

## Kracker Krumb's

Odd Bits Salvaged  
By The Editor

We didn't need that kind of weather, anyway!

k-k

Hopes for needed moisture began to soar a little Sunday as the clouds began forming late in the afternoon, and reports of a squall line began coming in over radio and TV. But all we got locally was a duster.

k-k

Travellers coming home from the east reported lots of big hail around Bomarton, so it's possibly just as well that we were outside the squall line area. It would appear better not to have the moisture right at this stage than to have damaging hail along with it.

k-k

Sunday was a scorcher, too. Some folks kinda gave us a ribbing about it being too hot to go fishing, but the old air conditioner was just too inviting for the afternoon. "That's the time to go to the lake, someone remarked, "you can just jump in the water and forget about it being hot."

k-k

According to reports Monday, Seymour and Snyder shared honors of being the hottest places in Texas — 112 degrees. According to H. P. Hill, who keeps the records locally, we weren't very far behind. The mercury hit 110 degrees here.

k-k

There was lots of activity around town Monday. With school starting, the kiddoes and their parents were in town getting supplies for the schoolrooms, and youngsters dashing here and there.

k-k

And from the fun some of them were having with their autos, jallopies, bikes, etc., it appeared the opening of school was not the dreaded affair some of them anticipated. It was a sort of picnic for many.

k-k

Soon they'll be getting down to their studies, teachers will be at work, extra school activities will be getting under way, and the entire community begin to indulge in various things that go along with school.

k-k

Such as football, for instance. The Moguls have been going through their periods of early-season practice, getting toughened up for the season, and ironing out those rough places. Friday night, they will be taking on their first foes of the season — the Rochester Steers at Rochester. This has been their opening game for a number of years, and the Steers have always given the Moguls a run for their money.

k-k

The Quarterback Club is working on those reserved seats for the season. We understand a number of members have been assigned certain seating areas and will be contracting those who have occupied those seats in years past. We'd like to have our very same seats again this year, please.

k-k

A good editor is sometimes known for the "little gems" he's able to swipe from his contemporaries, rather than his own original squibs, so to prove that we're kinda up on such matters, here's some thoughts that our scissors confiscated recently:

k-k

You are richer today than you were yesterday if you have laughed often, given something, forgiven even more, made a new friend, or made stepping stones of stumbling blocks.

You are richer today than you were yesterday if you have thought more in terms of "thysself" than "myself," or if you have managed to be cheerful even if you were weary.

You are richer tonight than you were this morning if you have taken time to trace the handiwork of God in the commonplace things of life, or if you have learned to count out things that really don't count, or if you have been a little blind to the faults of friend or foe.

Want a good pasture next winter? If you do, now is the time to make plans for it, says E. M. Trew, extension pasture specialist. As a first step, he suggests submitting soil samples from the pasture area to a soils testing laboratory for analysis. Using the right kinds and amounts of fertilizer will help insure pastures of high quality, the specialist adds.

## Mrs. Vera Louise Carver, Longtime Goree Teacher, Is Buried Saturday

Mrs. Vera Louise Carver, 31, who taught in the Goree High School for 11 years, passed away at 12:15 p.m. Thursday, August 27, in Hendrick Memorial Hospital in Abilene.

She entered the hospital at 9 a.m. Thursday after having suffered from severe headaches since Sunday night.

Having resigned her position at Goree, Mrs. Carver had moved to Abilene on Saturday. She was to have taught English at Abilene High School this fall, and planned to continue her education during the summer months.

She received her bachelor's degree in education from Hardin

Simmons University in 1953, but also attended Sul Ross State College at Abilene and McMurry College.

Her husband, J. C. Carver, who was principal of the Goree High School for many years, passed away in March of 1959. They were married in Abilene on August 13, 1946.

Mrs. Carver was born August 18, 1928, in Fort Worth.

Funeral services were held at 3 p.m. Saturday from the First Methodist Church in Goree, with the pastor, Rev. H. Clayton Adair, officiating. Burial was in Johnson Memorial Cemetery at Munday.

Survivors include one son, Gary Dean, 2, of the home; one brother, R. E. Robinson of Fort Worth; two sisters, Mrs. D. R. Crowell and Mrs. P. R. Mathis, both of Fort Worth; her mother, Mrs. W. H. Robinson, also of Fort Worth.

## Last Rites For J. R. King Are Held On Friday

Funeral services were held at 2 p.m. Friday from the First Baptist Church in Munday for J. R. King, 48, long time resident of this area, who passed away Wednesday, August 26, at the Knox County Hospital after suffering a heart attack.

Mr. King, a native of Haskell County, was born May 6, 1911. He had lived in Knox County since 1933 and was engaged in farming until retiring a few years ago because of ill health.

Services were conducted by Rev. Huron A. Polnac of Rotan, former pastor of the Munday Church. Assisting was Rev. Temple Lewis of Lockney, former Wehnert pastor. Burial was in Johnson Memorial Cemetery under the direction of McCauley Funeral Home.

Serving as pallbearers were John Broach, Leland Floyd, A. L. (Cotton) Smith, Coy Tuggle, Walter Coody, Clyde Taylor, Pete Vinson and John R. Rayburn.

Survivors include his wife, the former Thelma Lansford; two sisters, Mrs. Wayman Lane of Fort Worth and Mrs. Geneva Graham of Ennis; two brothers, Bill King of Wehnert, and J. B. King of Munday.

## Baxter Layman Is New Employee At Lucky Dollar Store

Baxter Layman, formerly of Lubbock, is a new employee of Barber's Lucky Dollar Food Store in Munday, taking up his duties last Monday morning. He will serve as manager of the produce and frozen foods departments.

He and his wife are locating in Munday this week. They have no children.

Mr. Layman was formerly connected with the Furr Food Stores, and has several years of experience in the grocery business. The public is invited to come in and meet him.

## Brother Of Local Woman Passes Away At Chickasha, Okla.

Thomas Benjamin Webb, a former employee of the Rock Island Railroad, passed away Sunday morning in a Chickasha, Okla., hospital. He had been ill for about four weeks. He was a native of Lone Star, Texas.

Funeral services were held at 2 p.m. Monday with Rev. W. A. Allen, Methodist minister, officiating. Burial was in the Waurika, Okla., cemetery.

Survivors include his wife of Chickasha; three sons, Clarence of Chickasha; Esco Webb of Abilene, and Harry Webb of Enid, Okla.; two daughters, Mrs. Bertha Winana of San Antonio and Mrs. Geraldine King of Farmington, N. M., and one sister, Mrs. W. J. Tidwell of Munday.

## Lucky Dollar Store To Open In Haskell

Glen Barber, owner of the Lucky Dollar Food Store in Munday, announced this week that he will open a new store in Haskell on Tuesday of next week. The store will be known as Barber's Lucky Dollar No. 3.

The Haskell store is a result of the closing of Mac's Food Store in Quannah, Barber said.

Olen King, who was formerly employed at the Munday store, will serve as manager at Haskell, and Leroy O'Neal will be in the market. Both these men are known to many Munday people.

PRESENTED AWARD — Goodson Sellers, vice president of the Munday Chamber of Commerce, is shown presenting the \$250 scholarship of the West Texas Chamber of Commerce to Mrs. Brenda Elliott, daughter of Mr. and Mrs. Frank Garrett of Munday. Mrs. Elliott won the award in an essay contest for high school seniors with her essay: "What My Town Can Do To Have More Industry."

