Number 20.2

Inspector Makes Recommendation On Route Changes

A postal inspector was here on Tuesday and conferred with Postmaster J. B. Reneau and others concerning the filling of the vacancy of carrier on route one out of the Munday office, caused by the removal of Elmer H. Clark from the service.

The inspector went to Goree and conferred with the carriers there and his recommendation to the department was that W. D. Helms of Goree, who has served as carrier of route two out of that office be transferred here as carrier of route 2, Jesse Burnison, carrier on this route having been recommended by him for transfer to route one, which is a consolidation of the routes which were formerly routes one and two. Mr. Burnison is a king for the postage in amount of the extra mileage and correspondingly larger pay.

However, the inspector's recommendation differs somewhat to the recommendation made by Postmaster Reneau, who has recommended that Arzell Speke, who has for a number of years held a clerkship in the local office be transferred to the rural carrier service and be assigned to route 2, fill the vacancy caused by the transfer of Jesse Burnison to route 1.

With the two recommendations in the department will choose between them and their decision will likely be known within a few days.

In recommending the transfer of Mr. Speke to the rural service Mr. Reneau was promoted by the knowledge that the local will revert to an office of the third class at the conclusion of the present year and this would force Mr. Speke out of the service unless a vacancy should occur in another office to which he would be eligible for transfer.

Regardless of the action of the department the positions of both routes out of Munday may rest assured that they will have a courteous carrier in either event.

RHINELAND HAPPENINGS

The schools have dismissed for all weeks and the children are all busy helping their parents gather the cotton crop.

Mr. and Mrs. Louis Herring, Mr. and Mrs. Frank Decker, and Herman, Walter and Sophie Herring returned last week from their visit to New Mexico.

Mr. and Mrs. John Decker and family, Mr. and Mrs. Joe Blaschke and family, and Mr. and Mrs. Alois Urbanzyk and family, returned from White Deer, Texas, where they attended a wedding.

Miss Mary Ruddy left Sunday for her home in Wichita Falls where she will spend her time until school resumes.

Messrs. Leo and Victor Diersing motored to Wichita Falls last Sunday. Mr. Leo Diersing continued the trip to Subisco, Arkansas, where he will attend school.

Miss Frances Bruckner left Sunday for Wichita Falls where she will spend a few days visiting her sister.

Negro Woman Is Badly Cut When She Fights Man

When colored folks disagree they disagree, Charley and Bobbie, who have been living peacefully together in the servants' quarters at the W. E. Moore home, recently agreed to disagree—and did. For several days they made threats of violence against each other, and last Sunday night Bobbie together with a large negro man appeared at the servants' quarters, where Charley was still holding out. Bobbie was armed with an iron bar, which she is alleged to have used in knocking Charley kookoo, but when Charley came up he came up with a knife and proceeded to carve Bobbie to the extent that several stitches were required to close the wounds. Charley was locked up over night, and the following day Bobbie was placed in the lock-up and Charley was released. Sheriff C. R. Elliott took Bobbie over to Benjamin Tuesday after she had set fire to her mattress in the city bastille Monday night.

Mrs. R. M. Stevenson has returned from Peaco where she spent several weeks visiting relatives.

Teachers of County To Meet September 25-26 at Benjamin

The county teachers' institute will be held at Benjamin on Friday evening, September 25th and Saturday following, according to information given out by Mrs. Ethel P. Pool, county superintendent. The opening meeting will begin at 7:00 o'clock Friday evening and the Saturday session will begin at 9:00 o'clock Saturday morning.

Pioneer Business Concern Closes Its Doors at Benjamin

The West Texas Supply Company, one of the pioneer business concerns of the county closed its doors at Benjamin on Tuesday morning, having filed a voluntary petition of bankruptcy. The concern carried a complete line of shelf hardware and farm implements. For a number of years the business has been under the management of Chas. Moorhouse.

Munday Citizens To Make Drive Against Fires

Citizens Asked to Join in Observance of Fire Prevention Week

With a national per capita loss of four dollars for the United States, aggregating approximately half a million dollars annually, it behooves every resident of Munday to fall into line on Oct. 4 and exert every effort towards putting Munday in as nearly fire proof shape for the winter months as possible.

Fire losses represent one of the greatest wastes, not only of this nation, but the entire world. Notwithstanding the ever increasing improvement in fire fighting methods and means of prevention and precaution, the loss by fire each year has steadily increased during the past ten years and for the most part these fires have been the result of carelessness.

Beginning Oct. 4 the entire week will be given over throughout the nation as Fire Prevention week, and through the observance of this week it is hoped to reduce the fire hazard to as low a point as possible. Let every one here do his part toward reducing this hazard and making Munday as free from the risk of fire as possible.

Everyone can enter into this campaign. Look into all of the corners, into closets, under the house on shelving and everywhere and clear out the rubbish and trash where sparks might fall and cause a conflagration which may not only destroy your home or store, but take with it a heavy toll in the destruction of other buildings which are close by.

Before the cold weather sets in take a look at the chimneys, furnaces, stoves and pipes. Clear the chimneys and flues of soot and look for defects through which sparks might pass and find lodgment in the ceilings and under the roofs. These are the greatest menace when it comes to fire hazards. More fires result from defective chimneys, furnaces, stoves, and pipes than any other single cause.

It is also a matter of record that 66 per cent of the fires of the nation occur in the homes of its people. Therefore, it would be well to be especially careful in checking over any possible causes of fire in the homes.

Fires are far reaching, and effect, not only the immediate places burned, but people as well. For instance should a place of business be burned it means that the people employed will be thrown out of work for an indefinite period of time.

It is a matter of record that in the case of fires in business establishments about 46 per cent of the business never re-engage in business. They pass out of existence altogether and along with them go the men and women employees, who must seek work elsewhere.

Just at this time, when there is a large number of the working class out of employment due to the depression, it is even more important than ever to use precaution to prevent fires, so that the army of the unemployed may not be increased. As it is, the question of caring for the people during the winter will be a problem, and should not be allowed to become a greater problem and burden on the remainder who have a fortunate enough to still hold their jobs.

