STATE HELP TO SCHOOLS SETS NEW HIGH MARK

Apportionment Is \$10 Per Capita to Pass 1935 Figure

The per capita apportionment to Texas schools for the term 1936-37 has been set at \$19, according to figures from the State Department of Education. This is the highest rate that has ever been set by the state.

The apportionment for last year was set at \$17.50, but last spring another dollar was added to the per capita apportionment for a total of \$18.50 to set a new high up until the announcement of this year's mark.

The county apportionment last year was \$3.00 per capita, but it has not been determined this year. The increase in the state apportionment this year will mean an increase of about \$700 over the amount of state aid received last year.

Nineteen dollars will be received for each of the 1,570 children of scholastic age in Foard County, according to the census taken in March. Eighteen dollars and fifty cents were received last year for the 1,637 pupils included in the scholastic census.

The total amount due the common and independent school districts will amount to about \$29,830. This will be distributed to the schools of the county according to the scholastics in each school district.

Six Amendments To State Laws in This Week's News

Six amendments to the Constitution of Texas to be voted on in the general election Tuesday, Nov. 3, appear in this edition of the Foard County News and will appear in the next three issues.

They are being published for the benefit of the voters and the entire citizenry is urged by R. B. Stanford, Secretary of State, to read them and study them.

The first amendment deals with the sale of intoxicating liquors; the second with a retirement fund for teachers and employees of public schools, colleges and universities; the third with a workmen's compensation insurance for state employees; the fourth with the creation of a board of pardons and paroles; the fifth with the raising of the salary of the governor and other state officers; the sixth with limiting the number of representatives of each county to seven unless the population exceeds 700,000.

Rid Yourself of Kidney Poisons

DO you suffer burning, scanty or too frequent urination, backache, headache, dizziness, loss of energy, leg pains, swellings and puffiness under the eyes? Are you tired, nervous, feel all unstrung and don't know what is wrong?

Then give some thought to your kidneys. Be sure they function properly for functional kidney disorder permits excess waste to stay in the blood, and to poison and upset the whole system.

Use Doan's Pills. Doan's are for the kidneys only. They are recommended the world over. You can get the genuine, time-tested Doan's at any drug store.

Nerves Do they torture you by day? Keep you awake at night? What is it that keeps hospitals open and doctors busy? NERVES.

Nerves Do they make you Cranky, Blue—give you Nervous Indigestion, Nervous Headache? When nerves are over-taxed, you worry over trifles, find it hard to concentrate, can't sit still. Nerve Strain brings on Headache. Nervous people often suffer from Indigestion. There may be absolutely nothing wrong with the organs of digestion, but the Nerves are not on the job to make the organs do their work properly.

There is a surprisingly large number of people who do not have the courage to live a normal existence. They accept apparently unquestionably all of the advice that every one has to give with the result that one by one the broadening things of life are left out until it becomes merely a round of narrow, petty, colorless, commonplace filled with the trite and uninteresting. The mind wears of its imprisonment and old age and decay sets in. It takes courage to live one's own life and to refuse to conform to the blighting exactions of the humdrum and the commonplace. People should work for better conditions around them and their lives will be happier.

The reason why so many men do not care to work and would rather remain idle is often due to the fact in many instances that they were not trained to work when they were young. Work is a habit with the human race. Naturally man does not care to do hard work. The boy who is raised to young manhood without ever having had the incomparable discipline of hard work faces life at a distinct disadvantage. He has been deprived of the most valuable part of his youthful training. On June 15 the United States had due from thirteen foreign nations unpaid payments of the war debts, including back payments, \$1,160,122,766.65. Several of the debtor nations have informed the government that they would not be able to meet their June payments or any of the back payments. So far Finland is the only debtor nation that has met all her payments.

There is a saying that competition is the life of trade. This saying, like some others that have been handed down, is but partially true. It is like saying "Money is the root of all evil." Competition is the life of trade when competition is fair and intelligent, otherwise it works to the detriment of trade.

Folks who don't get to bed until ten o'clock in the morning do not know what they miss. There isn't anything that happens after ten o'clock that is worth missing the morning hours for.

Let's wife was turned to a pillar of salt because she looked back. What an exceptional car driver she would have made, especially when it came to backing out from a parking place.

I have fought a good fight, I have finished my course. I have kept the faith. Henceforth there is laid up for me a crown of righteousness.—2 Timothy 4:7.

