#### Huge Tusk Found Near Pease River

A huge tusk, probably from a mastodon or other large ani-mal now extinct, was unearth-ed Tuesday by highway workers in a gravel pit on Pease River about eight miles north f Crowell. The gravel pit is located on and owned by F. A. Davis. The tusk and other bones of the ani-

mal were found lying on red lay and had been covered by the gravel and sand. It was buried beneath about eight feet of gravel and sand. From tip to tip the tusk measures slightly more than six feet, and part of one end has been broken away. At the larg-

st place it measures about 26 nches in circumference. The tusk and bones have been well preserved, but crumble easily. The tusk was in one piece until highway laborers atempted to unearth it. In re-

moving it from the gravel pit, it was broken into five parts.

## OIL-PLATE YOUR ENGINE

This is exactly true: Oil-Plating supplies lubrication in LESS THAN NO TIME AT ALL!

Faster than "instantly"... faster than the fastest-flowing Winter oil might even begin to flow, Oil-Plating is ready to lubricate.

That's because a genuine Plating of Conoco Germ Processed oil is always left firmly bonded to every working part. Like any other real Plating, this Oil-Plating cannot run off. After hours or days of standing in the cold, Oil-Plating is still perfectly ready-to-go.

Now these days you read on every side, how poorly-oiled starting causes most engine wear, and how fast a Winter oil ought to flow. But you cannot have even a doubt of sure starting-lubrication, when it is always UP IN ADVANCE. That's Oil-Plating ... a plain, straight, economic reason for changing to your correct freeflowing Winter grade of Conoco. Germ Processed oil - patented. Costs no more than changing by hunch.

CONTINENTAL OIL COMPANY

CONOCO GERM PROCESSED OIL

## Foard County News

T. B. KLEPPER, Editor-Owner. DAN TARPLEY, Ass't. Editor

Entered at the Post Office at Crowell, Texas, as second class

Crowell, Texas, December 3, 1936

In Decatur, Ala., the gasoline tax is 11 cents a gallon. The tax consists of 1 cent federal tax, 6 cents state tax, 3 cents county tax, 1 cent city tax.

A man may break the laws of the state and never be found out, but when he breaks the laws of nature he always pays.

#### THE SONG OF THE LARK

appears the first light of the approaching new day. Her eyes are lifted to the heavens where high above a tiny lark is pouring forth his song of joy and gladness. He sings because the night is past and a new day has come. The picture has always appealed to me because of the many fine lessons it teach The young woman is simply clad. Everything about her shows that she is a toiler used to long hours of hard work in the sun and the weather. She walks unshod and unshrinking in the sharp stubof the luxuries and many of the istence which she can never hope to change. In the midst of it all sie can stop and look up and listen to the song of the lark and let the beauty of its song fill and when all odds seem to be against comes before pleasure, us. We can, if we will, look up December 4, 5—You

the passage of a state law requiring a license for funeral directors, both Mr. and Mrs. Womack obtained permits. Ernest Patton, an employe of W. R. Womack, has been notified that he is to receive his license as a funeral director

Funeral Home was recently completed with the laying of the floor coverings. It now contains six rooms. A large display room for the caskets and vaults is one of the additions. A reposing room, equipment room, operating and then you may be sure that equipment room, operating and preparation rooms, hallways, show room for baby caskets, private office, and a storage room have been completed.

Make yourself an honest man, and then you may be sure that there is one rascal less in the world.—Carlyle.

The ladder of life is full of splinters, but they always.

The undertaking rooms are open for inspection and all who are interested are invited to visit it, Mr. Womack said.

Vowel Sounds

Prof. R. G. Kent, secretary of the Linguistic Society of Ameri-ca, says: "All languages have ca, says: "All languages have vowel sounds. Some forms of writing do not indicate the vowel sounds, but in actual speech the vowels are necessary to support the consonants. The Egyptian hieroglyphics did not indicate the vowels; and neither did the written form of Hebrew until the invention of the so-called masoretic points. The relation of speech to writing is a very complex one which cannot be answered in a few sentences."
