Moguls Suffer Second Loss In District Play Saturday

STATS SHOW MOGULS TO BE ACTIVE

Stats in the first quarter of the Mogul-Greyhound game tell the story of what might have been - if. For Munday they were:

Seven first downs, 78

yards rushing, 44 yards passing, one punt for 32 yards, two penalties for 30, and seven points on the scoreboard. For Knox City: two first downs, 33 yards rushing, 26 yards passing, one punt for 45 yards, four

penalties for 60 yards, and no points scored.

Friends become enemies in this rivalry on the gridiron, and from the opening kickoff it was a hard hitting, hard fought game for both teams.

The Moguls started running and passing, moving the ball downfield until a penalty stalled the drive. After an exchange of punts, Munday's drive started from their own 13-yard line. Ten plays later, 2:14 left in the quarter, Routon hit McAfee on a 4-yard pass, with McAfee pitching to Murry, who ran the final 15 yards to score. Ralph Hernandez kicked the extra point, making the score Munday 7, Knox City 0.

Midway through the second quarter, Murry intercepted a 37-yard pass thrown by Greyhound quarterback Dwayne Johnson which was ruled interference by the officials, giving the ball to Knox City on Munday's 20-yard line. Five plays later, Terry Watson scored from four yards out. The extra point tied the score 7-7.

Three plays later, Knox City recovered a Mogul fumble on the Greyhound 34-yard line, drove 66 yards to score with 3:28 left in the half. Knox City leading 14-7.

Early in the third period, Munday stopped a Knox City drive on the 3-yard line by intercepting a pass. The Mogul offense drove to their 23, and punted to the Greyhound 38, with a 10-yard return. Seven plays later, Munday recovered a Knox City fumble on the 14-yard line, but the ball was ruled dead. Three plays later, Knox City scored on a 4-yard pass, with the PAT being good.

Knox City went ahead 28 to 7 with 6:30 left in the game, when Watson scored from six yards out and another good PAT.

Two minutes later, Moses Dena scored for Munday in the final score of the evening. Hernandez kicked the extra point, making the score 28 to 14 as the game ended.

United Fund Near Goal

The Munday Area United Fund Campaign is nearing its goal of \$5,682.00. To date, \$4,520.85 has been raised in donations and pledges. The drive officially ended October 19th, but there are still twenty-two workers who have not turned in their envelopes. Mrs. Paula Schur, campaign chairman, asks that all workers complete their contacts as soon as possible.

Mrs. Schur states, "The drive has proceeded at an excellent pace and we have raised approximately 75% of our goal. I am confident we will reach our goal because the area citizens have been very generous in their support of the United Fund. We realize everyone is very busy with cotton harvest and other activities, but we do hope to complete the contacts by the end of this week."