## Munday Moguls To Play At Rochester On Saturday Night To Open '59 Grid Season

From all reports, the Munday Moguls will open their 1959 football season on Saturday night as underdogs against the Rochester Steers. The game will be played at Rochester at 8 p.m. Saturday. It will be a non-conference game.

Coach Herb Arledge stated Wednesday that he has about 10 of last year's lettermen back in the harness, while the Rochester Steers lost only one boy last year and have 19 lettermen returning. 10 of whom have earned two letters or more.

In all practice scrimmages against other teams so far this season, the Moguls have shown up much smaller in size. They average around 140 pounds, but there's lots of fighting spirit among the little boys.

After several weeks of pre-season practice, the Moguls are entering the season in good physical shape and are really looking forward to giving their best to the game this year. They will be battling to overcome that "underdog rating" given them by pre-season prognosticators, and fans have indicated that they will back the local boys all the way.

## Knox City Boy Is Bitten By Rattlesnake

Carroll Don Ray, 4, suffered a rattlesnake bite last Thursday morning. The snake struck him in the right ankle while he was playing in the yard of his parents' home on the General American Oil Co. lease, 6 miles southwest of Knox City. He is the son of Mr. and Mrs. Jerry Ray.

The child was rushed to the Knox Clinic, where he was given anti-venom serum, and was then admitted to the Knox County Hospital for observation. He is reported recovering from the effects of the bite.

## WESTERN THEME FOR PEP RALLY

Wear your blue jeans, your guns and holsters and be at the pep rally at 7:30 p.m. Friday at the Munday school gym for the opening rally of the season.

The cheer leaders will all be dressed in western attire for the first of their series of new ideas they will bring at each pep rally. A new idea will be advanced for each pep rally this season. Everyone is urged to be out Friday night and give your support to the pep squad and to the fighting Moguls in their initial game of the season.

## Jaycees Attend Convention Held At Mineral Wells

Gene Kissinger, local Jaycee president, and Glen Barber represented the local club at the summer Jaycee tri-regional convention in Mineral Wells last Saturday and Sunday.

The convention was attended by several hundred Jaycees from the West-Central Texas area. Forums were held for members, showing how to make their clubs better and more active.

Jaycees Barber and Kissinger came back with many good ideas and are very anxious to present them to the members who were unable to attend.

Glen Barber was named president of the Jaycees last Tuesday night to fill the unexpired term of Gene Kissinger, who is moving to Sherman.

THAT'S WHAT THE RULE SAYS — Popular Houston football announcers Kern Tips (left) and Alec Chessier (right) discuss 1959 rule changes with Howard Grubbs, executive secretary of the Southwest Conference. The occasion was an announcers seminar held in Dallas. Tips heads The Humble Company's staff of 23 play-by-play announcers who will describe all Conference games this season. Starting September 19, the oil company will sponsor some 50 broadcasts, 13 live telecasts, and a Sunday afternoon videotaped Southwest Conference "Game of the Week" on Houston radio and TV.

## Haskell Man, Relative Of Local People Killed In 2-Car Wreck On August 26

Funeral services for Corbet Lytle, 64, of Haskell, who was killed in a two-car crash near Graford, about seven miles north of Mineral Wells, at about 2:30 p.m. Wednesday, August 26, were held at 3 p.m. Friday from the Trinity Baptist Church in Haskell.

Rev. Jesse Jones, pastor, officiated and was assisted by his father, Rev. C. Jones, former pastor of the church, and Rev. Hubert Seago, retired Baptist minister of the Mattson community. Burial was in Willow Cemetery at Haskell.

Mr. Lytle's car collided with one driven by Mrs. Hugh Harmon of Whitt. Mr. Lytle was killed instantly, and his wife was seriously injured.

Mr. Lytle was a native of Veal Station and came to Has-

kell County in 1939. He had farmed most of his life in Knox and Haskell counties, but at the time of his death was associated with the western Cotton Warehouse Co. in Haskell.

He was married in 1924 to Miss Vennie Jones of Haskell. Mrs. Lytle suffered seven fractured ribs on the left side and a broken arm. She was transferred from a Mineral Wells hospital Wednesday night to Harris Hospital in Fort Worth.

Surviving are one son, Gerald, of Haskell; four daughters, Mrs. John Miller of Haskell, Mrs. Kenneth Adress of Colorado City, Mrs. A. C. Hennessee of Carlsbad, N. M., and Miss Vernie Lee Lytle of Abilene; one sister, Mrs. Lula Hunter of Munday, and nine grandchildren. He was an uncle of Hugh, George and A. J. Beatty and Mrs. J. L. Stodghill of Munday.

## Munday To Observe Holiday On Monday

Practically all business firms of Munday will be closed next Monday, observing Labor Day as a holiday for the first time in several years.

This is one of the days which local merchants voted earlier in the year to observe by closing their doors, giving the "poor working people" a long week end in which to rest and play.

Supt. W. C. Cox stated this week that the local schools will also observe next Monday as a holiday.

## Committee On Farm Labor Is Named Wednesday

Five Knox County citizens, Claude Hill, Omar Cure, Ansel Waldrip, Leo Fetsch, and Aaron Edgar, will serve as a County Farm Labor Committee for 1959-60. Mr. Hill and Mr. Cure met in the Munday City Hall, Wednesday August 26 with Mr. Dan Kelly, Manager of the Texas Employment Commission at Vernon and Al Duncan of the Munday office, to review the total seasonal employment needs developed by the TEC.

The Committee was presented with the figures of the TEC that Knox County will be short 3000 cotton pickers during the peak period of the cotton harvest. This shortage will be met by the importation of Mexican National Bracero workers.

The Committee will function under Public Law 78, obtaining facts relevant to the supply of domestic farm workers existing in Knox County and the shortage of workers, if any, which must be met by importing Mexican Nationals to harvest the cotton crop. Under Public Law 78 the TEC must supply this information to the Secretary of Labor who must limit the number of Mexican Nationals to be used in this county by granting a "ceiling." The Committee consults with the local Office Manager to assist him in estimating the number of workers who will be needed, based on current local conditions affecting the cotton crop.

"Ceilings" granted by the Secretary of Labor limiting the importation of Mexican Nationals into this area will be posted in Post Offices in Munday, Knox City, Benjamin, Goree, in the County Agent's Office, and in the County Courthouse.

## Knox County Hospital Notes

Patients in the Hospital Aug. 30: Mrs. Etta Pogue, Truscott; Mrs. Lillian Campsey, Knox City; Charles McAnear, Benjamin; Truett Hester, O'Brien; Mrs. Marion Elliott, Munday; Ahiston Morrow, Plainview; Janey Barrenes, Knox City; Mrs. J. T. Offutt, Munday.

