MOGULS MAY TAKE TO AIR IN FRIDAY GAME

HORSE-MULE SALE BIGGEST HELD HERE YET

Prices Paid Here Are In Keeping With Other Sales

Livestock auction sales at Munday continue to grow in the amount of stock offered for sale and the number of people attending these weekly events, and this week was easily the banner sale of the entire series, started here September 20.

A special horse and mule sale had been advertised, and selling started at 11 o'clock. As before, the sale lasted until after dark, but starting at least two hours earlier in the day permitted the auctioning of an even greater amount of stock.

Prices paid were in line with livestock prices everywhere at this time, and a few owners refused to sell because they had expected more than the current market is bringing, buyers declared.

In talking to a Times reporter, C. R. Elliott said: "I have attended practically every sale that has been held in this part of the state and it is my opinion that prices offered here were equal to those offered anywhere, and in many instances more."

Salesmen officials plan a monthly event, featuring horses and mules. These animals will be sold at the regular Tuesday sales each week, it was said, but once each month they will be the headline. The next "Horse and Mule Day" will be four weeks from this week's event, or on November 29.

Several out-of-town buyers were here Tuesday, including stockmen from Fort Worth, Vernon, and three not listed previously were: Jim Robinson, Bonham; Guy Beard, Wichita Falls, and Bill Maidwell, Denton.

The sale this week saw more livestock brought in and sold than in any one day ever known in this part of the state.

12 Elementary Students on 6 Wks. Honor Roll

Twelve students in Munday Elementary School were placed on the honor roll for the first six weeks of school, L. M. Palmer, principal, announced Wednesday.

Due to the fact that the first three grades are using the "U" and "S" system of grading, an honor roll for these grades will not be made. Of the four grades compiled, the following students were recognized for outstanding work:

Seventh Grade: Lillian Boe and Mildred Jones.

Sixth Grade: Lillian Cerveny, Jerry Chamberlain, Lola Jones, and Frankie Mae Trammel.

Fifth Grade: Leatrice Johnson.

Fourth Grade: Mary Alice Beck, Bobbie Marie Boggs, Joseph Borden, Lyndol Smith, and Betty Jane Spann.

Four From Here At Dist. H.D. Meet

Accompanying Dist. Demonstration Agents Scofield and Miss Vida Moore from Knox county, were Miss Nina Astin, county home demonstration agent; W. W. Rice, county agent; Jack Welch, administrative assistant, and Mrs. Marion Jones of Heffer, vice chairman of the county council, at a district meeting for county agents, AAA men and county chairmen in Wichita Falls last Friday and Saturday.

The meeting opened at 10 a. m., Friday at the Kemp Hotel, when plans were discussed for the farm program for 1939.

Weather Report

Weather report for the week ending November 2nd, as recorded and compiled by H. P. Hill, of the West Texas Cotton Oil Company.

	LOW	HIGH
1938 1937		
Oct. 27--42	48	84
Oct. 28--56	54	88
Oct. 29--55	56	76
Oct. 30--46	55	79
Oct. 31--54	57	87
Nov. 1--64	59	82
Nov. 2--64	52	85

Rainfall this week, 1.08 inches. Rainfall this year, 25.20 inches. Rainfall to this date last year, 17.22 inches. Rainfall last night, .98 inches.

State Demo Chief—

E. B. GERMANY

The "Garner-for-President" move takes on new force in Texas with the election of Eugene B. Germany as chairman of the State Democratic Convention. He succeeds Myron G. Blalock.

Rhineland School To Open on Monday

Rhineland schools will open next Monday morning after a six weeks vacation for the picking of cotton, John J. Hoffman, superintendent, announced this week. Prof. Hoffman looks forward to a fine fall term and urges that all pupils who will attend this year be on hand Monday, when schedules will be arranged. Twelve new clothes lockers have been added for the girls.

About 1,500 bales of cotton have been ginned in that community this season, the schoolmaster estimated, and people of the section are in exceptionally good spirits.

Work has been started again on the church building and bricks are being laid on the front part at this time. Rhineland has one of the finest edifices in this section of the country and it is proving to be a landmark for all people who travel the Munday-Benjamin highway.

Hallow'en Quiet Occasion Here

Hallow'en passed quietly in Munday, with a carnival at the school and special show at the Roxy Theatre later in the evening furnishing most of the diversion for the spooks and ghosts.

Young people were especially orderly in this section, and not one complaint has been heard from residents about any maliciousness or damage to property.

HAS FREE BATTERY CHECKING SERVICE

H. D. Warren's Gulf service station is advertising a free inspection service for car batteries and cables.

"Most of the car failures during cold weather come from defective batteries or cables that should be replaced," Mr. Warren warned this week. Cold weather may hit at any time, and a checkup on these points is very timely right now, the service station manager said.

Lion-Legion Game Called Off Here

The football game announced last week between the local Lions Club and the American Legion Post was called off Wednesday night because of threatening weather. It has been postponed indefinitely.

Several were on hand to see the game in spite of the inclement weather.

Special Notice

The reduced rate subscription campaign which The Times announced a few weeks ago, is an unusual bargain. There will be a few more weeks in which readers can save 50c on a year's subscription—new or old subscribers. If your time has not expired, we will be glad to set the date up one year from expiration period, at this rate.

WE WILL TAKE OFF ALL NAMES where the time is out. Look at the stamp on your paper. It gives the month, day and year the subscription expires, and out-of-town readers are urged to take note of this now. DON'T MISS A SINGLE COPY.

Breaks Up Church Service To Tell Of Play on the Radio

Flash Gordon and Buck Rogers both were expected to fly over Munday last Sunday night by one man, who interrupted church services at the local Methodist church to announce complete annihilation of what was left of New York and New Jersey.

The man, a salesman who stopped in town over Sunday, listened to a radio program on the radio of his car, depicting a war between our nation's defense batteries and an invading air force, and turned off to go inside and make the terrible announcement.

Rev. H. A. Longino was in the midst of the evening's sermon when the visitor hurried to the rostrum and stopped the minister to describe what was happening at that moment in the east.

Learning later of his mistake, he expressed a desire to apologize to Rev. Longino and the congregation.

The man, or one of his companions, placed \$2 in the offering plate.

Moguls Played Best Game of the Year Thursday

The Moguls played their outstanding game of football this season, last Thursday night at Stamford, when they scored on one of the strongest teams in 9-B conference. Going there as the underdogs and with only a handful of supporters, they were scored on four times in the first quarter without getting even a first down, but they showed a fighting spirit which is destined to win football games when they came back in the second quarter.

The first touchdown for Stamford came in the first two minutes and seven seconds of play. Munday received the kickoff on her own 10-yard line and was thrown another two yards when a trick play failed to click. In an unsuccessful attempt to kick out, the ball was fumbled and Stamford took over. That eight yards was contested, however, and it took three plays for Bryant, Bulldog halfback, to go over. They missed the kick. Score 6-0, Stamford.

An early pass by Lowrance near midline was intercepted, and Quarterback Harrison raced 46 yards to the goal. The kick for point was blocked but would have been too low anyhow. Score 12-0, Stamford.

The Bulldogs' third score came on a two-yard run after 19 yards had been picked up, almost to the goal. The kick was good, and score was 19-0, Stamford.

On the following march to pay day, Wayne Patterson, nailed a Bulldog back just three yards from the marker, after a power drive. Here, Stamford took a 15-yard penalty for holding, but scored on the next two plays with three Munday tacklers hanging on. Again the kick was too low and the score at the end of the first quarter was 25-0, Stamford.

Eventful Second Quarter
Sitting high and dry on their 25-point lead, the Bulldogs sent in five substitutes as the second period opened. Munday's passes

"Lowrance gave the best passing exhibition I've seen in the district this year," said Coach Rowland of Anson, who saw the Mogul-Bulldog game.

"Your team has improved 100 per cent since we played you," Coach Perry Mason of Haskell told Coach Billy Cooper of the Moguls, after the Stamford game.

begun to look dangerous and the first one completed was good for eight yards, only to lose the ball when the receiver tried to lateral.

Foytik made a beautiful tackle on Munday's 17-yard line after a 20-yard Bulldog dash, goalward. However, Stamford scored on the third play from the Mogul's four-yard stripe. The kick was good and score was 32-0, Stamford.

It was at this stage that Pippin broke loose for 22 yards and Munday's first first-down. He picked up five more on the next play and Stamford, getting a little nervous, took a penalty for offside, giving Munday a first down on the Bulldog 26-yard stripe. After this performance, Stamford rushed in four of the five regulars they had taken out, but even that didn't stop the charging Moguls on their first cent of game. Pippin made two eight-yard plunges and after an

GIFTS STILL BEING SENT TO LIBRARY

Committee Busy This Week Arranging For Opening

Gifts of books, magazines and cash continued this week to pour into the new library project in Munday, being sponsored by the Munday Study Club.

The library committee with Miss Edna Montandon, the librarian, is busy arranging books and getting ready for the opening of the public library here on November 5.

The study club urges every individual and every business in Munday to have a part in this project, and those who have not donated books or money should call any member of the club.

Several new books have been purchased, and among the most popular are "The Yearling" and "The Tell of Time."

Those contributing money since the last published report, are: Chamber of Commerce, First National Bank, Mrs. J. O. Bowden, Mrs. J. L. Stodghill, Book Donors, Mrs. John Lane, Mrs. D. E. Holder, Patsy Hannah, Magazine Donors, Mrs. Paul Pendleton.

Girls Ball Team Takes Seymour 4 Games Out of 6

Munday High School girls literally went to town here Tuesday night when they won four out of six games of volley ball from the Seymour girls team, which was given odds in the pre-game forecasting. The local players took the first three-straight and Dr. J. Horace Bass, coach, sent in a number of substitutes before the visitors were able to run up more than five points in any one game.

Seymour won from Munday last year and is slated to have one of the best teams in this district, but to date, the girls failed to show anything like the deadly accuracy displayed by the Mogulettes. Bernice Wallace stayed practically entire series for Munday, and can usually be depended on for the winning shot in a pinch. Capt. Cleo Milligan and Eunice Howard for Seymour, turned in the best performance of the evening, and the team has much promise, with a little more practice. The girls are much taller, on an average, than the Munday players, and Marion Jackson played most of her time on the floor, having difficulty in staying on her feet on the smooth gymnasium floor.

Score for the first three-game set was: 15-5, 15-1, 15-1, all for Munday. In the second set, Seymour won 15-13, Munday 15-4, and Seymour 15-12.

Lineup
The Seymour team, coached by Miss Martha Ware, was composed of Lucille Shumate, Cleo Milligan, Marcena Lee, Eunice Howard, Betsey Nichols, Marion Jackson, Mary Ellen Robertson, Anita Samsill, Wilma Dean Warren, Doris Benjamin, Margaret Breland, and Marie Milligan.

For Munday were: Corrine Wardlow, Jimmie Henslee, Marie Swain, Marcelle West, Eliza Frances Moore, Billie Swain, Bobbie Flood, Wynelle Wallace, Hazel Wallace, Bernice Wallace, Florine Pippin, and Wanda Pentycuff.

TO RETURN GAME NEXT MONDAY NIGHT

Munday will go to Seymour next Monday night for a return game, according to plans made here after the game Tuesday.

Quite a number of local people are expected to accompany the girls to Seymour and a good game is assured.

FIDELIA MOYLETTE HAS BOUGHT HOME IN MUNDAY

Establishing her permanent residence in Munday, it was disclosed this week that Fidelia Moylette, Chiropator, has purchased the home in which she lives and has her office, on West Earnest street.

