## Announcers share memories made as "Voice of the Moguls"

A husband and his wife were sound asleep when suddenly the phone rang.

The husband picked up the phone and said, "Hello? How the heck do I know? What do I look like, a weatherman?" He then slammed the phone down and settled into bed.

"Who was that?" asked his wife.

"I don't know," said the husband, "somebody who wanted to know if the coast was clear."

This guy was applying for a job as a flagman/switch operator on the railroad. The engineer was conducting the interview.

"What would you do if the Northern Express was heading north on Track 1 and the Southern Central was heading south on Track 1?"

The guy thought, "Well, I'd call my brother."

The engineer just sat there for a second. "Why would you call your brother???"

"He's never seen a train wreck before."

*Two more memorable quotes:*

"I was provided with additional input that was radically different from the truth. I assisted in furthering that version." -- Colonel Oliver North, from his Iran-Contra testimony.

"The word 'genius' isn't applicable in football. A genius is a guy like Norman Einstein." -- Joe Theisman, NFL football quarterback & sports analyst.

Forty-eight minutes on the field - a life-time of memories. So goes the popular saying among football enthusiasts. But it's not just the players and coaches who come away from the games with memories. Family members of the players, fans, and announcers all enjoy looking back on the games and reminisce about the "good times" that happened on the field during Friday night football.

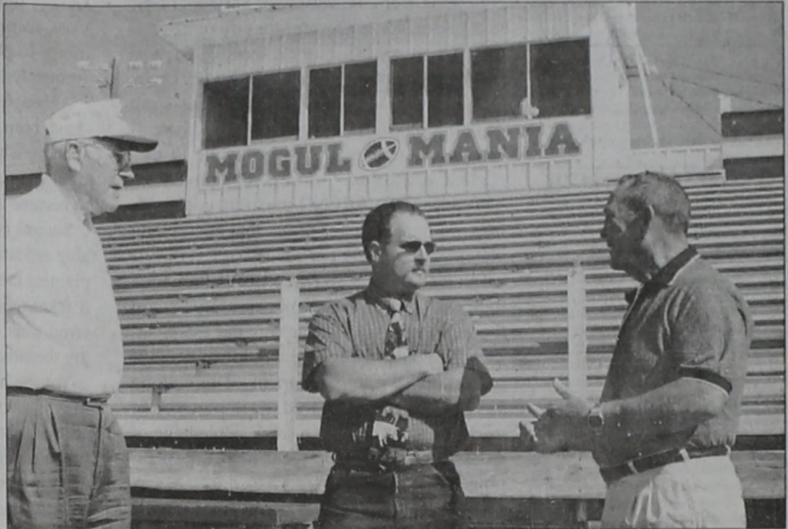

Many fans remember past Mogul greats. Kenneth Patterson, Lee Bruce, Joe Sharp, Jerry Lemley, Tony Shawver are a few of the names mentioned. Then there's Loyd Don Welch, George Offutt, Melvin Cypert, Freddie Caram, Boyd Lynn Meers, Bob Cude - they all helped make memories. And everyone remembers Dent Offutt, Todd Thompson, the Stinnett brothers, the Collier twins, Jim Earl Dockins, and many more. Ah, fall football memories!

Shortly after World War II the old wooden bleachers at Munday High's football field were also home to a wooden press box with hinged windows that sat precariously

atop the risers. There was no fence around the field. Players with meager padding and leather helmets played for pride, fun, and to make memories.

Charles Baker remembers returning to his hometown of Munday in the late 40's after a military stint in Korea. Some old fence was purchased from an army camp and installed at the field and volunteers from the community put it in its place and built a stadium. The "Quarterback Club" had rotating volunteers of 4 or 5 men who helped by announcing the play by play on a primitive P.A. system that could be heard on the home side of the field only.

During one of those games an electrical storm lit up the night sky and also the Munday businessman who was announcing the plays. While holding the microphone in his hand a large electrical shock set off the announcer who "let loose with a string of expletive's" - the bolt of lightning could be seen by the crowd and simultaneously the announcers words could be heard by all! That's was his last announcing job - another

**"VOICE OF THE MOGULS"**. Sharing memorable moments of the Mogul Press Box are Charles Baker, Rick Moeller, and Dan Sloan. Baker served from 1955-1970, followed by Sloan who announced until 1981 or '82. Moeller took over after Larry Welch and remains the announcer today.

Munday businessman took over his slot in the Quarterback Club.

Being an enthusiastic football fan can be hard on an announcer. Keeping calm seems to be the downfall of many.

