

# THE MUNDAY TIMES

Volume XXVIII.

Munday, Texas, Thursday, February 20, 1933.

Number 38.

## Thinking Out Loud

By J. A. K.

Editor James E. Kelly of the Stanton Reporter stopped his press the other day to get a big "scoop." Just as everything was ready to go to press a report reached the Reporter office that "Pretty Boy" Floyd, notorious Oklahoma bandit, had been located in the north part of Martin county, and being the live-wire newspaper man that he is, naturally Editor Kelly wanted to give his readers some real news, and held the press in readiness for the big story, while he joined the sheriff's posse to get it all first-hand. However, it proved to be nothing more than a party of hunters, and "Pretty Boy" is still enjoying his freedom.

"Pretty Boy" has probably been credited with crimes of which he is innocent. Frank and Jesse James were credited with many crimes of which they knew nothing whatever, and the same was true of Sam Bass and other notorious outlaws.

Some years ago we heard a most interesting talk by Frank James in which he told of many of his adventures, including the one in which he was convicted and served a number of years in the penitentiary. He related that he and his brother were credited with many robberies that were committed hundreds of miles from where they were. He spoke from experience, when he admonished the youth that crime did not pay.

We learn from reading the "Passing Day" column in O. C. Harrison's Baylor County Banner, that he has just awakened to the fact that it required much time, thought and talent to give our customers a column like this each week.

Before passing judgment on the veteran Baylor contemporary, we are inclined to make some investigation with a view of ascertaining whether or not he is a regular reader of this column, for certainly no one who is such could possibly arrive at the conclusion that little time and effort was devoted to it.

## Crash Injury Proves Fatal to Oklahoma Man at Stamford

STAMFORD, Feb. 10.—A skull fracture received in an automobile crash on the highway north of here last Saturday proved fatal to Guy O. Danielson, salesman of Oklahoma City. He had been unconscious since he was brought to a hospital here immediately after the mishap.

Danielson was thrown through the windshield when the machine in which he was riding with E. L. Miller of Oklahoma City collided with a truck. Miller and Charley Rose, driver of the truck, received minor injuries.

A brain specialist came here by plane from Oklahoma City Wednesday to consult with local physicians as to Danielson's case. The injured man's condition had grown worse steadily for the past few days.

His wife, a son, Otis, and a brother, Bob Danielson of Gary, Indiana, were at the bedside when death came, and will accompany the body to Oklahoma City Saturday. It will be taken overland in a Kenny ambulance.

Danielson's mother, of Juliet, Ill., will be in Oklahoma City for the funeral services.

## Has Two Hearts

Edward Reynolds, machinist, of Pittsburgh, Pa., three physicians into a panic recently when they were unable to locate his heart. An x-ray revealed that he has two hearts—a large one on the right side and a small one on the left.

## HENS COMMIT SUICIDE WHEN EGGS TAKE A SLUMP.

Dave Mauldin is much agitated over the price of eggs. And we don't blame him—in fact—Dave's hens are taking the matter more seriously even than Dave, who is our authority for the statement that two of his fine hens have become so discouraged over the outlook that they have gone out in the back yard and ended it all.

Dave states that since the price of eggs have taken a decided drop in price that two of his hens have hung themselves on the picket fence in his back yard, and since this has not happened before, he is inclined to believe that they have become despondent over the low price of their product. Aint this depression gettin' awful?

## SIMONS-KUEHLER

Felix Kuehler, who has been in Kansas for some weeks, returned Tuesday of this week, bringing with him his bride, the former Miss Marie Sions, to whom he was married on February 7th at St. Mary's Catholic church at Marienthal, Kansas, and they will make their home in the Rhineland community, where the groom was reared.

The groom is a son of Mr. and Mrs. Fred Kuehler, pioneer citizens of Rhineland, and is one of the popular young men of that community. The bride is the daughter of Mr. and Mrs. P. H. Simons of Marienthal, Kansas, and was reared in that city.

We join the many friends in wishing for them a long and happy married life.