Mrs. Moylette came to Munday in 1928, and later lived in the Rhineland community for a few years. She has been practicing her profession 16 years, and has a large clientele in this section. Her two small children attend the Munday public schools.

G. O. P. Candidate—

ALEXANDER BOYNTON

Urging "Better Government, Less Government and Less Taxes," Boynton asks Democrats to support him for governor of Texas, in the Tuesday general election. Mr. Boynton is the Republican nominee but states that he was voting the Democratic ticket when Governor-Elect W. Lee O'Daniel was a Republican in Kansas.

Appeals For Help In Christmas Toy Making Project

The sewing room has begun the construction of Christmas toys early this year so that the supply will be much larger than of last year.

To do this we need the cooperation and help of the merchants and individuals of the town in donating materials from which we can make these toys. We can use almost anything. Old inner tubes, scraps of upholstery, old furs, and any old wool material; any scraps or remnants to make doll dresses, tacks or buttons. In fact, we can use your odds and ends of buttons and trimmings at all times.

There were 220 toys given from our room last year. This year we hope to have at least 500 toys to be distributed among the needy children of our county.

Please do not wait but get your donations to us at once, or leave them at the city hall and we will call for them.

Mrs. Addie L. Layne, Project Sup't

TO INSTALL BOX FOR CHRISTMAS DONATIONS

A box will be placed in front of the Broach Implement company by Mrs. Addie Layne, superintendent of the Munday sewing room, where gifts for the children's Christmas fund may be placed.

Citizens are asked to bring all discarded toys or masses or other little gifts can be made. The women of the sewing room will spend much time between now and Christmas season making over toys and repairing items that can be distributed to the underprivileged children.

Rule Boosters Here Wednesday

Several cars of boosters from Rule were in Munday on Wednesday of this week, advertising the Armistice Day program which is being planned for that city November 10-11-12.

Entertainment will feature a rodeo, carnival, barbecue, and a football game between Rule and Aspermont. Dancing has been planned for the evenings.

The program in Munday included music and a short talk, responded to by several local business men.

\$20.80 Per Year For The Times

Value of the home town newspaper can hardly be reckoned in dollars and cents when one is away and in a strange country, but one reader proves it is worth more than 20 times what The Times asks for a subscription.

Mrs. W. R. Moore mails a copy each week by air mail to her daughter, Mrs. H. W. Harrell, in Mexico City. Each week the postage is 40c, besides the cost of the subscription. In one year, the postage alone would be \$20.80.

Mr. and Mrs. Harrell went to Mexico in July of this year, where he is associated with the Burroughs Adding Machine Company.

SEVERAL CHANGES IN FOOTBALL SCHEDULE FOR REST OF SEASON; PLAY WICHITA HERE TOMORROW

Moguls Have Nov. 11 and Thanksgiving Games Here

A desire to have a football game on the home field on Armistice Day has caused Rule, slated to play here November 11, to ask Munday for a change in schedule so the Rule team could play in their home town on that day.

As a result of rearrangement of the remaining schedule for this season, Rule will entertain Aspermont Armistice Day, and come here for their game on Thanksgiving, which was an open date for the Moguls.

WICHITA B TEAM TO PLAY HERE TOMORROW

The Wichita B team "Rowdies" will swarm to Munday tomorrow night for a game with the Moguls. Wichita has played several fast games this year in their 10-game schedule, starting the season with a 12-0 victory over Bowie.

With the recent development of a sensational aerial attack, the Moguls may rely on passes tomorrow night to score if the fast charging backs fail to break through the Rowdies' line. Their passing has been weak all season, but an ace tosser has been discovered in Lowrance, captain of the team, and it will be a different kind of game... undoubtedly a different kind of score, when the final whistle blows on Scruggs Field here. Come out and see the excitement... and maybe Munday's first victory this year.

Aspermont had been billed to play Mattson on November 11, so Mattson will come here on that date. Both Armistice Day and Thanksgiving Day games will be played at 2:30 o'clock in the afternoon, Dr. J. Horace Bass told The Times this week.

Mattson will probably be a better drawing card than Rule, said Dr. Bass, because of its proximity to Munday and the large number of people in this immediate section who are interested in both teams. The Mattson aggregation has a good record so far this season, and they promise plenty of competition for the Moguls.

Earlier in the season, Holliday beat Weinert 13-0, and Weinert won from the Moguls 14-7. Mattson has tied Holliday, so the odds are everything but a pushover for either team in the Armistice contest.

This arrangement gives Munday one extra game this year, and that was another reason why local school officials and fans heartily agreed to the change. The Moguls have been slow getting started on the scoring path this season and it is expected that they will run up a nice tally yet, before the season draws to a close.

May Be Coach vs. Coach
The Munday-Mattson game may be more than a contest between high school boys, as the teams are coached by two old friends and former classmates at Hardin-Simmons University. Coach Dick Coody, of Mattson, and Coach Billy Cooper of the Moguls will match leadership when their respective proteges take up the battle on the gridiron here.

Schedule for Moguls
The new playing schedule, as announced by Dr. Bass, is:
Nov. 4—Wichita B, here.
Nov. 11—Mattson, here.
Nov. 18—Hamlin, here.
Nov. 24—Rule, here.

RULE SHOWS POWER OVER WEINERT
Last week, Rule who will play here on Thanksgiving Day, took a 25-0 decision over Weinert, which makes some wonder what the future may hold for Munday. Weinert defeated Munday 14-7, recently. Hamlin lost 13-7, to Putnam's unknown team.

Mattson, slated for Munday bait on Armistice Day, went down 18-0 to Swenson. Haskell beat Anson 33-15, after winning over Munday nine points more than Anson did, so the dope has it that the Moguls may expect anything in their four remaining games.

An apple tree planted 31 years ago by Mrs. Myrtle Terrell, of the Myrtle Springs community (Van Zandt county) is still bearing fruit. Mrs. Terrell says the old tree usually yields about ten bushels per year.

General Election Is Next Tuesday

Next Tuesday, November 8, is general election day in Texas. Polls will be open at Munday at 8 a. m., and will close at 7 p. m., and citizens are urged to perform this very important civic duty.

CAST YOUR VOTE, no matter what your party affiliations or beliefs. Those who vote straight Democratic tickets should cast their vote in order to maintain the voting strength of the party, and to have a hand in political affairs of the state. VOTE TUESDAY!

McMurry Chanters To Give Program Here Next Sunday

A program of music including group singing, solos and varied parts by special groups will be enjoyed here next Sunday evening when the Chanters, mixed group from McMurry College at Abilene, will be presented in string ensemble and concert at the First Methodist Church.

The group of young artists has appeared in Munday on previous occasions and never fails to entertain packed houses, wherever a program is given. Directed by Gypsy Ted Sullivan Wylie and Josephine Grisham Hall, the Chanters are expected to bring approximately 21 young men and 30 young women here for the concert. Rev. H. A. Longino, Methodist pastor, said this week.

Ted Longino, son of Rev. and Mrs. Longino, is a member of the musical group and will be heard on the program Sunday evening.

Time of the concert is set for 7:00 o'clock, and it will take the place of the regular evening service of the Methodist church.

478 Bales Cotton Ginned This Week

More cotton was brought into the local gins this week than last week, according to a checkup here Thursday. Ginners reported 5,038 bales to date, as compared with 7,025 bales at noon a week ago, on October 27. From these figures it is found that 478 bales were ginned during the past seven-day period as compared with 345 the week before.

A report by the Department of Commerce, bureau of the census, shows that prior to October 18, 18,494 bales had been ginned in Knox County this year, compared with 17,206 bales in the corresponding period in 1937.

Heads A.A.U.W.—

DR. ANNA POWELL

Recently elected state president of the American Association of University Women at the recent A.A.U.W. meeting at Tyler, Texas, is professor of history at the North Texas State Teachers College. Dr. Powell has announced the appointment of Miss Mary Sweet of the English department of the Teachers College as corresponding secretary for the state organization.

EDITORIAL PAGE

"What a Man Does For Himself Dies With Him— What He Does For His Community Lives On and On"—

IS THE TIME RIGHT?

(From American Legion Magazine)

There is an old story of a towerman who was a key witness in a wreck involving the head-on collision of two fast passenger trains. "What," he was asked, "went through your mind when you saw No. 81 dashing toward No. 74 on the same track?"

"Well," said the towerman, "I just looked and thought to myself, 'what a heck of a way to run a railroad!'"

There are millions of men the world over, today, who will be thinking the next two weeks what a heck of a time it is to celebrate an armistice, when two nations are threatening to drag every able-bodied man in the world into a war most any time.

The last war failed to make the world safe for democracy but it did make AMERICA SAFE FOR DEMOCRACY, and for that, we should be truly thankful. With all the faults of our government, and the besetting sins of our tax situation, we still have the greatest—the freest, and the best country in the world in which to live.

Let's pause in our criticism of national affairs to thank God for our government, and to pay tribute to our governmental leaders.

Let's celebrate Armistice Day—the anniversary of the end of a tragic conflict—with a desire to avoid any other such catastrophe but an appreciation and loyalty enough to a great government to fight again, and again, if the need arises.

PROTECTING OUR INTERESTS

The American people are told to go to the polls on November 8 and do their duty as citizens. People do not like to be told what their duty is. Many of them say they don't like sermons, and they feel competent to decide for themselves what their duty is.

It might be more effective if it is suggested that unless they take an interest in the affairs of government, and vote at each primary and election, they are failing to protect their own interest.

Our people are all stockholders in a grand enterprise, which owns and manages the United States and all our affairs.

Mistakes in government are costly to every citizen. If serious enough, they make taxes high, they place burdens on every citizen, they make it hard to do business, so that many people are not employed or only are able to earn poor pay.

The reason why many people fail to vote is apparently that they forget to go to the polls, or they say their one vote won't count any way. As to the forgetters, the government won't forget to get the taxes out of them which they pay through the increased cost of goods and services. As to their one little vote, if 5,000,000 people take that attitude, the wrong crowd may get elected to office, and the people pay dearly for their unwillingness to take a little trouble.

TAKE A TIP FROM FOOTBALL

A great sophomore, good student, cool under fire, possessed of a good passing arm and an equally good fighting spirit, came out of the big game to make way for a substitute. His coach called to him: "Are you all right?"

"Yeah," he grinned back. "I ain't hurt—yet." Big time football had given him some hard jolts, but it hadn't taken his spirit. The jars he sustained had left him surprised, but he wasn't badly hurt.

There are lots of business men who might profit from this statement of the great Ray Malouf. No matter how hard the blows, the chances are ten to one that a champion will come back. When they take him out he recoups his strength, gets hold of himself and goes back in better than ever. Experience is what makes a great player... or a good business man.

When a slack week comes, or an off-season strikes us, good business men don't run out and get out of uniform. They don't stop advertising, go home, and quit. The first-string merchant keeps his chin up, his eagerness to do business always before the people, and when they need him again, he's ready.

WE NEED MORE TAXES!

In a world torn up on one side by destitution and need, and on the other by constant threat of armed conflict, the governments of all nations are trying to devise new methods of taxation.

The people will mourn and protest against more burdens added to an already weighty load, but it's better to pay them now than to increase any further the fabulous indebtedness of the nation. Someone has to pay, and a good rule is to pay as you go.

As long as people demand subsidies and maintenance from the government, it is well for everyone to know that this has to be paid for. Six years ago the government claimed that relief was necessary for a time and that going in debt was the way to provide for it. Now, as 1939 stares us in the face, the need for relief and government help is greater than ever, and this debt is getting beyond all hope of ever catching up. The answer is more taxes and still more taxes until the country can pay its way. Then—and only then—will people demand something like a system in the handing out of taxpayers' money.

