in general are happy over the rain that they had this last week. The rain was general and most of the county received 3.7 inches and better. Ranchers report that most of the water soaked in and very little water was caught in the tanks and lakes. There was a lot of sweet corn and grain sorghum in the county that received the moisture at the exact time to boost yields. Dry land cotton that was planted early was in critical need of water and was beginning to throw off. The rains will delay the throwing off and allow a more desirable fruiting and gives the hope of a larger yield. The potato growers in the Munday area that did not have all of their potatoes out of the ground lost a lot of the potatoes that were not harvested; however most of the potato crop was out and not all of the remaining crop was lost.

The annual Knox County 4-H Rally Day will be held on Tuesday July 19 in the park in Seymour starting at 9:00 a. m. with the registration on 4-H members and their families. The program will get underway with an election of officers and general assembly. The program for the day will feature a period on recreation leadership, safety, entomology, swimming, and a party that will start at 7:30 p. m. and close the day about 10:45 that evening. All Knox County 4-H members and their parents are invited. For further information about the rally day, contact the Knox County Agent, Jack Moore, or the Knox County Home Demonstration Agent, Miss Kinsey.

## Special Speakers To Fill Pulpit At Local Church

Sunday, July 17, three special speakers will fill the pulpit of the First Methodist Church in Munday.

J. C. Harpham, who was recently elected to the post of charge lay leader, will be in charge of both morning and evening services. Speakers at the morning hour of worship will be Mr. Harpham, W. R. Moore, Jr., and Charles Baker.

Mr. Moore is general chairman of the budget campaign and chairman of the Commission on Stewardship and Finance. Mr. Baker is in charge of the educational phase of the campaign and a member of the official board, having served as delegate to the Annual Conference.

Mr. Moore will speak on "Our Needs," Mr. Harpham on "Our Responsibility," and Mr. Baker on "Our Pledge."

The evening service will be at 6 p. m. next Sunday. Rev. William H. Wright, pastor of the O'Brien-Benjamin charge will bring the message in the absence of the pastor, who is holding a revival meeting at Elbert. Mr. Harpham will preside at the service.

The M. Y. F. will meet at 7 p. m. The public is extended a cordial invitation to attend all the services of the day.

### REAL BARGAIN

The great majority of us, it is safe to say would like to see federal spending cut, the national debt reduced in an orderly manner and, eventually, a drop in taxes.

The question is how that can be done? There are many answers. One of the most important — and one which should meet with virtually unanimous approval — is to stop federal spending for services which taxpaying private enterprise, using private savings and investment, is able and willing to provide.

Electricity is that kind of service. Public power, it is estimated, has cost the taxpayers something like \$5,500,000,000 so far. If its promoters have their way the future cost will be far greater still. And public power, remember, does more than consume taxes — it eliminates the high tax payments that would be made if private enterprise were providing the service.

It can be said, and proved, that there is no needed power project, no matter how big and costly, that private enterprise is unable to undertake. That goes for power from the atom as well as power from conventional fuels. Here is where we can save billions, gain billions over the years in taxes, and lose nothing. That's a bargain.

### FOURTH OF JULY REMINDER

That great day, the Fourth of July, has passed again. Parades, speeches, and fire works marked one more anniversary for the American experiment in self-government. Among other things, there were various exhibitions of military readiness. Along coastal areas, naval and coast guard vessels of every kind and size were on hand to add to the atmosphere and to remind people that they have a vast stake in the world beyond the continental shores of the United States. The historic term "Freedom of the Seas" has greater meaning today than ever before. In the words of a little booklet defining the mission of the navy, "Freedom of the seas in peace and sea supremacy in war are basic to the existence of the United States as a world power. They are keystones of United States foreign policy and are essential to the Free World cooperation which it nurtures. Overseas alliances and overseas bases depend for their existence on secure sea communications."

As another Fourth of July passes we should remind ourselves that while the basic rights of

the individual may be inalienable they are also perishable.

### MORE THAN NEWS

As source of information on current matters of all kinds, you can't beat the newspapers.

For instance, the student newspaper at the University of Kansas polled political science students to learn what they considered the most valuable source of information about this year's possible presidential candidates. From the results a "popularity index" was made.

On this index, newspapers racked up a score of 327, magazines 260, and television 150 — well under half the newspaper figure. Radio scored a scant 107 and books 49.

Newspapers provide much more than news. They are a major force for popular education and understanding.

McGEHEE, ARK., TIMES: "According to an AP dispatch last week, Premier Khrushchev is reported to have said, 'There is much in Christ common to us Communists.'"

"How about the freedom loving Ukrainians in the 1930's who were resisting collectivism, and the man-made famine conducted by Stalin's lieutenant, Khrushchev, in which 7,000,000 Ukrainians died?"

