Letters From Our Readers

**Ross Bates Opposes
'Brain Trust' Plan
Cotton Reduction**

The Roosevelt Administration is pledged to farm relief. Mr. Roosevelt appointed Henry A. Wallace, an Iowa editor of a farm paper and Republican, as Secretary of Agriculture and gave him the job of relieving the farmer.

Under Mr. Wallace's management the national government is leasing, (and through a government corporation, buying,) large quantities of agricultural land and taking it out of production.

The theory is that our economic ills are caused by the fact that we are producing more farm products than the United States can consume and that we should reduce production of certain basic farm products including wheat, hogs and cotton, to a place where we will be like England and Germany, and have less than enough of these important commodities.

This attitude and this doctrine is absolutely opposed to traditional policy and practice of this nation. In the past the American people have looked upon their land as their greatest source of wealth. We have always thought that we were the richest people on earth because we had more land than any other people. In the long train of years that have elapsed since this government was founded, the American farmer, the American business man, and the American laborer has expected the Autumn harvest to bring prosperity. Our vast agricultural resources were depended upon to keep the American people from descending to the living scale of the German and the Jap.

Now the brain trust and the theorists are to change all this. Prosperity is to come, not from having more than we need but from having less than enough.

For one hundred years or more we have produced each year enough cotton to supply the needs of the people of this nation, and in addition have exported and sold to people of other nations two or three times as many bales of cotton as the people at home could use.

In 1933 the South sold ten million bales of cotton in foreign countries. This cotton was sold for gold and brought new wealth to the nation. These foreigners bought more cotton than they had bought in 1932, or in any year since 1928. The indications are that if we will supply the demand they will buy even more freely than in 1934.

But the brain trust and the theorists have decided that we shall not try to supply this demand. The government is to tax everyone to the end that we, the southern cotton farmers, producing the only farm product that still has a world market, should produce less cotton in 1934 than we sold to England, France, Germany and the Japs in 1933. Eight million bales is the mark we are to shoot at. Last year the outside world bought ten million bales, and America consumed five million bales, or a total of fifteen million bales and we are told by our government to only produce eight million bales in 1934.

The foreigner refuses to buy our hogs and cattle, and cattle are lower than ever before, but the foreigner during the last year, and is still expanding, with a nice increase in price. We can sell to the foreigner for the gold and help everybody in the United States. Instead the brain trust and the theorists are starting a campaign to hire us to sell to the government for tax money the use of nearly one-half of our cotton land.

To add to the absurdity of the proceeding we must agree that we will not use this land for any gainful purpose. If we plant it in the Sudan and graze a cow and calf on the Sudan we agree not to sell the calf. If we raise a hog on it we must not give a neighbor a backbone or a side of ribs after the hog is killed.

Probably the most convincing indication, to the man in the street, that times are rapidly on their way back, is the brisk business that is being done by the automobile dealers and manufacturers. The motor industry is once more booming. People are buying cars at a rate faster than for the past three years. This clearly indicates that there is more money in the hands of the public to spend for something besides food clothing and shelter. It indicates,

moreover, a return of confidence, for people do not buy automobiles unless they feel certain they are going to be able to meet the installment payments; or if they buy for cash, they are not going to need the money to keep their families from starving.

The automobile has become a necessity to millions of Americans. Since the motor car came into general use, and the building of good roads followed its general adoption as a means of locomotion, our whole scheme of living has been changed. Business centers have greatly widened the scope of their trade, since people can now come in from greater distances to trade and deliveries can be made into areas which were practically inaccessible before. It is no longer necessary for people to live close to the places where they work. This has resulted in the wide extension of residential districts, not only in suburbs of large cities but in a great proportion of country towns as well.

Instead of classing the automobile as a luxury, therefore, some thinkers now recognize it as a necessity, and its maintenance and upkeep as an essential part of the family budget of the great majority of automobile owners. And the automobiles which people are buying now are mostly in this necessity class. That is, they are low in price and economical in operation. Never before have automobiles within the reach of ordinary folk's pocketbooks been so cheap to buy, so attractive to look at, so comfortable and safe to ride in, and so economical to operate.

THE STATE OF TEXAS:
Certificat No. 1090:
Company No. 2192.