## A. J. Gore, Pioneer Citizen, Succumbs At Knox Sunday

A. J. (Andy) Gore, one of the pioneer citizens of Knox City, died at his home in that city last Sunday morning and funeral services were conducted at the Baptist church there Monday afternoon. Death came after a prolonged illness.

Mr. Gore had for many years engaged in farming and owned an excellent farm in Knox City territory. He had also been one of the leading citizens of the community for many years. He is survived by his wife and three children, Roy Gore of Knox City, Mrs. LeRoy Melton of Benjamin and Mrs. Rhodes of Wichita Falls. A brother also resides at Weatherford and was in attendance at the funeral.

## Glorious Heroine

Sarah McCloskey, 8 years old and weighing only 40 pounds, afflicted with infantile paralysis since a baby, presented herself at the Camden (N. J.) Health Department, offering a pint of her blood that an infantile serum might be made. Deemed safe to her welfare by the physicians, the transfusion was made.

## Munday Water Is Declared Free of All Contamination

City Secretary D. T. Mauldin has received a report of the city water here from the State Health Department which shows that it is free from any contamination. A sample of the water was sent to the board to be analyzed. These reports will be made monthly for the protection of citizens and at any time any trace of contamination might appear steps will immediately be taken to correct same.

## Little Pen-o-grams

## MUNDAY MAY EVENTUALLY HAVE ARTESIAN WELL!

Workmen are engaged this week in raising the pumps in the city well about twelve feet. This became necessary when the water rose to within a few inches of the pumps.

When the well was dug some ten years ago the pumps were installed some twelve feet above the water line, but the water has gradually risen in the well each year until it has become necessary to raise them, and the supply of water in the well is several times as great as it was when the well was dug, and it is predicted that if this keeps up the city will have artesian water.

## BAKER-CRAIG

On February 10th Virgil Craig of this city and Miss Birdie Katherine Baker of Abilene were united in marriage at Walters, Oklahoma, the ceremony having been performed by the Rev. I. S. Dugan, pastor of the Christian church in that city. They were accompanied by Walters by a number of friends from Abilene.

The bride is a daughter of Mrs. A. E. Baker of Abilene, and is a graduate of the Abilene High school and at present a student in Abilene Christian College.

The groom is a son of Mr. and Mrs. G. H. Craig of this city, and is a graduate of the Munday High school of '28, and has recently completed a course in business administration in an Abilene business college. He also attended the State University and the North Texas State Teachers College.

We join their many friends in wishing for them a long and happy married life.

## Center Parking Is Placed On Taboo By City Officials

The city council on last Monday evening issued instruction to Chief of Police Shannon Layne to rigidly enforce the ordinance prohibiting center parking on the business streets of the city hereafter, and the public is hereby informed that this ordinance will be enforced.

This action is taken with a view of eliminating danger to pedestrians in crossing the streets, as it is extremely hazardous to pedestrians crossing the streets when cars parked in the center of the streets obstruct view of approaching cars, and it is hoped that no serious inconvenience will result, and it is the opinion of the council in ordering enforcement of the ordinance that at this season of the year there is no great necessity for center parking, since there are not a great number of cars on the streets at any time.

## Bank Receiver Is Given Sentence On Shortage of Funds

SEYMOUR, Texas, Feb. 12.—R. L. Hamrick, 29, until recently in charge of liquidation of the assets of the closed First State Bank of Seymour, is in the county jail here awaiting transfer to the state penitentiary following his conviction in a night session of court Saturday on two counts of misappropriation of funds.

Hamrick was arrested Saturday in Ranger following his indictment by the Baylor county grand jury. He was returned here by Sheriff Arch Holmes late yesterday afternoon. Hamrick requested immediate trial, and as the 60th district court was in the last day of its term, Judge I. O. Newton held a night session.

Hamrick pleaded guilty to both counts in the non-jury trial and was sentenced to two years on each count, the terms to run concurrently. The charges alleged misappropriation of approximately \$1,300.

The bank ceased the operation of its business Oct. 29, 1931. Hamrick acted as its agent in liquidation until Dec. 20, 1932.

The affairs of the bank are now in the hands of A. A. Allen of Haskell.