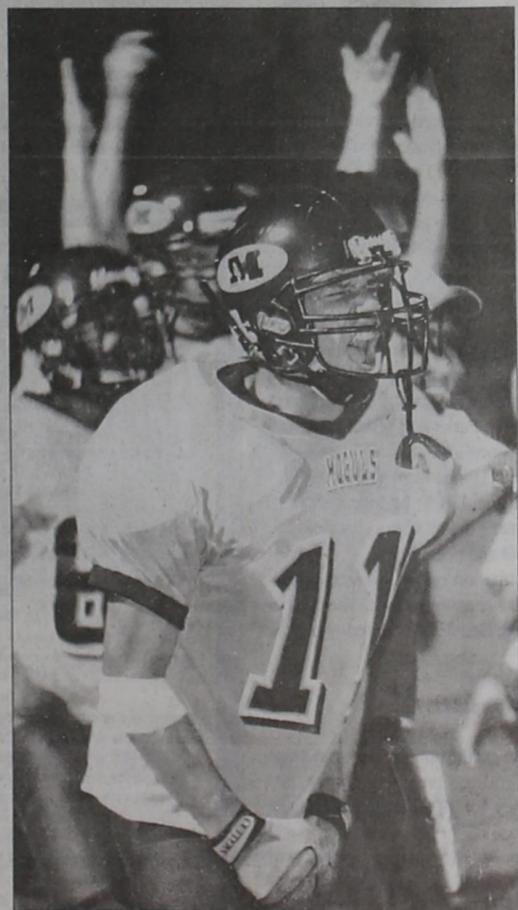

A few short years after the now famous lighting strike another announcer ended his career. It seems he was an-

nouncing and watching enthusiastically when the Mogul's center snapped the ball very high in the air - way over the punter's head. "What the \_\_\_ is he doing?" was the remark blurted out over the P.A. That well-loved, very excitable announcer quit voluntarily and announced no more!

It was in 1955 when Charles

Baker became the "Voice of the Moguls." "It's really hard to keep calm and try to keep your voice on an even keel," says the mightiest of Mogul fans. "But I have some great

### Success Comes From Within

"Success requires no explanations. Failure permits no alibis."--Jim Rohn

Most of us spend our lives in the pursuit of success. Yet, in many cases, it eludes us. Why?

One of the reasons I believe that success is so elusive is that we wouldn't recognize it even if it slapped us in the face. The point is--many of us would enjoy our success if only we would learn to appreciate what we have already accomplished, instead of dwelling on our failures.

Judging from the variety of answers I hear in my seminars, success means different things to different people--money, security, friends, health, happiness, respect. Maybe Dr. Denis Waitley's definition is optimal. "Success can be defined as the progressive day-to-day realization of goals that are worthwhile to us." (Let me add to that--"success sometimes happens even if we AREN'T pursuing goals. It's how we look at things in life that goes a long way in determining our success.)

But let's get back to Dr. Denis Waitley for a moment. The first element necessary toward the achievement of success is the establishment of goals. How else would we know if indeed we have achieved them? This column has frequently emphasized the importance of goal setting. Yet, only a small percentage of us have done it. We still spend more time planning our family vacations--or goofing off--or watching TV--than on planning our lives.

A second necessary ingredient toward the achievement of success is the ability to reach quick and definite decisions. According to Napoleon Hill in his book, "Think and Grow Rich," analyses of hundreds of wealthy individuals disclosed that all of them had the ability to reach decisions promptly and had the conviction to stick with them.

Too many of us are too easily influenced by

others' opinions. It is difficult to ride in a straight line when we allow someone else to grab the reins. Too often, we hide under the rock of procrastination, a common enemy that we must all conquer. Others of us simply don't appreciate what we HAVE accomplished--or how good life really IS.

Finally, once we have established our goals and have made the necessary decisions to facilitate them, we must be persistent in their accomplishment. Persistence is a state of mind, and consequently can be cultivated. Desire, purpose, self-reliance, organized plans, accurate knowledge, and habit all contribute to persistence and will to overcome seemingly insurmountable odds.

Although many--especially young people--have been duped into believing in instant success, it rarely happens that way. Eddie Cantor once observed, "It takes twenty years to become an overnight success."

Success is not an accident, but it is predictable and attainable. However, while you are planting the crop of success, remember that it takes time and care to effect the harvest. (And while you're waiting for the fruit--enjoy the blossoms.)

