4.82 INCHES RAIN BREAKS LONG DROUGHT

WATER SUPPLY OBTAINED FOR MANY MONTHS

City Lake Nearing Its Capacity; 10 1/2 Inches Rain for 1936

Soaking, slow rains fell almost continuously for 24 hours in Crowell and Foard County, to break definitely a drought extended over several months. A total of 4.82 inches rainfall has been registered at the Crowell State Bank since Tuesday afternoon.

The precipitation began falling about mid-afternoon Tuesday and continued until this morning. The rains falling steadily, as is usual of fall rains, was not accompanied with wind, thunder and lightning as many of the rains in other parts of the state have been. The rainfall measured about the same throughout the county.

Water Supply
A water supply sufficient for the City of Crowell for many months was caught in the lake from the rains this week. The water mark was nearing an all-time high Wednesday afternoon, and water was still pouring into the lake from Raggedy Creek and other small creeks which empty into it.

The water, however, was not nearing the spillway which was recently raised several feet. The (Continued on Page Five)

Start Razing Old Grammar School

New Building to Be Started at Early Date; WPA to Furnish All Materials And Common Labor; Vote Saturday

Work was begun Monday of this week by 35 WPA employees in the tearing down of the old grammar school building which is to be replaced by a new, modern building.

About seven or eight weeks will be necessary for the razing of the building, according to estimates. The usable materials in the old building will be used in the construction of the new building. The materials used and the purposes they will be used for will be such that the quality of new building will not be lessened in the least. Bricks and flooring of the old building will be used in the new building.

Begin Foundation Soon
Work on the laying of the foundation will begin as soon as laborers are obtained for that purpose. Foundation work will begin before the tearing down of the old building is completed.

The new building will contain 20 rooms. The one-story, fire-proof structure is to be modern in every way and more than meets state requirements regarding lighting and heating equipment. There will be no auditorium in the new building because it will be located near the high school auditorium. When an auditorium is needed, the grammar school pupils will use the high school auditorium. Superintendent I. T. Graves said. A large study hall will be included in the arrangement of the grammar school.

The grammar school to be built (Continued on Page Five)

PREPARE TO LAY FOOTING FOR BRIDGES

Labor Force Reduced By Transfer of Laborers

Preparations were begun this week by between 30 and 40 WPA laborers for laying foundations for bridges and culverts on the strip of highway from Crowell to the Foard-Knox county line.

Excavations for the footing of a bridge over Beaver Creek were started Wednesday. The Beaver bridge will be the largest to be constructed on the more than 11 miles of highway. The new road built from Crowell will meet the highway in Knox County at the North Wichita River.

A strip of new highway in Knox County was completed recently, the work having been contracted by the state highway department. The crew which has been working on the highway development in Foard County has been cut in about half by the transfer of more than 30 Works Progress Administration laborers to other government projects in the county. The highway project now has about 35 working compared with about 65 or 70 prior to their transfer.

Work was postponed temporarily Tuesday at noon because of weather conditions. There will be no more work on the highway until the road beds become dry enough to permit construction, Tom Seale, state highway engineer in charge, said.

The project is under the National (Continued on Page Four)

Tax Roll for City of Crowell Completed; Increase of \$4,630.00

The Crowell City tax roll has been completed with the valuations amounting to \$868,150, according to J. T. Billington, secretary of the City Council.

The roll was approved by the Council at its regular monthly meeting at the City Hall Wednesday night of this week. The valuations of the city this year show an increase of \$4,630 over the last year's total. This is an increase of slightly more than one-half of one per cent.

The taxes assessed on this year's valuations are due before February 1, 1937. Payments of taxes are already being accepted by the city secretary.

Bond Issue for Crowell Independent School District to Be Voted on Sept. 19

An election on a bond issue of \$12,000 to be used in the payment of skilled labor in the construction of a new grammar school building in Crowell will be held Saturday, September 19.

Tax payers of the Crowell Independent School District will be eligible to vote in the election, provided they meet the regular voting requirements of the Texas election laws.

The money raised from the bonds will be used to furnish skilled labor necessary in the new building's construction. A government grant will furnish the necessary materials and the common labor.

Board Meeting
Charlie Campbell was selected as presiding judge of the election at a called meeting of the board of trustees of this district Monday afternoon in the office of the jus-

Wildcats to Tackle Matadors Friday

Coach Graves to Send Stronger Eleven Against Heavier Matador String Than Bowed to Floydada; Afternoon Match

Crowell High School Wildcats venture to Matador Friday match their wit and weight with the Matador Matadors. The game will be played in the afternoon.

Again out-weighted by a dozen pounds to the man, the Crowell youngsters will send an improved squad and one more experienced by one game into the gridiron tomorrow.

The Matadors will average about 150 pounds each, according to Coach R. V. Terrell, whereas the Wildcats will average about 120 pounds. The line average will be decreased to a slightly smaller figure if the Don Reeder at center is still able to break into the line-up. Reeder was out of the first game because of an infected right knee; however, he may be in condition to see service in at least a part of the game this week. He is a regular first string center, and his loss is a difficult one to fill by the Wildcats.

The Eddy at left end is definitely the line-up for the Matador because of an injured right knee. He will be back in line-up soon, however. There is some doubt too, as to whether the Thompson tackle, Crowell's only claim to experience will be in condition for the tilt.

Works for the Gravesmen (Continued on Page Five)

CLASSES PICK OFFICERS FOR 1936-37 TERM

Seniors Elect Glen Don Reeder President of Class of 1937

The classes of Crowell High School selected officers for the 1936-37 term at meetings held Tuesday of last week.

Senior Class
The senior class elected Glen Don Reeder as president; Joe Eddy Jr., vice president; Edith Hutcherson, secretary-treasurer; and Myrtle McKown, reporter. The class selected Henry Black as sponsor and Mrs. J. P. Reeder and Miss Frankie Kirkpatrick as class mothers.

Junior Class
James Everett Long was chosen president of the junior class and will be assisted by Junior Nelson, vice president; Juanita Brown, secretary; Billie Brown, treasurer; and Camille Graves, reporter. Grady Graves is sponsor of the class and Mrs. Herbert Brown and Mrs. Herbert Edwards are the class mothers. (Continued on Last Page)

Cobb and Teague Grocery Announce Opening Saturday

The formal opening of Cobb & Teague Grocery will be held Saturday, September 19, according to Clyde Cobb, manager. The store is located on the northwest corner of the square in the rock building belonging to Grady Thacker.

Henry Teague and Clyde Cobb, both of Crowell, are partners in the business. Stock for the store arrived this week and the managers have announced that it will be open for business Saturday.

Mr. Cobb has been connected with the grocery business for about 16 years in Crowell, Paducah and Truscott. For the last year he has been manager of the Our-Way Grocery which was consolidated recently with the Fox Brothers Store.

Mr. Teague has also had experience in the grocery business, having formerly been employed by Fox Brothers in the Our-Way Grocery.

Representatives of Foard County Go To District Soil Conservation Session Held in Wichita Falls Friday, Saturday

John Nagy, Foard County farm agent, and Miss Myrna Holman, home demonstration agent, attended the district meeting in Wichita Falls Saturday held for the purpose of further acquainting the farmers of 17 counties with the government soil conservation plan.

Farmers of Foard County who attended were E. V. Halbert of Crowell, Tom Barsey of Crowell, and Henry L. Ayers of Mangrove. Mrs. Dave Sollis of Magbelle, Mrs. Blake McDaniel of Crowell, Miss Thelma Beatty of Crowell, and Mrs. M. F. Crowell of West Side, represented their home demonstration district at the meeting.

Dr. R. H. Montgomery of Washington, former professor of economics at the University of Texas, was the chief speaker of Saturday's program and urged conservation of soil as a means of securing a decent living and of assuring the next generation a means of income.

J. H. Allison, vice president of the Times Publishing Company, extended the welcome. Short talks were given concerning the Texas A. & M. extension work by District Agents B. F. Vance and Miss Bessie Lee Sikes.

The meeting closed Saturday with sectional meetings under the direction of Mrs. Minnie Fisher Cunningham, editor of Extension Service News; W. H. Darrow, publicity director of the AAA; and R. H. Bush, organization specialist, for the extension service.