Patients Dismissed: W. N. Crofford, Rule; Clay Hutchinson, Munday; Mrs. J. M. Snelson, Knox City; Rickie Callaway, Knox City; T. C. Carter, Knox City; C. C. Anderson, O'Brien; Mrs. J. L. Bates, Truscott; Bobbie Williams, Munday; F. G. Offutt, Munday; Mrs. Ida Morrow, Munday; Kyle Carver, O'Brien; Sandy Patlan, Knox City; Mrs. Clifford Cluck, Munday; Tommy Carter, Wellington; Danny DelHiero, O'Brien; Sue Bankston, Knox City; T. H. Tanner, Rochester; Mrs. Lucy Rowan, Knox City; Mrs. Ell Gray, Knox City; Mrs. W. H. Belinhausen, Munday; Mrs. Charlie Moorhouse, Munday.

Deaths: Mr. and Mrs. Warold Brazell, Munday, a daughter. J. R. King, Munday.

## Oil Activities

During 15-hour test, Paragon Corp. No. 46 H. M. Michels, in the Voss (Tannehill) Field northwest of Munday, flowed 154 barrels of 36 gravity oil from perforations at 1990-2005 feet, with 400 pounds of pressure on casing and 200 on tubing. Total depth was 2064, and gas-oil ratio was 235-1.

Two wildcat locations have been spotted in the Goree area. They are: Charles F. Richmond of Seymour No. 1 B. Coffman, seven miles north of Goree, to 2200 feet; and Hal C. Newman of Abilene No. 1 A. L. Haskins, six miles north of Goree, to 2200 feet.

Lloyd Patton of Fort Worth has plugged at 2020 feet No. 1 Boyd Moore, 3 1/2 miles northwest of Goree.

## Roger Bell Wins Magnolia Award

Roger Bell, an employee of Wardlaw Magnolia Station, was awarded a wrist watch for his "Courtesy on the Drive," a campaign being sponsored by Magnolia for employees in the effort for better service on the drive.

Unknown to Roger he serviced the car of the Magnolia man who was sent on the road to test employees. For his courtesy to the driver and his servicing of the car he was recommended as one of the employees to receive the award.

## Cluck Infant Is Buried Thursday

Graveside services were held last Thursday afternoon at Johnson Memorial Cemetery for Stephens Timothy Cluck, infant son of Mr. and Mrs. Sifford Cluck of Munday.

Rev. Marvin Burgess, pastor of the Gillespie Baptist Church, officiated. Burial was in charge of McCauley Funeral Home.

The infant died at birth at 6:15 p.m. Wednesday at the Knox County Hospital.

Survivors include the parents; a brother, Gary; a sister, Sharon Lynn, both of the home; the paternal grandparents, Mr. and Mrs. Tom Cluck of Munday.

## MASONIC LODGE TO MEET NEXT MONDAY

The regular stated meeting of Knox Lodge No. 851 AF&AM, will be held at the Masonic Hall at 8 p.m. next Monday. There is a possibility of degree work, and all Master Masons are urged to attend.

## ATTENTION, PARENTS

Parents of all the members of the Band Boosters are urged to be present at the first meeting to be held in the band hall at 7:30 p.m. Monday September 7th.

## PTA MEETING SET

The first meeting of the Munday Parent-Teachers Association will be held on Thursday, September 17. A barbecue supper will be served following a short business session.

### WORKERS WHO WON'T BE HIRED

Last July, the Senate Labor Subcommittee voted for an increase of 25 cents an hour — from \$1.00 to \$1.25 — in the federal minimum wage. A great many people honestly believe that this was a good and necessary act, and that anything which betters the lot of the lowest paid workers deserves support.

Yet, there is another side to this coin. The publication Economics Intelligence puts the problem in these words: "A worker is hired to make an economic contribution to the enterprise. If he is unable to produce additional service worth at least \$1.25, he simply will not be hired."

In other words, artificial jacking up of the minimum wage produces unemployment among the unskilled workers whose productivity does not justify the higher rate. Then, at the same time, it deprives these workers of opportunities to learn skills that will qualify them for better-paying jobs.

Precisely the same thing will happen if the campaign to extend coverage of the minimum wage law to groups of workers who always have been exempt — such as those in retailing — is successful. The employers affected will have no choice save to pare marginal employment to the limit. All the laws on earth can't change a worker's value to an enterprise. They can simply make it more difficult for him to find a job.

**HUMBOLDT, IOWA, INDEPENDENT:** "A man's right to work at his chosen occupation is one of the most fundamental American rights. That right is being violated constantly by compulsory union membership. Men are being forced, against their will, to become members of labor organizations and pay tribute for the right to earn a living. Many union members are against this but are powerless to stop the big labor bosses."

**NORWALK, CONN., HOUR:** "There is inherent in a \$70 to \$80 billion annual spending program much duplication, waste, inefficiency and irresponsible fiscal overseeing . . .

"Domestic tax consumers are far more ravenous than those in distant lands, and until Congress again assumes the responsibility to oversee the spending of every dollar flowing from Washington, there can not be an honest approach to fiscal sanity in the nation's capital."

### REA HAS COME OF AGE

Secretary of Agriculture Benson is certainly no enemy of the REA co-operatives. But he does want them to shake off some of their financial dependence on the federal government.

A short time ago he addressed a Virginia co-op association. He argued that the current 2 per cent interest rate on REA loans be raised sufficiently to cover the government's own cost of borrowing the money which is now 4 per cent or a little more. He added: "I am certain that the majority of the directors, managers, and members of rural electric co-operatives want to stand on their own feet. They do not want to depend on government support."

Mr. Benson also said that friends had advised him not to bring up his interest proposal. "But," he went on, "I believe you want me to tell you the truth as I see it and intend to do so. REA and the rural electric co-operatives have now come of age. You are strong enough and mature enough, in the main, to stand more on your own feet."

Mr. Benson's position is unassailable in logic and in principle. It was one thing to directly or indirectly subsidize the co-ops in order to get them going. It is a very different thing to do that now, when the co-ops are established, and should be not only able but willing to operate on a business basis.

Let the co-ops pay the going rate for borrowed money.

**EL DORADO, KAN., TIMES:** "American aid saved 11 million Russian lives — and this is a conservative estimate — during the famine of 1921-22. Most of the \$62 million cost was covered by the U. S. Government or private American donations.

"It must therefore have come as an outrageous shock to Secretary of State Herter to be told recently by Soviet Premier Koslov that the American Relief administration under Herbert Hoover had made Russia pay in gold for this humanitarian help. This was a lie, but it seems to have been what the ignorant Koslov had been told."

Last January, Chain Store Age forecast that the chains would spend \$1,570,000,000 for new and remodeled stores during the year. Now the magazine thinks that figure will have to be revised upward.

## People, Spots in The News

NATION'S most completely equipped commercial radioisotope and x-ray lab is new Picker Research Center in Cleveland. Picker is subsidiary of C.I.T. Financial Corporation.

By John C. White, Commissioner

The home gardener wants a single chemical which will control any pest which attacks his flowers, fruits, or vegetables.

To supply this market the pesticide manufacturers has prepared general purpose mixtures containing several insecticides and fungicides designed to combat a number of pests on many different plants.

These complex mixtures are retailed in small packages and differ from pesticides sold to commercial growers in that they may be left open and used repeatedly over a considerable period of time.

Malathion is one of the common constituents of garden pesticides. It combines the unique properties of high toxicity toward a number of different insects with a relatively high degree of safety towards warm-blooded animals. Malathion decomposes upon the plant surface to yield non-toxic residues within a few days. This desirable property in a residue introduces difficulties with the unused malathion remaining in the package.

