## Look To The East

By AARON EDGAR

We can understand why Glenn Shelton is hiding behind that facial fodder!

Once on an official visit here, regarding our big drainage ditch, Glenn said he could not grow hair on his head, so he was just growing it where he could.

But there's another, and better, reason for the facial display.

He's embarrassed, and ashamed to show his face!

Ever since Glenn started columnizing, so far as we know, he had a prominent spot on the front page. At least, it had been that way ever since we'd been reading the things that came out of his type-writer.

Until recently, that is.

Some weeks ago, he was relegated to a inside spot in his newspaper. For a time, there appeared a "box" on the front page, giving directions as to where his Hired Hand column could be found.

Within time, the box quit appearing; and now it's a sort of hunting expedition to find the page where Glenn's idea of the day is expounded.

And some folks don't like that! Especially us.

Back in 1947, when we first gained a partnership in The Munday Times, we toyed with the idea of starting a column. At length, we discussed the idea with a friend, Wade Mahan, whose mortuary business was right next door to us.

"I don't think a newspaper is a newspaper without a column," Wade said, "especially a weekly paper. And the proper place for it is the same spot on the front page every week."

This conversation clinched our idea of starting a column in our weekly. It maintained the same front page spot some 18 years, a few months after the newspaper was sold. It's interesting how the idea came to us to call it "Kracker Krumbs", but that could entail a different story. We were named after our column--and, today, there are a few friends who call us by that name!

Finally, we decided to rest and see what the reaction would be. We had an automatic car wash that required a bit of our thinking and efforts. There were a few people--more than we expected--who told of the sorrow they had over the demise of Kracker Krumbs.

After the demise of The Munday Times, we were encouraged to start another paper, which became The Munday Courier. For legal and other reasons, we could not use the revered name of The Munday Times.

We resumed our column writing with the new publication. Realizing what a great miracle we experienced each day with the rising of the morning sun, we dubbed this column "Look to the East" that we might behold the miracle.

On one of our retirement "efforts", we again stopped column writing. Soon we were prevailed by the Waggoners to crank up the machinery again. "There's only one request we make," we said. "That is that you give my column a front page beginning. You may jump it anyplace you want, but start it on the front page." This request is being carried out, even to this day.

But back to Glenn. We had a friend who told us some weeks ago that Glenn Shelton's column had been a part of his "breakfast diet". He'd made a habit of picking up the

## Machinery Geared For Potato Harvest

With clearing skies and drying weather, the potato harvest is expected to get going in full force by the end of this week, according to reports from different potato processing firms.

Machinery for digging and processing has been shifted into high gear in preparation for activities, and it is hoped that no damaging weather will hinder operations.

Jack Colville of Colville and Wilson reported Monday that plans are underway for starting digging for his customers on Thursday of this week. Jack said that samples would be run on Wednesday to determine just how many acres are completely ready for harvest.

He plans to start on the J. W. Michels farm. Recent hail damage to this crop was at first thought to be a disaster, but Colville said it really helped them, since they were getting ready to beat the vines anyway.

"Damage from moisture is expected to be small," Jack said, "and the overall crop in this area is looking real good."

Joe Tidwell, with the B. E. Smith and Sons operations, reported Tuesday that starting date for digging the 225 acres of Smith potatoes is Tuesday, June 8. Moisture damage to this crop is minimal, according to Tidwell.

A representative of Kiser and Sons said they would start operations probably on Monday, June 7. Hail damage to their fields in the Sunset area

was "a real disaster" since they do not thresh the vines on the type of potatoes grown there.

Mrs. Kiser reported "quite a bit" of water damage on some portions of their fields. Their operation involves better than 400 acres.

Members of the Munday Vegetable Growers, Inc., are also making plans for starting harvest within the week, probably on Friday, June 4. Workers were carrying on clean-up operations at the shed Tuesday, while Bill Kingston, manager, and others of the force were checking potato fields to determine just where digging will start.

DR. and MRS. J. PATRICK HOOKER

## Medical Doctor To Practice In Munday

The Munday Chamber of Commerce and Agriculture received notice Monday, May 31, that Dr. J. Patrick Hooker of College Station will be coming to Munday in the very near future to locate housing facilities prior to opening an office for medical practice on August 15.