Everyone wants to be happy but the trouble is the most people want to have their own way about how they are going to acquire happiness.

Iowa reports a greater loss from grasshoppers this year than the total loss from the same cause during the past twenty years.

The best indicator of the status of a business is not the amount of business one does but how much one has left after all the bills are paid.

No one seems to complain or have objections to the government's efforts to control the grasshopper surplus.

Eight Pitchers Used in Game Sunday; Three Dozen Scores

In what was probably the slooucheest baseball game in the Cotton Belt League this year, Crowell defeated Truscott, the league's top notchers, 19 to 18 in an eleven inning fray here Sunday. With everything that is needed to make a game uninteresting, the Foard County nine moved to within half a game of first place. A high wind and a dust storm blowing into right field, close decisions that left doubt in the minds of many of the players and spectators, and numerous arguments, many of which were torrid, were some of the detractions at the second game of the three-game series between Crowell and Truscott.

Eight pitchers saw duty in the game Sunday and batters on both sides showed no respect for the hurlers. Louis Duckworth, Crowell center fielder, ended the game in the last half of the eleventh inning. With the score standing 18 to 17 in favor of Truscott, Duckworth garnered his third hit of the fray, a home run, to score himself and Graves ahead of him. Scores were made in every inning, each team failing to score in only two of the frames. Crowell scored in all but the sixth and eighth inning and Truscott scored in all but the fifth and seventh. Lefty Walker started the pitching for Truscott but was good for only one-third of an inning. He was relieved by Gibson, a right hander. Other Truscott pitchers who saw service were B. Abbott, W. Myers and A. Myers. Tucker drew the mound assignment for Crowell and remained in the game for more than 7 innings, holding the Knox boys to 7 runs. Rogers and Green followed Tucker at the plate.

In the first half of the first inning Truscott drove three runs across the plate on three hits. The Crowell nine retaliated, however, in their half of the inning and got a run of the 4 hits and three walks.

Truscott scored one run in each of the second, third and fourth innings. Crowell scored one in the second, two in the third and one in the fourth. At the end of the fourth the visitors were trailing 3 to 6.

Manager Myers' lads went scoreless in their part of the fifth, but the locals pounded out 5 hits, received a walk and scored 4 times to make the count 13 to 6.

Trailing 15 to 7 in the eighth inning, the Knox County boys started a batting spree that tied the count before the sides were finally retired by Manager Hollingsworth's men.

At the first of the ninth the score was tied. Both sides scored once in the ninth, once in the tenth and the visitors tallied in the eleventh. Then in the last half of the eleventh, the homer by Duckworth produced the tying and winning scores.

Manager Clyde Myers dropped a fly in right field in the tenth inning which would have ended the game in Truscott's favor had he caught it.

Tucker, local pitcher, led the batting attack with five safeties in seven trips to the plate. One of his hits was good for four bases. Close on his heels was Ashford, second baseman, who received five hits in seven trips, one of them going for two bases. Moss set the pace for Truscott's hitting with four hits, one of them a double.

L. Duckworth, center fielder, scored 5 times for Crowell and patrolled the middle field like a veteran. Gotchie Mints made his debut with Crowell on third base and Graves was again on first and

KNOX COUNTY NINE AHEAD IN COTTON BELT

Crowell and Truscott To Meet in Third Game Sunday

Considerable change was brought about in the Cotton Belt Baseball League with the results Sunday. Truscott remained in the lead; Crowell moved into a services rendered by me in your behalf, I shall always treasure it was a great victory for efficiency in government and an endorsement of the policy pursued by your representative in supporting 100 per cent of the President's Recovery Program.

But the end is not yet and the splendid results thus far obtained under this Administration may be lost unless the lovers of good government press on in the run-off primary, ending August 22nd, to final victory. This I am sure we will do. We have a clear majority over our contesting opponent of 10,147 votes, which should not make us indifferent but should add to our will to work for victory in the final result.

The complete unofficial figures in the Congressman's race in the 13th District are as follows: McFarlane, 21,935; Gossett, 11,158; Woodruff, 9,933; Oneal, 9,385; Sartin, 7,678; Backus, 1,864; and McKea, 704.