Pure malathion is a pale yellow liquid sealed in glass ampoules to prevent its decomposition by atmospheric moisture. For effective use it must be diluted either impregnating onto a dry powder or by dissolving into a spray liquid.

Although two thirds of the deficient malathion samples examined in some test cases were dusts, emulsifiable spray concentrates also decompose in storage. The rate of loss has not been too serious the first year, but older samples have deteriorated more rapidly.

Aerosol formulations have been outstanding in quality. This is the only type of package in which admission of atmospheric moisture is prevented by vapor-proof walls and internal pressure on the closure. Although aerosols are still rather expensive, new developments in packaging are under way and many improvements may be expected.

reports that it will soon be making aerosol containers of extruded aluminum tubing. Plastic and metal foil packages need only a suitable closure to provide cheap moisture-proof packages for both dusts and liquids.

What can the consumer do to maintain quality in garden pesticides? He can help himself a great deal by selecting fresh packages from a reputable retailer, and then storing them tightly closed in a dry cool place. kress

J. D. and Helen Pack

## Details Or Fallout Shelters Given In Defense Booklet

AUSTIN — A new 30-page civil defense booklet, "The Family Fallout Shelter," gives detailed building plans for five basic shelters.

It may be obtained without cost by writing the State Civil Defense Office, Capitol Station, Austin.

James H. Garner, acting state coordinator of civil defense, pointed out that numerous recent studies have underscored the importance of fallout shelters, even in the remotest rural areas.

Radiation, called "the silent killer," cannot be seen, felt, tasted or smelled. But a nuclear attack on just the critical military targets in this country could send fallout over almost the entire country.

Some studies estimate an adequate system of shelters could save as much as three-fourths of the population.

Cost to each family would, in some cases, be hardly more than early television sets cost when millions of families began installing this new entertainment in their homes.

A do-it-yourself basement shelter would cost from \$150 to \$200. Aboveground shelters cost more, from \$700 to \$2,000, depending on the elaborateness of the plan and the amount of help hired.

Some saving is usually possible if the shelter is built at the same time as the house.

## PICTURES SHOWN OF VISIT TO EUROPE

Mr. and Mrs. H. S. Fatheree of Fort Worth visited her mother, Mrs. W. R. Phillips, over the week end. They had just returned from a summer tour of Europe and showed picture slides of their trip to about 30 people in the Phillips home while here. Murray Phillips returned home with them for a visit.

Mrs. Worth Gafford visited her mother, Mrs. Burroughs, in Coler man several days last week.

## Guests Honored With Luncheon In Payden Home

Mrs. Harold Paden honored her grandmother, Mrs. J. O. Day of Petersburg, and her husband's mother, Mrs. Oscar Paden of College Station with a luncheon last Thursday. Mrs. Paden and Mrs. Day have been visiting in the Paden home several weeks.

Present for the occasion were Mmes. Lola Cartwright, Dorcas Phillips, Ellie Phillips, Trudie Bruce, Kate Caldwell and Miss Alma Yates.

## Dorcas Class Of Baptist Church Meets August 27th

The Dorcas class of the First Baptist Church met in the home of Mrs. Bertha Fincannon August 27th. Mrs. Fincannon led the devotional and called on Mrs. A. U. Hathaway to lead the prayer.

After a business meeting and social hour delicious cake and punch was served by the hostess to 15 fifteen members present.

Prospects for one of the better cotton crops for Texas continue favorable. But, cautions Fred C. Elliott, extension cotton specialist, the use of improper harvesting methods can cut income by as much as \$25 per bale. He suggests that a copy of MP-297, "Keep Cotton Loose, Dry and Clean" be obtained from the local county agent for information on the best harvesting methods.

The most valuable crop coming from the farms and ranches of Texas is their young folks, reminds the Texas Farm and Ranch Safety Council. These youngsters will soon be moving to and from school and the Council urges all motorists to observe all traffic laws and especially those relating to the loading and unloading of school children. Play it safe so the children can be safe, urges the Council.

## Pool Safety

WITH SUMMER HERE, wading pools are flourishing like dandelions in backyards across the country. They keep the toddler set cool, wet and happy, and they help mothers keep their youngsters within sight. But besides neighborhood tots, these pools also attract germs, foreign objects and occasional cats and dogs. To reduce the danger of harmful organisms and dirt, drain the pool each night and fill it with fresh water in the morning. For greater security, swab out the pool each evening with a solution of Lysol brand disinfectant in water as the health-conscious mother in the photo is doing, with the hearty approval of her young toddler.

Mr. and Mrs. L. A. Howell of Lawton, Okla., visited Mr. and Mrs. Fletcher Gates and family last week.

## MUNDAY SCHOOL LUNCHEON MENU

Monday: Lima beans, mixed greens, pickled beets, cornbread, milk, cobbler pie.

Tuesday: Macaroni and meat, green beans, tossed salad, cornbread, milk, cookies.

Wednesday: Pot roast, mashed potatoes, English peas, jello, hot rolls, milk.

Thursday: Pinto beans, Vienna sausage, cabbage slaw, cornbread, buttered rice milk.

Friday: Tuna salad, blackeyed peas, buttered carrots, hot rolls, sliced apples, milk.

Mrs. Nora Broach visited her brother and wife. Mr. and Mrs. Herman Hackfield, in Lubbock over the week end.

## FORMER PASTOR AND FAMILY VISITS HERE

Rev. and Mrs. H. Doyle Ragle and two children of Canyon visited with friends here the first of this week. Rev. Ragle, former pastor of the First Methodist Church of Munday, made an inspirational talk at the church family night meeting on Tuesday night, which was sponsored by the Methodist Men's Club. Around 150 members and friends of the church attended.

An interesting highlight of the program was the showing of a film of "This Is Your Life," based on Rev. Ragle's life and which was produced at a local church gathering while he was pastor here.

Music for the occasion was furnished by an MYF band of the First Methodist Church of Knox City, under the direction of Mrs. E. Q. Warren.

## UNDERGOES SURGERY

Mrs. Oates Golden underwent surgery several days ago at Bethania Hospital in Wichita Falls. She is getting along nicely, according to latest reports.

## CARD OF THANKS

I wish to thank everyone for their thoughtfulness and many acts of kindness shown my family while I was in the hospital. Every prayer, card, the flowers and visitors were greatly appreciated.

We Deliver

We give S.M. GREEN STAMPS

St. John's Church in Richmond, where Patrick Henry delivered his "Liberty or Death" speech, is a white frame building which has been somewhat enlarged since that day in 1775. The church was chosen for the Virginia Convention because it was the largest meeting place in town. Jefferson and Washington were members of the convention.

I had always visualized Henry as standing in the middle of the floor — and even striding up and down — so it came as a surprise to be told that he stood in a pew.

It is a privileged seat to sit oneself in that very same pew where Patrick Henry stood as he thundered, "Is life so dear or peace so sweet as to be purchased at the price of chains and slavery? Forbid it, Almighty God! I know not what course others may take but, as for me, give me liberty or give me death!"

The baptismal basin disappeared from the church in early days but was found. The Indians were using the metal vessel to pound corn in. The basin is still to be seen in the church.