Dr. Hooker and his wife, Mary Kaye, visited in Munday on May 19 and 20 to meet with Chamber of Commerce officials and the Medical Search committee of the Chamber. Dr. Hooker returned May 26 to further inspect the offices of the late Dr. R. L. Newsom, where he will be practicing.

The agreement with Dr. Hooker culminates many hours of work and searching by a number of local people since 1979 for a medical doctor to enter practice and serve a great need of people in the Munday area. Elation would well describe the feeling of the people who have met Dr. Hooker and learned that he has decided to set up practice here.

Dr. and Mrs. Hooker were able to meet a number of townspeople during their visit. Not only they, but the local people making contact with them, expressed the presence of a very cordial and pleasant atmosphere. The Hookers stated that they were looking forward to coming to our community. It is believed by the chamber officers and the medical search committee that area people will have a very pleasant association with Dr. Hooker. Much of the conversation one is hearing in the coffee shops and other meeting places begins with, "We are getting a doctor!"

Dr. Hooker was born at Frost, Texas. He was in military service from 1944 to 1946, assigned to the Asiatic-Pacific Theater. He earned his bachelor of arts degree at the University of Texas at Austin in 1950, and completed his medical education at the University of Texas at Galveston in 1954.

He completed his internship from 1954 to 1955 at Jackson Memorial Hospital, University of Miami. He was resident in general surgery at this hospital in 1955-56.

Dr. Hooker was a Fellow in Neurosurgery in 1956-58 at the Mayo Foundation, Rochester, Minn., and Fellow in

Neurological Surgery 1958-61 at Ochsner Foundation, New Orleans, La. In 1964 he received his diploma from the American Board of Neurological Surgery.

He has done solo practice in Lumberton, North Carolina, and Midland Texas.

He holds memberships in the AMA, TMA, Brazos/Robertson County Medical Society, Southern Medical Association, Congress of Neurological Surgeons, American Association of Neurological Surgeons, was a charter-founding member of the North Carolina Neurological Society, Pan-American Medical Association, Pan-Pacific Surgical Association and the Royal Society of Medicine (United Kingdom).

Dr. Hooker holds fellowships from the American College of Surgeons, International College of Angiology, American Geriatrics Society and Royal Society of Health, United Kingdom.

He is a Rotarian, a member of the board of directors of the American Red Cross, and has worked actively with the Bryan-College Station Chamber of Commerce, serving on the public education and small business committees. He is presently employed as an inspector for hospital accreditation.

Dr. and Mrs. Hooker were very impressed with this area and expressed their desire to live in a small rural community where they can work and be an active part of that community. They are members of the Episcopal Church.

Mrs. Hooker served as county librarian in Hidalgo County, and is now on the staff as a professional librarian at Texas A&M University.

## SS Representative Here June 3

The representative will be glad to assist in filing an application for Social Security Retirement, Survivors, Disability, Medicare, or Supplemental Security Income benefits.

## Run-Off Election Saturday, June 5

The polls will be open in Munday from 7 a.m. to 7 p.m. for voters to cast their ballots in the run-off election of the Democratic primary, Saturday, June 5.

Local voters in boxes 6N and 6E will vote at Munday Community Center. James Smith will be election judge.

Voters in 6W will vote at the Munday school band hall. W. R. Moore Jr. will serve as judge. This box will have the only Knox County run-off. Voters will cast their ballot for County Commissioner, Precinct 2. The names of Wayne Sutton and incumbent Bobby Roberson will appear on the ballot for this box only.

Other names on all ballots are Attorney General, John Hannah and Jim Mattox; commissioner of General Land office, Garry Mauro and Pete Snelson; Judge, Court of Criminal Appeals, place 1, John E. Humphreys and Charles F. "Chuck" Campbell Jr.; and Judge, Court of Criminal Appeals, place 2, Chuck Miller and Bill Black.

## Cotton Planting, Wheat Harvest Is Beginning

Area farmers are bracing themselves for a busy period, as they remain hopeful that drying weather will continue.

Wheat harvest is being resumed, with operations increasing almost daily. Soon the "golden grain" will be arriving at elevators.

Cotton farmers, who had waited until May 24 as the uniform planting date, were unable to start because of wet weather. They are now planning to enter the fields as soon as they become dry enough for planting.

## Stormy Weather Hovers Nearby!

Stormy weather that wrecked havoc to the southwest and south did not reach the Munday area last Sunday night, but came close enough to cause some apprehension to local residents.