Hamrick was also in charge of the liquidation of the assets of the First State Bank of Munday, but it is reported that his accounts with the Munday institution were found satisfactory, however, he was relieved of his duties at Munday at the time the shortage was discovered in his account with the defunct Seymour bank.

## Grand Jury Begins Its Work Monday

The Knox County grand jury convened on Monday morning and immediately after being impaneled and hearing the charge of judge I. O. Newton got down to business. George Isbell of Munday was chosen as foreman of the body. J. C. Campbell of Munday was also a member of the body.

## FIRST BAPTIST CHURCH

Last Sunday the interest and attendance climbed up some. All services were very encouraging.

At the opening of Sunday school next Sunday, promptly at ten o'clock, there will be some special numbers by the orchestra. You will appreciate this music and it will give you added interest in the lessons that will follow.

Sermon subjects: Morning, Heaven and the Way There; Evening, The Supreme Court Decision. There will be special music at both the services. Let's keep in mind our B. T. S. Training School, which begins March 19th.

"But the path of the just is as the shining light, that shineth more and more unto the perfect day." Prov. 4:18.

The church where every body is somebody. You are always welcome. W. H. Albertson.

## 27 Cars of Cattle Shipped Monday By Julian Vivins

Probably the largest shipment of cattle that has been shipped from Munday in many years was that shipped on Monday, when Julian Vivins, of Amarillo, who has been feeding a herd here all winter, shipped 292 head of cows and calves. The cattle were purchased by R. Campbell and Olney, where they will be placed on pasture in Archer, Young counties. The shipment consisted of 27 cars and made up a special train.

Mr. Vivins still has approximately 200 head here. The cattle have been fed here during the winter on meal and hulls on the feeding yards of the Munday Cotton Oil Company.

Mrs. J. W. Smith was much surprised Tuesday evening when her brother, W. R. Houston of Chicago, whom she had not seen for some twelve years came to visit her. Mr. Houston is an ex-soldier, having served in the army about twenty years. He was active in both the Spanish American and world wars. Knox County Herald.

## One Leg, Then Wrap

They are pants but they are put on in a peculiar manner. One leg is a regular leg and slips on, foot first. . . . The other leg "wraps around" and forms the new beach trousers which Nell Hughes of Memphis demonstrates above.

Rev. T. C. Willett, pastor of the Methodist church, left last Saturday for Augusta, Ga., to attend the General Missionary Council of the M. E. Church, South. He said before leaving that one day of the week would be given to the observance of the 50th anniversary of the Pain College, a colored institution under the Methodist Missionary work. Rev. Willett will return this Saturday and will be in his place of worship Sunday.—Hamlin Herald.

Chief of police Shannon Layne was a Benjamin visitor Monday morning, having been sworn in as bailiff for the grand jury for this part of the county.

## Funeral For Fought Baby Held Sunday

Funeral services were conducted Sunday afternoon for little Jimmy Dale Fought, three months old son of Mr. and Mrs. J. D. Fought, who died on Saturday morning at the family home four miles South of Munday after an illness of several days from influenza. The services were conducted at Johnson cemetery by the Rev. Lewis.

## RHINELAND

School attendance was greatly reduced during the cold weather, but all the students survived the cold and we are having a erect attendance.

Ernest Owen, a pupil of this school once again.

who had undergone an operation in the Knox County Hospital, was removed to his home last Saturday.

The pupils of the primary and intermediate grades with their teachers, Miss Leona Albus and Mary Ruddy, enjoyed a valentine party Wednesday afternoon after school hours.

Little Virgie Mae Kuehler, the small daughter of Mr. and Mrs. Leo Kuehler, is slowly recovering from a serious attack of double pneumonia.

Messrs Albert and Joe Hererich spent a few days here visiting relatives and friends.

Miss Elizabeth Slabba returned to Wichita Falls.

