AT BENJAMIN CAMPSITE

## Texas Style Welcome Greets Wagon Train

The Texas Sesquicentennial wagon train rolled into Knox County as planned Sunday afternoon, and a large crowd was on hand to welcome the travelers. The train was about 60 wagons strong when it camped west of Benjamin, and approximately 450-500 persons were along for the trip.

B&D Barbecue of Knox City served about 800 meals Sunday night to wagon train members and many visitors. The town of Benjamin swelled in population - at least temporarily - as campers and mobile homes lined the streets near the courthouse square and the school. Buses shuttled the wagoners to town for showers at available facilities.

Support vehicles made up a large part of the train caravan. Knox County law enforcement and ambulance personnel beefed up their security and medical aid procedures. The wagon train carried a specially trained police dog along with its security team.

On Monday, booths selling various souvenir and food items were set up both at the campsite and in Benjamin, and visitors still streamed in and out of both places. The wagon train riders spent the day resting, visiting local and out-of-town sightseers and performing a variety of chores in preparation for the next day of travel. The train set out at 7 a.m. Tuesday, turned onto Highway 6 in Benjamin and continued through Knox City to Rochester, where it was to camp Tuesday night.

The wagoners said Benjamin's camp was the wettest one they had experienced since beginning the trail in January at Sulphur Springs. Twenty-seven states and four foreign countries are represented in the train, and many of the wagons

carry signs wishing Texas a happy 150th birthday among their sponsors' logos and slogans.

Most of the wagons are being pulled by mules, as they are harder and can withstand the daily strain better than horses. The animals no doubt enjoyed the day of rest as much, if not more than, the human travelers!

In commemoration of the event, a marker bearing a replica of a covered wagon and an outline of the state etched with the wagon train's path has been erected across from the campsite on U.S. Highway 82 near the turnoff to the Cactus Farms/Spike Box Ranch headquarters.