A little precaution now may mean the saving of thousands of dollars later on.

Why not enlist in the army which will march on the fire demon beginning Oct. 4 and do your bit towards lessening fire losses in Munday.

Cotton Production Materially Reduced Over This Section

Cotton production has been materially reduced—from one-third to one-half over this section of West Texas during the past thirty days, due to the extremely hot, dry weather. Thirty days ago the crop over the Munday area was estimated to approach the record crop of almost 20,000 bales, and today the estimate has dropped to about one-half of that amount, in fact, farmers now predict that this year's crop will not exceed that of last year, and the staple of inferior quality as compared with that produced in this section under favorable growing conditions.

City Will Enforce Sanitary Regulation In Health Drive

Working under the supervision of W. N. Dabney, state sanitary officer, a movement is under way in Munday for the complete elimination of surface toilets, and Mr. Dabney and Chief of Police Trammell are making a complete inspection of all premises in the city, and are notifying citizens of any improvements that are needed in making their premises sanitary.

The plan that will be followed by the city in eliminating the surface toilets is the most inexpensive one that has been devised. Pit toilets will be installed by all citizens who desire them by the city, for which a charge of 75 cents per month will be made for servicing and maintaining it. This is cents represents the same amount that citizens have been paying for sanitary service. The privilege is given to any citizen to install his own pit toilet and Mr. Dabney will furnish complete plans and specifications for building them and will assist citizens in any way possible. These pit toilets can be built for a little cost, and are a preventative against the spread of typhoid and other diseases, and we are sure that this movement on the part of the city and the State Department of Health will have the complete support of the citizenship of Munday.

Senior Class Sunset School Elect Officers

The first senior class of Sunset High School entered with a bang Monday morning; and we intend to make the lower classes, (Juniors included) sit up and take notice. Just watch us step.

As we are the first senior class we are going to try to make Sunset proud of us, and in return, we will serve Sunset to the best of our ability. We will strive to go on toward our goal, honorably, truthfully, and faithfully, so that others will wish to follow in our footsteps.

At a class meeting, on the first day of school, the following officers were elected: President, Arnold Land; vice-pres., Lillian Verhalen; sec-treas., Chue Claburn; social director, Christine Clowdis; reporter, Mary E. Shannon; Sponsor, Mrs. Peters; colors, Red-White; class flower, Rose.

WILLIAMS-BURTON

On Wednesday morning, September 9th, the Rev. Joe W. Burton, formerly of this city, but now of Fort Worth, and Miss Lula Grace Williams were united in marriage at the home of the bride's parents, Mr. and Mrs. Oscar Williams, at Quanah.

The romance which culminated in this marriage had its beginning when these young people were students in Simmons University at Abilene, where both graduated two years ago. Following his graduation from Simmons Joe continued his studies in the Baptist Seminary at Fort Worth, where he is still a student and holds a pastorate at Farmer, Texas. For the past two years Miss Williams has been a member of the faculty of the Quanah public schools. Following the ceremony the young couple left for Fort Worth, where they will continue their studies in the Southwestern Baptist Seminary.

The many friends of this excellent young man will join with the Times in wishing for them a long and happy married life.

Joe was reared in Munday, being a son of W. T. Burton, one of the town's pioneer and highly respected citizens. Following his graduation from the Munday High School he took up his studies in Simmons University, where he graduated in the class of 1929. During the time he was a student in Simmons he was active in the publication of the school papers and editor of the Simmons Brand.

The wedding was attended by Mr. and Mrs. H. P. Hill and Miss Christine Burton of Munday and Mr. and Mrs. Lavoy Burton of Haskell.

Mr. and Mrs. Elbert Hughes are entertaining a son in their home, the youngster having made his arrival on the 16th.

Mr. and Mrs. Grady Thornton had as guests last week end, Porter Anderson and Helen Nan Lowry of Tullia, Texas, and Miss Mayrene Campbell of Quitaque, Texas.

Miss Mary Tom Bragg of Rochester was a week end visitor here in the home of Mr. and Mrs. C. R. Parker.

Maybe He'll Be Able to Keep Going Now

By Albert T. Reid

Goree Takes Both Games For Brazos Valley Champions

By taking a 3-0 victory from Knox City at Goree last Friday afternoon Goree took the championship of the Brazos Valley League, winning two games of a three game series.

While Knox City has hung tenaciously to the top of the percentage column almost all the time throughout the season they were unable to down the Goree aggregation in the finals. Peek pitched the final game for Goree, while Bobby Edwards carried the burden for the Knox aggregation.

MOGULS PLAY FIRST CONFERENCE GAME HERE SEPTEMBER 25

The first conference game in which the Moguls will participate will be played here on Friday afternoon, September 25, with Archer City, and the Moguls are going through hard practice to be in shape to take this first game. Let loyal Mogul fans be on hand to give them a good send-off in this opening contest.

In a hard fought battle Friday afternoon the Moguls played the Rochester lads to a scoreless tie, and while the Moguls outplayed the visitors all the way through, they were unable to shove over a score that would have won the victory.

KEEL-McDONALD.

On Saturday evening, September 12th, Miss Trudie Keel of this city and Dewey McDonald of Childress were united in marriage at Goree, with the Rev. Parks, pastor of the Baptist church of that city officiating.

The bride is a daughter of Mr. and Mrs. J. J. Keel of this city and has resided here a great portion of her life, and is one of our most excellent young ladies.

The groom was a citizen of Munday for several years, having been associated with the Land Motor Company here, and since leaving Munday he has been associated with the Smith Motor Company of Childress, where they will make their home.

FIRST BAPTIST CHURCH

All services at the regular hours next Sunday. Bring your optimism and enthusiasm to the services. Let all the family come. There is room for all.

All the services last Sunday were marked with good interest. There is a fine spirit. All of us working at the task will put it over in a good way.

We will have our street service at four o'clock Saturday afternoon as usual. Be there if you can. The Fall Stewardship Campaign is getting on fine.

CARD OF THANKS

I wish to express my heartfelt thanks and deepest gratitude to the dear friends and neighbors who made it possible for me to be treated. To each and everyone I give my sincere thanks.