In the churchyard are many graves. One is that of Edgar Allan Poe's mother, who died in 1811. She was an actress and so it was forbidden to mark the grave. Some years ago, however,

a monument was erected. The Rev. Alexander Whittaker, early pastor, converted many Indians, including Pocahontas, whom he baptised and whose marriage ceremony he performed. He drowned in the James River in 1617 and the body was never recovered. A stone memorial stands in the churchyard.

One of the graves in that of George Wythe, signer of the Declaration of Independence and first professor of law in America. Among his pupils were Jefferson, John Marshall, James Monroe and Henry Clay. Wythe died of poison administered by a nephew, an impatient heir. The guide said that Wythe lived long enough to change his will. What a melodrama!

The guide, by the way, was a pleasant, young man with reddish hair and his name was Usry. He said he was prepared for almost every kind of question but that one day he was rather startled when a lady demanded, "How do you know that Patrick Henry really made a speech?" He replied, "Well, for about the same reason that I know that people are buried in these graves." That seemed to take care of her skepticism.

Sometimes, in the Virginia Capitol, a Kentucky tourist would give him an argument when Usry would indicate the statue of Henry Clay and claim him for Virginia or a Texan would challenge a similar claim for Virginia when the bust of Sam Houston was viewed.

"Now, I emphasize that they were Virginia-born — and let them take it from there," he said, with a smile.

Drive carefully. The life you save may be your own!

### Gems Of Thought

#### "MINDING OUR OWN BUSINESS"

Any exception to the old wholesome rule, "Mind your own business," is rare.

—Mary Baker Eddy

The things most people want to know about are usually none of their business.

—George Bernard Shaw

There is so much good in the worst of us, and so much bad in the best of us, that it behooves all of us not to talk about the rest of us.

—Robert Louis Stevenson

Advertising is one of the few callings in which it is advisable to pay attention to some one else's business.

—Howard W. Newton

Tale bearers are just as bad as tale makers.

—Richard Brinsley Sheridan

As to people saying a few idle words about us, we must not mind that any more than the old church steeple minds the rooks cawing about it

—George Eliot

#### 4-H's Trained In Good Citizenship

CHICAGO—Qualities that help build character and leadership in the youth of our country are to be found in the 4-H Citizenship and Public Speaking programs, says the National Committee on Boys and Girls Club Work, Chicago.

Learning to assume civic responsibilities and perform community service are commensurate with the objectives of the Citizenship program the Committee points out, while the Public Speaking activity provides many opportunities to participate in club, school, local, and state-wide events.

Through arrangements made by the Committee with private sources awards will be given for outstanding achievement in both areas of endeavor. A special fund has been established to provide awards for good citizenship in memory of Thos. E. Wilson, pioneer 4-H benefactor. On a national level two college scholarships of \$400 each and two all-expense paid trips to the 38th National 4-H Club Congress this fall will be awarded to the high ranking girl and boy. State winners will receive a certificate of honor, according to the Committee.

The Pure Oil Co., which has provided public speaking awards for the past eight years will do

so again this year. Two national winners will receive \$400 college scholarships and trips to the Chicago Congress. Top state award for girls is a set of table silver, and for boys a 19-jewel wrist watch. Each will also be presented with a certificate of honor.

These programs are under the direction of the Cooperative Extension Service.

#### LAMB REUNION

The Lamb family reunion was held last Sunday in Ralls at the home of Velma Lamb. Present for the occasion were Mr. and Mrs. Walton Lamb, Velma Lamb and Orville Lamb of Ralls; Mr. and Mrs. Alton Lamb, Mr. and Mrs. Buddy Lamb, Mr. and Mrs. Arnold Lamb and son all of Morton; Mr. and Mrs. Harvey Lamb and

daughters of Lubbock; Mr. and Mrs. Jack Flowers and Kay and Mrs. Vera Flowers of Cone and Mr. and Mrs. Tom Cluck of Munday.

Mr. and Mrs. Herschel Thompson of Tulla spent the week end with her parents, Mr. and Mrs. Elmer Dickerson, and sister, Billie. Their son, Joe Bob, who spent last week here returned home with them.

Mr. and Mrs. Billy Jack Stewart and children vacationed in Ruidoso, N. M., last Wednesday and Thursday.

Mrs. Ben Yarbrough and Mrs. Tom Morton attended the wedding of Miss Jeannie Beasley in Vera last Saturday afternoon.

Mr. and Mrs. R. M. Almanrode attended the wedding of Miss Jeannie Beasley in Vera last Saturday afternoon.

Mr. and Mrs. Arthur Cundiff of Fort Worth visited with his mother and with her parents, Mr. and Mrs. Frank Garrett, over the week end.

Week end guests in the home of Mr. and Mrs. J. L. Ford and Helen were Mr. and Mrs. Gene Taylor and Sandra of Wellington.

James Henson and sons, Eddie and Larry Glenn, visited his parents, Mr. and Mrs. H. D. Henson, a while Sunday afternoon enroute to their home in Shallowater from attending the Reeves family reunion in Haskell.

Noble Flenniken of Texas A & M College came in last Saturday to spend the two weeks between semester holidays with his parents, Mr. and Mrs. Elmo Flenniken.

Mountain Driving Isn't Hard

By Marika Johnson Dodge Safety Consultant

Don't let mountain driving frighten you if you are heading for a trip through some of the country's most spectacular scenery.

Mountain driving isn't difficult for the experienced driver.

Mountain roads may look narrow to you, but that's because of the immense country above and below. There is just as much space between the center line and the edge of a modern mountain road as there is on a flat one.

And don't worry about the steepness—all new mountain roads are built so that any modern American car can climb them in high gear.

Here are a few tricks that will help you around some of the bends and curves:

- Stay in the lower gears on the downgrade. Never coast down a grade with the car in neutral.

- Don't be caught with nearly empty gasoline tank. Gas stations usually are fewer and farther between and cars use more gas than usual.

- Check your temperature gauge frequently. Do not remove the radiator cap unless the gauge shows overheating. When you do add water, do it carefully. Let the engine run after you've stopped until the "rumbling" stops, then put a heavy rag over the radiator cap and turn it slowly. Add the water slowly, letting the engine idle.

- If you've reached the summit of a mountain pass with an over-heated radiator and no water is available, don't panic—the radiator will cool rapidly by itself once you start the downgrade. Later, when you find water you can add it easily to your cooled engine.
- Always set your hand brake and put the car in gear, even if the parking spot appears to be flat.

- And finally, courtesy is a must when driving through the mountains. If you are driving on the inside of the road, keep as far to your right as possible. If you are on the outside, relax, watch the center line and keep to your right, and never mind the scenery. Make frequent stops for sightseeing.

## News From The U. S. Congress

By Congressman Frank Ikard

As Congress moves into the final days of this session, there still remains several "must" pieces of legislation that must be acted upon before this session closes. They are a labor reform

bill, on which a Conference Committee is now seeking to work out an acceptable compromise between the House-passed version and the Senate Bill, the development of additional financing for the Federal interstate highway system, and final action on Mutual Security appropriations. It is hoped that these matters can be resolved shortly and that this session can be brought to an end within the next week or

ten days. Shortly after adjournment, I expect to return to the District and to remain there through the Fall. While in the District, I hope to visit each one of the nineteen Counties in our Congressional District. In view of the fact that I do plan to visit all the Counties in our District, I will not be in the District Office a great deal; however, that office will continue to be open at 20<sup>th</sup> Federal Building, Wichita Falls. The phone number there is 322-8379.