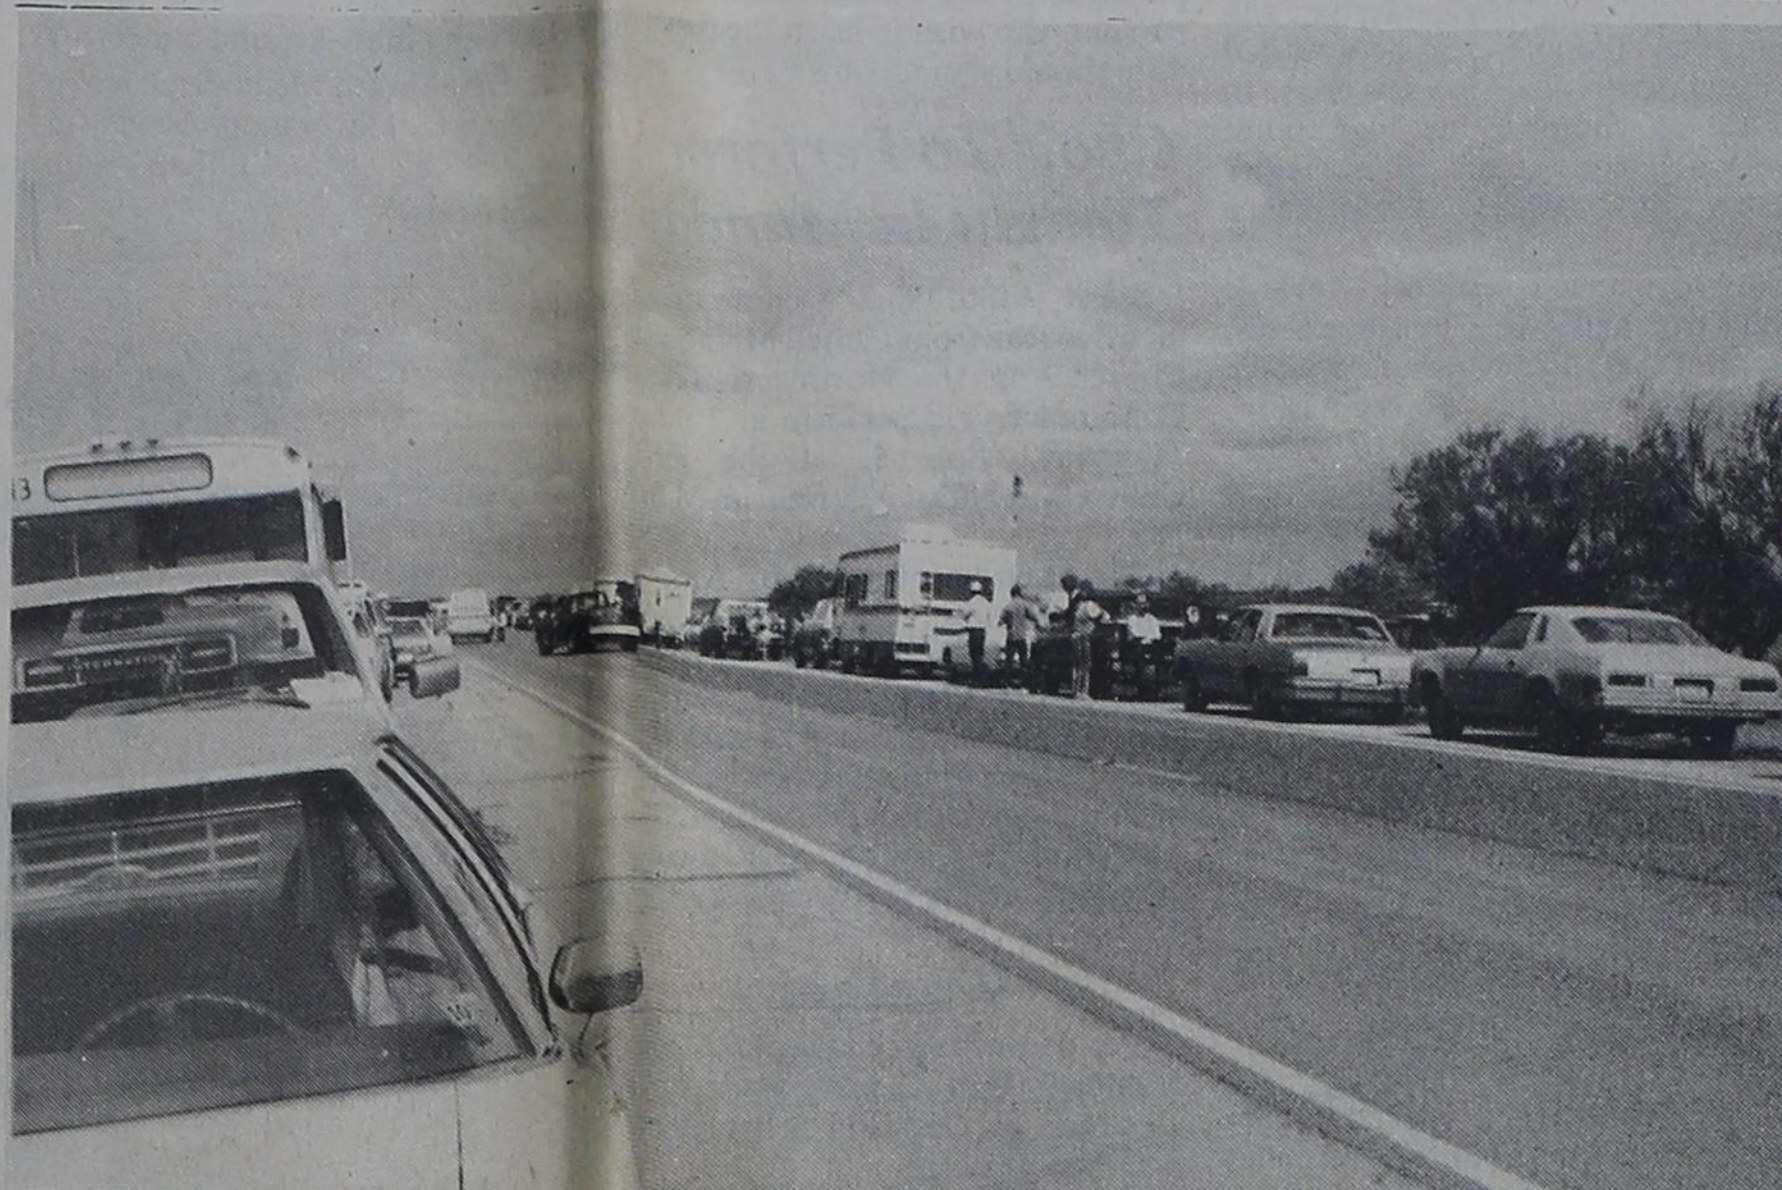

With the passing of the wagon train, thoughts of the local Sesquicentennial committee now turn to the festival set the last weekend in July in Benjamin. You will read more about this celebration in the Courier this summer, so be watching for this information.

## FmHA Announces Operation Assist For Farm Financing

The Farmers Home Administration office in Knox County