AND CROWELL INDEX

SEVENTH YEAR NUMBER 2

CROWELL, FOARD COUNTY, TEXAS, THURSDAY, JULY 1, 1937

\$2.00 A YEAR EIGHT PAGES

## WHEAT RECORD FOR FOARD COUNTY SET

### 2,150 Subscribed On M. E. Church Debt at Banquet

Total of \$2,150 was raised by contributions to apply on the M. E. Church debt at a banquet held in the basement of the M. E. Church Monday night at 8 o'clock. The members of the finance committee were hosts to about 100 guests. J. R. Beverly, chairman of the finance committee, was in charge of the program. The campaign was recently started to reduce the debt from \$10,000 to \$5,000 and if this goal is reached the money will be returned to the subscribers, but if the debt is raised the church indebtedness will be refinanced. The invocation was given by Cal C. Wright, presiding elder of the church, was the first of the program. Other speakers were Mr. Beverly, Mr. Mrs. C. P. Sandifer, Rev. H. Hubert Brown and T. L. Scott. A reading was given by Mrs. Doris Campbell.

### CROWELL GOES TO TRUSCOTT SUNDAY, JULY 4

#### Second Half of H-W-F League Schedule Released

As their July 4 game, Crowell baseballers will meet Truscott, first half H-W-F league runner-up, Sunday on the Truscott diamond in the opening half of the league season. These two teams met in the first game of the season and Truscott was victorious, 5-1.

It is yet undecided who will pitch for Crowell but "Smoky Joe" Dorsey will probably fill the mound position for Truscott. He struck out 12 batters in the only game he pitched against Crowell.

#### Second Half Schedule

The second half schedule for the H-W-F league was arranged at a meeting of the team managers at Vernon Thursday night. As in the first half, each team will have four games at home and four games away from home and the winner of the second half will play a three-game series with the winner of the first half for the championship.

### About 35 Club Girls Will Visit Carlsbad Caverns Next Week

About thirty-five club girls of Foard County will leave from Crowell Sunday morning for a trip to the Carlsbad Cavern near Carlsbad, N. M. They will go through the caverns on Monday and return that night.

Those planning to make the trip are: Wilma and Mary Lou Nichols of Black; Evelyn Crossno, Mary Ermine and Betty Jean Owens, LaVoyce Lafevre, Dovey Barker, Kathleen Johnson and Oma Floy McLain of Foard City; Frances Haseloff, Leta and Virginia Kline of Margaret; Sybil Gobin and Elizabeth Whitten of Riverside; Neil Roberts, Anna Lucy Bray, Bennie Lee Bradford, Mary Beth Whitman, Max Dean Beidleman, Helen Shultz, Juanita Jones, Audra Abston, Betty Ruth Miller, Savannah Gamble and Louise Cox of Thalia; Opal Blair, Geneva Marr, Lillian and Doris Helen Branson of Vivian.

Miss Myrna Holman, county home demonstration agent, Mrs. C. T. Murphy of Margaret, Miss Bonnie Schroeder of Riverside, Mrs. Ebb Seales and Miss Addie Brisco of Crowell will go with the group as sponsors.

#### NEW CAR REGISTRATIONS

The following new vehicles were registered in the office of the tax assessor-collector during the past week:

- A. W. Johnson, International pick-up.
- Mrs. H. M. Pennington, Ford Tudor.
- Jimmie Randolph, Chevrolet truck.
- Mrs. W. B. Tysinger, Pontiac Tudor.
- S. Moore, Plymouth sedan.
- Jack Bryan, DeSoto coupe.
- C. B. Graham, International truck.
- Crews Cooper, Ford truck.

### FOARD FARMERS RECEIVE AID FROM FEDERAL GOVERNMENT IN FIGHT AGAINST GRASSHOPPERS

Foard County Farmers have received federal aid in the fight against grasshoppers, according to John Nagy, Foard County agent. A carload of bran and 8 drums of arsenite poison were received Monday. This was stored in the seed house of the Farmer's Gin in Crowell.

The bran and poison is free to

#### ROUND-UP QUEEN

A ten gallon hat replaced a crown for the coronation of Miss Dorothy Alcorn, above, as queen of the St. Paul, Minn., stockyards. She was chosen to reign over the annual round-up of the Hook 'em Cow club, an organization of stockmen, farmers, ranchers and shippers who market their livestock at St. Paul.

#### Averages 15 Bu. for Past 37 Years

Howard Williams, one of Foard County's most successful wheat farmers, has had an average yield of fifteen bushels of wheat per acre on his farms for the past 37 years, according to records he has kept of his wheat production during this time.

Mr. Williams came to Foard County with his parents, the late Mr. and Mrs. J. S. Williams, in 1895, and has managed his own wheat production for the 37-year period.

### Music Training School in Progress at Baptist Church

Charles A. Burgess of Mena, Ark., has been in Crowell this week conducting a music training school at the First Baptist Church. The school began Monday and two meetings are being held each day, one at 8 in the morning which gives special attention to children, and one at 8:15 in the evening in the interest of the adult choir. The school will continue for two weeks, ending Friday evening, July 9.

Members of other churches of the town are invited to attend and it is hoped that the school will be of benefit to the entire community, according to announcement by Mr. Burgess.

Tonight, (Thursday) those who play the violin or wind instruments are urged to be present.

The program for the closing evening's program, July 9, will be announced in next week's issue of the paper.

#### Childress Band to Give Concert Today

The Childress school band will give a concert this afternoon in Crowell at 2 o'clock at some point on the square. The band consists of about fifty members and is under the direction of Paul Martin.

#### FUTURE FARMERS CHAPTER TO MEET TUESDAY NIGHT

The Crowell High School Chapter of F. F. A. will meet in agricultural room of the High School Tuesday night, July 6, at 8 o'clock, according to Walker P. Todd, instructor.

Mr. Todd requests that every member be present at this meeting as there are several matters of importance that will be dealt with at that time.

### Hughes Fish Wins News Writing at State FFA Meet

Hughes Fish won first place in news writing at the state F. F. A. leadership contest in Huntsville Monday, June 28, according to a telegram received Tuesday from Walker P. Todd, instructor.

Hughes placed second in the Area One meet held in Lubbock in May. Garrett Middlebrook and Marion Benham represented the Crowell chapter in debate but the results of this contest have not been learned at this time.

Mr. Todd and the boys left Huntsville after the meet and will visit in College Station and Galveston before returning to Crowell the latter part of this week.

### FOUR INJURED IN CAR WRECK NEAR CROWELL

#### Car Turns Over Twice After Hitting Cream Can

Four residents of Muleshoe were painfully injured when the car in which they were riding overturned twice about twenty-eight miles west of Crowell Saturday morning at 11 o'clock. The six occupants of the car, Mr. and Mrs. G. H. Barger, Mr. and Mrs. W. L. Swanson and Mrs. Cobb and 16-month-old daughter, were rushed to Crowell for medical treatment by the eastbound bus. They remained at the City Hotel in Crowell until Sunday afternoon when they were returned to Muleshoe by R. B. Barger.

The driver of the car attempted to straddle a cream can that was lying in the path of the vehicle, but could not clear it. A tire blew out when the car hit the can, rolling the car over sideways twice. It was presumed that the can fell from a truck, although no one saw it at the time it was lost.

Mr. and Mrs. Barger received the most painful injuries. They were riding in the front seat of the car. Mr. Barger, the driver, was pinned against the seat by the steering wheel and was injured internally. Mrs. Barger was thrown through the windshield and was severely cut on the face, legs and body. They were going to Wichita Falls to visit a sister who is in a hospital there.

Mr. Swanson's left shoulder was twisted and sprained, causing him much pain. Mrs. Swanson was not injured other than many bruises. Mrs. Cobb and daughter were not hurt. She was holding the baby in her arms at the time and both escaped injury. These three had intended to stop at Electra for a visit with relatives.

### UTILITIES CO. OPENS CONTEST FOR WOMEN

#### Prizes for Best Name To Take Place of "Housewife"

The name "housewife," as applied to modern West Texas women is old-fashioned, out of date, and no longer suitable, according to Jack Seal, local manager of the West Texas Utilities Company, who today announced a contest (Continued on Last Page.)

### Births and Deaths For First Half 1937 Drop, Records Show

The number of births and deaths in Foard County during the first six months of 1937 were seven less than that of the same period last year, figures taken from the statistics records in the Justice of the Peace office show.

