Munday, Texas, Thursday, November 8, 1934

Number 22.

TODAY and TOMORROW

By Frank Parker Stockbridge

LAND it's wonders Premier Mussolini offered prizes not long ago for every Italian family that had been working the same piece of land for 100 or more. An amazing number of Italian farmers were able to produce evidence that they were occupying the same land that their ancestors had farmed. Some of the families had been on the same land for 1,000 years, many for more than 500 years.

Yet Italy, a small, compact country which could be hidden in a corner of Texas, has not yet been able to develop its agricultural resources to their utmost, in spite of the fact that it contains as many people as New York, Illinois, Pennsylvania, Ohio, Texas and Massachusetts combined.

Prince Casano, American-trained Italian engineer who died the other day, owned most of the Pontine Marsh, between Naples and Rome. His family has owned it for 2,000 years, and for 2,000 years reclamation work has been going on there. Part of the marsh has been made lately into good farm land, but there is a hundred years' work yet to be done.

Looking at such facts and figures, I smile at the enthusiasm of those who think it possible to solve all of America's farm land problems in a few years.

HOUSES poor people I get a similar reaction from the gigantic programs of "slum clearance" and Government building of residential areas in our cities, which come out of Washington.

Again Italy furnishes a comparison. A few days ago Mussolini started the demolition of a block of old Roman houses, built originally about the beginning of Christian era. I went through one of those old houses a couple of years ago. Families were living there whose ancestors had lived in the same rooms since long before Columbus discovered America. Then I went out to the suburban hills and saw the new "garden" apartments the Government had built for the working people. They were charming in their outlook, modern in their design and equipment—but too expensive for any but the highest-paid workers to live in.

In New York the first new residential unit built as a "slum clearance" project Knickerbocker Village, has been filled up with "white collar" workers; the poor people can't afford the rents, even though this was built as a private enterprise, with the aid of Government loans.

Whenever Government itself buys or builds anything it always costs much more than when done by private enterprise. So I haven't much faith in the notion that it is going to be of any real service to the ordinary working man for Government to build beautiful apartment houses.

PEOPLE spread thin I do a good deal of motoring over country roads in the East, and once in a while I make an aeroplane trip which is the best way to really see the country. I am constantly being amazed at the immense proportion of land which is not used for anything, compared with the small area in farms and cities.

Even in what we call the thickly populated states, southern New England, New York and Pennsylvania, people are spread out so thin that they can't make use of half of the available land. After three hundred years we still have fewer people to the square mile, even in such densely populated states as Massachusetts and Rhode Island, than England has; while New York and Pennsylvania, outside of the two big cities of New York and Philadelphia, are comparatively deserted, by contrast with France and Germany.

I have a distinct belief that the country lying east of the Alleghenies could support the whole present population of the United States.

ELECTRICITY may be luxury In my farm home I have no electric lights. The power company won't run its lines up the back road unless I pay the cost of a mile of poles and wires, or guarantee to buy an exorbitant amount of current per year. My near neighbors and I get along very nicely with kerosene lamps, gas engines for our washing machines and buzz-saws, and battery-operated radio sets. An electric refrigerator would be very nice but up in New England we seldom run short of ice, mostly from our own ponds.

I think one of the principal things

Bids For New County Courthouse Asked By Commissioner's Court; Work Will Start By First of Year

"Pioneering In Knox County" To Be Given Here

"Pioneering in Knox County" will be presented by a group of twenty-six people from Benjamin Under the auspices of the Munday Study Club at the Community Auditorium, Friday evening, November 9, at 7:30 o'clock.

This play was written by Miss Constance Browning of Knox City and is directed by Mrs. W. W. Rice of Benjamin. Aside from the fact that pioneer days are portrayed in this play, the special music of the cowboys in this group is a rare treat. The square dance with Jimmie Benson calling is a scream.

Other features of the program include the choral number "By The Waters of Minnetonka," sung by a chorus of twenty-five Indian maidens, with Mrs. Louise Ingram director. These are the numbers given recently at the Woman's Forum at Wichita Falls. Tap dances and Tuckers Orchestra are other features of the program and the small admission charge will be used to furnish the newly acquired Study Club Home.

Dallas Man Heads American Gas Ass'n

Atlantic City, N.J., October 31.—National leadership of another Texan was recognized this week when the American Gas Association, convened here in 16th annual convention, elected L. B. Denning of Dallas, president of Lone Star Gas Co., vice-president of the international organization for 1935. Election to this position places the pioneer Texas natural gas man in line for President in 1936, according to precedent.

"The natural gas industry especially in the Southwest looks forward with courage despite its many problems. Its supreme aim is to deliver best possible service to customers," said Mr. Denning in accepting the election.

The American Gas Association represents one of the world's leading industries and is composed of artificial and natural gas distribution, transmission, production, and manufacturing companies in the United States and Canada. All previous heads of the association have been from the east and north, and Mr. Denning is the first to bring the office to the Southwest.

A pioneer and leader in the natural gas industry, Mr. Denning has been identified with Lone Star Gas Co. since 1909 when he organized the firm. He has served as president since 1915. It was under his direction that the company developed into the first extensive transmission system for serving small and widely separated towns in the Southwest.

Member McMurry Faculty To Offer College Courses

T. W. Harber, superintendent of the Sunset Schools, has announced that Dr. Shepherd, a member of the faculty of McMurry College, will be at the Sunset School on Tuesday evening at 7:00 o'clock for the purpose of organizing two extra courses in education. These courses, according to Mr. Harber, may be transferred to any standard college. There will be eleven courses from which to choose and all courses are advanced and carry three semester hours of credit.

These courses are designed for teachers who wish to do work toward degrees in cooperation with the new laws raising the standards of qualifications for teachers, and all teachers throughout the county who are interested are requested to be present.

Mr. and Mrs. Earl T. Williams and children of Eastland spent the week end here visiting relatives. Mr. Williams, who is publisher of the Eastland Record, expressed gratification at the opening of a bank in Eastland, since that city has been without a bank for the past three years.

Mr. and Mrs. George Salem were in Abilene Monday.

