## SYLVA BARNES IS DUCHESS AT HASKELL FAIR

### Mile-Long Parade To Start Wednesday At 1 P.M.

With indications pointing to the most successful exposition ever staged in Haskell, plans were completed this week for opening of the Central West Texas Fair in that city Wednesday, Oct. 19, for a four days run.

Opening the fair will be a mile-long parade to be staged Wednesday at 1 o'clock. Heading the colorful event will be decorated floats carrying the "Queen of the 1938 Fair" and Duchesses from surrounding towns. Miss Sylva Barnes, daughter of Mr. and Mrs. H. F. Barnes has been named as this city's representative.

Opening day of the fair has been designated Abilene, Wichita Falls and School Children's Day. All school students will be admitted free to the fair grounds and exhibit building throughout Wednesday afternoon.

Queen of the 1938 exposition will be crowned in a spectacular pageant to be staged on Indian Field Wednesday night. Duchesses from neighboring towns will also be presented during the colorful event in addition to special presentations which will include stunts by high school pep squads and portrayal of Fairyland plays and folklore legends by costumed school children groups.

Rodeo events will be staged in front of the grandstand in Fair Park each afternoon during the Fair, under supervision of Mac Kinnibrough, veteran West Texas rodeo directors. Competition will be open to all active cowboys, with professional performers barred.

As a special night attraction Friday, Oct. 21, football fans will see two former inter-sectional rivals, Haskell Indians and Roby Lions, who are billed for non-conference play.

Stockmen and farmers of this section will have first-hand opportunity to judge the worth of trench silage, when a demonstration unit filled several weeks ago on the fair grounds will be opened. E. R. Eudaly, extension specialist from College Station, will be in charge of the demonstration.

Livestock, agricultural and poultry exhibits are expected to be the largest ever assembled here. More than \$1,000 in cash premiums has been posted for prize-winning exhibits.

## Achievement Day Program Friday

The Munday Home Demonstration Club is planning to have its annual Achievement Day program on Friday night, Oct. 14.

At this time the women will entertain their husbands and other guests.

The meeting will be held in the kitchen demonstration home of Mrs. Ralph Weeks.

## Munday Boy Elected To Student Council

Ted Longino, son of Rev. and Mrs. H. A. Longino of this city and a graduate of Munday High School in 1937, has been elected freshman representative to the Student Council of McMurry College at Abilene.

Ted is half-term freshman and will become a Sophomore next semester. He is a popular student in many activities and is a member of the Chanters, McMurry glee club.

## Has Golden Wedding Anniversary Last Week

### Married 50 Years, Friday . . .

MR. AND MRS. JOSEPH A. WARREN

## Mr.-Mrs. J. A. Warren Feted on Fiftieth Anniversary

Rounding out 50 years of married life, Mr. and Mrs. Joseph A. Warren were honored by more than a hundred friends from this section and neighboring towns who gathered at their home on Friday, October 7, to celebrate the couple's golden wedding anniversary. Mr. and Mrs. Warren were married at Byrdstown, Tennessee, on October 7, 1888.

Mr. and Mrs. Warren moved to Knox County, Texas, in 1899, before a railroad had ever touched the virgin plains country around Munday. They settled two miles northeast of this city, and have lived in this immediate section ever since, establishing their home in town only a few years ago.

Joseph Alexander Warren was born at Monroe, Overton county, Tenn., on April 23, 1865. He has been a member of the Church of Christ for 38 years.

Mrs. Warren, who before her marriage was Miss Syble Adeline Parris, was born at Olympus, in Overton county, Tenn., on November 28, 1863. She was converted when a young woman and has been a member of the Church of Christ for 54 years.

The couple has a large host of friends, many of whom were unable to visit them on the day of their anniversary, but open house was held at the family residence here between the hours of three and eight in the later part of the day and they were the recipient of many hearty congratulations and a large presentation of gifts. Children of the family presented their parents with a china dinner set, embellished in gold, and other gifts bore out the golden theme.

Visitors were greeted at the door by Mr. and Mrs. Warren and then invited in to see the gifts by Mrs. Clyde Warren, assisted by Mrs. H. E. Thompson. Mrs. Ray Willis presided at the guest book assisted by Miss Virginia Earl Stephenson. Mrs. Chandler Hobert and Miss Alene Warren poured tea, assisted by Mrs. F. N. Warren, and guests were served old fashioned pound cake, which elicited many merited comments of approval.

The children present for the celebration were Mr. and Mrs. L. W. Hobert, Munday; Mr. and Mrs. Ray Willis, Knox City; Mr. and Mrs. F. N. Warren, Lubbock; and Mr. and Mrs. Clyde Warren, of Goree. Two children, Mrs. H. L. Davis, Malakoff, and Jack Warren, of Childress, were unable to be present. Two great grandchildren were also present.

There were at least 100 visitors of Munday, during the day, besides a large group from out of town. Among the out-of-town guests were:

Mr. and Mrs. S. M. Clonts, Mr. and Mrs. J. V. Jones, Mr. and Mrs. H. M. Warren, Mr. and Mrs. J. W. Smith, Mr. and Mrs. Roy Smith, Mr. and Mrs. Brooks Campsey, Mrs. W. B. McClain, and J. H. McClain, all of Knox City; A. J. Glasgow, Mr. and Mrs. C. S. Whiteside, and Mrs. Carrie Jeffords, of Seymour; Mrs. H. T. Dulaney, Mrs. J. W. Fowler, Jr., Mrs. J. W. Fowler, III, Mr. and Mrs. J. W. Jones, Mr. and Mrs. S. E. Stephenson, Mr. and Mrs. V. M. Reeves, Mr. and Mrs. Ed Jones, Mr. and Mrs. John Cure, Lige Crouch, and Misses Virginia Earl Stephenson, Eva Jones, and Bonnie June Roberts, Goree, and Chat Reynolds, and Miss Maggie Reynolds, of Sterling City.

## HOME FURNITURE COMPANY HAS ENLARGED BUILDING

The Home Furniture Co., located in the west part of the business district, has completed remodeling this week and will practically double their floor space. A partition separating the store and the former location of Gibbs produce company first door to the east, was removed and the furniture company now occupies the entire building.

Mr. Boggs, owner, was in Fort Worth, Tuesday, buying new furniture. The store has the only mattress factory in this city.

## WEINERT AND MATTSON MEET NEXT FRIDAY

### Is Second Conference Game For the Two Class 'C' Teams

The Weinert football team goes to Mattson tomorrow (Friday) afternoon for the third C conference game of the season, and a large crowd is expected to be on hand as a result of interest that has been aroused in the two teams during the past few weeks.

Previously, Weinert had defeated Rochester 19-6, and Rochester tied Mattson, but odds are about even. Coach Elmo Cure of Weinert told The Times this week. Mattson is rated as a strong class C team, and this is Weinert's first year to play football, so the score will be 0-0 until after the kickoff, Mr. Cure said.

### Takes Paint Creek 7-0

Last Friday Weinert went to Paint Creek and scored the only counter in the game during the first two minutes of play when Fullback Johnson went over for a touchdown and Ammons, right half, made the extra point on a running play. Late in the last quarter Weinert was again in scoring position when a 15-yard penalty caught them only one yard from the goal. The visitors suffered two unfortunate fumbles, and a strong wind added to the problems of both teams. Paint Creek has a heavy line and some good running plays, Coach Cure said. They completed one pass; made two first downs to Weinert's 10, and added up 60 yards from scrimmage to Weinert's 165.

Starting lineup for Mattson is unavailable but Coach Cure probably will start the following team: Marsh, LG; Capt. Anderson, LT; Owens, LE; Soesbee, C; Sloan, R; Sanders, RT; Tiffie, RE; Joseph, QB; Ammons, RH; McKennon, LH; and Johnson, FB.

## MOGULS WILL PLAY IN ANSON TOMORROW

### Game is One of Three To Be Played Away From Home

Munday High School's Moguls will go to Anson tomorrow (Friday) for a conference game on that field at night. It is the second game they had scheduled away from home this season and the third conference game so far. Munday still has two conference games, with Stamford on October 28, and Hamlin, November 18, the latter the only other game away from the home port.

Coach Cooper is said to have several new plays he expects to uncock at Anson and the team is fighting to break the non-scoring jinx that has followed them so far this season. Football forecasters here believe that the Moguls will have a better chance with Anson than with the other teams that they have played to date and several fans are expected to go there to bring home the pennant.

## Ford to Announce New Model of Car

The Ford Motor company announces plans for a new line of automobiles in the "lower medium priced" range, to be known as the Mercury 8, Frank Trammel, salesman for Bauman Motors, local Ford Agency, said this week.

Edsel Ford, president, said the new model would be introduced shortly before the New York Automobile Show. The Mercury will be priced between the company's Ford V-8 and the Lincoln Zephyr V-12. It will have a 116-inch wheelbase, a V-8 motor and will be equipped with hydraulic brakes.

Much interest is being shown in the new line of Ford V-8 cars to be announced soon, and it is regarded as certain that the present type of motor will be retained, with a few minor improvements.

## Writein Candidate . . .

HOBART HUSON

Above is a likeness of Hobart Huson, of Refugio, who aspires to become governor of Texas by having his name written in on ballots in the general election this fall. He styles himself a country-town lawyer and expresses "appreciation" for all publicity given him.

## BOOK SHOWER SPONSORED BY STUDY CLUB

### Oct. 20 is Date People Are Asked to Leave Books for Library

The Munday Study Club is sponsoring a book shower on Thursday, October 20, in an effort to provide a library for the people of Munday and this section. The club has already bought several new books and is having a shelf of 50 late editions sent out from the state library at Austin.

Any book you may wish to donate will be appreciated, Mrs. Riley B. Harrell said this week. If you do not have a book that you care to donate we shall be glad to receive any amount of money for this purpose. If you are unable to contribute either a book or a cash donation, we urge you just as heartily to come visit our clubhouse at that time, on the afternoon of October 20, 1 to 5 p.m.

The library will be open to borrowers on October 29, and it is planned to have a librarian at least five days a week.

There will be rental shelves in the library which will have the newest books at all times, the sponsors say. Books of fiction and for children are in special demand and it is hoped that a good selection of this type will be brought in.

Members of the Study Club are working hard toward the institution of a public library here, and the cooperation of everyone is earnestly solicited in this big undertaking.

## M. H. McCARTY IS STRICKEN ON HIGHWAY

### Member of Prominent Family Here Dies Near Archer City

Funeral services for M. H. McCarty, 32, son of Mr. and Mrs. W. W. McCarty, who died suddenly near Archer City last Monday afternoon, were held at the First Baptist Church in Munday, at 3 o'clock Tuesday afternoon. Rev. W. H. Albertson, pastor, conducted the services, assisted by Rev. H. A. Longino, pastor of the First Methodist Church. Interment was in Johnson Cemetery, with Mahan Funeral Home in charge of arrangements.