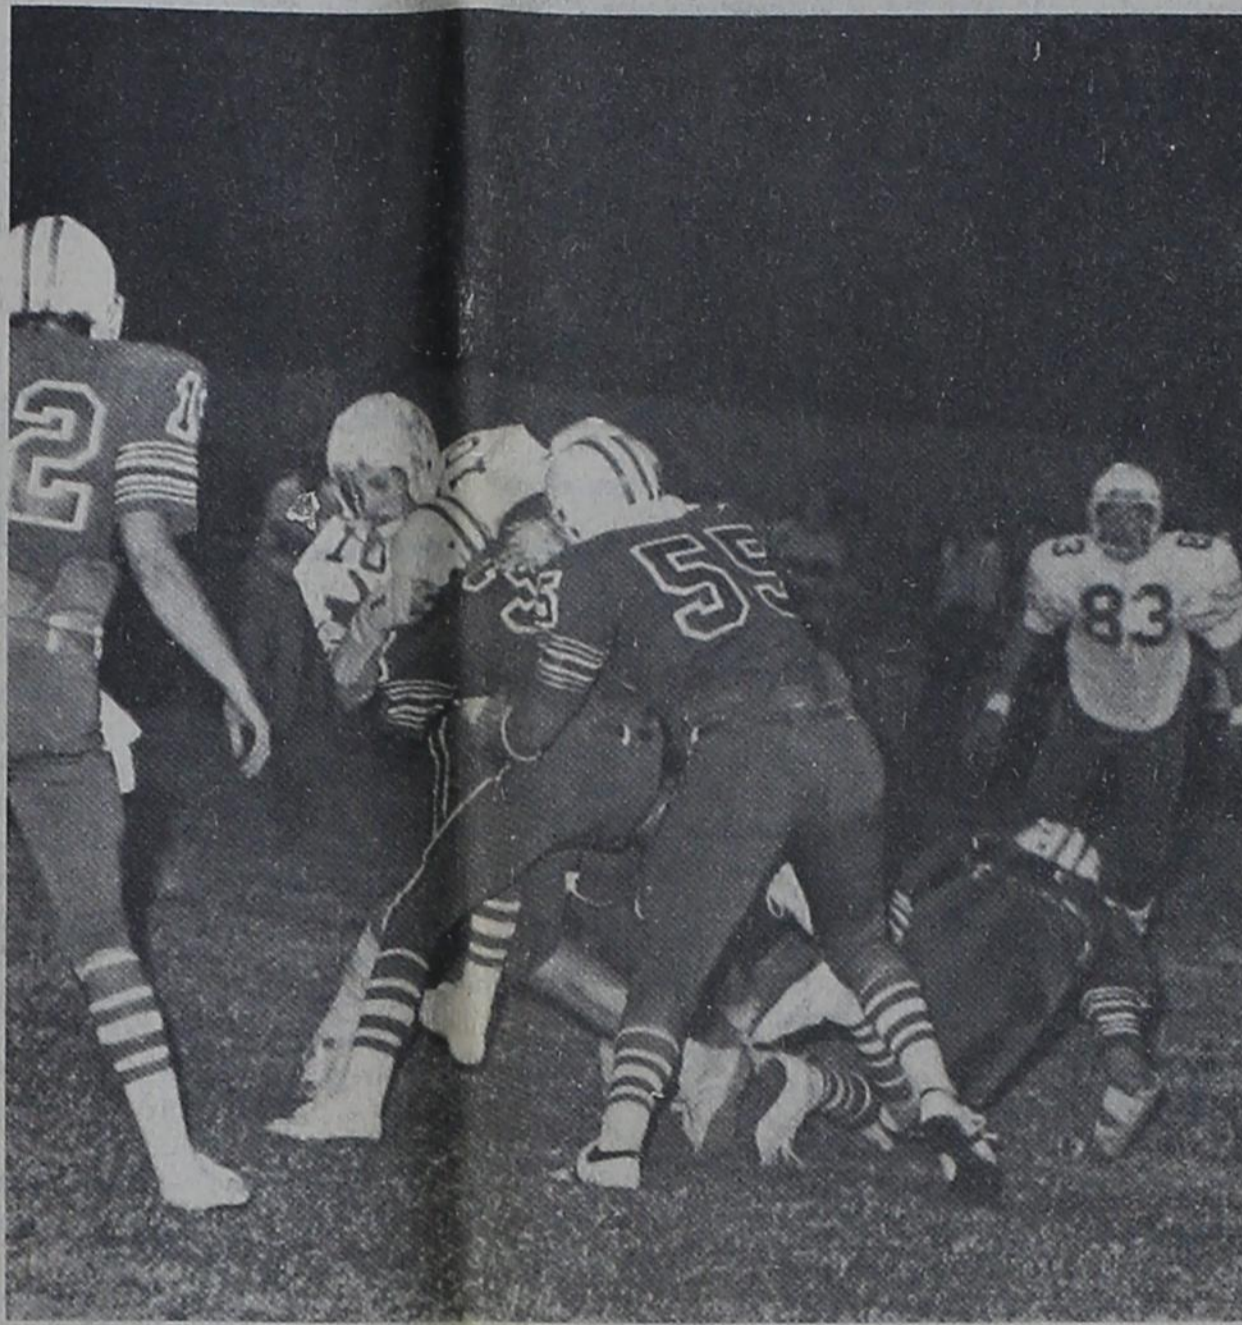

Munday Cotton Classing Office Now In Operation

The Munday Marketing Services Office opened for business October 15, 1979. This was approximately seven weeks earlier than the previous season, according to Garland Dye, in his first season as Officer-In-Charge. The cotton harvest moved into high gear in several areas of the territory. A considerable amount of defoliation has already been accomplished. Demand for early ginnings was good and reported prices ranged from 55.25 to 56.25 cents per pound for cotton with micronaire readings in the 35 to 49 range. The Munday office classes 1,847 samples during the first week of operation and quality was high.

Grade 31 accounted for 48 percent of the total with

Guns Taken From Goree Residence

Monday afternoon, October 22, around 6:00, Bob Cude of Goree noticed the key to his gun cabinet was in the keyhole. This was out of the ordinary as the key was never kept in the keyhole but for convenience, it was placed on top of the cabinet.

When looking inside, Mr. Cude discovered eight guns and one camera missing. Since the cabinet is not opened daily, it is difficult for Mr. Cude to pin point the time of theft.

Nothing else was missing nor was anything disturbed in the residence.

Knox County Deputy Pete Hatfield is investigating the incident.

Louder New Manager Of Dairy Queen

Richard Louder, formerly of Graham, was recently named new manager of the Dairy Queen in Munday, assuming his duties several days ago.

Mr. Louder, a native of Graham, has been associated with the Richeson Restaurants for some five years. He has been with the Airport Dairy Queen and Southside Dairy Queen in Graham, as well as the Dairy Queen in Olney.

Richard and his wife, the former Jama McFadden of Haskell, have established their home in Munday and state that they are happy to become a part of the community. He invites the patronage of people of this area for the local Dairy Queen.

When possible, turn your news into the Munday Courier by Monday of each week.

Halloween Carnival Planned October 30th

The 6th Annual Community Halloween Carnival will be held in the Elementary School Gym on Tuesday, October 30th, from 6:30 to 9:30 p.m.

Entertainment is planned for the whole family, from pre-schooler to parents and grandparents. Feature attractions include, pumpkin pendulum, ball toss, cake walk, fishing pond, dart game, country store, ring toss, animal walk and many others.

The variety show, a special feature, will star talented high school students. This promises to be very entertaining.

Pre-schoolers must be accompanied by a parent or guardian. Plan now for a night of entertainment with your child, or just for a good time for yourself.

The Halloween Carnival is sponsored by the Munday Chamber of Commerce and Munday Jaycees. Proceeds from the carnival will go toward community projects.

Bunton Buys Interest In Store at Knox City

Announcement was made early this week that Don Bunton, pharmacist at Smith Drug in Munday, has purchased an interest in the Jones Drug Store in Knox City.

The Bunton family will be moving to Knox City within the next few days and Don will become associated with Henry J. Jones in the Knox City store on November 1. They have purchased a home in Knox City and are in the process of selling their home east of Munday.

Mr. Bunton became associated with W. O. Smith in the local drug store in June, 1971, after graduating from the University of Texas school of pharmacy and receiving his license. Mrs. Bunton, a graduate of Midwestern University, is a fifth grade teacher in the Munday schools.

They have three children: Cheryl, a third grade student; Mike, four years of age, and Joe, two. The family has been very active in church and community affairs during their stay in Munday.

Mrs. Bunton, Linda, plans to complete her contract in the local schools, and Cheryl will finish this school term at Munday.

"It is with regret that we leave Munday," Mr. Bunton stated, "since we have been fortunate to gain so many wonderful friends in the community. Your friendship and christian love will always remain as pleasant memories, and it is our hope that we can continue many pleasant relations with you."

"The move is being made after much thought and prayer upon our part, and we believe this is an opportunity we could not afford to pass up."

The Buntons have been very active in the Church of Christ in Munday during the past eight years.

Publisher Fatally Burned

Bill Unsell, 48, co-publisher with Earl Gwinn of the Baylor County Banner in Seymour, died at 4 a.m. Tuesday in Baptist Burns Hospital in Oklahoma City, succumbing to burns received while fighting a rural fire near Red Springs last Saturday afternoon.

Unsell, a member of the Seymour Volunteer Fire Department for about 20 years, answered the fire call with two other firemen. He became ill while in the fire

truck, and at the insistence of his companions, got into the rear of the truck to stretch out.

He must have bounced out of the truck while going over the rough terrain," Earl Gwinn, co-publisher said, "before they reached the fire area. When his companions missed him, they back-tracked to aid him, but not until the fire advanced to him and fatally burned him."

A helicopter from Sheppard Air Force Base flew Unsell from the Seymour Hospital to the Oklahoma City hospital, where he died after a battle of several hours. He is the first Seymour volunteer fireman to lose his life in line of duty in the department's history.

Funeral services were pending Tuesday at Seymour Memorial Funeral Home.

A native of Baylor County, Unsell was born January 3, 1931. He completed high school there, and attended Tarleton State University at Stephenville for two years. He was employed part time at the Banner office during high school. He served his country in the Vietnam operations before returning to newspaper work for the Wichita Falls Record-News. He joined the staff of the

Knox 4-H Exhibits in State Fair

Congratulations to the Knox County 4-H'ers who attended the Dallas State Fair the week of October 15-19. Their many hours of hard work spent on trimming, grooming, and feeding their animals paid off.

Results were: Heavy weight Angus - Melissa Zeissel, 6th place; Light weight Angus - Stacia Carver, 4th place; Light weight Polled Hereford - Angie Partridge, 4th place; Medium Heavy weight Crossbred - Julie Partridge, 11th place.

Attending the State Fair from Knox County were Mr. and Mrs. Stanton Brown and Doug Brown; Mr. and Mrs. Fred Carver and Stacia Carver; Mr. Wink Partridge, Julie and Angie Partridge; Mr. Marvin Zeissel and Melissa Zeissel.

Reminder Of Turkey Shoot

The Mesquite Country Gun Club is reminding everyone of their second annual Turkey Shoot to be held at the Rhineland bridge beginning at 9:00 a.m., Saturday, October 27. The competition will continue until 6:00 p.m. Homemade chili-sandwiches and drinks will be sold. No alcoholic beverages will be permitted on the premises.

Baylor County Banner in 1951, and entered into partnership with O. C. Harrison and Earl Gwinn in 1969. Upon the death of Mr. Harrison in 1969, Unsell and Gwinn became partners in publishing the paper. He had been a member of the Seymour Lions Club for about 20 years.

Surviving him are his wife, of the home; and two sons, Randall Unsell of Fort Worth, and Todd Unsell of Dallas; other relatives and a host of friends.