As you perhaps know, and in spite of the bitter criticism of the opposition, I did not mention the name of any opponent. I trust that I will have the support of all those whose candidates were unsuccessful in the late primary. As my record shows I have always fought and voted on each and every measure coming before the Congress for what is best for the greater number of our people.

I trust that you, my friends, whose candidates were eliminated in the first primary will join with me in the promotion of honesty and efficiency in the public service and give me your active support in the run-off campaign.

Your friend, W. D. McFARLANE.

He was also looking after his farm interests in this section of the county while he was here. Funeral arrangements are incomplete. The body is at the Underwood Funeral Home of Vernon. Mr. Walker had lived at Mission since leaving Vernon in 1925. He moved to the Rayland community of Foard County from Hunt County in 1904 and remained there until moving to Vernon in 1919. Mr. Walker established one of the first potato curing plants in this section of the country on his Rayland farm. Since 1925 he has been engaged in citrus farming in the Rio Grande Valley.

He is survived by his wife, two daughters, Mrs. Joe Caravial of Mission, and Mrs. W. W. Barnes of Vernon, and two sons, Ransome and Grady Walker, both of Rayland.

We take this means of expressing our appreciation of the many deeds of kindness shown us by the people of the Thalia community. God bless all of them. S. N. Dozier and Family.

THANKS!

I wish to thank the voters of precinct No. 2 for the splendid vote given me in the first Democratic primary election held Saturday of last week.

I also wish to thank you for the co-operation given me in my past work as your commissioner and ask for your continued help and co-operation.

Sincerely, Your Commissioner,

W. A. Dunn

APPRECIATION

I want to thank the people of Foard County for the opportunity and privilege of serving you as your County and District Clerk for the past six years. I feel that I have been greatly honored, and due to the co-operation of everyone my tenure in office has been nothing but the most pleasant. I have exercised every effort to efficiently discharge the duties of the office and trust my services have been satisfactory to all. I sincerely hope that I have not, in any manner, betrayed the trust you so graciously bestowed in me as one of your public servants.

To my good friend "Stovy," your newly nominated Clerk, I extend my sincere congratulations. I wish him every success, and offer any assistance possible that he may call upon me to render.

A. G. MAGEE

McFARLANE THANKS VOTERS

Fellow Citizens of the 13th Congressional District: I wish to express to you my sincere appreciation for the splendid vote you gave me on July 25th.

In this campaign, we had six opponents who have actively campaigned since the first of the year in the fifteen counties in this district. As you know, because of the late adjournment of Congress, I have had about five weeks in which to cover the district; but, of the more than 60,000 votes cast, we received 21,305 votes and carried 11 of the 15 counties. I carried each and every voting box in my home county by a clear majority of 471 votes over all of my opponents. This endorsement of the services rendered by me in your behalf, I shall always treasure it was a great victory for efficiency in government and an endorsement of the policy pursued by your representative in supporting 100 per cent of the President's Recovery Program.

But the end is not yet and the splendid results thus far obtained under this Administration may be lost unless the lovers of good government press on in the run-off primary, ending August 22nd, to final victory. This I am sure we will do. We have a clear majority over our contesting opponent of 10,147 votes, which should not make us indifferent but should add to our will to work for victory in the final result.

Your friend, W. D. McFARLANE.

Spirit of Crusaders Inspires the Marines

Romance still inspires the youth of the nation to turn to the U. S. Marines when in search of adventure, according to Lt. Col. Thomas E. Thrasher Jr., who is well qualified to judge the motives of young men who apply for enlistment in the Marine Corps at the recruiting office, 257 South Spring St., Los Angeles, Calif.

"Most of our applicants are high-spirited young fellows, from 18 to 25 years of age, and they seem to believe that by donning a Marine Corps uniform they will immediately launch themselves on a career filled with story-book possibilities," says Colonel Thrasher. "If the life of the average marine is any criterion, these young fellows are not far wrong. We cannot promise them an immediate cruise to the South Seas or to Europe, but we can guarantee that a four-year enlistment will give them about as much novelty and variety as they could find in any military service anywhere."

The reason, Colonel Thrasher explains, lies in the widely diversified duties of marines. Besides serving aboard battleships and cruisers, they are in China, the Philippines, Guam, Hawaii, Cuba, Panama and elsewhere, in addition to locations along the Atlantic and Pacific seaboard.

Some of them become infantrymen, artillerymen, machine gunners, or signalmen, and individuals often change about from one unit to another. They even take to the saddle and become mounted troops when they are required to patrol wide stretches of territory.

