Tom Keene in

"CROSSFIRE"

It's a knock-out Western. Short subjects—"Mickey's Whoopie Party and Match Kid."

Saturday Night "SOLDIERS OF THE STORM"

with Regis Toomey and Anita Page. Two reel comedy, "Room Mates."

Sunday Matinee, Monday and Tuesday

Janet Gaynor, Henry Garat in

"ADORABLE"

We think you will like 'Adorable.' It's different from the other Gaynor pictures. Also good short subjects.

Wednesday and Thursday

Bebe Daniels and Randolph Scott in

"THE COCKTAIL HOUR"

Reports on this picture is that it is an unusually good comedy drama. Vitaphone shorts.

ECONOMIC HIGHLIGHTS

As the NRA campaign entered the middle of its third week, enthusiasm was undiminished, pledges continued to pour in. While troubles have put in their appearance and the campaign is obviously touching its most crucial point, spokesmen are as confident as ever in forecasting remarkable results.

The NRA blanket code has usurped the place of the trade codes in the news. The latter, however, will probably be in operation longer than the NRA, and the law, instead of public opinion only, is back of them. It is an open secret that the government is dissatisfied with trade codes progress and is making every effort to speed matters up. One of the most important, lumber, was thrown out when first sent in. Now the President has signed an approved lumber code which is expected to do much for the industry and its employes.

Minimum wages range from 23 cents an hour in the south to 40 cents in the north and west, with a 40-hour work week which may be extended to 48 hours at seasonal peak. An agency known as the Lumber Code Authority, Inc., is given the job of protecting price levels and controlling production. Every operating company will be given an allotment, and production quotas for various divisions of the industry will be arranged on the basis of consumption, including anticipated export demand. Selling price is never to be allowed to drop below the cost of production point. Underselling will be illegal. The agreement is designed to increase lumber and timber employment by 115,000 men.

The electric industry is operating under a temporary code, until the Edison Institute can obtain approval of a permanent agreement. Steel and automobile industries are bones of contention. Code officials are struggling with the problem; if worst comes to worst the government will make up codes, force them on the industries whether they like it or not. It's a case where they won't take no for an answer.

The first NRA "chiselers" are appearing. These are firms which sign the agreement, then violate it by not bringing wages to the specified minimum, keeping workers on the job for longer hours than are allowable, etc. Cases have been found where employees have protested, only to be told that if they reported violations to NRA directors, they would be discharged. General Johnson and subordinates are going after concerns falling in this classification. The law may step in. Signed NRA pledges are sent through the mails. Postmaster General Farley is considering the possibility of prosecuting employers who sign and then violate, under the postal fraud statute.

General Johnson has inaugurated a Buy New campaign, with the buying restricted to NRA members. An executive order, permitting cancellation of government contracts with manufacturers who have not come into the fold, has been issued. No new government contracts will go to non-NRA firms.

Two famous government bureaus officially died the other day. One is the Shipping Board which, with its subsidiaries, received the neat sum of \$1,000,000,000 in appropriations during its life, and had a book value of

\$288,000,000 at last report. Its functions—what were left of them—were transferred to the Department of Commerce.

Other was the Prohibition Bureau which came into being in 1920, spent \$100,000,000 in 13 years, and was involved in the loss of 250 lives. Most of the 1,500 dry agents were dismissed.

The farmer and the grain dealer found one recent government report of great interest. It was the latest crop forecast. Highlight was that the wheat crop would not be as short as had been expected, and prices dropped accordingly. Most remarkable revelation, however, was that all grain crops will be extremely short. Total will be smallest in decades.

The farm relievers are faced with one very perplexing problem—heavy hogs. The nation now has 1,000,000 expectant mother hogs, and if the birth rate is up to normal there will be a great oversupply. Probable solutions will be to encourage the marketing of small pigs by paying a higher price per cwt., and by placing a stiff processing tax against heavy hogs. To bring the supply in line with demand, it will be necessary to remove 500,000,000 pounds of pork and pork products from the markets during the remainder of this year, and 2,000,000,000 pounds next year.