Gas Company Applies For Service Charge, GCA Clause

Lone Star Gas Company's local manager, Leon Ivey, recently filed an application to change the service charges and revise the gas cost adjustment clause in Munday.

Ivey emphasized the base rate being charged for gas consumed by residential and commercial customers will not be increased under the proposal.

The new service charges being requested for Lone Star are \$20 for a reconnection; \$18 per hour for appliance service; \$20 per hour for air conditioning service; \$5 for a returned check; and \$40 to disconnect and reconnect a customer's yard line for repair.

"These charges are designed to recover Lone Star's expenses for these services," says Ivey. "A relatively small portion of Lone Star's customers require these special services, and these charges put the cost of the work on those who use the service."

The gas cost adjustment requested in the application would allow Lone Star to recover distribution opera-

ting expenses that increase with the city gate cost of gas.

The estimated total increase in annual revenue for Lone Star's Munday distribution system under the proposed change is \$5,814 or 2.54%.

Time Again To Fall Back One Hour

The time is here once again to "save" daylight as this is the desire of the "powers that be" in Washington.

So as to be in step with the rest of the country, set clocks back one hour before retiring Saturday night, October 27.

An extra hour of sleep can be in store for us or we can stay up an extra hour and still go to bed at the same time we usually do, whichever is our preference.

Don't forget to set your clocks and watches back one hour Saturday night, October 27, or you will find yourself "ahead of everyone" the next morning.

NEWSPAPERS ARE READ REGULARLY BY MOST TEXANS

More than 70% of all Texas adults are regular weekday newspaper readers and more than 78% are regular Sunday readers, according to a study conducted by Belden Associates of Dallas and sponsored by Texas Daily Newspaper Association.

Local Firm Burglarized

Between 5:30 Wednesday afternoon, when Miss McCarty closed McCarty Jewelry, and 10:00 the following morning, the business was burglarized and a substantial amount of jewelry taken.

Entrance was gained through the rear door, and the loss was found when she opened Thursday morning.

A complete inventory to determine the loss has not been made. Among items taken were an expensive ring set and several watches.

Storm Threat Is Exciting!

A tornado watch came over the TV airwaves Sunday. A peek outside didn't reveal a cloud anywhere!

Still the warning kept appearing, and clouds began appearing about dark-thirty! A little blob appeared on the weather map, revealing cloud formations in Knox County.

Finally, there was some lightning and thunder. A few drops of rain fell. The wind increased in velocity! Goodson Sellers showed .03 precip for Munday. M. H. Mansfield reported a "crab-grass shower" at his farm north of Knox City.

We'll hope for better things to come!

CITY COUNCIL TO APPLY FOR FUNDS

The City Council of the City of Munday will again apply for H. U. D. Federal Discretionary Funds. The application, each year, for the past four years, have failed to secure enough points to be funded. Elsewhere in the paper is a public notice given in conjunction with this year's requirements.

Now Joe's Philosophy Is

An Ignored Invitation Might Be Special Event

At one time or another, we may have received an invitation to a reunion, homecoming or some similar occasion and not really cared to make the effort to attend.

This might possibly have been Joe Lane's first thought when he received his invitation to attend a reunion of the 597 Bomb Squadron of the 397th Bomb group of which he was a crew member in World War II.

However, Joe decided to attend and had a most enjoyable time. When he was relating it to a representative of The Courier, we decided to pass it along.

Joe had thought about going before this year, but

because of sickness and first one thing and another, he had never quite made it. But after going, renewing old acquaintances and having such a pleasant association, he would admonish anyone receiving such an invitation to think twice about it, and then go!

Present at the reunion, held in Colorado Springs, Colo., were 276 former bomb group members, out of a possible 2,000. But of Joe's original crew of six, five were able to attend and the sixth man sent his regrets. The pilot and Joe were the ones from Texas, with two being from Illinois and two from California.

These six were with the

squadron when it originated in 1943 and served in England and France. After 65 combat missions, each crew member was sent back to the states for "R & R" (rest and rotation). Joe served until December 1944 at which time he completed the 65 missions.

Joe was the only one out of 276 present who still had in his possession his original flight jacket, and he had carried it to the reunion! One must bear in mind it is a "little worn" to say the least. The pilot's wife was present and their plane had been her namesake (Flame McGoon). So she preceded to don the jacket and model it for all to view. The pilot and his wife

had a special place in the heart of the crew. Even though they were no older in years than the other members, they made their home open to the crew and "the welcome sign" was always out.

Joe treated the entire group to Texas watermelon raised in Munday. They served it at a "banquet dinner" one night and everyone was served a wedge. Joe made sure that everyone knew where the melon was raised!

You won't live forever, so you might think of Joe Lane's experience the next time you receive "one of those invitations", and think of the good time you might be missing.

Commissioners Court Minutes for October

The Knox County Commissioners Court met in regular session on the 8th day of October, 1979 at 10:00 a.m., with all members being present: Billy J. Johnston, Commissioner, Precinct # 1; Bobby J. Roberson, Commissioner, Precinct # 2; Philip F. Homer, Commissioner, Precinct # 3; and Lee G. Patterson, Commissioner, Precinct # 4. The minutes of the previous meeting were read, and stood approved as read.

Motion was made by Bobby Roberson and seconded to direct the county attorney to correspond with W. T. Waggoner Estate and to advise them that the Court would consider any petition which the Estate wanted to file, with regard to closing a road in Precinct No. 2 and 3. All voted in favor of this motion.

Motion was made by Bobby Roberson and seconded by Philip Homer to authorize the county judge to sign an agreement with the State Department of Highways and Public Transportation for the placement of passive warning devices at county public railroad grade crossings. All voted in favor.

Motion was made by Billy Johnston, and seconded by Philip Homer to pay part-time Deputy Sheriff Van Green one hundred (\$100.00) per month and allow him 0.18 per mile for the actual miles he travels in his private automobile for his work as Knox county deputy sheriff. All voted in favor of this motion.

Motion was made by Philip Homer and seconded

by Lee Patterson to pay \$269.10 on a radio receiver for the Munday Ambulance Service. Motion carried.

Motion was made by Bobby Roberson and seconded by Billy Johnston to approve the county treasurer's quarterly report, all voted for this motion.

Motion was made by Lee Patterson and seconded by Billy Johnston, and by unanimous consent authorized J. T. Cypert, county treasurer to execute notes on behalf of Knox County to the First National Bank in Munday in such amounts and for such periods of time as he may deem appropriate. J. T. Cypert, Knox County treasurer is authorized to sign such notes on behalf of Knox County. All voted for this motion.

The Commissioners Court unanimously approved the contract with West Central Council of Governments on the Knox County nutrition program, aging service, which is dated September 24, 1979 - contract period from October 1, 1979 through September 30, 1980. A copy of contract no. AA3C-8048-23-05 is on file in the county judge's office.

Motion was made by Billy Johnston and seconded by Bobby Roberson to pay all bills approved by the court, with all voting in favor of this motion.

There being no further business at this time, upon motion by Bobby Roberson and seconded by Philip Homer the Court voted unanimously to adjourn this meeting.

Urbanczyk Participates In Pass, Punt and Kick Events

IN HASKELL, ABILENE AND DALLAS

Greg Urbanczyk is the twelve year old son of Mr. and Mrs. Buddy Urbanczyk and enjoys sports very much. Greg not only participates in school sponsored sports of all kinds, but when an extra challenge comes along he tries it too.