May God bless you all.
Mrs. L. A. NEECE.

Leonard May, who has been attending the Sul Ross State Teachers' College at Alpine, Texas, during the summer months, spent last week-end here visiting with relatives and friends. He returned to Alpine Monday and will be a student during the fall and winter terms.

Mr. and Mrs. Clyde Nelson and children are moving back to Munday this week from Wichita Falls, where they have resided for the past two years. We are very glad indeed to welcome this excellent family back home.

Mrs. R. G. Campbell, who has been critically ill for some two weeks, was carried to a Wichita Falls hospital first of the week, where her condition is reported to be very critical, in fact attending physicians hold little hope for her recovery. She is reported to be suffering from a disease similar to infantile paralysis.

Tingsley Davis left on Tuesday morning for Austin, where he will again enter the University of Texas. Kingsley received his M. A. Degree at the University recently and will continue his studies toward other degrees.

Mr. and Mrs. Howard Peek visited Mr. and Mrs. Beecher Peek Sunday.

Miss Opal Booe has been on the sick list the past week.

Mrs. Raymond Armstrong has been visiting in the home of Mr. and Mrs. H. S. Fatterree of Abilene the past week. She accompanied home by her sister, Mrs. H. S. Fatterree.

Farmers Warned On Issuing Checks To Strange Pickers

Again we wish to call attention of farmers to the practice of giving checks to strangers for cotton picking during the fall months. There are many unscrupulous folks drifting through the country at this season of the year and they frequently seize upon the opportunity to raise or forge the name of farmers to checks, which are frequently accepted by merchants without question.

While it may be a little more difficult, it would be safer for farmers to pay pickers in cash, and certainly it will pay merchants to rigidly investigate all checks tendered them by strangers even if they are on responsible parties.

Local Physician Has Numerous Electrical Treatment Appliances

The Times man dropped into the office of Dr. Newton F. McDonald in the First National Bank building first of the week and was impressed with the vast amount of electrical equipment in this office, and were interested in the explanation made by Dr. McDonald of the treatments applied by these various machines.

Dr. McDonald is a regular practitioner of medicine and surgery, but he is also a believer in the healing qualities of electricity, which phase of the profession has been developed almost entirely within recent years, especially is he a firm believer in the application of this method of treatment for nervous disorders and chronic diseases.

Included in the electrical equipment in the office of Dr. McDonald is an electric diathermia, a galvanic machine and a lamp for the application of the ultra violet ray, which, he states, has proven itself to be a very valuable asset in the treatment of pneumonia and many other illnesses. Included in the equipment is an electric sweat cabinet, in which he treats chronic cases of rheumatism and other similar diseases which require the removal of toxin poisoning from the system.

Having visited sanitariums in a number of health resorts, we know that much of the treatment in these institutions are applied on exactly the same type machines as those on the office of Dr. McDonald and there seems to be no need of citizens of this community going to distant points to receive treatment that may be had here at home.

Dr. McDonald in explaining the methods of treatment given on these various machines does not contend that electrical treatment is a cure-all. He believes that it is especially beneficial in the treatment of some diseases, and his belief is borne out by the fact that all hospitals, sanitariums and clinics are equipped with electrical apparatus for the treatment of various ailments. While he prescribes medicine where he believes it will prove beneficial, he contends that in the treatment of some troubles it is more detrimental than beneficial, and depends entirely upon electrical treatment to get results.

All services at the regular hours next Sunday. Bring your optimism and enthusiasm to the services. Let all the family come. There is room for all.

All the services last Sunday were marked with good interest. There is a fine spirit. All of us working at the task will put it over in a good way.

She is reported to be suffering from a disease similar to infantile paralysis.

Alleged Forger Attempts To Escape Officer

There was excitement aplenty here for a short time Monday afternoon when a young man who had been arrested by Constable Grady Blake broke loose after handcuffs had been placed on one hand and made a break for liberty. They break was made on the south side of the square and as the fleeing man made a hasty retreat across the square to the north Constable Blake took some three shots in his direction, but it seemed that his shots only had the effect of speeding the runner up a little with each shot. Dozens of citizens joined in the chase, and for a time it seemed that the culprit had eluded the officers and citizens, however, he was seen to dart into the residence of the editor, and after a goodly crowd had assembled he obeyed a demand from Constable Blake to come out, but he came out running and surrendered only after he saw that further attempt to escape would be hopeless.

A check up on the young man's activities here revealed that he had passed a number of checks in town to which the name of E. Dickerson was forged. The checks were from \$6.00 to \$8.00 and would be presented after making a small purchase, and change would be given for the difference. As he was captured after making the break for liberty he is said to have thrown a number of bills to the ground.

The young man, who appeared to be about twenty years of age, was carried to Benjamin later in the afternoon by Sheriff C. R. Elliott, after charges of forgery had been preferred against him in Justice W. S. Bailey's court.

Each of the checks were made payable to J. F. Donal, and were supposed to have represented checks given in payment for cotton picking. He was driving a Chevrolet car bearing an Oklahoma license, and officers are making a more thorough investigation of the man.

Sophomore Class Sunset Elect

The Sophomore class of Sunset Consolidated School met Tuesday, September 8, to elect class officers for the coming year. Miss Kathryn Rike was elected sponsor. Class officers are the following: President, Maud Land; Vice-President, Harold Partridge; Secretary, T. R. Busby; Treasurer, Velma Henry; Reporter, Jimmie Lois Frasure; Social Committee, Dollie Nix, Edna Hudson and Eva Reid. Orange and white were chosen as class colors. A committee was appointed by the president for the selection of a class motto. The Sophs. are looking forward to a very successful and enjoyable year.

BAPTIST SUNDAY SCHOOL

Oh yes, we were there strong Sunday, with one new member, and several old members back in their places.

Did you know that there is a place in that class for you? And no one else can fill that place but you. So why not come next Sunday and be in your place. We need your help to build a great class.