BOARD OF INSURANCE COMMISSIONERS OF THE STATE OF TEXAS
Austin, Texas, December 11, 1933.
To Whom It May Concern:

This is to certify that PIONEER MUTUAL LIFE INSURANCE COMPANY, HASKELL, TEXAS has according to sworn statement complied with the laws of Texas as conditions precedent to its doing business in this State, and I have issued to said Company a Certificate of Authority from this office entitling it to do business in this State for the year ending February 28, 1934.

Given under my hand and seal of office at Austin, Texas, the date first above written.

E. L. Daniel,
Chairman of the Board.

NOTICE
Your bills and notes are now due. A fair crop and 10c cotton should enable you to make substantial payments on your accounts. Please do not disappoint me in this matter.
Wm. P. Farrington,
M. D.

WHAT YOU SHOULD DEMAND FOR YOUR \$5 IN 1933 CIGAR VALUE.

More than 60% choice Havanna filler—plus other choice imported tobacco.... a taste and aroma found only in higher priced cigars.... that's JOHN RUSKIN standard of value.

Don't be misled by old time brands "marked down to \$5." JOHN RUSKIN is the only cigar giving you full 1933 value for your \$5 cents.

Try a few today. You will enjoy every puff.

Save The Buds They Are Delicious

Time Lost is Money Lost
It costs money to be sick. You see it directly if your pay envelope is short. You lose out on some important work if you live on a farm or if you are one of the few who are not docked for lost time. You can't afford to show up on the job unless you are feeling fit. The boss wants results—not excuses.

How many times do Gas on Stomach, Headache, Sour Stomach, "That Tired Feeling," "That Morning After" Feeling, Neuralgia, Rheumatic, Sciatic, Muscular or Periodic Pains keep you at home or interfere with your doing a full day's work?

All these troubles are caused or made worse by too much acid in your body. To correct this condition take

ALKA-SELTZER
The New Pain Relieving, Alkalinizing, Effervescent Tablet.

It is called Alka-Seltzer because it makes a sparkling alkaline drink, and as it contains an analgesic (Acetyl-Salicylate) it first relieves the pain of everyday ailments and then by restoring the alkaline balance corrects the cause when due to excess acid. Alka-Seltzer is pleasant to take, harmless, non-laxative.

Why don't you try it? Get a drink at your drug store soda fountain for a nickel. Buy a package for home use.

Large Package 60 cents
Small Package 30 cents

POLITICAL ANNOUNCEMENTS

The Times is authorized to make the following political announcements, subject to the action of the democratic primaries:

FOR DISTRICT CLERK: MRS. ROY PHILLIPS

FOR COUNTY SUPERINTENDENT: VERNON BREWER J. D. PALMER

FOR COMMISSIONER: (Precinct No. 4) PETER LORAN D. C. OSBORNE

FOR TAX ASSESSOR-COLLECTOR: GEORGE ISBELL LEE HAYMES

FOR SHERIFF: SHANNON LAYNE

FOR COUNTY TREASURER: J. T. (TRAV) HOUSE

FOR PUBLIC WEAVER: (Precinct No. 6) D. E. HOLDER CLYDE NELSON JOHN MCMAHON KIRBY FITZGERALD

CITATION BY PUBLICATION THE STATE OF TEXAS:

To the Sheriff or any Constable of Knox County, Greeting: Mrs. May Bowden, Administratrix of the estate of S. A. Bowden, deceased, having filed in our County Court her final account of the condition of the estate of said S. A. Bowden, deceased, numbered 434 on the Probate Docket of Knox County, together with an application to be discharged from said Administration

You are hereby commanded, that by publication of this Writ for ten days in a newspaper printed in the County of Knox you give due notice to all persons interested in the Account for Final Settlement of said Estate, to appear and contest the same if they see proper to do so, at the next regular term of the Honorable County Court, to be held there-of at the Court House in the City of Benjamin this 28th day of December, A.D. 1933.

M. T. Chamberlain, Clerk, County Court of Knox County.

I hereby certify that the above and foregoing is a true and correct copy of the Original Writ now in my hands.

C. R. Elliott, Sheriff Knox County.

Miss Doris Bachman and Mrs. Virginia Cochran of Throckmorton were recent guests of Miss Louise Atkinson and Mrs. Sebern Jones.