You can have almost anything you want in life--if you want it badly enough, and if you are willing to pay the price. Define it, make the necessary decisions required to achieve it, and be persistent enough to carry it through its completion. And, don't simply hold your breath for its conclusion. Appreciate the process.

## Capitol Highlight

Gubernatorial election gets 3-year head start

By Mike Cox  
Texas Press Association

AUSTIN—The gubernatorial election is more than three years down the road, but it looks like the 2006 Republican primary will be a real political brawl.

Gov. Rick Perry likely will run again, but he could face Comptroller Carole Keeton Strayhorn, Lt. Gov. David Dewhurst and U.S. Sen. Kay Bailey Hutchison. Potential Democratic gubernatorial candidates? To be announced.

For roughly a century, from Reconstruction into the late 1970s, being chosen by voters in the Democratic primary was tantamount to winning the general election against whoever the Republican candidate happened to be. (Most folks soon would have a hard time remembering.) But since Republican Dallas oilman Bill Clements got elected governor in 1978, the guarantee has been gone.

Strayhorn, as Dewhurst pointed out recently, already seems to be campaigning. She recently hired two veteran communications operatives, and the most recent issue of Fiscal Notes, a publication begun when Bob Bullock was comptroller, points out on page one that of 91 recommendations she made in two reports to the Legislature, 61 were enacted for a combined general revenue savings of \$1.3 billion.

To the great annoyance of other Republican officeholders, Strayhorn also recently pointed out that while the regular session had held to the no-new-taxes mantra, fee increases passed in lieu of tax hikes will cost Texans \$2.7 billion more in fiscal 2004-05.

September 11 memorial set...

It's hard to believe that it has been nearly two years since the September 11 terrorist attacks. At 9:30 a.m. on the second anniversary, a 9-11 memorial will be dedicated in the State Cemetery in Austin. The memorial, created by a group of Aus-

tin architects who volunteered their time, is made from two steel columns salvaged from the World Trade Center in New York. On a plaque detailing the events of that day is an excerpt from a speech by President Bush: "These acts shatter steel, but they cannot dent the steel of American resolve."

A different kind of lottery...

It doesn't get the publicity the big-dollar lottery games receive, but Texas has another lottery of sorts. For \$10 a shot (so to speak), Texas hunters can register with the Parks and Wildlife Department for no-cost, once-in-a-lifetime hunts.

The package hunts range from a three-day alligator hunt (limit one, has to be longer than 10 feet) to a bird hunter's dream with a chance to bag turkey, dove, quail and pheasant.

For more information on the drawing, check the agency's Web site at [www.tpwd.state.tx.us](http://www.tpwd.state.tx.us) or call 800-895-4248. Deadline for entering is Nov. 1.

Onions ring cash registers...

Don't tell 'em to cut the onions. They can make you cry or give you bad breath, but onions are making big money for Texas agricultural interests.

Texas is the nation's fourth-largest onion producer, growing 5.7 million hundredweight (100 pounds) of onions in 2002. Only California, Oregon and Washington, in that order, grow more onions than Texas.

The value of Texas' 2002 crop, according to the comptroller's office, was \$122 million. The value of the crop has been growing every year since 1999, along with the amount harvested. A final onion fact: Texas and California are the only two states that can produce a spring and a summer onion crop.

## THE VIEW FROM THE PULPIT

By Adrin Fletcher

It stood alone, this aged sentinel. Roots wrapped around an outcrop of stone which formed the basis of the hill itself. Leaning away from the hillside and into the wind, the mighty oak must have witnessed many generations of human activity. The scene was so powerful, I had to record it on film. My wife and I arrived in the village of Windermere, in the English Lake District, late in the afternoon. We were almost too late for the Tourist Information Bureau to find us a room. Fortunately, we were booked into a room in a lovely old home dating back to 1674. Our upstairs bedroom looked out over a beautifully tended landscape and beyond. Over the stone fence and up the steep side of the hill stood the magnificent oak tree. I took several pictures from the window and one or two from the road-side in front of the property.

Turning the other direction, I was able to just make out the glimmer of Lake Windermere over the rooftops and trees of the village. We took a short walk down into the village to reacquire ourselves with the attractions there, and to find some place to eat. Windermere had changed little since our visits almost thirty years ago, but the population has grown immensely. Where one could walk along the narrow village streets with ease in the past, traffic stacks up as motorists try to navigate the winding, steep, and narrow streets. On our way out of town the next morning we waited almost ten minutes to turn through one intersection.

Breathtaking beauty is the hallmark of the English Lakes. We thoroughly enjoyed our short visit there and the drive out through mountain passes and along side the lakes the next day.