"There have been and are, but few instances where the practices of Communists or Communism have had any resemblance with any of the teachings of Christ."

The U. S. oil industry brought the nation's proved recoverable reserves of crude oil, natural gas liquids, and natural gas to an all-time high in 1959, the American Petroleum Institute finds. Proved reserves are those which experience indicates can be recovered by production methods now in operation. The crude oil reserves amount to 31 billion 719 million barrels.

"America's first and greatest need is not greater armies; it is not a stronger navy; it is not a more efficient air force. America's primary need is more and better Sunday Schools."

## Chips From The Carpenter's Workbench

By JAMES BALLMARK

Someone much wiser than I once said, "It doesn't take much of a man to be a Christian, but it does take all there is of him." Any person, who sincerely desires to, can live an effective Christian life. To be sure it does require a great deal of heart and concentration.

Any person who considers Christianity as a way of life without any responsibilities and hardships hasn't read much past the first chapter of the gospel according to Matthew. Because Christianity is in direct opposition to the way of the world it is only natural that any seeking to live according to the Word of God would draw criticism from those who haven't the courage to come out of the world and become a separate people. Persons who have honestly sought to please God have, on many occasions, been called upon to pay with their life.

Ignatius of Antioch in A.D. 198 stood in the Roman Amphitheatre faced with the choice of denying the faith or losing his life. Ignatius answered the

Roman rulers in this manner: "I am the wheat of Christ about to be ground in the teeth of wild beasts in order that I may be pure bread." He then laid down his life for the faith. Polycarp, whom history records as a personal friend of the apostle John, was faced with the same decision. His reply: "Six and eighty years have I served the Lord and he has done me nothing but good. Can I now deny him?" Polycarp was then burned to death!

God forbid that our faith shall ever be tried in this manner! I am quite sure that most professing Christians would fall by the wayside. Even now we find it difficult to resist the temptation to sleep late on Sunday morning rather than worship the one, true God. For that matter, consider any of the feeble excuses that we so often offer. We can't even convince ourselves that these excuses are reasons. What is Christianity to you — a way of life — or merely a social obligation? The answer is most important!

### FULL RECOVERY OF COMMODITY LOANS

A well-administered crop loan support program with efficient handling could bring about government recovery of about 100 cents on each loan dollar, the 14-state Southern Commissioners of Agriculture decided in their 1960 meeting in San Antonio.

The decision was reached in considering a national farm program submitted in detail by Agriculture Commissioner L. Y. Ballentine of North Carolina, who had collaborated with many of the other commissioners in drafting his proposals.

"Despite the variable factors in farming," said Commissioner Ballentine, "properly drawn legislation, properly administered, could keep supply and demand in balance by employing an aggressive program of disposal geared to world markets and world conditions, while supporting production controls and improving domestic distribution."

"This could be done with little more than a reasonable revolving fund, provided there is administrative machinery to prevent harvest season gluts from destroying the markets for both controlled and non-controlled commodities. The government now recovers about 85 cents of each dollar extended to farmers through commodity loans, and that is a much higher figure than some people would have you believe."

"Under a well-administered support loan program the government could recover just about 100 cents on the dollar, and the cost to the taxpayer would be no more than the cost of administering the program."

"In drafting legislation," it was emphasized, "proper consideration should be given to

adequate storage of storable commodities to meet anticipated emergencies, and this kind of carry-over should not be charged to the farm program."

Instead, the Commissioners urged, there should be a long-range plan "to keep in supply a reasonable amount of storable foods and agricultural commodities along with other stockpiles of strategic materials as a part of the defense program. Neither of these measures should be charged to the farm program any more than flood control, air-planes or guns."

"Similarly, farm commodities bought by the government for donation to institutions, schools, welfare agencies and other public groups, should not be charged to the farm program as a farm subsidy."

"The national farm program also should include government incentives for the proper utilization of land to protect both present and future needs."

Joe Layne Womble of Sherman visited his parents, Mr. and Mrs. Layne Womble, over the week end. His wife and sons, who spent the past month with her parents, Mr. and Mrs. Jessie Young, returned home with him.

You can open a vacation club or Christmas club account at a savings bank, or start the bonus savings plan at a savings and loan association.

You can resort to the very familiar device of saving one kind of coin—a dime, a quarter, or a half-dollar. Every time you get one in change, you put it apart from the rest of your change in a separate pocket, and when you get home, drop it in a milk

## Rev. Huron A. Polnac, Jr., And Miss Edna Louise Kehr Marry On June 25th

Miss Edna Louise Kehr of Washington, D. C., and Rev. Huron A. Polnac, Jr., pastor of McCaulley Baptist Church, were married at 4 p. m. Saturday, June 25, in the First Baptist Church in Rotan.