Christian Science Services "Love" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist on Sunday, August 2. The Golden Text is: "He that loveth not knoweth not God; for God is love" (I John 4:8.) Among the citations which comprise the Lesson-Sermon is the following from the Bible: "O righteous Father, the world hath not known thee; but I have known thee, and these have known that thou hast sent me. And I have declared unto them thy name, and they declare it: that the love wherewith thou hast loved me may be in them, and I in them" (John 17:25, 26.) The Lesson-Sermon includes also the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "'God is Love.' More than this we cannot ask, higher we cannot look farther we cannot go" (page 6.)

Two Minute Sermon (By Thomas Hastwell) Be Thou Clean: The story is told in Luke that in the early days of Christ's ministry there came to him one day a man full of leprosy; who, seeing Jesus fell on his face and besought him, saying, Lord, if thou wilt, thou canst make me clean. And Christ put forth his hand and touched him, saying, I will; be thou clean. And immediately the leprosy departed from him. In those days leprosy was a most dreaded disease. Those who became afflicted with it died a slow and lingering death, ostracized from friends and loved ones as if all society save the society of those afflicted as they were. To be suddenly cured of such a loathsome disease was a miracle that might well bring unbounded joy to the person thus saved. It made the body whole and clean, it restored the individual to his home and friends, it lifted him from the depths of bitterest despair and opened for him a new life. It completely changed his whole living. Truly it was a blessed miracle. We are prone to think that the days of miracles are past and that no more are such wonders wrought, but I am convinced that such is not true. There are still miracles today, miracles as great and wonderful as the miracle of the healing of the leper. I have seen men steeped in sin, their self respect gone, ostracized from friends and family and associates, living the life of animals. I have seen them touched by the marvelous redemptive power of Christ and made new men. I have seen them restored to their family and friends and as-

Texas Legends and Folklore

By Olive M. Johnson, Director of Speech Arts North Texas State Teachers College

The Negro in Texas Folklore The Negro is generally alike, the South over; but the early Texas Negro has a culture belonging particularly to him. He has many songs—work songs, play songs, dance songs, and some that defy classification, apparently having been composed for the sheer joy of putting incongruous words together—but where the negro excels is in his ghost tales. The negro brings his children up on gruesome tales of "Raw Head" and "Bloody Bones." No wonder he is a timorous and fearful creature, in perpetual terror of "hants" and "graveyards."

One story states that two negroes who had stolen some sweet potatoes from their master decided that the graveyard would be the best place to divide the spoils without fear of molestation. They counted them, not by twos and threes but by "You take dis'n and I'll take dat'n." A passing negro heard the sound and crept up close

to listen. The curious monotone almost scared him out of his wits, and he tore off to his master's house with a strange tale: "Oh, my Gawd, de debble and de Lawd is down at de graveyard dividin' up de folks." The master went back with the negro to investigate. The two crept close and heard, "You take dis'n an' I'll take dat'n." Then came the concluding and devastating words, "You take dese las' two an' I'll take dem two on de outside when we goes out." The two listeners stood not upon the order of their going; to be strictly truthful, the master probably ran faster than the negro.

The negro's active imagination is never more clearly shown than in the creation of his remedies. Here is what is said to be an un-failing cure for rheumatism: "Take an empty whisky bottle about half full of vinegar and put in a handful of large red ants. Shake well and apply internally and externally."

"A MEXICAN STORY" (By Las Vegas Kim) A fellow tells me that he believes that if our Lord should return to the earth He would recognize no one but the Mexicans. I asked him why he thought that. He said they were the only people now that lived as they did two thousand years ago.

Just a few days ago the Mexican authorities wanted Ranger Pete Crawford to arrest and deport two American Mexicans, the Granado brothers, living across from Castleton, who had crossed to the Mexican side and whipped an old Mexican lady almost to death. Pete, who is a famous border ranger in this section, arrested the two Granado boys and took them to Sheriff Gourley at Fort Davis. The sheriff could not deport the Mexicans because they were American citizens. The Granado brothers admitted whipping the Mexican woman in Mexico because they

THOUGHTS OF SERIOUS MOMENTS To be glad of life because it gives you a chance to love and to work and play, and to look up at the stars; to be satisfied with your possessions, but not content with yourself until you have made the best of them—to despise nothing in the world except falsehood and meanness and to fear nothing except cowardice; to be governed by your admirations rather than your disgusts; to covet nothing that is your neighbor's except his kindness of heart and gentleness of manners; to think seldom of your enemies, often of your friends and every day of Christ; and to spend as much time as you can with body and soul and spirit in God's out-of-doors. These are little guide posts on the foot path to peace.—Henry Van Dyke.