THE MUNDAY TIMES

The Munday Times is Democratic, yet supporting only what it believes to be right, and opposing what it believes to be wrong, regardless of party policies, publishing news fairly, impartially.

NOTICE TO THE PUBLIC: Any erroneous reflection upon the character, standing, or reputation of any person, firm or corporation which may appear in the columns of this paper, will be gladly corrected upon due notice being given to the publisher, at the Munday Times office.

As a rule, the man who knows it all isn't a great deal more popular than the man who wants it all.

THE VICTORY IN BEING DEFEATED

Sometimes, losing a game by a certain number of points is a long way from being defeated. Those who saw the Moguls play at Stamford last week know that there was a one-sided score, but they saw far ahead of that... a fighting team that had found itself and realized it could play football when the odds were against it.

Munday had a different kind of team on the gridiron last Thursday night, and with the spirit the boys showed there, they should win the most—if not all—of the games yet to be played.

The Moguls, it has appeared, had everything but self-confidence in the early games this season, and when the opposition scored, it looked dark, and sometimes they looked as though they were ready to give up.

Stamford is believed to be the strongest team in the conference, and the local boys took a serious basket in that first quarter, but they made football history in the other three-fourths of the game.

The loss of the game was insignificant, compared to the courage they gained and the admiration they merited from the small crowd who was rooting for the Moguls. They're finding their bearings now, and they deserve a glad hand. Let's give them another trial next Friday and see if a little support from the sidelines won't turn the trick.

HUMAN NATURE

The idiosyncrasies of human nature are inapplicable by this newspaper; in fact, after it's all over we sometimes can hardly explain why we do certain things, but the writer came face to face with three problems this week that leave room for wonder.

The story gets out that in a big football game last year, 8,000 people held off buying tickets because the weather man predicted rain on that day. The day for the game arrived, the game started, the rain started as forecast, and 6,900 people stood at the box office in the deluge waiting to buy tickets.

A man who had never been to college; whose education must have been limited if we may judge from his language, and who is on government relief, explained to a local merchant last Saturday how "edge-u-kashun" was all the bunk. Incidentally, he said he knew what was wrong with the government.

The last great mystery of life is the man who has been bunning this office for a newspaper every Friday morning, and who was heard Tuesday telling the fellows at the barber shop why he'd rather take state daily papers instead of this little weekly. We are still glad for him to read The Times, though as long as there's any chance of making him a wiser and better man.

DOWN ON THE FARM

In 1870, 53 per cent of the nation's workers were living on farms. A recent census bureau survey shows that in 1930 only 21 per cent of them were on farms.

Since 1930, the number of people who have gone back to the farms is probably greater than those who have left the rural scenes. At least they have regular eats on farms. The great change since 1870 reveals how the producing power of the farms has increased. Back in those days, it took more than half the people to feed the nation. Now one in five can do it, and at that can probably raise more than can be sold. A strange country it is, where the people can create products faster than they can buy them.

The speaker who said the average woman's dress of today conceals very little, must have overlooked the fact that it conceals 72 hidden taxes that were paid when it was bought.

Every town has a few people who think they are so good that sinning isn't wrong if they do it.

Give the neighbors half a chance and they'll do all the necessary worrying about your personal affairs.

The only reason some of us can't seem to save any money is because we can't get hold of any to save.

The word "impossible" was invented by a half-hearted quitter.

TELL HIM NOW

If with pleasure you are viewing
Any work a man is doing,
If you like him or you love him, tell him now;
Don't withhold your approbation
Till the parson makes oration
And he lies with snowy lilies o'er his brow,

For no matter how you shout it
He won't really care about it;
He won't know how many teardrops you have shed;
If you think some praise is due him
Now's the time to slip it to him;
For he cannot read his tombstone when he's dead.

More than fame and more than money
Is the comment kind and sunny,
And the hearty, warm approval of a friend;
For it gives to life a savor,
And it makes him strong and braver,
And it gives him heart and spirit to the end;

If he earns your praise, bestow it;
If you like him, let him know it;
Let the words of true encouragement be said;
Do not wait till life is over
And he's underneath the clover,
For he cannot read his tombstone when he's dead.

—Author Unknown

Facts Worth Knowing

An automatic check machine pays out government income at the rate of 12,000 signed checks per hour.

Sheep can go without water longer than a camel.

The weight of one cubic foot of sugar is 100 lbs.

Memphis, Tenn., has a blue law prohibiting the Sunday sale of weiners, but permitting the sale of bologna.

At the top of Pike's Peak, 14,108

feet altitude, water boils at 192 degrees.

The Maltese language has no word for father.

Temperature in the United States varies from 60 degrees below zero to 134 degrees above zero.

There were 102 people on the Mayflower when it sailed from Plymouth, England in September 1620.

The Atlantic coast line of the United States is twice as long as the Pacific coast line.

Compliments, Criticisms and Casual Comments

BY T. F. FRY

Is she burned up? She listened to the radio program, "For Men Only," the other night and all she heard was a hair preparation advertisement... and it was over a brand new radio. Incidentally, more ladies buy the magazine by that name than men.

For Ladies Only... (Classified ad in the Springfield Herald)—"For rent, reasonable, modern six-room apartment with bath on the car line."

What's in a name? Following my discussion last week of names for children, a reader tells of the birth of quadruplets once. Named "Eenie, Meenie, Minnie and Charley," the father explained that he didn't want any "mo."

Automobile manufacturers this year claim that they have materially lengthened the life of the autos, but they haven't done a thing along that line for pedestrians.

Sign in the Banner Ice Company office reads: "God gave man two ends, one to think with and one to sit on. Man's success depends on the one he uses most. Just a case of heads you win or tails you lose."

Riley Harrell, city clerk and teacher in the Baptist Sunday School, says there's lots worse things than getting plastered. And we agree that the interior of the city hall looks much better since the new plaster was put on.

In Detroit, a will, missing for several years and much sought for, was found recently when someone knocked the family Bible off the table. We know a lady who always hides her spare paper money in the Bible so none of the family will find it.

Only 44 more shopping days till Christmas!

We have it figured out that there are only three ere-periods in a man's life... Thrills (youth)... Bills (any time after marriage)... and Pills (from now on)—lifted

The word "gyp" is said to have been derived from the unprofitable business of trading with Gypsies. They were not like many of the modern-day promoters, inasmuch as they rode in covered wagons.

SOME HAVE BOTH KINDS
A school teacher asked the pupils to write a short essay and to choose their own subjects.

A little girl sent in the following paper: "My subject is 'Ants.' Ants is of two kinds, insects and ladybugs."

Sometimes they live in holes and sometimes they crawl into the sugar hole, and sometimes they live with their married sisters. "That is all I know about ants."

OFF AND ON
Horse-owner—I'm afraid sir, I must ask you to pay in advance for the hire of the horse.

Amateur Rider—What's that for? Are you afraid I shall come back without the horse?

Horse-owner—O, no sir. But the horse might come back without you.

I Give You Texas

By BOYCE HOUSE
There is a bit of sentiment attached to the living room of Paul Wakefield's picturesque Old World cottage on a hill above the Colorado at Austin.

Wakefield—noted newspaperman and publicist—had been under fire for two weeks during the World War and when he and his men were relieved and given a respite in the peaceful surroundings of a French village, quarters were assigned him in one of the larger cottages. After days and nights of mud, dugouts, barbed-wire and shell fire, Wakefield entered the living room. High above him were rafters; big, comfortable chairs were about; a table was covered with immaculate linen and with beautiful chinaware and gleaming silver; and, in the big, old-fashioned fireplace, a fire was blazing.

And so, when he was planning his own cottage in Austin, Wakefield reproduced—as nearly as memory would permit—the house he remembered so well from the war.

One of my favorite stories (and it happens to be true):

In early days in the Mansker Lake community, near Hogtown, in Eastland County, an old justice of the peace tried a man for carrying a pistol and sentenced him to three years in the State Penitentiary. The constable set out in a buggy with his prisoner. As they were eating lunch in Stephenville, a lawyer asked the officer: "What are you taking him to Huntsville for?"

"Three years."

"I mean for what offense?" the lawyer persisted.

"For carrying a pistol."

"Good heavens!" the attorney exclaimed, "That's only a misdemeanor, punishable by a fine and, at most, a jail sentence. If he was accused of something that would subject him to prison, he would have to be tried before a district judge in Eastland; your justice of the peace doesn't have jurisdiction in a felony."

So the constable returned to Mansker Lake, released the man and reported to the old squire: "That lawyer said you didn't have jurisdiction."

"Jurisdiction, h---! It happened right here in my precinct, didn't it?" the old justice snorted. "I'm going to resign."

PAY AS YOU ENTER

Arriving at an isolated mountain village, the revenue agent accosted a small boy.

"I say, sonny," he said, "Would you take me to a still if I gave you a dollar?"

"Yep," said the boy. "Where's the dollar?"

"Oh, I'll give it to you when we come back," he assured the lad.

"Better give it to me first," the boy told him, "because you ain't coming back, mister."

civic leaders, Eugene B. Germany of Dallas this week plunged into active leadership of the Texas Democratic party.

Germany is the new chairman of the State Democratic Executive Committee, elected at a recent State Democratic Convention in Beaumont at the instance of Governor-Nominate W. Lee O'Daniel. Rallying Texas behind the growing Garner-for-President movement is one of the most important planks in Germany's platform. Garner was endorsed for the Presidency by the State Democratic Convention.

Chairman Germany has called the new State Democratic Committee to meet in Mineral Wells on November 7th and organize the work of the party for the biennium.

Germany's career has much of the bound-to-win flavor. The 46-year old Chairman was born in Nolan county; his boyhood was lived in Henderson and Van Zandt counties. His schooling in Grand Saline was aided by farm work and a job as janitor of the high school. Service as a janitor also helped finance his attendance at Southwestern University. Later, he taught school at Grand Saline. To his day-time teaching job, he added a night job of trucking salt at the Grand Saline salt mine.

His oil career began at Mexia, where he was employed as a geologist and land man. After several years of this work he became an oil producer himself. Since 1928, he has operated his own companies.

Germany has managed to crowd in many civic activities. He is now serving his third term as Mayor of the town of Highland Park. For several years he has been Vice-President of the Dallas Methodist Hospital and a director of the Scottish Rite Hospital for Crippled Children. He is prominent in the affairs of the Lion's Club, Hella Temple Shrine, the Y.M.C.A., and Y. W. C. A., and the Council of Church Men.

Dangers of Carbon Monoxide are Told

Austin, Nov. 3.—To minimize the danger of carbon monoxide poisoning during winter weather, motorists are urged by Dr. Geo. W. Cox, State Health Officer, to check up now on the exhaust systems of their automobiles for defective connections and leaks.

"This unseasonable weather will give way to winter soon and it will be necessary to drive in closed cars. Carbon monoxide may seep inside from leaky connections and overwhelm occupants of the car," Doctor Cox warned.

He said that "warming up" a car in a closed garage is the greatest cause of carbon monoxide deaths. Leaks from manifold connections, cracked manifolds, defective mufflers, leaks from loose muffler connections and leaks from hot air heater connections are potential sources for release of carbon monoxide and should be checked, Doctor Cox pointed out.

"Pay particular attention to these items and remember that proper carburetor adjustment causes minimum production of carbon monoxide and that the highest proportion of this gas in produced by idling motors.