The bridegroom's father, Rev. Huron A. Polnac, Sr., pastor of the Rotan Church, officiated at the double-ring service.

A home dedication service which was part of the marriage service, was conducted by Dr. T. L. Maston, professor of Christian Ethics, Southwestern Baptist Theological Seminary in Fort Worth.

The bride, who has been attending the Seminary for the past year, was Dr. Maston's secretary. Parents of the bride, Mr. and Mrs. Earl Warden Kehr of Washington, D. C., were unable to attend the wedding, and Dr. Maston gave the bride in marriage.

Wedding ushers were Rev. Roy Don Rhoads and Rev. Glen A. Ferguson of Fort Worth.

Wedding music was by Mrs. Virgil Weems, organist, and Lois Ann Kendrick of Fort Worth, soloist. Mrs. Kendrick was also the bride's maid of honor.

Bridesmaid was Peggy Ruth Mayberry of Waco. She and the maid of honor wore identical

gowns of mint green organdy with full skirts, scoop necklines and puffed sleeves. Their picture hats were of white organdy, bow-tied with mint green. Pastel summer flowers were carried in white baskets.

The bride wore a portrait gown of imported silk bouquet taffeta, featuring long torso, long, fitted sleeves and a yoke of hand-clippled plecon lace. The sedan neckline of lace was accented with sequins and seed pearls. The bouffant skirt had a bustle back that fell into a chapel train.

The bride wore a crown of pearls and sequins, with attached tip veil of illusion. She carried a white orchid, nestled in satin and lace, on a white Bible.

Best man was the bridegroom's brother, Lennis Ray Polnac. Groomsman was Rev. Eddie Lynn Pampa, his cousin.

The reception was hosted in the church social hall by members of the Young Women's Auxiliary and their mothers. Mrs. Frankie SoRelle acted as hostess. Jane Decker of McCaulley played reception music.

When the couple left for a honeymoon in El Paso, points in New Mexico and Juarez, Mexico, the bride was wearing a dress of powder blue organza with matching "bee hive" hat and

MRS. HURON A. POLNAC, JR.

other accessories in shades of white. She wore an orchid corsage. Rev. Polnac is a graduate of Hardin-Simmons University and the Seminary in Fort Worth. The couple are now at home in McCaulley.

## Weekly Health LETTER

Issued by the State Health Department

Both wildlife and domestic animal rabies showed slight declines in May, according to Texas State Health Department animal disease figures.

State Health Department veterinarians attribute the decline to a seasonal drop and the effects of local rabies control programs now active in several Texas areas.

Forty examined heads proved positive during May compared to 88 positive heads examined in March and 48 in April.

The number of heads submitted for examination is also declining. In May 409 heads were prepared for examination — a decrease from 591 heads prepared in March.

Whole heads are sent to the State Health Department laboratory in Austin where the brains are carefully prepared for microscopic examination for presence of "Negri bodies," indicating rabies infection.

A breakdown of positive animal heads examined for May shows 10 dogs and three cats. Also there were nine foxes, 15 skunks and three bats.

Statistics show that domestic pet rabies is running only one-third as high as the five-year median while bovine rabies is just half as much as the five-year median figure.

At the same time wildlife rabies is running ahead of the usual incidence level.

The high rate of wildlife rabies makes control measures among domestic animals more important than ever, public health authorities say. They warn against possible outbreaks at any time or place.

An unprotected domestic animal population—especially dogs—could mean exposure to humans during an unexpected outbreak before emergency controls could be enacted.

Heads submitted for examination to the State Health Department laboratory include almost every species of wildlife—rabbits, rats, squirrels, flying squirrels, mice, raccoons, gophers, and hamsters.

Laboratory technicians ask that heads sent for examination be packed in ice, but separated from ice in a smaller container.

Whole heads should be submit-

ted instead of just brains to avoid accidental infection during removal of the brain by untrained persons.

**Pension Benefits Are Available For War Dependents**

Several thousand widows and children of deceased veterans of World War II and the Korean Conflict become eligible to receive pension benefits on July 1. These dependents will be entitled to these benefits as the result of a new pension law enacted by Congress last year, according to Ray Willis County Service Officer.

Prior to passage of the new law, known as the Veterans Pension Act of 1959, dependents of deceased World War II and Korean Conflict veterans were entitled to pension only if the veteran had a disability which resulted from his active military service. The new law provides benefits to the dependents of deceased veterans of World War II and the Korean Conflict if the dependents meet certain limitations with regard to income and the size of their estate.