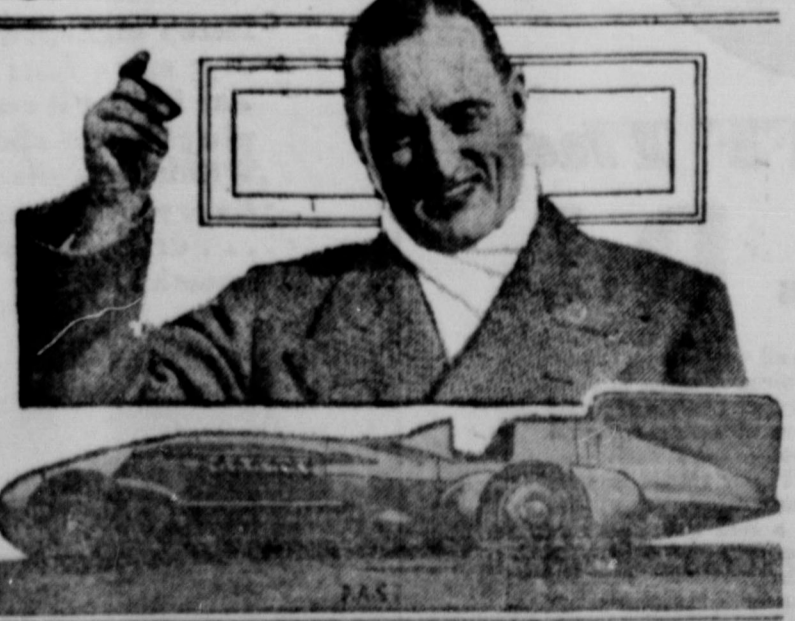

Mr. and Mrs. Herman Jungman had the misfortune of overturning their car as the steering wheel became disconnected. The car was slightly damaged but its occupants were not injured.

Miss Catherine Slabba is visiting with relatives and friends.

Diner—Say, Waiter! How many times have I called you?

Waiter—You'll have to keep count of that yourself—I have other things to do.

## Automobile Speed King Again at Daytona

\* Sir Malcolm Campbell, holder of the world auto speed record, is again at Daytona, Fla., with his famous rebuilt "Bluebird", and ready to try to lower the mark established on the famed beach speedway last year. The car is being tuned up and made ready for favorable racing weather.

## This Week's Opinion

By GEO. I. SEITZ, Editor TEXAS OPINION.

According to the Texas Commercial News the sales tax is "utterly without merit," except as a revenue raiser. "Nobody, except those who will receive a selfish benefit" defends it and it throws the burden of government upon the bankrupt farmer and the destitute laborer."

Aside from these objections, it is apparent that the editors of the Texas Commercial News would be quite satisfied with the sales tax.

If we may ignore the sales tax bill as submitted to the legislature by the administration (which pleases no one less than the informed proponent of taxation upon sales), examination of the purposes, intent, and practice of taxation of sales develops quite a different picture than the one offered by this Texas magazine. In the first place, the farmer would be the chief beneficiary of the sales tax. It will remove entirely the state ad-valorem tax upon his property. His sales of his farm products are wholly exempt from the levy, and, since he raises so much of his living at home, he is taxed less upon purchases than the rest of us.

The only reason under the sun that might justify agricultural opposition to the sales tax would be the possibility that it might be unfair to the laborer. And that possibility is exceedingly remote.

The "destitute" laborer, it may be assumed will buy sparingly. If he spends as much as \$800 a year, he will contribute to the government about \$16. Meanwhile, if he spends so little, he is under no necessity of supporting the national governments: that is a privilege reserved to men whose income mounts into the taxable brackets. And because of the sales tax, the concealed tax he has been paying in his rent will be reduced. We may rave and rant about the condition of the "destitute" laborer as much as we please, but the fact remains that \$16 spread over a year—and it might be observed in passing that a man who can spend \$800 a year is not quite destitute—would neither lift him out of his destitution nor yet plunge him into it.

So long as the Federal government supports itself principally by means of taxes levied against large incomes and so large as these large incomes are reached by the state by the sales tax, there is no danger that the rich or the apparently rich will escape their proper and proportionate share of the tax burden. The farmer, for whom the sales tax promises the first

## Schmeling Today

Max Schmeling, former champion, is the best heavyweight on the fist horizon today, say experts, as the result of his victory over Mickey Walker. Champion Jack Sharkey, to whom Max lost the crown, must give him a return battle or retire, say these same experts.

actual relief, certainly may not be expected to oppose it. And neither may the laborer, who asks no favors save the right to earn a wage that will enable him to assume a portion of the sales tax. In fact, opposition to the sales tax is grounded in the identical selfish interest about which the Texas Commercial News has written its story. For—and that is the reason a sales tax may be defeated—it does reach certain groups of citizens who heretofore have been signally successful in their efforts to avoid taxation.

