Odd Bits Salvaged
By The Editor

"I have spoken!"

k-k
That was the edict of Knox County voters, though not in a harsh or dictatorial manner, last Saturday as they selected their officials for another four years.

k-k
Like we said last week, for some it was the end of the political trail, for a few others it means four more weeks of hard work and solicitation before the final outcome in the August runoff election.

k-k
Voters turned out pretty good for the election in the county, although we saw somewhere where only 65 percent of voters voted throughout the state. We had around 1,725 votes cast in the county, with the records showing 1,623 on the poll tax rolls. That meant a number of exemptions (overs and unders) also voted in the election.

k-k
We rather expect the vote in the August runoff to be kinda light — although people should turn out and elect these runoff candidates just as readily as they did Saturday. But the ballot will be short, very short.

k-k
A runoff will be necessary for Place 1 of the Supreme Court. Robert Hamilton of El Paso, now an appeals judge, led with 354,337 votes. Wilmer Hunt, Houston received 208,635, while J. Edwin Smith also of Houston, received 213,923. And that will be the state ticket.

k-k
For the district, Ed Cloud and Donnell Dickson are teamed up for the runoff in the contest for state representative. Then there's our own commissioners race in which incumbent George Nix and Billy Mitchell are after the second round of votes.

k-k
For Benjamin, and commissioners precinct two, the incumbent, W. W. Trainham, and Clyde Beck of Vera will be on the runoff ticket.

k-k
The boys with the easy time are those who didn't have opponents, although these were interested in your vote.

k-k
You'll have to dig deeper into your jeans for those postage stamps, come Friday. Your regular letters to friends and relatives living elsewhere in the U. S. will take four cents instead of three after midnight Thursday. Those what-used-to-be penny postcards will be upped to three cents, and "drop letters" also take three cents. Rates on other types of mail take similar advances.

k-k
It's that high cost of living, you know!

k-k
One good thing about it. Our friends who are employed by the Post Office Department got a belated raise in salaries, which is always easy to take. And it is hoped folks will keep on writing and sending mail first class, air mail, etc., enough to help that financial deficit in postal funds. Don't throw away any of those three-cent stamps, though, if you've accumulated any. Just go to the P. O. and buy some extra one-centers, place a one and a three on your letter, and send it on its way.

CUDE NOW EMPLOYED AT PAINT AND BODY SHOP

Pete Vinson announced this week that Elmer Cude is now employed at the Munday Paint and Body Shop and is able to do most any type of work brought in. His experience as a mechanic is a valuable asset to the business. The addition of another employee enables the shop to give quicker service than ever before, and the public is invited to contact them for any type of paint and body work.

GIRL FROM ORPHANS HOME VISITING HERE

Miss Shirley Oaks, the twelve year old girl from the Tipton Home sponsored by the Church of Christ, is here for her two weeks vacation, visiting in the homes of members of the church.

Mr. and Mrs. John Peysen and children went to Tipton, Okla., for her last Sunday. They all went on to Lake Altus and spent the rainy day there. They reported rain all day until they reached Seymour enroute home. The children enjoyed various rides at Lake Altus between showers.

Increased Mail Rates Effective Friday, August 1

Postmaster Lee Haymes has reminded patrons of the Munday post office that an increase in mail rates will go into effect on Friday, August 1.

An increase of one cent will be made on all first class mail. Letter mail will be four cents per ounce or fraction thereof, instead of the usual three cents. Air mail will be raised from six cents to seven cents per ounce, not exceeding eight ounces. Postal cards will be three cents each, and air mail postal cards five cents each.

All local drop letters to addresses within the city will require three cents instead of two. Mail to local rural routes must carry four cents.

Already in effect is a five-cent penalty on mail with insufficient postage. If the mail is sent short of postage the receiver must pay the difference in postage plus the five-cent penalty.

Increases will also go into effect August 1 on other types of mail. Information about the new rates may be obtained at the post office.

