Boys and Girls

Sixteen-year-old Helen Melo of Oroville, Calif., who averaged 154 words per minute for one hour, believes she is the world's unofficial fastest typist.

Poldi Mildner, the seventeen-year-old pianist from Vienna, recently gave her second performance at Town Hall, in a program of Bach, Beethoven, Brahms, Chopin and Liszt.

At the age of 15, Claud Phillips, a grocer's son of Paddington, Eng., is a brilliant organist.

Ann Fieser at the University of Wisconsin, who operates a telephone switchboard, cooks at home, sews at another, and cleans the house where she lives, has managed to pay off the \$100 mortgage her parents used to raise money for her tuition.

The youngest poet of note in Texas is Virginia Paty, of Paris, who has achieved recognition both in and out of the State.

Robert L. Ratte of Springfield, Mass., has constructed a violin which is made entirely of 100,000 matches.

Betty Hannon of New York is the 1932 winner of the Mary Lewis

SAFETY FIRST

THE PUBLIC should be prudent in seeking relief from pain. Take nothing which does not have the approval of the medical profession.

BAYER ASPIRIN will never do you any harm, and almost always brings the desired relief. But remember that the high medical endorsement given Bayer Aspirin does not apply to all tablets for relief of pain.

THE DOCTOR is careful to specify Bayer Aspirin for these important reasons:

It has no injurious ingredients. No coarse particles to irritate throat or stomach. Nothing to upset the system. Not even any disagreeable taste. The Bayer process insures a pure, uniform product.

INSIST on the tablet you know to be safe. And the one that has speed. Bayer tablets dissolve so quickly, you get immediate relief from your headache, neuralgia, or other pain.

Champ Gets Golf Birdie

Mickey Riley, U.S. Olympic diving champion, attired thusly, hit a whirling drive down a Florida golf course, the ball skimmed through a tree top and a chicken hawk fell dead to the ground. A new record is a new sport for Mickey.

HOW MODERN WOMEN LOSE FAT SAFELY

Gain Physical Vigor—Youthfulness With Clear Skin and Vivacious Eyes That Sparkle With Glorious Health

Here's the recipe that banishes fat and brings into blossom all the natural attractiveness that every woman possesses.

Every morning take one half teaspoonful of Kruschen Salts in a glass of hot water before breakfast—cut down on pastry and fatty meats—go light on potatoes, butter, cream and sugar—in 4 weeks get on the scales and note how many pounds of fat has vanished.

Get a bottle of Kruschen Salts—the cost is trifling and it lasts 4 weeks. If even this first bottle does not convince you this is the easiest, safest and surest way to lose fat—if you don't feel a superb improvement in health—so gloriously energetic—vigorously alive—your money gladly returned.

Be sure for your health's sake that you ask for and get Kruschen Salts. Get them at any drugstore in the world.

Save Trade, Says Butler

Dr. Nicholas Murray Butler, Columbia University, and President of the Carnegie Endowment for International Peace, in a nation-wide radio broadcast appealed to citizens to join movement to end present world-wide economic war.

You Mustn't Take Chances.. With Children's Eyes

Unimpaired eyesight is essential to the growing child . . . for two reasons: First, because good vision enables him to keep pace with his schoolmates and his playmates. Second, because strong eyes, guarded in youth, will last a lifetime.

Improper lighting is one of the largest causes of weakened eyes. If you permit your child to study or even to play where there is not enough light, or where there is a blinding glare, you are making a mistake that may prove disastrous.

Enjoy the benefits of plenty of light . . . it's ridiculously inexpensive. And, remember, new eyes cannot be bought at any price!

One of our trained employees will be happy to inspect your lighting arrangements . . . without charge or obligation, of course. Chances are, a simple rearrangement of your present equipment, with larger or smaller lamps in a few of the fixtures, is all you need. Call for an inspection TODAY.

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule . . . and adds only a small amount to your total bill?

West Texas Utilities Company

CRAZY CRYSTALS
KEEPING FIT FOR TOMORROW

Thousands of cases of lost vigor and waning pep are directly caused by faulty elimination. No wonder you feel half sick—there is a reason. The poisons of the colon are being absorbed into the blood stream. Connie Mack at 70

Cornelius McGillicuddy... better known as the beloved Connie Mack, boss baseball man of the Philadelphia Athletics and dean of the great American game, looks hopefully toward winning his 10th pennant in 1933, as he turned the 70 mark in birthdays on December 23.