He said that a very small percentage of the widows and children in Texas who could benefit from this new law have applied to the Veterans Administration for the benefits to which they are entitled. He pointed out that the children of deceased World War II and Korean veterans are eligible to receive pension, even though their mother may have remarried since the death of her veteran husband, and even though the children may have been adopted by the mother's new husband. These children are eligible to receive pension while they are unmarried and under the age of eighteen years. They may continue to receive pension until age twenty-one if they remain unmarried and are attending an approved school, and may receive pension indefinitely if they became physically or mentally incapable of self-support before their eighteenth birthday.

Unremarried widows and the custodians of dependent children may receive further information and assistance in obtaining these benefits by contacting Ray Willis at his office located at 202 East 5th St., Knox City, Texas, or from any office of the Veterans Affairs Commission of Texas.

## Knox Prairie Philosopher Claims That Two Changes In Administration Is Needed Before Next Summit Meet

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek goes international this week in a provincial sort of way.

Dear editor:  
Earlier this week while I was sitting around waiting for the Democratic National Convention to warm up on television — I had some work to do but I figured national affairs come first, especially if you can attend to them while sitting in a soft chair inside your house — I got to thinking not only about national affairs but international affairs too. A man who can't do two things at the same time hasn't got a chance in this modern fast-moving world.

As I understand it, Mr. Khrushchev over in Russia is keeping a close tab on the Presidential election in the United States this year, as he has said he's not interested in holding another summit meeting until there's a change of administration over here.

Naturally I don't know who the next President will be, only the public poll takers know that and half the time the man they know is going to get elected never takes office. I guess because not enough voters believed the polls, but at any rate, whoever he is, I have a proposal for him.

What he ought to do is inform the Russian people he'd like to hold a summit meeting but he believes he'll wait till there's a change of administration.

tion in Russia. Attending a summit meeting with Mr. Khrushchev is like playing baseball with a crooked umpire, who lets one side walk on three balls and calls the other side out on two strikes, and if that doesn't win the game, has his side pick up their gear and walk off the diamond.

Now I can't tell the next President when the next change in Administration in Russia will occur, but it will occur.

Despite all their scientific achievements the Russians have never gotten around to postponing the life of a dictator indefinitely. If his best friend doesn't get him, old age will.

It's entirely possible the United States can get along without a Russian summit conference and Cuban sugar for a good while.

Yours faithfully,  
J. A.

probably will take some time as close to 100,000 copies were published.

Rock-and-roll came into vogue four or five years ago. Long-suffering folks hailed with delight the announcement that it was dying. The prediction that it was on the way out was first made two years ago—but rock-and-roll is still with us.

I have given the matter considerable thought and I have figured the situation out. Rock-and-roll indeed was slipping out of favor with the teen-agers who were its devotees—but as they outgrew rock-and-roll, a new army of teen-agers comes along to take their places.

So, friends, Romans, countrymen I think we are stuck with it. Rock-and-roll has become a permanent part of our way of life.

**BOYCE HOUSE**  
Gives You Texas

Roaming through Arkansas:

In Hot Springs, there is a small cafe which offers a steak dinner for only 50 cents! It's a lamb steak. . . . A clever name for a motor court: King Arthur's Court. . . . Talking about playing a sure thing in a window are two signs, "Blank Cemetery Association" and "Income Tax Service." Evidently, here is a believer in the old saying, "Only two things are certain—death and taxes."

Odd name: A lawyer in Arkadelphia is G. W. Lookadoo. In Prescott, ont hotel has two names. A sign in front says, "Lawson Hotel"; a big sign on the roof says, "Lee Hotel."

In Benton, a sign reads, "The Friendly Butchers."

If you have a copy of "Tall Talk from Texas", you may, eventually, own a "collector's item." After 16 years, the book is out-of-print. What with loss through fire, flood and friends who borrow, but never return books, "Tall Talk" should ultimately be in short supply. This

### Former Pastor Making Tour Of Bible Lands

Rev. H. Doyle Ragle, former pastor of the Munday Methodist Church, left on June 9 on a coveted tour of the Bible Lands and England. He is due to return to his church in Vernon on July 21.

He attended the 8-hour Passion Play in Obermergan, Germany, has been to Rome, Athens and Corinth, Cairo, Beirut, Amman, Jerusalem and other points. He will also spend 10 days touring Methodist's historic spots in England.

This is a special tour for ministers and teachers planned by Dr. W. W. Sloan, professor of Bible, Elon College, North Carolina. There are 22 in the tour group, from all parts of the U. S.

All plans for Rev. Ragle making the tour was made before Conference, while he was pastor at Canyon, and members of the Vernon church insisted that he make the tour. He writes he is seeing Biblical sites in detail, particularly those dealing with the life of Christ.