Back to the tree. I have no idea how old this particular specimen must have been. Certainly at least a hundred years old, if not several hundred. I'm sure it survived the farmer's axe and the plow during cultivation because of its location. The rocky outcrop would not have sustained any crop, and the plow would not survive an encounter with the stone. Yet, the tree had obviously flourished in that unlikely spot. I could not help but imagine the numbers of people and beasts enjoying the shade over the decades of its life. It provided a spectacular view and a sense of wonder for me, and I'm sure for many others.

I realized that the most important part of this magnificent specimen was hidden from view. Who can imagine the circumstances that led to its position on this otherwise treeless hillside. Perhaps a squirrel or other animal dropped an acorn into a hastily scratched hole centuries ago. Maybe the wind or a bird dropped an acorn on the hill long ago and it rolled into this rocky crevasse. Whatever circumstance placed it there, the seed sprouted and sent its exploratory roots into the tiny cracks and fissures of the rock and found enough nourishment and water to thrive. Over the years, the roots thickened and expanded making the tree of today a sturdy part of the hill itself. Entwined around and through the rock, those roots have weathered many gales, storms, winters, and even some scorching summers.

Roots are important. Of course, humans do not have the same physiology as oak trees, but we do need solid roots to form our emotional foundations. Be thankful for the people and the environment from which you come. When life's storms blow, we all need to be firmly anchored. I believe that faith in God is one of the firmest anchors for men and women. I hope that you believe that way too.

### ADHD IN CHILDREN

By John Krueger, M. D.

Johnny is a human tornado, dashing around, and disrupting everything in his path. At home, he darts from one activity to the next, leaving a train of toys behind him. At meals, he upsets dishes and chatters nonstop. He runs into the street with oncoming cars, no matter how many times his mom has gotten onto him for it.

Johnny probably has attention-deficit-hyperactivity disorder (ADHD for short). Most of these children have signs of difficulty concentrating and inability to pay attention.

Signs of hyperactive behavior may include the following:

- Almost constant fidgeting and restlessness
- Not sitting in the same seat for very long.
- Talking too much
- Blurting out answers to questions in school
- Seems disorganized
- Has difficulty following instructions
- Forgets things
- Loses things needed for activities at school and at home

Children with ADHD often lose interest in an activity in 5 minutes — or even less. They go from one activity to another, and another and another. You may ask your child many times to clean up, but he or she will not even be able to focus long enough to do that.

People used to think that ADHD was the result of some type of brain damage. We now know that the brain structure of children with ADHD is normal, but the chemistry in the brain isn't normal. Children with ADHD do not make enough chemicals in key areas in the brain that are responsible for organizing thought.

A team effort, with parents, school officials and doctors working together, is the best way to help your child. Medicine helps many children, and some children may need counseling. Ask your doctor what treatment he or she recommends.

Some medicines used to treat ADHD include Concerta, Ritalin, Dexedrine, and Cylert. Although these medicines have a stimulating effect in most people, they have a calming effect in children and adults with ADHD.

Just remember that all medicines have side effects, such as decreased appetite, stomachache, headache, or insomnia. Weight loss seems to be the most common side effect in children.

It is best to take the medicine 30 to 45 minutes before a meal. Good times to take this medicine are before breakfast and before lunch. Your doctor might suggest a long-acting form of the medicine. The long-acting forms are taken only once a day, right before breakfast.

Medicines used to treat ADHD have been shown to improve a person's ability to do a specific task, such as pay attention or have more self-control in certain situations.

### Stamford Wal-Mart Awards Grant to local organization

Wal-Mart associates in Stamford presented the Knox City, Texas 4-H Club with a grant recently. The donation was raised with the help of Wal-Mart associates and members of the Knox City 4-H Club.

"Our associates were thrilled to partner with Knox City 4-H to raise funds for a worthwhile cause", said Gilbert Colmenero, manager. "The money will be utilized for programs in the local community and we are glad to support this organization. This is just a small part of Wal-Mart's ongoing commitment to the communities in which we operate."

The Community matching Grant Program is the largest program funded by the Wal-Mart Foundation. This program involves fund-raising efforts by a not-for-profit organization with the participation of Wal-Mart associates. Wal-Mart matches up to \$1,000 of the funds raised. More than 50,000 matching grants, totaling \$36 million, were awarded through the matching grant program in 1999. Wal-Mart helped raise and contribute \$71 million for local communities through partnerships with these organizations.