John and Will Pyle of Gainesville were here last week visiting relatives.

Lebert Swaim is now operating the filling station department of Swaim's Garage.

Mrs. Eva Ashford visited over the weekend in the home of Mary Hunter of Margaret.

Leonard Johnson of Sayre, Okla., a former resident of this county, is here this week visiting relatives and friends.

Arthur Bell, student in McMurray college of Abilene, visited over the week-end in the home of his parents, Mr. and Mrs. S. S. Bell.

Mr. and Mrs. W. Dee Nelson of Wichita Falls were here Wednesday visiting in the home of Mrs. Nelson's parents, Mr. and Mrs. H. L. Kimsey.

Mr. and Mrs. J. W. Wright and children, former residents of Crowell, arrived here Tuesday of last week from Roswell, N. M., where they had lived for the past year. They are visiting their son, Clyde.

A number of Foard County people were in attendance at the prohibition and temperance rally at the First Methodist Church in Vernon Sunday afternoon. Local visitors stated that the church was filled to capacity for the meeting.

G. D. Owens of Lubbock has been here this week visiting old-time friends and looking after his farming interests in the east part of the county. Mr. Owens was a resident of this county for many years. He returned home Wednesday, but before going he called at The News office and renewed his paper for another year.

Mr. and Mrs. Alfred Schroeder of Route 4, Lubbock, former residents of this county, are here this week visiting relatives and friends. They are moving to Route 1, Amherst, where they will make their home this year. Mr. and Mrs. Schroeder called at The News office Tuesday to make its weekly appearance at their new home.

Everett Ford, who has been away from this county for about 7 years, has returned to assist in the operation of the farm of his father, J. R. Ford, southeast of Crowell. He has been at Hinton, Oklahoma. After making one trip here while moving, he suffered three broken ribs upon his return to Hinton after his wife and two children. His car struck a concrete post on a bridge near Hinton.

PADUCAH EDITOR VISITS

E. A. Carlock, editor and owner of the Paducah Post, was a visitor at The News office Monday while returning to Paducah from Electra, where he visited his 92-year old father.

While here Mr. Carlock kindly offered his services in making adjustments on our newspaper folder. After a few hours' work on his part, with the assistance of the local force, the machine was put in good shape, for which we are indebted to our neighboring editor.

NOTICE CALLING BIDS FOR COUNTY DEPOSITORY

February 13, 1933.

VANCE SWAIM, County Judge.

A book entitled "Baseball," written by Coach Carl Lundgren of the University of Illinois, has been translated into Japanese and is on sale in Japan.

CAGE COMMENT

By PERCY NALLS (Seeg's twin brother)

It is doubtful if any team in West Texas can boast a more impressive basketball record than that of Crowell High School for the past five years. Since the 1928 season, the first one that Grady Graves coached here, the Wildcats have scored 113 victories and have suffered only 17 defeats for a percentage of .869.

For the past two years Crowell has won the championship of District No. 3 of the Texas Interscholastic League, which consists of the following 9 counties: Hardeman, Cottle, King, Foard, Childress, Motley, Wheeler, Collingsworth and Hall. For the past 4 years Crowell has represented this county at the district meet.

A brief summary of Crowell's record since 1928 follows:

1928—Won 7 games and lost 3. Thalia beat Crowell for county championship 13 to 12 in an extra period game.

1929—Won 18 games and lost 4. Hedley beat Crowell 31 to 29 in first game of district tournament.

1930—Won 18 games and lost 3 and scored 726 points to 389 for opponents. Estelline beat Crowell 39 to 20 in final game of district tournament. Estelline won second place in the state that year.

1931—Won 29 games and lost 4 and scored 1,232 points to 516 for opponents. Won district championship in final game with Childress 32 to 23. Won first bi-district game with Nocona 48 to 27. Nocona won next two games 25 to 17 and 26 to 20. Olney was the only other team to beat Crowell in 1931.

1932—Won 29 games and lost 3 and scored 1,186 points to 586 for opponents. Defeated Memphis 54 to 23 in final game of district tournament. Olney beat Crowell in two straight games, 24 to 18 and 25 to 20, for the bi-district championship. Olney was the only team to beat Crowell last year, winning two official games and one practice game, 21 to 18. Crowell beat Olney in one practice game 30 to 14.