Employees Of Farm Bureau To Attend Texas Institute

Knox County Farm Bureau leaders will attend the tenth annual Texas Farm Bureau institute, August 3-6 at Mineral Wells, according to L. B. Patterson, president. Purpose of the institute, he said, is to train leaders with specific responsibilities in county Farm Bureau organization in the performance of their respective duties.

Those from Munday who are planning to attend are Mr. and Mrs. Gene Kissinger and Mrs. Vera Patterson.

The curriculum consists of courses covering practically all county activities, including procedure for conducting Farm Bureau meetings, public speaking, history and philosophy of Farm Bureau, membership acquisition, the role of women in the organization, legislative activities, service to membership, and others. The institute will get under way with vesper services on Sunday evening and will be concluded with a banquet at noon on Wednesday, August 6.

Number Nine on the ballot (SJR 3) — Authorizes the Legislature to create a Hospital District coextensive with the incorporated limits to the City of Amarillo, Texas and a county wide Hospital District in Wichita County, Texas, and Hospital Districts in Jefferson County, Texas.

Incumbent Ed J. Cloud of Rule and Donnell Dickson of Seymour face four more weeks of campaigning in the August run-off election for representative of the 83rd district after last Saturday's primary voting.

Cloud was short 536 votes of a clear majority in the four-county district. He received 3,381 votes to 2,348 votes for Dickson. The third man in the race was Leroy Ressel of Knox County, who polled 1,568 votes.

Complete unofficial returns of the four counties showed Cloud carrying three of them, while Dickson ran strong in his home county of Baylor. The votes by counties was as follows:

Stop, Four Way—Keep Cool!

For several weeks, now, stop signs have been erected in Munday at the intersection of Munday Avenue and G Street.

In order to further remind motorists of the importance of stopping, a pasteboard box was placed in the center of the streets with the words "Stop, Four Way" painted on all four sides. As we turned this corner Monday, we noticed wording on top of the box, too. They were: "Keep Cool." Which is pretty good advice to motorists.

Tuesday the pasteboard box was removed, but Police Chief Joel Massey spent some time out there, tootin' his whistle to motorists who failed to stop.

ANOTHER TERM — Was assured County Judge L. A. Parker, above, last Saturday when voters re-elected him to office in one of the county's closest contests. He was opposed by M. T. Chamberlain.

Wallace Employed At Mac's Food Store

O. D. Wallace has returned home, and is now employed in the market of Mac's Food Store. He was formerly employed here before putting in four years in the U. S. Marines, and for the past two years has been employed in the market of a large food store in Odessa.

He is an experienced mechanic and will also handle gas and oil and a line of tires, tubes and batteries, and will also service irrigation motors.

Mr. and Mrs. D. E. Whitworth visited Mr. and Mrs. Joe Combs and children in Grand Prairie last Tuesday night and Wednesday. Their grandchildren, Susie and Rickey Whitworth, who spent the past two weeks in Grand Prairie, returned home with them.

County Voters Make Few Changes In Office Holders; Runoffs Coming Up

Knox County's voters supported present state office holders, Gov. Price Daniel and Sen. Ralph Yarborough, who were returned to office, in a big way last Saturday, while they returned one county man to office and placed a new one in another county office.

County Judge L. A. Parker of Benjamin was successful in his bid for another term, while County Treasurer Walter F. Snody was defeated in a very close race.

Parker was returned to office by a vote of 874 to 849 received by M. T. Chamberlain, former county clerk, who was seeking the office for the first time.

Snody lost to Ed Thompson of Munday by a close margin of 836 to 843 votes. This is Thompson's first elective office.

Two runoffs developed in the county commissioners' races.

In precinct 2, the incumbent, W. W. Trainham, will face Clyde

Beck, a political newcomer, in the August primary. Trainham got 171 votes, Beck 113, and Artist McGreger of Benjamin, the other candidate, received 87.