Twisters, rain and large hail did damage to points in Stonewall County, near Aspermont, and an area along the Haskell-Jones county line. Munday people felt relieved that we received neither wind nor rain nor hail.

A check of the records of Goodson Sellers, local U. S. weather observer, revealed that Munday received a total of 10.45 inches during May, bringing the year's total to 14.92 inches.

## Lions Talk Of Ladies' Night

Big business for members of the Munday Lions Club on Tuesday was completing plans for their annual ladies' night, which will be held on Tuesday night, June 8, at the community center.

The meal will be served by Wally's of Goree, and Bob Brown, chairman, says a good program is in the offing. Charles Baker is overall chairman.

thing that folks are waiting to buy at reasonable prices.

Get these all together, then be ready to bring them to the Smith building, 120 Main St., on Tuesday, June 15. This is the first date on which the building will be opened.

Mrs. W. O. (Barbara) Ratliff has graciously agreed to serve as co-ordinator for this sale, and her services will probably be available on the 15th and until the sale is closed.

"We feel fortunate, too, to have Mrs. Howard (Scooter) Cook of Quanah to assist us," M. L. Wiggins, head of the Munday Historical Committee, said. "She is experienced in many ways and knows the real value of every type of garage sale merchandise."

It's all looking very good! Select the items you wish to donate and have them ready for delivery on Tuesday, June 15.

The sale will open at 8:30 a.m. Thursday, June 17.

## Emergency Bloodmobile For Munday Area Scheduled June 7

Local co-chairmen Margaret Moore and Latrace Lane have advised The Courier to announce an emergency bloodmobile scheduled for Monday, June 7, at the Munday Community Center, between the hours of 2:45 p.m. and 6:30 p.m.

The Red River Red Cross Blood Services representative contacted Munday's chairmen and expressed a need for the gift of blood once again from people of the Munday area due to an increased required amount for patients. The local ladies ask that the people in Munday, Goree and Rhineland please plan to be

donors at this special drive if at all possible.

The Red River Red Cross Blood Services for this area serves 43 regional hospitals. These hospitals depend on volunteer donors to supply blood needs.

Remember the gift of blood is the gift of life. Plan now to make note of June 7, and be at the Community Center to do your part.

Mrs. Moore and Mrs. Lane will be calling for workers for the June 7 bloodmobile as well as sweets for the canteen. Be ready to say yes and fulfill this need, also.

## Johnson Cemetery Section Opened For Lot Purchase

At a recent meeting of the Johnson Cemetery Endowment Trust, authorization was given to open the southeast corner section of Johnson Memorial Cemetery for lot sales. Heretofore, this section had not been for sale due to increased maintenance once graves were present. The other part of the cemetery has been sold to the extent that it was felt this area should be opened.

Each lot is space for two graves and will be \$150.00. Several one-grave plots are also available at \$85.00 each. For purchase, one can contact the Munday City Hall. Deeds are still written from

that office.

Certain restrictions must be agreed to in order to purchase a lot in the newly opened section. Lots will be sold in rows, and for instance, the west row will be completely sold before another row is opened for space to be purchased. No curbs will be allowed, and only corner markers below mower level can be constructed.

Walter M. Hertel, city administrator, stated, "Recently, we have had Mr. L. O. Jackson employed to re-stake the area so as to guarantee more conformity for lots to be located."

### Nutrition Facts To Inform You

Honey, like fruit, contains both sucrose and other kinds of sugar. Your body uses these naturally occurring sugars in much the same way it uses refined sugar. The primary drawback of sugar, whether naturally occurring or refined, is that it can cause tooth decay if proper dental hygiene isn't practiced.

Carrots are a good source of vitamin A. Other foods rich in this essential nutrient include liver, sweet potatoes and greens. Vitamin A plays an important role in the formation of healthy eye tissue.

While it's wise to avoid too much of any substance in your diet, it's certainly not the key to balanced nutrition. The key to balanced nutrition is eating a variety of foods from all four food groups, keeping in mind total calories.

Proteins, carbohydrate and fat all provide you with energy - energy which is measured in calories. Protein and carbohydrate supply you with four calories per gram. Fat supplies you with nine calories per gram. But these three nutrients also carry out numerous other important functions in your

body. That's why it's not wise to eliminate any one of them from your diet.