1933—To date, Jan. 19, Crowell has won 13 games and lost none and has scored 490 points to 252 for opponents.

Since its loss to Estelline in 1930, Crowell has not suffered a single defeat in its own district. Olney and Nocona of the Wichita Falls district are the only teams that have defeated Crowell since 1930. Since 1930 and to the present time Crowell has scored 3,634 points to 1,743 for opponents, and has won 88 games and lost 7 for a percentage of .926.

However, as great as this record may be, we trust that the Wildcats will not get the idea that they are unbeatable for over-confidence has done more to defeat teams than almost any one thing. Nocona furnished us a fine lesson along that line. The Wildcats beat Nocona 48 to 27 at Nocona in the first game of the bi-district series in 1931. Before the second game here, the question was not "who would win?" but "how much are we going to beat them this time?" Anyway Nocona won the next two games and Crowell lost a wonderful trip to Austin.

In the Wildcats' last four games their opponents have scored 24 points in each game. These opponents have been the Crowell all-stars, Vernon (2 games) and Turkey.

One of the few women masters of surgery in the world is Mrs. Philippa Parry Martin of London, Eng.

Vernon Loses Second Contest With Crowell

In their second meeting this season, the Crowell Wildcats completely swamped the Vernon High Lions with a score of 51 to 24 in a basketball game at Vernon last Friday night. Vernon scored three points before Crowell could get started in their new surroundings, however, after a short time the Wildcats took the lead and held it throughout the game. The box score:

Table with columns: CROWELL, FG, FT, FTM, PF, TP. Rows: L. Carter, Wisdom, Russell, Todd, Allee, Dunagan, Spear.

Table with columns: Total, 23, 5, 4, 8, 51. Rows: VERNON, Galloway, Garner, Jones, Miller, Hopson, Grogan, Fowler, Goldston, Wilson.

Referee—Roy Mints. Points by periods: Crowell 9 10 14 18—51, Vernon 6 4 4 10—24.

How Doctors Treat Colds and Coughs

To break up a cold overnight and relieve the congestion that makes you cough, thousands of physicians are now recommending Calotabs, the nausealess calomel compound tablets that give you the effects of calomel and salts without the unpleasant effects of either. One or two Calotabs at bedtime with a glass of sweet milk or water. Next morning your cold has vanished, your system is thoroughly purified and you are feeling fine with a hearty appetite for breakfast. Calotabs are sold in 10c and 35c packages at drug stores. (Adv)

Quality Setting Eggs

From my pen of S. C. R. I. Reds, Calhoun Strain AAA grade, which is the best. Bred for vigor and vitality. My stock hatched in June now are laying vigorously. Eggs per setting of 15 \$1.00