Visitors at the meeting were served an old-fashioned open range meal by members of the Wichita Falls Chuck Wagon Gang. The two-day session was opened officially Friday morning with a speech by Mayor W. E. Fitzgerald of Wichita Falls. The meeting in Wichita Falls is a series of such meetings being held throughout the state. Friday's program was devoted chiefly to representatives from civic organizations of the cities and towns of this district.

To Chillicothe

E. E. SMITH

ELI SMITH SENT TO CHILICOTHE BY UTILITY CO.

To Leave Friday; Jack Seale of Quanah to Be Sent Here

E. E. Smith, local manager of the West Texas Utilities Company in Crowell, will leave Friday to become local manager of the company in Chillicothe.

Mr. Smith came to Crowell November 18, 1927, to become local manager of the West Texas Utilities Company, having been transferred here from Ballinger nearly nine years ago. He was first employed by the company June 14, 1925, immediately after his graduation from Texas Christian University at Fort Worth. He was employed in Ballinger in the merchandise sales department.

He will take the place of W. R. Jones, local manager of the Chillicothe branch of the West Texas Utilities Company, who has been transferred to Quanah.

Jack Seale, formerly district store keeper of the West Texas Utilities at Quanah, will arrive Friday to take charge of the Crowell division.

Mrs. Smith and children will move to Chillicothe as soon as Mr. Smith can make arrangements for a house.

Mr. Smith has been active in all civic organizations and movements, having been president of the Rotary Club from July, 1931, to July, 1932.

Bids Accepted for Beaver School House

Bids are now being accepted by the board of trustees of the Crowell Independent School District for the Beaver school house, according to a notice made public this week.

The school house is not being used this year and will not be needed any more as the pupils of the Beaver School District transferred to the Crowell schools this year and the voters of the two districts recently voted to consolidate the districts.

Bids for the building will be accepted by the board until October 5, 1936. The board has reserved the right to reject "any and all bids."

Rev. Fitzgerald is Granted Six Weeks' Leave of Absence

The acceptance of the resignation of Rev. W. B. Fitzgerald as pastor of the First Baptist Church of Crowell was rescinded by the church Sunday and he was granted a six weeks' vacation with pay.

Contrary to statements in last week's Foard County News, he will not move from Crowell, but will return after about six weeks and resume his duties as pastor of the Baptist Church, he said this week.

Rev. and Mrs. Fitzgerald will leave soon on their vacation which will probably be spent in California. Their children will remain in Crowell and attend school here. Because of the condition of his health, Rev. Fitzgerald was forced to retire from his work for a short time.

Named a "Great"

DICK TODD

TODD HAILED AS STAR IN LATEST FOOTBALL BOOK

Forecast Is He Is to Be One of Greatest in Southwest

Dick Todd, Crowell High School's football immortal, has already received nationwide attention among inter-collegiate football circles before playing a game of varsity football.

Hailed as a positive star of 1936, he is given a rating among the highest in the prospects for this year's sophomores by the latest edition of the "Football Annual." He is predicted to be the spark-plug of the Texas Agricultural and Mechanical College eleven and is hoped to be one of the Southwest's greatest productions.

Dick Todd is a former football star of Crowell High School, finishing here in 1934. During his last year of high school football he broke all scoring records, totaling up more than 300 points, more than most teams get in a season. During that year he led the Crowell Wildcats to a regional championship.

The football annual gave the following prediction concerning Dick Todd: "Now harken to a tip on a (Continued on Page Five)

Home Demonstration Agent Attends Meet At Seymour Tuesday

Miss Myrna Holman, Foard County home demonstration agent, attended a conference for county agents held at Seymour Tuesday.

Miss Bessie Lee Sikes, district home demonstration agent, and Mrs. Dora Barnes, clothing specialist from the extension service at Texas A. & M. at Bryan, were in charge of the meeting.

Home demonstration agents from Haskell, Knox, Wilbarger, Archer, Foard, Baylor, Hardeman and Clay counties attended the meeting.

The purpose of the meeting was to make clothing plans for 1937.

Meeting to Be Here
Home demonstration agents from Cottle, Hardeman and Foard counties will meet in Crowell Tuesday of next week with Miss Lola Blair, nutrition specialist from the extension service.

A conference will be held in Miss Holman's office Tuesday morning, and in the afternoon they will meet with one of the home demonstration club women to make long-time plans for a food supply.

Thalia Baptists Will Start Sunday School Revival September 20

A Sunday School revival will start at the Thalia Baptist Church beginning Sunday, Sept. 20, and will be continued until Sunday, Sept. 27, according to an announcement made by the pastor, Rev. C. R. Holt.

Rev. John M. Riddle, district missionary, will be the leader of the revival.

Big Politicians Tip Scales at 190 Each

Three of Foard County's officers-elect in a little private argument about which was the biggest politician decided Saturday of last week to make a conclusive test by weighing.

Claude Callaway, judge-elect; Amos Lilly, sheriff-elect; and Foster Davis, attorney-elect, each took his turn on the scales and each brought the arrow to the 190 pound mark.

All have agreed by requests from constituents to weigh again at a time to be designated several months after they take office with the understanding that the heaviest at that time is working the least.

BIRTHS

Little Things

Little things: Life and death, prosperity and ruin, happiness and misery, hang upon little things they are like the linch-pin to the wheel, on which depends the safety of the vehicle; they are like the rudder to the vast mass which guides; like the slender nerves the hollow muscles.

Free Book From McCleary Clinic

Any one afflicted with hemorrhoids, fistula, rectal ills of any kind, or colon troubles, would do well to write the McCleary Clinic, E-2509 Elms Boulevard, Excelsior Springs, Missouri, for a copy of a book published by that institution. The book is full of valuable information—explains the nature of rectal ailments of all kinds, cautions against possibly harmful procedures, and offers suggestions helpful to any one suffering from these common ills.

The McCleary Clinic is the largest institution of its kind in the world, specializing exclusively in rectal and colon cases. Its famous mild treatment is known to thousands of former patients, who have come to it from all over the States, Canada, and many foreign lands. A written request will bring you a free copy of the book, in plain wrapper, without placing you under any obligation. 14p

Miss Tommie Grimsley left Tuesday for Denton to enter North Texas State Teachers' College.

Miss Lucy Jones left Sunday for Abilene to enter a nurses' training school.

Mr. and Mrs. Fred Dennis of Crowell visited Mr. and Mrs. Raymond Grimm here Sunday.

M. C. Adkins and Earnest Earthen were visitors in Bartlett the first of this week.

Royce Cato and Roy Shultz were visitors in Wichita Falls Sunday.

Floyd French of this place and Miss Pauline Rogers of Vernon were united in marriage in Vernon Tuesday afternoon at 5 o'clock. Rev. H. H. Hargrove, Baptist pastor, performed the ceremony. Mrs. French is a daughter of Mrs. Virgil Brashears of Vernon and Mr. French is a son of Mr. and Mrs. Joe French of this place. They will make their home on a farm near Thalia.

The small son of Mr. and Mrs. Minor Starr of Elmonte, Calif., underwent a tonsil operation in a Vernon hospital Thursday. Mrs. Starr is visiting her parents, Mr. and Mrs. G. A. Neill, here.

Mrs. Lee Shultz has returned home from a Vernon hospital where she received medical treatment a few days last week.

RIVERSIDE (By Bonnie Schroeder)

Mr. Herman Goodpasture and sons of Levelland spent Friday night with her sister, Mrs. Harry Simmonds, and family.

Arthur E. Dunson and family left Thursday to make their home near Godley in Johnson County. Frank McLarty of Vernon and Shirley McLarty moved their household goods.

Mrs. Juanita Houston and children of Kemp City and Mrs. Allie Huntley spent from Monday until Wednesday with Mrs. Frank Butler of Thalia.

Douglas Adkins left Tuesday for Decatur Baptist College. He was accompanied by his parents, Mr. and Mrs. Cap Adkins, and children. They visited Wilma Jean Huntley of Kemp City in a Wichita Falls hospital while en route to Decatur. Wilma Jean underwent an operation for the removal of a rib recently.

Jim Farrar and family visited at Fargo Sunday.