will begin immediately to participate in "Operation Assist," Joe Boone, county supervisor, announced recently.

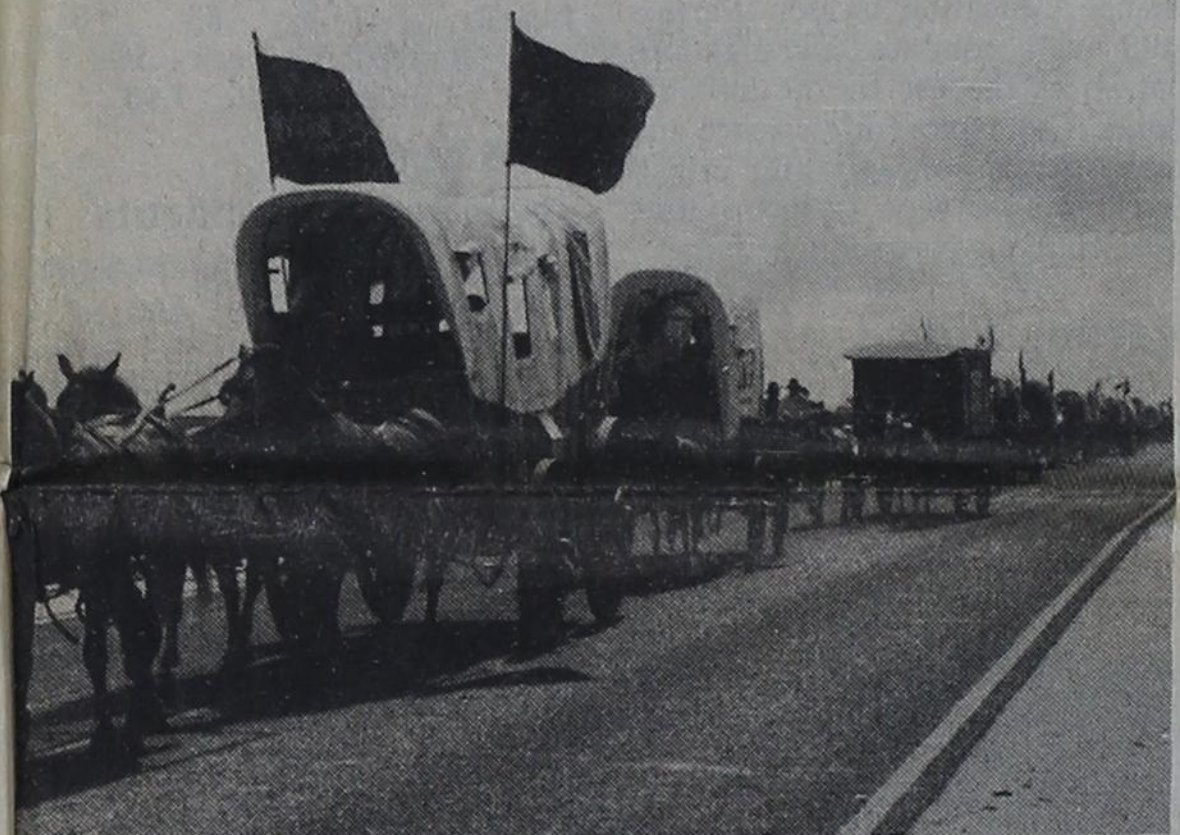

Operation Assist is a new effort by FmHA to help farmers obtain guaranteed operating loans. County supervisors for FmHA will take completed farm credit applications to local banks or other lenders, along with the farmer wishing to apply for a guaranteed loan.