While most of us in this country are preoccupied with domestic issues and are being bombarded with propaganda with respect to the new offensive that has been launched by the Russians, Communism continues to move on to new victories. Few of us realize or are concerned with the importance of the Communist activities in moving into Laos and the Far East and the aggressive acts that are being committed by the Chinese Reds against India. These events should teach us that we cannot relax and enjoy an intimate peaceful existence with Khrushchev, and that despite all they say to the contrary, the Communists are still dedicated to world conquest and to our destruction. While we all hope that the Khrushchev visit will be a fruitful one and that real gains will be made toward reaching a peaceful solution to the many problems that exist between the Free World and the Communist block, we must not let it lull us into a false sense of security.

On November 2nd the Committee on Ways and Means will start comprehensive tax hearings which will be broader in scope than any held in many years. The purpose of these hearings is to bring about broad tax revisions in an effort to reduce the many inequities that now exist in our Federal tax law.

Mr. and Mrs. Harry Campsey and children were Washington visitors this week.

Guests in the home of Mr. and Mrs. Russell Penick and daughters this week are Mrs. E. E. Guinn and Miss Bernice Tate of St. Joseph, Missouri, Mrs. H. H. Schneider and Mrs. John Gardner of Wichita, Kansas.

### TAKING THE FIFTH AMENDMENT

You have read of someone's "taking the Fifth."

Why does our constitution let people — some involved in crimes — keep on refusing to answer questions put to them in our courts, investigating committee, and government agencies?

Because no man can be called on to accuse himself or give evidence against himself.

Where did this rule come from? From the Church canons.

Long ago under common law, witnesses or parties took an oath and talked a lot or a little as their consciences bade. Later an English law put witnesses under an oath somewhat like the Church's oath; but the judge could subject them to sharp questioning, even torture. The king, for example, punished

"heresy and sedition" this way. England at last changed the law: Before any one had to take an "inquisitional" oath, someone had to accuse him of a crime or show that he was "notoriously suspicious". No man had to accuse himself.

By 1700 no man had to testify if to do so could bring on his own punishment. The American colonies adopted this rule, and as the Fifth Amendment wrote it into our constitution as the Bill of Rights.

The Fifth applies to two ways:

1. The accused need not testify at all in his own trial; or he can speak in his own behalf, but only when he or his own lawyer, (not the district attorney) wants him to. Once he testifies though, the prosecution can cross-examine him — and then he may have to answer.

2. Witnesses called on to testify who are not the accused must testify, but not if their answers would tend to incriminate them. Sometimes, a witness will refuse to answer seemingly harmless questions. To answer them may open up the way to force him to give more incriminating answers.

Who decides if a question would tend to incriminate? The judge. If he finds a question would not tend to incriminate, he may order the witness to answer or be punished for contempt of court.

In Texas the accused on trial need not testify in his own behalf. And if he doesn't, the prosecuting attorney may not comment to the jury about his failure to explain the facts against him. (This column, prepared by the

State Bar of Texas, is written to inform — not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

## LOCALS

Mr. and Mrs. A. C. Jungman of Pep are visiting Mr. and Mrs. W. A. Jungman and other relatives for several days this week.

Mr. and Mrs. D. E. Woods of Hopkins, Minn., came in last Sunday night for a ten day visit with her parents, Mr. and Mrs. Otis Simpson.

Clarice Ann Decker returned home last Friday from a two weeks visit with her sister and husband, Mr. and Mrs. Herman Brown, in Chickasha, Okla.

Rick and Sue Whitworth returned to their home in Tulsa, Okla., last Thursday after a three weeks visit here with their grandparents, Mr. and Mrs. D. E. Whitworth.

Mr. and Mrs. Henry Hicks, Harry and Sharon, of McLean visited her brother and family, Mr. and Mrs. Joe Massey and John, last Sunday.

**BEST BRAKES**... STOP ON A DIME AND GIVE YOU MORE STOPS PER DOLLAR They're bigger too. With 'em, Chevy out-stopped all competitors in its field in a NASCAR\* conducted test of repeated stops from highway speeds.

**BEST RIDE**... CARRIES YOU AS CAREFULLY AS IT PAMPERS YOUR DOLLARS "The smoothest, most quiet, softest riding car in its price class." That's the way MOTOR TREND magazine describes Chevrolet's cream-smooth ride. It's way more fun to sample than to read about though. Get out in a Chevy and see what Full Coil springs do.

**BEST ENGINE**... YOU COULD SPEND JARFUL OF JACK AND NOT GET A V8 LIKE CHEVY'S Talking about our standard as well as Corvette V8's, SPORTS CARS ILLUSTRATED says, "Indeed, this device is

surely the most wonderfully responsive engine available today at any price."

**BEST ROOM**... NO CRAMPED QUARTERS Let's take the official figures filed with the Automobile Manufacturers Association. They show Chevrolet's front seat hip room up to 5.9 inches wider than in comparable cars. Count on real comfort.

**BEST TRADE-IN**... YOU GET MORE DOLLARS BACK FOR YOUR CHEVY Last year, for example, Chevrolet used car prices averaged up to \$128 higher than comparable models of other makes. Just check the NADA\* Guide Book.

**BEST ECONOMY**... SOCK AWAY YOUR CHEVY SAVINGS As sure as two Chevy Sixes won their class in this year's Mobilgas Economy Run, getting the best mileage of any full-size car!

and said that "... in its price class, Chevy establishes a new high in daring styling." Chevy's leadership in sales for '59 says a lot for its looks too!

**BEST STYLE**... BEAUTY THAT DOESN'T DEMAND A BIG BANK ROLL The experts at POPULAR SCIENCE magazine looked them all over

Now there's an Impala Sport Sedan... one of Chevy's full series of Impalas for '59

See your local authorized Chevrolet dealer—you might as well get the most!

1. proven quality brand, 2. correctly sized for all weather conditions, 3. uniform whole-house warm air circulation, 4. sensitive control, quick response, 5. proper location of registers, grilles, 6. economical operation, 7. flexibility of equipment for every floor plan, 8. adequate insulation.

Now, before the rush, call your heating contractor or **LONE STAR GAS COMPANY**

## Wanda Jean Beasley And Verlan Derrell Coffman Marry Saturday At Red Springs

Miss Wanda Jean Beasley of Wichita Falls became the bride of Verlan Derrell Coffman of Kamay in nuptials conducted in the Church of Christ, Red Springs, last Saturday evening at 7 o'clock.

The bride is the daughter of Mr. and Mrs. Sutton Beasley of Vera and parents of the groom are Mr. and Mrs. Grover Coffman of Kamay.

John Proffitt, church minister, officiated at the ceremony which

was read before an altar flanked with palms and floor baskets of white gladioli. Above the green and white setting was an arrangement of candelabra holding white cathedral tapers. White satin bows marked the family pews. Decorating the church window was a single white candle accented with greenery.