Mr. and Mrs. Bob Simmonds and children visited her parents, Mr. and Mrs. Bert Spradlin, of Lawton, Okla., Thursday. They were accompanied by Mrs. H. G. Simmonds and Mrs. R. G. Whitten, who visited Mr. and Mrs. O. Z. Nesbit there.

Dr. and Mrs. H. Schindler of Crowell and his sister, Mrs. Josephine Dunker, of Perryville, Mo., visited Mr. and Mrs. John S. Ray Thursday night.

Mr. and Mrs. Roy Smith of Oklahoma City spent from Wednesday until Sunday with her sister, Mrs. Ben Bradford, and family.

Mr. and Mrs. Cap Adkins and children, Houston, James and Mary, were supper guests of Mr. and Mrs. Gene Spear of Archer City Tuesday.

Garland Baker, who has been very ill, is improved at this writing.

Mr. and Mrs. H. B. Miller of Harlingen and Mrs. Walter Carr of

Reduce Boll Weevils By Plowing Cotton Up After Harvest

College Station.—To reduce the number of boll weevils in the cotton fields next year every farmer should plow up all cotton growth as soon as cotton picking is complete," says R. R. Reppert, Extension entomologist.

"Cotton boll weevils feed only on green cotton and develop only in green cotton squares or bolls. Killing cotton growth early thus removes the food of the weevil. If the growth is entirely killed as early as two weeks before frosts, practically all weevils will starve before going into winter quarters.

"Absolutely lack of food for only a short period during the active season, that is previous to killing frosts, will cause death from starvation. If allowed to reach the dormant state, weevils can live several months without food, and it is in these over-wintering weevils that breed and supply the next season's hordes," he added.

"A total destruction of the plant substance is not necessary nor desirable," Reppert warned. "All our soils need this organic material returned for continued profitable production. It is enough in the matter of weevil control that the plant merely be killed.

"Often a plow set shallow to clip the tap roots just below the surface of the soil is a successful practice. Merely chopping or clipping the stalks will not answer, because the stumps will throw out new growth ideal for weevil food."

Several from this community attended the funeral of E. I. Edwards of Rayland Tuesday.

Mr. and Mrs. Stan Westbrook of Truseott spent Labor Day with her brother, J. H. Ayers, and family.

School will start Monday, September 21.

Mr. and Mrs. J. Bailey Rennels visited her sister, Mrs. E. L. Derr, and family of Chillicothe Sunday.

Mr. and Mrs. Ransom Walker spent Sunday afternoon with friends in Vernon.

Mr. and Mrs. Earl Kennedy and daughter, Miss Fern, Mr. and Mrs. Eugene Kennedy and three sons and Mrs. Aline Guy of Chillicothe spent Labor Day with Mrs. Earl Kennedy's brother, J. H. Ayers, and family.

Mr. and Mrs. Earl Casey of Electra visited Mr. and Mrs. John Rennels Sunday.

Hearrell Seales visited in Wichita Falls Monday.

Mr. and Mrs. Jimmie Rogers and Louis Elmer, Ruby and Hilda Neimayer of Hinds spent from Thursday until Monday with Mr. and Mrs. Herman Gloyne. They left Monday for Lockney to visit C. A. Gloyne and family.

Miss Rebecca Shultz of Rayland spent Sunday night with Miss Jerlene Key.

Jake Smalling and family of Thalia visited Ottis Dunson and family Sunday.

Elton Key visited B. P. Abston Jr. of Rayland Sunday afternoon.

Elton Key attended a B. Y. P. U. social given by Annie Jo Peasley of Rayland Friday night.

Mrs. Tom Abston and children of Thalia spent Friday with Mrs. Hayes Abston.

GAMBLEVILLE (By Opal Carroll)

C. W. Carroll, who underwent an appendicitis operation Wednesday in the Crowell hospital, is improving some at this writing.

Little Gerald D. Solomon of Vivian is spending this week with his uncle and aunt, Mr. and Mrs. Roy Abston.

Mr. and Mrs. Olen Davis and children of Crowell spent Sunday with Mr. and Mrs. J. A. Garrett and family.

Mr. and Mrs. Roland Whately and son of Decatur spent several

NO BAD BOYS

"There are no bad boys; just different varieties of good ones," believes Floyd Starr who for 20 years has been caring for boys that everyone is thought bad. "The badness is on top. I must admit that it forms a pretty thick crust sometimes. But when I dig down to the real boy, I find something clean and sweet and good. Sometimes I fail. But that is because I have not been able to read that real boy."—From an editorial in the Rotarian Magazine.

Miserable with backache? WHEN kidneys function badly and you suffer a nagging backache, with dizziness, burning, scanty or too frequent urination and getting up at night, when you feel tired, nervous, all upset... use Doan's Pills. Doan's are especially for poorly working kidneys. Millions of boxes are used every year. They are recommended the country over. Ask your neighbor! DOAN'S PILLS

Any Farm Anywhere CAN ENJOY MAYTAG HELPFULNESS M. S. HENRY & CO. For twenty-two years, farm homes have enjoyed the convenience of Maytag washings. Maytag was the first self-powered washer for homes without electricity. But there are other reasons why Maytag is the preferred farm washer. Its square, cast-aluminum tub is roomier, and more convenient—the Gyrotator water action washes faster, cleaner, more gently. The Roller Water Remover has an enclosed, self-reversing drain. Investigate the Maytag, its reasonable cost and easy payment plan. Free demonstrations in city or country. THE MAYTAG GASOLINE MULTI-MOTOR is a simple, dependable, modern engine built for the woman to operate. Electric model Maytags for homes with electricity. Crowell, Texas, September 17, 1935

Boast not thyself of tomorrow for thou knowest not what a day may bring forth.—Psalm 27:1.

There are many people who go through life acquiring but few of the disciplining and cultural habits of life. They shun the things they do not like. The result is they "just grow up." What we are largely what we make of ourselves.

Practically every nation in the world is in the midst of a depression, yet notwithstanding this fact, in every one of them the largest program of preparedness for war, in peace time history, is under way.

Since 1929 some 7,000 factories have moved out of New York City. The move provided better living conditions, lower rents and lower expenses.

A drawback that a good many towns have is that there are too many people in the town who don't mind cheering the home team

when it is winning, but are the first and worst crabbars if it runs into a streak of bad luck. There's a few that won't cheer when everything's going good.

Of the 910,000 distressed home owners who have borrowed a total of \$3,600,000,000 from the Home Owners Loan Corporation, less than one-eighth of one per cent have had their loans foreclosed.

Since the attention and efforts of cities have been turned to purifying their water supply the death rate from typhoid has been reduced from 25 to 100,000 persons, to four to the 100,000 population.

Twenty-eight state legislatures have enacted sales tax laws during the depression years and seven of the twenty-eight have dropped this form of taxation.

Som one gives us two rules for living: "Do not worry and eat three square meals a day." Hard to do in depression years.

The first British salute to the U. S. flag was made by Capt. Isaac Coffin, of the man-of-war Alligator, May 2, 1791.

TRAINING BY DOING

The majority of the students of our democratic world must be brought to thinking through doing. Dewey has defined thinking as "the accurate and deliberate instituting of connections between what is done and its consequences."

Road Work—

(Continued from Page One)

al Recovery Work Relief program. The federal government bears 100 per cent of the expenses outside of the engineering and equipment, which is to be furnished by the Texas Highway Department.

The Federal expenses are divided, the WPA bearing 70 per cent of the expenses and the PWA furnishing 30 per cent. The work which began January 13 includes 11,695 miles with a road bed of 34 feet in width. The right-of-way is 100 feet wide.

The road, when complete, will shorten the distance to the Knox County line by about two miles. Many of the curves and turns will be eliminated in the new layout.

TRUSCOTT NINE TAKES MOUNDS TO CLEANING

"Smokey Joe" Whiffs 5 Enemy Batsmen Last Sunday

Truscott, in the first game of a three-game final series, ran roughshod over Medicine Mound on the Knox County diamond Sunday to take the lead in the modified Shaughnessy play-off plan used by the Cotton Belt baseball league.

In no uncertain manner Tutor Clyde Myers' lads started the game with the determination to win and the club was never in danger after the first lead they took in the initial inning. Playing head-up defensive baseball for nine innings and at the same time driving the ball continuously for safe hits, many of them going for extra bases, the Truscott nine took the game 13 to 4, playing the last inning as hard as the first.