"We will handcarry the applications, and personally introduce the applicants to our lenders," said

CLOUDS THAT HELD a continuous threat of showers did not deter this crowd from showing up to watch the Texas Sesquicentennial wagon train as it rolled from King County into Knox County Sunday afternoon behind law enforcement escorts. The train camped at

the Spike Box Ranch west of Benjamin, and these vehicles lined the road on each side near the camp. Some 800 persons were served at a barbecue meal that night, and the visitors stayed through Monday; heading south to Rochester early Tuesday morning.

WAGONS HO! Hundreds of area Texans watched near Benjamin Sunday afternoon as the Texas Sesquicentennial wagon train came into the county. The train began its journey January 2 in Sulphur Springs and will continue on to the Fort Worth Stockyards, where the trek will end later this summer. The train has stopped in many small communities on its criss-cross trip through the state, but surely got no warmer welcome than the one it received in Knox County.

WET FIELDS DELAY HARVEST

## Cloudy Skies Settle Over Knox County

Farmers and vegetable producers are still trying without much luck to get into their fields for harvest, as damp, cool weather has prevailed over much of this area for several days.

Elevator managers estimate that over 95 percent of Knox County wheat has been cut, and a couple of days of good "drying weather" would allow the rest of the crop to be harvested. The wheat that remains in the fields is deteriorating rapidly in grade and weight, and farmers would like to be able to get it in storage before it is completely lost.

Very few patches of wheat are still too green to cut. Those are now growing as many weeds as wheat stalks, and moisture from the weeds will present a problem when the grain is cut.

The picture looks a little brighter for potato growers. Although they are behind on this year's harvest, producers in other areas are facing the same problem - unfavorable weather conditions. So the local crop will not be late on the market if it can be harvested soon.

The quality of the potatoes is still good, said one producer, as the area hasn't received enough rain to hurt the crop. But the damp air has kept the fields from drying enough that diggers can be brought in. And in

addition to the good quality, the price is still high, so the potatoes may yet be more profitable than they were last year.

Larry Smith of TXS Vegetable Producers said his firm was beginning to dig potatoes out of the mud early this week. Although not the most economical method, Smith said they had harvested less than 20 percent of their goal for this stage, and he felt they should be digging potatoes if at all possible.

A light cloud cover had burned off Tuesday morning, but weather forecasters weren't very optimistic, predicting more cloudy weather and scattered showers through the week.

## Festival Display To Include Photography And Brag Corner

Kerri Urbanczyk, chairman of the arts and crafts display for the Knox County Vegetable Festival, said a great deal of interest had been generated in two specific divisions of the display, and asked that we issue a bit more information about these contests so persons can be deciding whether or not to enter.

In the photography category, persons termed as professionals - those who have received as much as \$100 per year compensation for their work - may exhibit their photos, but they will not be entered for competition. Only the amateur class will be judged.

Divisions for the amateur class include portraits, candid shots, wildlife, nature, scenes, action shots and domestic animals. Pictures must be mounted on posterboard or framed, with only two pictures per person allowed in each division.

Boone. "We will present a complete loan package, including cash flows, financial statements and appraisals. If necessary, we will make a commitment to work with the lender to do an interest buydown. We will do everything we can to help the lender, and the borrower, by committing to guarantee the loan at our maximum 90 percent."

While direct operating loan funds are used up in some areas, there is still nearly \$800 million available for the guarantee program. County FmHA officials hope other lenders will make operating credit available under the guarantee, with most of the paperwork done beforehand by FmHA.

Borrowers and lenders interested in an FmHA guaranteed loan should contact the FmHA county office.

## Free Splash Day Is Set For Saturday

Splash Day, an annual event at the Munday swimming pool, has been set for Saturday, June 7, and swimmers of all ages are invited to enjoy the afternoon of free swimming. Hours are from 1 to 5 p.m.