The Key to Fortune

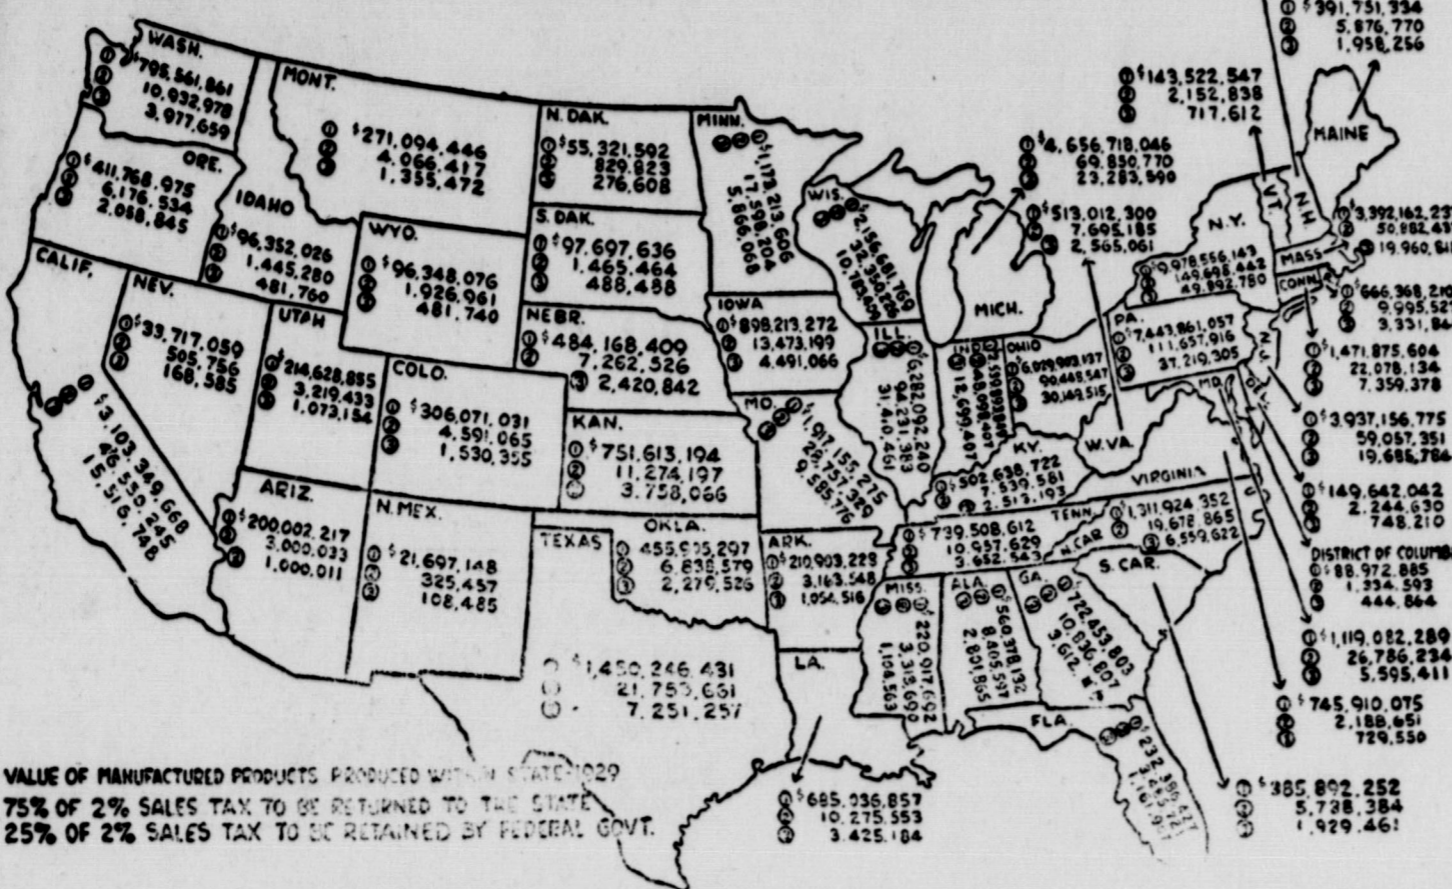

LARGE PURSES FROM LITTLE SAVINGS GROW

The biographies of the wealthy men of America of the past and the present invariably indicate that the roots of their fortune were nourished in the fertile soil of small savings! Admire or disparage of these men as you will, the facts remain the same. Personally they may have been great or small. But it was through small savings that their fortunes were started. . . You, too, through systematic saving, will grasp the key to fortune.

CROWELL STATE BANK

HOW STATES WOULD BENEFIT BY PROPOSED SALES TAX

TOTAL VALUE OF MANUFACTURED PRODUCTS WITHIN U.S. IN 1929 \$70,434,863,443 = TOTAL OF 100% OF 2% SALES TAX OF ALL STATES \$1,056,522,951 = TOTAL OF 100% OF 2% SALES TAX OF ALL STATES \$1,352,174,317 = TOTAL OF 125% OF 2% SALES TAX OF ALL STATES

EXAMPLE: Florida, on distribution basis of manufactured products, would receive \$3,485,721; on basis of population, it would receive \$12,678,275; on basis of combination of both, \$8,081,998. NEW YORK, on the three basis, would receive \$149,698,422, or \$105,652,295, or \$127,675,358. In other words, smaller states, on a population basis, would receive more than the larger states, which produce manufactured products consumed by the smaller states.