Mr. McCarty was found by two state highway patrolmen a few minutes after 12 o'clock noon, last Monday, parked in his car at the side of Highway 66, 11 miles south of Archer City. He was enroute to his home in Wichita Falls. The two officers, John Lowery and C. W. West, were very close friends of the man and stopped to offer aid, when they found him unconscious at the wheel. They worked with him for a short time and realizing the seriousness of his condition, rushed him in the patrol car and rushed him to the hospital at Archer City. The officers told W. W. McCarty that they made the 11-mile drive in six minutes but were of the opinion that he succumbed about eight miles from town, while one was administering artificial respiration. Cause of his death was unknown but was believed by some to be a heart attack, although he was not known to be suffering from heart trouble.

Mathis Horton McCarty was born on June 11, 1906, in Knox County. He attended public schools in Knox City and learned the barber's trade when a young man. He had worked at the trade here, and owned shops at Knox City and Haskell previous to his employment in the Coleman Barber Shop, at Wichita Falls, where he was living at the time of his death. He was 32 years, three months and 29 days of age.

He is survived by his widow, Mrs. Mildred McCarty, Wichita Falls; one son, Walter Mac, and a daughter, Janice; his parents, Mr. and Mrs. W. W. McCarty, of Munday; three brothers, Stanley McCarty, Lellevand, Texas, and Culver and Mann McCarty, and Lubbock, and Misses Imogene and Colleen McCarty, Munday.

Pallbearers at the funeral were Buel Bowden, Roe Myers, Fred Lain, C. C. Palmer, Grady Davis, and M. E. Jones.

Mrs. E. C. Henry, Mrs. G. B. Smith and daughter, Margaret, and Mrs. R. C. Henry, all of Floydada, were visitors here last week in the home of Mr. and Mrs. Pitzer Baker.

## THORNTON'S PALAMINO HORSE IS JUDGED BEST 2-YEAR-OLD AT FAIR

### Sunset School To Open Next Monday

Students at Sunset school will reassemble Monday morning for the continuation of the current school term. T. W. Harber, superintendent, told The Times Wednesday.

School buses will make their usual runs Monday morning and school is scheduled to begin at 9 o'clock instead of 8:30 as heretofore. There will be morning and afternoon sessions.

A number of improvements have been made in the gymnasium during the short vacation and lighting facilities have been greatly improved. A better heating arrangement for the gymnasium has been worked out and everything is in readiness for the cold weather, Supt. Harber said.

### ON DEER HUNT

W. R. Cabaness, of the West Texas Utilities company, is in Colorado this week on a deer hunt. He expects to be home Saturday.

## Is 2nd Best, All Ages, All Purposes In Abilene Event

High honors in the stock show at the West Texas Fair, which closed at Abilene last Saturday after a week's celebration, were awarded a Palamino saddle horse owned by Grady Thornton. The horse received first place among all two-year-olds and was judged the second best of all ages, all-purpose horses in the show, last Thursday. Competition was very keen this year and there were more entries of fine stock than in many years, it was said.

The young stallion of Mr. Thornton's was bred from Dr. A. A. Smith's lot of fine stock and was raised by Dr. Smith. Mr. Thornton bought the horse when a colt and he now weighs 940 pounds. Decision of the judges as to the best entry in all classes was delayed while they considered Mr. Thornton's horse and another of the same breed.

"It was the best lot of stallions, draft horses and all others, that I've seen in a long time," Mr. Thornton said, after returning here from the show.

Specializes in Good Stock  
Mr. Thornton is a champion of fine-blooded stock, as has been attested by his purchases of good cows in connection with his dairy business here. He is owner of the Munday Dairy.

Last February he attended the Fat Stock Show, in Fort Worth, and bought two registered Jersey milk cows. He is milking 24 fine cows at the present time, and he takes a pardonable pride in the quality of the livestock which he owns.

He also has a Palamino mare and her colt which he values highly. Mr. Thornton was assisted at the fair by Thomas Rigby, and they were there through the entire week.

# It's a HIT!

This Subscription Campaign!

The World Series is over, but The Times has scored such a hit in its reduced rate subscription campaign, we have decided to extend the time a few more days. Recent subscribers taking advantage of our offer of one-fourth to one-third off, are:

## Weather Report

Weather report for the week ending October 12, 1938, as recorded and compiled by H. P. Hill, of the Munday Cotton Oil Company.

	LOW	HIGH
1938 1937		
Oct. 6	65	61
Oct. 7	60	55
Oct. 8	60	56
Oct. 9	59	56
Oct. 10	62	48
Oct. 11	63	58
Oct. 12	63	57

Rainfall this week, .43 inches.  
Rainfall same week last year, 1.74 inches.  
Rainfall to date this year, 23.99 inches.  
Rainfall to this date last year, 17.07 inches.

## 'Dad' Rawlins Celebrates 98th Birthday Anniversary at Goree

J. W. "Dad" Rawlins passed his ninety-eighth milestone at his home in Goree, on Saturday, Oct. 8. So far as is known, Dad is the oldest person living in Knox County, where he is known and loved by every old-timer and many hundreds of younger persons.

For the past several months he has been confined to his home, since an attack on last December 3, but he never fails to have a word of friendly greeting for friends who call, and he enjoys recalling the old times when the country was rough and tough, and cotton sold for "nearly 50 cents a pound." Recently Mr. Rawlins wrote an article on cotton for The Times, and this newspaper has been the recipient of many valued and informative letters from the old-timer. He has been a subscriber to The Times since as far back as records go, and very probably for years before that.

Children who gathered at the family home for the happy occasion were: J. R. Rawlins, Jr., Chicago; Mr. and Mrs. J. C. Rawlins, Goree; Mr. and Mrs. H. M. Rawlins, Hamlin; and Mr. and Mrs. J. F. Lowrance, Munday. Other visitors included Mr. and Mrs. J. F. Lowrance, Jr., Goree; Mr. and Mrs. J. W. Malone, Dallas; Mr. and Mrs. Clyde Huff, Hamlin; Miss Lucille Lowrance, Wichita Falls; Milford Peek, Littlefield; Billy, Edwin, Truman, Glenn, Troy and Homer Lowrance, Verna Lee, Jessie Mae Rawlings, Johnnie and Roy Doyle Lowrance, J. W. Malone, Jr., Mr. and Mrs. Edd Worlow, Sweetwater, Okla.; Mr. and Mrs. Herbert Jenkins and daughters, Lucille and Carolyn, Sweetwater, Okla. Mrs. Worlow is a sister of Mrs. Rawlins and Mrs. Jenkins a niece.

## "What a Man Does For Himself Dies With Him— What He Does For His Community Lives On and On"—

### TEXAS HAS CLAIMS

All the cotton states are competing for the federal cotton uses laboratory, soon to be located and built.

Texas is somewhat reassured in that a group of scientists and technicians of the Department of Agriculture are to inspect sites and recommend the location.

But the picture looks unfavorable, in hints that political considerations already have virtually foreclosed the award for Mississippi.

Texas has to offer the fact that it produces a 3,000,000 bales average crop—better than a fourth of the nation's cotton yield. Sometimes, Texas produces over a third and close to a half of the national crop.

Texas is far ahead of any competitor as the principal cotton state. It would like to be considered on that basis, rather than on any political consideration whatever.

But there hasn't been anything wrong with Texas politics. The only criticism we have heard is that Texas has been such a strong new deal region that it has received relatively more benefits than other states. Texas has a lot more congressmen than any other cotton state; and its rank is the highest in senate and house committee rankings.

If the farm economy of Texas is bettered, it is obvious that more people will have been reached than can be reached in any other state; and since the benefits are to be southward, the research laboratory undertaking ought to be in the principal crop center.

The outlook is unfavorable, but there is no necessity of giving up hope.

### FIRST STEP IN PUBLIC LIFE

A good mother here in Munday expressed her heartache to The Times editor when her little one started to school this year. So many people have heart pangs when their children step out into the world to begin their career at school. Up to then, the children looked only to them to supply their every need. Now the little folk have gone out to deal with the world, as represented by teachers and school authorities.

Children have to learn to stand on their own feet. Our generous school system gives them about 11 years, on an average, to learn that great lesson. School gives them a chance to find out what things the world will accept, and what it will not have. Regardless of what indulgent parents allow and encourage, the program of schooling was worked out by people who have studied school as a life's profession and are better able than any parent to properly instruct and educate a child. Schooling does not take the place of good home training; it adds to it. Busy, indeed is the teacher who has to build from nothing.

Our children are fortunate to have a chance to learn under such conditions as exist here and in other public schools throughout our state and nation.

### THIS IS THE AUTUMN OF THE YEAR

October and November . . . are they months of sorrow for the season of crops which is gone? Are they the "fall" months that we hear so much about? They should be a time of rejoicing and thankfulness for the past months of plenty to eat, sufficient clothing, shelter, friends, and God's rich harvest season.

The word Fall originally referred to calamity, such as the fall of a nation, or decay. It was inaptly applied to the season of gathering and decay of the stubble, but poets term it autumn much oftener than they speak of fall. Not that this comment points anything like a finger of praise at poetry, but even in that instance autumn sounds much better.

Many people look at these months as a period of deterioration. It makes them feel sad to see the leaves dropping, fruit rotting on the ground, flowers fading, plants withering. The world of beauty, in their thoughts, is going to pieces, nipped by the harsh frosts of the coming winter.

But autumn brings a new tang in the air. It brings brisk and cooling winds and the relief from the heat of summer prompts us to be up and doing. We can no longer satisfy our conscience with the excuse that it is too hot to work. A person who can't do a good day's work in Munday in this kind of weather needs a stimulant; not a tonic.

### CAN THEY READ?

Slow signs, and newspapers everywhere, continually urge drivers to slow down when passing schools. In the neighborhood of schools, crowds of eager youngsters are pouring in and out of the buildings, and it is a dreadful thing to run over one of them. But do drivers without lights, think so? Do tractor, truck and wagon drivers justify their running without lights at nights on the grounds that children don't go to school at night? Do they even know that over 500 have been to each ball game, and hundreds attend plays and other functions at the school on almost any night in the week?

Our main street, which leads to the west highways, has become a speedway, day and night, for drivers who compete in dust-raising and reckless driving.

Children, in their boisterous unconcern, can't be expected to exercise the prudence of grown people. One driver expressed a wise thought recently when he said: "I always expect a child to run in front of my car, and then when he does, it isn't a surprise."

### ONE THING WE NEED

If there is any way to get yardage markers on the local football field, they would be greatly appreciated. That's about the only thing that's lacking on our fine new night field, but spectators in the grandstand can't tell much about the game, the way it is, without counting backwards from center field. Markers every ten yards make the game more interesting, and shouldn't be very expensive, in wood, with large numerals.