The pool will be open during the afternoons throughout the summer. Hours will be 1 to 5 p.m. Tuesday through Sunday. Mondays are reserved for cleaning the pool.

Pool admission is \$1 per person. Kelli Smith will serve as manager and lifeguard this year, with Annette LeFevre also as lifeguard.

The contest will be divided into two sections, youth (age 13-18) and adult.

Another popular event is the grandparents' brag corner. Anyone entering this contest must be a grandparent, and pictures may be of individuals or groups. Only snapshots will be accepted.

The pictures must be mounted on posterboard with the grandparents' name on the back of the posterboard. Below the picture of the grandchild, contestants should print a sentence or short paragraph describing the picture and giving the child's first name only and his or her age.

Only one picture of each child will be accepted from each set of grandparents. If necessary, Mrs. Urbanczyk said, the children's photos will be divided into the following age groups: birth-1; 2-4; 5-10 and 10-18.

## Special Awards Presented As Seniors Receive Diplomas

In addition to receiving their long-awaited diplomas, several Munday High School seniors left Friday evening's commencement ceremonies with other awards and scholarships. The awards were presented by MHS principal Doug Donoho.

The Joe Choucair Memorial Scholarship, which is given each year by the Choucair family in memory of their father, went to Tammy Decker, daughter of Mr. and Mrs. Joe Decker. Four seniors qualified for the UIL Scholar award, presented to students who graduate in the top ten percent of their class and have participated in UIL activities. Winners were Kelly Wren, Salwa Choucair, Donna Welch and Laura Myers, daughters of the Jerry Wrens, Mrs. Joe Choucair, the Lloyd Welches and Mr. and Mrs. Billie Jake Myers.

The Presidential Academic Fitness Award, presented on behalf of President Ronald Reagan, is given to students who have attained at least a B+ average, have scored in the 80th percentile or above on a national achievement test and have earned at least 12 credits in higher level English, math and science courses. Winners of this award were Gregg Sanders and Kelly Wren. Sanders is the son of Mr. and Mrs. Kenneth Sanders.

Neil Waggoner was awarded the MHS Faculty Scholarship, given for the first time this year. The scholarship was created from money left in the old student council fund and added to by the Association of Texas Professional Educators and donations from individual teachers. The son of Mr. and Mrs. Marion

Waggoner, the recipient was chosen for his involvement in school and extra-curricular activities and community service.

Final awards were presented to class salutatorian Salwa Choucair and valedictorian Kelly Wren. After diplomas were presented, the commencement was concluded as each senior gave his or her mother a red rose as they walked down the aisle, a proud graduate of Munday High School.

Following is a list of students who have received scholarships and will be using these awards in their college studies.

Angelo State University - Kelly Wren, state valedictorian scholarship and the Carr Academic Scholarship; Mark Brown, Carr Academic Scholarship; Neil Waggoner, Carr Academic Scholarship and MHS Faculty Scholarship; Laura Myers, Carr Academic Scholarship; Janet Williams, Knox County Extension Homemakers Council scholarship.

## Remember To Vote Saturday

Knox County voters are encouraged to go to the polls Saturday, June 7, to vote in the Democratic and Republican party primary runoff elections. Of special interest to residents of Precinct 2, which encompasses voters in Munday, Knox City, Benjamin and Vera, is the runoff between incumbent Bobby Roberson and Wayne Sutton for the office of commissioner in that precinct.

Other races on the Democratic ballot include John Sharp and P.S. Ervin for Railroad Commissioner; Oscar H. Mauzy and Shirley Butts for Justice, Supreme Court, Place 1; Robert M. Campbell and Jim Brady for Justice, Supreme Court, Place 2; Raul H. Gonzales and Jay Gipson for Justice, Supreme Court, Place 4; and Rusty Duncan and George (Jorge) Martinez for Judge, Court of Criminal Appeals, Place 1.

To be decided in the Republican runoff are the GOP candidates for Lieutenant Governor, David Davidson and Aaron L. Bullock; Attorney General, Roy Barrera Jr., and Ed Walsh; Commissioner of the General Land Office, M.D. Anderson Jr., and Grady T. Yarbrough; and Railroad Commissioner, Milton E. Fox and John Thomas Henderson.