### JUNIORS

In Study Hall, Feb. 13, 1933.  
Dear Folks:

We are just dropping you a few lines to let you know how we are getting along and what is happening up here.

The other day John asked Jack if he believed any one could do more than one thin kat once. Guess what Jack said? None other than, "Certainly! There's Hazel Clough who can typewrite, chew gum, hum the latest songs and plan what she is going to tell the boy friend the next time she sees him—all at the same time."

In writing Spanish themes J. E. Pendleton put the class wise to what he does. Listen, girls, he cleans house on Monday and plays the piano on Saturday. What a man!

Virginia Atkinson politely fished for a grade in Spanish for she expressed the desire in her theme to become a Spanish teacher.

In case it snows any more and you should like to go sleigh riding, if you should desire helpful hints for the ride see:

Inez Campbell—to tell you how to dress both beautifully and comfortably for the ride.

John West—to drive the car that pulls the sled (See if you don't get spilled out).

Arthur Laney—to tell you how to fall off the sled on making corners. (Rosalin Houser and Billie True Hill know something of this also.)

Jerry Kethley—to tell you how cold your ears get and how it feels to fall in the snow on your ear.

Mattie Mae Collins—to laugh for you when you fall off the sled.

But, just the same, no matter what happens, whether it's frozen feet, ears or noses, it's loads of fun!

Most of us were over at Gorie at the basket ball tournament and did our boys and girls play swell games? Well, I reckon. John West and Earl Nichols are as good in basket ball as they are in foot bal. Well you see they're members of "our class".

It's high time we got to studying this dreadful old proposition about circles in Geometry. Lets see—what is a circle anyway?

Yours truly,  
The Juniors.

### RIGSBY'S ROUND-UP

So that ended the basket ball season. The tournament was one of much interest to all the fans. Say, Gorie rather walked off with the whole business. The Munday Moguls succeeded in defeating the Gilliland team in the first play-off. The Moguls were defeated in the semi-finals by Gorie to the score of 34-21.

The Girls and Junior boys played nice basketball games but they did not play hard enough. Gorie won first place in all three divisions.

Johnnie West seems to have caught the disease Moco Rigby has of shooting at the evering goal. He took a free pitch for Gilliland Friday night but, thanks to Johnnie, he didn't make it.

The class tournament will come off pretty soon, so everyone must see these games, as it will show which class in the school has the best basket ball team.

Fans, remember county meet is

#### DEATH ON WHEELS.

Three hundred and twenty-five thousand Americans have been killed in motor car accidents in the past fifteen years. That is more than the total number of American soldiers killed in the Great War. Last year, according to carefully compiled statistics kept by the Travelers Insurance Company, there were twenty-nine thousand motor vehicles deaths. This is a reduction from the thirty-three thousand five hundred deaths from this cause in 1931, but it must be remembered that there were a great many fewer cars on the road last year than there were the year before. Every death of this kind is a senseless, useless waste of life for no good purpose.

It is not enough to say that fatal accidents are the fault of careless drivers; the situation calls for some way of insuring against carelessness in driving. The best insurance of this is requiring everyone who drives a car to be licensed, after a rigid examination into their ability to drive carefully, and then to enforce strictly the laws forbidding unlicensed drivers to sit behind a steering wheel and punishing the licensed driver for any accident which causes injury to persons or property. In the half dozen states in which such laws and regulations exist the proportion of automobile accidents is lower than anywhere else.

Automobile drivers are not always at fault. While 44 percent of the persons killed by automobiles last year were pedestrians who were struck by cars, nearly half of those were killed by their own carelessness, either in crossing streets against signals, crossing diagonally between intersections, or stepping out into traffic from behind parked cars.