## THE MUNDAY TIMES

Published Every Thursday at Munday

Grady G. Roberts Editor, Owner and Publisher  
Harvey Lee Foreman

Entered at the Postoffice in Munday, Texas, as second class mail matter, under the Act of Congress, March 2, 1879.

SUBSCRIPTION RATES  
In first zone, per year \$1.50  
In second zone, per year \$2.00

The Munday Times is Democratic, yet supporting only what it believes to be right, and opposing what it believes to be wrong, regardless of party policies, publishing news fairly, impartially.

NOTICE TO THE PUBLIC: Any erroneous reflection upon the character, standing, or reputation of any person, firm or corporation which may appear in the columns of this paper, will be gladly corrected upon due notice being given to the publisher, at the Munday Times office.

Luck always seems to favor the man who didn't count on it.

### DID THEY STUDY HARDER?

The triumphs, the disappointments, the strain and stress of the night game of football are with us again. But as long as we have boys, and time, they are going to spend it somehow, and where could it be spent to better advantage?

It is doubtful if they would study harder. Football players, in fact, are required to make their grades, or they are not allowed to play. In this manner, they may have been studying harder than before. One thing that cannot be denied; the scholastic achievements of our schools are steadily growing better. A diploma now means certain courses of instruction and specialized training that it didn't include 15 years ago. Schools offer better training now than ever before.

Football depends upon fast thinking and . . . then fast moving. Uninformed people—and disinterested persons—say the game is one of brawn, but winning teams are smart teams, and smart teams are made up of bright young fellows who can think fast and pull out of a pinch on their own initiative.

It's a peculiar fact that the late Coach Knute Rockne spent three times as much of the training period on skull practice as he did on tackling dummies.

### IT DOESN'T GROW LIKE MEMORIES

When most of us go back to childhood scenes we find the swimming hole much smaller, the big railway cut not so deep, and the distance from the old home up to the school house considerably less. The rows we had to plow have shrunk in recent years, and it brings sadness, after having told these stories so many times.

Which leads us to a conclusion that where we are now, is about the best place in the world. Memory magnifies our outstanding youthful experiences, but one shouldn't always be looking back. Throughout our active life we look forward; at least, the happy person always has something to look forward to. Only the aged, the infirm and the feeble, can reminisce about "the good old days," and they, often, were not as good as they seem. The writer vividly remembers a time only 18 years back, but those four bright years of high school would have been a lot more pleasant, more beneficial, and . . . more fun, if they were being lived in this day and time.

### NO USE FOR POP BOTTLES

The world series, a year or two from now, may be an entirely different thing, when there is no room left to criticize the umpires. For science, which went to the aid of horse racing, athletic events and burglar alarm systems with the electric eye, now proposes to install this magic little device over home plate on big baseball fields, eliminating all guess work as to whether the ball went over or not.

A large board, in view of everybody, says a scientific magazine, would register the result of every throw. In big cities, where play-by-play reports are phoned in direct to the linotype operator so that a special edition can be printed for each inning of a big game, they may be able to do away with umpires altogether, sooner or later. But that might knock a hole in the pop business in the grandstand!

### GET INTO THE SWIM

This week, Oct. 10 to 15, will be given to informing the public of the hazards of one of man's most destructive enemies—uncontrolled fire. Fire Prevention Week, which has been an annual event ever since it was proclaimed by President Wilson more than two decades ago, will begin October 9th and run through the 15th.

A few vivid pictures illustrate the importance of the Week. Each year fire destroys about \$300,000,000 worth of property directly—and the indirect loss brings the total to the billion-dollar mark. Worse yet, it kills 10,000 people horribly—an average of 27 each day. This is what carelessness, ignorance and incompetence breed.

Believe it or not, fire prevention is fun—even as instruction in fire prevention is nowadays made dramatic and entertaining. It doesn't take much in either time or money. It does pay tremendous dividends. Mark down the date of Fire Prevention Week in your calendar—and get into the swim.

Everette Hale once said that he would never attempt to bear more than one kind of trouble at once. Some people bear three kinds—all they have had, all they have now, and all they ever expect to have.

School is a place where students who don't want to go are forced to, in order to learn things they don't want to know, so they can hold down jobs in later life that they don't want to work at.

Just about half the people in the world are unhappy because they can't afford the things that make the other half miserable.

## Lessons in English

What is wrong with each of these sentences?

- All of Helen's children were raised in California.
- He poured about three teaspoonsful of liquid into each glass.
- Apples are very healthy.

- Every one of the five men were questioned.
  - How much money have you made since your salary was raised?
  - I selected the two first pieces.
- See answers to these questions on page six of this issue.

## Casual Comments

BY T. F. FRY

"News" is one of the oldest—and most interesting words in our language. We note in Biblical history where messengers brought Saul "news," and today, 2,200 papers throughout our land bring the news into 18 million homes. Tradition has it that the word came from the four directions: North, East, West, and South; hence, NEWS.

Food for thought is contained in answers sent in to a newspaper which offered a year's subscription to the person giving the best reply to the question: "Why is a woman like a newspaper?" Some of them read: "Because they are thinner now than they used to be." "Because they are well worth looking over." "Because they carry the news wherever they go." "Because it's mighty nice to have one around." But the one to win the subscription was this: "Because every man should have one of his own and not run after his neighbor's." And in this connection it is brought to our attention that more Times issues are borrowed than all the sugar and early-morning coffee combined. (These figures unofficial.)

A writer who calls herself Mignon, and who sometimes packs a whole column of logic in one paragraph, says: "The world is now rejoicing that the dove of peace is still with us, but she may flit out of the window at the slightest provocation. The way Hitler was handled reminds me of a father who once bragged how well his children minded him, but he was careful never to tell them to do something they didn't want to do. And there's not a single power but what believes that Hitler will look about, smack his lips and choose another bite of the map of Czechoslovakia, to be deposited in his gutter alongside of Austria. I hope it is harder for him to digest than it is to spell."

Edwin H. Stuart, of Pittsburgh, recently compiled a list of commandments for a newspaper office which we think worth reprinting (not that they're needed here):

- Thou shalt warn the printer at least a few minutes in advance when a rush job is coming up.
- Thou shalt edit thy copy and make it foolproof.
- Thou shalt endeavor to cooperate in every manner because, lo! it keepeth down expense.
- Thou shalt not fail to realize our earnest desire to cooperate and to please, because, verily, thou wilt always find us eager to accommodate.
- Thou shalt avoid late alterations and changes like a plague.
- Thou shalt realize that the finished job is not produced like sausage with a grinder, but involves many intricate processes.
- Thou shalt not hope to turn in late advertising copy and get early editions of the paper.
- Thou shalt not rain fire upon the editor's head if he knoweth not everything thou doest, because not even thy right hand knoweth what the left doeth.
- Honor thy town and its newspaper that their days and thy prosperity may be long on this earth.
- Thou shalt not fret and worry about how thy work will be done because The Times staff knoweth best in everything that pertaineth to typography.

### ONLY ONE SOLUTION

Two negroes had not seen each other for several years but met and discovered each had married. "What kinda' woman did yo' get, Mose?" the first one asked. "She's an angel, Rastus, dat's what she am." "First one: 'Boy, yo' ought to be glad of dat. Mine is still living.'"

## Gems Of Thought

PHILANTHROPY

TRUTH  
Truth is the highest thing that man may keep.—Chaucer.

Truth is the summit of being; virtue is the application of it to affairs.—Emerson.

To truth there is no error, all is Truth.—Mary Baker Eddy.

Think nobly, and thy thoughts Shall the world's famine feed. Speak truly, and each word of thine Shall be a fruitful seed. Live truly, and thy life shall be A great and noble deed. —Horatius Bonar

To thine own self be true And it must follow, as the night the day, Thou canst not then be false to any man.—Shakespeare

Truth is the secret of eloquence and of virtue, the basis of moral authority; it is the highest summit of art and life.—Amiel.

Not what I have, but what I do, is my Kingdom.—Carlyle.

A moral, sensible, and well-bred man will not affront me,—and no other can.—Wm. Cowper.

There are no greater miracles known to earth than perfection and an unbroken friendship.—Mary Baker Eddy.

He profits most who serves best. —A. F. Sheldon

I pray thee, O God, that I may be beautiful within.—Socrates.

No one will know what you mean by saying that "God is love" unless you act it as well. —Anonymous

RADIO COMPLICATIONS NOT ALWAYS LIMITED TO STATIC

A man had just installed a radio. He tuned it in, getting a broadcasting program and two squealing stations from Mexico on either side. One was a minister, one was a man telling the condition of the roads and the third was a lecturer on poultry. Here is part of what he got: "The Old Testament tells us that baby chicks should detour one mile south of Albany and listen to the words of the prophet, Syssy . . . be careful in the selection of your eggs and you will find a hard-faceted road on to Abilene. We find in Genesis that the roads are muddy just west of the henhouse and clean straw is essential if you would save your soul. After passing through Anson turn north to Jericho. Three wise men bought a large incubator on account of a rock in the middle of the road. The baby chicks were troubled with pip and a bond issue is being talked of in the Holy City. Keep the feet clean, live a life of righteousness, and turn south when you get to the big red schoolhouse.

"After you leave Seymour, unless you do these things, the wrath of the Lord will make all the pin feathers fall out and you will find the road much rougher when you enter there and Wichita Falls are mixed with laying mash and out of 500 eggs one should get good roads from there on. With only 22 hens, He commanded Noah to build an ark one mile north of Wichita Falls and after raining 40 days and 40 nights you have a half-mile detour. Just west of the broodhouse many tourists from the House of David are trying the Plymouth. Rocks mixed with concrete and a desire to do right."

### IT'S POP AGAIN

He: "Do you believe in the devil?" She: "Sure, don't you?" He: "Shucks, naw. It's just like that Sandy Claus story; t'ain't nuthin' but daddy."

## Our Greater Services to You Are . . .

- Our RATES are as low as safety will permit.
  - We have arranged with eight different banks to accept your payments and thereby save you postage, money order fees, time and trouble.
  - We pay postage on your return receipts when your card accompanies remittance to the office.
  - You telephone us COLLECT to notify us of the death of a policy-holder.
  - WE PAY DEATH CLAIMS QUICKER, that you may save by paying CASH; and to prevent the embarrassment that comes with death when no protection has been provided.
- THESE SERVICES have given us more Policy-holders than any similar company in West Texas.

## Hints for the Household

Burning a match or two in the bathroom will remove most odors.

Window screens make good radio aerials where local noise interferes with regular reception.

To remove mustard stains from washable fabrics merely wash the stained area in warm water and mild soap suds. Stains may be removed from non-washable fabrics by rubbing them gently as soon as possible with warm glycerine applied with a small sponge or cloth.

Starch slip covers a little when you launder them. That will make them a little more glossy and give them more body. They'll keep clean longer. Never use bluing on colored or flowered slip covers.