In precinct 4, Commissioner George Nix of Goree will face Billy Mitchell of Munday in a runoff. Nix received 397 votes, Mitchell 270, and Wallace Reid, also of Munday, 151.

J. J. Driver of Benjamin was elected justice of peace, precinct 1, 188 votes to 39 over V. R. Terry.

Knox County gave State representative Ed Cloud of Rule a slight lead in his bid to return to Austin. Cloud polled 633 votes, while LeRoy Ressel of Sunset got 602 and Donnell Dickson of Seymour got 389.

In state races, the county went strong for Governor Price Daniel and Senator Ralph Yarborough.

AN EDITORIAL FOR CHILDREN

It's not often we address an editorial exclusively to the younger generation. But right now we have an urgent message for your parents and we thought you youngsters and teenagers could help.

Sure, we know you're occupied with the long summer vacation, the swimming and ball games and camp and all the rest. But this also happens to be the favorite season for POLIO!

Chances are most of you have started your Salk shots. Maybe you've completed the full series for top protection against the crippler.

But what about your Mom and Dad? The odds are they haven't even thought about getting the vaccine for themselves. At least 30 million adults between 20 and 40 years haven't had a single shot yet. So — here's where you can help. Tonight at dinner, or any time you get a chance, ask your parents if they've started the anti-polio shots.

Maybe they'll say that polio is a kid's disease. Well, you tell them it isn't so. Last year, for example, one out of every five persons who went to the hospital with polio was over 20.

You can also tell them that polio hits hardest at adults. Of all patients using iron lungs and other respiratory aids last year, 61 per cent, or three out of five, were over 20 when they got the disease. A lot of these patients were parents. They had children they loved, children to take care of. But you can't do much about that from an iron lung, can you?

Maybe your parents think THEY'RE safe because YOU got the shots. It doesn't work that way. The vaccine doesn't kill the virus. There is no evidence that it stops the chain of infection, from one person to another. What Salk shots do is help create immunity in the person who gets them — and no one else.

So, if your parents haven't been vaccinated yet, tell them it takes only a few minutes — but paralysis from polio can last a lifetime.

CONWAY, SOUTH CAROLINA, HERRY HERALD: "The challenge to religion and the role of the church are no different today from what they were in the past. While there are various creeds, philosophies and faiths, they seek essentially to bring about a communion between man and Supreme Being. Differences in the manner of operating the various churches do not involve the substance of religious beliefs."

MORE PARTICULAR THAN THE CUSTOMER

Seventy-five years ago a young grocery clerk had \$372 and an idea. With that \$372, plus \$350 supplied by a partner who later sold out to him, he founded a little store on the Cincinnati river-front.

Today that one store has grown into a system operating some 2,000 stores in 19 midwestern and southern states. Its 1957 sales approached \$1,675,000,000.

The young clerk's name was Bernard H. Kroger, and The Kroger Company is his monument. And the idea he had three-quarters of a century ago was simply to provide good quality merchandise at reasonable prices. As he saw it, his job was to be "more particular than the most particular customer."

Although he probably did not realize it at the time, he was taking part in a merchandising revolution. The revolution was based on the premise that if a large enough volume of goods could be sold at a very small unit profit, a satisfactory total profit would be earned. Today we know this method of selling all manner of products as mass distribution — the mechanism that has made it possible to bring the rich material benefits of mass production to practically everyone.

There's another significance to such success stories as young Mr. Kroger's. They're possible only in a free enterprise economy, in which every man is free to go as far as his talents and ambitions can take him.

A new record for public use of the national wildlife refuge was set in 1957, when more than 8,500,000 people visited them for recreational purposes, the Wildlife Management Institute reports. Sports fishing attracted almost one-third of the visitors.

Bruce H. Nicoll writes in The Reader's Digest: "Do you know what goes on in a field of growing corns? From a small seed it grows in eight weeks to a plant with over 1400 square inches of leaf surface — one of the most remarkable feats of growth in the plant kingdom. And in eight weeks the plant establishes a root system which, if laid end to end, would extend a distance of seven miles. There's a saying that in ideal weather you can hear the corn grow. It isn't quite that good, but the plant often does grow as much as four inches in a day."