We had a great time in the class Sunday. Dr. McDonald gave us an interesting talk on an organized class, and the possibilities of such a class. The class agreed to meet in a business meeting Tuesday night at 8 o'clock.

Brother Albertson gave us a talk on the lesson, and if you want to learn more about the Bible you need to be in this class.

There was a good crowd in attendance at the meeting Tuesday night. Yes six-see real lemonade and plenty of it for everybody there.

The committee selected officers to bring before the class Sunday morning, so you had better be on hand to see who they are. Now all together, let's go and make this the biggest, and best Bible class in this part of the state—we can do it.

Our lesson for Sunday is the Sixth Chapter of Mark. So bring your Bible along and we will be seeing you Sunday morning. Don't disappoint us. We are going to look for you until we see you coming.

FERGUSON'S PLAN

James Ferguson's plan to have separate crops and thereby get the benefit of the low tax on the first few bales of cotton produced.

This bill would eliminate the big producer and would thereby have the same effect as some of the acreage reduction bills proposed.

The small tax on the first few bales is necessary in order that the law may be valid. Its terms could be more easily enforced than some of the proposed acreage reduction bills.

THE THIRD WINTER

Few people have yet realized the possibilities for suffering and distress during the coming winter. According to Census figures in April, 1930, there were 2,908,131 jobless individuals. In January of the same Bureau estimated that the unemployed during the second winter of depression numbered 4,000,000. The predictions for the

coming season are for an even larger figure, representing people who normally work but cannot find anything to do at the present time.

About a year ago President Hoover declared that "as a nation we must prevent hunger and cold to our citizens who are in honest difficulties." The President appointed Col. Arthur Woods as the head of an Emergency Committee on Employment. This year he had the Community Chests survey the situation and declared that "the problem of employment and relief, whatever it may be, will be met." Mr. Walter F. Gifford, big telephone executive, has been placed in charge of unemployment relief for the third winter and he sums up the problem by saying: "The real cure for unemployment is employment. Whatever the business may be they will be wholeheartedly met."

The President is opposed to any relief appropriation from the Federal Treasury, notwithstanding the assertions of many that local charitable organizations have carried the burden for two winters and are in a position to repeat again. Governor Pinchot, Republican of Pennsylvania, has called the President's attention to congressional appropriations for the relief of the newly in distant parts of the world recommending a federal fund. Senator Sargent, Republican of Utah, likewise apparently favors congressional action. In New York Governor Roosevelt, potential Democratic candidate for President in 1932, has requested the appropriation of \$20,000,000 for relief, to be provided by an increase of income taxation that taking the very course which President Hoover opposes on the part of the Federal Government.

Chicago, New York and other large cities are undertaking to provide large sums to alleviate the coming distress. In Detroit Senator Couzens, Republican, generally offers to contribute a million dollars if nine millions are raised otherwise. Henry Ford, who has made many times the money that Senator Couzens has out of the same automobile business, continues his policy of no large contributions but prescribes the common rule that every employee will have a garden or be discharged.

THE TAX QUESTION.

The West Texas Chamber of Commerce has turned its face to the task of reducing taxes, which movement should result in some worth while accomplishments. It is a well known fact that many taxes are being levied and collected that is necessary for the efficient administration of government.

During the recent called session of the legislature the official acts of a District Judge were investigated and it was found that he had approved thousands of dollars in expense accounts which were paid out of the state treasury unlawfully. Only cases in which the law has been so flagrantly violated and where the sums are very great are challenged, and it is therefore impossible to ascertain the vast sums that are being collected from the state through this channel, all of which must be paid by a tax levy upon the citizens of Texas.

The fee system in Texas is a stench upon the state. It is wrong in principle and encourages graft and bribery, and so long as we are infested with such a system we may not expect any relief from taxation.

A South Texas county recently discussed seventy-two indictments against one individual. Prior to the time for trial the party against whom so many indictments had been returned was tried in another county and declared insane or in some other manner placed beyond the reach of the court in which the indictments were returned. All of the seventy-two indictments were dismissed and the district clerk in that county drew just \$720,000 of the state's money for writing the word "Dismissed" at the bottom of each of the indictments. Pretty easy money. The news item pointed out that the seventy-two indictments exceeded the record of thirty odd indictments that were brought against one individual in another nearby county.

When one talks to farmers and business men concerning the depressed business condition they will tell you that they cannot continue to pay high taxes and survive. Indeed the tax question is one of vital importance to every citizen and every means should be adopted to reduce municipal, county, school and all other taxes to a minimum. Here's hoping the campaign inaugurated by the West Texas Chamber of Commerce results in some permanent good for the citizenship of all Texas.

PROGRAM FOR PRIMARY SECTION AT INSTITUTE

- Benjamin, Texas, Sept. 26, 1931.
1:00 p. m.
Leader—Mrs. Joe Cloud.
1. What the first grade should accomplish the first year—Mrs. Joe Cloud, Knox City School.
2. A lesson in sight reading—Mrs. C. H. Stewart, Truett.
3. A class in rhythm—Miss Jarrald, Munday.
4. Lesson games—Mrs. J. E. Smith, Lone Star.
5. Exhibit of charts made by children in school—Miss Pearl Cannon, Hood; Mrs. Ross Cox, Cottonwood.
6. A demonstration writing lesson—Mrs. Ross Camp, Goren.
7. Number Teaching in the Primary grades—Miss Lois Hughes, Vera.
8. Phonics—Mrs. J. E. Madole, Truett.
9. Activities and Profitable Seat Work—Mrs. E. R. Davenport, Sunset Consolidated.
General Program for Institute 9 a. m. Saturday, Sept. 26, 1931
Benjamin, Texas.

