THE LOCAL CARWASH looked somewhat like a tornado had come through last Friday morning! During the night, a southbound semi-truck loaded with corn missed the curve on Highway 277, but didn't miss the carwash! The carwash was totally destroyed as this picture clearly shows. The driver of the truck, who was wearing his seatbelt, received only minor injuries.

The Munday ISD Board of Trustees met in a special called meeting on Tuesday, April 14, to consider final plans for a 5,000 square foot addition to the high school. After a lengthy discussion with the architect, the plans were approved.

room space at the high school. The plans also include a teacher workroom and an A.V. storage room.

Bids will be opened May 14 at 4:00 p.m. during the regular monthly meeting of the Board of Trustees. A decision will be made at that time based on the cost and the availability of funds.

Purple Cloud Band Wins Sweepstakes!

For the sixth time in the past seven years, the Munday High School Purple Cloud Band has won Sweepstakes!

The band participated in the North Zone Concert and Sightreading Contest Wednesday, April 15, at Wilbarger Auditorium in Vernon. They received first division ratings in both concert performance and sightreading. This, along with the first division rating in marching last fall, earned the band a sweepstakes rating for the year.

"I thought the band played very, very well," stated Rodney Ben-

nett, MHS band director. "I was very pleased with their performance in both concert and sightreading. Many students remarked on how easy the sightreading music was. That's because we read difficult literature throughout the year to prepare for this contest."

Other Class A schools participating in Wednesday's contest and their ratings (in concert and sightreading respectively) were: Crowell, III and III; Windthorst, II and II; Throckmorton, I and I; Knox City, III and III; Paducah, I and I; Petrolia, I and I; and Muenster, III and II.

DR. AND MRS. TERRY CARTWRIGHT AND SON, CHASE Former Benjamin Resident To Host "Roots Of Faith" Series

Dr. Terry Cartwright, minister of the Pitman Creek Church of Christ in Plano, will present a series of discussions on "Roots of Faith" beginning Wednesday, April 29 at 7:00 p.m. and continuing through Friday, May 1, in Benjamin. Topics to be discussed by Dr. Cartwright, former Benjamin resident, will include "The Beginning of Faith", "The Walk of Faith", and "The Unity of Faith".

The foundation for this series will come from St. Paul's Letter to the Ephesians and will focus on where and how faith is developed. "Many of us have been misled in believing that our faith in God comes primarily from religious training," says Cartwright. "While religious training helps us in expressing our faith, true faith comes from our day to day experiences with God and with other people of faith. That is why a community of faith is so important. My growing up years in Benjamin furnished me with many foundations and insights regarding the Christian walk. I have been asked to come back and share some of those experiences as they relate to the Bible."

As many in the area know, Terry is the son of W.T. and Jo Etta Cartwright of Benjamin. A graduate of Benjamin High School, he received a B.A. degree in New

Testament from Lubbock Christian University and an M.A. in Religion from Pepperdine University. Last May, Terry graduated from Abilene Christian University with a Doctor of Ministry degree. He has also done additional graduate work at Denver Seminary and Iliff School of Theology.

Terry, who is married to the former DeAnne Dickerson of Munday, served for several years as an associate minister with the Broadway Church of Christ in Lubbock. Then he and DeAnne moved to Lakewood, Colorado, where he served as preacher for the Lakewood church for eleven years. This past February, Terry, DeAnne and their son, Chase, moved to Plano, where he now serves as pulpit minister for the Pitman Creek Church.

Terry is known for his use of humor and his storytelling abilities to make practical application of both scripture and faith. Special music and singing will also be included each evening in the "Roots of Faith" series. Everyone is encouraged to attend.

The Lord's Corner

by Dr. Pete Bradfield, pastor
First Baptist Church

What is your favorite smell: the fragrance of rose blossoms... the aroma of chocolate chip cookies... a certain perfume?

Smell is an individual matter. One person's perfume may be another's pollution. In 2 Corinthians 2:14-16, Paul says that Christians should be giving off an inviting fragrance to those around them. And there's more to that than regular hygiene or using the right cologne, for Paul is speaking of the quality of your life.