There were 45 births and 22 deaths recorded as of July 1, 1937, and 62 births and 39 deaths in 1936.

#### Masonic Head

### New Officers Elected for Masonic Lodge

New officers for Crowell Lodge No. 840, A. F. & A. M., were elected at the stated meeting of the lodge held in the High School gymnasium June 21. The meeting was held in the gymnasium by special dispensation of the Grand Lodge of Texas and by permission of officials of the athletic department of the school. The next regular meeting of the lodge will also be held in the gymnasium while preparations are being made for a permanent meeting place. The Crowell Masonic lodge building was destroyed by fire on June 8.

At this meeting a building committee was selected composed of D. R. Magee, Henry Black, Walker Todd, J. R. Beverly, C. B. Graham and Claude Callaway, to work out future plans for the lodge to be presented at the next meeting. The new officers include Henry Black, worshipful master; Greenville Lanier, senior warden; Ernest Spears, tiler, and D. R. Magee, secretary. Mr. Magee is the retiring worshipful master and Claude Callaway the retiring secretary.

### Raymond Burrow New Agent for Magnolia

Raymond Burrow assumed duties Tuesday as wholesale agent for the Magnolia Petroleum Company for Foard County after buying the interests of George Hinds. Mrs. Mary Ennis Roberts has been employed by Mr. Burrow as bookkeeper for the wholesale department of the oil company and also for Raymond's Service Station and Raymond's Cafe.

#### LEAVE FOR TENNESSEE

Mrs. C. C. Abernathy and daughter, Mrs. Carra Cole, and Mrs. Cole's small granddaughter, Billie Jean Jones, left Sunday morning on the return trip to their home in Copperhill, Tenn. They had been here for several weeks during the harvesting of the wheat crop on their farm east of Crowell.

Mrs. Abernathy and Mrs. Cole will visit Mrs. J. B. Warren and family in Dallas and attend the Pan-American Exposition before going to Denton to visit friends. From Denton they will leave for their home.

About thirty years ago Mrs. Abernathy's husband, the late C. C. Abernathy, bought a farm in the Gambelville community and at the time he bought the farm he subscribed for The Foard County News and the paper has been making its weekly visits to the Abernathy home in Tennessee since that time. The farm is now being cultivated by Mack Gamble. Mrs. Abernathy and Mrs. Cole have been making regular visits to Foard County during the harvest season for many years.

### L. K. JOHNSON NO. 12 EXPECTED TO BE BROUGHT IN BY FIRST PART OF WEEK; IN LIME NOW

The L. K. Johnson No. 12, located in section 36, block "L" in the S. P. R. R. survey in the Texas Company field 20 miles southwest of Crowell, is expected to be brought in the next few days.

Cement was poured into the hole the latter part of last week at a depth of approximately 3,500 feet and the plug from the top of

### OVER 1,210,000 BUSHEL OF WHEAT THRESHED; 20 BU. AVERAGE YIELD; PRICE UP

### LOCAL TEAMS TO MEET IN DONKEY GAME

#### Stadium Wednesday Night at 8:30 Under Floodlights

The Future Farmers' team will meet a town team in a donkey softball game Wednesday night at 8:30 o'clock under the lights on the Crowell High School gridiron. The proceeds of this game will be applied on the stadium fund.

#### Trained Donkeys

The teams will be mounted on trained donkeys furnished by the Ranger Donkey Co. All but three have been in more than three hundred games and know how to follow the ball, but the members of the town team are a little skeptical as to whether or not following the ball is the only thing that the donkeys have been trained in.

#### Town Line-Up

The line-up for the F. F. A. team has not been announced and probably will not be until after their meeting Tuesday night but the line-up for the town team is as follows: Roy Mullins, catcher; Pat McDaniel or Jim Plunkett, pitcher; Jack Thomas, first base; Bill Gafford or Bob Lilly, second base; Marion Crowell, short stop; Roy Huckabee, third base; Lorraine Carter or Marvin McKown, left field; Leon Speers or J. M. Crowell, center field; Jim Riley Gafford or Charles Ferguson, right field; Walker P. Todd is manager of the F. F. A. team and Pat McDaniel and Gordon Bell are in charge of the town team.

#### First Night Softball Game

This will be the first night softball game ever to be played in Crowell and the first donkey ball game to be played here in several years. The managers stated that they felt the game would be enjoyed by the spectators as all of the players are well known and as the game is being played at night.

### Motor Caravan from Quanah Here Tuesday

A motor caravan of about fifteen cars boosting Quanah's Golden Jubilee celebration to be held Monday, July 5, visited Crowell Tuesday afternoon and invitations to the citizens of Crowell and Foard County to attend their celebration was extended. The boosters were accompanied by the Quanah High School band who entertained with several musical numbers.

The highlights of the day's program, according to the announcement, will be a 200-mile bicycle race around the court house square and the Indian program that will be given by Baldwin Parker and his Indians. The celebration will start at 4:30 o'clock Monday morning with a German dance and will continue throughout the day, ending with a street dance at 10:30 o'clock that night.

#### BIRTHS

To Mr. and Mrs. David M. Shultz, a boy, Leonard Everett, June 11.

A new wheat record for Foard County was established this week when the total number of bushels harvested passed the records set in past years. The average yield record was not broken but there were more acres planted in wheat this year than ever before in the history of the county.

The number of bushels of 1937 wheat delivered to the elevators in Foard County stands at a little more than 1,210,000 bushels at the close of the fourth week and as it goes into the fifth and probably the last week. About 200,000 bushels of wheat were threshed during the past week.

A total of 684 cars of wheat have been shipped from the county this year or approximately 1,026,000 bushels.

#### 20 Bushels Average Yield

With about forty or fifty thousand bushels still to be threshed, the average yield now stands at about 20 bushels per acre, as it is estimated that 60,000 acres were planted in wheat this year.

#### Price Goes Up

The price of wheat has jumped from 95c to \$1.04 during the past week and, according to wheat buyers, wheat has sold at \$1.00 and more all week. More wheat was sold during the past week than there had been sold during any one week since harvest opened. Wheat buyers state that the wheat already sold has averaged \$1.00 per bushel and if this was to hold true until all of the grain is sold the income to Foard County farmers would be well over one million dollars.

#### Harvest Nearly Over

Harvest has slowed down considerably during the past week and will gradually come to a complete stop as the threshers finish. The combines have completed their work in this county and left a smaller portion of the record-breaking crop for the threshing rigs to finish. There are only a very few rigs operating this year, but according to elevator men, the wheat threshed by them is testing around 60 and is a better grade (Continued on Last Page.)

### Records Show That Marriages Drop In First Half of 1937

Only nineteen marriage licenses were issued during the first six months of 1937, according to figures obtained from the county clerk's office, and several of these were obtained by out-of-county couples. This is nine less than the number issued during the same period last year.

Although Dan Cupid did not have very good luck in making matches, he more than held his own with the matches already made, as there have been only nine divorces obtained so far this year.

There were more licenses issued in February than any of the other five months. The number issued in each of the months are as follows: January, 4; February, 5; March, 4; April, 0; May, 3; June, 3. The only day that more than one license was written was February 13, when two were issued. The first license for the year was dated January 2 and the last one for the first half of 1937 carries the date of June 26.

### Scholastic Honors Announced for Two Foard County Boys

Among scholastic honors announced for John Tarleton College students by Acting Registrar Morton P. Brooks this week, two went to students from Foard County.

Tom Ray Roberts of Crowell was named a Tarleton Distinguished Student because he earned as many as 81 grade points during the 1936-37 session. He was also named to the second semester honor roll.

Earl Weldon Hammonds of Thalia was named to the third preliminary honor roll, which is composed of students who make no grade below 80 during the specified preliminary period.

#### RECOVERING

Decker Magee, who has been seriously ill for two weeks following an attack of pneumonia, is reported to be recovering satisfactorily.

### Items from Neighboring Communities

#### GAMBLEVILLE

(By Opal Carroll)

Mrs. G. C. Key of Rayland and Miss Rebecca Shultz, who has been attending school in Fort Worth, and Mrs. C. D. Haney and son, David, of Five-in-One visited Mr. and Mrs. D. M. Shultz Thursday morning.

#### French Terms

French cooking terms in common use include: Cafe noir—black coffee; aux marrons—with chestnuts; petits fours—small, dainty cakes (freely translated); garni—garnished; bamba glace—a fancy, molded frozen dessert usually composed of one ice and one or two kinds of ice cream.