The matter with the United States is that too many people have been taught to regard as necessities of life too many things which are merely luxuries.

Bids for the construction of a new Knox County courthouse are being advertised by the Commissioner's Court this week and will be received by the Court at a meeting November 17. The structure will be built with a loan and a grant from the P.W.A. and the labor is expected to absorb many of the unemployed workers of the county. Voelcker & Dixon, Inc., of Wichita Falls are the architects. It is expected that work of removing the present structure and clearing the grounds will be started before the first of the year. The present structure was built in 1891 and is of native stone. The proposed structure will be built of brick, stone and concrete.

Labor, both skilled and common, will be given to Knox County citizens. Common labor will be paid forty cents per hour on a thirty hour week basis. Skilled labor will be paid one dollar per hour.

The building will be a three story structure with a basement and the main entrance will face south. The lower floor will house the offices of county clerk, tax assessor-collector, county treasurer, sheriff, county attorney, county superintendent, county judge, commissioner's court, home demonstration agent and an assembly room.

On the second floor will be located the district court room and offices for the district judge, district attorney, district clerk, court reporter, jury room, justice of the peace and the county engineer.

The third floor will contain the jury dormitory and the grand jury room. The basement will have storage rooms and boiler room for heating the building.—The Benjamin Post.

Rainfall Only 11.98 Inches To Date For Year

Rainfall since January 1 over the Munday county has totaled only 11.98 inches, according to a tabulation compiled by A. E. Whittemore, who for many years has kept an accurate gauge on precipitation here and has reported same to the Department of Agriculture. Mr. Whittemore's figures for the various months up to November 1, follow:

January	0.28
February	0.11
March	3.29
April	2.40
May	2.71
June	0.50
July	0.20
August	0.67
September	0.62
October	1.25

Magnolia Service Organization Has Enthusiastic Meet

More than fifty dealers and representatives of the Magnolia Petroleum Co., gathered here Wednesday evening for a banquet and sales meeting of this district, which is designated as Magnolia Club No. 2, at which representatives were present from as far west as Paducah, as far east as Bowie and as far south as Anson. Carl Quisenberry, of Seymour, president of the organization, served as toastmaster, and interesting and instructive talks were made by E. D. Kruger, assistant sales manager of Fort Worth, G. C. Witte, manager of retail sales, C. T. Dickson, Jack Edwards of the Ft. Worth office, J. W. Floyd, service station group manager and N. F. Ward, Auditor.

Mr. Kruger, who was the principal speaker of the evening, explained the process by which the new oil, designated as Clearool, is being manufactured, and explained to the audience its superiority over the oils that have been heretofore manufactured by the Socony-Vacuum organization. Mr. Kruger used a blackboard in explaining the manufacture and action of this new product under severe tests.

The banquet was prepared by the ladies of the Baptist church and served in the Klan Hall and the arrangements for the affair were made by H. C. Hawes, local Magnolia distributor, and R. B. Bowden, manager of the local Magnolia Service Station.

Music for the evening was furnished by Tucker's Orchestra and vocal numbers were rendered by Miss Onella Brock and Louise Ingram.

Mr. and Mrs. Dewey McDonald of Tahoka visited in the home of Mrs. McDonald's parents, Mr. and Mrs. J. J. Keel, the past week end.

MISS IRAH MANCHESTER

COUNTY HOME DEMONSTRATION AND 4-H CLUB EXHIBITS WILL BE HELD IN KNOX CITY NOV. 16-17th

Mrs. E. J. Shaw, 79, Knox Pioneer, Called By Death

Mrs. E. J. Shaw, 79, pioneer citizen of Munday and Knox County, died at her home in this city Tuesday afternoon following a long illness and funeral services were conducted at the Baptist Church Wednesday afternoon at 2 o'clock with the Rev. W. H. Albertson officiating. Interment was in Johnson cemetery.

Deceased was born in Fayette County, Arkansas April 16 1855 and came to Texas in her youth. She was united in marriage to J. P. Shaw in Bell County, Texas, when she was 25 years of age and to this union eight children were born, six of whom survive her. They are J. V. Shaw, Munday; Mrs. A. B. Johnson, Marlin; Mrs. Arthur Reagan, Knox City; Mrs. L. C. Guinn, Munday; Bill Shaw, Munday; and Mrs. Lyle Stodghill, Munday.

The family moved from Bell County to Jones County in the early 90's and came to Munday in 1907 and she had made her home in and near Munday continuously since that time, and her passing was the source of great sorrow to those who have known her over a long period of years.

Early in life Mrs. Shaw was converted and affiliated with the Baptist church, and her life was that of a consecrated Christian.

Farmers Union at Rhineland Will Hold Meeting Monday Eve.

A meeting for the Rhineland Farmers Union has been called for Monday evening, November 12th, at the school house at Rhineland, and not only members, but non-members and everyone interested in cotton farming is urged to attend this meeting, the object of which is to have a full discussion of the AAA program, and everyone will find a cordial welcome awaiting them.

HUTCHESON-FLOYD

Announcement has been made of the marriage on October 23 of Miss Ora Lee Floyd to Mr. Douglas Hutcheson, the ceremony having been solemnized at Walters, Oklahoma, where they were accompanied by a few close friends.

The bride is a daughter of Mr. and Mrs. L. C. Floyd of the Sunset community, where she has grown to young womanhood, and is one of the most popular members of the young social set of that community.

The groom is a son of Mr. and Mrs. W. F. Hutcheson, also of the Sunset community, and is one of the aggressive young men of that community.

The Times joins their large host of friends in wishing for them a full measure of happiness and contentment throughout their lives.

Campaign For Rural Rehabilitation Will Be Carried On In Knox County Under Direction W. A. Eichelberger

Free Cooking School Here Next Week By W.T.U. Home Expert

Miss Irah Manchester, who will conduct the West Texas Utilities free cooking school here Thursday and Friday, November 15 and 16 at the Community Auditorium, has been in charge of similar schools in all sections of the United States. She has a national reputation as an authority on Electric Cooking and she has spoken before thousands upon the subject of better food preparation.