Dairy foods are very good sources of calcium. But they're not the only sources. You can also get calcium from salmon with bones, collard, kale and turnip greens. Calcium, a mineral, is essential for the proper development and maintenance of bones and teeth.

### Break-In At Local Building

Melvin Cypert of the Munday Police Department investigated a break-in at the office of the late Dr. R. L. Newsom last Saturday afternoon. The report was taken from a local businessman after it had been observed that windows had been broken on the south and west sides of the building.

Upon entering the building, Cypert found that drawers had been gone through, but the building contents were not in disarray. As far as was determined, nothing was missing from the premises.

### LOCALS

Visiting Mrs. Abigail Reynolds during the holiday were her grandson, John and Debbie Tweed and Kate, of Bakersfield, Calif., and her granddaughter, Carol Claslin and son, Brandon, of Oklahoma City, Okla.

The world's first parachute jump from a balloon was made in France in 1797.

CINDY GUESS received an associate of science in nursing degree from Midwestern University in Wichita Falls. Commencement exercises were held May 22 in D. L. Ligon Coliseum, with a pinning ceremony held earlier in the day. Cindy is a 1976 graduate of Munday High School, and her parents are Mr. and Mrs. Gene Brown. MRS. MITCHELL BRUCE MURRELL  
the former Cynthia Kay Alderman

### Alderman, Murrell United In Marriage In Weinert

Cynthia Kay Alderman and Mitchell Bruce Murrell were united in marriage at the First Baptist Church in Weinert on Saturday, May 29, at six o'clock in the evening. Officiating at the double ring ceremony was Rev. Paris A. Barton, pastor.

Parents of the couple are Mr. and Mrs. W. G. Hale Alderman of Ft. Worth and Mr. and Mrs. Norman Murrell of Dhahran, Saudi Arabia.

Guests were greeted and registered by Kelly Earp. Within the sanctuary were three brass candelabra entwined with palm leaf greenery. The center candelabra featured two white doves in flight joined by white satin ribbon. Six pews were marked by brass standing candlesticks with globes and tied with large ivory bows. Candelighters were Matthew D. Guess and Randolph B. Guess of San Antonio, cousins of the bride.

A prelude of traditional wedding music was presented

by the organist, Keith Whitmore of Abilene. Alexia Rimmer of DeSoto, cousin of the bride, sang "Because". Selections for the Processional were "God of Our Fathers, Whose Almighty Hand" and "The Wedding March". Following the pastor's prayer, Mrs. Rimmer sang "The Lord's Prayer".

Escorted by her father, the bride wore a gown of shimmering ivory organza. The gown featured an off-the-shoulder open caped neckline completed with re-embroidered schiffli lace. The chapel length train was enhanced with lace. Matching lace gauntlets accented the gown.

An ivory spring picture hat, embroidered in schiffli lace and accented by satin ribbon falling down the back and encircling the crown, added the finishing touch to her ensemble.

The bride carried a bouquet of assorted spring flowers in peach tones and baby's breath, set against a

circle of ivory lace and long peach and cream satin streamers.

The bride wore a penny in her shoe. For something old she wore matching antique pink gold bracelets which belonged to her great-great grandmother, the late Fannie Von Tress Roberts. Something new was her dress and ivory stockings decorated with tiny seed pearls at the ankle. Something borrowed was a single strand of pearls belonging to her grandmother; something blue was the traditional garter.

Dana Alderman of Ft. Worth, sister of the bride, was maid of honor. Bridesmaids were Mary Murrell of Dallas, sister of the groom; Jeanne Alley of Ft. Worth; Teresa Therwhanger of Abilene, cousin of the bride; Denise Caudle of Abilene; and Cristi Guess of Weinert, cousin of the bride.

Junior bridesmaids were Tina Herricks and Shanna Murphey, both of Weinert, and Heather Stewart of Haskell.

The bride's attendants wore ankle length chiffon pale peach and off-white flowered print dresses which featured long shirred sleeves, matching sashes and flowing handkerchief skirts. Junior bridesmaids wore peach dotted swiss dresses with cream satin ribbon sashes and matching ribbons in their hair.

The attendants carried sprays of long-stemmed flowers identical to those in the bride's bouquet, iris, baby carnations, camellias, roses, miniature daisies, poppies and eucalyptus leaves.