A program of pre-nuptial music was presented by a group of five unaccompanied female sing-

ers. Given in marriage by her father, the bride was attired in a full-length white lace dress over satin fashioned with a white satin cummerbund tapering to a large satin double bow in back accented with wide streamers. The bouffant skirt featured a fitted bodice with a bateau neckline and tapered sleeves. Enhancing the front of the bodice and sleeves were seed pearls. Her shoulder-length veil of white tulle was attached to a crown of white satin sprinkled with seed pearls. She carried a colonial bouquet of feathered white carnations with satin leaves and streamers which were centered with two seed pearl hearts.

Maid of honor was Miss Virginia Ann Jackson of Vera. She wore a pink cotton satin sheath fashioned with a scalloped neckline and short sleeves. The dress, designed with a pink silk organza overskirt, featured small pink satin bows which accented the neckline and waistline. Her headpiece was a pink silk organza flounce enhanced with a garland of pink roses. She carried pink and white feathered carnations arranged in a nosegay with pink satin streamers.

Candlelighters were Delenna Rogers of Wichita Falls and Barbara Lee Coffman of Vera, cousin of the groom. They wore dresses fashioned identically to that of the maid of honor and wrist corsage of white feathered carnations.

Serving as best man was Jim Bob Anderson of Hobbs, N. M., and ushers were Carl Graham Quisenberry and Johnny Quisenberry, both of Seymour, cousin of the bride.

A reception was held in the home of the bride's aunt and uncle, Mr. and Mrs. Carl Quisenberry in Seymour. The bride's table covered with a pink net cloth over satin was centered with an arrangement of white chrysanthemums dusted with pink glitter cascading from a pink antique urn. The wedding cake and punch service placed on the ends of the table were flanked by silver candelabra holding white tapers.

Presiding at the punch service was Mrs. J. A. Fuller of Vera. Serving cake was Mrs. Gilford B. Eggleston of Vernon aunt of the bride. Miss June Fuller secured names for the guest book from a table covered with pink net over satin featuring a miniature bride and groom and silver candelabra. Small net bags of pink rice were passed to the guests from white satin tree by

Mrs. Grady Hardin of Vera. The former Miss Beasley is a graduate of Vera High School and will receive her BS degree in education at Midwestern University in January. At MU, she is past president of the Religious Council, secretary of the Student National Education Association and was junior nominee for Lady Midwestern. She will assume the position of assistant registrar at MU Sept. 1.

The groom is also a 1956 graduate of VHS. He attended Midwestern in 1956-57 and served with the U. S. Army for two years. He is presently employed by the Wichita Falls Fire Department.

Following a wedding trip to Quartz Mountain Lodge, the couple plans to establish residence at 3108 Sherwood.

### BENJAMIN NEWS

Jim Frank Coulston, who employed at Popular Department Store in Abilene visited over the week end with home folk. He will enroll as a freshman at McMurry College on Monday.

Mr. and Mrs. Hoyle Sullins

Mr. and Mrs. Hoyle Sullins of Vera recently returned from a vacation through the west. They arrived at Gallup, N. M., on Friday to see the Indian Ceremonial Parade. The streets were crowded with people to see 500 Indian performers in full colorful ceremonial dress of the many different tribes. The Navajo beauty queen with costumes accented with magnificent display of silver and turquoise jewelry, rode on smartly-paced ponies. Next were the medicine men. Then came the many different tribes led by young Indian dancers. The Zuni Olla maidens in black dresses on their heads. The white Indians of Alaska marched with leaders dressed in very lifelike bear-skin costumes. Last came 50 families in colorful costumes riding in their covered wagons. The parade brought back early days of American history. The Sullins then went over the Million Dollar Highway at the altitude of 10,850 feet by the way of Silverton, Colo. The road clings to cliffside and loops through some of the most precipitous canyons in the state. It is a first class thrill for newcomers and a vital pathway of commerce. Silverton is an old mining town with the old buildings still in use. It has only frost 14 days of the year so they do not have any agriculture.

The Sullins then went by the ski center, the beautiful city of Glenwood Springs, Colo., and on Rocky Mountain Park. Here they travelled to a height of over 12,000 feet, a beautiful drive with snow on the mountains. They

were glad when they reached Estes Park. The trip continued by Denver and through the City of Holly, which has fields of beautiful Zinnas. In Denver they ed a concert given by the Army Army Field Band and Chorus, from Wash., D. C. The last night was spent in Liberal, Kans.

## Weekly Health LETTER

Issued by the State Health Department

Summertime is barefoot time! Think back Mom and Dad to the summers when you dragged your feet through the dust, let mud ooze up between your toes, or if you were a city dweller, maybe you splashed in the gutters after a light rain.

But along with this great childhood pleasure of going barefoot goes a danger of possibly contracting tetanus — but not necessarily!

Lockjaw, or tetanus, cases jump in summertime because exposure in the form of cuts, or puncture wounds are more frequent in warm weather when people are out-of doors.

The germs of lockjaw are commonly found in soil — especially manured soil. They enter through a break in the skin and emit a deadly toxin which cause jaw and neck muscles to constrict so severely that jaws involuntarily close, vice-like.

Slowly the muscle constriction spreads to other body muscles, until the victim is bent like a bow.

Lockjaw germs are spore-formers, which means they can live for years outside an animal body. Its life processes lie dormant in a tiny seed-like pod, sifting about on the ground until finally, perhaps through a nail puncture, it gets back into live tissue.

The wound may heal over, but inside, protected as it is from the air, the spore may begin "revegetating" and emitting deadly toxin. The primary source of the germs is the intestinal tract of all animals. They're passed on to the ground in animal dejects, easily available for re-entry into a human body when that body is cut or scratched or otherwise wounded.

Exposures to lockjaw are so common that it is mere common sense for everyone to maintain a high level of protection via immunization. Such shots should be given children early in life, at the discretion of your family physician and then maintain immunity with periodic boosters, especially following exposure.

### CARD OF THANKS

Our heartfelt thanks to all of you for the many expressions of love and sympathy in the loss of our dear baby. We wish to express our thanks to the doctors and nurses, and especially to David Eiland for his comforting help. Your kind words and your prayers meant much to us and we pray God's richest blessings on you all.

## Legal Notices

**NOTICE TO ALL PERSONS HAVING CLAIMS AGAINST ESTATE OF H. A. PATTERSON, DECEASED**

Notice is hereby given that original letters testamentary upon the estate of H. A. Patterson, deceased, were issued to me, the undersigned, on the 28th day of August, 1959, in the proceeding indicated below my signature hereto, which is still pending, and that I now hold such letters; All persons having claims against said estate, which is being administered, in the county below named, are hereby required to present the same to me respectively, at the address below given, before suit upon same are barred by the general statutes of limitation, before such estate is closed and within the time prescribed by law. My residence and post office address is Vera, Texas, Knox County, Texas. Dated this 28th day of August, 1959.  
Dora Patterson, Independent Executrix of the Estate of H. A. Patterson, Deceased, No. 972, in the County Court of Knox County, Texas. 1tp

## Knox Prairie Philosopher Favors Price Sticker For Eggs, Just Like They Are Using On All Automobiles

J. A.

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek has another idea he won't get anywhere with this week.

Dear Editor:

It's not that I'm in the market for a new car, I'm waiting for the new models, have been for many years, though it doesn't seem to make much difference, as fast as they bring out a new model they turn around and start to work on an even newer one, never can seem to make up their minds, but what I started out to say does concern cars.