A 16,561,000 bale cotton crop was forecast for the South. It is estimated that this will be reduced to 12,314,000 bales by destruction of 10,500,000 acres of cotton plants under contract with the Adjustment Administration.

STATE NEWS NOTES

The Texas Manufacturers Show which will be held at the 1933 State Fair of Texas has made arrangements for 300 Texas manufacturing concerns to show their wares to the world. The display will occupy one half of the main exhibit building.

Three new shows and the world's largest portable ride are being brought to the midway at the 1933 State Fair of Texas by the Beckman and Gerety Shows. The new ride—"the twister" weighs more than fifty tons—and is the only one on tour. Two of the new shows are now showing at the world's fair in Chicago.

Many towns of Texas will be invited to participate in the annual Dallas Day celebration at the 1933 State Fair of Texas. It has been announced by Holmes Green, director in charge of the special day. Those towns will be invited to take part in the pageant which is being planned as one of the special features of the day.

More than 10,000 entries in the Poultry Department at the State Fair of Texas, which will consist of pigeons, rabbits, bantams, 4-club poultry, turkeys, poultry and water fowls, are expected at the 1933 exposition, it has been announced by Judge J. J. Eckford, director in charge of the department. Officials expect one of the biggest poultry years in history.

More space has been sold at the State Fair of Texas for the 1933 exposition than has been sold in the past three years. It has been announced here by directors in charge of the space and concession departments. One reason for the increased demand for space is the Texas Manufacturers Show which will occupy one half of the Main Exhibit Building.

A picture to show replacement crops for plowed under cotton acres is expected to be presented at the 1933 State Fair of Texas in the agriculture department, according to directors in charge. Progress in farming since 1919 will be shown in the agriculture department and the livestock department will emphasize the importance of having utility stock on the farms of the state in order to have a balanced farm program.

Wake Up Your Liver Bile—Without Calomel

And You'll Jump Out of Bed in the Morning Rinrin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and there movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You have a thick, bad taste and your breath is foul, and often breaks out in pimples. Your head aches and you feel down and out. Your whole system is poisoned.

It takes these good, old CARTER'S LITTLE LIVER PILLS to get those two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name, Carter's Little Liver Pills on the red label. Resist a substitute. Buy at drug stores. Carter C. M. Co.

FARM AND RANCH LOANS

I wish to announce that The Munday National Farm Loan Association is now in a position to intelligently take applications for Federal Land Bank loans at 4 1/2% interest.

Also that I will take applications for Land Bank Commissioner's loans, which are based on 75% of the appraised normal value of the farm or ranch, and or chattel mortgages.

I have just had a conference with one who has the correct knowledge and information concerning both of the above kinds of loans, and feel now that I can take applications of the above kind with a maximum possibility of success, and the possibility of a minimum cost to the applicant.

WE DO OUR PART

Within a few days The Times will receive a code prescribed by our Government under which we will operate our plant, and it is generally conceded that this code, like most other codes, will call for a substantial increase in the price of all printed matter. These new prices will be uniform the country over and no printing plant will be allowed to deviate from the prices set therein.

This code will call for substantial salaries for workmen and short hours. Naturally these changes will necessitate higher prices for all work, and this is to urge our patrons to place their orders before these conditions have been put into effect.

This plant is now operating under the blanket code, as are most other concerns, and we are striving to carry out all of the terms of this agreement, but the final code adopted for the printing industry will impose certain rules that will bring about an increase in the price of all printing, so we urge that you place your order for your requirements now.

Thinking Out Loud

By J. A. K.

The election is over and it seems that all of the amendments have carried by a substantial majority. Folks just voted yes on everything.

From early reports from over West Texas it seems that Baylor county is one of the few favorable to the sale of 3.2 beer.

Now the cyclops of this column will be keeping the pathway hot between our sanctum and the postoffice looking for an invitation from O. C. Harrison to visit that hospitable old West Texas city.