Program for the High School Section, Saturday 1 p. m. Sept. 26.
Pupil Accounting—Mr. Davenport, Sunset School.
Supervisor in 5 small High Schools—Mr. West, Benjamin School.
A Health Program for Public Schools—Mr. Stewart, Truett School.
High School Failures: Their Cause and Prevention—Mr. Bantwell, Goren.
Supervised Study—Mr. Cloud, Knox City School.
MIRROR PROGRAM
Knox County Institute, Benjamin, 7 p. m. Friday, Sept. 25, 1931.
Mr. S. E. Madison, County Trustee, Truett, Texas.
2. What should trustees expect of teachers?—Mr. G. E. Ellard, President of Munday School Board.
3. What should a teacher expect of trustees?—Mrs. E. F. Branton, Principal Union Grove School.
4. Duties of teachers to patrons—Mrs. J. J. Driver, Patron of Benjamin School.
5. Duties of patrons to teachers—Mr. J. J. Hoffman, Rhineland School.
6. Duties of teachers from the principal's standpoint—Mr. E. R. Davenport, Sunset School.
7. Duties of a principal from the teachers' standpoint—Mrs. Otis Cash, Teacher, Knox City School.
8. What the teachers expect of the county superintendent—Mrs. S. A. Billingsly, Vera.
9. What the county Superintendent expects of teachers—Mrs. P. Pool, County Superintendent of Knox County.
10. Professional Improvement.
This program will be rendered at a banquet.

NEW HOPE

Well folks, here we are again. Don't say you're surprised—never be surprised at anything we do. It is cotton picking again but with such low prices and the almost unbearable heat, we go to the field with more too cheerful faces.

In spite of the low prices, some of us are getting so rich we are almost ready to retire—We don't think.

Mr. and Mrs. E. C. Lawrence visited her mother, Mrs. G. T. Floyd, Thursday of last week.

Among those that attended the association at Smith Chapel from here were Mrs. E. B. Frause, Mr. and Mrs. Ott West and Mr. and Mrs. Ed West. All reported a fine time.

Miss Ruth Graham stayed overnight with Irene Jungman one night last week.

Sunday of last week Mrs. L. G. Alexander and children, Edna, J. O. and Cecil, and Ella V. Young visited at the home of J. R. Alexander near Weibert.

Ora Lee and Willie Joy Floyd and Annette Hutchison report a jolting good time Sunday after riding horses all afternoon.

Douglas Hope Hamilton visited with Jimmie Lois Frause one day last week.

The New Hope Intermediate Sunday school class spent an enjoyable evening on a picnic at Wild Horse. Those present were Lola Mae Lawrence, Ruby Reeves, Jean Hamilton, Douglas Hope Hamilton, Mary Pruitt, Jimmie Lois Frause, Mr. and Mrs. Pruitt, J. C. Reagan, Ray Lawrence, Douglas Neil, Clifford Cook, T. E. Busby, Howard Voss and Lucian Peery.

Mr. and Mrs. Ollie Yost and his father, Mr. Tena Yost of Greenville, Texas, are visiting relatives in this community.

A very important little gentleman known as Willie Duane, arrived at the home of Mr. and Mrs. Robert Alexander on Tuesday, Sept. 15.

Ora Lee Floyd made a flying visit with Jimmie Lois Frause last Wednesday.

Eddie Sanders and Edward Alexander of near Weibert visited with Mrs. L. G. Alexander and family Sunday.

Jerry Nix has been on the sick

ASPIRIN

BEWARE OF IMITATIONS

LOOK for the name Bayer and the word genuine on the package as pictured above when you buy Aspirin. Then you'll know that you are getting the genuine Bayer product that thousands of physicians prescribe. Bayer Aspirin is SAFE, as millions of users have proved. It does not depress the heart, and no harmful after-effects follow its use.

Bayer Aspirin is the universal antidote for pains of all kinds.

Headaches, Neuritis, Colds, Neuralgia, Sore Throat, Lumbago, Rheumatism, Toothache.

Genuine Bayer Aspirin is sold at all druggists in boxes of 12 and in bottles of 24 and 100.

Aspirin is the trade-mark of Bayer manufacture of monacrotinester of salicylic acid.

Society

Willing Workers
The lawn of the Methodist church was the scene of much merriment last Thursday night, when a church social was sponsored by the following teachers and members of the Willing Workers Sunday School Class: Mesdames. John Lane, Lee Haymes, R. B. Davey, F. Billingsley, P. V. Williams, E. A. Bowden, J. C. Campbell, O. F. Spann, G. R. Eiland, O. F. Over, and Miss Shellie Lee.

Many games of various kinds were played with both young and old taking part. One of the most amusing features of the evening was the human Model T. Ford presented by the Epworth League boys.

While the games were progressing, a strange noise was heard. A few people were heard to giggle. Upon looking around we saw approaching a wagon drawn by a burro, and driven by Jerry Kethley and Betty Lou Greer, both being dressed in costumes of the pioneer settlers. They declared their intentions of visiting a while with "Parson" Crowe and his wife, and it was found that their wagon was heavily laden with all kinds of cats, etc. for Brother and Sister Crowe.

After the wagon was unloaded, the doors of the parsonage were opened, and everyone was invited to come in and see the improvements that had been made on the interior of the house.

The crowd again assembled on the lawn, and was served delicious refreshments consisting of punch and cake.
—Reporter.

Methodist Parsonage Improvement

The interior of the Methodist parsonage has been completely reworked during the last two weeks. Papering, painting, re-arranging of rooms, and built-in features are included in the improvements. New furnishings include a walnut dining room suite, rugs, linoleum, etc. The total result is a very attractive

When BABIES are Upset

BABY ills and ailments seem twice as serious at night. A sudden cry may mean colic. Or a sudden attack of diarrhea. How would you meet this emergency—tonight? Have you a bottle of Castoria ready?
For the protection of your wee one—for your own peace of mind—keep this old, reliable preparation always on hand. But don't keep it just for emergencies; let it be an everyday aid. It's gentle influence will ease and soothe the infant who cannot sleep. Its mild regulation will help an older child whose tongue is coated because of sluggish bowels. All druggists have Castoria.

heard in and around the home of Mr. and Mrs. U. S. Rogers, the little friends of Bernadine Stodghill having come to make her happy on her third birthday. Bernadine, little daughter of Mr. and Mrs. Bernard Stodghill of Hobbs, N. M., accompanied by her mother came back to Munday to celebrate her birthday at the home of her grandparents, Mr. and Mrs. U. S. Rogers, or as she calls them, "Bud and Mawie." After the little guests had arrived Bernadine opened the many pretty gifts that had been brought her. Each package gave her a great thrill, which was enjoyed very much by every one present. When all packages were opened and laid aside everyone went bounding to the large front porch and the lawn to enjoy the many nice games which were in store for them.