A graduate of Home Economics, Syracuse University, and a member of the Home Economics' Bureau of Edison General Electric Appliance Company, Inc., makers of Hotpoint ranges, Miss Manchester has directed Electric Cookery Classes in many leading universities and colleges. In addition she has had charge of electric cooking schools in such cities as Albany, Ashburn and Buffalo, New York; Trenton and Newark, New Jersey; Philadelphia and Harrisburg, Pa.; Hagerstown and Baltimore, Maryland; and Milwaukee and Madison, Wisconsin.

In anticipation of her visit here, Miss Manchester has been working for some time on a series of exceptional demonstrations in Electric Cookery and she will have a number of excellent and novel recipes. In keeping with present conditions and the trend toward economical meals, she has built her school program upon a strictly economical basis.

At the same time, each dish will be well balanced and nourishing, appetizing and attractive. As a result of her extensive training and experience in the field of Electric Cookery, she will be able to offer housewives numerous up-to-date ideas in modern homemaking. Miss Manchester was brought here by the West Texas Utilities Company, distributors of Hotpoint ranges in this territory.

"We expect to bring homemakers of Munday and vicinity a program which will interest every housewife," Miss Manchester says. "We will present in dramatized fashion, new ideas in cooking and homemaking. We will show women how they may economize, how they may prepare inexpensive meals, how they may obtain more leisure for themselves, and how they may eliminate kitchen drudgery."

The program will be varied daily, and plans are now being made for an entertainment program, in addition to the demonstrations of Electric Cookery.

GILLISPIE H.D. CLUB MEETS

The Gillispie Home Demonstration Club met October 31 in the home of Mrs. E. E. Nix in an all day meeting. Ten members and four visitors enjoyed the good lunch together.

Miss Faulkner gave a demonstration on the making of cottage cheese and processed cheese, and mentioned the advantages of processed cheese over the American, both in making and in curing.

In the afternoon "The Balanced School Lunch" was given by the agent and proved very helpful. Recipes were given and ideas were exchanged between members.

Our Achievement Day Program will be held at the home of Mrs. Robert Myers, Wednesday, November 14th. We extend a cordial invitation to the public to attend. The New Hope Club members will meet with us and the work of both clubs will be given. Remember the date, the place, and come.

—Reporter.

FAMILY REUNION HELD

The Spann family gathered at Lakeside Park in Wichita Falls for a family reunion last Sunday. Those attending included O. H. Spann and family, Jno. C. Spann and family, Mrs. G. C. Spann, all of Munday; W. E. Donnell, and family of Thackerton; and Mr. and Mrs. W. D. Ford and son, Dickie of Lawton, Oklahoma, and Mrs. George Spann of Childress and Mrs. J. W. Swinney of Fort Worth.

First Baptist Church

Rev. J. D. Brannon, our District Missionary, will be with us next Sunday morning and will stay on through the following week to lead in a Sunday School Training School. We urge you to be present in the service Sunday morning. Let's make it a good week for the Church work.

W. H. Albertson.

W. A. Eichelberger, rural supervisor for the Rural Rehabilitation division of the Texas Relief Commission, arrived in Knox County first of the week and has been busy making plans for an intensive campaign in Knox County. Mr. Eichelberger also has charge of this work in Baylor and Hartman Counties, but is intensely interested in the work in Knox County, since the need of this work has been more evident over this county.

Regarding the program Mr. Eichelberger gave out the following announcement concerning details:

Program for Rural Rehabilitation in Texas

The program for the Rural Rehabilitation Division is primarily one of rehabilitation, although it is sometimes confused with relief work programs. Necessarily, some temporary or direct relief is afforded the Rural Rehabilitation client, and some work is provided through which he may pay for subsistence and necessary capital goods, but these are means to the chief end, which is to enable such clients to become self-supporting and independent of emergency relief aid. The main phases of the program being actively undertaken at this time are as follows:

1. Leasing and Repairing of Vacant Farm Houses. Vacant farm houses are being leased where materials required for making them habitable will not cost more than the appraised rental value of the house and subsistence plot. These houses and premises are put in a livable condition for occupancy by selected relief roll families. It is required that sufficient productive, tillable land be provided with each leased house under which ordinary conditions will assure sufficient food for the family and the major feed requirements for the livestock owned or needed by the Rehabilitation client. Farming activities of Rural Rehabilitation clients are not limited except in keeping with certain agreements between the A.A.A. and the F.E.R.A. Vacant houses and subsistence plots are leased for periods of three years, and where deemed profitable, an option to purchase is taken, if possible. All remuneration in the form of repairs and improvements of the landlord's property, particularly the leased plot and premises, through materials and/or labor, except in certain instances where no material are required, or all the allowable materials are not needed. Families to occupy leased places are selected by the Rural Supervisor, who is the field representative of this Division, from an approved list of clients recommended by the Case Work Department and subsequently approved by the County Rural Advisory Committee of the county of their respective residence. Such families must have previous farming experience. After the selected client is placed, certain capital goods in the form of work stock, implements, milk cows, meat hogs, poultry, feed and seed may be provided, the amount of these being determined by the Rural Supervisor, who is on the ground and familiar with all the circumstances. Careful planning and close supervision are to be given by the Rural Supervisor throughout the client's tenure. All agricultural instruction and information in connection with subsistence farming operations must be provided or approved by the vocational teacher or teachers of the county or community, or a well qualified county farm committee selected by the County Rural Advisory Committee. The agricultural information or instructions herein provided for shall be that which has been developed or approved by the Texas A. & M. College. The rehabilitation client is given the opportunity to pay for his rental, capital goods, and subsistence items in cash, or in kind or in work through labor on his own house community work centers, community market roads, and other approved Rural Rehabilitation projects. Cash payments are preferable and are required wherever possible.

Other Clients. Such assistance as is outlined in the foregoing paragraph may be rendered to duly approved clients already residing on the farm, including both tenants and landlords, who may occupy residences and land not covered by a lease, and upon which no improvements will be made. The Rural Rehabilitation Program may be extended to those farm families not yet on relief whose resources are nearly exhausted and who would soon become relief applicants. Rehabilitation in such instances may take

HOOD NEWS

There was a singing at the church Sunday evening.