MODERN HOMEMAKING

Recipes . . . Household Helps

By Julia Hunter

HOME ECONOMICS DIRECTOR, LONE STAR GAS CO.

For indoor and outdoor eating ham is high on the popular meats list. Sliced and served hot or cold it is a choice center of interest for the more formal party or company meal. It is versatile however, so it is just as choice when served on buns for out-of-hand eating or on paper plates.

There are many ways for serving the last of the ham. Sliced or diced it adds much to cole slaw, a delicious luncheon dish. Combine shredded cabbage, celery seed, chopped green pepper and the ham. Toss with French dressing and a generous dash of dry mustard. Chill in gas refrigerator. For a heavier meal and a well-balanced one, serve the slaw with pork and beans. No other meat dish needed.

Combine ground cooked ham, chopped hard-cooked eggs, pickle relish and mayonnaise to make a sandwich spread. To add importance to the sandwich, spread split frankfurter rolls apart and fill the split with ham mixture. Wrap each roll in aluminum foil and heat in moderate gas oven (350 deg. F.) 30 minutes. Serve hot. Wonderful with corn-on-the-cob.

A mold of ham served with tomato wedges, a fresh green vegetable, tiny hot biscuits and a cold dessert is a party meal, indeed. Home folks will like it, too. Soften 1 tablespoon (1 envelope) unflavored gelatin in ½ cup cold water. Place over hot water and stir until dissolved. Combine 2 tablespoons lemon juice, 2 teaspoons prepared mustard, ½ teaspoon salt and 1 cup mayonnaise. Stir in dissolved gelatin. Add and mix well. 2 cups diced cooked ham, 1 cup diced celery, 2 tablespoons minced onion. Rinse a 1-quart mold with cold water or oil it well. In the bottom arrange 1 sliced hard-cooked egg and thin green pepper rings. Carefully pour in ham mixture. Chill in gas refrigerator until firm. Unmold on salad greens and garnish with tomato wedges. Makes 6 servings.

RECIPE OF THE WEEK
 Ham Loaf: Combine, mixing thoroughly, 1 pound ground fresh pork, 1 pound ground uncooked ham, 2/3 cup cracker crumbs, ½ cup chopped onion, 1 egg and ½ cup milk. Shape into loaf in shallow baking dish. Bake in moderate gas oven (350 deg. F.) 1 hour. Combine ½ cup brown sugar and 1 tablespoon prepared mustard. Stir in 2 tablespoons vinegar and 2 tablespoons water. Spoon mixture over ham loaf. Continue baking 30 minutes. Makes 8 servings.

Miss Donna Sue Jetton And George Kenneth Cotton Marry On July 19th

Miss Donna Sue Jetton, daughter of Mr. and Mrs. Dave Jetton, became the bride of George Kenneth Cotton in rites read Saturday, July 19, in the First Methodist Church in Goree. The Rev. Walter Hadley, pastor of the First Methodist Church in Happpy, performed the double ring ceremony before a center candleabra archway of greenery and blue fern and white wedding bells with a background of palms and baskets of white gladioli on either side.

The bridegroom is the son of Mr. and Mrs. C. L. Cotton of 1012 Tarver Street, San Angelo.

Given in marriage by her father, the bride wore a white ballerina length empire dress of embroidered cotton satin. The fitted torso was accented with a sweetheart neckline trimmed with lace and the sleeves tapered to points over the hands. The flared skirt was fashioned with soft pleats in the back and emphasized with tiny covered buttons and lace.

Her fingertip veil of illusion was attached to a tiara of rhinestones and seed pearls. She wore the traditional something old, something new, something borrowed and blue, also a string of cultured pearls, a gift from the groom. She carried a white orchid surrounded by white rosebuds and lily of the valley atop a white Bible.