Following the games the guests were shown to the dining room to see Bernadine's pretty birthday cake and to watch her blow the candles out. The cake was then cut and served with ice cream to the following little boys and girls: William Gayle Kennedy, Sam Wesley Easley, Mickie Joe Macon, Emiphebia Macon, Billie Joe Burten, Belva Merle Mauldin, Sarah Jean Mauldin, Brooks Lee Williams, Bobbie Gene Whittemore, Bobbie Broach, Jo Ann Blanton, Allene Jungman, Herbert Allen Stodghill, Rose Marie Stodghill, and Sue Ann Roberts of Seymour, Texas.

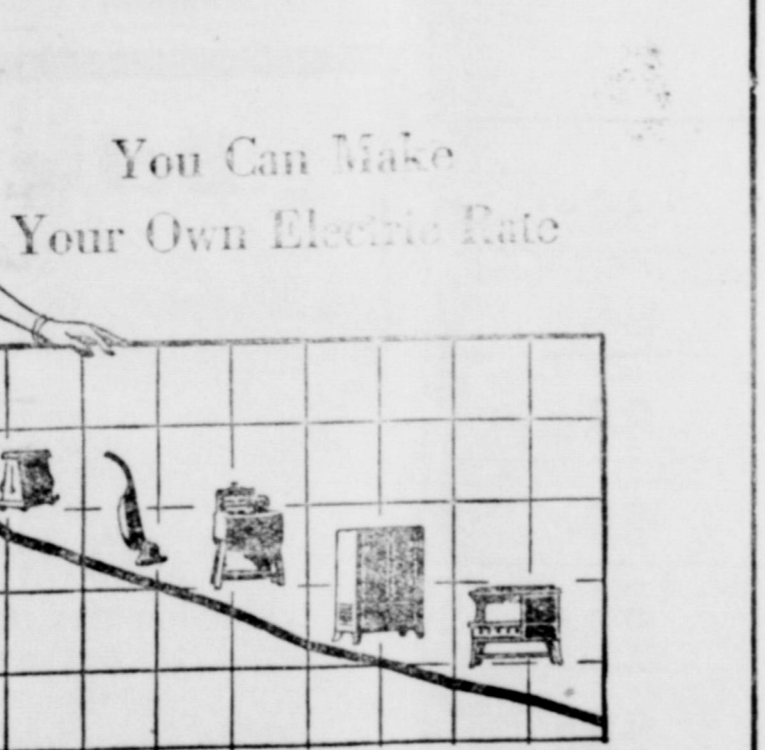

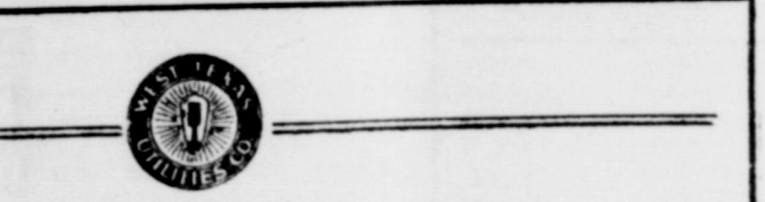

More games were enjoyed until 6:30, when the little guests all reported having a nice time and wishing Bernadine many more happy birthdays departed for their homes.

Bernadine also had her other grandmother, Mrs. E. H. Stodghill, and an aunt, Mrs. Lavoy Burton of Haskell present to help celebrate her birthday.

FEDERAL LAND BANK LOANS
5 1/2 -- Per Cent -- 5 1/2

A long term loan with the option to pay at any interest date, provided the payment to be made is out of one's own funds. And contrary to the general belief, THIS LOAN DOES NOT CARRY ANY LIABILITY ON YOUR FARM, OTHER THAN YOUR OWN LOAN.
This loan offers a saving of \$10.00 on the \$1,000.00 over any loan offered by any Loan Company in Texas.

You Can Make Your Own Electric Rate
Your true electric rate is not the amount paid per kilowatt-hour for service used on the first or top step—but the net average cost per kilowatt-hour for all current consumed. Residential customers of the West Texas Utilities Company paid, during 1930, an average of only 6.5c per kilowatt-hour—and those customers using an electric range and electric refrigerator received service at an average rate of approximately 4c per kilowatt-hour!
The statement, then, that "you can make your own electric rate" is obviously true, for the more you take advantage of the many conveniences and comforts of electric service, the more inexpensive your service will become. The addition of new Electrical Servants will reduce your average cost per kilowatt-hour and bring you new comforts and conveniences worth far more than the slight cost of the additional service required.
The average residential customer now uses fifty kilowatt-hours per month. He could increase his service to three times that amount and only increase his total bill by approximately 10c a day.
Investigate the possibilities of complete household electrification. You will be surprised to find the equipment exceedingly moderate in first cost, and the operating expense ridiculously low.

West Texas Utilities Company

AMERICA'S ONLY REFINER OF GERM PROCESSED OIL OFFERS . . .

\$10,000 IN CASH PRIZES

FOR THE BEST ANSWERS EXPLAINING THE MYSTERY OF THE "HIDDEN QUART" AND TELLING HOW THIS QUART BENEFITS MOTORISTS

Fact No. 1—Thousands of motorists and service station men have observed that after a car has been given its first fill of Conoco Germ Processed Motor Oil and is driven 200 to 350 miles, a look at the crankcase gauge shows that about one quart of oil is apparently missing . . . but

Fact No. 2—These same people have noticed that on the second and later fillings with Conoco Germ Processed Motor Oil, scarcely a drop of oil will disappear during the first 350 miles and practically none at 500 and up to 1,000 miles!