Grated raw carrots give cabbage salad added color and flavor. Mincing green peppers and pimientos will do the same for creamed potatoes, turnips, cauliflower, lima beans or corn.

## How Editors Get RICH!

(An editorial in the Burkburnett Star.)  
After a great deal of worry and study we have at last figured out why it is that editors have so much money. Take, for instance, the birth of a child in the neighborhood. The editor gives the youngster a sendoff in the paper and gets \$5. It is christened and the minister gets \$5, and the editor gets 00\$ and a lot of cussin' for getting the parents' initials wrong in the paper. It grows up and gets lots of publicity for \$3 for being a football star, musician, and debater. Then it gets married. There is a column (free) about the beautiful and accomplished bride. The minister gets \$5 and a piece of cake but the editor wasn't able to attend because of a meeting of the Boosters Club. If she should

die, the doctor gets from \$50 up, the minister his expenses, and the undertaker most of what's left. The editor publishes a heart-broken account of about two columns and a lot of poetry, and gets 00\$. But her daddy won't subscribe for the paper because he already gets the Podunk Daily Index and the Weekly Farmers Friend. It's no secret anymore why editors have so much money.

**N.T.S.T.C. Alumni To Meet at Dallas**

Denton, Texas, Oct. 13—Looking forward to the annual reunion dinner for the ex-students of the North Texas State Teachers College to be held in Dallas, Nov. 25, "exes" of the Denton teachers college will hold re-assembly meetings throughout Texas Oct. 10-15. Mrs. George Medders, executive secretary of the North Texas Ex-Student Association, has announced.

A drive to locate every former student of the college has been launched by the Association president, Bullock Hyder, who has asked that all county organizations of exes mail the names of their county officers to Mrs. Medders at the ex-student offices on the campus.

The annual reunion dinner will be held Thanksgiving evening, at 6:30 in the Crystal Ballroom in the Baker Hotel in Dallas, with Hyder presiding. Music will be furnished by Floyd Graham's orchestra.

**Governor Directs Accident Inquiry**

Investigation of Texas' most tragic automobile collision in 1938 has been completed by a special committee appointed by Governor Allred, and immediate release of the report and recommendations were made today by Carl J. Rutland, chairman of the Committee and president of the Texas Safety Association, Inc.

Governor Allred created this committee to investigate an automobile crash at Highway 80 and Belt Line Road, near Dallas, on May 5, 1938, in which six people were killed and two badly injured.

This is the first case on record of an investigation of an automobile accident by the governor of a state, and the committee, composed of C. J. Rutland, Albert Sidney Johnson, of the Public Safety Commission, Harry Lines of the State Highway Commission, and Judge Ben Fly of the Dallas County Commissioner's Court, devoted its efforts to learning the fundamental causes of the fatal crash and drafting a number of recommendations for the prevention of such tragedies in the future.

In its report, the committee named violation of a boulevard stop sign, speed too high for safety, driving while under the influence of intoxicants, and ignoring a crossroad sign as the immediate cause of the fatal crash.

In its conclusion the committee

charges the traffic system of the State with failure to educate the driver to the dangers of these violations; failure to enforce traffic laws, and provide certainty of punishment for violators, together with need for further traffic engineering for safety on streets and highways.

The committee recommended a state-wide traffic survey, county by county, perhaps through WPA funds. It points out the need for a substantial increase in the State highway patrol personnel. It urges adoption of an anti-ticket-fixing pledge by all city councils and by county officials in the state.

Complete scrapping of the state traffic laws and adoption of the model code is recommended by the National Conference in Street and Highway Safety, was urged.

A definite program of education for motorists, a revision of the driver's license law, giving the Texas Department of Public Sa-

fety authority to suspend licenses, with the right of appeal, and providing for a small fee to be charged for each license issued, were recommended.

The committee calls attention to the fact that the annual number of traffic accident victims in Texas is over six times as great as the number who perished in the New London school disaster and it appeals to every public official and every citizen of the State of Texas to join the committee and the governor in demanding that these recommendations and other steps necessary to make our highways safe be put into effect without further delay and political quib-

ling, and consequent wastes of life and property.

**Chevrolet Plans "80,000" Banquet**

Chevrolet Motor Co., in anticipation of the announcement of its 1939 models, is planning a dealers' preview convention, between Oct. 6 and 14, at which 80,000 persons are expected to be present, climaxed with a banquet to be served to that number.

W. R. Moore, local dealer, and Salesman A. C. Brock, are attending at Lake Casino at Fort Worth this week for a preview showing of new models and a banquet which will be served to representatives from over a third of the State of Texas. The Dallas zone covers the state with the exception of the southern district, with headquarters at San Antonio, and southeastern district, headquarters at Houston.

The meetings will be held in 42 principal cities throughout the nation. Dealers, salesmen and other members of the organization will attend. Since the average number at each meeting will be nearly 2,000, this will necessitate engagement of the largest banquet place at each point. The event will rate, in many cities, as the largest un-

**Beware Coughs from common colds That Hang On**

No matter how many medicines you have tried for your common cough, chest cold, or bronchial irritation, you may get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with any remedy less potent than Creomulsion, which goes right to the seat of the trouble and aids nature to soothe and heal the inflamed mucous membranes and to loosen and expel germ-laden phlegm.

Even if other remedies have failed, don't be discouraged, try Creomulsion. Your druggist is authorized to refund your money if you are not thoroughly satisfied with the benefits obtained. Creomulsion is one word, ask for it plainly, see that the name on the bottle is Creomulsion, and you'll get the genuine product and the relief you want. (Adv.)

dertaking of its sort on the local records, just as the overall project probably exceeds in size anything in the annals of business.

The purpose of the convention is to present to the retail organization Chevrolet's new passenger cars for 1939, which are scheduled for public announcement Oct. 22. Central office executives, aided by field wholesale personnel, will make the presentation, and lay before dealers the company's plans for advertising and selling the product during the months to come.

Hundreds of thousands of miles will be traveled by dealers and salesmen enroute to and from the meetings. All modes of transportation will be called into play—railways, airplanes, buses and private automobiles.

This record-breaking convention, the company said, was decided upon as the only means by which Chevrolet could present its new product and selling plan to its entire retail organization in the short time remaining before the public announcement. The last time a pre-view was held for the dealer organization was in December 1933, prior to the announcement of the 1934 models. In a period of three weeks, 12,000 dealers were brought to Detroit, and shown the models at the General Motors proving ground near Milford in a series of all-day meetings. This year's plan enables Chevrolet to cover the same ground with more than six times as many men—the dealers and their entire selling organizations—and do the job in a single day.

Chevrolet believes that the effort and expense of arranging the huge convention will be more than offset by its benefits in the shape of work-producing sales. The previews are expected to generate such a high pitch of enthusiasm among dealers and salesmen as to assure volume sales from the moment they make their public bow.

**Baby Boy Has Seven Coeds For "Mamas"**

Exultantly exposing a single tooth, Texas Tech's newest and very youngest enrollee has arrived on the campus.

Clad in the most dashing collegiate fashion, a hand embroidered gertrude of a delicate pink, the student was received joyously into the arms of seven loving adopted mothers—girls of the practice house. Seventeen pounds, blue-eyed, aged 7-months and named Gordon, the young protege has come to live in the Tech campus for the winter months.

Child Director, Pauline McCarty, home economics major, will launch the first week of Gordon's college career. And judging from his schedule, for he plans great things, it will be a full time job.

Registering at the home management house Monday, this amazing student was signed up for a rather vigorous course.

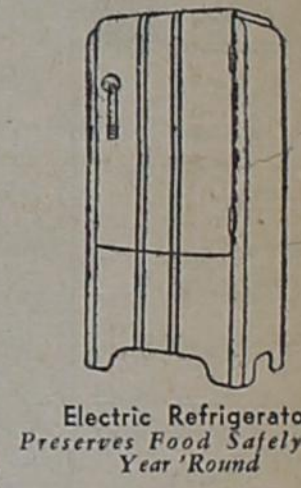

At 6 a.m. young Gordon arises to meet his first obligation of the school day—a good bottle of Grade A milk. After such a great task the youngster goes back to bed for an hour of rest. But not for long—at 7:30, promptly, he is up for his cleansing class—a bath to all knowing students. From this time on, the day really starts in earnest. There is a long session of classes, among which are included naps, feedings and rests.

Although his day is pretty well filled up, the young man finds time for such extra-curricular activities as play periods and afternoon buggy rides.

Evidently aware of his place as an important person on the campus, young Gordon received the press with marked indifference. He displayed little interest toward dances, parties and the like, but did emit one short yelp at the mention of the Red Raider football squad.—Lubbock Avalanche.

## Artists Program To Be Presented By Music Club Tuesday Evening

Munday Music Club will present its first artists program next Tuesday evening at 8 o'clock, in the elementary school auditorium when three popular and talented guest artists from out of town will be seen and heard.

Mrs. G. K. Fladger, of Honey Grove, pianist, who is a graduate of S.M.U. school of music, both in piano and organ, and a former pupil of Van Katwijk, a pupil of Shaw of Paris, and a pupil of Mrs. J. H. Cassidy, will be heard in several piano numbers. She is organist for the First Methodist Church and an outstanding teacher of music in Honey Grove.

Mrs. B. W. Burford, of Dallas, soprano, is a graduate of East Texas Teachers College, a former voice pupil of Ethel Rader of S. M.U. school of music, soloist for Mungler Place Methodist Church and the Concordians, member of the choir at St. Matthews Cathed-

ral in Dallas, director of the Junior Wednesday Morning Choral Club, Senior Wednesday Morning Choral Club, and a favorite entertainer on the Baylor Hospital shut-in program.

Harold Dye, Jr., ballet dancer, of Bonham, is a teacher of professional dancing and director, and has been dancing for sixteen years. He attended East Texas State College and directed the college shows. Mr. Dye has danced in numerous programs in Dallas and was featured in the Pan American Exposition. He has studied with Ted Shawn, Mario of Kansas City, and Neuman of Dallas. Mr. Dye executes and teaches all types of dancing but his part on the program will be made up of concert ballet dancing.

Following is the program which will be given at the local auditorium next Tuesday evening:

Etude de concert.....	McDowell, Op. 36
Waltz Song from Romeo and Juliet.....	Gounod
Slave Song.....	Teresa del Reigo
Caprice.....	Harold Dye
Prelude, Op. 28, No. 1.....	Chopin
Prelude, Op. 28, No. 10.....	Chopin
Exoneration.....	Mrs. G. K. Fladger
Yesterday and Today.....	Spross
Mi Viejo Amor.....	Oteo
Le Boulevardier.....	Harold Dye
Arabesque, Op. 18.....	Schumann
Medley of Southern Songs.....	Fox
The Hills Of Home.....	Exie Braudrick Burford
Danse d'Amour.....	Harold Dye and Miss Jean Williams

## Four Marriages Solemnized Here During Past Week

Springtime has a rival in the month of October here, for three young couples were married last Saturday and another couple Wednesday afternoon by Rev. W. H. Albertson, pastor of the Baptist church.