#### INTERESTING FACTS OF THIS AND THAT

The smallest capacity at which a news print paper mill can operate is 150 tons a day.

Canada leads the world in the production of news print paper.

Because America has not reforested her cut timber land as has Canada, we now pay Canada \$170,000,000 a year for news print pulp wood.

Bonding companies in a study of 400 women defaulters report that one out of every ten defaulters runs away, while two of every 100 male embezzlers absconds.

American business loses \$200,000,000 annually to embezzlers.

Education in first aid and artificial respiration by the Red Cross has lowered the drowning rate from 10 to the 100,000 to 6 to the 100,000.

There is \$30,000,000 invested in 100 dude ranches in the states of Wyoming and Montana.

#### Congress Cannot Adjourn Its Obligations

The Seventy-fifth Congress is predominantly Democratic. It owes a sacred duty to the American voters who smashed political party lines and elected it. In all honesty and good faith this duty must be performed. That duty is to stay in Washington until Congress has passed a full program of progressive legislation calculated to give America, not merely temporary recovery, but to provide a firm basis for the permanent solution of her problems.

We have arrived at a social and economic crisis in America which involves the rights of every man and woman who serves his fellowman.

We recognize the community of interest of all the creators of wealth—the farmers, and the workers in factory and shop, mines, transportation and distributors of the things men use. Their interests are the paramount interests of American life. To enact laws to increase their proportion of the national income is the primary duty of Congress.

In the past three elections, the people voted decisively to go forward, not backward. The attempt to limit our work to getting back to the prosperity of '29 is a mistake. That prosperity was temporary and more apparent than real. We must enact such measures as will assure us against future panics and depressions and provide private and public security.

Powerful interests are carrying on a propaganda of great intensity to get the Congress adjourned quickly without enacting the legislation to which every Democrat is committed. This is no time to bend to the demands of the enemies of constructive legislation or to listen to the counsel of timid friends. If we should retreat under this pressure we would be traitors to the peoples' interest and justly deserve the condemnation which we should certainly receive. This Congress cannot adjourn its obligations. The minimum legislative program which must be considered at this session of Congress is the following:

- (1) A federal minimum wage and maximum hour law.
- (2) As a necessary companion measure to the wages and hours bill the following measures for agriculture:
  - (a) Indefinite extension of the 3 1/2% interest rate on farm loans and mortgages.
  - (b) Legislation assuring the farmer cost of production plus a fair profit.
  - (c) Legislation which will at least provide a sound attack in solving the problem of farm tenancy.
  - (3) A large-scale, national program of slum clearance and low-cost housing.
  - (4) Constructive amendments to the Social Security Act, to broaden its scope and especially to liberalize its age-old pension provisions.
  - (5) The President's suggested measure setting up eight regional authorities to plan and control the conservation and development of

our natural resources in the public interest.

(6) Government ownership of the twelve Federal Reserve banks.

(7) Adequate protection against floods to the people of the Ohio and Mississippi Valleys and other chronically flooded areas.

(8) Legislation to advance the decennial census to 1938 and to provide that the census include definite data of employment and unemployment, and in addition to a factual survey and study of unemployment in the United States with a report to Congress as a basis for future legislation.

(9) Passage of the President's plan for reorganization of the Executive Department.

(10) We stand with the President for judicial reform.

In addition to this immediate legislative program, we believe the first duty of Congress for the next session will be the scientific revision of the Federal Tax Structure.

No adjournment until our work is done. Our aim is full production, full consumption, and a job for every man and woman who wants to work.

The writer is a member of the steering committee of 15, representing the 123 members of the House, who believe the above program, in keeping with the Democratic platform and the rule of right, should be speedily enacted at this session of Congress, before adjournment.

The Calendar—

On Monday, the House passed a new Railroad Retirement bill and on Thursday, passed a tax bill upon the railroads and employees, making it effective. Tuesday, the House passed Mr. Sumner's "good behavior" Judge bill, setting up an alternative manner to try Federal Judges charged with misconduct.

Wednesday, the House defeated the Indian Claims Commission Bill and Thursday, passed the Municipal Bankruptcy bill. The Senate on Monday and Tuesday debated and finally passed the Relief bill, which now goes to conference.

On Wednesday, the Senate passed the War Department Appropriation bill, the Nuisance Tax bill and these measures now go to conference. On Thursday, the conference committee finally agreed on an Agriculture appropriations bill and this measure was finally called up and considered and approved in the House on Monday.

On Wednesday, the Senate passed the War Department Appropriation bill, the Nuisance Tax bill and these measures now go to conference. On Thursday, the conference committee finally agreed on an Agriculture appropriations bill and this measure was finally called up and considered and approved in the House on Monday.

### Brief Bits of News From Here and There

In 1928 forty-five per cent of America's cotton crop was exported. The decline of world cotton surpluses even though acreage was not increased. Cotton production in the United States is a tariff barrier as reasons for the loss of much of our exports.

Barney Oldfield, the speedist, is now preaching safety driving. He says that safety races have lost their usefulness to the motor industry.

Every large automobile factory has a testing grounds on which to test its cars. The grounds possess every known actual road condition that the cars will meet in actual use.

In the twenty-four years of history only two men have won the Indianapolis Memorial Day automobile race more than once, Tommy Milton in 1928 and 1929, and Louis Meyer in 1928, 1933 and 1934.

It is predicted that when television arrives the simplest ceiling sets will cost between \$100 and \$600.

### QUESTIONS AND ANSWERS

1. Who won the Memorial automobile race at Indianapolis?
2. How many miles did the Indianapolis Memorial Day automobile race cover?
3. How many were in attendance at the Indianapolis Memorial Day automobile race?
4. On what day was Tommy Warfield and the duke of Warfield married?
5. What was the name of the German cruiser whose sinking created a critical situation in Europe?
6. What two well known stars are playing the lead parts in "Parnell"?
7. What famous suspension bridge was opened to traffic in 1928?
8. What is the name of the band of Amelia Earhart that is flying around the world?
9. From what point did Amelia Earhart take off June 1 for flight around the world?
10. Who performed the marriage ceremony of the Duke of Windsor and Wallis Warfield? (Answers on Page 3.)

Celebrate Fourth Carefully to Avoid Dangerous Injuries

Austin.—Taking note of the approach of the great patriotic National Holiday, July 4, which this country has celebrated for one hundred and forty years, Dr. Geo. W. Cox, state health officer, calls attention of the people of Texas to some of the dangers of careless celebrating.

It is not alone the wounds received from explosives that increase our death toll. Injuries from automobile accidents, splinters, nails and other penetrating wounds in which dirt may be carried into the skin heighten the hazard of tetanus or lockjaw. Such wounds should be promptly treated by a physician.

If the day's pleasure includes a swim, caution should be used and no attempt made to do more than your strength will permit. If a drowning takes place, artificial respiration should be started at once and continued until a doctor arrives.

mer West Texas cowhand, is president of the organization and will preside at the July meeting at which new officers will be elected. Chas. E. Coombes, Stamford, secretary, reports that 34 new applications for membership already have been received.

LIVING UP TO MY AD Giving you tops in Mileage I know the trouble. So many oil ads yell mileage, that you can't tell one way or another. I don't want my own ads to be in that class, so I'd like you to know all I'm staking, when I personally recommend Conoco Germ Processed oil to you. In my case, you see, I'm the owner of my business. And there's nothing makes repeat customers for me like my Germ Processed oil . . . or I ought to say, the long mileage it gives you. The patent Germ Process makes this oil get fastened real firm to the bearings and cylinders and other parts—as if they'd been built with an actual plating of oil that can't separate . . . can't thin out and burn right up. Neither is it going to run down every time you stop. Then you can't make any "dry starts" with Oil-Plating, and right there is where engineers say you will end a good half of all the wear you used to get in Summer. The less wear, the less oil your engine eats. You'll get on to this yourself, from your cool quiet Oil-Plated engine. And that's how I make another good friend for my Conoco Germ Processed oil. CONOCO GERM PROCESSED OIL from Your Mileage Merchant

**SUSTAINING ENTHUSIASMS**

When we think of hobbies we usually think of side lines which yield fun. "Fun," someone has said, "is when happiness wags its tail."

In thinking of "Sustaining Enthusiasms" we are thinking of something a bit better than frivolous fun. "Sustaining Enthusiasms" may yield fun, but they go one step farther. They also yield abiding satisfactions.