Truscott's fielding was well above the average for the league and at times was sensational. On the first ball pitched Waldrip, Mounds right fielder and former leader, lifted a long fly bearing the label of a sure home run, far over Bates' head only to have the four-bagger snatched from him by the rookie right fielder with a one handed catch as he fell after running into a ditch. Bates ran far and fast to kill what might have been a long-winded rally in the first inning. Moss made a nice catch of a fly in center field to retire the next man.

To make the first inning more impressive, L. Abbott, Truscott's lead-off man, greeted young Barlow with a long triple to right center and scored after the catch of A. Myers' long fly to left field. After the first inning the Mounds' determination and attack was left starchy.

"Smokey Joe" Dorsey of Red Springs pitched jam-up baseball throughout the entire fray suffering only two bad innings. While allowing only 8 hits, he whiffed 9 of the enemy batsmen. Barlow, at the same time, struck out 7 Truscott timbermen, but was hit often and hard to allow 12 hits and 10 runs in 7 innings.

Canifex, Medicine Mound catcher, caused Dorsey more trouble than any of the other batters on the Hardeman County nine. He pocketed 2 hits, one of them a home run with one man aboard to net half of the Mounds' tallies.

With the exception of a couple of fast running catches by Bates and air-tight pitching by Dorsey, Moss was the sensation of the day journeying all over the outfield to snag threateningly long fly-balls off enemy timber and deliver the hits in the pinches.

With the bases loaded once he drove a single over the infield to score 2 runs and then pulled up at second on the throw-in. Later he pounded the pellet over Brooks' head, Medicine Mound's left fielder, for a four-bagger with 2 runners ahead of him. He netted 3 hits to carry off undisputed batting honors of the day.

Wiley Ellis of Crowell at the plate, Joe Bailey of Medicine Mound on first and second and Mickey Jones of Truscott at third turned in creditable performances of officiating at the game.

Box Score table showing runs, hits, errors, and fielding percentages for Truscott and Medicine Mound players.

Summary: Runs—Maddox, Currin, Sossaman, Canifex, L. Abbott 2, A. Myers 3, O. Myers, Moss 3, W. Myers 2, Pogue, Dorsey, Home runs—Moss, Canifex, Strain bases—Pogue, Errors—Maddox, Currin, Hutchins, O. Myers, Moss, Strike outs—Dorsey 9, Barlow 7, Bases on balls—Dorsey 2, Barlow 1. Hit by pitcher—Dorsey (Maddox), Barlow (A. Myers) Winning pitcher—Dorsey, losing pitcher—Barlow.

Sun Hatches Snake Eggs Not all snakes lay eggs. A large number of species bring forth their young alive. Some snakes, such as rock pythons, hatch their eggs with the heat of their own bodies, but the majority of reptiles leave that tedious task to the sun.

First American Flag The first American flag had a Union Jack—the English ensign—in the upper left hand corner with the present 13 stripes of red and white.

Wildcats Lose—

(Continued from Page One)

ell fullback, attempted a pass on his own 35 yard line and it was snatched by Allen, enemy quarterback, who raced the pigskin back to Crowell's 15 yard marker.

Lightfoot, at left half for Coach Odell Winters', eleven, plunged through the line for two yards. Baker, at fullback, took his turn and managed for two more through the line to take the ball to the 11 yard stripe. Another plunge brought no gain, but the next one by Allen carried the ball into pay territory. Allen also converted to give the visitors a lead of 7-0 which was never changed throughout the remainder of the game.

The first quarter was quiet with the exception of one threat by Floydada. The opponents took a punt on their own 40 yard line and without losing the ball took it to Crowell's 14 yard line before Lankford intercepted Lightfoot's pass and returned it to Crowell's 39 yard marker.

Play tightened in the beginning of the third quarter as Fitzgerald booted the ball on the kickoff to Smith on the Floydada 42 yard stripe. On the first play the Wildcat scrappers went through the Floydada line to smear Lightfoot for a 6 yard loss. He made two unsuccessful attempts to pass and then punted. Crowell's safety fumbled and Floydada recovered on Crowell's 25 yard line. The ball changed hands, however, after Floydada failed to take it past the 18 yard mark.

A threatened drive by the Felines was killed by a 15 yard penalty which took the starch out of the threat. Later in the quarter Rasberry, to live up to a reputation for punting built up in a scrimmage with Vernon two weeks ago, booted the pigskin out of bounds on Floydada's 1 or 2 yard marker from about the middle of the field.

With the exception of an attempt to kick a field goal, the final quarter was without any great sensation, the Wildcats managing to hold their own against their more experienced and beefier opponents.

In the opening of the final frame Floydada took the ball within their own 20 yard line and carried it to midfield before they were forced to punt. Crowell's safety again fumbled and Floydada recovered on the Wildcat's 28 stripe, after which they worked the ball close enough for their attempt for a field goal.

A brilliant defensive game was turned in by Lankford at quarterback who consistently broke through the line to smear Floydada attempts in their making and interfering with enemy aerial attacks.

Rasberry at fullback accepted the responsibility of most of the leather logging and passing. He also punted Crowell out of several tight spots and Floydada into them.

Outstanding in their performances in a defensive way were William Simmons on end and Ira Klepper at tackle. Both caused no end of worry to Coach Winters' lads who failed to go over Klepper's side of the line and around Simmons' end in many attempts.

Three of the visiting backfield had had seasoning prior to this year. Baker at fullback, flashy ball carrier, and Allen at quarter both were squadmen and lettermen last year. Bates McClung, blocking half, was the most experienced of the Floydada secondary. Cox at right end and Goughly at left guard were also seasoned.

Play by Play Baker kicked to Rasberry shortly after 8 p. m., with Crowell defending the west goal. Rasberry returned the ball to Crowell's 32 yard line from 5 yard line. Rasberry fumbled and re-covered for no loss. Crowell drew 5 yard penalty on next play. Rasberry plunged.

ASSET TO THE COMMUNITY

Some outstanding country newspaper editors, asked for their opinion on the chain store question, state that when chain stores first started in their towns, they feared the consequences. The editors felt that the chains might be the ruin of independent stores, and to the detriment of the community. But after the chain stores had operated for some time, it was found that they were a beneficial influence.

The reason is simple. Progressive chains have aided farmers by broadening markets. They have patronized local newspapers. They have tended to improve local merchandising practices and lower prices to consumers. It has been found that the independents, when efficiently managed, have been able to compete on equal terms with their chain competitors, and have shared in increased business resulting from chain advertising and "pulling power" bringing in residents of outlying areas to shop in the local market.

As a matter of fact, it is this healthy competition between chains and independents that has been largely responsible for giving the American people the finest distribution system in the world. Chains have taught independents lessons in efficient selling—and the independents have turned around and taught the chains lessons in individualized service. Both have to keep up with the times—each is continually trying to outdo the other in standards of service, quality and price. The upshot is that both groups go ahead and prosper while the consumer gets more for his money, the farmer gains a steadily improving market for his produce, and the community progresses.—Industrial News Review.

Brief Bits of News From Here and There

The four leading tobacco companies of the country report a net earning for the past year of \$70,000,000.

Postal savings increased \$27,000,000 during the past year, an all time high total of \$1,231,000,000.

The Madison Square Garden Corporation of New York, has offered a guarantee of \$300,000 to the winner of the Braddock Schleming bout.

According to the American Petroleum Industries committee \$800,000,000 in taxes were paid on gasoline in this country last year. Since the institution of the gasoline tax by Oregon, seventeen years ago, \$5,000,000,000 in gasoline taxes has been collected.

The English White Star Line Queen Mary succeeded in taking the trans-Atlantic record from the French liner Normandie recently by cutting 4 hours and 10 minutes from the record of the Normandie from Southampton to Ambrose lighthouse was 4 days, 7 hours, 15 minutes.

JOKE

Lawyer: "When you called up my wife and told her I would be detained at the office, and would not be home until late, what did she say?" Steno: "She said: 'Can I depend on that?'"

Turtles for Chiefs Only

In former times, in the Fiji Islands, the flesh of the turtle belonged to the chiefs only; now, being the chief's chargin, anybody who catches a turtle may eat it.