Miss Veiva Jetton, sister of the bride, was maid of honor. She wore a dress of baby-blue embossed chambray designed with a crescent neckline and pushup sleeves. The pleated skirt was accented with a matching cummerbund. She also wore white gloves and carried a blue net fan covered with white carnations which matched her blue net hat.

Bridesmaid was Carolyn Burney of San Angelo. Her dress and accessories were identical to that of the maid of honor.

John Cotton served as his brother's best man and Doug Wells served as groomsman. Ushers

MRS. GEORGE K. COTTON

Miss Jonnie Hutchens registered guests and Misses Sharon Cypert and Jean Orsak presided at the table which was covered with a crocheted cloth over blue. The centerpiece featured blue candles and the blue net fans and bouquets of the attendants on a mirror.

The bride is a graduate of Goree High School and has been employed with the A. S. C. office in San Angelo for the past two years.

Tax-Man Sam Sez:

Congress has recognized that our elder citizens should not be required to pay income tax on the same basis as younger taxpayers. Taxpayers who are over 65 years of age are entitled to a number of credits against the income tax due.

(1) At 65 they get an extra exemption; (2) Congress has allowed a retirement income credit up to 20% of \$1,200 income on certain types of retirement income (this is worth as much as \$240 per year in tax savings); (3) Congress has exempt Social Security payments and some other kinds of retirement benefits; and (4) some annuities are partially exempt from taxation.

If you are either retired or over 65, be sure to read your income tax instructions carefully on the retirement income credit before you file. You may want to purchase Publication 17, "Your Federal Income Tax" for 35c, to study the instructions on retirement income credit before filing your return. Uncle Sam doesn't want taxpayers taxes that they don't owe.

A TIME FOR BEING GRATEFUL

This time two years ago Texas was writhing under the effects of prolonged drought. Sections of the state had not for at least six years known the feel of beneficial rains. July was a crucial month in which we asked for all possible assistance from the federal government for our suffering farmers and ranchers.

This year, July is a time for being grateful. For the most part,

Texas pasturelands are covered with grass, and drought-depleted livestock herds are well on the way to being replenished. We have just come through a most successful and rewarding grain harvest, and conditions are right for this year's cotton crop to overcome last year's miserable failure. Other crops offer similarly glowing reports, and for many Texas farmers the smile has returned to replace the sun-squint

of the drought years. Even in a good year such as this promises to be, farming is not all smiles, though, and it can never be.

Mixed with our blessings, we have our problems. The rain brings insects and other pests, but had we no rain, we would have no crops to be infested.

Our pestilence problems this year range from the irritating imported fire ant in East Texas and hordes of grasshoppers in Northwest Texas to the peacocking walnut caterpillar in South Central Texas and a loathsome scourge of rats in Southwest Texas.

We have to fight hard to protect our crops and our livestock from these and other menaces. But we must also be grateful that we have something worth defending from them.

its sensitivity to the supply situation and fed cattle closed lower everywhere.

At Fort Worth a few choice yearling heifers topped at \$28, but the rank and file fed steers were 50 cents lower and some bids were \$1 off as packers displayed faint urgency. Their lack of interest was credited to expectations of lower priced beef from their cornbelt plants, as well as from good supplies of fat cattle shipped direct to their plants.

Good and choice slaughter steers and yearlings cashed at \$23.50 to \$26.50 and a few fancy fat yearlings and heifers drew 27 to \$28. Common and medium slaughter steers and yearlings cashed at \$18 to \$23.50. Mature steers ranged from \$26.50 downward.

Fat cows ranged mostly from \$17 to \$20 with a few to \$20.50 and \$21. Canners and cutters drew \$11 to \$17. Bulls sold from \$17 to \$22.