A man who invests time or talents or money in work for boys of one kind or another may get a lot of fun as he goes along. However, as he realizes the long-time effect of his efforts as one life touches another down the years, he must have some abiding satisfactions.

To such a man his Boys' Work is a "Sustaining Enthusiasm." It is an enthusiasm which does not disappear easily like smoke on air when the winds of adversity buff him around a bit. He not only sustains his interest in it but in blue moments when he is prone to think his life does not amount to much, it sustains him.

So it is with men and women who through club work, social welfare work or who through church, school, lodge, or individual effort try to raise human standards.

A man of means who likes to help young people realize their educational or business dreams can develop his activity in this direction into a sustaining enthusiasm.

Sustaining Enthusiasms can be those ideals, high purposes and assumed obligations whereby the world is made a more interesting and better place. Moreover as the individual develops these enthusiasms he or she often finds that thereby they are being raising their own powers and that their usefulness has added in many ways to their zest in living.

It is a long way through the "leaner" to the "neutral," to the "lifter" class. Sustaining enthusiasms help people climb into the highest human class. In this class are to be found folks who are materially wealthy and materially poor, those who have had much schooling and those who have had less, but all become in time, rich in the values that abide—which neither moth nor rust can corrode and which no thief can steal.

**IT CAN'T BE DONE**

You can't scratch your ear with your elbow or tie an iron bar in two with a cake of soap. To get along without the rest of the community. According to Edgar Guest a fellow who thought he could, threw a stone through a

**BURSEY IMPLEMENT COMPANY**

window. A lawyer had to be called in to protect him. His mother took sick over it and a doctor was called. He called a nurse. Brothers and sisters were sent for. This entailed the services of telephone operators, trainmen, grocery clerks, laundresses and so on. The person who would live independent of the rest of his fellows would find, "It can't be done."

**SENTENCE STIMULANTS**

Any smart alec can take chances, but it is smarter to be safe. Those who are poor in politeness are seldom rich in personal attainment.

June greens should not expect to celebrate July 4th as Independence Day—this year.

**WHAT WE THINK (By Frank Dixon)**

If marriage is a lottery, as I've often heard, it must be the gambling spirit in men that cause them to try it a second time.

My neighbor, who is sending a boy through college, told me yesterday that he never really understood until his son started to college what was meant by a liberal education.

My state, which does a lot of howling about taxes and the cost of good roads and its schools, spent over \$7,000,000,000 for cigarettes last year.

Some folks are terribly hard to please. The other evening my wife and I went over to our neighbors to spend the evening. They were new-comers in the neighborhood and we felt we would be doing the nice thing by making a friendly call on them.

After we got home my wife said: "Well, that woman sure made me tired. She sat there the whole evening and bragged about her husband. She just fixed it so I couldn't get in on the conversation at all. There was nothing I could say. I felt like suggesting to her that she might have returned the favor and bragged on her own husband, but I didn't."

She even told us that the only time he ever came near doing anything for which she could criticize him was the day they got married. On this occasion he arrived late.

After we got home my wife remarked about that as the one flaw in the first perfect man she ever saw. My wife is critical when it comes to men. "The only trouble," she said was "that on that occasion he was not late enough."

At any rate I feel he is going to be a disappointment to us. I don't think any man can quite live up to the recommendation she gave him that evening.

Times sure do change. Edward abdicated the English throne so that he could marry the woman of his choice, but King Solomon, with a corral full of wives, continued to hold on to the throne when he fell in love with the Queen of Sheba.

There is nothing that is quite so thorough in its appraisal and quite so pitiless in its criticism as the look one woman gives another whom she has seen for the first time in a brand new outfit. It starts in at the heels and with one sweeping glance makes a complete inventory without missing a single item.

An open mind and a closed mouth may be part of the same head.

**NOBODY'S BUSINESS**

BY JULIAN CAPERS JR.

Austin.—Whether the fee system of paying county and district officials for their services shall be restored, displacing the salary system voted by the people two years ago as a constitutional amendment, promises to be by far the most interesting of the constitutional questions voted on in August. A vigorous campaign for and against restoration of the fee system is in prospect, with county officials divided in their support. Generally speaking, officials in the smaller counties favor retention of the salary system and will seek to defeat the new amendment to bring back the fee method, because they have been able to earn larger salaries than the fees formerly yielded. The larger county officials favor the fee system, for the opposite reason. Gov. Allred, who campaigned vigorously against the inequitable fee system when it was abolished, has changed his position, and announced he will make speeches in favor of returning the fee system, his reason being that he was "honestly mistaken" and he finds the salary plan too costly to the state and the counties. With only half the normal total of poll tax payments made in this "off" political year, the decision—whatever it is—will be a minority one, with a light vote recorded. Atty. Gen. Bill McCraw's office set at rest concern over the interpretation placed upon the amendment proposal by some—to the effect that the members of the legislature might fix their own pay if it were adopted—when his office handed down a conference opinion holding that pay of legislators is fixed under another section of the constitution and will not be affected by adoption or rejection of the fee amendment proposal.

Gov. Allred, despite critics in the senate, demonstrated that he could get results from the legislature in special session, when the solons put through, at the \$150,000 special session, bills repealing race horse betting, prohibiting dog races and tightening up the laws against bookmakers and other forms of gambling. The governor can control the subjects considered, proved costly but successful, and the governor hinted that it may be used to put through his platform pledge for utility rate regulation, in a speech at Silsbee, when he declared Texas has the highest telephone rates in the South, and said he would call special sessions until his program was scheduled for early September that will certainly require all of a 30-day session to raise sufficient new revenue, this indicates at least two, possibly more, special sessions in the fall.

**Third Term Talk**

Third term talk in behalf of Allred was revived here this weekend with publication of a series of stories, obviously inspired, in which Secretary of State Ed Clark, close political adviser of the governor throughout his public career, has been acted upon, many here believed the governor's hope of landing the federal judgeship is waning. Connally told friends here the president's plan may be amended to provide for "floating" federal judgeships, to take care of crowded districts, thus eliminating necessity of creating the new Houston judgeship altogether. Allred unquestionably has thoroughly enjoyed being governor, particularly during the Centennial year with all its honors and public acclamation, and, if he believed he could shatter precedent and win a third term, might easily be induced to run. Letters and resolutions from the church and moral element of voters, and from those unsympathetic with the use of violence in strikes, have been coming to Allred in large numbers, and have encouraged him. Meanwhile, Attorney General Bill McCraw is campaigning actively throughout the state, and the return this week from Europe of Col. Ernest O. Thompson, railroad commissioner, regarded as a certain candidate, is expected to add impetus to already highly interesting gubernatorial situation. Jim Ferguson has hinted broadly in recent weeks that Mrs. Ferguson may seek a third term, too.

**A Correction**

Lobbyist Carl C. Hardin, former senator from Stephenville, has sent to this columnist a statement denying the accuracy of a report, circulated in Austin and chronicled in this column recently, to the effect that Hardin lobbied the bill prohibiting dentists from advertising, on a contingent fee basis, and would have lost his fee had the governor failed to sign the bill. "I was paid a regular fee, whether the bill was passed or not, or whether the governor signed or failed to sign it," said Hardin. To correct any possible injustice inadvertently done Hardin by publication of the report, his

**TEXAS FINDS "TOURISM" ITS SECOND LARGEST INDUSTRY**

Dallas.—(Special)—Texas, "the state that has everything," has been taking stock of itself as a merchant of "tourism," and has found that its traditions, scenery, hospitality and climate are just as marketable—for hard cash—as the cotton, wool, oil, meat, sulphur, gas and spinach that it has been supplying the rest of the country all these years.

Now entering its second year in the world's fair business, Texas finds that tourists constituted its second largest industry in 1936—the \$446,000,000 that tourists spent in the state last year being topped only by the \$450,000,000 oil industry of the state. Agricultural crops, at \$384,000,000, and cotton, at \$210,000,000, ranked third and fourth.

Furthermore, increased auto touring into and within the state accounted for a gain of \$4,000,000 in state retail gasoline tax revenue alone, more than liquidating the state's \$3,000,000 appropriation for the 1936 Centennial—a cool million profit for the state's own coffers right there.

As a result, says a report of the All-South Development Council, sentiment is fast crystallizing throughout the state in favor of a long-term state advertising and publicity program, to continue and consolidate the gains scored through the Centennial and Pan-American expositions.