LET US SUPPLY YOU FEED FOR EVERY NEED and ALL KINDS SEEDS 100 Per Cent Independent BALLARD FEED & PRODUCE

McCORMICK-DEERING Semi-Deep Furrow Drill for Planting Winter Wheat

McCormick-Deering 12 x 10-inch double-run feed, single-disk semi-deep furrow drill, equipped with a large capacity steel, rust-resisting non-warping hopper, steel wheels, and tractor hitch.

THE McCormick-Deering semi-deep furrow grain drill is an outstanding achievement in drill design and construction. It answers the need of wheat growers for a drill that plants winter wheat at the proper depth where the seed has more than an even chance for quick germination and rapid growth.

The feed is the double-run type. The all-steel, rust-resisting hopper combines with

the steel bridge-type main frame to hold the feeding mechanism in proper alignment for long drill life. Axle boxes, gear yoke bearings, and disk bearings are equipped with Alemite hydraulic lubrication fittings. Two sizes available—12 and 16 disks with 10-inch spacings.

See us about this new McCormick-Deering drill before you do your seeding.

Matador—

(Continued from Page One)

have stopped since Tuesday because of wet grounds and in all probability they will not have a chance for another drill before they attempt to trample the Matadors.

The enemy, like the Crowell squad, is handicapped to a great extent by the lack of seasoned material. However, they surpass Crowell's boast of one letterman with three veterans. Charlie Scaff, 148-pounder, and Bodie Brown, 168-pounder, both received letters for service last year with the Matadors. Lyman B. Campbell, 163-pound gridster, also is a veteran of the Matador camp.

A two-weeks training camp for Coach Terrell's proteges ended Saturday, September 5, during which time the 21 aspirants trained, ate, slept and attended skill practices at the school building.

Their daily routine was: up at 6:30; limbering up and other exercises and laps around the field; breakfast at 7; rest until 8; work-outs until 11; rest until a 12 o'clock lunch; skill practice from 2 to 4; work-outs from 4 to 6; after supper another skill practice until 9:15; and to bed at 9:30.

The Matadors downed the Turkey eleven last Friday in a practice game by three touchdowns to open their season.

Crowell's Probable Starters
Crowell's probable starting lineup will be chosen from: William Simmons, Bernice Fitzgerald and Richard Vecera at ends; Ira Klepfer and Robert Thompson at tackles; Vernon Gibson and Glen Shook at guards; Glen Don Reeder or Franklin Evans at center; Gilbert Lankford at quarterback; John Lee Orr and Raymond Joy at halfbacks; and Glen Rasberry at fullback.

Proper Kind of Food Important to Health

Austin.—That vigorous, good health depends not alone upon freedom from disease, but upon the proper amounts and kinds of foods eaten is stressed in a statement from Dr. John W. Brown, State Health Officer.

"The human body is a steam engine burning fuel for the steam, which furnishes power. The food we eat is fuel and when digested and absorbed gives the energy necessary to live and go about our daily activities.

"In considering the proper amount of food for our individual needs, we should take into consideration the kind of work our body will be called upon to perform during the day. When more food is taken into the body than is needed to carry on its activities, extra work is thrown on the organs that carry off waste. This is especially true of the kidneys, and often results in serious after effects.

"The growing child will need more tissue building food than older people, but must also have the foods which supply heat and energy, and minerals to regulate the body. The foods which contain vitamins, such as fruits, vegetables, and milk are necessary to old and young alike.

"The various kinds of foods needed by the body are: Tissue building foods—meat, fish, milk, beans and nuts. Energy and heat giving foods—bread and cereals, fats and all sweets. Foods containing minerals—vegetables, fruits and whole wheat. Foods rich in vitamins—milk, vegetables and fruits.

"An important thing to remember in our food problem is the fact that it is not necessary to eat until we feel 'filled up.' Take plenty of time eating and do not follow food fads or eat certain things because they agree with some friend who has recommended them to you. If your food does not agree with you, go to your physician and let him find out what is causing the trouble."

Miss Velma Johnson began work Monday making reports for the W. P. A. sewing room, a position formerly filled by her sister, Miss Eva Johnson.

Grammar School—Rain—

(Continued from Page One)

will be located east of the high school building facing the south. It will be in the form of a T. The materials and the common labor to be used in the construction are being furnished by the Works Progress Administration. About \$55,000 has been appropriated for the new school by the federal government. Skilled labor is to be furnished by the Crowell Independent School District.

A bond issue of \$12,000 will be voted on in an election to be held in the court house Saturday, September 19, to provide money to pay skilled laborers. A petition calling for the election received 177 names of voters in the school district.

Two shifts of laborers of about 35 each are now employed on the project and others are expected to be assigned to it soon. The laborers began the project Monday of this week. The reason for their starting prior to the completion of all details is that a postponement of the project meant a delay of at least seven or eight weeks.

According to the WPA plan, the workers were required to go to work Monday, and if the school project had not started, they would have been transferred to work elsewhere. They could not have been placed on this project for seven or eight weeks.

Such a delay might have been the cause of the building not being complete before the termination of the present set-up of the Works Progress Administration. The duration of the WPA ends in March according to the present government plans, but it may be extended after that.

By beginning the school project last Monday, the building will be practically complete by that time provided adequate labor is furnished for the construction.

L. I. Saunders is representing the school in the construction of the building. H. D. Poland is WPA supervisor, Mark Saunders is sub-foreman, and Walter Thompson is time keeper.

Dick Todd—

(Continued from Page One)

youngster who is entering his first year of intercollegiate football and who, the wise ones predict, will prove the greatest back ever developed in the broad expanse of the Southwest. Which is a large order all right. But the Texas Aggies are confident Dick Todd will deliver the goods. And coaches, players and partisans of rival schools are afraid they're right.

"His high school record has never been approached. In his four years at Crowell he personally scored 664 points. In leading his fairly weak team to the regional title in 1934, he alone scored 318 points which, if you aren't familiar with the records, is more than most teams roll up in a campaign. He averaged 25 yards for each of his 49 touchdowns and booted extra points from placement 24 times. Dick Todd is a one-man team. Little wonder that this player, called a "coach's dream back," was fitted with by about fifty colleges. The Aggies finally got him and as a freshman last year he started in right where he left off."

Odd War Weapons in China

Probably the most unusual battles of modern times occurred in the civil wars in China. As firearms were scarce, says Collier's Weekly, the regiments that could not get cannons, machine guns, rifles or revolvers equipped themselves—and even won battles—with meat choppers, firecrackers, bricks, umbrellas and other improvised weapons.

Misses Mary Lou Fudge, Ruth Ferguson, Betha Womack and Eva Johnson, all students at Draught's Business College at Wichita Falls, were at home for the week-end.

THOUGHTS OF SERIOUS MOMENTS

Cheerfulness throws sunlight on all the paths of life.—Richter. Don't bewail and moan, omit the negative proposition. Don't waste yourself in rejection nor bark against the bad, but chant the beauty of the good.—Emerson.

A cheerful friend is like a sunny day, which sheds its brightness on all around; and most of us can, if we choose, make of this world either a palace or a prison.—Sir J. Lubbock.

er for livestock for many stock raisers of this section of the country.

Rains Elsewhere

Rains Monday night measured 12 inches at San Angelo to set a sixty-year record. The rain fell within a period of about 15 hours. Soon after, the South Concho River was nearing the flood stage.

At Comfort a 11-inch rain sent Cypress Creek, which runs through the edge of San Antonio, on a 20 foot rise in 24 hours.

PICKEREL LEOPARD FROG
The pickerel frog and the leopard frog have much in common, both in appearance and habits, through the members of the leopard frog clan are probably more numerous. Possessed of a long, slender body, long head, large eyes and smooth skin with prominent lateral folds and a number of smaller longitudinal folds between them, this frog may have a body coloring of either green, brown or gray above and yellowish white beneath. It takes its name from the mottled appearance of its body, the marking on the back being dark brown outlined in a lighter shade. Both this frog and the pickerel frog wander away from their native lakes and streams in search of food, but the leopard frog is most given to traveling on land and therefore most often seen. The greater wariness and quicker leap of the pickerel frog may have something to do with this, however.