Perfume attracts; pollution repels. Will others sense the fragrance of Christ radiating from your life: Or is your Christian life so bland that others have trouble finding anything attractive about your conversation or conduct? Or worse, is there an unpleasant odor that is turning people away?

See you next week, and remember: we must first show others what Christ is like before we can draw them to Him.

Daily Christian Living

"Love must be sincere. Hate what is evil; cling to what is good. Be devoted to one another in brotherly love. Honor one another above yourselves. Never be lacking in zeal, but keep your spiritual fervor, serving the Lord. Be joyful in hope, patient in affliction, faithful in prayer. Share with God's people who are in need. Practice hospitality." (Romans 12:9-13)

In several places in the scripture, Paul presents to his readers lists of instructions with practical application for daily Christian living. Just such a list is given in Romans 12:9-13 printed above. Paul, in this list, tells us how love should be displayed in our actions and relationships with one another. It is essential for love among Christians to be seen and not just discussed. It should be visible as well as proclaimed.

The last of the instructions in this paragraph is the call to practice hospitality. This exhortation is found in the Greek word which means literally "to love strangers". In this sense, we as Christians should be extending our love and kindness in the name of Jesus to those who come into our midst, even though we do not know them. Anyone who comes into our church should be welcomed and loved.

A special group of people in our town is the unchurched people who are in need of Christian love. Be loving to them and invite them to worship with you in your Church. Practice hospitality in the utmost Christian way.

I hope to see you in study and worship this Sunday!

"To have great poets, there must be great audiences, too."

Benjamin News

By Mrs Gladene Green

Despite the cool wind and threat of rain, a good number of folks attended the Sunrise Easter Service at the football field. (The service was moved to town from the Moorhouse Ranch due to recent rains.) Byron Putnam brought the message with pastors of all local churches taking part.

EGG HUNT

Sunday afternoon, the BVFD's annual egg hunt was held at the city park. Kids of all ages (up to about 12) joined in, each hoping to find at least one "prize egg". No way to tell how many kids were there, but it was a bunch! They really had a good time (and the adults did, too!).

ABOUT OUR ILL

Our sick friends are doing better. Sammy Pierce is out and around everyday. Was back to see his doctor Tuesday and they told him he's doing just like they want him to.

Susan Cartwright was in Wichita Falls Wednesday for some tests. Will get the results tomorrow. She says she feels o.k., just anxious to see what her doctor says.

Betty Lyles was in Oklahoma City Tuesday to see her doctor. She had knee surgery some time ago and it was time for a check up. She received a good report.

Leroy West was in Abilene Tuesday for a visit with a kidney specialist. No definite diagnosis as yet. Still more testing ahead, but he's certainly not "down".

For these friends and other with health problems, we ask your prayers.

ECONOMIC BOARD MEETS

The Committee for Economic Development met Monday night. It was decided to focus on only one project at a time and the group voted to start with beautification. Trees are to be planted and grass sown. The lots east of the city hall should take on a new look as the Sorosis Club has decided to plant grass and flowers there. As this is a focal point of the community, it seems like a good place to start.

We have some more new residents in Benjamin. Johnny and JoAnn Corley, Eric, Byron and Kayla have moved into the mobil home owned by Ernesto Estrada. The Corleys are operating the Longhorn Cafe.

Cliff, Brandi and Kayla Hacker have moved here also and purchased the mobil home formerly owned by Homer and Jan Ralston. (Brandi is the former Brandi Jones.) Cliff works with his family at the dairy northwest of Knox City.

Beta Chi Chapter Meets In Munday

(Following are the minutes of the April meeting of the Beta Chi Chapter of Delta Kappa Gamma Society International.)

The Beta Chi Chapter of Delta Kappa Gamma Society International met Sunday, April 5 at 2:30 p.m. in the First United Methodist Church in Munday.

Melodee Christian, Chairperson of the Ceremonies Committee, presented three ladies for initiation into Beta Chi. Glenda Drinnon escorted by Leslie Kupatt, Jo Ellen Jenkins escorted by Vida White and Beth Kettley escorted by Jackye Leonard were presented for active membership.