Mr. J. F. Hendrix and family and Mr. and Mrs. J. A. Hendrix visited relatives at Rule Sunday.

Mr. Alvin Hord and family visited relatives at Crowell Saturday.

Mr. R. J. Melton and family of Lone Star spent Sunday with Mr. and Mrs. Harry Garrison.

Mr. Jim Railback and family and Mr. B. J. Peek and family visited Mr. Howard Peek and family Sunday.

Mr. H. L. Cannon and family left Tuesday for Haswell, New Mexico, where they will make their future home.

Mr. L. N. Lusk and family of Haskell visited Mr. Alvin Hord and family last week.

Mr. and Mrs. A. G. Jones of Swenson, Texas, visited relatives in this community last week.

Mr. and Mrs. Melvin Thompson, Mr. Elmer Hendrix and family, Mr. Jack Tidwell and family, Mr. and Mrs. R. B. Jones and Miss Lois Tidwell, Mr. Vernon Melton of Lone Star, and Mr. and Mrs. John T. Jones of Lake Creek visited in the W. J. Swain home Sunday.

Mr. Clarence Hogan and family visited Mr. Elmer Brown and family Sunday.

Mr. and Mrs. J. D. Smith, Misses Lorraine Finley and Helen Palsen visited Mr. and Mrs. W. C. Robertson and Misses Mayme and Myrtle Crouch Saturday evening.

Mr. and Mrs. Thurman Cannon and Mrs. Nellie Brown, visited relatives in Jack County last week.

Misses Lorene Hord, Lorain Finley, and Helen Palsen visited Misses Myrtle and Mayme Crouch Sunday.

Mr. L. M. Melton and family of the Sunset community have moved to Parker County. They were accompanied from here by Opal and Carl Booe who will spend a few days there with them.

Mr. and Mrs. Orville Hodson, Mr. and Mrs. Melvin Thompson, Mr. and Mrs. J. D. Smith and Mr. H. L. Cannon and family visited in the home of G. M. Roden and family Monday evening.

Mr. and Mrs. W. C. Robertson visited Mr. Jack Tidwell and family Sunday evening.

Mr. and Mrs. Thurman Cannon visited Mr. and Mrs. A. A. Brown Sunday afternoon.

Mr. I. B. Gresham and family visited Mr. W. B. Temple and family Sunday.

Charles and Aubrey, Jr., Roden and Mrs. W. B. Temple have been ill, but they are much improved at this writing.

Messrs Sid Polson and family and J. L. Weber and family of Miller Creek visited relatives in this community Sunday.

2ND WEEK NOVEMBER

Monday—Benjamin Home Demonstration Achievement program.

Tuesday—Lonestar Home Demonstration club.

Wednesday—Gillespie-New Hope Achievement Program.

Thursday—Office.

Friday—Knox City; Knox County Exhibit.

Saturday—Knox County Exhibit.

Knox County Home Demonstration Council Meets

The Knox County Home Demonstration Council met Saturday, Nov-

ember 3, with 17 women, representing 6 clubs, present.

It was decided to award the cash prizes in Knox City immediately after the judging on Friday, November 16—the first day of the Knox County Home Demonstration and 4-H Exhibit. These prizes are: 30c for first place winners, 20c for second and 10c for the third. Cash prizes will be given only on those entries listed in the yearbook. Other entries for both club members and non-club members will be judged but will be given ribbons only.

A report was read of the publicity of the clubs for September and October. This report is to be given from time to time since a prize is being offered to those reporters who have two reports in the newspapers each month this year.

Plans were discussed for an annual banquet honoring some of the outstanding workers in Farm and Home Demonstration Work in the County and a committee was appointed to make plans for such an event. Definite plans will be given out Friday, November 16.

This meeting was the last for the year 1934. The officers for the coming year, to take charge at the Council meeting in January are:

Mrs. Frank Bowley, Monday—Council Chairman.

Mrs. George Weber, Hefner—Vice Chairman.

Mrs. T. B. Ward, Benjamin—Secretary-Treasurer.

Mrs. R. M. Almonroe, Gillespie—Parliamentarian.

TOMATOES—YES AND TO SELL

"From a very small patch of tomatoes I have sold \$10.00 worth beside canning 60 quarts for home use," said Mrs. J. M. Perdue, Munday Home Demonstration Club. "I still have plenty of tomatoes and will probably sell more than I have already before frost. This is one time I am going to have all the tomatoes I can use," said Mrs. Perdue.

OKRA BRINGS IN GOOD PROFIT

"\$22.00 has been the clear profit from one row of okra across my garden and so far I am still selling okra," said Mrs. J. H. McGee, Union Grove 4-H pantry demonstrator.

Mrs. McGee stated that she began getting 10c for this okra but now it is only half that. She has another small row of okra just beginning to bear and even though the price is not so good she will sell several dollars worth before frost.

Being pantry demonstrator of the Union Grove Home Demonstration Club Mrs. McGee has organized her pantry, labeling the shelves and products and at present she has 317 containers of food on those shelves to say nothing of the food that was preserved but used during the year.

Mr. and Mrs. A. C. Brock, Mr. and Mrs. R. L. Boles and son Leroy and Miss Ozella Brock spent Sunday in Vernon visiting relatives.

Mrs. Mattie Moore is visiting in the home of relatives in Fort Worth.

Mr. and Mrs. Zeri Perdue and Mack Perdue were week end guests in the home of Mr. and Mrs. J. M. Perdue.

Dr. and Mrs. W. P. Farrington and Mr. and Mrs. J. Hargis Bann went to Austin Friday afternoon to witness the Texas-S.M.U. football game Saturday afternoon, returning home Sunday evening.

HOLIDAY MONDAY!

Can you remember the last time Munday High School observed Armistice Day as a holiday? I can't either. Unless changes occurred before this report was printed, the doors of Munday High will be closed Monday, November 12.

In case of a holiday, the football game, scheduled for Friday, will be played Monday instead. The Moguls will play Rule here at 2:30 o'clock, and the whole school will be at the game lacking time. We urge the public to come to see this game.