The health officer said that headaches which occur during long drives may be an indication that carbon monoxide is leaking into the car. Sleepiness, dizziness, fatigue and in extreme cases, paralysis are other symptoms of carbon monoxide leaking into the car. Truck-drivers making long drives are particularly vulnerable, he stated.

Doctor Cox described this gas as being colorless, odorless, and tasteless. When in the air it gives no sign of its presence and it taken into the blood instead of oxygen. Suffering or collapse result from lack of oxygen.

CLEANING and PRESSING

INJUSTICES SOUNDLY PROTESTED BY PUBLIC UTILITY COMPANIES

Clyde, Texas, Oct. 27.—Folks here are pondering the justice of a government which overlooks "an act of the elements" and withholds PWA funds for reconstruction of a tornado-wrecked school building while at the same time lending a friendly ear to requests for taxpayers' money, to which they've contributed, and competing with private industry.

This little town, plunged into sadness last June when a tornado ripped through its residential section to claim 14 lives and destroy 21 homes and a two-story brick school building, today is grasping for a straw by which a new structure can be built without the aid of PWA money.

An application for \$20,713 first was approved. Then it was withdrawn by PWA officials who said "project okayed in 1937 had drained the Texas share of the appropriation dry." School patrons here felt that no project could be more urgent and at first they were assured that it would receive preference over all others in the state. The project was received in Fort Worth on June 26.

Time after time the newspapers announced PWA loans and grants for other projects, even some without the avowed purpose of rebuilding or aiding a public cause but to destroy by duplicating adequate local taxpaying power systems whose electric rates are below similar city hall systems, many of which projects, they learned, were sought long after the request was made for aid in restoring the "little red schoolhouse" torn asunder by a devilish wind.

Then came the verdict that there was no money left for Texas—and, besides, "evidently the school district has sufficient funds to make replacements without the aid of the federal government." This was because Clyde had gone ahead and let a contract for repair of the building in hopes it would be ready for opening of the fall term.

Now the children of Clyde are attending makeshift classes in the

town's church buildings. Whether their teachers will train them to "love and respect" the big and good fathers at Washington remains to be seen.

"It's too easy to spend; and too hard to pay back" is the editorial observation of the San Angelo Standard-Times in commenting on press announcements of bankruptcy in a once thriving West Texas city (Eastland).

"A city is bankrupt, because it spent more money than it can repay" is the ominous warning set forth in the editorial which also reminds that "property owners in 32 West Texas counties during the ensuing tax year will pay an aggregate tax bill in excess of two million dollars, an increase of \$120,000 over last year" those being only the counties in the San Angelo area.

A news story carrying the tax survey calls attention to the fact that tax rates in several instances were lowered—but valuations increased! It is easy to see that the taxpayer profits nothing in such cases and that it is a means of deceiving the people en masse of deceiving him into believing "taxes are being lowered."

This is a favorite method of deception in towns having municipal light plants. "Tax-free towns" are a myth soon unveiled when viewed in the light of facts as revealed by city audits and the Texas Bond Reporter.

The promise of lower electric rates is equally deceiving. At Austin, where a municipal light plant has long been in service, citizens were promised the overdue low rates when the source of power could be transferred to the Lower Colorado River Authority's Buchanan Dam project. But when the government-subsidized power at last was obtained, City Hall officials then met public clamor for the lower rates with the announcement that additional surveys would be necessary and that rate reductions would seriously handicap the city in repaying public funds used

in financing the project.

"Taking advantage of '55-cent dollars' offered by PWA and to match PWA allotments has increased bonded indebtedness approximately \$2,000,000" in the communities covered by the San Angelo Standard-Times survey, says the editorial. "Some day, this program must reach an end and go into reverse, paying back what has been borrowed."

CIVIL SERVICE EXAMS ARE ANNOUNCED

The United States Civil Service Commission has announced open competitive examinations for the positions named below.

Junior Engineer, \$2,000 a year. Certain optional subjects are given. Applicants must have completed a full 4-year recognized college course leading to a bachelor's degree in engineering. They must not have passed their thirty-fifth birthday. The closing dates for this examination are November 14, if applications are received from States east of Colorado, and November 17 if received from Colorado and States westward.

Dairyman-Farmer, \$1,860 a year; Junior Dairyman-Farmer, \$1,500 a year, Civil Aeronautics Administration. Recognized college training, with major study in agriculture, is required. Certain dairyman and farming experience, except for partial substitution of agricultural teaching experience, dairy herd improvement work, or agricultural college graduation. Applicants must not have passed their forty-eighth birthday. The closing dates for receipt of applications are November 22, if received from States east

of Colorado and November 25, if received from Colorado and States westward.

The closing dates for these examinations are November 28, 1938, applications are received from States east of Colorado, and December 1, 1938, if received from Colorado and States westward.

Principal Industrial Toxicologist, (Organic Compounds) \$5,600 a year, U.S. Public Health Service, Treasury Department. An M.D. degree from a recognized medical school; and experience in scientific toxicological work (including industrial toxicology), except for the partial substitution of graduate study, are required. Applicants must not have passed their fifty-third birthday.

Airway Traffic Control Operator, \$2,000 a year, Civil Aeronautics Authority. (For duty at airway traffic control stations in the field.) Certain experience in connection with the regulation or control of air traffic is required. Applicants must not have passed their fiftieth birthday.

Full information may be obtained from the Secretary of the United States Civil Service Board of Examiners at the post office or customhouse in any city which has a post office of the first or second class, or from the United States Civil Service Commission, Washington, D.C.

The ranch experiment station near Sonora, (Sutton county) is the only research institution in the United States carrying on investigation and study of the Angora goat.

The Fords Tell Their Plans for 1939

IF WE KNEW anything better we could do for the country than make good motor cars, we would do it.

By every one doing his best in the job he thinks most useful, this country is going to regain its momentum. We have tried to do our best in our job.

When business was suddenly halted in its recovery more than a year ago, we determined that we should keep going anyway, if not at full-volume motor car production, then at getting ready for greater motor car values that would help future production.

EXPANDING FOR THE FUTURE

We began to build 34 million dollars' worth of new plants and equipment. We felt that if we could not employ all our men building motor cars, we would employ as many as we could building better production facilities.

We were told, of course, that this was no time for expansion, that a wiser business policy would be to "hold everything"—which means, stop everything. But no one ever got anywhere standing still.

Besides, we are not defeatists. We do not believe this country has seen its best days. We believe this country is yet in the infancy of its growth. We believe that every atom of faith invested in our Country and our People will be amply justified by the future. We believe America is just beginning. Never yet have our People seen real Prosperity. Never yet have we seen adequate Production. But we shall see it! That is the assurance in which we have built.

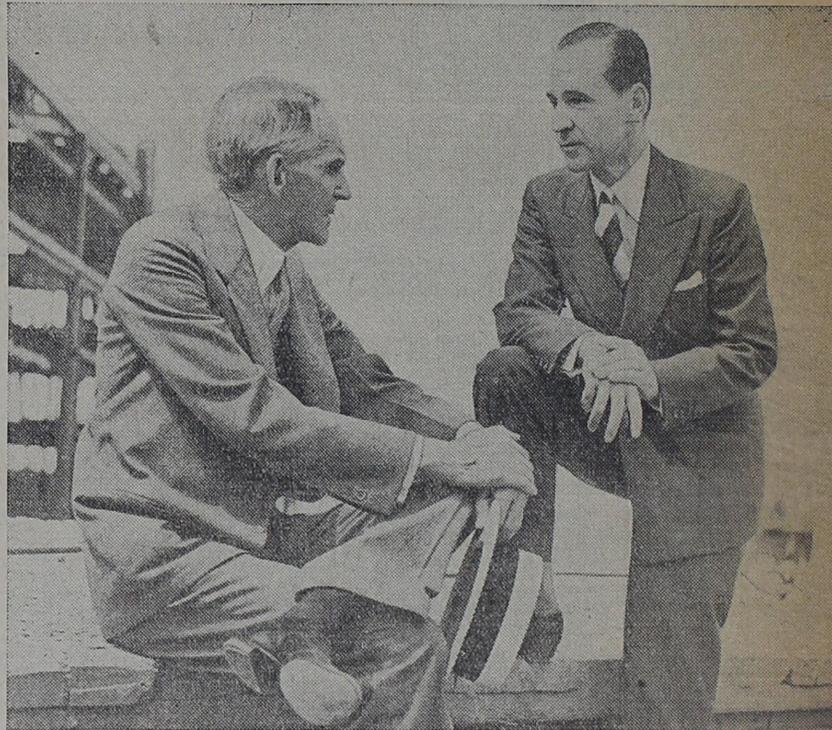

Business is not just coming back. It will have to be brought back. That is now becoming well understood in this country; for that reason 1939 will be a co-operative year. Manufacturers, sellers and buyers will co-operate to bring back the business that is waiting to be brought back.

This construction program is almost completed. It has increased activity and payrolls in a number of related industries. It has given us better facilities for building better cars and trucks, and eventually our new tractor which is being perfected.

THIS MEANS MORE VALUE

The current program has provided a new tire plant, which will turn out a part of our tire requirements . . . a new tool and die plant that will help us cut the cost of dies . . . and a steel-press plant that will enable us to make more of our own automobile bodies. These are in addition to the plants we already had for producing glass, iron, steel, plastics, and many other things.

We don't supply all our own needs, of course, and never expect to. The Ford engine is one thing

Henry and Edsel Ford, on the occasion of the 35th anniversary of the founding of the Ford Motor Company, June 16, 1938

that no one's hand touches but ours. Of nearly everything else we use we build some quantity ourselves, to find, if possible, better and more economical ways of doing it. The experience and knowledge we gain are freely shared with our suppliers, and with other industries.

We take no profit on anything we make for ourselves and sell to ourselves. Every operation, from the Ford ships which first bring iron ore to the Rouge, is figured at accurate cost. The only profit is on the finished result—the car or truck as it comes off the line. Some years, there is no profit for us. But we see to it that our customers always profit. A basic article of our business creed is that no sale is economically constructive unless it profits the buyer as much as or more than the seller.

Our new plants have helped us build more value into all our cars for 1939. That means more profit on the purchase to the purchaser.

We have not cut quality to reduce costs.

We simply will not build anything inferior.

NEW TESTING EQUIPMENT
While we were putting up new plants to produce cars, we constructed new equipment to test them. The first weather tunnel of its kind ever built for automobile research went into operation at our laboratories this year.

It makes any kind of weather to order. The weather it delivers every day would take months to find in Nature. Our cars are weather-tested to give you good service in any climate anywhere.

In other tests, every part of the car is punished unmercifully. Then our engineers tear it down to see if they can find abnormal wear or any sign of weakness.

The money we spend on tests saves you money on repairs. And your family car is safer and more dependable when we put it in your hands.

THE NEW CARS

We have two new Ford cars for 1939—better cars and better looking—but we also have an entirely new car.

It's called the Mercury 8. It fits into our line between the De Luxe Ford and the Lincoln-Zephyr. It is larger than the Ford, with 116-inch wheelbase, hydraulic brakes, and a new 95-horsepower V-type 8-cylinder engine.

We know that our 1939 cars are cars of good quality. We think they're fine values in their price classes.

With new cars, new plants, new equipment, the whole Ford organization is geared to go forward.

FORD MOTOR COMPANY, Dearborn, Michigan

Society

Ernest Nesbitt and Miss Agnes Branch Of Knox City Wed

A wedding of interest to many friends here and in Knox City was that of Ernest Nesbitt, son of Mrs. Frank Nesbitt of this city, to Miss Agnes Branch, daughter of Mr. and Mrs. Emmitt Branch of Knox City, which was solemnized at Vera Saturday afternoon at 4 o'clock. The Rev. Mr. Evans, Baptist pastor, performed the ceremony.