"Design for Living"
with Frederick March, Gary Cooper, Miriam Hopkins and Edward Everett Horton. Also Vitaphone two reel musical.

Underweight Children
Need More Iron in Their Blood!

Children who are thin and pale and who lack appetite are usually suffering from a deficiency of iron. When the blood lacks iron it becomes thin and poor and fails to nourish. Then a child loses appetite and becomes still thinner and weaker—and easy prey to disease! To build up your child, give him Groves' Tasteless Chili Tonic. It contains iron which makes for rich, red blood. It also contains tasteless quinine which tends to purify the blood. These two effects make it an exceptional medicine for young and old. A few days on Groves' Tasteless Chili Tonic will work wonders in your child. It will sharpen his appetite, improve his color and build up his pep and energy and increase his resistance to disease. Groves' Tasteless Chili Tonic is pleasant to take. Children like it and it's absolutely safe for them. Contains nothing harmful. All stores sell Groves' Tasteless Chili Tonic. Get a bottle today and see how your child will benefit from it.

Mrs. E. H. Bauman and daughter, Verne Evalyn, and Mrs. E. W. McGlothlin are leaving Sunday for Mineral Wells, where they expect to spend several weeks.

Mrs. C. C. Floyd and daughters, Mrs. Steve Whinnance and Mrs. Gracie Richardson of O'Donnell were recent guests in the home of her brother, Shannon Layne, and other relatives here.

LEE WEST

May 1934 Bring You Happiness and Prosperity

The Old Year has been ushered out... the New Year has been bowed in. And with 1934 has come a new spirit—a spirit alive with courage and energy, and illuminated by a brighter aspect down the track of Recovery.

And there is reason to look into 1934 with strength renewed and hopes brightened. Such obvious factors as freer spending, rising prices and more activity in the marts of commerce indicate that there is a real and tangible basis for better feeling.

In keeping with the spirit of the season, we "resolve" for 1934 to continue our same high quality of service... we pledge ourselves to continue to work for the greatest good of this vast "Land of Opportunity" and we wish for you a happier and more remunerative year. "HAPPY NEW YEAR."

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule... and adds only a small amount to your total bill?

SPORTS DOPE

People that missed seeing some of the basketball games played during the Sunset Invitation Tournament will now have a lot to regret. In the first place, the real basketball enthusiast was able to get some idea of the teams that will be the strongest contenders for the Knox county Championship for 1934. Some allowance must be made for the teams that have not been working out a great deal since the end of the foot-ball season. There were a number of teams that will come to the forefront as soon as they get a little more practice.

One of the reasons for the success of the tournament was the smoothness with which it went off. Every game was played according to schedule. Credit must be given Mr. W. C. Kimbrough, Athletic Coach of the Sunset Consolidated School for the schedule and the way it was followed. Likewise, credit must include the coaches of the other schools for their cooperation. Nothing less than deserving appreciation can be expressed for the fine sportsmanship displayed by the representative teams on the basketball court.

For absolute impartiality and accurate calling of the games, the referee employed during the tournament is to be commended. Mr. H. Kirksey of Mankins, Texas, was the referee throughout the tournament.

First Round:
 Bomarton vs. Rochester 14-23
 Sunset vs. Knox City 11-15
 O'Brien vs. Old Glory 23-24
 Truscott vs. Munday 7-14
 Vera vs. Rochester 3-17
 Bomarton, Sunset, Truscott, O'Brien and Vera dropped into consolation competition.

First Round of Consolation:
 Bomarton vs. Sunset 12-21
 O'Brien vs. Truscott 14-29
 Vera vs. Sunset 14-27
 Rochester, Knox City, Old Glory and Munday remained in the upper bracket to fight it out for first place.

First Round in Finals for First Place:
 Old Glory vs. Munday 4-17
 Rochester vs. Knox City 16-26

I don't know whether you had noticed it or not, but things are looking a lot better around the Sunset campus. We are having our buildings painted and the flies on the main building are being built up to a level with the gym roof so as to create more draft on the stoves and keep them from smoking.