No sane person would think of letting a boy or girl handle firearms without making sure that they thoroughly understood the danger inherent in their use and knew perfectly well how to handle them. But people who shudder at the idea of giving children firearms to play with let them run automobiles without any evidence that they have the necessary skill and presence of mind and intelligence to handle them safely. Ten times as many people are killed every year by automobile accidents as are killed by the accidental discharge of firearms. We have not yet learned how to control the motor car.

A fire started in the Plaza Hotel in Anson about 8 o'clock Sunday night and the Stamford fire department was called when the blaze spread to surrounding buildings and threatened to reach R.B. Spencer and was under control, however, before the Stamford fire fighters arrived on the scene.

The plaza hotel was an old two storied frame building which was erected when the railroad was first built through Anson, and which was completely destroyed. The Williams but recently vacated. The hotel was blacksmith shop and an adjoining feed store were also badly damaged. Stamford American.

The price of a cut of cherry pie ....

When dining out the meal is usually tapered off with a cut of pie... it's the natural thing to do. Besides, 10 cents is not big money to satisfy a sweet tooth—unless you have stopped to reckon with the purchasing power of a penny.

For this same dime you spend for cherry pie, you can cook 10 good dinners with natural gas; or heat enough water for 20 baths; or operate a gas refrigerator for more than three days. By simple comparisons you will agree that natural gas service is the cheapest thing you buy or use.

### PROGRESS AND POWER

Present-day industrial progress of small communities is based in a large measure on ample and economical power facilities which deliver a practically unlimited power supply at once—when and where needed.

Small local plants, serving single communities, generally lack these facilities—lack the variety of volume and demand which is necessary if the road to industrial growth is not to be blocked.

The transmission system, which has resulted from a group of towns pooling their power requirements and resources, can deliver this power easily, economically, at any time or place.

Progress and Power go hand in hand in the small city—and the West Texas Utilities Company is aiding this desired progress in 125 alert cities and towns in West Texas, the "Land of Opportunity."

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule... and adds only a small amount to your total bill?

West Texas Utilities Company

# SOCIETY

**Monday Night Club Entertained Chapman Home**  
Mrs. W. H. Chapman was hostess to the Monday Night Bridge club, Mr. and Mrs. W. R. Moore holding high score at the conclusion of the games.  
Cherry pie and coffee were served Messrs and Mmes. H. A. Pendleton, J. D. Kethley, W. R. Moore, F. S. Broach, Tom Haney and Mr. and Mrs. Chapman.

**Mrs. U. R. Houser Hostess Wednesday Club**  
The Wednesday Bridge club met this week with Mrs. U. R. Houser hostess. Mrs. C. L. Mayes made high score among the club members with Mrs. H. A. Pendleton winning guest high.

A delicious fruit salad and angel-food cake were served Mmes. E. H. Bauman, F. S. Broach, T. G. Bengel, W. H. Atkinson, C. L. Mayes, Joe Davis, H. A. Pendleton and Cecil Jennings.

**Mrs. F. S. Broach Entertains Club**  
Wednesday afternoon of last week Mrs. F. S. Broach entertained the Wednesday Bridge club, using violets in profusion as floral decoration.  
Refreshments of angel food-strawberry cake and coffee were served after the games to the following members and guests: Mmes. U. R. Houser, C. L. Mayes, Joe Davis, W. H. Atkinson, T. G. Bengel, W. H. Chapman, Russel Matson, Whit Smith, H. A. Pendleton, Tom Haney and Louise Ingram.

**Miss Hazel Clough Entertains Club**  
La Clava de Ocho met at the home of Miss Hazel Clough Wednesday afternoon, bridge was played and Miss Inez Campbell won high score, while Miss Geraldine Burnison held low.  
A delicious salad, with angel-food cake and coffee was served Misses Virginia Atkinson, Geraldine Burnison, Inez Campbell, Dorothy Camp-

## ODD—BUT TRUE

THANKS FOR TH' SAMPLES, SIR— BUT I AIN'T THIRSTY ANY MORE!