Miss Lorain Finley, daughter of Mr. and Mrs. G. C. Finley, was married to H. B. Jennings, about five o'clock Saturday afternoon.

Only a few minutes later, Miss Leota Little, daughter of Mr. and Mrs. John Little, who live northeast of Munday, was united in marriage to Joe Mayfield.

About eight o'clock Saturday evening Miss Mettie L. Hawes of Weinert, and V. W. Cypert of Knox City were married at the Baptist parsonage.

Wednesday afternoon at five o'clock, Rev. Albertson read the nuptial vows to Miss Audrey Kegley, daughter of Mr. and Mrs. L. L. Kegley, and Elzo Moorman, of near Goree.

## Epworth League Has 50 Visitors

A meeting of the J O Y union of the Epworth League of the Methodist church was held in this city last Tuesday night. More than fifty members attended from near-by towns of Knox City, Sagerton, Westover and Bomarton.

After a very interesting program which was prepared by leaguers from Westover, a short but important business meeting was held. Following this, several games were played and refreshments were served.

The next union meeting will be Knox City on November 8. There will be a district meeting in Westover on October 29-30.

## M.E. Hi League Meets Sunday, 6:30

The Hi League of the Methodist church met Sunday evening at 6:30 o'clock. A very interesting program was enjoyed by eight members who were present. Everyone is urged to attend as members report a grand time.

The program last Sunday was as follows:

Songs.  
Leader, David C. Eiland.  
Call to Worship, Dixie Nell Atkinson.  
Talk, Hugh Longino  
Talk, Flora Haymes.  
Scripture, Harold Longino.  
Song, prayer, and benediction.

## CHORAL CLUB TO MEET THURSDAY WITH MRS. BASS

The Munday Choral Club will meet next Thursday evening at 7:30 o'clock, with Mrs. J. Horace Bass, it was announced today. The club had been meeting on Tuesdays heretofore.

Mr. and Mrs. Jack Mayes and son, Jackie, are in Corpus Christi visiting Mr. and Mrs. Joe Lynn Mayes.

## P. G. Barton Wed To Amarillo Girl Monday Evening

Announcement has been made of the marriage of P. G. Barton of Kansas City, to Miss Jo Woodlief, of Amarillo, on the evening of October 10, at Childress. The rites were read at the home of Mr. and Mrs. S. H. Moore, with Rev. J. Moore, pastor of the Methodist church, performing the ceremony.

Mr. Barton is the son of Mr. and Mrs. R. S. Barton of this city. He formerly lived at Amarillo but is now employed by the International Harvester Company in Kansas City.

Mrs. Barton is the daughter of Mr. and Mrs. J. A. Woodlief, 201 W. 41st Ave., Amarillo. She was graduated from high school and later a business college in that city and has been employed by Sanders and Scott law firm for some time.

The bride wore a black tailored suit with alligator accessories and carried a bouquet of American Beauty roses. Her only attendant was Mrs. Pete Hackney, of Amarillo, who wore a black suit and a corsage of roses.

Pete Hackney attended the groom as best man.

After the ceremony the young couple left for Fort Worth on a short wedding trip. They returned to Amarillo for a brief visit and will go to Kansas City to make their home.

## Kings Daughters S. S. Class Has Social Meeting

Several members of the Kings Daughters class, the adult ladies class of the Methodist church, were entertained at a business-social meeting in the home of Mrs. Austin Caughran, on Wednesday afternoon, when Mrs. Caughran, Mrs. H. F. Barnes and Mrs. S. E. McStay were hostesses.

Among other business transacted was the unanimous decision to have regular social meetings throughout the new church year. A number of snappy games were enjoyed, and refreshments of coffee and cakes were served by the hostesses.

## TO HEAR LILY PONS

A party of local women was in Denton Tuesday evening to hear Lily Pons, noted opera singer and screen star, who appeared there in one of her two stops in the state.

Those making the trip were Mrs. W. R. Moore, Mrs. T. G. Bengel, Mrs. P. V. Williams, and Mrs. Louise Ingram. They left Tuesday afternoon by car and returned the following day.

Sied Waheed is in Dallas this week, buying merchandise for the Economy Store.

## CAMERON Home-of-the-Month COMPLETE, Ready to Move Into For \$3009.00

A home to be proud of...

Approximately  
**\$24.78**  
PER MONTH  
Pays Everything

Principal, Interest  
Estimated Taxes  
and Insurance

This HOME is ULTRA MODERN IN EVERY RESPECT. Nothing has been overlooked in making this one of the most livable, yet compact, Homes of the Month.

The two large bed rooms have three outside exposures, which insure cross ventilation and plenty light. The bath has linen cabinets, medicine cabinet and tile floors. There are two halls connecting every room of the house. Entry to house from the garage is thru the back service porch. This home is literally filled with closets, hall cabinets, beautiful finishes and decorations.

Designed to meet every requirement of the Federal Housing Administration.

COMPLETE PLANS AND SPECIFICATIONS OF THIS HOME AND MANY OTHER HOMES OF THE MONTH MAY BE SEEN AT OUR OFFICE

## Why You Should

### FINANCE YOUR HOME UNDER THE LIBERAL F. H. A. FINANCE PLAN

The Federal Government has made it possible for every one to own a home, and pay for it in monthly payments often less than rent.

The F. H. A. Plan assures you of sound construction, good design, low interest rates and a long time to pay.

The Federal Housing Administration supervises the actual building of your home, which insures you against shoddy workmanship and materials.

You can borrow up to 90% of the appraised value of your home including the cost of the land.

You can pay this loan over a period of 25 years, at payments as low as \$6.01 per month for each \$1000.00 borrowed, plus 1/12 of taxes and insurance.

NO RED TAPE

WE HANDLE ALL DETAILS FOR YOU

# LISTEN TO THIS

By TOM FIZDALE

Eddie Cantor, whose discoveries of new talent have won him the title of the Ziegfeld of the Air, continues to live up to that reputation. It was while he was returning from Europe a few weeks ago that he discovered Ruth Somer, the 16-year-old piano protegee who made her radio debut on Rudy Vallee's program. Now on his own series, just returned to the air, he has presented listeners with another find, a mystery singer, whom he hopes will achieve as sensational success as have Bobby Breen and Deanna Durbin, two of his other discoveries of recent years.

Lanny Ross, the golden voiced singer, who stepped from athletic fame at Yale to singing fame on the radio, stage and silver-screen, may be heard on the air again this season. The noted vocalist has been doing some additional studying this past summer and rumors have it that he may be on a regular program before fall is out.

Ned Wever, leading man of Her Honor, Nancy James, top-notch new dramatic serial on CBS, is a song writer as well as actor. He has written the lyrics for more than 30 published songs, including a healthy number of hits.

Jerry Cooper, star of Vocal Varieties on NEC, is air commuting between New York and Cincinnati these days. Cooper lives in New York and planes to the Ohio city every week for the two programs.

If Una Merkel's father had been a Kentucky farmer instead of a traveling salesman the movies and radio might have lost one of their most charming performers. Traveling through the south with her father, back in the days when vaudeville was the chief entertainment, Una was bitten by the theatrical bug. The result was dramatic study, her stage debut with Helen Hayes, the movies and now radio, as comedy star, with Charlie Ruggles, of the Texaco Star Theatre on CBS.

Another Kentucky product to win radio stardom on a coast-to-coast network this month is Red Foley, popular singer of American songs, who heads the big cast of Avalon Time over NBC each Saturday night. Foley first won recognition as a singer of folk songs, but in his new show is proving he can do modern numbers equally as well.

So successful has been the Original Good Will Hour in helping thousands to adjust their personal problems that John J. Anthony, mentor of the show, has had its time extended to a full hour on the Mutual Broadcasting System network every Sunday night. Previously it had been heard only a half hour on some stations.

Concluding a sensationally successful road tour that covered more than half of the United States, Horace Heidt and his Brigadiers are en route back to New York for further hotel engagements. Heidt did sensational business in every town passed and will continue to be heard as a regular NBC feature when he returns to Manhattan.

Betty Lou Gerson, star of Arnold Grimm's Daughter, popular daytime serial, is studying French in her spare moments. Says she has always had an ambition to read French novels in the original but had never been able to settle down to a real study of the language until this year.

Miss Mildred Kennedy was a Wichita Falls visitor over the week end.

Miss Cloe Mayo spent last week in Elk City, Okla., visiting her cousin, Mrs. Lovelady and daughter.

Mr. and Mrs. Rex Holder of Coleman and Mrs. Brooks of Haskell visited here Sunday in the home of Mr. and Mrs. D. E. Holder.

P. V. Williams returned Friday afternoon from Dallas after a week's business trip.

Mr. and Mrs. Manuel Medley of Santa Rosa, N. Mexico, were visitors here in the home of the former's sister, Mrs. A. B. Warren and Mr. Warren, over the week end.

J. W. Ballard, local Church of Christ minister, left Monday for Apache, Okla., to visit his family. He is expected to return here by the last of the week.

Mr. and Mrs. J. Albert, Misses Helen and Blanche Albert and Ralph Albert visited relatives and friends in Stamford Sunday.

H. D. Warren was in Wichita Falls Friday, transacting business.

C. B. Jones of Mineral Wells, is spending a few days in Munday this week visiting his son, Sebern Jones, and Mrs. Jones.

Mr. and Mrs. Earl Owens and son, Dick, were in Vernon last Friday night to attend the Vernon-Electra football game.

## STATEMENT OF THE OWNERSHIP, MANAGEMENT, CIRCULATION, ETC., REQUIRED BY THE ACT OF CONGRESS OF AUGUST 24, 1912.

Of The Munday Times, published weekly at Munday, Texas, for October 1st, 1938.

State of Texas

Before me, a Notary Public in and for the State and county aforesaid, personally appeared Grady G. Roberts, who, having been duly sworn according to law, deposes and says that he is the owner of The Munday Times and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management (and if a daily paper, the circulation), etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, embodied in section 443, Postal Laws and Regulations, printed in the reverse of this form, to wit:

1. That the names and the addresses of the publisher, editor, managing editor, and business managers are: Grady G. Roberts, Munday, Texas.

2. That the owner is Grady G. Roberts, Munday, Texas.

3. That the known bondholders, mortgagees, and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages, or other securities are: Mergenthaler Linotype Co., Brooklyn, N.Y.

4. That the two paragraphs next above, giving the names of the owners, stockholders, and security holders, if any, contain not only the list of stockholders and security holders as they appear upon the books of the company, but also, in cases where the stockholder or security holder appears upon the books of the company as trustee or in any other fiduciary relation, the name of the person or corporation for whom such trustee is acting, is given; also that the said two paragraphs contain statements embracing affiants full knowledge and belief as to the circumstances and conditions under which stockholders and security holders who do not appear upon the books of the company are trustees, hold stock and securities in a capacity other than that of a bona fide owner; and this affiant has no reason to believe that any person, association, or corporation has any interest direct or indirect in the said stock, bonds or other securities than as so stated by him.