The above facts have been checked by actual tests with cars that use six quarts of oil for the crankcase, cars in good mechanical condition and driven at ordinary rates of speed. These facts will also prove true for your car, in proportion to the amount of oil your

crankcase usually holds, your car's mechanical condition and the speed at which you drive. What becomes of the "hidden quart"? The answer is easy if you study the Facts given above and keep in mind the things that only Conoco Germ Processed Motor Oil can do. The explanation of the whereabouts of the "hidden quart" is simple—no technical knowledge of motors or oil is necessary. Remember—The "hidden quart" of Germ Processed Oil does not escape through leakage . . . does not burn up, wear out nor evaporate. It is "present but unaccounted for." Fact No. 2, given above, proves all this. After you've found where the "hidden quart" goes, you can easily see the special benefits it gives the motorist—advantages that no other oil can give.

THE QUESTION
"What becomes of the 'hidden quart' and how does this quart benefit the motorist?"

Ask at any Conoco Station or Conoco Dealer for free entry blank, which contains information about Conoco Germ Processed Motor Oil that may help you win. Conoco Station and Dealer employees will gladly answer your questions. Remember, you do not have to buy anything to enter this contest. Any Conoco Station or Conoco Dealer will give you, free of charge, a convenient Official Contest Entry Blank for writing your answer. Answers written on one side only of any plain white paper will be accepted as accredited entries in the contest. But we recommend that you secure an Official Contest Entry Blank, which gives valuable information about Conoco Germ Processed Motor Oil and its operation in motors—clues about the "hidden quart" that may help you write an answer that will win a prize.

29 PRIZES
First Prize \$5,000
Second Prize \$2,000
Third Prize \$1,000
4th and 5th Prizes \$500
6th, 7th, 8th and 9th Prizes \$100
10th, 11th, 12th and 13th Prizes \$50
14th through 29th Prizes \$25

WINNERS WILL BE ANNOUNCED
as soon after the contest closes as possible. Announcement of all winners will be made in this newspaper.
THE JUDGES

JOHN A. HUNTER Professor of Mechanical Engineering, University of Colorado
FRANK L. MARTIN, Associate Dean School of Journalism, University of Missouri
AND ASSISTANTS

COMPLETE RULES OF CONTEST
1. Answers may be any length not exceeding 200 words; length of answers will not determine winners. Write answers on Official Contest Entry Blanks preferably, or on plain white paper. Conoco Stations and Dealers will give you an Official Contest Entry Blank free. Elaborate presentations of answers will not count in your favor.
2. Write your answer in plain, simple language. Technical terms or special scientific knowledge will not influence the judges.
3. Contest closes midnight, Sept. 28, 1931, and no entries bearing postmarks after midnight, Sept. 28, 1931, will be accepted.
4. Contest open to everybody except employees and executives of the Continental Oil Company, Conoco Stations, Conoco Dealers and the Company's advertising agency, and their families.
5. In case of tie, both contestants will receive full amount of prize tied for.
6. You do not have to use or purchase Conoco Germ Processed Motor Oil or other Conoco products to compete for prizes.
7. All entries submitted, whether or not they win prizes, become the property of the Continental Oil Company and may be used in advertising without payment, and none can be returned to senders.

Fall Gardens

Grace Nelson, Co. Home Dem. Agt.

At this season of the year the moisture supply in the soil is limited, and care must be exercised to conserve it in every way in order to get vegetables up. To do this the ground should be free of all weeds and plants that are left from the spring garden. Plowing under this material at this season is bad practice, because it will prevent the moisture from rising to the surface and the seed will not germinate. Then, too, the unrotted plant material seriously interferes with the cultivation of the young vegetables, and the heat resulting from the turned under vegetation tends to dry out the soil.

The soil for fall gardens should be plowed shallow to a depth of 4 or 5 inches or thoroughly disced. Immediately following the breaking of the soil, it should be harrowed and the seed bed made as firm as possible to re-establish capillary attraction of the soil particles, and to bring the moisture, if possible, to within 1-2 to 2 inches of the surface.

In purchasing seed for the fall garden it is advisable to secure 1-4 more seed for this season is poor; consequently the extra quantity of seed will be necessary to secure a good stand. Vegetable seeds that have a hard coating, such as spinach, carrots, beets, and lettuce should be soaked for 24 to 28 hours before planting. Wait until cool weather to plant spinach. This vegetable will not stand hot, dry weather.

September 15 to 30 plant—Danish variety, White Icicles, carrots, Danvers' half long, Beets, Crosby Egyptian, Swiss Chard, Lettuce, Spinach, Bloodhound Savoy, turnips, white globe, lettuce, iceberg, Mustard, southern curled, onions, Australia brown.

Keeping Up With Texas

Amarillo has the largest highway underpass in Texas. It is seven hundred and seventy feet long, connects two main portions of the city and carries the traffic of eight highways. Three hundred carloads of steel and concrete were consumed in its construction, and it cost a quarter of a million dollars.

A Dalhart man recently offered to trade a house and lot for wheat at thirty-five cents per bushel.

The home demonstration agent of Floyd County, Texas, supervised the work of fourteen women's clubs which canned four thousand quarts of vegetables during the present season.

The chamber of commerce at Spur, Texas, maintaining a fully equipped canning kitchen for the free use of the public for canning the surplus food products produced this season.

All of the state highways in Hale County, Texas, are now paved with concrete, a total of sixty-seven miles radiating in four directions from Plainville.

A four-year old Jersey cow owned by a farmer of Meadow, Texas, recently designated a gold medal award by the American Jersey Cattle Club, which is the highest distinction that can be given for production. The cow, Masterman's Pearl S, produced thirteen thousand pounds of milk and six hundred and seventy-five pounds of fat.

Rev. I. N. Demy says: "I have found nothing in the past 20 years that can take the place of Dr. Miles' Anti-Pain Pills. They are a sure relief for my headache."

Sufferers from Headache, Neuralgia, Toothache, Backache, Sciatica, Rheumatism, Lumbago, Neuritis, Muscular Pains, Periodic Pains, write that they have used Dr. Miles' Anti-Pain Pills with better results than they had even hoped for.