SAFETY SLOGANS If you drink, don't drive. If you drive, don't drink. Better too much vigilance in driving than a life time of regret. Automobile accident deaths are increasing. It is every driver and pedestrian's responsibility. In the last 13 years 379,177 persons have been killed in automobile accidents. Since 1923 deaths from automobile accidents have doubled. At the same rate of increase which has been shown the past twelve years, 1948 will show 72,000 deaths in one year.

Interesting Facts The 1930 census showed that there were 11,891,143 negroes in the United States. There were in 1930, according to the United States Census Bureau, 1,913,196 persons in the United States over 75 years old. There is one person in civil penal institutions, jails and penitentiaries, for each 42.9 persons over 15 years old in the United States. Income tax payers of Massachusetts, New York and Pennsylvania pay as much income taxes as the income tax payers of the other 45 states. Over one-fourth of the income tax collections collected in this country come from New York state.

complete change of station and duties. "Recruits often ask us where they will go upon completion of training, or what place will be their regular station," Colonel Thrasher says. "We cannot answer that question because we never know. The fact that marines go everywhere and are not permanently assigned to one definite station is one of the chief attractions of our service."

Closet Better Than Nails for Clothes, Says Demonstrator

As storage for clothing a well-equipped three by five-foot closet is quite an improvement over nails in the corner of the room, according to Mrs. Arthur Sandlin, wardrobe demonstrator for the Vivian Home Demonstration Club. The new closet was built at a total cost of 80c.

It was built of scrap lumber and wall board and equipped with a rod, shoe and hat racks, six shelves and hangers. All of these were painted white and the walls papered to match the room. A chiffoir used for hanging the boys' suits in keeps the closet from being crowded.

Builds Small Closet "After completing my work as first year wardrobe demonstrator I found that my six by four-foot closet made them would not accommodate the six members of our family. So provisions were made to build a small closet in the boys' bedroom," says Miss Bernita Fish, wardrobe demonstrator for the Vivian Home Demonstration Club. A closet two by three feet was built in and equipped with a broom stick for a rod, a shelf, tie rack for the other closet and finished with paint and ceiling paper already on hand. This nicely finished closet is sufficient in size for its purpose cost 29 cents.

Miss Fish reports having made 24 garments during her demonstration, including three silk and fifteen cotton dresses. She says that her demonstration has been very interesting and beneficial.

Wardrobe Budget Careful planning and wise spending is indicated by the wardrobe budget of Mrs. Luther Marlow, wardrobe demonstrator for the Riverside Home Demonstration Club. Her plan as made at the beginning of the wardrobe demonstration year called for an expenditure of \$100 for the family clothing. Records kept during the year show that a total of \$101.51 was actually spent, this including several articles bought the day before the demonstration ended and four dresses as yet not made.

MOTHER! Here are Facts!

To guide your purchase of a Refrigerator!

DON'T CHOOSE BLINDLY

FOR HEALTH—Your refrigerator *must* maintain safety food temperatures below 50° all the time. Before you buy, be sure it will do this in the hot hours of the summer time, too.

FOR CONVENIENCE—Your refrigerator *must* be able to freeze ice quickly—*must* have a high degree of usefulness. Before you buy, be sure it will produce fresh ice during the hot hours of the day.

FOR ECONOMY—Your refrigerator *must* maintain the above performance at low over-all cost. Before you buy, be sure.

BUY

AN ELECTRIC REFRIGERATOR

• If you buy a refrigerator that cannot provide satisfactory, economical performance, *all the time*, you are wasting your money. It is inconvenient to own a refrigerator that cannot freeze desserts or plenty of fresh ice quickly during the hot hours of the day. It is wasteful to own one that has a high initial cost, though little to operate, if it cannot provide satisfactory performance, *all the time . . . under all conditions.*

Remember this when you buy. All refrigerators cannot provide all three of these basic requirements. Tests prove this to be true by actual use in the home. So don't buy on claims alone. Ask for and be sure you get convincing evidence of value. Only then can you be certain you are getting your money's worth. Choose carefully and you will choose a modern electric refrigerator.