Mrs. Nesbitt has been with the Haskell Telephone Exchange for a number of years and is at present the manager of the Knox City office. She will continue in her office there until the services of another operator can be secured.

Mr. Nesbitt is employed at the Munday Compress and has lived here practically all his life. He has served as night policeman and also city marshal here for several years.

After a short wedding trip the couple will be at home in Munday.

HERE TODAY

Mrs. D. J. Brookreson, County Chairman of the Red Cross Roll Call and prominent club woman of Benjamin, was in Munday this afternoon in the interest of the county roll call which will get under way on November 11th.

Mrs. W. M. Mayo and daughter Miss Cloe were visitors in Abilene Monday.

Friendly 84 Club Enjoys Session At the Smith Home

Four tables were arranged for players last Friday evening when Dr. and Mrs. A. A. Smith, assisted by Mr. and Mrs. John Ed Jones, entertained the Friendly 84 Club in their home.

House decorations alluded to the Hallowe'en season, as did delicious refreshments served at the close of the playing session.

Those present besides the hosts, were Messrs. and Mesdames Leland Hannah, Pitzer Baker, W. V. Tiner, Chester Bowden, S. E. McStay, T. G. Bengt, W. E. Braly, Fred Broach, M. H. Reeves, B. L. Blacklock, E. W. Harrell, J. C. Campbell, D. E. Holder, Charley Mayes, and Mrs. Chester Borden.

Horace Hooper and Lela Bearden Wed Sunday

Announcement was made this week of the wedding last Sunday evening in Benjamin, of Horace Hooper, and Miss Lela Bearden. Mr. Hooper attended Munday schools and was reared by his grandparents, the late J. W. Beaver, and Mrs. Beaver here. Mrs. Hooper attended school in Knox City.

The couple will make their home at Baird where Mr. Hooper is engaged in the shoe repair business.

Methodist League Has Scavenger Hunt, Friday

Members of the Methodist Intermediate League enjoyed a scavenger hunt last Friday evening when 28 members were divided into groups for the game. Mrs. M. F. Billingsley and Mrs. H. A. Longino, sponsors for the group, served refreshments in the basement of the church after the searching parties had returned.

Miss Mavroun Reeves, teacher at Harrold, and Miss Betsy Reeves, who is attending Texas Tech at Lubbock, are expected home for the weekend to visit their parents, Mr. and Mrs. H. H. Reeves.

Donald Hobert, student at John Tarleton College, Stephenville, arrived here Saturday to spend the weekend with his parents, Mr. and Mrs. L. W. Hobert.

O. W. Warren of Knox City, Rt. 1, was a visitor in this city, Tuesday.

Wade Mahan was in Fort Worth last week end to visit the wife and attend the T.C.U. and Baylor football game.

Mr. and Mrs. George Keene were in Fort Worth last week end attending the football game.

Buel Bowden, Billy Cooper and Bunk Wade were among those attending the T.C.U. and Baylor football game in Fort Worth last week end. They report a fine game.

Bonner Baker of Fort Worth was in the city Wednesday visiting his parents, Mr. and Mrs. W. A. Baker, and brother Pitzer Baker.

Boyd Carley was a business visitor in Abilene Wednesday.

Rev. H. A. Longino, Clay Dingus, Misses Jean Williams, Maxine Eiland and Lenore Longino attended a Methodist young people's meeting at Westover Saturday night. Rev. Longino and Miss Williams returned home but the others remained for the session, Sunday.

Dr. J. J. ... was a great educator, and had been connected with school work nearly half a century. He was president of Mary-Hardin Baylor College for 25 years, and was president of Miss. A. & M. College 13 years, and taught 9 years in Jackson, Miss.

This correspondent knew "Crup" when a youngster. He was an editor, but carried sunshine where ever he went. I was reared within a few miles of his Newton, Miss., home, and he and my brother attended boarding school together at Conehatta, Miss. My brother is Willie J. McMullen, now living at Newton, Miss.

Mr. A. D. Irick has as his guest his father, from Pilot Point, Texas. Jack Crompton of Ferris Ranch spent Monday night with Cecil Suggs.

R. B. Jacobs spent Saturday night with Cecil Suggs. Misses Marv Dell and Virginia Bess Guinn of Munday spent Saturday night with Vera Mae Conwell.

Most farmers are about through mulling cotton and are busy hauling in their bundle feed. The light rain received Friday night was appreciated on sown grain. Miss Mildred Davis spent the week end with Miss Louise Jacobs.

Mr. and Mrs. Ben Yarbrough were in Seymour, Sunday afternoon.

Munday Study Club Hears Comments on Broadway Plays

The Munday Study Club met Friday, Oct. 28, at 3 p.m.

Miss Maud Isbell directed a very interesting program on Critics' Comments on Broadway Plays. Those taking part on the program were:

Miss Maud Isbell—"Anthony and Cleopatra," and "Julius Caesar." Mrs. J. C. Borden—"The Women."

Mrs. J. R. Burnison—"Pins and Needles," "The Cradle Will Rock," Allene Jungman—Solo, "Sunday Afternoon in the Park," accompanied by Mrs. Jim McDonald.

Hostess for the afternoon was Mrs. F. S. Broach.

Members present were Mesdames W. L. Barber, H. F. Barnes, J. C. Borden, R. B. Bowden, F. S. Broach, J. R. Burnison, W. R. Cabaness, D. C. Eiland, J. C. Harpham, R. B. Harrell, Chandler Hughes, W. M. Huskinson, Maud Isbell, Jack Mayes, Jim McDonald, Paul Pendleton, M. H. Reeves, Grady Roberts, J. L. Stodghill, P. V. Williams.

Mrs. B. L. Bowden Celebrates Birth Anniversary

Mrs. B. L. Bowden enjoyed the visit of her children, last Sunday, when she served a dinner on the occasion of her birthday anniversary.

Those present were a daughter, Mrs. B. Cooner and Mr. Cooner and his mother, of O'Brien, Burnice Bowden and Mr. and Mrs. Buel Bowden.

HEFNER NEWS

The North Colorado Baptist Association's Fifth Sunday meeting was held at Hefner Friendship Baptist church from Friday night to Sunday evening.

Messengers from Haskell, Jones, Stonewall, Scurry, Nolan, Baylor, and Mitchell counties were here. Some fine sermons and discussions on Bible scriptures were heard by large congregations. Lunch was served each day at noon.

The next meeting will be at Pleasant View Church near Lorraine, the 5th Sunday in January. H. E. Conklin and family of Seymour were here Sunday.

The Hefner school has started on their second month of work. The McNeill gin isn't so busy now since the cotton crop is almost gathered.

Mr. and Mrs. J. E. Cure have returned from a visit with their son Elmo Cure and family at Weinert.

Mrs. M. J. Jones attended the two-day district W.H.D. club as vice chairman. The meeting was held at Wichita Falls, on 28 & 29.

Mr. and Mrs. C. T. Haskins, Mr. and Mrs. W. H. Morse returned from a visit at Bellvue, New Mexico, with relatives.

Mr. and Mrs. Ed Jones visited their son Paul at Tech College recently.

Mr. and Mrs. T. H. Jones who visited relatives at Ralls and Slaton, have returned home.

Volly Chandler was called to Permleigh last week where a relative was very ill.

Farris Mobley and family visited his parents at Dundee, Sunday afternoon.

Leo Jones of the Sweetwater school faculty, spent the week-end with homefolks.

Jim Barnett's uncle from O'Donnell has returned to his home after a visit here.

Dr. J. C. Hardy

We regret to pen the sad death of Dr. John Crompton Hardy of Belton, Texas, on October 30. He died at the age of 74 years, and 10 months. He was born at Newton, Miss.

Dr. J. J. ... was a great educator, and had been connected with school work nearly half a century. He was president of Mary-Hardin Baylor College for 25 years, and was president of Miss. A. & M. College 13 years, and taught 9 years in Jackson, Miss.

This correspondent knew "Crup" when a youngster. He was an editor, but carried sunshine where ever he went. I was reared within a few miles of his Newton, Miss., home, and he and my brother attended boarding school together at Conehatta, Miss. My brother is Willie J. McMullen, now living at Newton, Miss.

Mr. A. D. Irick has as his guest his father, from Pilot Point, Texas. Jack Crompton of Ferris Ranch spent Monday night with Cecil Suggs.

R. B. Jacobs spent Saturday night with Cecil Suggs. Misses Marv Dell and Virginia Bess Guinn of Munday spent Saturday night with Vera Mae Conwell.

Most farmers are about through mulling cotton and are busy hauling in their bundle feed. The light rain received Friday night was appreciated on sown grain. Miss Mildred Davis spent the week end with Miss Louise Jacobs.

Mr. and Mrs. Ben Yarbrough were in Seymour, Sunday afternoon.

By TOM FIZDALE

Benny Goodman officiated at swing's official coming-out party to New York's upper-case society last week. The event took place at the famous Waldorf-Astoria hotel and there was a full turn-out of top-hatted, ermine-tipped gentry to greet the debutante. The Waldorf's classically beautiful Empire Room literally throbbed and shook with the happy stomping and swinging of the moneyed multitude. This was Park Avenue's first formal introduction to swing—as though it needed any introduction—and it went over with a bang.

Joan Tompkins

Eddie Cantor has introduced a new idea to radio with his popular interviews of prospective newlyweds on his Monday night show. Last week he turned a family affair into a public event when he and Ida accepted the invitation of one of the interviewed brides-to-be and attended the wedding. Special police, newsreel and newspaper photographers and all of the trimmings of a celebrity appearance resulted.

The Smoothies—Charlie and Little Ryan and Babs Johnson—heard on those NBC Vocal Varieties, have achieved a new step in their rise to fame. Comes word that a dance has been named for them—The Smoothie Slide.

So many readers have been intrigued by the idea of Jerry Colonna's handle-bar mustache that we reproduce the phiz of the mad professor of Bob Hope's Tuesday night show just to prove that we weren't spoofing. As you will note, they are probably the finest pair of luscious handle-bars in captivity—and Colonna's weekly clowning with Hope is just as funny as they are.

So you want to be a radio singer? Well, here's the sort of repertoire you need, as revealed by Mary Eastman, vocal star of The Saturday Night Serenade. Mary knows 53 major arias from nineteenth Italian, French, German and Austrian operas; some 200-odd songs by Beethoven, Brahms, Schubert, Mozart, Tchaikovsky, Strauss, Debussy, Ravel and other modern composers; most of the Victor Herbert operettas plus all of the currently popular hit tunes. You need quantity plus quality.

Margaret Sangster is one of America's best known writers. Hardly a month passes that her name isn't seen over a story in one of the better magazines and her publishers bring out a new book at least once a year. In addition she writes one of radio's most popular daytime dramas, Arnold Grimm's Daughter, which probably has the greatest audience of any of her writings—yet it is the only one on which she doesn't get a by-line.

George Fisher, whose Hollywood Whispers are heard over MBS each Saturday night, is a smart guy. He avoids feuds with other commentators by the simple expedient of putting them on his show as guest artists to give their views whenever they have an argument.

Discovered, an actor who doesn't long to play Hamlet! He is Les Tremayne, one of radio's better leading men. He says he would rather read Shakespeare than play him. Quick a laurel wreath!