GRADY G. ROBERTS, Owner Sworn to and subscribed before me this 10th day of October, 1938. M. L. Wiggins, (My commission expires June, 1939)

ENGLISH AND PENCILS  
Teacher: "Don't say 'I haven't got no pencils.' You must say: 'I haven't any, you haven't any, they haven't any pencils!'"  
Tommy: "Well, where are all pencils, anyhow?"

SOON  
"Hello, Casey, have you found a job, yet?"  
"Not yet," said the Irish applicant. "They won't give a man a job in this town until he's worked here a while."

## State Bids For Laboratory Unit

The following resolution was unanimously adopted at the State Democratic Convention at Beaumont, on September 13:

RESOLUTION  
WHEREAS, the 1938 Federal Farm Act authorizes the establishment of four Farm Research Laboratories, one of which shall be in the Southern Region, of which Texas is a part, and,

WHEREAS, It is expected that the major efforts of the Laboratory to be located in the Southern Region will be devoted to Research work upon new and expanded uses for cotton and cotton-by-products, and,

WHEREAS, Texas is the largest cotton producing state, the largest cotton exporting state, and has the greatest variety of soil and climate of any cotton growing state, and further has probably suffered more than any cotton raising states from lack of market outlets for cotton. And,

WHEREAS, There has been wide spread, intensive, and continued interest and discussion in this State of the need for active and aggressive research work in connection with new and expanded uses for cotton and its by-products; NOW THEREFORE BE IT RESOLVED that this Convention go

on record as favoring and endorsing every reasonable means of inducing the Federal Government to locate its Cotton Research Laboratory in Texas, and further, that if the matter of a state appropriation should become a relevant factor in securing the location of the Federal Laboratory in this State, that the nominees of the Democratic Party, as well as present office holders of that Party be specifically instructed to support any reasonable and adequate appropriation for the purpose of securing the location of said Federal Cotton Laboratory within the State of Texas.

## Urges Football Fans to Keep Fit

Austin, Oct. 13.—Gridiron fans should take a tip from football players this fall and protect themselves at games by keeping in physical condition, the Texas State Department of Health advises.

"The nervous strain brought on by the Southwest's razzle-dazzle style of play, exposure to extreme climatic conditions for long hours in an open stadium and sudden changes in weather are particularly dangerous to football spectators who have been leading sedentary lives indoors," Dr. Geo. W. Cox, state health officer warned. "The healthy person, like the

athlete who adheres to strict training rules, won't be kept away from games because of illness. The spectator who keeps fit maintains his 'eligibility' throughout the season. But one who is careless with his health is apt to miss a few games or be out for the season with a cold, influenza, or more serious illness. This is particularly true of the late fall games when the weather varies greatly from week to week.

Again using the players as an example, Doctor Cox urges fans to dress carefully for the games. It is a foolish gamble with ill health to wear heavy garments to opening games when the thermometer is hitting 99, no matter what fashion decrees. And late season games necessitate warm clothes and wraps, of course.

Doctor Cox also asks football fans to cooperate with the Department of Public Safety in driving carefully to and from football games. Congested week-end traffic and the probability that some drivers are over enthusiastic and careless, add to traffic hazards, and serious accidents.

Mr. and Mrs. Sam Beaver visited the former's mother, Mrs. J. W. Beaver, in Seymour, Sunday.

IT PAYS TO ADVERTISE

Miss Veda Moore and Mr. Scofield, district demonstration agents of College Station, were visitors in the office of Miss Nina Astin, county demonstration agent, on Wednesday of last week.

Mrs. L. M. Palmer was a visitor in Wichita Falls Sunday.

Mrs. J. Milton Erwin and Mrs. G. W. Eagle, of Wichita Falls, and Mrs. Aden Ford, of Denison, were the guests last Thursday of Mrs. Jim McDonald and M. McDonald. Mrs. Erwin is the mother and Mrs. Eagle is the grandmother of Mrs. McDonald.

Now build a stock tight fence as low as \$10.00 per mile. One strand of used barbed wire on light stakes holds them like steel and concrete. A tremendous saving. Safe six-volt batteries last many months and give sting that stops them.

Call for demonstration

 Sophomore Reporter.....EVELYN McGRAW  
 Junior Reporter.....RAYMOND PHILLIPS  
 Senior Reporter.....PEGGY JO HAYNIE

## SENIOR VIEWS

We could not find a perfect student among the seniors, so we have made our own recipe which has been tested and approved by the class.

First take an abundance of Jimmie's thoroughness and ability; mix well with Winston's class personality, add Maxine's joviality and let set over night. Add Lenore's accuracy, and combine with Orrin Joe's speed. Mix with Ann's neatness using Maurice's technique. Measure and sift Wilma's personality with the sportsmanship of Mac, and the wise cracks of Floy. Stir well and add a pinch of Jean, pour into a platter and sprinkle with nuts. Keep in a cool place.

The seniors were favored with one enjoyable picnic last Thursday night at Roadside Park. Accompanied by five members of the faculty and two room mothers. We ate underneath the arbor by the light of a rising moon. Even the most particular classmates enjoyed the food. Who couldn't have fun when plenty of food and games are offered? When "going home" was mentioned, some of us acted as though we had never heard of such a thing.

At a class meeting Thursday morning we selected our rings. Billy (Cap) decided if there was gold in "them thar hills" he wanted his part, so he asked for a size

thirteen.

The chapel program Friday was "just right." Since it was composed mostly of musical numbers, it was just the thing to clear our minds. I heard rumor that some of the lower classmen said we seniors would never be dignified examples if they caught us running across the street to chapel any more. After all that is one way of getting a good seat.

The next senior in line to receive the "black bean" is Jimmie of the House of Boone. We feel that so small a place does injustice to Jimmie's brilliance.

Jimmie was born in Goree on February 1, 1922. She moved to Alvord and remained there until she became a healthy babe of eighteen months. Then she moved to Goree. After a few years in Goree she transferred to Munday where she has remained except for a brief time in McAllen.

Jimmie collects keepsakes and fills volumes of scrapbooks every year. She can cook and sew well enough. Her thinking ability is above the ordinary, winning for her several honors in the fourth, seventh, and tenth grades.

She likes to work on the Tom-Tom and has never been known to fail a duty assigned her. I believe this is a record for dependability.

Maxine was looking at snapshots once at Jimmie's house. She found a cute one of Jimmie walking around in the yard so she inquired about Jimmie's age at the time the picture was taken. Jimmie replied, "Oh, I was two months old." You may see that she has always been smart for her age. (Yeah)

Her favorite boy is a secret, and no one reads her diary.

Mrs. Dillon plans to attend a meeting of Homemaking Instructors on October 17, in Lubbock.

At this meeting reports and ideas will be exchanged by a large number of instructors. Also plans

TINER DRUG CO., Munday, Tex.

for this year's clubs will be openly discussed.  
 New material to be used by clubs will be distributed.

## Future Homemakers Club Re-Organized

Around sixty girls met in the cottage to re-organize the Future Homemakers Club.

The fish have been initiated and every one is ready for real action. Lenore Longino was elected president; Beth Haynie will serve as vice-president, and Patsy Hannah will act as secretary and treasurer of the club. We have a new office this year. We elected Zell Spann to serve as parliamentarian.

With this set-up of dependable officers the club really expects to make this year remembered.

The newly elected officers met in conference Thursday to decide on some important matters. They endorsed a petition to send funds to Miss Huey's camp project, and also to affiliate with the State and National clubs.

A rummage sale last Saturday gave us a good send-off financially.

## Tea is Sponsored by Third Year Homemakers

A lovely tea was presented to the mothers, faculty members and club members last Wednesday at the Home Economics cottage, by the third year homemaking class.

The hostesses were Beth Haynie, Lenore Longino, Doris Howell, Colleen McCarty, and Sula Belle Cox. Crisp butter cookies and tiny mints were served with the delicious tea. Decorations consisted of red and cream roses.

The seventy-five guests were shown the many improvements made by the department during the summer months.

They were pleasantly surprised to find new curtains and side drapes, shiny floors, and newly-painted furnishings.

## ODD BITS OF NEWS

At last the Mogulettes are going to be suited out in new uniforms to back the Moguls one hundred per cent. Because of a strike in New York City our uniforms have been delayed, but with all these disturbances settled, the uniforms are at last on their way. Be watching for us at our next football game, for we'll be there, and we'll be "ready to yell" full force.

Typing students, we feel, have really begun to accomplish their goal, for at last they have acquired the expected practice periods to which they have looked forward.

Spanish students have begun the long hard climb which we believe will lead us to our aid of being able to converse with our southern neighbors, our Spanish and Mexican friends.

We seniors wish to express our

hope that one of our members, Winston Blacklock, will soon be again in our midst. We wish him a speedy recovery from the injury he received while combating the B team of football players in scrimmage.

Juniors, we wish you luck in your memorization of parts of the Declaration of Independence.

The Secretarial Training Class is planning a way to raise money to purchase ediphone equipment to be used in the course and in typing. The equipment consists of several pieces, such as a voice recorder, a voice transmitter and a scraper, which scrapes the record so that it may be used as many as one hundred times. In case you hear of their sponsoring plays or trying to raise money, I am sure they would appreciate it if each of you would help them as much as possible in this venture.

## SOPHOMORE NEWS

We enjoyed chapel very much last Friday. I think Miss Kennedy is doing some excellent work with her chorus this year.

## Juniors Alphabetical Appeal For Fire Prevention

- Always
- Be
- Careful
- Don't
- Encourage
- Fires.
- Guard
- Hazards
- Immediately.
- Just
- Keep
- Looking.
- Many
- Not
- Observed.
- Please
- Quit
- Recklessness.
- Safety
- Thinking
- Unceasingly
- Valuable.
- Watchfulness
- Xtends
- Your
- Zeal.

This week is National Fire Prevention Week! All high school classes are observing the idea. Are you? Have you done your best this year in reducing the deaths, poverty, sickness, worry, and general destructiveness which inevitably follows any fire? This week has been set aside as Fire Prevention Week in order to allow each individual to become acquainted with his local problems. What do you know about our local fire hazards?

After two years in high school, some Juniors still do not know what a snipe is. For providing information we believe the Junior picnic last Tuesday night was educational. You might ask Allene Houser what she thinks. However, she still would not know be-

cause the remainder of the class fell down on the job. They failed to produce the anticipated snipe. Food brought the group down to earth. Then, the group singing in the moonlight carried us away again—until Sargent and Dorse insisted on catching frogs for Miss Darnell. Anyway, believe this, we enjoyed the picnic and appreciate the co-operation of our room mothers, Mrs. Stodghill and Mrs. Howell.