Such was the case when Greg, along with several other Munday youths entered the Pass, Punt, and Kick competition in Haskell on September 29. When the event ended Greg had won first in the twelve-year-old division.

Todd Thompson won first in the eleven-year-old group at Haskell, and even though Todd didn't place in Abilene we are proud of him and all the boys who entered the competition in Haskell. We

encourage them and look forward to them entering again next year.

When Greg performed in Abilene, his total feet in all three skills was 242. This put Greg on top again and earned him an opportunity to compete in Dallas on Saturday, October 20.

This, of course, was no small competition and represented, as they termed it at the event, "the top half of Texas". So even though Greg did not come out number one, he has nothing to "hang his head" about.

He had a pleasurable trip to Dallas and toured Texas Stadium. Greg is eligible to enter one more year so he will be able to assume the challenge one more time before he is past the age limit.

Mr. and Mrs. Charlie Haynie Sr. Have 60th Wedding Anniversary

Mr. and Mrs. Charlie Haynie Sr., lovingly called by so many "Mama and Daddy" Haynie, have on October 23, 1979, been married sixty years.

To celebrate this occasion, their children honored them with a family get-together at the Munday Community Center, Sunday, October 21. Mr. and Mrs. Haynie now reside in Munday Leisure Lodge, but were present to be with their children, grandchildren, and great-grandchildren.

Their children, all in attendance, are: Mr. and Mrs. Charlie Haynie Jr., Munday; Mr. and Mrs. A. E. (Peggy) Richmond, Bangs; Mr. and Mrs. Vernon (Beth) McCanlies, Benjamin; Mrs. Janie Segars, Ft. Worth; Mr. and Mrs. Lloyd Haynie,

Wichita Falls; Mr. and Mrs. Don Haynie and Mr. and Mrs. Gene Roland Haynie of Munday. They have eighteen grandchildren, sixteen of who were present, and ten great-grandchildren. The family was very fortunate in that of 50 members of the family, 47 were able to be with them on this special day. It is also interesting to note that none were living outside of Texas. Even though they are a fairly large family, they haven't "strayed."

Mr. and Mrs. Haynie began their married life in Munday in 1919, and have lived here since that time.

Mr. Haynie was a barber by profession, having begun his "trade" in Truscott in 1910 and moved to Munday

in September 1919. He semi-retired in 1959, helping his son, Gene, for several years before "quitting for good".

The Haynie family has long been a part of the Munday community, with three of their children continuing to reside in Munday, raising their family here also.

This day was special to "Mama and Daddy" Haynie and their family, and they are special to their many friends throughout the years. Munday is proud of this wonderful couple.

MR. AND MRS. RICHARD LOUDER

McFadden-Louder Wedding Vows Exchanged

Jama Lavern McFadden and James Richard Louder were united in marriage on

October 6, 1979, at seven o'clock in the evening in the home of the groom's parents in Graham. Rev. M. D. Martin performed the ceremony.

The bride is the daughter of Mr. and Mrs. James C. McFadden of Haskell and Doris King of Graham. The groom's parents are Mr. and Mrs. R. H. Louder of Graham.

Lisa Myers, of Haskell, was bridesmaid and Jeffrey Louder of Graham served as his brother's best man.

The bride was attired in a full white lace gown. The groom chose a dark blue suit. Decorations were in yellow and white.

A reception was planned in the Louder home, following the ceremony, with forty-one guests registering.

The couple will make their home in Munday, where Mr. Louder is manager of Dairy Queen.

WG's Meet

The WG's were entertained with a salad supper in the home of Pauline Morrow Saturday night, October 13. Gifts were exchanged and games of forty-two and Uno were played - all had a nice time.

Those present were Dorothy Putnam, Ruth Griffith, Allene Beaty, Alta Bowden, Vera Killian, Viola Cude, Juanita Massey, Elba McMahon and hostess, Pauline Morrow.

The September party was cancelled as a group of the club made a trip to Wichita Falls to hear the Statler Brothers and Barbara Mandrell which was really a good program.

Farmers Need to Plan Now To Prevent Wind Erosion

To hold wind erosion to a minimum, planning has to start with a cropping system that meets the needs of individual fields.

Plans are being made, or have been made, as to planting intentions for the 1980 crop year by land owners and operators in Knox County.

According to Pete Elliston of the Soil Conservation Service Office, high residue crops such as wheat or grain sorghum should be included

in each crop rotation program.

Elliston stated that high residue crops are needed for many reasons, but are a must in the prevention of wind erosion and nasty dust storms.

As pointed out the growing of high residue crops is only the beginning in wind erosion control. In the absence of growing crops or mulches during the primary wind erosion period, November through May, maintaining residue from previous crops on the soil surface will reduce or eliminate wind erosion from a given area. The more sandy soils will require more residue left on the surface to provide protection.

As a guide to the amount

of residue left on the surface to provide protection follows:

The more sandy soils of Knox County requires about all the residue produced from an 1800 pound milo crop as the clay soils only require about 40% of this amount. As long as these residues can be maintained on the surface the better, up to and seeding the next crop into the previous years residue. As a minimum, fields that will be spring-seeded these amounts of residue should be left until about March 15th.

Anyone desiring assistance on cropping systems, residue management or other conservation problems should contact the Soil Conservation Service in Knox County.

In Touch

GOD GIVES US A SECOND CHANCE

One morning a farmer told his wife he was going out to plow the south forty. The tractor needed oil, so he went to the shop to get some. On the way, he noticed the pigs weren't fed. So he proceeded to the corncrib. The feed sacks in the corncrib reminded him that his potatoes were sprouting. On the way to the potato pit, he passed the woodpile and remembers that his wife wanted fire wood. By the time he had picked up a few sticks, an ailing chicken passed by. He dropped the wood and reached for the chicken. When evening arrived, the frustrated farmer had not even oiled the tractor, let alone plowed the field!

How many times have you intended to do something important but were distracted and never accomplished the task?

"Then the Word of the Lord came to Jonah the second time ..." (Jonah 3:1). In some ways, this is the most startling truth in the book of Jonah. God gave the prophet another chance.

Diliberately, conscientiously and stubbornly, Jonah had disobeyed God. He had run from Him in a fit of rebellion, yet God came to the prophet a second time and allowed him to carry out His ministry.

On News Years Day of 1929, Georgia Tech played University of California in the Rose Bowl. In that game, a man named Roy Riegels recovered a fumble for California. Somehow, he became confused and started running in the wrong direction. One of his teammates, Benny Lom, overtook and downed him 65 yards away, just before he scored for the opposing team. When California attempted to punt, Tech blocked the kick and scored a safety which was the ultimate margin of victory.

That strange play came in the first half and every one who was watching the game was asking the same question: "What will coach Nibbo Price do with Roy Riegels in the second half?" The men filed off the field and went to the dressing room. They sat down on the benches and on the floor, all but Riegels. He put his blanket around his shoulders, sat down in a corner, put his face in his hands, and cried like a baby.

If you have played football, you know that a coach usually has a great deal to say to his team during the half time. No doubt he was trying to decide what to do with Riegels. Then the time-keeper came in and announced that there were three minutes before playing time. Coach Price looked at the team and said simply, "Men, the same team that played the first half will start the second".