An Unjustified Project

CHURCHES

Christian Science Church
Sunday School at 10 a. m.
Sunday services at 11 a. m.
Wednesday evening services at 8 o'clock.
Sunday, September 20, 1936.
Subject: "Matter."
The public is cordially invited.
First Presbyterian Church
Regular preaching services Sunday at 11 a. m. and 4 p. m. Every Presbyterian urged to be present. Others are invited. We will appreciate a visit from pastors of other churches and their congregations at the afternoon service. We will hold an important business session at 11 a. m.
J. A. PHIPPS, Pastor.

Methodist Church
The most encouraging sign since early summer was the increased attendance upon all services Sunday. Our evening service on the lawn behind the church is proving the most popular, the attendance doubling some former services and tripling others. A fine fraternal spirit was manifest at the close, as people remained to converse for a long while. The new school year for the church will begin in October and a full corps of teachers and officers has been procured.
Services as usual Sunday.
GEO. E. TURRENTINE.

Baptist Church
Sunday School at 9:45 a. m.
Service at 11 a. m. B. T. U. at 7 p. m. Evening service at 8.
Rev. and Mrs. Fitzgerald and family planted themselves in our city and the hearts of her people eighteen months ago. They have found in this situation a most challenging opportunity for accented service and a field in which to invest their lives for the enrichment of others. Always unselfishly this faithful under-shepherd and his worthy companion have wrought for others. They have been true friends, not given to flattery, but telling us our faults that we might cure them. Soul-hunger bent and chaffing to appease this passion for the lost, John the Baptist pastor, overtaxed his strength in summer's heat and almost perished his life. Last Sunday the church resounded by acceptance of Rev. Fitzgerald's resignation and gave him a paid vacation, that he might rest and regain his health.—Reporter.

Christian Science Services
"Matter" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist on Sunday, September 20.
The Golden Text is: "That which is born of the flesh is flesh; and that which is born of the Spirit is spirit" (John 3:6).
Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Be ye therefore perfect, even as your Father which is in heaven is perfect" (Matthew 5:48).
The Lesson-Sermon includes also the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The verity of Mind shows conclusively how it is that matter seems to be, but is not. Divine Science, rising above physical theories, excludes matter, resolves things into thoughts, and replaces to objects of material science with spiritual ideas" (page 123).

Two Minute Sermon
(Pilate's Washbowl)
When Christ was brought before Pilate, Pilate called for a bowl of water and washed his hands symbolizing that he was waiving all responsibility of any consequences of the shameful deed that was taking place. His act stirs us with indignation and contempt for his weak and vacillating nature. Nowhere is there to be found a word of defense for Pilate, nowhere a word condoning his act. He was pitifully weak and unworthy of the trust his office imposed upon him. How many times today do we meet men, who like Pilate, refuse to face their responsibilities and never take a stand upon any question of right, but always, like Pilate, seek to align themselves on the side of popular favor. Such a man has no standard of ethics except the clamor of the mob. He sacrifices his own self respect for the pawns of popular approval. He lacks the courage and the independence of the crusader, and the oppression, and wrong until the people under

Wedding in Mouth of Whale

With a jawful of whalebone for decorations and the leviathan's tonsils for an altar, Betty Gentry and J. Rob Henderson, were married in the cavernous mouth of a captured whale at Long Beach, Calif., with Rev. Isaac McRae officiating at the novel ceremony. The bride and groom hail from Baird and Olney, Texas, respectively.

Officers of FOARD COUNTY HOME DEMONSTRATION COUNCIL
Mrs. A. L. Davie, Chairman Mrs. J. L. Hunter, V. Chairman
Miss Bonnie Schroeder, Secretary-Treasurer
Miss Myrna Holman.....Home Demonstration Agent

VIVIAN 4-H CLUB

We should protect our looks, the Vivian 4-H Club girls decided at the meeting September 12, at the Vivian school house. For the third time they checked the "Protect Your Good Looks Chart," Geneva Marr was elected president, temporarily.
Songs were sung and games were played.

WEST SIDE H. D. CLUB

An interesting lesson on vegetable cookery, including the preparation of leafy, green and yellow vegetables, with instructions on saving the vitamin and mineral losses in cooking, was given by Miss Myrna Holman, county demonstration, at a meeting of the West Side Home Demonstration Club held at the home of Mrs. F. A. Davis Wednesday, Sept. 9.
Further details on cooking strong and mildly flavored vegetables was given by Miss Holman in serving a plate to all present, and a guest, Miss Virginia Crowell, of Fargo.
Favorable reports on the progress of the scrap book were given by the committees.
The next meeting will be held at the home of Mrs. Walter Thompson Sept. 23.

RIVERSIDE H. D. CLUB

"All vegetables, except dried peas and beans, should be dropped into boiling salted water to cook in order to preserve their full flavor and food value," was the point stressed in the demonstration on vegetable cookery given by Miss Myrna Holman at the meeting of the Riverside H. D. Club at the home of Mrs. J. H. Ayers, Tuesday afternoon, Sept. 8.
There were eight members and six visitors present. Carrots and cabbage were cooked during the demonstration. Refreshments of punch and cookies were served. The club will meet with Mrs. Sam Hembree on Sept. 22 for a lesson on casserole dishes.

Hunt for Treasure Under Way in Texas

The greatest treasure hunt in the history of Texas is under way from the Gulf to the Red River and from Louisiana to New Mexico.
Back of this unique treasure hunt is the Mineral Resources Committee, a unit of the Texas

U. S. Marine Guard Naval Base at Cuba

Despite rapid changes in the political situation in Cuba, U. S. Marines peacefully occupy a section of the country, maintaining a strict neutrality and avoiding any interference whatsoever in Cuban affairs.
This peaceful occupation by the Marines has been of long duration—some thirty-three years, in fact—or ever since the American Government leased a naval base on the eastern end of the south coast of the island in 1903.
Following the Spanish-American war, the United States, through an agreement made with the Cuban Government, secured an area of some 47 square miles at Guantanamo. Its land-locked harbor of two basins, about 4 miles long and 10 miles wide, and the narrow entrance to the harbor gave protection from storms and safety from surprise attacks at sea. It provides an ideal base for our fleet.
During the last three decades this location has been developed into one of the finest naval bases in the world and has been visited by virtually every warcraft in our Navy. It is a convenient port during maneuvers, excellent location for refueling war vessels, and has a splendid range for target practice ashore.
"Guantanamo is not only one of the many tropical locations where our men are stationed," says Lieut. Colonel Thomas E. Thrasher Jr., U. S. Marine Corps, Officer in Charge of the Marine Recruiting District of Los Angeles, 257 South Spring Street, Los Angeles, California, "but it is also of great historical interest to members of our Corps."
"The Marines are proud of the fact that they were the first troops to land in Cuba during the Spanish-American War. A battalion came ashore at Guantanamo Bay and held that base despite the efforts of 6,000 Spaniards to dislodge them. They had several lively engagements with the enemy, and today more than one monument stands there in memory of our dead."
"Our men also distinguished themselves by the accuracy of their gunfire during the naval battle at Santiago, some forty miles away, when the Spanish fleet was destroyed."
"Today, at Guantanamo Bay, members of our Corps occupy comfortable quarters where they formerly lived in tents. Apart from their routine duties, they have plenty of time for sailing, motor-boating, swimming and fishing, the waters of the bay being a veritable paradise for fishermen."
"American friendship for the Cuban people has been continuous ever since our nation joined hands with them in fighting a common foe. Of course events have not always run smoothly on the island, and on at least three occasions since the Spanish-American War armed intervention became necessary and marines were landed there, remaining until peace was restored."
"Whenever another political upheaval occurred in 1933, the American Government decided to maintain a 'hands off' policy and let the Cubans work out their own salvation. Our naval vessels, with marines aboard, were in close proximity to observe conditions, but made no armed landing."
"Therefore our base at Guantanamo Bay has a unique status in the Pearl of the Antilles. Although located on Cuban soil, it is remote from the government at Havana, and remains entirely neutral regardless of what might happen elsewhere in the country. Its sole purpose is to provide an adequate base for our fleet in the West Indies."

HOUSEHOLD HINTS

Cocoa should always be cooked in a small amount of water before milk is added.
A large clean paint brush is a big aid in housecleaning. It can be used to brush off window sills, baseboards, corners, etc.
Vegetable stains can be removed from the hands by rubbing them with a slice of raw potato.
Grease your measuring cup before measuring syrup or molasses and the ingredients will not stick to the sides of the cup.