SENIORS

During the Christmas week, our sponsor, Miss Blanton gave us a theatre party. We saw the show, "Duck Soup," and after the show we were entertained with refreshments at the home of Miss Blanton. We were very sorry two of our seniors were not present, due to illness, however, the others report a very nice time.

We seniors are having a hard time after the holidays, to calm down to hard study again. Miss Blanton says we don't study, but I guess we are just naturally dumb.

Mr. Harber gives us splendid

advise as a teacher. He said never assign a problem to a class unless you can work it yourself. Then if some of the pupils ask you to work one that isn't assigned, give them a great big 'F'. He said that would teach the "little rascals" to mind their own business. I'm sure he knows, by experience.

We are very sorry to report that one of our seniors is absent on account of illness. We wish her a speedy recovery.

JUNIORS

The Juniors seem to have seen too many ball games this week end. Four girls, (including Druella, Velma, Edna and Jonel) were absent Monday, but perhaps we will make it O.K. Mr. Hughes told us he was glad we didn't die (as if we would do such a thing!).

Elvis really received that white sneed jacket, (the one we have heard so much about), for Christmas because she has it on today.

Ask Jimmy what the difference is between a modern day kiss and a kiss of the olden days—he'll tell you five minutes, but don't believe everything he says.

As usual, I've been snooping around and found that:

Elwood is still ready to bet (Yankee dimes)—and he is still looking for his hot-cha.

Miss Blanton travels by air—"air ye goin' my way?"

Mr. Hughes is increasing his vocabulary day by day. (Just take a peep at the American History papers.) Frinstance, cast your peepers on these: sympy, isistant, sympetic and penity.

SOPHOMORES

Here we are complaining again. There are more pronouns in Spanish than we Sophomores have use for (we think).

Perhaps Shakespeare wrote the wrong play or the wrong title was decided on for the play he wrote. We would like to change it to I imagine in "As You Like It."

The great speakers of our class have begun their work on the declamations.

Our favorite pest and modern Touchstone has left us. Will we miss Clyde Crume? I should say we will!

Jimnie is carrying out his resolutions fine and I think Mat is helping him, (much to the regret of Miss Leath.) Several have already broken their resolutions but who wouldn't with the thought of mid-term exams steadily approaching?

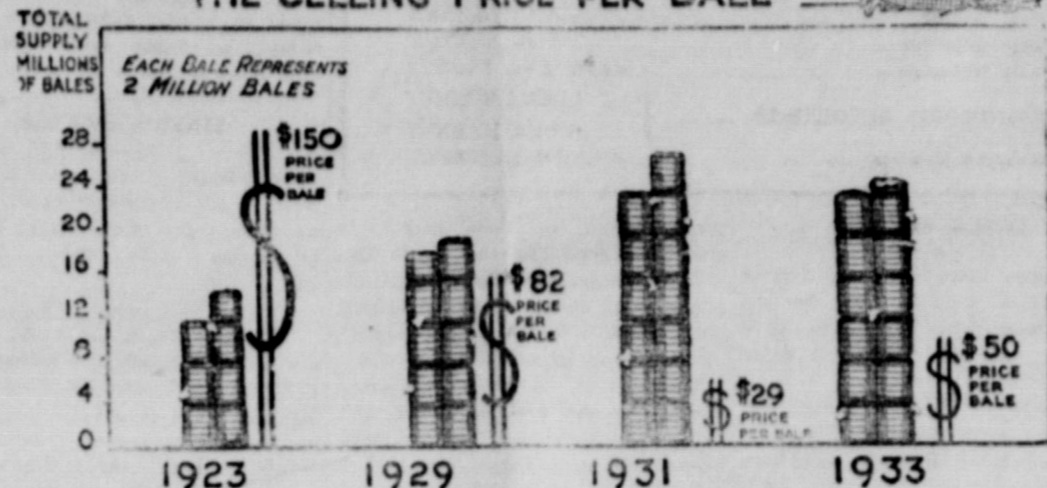

FRESHMEN

There was no special holiday this time to write about, but we had a very thrilling week-end at the basketball tournament that was held here. We are proud of the representation of the Freshmen at each game, and we are also proud of the two little Junior boys who helped on the court representing the Freshman class. We want to give you the hint, (not bragging) that if you want anything put over, just let the Freshmen in on it, and we'll put it over in a big way. We don't mean that we work on other people's ideas alone, but you would be surprised to know what Freshman original ideas we are working on now.