A major point made by Lieut. Gov. Walter Woodul, chief proponent of a five-year, \$3,000,000 advertising plan, has been that not only would the resulting tourist revenue pay dividends on the cash investment, but that permanent new residents, among them industrialists looking for sites for decentralization and expansion, would accrue and, he says, "We need more people and capital to give us the push."

That Texas can get her share of the four-and-three-quarter-billion national tourist crop by dint of thorough advertising was proved by the "take" of Centennial year, bulwarmed by analysis of the things Texas has yet to show the nation in the way of parks, caverns and playgrounds. That hard-headed industry will be as easily lured, however, in the face of Texas' unstable

denial of its accuracy is herewith reported.

**Race For Treasurer**

Serious illness of State Treasurer Charley Lockhart has led to speculation here as to whether he may seek re-election next year, and, with the treasurer's salary boosted to an attractive figure by the voters, at least two other candidates are reported ready to enter the contest. Lockhart has been a most successful campaigner, in past years, always having opposition, and always winning

tax situation, is open to serious doubt, says the Council's report. Industrialists and investors can not help noting that, while Texas' vast natural resources constitute the proudest theme in her advertising, there is as yet no visible change in the almost traditional tendency of the state government to depend more and more on natural resource industries to shoulder its mounting revenue burdens—to say nothing of threatened new franchise imposts.

Whether Texas' natural advantages are so vastly superior to those of other states now taking a diametrically opposite attitude toward industry—notably other Southern states—as to insure Texas as getting her rightful share of major industrial decentralization, is a question causing many Texas business leaders to advocate that a more definite, reassured long-time policy in this respect be outlined and adopted, as "the very best form of advertising" for industries, the report concludes.

**Rats Cause Fifteen Million Dollar Loss in Texas Last Year**

Austin.—Texas sustained a fifteen million dollar loss last year, on account of rats, declared Dr. Geo. W. Cox, State Health Officer. The figure is a very low estimate based upon the probable number of rats in the State, two for each person. No doubt many suffer losses that would pay their taxes, and this does not take into consideration the losses from diseases, time and money, caused by the rat.

Typhus fever is on the increase in Texas, said Dr. Cox, and the rat is the cause of its spread. Old World typhus fever has a high death rate, while the type we have in Texas, sometimes called Brill's Disease, has a low death rate. It occurs among persons who work or live in rat infested buildings. It was the observation of this fact that led to the discovery that rats are carriers or transmitters of the disease. It appears that the rat suffers attacks of this form of typhus fever and that the fleas harbored by the sick rat bite man and thus human infection results.

Although this disease is not commonly fatal, it cannot be considered lightly. The intense headache, the high fever and the great mental depression are its most unpleasant features. Like in sea sickness, the patient's greatest fear is that he is not going to die. The illness lasts about two weeks.

The control of typhus is very difficult and it depends upon the extermination of rats and this is no easy matter. Trapping and poisoning help, but the best results are obtained by starving the rats. This is done by having all buildings where food is stored rat-proofed. The State Department of

Let us show you what we mean by individual insurance service. Don't trust to luck when dependable insurance costs so little.

**HUGHSTON - SPENCER AGENCY**

**Praises Fiesta**

West Texas provided the greatest attendance of any section at the Fort Worth Frontier Centennial last year and no doubt will flock this year to the Fort Worth Frontier Fiesta by the tens of thousands, declares D. A. Bauden, manager of the West Texas Chamber of Commerce.

"We regard the show with personal interest and pride because it is presented in Fort Worth, the gateway into the West Texas empire," he said. "The development of Fort Worth into the amusement center of the Southwest means a great volume of tourist travel through West Texas cities."

Bauden pointed out that the Agriculture will be glad to assist communities in their program for the extermination of this pest.

West Texas Chamber of Commerce Building last year at Fort Worth exposition was visited by 700,000 persons and an even greater number is predicted for season when the WTCC will present "West Texas, Old and New" with approximately 150 city building displays in the building.

**TID-BITS OF TEXAS TOPICS**

A 650-acre deposit of coal near Palestine, Texas, will provide the raw material for a new line dye plant at Houston, the first in the Southwest, reports the All-South Development Council. These dyes, expected to be of unusually high grade, will be used as the base for paints and inks. The deposit, to be mined at an estimated rate of 100 tons a day, said to be sufficient to last 100 years.

New industries utilizing natural resources constitute the surest base for the problem of expanding employment opportunities for Texas, says, citing the inability of agriculture to absorb further employment burdens, as reflected in a fact that only 35 per cent of Texas employed now work on farms compared to 60 per cent in 1910. Oil field work also is near the saturation point, the Council reported.

Oil production taxes in Southwest Texas now average 15¢ a barrel, against an average of 10¢ to the producer of about 30¢ per barrel. Constant threats still higher natural resource taxation, the All-South Development Council reports, coupled with diminishing returns, will diminish incentive for exploration and development of many potential producing areas.

One cannot brag his way to prosperity.

### Ladies' Shop Will Be Moved Next Week to New Location

The Beverly Shop, ladies ready-to-wear store owned and operated by Mrs. J. R. Beverly in the Fox building on the north side of the square for several years, will be moved the first of the week to the Ringgold building, first door north of the Fox-Way Food Store. Mrs. Beverly has also operated a store in Paducah during the first part of 1937 and this stock will be consolidated with the Crowell store in the new location.

The building is being freshly painted and this work will be completed by the latter part of the week.

### CARD OF THANKS

We wish to thank our friends and neighbors for the kindness shown us in the illness and death of our loved one.

Mr. and Mrs. J. V. Allen and Family.  
Mr. and Mrs. E. B. Little and Family.  
Mr. and Mrs. W. R. Little and Family.  
Mr. and Mrs. H. B. Little and Family.  
Mr. and Mrs. J. E. Little and Family.

### POSTAL RECEIPTS INCREASE

Austin, Texas, June 30.—Postal receipts in Texas during May were slightly below those of the preceding month but substantially greater than during May, 1936, according to the Bureau of Business Research of the University of Texas.

Reports from 35 representative Texas cities show total May receipts of \$1,206,518, a decline of 3.4 per cent from the preceding month but an increase of 10 per cent over the corresponding month last year, the report said. Cities in which receipts in May were greater than in both comparable months were: Amarillo, Corpus Christi, Fort Worth, Galveston, Jacksonville, Palestine, and Paris.

### Baylor University

From this central section the way is clear to Dallas and Fort Worth, which are embarking on their second year as summer entertainment centers. At Dallas Pan-American hold forth in the form of the Greater Texas and Pan-American Exposition, and at Fort Worth Billy Rose is managing a "bigger and better" Frontier Fiesta.

### CARD OF THANKS

We take this space to express our appreciation to our neighbors and friends for the many kindnesses and helpfulness through the long illness and death of our dear son and brother, Martin Owens.

Mr. and Mrs. M. L. Owens and Eugene Owens.

### KNOW TEXAS

Denton.—Most cosmopolitan of all Texas cities is San Antonio, with its rich blend of the old and the new, and its mixed populations of Spanish, German and other nationalities. Numerous fiestas and patriotic celebrations have helped to win for it the name, "Playground of Texas."

North of the city are the cluster of German towns that have always been a delight to tourists. Freshly scrubbed New Braunfels, the famous old town founded by an immigrant German prince, is situated on the banks of the Comal River. Camping spots around these springs can hardly be surpassed in beauty and comfort.

Kerrville is also a favorite retreat for those who crave the outdoor life, and many kinds of commercial camps are located near there. After passing through another old German town, Fredericksburg, the traveler is ready to enter Austin.

High spots of Austin which the tourist cannot afford to miss are the State Capitol, the great university, various historical points and ice-cold springs. Turning north again, one finds a good highway to Waco, where fishermen head to Lake Waco, picnickers take in Cameron Park and scholars go to

**BITS OF PHILOSOPHY**  
(C. I. A.)

All one wants is too much—all he needs is sufficient.

Don't try to make your conscience the guide for others.

A vacation should follow—not precede—work.

A busy tongue introduces an idle brain.

Better work your way through college than boister your way through life.

Better sit still than jump at conclusions.

As a business asset, a forced smile is like cold coffee on a winter morning.

## ANNOUNCEMENT

Sunday, July 4, 1937. Subject: "God."  
The public is cordially invited.

**Eastside Church of Christ**  
Elder Alvin A. Mitchell of Vernon will fill his regular appointment at the Eastside Church of Christ next Sunday at 11 a. m. and 8:15 p. m.  
Bible class at 10 a. m.  
Young people's meeting at 7:30 p. m.  
—Reporter.