Good and choice slaughter calves ranged from \$23.50 to \$27.50, and common and medium sorts sold at \$17 to \$23.50. Culls sold at \$14 to \$17. Good and choice stocker steer calves ranged from \$30 to \$33 and heifer calves cashed at \$29 down. Stocker steer yearlings of good kinds sold from \$27 downward and feeder cattle cashed at \$22 to \$26.

SHEEP AND LAMBS OPEN FULLY STEADY

Sheep and lambs were steady at Fort Worth Monday. Good and choice slaughter lambs cashed at \$21 to \$22 and cull to medium lambs drew \$15 to \$20.50. Stocker and feeder lambs drew \$18 to

\$20, some clipped feeders at \$19. Good and choice yearlings cashed at \$14 to \$16.50. Old wethers drew \$12.50 down. Slaughter ewes brought \$6.50 to \$7.50. Old bucks sold around \$6.

HOGS HOLD, TOP \$23.25, SOWS \$21 DOWN

Hogs were steady at Fort Worth Monday as choice butchers again topped at \$23.25. Medium to good butchers sold from \$22 to \$22.75. Sows cashed at \$21 to \$21 and pigs drew \$21 to \$22. Stags cashed at \$12 to \$15 and boars sold from \$10 to \$12.

IMPORTS OF MEAT ARE BIG ENOUGH TO HURT

April, May and June imports of beef, lamb and mutton to California alone were 7,757,182 pounds of beef and over 360,000 pounds of lamb and mutton, the equivalent of 54,506 cattle, 24,010 sheep and 1,046 vealers. New Zealand's gold mine in U. S. meat shipments is attracting Irish imports of beef totaling 15.5 million pounds, a new record.

LIVESTOCK FILM REPORTS SCHEDULED FOR TV

Fort Worth — Motion pictures and still photos will be used to show the livestock producers what kind of livestock sold for what kind of prices, starting in August. The pictures will be made during the trading on the Fort Worth market and will be accompanied by a commentary by Ted Gouldy. The series will be a feature of the regular Saturday Farm Editor's Report by Doc Ruhmann of WBAP-TV.

Ruhmann's program originates at WBAP-TV, Channel 5, 12:00 to 12:30 P. M. Saturday. In announcing the new feature, Ruhmann pointed out, "We plan to use a good many still photos, along with the motion picture films, so that certain pens of livestock can be displayed long enough to be studied by the viewer while Ted tells about their grade, class and weights and prices on them. We think it will give the viewers the next best thing to a visit to the market to get posted on livestock values."

"Along with his summary of market trends, Ted will also intersperse comments about current market demand and the supply situation on livestock," Ruhmann said.

FED CATTLE SUPPLY UP, PRICES DISPLAY WEAKNESS

The cattle trade at Fort Worth Monday reflected the weaker market on fed steers and heifers which developed at Northern markets along with increased cattle supplies. The 12 major markets Monday reported more than a 20 percent increase in cattle and calves and at Northern points, these were mostly fed cattle. The trade again displayed

IT'S THE LAW in Texas. The phrase "stocks and bonds" is pretty familiar to most Americans whether they own any of them or not. The phrase has been used so often that many persons don't realize that there is a difference between stocks and bonds.

SJR #6—Number Two on the Ballot. PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 4, 1958. SENATE JOINT RESOLUTION NO. 6 proposing an amendment to Subsection (b) of Section 62 of Article XVI of the Constitution of Texas to provide retirement, disability and death benefits for appointive officers and employees of the county or precinct, or for appointive and elective officers and employees of the county or precinct, providing for the submission of the proposed amendment to the voters qualified to vote thereon, and providing for the necessary election, form of ballot, proclamation, and publication.

before any money is paid to the stockholder. He must be paid even if there is then nothing left to pay dividends to the stockholders. If the corporation quits doing business or goes bankrupt, the bondholders are repaid for their loans before any of the investment of stockholders is returned. Perhaps you have heard of "preferred stock". Usually, preferred stockholders have a right to collect a particular fixed amount of dividend before the "common" stockholders receive any dividend. There are many possible preferred stock arrangements. But frequently, in return for their first chance at the profits, the preferred stockholders give up any voting rights or ability to control the company.