Wal-Mart Stores, Inc. empowers its associates to serve the needs of their communities through its "Good Works" initiative. Last year, associates of the company's 3,000 Wal-Mart Stores, SAM's Clubs, and distribution centers raised and donated more than \$190 million to charitable programs nationwide. Wal-Mart's unique grassroots approach to giving has enabled the company to ensure that 97% of all dollars contributed by our associates are used in local communities. More information about Wal-Mart can be located on-line at [www.walmartstores.com](http://www.walmartstores.com)

## Elementary Edition

THE HAPPENINGS AT MUNDAY ELEMENTARY

In Mrs. Urbanczyk's pre-k this week they learned about the color green and the shape of a square. They also learned the nursery rhyme, Cat and the Fiddle. The entire school was green with envy as the pre-k celebrated green day by eating frog floats!! Rebecca Carranza's 4th birthday was this week. All 33 pre-k students are now 4 years old. Kendall Thompson did a great job reciting the Cat and the Fiddle. Madison Edgar and Brady Finley can write their names.

Mrs. Pankhurst's class had parent show and tell this week. Alicia Sandoval brought pictures of her family. Paige's dog "Harley" and her grandmother came to visit. Kamille's mom read a special book. Kyle and Amanda Bibb brought pictures of Austin's dog "Charlie" and "Buster" the bird. Talyor's mom and sister came and brought a scrapbook. A mounted bobcat and coin collection were brought by Nate's mom and dad.

Jessica's mom brought pictures of the family vacation to Sonora. Daisy the very spoiled dog was brought by Rhealea's mom. Kimberly and her mom shared some arrowheads. What a great show and tell week.

Mrs. Kuehler's kindergarten sure had a lot of visitors this week. They also had parent show and tell week. Tyson's mom, dad, brother, and uncle brought lollipop, Tyson's horse. We all got to ride. Giddyup! His mom also brought crackers and drinks for all to enjoy. Joelene's mom brought "Chica", her little Chihuahua to visit. Kathryn brought her grandmother and a batch of her favorite, peanut butter balls. She gave us all the recipe so that we can make some more. Her grandmother also brought a sack of rocks from her garden that her grandkids had painted. Faith's mom came and brought cool cavern pictures from their family vacation. Diamond's mom brought family photos and homemade burritos for everyone. YUM! Sonora's dad brought pictures of Sonora hula hooping. He also brought hula hoops for us all to try outside. Micheal's Papa brought his 4 wheeler and gave us all a spin on it. Shailees whole family came to visit, even her dog Chloe. They brought puppy chow for us to nibble on. Jordan's mom and sister brought their cat "Oreo", and a batch of brownies warm from the oven. Eduardo showed us cool pictures of his whole family including a picture of a pyramid in Mexico. Alexis's mom and sister brought us gummy worms and jello and visited. We had a great and delicious week.

Mrs. Cottingham's 1st grade spent this week reviewing the letters of the alphabet and working on rhyming words. They also learned how to order sets from smallest to the largest, and identify morning and afternoon. They began discussing living and non living things in Science.

Mrs. Wilde's first grade studied the consonants f, g, l, and the phonograms -ig, and -it. In math they learned first, second, third. They also learned about some, some more stories, and some, some went away stories. In Social Studies they learned about school workers and how they help us.

In Mrs. Josselet's 2nd grade this week we have been using a dictionary and learning to write with time order words. Computers are such fun!!! We typed our names, then learned how to change the font, size, and color. In reading we decoded long vowel words with silent "e" and words with diagraphs. We also learned that an author does have a purpose for writing. In social studies we learned to draw a map from an aerial picture. We learned that we live on a street, in a neighborhood, in a town, in a state, in a country. Mrs. Josselet is reading "Because of Winn-Dixie". Ask me about this great book!

Mrs. Messer's third graders are learning to measure to the nearest inch, divide things into equal parts, and to identify some, some more stories and some, some went away stories. In English they are looking for subjects and predicates. Mammals and birds are the latest study in Science. (They are still watching their beans grow.)

Mrs. Workman's 4th grade is working hard on math story problems, classifying living things and learning about plant and animal life in Texas.

Mrs. Moeller's fifth grade students have been identifying simple and compound subjects and predicates, spelling words with the long "i" and "o", and learning to draw number lines and use tally marks to count things.

Mrs. Shahan's Sixth grade science classes did an experiment involving Coca Cola and Diet Coke. They placed a can of each in a bucket of water. They discovered that the Diet Coke would float, but the regular Coke would not. WHY? You need to find a 6th grade student and ask them to explain it to you!