The players got up and started out, all but Riegels. He did not budge. The coach looked back and called him again; still he didn't move. Coach Price went over to where Riegels sat and said, "Roy, didn't you hear me? The same team that played the first half will start the second."

Then Roy Riegels looked up and his cheeks were wet with a strong man's tears. "Coach", he said, "I have ruined you. I have ruined the University of California. I've ruined myself. I can't face that crowd in the stadium."

Then Coach Price reached out and put his hand on Riegels shoulder and said to him: "Roy, get up and go on back; the game is only half over." And Roy Riegels went back. Those Tech men will tell you that they have never seen a man play football as Roy Riegels played that second half.

When I read that story, deep inside I said, "What a coach!" When I read the story of Jonah and the stories of thousand lives like him, I say, "What a God!" We take the ball and run in the wrong direction. We stumble and fall and many times become distracted and never do what we intended to do. We become ashamed of ourselves, so ashamed that we never want to try again. But, God comes to us and bends over us in the person of His Son and says, "Get up and go on back; the game is only half over." That is the gospel of the grace of God. It is the gospel of a second chance, of a third chance, of the hundredth chance.

Family Farm Vital To All People Of Nation

EDITOR'S NOTE: The following item was turned in to The Courier with the request that it be reprinted. Because of its nature, we are having it reproduced for whatever value it might have for our readers:

HOW DO YA' KEEP 'EM DOWN ON THE FARM?
The perpetuation of the family farm has been a goal of wise policy makers for as long as it has been threatened. Now that the threat to its end has become an impending crisis, certain policy makers are trying even harder to save it. Voters in Texas have the opportunity November 6 to join the efforts to save the family farm by voting "yes" on referendum issue 3.

A family farm is generally defined as an operation managed and worked principally by the members, relatives, or member-partners of a family. Saving this form of agriculture makes sense for a multitude of reasons.

First, saving the family farm is good for consumers. More farmers means more original sellers, more competition and more productivity. The American system of family agriculture provides a greater diversity of commodities at a cheaper price versus average consumer income than any other nation in the world. That consumers often pay more for processing, packaging and advertising individually on a retail item than the total farm cost of that item is a salute to the efficiency of the family farm system.

When the family farm prospers, rural trade prospers from direct purchases by farmers. Dollars in turn go to the cities where millions of wholesalers, manufacturers, workers and bankers are either totally or partially supported by agriculture. Beyond rural and urban trade, family farmers provide the cornerstone of America's export trade by channeling more than one out of every four acres of crop production into international markets.

Keeping the family farm is critical to the nation's future. Not only do farmers provide natural resources of food and fiber which generate new dollars that turn over and over in the economy. They also protect

those God given resources for posterity. Popes, bishops and rabbis have repeatedly underlined the direct connection between family agriculture and stewardship of the land. Family farmers live on or near their land, take pride in conservation, and often pass a better piece of property on to the next generation.

The family farm, however, is on the verge of extinction because it is extremely difficult ... and often impossible ... for the next

generation to keep it alive. Huge investment firms, foreign individuals and corporations, development consortiums, and suburban sprawl are staking claims on finite land resources. Spiraling land prices are preventing ownership by farmers, especially young farmers. Tenancy is increasing along with the number of absentee landlords.

Last spring, the 66th Texas Legislature realized that there would be no more family farms unless there were new family farmers who owned and worked their own land. Lawmakers overwhelmingly passed the Family Farm and Ranch

Security Act. The law would aid entry-level farmers obtain land by providing lenders a state guarantee on loans made to qualified persons.

To initiate the program the state must issue ten million dollars in bonds to establish foundation funding for the program. On November 6, Texas voters must approve this state financing of the Family Farm and Ranch Security Act.

In 1935 the number of farms in America peaked at 6.8 million. Today, the number of family farms in the nation is fewer than two million. Less than a third of our farms remain. Please do

your part to keep America's farms in the family. Vote "yes" on proposition 3 November 6.

ATTENTION JUNIOR GIRL SCOUTS

All girls in the fourth, fifth and sixth grades are invited to become a Junior Girl Scout. There presently are no leaders for the troop but girls may register. This enables the girls to work on badges and participate in council activities. Girls interested in doing so many contact Gail Bordovsky to pay their registration fee of \$3.00.

Seniors Plan Spook House

There will no doubt be ghosts and witches aplenty in Munday, Monday, October 29 and Thursday, November 1. These are the two dates the senior class have set for a spook house.

They will have it in the CB City building across west from Stubbs Exxon station. Admission will be seventy-cents, and it will be open from 7:00 p.m. to 11:00 p.m.

So store up your screams and go to the spook house. You will have fun and help the senior class too.

Reddy's tips on electric safety

- When disconnecting an appliance, don't pull cord; pull plug.
- Be sure each appliance has the type of cord suited to the job it does - heavy duty extension cords for power tools; moisture resistant cords and plugs for outdoor equipment.

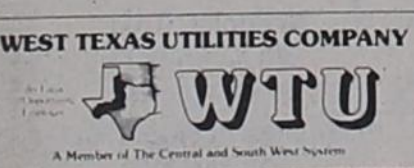

- Have frayed cords replaced promptly.
- Water conducts electricity; never handle electric appliances or switches with wet hands or when standing on a wet surface.

- If an appliance has a separate cord, attach cord to appliance before plugging it into an outlet; disconnect cord from outlet before disconnecting it from appliance. Store cords away from cutlery, heat and dampness.

- Don't place cords where they'll be tripped over or be subject to wear (under a well-travelled rug, through doorways).
- Teach children not to play with or around electric sockets or equipment.
- Don't use an electric lawn mower or hedge clippers when barefoot, or on wet grass or hedges.

Remember, Reddy supplies the electricity - only you can use it safely!

Water Authority Minutes

SEPTEMBER MINUTES

The Board of Directors of North Central Texas Municipal Water Authority met Tuesday, September 11, 1979 at 8:00 p.m. in the Water Authority office in Munday for their regular monthly meeting.

Directors present were R. C. Couch, Jr., Thomas W. Watson, Willie B. Neighbours, Joe Clonts, Leon Burkham, and Lee Bruce.

Directors Absent were Clint Norman and Jack Beatty.

Others present were Royce Adkins and Pete Beecher.

Mr. Couch called the meeting to order and asked for a reading of minutes from the previous meeting. There being no additions or corrections the minutes stood approved as read.

The Board then reviewed the list of monthly bills and approval was given that all bills be paid as listed.

Discussion then turned to the budget for the year ending September 30th. Of the estimated budgeted amount for the year at 423,005.00 it appeared the cost would be approximately \$380,000.00, or approximately \$43,005.00 under the projection.

Figures being compiled for the budget beginning the fiscal year on October 1. The Budget committee was asked to

meet on September 25th to review the budget for the ensuing year with final approval at the next regular Board meeting.

In the Board meeting of August 14th the subject of choosing a County appraiser was discussed. This Water Authority being in two counties, the choice was optional of Knox or Haskell. The Board voted for a Knox County appraiser. Mr. Couch mentioned, as the values in each county were about equal, a Haskell County appraiser should be used for that county. He entertained the motion the decision of the prior meeting be rescinded, have the attorney give an opinion, ad a decision to be made at a later date. Mr. Watson made this motion. A second was by Mr. Neighbours and voting For: Couch, Watson, Neighbours. Against: B Burkham, Clonts, Bruce. Motion failed.