PROFANITY

Profanity is not only wicked, it is just plain dirty. It shocks religious people and disgusts those who are decent. That is why we object to it.

Nowadays anybody who wants to succeed, swearing will be a black mark against him in any job he may have. Nobody wants a swearer in the office, not in the workshop, not on the train, not in the hotel.

Swearing means that you don't know how to talk. Your vocabulary is limited. It is the sign of ignorance.

Forceful men whose words carry weight, use simple, plain words while swearing goes with anger, cruelty, drunkenness, licentiousness, viciousness. To show you are manly, you don't have to have a dirty face, nor black fingernails, nor greasy clothes nor tousled hair. You can be both manly and clean.

Even if you want to hurt anybody's feelings, or insult anyone in the worst way, use plain English; it hurts much more than curses.

Altogether, swearing is a useless, unclean and offensive habit—quit it!

SENIOR SCRAPBOOK

I did not think, when you came yesterday And we were talking in our usual way.

Out in the garden where the lark-springs blue Is misted by the drifts of meadow rue.

Of loving words I long had meant to say.

I noticed how your hair was turning gray— How tired your eyes; and when you went away.

I let you walk, I might have driven you— I did not think!

And as we passed a long white jasmine spray, You stooped to breathe its fragrance where it lay.

Against the wall, all glistening with dew, I let you go without that flower, too—

But I laid it in your cold, dead hand today, I did not think!

The three best editorials were picked from the papers turned in by the Seniors to Miss Couch. To show what good work the Seniors are doing, they are being printed below.

How Do You Study?

The lights are kept burning into the dark hours of the night in the homes where students of Munday High school reside on the night before examinations. These students

have either slept or laughed through their classes, and then they have driven up and down the one paved street in our small town. When they study for examinations, they are forced to "crum." They juggle ideas about until they have no definite answers. The knowledge that they so hastily cram into their frivolous heads is soon forgotten. If the students will sleep at home and laugh after school, they will be able to change their mode of studying for examinations.—Gordon James Barnes.

Better Motion Pictures

Our cry today is for better motion pictures. Parents feel that motion pictures are not exercising the right kind of influence. The young people, who are now molding their lives, are the ones who see most of the pictures, and the wrong kind of pictures could possibly influence them to the wrong kind of living. Indeed, the whole world is united in the appeal for better motion pictures.

Our cry is to be answered, for already signs of improvement are being seen. The old favorite books of the parent's childhood are being filmed into good, clean, wholesome pictures which all the family can enjoy. Too, pictures are much more enjoyable when the whole family can see them together and then discuss them after the show.—Virginia Smith.

World Fair Closes

People numbering 16,000,000 have seen the Century of Progress at Chicago this season, and it appears that there should have been some way to prevent the closing of the World Fair. However, it is closed for good. At twelve o'clock on the night of October 31, a single switch was thrown that closed the entrance gates, loosed 500,000 aerial bombs along a front stretching more than a mile along the Lake Michigan shore, and extinguished the thousands of lights that were turned on 18 months ago.

One tower of the "sky-ride" is to be left for a mooring mast and a search tower. The Mayan temple will probably be left among few other buildings. Some of the most beautiful, expensive, and elaborate buildings will be torn down.

Should these buildings be torn down? Yes, the expense has been too great to let the fair run on forever.—Vinton Tiner.

SCOTS AND MORE SCOTS

Fortunate is he who has a natural spirit of optimism.

Only two passengers had survived the shipwreck, a woman and a Scotman. By the end of their second week their clothing was in tatters, their food was exhausted, and the

Will be glad to give you an estimate on complete glasses including examination.

J. D. Kethley OPTOMETRIST

outlook was dark indeed.

"It just couldn't be worse," moaned the woman.

"Ah, but it could," said the Scotsman. "I might have bought a return ticket."

When the Scotsman's wife asked him for ten dollars to buy a new dress, he told her he couldn't give her anything but love.

Have you heard the one about the Scotch boy who killed his parents so he could go to the free picnic for orphans?

"I hear that your Scotch uncle died of heart failure."

"Yeah, he threw a penny out of the window to some boys and the string broke."

Campus Philosophy

Life is a frail moth flying, caught in the web of the years that pass. Hot chocolate was served during examinations to students at Louisiana State University. (Hint)

Women are like newspapers because: You can't believe anything they say.

They are thinner than they used to be.

They have bold face types.

They are easy to read.

They are worth looking over.

They have a great influence.

If they know anything they usually tell it.

They carry news wherever they go.

We might add, because every man should have one of his own and not run after his neighbors'.

PICKED UP AT RANDOM

I hear that a certain Sophomore girl certainly was anxious to go to Haskell Friday night and after a great commotion finally got there. Much to her disappointment she didn't get to see her boy friend except while he was playing football. Ain't love grand!

Emogene Sullivan is trying to decide what to give that certain young man at Greenville for Xmas. "Do your Christmas shopping early," is your Christmas motto, she says.

Mary Eva's Edmund kinda' trifled on her Halloween, so she didn't do anything but trifle right back. Wonder why she was so desperate

to go to Abilene Saturday?

Vernice surely was disappointed because she didn't get to go to Abilene also. You know she has a well, ask her what it is down there that is so much like a magnet.

CAN YOU IMAGINE

P. Johnson and John West being college professors?

G. R. being a poet?

W. R. and Vinton tall, dark and handsome?

Betsy and Emogene shy little girls?

Wanda refusing to go to Haskell?

Mr. Larimer a married man?

A highway between Munday and Knox City? (Who put this in, anyway?)

Miss Dolores Campbell and Miss Lorene Newsome were in Baird for the week end.

Miss Ollie Bateman spent the week end visiting her parents at Tell, Texas.

G. D. Hall of Aste, New Mexico, is visiting in the home of relatives here this week.

Harvey Lee and John Easley spent the week end in Abilene visiting friends.

Miss Jewell Faulkner was in Aspermont on business Friday.

Miss Elizabeth Mounce was in Paducah for the week end.