Coach Keller's PE classes have been doing more football drills, playing football freeze, and learning about good sportsmanship. Stars of the week were, Jaron Blake in second grade and Rian Dillard in the fifth grade.

Issued this the 25th day of AUGUST, of 2003. (Emitada este dia 25th de AUGUST, de 2003.

I know you have discussed this before in your column, but I have a severe case of "CR" and do not remember what was your solution. I have applied diazanon, and Medina plus. I keep it watered regularly and all the areas around are healthy, except for these large brown spots and they are in some relatively new sod. It was planted this time last year, grew healthily and flourished throughout the last summer, fall and winter, and early this spring. Now it is beginning to get these large brown areas and the roots are brown but are still firmly attached in the ground.

This is a St Augustine grass lawn with some residual Bermuda and both are brown. I am not so concerned about the Bermuda because we want the St Augustine to take over. Is there something I can do to stop the advancement of the brown areas. Thank you. K. D.

I too can relate to your syndrome.

This time of year the two most likely causes of brown areas in St. Augustine lawns are lack of sufficient moisture and/or chinch bugs. Check your sprinkler heads if you have an underground sprinkler system to determine proper coverage in your trouble area. If you use a sprinkler and hose make sure the area is covered well.

Do water as needed but only when needed. Do not water on a preset schedule. When water is needed apply sufficient amounts to push water 6" into the soil then do not water again until the lawn needs it.

If you are sure sufficient and proper watering is not the problem the problem may be a sucking pest called chinch bug. This is a small 1/6 - 1/5 of an inch critter is black in color with white marking as an adult. One method of determining the presence of this pest is to cut the top and bottoms out of a coffee can or similar container, push either end into the soil and fill with water. If small black bugs with white markings which may be diamond shaped are observed then chinch bugs are present.

Should these sucking pests be confirmed then decide what to utilize as a control. Natural Guard's Lawn, Plant & Pet Insect Spray contains Cedar Oil and is labeled for chinch bugs. High-Yield's product called 38-Plus is 38% Permethrin and also has label approval for chinch bugs. Do read and follow label directions no matter which product you use if chinch bugs are found in your lawn. Both of these products should be available at independent retailers statewide.

Mr. Groom, Either last Sunday or the week before that, in our local newspaper, you had a piece in your article about greening up your lawn. You told what formula of fertilizer was needed. I hope it was for St. Augustine. That's what we need....

Anyway, my husband was holding-onto that paper (he thought), but I threw everything away and was wondering if you would send him the information again. It certainly would be appreciated. - L. L.

Thanks for reading my column closely. I hope it is always helpful to you and other readers interested in Texas lawn, garden and landscape information from a native Texan.

The types of fertilizers often recommended are those that work especially well on warm season Southern lawn grasses including Bermuda and St. Augustine. Numbers that include 21-7-14, 19-5-9, 18-6-12 and 15-5-10 containing 50% or more of their available (N) Nitrogen, the first number on the package in a show release form or forms are the types I suggest. As always, read and follow label directions when applying any garden aid including fertilizers.

I do not use nor recommend agricultural grade fertilizers including 17-17-17, 12-12-12, 8-8-8 or similar analysis. They all contain excessive (P) Phosphorous, the second number on packages, provide little to no micronutrients and limited to no slow release forms of (N). Additionally, I do not use or recommend fertilizers formulated for cool season northern grasses such as Rye, Kentucky Bluegrass and Fescues no matter how heavily they are promoted.

### American Red Cross searches for "Heat Wave Heroes"

When the "dog days" of summer have most people in a slump, the need for blood isn't in a slump - in fact it's boosted. That's why the American Red Cross is looking for some "heat wave heroes." These heroes can donate the gift of life on Monday September 15 in Munday at the Patton Community Center from 2 pm - 6 pm. All who present to donate will receive a Heat Wave Hero water bottle.

"By coming to the Red Cross blood drive on Monday September 15 donors can beat the heat and be a hero to a patient in need of life-saving blood transfusion. You never know when it will be you, a loved one or co-worker who needs the gift of life. On three of us will need blood or a blood product during our lifetime."

Martinez says by donating regularly, we can be assured that blood will be there when needed. By donating regularly you can help ensure that life-saving blood is always on hand. A blood donation can be made every two months and has the power to save three lives.

Martinez has a few tips for "heat wave heroes" before donating. "The need to be well hydrated takes on even greater

importance in the summer heat" she says. Donors should drink at least eight extra glasses of water or fruit juice the day before donating and the day of donation.