**Catholic Church**  
Services will be held at the Crowell Catholic Church next Sunday at 9:30.  
E. J. GERLICH.

**Christian Science Services**  
"God" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist on Sunday, July 4.

The Golden Text is: "To the only wise God our Saviour, be glory and majesty, dominion and power, both now and ever" (Jude 1:25.)

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Thine, O Lord, is the greatness, and the power, and the glory, and the victory, and the majesty; for all that is in the heaven and in the earth is thine; thine is the kingdom, O Lord, and thou art exalted as head above all. (1 Chronicles 29:11.)"

The Lesson-Sermon includes also the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The Scriptures imply that God is All-in-all. From this it follows that nothing possesses reality nor existence except the divine Mind and His ideas. . . . Allness is the measure of the infinite, and nothing less can express God" (pages 331 and 336.)

## Two Minute Sermon

(By Thomas Hastwell)

Where Can We Find Such a Man? To me one of the most dramatic incidents recorded in the Old Testament occurred when Joseph was called before Pharaoh to interpret the king's dream. It is dramatic because of the sharp contrasts the incident introduces. Here was Joseph, a foreigner, in prison in Egypt, charged with a gross breach of trust. Here he stands in his prison garb, in the presence of a king, in whose hand lay the full power of life and death. When Joseph gave his interpretation of the dream and his plan, the king, recognizing the special requirements necessary for this unusual task, turned to those about him and asked: "Where can we find such a man in whom the spirit of God is?" The question is age old. Every day the situation presents itself that calls for a man of honesty and integrity and character. In government, city, state and national; in business, big and little, the call rings out today just as clearly as it did that day in the council hall of Pharaoh of Egypt. "Where can we find such a man in whom the spirit of God is?"

Training received by youths on a National Youth Administration cafeteria project in the San Antonio Public Schools, made it possible for 10 girls to obtain employment as regular cafeteria workers and 18 others to secure jobs as waitresses and other positions which they could not have secured without this experience. Hirschfeld Johnson, assistant district supervisor, has reported to J. C. Killam, State NYA Director.

What makes some men popular is the fact that they haven't any opinions and can conscientiously agree with everybody.

Miss Inis Lewis is spending a few days this week in the home of Mr. and Mrs. E. T. Evans.

### THOUGHTS OF SERIOUS MOMENTS

Adversity is sometimes hard upon a man; but for one man who can stand prosperity, there are a hundred that will stand adversity.—Thomas Carlyle.

It is a good thing to be rich and a good thing to be strong, but it is a better thing to be loved by many friends.—Euripides.

He is happy whose circumstances suit his temper, but he is more excellent who can suit his temper to any circumstances.—Hume.

It is difficult to be always true to ourselves, to be always what we wish to be as long as we feel that, as long as we do not surrender the ideal of our life, all is right. Our aspirations represent the true nature of our soul much more than our every day life.—Miller.

### HOUSEHOLD HINTS

When doing top-of-stove cooking on a gas or electric range, fuel can be saved by turning the flame or heat down after the boiling point is reached so cooking will be maintained just at that point. Squeaky door hinges can be silenced with a drop or two of oil or a little soap.

Peeled apples can be kept white until used by keeping them immersed in water to which a little salt has been added.

Double Boiler Meat Loaf: In a large bowl, combine 1 1/2 lbs. of ground beef, 1/2 cup finely grated onion, 1/4 cup finely grated green pepper or parsley, 1/4 teaspoon pepper, 1 1/2 teaspoons salt, 1 cup finely rolled cracker crumbs, 1 egg, 1 cup milk, 1 tablespoon Worcestershire sauce, mix with a spoon or

### SAFETY SLOGANS

In approaching a number of calves, cattle or children beside the road slow down. You can never tell when one of them will suddenly take a notion to cross your path.

Railroads have a rule that permits no visitors in the engine cab to direct the engineer, yet some car drivers look about and visit although they had no responsibility whatever in the matter of handling the car.

If only the people who have really important business to look after got in a hurry there would be no traffic accidents.

In driving along a highway on to which country roads lead, every lane and every road is full of danger. There is no telling when a car may rush out of a side road without warning. Not all careless and thoughtless drivers drive the main highways.

**Explosion on Wall Street**  
An explosion on Wall Street, New York City, occurred on September 16, 1920. Thirty were killed, 100 injured and property was damaged to the extent of \$2,000,000.

hands until thoroughly blended. In top part of double boiler put 1/4 cup tomato sauce, press in 1/2 of the meat mixture, add another 1/4 cup of tomato sauce, press in the remaining half of meat mixture, pour over all 1/2 cup tomato sauce. Cover. Steam over boiling water three hours, or until done. Remove to hot platter, pour sauce from double boiler over loaf. Serves six.

## Know Texas

Denton.—A surprise awaits the stranger who travels from the Western plateaus into the Rio Grande Valley. Without warning the desert suddenly becomes miles and miles of precisely planted fruit trees, vegetables and other greenery.

Driving southward from Del Rio the tourist can relax on a paved road through Uvalde and down to Laredo, one of the important gateways from Texas to Old Mexico. In this region are the first evidences of one of the most remarkable agricultural developments in America.

Converting the waters of the Rio Grande to irrigate these fertile soils made the valley a leader in the nation's citrus fruit and winter vegetable production. During any month of the year the sight-seeer can view well-cultivated fields from the palm-lined highways, since the climate makes the entire valley suitable for year-round agriculture.

After the ride down through Hebronville, San Diego, Falfurrias and Edinburg, one finds himself in the Lower Valley. Although this section teems with industries and trade, it nevertheless presents a rather sleepy countenance to the world, and the visitor soon learns the importance of "siestas."

Brownsville, the most southern point in the United States, is the commercial center of Cameron County, which leads Texas in the value of its truck crops. It might also lead in the beauty of its crops, since nothing else quite equals the endless, rhythmical

rows of citrus orchards and the abundance of well-planned gardens.

Near Brownsville is Matamoros, another introduction to Mexico, and no trip to South Texas is complete without one or two visits "across the border."

## THIS WEEK IN HISTORY

June 28—First transcontinental train on the Canadian Pacific railway left Montreal for Vancouver, 1886. Peace Treaty of World's War is signed, 1919.

June 29—Present naturalization law, placing all courts of naturalization under federal supervision, passed by congress, 1906. Maitland-Hegenberger completed non-stop flight California to Hawaii, 1927.

June 30—Great fire on Hoboken, New Jersey, docks, with loss of 200 lives, 1900. Tax on tea, 1767.

July 1—Battle of Gettysburg; Confederates defeated after three days' fighting, 1863. First railway trains reached Washington, D. C., 1835.

July 2—President Garfield fatally shot by Guitreau. He died September 19, 1881. Senate reception room of United States capitol at Washington wrecked by bomb, 1915.

July 3—First Normal school in America opened at Lexington, Massachusetts, 1839. Battle of Gettysburg, 1863.

July 4—First gasoline vehicle placed on road in "horseless carriage" race at Chicago, 1894. Declaration of Independence, 1776.

## Your Horoscope

June 28, 29, 30—You are sympathetic, kind, fond of and have excellent taste in your reaction. You are loving and peep love and are not often appointed. You are fond of precision and renown, are secretive, and often times, get a very fiery temper. You gain and impart information.

July 1—You have a strong and can be very dominating, are devoted to those you love, loving, kind and true.

July 2—At times you are a resolute and overbearing, show much persistence and your undertakings and cannot easily be conquered. You have great love for the mysterious, your intuitions are very strong.

July 3—You are rather and reticent at times, and very dependent. You have much talent, and are fond of travel.

July 4—You are a capable er and people know only what you want them to about your life. You are careful, have self control and are ready to those you are interested in.

## The "Cocktail"

The expression "cocktail" is back to cock fighting days. Spectators used to toast the rooster with a drink containing as many ingredients as there were feathers left in its tail.

## First Woman's Medical School

The first woman's medical school in America was organized in Boston, in 1848, had 12 pupils, was known as the Boston Female Medical school.

# ATTENTION

## TAXPAYERS of CROWELL INDEPENDENT SCHOOL DISTRICT

For your information, interest and penalty is not being remitted on delinquent taxes, nor has any reduction been made in the original amount of the tax.