THESE ARE THE BEST KNOWN MOVIE ACTORS IN THE WORLD TODAY

IN HAVANA IS A WINE SHOP WHERE YOU ARE ALLOWED TO SAMPLE ITS SIXTY ODD BRANDS OF WINE BEFORE BUYING

bell, Billie True Hill Rosalin, Houser, Mildred Moore, Maxine Lane and the hostess.

**Recent Bride Honoree at Party**  
Miss Louise Atkinson entertained at her home Tuesday afternoon with a bridge party honoring Mrs. L. D. Pruitt, Jr., who before her marriage was Miss Madeline Craig.

Following the games Mrs. Pruitt was presented a lovely water and tea service of crystal, gift of those present.  
Strawberry tarts topped with cream and coffee were served Misses Louise Aycock, Lela Brock, Jeanette Campbell, Hazel Deane Eiland, Maxie Jones and Maxine Pendleton; Mmes. Joe Aycock, Virgil Craig, Joe Mayes, Earl Holt of Abilene, the honoree and hostess.

**La Clava de Ocho Enjoys Sleigh Ride**  
La Clava de Ocho met at the home of Miss Dorothy Campbell Wednesday afternoon of last week, but instead of playing bridge the members of the club went sleigh riding. For some this sport proved to be a very cold entertainment, for others it was amusing until the next day. Inez Campbell was using cough drops and pillows.

A delicious salad and coffee was served Misses Virginia Atkinson, Inez Campbell, Hazel Clough, Mildred Moore, Geraldine Burnison, Billie True Hill, Rosalin Houser and the hostess. —Reporter.

### THIS WEEK'S OPINION

(Continued from front page.)  
Redistricting gets off to a bad start. The veteran senator from Elkhart, the honorable Julian P. Greer, has introduced another bill which promises to extend, even farther his reputation as a trouble maker.

His bill would do some amazing things, for instance, in the middle of great congressional sea defined as his 7th district, he places an island (Harris County) and calls it the 8th.

Then the senator blows hot and cold. To some 100,000 people in his 17th, he gives one congressman; he is the magnanimous Senator Greer. But to the 294,000 people in his 19th, he gives no more and the magnanimous Senator Greer becomes the niggardly Senator Greer.

He permits each group of 262,000 real "down east" Texans to name a congressman; but in West and Southwest Texas he can not spare a representative to less than 271,000 citizens. (These figures are obtained by averaging the populations in his East Texas districts numbered 1, 2, 3, and 21, and his West and Southwest Texas districts numbered 10, 14, 18, and 19.)

Some of his districts are grotesque—if not worse. His 16th, for example, is a sway-backed monstrosity that begins at the mouth of the Rio Grande and loses itself in the sheep and cattle ranges of latitudes lying north of the State capitol.

Nor is that all. He plays a mischievous trick upon the much-loved Congressman Joseph J. Mansfield. From the district now served by this man, who is chairman of the powerful Rivers and Harbors Committee of the House of Representatives, he takes certain parts and substitutes others; counties in which Mr. Mansfield is strong are removed from his district, and counties in which he is weak are moved in. One would be almost suspicious that the senator harbored some grievance against the Congressman from Columbus.

**How to play Bridge AUCTION and CONTRACT**  
by Wynne Ferguson  
Author of "PRACTICAL AUCTION BIDDING"

Copyright, 1931, by Hoyle, Jr.

ARTICLE No. 20

"Don't judge by results" is a mighty good slogan and one that should be applied at all times. Most players are apt to judge by results at Auction or Contract, rather than by analysis, and there is nothing more harmful if a player really and sincerely wishes to improve his game. Sound bidding is based on probabilities, not upon certainties. If you or any player at the table fails to make his bid, analyze the hand before deciding whether the bid was good or bad. Be sure of your facts before you criticize.

Many a bid that is defeated several tricks saves a game or rubber and may, therefore, have been perfectly justifiable. Anything can happen to a hand, even to the strongest. There is practically no hand that you will ever hold which on a high bid cannot be defeated by a freak distribution of the other

cards. Learn to analyze the various hands that come up for discussion and you will soon determine whether or not your bids or those of your fellow-players are sound.