It turns out that the corporation is fabulously successful and earns huge profits, most of the profits will go to the common stockholders. It is a rule of thumb that the common stockholders take a greater risk with their investment but stand to make a greater profit.

Texas Girls Win 4-H Awards

A knack with milk tests a good cook's ilk. Or so it seems to three 15-year old 4-H'ers: Rita Stewart, of McKinney, Collin county, winning individual; Zoe Wilson and Ada Lou Hartman, of Corpus Christi, Nueces county, winning team in the 1957 state 4-H Dairy Foods Demonstration program. Rewarding these talented cooks with 19-jewel wrist watches is the Carnation Company, donor of awards. The program is directed by the Cooperative Extension Service. Rita, past president of her club and junior leader, gave a demonstration on barbecued cheese potatoes, stressing the importance of dairy foods in the diet. During her seven-year 4-H membership this capable girl prepared some 850 dairy dishes and 1,200 other dishes. She was a state contestant twice in dairy foods, an alternate to the state in dress revue, and a delegate to the 4-H Council district meetings at Trinidad. Ada and Zoe chose "Ever-Ready Cheese Loaf" for their winning demonstration. They also told about the nutritional value of cheese and suggested what to serve with the cheese loaf. In 1956 they won third place in state with their macaroni and cheese demonstration. Zoe, a six-year 4-H'er and junior leader, is charter member of the Cardinal 4-H Club, of which her parents are leaders. She is also a blue ribbon winner in dress revue. Ada, also a six-year 4-H'er, junior leader and council delegate for her local 4-H Club received recognition for livestock and dress revue. She and her grand champion lamb appeared on a TV program. Her calf won a blue ribbon at the Junior Livestock show.

School Lunch Funds For Texas Are Increased

First installment of \$3,488,245 of federal funds for Texas schools in the national school lunch program will be released by the food distribution division, Agricultural Marketing Service, Dallas, around September 1, reports John J. Slaughter, chief of the Dallas AMS office. Texas public schools will get \$5,166,017, an increase of \$661,449 over last year and private schools will get \$322,228, and increase of \$72,570, according to Slaughter. Funds appropriated by Congress for the program are released to the states according to the number of children between 5 and 17 years of age, inclusive, and the relation of the per capita income in the U. S. to the per capita income in the state. The public school allotment for Texas will be used by the Texas Education Agency to reimburse schools in part for the food bought from local merchants. Texas private schools secure their allotments directly from Slaughter's office. Last year about 3,000 public and 131 private schools operating under the school lunch program spent about \$20,780,935 with local merchants for food, Slaughter said. They served 90,860,139 meals, nearly all with a half pint of milk and the average cost was about 25.4 cents during November, the peak month of participation last year.

"With the use of USDA funds and foods, schools can keep the cost of lunches at the lowest possible level," Slaughter said, emphasizing that each school determines the cost of its lunches on a non-profit basis. The program is designed to improve the diets of school children and to enlarge the market of farmers. At the same time, it creates local business and jobs. Texas public schools which have not been in the program but wish to participate this next school year should contact Charles M. Hicks, Texas Education Agency, Capitol Station, Austin. Private schools should contact the Food Distribution Division, AMS, USDA, 509 S. Ervay Street, Dallas 1, Texas.

Mrs. E. M. Owens left last Sunday for a visit with relatives in Fort Worth.

YOUTHS SNARE FISHING LURES FROM ANGLERS

Fish traps are well known in every part of the world, but some Denton County youths have had luck with a fish lure trap. Below the Lewisville Dam where the Garza-Little Elm Lake goes into the river there is a deep swift channel. This is an ideal spot for channel cat and white bass fishing, but a lot of lures and plugs are lost in these waters. Some teenagers in the area decided to get some of these lures, according to W. R. Long, Denton County game warden, but they must have wanted new ones. He reports a rope was strung across the channel about six feet below the surface. Long, of course, was not present at the installation of the "lure trap," but he was around when it was taken out. The rope was full of fishing plugs and lures. "I have never seen a Christmas tree so decorated" Long said. When fishermen would cast out, the line would settle over the rope, and the hook would hang when reeled in. "There was nothing to do," Long said, "but break the line and leave the lure on the hidden obstruction."