Our interest and penalty rate is the same as the State and County and has been and will be collected from all alike.

We are endeavoring to put our school on a cash basis and with the co-operation of the delinquent taxpayers we can do it. We have paid lots of honest debts in the last twelve months, but still owe some, which we are very desirous of paying. We owe our teachers around \$3,000.00 on this past term and we owe the Crowell State Bank, which has helped us wonderfully during the past few years in weathering the storm. Our teachers should be paid as well as our bank, and with your help they will be paid.

## When You Think of Paying Taxes— CONSIDER YOUR SCHOOL FIRST

## Miss Juanita Hunter and Robert J. Long Married Sunday, Ceremony Read at Margaret M. E. Church

On last Sunday at high noon at the Margaret Methodist Church the wedding of Miss Juanita Hunter and Robert J. Long of Crowell took place with impressive rites at which Rev. Edgar Irvine, pastor at Margaret and Rev. M. G. Brotherton, a former pastor, officiated.

The double ring ceremony was said before an altar of ferns, gladioli and baby's breath.

As a prenuptial solo, Mrs. W. A. Dunn sang, "I Love You Truly." She was accompanied by Miss Emma Belle Hunter, cousin of the bride. Miss Hunter played Lohengrin's Bridal Chorus as a processional.

The bride had as her attendant, her sister-in-law, Mrs. T. B. Hunter, of Oklahoma City. The groom had the brother of the bride, T. B. Hunter, as his best man.

Lang's "Flower Song" was played by Miss Hunter as a recessional.

The bride wore a "Wallis" blue chiffon dress, made redingote style, the coat being of dusky pink chiffon. Her accessories were in the pink shade. She wore a corsage of pink carnations and sweet-peas. Her going-away suit was of light navy blue crepe with an egg-shell linen coat and accessories to match. The matron of honor wore a lace dress of ashes of roses with hat and matching accessories. Her flowers were pink carnations.

Following the ceremony the bridal party repaired to O'Connell's Lunch Room for a wedding breakfast where covers were laid for twenty-two guests. The bride cut a pretty two-tiered pink and white wedding cake.

Mrs. Long is the daughter of Mrs. Mary F. Hunter of Margaret. She was graduated from High School at Plainview.

Mr. Long is the son of Mr. and Mrs. J. F. Long of Crowell and has been reared in Foard County. He attended Crowell schools and graduated from John Tarleton College at Stephenville.

The couple left immediately for a wedding trip to a number of

eastern cities and on to Canada. Out-of-town guests present for the wedding follow: Mr. and Mrs. T. B. Hunter of Oklahoma City, Mr. and Mrs. Clifton Lindsey of Monah, N. M., Mr. and Mrs. Ben Reynolds of Oklahoma City, and Rev. and Mrs. M. G. Brotherton of Vernon.

## Former Thalia Girl Married in Vernon

Miss Mary Grace Shultz, youngest daughter of G. A. Shultz of Thalia, was married June 9, to Pete Shives of Vernon. The wedding ceremony was performed at the Presbyterian manse in Vernon by the pastor, Rev. Cunningham.

Mrs. Shives was reared in Thalia and is a graduate of Thalia High School. Following her graduation she attended a business college in Wichita Falls. She has been employed as a bookkeeper for the Wichita Auto Spring & Supply Co. of Wichita Falls.

Mr. Shives is a graduate of Vernon High School and is an employee of the Commercial Credit Co. of Wichita Falls.

## Family Reunion at J. H. McDaniel Home

A family reunion was held at the home of Mr. and Mrs. J. H. McDaniel of Foard City Saturday in an all-day celebration when the ten children of Mr. and Mrs. McDaniel were at home for the first time in nine years.

The children and their families are as follows: Mr. and Mrs. W. C. Tisdale and daughters, Frances and Marjorie, of McAllen; Mrs. Ozzie Turner of Truscott; Mrs. Mel Gover and children, Jayton and Edith Marie, of Hobbs, N. M.; Mr. and Mrs. Blake McDaniel of Foard City; Mrs. Pete Bell and daughter, Sandra; Mrs. Kaola Bell and son, Billie, of Hobbs, N. M.; Mrs. Everett Carter and son, Mack, of Waverly; J. W. McDaniel of Foard City; Miss Mozelle McDaniel of Hobbs, N. M.; and Mrs. E. A. Dann and daughter, Christina, of Sweetwater.

A picture of the family group was taken by L. V. Robertson, local photographer, Saturday afternoon.

## Thalia Idle Hour Club

The Idle Hour Club met in an all-day meeting Thursday in the home of Mrs. C. H. Wood. The occasion was in honor of Mrs. Wood's niece, Mrs. Truett Neill, of Elmonte, Calif. The morning was spent in doing fancy work.

A covered dish dinner was served at noon and in the afternoon a while was spent working. Then the president, Mrs. G. A. Shultz, called the house to order and a business session was held and new officers were elected as follows: Mrs. W. L. Cox, vice president, Mrs. Ruth Abston; secretary and treasurer, Mrs. G. W. Seales, and reporter, Mrs. Opal Grimm.

Names were then drawn for unknown friends to last until the club disbands July 8, for the revival meetings. Two visitors, Mrs. Truett Neill of Elmonte, Calif., and Mrs. C. B. Morris of Clarendon, and the following members attended: Meslames G. W. Seales, E. S. Fleisher, Bob Abston, G. A. Shultz, Clyde Gray, Ben Hogan, Raymond Grimm, Lee Sims, W. L. Cox, J. A. Stovall, W. J. Long, C. C. Lindsey, Mack Eden and Miss Minnie Wood, and the hostess, Mrs. Wood.

The next meeting will be July 8 with Mrs. Ben Hogan as hostess.

## Thalia Girls Visit in Mack Gamble Home

Miss Hazel Gamble, daughter of Mr. and Mrs. Mack Gamble, was hostess to a group of friends from Thalia in her home Sunday.

The afternoon was spent looking and swimming at Rayland Springs.

Those present were, Misses Louise Cox, Annie Lucy Gray, Johnnie Lee Tarver, Helen Shultz, Juanita Jones, Mary Jo Johnson, Inabelle Shultz, Mona Self, Zella Sales, Savannah Gamble, Marie Cobb, and Mr. and Mrs. C. C. Lindsey, the hostess and her parents, Mr. and Mrs. Gamble.

## Westside H. D. Club

"The home demonstration work in Texas had its meager beginning when in 1903 the farmers in the area around Terrell, under the leadership of Dr. Seaman A. Knapp, banded together to fight the Mexican boll weevil," Mrs. Curtis Ribble told the members of the Westside Club when they met with Mrs. S. E. Tate on June 23.

Texas has the honor of having the first county agricultural agent appointed in any of the states to work exclusively in any one county, and eight years after the first agricultural agents were appointed the first home demonstration agent in Texas was appointed for Milam County, was brought out by other members.

Texas A. & M. College became a partner in this work in 1912 when a co-operative agreement was made between the U. S. Department of Agriculture and the A. & M. College.

The work has gradually grown, first through the girls tomato canning clubs and the boys corn clubs until we have the work done by the Extension Department today.

Mrs. G. E. Randolph, Mrs. Oscar Gentry, Mrs. Ed Norris and Miss Louise Eubank were visitors.

The club will meet with Mrs. F. A. Davis on July 14 with a program on "Storing Canned Products."

## Schedule--

(Continued from Page One.)  
H-W-F league championship, providing the same team does not win both halves.

The complete schedule is as follows:

- July 4  
Crowell at Truscott.  
Vernon at Rock Crossing.  
Quannah at Goodlett.  
Acme at Harrold.
- July 11  
Goodlett at Crowell.  
Rock Crossing at Quannah.  
Harrold at Vernon.  
Truscott at Acme.
- July 18  
Crowell at Rock Crossing.  
Quannah at Harrold.  
Acme at Goodlett.  
Vernon at Truscott.
- July 25  
Harrold at Crowell.  
Truscott at Quannah.  
Rock Crossing at Acme.  
Goodlett at Vernon.
- August 1  
Crowell at Quannah.  
Harrold at Truscott.  
Goodlett at Rock Crossing.  
Acme at Vernon.
- August 8  
Vernon at Crowell.  
Rock Crossing at Harrold.  
Truscott at Goodlett.  
Quannah at Acme.
- August 15  
Crowell at Acme.  
Rock Crossing at Truscott.  
Goodlett at Harrold.  
Vernon at Quannah.
- August 22  
Quannah at Crowell.  
Truscott at Goodlett.  
Acme at Rock Crossing.  
Harrold at Vernon.