City Pays Off Old Interest Debt at Rate of 40c on \$1

Old bonds against the City of Crowell have been refunded by the Dunne-Israel Company of Wichita, Kansas, according to J. T. Billington, city secretary.

Old interest debts amounting to approximately \$30,000 were paid by the city at a rate of about forty cents on the dollar and the rest of the loss was taken by the bonding company. This transaction, on which the local City Council has been working over a year, brings the city's indebtedness up to date, with the exception of \$176 worth of interest coupons which have not come in. The whereabouts of about \$90 worth of these bonds is not known.

FHA LOANS IN FOARD COUNTY ARE \$4,351.75

Latest figures show that 14 loans amounting to \$4,351.75 have been made in Foard County under the Modernization Credit Plan or Title I of the National Housing Act, according to a statement today by P. S. Luttrell, Associate Director of the Federal Housing Administration.

The Northwest District of Texas with headquarters in Fort Worth comprises 113 counties of north and west Texas. During the 20 months operation of the Federal Housing Administration, there has been a total of 9,610 loans amounting to \$3,241,505.08 made under Title I throughout this district, states Luttrell.

Title I or Modernization Credit Loans are made by banks and other financial institutions approved by the Federal Housing Administration; the loans are made for repairing, altering, modernizing and the improvement of real property. The obligation is repaid in small, equal monthly payments over a period of years not to exceed five. This particular section of the National Housing Act expired on April 1, 1936, but because of the demand for this type of loan, and the great benefits to property owners, building material dealers, and labor in the building trades, the Modernization Credit Plan was extended to April 1, 1937.

"Altogether, many thousands of business firms, and millions of wage earners, have profited," says Mr. Luttrell. "The recovery evident during the past year and a half in practically all lines of industry related to housing indicates that the Modernization Credit Plan of the Federal Housing Administration has acted as a substantial force."

"The impetus gained as a result of this emergency measure is being enlarged and carried forward by increased home-building activity, which was given a start and has been greatly accelerated by the timely inception of the Insured Mortgage System or Title II of the Federal Housing Administration. New residential building started during the first six months of 1936 is double that of the first six months of 1935, based on building permits issued in the district."

"This revival of home-construction has resulted in the rapid re-employment of building-trades workers, to such an extent that in many areas there are today no idle skilled craftsmen available," states the FHA official.

"The widespread effect of the National Housing Act may best be judged from the fact that loans have been made in all except four of the one hundred and thirteen counties in this district," says Luttrell. "Information on the FHA plan of financing repairs, alterations and modernization of homes as well as for the construction of new homes may be had at any lumber yard, building material dealer, approved lending agency or by writing direct to the Federal Housing Administration office in Fort Worth, Texas."

NYA PROJECT IS FILED FOR THIS COUNTY

H. A. Ziegler has returned from Austin where he attended a meeting of all NYA district representatives which was held for a discussion of the new program. The NYA work program is to be continued through the fiscal year which ends June 30, 1937, and will start within the next few days.

Lyndon B. Johnson, State Director of the National Youth Administration, has given this district an allotment of 700 youths and a monthly allotment of \$6,293.00 to be expended in giving jobs to youths between the ages of 18 and 25 who are of a relief status.

The procedure of operations will be practically the same as in the past with all of the 14 counties in District 12 participating. There is a change in the manner of setting up projects calling for clerical work in that instead of having a separate project for each governmental unit, such as the County Agricultural Agent, Home Demonstration Agent, County Welfare Agency, etc., there will be one county-wide project sponsored by the County which will supply clerical help for each of these agencies. This will make for greater efficiency in the control and prosecution of the work. Judge Vance Swain has filed application for a project for Foard County.

The Wichita Falls District is fifth in the number now working under the old program and is exceeded only by the four metropolitan districts, viz.: Dallas, Fort Worth, Houston and San Antonio.

Rules of eligibility are the same as in the past except that youths who have not heretofore been assigned to work projects, must have reached the age of 18 while formerly the minimum age requirement was 16.

In addition to the county-wide clerical projects to be operated there will be ten county-wide projects for the construction and beautification of roadside parks on State Highways. This work is being sponsored by the State Highway Department.