Four Knox Co. Girls Attending TSCW

Denton, Nov. 3.—Special to The Times.—Four Knox County girls, Misses Mary Jeanette Moore and Wanda June Williams of Munday, Eugenia Jefecoat of Vera, and Mary Leone Hogue of Knox City, are among the 2700 students now enrolled at Texas State College for Women. Final tabulations show that the school is again the largest residential women's college in the United States, with students from 220 Texas counties, 26 states and 7 foreign countries.

With opening activities completed, the students are now in the midst of a full schedule of work and entertainment, including classes all day, college and club picnics, dances, teas and other social affairs, and an unusually crowded calendar of dramatic, musical and other attractions on the Drama Series and Artists' Course. T.S.C.W. students will have their first holiday Nov. 5 for the A. & M.-S.M.U. game in Dallas, other holidays being scheduled for Thanksgiving, Nov. 23-28; Christmas, Dec. 17-Jan. 2; and Spring, April 6-12.

DECEPTIVE

"Didn't you see me signal for a left turn?" the frustrated young woman demanded of the driver whose car had just crashed into her own.

"Yes," said the gentleman, meekly, "that's what fooled me. I thought you would turn to the right."

Mr. and Mrs. Weldon Parker, of Lueders, Texas, visited last Sunday in the homes of their parents, Mr. and Mrs. C. R. Parker and Mr. and Mrs. Roy Aycock.

Rev. and Mrs. E. B. Bowen of Stamford stopped in Munday for a brief visit with Rev. and Mrs. H. A. Longino, Saturday, en route to Westover where they attended a young people's meeting. Rev. Bowen is the presiding elder for the Stamford district.

Attend Meeting of Epworth League At Westover

Three members of the local Epworth League of the Methodist Church attended the district meeting at Westover last Saturday night and Sunday.

More than 100 members from the entire district registered Saturday night, and a large percentage stayed overnight. Towns represented were Roaring Springs, Sargent, Spur, Stamford, Knox City, Avoca, Rochester, Munday and Westover. Eleven pastors from the district attended.

A delicious supper was served as soon as all had arrived and registered. Then, after an hour's entertainment, Rev. F. A. Crutchfield, pastor of the First Methodist Church at Vernon, rendered a very interesting sermon.

Sunday morning, all the league members attended a short but very important business meeting, after which followed Sunday School. At the Sunday morning 11:00 o'clock service, an appealing sermon was given by Rev. Don Davidson, pastor of the Westover Methodist Church.

Those attending from Munday were: Misses Lenore Longino, Jean Williams, Maxine Eiland, and Henry Dingus.

Flu Epidemic Is Predicted Soon

Denton, Texas, Nov. 3.—Precipitated by the first spell of cold, wet weather that strikes Texas this fall, the annual spell of "flu" is due in this section of the country within the next ten days, Dr. Jay Wendell, instructor in physical education and member of the college hospital medical staff, warned students at the North Texas State Teachers College this week.

Not only will the nation get its usual spell of "flu" this winter, but it may be scheduled for an epidemic of influenza which will rival the one that killed enlisted men like flies during the world war, Dr. Waddell said.

"Influenza epidemics," he explained, "seem to come in pretty definite cycles about 20 years apart. It is just 20 years since the World War epidemic, and this winter or next should see the recurrence of another serious epidemic."

Flu strikes about this time of year because of the throat and nose membranes of sufferers have been sensitized by the large quantities of pollen in the air, Dr. Waddell declared. An individual in such a condition gets chilled, overdoes or overindulges, catches cold, and is a first-rate influenza prospect.

Physicians know very little about the cure for influenza, even though scientists have been working on the problem ever since the World War epidemic, the Teachers College medical staff member stated. About all your doctor can do for you is to give precautionary measures and warnings: avoid drafts, stay away from crowds, don't over-indulge.

Experiments have indicated, however, that small quantities of chlorine gas are beneficial both as a preventative and cure for influenza. For this reason doctors frequently recommend that from one to two teaspoons of Dakin's Solution, which contains a small amount of chlorine, be placed in an open pan of water on the stove where the flu patient is.

Chlorine experiments in the treatment of flu were suggested by the fact that workers in a chlorine gas factory suffered no cases of influenza during the World War epidemic.

Mr. and Mrs. George Harrell, of Anson, were visiting here Wednesday with the former's brother, E. W. Harrell, and Mrs. Harrell. Mr. Harrell is county clerk of Jones county.

Mrs. W. E. Hammack had as guests Sunday, Mrs. E. E. Richardson and son Earl, and grandson, Bobbie Logan, of Rhome, and Mr. and Mrs. Pete Watkins of Stamford.

Miss Shelley Lee Honored at Surprise Birthday Dinner

Mr. and Mrs. J. A. Caughran were hosts at a surprise birthday dinner last Sunday noon, honoring Miss Shelley Lee, sister of Mrs. Caughran.

Those enjoying the occasion were the honoree, Mrs. J. T. Lee, mother of Miss Lee and Mrs. Caughran, Moulton Wiggins, and Mr. and Mrs. J. C. Borden and son, Joseph, and the hosts.

Rev. and Mrs. H. A. Longino had as their guests Sunday afternoon, Mrs. Mart Farrow, Mrs. Bender, Mrs. A. Davis and small daughter, Patsy, and Miss Ella Temple, all of Hamlin.

Miss Drucilla Jones, student in Hardin-Simmons University at Abilene, visited her mother, Mrs. Raymond Jones, Sunday.

Harold Longino has been confined to his bed for the past several days with illness.

J. D. Rippey returned to his home in Denver, Colo., Wednesday after spending two weeks here with his daughter, Mrs. C. H. Giddings, and Mr. Giddings.

"Marital Guesswork" Gone, Writes Dr. Albert Wiggam

GUESS-WORK has been eliminated from marriage, for marital happiness can now be charted scientifically, authorities maintain. In a sensational article based on the first authorized account of exhaustive laboratory experiments made by Stanford University, Dr. Albert E. Wiggam discloses in the December issue of *Cosmopolitan* not only that most of our accepted notions about marriage are wrong but that a really sound basis for marital bliss may be fully defined.

"In the five years it has taken Professor Terman of Stanford University and his staff to make this study," says Dr. Wiggam, "they have learned more about the mental and emotional factors in marriage than the whole human race had learned in the previous fifty thousand."

A Scale of Marital Happiness has been devised by which married couples can estimate and score

the degree of their present married happiness or unhappiness with surprising accuracy.

How To Obtain Your Score on the Marital Happiness Scale

It is a simple matter to score your marital happiness on the scale. There are eight separate items or groups of questions. The figure set opposite each answer is the number of points you earn on that answer.

ITEM	ANSWER	SCORE
(1) Do you and your wife engage in outside interests together?	All of them.....	7
	Most of them.....	5
	Some of them.....	3
	Very few of them.....	1
	None of them.....	0
(2) Amount of agreement on Domestic Problems. (See note below.)	10-14 earns.....	8
	15-19 earns.....	6
	20-24 earns.....	4
	25-29 earns.....	2
	30-39 earns.....	0
(3) When disagreements arise they usually result in	Self gives in.....	0
	Spouse gives in.....	2
	Give and take.....	5
(4) Do you ever regret your marriage?	Frequently.....	0
	Rarely.....	4
	Seldom.....	7
	Never.....	10
(5) If you had life to live over do you think you would	Marry same person?.....	10
	Marry different person.....	0
	Not marry at all.....	0
(6) Have you ever seriously contemplated separation or divorce?	Yes (if either one).....	0
	No (if neither one).....	8
(7) Everything considered, how happy has your marriage been?	Extraordinarily happy.....	15
	Decidedly happier than average.....	12
	Somewhat happier than average.....	9
	About average.....	6
	Somewhat less happy than average.....	3
(8) Is your marriage now happy or unhappy? (Score only one number.)	Extremely unhappy.....	0
	Decidedly less happy than average.....	3
	Decidedly happy.....	10
Add total score to this point.....		0

How to Obtain Score on Item 2, Above: Amount of Agreement on 10 Domestic Problems

There are six degrees of agreement. Draw a circle around the number opposite each degree of agreement that best represents your own feeling about how much you agree or disagree on the following ten matters of your married life.

NOTE: An approximation of what your final score would be on the complete scale can be estimated by dividing the number of points you earn on the first eight items by 7 and adding the result to your score on the first eight. For example, if you made 46 points on the first eight items, divide 46 by 7 which gives you 6 (neglect the remainder). Add these 6 to your 46 score, which makes your total score 52.

Warns Against "Going West"

With income from crops for 1938 less than anticipated, many farm families are thinking of selling what goods they have and moving to the West Coast. The Farm Security Administration advises very strongly against it, according to R. E. Skipworth, local supervisor, who headquarters at Haskell.

He said that a recent study of California conditions was made by W. J. Green, Assistant Regional Director of FSA in this region, and it offers no encouragement to the farm families of the Southwest unless they already have permanent employment.

"Frequently statements reach Texas that there is a shortage of laborers at certain points in the west," Mr. Green reported. These statements are probably correct, but the people making them often fail to add that the work will last for only a short time, that living condition in the area are undesirable and that when the work is finished, the laborer may find himself stranded in a community far from employment with no hope of assistance from local sources."

Green pointed out that agricultural labor in California is almost entirely seasonal and that the land is owned in large units and operated for the most part by machinery. Only at harvest time is there a demand for additional labor, and when the highly perishable fruits and vegetables are harvested, the worker must move on to other places to find employment. These people have become known as migratory laborers and rarely stay in one place as long as six months.

"Along the roadsides of California, many people from the Southwest are camping out under conditions much worse than the ones they left behind them," Mr. Green reported. "Usually they live in tents which they carry along with them. In many cases their only supply of water is an open irrigation ditch into which the waste from other camps has been thrown. No protection from disease is possible.

The Farm Security Administration has made some progress in improving the circumstances of migratory workers by establishing camps with the minimum essential of healthful living at a few of the more crowded points. If the stream of people to California from the Southwest slows up, conditions for those people who have already gone to the Coast states may be expected to improve in time. Nevertheless, as long as there is a surplus of laborers in that region as is found at the present time, California is not a refuge for financially distressed farmers of this state, it was pointed out.

Local produce men agreed this week that turkey raisers should bring in only the best of their flocks at the present time, due to the average condition of the flocks, caused by weather conditions. It was suggested that raisers finish them out before offering them for sale here. Market is good on No. 1 birds, and has promise of holding up clear into the winter.

Miss Margaret Tiner, who is attending Hardin-Simmons University at Abilene, spent the weekend in Munday with her parents, Mr. and Mrs. W. V. Tiner.

LIONS DIST. MEETING HAD LARGE GROUP

Six Cities Send Clubs To First District Meeting Here

A "roaring" good blowout was the report local Lions gave of the district meeting of Lions Clubs held in Munday the evening of Oct. 20. More than 100 attended the banquet and program, given in the new school auditorium, 65 of these visitors being Lions from six other cities. Several ladies, the wives of visiting Lions, were also present, and Mr. and Mrs. Orb Coffman of Gooee were special guests.

The program started at 5:30 p. m., when 30 presidents, secretaries, and chairmen of various committees, met to outline the program of the clubs of this district for the coming year.

At 8 o'clock the large group was served a delicious supper in the auditorium by members of the home economics class of Munday High School, under supervision of Mrs. Elizabeth Dillon, teacher. President Bill Moore, of the Munday club, welcomed the visitors, and clubs from Sweetwater, Abilene, Merkel, Roscoe, Knox City and Haskell were recognized. Joe Self, of Merkel, group chairman of Dist. 7, was toastmaster for the occasion. The group enjoyed an hour of good fellowship, and closed the evening's program with a song. Mrs. Orb Coffman, of Gooee, favored the gathering with a vocal solo, accompanied at the piano by Miss Mildred Kennedy, Lion sweetheart.

