As vice chairman of the Committee on Judicial Affairs, Mr. Heatly is in charge of writing appropriations for support of the Texas Court System. The Legislative Budget Board prepares the bill appropriating funds for operation of all State Agencies for the next two YEATS.

These are important assignments because they deal with the key question of how much money the State will spend for all purposes during the ensuing two YEATS.

Mr. Heatly is well known throughout the State for his knowldege of all phases of State Government. This

Vera Native **Dies Friday**

Walter C. Boone, 82, of Porterville, Calif., passed away on Friday, December 19, in Porterville.

been on strike and about 10,000 tons of garbage are piled along the street. Even at Christmastime, mothers kept their children indoors, and strollers dodged the stench of decomposing garbage in search of cleaner streets.

So, for the departing elderly man the world seemed in pretty much of a mess.

He's had to turn affairs over to a youngster, yet--one who is not yet out of diapers. On top of all the turmoil of months past, this youngster is going to have a deal with a presidential election, a nation-wide bi-centennial celebration and a myriad of other things.

But as the old fellow quietly departed via the back door, in popped the tiny tot in diapers, also wearing a big smile and with eyes shining like the evening star.

He was greeted as "1976" and was given a rousing welcome. He didn't seem to be bothered with the mess the world is in-but as time

goes on he'll have to face up to it! Then's when he'll need help, too! That help will have

to be furnished by "we, the people". Get ready to pitch in!

Farm Mishaps Claim Many **Lives Yearly**

"Farm tractor and machinery mishaps take the lives of 800 to 1,000 people each year on our U.S. farms and ranches," Ben Bullard, Assistant Safety Director for the Texas Farm Bureau in Waco, said as he spoke to the Munday School Students, at 9:15 on December 19, at the High School sign-was designed to travel Auditorium.

The Farm Bureau hopes to aid in reducing the needless loss of life, time, and farming equipment by encouraging greater caution H. B. Green and daughters and protective equipment.

> Bullard discussed ways in which many Texas farm and ranch people have been fatally injured (30 to 50 annually) in past years. They include overturns, horseplay, speed, extra passengers and refueling accidents. He estimates that both the (1) injury rate and the (2) fatality rate could be reduced by 40 to 50 percent

ive equipment. Using model equipment, Bullard illustrated the importance of protective cabs or roll-gards, properly mounted, with seat belts. Personal protective equipment such as bump hats, gloves and snug fitting clothing were listed as being very important, too.

When on a road or highway proper lighting and markings were discussed, including SMV emblems. The SMV emblem is to be placed on the tractor, or self-propelled equipment that--by engineering de-25 MPH or less.

Maybe you just shrugged it off. Go to jail for ripping-off some small item in a store? Well, you'd better listen to the cold, clear, irrefutable facts. Shoplifting is stealing, it's a crime punishable by law. It can end your future before it's begun. If you're a juvenile it could have the most heart-breaking consequences. A police record could keep you out of college or good employment. Is it worth that?