Serving the groom as best man was Sandy Meador of Abilene. Groomsmen were John Landon, Tony Garrett and Jon Caudle, all of Abilene; Tony Bartolowitz of Ft. Worth, and Bill Bailey Guess, San Antonio, cousin of the bride. Junior groomsmen were Mondy Mayfield and Mitch Mayfield of Weinert, cousins of the bride, and Mart Guess of Haskell, also cousin of the bride.

The groom wore a black tuxedo and white ruffled shirt. His attendants wore black tuxedos with white pleated shirts. All wore boutonnieres of beige camellias and baby's breath.

The mother of the bride wore a long sleeved peach ankle length gown of silk chiffon trimmed with beige lace at the neck, sleeves and hem. The bride's mother and grandmother wore orchid wrist corsages. The groom's mother and grandmother, Mrs. Opal Murrell of California, also wore white orchid corsages.

A buffet was held immediately following the recessional for guests while pictures of the wedding party were being completed. The buffet, held in the fellowship room of the church, was hosted by the bride's parents and grandparents, Mr. and Mrs. W. B. Guess. Tables were covered with white cloths and appointed with silver and crystal.

**IF YOU ARE NEEDING FIRST-AID**, these junior girl scouts know how to help you. They have recently completed their first-aid badge and posed for this photo after they had each demonstrated things they had learned. The scouts are in back, from left, Kathy Wilde and Christy Wilde. In the foreground are Rachel Fitzgerald, at left, and Youlanda Wright. Mrs. Kay Wilde is troop leader.

### Junior Girl Scouts Experience Busy Year

Munday's junior girl scout troop, under the leadership of Mrs. Kay Wilde, has experienced a very busy year. They express their appreciation to the citizens for their support.

The girl scout cookie sale proved to be a very successful project this year. The twenty-two girls involved sold 153 cases of cookies, which amounted to 1836 boxes. Brownie scouts and juniors are both involved in the cookie sales.

Top salesmen were Loretta Coronado, 134 boxes; Kristi Dutton, 141 boxes; Yolanda Wright, 158 boxes; and Kathy Wilde, 305 boxes. Without cooperating citizens purchasing and the girls working extremely hard contacting these people, this could not have been possible.

Badges earned by the juniors this year include first-aid, junior aid, and the world-of-well-being dabbler badge. To complete their junior aid badge, the girls helped their sister Brownies, who fly-up as junior scouts as they leave the third grade. They joined in several activities with the brownies, including a meeting where the juniors showed their first-aid skills and explained the meaning of their badge sash. They plan to have a backyard cook-out together very soon

to experience a small sample of camping.

Dr. Dale Selzer hosted a tour of his office for the scouts. They expressed their appreciation to Dr. Selzer for his time and interest.

Brownies who will be junior girl scouts next year are Chris Burnett, Kristi Dutton and Melissa Nuckols. These girls have earned their Brownie wings and their bridge to junior patch, by joining in the activities listed above. Mrs. Wilde stated, "These girls are now juniors and we welcome them to our junior troop in Munday."

Day camp in Wichita Falls June 7-11 is on the agenda for the junior scouts. In August plans are for a group of senior girl scouts and Eagle boy scouts to be guests of the Munday junior troop. The older scouts will present skill training in camping.

The annual do-it-yourself camp will be held in Quanah in October. The local troop plans to attend. One of the highlights of the trip will be a visit to the cookie factory to observe cookie making.

Mrs. Wilde said, "If you are interested in the girl scout program, you may call me at 422-4426. I serve as service unit director for Munday and will be happy to talk with you.

### Two Benjamin 4-H'ers To Compete At State

The Texas A&M University campus will be a hive of activity June 8-10 when some 2,000 4-H members from across the state gather for the 1982 State 4-H Roundup and State 4-H Congress.

Roundup is traditionally held on the A&M campus each year, but this year the State 4-H Congress, a leadership event for senior 4-H members, has been scheduled to coincide with Roundup activities.

Theme for the three-day event will be "Discover Your Tomorrow".

Activities will begin with the State 4-H Food Show the first day followed by a special assembly that evening at 7 p.m. in Rudder Auditorium. Five individuals and businesses will be honored for their long-time support of 4-H, and 72 outstanding 4-H members will be awarded scholarships totaling \$350,000.