Dr. R. N. Richardson, district governor of the Lions, was unable to speak at the meeting as previously planned, due to a meeting of Lions club governors for North Texas on that date.

A lion statuette, ordered for the club having the best percentage of attendance present at the meeting, was won by Munday, who had 20 out of her 25 members present. This statuette will become the permanent property of the club winning it the most times in one year. District meetings are held every three months and the next one is scheduled for Roscoe in January. The trophy will be displayed at the local meeting place until such time as it is won by another club or becomes the property of the Munday club.

The convention was held in Munday, but Governor Richardson is well known here, having appeared on the program only four weeks ago at a regular weekly luncheon.

Mr. and Mrs. A. J. Smith had as visitors in their home Saturday and Sunday, their daughter, Mrs. G. A. White, Mr. White and two children of Midland, Mrs. P. H. Routon and Mr. Routon of Gooee, and a granddaughter, Mrs. Mac Calburn, and Mr. Clayburn of near Sunset.

A&M Tests Prove Pigs Do Better With Hog Wallow

Pigs that had access to a sanitary, concrete hog wallow made an average of 14 pounds more gain per pig, and required 10 pounds less feed per 100 pounds of gain than did similar pigs without access to a hog wallow in a 90-day test conducted from June 5th to September 5, 1938, at the Texas A. & M. Agricultural Experiment station, according to a report made by Fred Hale, Chief, Division of Swine Husbandry.

Hale says: "The pigs used in these tests were purebreds, bred by the Texas Station. They were farrowed in March, 1938, and were six months old when the test closed September 5. The 20 pigs used in this tests were fed in individual pens. Self feeders were used in each pen with whole kafir fed in one compartment, and a protein mixture (a mixture of 45 pounds tankage, 30 pounds cottonseed meal, 20 pounds alfalfa leaf meal, 5 pounds bone meal) in the other compartment of the self-feeder. This method of feeding saves time, and labor, and when kafir is self fed in this manner to fattening pigs it is not necessary to grind the kafir before feeding, another financial saving. At the beginning of the test the pigs average weight was 69 pounds. After 90 days, the pigs furnished the wallow averaged 214 pounds while the pigs without the wallow averaged 200 pounds in weight. The total feed required per 100 pounds gain was 392 lbs. without and 382 pounds for the pigs with the hog wallow."

"We have, therefore, some definite measure of the value of a sanitary hog wallow in this test. The 14 pounds extra gain at the price the hogs sold for in September (\$8.40 per cwt.) plus the value of the 10 pounds of feed saved per 100 pounds of gain (feed at \$1.20 per cwt.) gives a return of \$1.86 per pig more for the pigs that had access to the hog wallow. On this basis for a car load of 75 pigs that would amount to \$102.00. Or for a litter of 7 pigs it would amount to \$9.52 more profit from the sow. Many of the "so-called" hog wallows on farms are insanitary, unsightly mudholes which should be abolished. Such wallows are breeding places for disease-producing organisms, and often times prove costly. The hog's conformation is such that he eats, drinks, and breathes close to the ground. He is therefore, very susceptible to diseases which may originate from insanitary surroundings. When the hog was domesticated, he was taken from his cool shady forest haunts and too often penned up in a filthy sty. The wild hog lived in wet places to keep cool because nature did not provide his body with a cooling system like that possessed by most animals. The hog possesses but few sweat glands. He must depend upon water or some other cooling agency to keep his body comfortable in hot weather.

"The hogs in this test that had access to the hog wallow made more gains because they ate more feed than did the lot of pigs without the wallow. They ate more feed because they were more comfortable, cooler, and could stand the heat with more feed in their digestive tract better than could the pigs without the hog wallow. "The average temperature during the months of June, July, and August for this test was about 83 degrees F., while pigs prefer a temperature between 55 and 60. Although the pigs furnished the hog wallow ate 40 pounds more feed per pig than did the other pigs, they did not eat as much feed as they would have, had the temperature been around 60 degrees. These results emphasize the importance of providing for the comfort of hogs to be fattened during the hot weather. Shade and hog wallows furnish the most practical means of providing the kind of environment that will keep the hog in the comfortable condition necessary for consuming the amount of feed required for larger gains. Natural shade is the most desirable, but where none is available, artificial shade should be prepared. The addition of sufficient crude oil to form a thin film over the surface of the water in the hog wallow tends to keep the animals free from skin parasites. The wallow should be cleaned and refilled with fresh water often enough to keep it clean and fresh.

The hog wallow should be constructed near a good shade. The hogs use a hog wallow often during the day, but they do not remain in the water for very long periods at a time. After they have stayed in the wallow long enough to become thoroughly cool and wet, they get out and return to the shade. For this reason a hog wallow large enough to accommodate 10 hogs at one time will actually

take care of about 25 head of hogs. A hog finished for market at a weight of around 200 pounds will require about 8 square feet of floor space. On this basis a wallow 8 by 10 feet would accommodate 10 hogs at one time and should take care of about 25 hogs. Such a wallow should actually be about 8 by 13 feet, by 12 inches deep at the shallow end, and 18 inches in depth at the opposite end as in sloping the floor from front to rear the first 2 or 3 feet at the entrance would not be of any use as a wallow.

"A drain outlet is necessary for emptying the wallow. An overflow pipe can use the same outlet by having a short piece of pipe, according to the depth of water wanted in the pool, screwed into the drain pipe anchored in the concrete."

Freshman News
 Hallowe'en has come and gone, and so have the first and second week of another six weeks. In English we have taken up the different kinds of sentences which are declarative, interrogative, imperative, and exclamatory. We are also taking up the study of the sentence and all its parts. In general science we have been studying the pump and how it works.

Sophomore News
 We have all resolved to try to do better this next six weeks and study a little more and make better grades.

Junior News
 After being taught again that a paragraph contains a group of sentences dealing with one subject, and that all of the sentences are built around one central or main thought, we juniors believe we have finally learned how to write a correct paragraph. Anyhow, you can see for yourself after reading the following paragraphs.

This one was written by Helen Albertson.
 "Our teacher had just stepped out of the study hall. Several chose that moment to stomp up to the library, get reference books, or use the dictionary. The students across the hall in the typing room began their speed test, making a noise worse than a building crew. The gas stoves were humming as loudly as they could. All in all, the noise was so confusing I could not think."

Raymond Phillips wrote this one:
 "One cold December evening I was standing at the top of a snow-covered mountain. As the frosty air blew by, stinging my hands and face, I could smell the scent of evergreen and fir trees. As I continued to gaze and wonder at God's beauty, my eyes wandered off to the far western horizon. There the sun was just beginning to rest, casting its magnificent hues far and wide. Looking down the mountain side I could see the colors glistening in the snow. Farther down, the fir trees were swaying in the motion of the wind, casting their tall, dark shadows in parallel lines far up the mountain side. It was a beautiful sight."

Senior News

We dare say we did our part of thinking over the grades we made last six weeks. Our report cards made us realize that our courses are really getting stiff. This week marks the beginning of higher aims toward our goal for this six weeks.

First hand reports on H.S.U. were received over the weekend when ex-seniors of M.H.S., Drucilla Jones and Margaret Tiner, came home.

The surprise in store this week is the life of Laverne Darter. Laverne was born in Johnson County, Oklahoma, on September 21, 1921. When she was four, she moved to Texas. Once more she moved to Oklahoma, but being dissatisfied, she returned to Munday.

The most embarrassing incident in Laverne's school days was once when she had to share a seat with a boy. (Why blush? I have known girls who wanted to share a desk with a boy.) Laverne's intellectual ability ranks among the highest. She shuns "speech-making" and is not working for salutatorian or valedictorian honors this year. She was graduated from grade school with highest honors.

Laverne's favorite pastime is reading. She especially caters to history and sets her career as a teacher of history.

She is one of the most modest persons in our class. Even when I asked if I could write her biography she said, "Oh, I'm not important." Can you imagine?

She likes people as long as they are good. In that case she prefers to be alone. She is an excellent cook, and sews well. Her favorite color is blue.

Ann Atkinson wrote a theme in English IV that was so typical of her that we want to print it:

My Greatest Interests
 School! The word is of the most vital interest to me. It is in school that I have been at home for eleven years. This year, my senior year, I am one of the three pep squad leaders. I enjoy working with such a group, and I am deeply concerned with its performances. I am in school for what I can get out of it. I have tried to make the most of its advantages offered me. One advantage is the great educational or more fundamental training. Another is my friends with their warm companionship. School life would be "dry" indeed, if it were not for them.

I spend most of my leisure time studying and working with my hobbies. During the past summer I started building a library. The books are chosen very carefully so that their contents will be read many times without growing old. But a library is only one of my hobbies; I have two others, fashioning ships and stamp collecting. In building my ships I fashion them after famous ships of famous people. Most of the models are aircraft, but watercraft has its place also. To become acquainted with the countries and races of the world, I have turned to stamp collecting. A stamp, if carefully studied, may reveal a pictorial history of that country's particular developments.

What should be one of a person's greatest interests? The answer is simple; his or her family. I find it entertaining to enter into each of my family's interests. I help mother with her housework and help contribute to her hobby, odd and quaint vases. Mother is my "best chum." It is amusing to watch her reactions while opening a gift or a surprise package from Dad, Dixie and me. I was probably dad's greatest disappointment; therefore I have always been a tomboy through his influence. We have a great deal in common. I have fun learning the "knots" of the grocery business—and dad has as much fun in teaching me. Then there is Dixie—but you know little sisters!

"When I get big, I want to fly a great, big, silver airplane." I might have said this childish statement many times. When I was smaller, I probably did not realize the full meaning of it. But now it has developed a very definite meaning. Science is my greatest interest for the future. Chemistry in the sense of aviation will be my life project—I hope, I hope, I hope. Aviation seems to satisfy a restless, inquisitive feeling I always seemed to have. Through this field I want to do some childhood "hankers" that have been in the back of my mind for a long time. I want to explore the world and have my "fling" at solving the mysteries of other lands—and life. If I am afraid, I say any more about these "hankers" the reader will think I am "screwed." (Sometimes even I wonder!) Whatever I do in the future, what I become, or where I may go, you may be certain that it's for the fun of it.

THE SPECTACLES

By Dorothy Garrett

For more than a hundred years, "The Spectacles," a short story written by Edgar Allan Poe, has been hidden—unread, unnoticed, and unsigned. This is a tale of the Folio Club invented by Poe. There were supposed to be eleven members of the club who met every month. Each told a story and the man who had the best was to be elected president; the author of the worst was to pay all the expenses of the next dinner. "The Spectacles," a title used for another of Poe's stories, was one of the eleven. This was the only one that could not be found. Poe wrote an account of the meeting and also the stories.

Although Poe's name was not signed to this, Mr. Gimbel, president of the International Poe Society, Edgar Allan Poe Club of Philadelphia, and the Richard Gimbel Foundation for Literary Research, is convinced that this is a genuine Poe short story. Richard Gimbel spent thousands and thousands of dollars hunting for this story. He was rewarded recently when he found it in within the yellow papers of an antique Philadelphia magazine.

"The Spectacles" is the story of Mrs. Loraine and her daughter, Lucy. Mrs. Loraine's husband is killed a year after they are married and the widow wears black till the last. The man that is telling this story is a cousin to Lucy and he knows that, at seventeen, she is the nearest approach to an angel he has ever seen. How well he remembers the summer parlour, into which daylight never enters. But just at this time Charles Loraine leaves for the continent; and when he returns, he learns that Lucy is to marry George Farshawe—the ugliest of mortals.