In the absence of President Maribeth Williams, Cathy Bartley, assisted by Dorothy Myers, Ann Therwhanger and Margaret Chafin, initiated the ladies into membership. The new members

were welcomed by everyone. A short business meeting followed.

Leslie Kupatt read a letter from Maribeth Williams thanking Beta Chi for the scholarship last year and requesting another for this summer. Lillian Logan made the motion to give Maribeth the scholarship. The motion was seconded by Marie Ward. All voted in favor.

Gerre Larned then presented the Red Rose Salute to Jackye Leonard for her outstanding work on the nominating committee. The April Salute was given to Marie Ward, an active member of Beta Chi for 46 years, who then related some experiences from her early years of teaching.

Delicious refreshments were served by the Munday members and the meeting was adjourned.

Thanks to the voters of Precinct One who took time to vote during the April 14th Run-Off Election for County Commissioner.

I give special thanks to those of you who gave me your vote of confidence, worked, and in any way supported me in both the Primary and Run-Off Elections.

Also thanks to each one that worked with the election. I know the re-districting of the precinct lines caused much confusion which you handled well.

I look forward to working with the people of Knox County and again I want to say I appreciate each of you for trusting in me.

Former Resident Writes About Childhood In Goree

According to Vera Holder Plimpton, growing up in the 1930's in Goree, Texas, was "just priceless". Mrs. Plimpton, former Goree resident who now resides in Waxahachie, has preserved her memories in a book entitled "The Home Place: A Sentimental Glance at the 'Good Old Days'."

Mrs. Plimpton was one of the youngest of ten children of Benjamin and Annie (Brooks) Holder. In the 1930's, the family lived on a cotton farm near Goree, where they made many happy memories.

In the beginning, Mrs. Plimpton only intended to research her family's history for her own benefit... writing a book was the farthest thing from her mind. But as her research grew and became more involved and more interesting, a book began to take

shape. While getting information was the most difficult part of writing the book, it was also one of the most enjoyable. Her main source of research was her 90-year-old uncle, her father's brother. Plimpton visited her uncle once a week for six months and obtained many gems to add to her book.

One story told by her uncle involved her grandparents shoes. It seems that their leather and wooden-soled shoes were considered so valuable that they carried them to church, put them on for the service, then cared them home again.

Mrs. Plimpton was also careful to portray her brother Carl, the youngest of the three boys, in all his mischievous glory. It seems that one of Carl's favorite pranks was to trap his sisters in the bathroom and tell them that it was the rooster who wouldn't let them out!

If you would like to read more about growing up in Goree in the 1930's and other memories from Mrs. Plimpton's family life, a copy of her book is available to be checked out at the City-County Library in Munday.

At Your Service

by Dr. Larry Fitzgerald
Minister, Munday Church of Christ

Q: Why are so many members of the churches of Christ anti-abortionists?

A: A couple of years ago a young mother came into a Christian physician's office carrying a little boy about one year old. She told the doctor that she needed help with a problem.

"You see, Doctor, my little boy is only a year old and I'm pregnant again. I don't want to have two children so close together."

"What do you want me to do?" he asked.

"Why, I'd like an abortion, of course," was her response.

The physician thought for a moment and then said, "I have an easier alternative. Why don't you

Munday Men Named To McMurry Co-ed Cheerleading Squad

McMurry University of Abilene recently announced the names of the 1992-93 school year's cheerleading squads.

The co-ed squad will consist of returning cheerleaders, Trey Gardner of Munday; Melissa Phemister, Haskell; Julie Pease, Rotan; Kelly Cummings, Abilene; and Raymond Zamora, Muleshoe. Newcomers to the squad will include Susan Tucker, Keller, Jeff Herring of Munday; Jaime Choze, El Paso; Chuck Bryant, Monahans; Greg Clark, Abilene; and incoming freshman Cassandra Mendez, Sweetwater.

Both the co-ed squad and the all girls squad began preparing their material for camp April 11 and will work periodically through the summer to be ready for competition against top squads from Texas.

Trey is the son of Mr. and Mrs. Loren Gardner of Munday. Jeff's parents are the Rickie Harrings, also of Munday.