Competition in 39 different contest areas begins bright and early Wednesday, June 9. These range from method demonstrations in agronomy and clothing to judging of horses, livestock and soils. Competing from Knox County will be Amy Griffith and Lana Gideon. They will be doing a method demonstration in the Dairy Division. Amy is the daughter of Mr. and Mrs. Charles Griffith of Benjamin, and Lana is the daughter of Mr. and Mrs. Weldon Gideon of Benjamin. Mrs. Griffith and Mrs. Gideon will be accompanying the girls to A&M.

State 4-H Congress, with some 800 participants, begins at 8 a.m. that same day with a general assembly in Rudder Auditorium. Congress participants will be involved in a number of special seminars the remainder of the day dealing with educational and career opportunities.

The State 4-H Project Show gets under way at 10:00 a.m. in Rudder Exhibit Hall. A special luncheon that day will honor 29 outstanding 4-H adult volunteer leaders from across Texas who have been selected from the 14 Extension Service districts.

Roundup contest winners will be recognized at a special assembly that evening at 8 p.m. in Rudder Auditorium.

The final day's program will include special activities for Congress participants,

including tours and visits in various academic departments at Texas A&M.

State 4-H Roundup is a highlight of the 4-H year for many members. Those who qualify to compete in the various contests have worked long and hard to sharpen their skills. They must have won at the county and district level to qualify for state competition.

Those who compete in the Project Show are demonstrating their expertise in certain project areas which they have developed over the years.

Congress participants are working to expand their leadership skills and knowledge bases as they prepare to make choices relating to continued education and careers.

This year's Roundup combined with Congress promises to be a highlight in the lives of many 4-H'ers.

### Munday FHA Officers Plan 1982-83 Program

Officers of the Munday chapter of Future Homemakers of America met in the homemaking department of Munday High School on May 28, and planned the program of work for 1982-83.

Under the leadership of president Elaine Brown, the officers discussed overall goals for the local chapter. They planned programs that will encourage members' par-

ticipation and involvement.

The officers reviewed parliamentary procedure by viewing two films. This study will be beneficial to each officer in order for her to provide leadership during the upcoming year.

During the meeting, Janet Myers led a discussion on themes for the scrapbook and fashion show, and looked into new ideas for money-making projects, as well as listing several ideas for in-depth projects similar to their successful Secret Pa project of last year. Cheryl Wilde is project chairman.

Encounter vice-president, Sheryll Elliott, discussed ways to encourage members to accomplish all three levels

of Encounters in FHA. She will appoint a committee to produce a pamphlet on the steps for each level so all members can be informed.

All FHA officers enjoy a little relaxation mixed with their "hard work" at these meetings, so Jeannette Kuehler, recreation chairman, provided a fun game with treasurer Julie Partridge winning the prize for originality.

Paula Waggoner, secretary, organized all the ideas into a working plan for each month of the school year.

Angela Meers, sergeant-at-arms, organized an officers handbook.

daily paper and laying Shelton's effort before him, reading the column while he was eating his morning meal.

"When they took him off the front page, I quit reading the column," he said. "I'm not going to thumb through the pages and hunt for the column while eating my breakfast."

We suggested to him that, at this time, there was no problem finding the column because of the box on the front page. "That makes no difference," he

replied. "If they can't put him on the front page, I just won't go to the trouble of finding it and reading it." Even to this day, he maintains that attitude.

Personally, we think the newspaper did Glenn Shelton an injustice by showing him off to an inside page—and that's without knowing what led up to this decision. In our opinion, the newspaper publisher should be ashamed, even as Glenn seems ashamed as he hides behind the foliage!

We now side with our departed friend that a newspaper needs a column on the front page!

### METER TAMPERING NOW A FELONY

The State of Texas has recently adopted an amendment to the State Penal Code making meter tampering a third degree felony. A third degree felony comes with a punishment of confinement in the Texas Department of Corrections for a term of not more than 10 or less than 2 years. In addition to imprisonment, an individual adjudged guilty of a third degree felony may be punished by a fine not to exceed \$5,000.

Before the amendment of the new law, it was a class A misdemeanor for meter tampering unless the loss of service was more than \$200. Under the new law, any meter tampering regardless of the amount of loss is now a felony of the third degree.

Meter tampering consists of, but is not limited to:

- (1) Diverting electricity from passing through a meter device.
- (2) Preventing electric service from being correctly registered by a meter device.
- (3) Unauthorized activation of electric service.