THIS WEEK IN HISTORY

September 14—Fire set to Moscow by the Russians, after the triumphant entry of Napoleon into the city, compelling him to make a disastrous retreat which was the beginning of his downfall, 1812; President McKinley, died, 1901.

Want To Live Long? Then Watch Diet and Exercise When Fifty

The "forgotten man" of medical science is the man who has reached middle age, according to Dr. Lucas A. Miller, Colorado physician.

"More middle-aged men commit suicide by overeating than by overworking," he says in the Rotarian Magazine.

"It is estimated that 20 million of people in the United States alone are living near or below the borderline of nutritional safety."

"There is grave danger in following fad diets or changing food habits, too suddenly, after 50. After someone who has devoted years of study to the subject helps you to find your nutritional balance, you should stick to it religiously."

"Next in importance after the proper diet," continues Dr. Miller, "is the budgeting of energy."

"The G-5 mercury lamp requires a special socket and a special reactor or transformer when it is operated on a regular house-lighting circuit."

Texas University Land Surveys Will Be Complete Soon

Surveying crews will complete all of the field work connected with the survey of the two million acres of land owned by the University of Texas...

It has not yet been determined by the Board of Regents whether the El Paso lands shall be included in the present survey.

The original survey of the 2,000,000-acre endowment lands of the University was necessarily made due to the remoteness of the several tracts and the inaccessibility of field equipment.

The resurvey, as it should be designated, is the largest undertaking of its kind since the solid body of 3,000,000 acres of land in Northwest Texas, originally granted the Capital Syndicate of Chicago in exchange for the construction of the State Capitol at Austin, was resurveyed some 100 years ago.

The Capitol Syndicate resurvey resulted in the discovery of an excess of 80,000 acres which reverted to the State.

Insides out! symptoms are gets in your mouth shut. Mary W. was diagnosed. No more symptoms.

Centennial Swells Gasoline Tax Bill

Austin—Sponsors of the bill passed in the state legislature to appropriate \$3,000,000 for the celebration of Texas' 100th anniversary pointed out in their fight for the bill's passage that the state treasury would be reimbursed that amount with increased gasoline taxes during 1936.

Horticulturist Gives Tips for Fall Gardens

College Station.—"Fall gardening is a waste of time and effort unless the soil is thoroughly prepared," J. F. Rosborough, Extension horticulturist, said recently.

Relief! For Nervousness, Irritability, Restlessness, Nervous Headache, Indigestion

When the worries, noise, confusion, high-tension work, or hectic pleasures of your waking hours "get on your nerves," here is a simple time-tested preparation that will bring a feeling of calm and relaxation and allow you to get a good night's sleep.

Dr. Miles Nervine quiets your nerves. It is not habit-forming and does not depress the heart. Why take chances with dangerous habit-forming drugs? Why use narcotics that make you dull and depressed?

Millions have found relief, relaxation, sleep, by using Dr. Miles Nervine. Although first used more than fifty years ago, Dr. Miles Nervine is as up to date as today's newspaper.

SAFETY SLOGANS

Learn what to do in case of emergency. If some one has fainted, suffered an electrical shock, taken poison, slipped into deep water, knowing what to do may be the means of saving a life.

Every time you drive a car with worn out tires you are risking the lives of everyone in the car.

Nearly two-thirds of the fatal motor car accidents take place between six in the evening and six in the morning, yet the traffic at this time is only one-third the total.

If you are drowsy don't drive. One second asleep is enough to send your car into another car or cause it to leave the road and be wrecked.

Precious Things Precious stones are not weighed by the pound, nor precious utterances judged by their length.

Laugh at SKIN TROUBLES! Skin trouble... Palmer's Skin Success Ointment

Island 80 Per Cent Coal Nishimoto islands, in the Loochoos, has been found to be nearly 80 per cent coal.

Suez Route Through Lakes The route chosen for the Suez canal was largely determined by the presence of a chain of lakes.

Sure to Be a Scientist Jud Tunkins says he guesses his boy is going to be a great scientist, because he's always learning things at school that he can't explain so the folks at home will understand 'em.

Thirty-One Attend Reunion Held for Relatives of J. C. Jones of Truscott

The first reunion of the sons and daughters of J. C. Jones of Truscott was held Wednesday, August 25, at the home of Miss Mamie Jones, with whom her father lives, about a mile southeast of Truscott. Thirty-one relatives attended.

An all-day reunion was held, the children being served both dinner and supper. Barbecue, pickles, cakes, pies and other picnic foods furnished the chief food for the relatives.

J. C. Jones was the honor guest at the celebration which was attended by five sons and one daughter. Two daughters, Mrs. Tip Williams of Tuolumne, Calif., and Mrs. J. H. Browder of Chippie Creek, Cal., were unable to attend.

Those who attended were the following sons and their families: Mr. and Mrs. Johnnie Jones and children, Edwin, Frances, Charles and Willie of San Antonio; Mr. and Mrs. Jasper Jones and daughter, Mary, of San Antonio; Mr. and Mrs. Frank Jones and children, Frances, Bob, Dell and Leonard, of Plainview; Mr. and Mrs. Claud Jones of Wichita Falls; Mr. and Mrs. Will Jones and daughter, Geneva, of Burlesote; and Mr. and Mrs. Jim Jones and children, Ruby Lee, Bryan and Calvin, of Truscott.

Miss Mamie Jones, daughter of J. C. Jones, was hostess to the visiting brothers and their families. Mr. and Mrs. Marion, Channing and children, Martin Jr. and Helen, of Truscott, also attended the reunion.

THALIA IDLE HOUR CLUB

The Idle Hour Club met Thursday with Mrs. Bob Absten hostess, in her home. A very pleasant afternoon was spent. The club had not met since July on account of revival meetings being held the latter part of July and August. The following members attended: Mesdames Royce Cato, Leotis Roberts, W. J. Long, Raymond Grimm, Lee Sims, G. W. Seales, W. L. Cox, J. A. Stewart, W. N. Cato, C. B. Wood, J. M. Jackson, Miss Minnie Wood, and the hostess, Mrs. Absten. Some games and contests were enjoyed after which a lovely refreshment plate was served. The next meeting will be with Mrs. Fred Dennis, hostess, at her home in Crowell, Sept. 24.

Parent-Teachers' Organization Holds Year's First Meet

The first meeting of the Crowell Parent-Teachers Association was held in the high school auditorium Tuesday night with the fathers of the community as honor guests.

I. T. Graves, superintendent of the Crowell schools, acted as master of ceremonies for the program. The program was opened by two musical numbers played by an eight-piece orchestra under the direction of Marion Crowell.

Rev. Geo. E. Turrentine, pastor of the Crowell Methodist Church, was the chief speaker of the program, using as his subject the "Four-Square Men."

Refreshments of punch and cookies were served to the attending parents and teachers after two more selections by the orchestra. High school mothers were hostesses at the initial meeting of the year of the P. T. A.

FAMILY REUNION

Mr. and Mrs. Fred Bush of Krum were in Crowell last week-end visiting Mrs. Bush's parents, Mr. and Mrs. C. W. Branch.

Mr. and Mrs. Bush, Mr. and Mrs. Philip Hale and Miss Pauline Branch met at the home of Mr. and Mrs. Branch Saturday, September 12, for a one-day family reunion. Saturday afternoon Mr. and Mrs. Bush returned to their home at Krum.

Changes Made by Santa Fe Railway

Three changes in the freight and passenger department of the Panhandle and Santa Fe Railway Company have been announced.

R. H. Forbes has been appointed to the position of division freight and passenger agent with headquarters at Lubbock. E. Kancher having been transferred. Mr. Kancher has been appointed to the same office with headquarters at Amarillo, taking the place of W. E. Goodison, who formerly held the position. E. A. Tusha has been appointed to fill the vacancy left by Mr. Forbes at San Angelo.

CAVALCADE'S MASCOT

"Well, I can get tough," little Lila Jan Goodin opines as her trigger finger toys with a Texas ranger's single action Colt. At two she is mascot of Cavalcade, the \$250,000 historic production at the Texas Centennial exposition, in Dallas.