George always called at a certain hour; but one day he was summoned on a trail of some poachers. Riding past the cottage he stopped to tell Lucy he would be detained. As he walked up to the house he heard Lucy playing on the harp and as he entered, he saw the room was filled with sunshine. Lucy was wearing her spectacles and when she saw him she ran to her mother, crying she had seen him and could not marry him.

The fact was, Lucy was near-sighted. So to conquer the difficulties of Mozart and Rossini, she

urady, November. Those planning to attend the Lenore Longino, Beth Haynie, Patsy Hannah, Peggy Jo Haynie, and Zell Spann. Club notes will be compared and future work for this year's clubs will probably be decided.

This is the first time that only the officers of the respective clubs are to be sent.

Interest in these semi-annual meetings is increasing. Representatives always bring home bits of news and the latest reports on neighboring clubs, so don't forget to read next week's report.

Miscellaneous News

Since the goblins, witches and black cats have gone back to their favorite haunts, Munday High School will continue at its normal pace until the Thanksgiving holidays approach.

The Hallowe'en carnival which was sponsored by the Parent-Teachers Association of Munday was carried on splendidly. Houses of Terror, Fun Houses, Motion Pictures, Bingo and a host of other booths offered entertainment for a very large attendance. The coronation of the Queen of Munday High School, Jean Williams, was a very picturesque and splendid performance.

Safety First

In the October issue of the Reader's Digest an article emphasized the decrease of fatal automobile accidents in Providence, Rhode Island. A vigorous campaign has been conducted there through the citizens of the town. An experiment which was tried was: the speed limit of one constant was to be twenty-five miles an hour. The driver was to drive carefully paying strict attention to all traffic rules and regulations. The other contest was instructed to speed through the streets in which traffic was heaviest. He was to disregard all traffic rules. The two drivers arrived at their destination within two minutes of each other. Speeding does not pay. Be careful! There are many dangers on the highways and safety first is always a good rule to follow. Pay strict attention to traffic regulations, and be careful. If each individual should launch as vigorous campaign as the citizens of Providence have done, the decrease in automobile accidents would be gigantic. Let's all cooperate in putting safety first.

The B team of Munday's football squad went to Anson Monday evening to play the Anson Tigers' B team. Anson won, 24-0.

The finance committee of the Parent-Teachers Association wishes to give its hearty thanks to all those who made possible or in any way contributed to the success of the Hallowe'en Carnival.

always practiced in spectacles. As a postscript, Charles Loraine adds that he was married to Lucy that morning and she has seen him through her spectacles.

Note: This material was taken from a recent "Liberty" where the short story was always published.

Deputy Visits School

Mr. John L. Beard, deputy state superintendent of district three, visited the Sunset school Tuesday, November 1. Mr. Beard was highly pleased with the progress the school was making, the appearance of the faculty, and the general up-to-date teaching methods employed. In addition to checking the school plant in general, he also checked it for state aid. He stated that the Sunset school would be entitled to \$4080 salary aid.

Things We Shall Long Remember About Sunset's Gala Hallowe'en Carnival

No one could possibly forget some of the queer and surprising things that happened at Sunset Hallowe'en night—especially Miss H. D. Matthews, Jr., in her peach colored evening dress which was very becoming to her. I'm not sure, but I think she was the "Tatoed Lady." Anyway, she was v-e-r-y graceful. Yes!! She looked like (in certain ways) Mae West.

If some of you don't know what this is all about, I'm referring to the Womanless Style Show pre-

Beware Coughs from common colds That Hang On

No matter how many medicines you have tried for your common cough, chest cold, or bronchial irritation, you may get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with any remedy less potent than Creomulsion, which goes right to the seat of the trouble and aids nature to soothe and heal the inflamed mucous membranes and to loosen and expel germinous phlegm.

Even if other remedies have failed, don't be discouraged, try Creomulsion. Your druggist is authorized to refund your money if you are not thoroughly satisfied with the benefits obtained. Creomulsion is one word, ask for it plainly, see that the name on the bottle is Creomulsion, and you'll get the genuine product and the relief you want. (Adv.)

sented by some of Sunset's most popular young ladies. Anyway, they were supposed to be women. Maybe they were, but I couldn't tell the difference!

Another stunning lady we will never forget is Miss T. W. Harber, who was dressed very becomingly in some bit of frailty.

Another promising young lady was Miss N. T. Underwood. She wore a pretty black dress with DuBonnet hat and gloves. She is

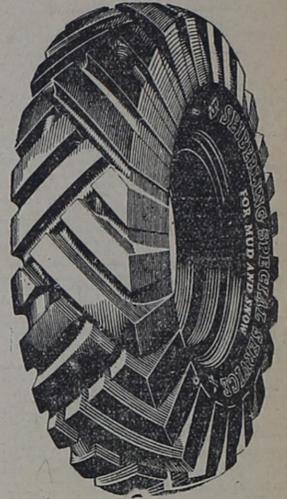

very graceful, and is also a good singer.

Maybe you did not know it, but this style show was very educational. By seeing this show you found out what will be proper to wear in 1939, and you also learned "her" name.

One thing I learned was that Mrs. Earnest Parkhill has two daughters, and the one I did not know was Miss E. G. Parkhill. She

in MUNDAY it's
Eiland's Drug Store

Funeral services were held at 5 o'clock last Friday afternoon for little Anna Katherine Brown, small daughter of Mr. and Mrs. Joe A. Brown of Rhineland, who lived only five hours after her birth that morning. Rev. Matthew was in charge of the services at St. Joseph's Church at Rhineland, and burial was in the St. Joseph's Cemetery. Funeral arrangements were in charge of Mahan Funeral Home.

Survivors include the parents, Mr. and Mrs. Joe A. Brown, Rhineland; four brothers, Bernard, Gerald, Clarence, and Daniel Brown; a sister, Elizabeth Mary Brown; grandparents, Mr. and Mrs. Anton Brown, and a grandfather, Martin.

Schumacher. Pallbearers at the funeral were Marvin Urbanczyk, Lewis Urbanczyk, Norman Brown and Harold Decker.

Notice to Knox County Voters!

In the preparation of the Official Ballot for use in next Tuesday's general election, the designation "For County Surveyor of Knox County," followed by space for writing the choice of the voter, has been inadvertently omitted from the ballots now in the hands of election officials. My friends are advised that a notation on the bottom or margin of your ballot of like import as the above, namely, "For County Surveyor Knox County—O. W. Lee," will not in-

validate your ballot, and will be very much appreciated.
Respectfully,
O. W. Lee, Co. Surveyor
Munday, Texas.

Moments of Charm Featured Sunday At Roxy Theatre

One of the most charming bits of cinema fare to come to this city in many a moon is the Paramount technicolor short featuring Phil Spitalny and his group of thirty attractive and gifted women musicians, which opens Sunday at the Roxy Theatre, appropriately enough, it is called "Moments of Charm."

In this entertaining film, the musical accomplishments of the girls are embellished with gorgeous pictorial backgrounds and many novel photographic effects. The numbers rendered range from the light-classical to the popular, and include several instrumental and vocal renditions that present the unique talents of the deep-throated Maxine, Evelyn and her Magic Violin, the "Three Little Words," harmony trio; and Rochelle and Lola, piano duet.

The Spitalny all-feminine aggregation has received wide acclaim for its instrumental and vocal virtuosity. Their "Hour of Charm," now heard over the air every Monday night over the NBC red network from 9:00 to 9:30 EST, under the sponsorship of the Lamp Division of the General Electric Company, was voted 1938's best program of light music by the Women's National Radio Committee. The world-famous orchestra conductor, Arturo Toscanini, also named the program as his favorite among light musical shows, remarking that he was astonished at the precision with which the girls play. The singing orchestra is equally well known to the stage, recently completing a three-weeks record-breaking engagement at the Paramount Theatre in New York City.

FIRST BAPTIST CHURCH
Every Sunday should be a challenge to the people of the Lord. It is His day, and the are His. We do not belong to ourselves, we belong to Him. He satisfied the justice of God, paying the price of our redemption with His own blood, shed on the cross to redeem us from sin. By what he has done for us He challenges us to worship Him on His day. When we look back through Gethsemane, then to the Cross, then the Resurrection, His ascension, and His place at the right hand of the Father making intercession for us we are moved with a mighty urge to put ourselves into His service to do His will, and to bring in His kingdom.
Sunday morning the sermon subject will be: Christian and Professors.
We appreciate the good attendance and the fine interest.
W. H. Albertson

FOOTBALL

(Continued from Page One)

unsuccessful pass, Lowrance took the ball and passed to Pippin who went over for the score.

Stamford made a desperate effort to block the anticipated kick for extra point, but Lowrance passed over the whole crew to Blacklock for the marker, Score 32-7, Stamford.

Munday's only penalty was suffered in this quarter, compared to 7 assessed against the Bulldogs. Warren, who had been held out of the game until now, went in for Foytik as the half ended with the ball on Stamford's 41-yard line.
Only One Score Last Half

Early in the second half, Fuqua, Bulldog back, broke through for 30 yards and was downed on the Mogul 27-yard line. What looked like another touchdown drive was temporarily halted when Pippin went through and smeared them for their first loss in yardage. They fumbled on our 18-yard line; but recovered, and York went over on next play around right end. The kick would have been perfect, but was disallowed because of an off-sides play. Score 38-7, Stamford, and counting was closed for the evening.

Munday opened with a passing attack in the third quarter that looked dangerous, but two passes in the third and three in the fourth were incomplete.

The Moguls missed their best chance to score again, when Pippin received a pass in the final period and broke through into the open for a thrilling 48-yard run from our own 21-yard line to the Bulldogs' 31, only to be overtaken by a speedy Bulldog safety. After that play Stamford intercepted a short Mogul pass and two runs netted 59 yards and a 12-yard gain put them within the shadow of the Mogul stronghold again as the game drew to an end. They went to the 1-yard line and suffered a 5-yard setback as the pistol shot

ended the game on Munday's 6-yard line.

Teamwork Improving
Jack Pippin was outstanding for his work Thursday evening, but stellar honors go to Blacklock, Wayne Paterson, Beck and Warren, also, who teamed up on some nice gains. Warren gave his best exhibition of speed this year when he relieved Pippin several times at the ball carrying position and that boy can run. Beck's fast-charging attack from the line, and Paterson's performance at end were even better on defense than on offense. Blacklock plays a consistent, dependable game, and is one of the team's mainstays.

STAMFORD PEP SQUAD AND BAND PERFORM

Stamford's 42-piece band led by three petite drum majors marched onto the field during the half and played for a group of well executed formations by the pep squad. All 48 girls of the squad were dressed in blue and white uniforms, wearing white boots, and they presented a very pretty sight, led by three leaders in white, and a mascot, a little three-year-old girl.

The Stamford people were perfect hosts to Munday and the game, though marked by several inadvertent errors, was one of the cleanest ever played in this section. The Bulldogs are a clever, scrappy bunch, and Munday's Moguls didn't do half bad, say fans who know the two teams.

Announcement!

I have leased the market now located at the Sebern Jones Grocery and it will be operated at the same stand and be known as the

PALACE MARKET

This market will carry a complete line of FRESH AND CURED MEATS, killing home grown and home fed cattle and hogs.

We will appreciate your patronage.

You will also find the same class of meats at Piggly Wiggly, as I will continue to furnish their market.