"People also should not become overheated before coming in to donate because this can cause an elevated temperature that will result in a deferral from donating that day", Martinez adds.

To be eligible to donate you must be at least 17 years old and in good health. Every donor will receive a mini-health check of temperature, blood pressure and pulse. To schedule an appointment to donate blood call 1-800-GIVE LIFE or log onto www.givelife.org.

## Munday overcomes mistakes and penalties in 33 to 6 win over Haskell

Dustin Flye scored three touchdowns while racking up a total of 242 yards rushing on 25 carries to lead the offensive charge for the Munday Moguls in last Friday's dismantling of the Haskell Indians. In the season opener for both teams, Munday dominated most of the way rolling up 330 yards of total offense in the 33 to 6 win while holding Haskell to only 120 total yards.

Munday got off to a 12 to 0 advantage in the first on Flye runs of 35 and 58 yards. The Moguls defense put a safety on the board when Jordan Lowe blocked an Indian punt. Teammate Cody West fell on the football but it was just out of the end zone for a safety instead of a touchdown. An alert Jerome Flye pounced on a fumble by brother Dustin in

the end zone for another score and the Moguls had Haskell down 20 to 0 in the second before Haskell scored on a 21 yard pass with just 3:39 left in the half.

Defense was the king for both teams in the third as the quarter ended scoreless. Flye got it going again in the fourth with a 4 yard run and this time Terrence Allen split the uprights for the PAT. Senior quarterback Jr. Sanchez found the end zone on a 19 yard run to bring the final score to Munday 33 Haskell 6. The offense had a good outing lead by Abilene Reporter News Player of the week Dustin Flye. Sanchez rushed 4 times for 27 yards, Jerome Flye had

THE STATE OF TEXAS

To the Sheriff or any constable of Knox County, Texas, Greetings:

WHEREAS, on September 2, 1998, Knox County Appraisal District, as Plaintiff recovered a judgment in the

memories of sitting in that old press box," he says. Along with the great athletes and their performances Baker also remembers almost "Freezing to death in that rickety old press box - we didn't have the luxuries of air-conditioning and heat."

Dan Sloan took over in 1970 after Baker decided that fifteen years of announcing was enough. His own children had graduated and moved on to college. Sloan, a former Munday track coach and assistant football coach would keep his announcing duties until the early 1980's. Sloan remembers many wet games - one in particular that was played on Thursday night and featured the Junior High and JV teams. "It was raining in sheets and I remember looking at the visiting and home side bleachers and there was no one there - everyone who stayed had moved into the press box," says Sloan. "I had always had fears of it tipping over backwards so I decided to let someone else finish announcing that game and I would go home!"

After Sloan game Larry Welch who served as announcer with pride for approximately 9 or 10 years. He was followed by Rick Moeller who remains the "Voice of the Moguls."

"We always have a good time in the press box and sometimes it gets a little loud. One night I remember a game was being broadcast over the radio and a woman suddenly appeared at the Press Box door. She had received a call from her daughter who said that all the conversation of those in the Press Box was coming through over the radio. We had to learn to tone it down a little!" smiles Moeller.

**Junior High Moguls show promise against Haskell**

Munday's seventh grade Moguls opened their season with a scrimmage win over the Haskell Indians 4 touchdowns to 0, while the eighth grade Moguls had to settle for a 6 to 6 tie.

The seventh graders were lead by Marcos González who scored three touchdowns and Rob Dillard who scored 1. Steven Urbanczyk scored on a nice run for the eighth graders and the PAT came up just a yard short of a win.

Munday coach Pat Corchran had these comments:

"For their first game, they competed very well. They knew their assignments which provided for several long runs by Gonzalez and Dillard. The defense was highlighted by big hits from Luié Bejar and sound defensive end play from

Gary Mizer. To have a shut-out in their first game is outstanding."

Corchran had words of praise for his eighth grade Moguls: "This game was highly competitive. Haskell scored on their first possession after a long kick off return and were held scoreless after that. Steven Urbanczyk scored late in the third quarter to tie the game. We threw the football well, but did not execute our option game the way I had hoped. Defensively we played good team defense and did not allow the big play. Keithy Flye and Keith Booe had outstanding games on the defensive side of the football for us. We are looking forward to Seymour and will continue to play with intensity and confidence."

18 yards on 6 carries, Joseph Gulley had 9 yards on 2 carries, and Josh Myers had 8 yards with only 1 carry. Through the air Sanchez was 1 for 2 for 26 yards on a pass caught by Terrance Allen.