There being no further business before the Board, adjournment was at 10:27 p.m.

OCTOBER MINUTES

The Board of Directors of North Central Texas Municipal Water Authority met Tuesday, October 9, 1979, at 8:00 p.m. in the Water

Authority Office in Munday for their regular monthly meeting.

Directors present were R. C. Couch, Jr., Tom Watson, Willie B. Neighbours, Jack Beatty, Clint Norman, Lee Bruce, Leon Burkham.

Directors absent were Joe Clonts.

Others present were Charles Chapman, Billy Harris, and Pete Beecher.

Mr. Couch called the meeting to order and asked for reading of minutes from the previous meeting. Following the reading, Mr. Couch said there was a question to the minutes as stated. The motion to rescind the action of the Board in August, for this Authority enjoining with the Knox County Appraisal Board was defeated, but it was the consensus of the Board to have the attorney give an opinion of facts concerning the two county issue and after this correction was made the minutes would stand approved as read.

The list of monthly bills was then reviewed by the Board and approval was given the bills be paid.

The Board then reviewed the budget for the ensuing year beginning October 1, 1979 that had been approved by the Budget Committee on September 25th. Following the review of the budget, Mr. Norman moved the budget be approved. A second was by Mr. Burkham and the Board vote was unanimous in favor.

The City of Benjamin had discussed the potentials of purchasing water from the Authority with Pete Beecher, the General Manager, some time ago. They requested an amount of water to mix with their existing water supply to lower excessive nitrates and other minerals to an acceptable drinking water standard. Beecher had not given consideration to sale of additional water until existing facilities of the Authority could be proven to meet the demand. A request for

Board opinion was made. Instruction was given to go ahead with negotiations of the amount the town would need, get an engineering opinion on the facilities, etc., but not make any commitment until the studies had been completed.

The Authority attorney then gave an opinion on the issue concerning the County Tax Appraisal Board where properties such as the Authority was in more than one county. The opinion, in its entirety being attached and made a part of the minutes, stated in part - "It is our opinion that the North Central Texas Municipal Water Authority does not have this choice but must participate in both the Knox and Haskell Counties appraisal districts." Following the attorney opinion, Mr. Neighbours moved the resolution of the Board in the August meeting be rescinded and the Knox County Appraisal Board make the property valuation in Knox County and the Haskell County Appraisal Board do property valuation in Haskell County. Mr. Beatty seconded the motion and the motion carried.

There being no further business before the Board, adjournment was at 10:12 p.m.

LEARNING ABOUT HEALTH

By ALMA SOSA
Health classes are taught by Coach Diggs the first two periods each day. The classes are now on Chapter 5, which focuses on nutrition. The students in these classes work with the vocabulary words, the questions at the end of the chapters, and on Fridays, each student is responsible for reporting on some disease, cure, new type of operation, or other health-related subject. I hope you students learn a lot!!!

SYSTEM 80
By NORMA VASQUEZ
Every year there are some students from high school that help teach the younger students in elementary. This is a type of program which will increase their knowledge in reading and spelling. It also helps them with their sounds, vowels, consonants, and letters.

The students from high school that are participating in this program are Vickie Toliver, Norma Vasquez, Jeff Decker, Sheryl Elliott, Todd Meers, Ralph Hernandez, Jessie Vela, Shanna Bryan, and Joy Shawver. There are two junior high students, Carol Pennartz and Mary Jane Kuehler. This is a good way for the study hall students to spend their time. It will be a worthwhile experience for the future!

EXTRA! EXTRA! ANNUALS ON SALE!
By PHILDA SLOAN
Annuals will go on sale November 5, 1979. They will cost \$9.50. However, if you want to pay only half now, and the balance later, the cost will be \$10.50.

There will be three special days - on November fifth we will have a "Fifties Day," so everyone will need to dress as they did in the fifties. On November 7th there will be "Formal dress-up day," with boys wearing suits and ties, and the girls wearing their Sunday dresses. This is also "polite day." The guys are asked to open doors for the girls, pull their chairs out for them in the lunchroom, and everyone should say, "Yes, Ma'am" or "No, Ma'am", and "Yes, Sir" or "No, Sir." Everyone should be on his best behavior. On November 9th we will observe "Western Day," and the pep rally will be a western one. Be sure to wear your cowboy boots, hats, chaps, guns, and anything else western.

There will be judges sneaking around judging on each of these days. Each day there will be a girl and boy winner, and at the end of the week all six winners' names will be put into a hat and two names will be drawn. These two winners will be given a free annual.

On November 7th there will be an annual staff member in the office from 10:30 - 12:00 to sell annuals to the people who do not have children in school and still want to buy an annual. Everyone make preparation for these three days - wear your best (or most colorful) duds, and may the best ones win!!!

LUNCHROOM MENU

meat balls, mixed vegetables, cole slaw, corn bread and cookies.

Thursday - Turkey and dressing, cranberry sauce, creamed potatoes, fruit salad and milk.
Friday - Corn dogs, French fries, corn, peaches and milk.

MUNDAY MOGUL BAND IS VERY BUSY NOW

The members of the "Big Purple Cloud" are really going strong this time of year.

Besides their regular practice sessions and performing at the football games, they are preparing for UIL in Wichita Falls on November 6. On Monday night, October 22, they journeyed to Wichita Falls for a "dress rehearsal" for the UIL meet. This is time well spent because they are able to march on the artificial turf and "get the feel of the field" on which they will be competing.

With judges at this session too, they get a critique to benefit them plus a video and audio tape of their performance to bring home and view so they can start working on their problem areas.

Saturday, October 27, they will have one more opportunity to march with other bands and improve on their show, when Munday holds their annual marching contest. The purpose of this contest is also to aid them in doing a better performance when the "main event" comes November 6.

GOD'S ANGELS

By CAROLYN COLLIER
Last Wednesday, during activity period, twelve girls decided to renew their singing group. This group, "God's Angels," is sponsored by Mrs. Frazier. The officers are: president, Bernice Shields; vice-president, Helen Spells; secretary, Connie Dockins; treasurer, Cynthia Johnson; and reporter, Carolyn Collier. The group began in 1977, and three of that group, Carolyn, Bernice, and Helen were joined in 1978 by Cynthia, Elaine Jones, Vickie Shields, and Ruth Ann Murray. The new members are Tina Taylor, Gwen Jones, Doris Spells, and Connie.

Next Wednesday, the group will be going to the Leisure Lodge, where they will sing two songs, "Take the Lord Along With You," and "I Love to Praise Him."

FTA MEETING

By MONA CHOUCAIR
The FTA chapter met during activity period in school this past week. The chapter had many items to discuss. The first was the "barbecue supper" it is sponsoring on October 26, to boost the game between Munday and Crowell. Another topic discussed was that of working toward a project for this year. Many ideas were talked about, and the members are looking forward to having a great project.

The District convention delegates running for an office are working on speeches and campaigns for the district meeting.

The FTA recently helped with the bloodmobile by getting donors and distributing posters. The chapter is happy to have helped in this type of project, and is looking forward to such projects in the future.

POLICE CHIEF SAFFEL VISITS SCHOOL

If you thought you saw a familiar face in an unfamiliar place last Thursday, you weren't seeing things! Yes, it was Police Chief Gerald Saffel, and he had come to school to give Miss Wilde a break from her business law class. They have been studying "Crime and Torts" and invited Chief Saffel to speak to them.