Countless American housewives would no more think of keeping home without Dr. Miles' Anti-Pain Pills than without flour or sugar. Keep a package in your medicine cabinet and save yourself needless suffering. At drug stores—25c and \$1.00

DR. MILES' ANTI-PAIN PILLS

under test in one year.

Through irrigation, at a cost of one dollar per acre, a Bailey County farmer produced an average of forty-four bushels of wheat per acre as compared to twenty-five bushels on adjoining land not irrigated.

The total enrollment for the two summer terms of the Texas Technological College at Lubbock, Texas, was 1,539 this year, exceeding last year by 220.

A government radio broadcasting station of 2,000 watt power, costing \$65,000 and providing meteorological service, is under construction at Big Spring, Texas.

Citizens of Ward County, Texas, want a state park on the site of the old Old Willow Water Hole, stopping place and camp ground on the old '49 emigrant trail from Big Spring to El Paso, once the scene of a massacre of two hundred members of a wagon train by Comanche Indians.

The Flag ranch of over one hundred sections in Winkler County, Texas, was sold recently constituting one of the biggest single land deals in West Texas during the year.

The University of Texas College of Mines and Metallurgy at El Paso, has been recently expanded so that four year college course is offered.

A recent chamber of commerce campaign to promote the use of air mail resulted in doubling the prominence of Big Spring. Committees sold stamps, and merchants displayed placards advertising air mail advantages.

Range conditions in eastern New Mexico are the best in years, and it is estimated that thousands of heads of fat cattle will be shipped this fall.

Tourists may obtain correct information about their cities, the chambers of commerce of Roswell and Carlsbad, New Mexico, recently conducted informational campaigns among their citizens. Typical questions asked by tourists with correct answers were mimeographed, and given local distribution and advertising.

The Texas Pecos Valley country is expected to ship approximately five hundred carloads of cantaloupes this year an estimated three thousand acreage crop.

A \$10,000 school building for the exclusive use of its three hundred Mexican children is being built at Big Spring, Texas.

Twenty-six graduates received their bachelor's degree from the Sul Ross Teachers College at Alpine, Texas, at the close of the summer school term, and one hundred and twenty teaching certificates were issued.

..Locals..

Miss Mary Hope Smith has gone to San Antonio, where she will be a student in Westmoreland College and will specialize in violin under the tutelage of Carl Vant, one of the most famous teachers in the South.

Mr. and Mrs. C. M. Reese of Albany, Texas, were here the latter part of last week visiting in the home of his sister, Mrs. C. R. Parker.

How to train BABY'S BOWELS

Babies, bottle-fed or breast-fed, with any tendency to be constipated, would thrive if they received daily "a teaspoonful of the old family doctor's prescription for the bowels."

That is one sure way to train tiny bowels to healthy regularity. To avoid the fretfulness, vomiting, crying, failure to gain, and other ills of constipated babies.

Dr. Caldwell's Syrup Pepsin is good for any baby. For this, you have the word of a famous doctor. Forty-seven years of practice taught him just what babies need to keep their little bowels active, regular, keep little bodies plump and healthy. For Dr. Caldwell specialized in the treatment of women and little ones. He attended over 3,000 births without loss of one mother or baby.

Dr. W. B. Caldwell's SYRUP PEPSIN A Doctor's Family Laxative

A most enjoyable family party and outing was enjoyed last week at Lake Kemp in which Mr. and Mrs. Paul Mathers and little son of Hereford, Mrs. J. T. Lee, Mr. and Mrs. J. A. Caughran, Miss Ethel Lee P'Pool of Benjamin were guests of Mr. and Mrs. Homer Lee at Mr. Lee's cabin on the lake. They enjoyed fishing, boating, swimming and other recreations, and report a most enjoyable time.

Miss Grace Hutchins has gone to Denton where she will be a student in the North Texas Teacher's College.

Mrs. V. L. McConnell and two sons of Waco were guests last week in the home of her parents, Mr. and Mrs. A. J. Birdsong.

Mr. and Mrs. W. H. Chapman and children returned the latter part of last week from South Texas. On their trip they visited numerous points in that section of the state, going as far as Brownsville.

WHEN FOOD SOURS

ABOUT two hours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been over-stimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

The right way is Phillips' Milk of Magnesia—just a tasteless dose in water. It is pleasant, efficient and harmless. Results come almost instantly. It is the approved method. You will never use another when you know.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for correcting excess acids. 25c and 50c a bottle—any drugstore. "Milk of Magnesia" has been the U. S. Registered Trade Mark of the Charles H. Phillips Chemical Company and its predecessor Charles H. Phillips since 1875.

The Fair Store

We are informed that Mr. George Pierce and Miss Nina Gilmer of the Gillespie community were united in marriage on September 12th, but have been unable to get any further particulars concerning the marriage, anyway, we wish for these young people a long and happy life.

SORRY MY truck was delayed this week. But will have plenty apples Saturday noon.—D. A. Evans.

WE have the equipment to grind bundle stuff, ear corn, maize, cottonseed, or anything else.—Munday Mill and Grain Co.

Believe It Or Not

(With Apologies to Ripley)

It is possible to grind 51,348,403,200 different spectacle lense combinations for the correction of various defects of eyes requiring lenses. (These figures supplied by the Research Department of American Optical Company, Southbridge, Mass.)

Checking the last 500 pairs of lenses that we have fitted 443 pairs were ground and made to order to fit each individual. 53 pairs could have been fitted from lenses carried in stock, but 12 of these required a different lense for each eye.

Have your eyes examined and lenses made to fit you. Prices reasonable.

For the convenience of those who are unable to pay for this service and best quality lenses or those who want stock glasses or mail order glasses, (the fit yourself kind,) we are stocking a few ready made glasses to sell from \$2.00 to \$4.00, from which you can make your selection.

As a Registered Optometrist we can give you some assistance in selecting these glasses. Under the Texas Optometry law no one but a Registered Optometrist or Oculist can assist one in selecting a pair of ready-made glasses. This is not to be confused with the service of a thorough eye examination and best quality of lenses and frames. The grinding alone of a pair of complicated lenses amounts to several times the price of a pair of ready-made glasses.

J. D. KETHLEY