PLAN FOR AIDING STATES WITH FEDERAL SALES TAX IS GIVEN

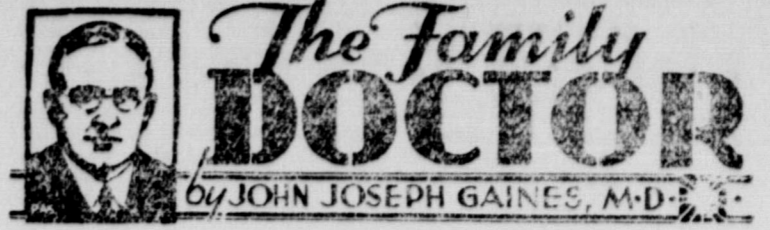

(Editor's Note—The following editorial explains the plan of Mr. C. Willings, a keen student of American business, who now resides in Pensacola, Fla., as a means to the solution in the nation's present financial crisis. The plan not only provides a source of collecting funds to pay out the national deficit, but also to states a plan with which ad valorem and other burdensome taxes may be abandoned with the government collecting agency.)

President Hoover in submitting a budget to Congress advocates a 2 per cent manufacturers' excise tax on all products excepting food. A federal sales tax seems to be a equitable form of taxation and that spreads the cost of government over the entire nation. It is the best form of painless extraction relating to taxation that can be devised. The great danger is when the states place additional sales taxes on the same commodities taxed by the federal government that the damage done Mississippi adopted a 2 per cent sales tax and with the proposed federal tax of 2 1/2 per cent will make a total sales tax of 4 1/2 per cent on the same products. Such a tax is beyond all reason. Pyramiding of taxes is where the trouble lies and it should be avoided. A state sales tax does not belong on the statute books of any state. It is dangerous to the business, particularly when there is no uniformity with the sales of other states. President Hoover states that a 2 1/2 per cent sales tax would yield \$355,000,000 per year. In studying government statistics, it is believed that this figure is underestimated and that the yield will be considerable more.

It is admitted that the amount and value of manufactured articles produced today is considerably less than in 1929. These figures include food products which Mr. Hoover advocates excepting. There is no more good reason for expecting a pair of crutches or the president classes as a necessity, than expecting a pair of crutches or a wooden leg, both of which certainly are necessities. When exceptions are made arguments begin. There is no question that the government must balance its budget by first cutting expenses and then finding additional revenue to keep its financial house in order. In doing so it must also consider the situation with regard to state finances and the harm that will be brought about by double taxation. The federal government has the machinery in the Internal Revenue Department for proper collection of a manufacturers' sales tax. A 2 per cent sales tax on all manufactured products, valued at the source, would yield more than the amount Mr. Hoover desires. The excess should be passed on to the states on some equitable basis, in order to assist the states on their taxation problems. President-elect Roosevelt made the statement some months ago that federal taxation should be considered with state and local taxation in mind. In passing the excess to the states the distribution could be made in proportion to what each state's total manufactured products bear to the whole, or the excess distributed on the basis of population of each state to the whole, or, further, it could be distributed on a combination basis of both. The example accompanying the map shows the distribution with relation to the states of Florida and New York on the three bases outlined.

Distribution of the Sales Taxes In 1929 the total value of manufactured products in the United States amounted to \$70,434,863,443, if figured at 2 per cent, would yield \$1,408,697,268. If 75 per cent of this amount was returned to the states it would mean a distribution of \$1,056,522,951 to the states. If the federal government retained 25 per cent, it would give it \$352,174,317, or about the amount Mr. Hoover desires. Admitting, however, that the value of manufactured products is less today than in 1929 and that 25 per cent of 2 per cent would not yield the \$355,000,000 required, the surplus over and above this amount should be returned to the states on some equitable basis. As business improves the amount returned to the states would be considerably increased, thereby eliminating part or all of the ad valorem tax on real estate and other taxation within the states. The map illustrates the distribution on the basis of products of each state using the value of manufactured products in 1929. Florida, for example, had a manufactured products value in 1929 of \$232,386,427. If 75 per cent of the 2 per cent federal tax was returned to this state Florida would receive \$3,485,721 and the federal government \$1,161,907. Mississippi has had a 2 per cent sales tax in effect for ten months, under which it has collected \$1,270,682.95. That state had a manufactured product value in 1929 of \$220,917,692. Seventy-five per cent of a 2 per cent tax on that amount would have returned to Mississippi, \$3,312,690, and 25 per cent amount would have returned to Mississippi federal government would be \$1,104,563. There exists at the present time laws regarding inheritance taxes that the states are credited with by the federal government. There is no reason why a federal sales tax law returning a portion of the money to the states should not be invoked. Florida's constitution at one time provided that no inheritance tax law would ever be put into effect. For several years due to federal laws conflicting with the Florida law, Florida suffered and received no credits on inheritance taxes on properties of deceased citizens of the state. Florida, realizing the large amount of revenue it was losing, soon changed its law in order that it could participate in the federal credits. The federal law, in establishing a manufacturers' sales tax, should stipulate that, where states have or should pass manufacturers' sales tax laws that impose sales taxes on sim-