Truscott Invades Mounds Sunday in Play-Off Contest

The second of three games to be played as the final series of the Cotton Belt baseball league will be staged at Medicine Mound Sunday with Truscott as the invading team.

As was decided by the officials of the circuit, the team highest in the percentage column would receive the first home game. Truscott, having ended in first place, entertained the Mounds last Sunday by beating them 13 to 4.

If Medicine Mound wins the game next Sunday to even the series, a third game will be played to determine the winner of the Cotton Belt pennant. The place of the game is to be determined by the toss of a coin.

Resettlement Office To Be Open Mondays, Tuesdays and Fridays

A total of \$5,856,500 in loans and \$841 in grants have been made to farmers for feed in Foard and Hardeman counties by the Resettlement Administration, according to W. A. Burkett, rural supervisor for the agency.

The Resettlement Administration is making feed loans to farmers to take care of livestock, and grants for family living needs," Mr. Burkett said. "Feed loans may be made to farmers who cannot get credit, work or help from any other source."

Farmers who wish to make applications for loans and grants may do so at the office of the Resettlement Administration, according to W. A. Burkett, rural supervisor for the agency.

Class Officers--

(Continued from Page One)
Sophomore Class
Sophomore class officers are Raymond Joy, president; Chippie Griffin, vice president; Frances Davis, secretary-treasurer; and Reid Thompson, reporter. The class chose Walker Todd sponsor and Mrs. Adrian Thompson and Mrs. Tom Russell as class mothers.

Freshman Class
Charles Stuart Clark is president of the freshman class. Margaret Long is vice president; Hubert Carl Brown is secretary-treasurer; and Gene Fox is reporter. Miss Mildred Cogdell was selected as sponsor of the class. Mrs. Clint White and Mrs. O. W. Orr are class mothers.

World's Greatest Housekeeper Does No House Keeping

Chicago.—The Pullman Company, operators of sleeping cars on the railroads of America, annually "sleep" on the average of one-fifth of the population of the United States, it was revealed today in a letter received by Harry G. Taylor, Chairman of the Western Association of Railway Executives.

Mr. Taylor was formerly a weekly newspaper editor publishing for ten years the Nonpariel at Central City, Nebraska.

And with this huge overnight sleeping population to care for, the company has become one of the greatest housekeepers in the world, despite the fact that it does not "keep house!"

The company has nearly four million towels on hand at all times. There are over two million sheets, one and three-quarter million pillow slips, five hundred thousand blankets, a similar number of pillows, 250,000 mattresses, and the porter who tends these things has over one-hundred-fifty thousand white jackets on hand for his own dress.

In all the linen stock kept on hand by the "world's largest housekeeper" totals close to nine million pieces!

After digesting this figure of nine million pieces of linen always on hand, add to that the figure 2,000,000 which is the annual number of replacements made to keep

HOSPITAL NEWS

Tuesday was "tonsil day" at the Hospital with six tonsil operations. Those undergoing tonsil operations were two sons of Mr. and Mrs. I. D. Gilbert of Swearingen; John Calvin Carter, son of Mr. and Mrs. John Carter of Crowell; E. Emmett Howard of Thalia; J. Y. Lindsey Jr. of Thalia; and Bryan Thomas O'Connell, son of Mr. and Mrs. Bryan O'Connell of Crowell.

Mount Ararat Twin-Peaked

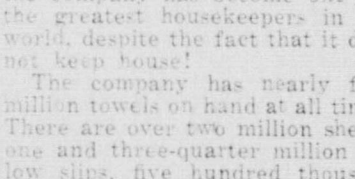

Mount Ararat is a twin-peaked mountainous area situated where Armenia and Persia meet, south of the Caucasus range. It is noteworthy for its extensiveness rather than its height, the highest peak being something under 17,000 feet. The mountain is of volcanic origin, its lower regions are inhabited and the summits have been repeatedly ascended and thoroughly explored. The usual statement that Noah's Ark rested on Mount Ararat has no foundation in the Hebrew text, which reads "on the mountains of Ararat." In ancient times Ararat was the name of a district in eastern Armenia, and sometimes also for all Armenia and the mountain ridge in the southern part of that country.

That's "Flattery"

"Flattery," said Hi Ho, the sage of Chinatown, "is welcome to one who, unable to deserve the praises of Admiration, is willing to substitute the compliments of Fear."

Joe Is Toughest of Top Sergeants

Joe E. Brown, probably the toughest top sergeant in the service, is the mascot of the Fifth battalion of marine corps re-serves, and is a great attraction during recent maneuvers in the vicinity of Washington, D. C.

Hawaiian Baby Has Longest Name

This Hawaiian mother proudly displays her tiny infant to whom she has just given the longest name on record. It contains 63 letters—more than five times as many as there are in the Hawaiian alphabet. The name is "Kahanaloakohokoukaimanalohehokeawe-weula-makakohai" and means "the beautiful-arena-of-my-home-at-Sparkling-diamond-hill-is-carry-to-the-eyes-of-heaven." They call him "Joe" for short.

Loans--

(Continued from Page One)
through the Farm Credit Administration, the farmers in Texas were benefitted also by a reduction of mortgage principal which amounted to \$6,288,500. Further savings resulting from lowered interest rates are estimated at \$3,550,000 annually.

In the period May 1, 1933, through July 30, 1935, 745,074 mortgage loans, totaling \$2,059,826 were made and \$1,391,373,603 was advanced in loans to co-operatives, while \$318,878,072 was loaned to co-operatives by the agencies of the Farm Credit Administration in the United States.

FLAG OF NOVA SCOTIA IS TRACED TO KING JAMES I

Nova Scotia has the distinction of being the only province of the Dominion of Canada, and the first colony of Great Britain, to possess a flag of its own. The flag of Nova Scotia is a silver field with a blue St. Andrew's Cross, a small shield with the Royal Arms of Scotland (gold, a lion rampant red, teeth, claws, and tongue blue, within a double tressure flory-counter-flory ture-de-lys red) being placed as an inset upon the cross.

Sometimes it's just as easy to get along without advice as it is to select the kind you will take after you get it.

If you want your laundry work finished we will be glad to have the work and guarantee satisfaction in every detail.

We have plenty of soft water and feel sure that our old customers as well as new ones will be satisfied with the service we are prepared to give.

Grand Jury Ends Two-Day Meeting Tuesday Afternoon

The grand jury for the September term of 48th Judicial District Court in Foard County closed two-day session Tuesday afternoon. The grand jury's report has not been filed in the office of the district clerk late Wednesday afternoon.

Those listed to serve as jurors have been called to assemble Monday morning at 9 a. m. They were formerly called to meet the morning, but due to a light fog at their assembly was postponed.

The two weeks term will close Friday, September 25.

Much Land in County Has Been Terraced, Farm Agent States

Terrace lines were run recently on 160 acres of land owned by C. B. Graham by John Nagy, Foard County agricultural agent. The land is located two miles west of Margaret.

Lines were also run for C. W. Carroll on 85 acres of land about 4 miles north of Crowell.

Farmers throughout the county are still showing an interest in terracing and practically all the land that has had terrace lines laid out has been terraced, Mr. Nagy said.

Recruiting Officer Announces Fifty Vacancies in Army

There are fifty vacancies in the United States Army at Fort Sill, Okla., and Fort Francis E. Warren, Wyoming, according to information received from the recruiting officer at Wichita Falls.

The vacancies are due to an increase in the United States Army from 125,000 to 165,000, he said. Men interested may obtain information and applications by applying or writing the Wichita Falls Recruiting Office.

ROTARY LUNCHEON

Merl Kincaid was in charge of the program given at the regular luncheon of the Rotary Club held at the Premier Hotel Wednesday afternoon.

Ernest King was the chief speaker on the program, giving a classification talk on "The Care of the Feet." An announcement was made that Eli Smith, one of the oldest members of the organization, was moving to Chillicothe this week.

CROSS CHILDREN MAY HAVE WORMS

Wash for upset little stomachs, bad breath, fretfulness, loss of weight, itching around nose and ears. They may have pin or round worms. White's Cream Vermitige has safe and for years, reliably expelled the worms and toned the delicate tract. White's Cream Vermitige recommended by druggists.