During an evening's play there probably will be several hands that will puzzle you, and those are the hands that you should note and ponder over. One of the greatest players of the day owes his skill to just such tactics. After every game, he would study over his mistakes and those of the other players and try to figure out the proper plays and bids in each instance. All of us have not his patience, but it's a great system if tried out even with only a few hands an evening.

The following represent interesting hands that were noted by the writer during one evening's play:

**Hand No. 1**

|                   |                         |
|-------------------|-------------------------|
| Hearts—A, Q, 5, 2 | Clubs—K, 9, 5, 4, 3     |
| Diamonds—A, 4, 3  | Clubs—none              |
| Spades—A, K, J, 5 | Diamonds—9, 8           |
|                   | Spades—Q, 9, 7, 6, 4, 2 |

**Hand No. 2**

|                         |                      |
|-------------------------|----------------------|
| Hearts—Q, J, 5          | Hearts—A, 8, 4       |
| Clubs—J, 6              | Clubs—10, 6, 2       |
| Diamonds—J, 8           | Diamonds—10, 6, 4, 4 |
| Spades—K, Q, J, 9, 5, 2 | Spades—10, 7, 6, 4   |

**Hand No. 3**

|                   |                    |
|-------------------|--------------------|
| Hearts—A, Q, 5, 2 | Hearts—10, 9, 8, 6 |
| Clubs—J, 6        | Clubs—Q, 9, 8, 4   |
| Diamonds—A, 4, 3  | Diamonds—3, 2      |
| Spades—A, K, J, 5 | Spades—J, 5, 3     |

**AUCTION BIDDING:**  
No score, first game. B dealt and bid one no trump. B and Z passed and A bid two spades. Y doubled, B passed and Z bid three hearts. All passed and A opened the king of spades, which Z won with the ace. He then led the deuce of hearts. A played the Jack, Y the king and B won the trick with the ace. B now led a spade and Z discarded the deuce of diamonds. This was a very smart play as it enabled Z to win the game as all he had to lose was one more heart trick. This hand is a perfect example of the wonderful results obtained by use of the Informatory double. A close study of this hand, of the various plays and bids, will not only be interesting, but also very instructive.

**CONTRACT BIDDING:**  
Y should bid two diamonds and Z should bid two no trumps, the minimum response. A should pass and Y should now bid three clubs. Z should now bid four diamonds and Y should bid five diamonds. It should be evident that Y can make game at diamonds as they should lose only two heart tricks.

**Hand No. 3**

|                    |                    |
|--------------------|--------------------|
| Hearts—A, Q, J, 5  | Hearts—10, 9, 8, 6 |
| Clubs—K, 6, 2      | Clubs—Q, 9, 8, 4   |
| Diamonds—J, 10, 4  | Diamonds—3, 2      |
| Spades—Q, 10, 7, 4 | Spades—J, 5, 3     |

**AUCTION BIDDING:**  
No score, first game. Z dealt and elected to bid one no trump. All passed and A proceeded to lead diamonds, winning the first five tricks. This hand is interesting because, if Z had bid spades instead of no trump, he could have made game. It looks like a better chance for game at no trump, however, so Z's bid cannot be justifiably criticized. A made a good play by refusing to bid diamonds, having the lead at no trump. If he had bid the diamonds, Z would then have bid the spades and game game. The lesson to learn from A's tactics: Don't overbid a no trump on your right if you have a set-up suit on one hand and a long suit on the other hand. To bid under such conditions shows the hand and often drives him to another game bid, as in this example.

**CONTRACT BIDDING:**  
Z should bid one spade. One of the lessons learned by Contract players, as distinguished from Auction players, is to prefer a suit bid to no trump if the suit is in any way a sound bid. In this instance the spade suit is a sound bid and, therefore, preferred to the no trump. A should bid two diamonds, and Y should bid three spades. B must pass and Z should bid four spades, which can be made against any defense. As previously mentioned, the foregoing hands were selected during one evening's play and illustrate the writer's suggestions as to study of hands. If players would analyze even one hand at night, they would be surprised at the good results obtained.

## Roxy Theatre

Munday, Texas

Friday Night and Saturday Matinee

Buck Jones in