Perhaps the greatest endorsement of personal work that we have in the entire New Testament is found in the 8th chapter of Acts in connection with Philip and the man from Ethiopia. Here we have a teacher and a learner or we have a class because that is all that is necessary to have a class. Philip was the teacher and he was to teach the Ethiopian that which he could not understand "except some rain should

Knox Prairie Philosopher Talks About It; But, Of Course He Does Not Solve The Middle East Situation

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek has found out about the Middle East situation, without finding out the solution, which puts him abreast of most of us.

J. A.

Dear editor: Me and a bunch of my neighbors were out here talking about the crops yesterday and due to the fact that when it comes to crops I don't have much to talk about I changed the subject and asked them what they thought of the Middle East situation. A man ought to do what he can to be comfortable.

One of them spoke up and said he didn't know enough about it to say anything.

This strikes me as ignorant. If only the people who know what the facts are in the Middle East talked about the place, there wouldn't be anything said. Couldn't even get in most newspapers.

I don't think the people in Washington, London, Paris, Moscow or the Middle East itself are any better than the rest of us, and I'll talk about the place whenever I get ready. If people waited till they had the facts to talk, 95 per cent of the conversation in this world would be eliminated.

However, talking about the Middle East is no sign you have the solution for it, as me and Washington are well aware, and I would like to say quickly that I don't want the world looking to me for an answer. A man who can't solve the problems on his own farm is in no shape to solve any problems in the Middle East, the Far East, the Near East, or any other point on the compass. As a matter of fact, I can't even read a compass.

I was talking to a man in town the other day and he said the way to handle the Middle East is to let Russia take on the whole area if it's willing and all the other areas willing to be taken on, then let Russia go into the foreign aid business, and while this won't really solve the prob-

lems, it's leave Russia busted. On the other hand, you've got to remember there are a lot of people who have joined up with Russia about like the chickens joined up with the scrooch owls. The scrooch owls kept scrooching up to the chickens on the roost and pretty soon there weren't any chickens left. Some countries have joined up with Russia about like my neighbors' pastures have joined up with my cows. Let a gap in the fence show up and the cows move in.

If you're looking for a solution for the Middle East situation, don't look at me, might as well be looking at the statesmen of the world. I'm like most people. Let's conquer space. It's easier to conquer than ourselves.

Yours faithfully,
J. A.

Tsk, tsk! Too bad he hasn't checked up on car prices lately. He'd find that Ford is the lowest priced* of the best-selling three!

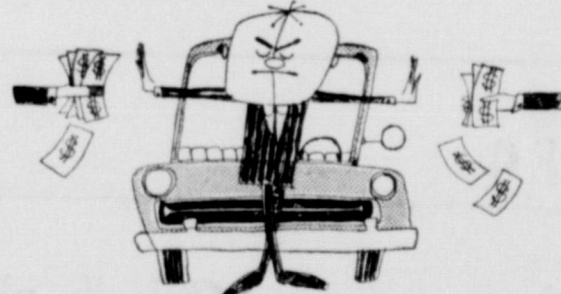

"WHEN THEY INVENT A CAR THAT DOESN'T NEED GAS!"

But it has... and so has his budget. If he could only have back all the money he's been paying out (and is going to pay out) in repair bills... he could be the proud owner of a 58 Ford!

"WHEN MY PRESENT CAR IS WORTH MORE!"

Poor man. He's not only missing out on summer driving in a Thunderbird-inspired Ford... he's missing out on money! Doesn't he know that his present car will NEVER be worth more in trade than right NOW!