## FRESHMEN NEWS

The Freshmen are all getting along fine in school.

We have covered the study of homonyms, antonyms, and synonyms in English, also precise writing, and are having some more work in our literature book.

We have been taking up equations, and making various tables and graphs.

The boys (and a few girls) of our class are joyfully taking the General Science course.

Last Friday night, October 7, we went on a picnic to the roadside park. Everyone as far as I know, had a marvelous time. We played some games to get a good appetite, then we roasted our weiners and ate, then played some more, and sang most of the day home.

## ANSWERS TO LESSONS IN ENGLISH, PAGE 2

1. Use reared when referring to

a person; raised when referring to an animal. "The children were reared." "The farmer raised some hogs." 2. Say spoonfuls, armfuls, handfuls. 3. Say, "Apples are very healthful." Healthy means possessing health, as "The boy is healthy." 4. Say, "Every one of the five men was questioned." One is the singular subject. 5. Say, "How much money have you earned since your salary was increased?" 6. Say, "I selected the first two pieces. There can be but one first."

**Benjamin Builds a School**  
 Recently, a citizen, who is very interested in a new, modern school building, set forth a petition for the construction of a new school building. This petition was signed

by practically every citizen in the community. The people of this community seem to be interested in this new project, and we assure the people that the students and teachers are backing them one hundred per cent. The petition was to vote on a twenty-five thousand dollar bond issue at an election which is to be held Tuesday, October the eighteenth. The building will be a WPA project which will be financed thirty-three and a third per cent by the district and sixty-six and two-thirds per cent by the federal government.

The building will have approximately eighteen rooms. The history room will be equipped with audio-visual equipment. This room will be used by students who are taking other subjects as well as the students who are taking history. The home economics department will be composed of three rooms, a food laboratory and a combination living room, dining room. The equipment will all be very modern. The science department will be somewhat larger than it is in the present building. There will be a music room for the students who are interested in music. At this time the music lessons are given in the auditorium a method that is very unsatisfactory. There will be a combination English and speech room equipped with a stage. The shop will be composed of two rooms.

with "LIFETIME GUARANTEE"  
 Marathon is a tire buy that has set the whole town talking! It has the gripping traction and puncture-resistance that will put an end to your tire worries—a one-price, one-quality tire built by the world's largest tire maker—with "Lifetime Guarantee." See this high-quality low-priced tire today.

One 1938 Ford Deluxe Tudor, only driven 2300 miles.

**J. O. BUTLER, Inc.**  
 Seymour Phone 11 Texas

The library will be combined with the study hall. Each of the grades will have its own room which will make seventeen rooms. The auditorium will be a combination of a gymnasium and auditorium. In the auditorium there will be a large stage which will be much larger than the one we have at the present time. When the building is completed there will be no comparison with the new building and the old one.

Benjamin needs a new building! Many of the citizens who have visited the school can see the need for a new school building, and we hope to convince the rest of the citizens of the community that there is a great need for a new school.

We assure the citizens that the taxes will not be any higher because this is financed by the district and the federal government. We hope all the citizens of Benjamin will put forth every effort to get a new building because, as some citizens have found, there is really a great need for a new building.

—Polly Chamberlain

### Public Speaking

Realizing the essentials of good speech, Benjamin High School is offering to twenty students, the important subject "Public Speaking." For the past six weeks we have been discussing many words often mis-pronounced and mis-used, poise, gestures and posture of the body, and have memorized various voice selections. We are beginning to understand and to realize the importance of being able to stand before an audience and deliver messages.

But these are not the only advantages of public speaking. We will, during the following months, learn how to apply makeup, advantages of puppets, debating, and drama.

The class is made enjoyable by various talks given, some of the subjects being, "My Most Embarrassing Moment," "My Happiest Moment," and "The Times When I Was Most Frightened."

This week we wish to introduce a third new member of our faculty—Miss Bliss Miller, who was born at Stephenville, Texas, October 6, 1917. She procured her elementary and high school education at Wellington, Texas, and, thereupon, entered Abilene Christian College which she obtained her B.S. degree in education and home economics. Miss Miller was quite active in her professional pursuit, having worked as assistant to the bursar at the college. At the same time, she was a member of the Home Economics Club and the Los Campaneros.

Miss Miller is employed as the fourth grade teacher in our school. We consider her an efficient teacher and an inspiring asset to our community.

### Juniors Sponsor Program and Cake Walk

Last Friday night the Juniors met with a big success in their program and Cake Walk. We got quite a bit more money than we expected. The program was entitled "Object: Matrimony." It was a play with wit and romance running through it. Three songs, "Music Maestro, Please," "Old Apple Tree" and "Alexander's Ragtime Band," were sung. After our program we sold 36 cakes and one pie, which we considered was enough to make us all feel good. We wish to thank the Seniors for their splendid cooperation. —H. B. S.

### Junior Party

After the cake walk Friday night, the Juniors were entertained with a party at the home of Mr. Wallace Harbert. Mrs. Sams and Mrs. Harbert, Mr. and Mrs. Cunningham, Mr. Watson and Miss Bayse, and the members of the Junior class were present.

### Sophomore Class Report

Friday morning, October 8, the Sophomore Class sponsored the assembly program.

A class song to the tune of "Ain't We Crazy" was the first number on the program. Then the boys of the class presented a negro minstrel, "Oh, Doctor!" by Henry L. Newton. The cast was as follows:

- Hezekiah Quack, M.D.-----
- Sam Green-----
- Birmingham Brown-----
- Atlanta White-----
- Norfolk Black-----
- Hannibal Grey-----
- Alonzo Cartwright
- Arabelle Snow-----
- Mrs. Hannah Squash-----
- Edward Lee Kirk

The concluding number was a tap dance, "Alexander's Ragtime Band," by Wilda Mae Russell.

The program was declared a big success by the entire student body... yes, the Sophomores worked hard for this comment, and we are grateful to Miss Diersing for her direction and assistance in sponsoring this chapel program for our class.

Our class has some talented young poets. At any rate, the following song which was rendered to the tune of "Ain't We Crazy?" in our program Friday, was composed by the members of the class.

### AIN'T WE CRAZY?

It was one o'clock in English class Miss Diersing is not in sight, Erasers whizzing by your head Toward the left and right. "She's coming," someone shouted "Get that chalk dust out of sight, Don't let the superintendent know, We've had an eraser fight."

A dizzy bunch of ABC's Were on the algebra board But all of us had rather be

On Buddy's little Ford, He pecked his pencil on the desk, "To work," said Mr. Greer, But yet the tone of voice he used For us held little fear.

Napoleon and Lafayette Were parading around the room, It would have been a welcome sound

For class bell to ring soon, "Get your pencils ready," the teacher said, "We're going to have a quiz." And all of you know very well That class was in a fizz.

The laboratory on your right Is full of bugs and snakes And tiny little tadpoles That we've brought in from lakes It's Mr. Watson's glory And the Sophomores' headaches We long ago discovered That Biology is a fake.

We eat our candy in English class We chew our gum in Math. We drink our whiskey in World History And cause the teachers' wrath. I guess you've all discovered now We're all a bunch of imps. Some day we'll all regret the fact We didn't take your hints.

### Freshman Report

The Freshman class of Benjamin high school met Friday, October 7, 1938, to elect their carnival queen, class colors, class song and class motto. They chose green and white for their colors. "They're A Fish" for their song, "B<sup>2</sup>" (meaning "be square") as their motto, and Nodene Parker as their queen.

Reuben Ed White of Haskell spent the weekend with relatives here.

Mr. and Mrs. Ray Mathews of Munday visited Mr. and Mrs. C. C. Cunningham Sunday.

Mrs. A. V. Branch returned Monday from the hospital at Knox City where she had undergone an operation.

## Men Outnumber Girls at Texas U.

Austin, Texas, Oct. 13.—There are more than two men for every woman student at the University of Texas this year, 6,918 boys having enrolled as compared with 3,057 girls, it is shown by statistics on registration up to September 27. A total of 9,975 students had enrolled up to that date, as compared with 9,266 on the comparable date last year. Total enrollment by October 6, however, including late registrations with loss of credit, totaled 10,064.

The largest percentage increase in enrollment occurred in the College of Pharmacy, which showed a gain of 17.9 per cent over last

year. In actual individual enrollments, however, the College of Arts and Sciences showed the largest gain, 220 students, or 4 per cent.

A total of 115 students enrolled in the University's newest branch, the College of Fine Arts, 25 men and 90 women.

## Knox City P.-T.A. Carnival Oct. 28

In anticipation of the hoped for greatest carnival in its history, the Knox City P.T.A. has completed final arrangements and committee appointments. The occasion will again be held at the school building and occurs on Friday, October 28. The parade of organization-sponsored floats and funny costumed citizenry will form at the school building and will be led by C. C. Hoge. Other schools in the county will be asked to participate in the event and if desiring aid the local band for the event.

Hungry people may go to the home economics room from six to eight where Mrs. Will Clontz will be in charge of the cafeteria set up there. All of the other booths will open at six and remain at the public's service until eight, when the main show for "Haylet Party" will be produced from the gymnasium stage under the supervision of Mrs. Milton Bradberry and Mrs. E. Q. Warren. Mr. Charles Schumacher, master of ceremonies, and others of the stage committee assure us of an enjoyable, fast-moving show of over two hours duration.

Mrs. N. F. Mullins and Miss Pauline Benton are arranging for a Bingo booth for lovers of the national pastime. Do you care to know what bearing your past has on your present and future living? Mrs. Joe Averitt, P.T.A. president, will reign at the palmistry tent ready to tell these secrets. Mrs. E. R. Carpenter plans to sell a number of surprise bundles to the lucky buyers. A novelty fish pond set up by Misses Pauline Cherry and Ruth Rice should interest all of you interested in a "catch." Mesdames H. L. White and Grady Benedict promise a dandy rink for the kiddies to race or ride their tricycles. Domino champs, come show your prowess at this art. Mrs. Roy Baker will be parlor

### A Three Days' Cough Is Your Danger Signal

No matter how many medicines you have tried for your common cough, chest cold, or bronchial irritation, you may get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with any remedy less potent than Creomulsion, which goes right to the seat of the trouble and aids nature to soothe and heal the inflamed mucous membranes and to loosen and expel germs laden phlegm.

Even if other remedies have failed, don't be discouraged, try Creomulsion. Your druggist is authorized to refund your money if you are not thoroughly satisfied with the benefits obtained. Creomulsion is one word, ask for it plainly, see that the name on the bottle is Creomulsion, and you'll get the genuine product and the relief you want. (Adv.)

keeper and welcomes all to come play. A main added feature will be the professional boxing match conducted by the new coach at Knox City, Mr. Craig Walling, a former professional himself.