Anyway, here's a little soothing information for those who are disappointed because their own county is as dry as the Sahara.

A lady in Oklahoma recently wrote

in to one of the newspapers of that state suggesting that the 3.2 beer be called "Boulder Beer."

When asked for her reasons for assigning such a name to the new and popular beverage she replied, "I am near water."

In other words, those who thirst after the amber fluid may get some consolation out of the fact that the darn-stuff's 97.8 something else, and that something is principally water.

At this distance it looks as if Munday is going to win the championship of the Wichita Valley League hands down.

The Rule aggregation, after oging into the argument for a tie with the hopefuls were eliminated without the necessity of a third game, and in these two games Munday registered a total of 34 nice vertical tallies, while the Rule lads were allowed only five.

Our next argument will be with the Hamlin Pipers. At least that's the cognomen they go by over there, according to Bowen Pope's Hamlin Herald, which publication for some

reason has referred to our hopefuls as the "Munday Meddlers."

Perhaps that name will be appreciated more fully by Hamlin fans after the final ball of the season has been thrown.

Anyway, there were some interesting games between Munday and Rule, and one of the interesting things about these games was that Rule's big catcher, Coody, is a cousin to our big catch, Jake Myers, and both are tip-top ball players.

Misses Naomi Bowden and Jewell Faulkner have returned from Chicago, where they visited the Century of Progress.

Misses Mary and Winnie Langford and Mrs. Joe Davis, accompanied by a friend from Haskell, left Munday for Chicago to visit A Century of Progress.

Tom Isbell and sisters, Misses Maud and Fannie, returned Saturday from Mineral Wells, where they have been for a major portion of the summer months.

Mrs. J. P. Kennedy arrived on Monday afternoon from Waco, and will remain in Munday during the school term, making her home with J. A. Kennedy and the boys and Miss Mildred Kenly.

Mrs. J. A. Kennedy and son, Jesse George, left on Monday morning for Austin, where Mrs. Kennedy will be connected with the office of State Comptroller Geo. H. Sheppard, while Jesse George will enter the University of Texas.

Optometrists Will Oppose Unethical Practices In Code

J. D. Kethley, local optometrist, attended a meeting of the American Optometrists association last week in Wichita Falls, at which more than fifty optometrists were present from 24 West Texas counties. Dr. E. B. Alexander of Duncan, Oklahoma, first vice-president and national organizer was the principal speaker. Mr. Kethley was accompanied by Mrs. Kethley and Mrs. H. T. Maples.

Optometrists are organizing to cooperate with the N. R. A. in hopes of cleaning up quackery and unfair practices, Mr. Kethley said.

"The public might assume that the N. R. A. would not affect us," he said, "but it will and we expect it to prove of great profit to the public, which is buying millions of dollars worth of inferior lenses and not knowing whose fault it is because they did not get perfect satisfaction from their lenses. Like all industries and professions, ours has its troubles. One of the worst is that the optical market has been flooded with inferior lenses and materials. These are offered to the public in some instances by unscrupulous people at bargain prices. We expect our code, now under consideration at Washington, to eliminate this evil.

"No profession has made greater strides in recent years than ours and a code protecting us from unscrupulous manufacturers should strengthen us in the esteem of the public. Only a few years ago, the fitting of glasses was more or less guess work. Now an examination of the eyes is virtually an exact science, thanks to modern instruments and methods. Every year the profession is learning still better methods. These advances are brought to local Optometrists by lectures and demonstrations as part of an Extension Program to be carried out by the State Optometric Association, through some meetings and clinics during the coming year."

Mr. Kethley stated that an extensive educational campaign would be conducted under the auspices of the American Optical Association and the Texas Optical Association.

At the Wichita meeting a permanent organization was formed for this section of the state with Geo. W. Spencer and A. S. Foville of Wichita Falls and J. D. Kethley of Munday as officers.