We are very sorry to lose two of our distinguished members, Clarence Jungman and Raymond Lawrence. Clarence, one of our humor men members, and a very valuable classman, is moving to Miles, Texas. Raymond, a prominent young basketball player and also a valuable Freshman is moving to Weibert.

More chewing gum! The other morning, J. B. walked into History class with a lump in his mouth.

THE LARGER THE SUPPLY THE SMALLER THE SELLING PRICE PER BALE

MORE cotton but less money from it. Farmers know this, but heretofore there has been no method by which they could be assured of full cooperation by all growers all over the Belt in reducing acreage. The Agricultural Adjustment Administration offers such a method now, and the grower who will cooperate will be paid for his cooperation. As a result, the whole Cotton Belt will benefit, the surplus will be reduced, and the outlook for the future will be brightened. A study of this graph should naturally cause the farmer to pause before he produces cotton in excess of consumption requirement.

Miss Leath addressed him, saying, "J. B., give me what you have in your mouth." J. B., looking rather surprised, said, "O.K., teacher, it's a toothache."

Some Freshman overheard a conversation between Mrs. Kimbrough and Mrs. Hughes. Mrs. Hughes: "I caught my husband flirting." Mrs. Kimbrough: "That's how I caught mine too."

4-H CLUB

The second meeting of the Sunset 4-H club met Tuesday, January 2, with Miss Faulkner, the home demonstration agent. As our president, Valeria Stephens has moved away, it was our first business to elect a new president. After a brief discussion by Miss Faulkner of the duties of a president, we think we made wise choice, as we elected Edna Hudson, who had failed to attend the previous, or first, meeting when the other officers were elected.

This club work not only helps the individual but it tends to show the importance of what a group, as a whole, can do. Working together is a great necessity in life, and with Miss Faulkner's splendid leadership and the ability of each individual we can carry on this working-together proposition in a splendid manner.

We want to assure others who have not joined that they are missing a real enjoyment. If you want into anything worth while, just join our 4-H Club, but we want to warn you that if you come to our meetings just for the fun of it and to fool away your time, you'll get kicked out by our club members, as we really mean business.

Our officers are now as follows:
 President—Edna Hudson.
 Vice-President—Elvis Clarke.
 Sec. Treas.—Juanita Flenniken.
 Reporter—Margaret Shannon.
 Bedroom Demonstrator—Sena Mae Davis.
 Garden Demonstrator—Helen Partridge.
 Sponsors—Mrs. R. M. Almonrode and Mrs. G. E. Davis.
 The next meeting will be held Tuesday, January 16.

HOW WOMEN CAN WIN MEN AND MEN WIN The Favor of Other Men

Unless two pints of bile juice flow daily from your liver into your bowels, your food decays in your bowels. This poisons your whole body. Movements get hard and constipated. You get yellow tongue, yellow skin, pimples, dull eyes, bad breath, bad taste, gas, dizziness, headache. You have become an ugly-looking, foul-smelling, sour-thinking person. You have lost your personal charm. Everybody wants to run from you.

But don't take salts, mineral waters, oils, laxative pills, laxative candies or chewing gums and expect them to get rid of the poison that destroys your personal charm. They can't do it, for they only move out the old and take in the new. The new that doesn't take away enough of the decayed poison. Constipation won't help at all.

Only a free flow of your bile juice will stop this decay poison in your bowels. The one mild vegetable medicine which starts a free flow of your bile juice is Carter's Little Liver Pills. No other medicine is Carter's. Only this mild vegetable extract. If you would bring back your personal charm to its own, start taking Carter's Little Liver Pills according to directions today. Stop at drug stores.

Before "something just as good" but may arise, losses, death or avoid return. Ask for Carter's Little Liver Pills, by name and get what you ask for. ©1933, C.M. Co.

This Tractor gives you a new working capacity

IT'S what you get out of a tractor that determines how profitable it is to you. When you can get, as in the new Case Model "CC," a tractor that is as well fitted for plowing, tillage and belt work as it is for planting and cultivating row crops, you've got the advantage of a new and broader usefulness.