Do you want to buy a tortoise for the 500-inch race? Mr. Roy Baker in charge of this added event promises to bring some well trained ones for the group's use. The main thrill will be the race for the gate when they are turned loose. Come early if you want a good runner. If he wins, dispose of him in a manner to your liking.

A quilt will be auctioned off to the highest bidder by Mrs. O. W. Causey. The carnival will have other features and concessions to attract your fancy, style, stomach and pocketbook too numerous to mention.

Out of town people are extended a most cordial welcome and are assured of an evening well spent if they attend the carnival. Every effort is being turned to the idea of making the carnival interesting to everyone. You can afford yourself much fun if you don a Halloween costume and take part in the parade. You might be the costume winner. So plan to attend as much of the fun and frolic as possible.

### Attending Class Of Underwriters

Standards of living as affected by changes in wages and prices were discussed by Dr. Alford L. Boeck, director of the school of business of Texas Christian University in a talk to the Abilene Life Underwriters Monday night at the Wooten Hotel in Abilene. Boyde Carley, agent for the Southwestern Life Insurance company in Munday, was in attendance.

Purpose of the meeting was to hear Dr. Boeck and to organize a class of study under the direction of the National College of Life Underwriters.

### DR. GLENN STONE ATTENDS OPTOMETRISTS MEETING

Dr. Glenn E. Stone attended a study group meeting in Wichita Falls, Sunday, Oct. 9. This is a group of practitioners in Wichita Falls district who gather one Sunday in each month to study any new advancements in the profession of optometry and discuss unusual cases.

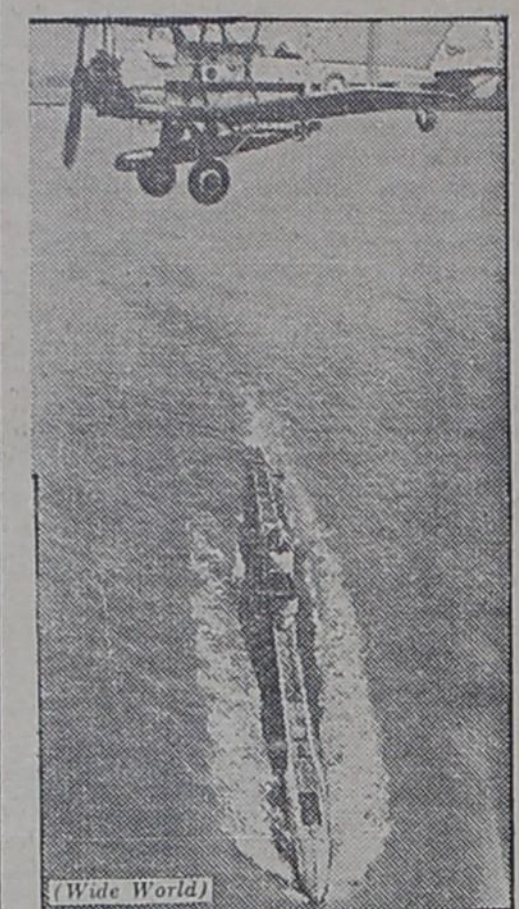

Dr. Stone is a regular attendant at these meetings and is active in all work of the association.

### ATTEND DEALERS MEETING

W. R. Moore and A. C. Brock, of the Moore Chevrolet Co., were in Fort Worth Wednesday, attending a dealers meeting and a preview showing of the 1939 model Chevrolet, by the company.

## GOOD MARKET AND LARGE CROWDS MAKE TUES. STOCK SALE SUCCESS

### Take Your Choice . . .

(Wide World)

From above or below it'll be torpedoes in the next war, if British planes and subs, like this pair returning from recent maneuvers off Gosport, England, go into action. Great Britain is one of the world's best equipped nations in armaments.

### High School-Day At ACC Saturday

(Special to The Times.)—All high school students and faculty members in West Texas are invited to be guests of Abilene Christian college Saturday, October 15, as the Wildcats of A.C.C., meet the Trinity University eleven in Abilene, Texas.

In preparation for the big event 20,000 identification slips are being mailed to 645 high schools in the Abilene territory. With these slips signed by a local school official, any high school student or teacher may obtain a free pass to the football game at Morris Stadium.

In addition to the game, there will be a special chapel program at 10:00 A.M. Saturday and tours of the campus will be conducted throughout the day. The last "high school day" was attended by 11,000 from 81 high schools of this section.

### District Layman Speaks Here Sunday

Mr. R. B. Bryant, of Stamford, district lay leader of men's work in the Methodist church, will be the speaker next Sunday at the morning service in the local Methodist church. Mr. Bryant is a well known speaker in the interest of civic, social and religious enterprises. He is superintendent of the St. Johns Sunday School in Stamford, a member of the conference board of our Methodist Home at Waco, and is one of the leading personalities of the Bryant-Link stores known throughout this section of Texas. You will hear him with delight and much concern as he tells of the humanitarian work of the Methodist church in general. The service will be held at 11 a.m.

We were delighted and encouraged with the increased attendance of last Sunday. Without an exception, every service in all departments of the church work had an encouraging gain in attendance. Now that others are returning to worship, why not you also who are yet lingering, and hesitating? A hearty welcome awaits you with your Christian friends at the church.

Our detailed announcements are carried in the bulletins given out at the church each Sunday morning.

H. A. Longino, Pastor  
CHURCH OF CHRIST  
ATTENDANCE GROWS

Services last Lord's Day were well attended both morning and at night, and at 3 p.m., we spoke to an attentive congregation at Goree. We are meeting and getting acquainted with many good people in and around your little city of Munday.

Next Lord's day morning, eleven o'clock, the Lord willing, the subject will be: "Running the Race for the Prize."

At 7:30 p.m., the subject will be "Eternal Life." We invite any and all who will to come and attend the services.

J. W. BALLARD, Minister

T. R. Smith and son, Roscoe, former residents of Munday, are visiting friends and relatives here this week.

Sheriff Louis Cartwright was in the city Saturday on business.

## WANT ADS

"RUPTURED?" — Examinations Free. We examine and fit your truss right in our store, no waiting for correct truss, we carry a complete stock. Examination and advice Free.—THE REXALL DRUG STORE, Drug Dep't 9-tfc

FOR SALE Factory rebuilt Woodstock Typewriters, at a bargain. Just like new. Inquire at The Times Office.

Increasing interest from week to week in the livestock auction sales being conducted in this city each Tuesday, reached a high level on October 11, when the largest crowd of the season was on hand. Markets were unusually good and practically all the stock brought in was sold.

On a few occasions heretofore there was a small amount of livestock left unsold, but this week they pretty nearly "cleaned up," said barn officials.

Several out-of-town buyers are on hand each Tuesday and a few new ones were here this week. Much of Munday's livestock is shipped to Wichita Falls, Abilene, and to Oklahoma, and interest in the local sale is being shown by buyers from several counties in North and Central West Texas and Southern Oklahoma.

Auctioneer Bill White, who was prevented from being here by other engagements, expects to hold most of the sales here from now on. It is believed that late fall early winter will see record crowds and an increasing amount of livestock in Munday.

### HEFNER NEWS

Everyone is glad of the rain which came the first of the week. Now farmers may plant grain, turnips and fall gardens.

Hefner school is progressing nicely with the two teachers, Mrs. Jay Marlow of Benjamin, and Miss Eva Jones as teachers, and 36 pupils enrolled. Mrs. Marlow is living in the teacherage, as principal of the school.

Elder J. L. Gray filled his appointment at the Friendship Baptist church last Sunday, and Saturday night before. The fifth Sunday meeting will meet with this church on October 28, 29, 30.

The McNeill gin is kept quite busy these last few weeks.

Dr. J. Hale and wife of Grady, New Mexico, were here last week looking after their farm east of Hefner. Mrs. Hale before her marriage was Miss Nina Myatt.

Mrs. Marion Jones attended the County Council of home demonstration clubs at Benjamin on the 7th of this month.

Miss Edith Atkinson who has a position in Dalhart, is spending a few days with home folks here.

Mr. and Mrs. Farris Mobley spent Sunday at Dundee with his father, I. N. Mobley and family.

Mrs. S. E. Murdock of Dallas is visiting her son, Vernon Murdock of the mercantile store at Hefner. Mr. and Mrs. R. L. Lambeth, and Mr. and Mrs. Vernis Lambeth were Abilene visitors last week.

Mrs. W. H. Barnett and children visited relatives in Abilene over the week-end.

Leo Jones of Sweetwater school faculty spent last weekend with homefolks in this community.

Buster Jackson and family of the Cottonwood community attended church here, and visited Mrs. L. Jackson, his mother, for lunch Sunday.

Epps Harris and family have moved to Harlingen in the lower Rio Grande valley, to make their home.

Mr. Clyde Warren and family attended the golden wedding celebration of his parents, Mr. and Mrs. J. A. Warren of Munday, on Oct. 7th.

### Baptists Observe Week of Prayer

This week, under the auspices of the Women's Missionary Society, we have been observing the All-Church week of Prayer for State Missions. The attendance has been good, the programs well rendered, and the interest encouraging. Next Sunday we study the Third Commandment, "Thou shalt not take the name of the Lord thy God in vain; for the Lord will not hold him guiltless that taketh His name in vain." (Exodus 20:7). Jesus began the model prayer by saying, "Our Father which art in heaven, Hallowed be thy name." (Mat. 6:9) which is the Golden Text for the lesson. You certainly are missing a great deal if you are not carefully studying these lessons this quarter on the Ten Commandments. They form the groundwork for the laws of all civilized countries today. Then what a spiritual meaning they have for us! They are the criterion, standard, measuring-stick, written by the finger of God, for governing and measuring our lives. When you keep the Ten Commandments without a break, then you can say that you are perfect. We could not measure up. Jesus kept them for us. Then through Him they become our ideal.

We are looking for you next Sunday. W. H. Albertson

Mrs. Addie Layne was a business visitor in Wichita Falls, Wednesday.

### HASKELL MAN CHARGED WITH MURDER SUNDAY

Haskell, Tex., Oct. 13.—Murder charges have been filed in this county against W. H. Tysinger, filling station operator a mile east of Haskell, as a result of the shooting about 4:30 Sunday afternoon in which John Yancey, 54-year-old well digger, was fatally wounded. One shot was fired from a .38-

cal, revolver, striking Yancey in the chest, just above the heart. He died instantly.

It was said by witnesses that the two men had engaged in a dispute over an account and the shooting followed shortly afterward. Yancey is survived by his widow.

County Clerk M. T. Chamberlain and family of Benjamin were visiting in the city Saturday.

### CARD OF THANKS

We want to take this means of expressing our most sincere appreciation to the many friends who spoke words of condolence and who were with us during our recent bereavement. May God richly reward each of you for your kindness. Mrs. Burwell Sessions Harmon Sessions, Dorrels Sessions, Mother Sessions.