Dr. and Mrs. N. L. Davidson came in Tuesday afternoon from their home at Piarr, Texas, and are guests of friends here.

REAL ESTATE—I have some buyers for Knox prairie farms. Anyone wanting to sell, I will be glad to have you list your property with me.—GEORGE ISBELL, Munday, Texas.

You Need Refrigeration Every Day of the Year

There are only a few days each year that the temperature is low enough for the proper refrigeration of foods. Although foods may not spoil during cold Fall weather, the temperature is not low enough to prevent the growth of bacteria, the real danger of poor refrigeration.

The electrical refrigerator's economy and dependability of operation has been proven. The saving on foods alone makes the investment of your money amply repay you.

To protect your family's health, proper refrigeration is a necessity every day of the year. The cost is no greater than obsolete methods of refrigeration.

Low incentive rates make it possible for you to secure the maximum of benefit at the minimum of expense. Buy safe—buy dependable electrical refrigeration.

The Sunset Glow

BY THE SUNSET CONSOLIDATED SCHOOLS

Editor-in-chief VIRGINIA LANE
 Assistant Editor PETE SWANER
 Business Manager EDNA HUDSON
 Sports Writer HOWARD VOSS
 Senior Reporter DRUCILLA WREN
 Junior Reporter LOUISE BURNISON
 Sophomore Reporter MARGARET SHANNON
 Freshman Reporter FULLER SHANNON

Perhaps it would be a good idea, fantastic as it sounds, to muffle every telephone, stop every motor and halt all activity for an hour some day to give people a chance to ponder for a few minutes on what it is all about, why they are living, and what they really want.

We were happy to have you with us Halloween night. Thanks for your co-operation with the school and come back as often as you can. After the expenses of the carnival are paid, we will have around eighty dollars with which to add to our library and frame our pictures. We think that is very good, and it shows we are all working toward the same goal.

A college extension course is to be offered at Sunset in a few weeks. Definite information will be given later. If you are interested, watch the Sunset Glow for details.

Mr. T. L. Hawkins of Lone Star visited in Sunset Schools on Tuesday, November 6. We were very glad to have him. The teachers of the two schools have mutual interests since the Lone Star graduates attend high school at Sunset.

HOWARD'S EAGLE CRY

Basketball, more basketball, and most basketball. All of last Friday's games were in Sunset's favor. The girls still have a 1000 per cent standing in the league. The senior boys lost to Old Glory a few weeks ago which lowered their average. We will play Goree at Goree Friday November 9th. Weinst senior boys and girls teams will play Tomarton at Sunset Friday November 9th.

You are cordially invited to come and enjoy these games. We had music last Friday night that added very much to the enjoyment of the games. The musicians promised to come back this Friday night. Come and hear them play your favorite songs.

SENIOR REPORT

This second six weeks will soon be over. Our last school is drawing closer and closer to an end each week. Some are glad because they plan to go to college. Others have not made any plans yet, and for some of them, well, we can't tell yet. We are looking for our rings the last of this week or the first of next.

WID YOU KNOW THAT:

Elvis and Edna had something in common today? They both went skating Saturday night. I wonder what it was.

Rogers bushes worse than a girl? (Ask J.C. why.) J.C. knows more funny things than any other person in the world?

JUNIOR REPORT

Everyone seems to have had a good time at the carnival and you missed a good time if you weren't there. We will have to learn several songs by the end of this week for our Armistice Program which will be on Friday evening.

High heels, according to Bessie, were invented by a woman who had been kissed on the forehead.

According to Johnny there isn't much to be seen in a small town but what you hear makes up for it. Loree, when asked what a bore was said, "A bore is the kind of man who, when you ask him how he is, tells you."

The Juniors will be glad when they have finished studying the different cases in English because they are not at all easy to keep straight. We are about to get down to real Spanish now after reviewing for several weeks.

SOPHOMORES

A slip of the tongue can get you down quicker than a slip on a banana peel. Especially have some of the biology students found it so, as everything secretly said to his neighboring student must be revealed to the whole class. This rule tends to eliminate quite a bit of gossip about the "out of class" statements.

The new addition to our class, Carl Jenkins, seems to be proving himself a rather genial sophomore. We are glad to have Carl in our class as well as in our school.

The Sophomores are patiently awaiting the arrival of the materials for an aquarium. If you run across any available aquatic animals or plants, please turn them over to a Biology student.

Elizabeth Earp has a new permanent. We can easily agree with Cleo Pearce and Leo Gammill that it becomes her.

\$15,000.00

The E.K. sales force has placed the above amount of business on their books in the last two days. Their family group policy is becoming so attractive that people are actually coming into the office and buying it as they would merchandise. The public is becoming more and more interested in insurance which is written on an adequate rate, rather than spending their money for some cheap out-of-town insurance because it sounds cheap.

Policies written on an inadequate rate are sorry to begin with and the longer they run the sorer and more disastrous and disappointing they become.

The E.K. writes pure insurance on an adequate rate.—Advertisement.

FREE COOKING SCHOOL

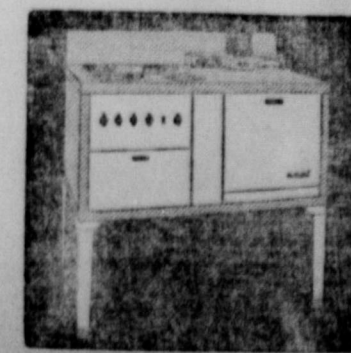

Thursday and Friday, Nov. 15 and 16 FROM 2 TO 4 P. M.

The housewives of Munday and vicinity are cordially invited to attend a Free Cooking School under the personal supervision of Miss Hah Manchester, and sponsored by the West Texas Utilities Company.

Featuring an All-Electric Kitchen

MISS HAH MANCHESTER
 Holpoint Ranges will be featured throughout the demonstration. Plan to attend these demonstrations. You are sure to profit by the new and tested recipes featuring the strictest economy.

Miss Manchester will feature an all-Electric Kitchen, emphasizing the healthfulness of proper refrigeration and stressing the superior quality of Electric Cookery. She is nationally recognized as a home economist of the highest ability, always featuring recipes that are valued in the community in which she demonstrates. Miss Manchester will feature Economy in household management, as well as tasty food for the entire family.