And when you can get in that same tractor the dependable power essential to handling good-sized loads, the light weight desirable for planting and cultivating, and in addition to that, fast speeds and easy handling for quick work, you've got the qualifications that mean greater working capacity.

The rear wheels in the Model "CC" can be moved out from standard 48-inch tread for planting to various treads, up to 84 inches, for row crop planting and cultivating.

Come in and let's go over the tractor together. You'll be interested in examining its many new and practical features.

Mrs. Maxine Wulfjen of Colorado began duties as teacher in the primary department, first grade of the Munday Grammar School on Monday morning of this week.

THE MOGULS WIN SUNSET TOURNAMENT

Mr. Handgreve entered his scrapping Moguls in the invitation basketball tournament held at Sunset School during the last week-end.

SENIOR REPORT

Not much news has been seen in this column currently; the Seniors haven't been doing much to have anything said about them, or we're doing it "under cover."

Mattie Mae Collins has a new gag—Opening gates barefoot.

Myrtle Mae McNeill was born near Munday on April 23, 1917. She started her school career in Munday Grammar school in the second grade. Without throwing satirical comments, it is needless to say that she knew more than most children (yes, she was a child) some two or three years her senior.

From the very first day of her eventful school life she has been a great asset to her class. She was valedictorian of her class when graduating from the seventh grade with the class of '30.

Not only was she good at her text books but she played Junior Indoor Baseball three consecutive years. And can she wield the bat? "How ye doin' Babe Ruth?"

She, along with her colleagues, won Junior Spelling contest in the county for two years, and when we run into a stump we always go to Myrtle, a walking Webster, to find out how to spell a certain English word.

On coming to M. H. S. she has gained many friends and has a certain tendency of holding them. Along with that she was class reporter during her Sophomore year, in her Junior year she was librarian, and this year, as her senior and last year, she was elected President of the senior class.

Hobby: Reading. Sport: Football. Actor: Mickey Mouse. Song: Star Spangled Banner. Subject: Home Economics. Ambition: To get to school five minutes before the bell rings instead of after it rings.

College: Texas Tech. Story: Cimmaron. Past Time: Erasing—Expression: "Got an eraser."

the Stonewall boys could make only one field goal. In the final Saturday evening, the Moguls had the pleasure of defeating their old-time rivals, the Knox City Greyhounds, by a score of 27 to 11.

The Mogus improved constantly during the play until much of their work was spectacular. Every member of the team played fine basketball, but the work of the starting line, King, Aycock, West, Nichols and Billrey was outstanding. As a tangible reward for their work the team received a beautiful silver trophy which becomes the property of the Munday Schools.

JUNIOR REPORT

This last week we studied the life and works of Carl Sandburg, whom all of you who care for literature have heard of, and to our surprise we found that our English teacher, Miss Couch, has met this famed gentleman, and he has autographed a book for her. He is an interesting man and has a friendly character from what we read. Anyone not having heard of this man should read about him.

From his selections Miss Couch has us memorize the following stanza: The Frog The frog comes on little cat feet.

It sits looking over harbor and city on silent haunches and then moves on.

For our first semester work we have studied the lives and works of the American authors, beginning with the Mayflower. Since this has been our work we are to give an oral theme on the life of one of these men men of our own choosing. These talks will begin Monday. Some of us dread these but daily work counts here.

English, therefore, is the subject of all Junior campus talk except for these dear exams. (They might as well be called dear, it would not help to say anything else.)

WARD SCHOOL BUILDING GETS NEEDED REPAIRS

Immediately after the failure of the recent bond election, the local board of education ordered that the ward school building be repaired. Local carpenters began the work during the Christmas holidays, and it will be completed within the next few days.

The windows, especially, have been in bad condition for a number of years, and it was almost necessary to repair them in order to make some of the rooms habitable on cold days. The workmen have found it necessary to replace many of the frames and sills, and to re-petty the panes almost throughout the building. However, the carpenters are doing a thorough job of it, and when they are finished the rooms will be much more attractive and warmer.