He opened by clearing up a puzzle on reserve officers. He pointed out there can be only seven reserve officers in this area and they must be

nineteen years of age or older and have special requirements. There is one officer at this time, but he can not give tickets.

He then answered questions prepared for him by students. Some of the questions were: "What is the speed limit on unmarked roads and unpaved roads?"; "Who sets the amount of fines?"; and "What is the fine amount for speeding, littering and having marijuana in possession?"

Chief Saffel also told of incidents of people attempting to out-smart the police. He stated that he can issue citations when he is in his family car or any other vehicle. He continued, giving information on crime punishment, paroles and prison sentences.

Everyone seemed to have learned something they had not known before and really enjoyed having Mr. Saffel. Most of all they got a break from Miss Wilde!

7TH GRADE VS O'BRIEN

The 7th Grade Braves showed much improvement against O'Brien Thursday. The credit goes to an entire team effort. The Defensive unit kept O'Brien from scoring and the Offensive unit moved the ball against the Bulldogs very well. "The Offensive line really controlled the line of scrimmage."

We were proud of the execution and the effort of our young men.

8TH GRADE VS KNOX CITY

We had a good ball game. We didn't wait until the second half to start playing. Knox City beat us over there the first game of the year, but we have kept improving every week and we beat them 16-6. It was a good team effort.

COACH THANNART COMMENTS ON JV

The Munday junior varsity lost last week to Knox City 18-0 which makes Munday JV 4-2 for the season.

This week the JV take on Crowell Wildcats at Crowell. Early in the year we were able to beat Crowell 14-6.

We expect another tough ball game this week. If we don't improve some of our mistakes it could be a long night at Crowell.

The young Moguls had some mental mistakes the first half against Knox City, but ended up playing better football the second half.

COMMENTS FROM COACH RODGERS

The game with Knox City was a physical contest with a lot of excitement. We were real pleased with the players' effort and felt that we were always in the game.

Munday offense had one of their best nights so far in the season.

The 'Book' Report

By SHARON BOOK

FOLLOW HALLOWEEN COSTUME SAFETY

This Halloween, check safety features for children's trick or treating costumes, advises Sharon Book, Asst. County Extension Agent.

She suggests these Halloween costume safety features:

(1) Consider using make-up to decorate the face rather than wearing a mask which may block vision. Apply cold cream before putting on make-up for easy removal.

(2) Sew or glue reflective tape to both front and back of the costume. Be creative and incorporate the tape into the costume design.

(3) When possible, choose light-colored costumes - they will be more visible to motorists.

(4) Check labels or packaging on bought costumes for flame-retardant finishes. Children may be exposed to many direct sources of fire such as lighted pumpkins, colorful candles or open fires for toasting marshmallows.

Goree Man Receives Patent On Invention

William C. (Bill) Thompson of Goree, has received a patent, No. 4,138,963, issued on February 13, 1979, on the steering mechanism for a boat.

The mechanism can be attached to any boat hull if built to scale for the correct size of boat. Mr. Thompson's hull has a two feet radius, which serves him nicely.

He took plans to Norman Anderson, showed him what he wanted, and Mr. Anderson then built the fiberglass hull to Mr. Thompson's specifications.

Born with only one arm from the elbow down, Mr. Thompson has always, of necessity, had to convert obstacles into aids for himself.

This steering mechanism was that sort of invention. Weary of depending on "fishing buddies" to go along with him to navigate the fishing boat, Mr. Thompson set out to construct a steering assembly he could pilot himself.

Benjamin Parents Teachers Organization Say Thanks

The bingo committee of the Benjamin Parent Teachers Organization thank each of the sponsors for their contributions. The proceeds of the games will go toward the purchase of a new curtain for the school auditorium.

From Rhineland: Zeissel Bros. Fertilizer and Seed, Mike Birkenfeld Exxon, Fetsch State Farm Ins., Rhineland Co-Op Gin and H. L. Edrington have contributed.

Benjamin sponsors at this time are: Bud Conner

After years of perfecting, he was ready! He has enjoyed it for his own use, beyond words. But then, he decided that someone else might be interested in his project and applied for a patent.

After approximately two years of effort and expense on Mr. Thompson's part, the patent was issued.

He is, of course, pleased with his accomplishment and a Texas manufacturer has the plans on his drawing board. A patent broker in New York also has the plans and will send them to manufacturers in the east. The equipment will be used on rental boats and not put on the market for retail purchase.

Mr. Thompson is certainly interested in what comes about from his patent; he would not kid anyone about the fact, but he would not kid anyone about another fact - mainly he wants to fish and use it for his own pleasure!

T. C. Beason Buried Saturday

T. C. Beason, 79, O'Brien, died at 3:05 a.m. Friday in Knox County Hospital after a brief illness.

He was born October 6, 1900 in Alabama. He moved to Knox County in 1918 and married Myrtle Redwine December 31, 1931 in Haskell. He was a member of the First Baptist Church, Knox City.

Funeral services were held at 10:00 a.m. Saturday at the First Baptist Church with the pastor, Rev. John Gillespie, officiating. Burial was in Knox City Cemetery directed by Smith Funeral Home.

Serving as pallbearers were Guy Marshall, Weldon Walling, Kenneth Beason, Joel Bevel, Tony McWhorter and Clyde Voss.

He is survived by his wife; a son, Leo of Knox City; a brother, Tolbert of Rochester; three sisters, Delma Williamson and Ernil Bevel, both of Haskell and Aubrey Lewis of Arlington; two grandchildren; and two great-grandchildren.

Bullock Says Raise In Sales Tax Is 'Greed'

State Comptroller Bob Bullock Friday labeled a suggestion to raise the sales tax to funnel money into city treasuries as a wild hair and an open invitation to an income tax.

In a statement released to a House Ways and Means Subcommittee and read by Assistant Comptroller Walt Lilie, Bullock said "increasing the one percent city sales tax is nothing short of greed."

Bullock said the Governor's Mayors Advisory Committee is advocating a ridiculous proposal.

He said the 20 mayors who supported the idea and put it forward this week should first have their heads examined and then be given the "bad idea of the year" award.

Bullock warned that "opening the barn door to a mass raid on the sale tax will lead to an income tax, something I am convinced Texans want to avoid at all costs."

Bullock pointed out that Texas would be on the "same sad slide as New York City" with an eight percent sales tax if Texans had to pay a four percent state, three percent city and one percent transit tax as advocated by these mayors.

News for The Courier needs to be in no later than Tuesday noon of each week.

ASPERMONT WHIPS CROWELL WILDCATS

A halfback pass from John Godfrey to Gerry McDowell in the second quarter gave the Aspermont Hornets a 9-0 victory over Crowell's Wildcats Friday night. A field goal in the first period gave Aspermont an earlier 3-0 lead.

Aspermont had 12 first downs to nine for Crowell. The Hornets had 155 yards rushing to 150 for Crowell. In passing, Aspermont had 73 yards to minus six for the Wildcats.

Crowell is 0-6 for the season, while the Hornets are 3-3. This was a District 7-A contest.

BENJAMIN TAKES VICTORY

Mark Oxford, quarterback for the Benjamin Mustangs scored three touchdowns to lead his team to a 52-20 victory over Harrold last Friday night in Benjamin.