H. CLARIDGE, ADVERTISING MANAGER OF THE SALADA TEA COMPANY, INC., SAYS:

"Back in 1892 when Salada Tea was introduced into this continent, our big problem was the same as that confronting every introducer of a new product—how to create consumer interest. We decided to try newspaper advertising, and secured such satisfactory results that, as the business progressed and new territory was developed, newspapers became an essential part of our sales program.

"Our newspaper advertising has carried on without a break over a period of forty-one years, and today we are advertising, several times a week in about 600 newspapers in almost as many cities.

"We find newspapers especially adapted for our sales work because they seem to give the type of coverage needed in the sale of a food product such as ours with the most flexibility and the least waste. This year the major part of our appropriation will again go to newspaper advertising, the medium which has contributed in no small measure to making Salada Tea the largest selling tea in North America.

"Consistent advertising is always necessary, but becomes vital in times of depression, and we have increased our advertising budget by about 22 per cent since 1929.

"THIS IS NOT AN EXTRAVAGANCE, BUT THE FINEST INSURANCE WE COULD POSSIBLY BUY FOR THE PROTECTION OF OUR BUSINESS."

Bride Given Shower By Sunday School Class

On Sunday morning Mrs. Weldon Parker was given a surprise shower by the members of her Sunday School class at the Methodist church when she was greeted by the class in the classroom in the center of which was arranged a table upon which were a beautiful bouquet of flowers together with the numerous gifts. Members of the class participating in the shower were Colson McCarty, Allen Jungman, Flora Alice Haymes, Zell Spann, Betsy Green, Shirley Kethley and Wanda Pentecoff.

Miss Elizabeth Myers returned home first of the week from an extensive trip in the north, having visited Chicago, New York, Washington and into Canada.

Fewer Aches and Pains More Health and Pleasure

PAIN drags you down—physically, mentally, morally.

Why continue to endure it? Try Dr. Miles Anti-Pain Pills for Headache, Neuritis, Muscular, Rheumatic, Sciatic, and Periodic Pains. They seldom fail.

Dr. Miles Anti-Pain Pills are pleasant to take and prompt to act. They do not upset the stomach, cause constipation or leave you with a dull, depressed feeling.

Ask your druggist or any of the hundreds of thousands enthusiastic users. Probably you too can find relief.

I think all Dr. Miles medicines are wonderful, but Anti-Pain Pills are my favorite.

Mrs. Doe Blankenship, Stamford, Texas
I have used your Anti-Pain Pills only a short time, but they have given me prompt relief. They did for me in a week more than any other medicine I had taken for a year.

Phil Goller, Milwaukee, Wisconsin
I am never without Anti-Pain Pills. I think they are much better than anything else I have ever used. Sometimes when I am tired and nervous, and feel like I would go under, I take two Anti-Pain Pills and in a short time I feel like a different person.

Mrs. S. Tidbach, Stroudsburg, Pennsylvania
Your Anti-Pain Pills have been used in my home with wonderful results. I recommend them.

Maggie Belle Dudley, Vanceboro, N. C.
Your Anti-Pain Pills helped me a great deal. I have used them for years. I carry them everywhere in my purse and always keep them in the house. They have saved me a great many sick headaches.

Mrs. Jennie Neff, Corvada, Calif.

30,000 miles

"What a sweet-running motor, Jack. Is that speedometer right: 30,000 miles?"

"Sure. That's nothing for a Chevrolet. It's good for that much mileage and plenty more."

SAVE WITH A NEW CHEVROLET

That's when a low-priced car begins to show the stuff it's made of! And that's when you'll really begin to appreciate what it means to own a Chevrolet: How much better off you are, for instance, with a Fisher body—a staunch, cold, wood-and-steel* body that's built rigid and tight, and stays that way. How much money you save with a SIX—that uses the least amount of gas and oil of any full-size car. How much more economical it is to have a cushion-balanced engine, free from wearing, tearing vibration. Yes—at 30,000 miles, a Chevrolet Six owner looks back with satisfaction—on many months of saving money. And looks forward with confidence—to many tens of thousands of care-free miles to come! *Steel alone is not enough.