Defensively the Moguls were lead by Jerome Flye who had 11 tackles and 1 fumble recovery. Dustin Flye had 6 tackles and caused 2 fumbles, Miguel Nunez had 6 tackles and 1 sack, Cody West had 5 tackles and a sack, Josh Myers had 5 tackles and 1 fumble recovery, and Jr. Sanchez, Joseph Gulley and Ricky Escamilla all had 4 tackles each. Gulley grabbed a fumble recovery for the Moguls in the game as well. Mogul newcomer Tim Hardeman had a number of assists including 1 solo tackle and a caused fumble. Jordan Lowe had several assists and a solo tackle as well as the big blocked punt that caused the safety.

Head coach and athletic director Kelly Spiller was relieved to get his first win under his belt as a head coach and was understandably happy with the win. "It's good to be able to win like this and still make a bunch of mis-

takes," said Spiller. "we have a lot of cleaning up to do this week to eliminate our mistakes and penalties." The Moguls were penalized 12 times for a total of 95 yards in Friday's game.

This week the Moguls will host Seymour's Panthers who come into town with big wins over Knox City and Hamlin.

"They are a very well coached, Hungry football team," said Spiller. "They not only beat us last year, but shut us out as well." Spiller adds that Seymour plays an aggressive, sound defense and likes to play a ball control offense.

"They keys to a win for us are to play great defense and keep the football away from them on offense," said Spiller. "We'll also have to eliminate the mistakes. We can't win this week with the same number of mistakes and penalties we had last week."

Game time for the contest with 2A rival Seymour is 7:30 PM this Friday. The JV, 7th grade and 8th grade Moguls will all travel to Seymour to play this Thursday with the 7th grade kicking off at 4:00 PM followed by the 8th grade, then the JV.

### Letter to the Editor

Howdy,  
I was in Munday a few days ago and if my memory serves me correctly regular unleaded gasoline was selling for \$1.69 a gallon. That is the highest that I remember ever seeing it in Munday. It may have been higher at some point but I was not there to see it.  
Ironically, the next day after I was in Munday I was looking at some old Munday Times and Munday Couriers that I have and ran across the following article. It was from the Munday Courier dated August 23, 1979. I thought you might want to re-run it for your readers.  
Leon Looney  
Breckenridge, Texas 76424

### A Buck For One Gallon!

(Reprint from the August 23, 1979 Munday Courier)  
Fill'er up!  
This phrase, familiar to motorist and station operators since the advent of the automobile, has now proven to be very costly three words!  
Gasoline prices, which have been bordering on the dollar mark, finally reached \$1.00 gallon in Munday - for all practical purposes, last Monday.  
The increase came Monday with a delivery of an order of gas by a wholesaler. Retail price was upped to 99.9 cents per gallon for unleaded gas. And it won't stop here, they say!  
This is the highest amount local gas pumps will register. Another increase will necessitate either adjustments in the pump computers, or displaying the price at half-price and doubling for the correct amount.  
Gas prices have been climbing up to \$1.00 for some time in other places. Travellers over the week-end reported prices from \$1.02 in Texas to \$1.10 if headed for California.  
Now, when you pull in and say "Fill'er up", it means flattening your pocketbook to some extent!

## Driving-related legislation taking effect September 1, 2003

•SB 45 makes it a state jail felony to drive while intoxicated with a passenger younger than 15.

•SB 193 requires drivers nearing a stopped emergency vehicle that has lights activated, unless otherwise directed by a law enforcement officer, to:

- Vacate the lane closest to the emergency vehicle, if the highway has two or more lanes traveling the direction of the emergency vehicle; or
- Slow to a speed not more than 20 miles per hour (mph) less than the posted speed limit when the posted speed limit is 25 mph or more; or
- Slow to a speed not more than five mph when the posted speed limit is less than 25 mph.

A violation is punishable by a maximum fine of \$200. If the violation results in property damage, the maximum fine increases to \$500. If the violation results in bodily injury, the offense is enhanced to a Class B misdemeanor.

•Having a video display that is visible from the driver's seat is illegal. SB 209 expands the definition of video receiving equipment to include digital videodisc players, videocassette players or similar equipment. This equipment may be used only if it is located so that the video display is not visible from the operator's seat.

•HB 1326 automatically suspends for one year the driver license of anyone convicted of illegally racing on a public roadway. Before the license can be reinstated, the driver would have to complete 10 hours of community service. The law increases the punishment for drivers who are racing drunk, who have open containers of alcohol in the vehicle when racing, who seriously injure someone during the race or who have been convicted multiple times of illegal racing.