Also scoring for the Mustangs were Jimmy Redwine, two Tds and 10 extra points; Craig Hertel, one touchdown; and Billy Carl Benson, one.

Scoring for the Hornets were Tony O'Mayer, two, and Mark Rainwater, one and two extra points.

BRYSON DEFEATS WEINERT TEAM

Bryson took over the District 5, six-man lead Saturday night with a 48-19 win over the Weinert team, with Bryson being the host team.

Jerry Brooks scored 22 points, while rushing for 136 yards on 16 carries. Bailey had 16 points and 108 yards, while Mike Brooks gained 73 yards.

Bryson ran its record to 4-2 for the season and 3-0 in district. Weinert also has a 4-2 season record, but is now second place in district with 2-1.

OTHER REPORTS

Elsewhere in the area, Haskell and Goree were both idle, and Quanah's Indians defeated the Paducah Dragons by a score of 56 to 6.

Mr. and Mrs. Aaron Edgar were business visitors in Wichita Falls last Thursday.

Facts on Knox County Historical Commission

EDITORS NOTE: The Knox County Historical Commission is more than a "social club". These members are appointed by our county judge and county commissioners and are commissioned for a purpose. It is our intention, with this article, to better inform the residents of Knox County of this purpose.

The Texas Historical Commission requests that each county judge and commissioners' court appoint a county historical preservation commission in the odd-numbered years. The term of each member is two years, and a member may be appointed to succeed himself. Actually, the commission is an arm of the government on which members serve without pay but may obtain some operational funds through application to the judge and commissioners' court.

THE KNOX COUNTY HISTORY, originally published in 1966, was the work of the 1963 commission, chaired by Mrs. C. C. Hoge, of Knox City. The book was indexed and reprinted in 1978 by the Truscott Historical Preservation Association, and copies are still available. The 1963 commission was also responsible for various markers and medallions placed throughout the county, for the marking of veteran's graves, and for establishing the showcase museum in the courthouse halls in Benjamin. Our county owes a great deal to that dedicated group.

The present Knox County Historical Commission was appointed in January of 1979 by County Judge Homer T. Melton and the Commis-

sioner's Court. The state requires a minimum of seven members, and fourteen were appointed. Some of the original appointees were unable to serve, and others have been nominated in their places. The present commission, with one vacancy still existing, consists of these members: Lucille Moorhouse and Bobby Hudson, Benjamin; Corinne New, Gilliland; Gretchen Colehour, Sudia Cash and Ulric Lea, Knox City; Dovie Partridge and Wynette Moore, Munday; Leo Fetsch, Rhineland; Clara Brown and Virginia Casey (Chairman), Truscott; and Frances Coffman and Glenn Feemster, Vera.

This Commission meets regularly on the third Saturday of each month at 2:30 p.m. in the Assembly Room of the County Courthouse. Most of the meetings to date have been spent in cleaning the museum showcases in the courthouse and cataloging their contents. Different high schools will clean the trophy cases and polish the trophies in the near future. The Goree High School typing class will type cards to replace the present

paper identification tags.

The purpose of any historical preservation commission is explained in the name - the preservation of anything of historical or archaeological value. The commission's long-range goal is to establish and maintain a county museum, and members will visit as many museums as possible throughout their two years of service. A recent visit to the Crowell Fire-Hall Museum and the McAdams Ranch Museum was beneficial and enjoyable. Planning a Knox County Cen-

tenial celebration for 1986 is a sooner-to-be-realized goal.

All meetings are open to the public, and visitors are encouraged to attend. If you know of some building or site which should be preserved, please notify the commission. Also, as soon as storage space is available, objects of historical interest will be received for the museum. Saturday, October 20, at 2:30 p.m. the next meeting will be held in the courthouse Assembly Room.

Mr. and Mrs. Levi Bowden have returned home from a two weeks' visit in the New England states. They visited Rev. and Mrs. Robert H. Lloyd in Connecticut, and on their return home spent some time with their son and family, Mr. and Mrs. Lee Bowden in Broken Arrow, Okla.

Mr. and Mrs. Jim Butin, Kelli, Jenny and Mrs. LaVerna Newberry all of Oklahoma City visited with Mrs. Marguerite King and Patsy over the weekend.

VA ANNOUNCES CHANGE IN TOLL-FREE NUMBER

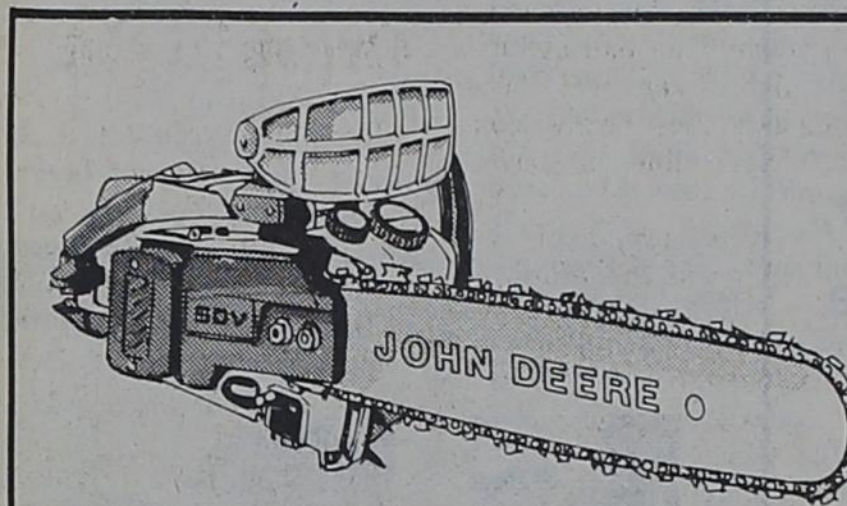

Jack Coker, Director of the Veterans Administration Regional Office, Waco, announces a change in the toll-free telephone number for the Waco Regional Office, effective November 1, 1979. The new telephone number is: 1-800-792-3271. Veterans and their beneficiaries can dial this number at no cost for information and assistance on a wide range of veterans' benefits.

Chain Saws

Whatever your woodcutting needs, we have a John Deere Chain Saw sized right for you. Five models — 30 to 70 cc's — to choose from. Each has a sprocket-nose guidebar, 12 to 27 inches long... an automatic oiler... and counterbalanced crankshaft. On all models, except the 30, you also get an isolated engine for more operating comfort, and an interlock lever that must be held down before the engine will accelerate.

TEXAS TALK

No need for OPEC or the oil companies. That's the condition the young farmer in Minnesota who built and operates his own energy plant wants to be in. Alan Zeithamer's homemade distilling plant (built partially on the advice of a former moonshiner) has a production capacity of 750 gallons a day of 160 proof alcohol. Alan must use some 300 bushels of corn a day ... corn produced on his own farm. He, in turn, uses the alcohol to power all his farm equipment, heat his home and may use it to produce electricity. Rather than making a gasohol mixture, Alan burns the alcohol straight. He says it burns cooler, cleaner and more efficiently than petroleum as well as simplifying the distilling process since some water can remain in the alcohol without impairing performance. Since he can use the left-over corn slush as feed for his cattle, he figures the cost at something under fifty cents a gallon. At that rate, he says he should have his investment back in less than three years.