For a number of years, on the extremely cold days, parents have kept their children at home because the rooms at school could not be properly heated. Mr. Palmer states that after the windows are repaired, as they are being repaired, there will be no occasion for students to remain at home on cold days. The rooms will be as nearly air-tight as they should be, and the stoves will heat them adequately on the coldest days.

SOPHOMORE REPORT

Mid-term exams. We'll surely be glad when they're over. However, some of us may be sad. It was announced this morning that Mr. Bass and Rupert are the official pep squad for the basketball boys. If that's the case, they should win every game.

Buddy Rayburn should get a prize for being the best boy in school for the last few days. The reason for this is that he has slept all the time.

Geometry should not be hard for us next year if Louise Ingram's definition of it is right. She told Mr. Handgreve the other day that geometry is the next twenty pages. We are enjoying the new books in the library very much.

FRESHMEN

The Freshmen will have their mid-term exams this week, and are we glad? We are starting our junior basketball team in which several freshmen will be included. Another boy in our class that is

popular with the (girls) is the new crooner, P. Edwards. The 'P.' stands for Pet, which fit him nicely. What this boy does not know about Algebra would fill a book. He has a girl he calls Hoover, I asked him why, and he said that she could stand so much 'depression.' Even though he cannot croon we think him a swell fellow anyway.

TINER'S TICKLES

You know, I hear that a young lady in our Chemistry class Friday was timed for two minutes looking at another girl's curls. Whatta gal.

"So you are in the navy. What are your prospects for promotion?" "The best in the whole navy, sir. My job is the lowest one we have."

"Here, boy," said the wealthy motorist, "I want some gasoline, and please get a move on! You'll never get anywhere in the world unless you push. Push is essential. When I was you I pushed and that got me where I am."

"Well, governor," replied the boy, "we ain't got a drop of gas in the place so I reckon you'll have to push again."

You can tell by the way nature hung man's arms that she didn't expect him to pat himself on the back.

"Work on the farm is coming fine. Got the billboard and hot-dog stand painted and the filling station is full of gas."

There was a bad fire at Jim Wilson's place last week. The blaze was put out before any damage could be done by the local fire department.

"Pa, what is a board of Education?" "When I went to school it was a pine shingle."

Lady—to floorwalker in dept. store—"Could you direct me to the ladies' room?" Floorwalker: "It's just around the corner, ma'am."

Lady: "Don't give me any of that Republican stuff, young man, it's urgent!" Friendly Warning

During nutting season each year trespassers overrun Farmer Sim's chestnut grove. Finally he got mad and wrote a letter to the department of agriculture. Soon this placard appeared on his fences: "Trespassers, beware! All persons entering these woods do so at their own risk. Common snakes are not

FRIDAY-SATURDAY SPECIALS

LETTUCE, firm heads, each 5c

PIGGLY WIGGLY

often found hereabouts, but cast-ensa dentata abounds, never giving warning of its presence."

That year farmer Sims gathered his crop in peace. Then he wrote another letter thanking the department for furnishing him with the scientific name of the chestnut.

"Why didn't you tell me you were going to make a fortune out of that mine?" "I didn't know it was loaded."

Lectures in chemistry and English have been reduced from an hour to forty-five minutes under the NRA code.

And the romance is over when the Harvard student discovers a Yale lock on his girl's door

Love is a word I dare not use For fear of jinxes and hoodoo. Love is a word that makes me quake

So often does it breed heartache— And melodrama, which I know Repels you lamentably. So I shall endeavor to deflate This impulse to articulate Which comes to every woman who Loves (pardon me) as I love you.

January Clearance SALE

We are inaugurating a clean-out, clear-out Clearance Sale on all our winter merchandise in order to make room for new stocks of spring merchandise, and while we do not have any room here to give a list of prices we urge that you come in and see for yourself that this is really a merchandising event that means the saving of many dollars to those who avail themselves of the opportunity to buy at this time. We don't carry over merchandise from season to season, and that means that we are going to clear our shelves of this big stock of goods within the next few days, so get your share of these bargains.

EVERYTHING REDUCED

This sale includes absolutely every item in our store, and you will be amazed at the drastic reductions we are making during this sale. While merchandise of almost every description is advancing in the wholesale markets, we are closing out this stock of goods at drastic reductions, and it is your opportunity to save. We urge you to come early while the stocks are complete.