Norris and Sandy Morgan of Ft. Worth visited her parents, Joe and Dean Morrow last weekend. Norris also visited his mother, Lala Morgan, and his brother, Gerald Morgan and family.

just let me kill the child sitting on your lap... it would be quicker and easier."

Horrified, the mother clutched her child, jumped up and called the doctor a murderer.

A few words from the doctor soon calmed the woman.

"You see," he said, "to take a life in the womb is just as much murder as taking the life once it leaves the womb. 'Thou shalt not kill' applies the same to the unborn child as to the child after birth."

This doctor's response to abortion is why Christians are against abortion as much as they are against other forms of murder. Just because the State has legalized it doesn't make it right. The Nazis legalized murdering Jews and others during World War II but that didn't make it right, either.)

The Bible indicates that unborn children are known by God (Isaiah 49:1; Jeremiah 1:5; Luke 1:41, 44; Galatians 1:15). In Job 3:11 (best translated by the KJV), the writer considered that he already had a soul "to give up" prior to his birth. Thus the Bible makes it clear that unborn children are living people with the same rights God has given to others.

Crowell Brine Lake Project

The Crowell Brine Lake public works project, critical to the salinity control of the entire Red River Basin, has been removed from the list of projects subject to be canceled at the urging of President Bush. The House Energy and Water Appropriations Subcommittee, acting on a request by Congressman Bill Sarpalius (D-Amarillo), restored the project last week.

Sarpalius met with every Democratic member of the subcommittee during the past two weeks soliciting support to retain this vital water project.

"I was able to convince each of

the subcommittee members that salt pollution in the Red River Basin and in the Panhandle of Texas is the main threat to our long-term drinking water supplies," Sarpalius said. "Fortunately, they agreed and today took this important step in removing the roadblock that President Bush had placed in the path of this project."

Sarpalius pointed out that the inclusion of Crowell Brine Lake on the President's rescission list announced March 21 not only would have canceled this project, but would have set a precedent that likely would have blocked

Removed From Critical List

any appropriations this year for the Lake Meredith Desalinization Project in the Texas Panhandle.

"I support the President in his efforts to cut unnecessary spending," Sarpalius said. "We need to spend less, but we certainly should not start with important public works projects that will assure our citizens a supply of drinkable water for generations to come."

Sarpalius said the House Appropriations full committee will consider the subcommittee actions on April 27. "I plan to continue my efforts lobbying the full committee membership during the next two weeks, and I fully expect

we will be able to retain the funding for this important project," he added.

The Red River Chloride Control Project, authorized in 1966, had been virtually dormant for a decade, until Sarpalius was successful in getting a \$5 million appropriation earmarked for the Crowell Brine Lake approved in the 101st Congress.

He was able to get another \$3 million approved for the brine lake in last year's appropriation bill, and those two appropriations represented the first construction monies ever approved for Crowell Brine Lake.

"Senator Bentsen has been an equally effective advocate for the Crowell Brine Lake in the Senate during the last three years, and I know he will work to make sure the project is protected when the Senate Appropriations Committee marks up their rescission list in the near future," Sarpalius said.

"Congressman Jim Chapman, (D-Sulphur Springs, TX) was key to our efforts to save this project and he has promised to help me protect these funds as the appropriations bill winds its way through the committee process to the House floor," Sarpalius added.

"It is my hope that President Bush and his supporters will join me in finding other areas of the budget where we can make some meaningful cuts," Sarpalius said.

HEATHER FLOYD of Norman, Oklahoma will be featured in a Senior Voice Recital April 27, presented by the School of Music at Ouachita Baptist University in Arkadelphia, Arkansas where she is a student. Miss Floyd won first place in the 1991 Mozart Aria Competition and the '92 state National Association of Teachers of Singing auditions. She is the daughter of Mr. and Mrs. Travis Floyd of Conyers, Georgia, and the granddaughter of Mrs. Willie Floyd and Mrs. Faye Johnson of Munday.

Knox County Treasurer Attends A&M Seminar

Knox County Treasurer Evelyn Balis was among the almost 200 Texas county treasurers and other staff members who took part in the 20th Annual County Treasurers' Seminar at Texas A&M University April 13-16.