SOCIETY

Sunday School Class Entertains

The Amigos Sunday School Class of the Baptist Church held their annual dinner at the home of Mr. and Mrs. M. H. Reeves Friday evening.

Quartet tables were placed for guests with roses used in bud vases for the centerpiece.

Bowl of asters and sinias were placed at vantage points and gave an added attraction to the entertaining suite.

The dinner, served buffet style, consisted of baked chicken, dressing, pilot gravy, cranberry sauce, baked potatoes, canned apples, spaghetti sauce, pumpkin pie topped with cream, hot rolls and coffee.

The guest list included Messrs and Mesdames J. C. Elliott, Merle Joyce, Phil Lovell, E. B. Bowden, J. E. Brown, Riley B. Harrell, Richard Coody, Rex Hobler, Hubert Isbell, R. L. Bales, C. C. Pippin, H. G. Vickery, L. M. Palmer, Ingraham, Walter Counts, Glenn McElhlin and Jake Morris of Haskell.

Misses Mounce and Faulkner Entertain

Fall flowers were used for decorations in the A. F. Haskinson home when Miss Elizabeth Mounce and Miss Jewell Faulkner entertained with a bridge party Friday evening.

Hallowe'en was emphasized in the bridge appointments. Refreshments of hot punch and cake were served to Mesdames L. M. Palmer, Dyal Jones, Wm. Porter and Misses Maudie and Marie Dingus, Ozella Brock, Lorraine Parber, Dorothy Boone, Lillie Harris, Mary Couch, Joanne Park, Maudie Mae Bennett, Catherine Park, Evalyn Williams, Ollie Bains and Mildred Kennedy.

Home Demonstration Club Meets

The Munday Home Demonstration Club met Friday in the L. P. Jones home for an all day meeting, with a covered luncheon as the noon feature.

The making of cottage cheese was the day's objective, with a drink made of the water taken from the cheese.

Plans for an achievement program were made at this meeting.

The following attended: Mesdames Joan Ems, A. J. Bonta, Frank Sawyer, Elmer Dickerson, Ralph Weeks, Chas. Matlock, J. H. Barton, Louis Cartwright, G. L. Pruitt, Jas. B. Reness, L. W. Hubert, S. B. Kromm, Chas. Parker, J. M. Perdue, J. E. Edwards and L. P. Jones.

Mrs. Joe Davis Entertains

The Wednesday Bridge Club was entertained in the Dr. Joe Davis home Thursday with Mrs. Davis hostess.

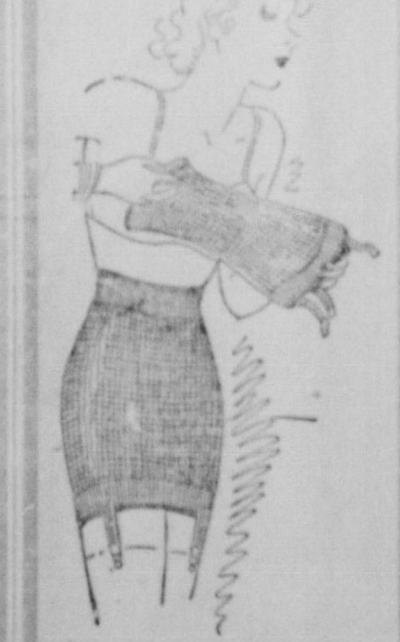

High score was held by Mrs. T. G. Benze.

Delicious refreshments of punch, sherbet and cake were served to Mesdames Chas. Mayns, T. G. Benze, W. H. Atkinson, Fred Broach, Geo. Salem, Riley B. Harrell, Wm. Taylor of Goree, with Mrs. Pitzer Baker and Mrs. W. V. Tiner as tea guests.

Methodist W.M.S. Meets

The Woman's Missionary Society of the Methodist church met Monday, November 5th—in observance of the Week of Prayer—in an all day program.

A most interesting inspirational program was rendered both in the morning and afternoon. Lunch was served in the church basement. The

'Snug-tite' by GOSSARD Expert Corsetiere

Will be in our store Saturday, November 10th, with a complete line. Come in and get a perfect fit. This service is your without additional cost. THE FAIR STORE

attendance was fine and the programs set forth our work in the Mission Specials for the year. At the close of the meeting a free-will offering amounting to \$11.58 was given to be divided among the four special: Brazil, Congo Missions, Hiding Institute at Laredo and Sue Bonnet College.

Munday Study Club Meets

The Munday Study Club met at the Club House on Friday afternoon, November 2nd.

Mrs. Leland Hannah was hostess and directed the program on Law and Order.

Mrs. G. R. Eliand gave a paper on Prison Reform, stressing Rehabilitation and re-education as outstanding points in the new Penology. Mrs. J. C. Bowden treated the subject of Dealing With Criminals in a splendid survey of the different types of criminals presenting different problems in the solution of punishment. Mrs. T. E. Dickerson gave an interesting discussion on Petty Offenses—things which are so often little emphasized.

A business session followed. Much improvement has been made on the Club House and new furniture is to be installed in the near future.

Mrs. Bowden Gives Shower For Mrs. Greer

Mrs. S. A. Bowden entertained in her home Friday afternoon honoring Mrs. O. E. Greer with a handkerchief shower. Mrs. Greer is moving to Wichita Falls to make her home.

Chrysanthemums and geraniums were used throughout the house for decorations.

Four tables of 12" was the 31 version for the afternoon.

As the conclusion of the business session a delightful social course to the following guests: Mesdames B. G. Hand, D. E. Heller, W. G. Gafford, Dave Gable, J. B. Gable, Ed Ems, G. W. Dibley, Mrs. O. E. Greer, J. C. Egan, Jess Lane, J. T. Lee, J. A. Coughren, Les Haynes, Chester Bowden, Mrs. L. E. Bowden, Miss Gladys Lee and the hostess, Mrs. O. E. Greer.