I read in a newspaper last night that a new law is now in effect requiring car manufacturers to put a sticker on every car showing the list price—what it ought to sell for, what the extras on it should cost, etc., and there's a \$1,000 fine if a car dealer removes the sticker.

As I understand it, this was done to keep some sharp dealers

from running the price way up, allowing you a lot more for your trade-in, and still making a satisfactory profit. What they were doing was taking a \$50 cat in on a \$100 dog, still getting the \$50 they wanted in the first place for the dog, which is pretty high for a dog, but so are cars and everything else.

The new law is intended to put a stop to this.

Now there's an idea that ought to be carried over into farming, but sort of in reverse. While the car sticker law is aimed at keeping some dealers from hornswoogling the public, the farm sticker law would be aimed at keeping the farmer from hornswoogling himself.

For instance, say a farmer has a dozen eggs for sale, and the going price is 20 cents. The government ought to require the farmer to put a sticker on the eggs showing they cost him 30 cents to produce.

I'm not sure how this would keep a farmer from selling 30-cent eggs for 20 cents, but it at least brings the thing into the open. It just takes too many eggs these days to buy a new car or a tractor, even one with a government-guaranteed price sticker on it.

Yours faithfully,  
J. A.

Mr. and Mrs. Harold Decker and family of Amarillo visited his parents, Mr. and Mrs. H. P. Decker, over the week end.

Mr. and Mrs. Joe A. Jungman and family of Fort Worth visited their parents, Mr. and Mrs. W. A. Jungman and Mr. and Mrs. Louis Holub, last week end.

## Tax-Man Sam Sez:

Self-employed taxpayers (for the wage and salary people's information this is the government term to describe your service station operator, your grocery man and the other folks you do business with everyday) are required to pay their income tax throughout the year the same as a wage earner.

Any person having income not subject to withholding files an estimated tax return on April 15 to pay quarterly. The age of mechanization in Internal Revenue has now reached the estimated tax payment billing system. In September the first estimated tax bills are coming out on an IBM card on which you complete part of the card and mail back your payment with the other part. Most taxpayers are familiar with this system since they receive elec-

tric bills, water bills, or gasoline credit card bills on a similar type card.

The Internal Revenue Service is naturally anxious to have taxpayers recognize that this is a bill and not an advertisement. They want part of the card back with the check that is due.

## LOCALS

Mr. and Mrs. Wayne Smith of Irving returned to their home in Irving last Monday morning after a weeks visit here with their parents, Mr. and Mrs. Joe Massey and Mr. and Mrs. A. L. Smith.

Mrs. Bob Brown and daughters visited with her sister and family in Dallas and with her parents in Milford several days last week and over the week end.

### HOW CREDIT AIDS BUYING

The importance of instalment credit to American families in buying various major goods is indicated in latest government and industry figures. As shown in the graph prepared by the American Finance Conference, national association of independent sales finance companies, these percentages of units are bought on time: Autos, 65%; furniture, 51%; television sets, 50%; washing machines, 56%; outboard boats, 58%; mobile homes, 85%.

### Cotton Harvesting Methods Important To Farm Incomes

Texas cotton growers have produced one of the best crops in many years, and should use the best harvesting methods possible for the most profit advises Fred Elliott, extension cotton work specialist.

Good harvesting can mean as much as \$25 per bale more for the grower, he pointed out. If growers will use good harvesting methods, many millions of dollars can be added to Texas farm income this year.

To harvest better cotton, Elliott stated that cotton should be picked only after dew or rain has dried off and that green bolls, grass, stalk parts or other trash should be kept out of seed cotton.

Enough seed cotton should be taken to the gin for a 500 pound bale of lint cotton. Farmers will be docked for undersized and oversized bales. Also, he reminds, bales weighing less than 275 or more than 700 pounds cannot be sold to the Community Credit Corporation.

Other harvesting practices recommended include: not picking cotton in tar bottom pick sacks; seed cotton grouping for hand-picked and machine-picked cotton, or machine-picked cotton of different quality; defoliating at the proper time; not tramping seed cotton in trailers or storage; and keeping mechanical harvesters in good condition and using only well trained operators.

When the seed cotton is delivered to the gin yard, the effects of harvesting do not end. It's easy to see that clean, dry cotton can be ginned much better than damp, trashy cotton. Remember that you have a sizeable investment in your crop and in a great many cases proper harvesting practices can mean the difference between profit and loss, added Elliott. He suggests that a copy of MP-297, "Keep Cotton Loose, Dry and Clean" be obtained from the local county agent for more information on cotton harvesting problems.

Soon Congress will give up and go home. After a brief pause, the work of drawing evasive answers from reluctant witnesses will be resumed, by school teachers. — CHANGING TIMES.

Mrs. Aaron Edgar left Thursday morning for a few days visit in Wellington and Quannah.

Use The Classifieds to Buy, Sell!

### SATURDAY IS MOST DEADLY FOR MOTORISTS

CHICAGO — Traffic accidents took an average of more than 100 lives a day in 1958, according to the National Safety Council.

Most deadly day, the Council said in its recently published statistical yearbook, "Accident Facts," was Saturday.

Sunday was next most dangerous to motorists.

Mrs. Charlie Haynie, Jr. and Mrs. Paul Pruitt visited Miss Janie Haynie in Fort Worth and with relatives and friends in Dallas over the week end.

Recent guests in the home of Mr. and Mrs. Fletcher Gates were Mr. and Mrs. John Brown and children of Wichita Falls.

Mrs. Ed Walker of Plainview visited with Mr. and Mrs. Lee Burnison several days this week. She also visited with Mr. and Mrs. Joe Gray.

Mrs. Coy Tuggle and Mrs. Cecil Gulley went to Snyder last Wednesday to get Mrs. Tuggle's daughter, Mrs. Billy Bradford. Mrs. Bradford came at this time to attend the funeral of J. R. King on Friday afternoon.

The TIMES

### Duck Season To Run For 50 Days Nov. 13 to Jan. 1st.

Although there is still some doubt as to the number of ducks and geese coming to Texas this year, a liberal hunting season has been authorized, according to H. D. Doogen, executive secretary of the Game and Fish Commission.

The duck season opens at noon Friday, Nov. 13. Shooting then is permitted from sunrise until sunset through Jan. 1. The bag limit is four per day or eight in possession after the first day. Because of an extreme shortage it will be illegal to kill more

than one of either red head, canvasback or ruddy duck. This is known as a "mistake" duck.

The goose season opens at noon October 26, and runs through Jan. 8. The limit is five geese per day, with a limit of two Canada, or one speckled belly, or one Canada and one speckled belly.

There will be a 30-day season from Dec. 3 — Jan. 1, on Wilson snipe, with a bag and possession limit of eight.

A \$3 federal duck stamp is required of all persons hunting migratory waterfowl.

Drought conditions in the Canadian nesting areas are blamed for a small hatch this year. Late rains, however, did materially benefit the hatch, although the quantity is still doubtful, he said.

Soil testing is a tool you can use on your farm to help determine the level of fertility in your soil. The recommendations which you will receive from the soil testing laboratory, based on the analysis of the soil samples you submit, will give the amounts of fertilizer needed for the most profitable crop or pasture production. Local county agents can supply information on soil testing.