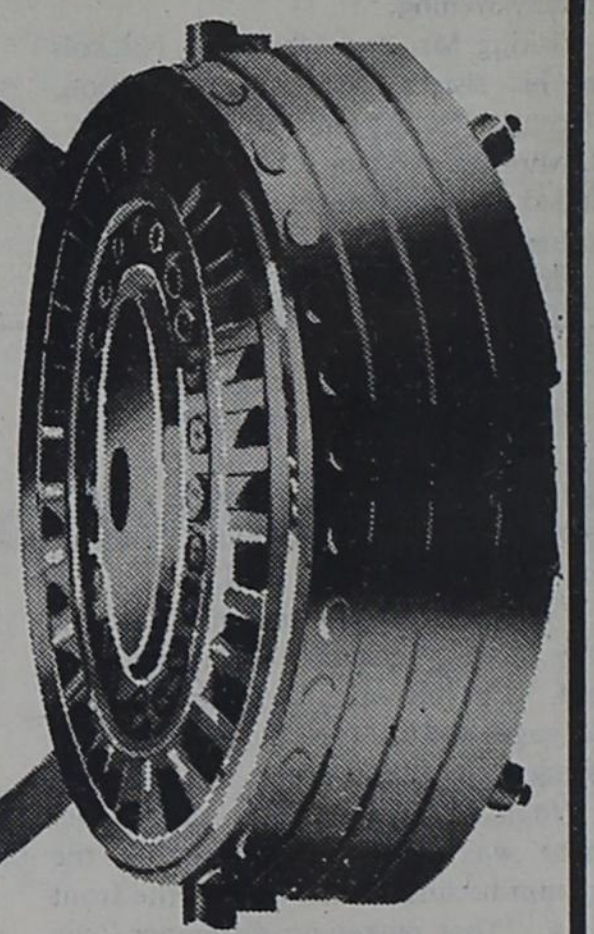

As a special note to our members, it will also be considered meter tampering if a meter is reset and electrical service is restored by anyone other than a Cooperative employee.

All Cooperative meters are sealed. This seal should not be cut or broken without special authorization. In cases where the seal must be cut for emergencies the Cooperative should be notified as soon as possible so that the meter can be resealed.

### COUPLE REPEAT VOWS IN BENJAMIN SATURDAY

An archway of greenery flanked by two seven-branch candelabra holding white tapers formed the altar setting for the Saturday afternoon wedding of Miss DeAnn Young and Joe David Lamb in the First Baptist Church in Benjamin. Rev. K. E. Woolley performed the double ring ceremony.

The bride is the daughter of Mr. and Mrs. F. L. Young of Benjamin. Mr. and Mrs. Joe Lamb of Eastland are parents of the bridegroom.

Providing traditional wedding music were vocalists Carl and Cindy Sanders and organist Carla Cummings, cousins of the bride.

### More Disability Claims Are Being Reviewed

If you receive Social Security disability checks, you should be aware of a new law effective this year. It requires review of your claim from time to time to make sure you meet all requirements for benefits.

Previously, only certain disability claims were re-examined. For example, a review was made if the beneficiary's condition was very likely to improve or if he or she returned to work. Now, each claim must be reviewed periodically, generally at least once every three years unless the Social Security Administration determines a shorter or longer review period is justified.

of bridal illusion was outlined with lace and was held by a headpiece of white satin complemented with seed pearls.

Her bridal bouquet was of pink and white silk carnations and gypsophylla.

Brenda Gallagher, sister of the bride, served as matron of honor. She wore a gown of pink chiffon over knit. A pink picture hat and a nosegay of silk pink and white roses completed her attire.

Best man was David Gallagher. Ringbearer was Cory Yancey, and flower girl was Jennifer Sanders. Todd Benson and Oscar Gideon were candlelighters, and ushers were Mike Young and David Jones.

The bride's parents hosted the reception in the Benjamin Memorial Building. The refreshment table was covered with a white lace tablecloth with a pink underlay. The three-tiered cake, punch and nuts were served by Diane Green and Lana Gideon. Appointments were crystal and silver, and a bouquet of pink and white carnations formed the centerpiece. JoEtte Nunley registered guests, and Sue Gideon and Becky Griffith distributed rice bags.

Members of the house-party were Clodell Duke, Alene Groves, Juanita Burnett, Lucille Moorhouse, Letha Young, Philomae Roberson and Gladene Green.

The couple will make their home in Holliday.
