Announcing THE FORD V·8 FOR 1937 The Quality Car in the Low-price Field

V-8 85 HORSEPOWER 60 HORSEPOWER Two Engine Sizes - One Wheelbase Good Performance with aximum Performance Maximum Economy AND A NEW LOW PRICE

We invite you to see this new Ford car, and arrange to drive one equipped with the engine that fits your needs.

THE New Ford V-8 for 1937 is the I most beautiful Ford car ever offered. It is built in only one sizeone standard of roomy comfort and modern appearance. But you may have either the improved 85-horsepower V-8 engine for maximum performance-or the new 60-horsepower V-8 engine for maximum economy. The smaller engine makes possible a lighter car - lower operating costs

- and a lower price. When you drive the 1937 Ford with the 85-horsepower V-8 engine, you are master of a power plant that gives everything you can possibly demand in speed and acceleration. Today, improved carburetion enables it to deliver its thrilling performance with unusually low gasoline consumption.

The new 60-horsepower V-type 8cylinder engine delivers V-8 smoothness and quietness-even at speeds up to 70 miles an hour-with gasoline mileage so high that it creates an entirely new standard of economy in modern motor car operation.

AUTHORIZED FORD FINANCE PLANS

\$25 a month, after usual down-pay-ment, buys any model 1937 Ford V-8 Car —from any Ford dealer—anywhere in the United States. Ask your Ford dealer about the easy payment plans of the Universal Credit Company.

FEATURES

APPEARANCE - A newly designed car. Headlamps recessed in fender aprons. Modern lidtype hood hinged at the back. Larger luggage space. Spare tire enclosed within body. Completely new interiors. Slanting V-type windshield opens in all closed cars.

COMPORT AND QUIET-A big, roomy car. Extra space is in the body, not taken up by the engine under the hood. Comfort of the Center-Poise Ride further increased by smoother action of the long-tapering springs, with new pressure lubrication. New methods of mounting body and engine make this a quieter car.

SAFETY

BRAKES - New Easy-Action Safety Brakes, of the cable and conduit control type. "The safety of steel from pedal to wheel." Self-energizingcar momentum is used to help apply the brakes. Tests show that about one-third less pedal pressure is required to stop the car.

SODY-Not an ounce of wood used for structural strength. Frame structure all steel, sheathed with steel panels-top, sides and floor. All are welded into a single steel unit of great strength. Safety Glass all around at no extra charge.

Wide Variety of Entertainment Being Offered at Vernon

at is in store for patrons of the Vernon Theater this week. In the pictures above from left to right: Fredric March who is co-starred with Warner Baxter in the "Road Glory" playing Friday and Saturday. In the center, radio's most popular comedian Jack Benny, star of "The Big Broadcast of 1937" playing for the mid-night show Saturday and also continuing through Wednesday. An account of the magnitude of this show the Vernon Theater deviates from their regular schedule of playing the Sunday attractions for two days and instead will run "The Big Broadcast of 1937" for four days. Others in the cast are George Burns, and Gracie Allen, Bob Burns and his Bazooka, Martha Raye, charming young comedienne of "Rhythm On The Range," Benny Goodman's Orchestra, Leopold Stokosski and others. On Wednesday night Thanksgiving Eve, the Vernon will offer a midnight show of George Fenimore Cooper's, "The Last of the Mohicans". Above is pictured Heather Angel and Phillip Reed in a scene from the show....Lew Bray, manager of the theater announced today he had arranged for a personal appearance of Gene Autry famous western movie star for a one day engagement on the stage of the Vernon Saturday only, Dec. 5th.