Voting places are the same as in the primary election, and the polls will be open from 7 a.m. until 7 p.m.

## Courier Needs Readers' Help

The computer age is here, and we've jumped on the bandwagon! In addition to keeping records, our computer will be used to print mailing labels for the Courier each week, and we expect it to streamline our mailing process.

In order to use the labels, we need to update our address files, and this includes nine-digit zip codes for our out-of-town readers. Hopefully, the use of the new zip codes will cut down on the number of papers that are delayed or never reach their destination.

We are asking that our out-of-town readers call the post office to get their personal nine-digit zip code, then mail the information to us. We will be using them as soon as possible.

Another change will be reflected in our subscription rates. Papers mailed out of state will go up to \$15 per year. Texas subscriptions out of Knox County will be \$13 per year, and in-county subscriptions will remain at \$9.50. Increases in postage rates force us to make these changes, and we hope more prompt and consistent delivery to our out-of-county readers will offset the higher price.

## Elementary Yard To Receive Facelift

A healthier, prettier yard is in store for students at Munday Elementary school when they return to classes in the fall, if the current plans are carried out. A project at the school this summer is to clear out some trees so more grass can be grown, according to school superintendent Doyle Lowrance.

An irrigation system will also be installed on the campus, Lowrance said. This has already been done at the high school campus, but the elementary installation had to wait until this summer because of the renovation being done last year.

Also planned for the elementary campus is a parking lot for teachers to the east of the building so the front lot can be reserved for parents bringing their children to or picking them up from school. All the work will be done with local labor provided by the school and county.

## Public Service Announcement

A representative of the Vernon Social Security office will be at the Munday City Hall from 9:30 to 11:30 a.m. Wednesday, June 11, to assist local citizens in filing for Social Security retirement, survivors, disability, Medicare or Supplemental Security Income benefits.

## ALUMINUM FROZEN DINNER TRAYS BECOME COLLECTIBLE

The aluminum frozen dinner tray associated with the popular TV dinner made its debut in 1954, when technology brought the home freezer into the kitchen and Milton Berle into the living room. The Swanson family of Omaha, Nebraska, developed the first frozen dinner, a self-contained meal suitable for eating in front of the family television screen.

Just as the popularity of the home freezer resulted in the development of the first TV dinner's aluminum tray with its freezer-to-oven-to-table capability, another appliance now has dictated its end and the beginning of its successor. With microwave ovens finding their way into half the kitchens in the United States, the old tray has reached the end of its usefulness.

The new container is made of PET, an acronym for polyethylene terephthalate, which has widespread use in the form of plastic soft drink bottles. Through a crystallization of PET, packages are sturdier than aluminum and flimsy paper trays. The new white plastic dish is microwave safe and designed with rounded corners to eliminate cold or hot spots for more even heating. It is also equally suited for conventional ovens.

So say good-bye to over 30 years of aluminum tray TV dinners as they are now history.

## Letter To The Editor

I am concerned! Are you? We the citizens of Knox City, Knox County and the surrounding area are faced with a formidable problem. We are looking at a real possibility that our life support system could close; the Knox County Hospital. I feel the question is do we want that to happen?

Here are some facts that the people are unaware of or ill informed about:

1) The hospital over a period of approximately two (2) years has been losing money at the rate of around \$1,000 per day (over \$300,000 per year). Due to this the professional staff has been cut back and needed services have been curtailed. This indebtedness has created an atmosphere of doubt, possible loss of needed local medical care and despair.

2) A point that needs to be made without malice toward any individual is that the people we have representing us (the Hospital Board) collectively and by and large, individually, do not use this facility or the physicians that support the facility. Is it possible that a governing body can objectively assess a situation or work toward the good of everyone concerned unless they are actively involved and their well-being is also at stake?

My thoughts are not to tear down what many have worked diligently to build up. I feel that when the citizens become aware of the total picture and the possible loss at hand, they will actively become involved and seek all of the facts (including financial statements) to expedite a workable solution to this vital need for all of us.