At this time Mrs. Greer was presented with a beautiful bedspread given by her Sunday School Class.

Broach and Mrs. J. D. Eastley

A salad course was served to Messrs and Mesdames W. B. Moore, J. D. Kogley, W. B. Chapman, Tom Haney, and Mrs. B. A. Pendleton and Mrs. Louise Ingram.

Sunday Nite Club in Broach Home

The Monday Nite Club met with Mr. and Mrs. Fred Broach at their home Tuesday evening.

High score was held by Fred

RURAL REHABILITATION

(Continued from Page One) the form of providing additional resources or of debt adjustment on a voluntary basis through the Farm Debt Conciliation Committee, the Farm Credit Administration, and other public or private agencies, working out either compositions of their debts or considerable extension agreements between the debtor and his creditor. This is a most important phase of agricultural rehabilitation, as much as in the matter of farm mortgages, for example, recovery for such landlors will be indefinitely prolonged unless their farms and lands in many instances are soundly refinanced and rehabilitated, or effective credit extensions are arranged. Waivers and releases of landlord's liens for rent or other debts or claims and helpful cooperation and compliance with the rural rehabilitation program on the part of such landlors and clients are also required of them.

Rural Work Centers. In many communities Rural Work Centers are to be established as a means of assisting in the rehabilitation of relief roll families, to prevent "border-line" cases from becoming relief cases, and to contribute to the general improvement and prosperity of the community. These centers may consist of one or several units, and be housed in one or more buildings. They may vary in cost from a few hundred dollars to several thousand dollars, depending upon the need, desire and financial ability of the community. In the work center, equipment for canning, sewing, mattress making, leather working, furniture making or repairing, blacksmithing, etc., may be provided. These facilities can be used by the relief roll families to repair and supplement home furnishings, and implement and tools for the farm. Food products may be conserved, and various articles produced for exchange and sale. It will afford an opportunity for skilled workmen to exchange their labor or products for food or other necessities. The general rule for constructing work centers is for the community to furnish the land and approximately one-half of the cost of the building and equipment, or the equivalent thereof, while all labor except supervision will be provided from relief rolls. However, there are to be no hard and fast rules in this particular, as our plans and regulations are intended to be so flexible as to make it possible for any interested community, with an appreciable number of worthy relief families, and/or vacant houses and subsistence land available for families to

be moved into, to secure a Federal Work Center. The most essential factors necessary to secure financial aid in establishing work centers are (1) that the community is in need of the center, and will contribute its part in materials, labor, cash and equipment to the extent of its ability; (2) that it will materially contribute to the rehabilitation of a reasonable number of approved relief clients; and (3) that it will be properly supervised, and used primarily as a Work Center by and for all citizens of the community who may desire to use it.

Rural Communities. The organized Rural Community or Farm Colonization phase of Rural Rehabilitation work has only recently been made a part of the duties and responsibilities of this Division. No detailed discussion of this matter will be attempted at this time, as the program and plans for the future of this important phase of Rural Rehabilitation have not been

fully developed and outlined by the Board of Directors of Texas Rural Communities.

Mr. Eichelberger plans a series of meetings over the county next week at which time he will be glad to answer any questions that may be asked.

Mr. Eichelberger announced Wednesday that meetings would be held at the following places on the dates named for those interested in this movement: Munday, on Wednesday evening; Goree, Tuesday evening and Knox City Thursday evening. All

of the above meetings will be held at 7:00 in the evening, and property owners are urged to attend and get full information concerning the plan. Mr. Eichelberger is an old McLennan County boyhood friend of the Times editor and is intensely interested in the work he is engaged in, which is in reality relief work, and since this program is just another one of the administration's efforts to bring permanent relief, we feel that the program should receive the hearty cooperation of the citizenship of Knox County.

McCormick-Deering Hammer Mills Grind Feed at Low Cost

WHEN you belt your tractor to a McCormick-Deering Hammer Mill your own experience will prove that you have a grinding outfit unexcelled in performance and operating economy. Three sizes of McCormick-Deering Hammer Mills are available. Ask us for a demonstration of the size you are interested in.

No. 2 Roughage Mill—A big mill, equipped with roughage self-feeder and hopper for small grain. Roughages and small grain can be ground separately or in combination. An ideal mill for grinding large quantities of feed.

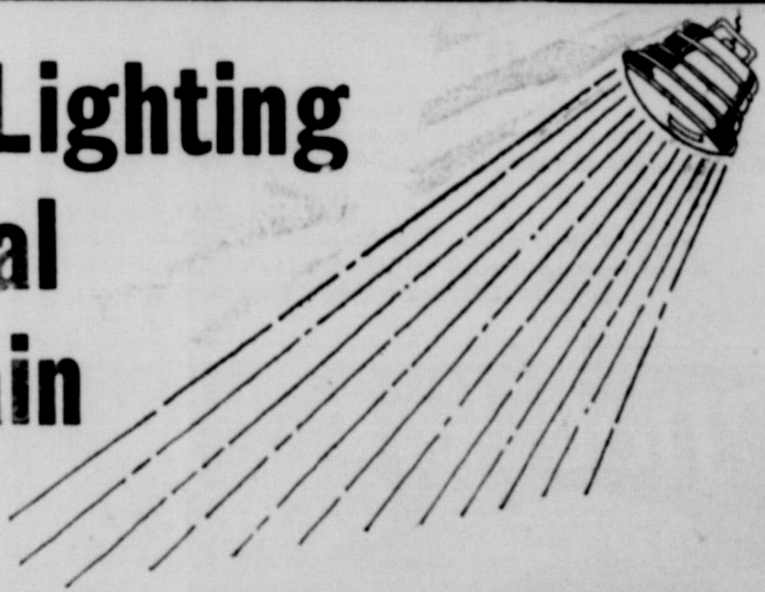

No. 1-B—A small machine but a giant in capacity, grinding from 370 to 9700 pounds of shelled corn or from 4000 to 11,500 pounds of wheat an hour—and other grains and roughages in proportion.

No. 1-A—An unusually low-priced mill with approximate capacity of from 1500 to 4200 pounds of shelled corn an hour.