ilar commodities assessed by the federal government, such states cannot participate in the credit under a federal manufacturers' sales tax law until the state law is abolished. A proviso of this kind would insure against inequalities between the states on sales taxes. There should be reserved for the states the right to tax sales or to impose other forms of taxation on articles not covered under a federal sales tax law as, for instance, real estate sales, etc. Today it is a fight between federal and state governments to find a new means of taxation without consideration of one for the other regardless of the feelings of the American taxpayer. Equitable distribution of taxation is proper. Federal and state authorities must work more closely together to solve the taxation problems of this country. The plan as above outlined is given with a thought in that direction.

AS GOVERNORS EAT

The election year, 1932, brought me some interesting news items. Our state changed governors this year, as did many others. But it is not the political, but the dietary habits that attracted my attention—picked up by the "nosey" reporter for the daily Press. Both incoming and outgoing governors are lawyers; the outgoing is a large-city resident—the incomer is from a small county-seat town—a life resident. The city man has city habits—the small-town man has habits peculiar to the country. Both men are said to be very healthy. The country jurist is strikingly robust; he rises at day-break—"goes to bed with the chickens." We know the city man does just the opposite of that. The reporter gives us a glimpse at the breakfasts of the two men—in striking contrast: "The present chief executive takes a breakfast which consists only of orange juice and black coffee." "The newly-elected executive actually wants fried chicken for breakfast, according to his wife, who does his meals; if he cannot have the fried chicken, he wants a breakfast steak, or country ham, or sausage." Readers of my letters will recall my insistence on good breakfasts for the hard worker. No man is fit for a heavy day's work, on a breakfast of orange juice and coffee. Chances are this type of man will consume the big steak, ham or sausage for SUPPER—the hour when the body, brain, nerves and stomach are tired out. The country jurist—our next governor—is right; he builds a good fire under the boiler in the morning. He is fortified for the day's struggle. He will be less tired at closing-time. He will eat a light meal "to sleep on." His arteries will last. He will outlive the city jurist.

AN ARMY OF FIFTY THOUSAND

Many young people, when they finish high school, nothing more definite in mind than merely getting a job of some kind. But it is not so easy for the untrained man or young woman to secure a position with a future. The good positions are going to the men and women who have prepared themselves for a place in the business world. For over a quarter of a century, the Tyler Commercial College and School of Business Administration at Tyler, Texas, has been training young men and women for better business positions. No matter what sort of business you are interested in, you will find superior instruction at Tyler. The Employment Department at T. C. C. is one of the best and most widely known in America and there are nearly fifty thousand Tyler graduates now holding good positions all over the world. Write to the Tyler Commercial College and School of Business Administration for a copy of their

handsome booklet, "Achieving Success in Business." It will be mailed you absolutely free for the asking. Advt.

A new tooth, cut at the age of 60, is the proud possession of Joe Claypool of Litchfield, Ill.

Mrs. Martha Pottle, aged 99, of Detroit, has just begun to wear her first glasses "for close work."

Because a waiter in a hotel at Omaha, Neb., spilled a bowl of hot soup down the neck of Mrs. Loretta Drummy of Narberth, Pa., a jury awarded her \$2,000 damages from the hotel company.

RESULTS ARE WHAT YOU WANT To Buy... To Sell To Rent... To Trade USE THE CLASSIFIED - ADS

BELIEVE IT OR NOT—You can take a message to over one thousand readers for as little as 25c by letting the Classified Column act as your salesman. Isn't that the cheapest service that you can possibly imagine? Suppose you have lost something—wish to sell something—have something to trade or rent—then isn't it fortunate that there is a medium in your community in which you can make your needs known at such small cost? The most consistent users of our Classified Column are those who use it year in and year out at different intervals. They offer our best argument that these little ads get real results. Why not think over the ways that you could profit from a 25 or 30 cent investment in the Classified Column? Why not put the best and cheapest working salesman in Foard County to work for you? He will be welcome in most of the homes of the county and will take your message to practically every member of the family in these homes. Help yourself—help others and help your local newspaper by using our CLASSIFIED COLUMN.