One may wonder at this point why I am this concerned. Granted I asked for courtesy staff privileges and was denied them without a plausible explanation and where a similar precedent was already set; placing me in a position of being unable to utilize this facility for my patients. Also, at this time I am dealing with a problem concerning Medicare and my patients that are directly affected by this dilemma. However, I am optimistic enough to believe that both situations will be resolved to the best interests of all of us, when the total community becomes involved.

Truly, I am concerned! I do care! I am willing to work toward the common goal that will be of benefit to all of us; we need the hospital, the area needs the support the employment of this entity provides.

Without the Knox County Hospital we will all lose more than you know.

**METER TAMPERING NOW A FELONY**

The State of Texas has recently adopted an amendment to the State Penal Code making meter tampering a third degree felony. A third degree felony comes with a punishment of confinement in the Texas Department of Corrections for a term of not more than 10 or less than 2 years. In addition to imprisonment, an individual adjudged guilty of a third degree felony may be punished by a fine not to exceed \$5,000.

Before the amendment of the new law, it was a class A misdemeanor for meter tampering unless the loss of service was more than \$200. Under the new law, any meter tampering regardless of the amount of loss is now a felony of the third degree.

Meter tampering consists of, but is not limited to:

- (1) Diverting electricity from passing through a meter device.
- (2) Preventing electric service from being correctly registered by a meter device.
- (3) Unauthorized activation of electric service.

As a special note to our members, it will also be considered meter tampering if a meter is reset and electrical service is restored by anyone other than a Cooperative employee.

All Cooperative meters are sealed. This seal should not be cut or broken without special authorization. In cases where the seal must be cut for emergencies the Cooperative should be notified as soon as possible so that the meter can be resealed.

### Letter To The Editor

Mrs. Joyce Nix, Editor,  
Enclosed you will find a check for \$11.50 to cover another year subscription for the Munday Courier. We still enjoy reading the news of our old home town.

One of the most treasured things we remember are our friends in Knox County. What ever happened to the Sunset Community Homecoming? In 1982 Howard Myers was president. It was voted to meet again in 1985 by the group. Officers elected were Herbert Partridge, president; J.E. Hunter, vice-president; and Matt Verhalen, secretary and treasurer.

## Knox County Man's Probation Revoked

In district court activities on May 16, 50th District Judge David Hajek heard the case of State of Texas vs. B.B. Eddington. The defendant was found to have violated the terms of his probation and was sentenced to three years in the Texas Department of Corrections.

The State was represented by Knox County Attorney Bobby D. Burnett, acting District Attorney for W.H. Heatly.

Eddington, of Knox City, was serving a five-year probation for criminal mischief and aggravated assault. During his probation he was arrested for making a controlled substance available to a minor, and has been jailed for some time awaiting the official order revoking his probation. \*\*\*\*\*

## FmHA Committee Candidates Sought

Eligible farmers in Knox County are invited to become nominees for the Farmers Home Administration county committee, FmHA county supervisor Joe Boone announced recently.

As a result of the 1985 farm bill, two of the three members of FmHA county committees must be elected. The third member is appointed by FmHA. The Knox County committee assists the FmHA county office in reviewing applications for FmHA farm loans and on other farm credit matters.

Generally, farmers who are residents of the county but not FmHA borrowers are eligible to become nominees for the FmHA county committee. "Farmers in this county, serving on the committee, can play an important role by assisting in the process of loan applications and reviews," said Boone.

For this first election only, two members will be elected at the same time. One will serve a one year term of office and the other will serve two years. In the future, all terms of service will be for three years each on a staggered basis.

Nominating petitions must be returned to the FmHA Knox County office by June 10, 1986. Additional information and application forms for those who are interested in becoming nominees for the county committee are available at the FmHA county office, 1101 Est Main in Knox City, Texas, or by calling 658-3539.

The family of Mrs. Clyde Yost would like to thank everyone for the prayers, cards, and remembrances at her passing.

We especially want to express our gratitude to the personnel of the Munday Nursing Center for taking care of her for these past two years.

May God bless you,  
Clyde Yost