State Comptroller John Sharp delivered the keynote address. Subjects discussed ranged from Depository Contracts, Investment Policies, Grants and County Records to Self Protection. More than 30 speakers addressed the seminar.

During the annual banquet, two County Treasurers Association of Texas scholarships were presented. Shelly Balis, daughter of the Knox County treasurer, was one of the recipients.

Treasurers who attended all sessions of the seminar were awarded 2.0 continuing education units (20 hours) by Texas A&M's Office of Continuing Education. The treasurers are required to complete 20 hours of educational efforts every two years according to state law.

TERMITE SEASON OCCURS IN SPRING

Subterranean termites are by far the most destructive of all wood-destroying insects. Termites strike five times as many homes as fire and do more economic damage than all tornadoes, hurricanes, and windstorms combined. They have the longest life-span of any household pests; under favorable conditions, individual termites may live up to 15 years, and colonies may exist in dwellings for considerably longer periods.

Farm and Ranch Report

By Donnie Peters

Knox County Extension Agent - Ag.
Texas Agricultural Extension Service

TIMING IMPORTANT FOR QUALITY HAY

As Knox County producers start to think about their first cutting of hay, they need to give major consideration to timing of cutting. When hay is put up in the proper stages, cattle will consume less to meet daily dietary needs and thus save cow-calf producers money by the absence of supplemental feed.

All grasses, small grains and legumes will be higher in protein and digestibility until seedheads begin to form. At that point, the plant quits making new leaves and begins a fiber buildup which reduces both digestibility and percent of crude protein.

For example, studies have shown that coastal bermuda cut at a three week interval produced 9.7 tons of hay per acre with 19 percent crude protein and 86 percent leaves. At the same time, coastal bermuda cut every 12 weeks yielded 11.6 tons per acre but crude protein dropped to 9.7 percent and leaf percentage declined to 51 percent.

Usually best coastal bermuda grass hay is the first two cuttings in May to early June. This hay will be the best quality and highest in protein.

Producers should pay close attention to the fertility level of their pastures for top quality hay production.

Research by the Texas Agricultural Experiment Station has shown that one ton of forage from nearly any grass requires about 50 pounds of nitrogen, 12 to 15 pounds of phosphorus and 40 pounds of potassium.

Nitrogen is the key element, and can produce noticeable variations in yield and protein content of coastal bermuda or other hays.

There's a better way to stay cool...

Call your cooling and heating dealer instead

The best way to stay cool this summer is to have your cooling system serviced now. A checkup by a cooling and heating dealer could help prevent a costly, uncomfortable breakdown during the heat of summer. Proper maintenance can also help reduce operating cost and extend the life of cooling equipment.

And if your present system has seen too many summers, replace it with an all season electric heat pump. Ask your dealer or WTU for details.

Crop Disaster Payments Are Finally 'In The Mail'

Congressman Bill Sarpalius (D-Amarillo) announced that the USDA-ASCS will begin mailing crop disaster payment checks this week to eligible producers. USDA will be using a national factor of 50.04% to calculate crop disaster payments.

Eligibility for crop payments is based on the yield loss suffered by farmers nationwide. "While I am pleased that some aid is finally being granted to our nation's farmers, I am disappointed and angry that the Administration has refused to recognize quality losses in this disaster program," Sarpalius said.

"Since the Administration intends to use only \$995 million of the \$1.75 billion Congress authorized for crop disaster assistance, there is not enough money to provide relief for all of the yield losses sustained by farmers. As a result, each farmer's eligible losses will be multiplied by the

national factor, 0.5004, to determine his or her payment amount.

"For the President to deny farmers payment for quality losses and to fail to use the additional \$775 million approved by Congress for the disaster program, seriously underestimates the difficulties faced by America's farmers," Sarpalius commented. "Perhaps if America's farmers were to move to a foreign country, the President could find it in his heart to use the funds authorized and increase crop disaster payments."

According to a news release from the Texas Farm Bureau, farmers without crop insurance will be paid on 60% of their losses while those producers with crop insurance will be paid on 65% of their losses. The disaster payment guidelines state that farmers must have sustained at least at 40% loss of their crop before being eligible for assistance.

Although only \$995 million was allocated for disaster assistance, total claims approach \$2 billion.