The phenomenal growth of the Texas grapefruit by-products industry is shown in the report that citrus canning plants this season will pay \$500,000 for 60,000 tons of oranges and grapefruit for conversion into juices, concentrates, marmalades, wines, flavoring, beverage bases, and candied peels. Two years ago, the All-South Development Council recalls, 25,000 tons were thus sold, for \$225,000, and in 1932 the canned portion of the crop amounted to only \$10,000. The number of Texas plants has grown from three to 25.

## Casa Manana Makes Great Start at Its Opening Saturday

Fort Worth, June 30.—The Fort Worth Frontier Fiesta, featuring the 1937 Casa Manana Revue, this week got off to a flying start with a record attendance of 12,000 at the huge cafe-theatre alone on opening night.

As the successor attraction to the 1936 Frontier Centennial regular into high gear on its regular schedule, words of praise poured from many typewriters of eight distinguished newspapers and magazine critics who flew here from New York for the formal opening.

Besides the huge crowd that three times jammed the House of Tomorrow on opening night, thousands of persons witnessed the other unique attractions that Billy Rose, Broadway showman deluxe, has placed on the grounds to make Fort Worth the fun spot of the Nation—Melody Lane, where famous composers play their own compositions; Frisby Garden, where the renowned Salsie Puppets perform; Pioneer Palace, already celebrated for the extraordinarily hilarious performance last year, and the thrill show, "Flirting With Death."

Already the nation has learned that the Frontier Fiesta is even greater and more spectacular than the show last year. From the moment President Roosevelt, by remote control, severed theariat stretched across the entrance of the grounds, there has been a continuous clicking of turnstiles as crowds poured in to see the galaxy of stars such as Paul Whiteman, Harriet Hoctor, Everett Marshall and many others.

A completely new show is Casa Manana this year, using as its theme the four best selling books, "Gone With the Wind," "Wake Up and Live," "Lost Horizon" and "It Can't Happen Here."

## Housewives—

(Continued from Page One)

which invites women themselves to select the name they like best.

"Many women resent being called 'housewife,'" Mrs. Seal declared. "It smacks too much of midwifery, housekeeper, and other sobriquets which do not flatter the woman who manages her home with efficiency and economy—doing less and less drudgery with the result that she has more time on her hands for club, church and school work. The modern woman is not bound hand and foot to a stuffy kitchen. She actually need spend but little more time than her husband looking after the home. Modern appliances, made available by science, will perform almost every imaginable household task."

Prizes valued at approximately \$500 will be given in the contest. Mr. Seal said. First prize will be a large sized (Frigidaire) electric refrigerator. The second prize winner will have her choice of an electric dishwasher or washing machine. Third prize will be a mixer. Ten prizes of smaller electric appliances will be awarded.

Mr. Seal pointed out that the contest is "simple and easy." All women, married or single, are eligible to send in entries.

"Greek, Latin or English may be used," he added. "Just invent a word that describes the modern woman whose talents go beyond the kitchen—the woman who takes an active interest in club and civic affairs, who enjoys some sport such as golf, tennis or even equestrian. In fact, invent a name for a woman who is a companion to her family instead of a slave to her kitchen."

The contest begins Monday, July 5, and closes August 14. The only requirement is that the invented or coined name be accompanied by a letter of not over 100 words explaining why it was chosen.

## Texas Screw Worms Show Increase in May

Screw worm infestations in wounds of animals reported from Texas increased from 2,661 in April to 7,831 in May, which is a little more than one-fourth of one per cent of the animals on which reports were obtained. An infestation of two per cent or more of the animal population is considered as an outbreak proportion and one that can cause noticeable losses among animals.

Of the cases reported during May, 5,518 of them occurred in cattle and 1,981 occurred in sheep. The greatest losses were reported among sheep, where the mortality amounted to more than three per cent of the infestations. More than half (56 per cent) of the cases occurred in the navels of young animals soon after birth, which emphasizes the importance of controlling the breeding of livestock so that young may be born before screw worms appear. Snags, scratches and prickly pear furnished wounds which caused over 14 per cent of the infestations.

The fact that man-made injuries resulting from castrating, dehorning, marking, branding, shear cuts and lamb docking furnished less than 15 per cent of the wounds which became infested with screw worms is evidence of the precautions being taken by ranchmen and farmers in performing operations on livestock, according to the Division of Screw Worm Control office at 1910 Travis Building, San Antonio, Texas. When it is absolutely necessary to perform such operations during

## LIBRARY NEWS

James Hilton, an English novelist in his middle-thirties, began his career as so many others have—in newspaper work. The editor of a magazine promised him for a dazzling sum of fifty pounds for a story for his Christmas issue, but stipulating that the manuscript must be in within a fortnight. At the end of the week, Hilton had not the vaguest idea for his story, so he got out his bicycle and peddled off into the byways of England, where he got the inspiration for "Goodbye, Mr. Chips," the novel that made him famous in America as well as England.

His next success was in "Lost Horizon," which has been produced on the screen.

His latest novel is "We Are Not Alone." This novel is not just another novel of the World War, for the war is a mere incident in this truly touching story of Dr. David Newcombe, who had murdered his wife.

## BUILDING PERMITS SHOW INCREASE OVER 1936

Austin, Texas, June 30.—Building permits issued in Texas during May were moderately lower in value than in April but sharply above those of May, 1936, according to the Bureau of Business Research of the University of Texas. Reports from 35 representative Texas cities show total permits of \$6,188,285, a decrease of 8.8 per cent from the preceding month but an increase of 24.1 per cent over the corresponding month last year, the report said. Cities in which May permits exceeded those of both comparable periods were Corpus Christi, Denison, Houston, Harlingen, Lubbock, San Angelo, San Antonio and Sherman.

## Goldsmiths Have Patron Saint

The patron saint of the goldsmith's company of London is Saint Dunstan. He was born about 925 years ago in Glastonbury.

The screw worm season, good stockmen apply pipe tar oil to repel the flies and to aid in healing the wounds. If the wounds become infested, they are careful to kill the screw worms with benzol so as not to injure the wounds. Over 7,000 stockmen in the state were given advice and reported on cases to screw worm control supervisors of the Bureau of Entomology and Plant Quarantine, United States Department of Agriculture, during the month.

## Did You Know That—

By Myrna Holman, H. D. A.

Now is the time to secure peach seed for planting? Get good peaches, eat the meat and save the seed. Place the seed in a box and cover with six inches of soil until October and then plant.

Table salt should not be used in canning? The starch which keeps the salt from caking forms a sediment in the jar.

It is about time to start pulling vegetables out of the garden—not to eat but to get rid of the old vines? Plants that have reached maturity are often harbors of disease and insects.

The gauge on a pressure cooker should be tested every year for accuracy and more often if used constantly? From now on, a testing apparatus will be in the home agent's office and arrangements may be made for its use.

## Wheat—

(Continued from Page One)

The combines would have completed their jobs here several days earlier if rains had not interfered. Even after parts of the fields were dry enough to combine there were other parts that were wet and boggy and the machines could not get to the grain, so these spots had to be left and cut at later dates. The rains also delayed the threshers for a short period, but by the last part of next week, threshing should be completed.

Many hired at elevators. Vegetables should not stand overnight before canning unless they can be kept at a temperature lower than that of an ice refrigerator? There is danger of flat sour and botulism poisoning.

Over 80 people have received employment at the three elevators in Crowell during the three weeks that they were swamped. Forty-three men were working at one elevator one day during this time, but this was only until preparations could be made to handle wheat faster. During the past week the number of employees has been reduced to just enough to take care of the wheat coming in and loading the cars.

## WILL MOVE TO NEW LOCATION

We are moving our stock of Ladies' Ready-to-Wear to a bigger and better location in the Ringgold Building, one door north of the Fox-Way Store, in the early part of next week.

We are consolidating this and our Paducah store, which will give us a more complete stock of merchandise to offer Crowell and Foard County people.

Our growth has come by the splendid patronage given us by the people of this community and we appreciate this very much.

Be sure and visit us in our new home. We want to make it a place you will be proud of.

## 10 GOOD REASONS

for choosing a SUPERFEX Oil Burning Refrigerator

1. SUPERFEX operates on kerosene. You can move it and use it anywhere.
2. It is engineered to meet the exacting demands of rural homes. Scientifically designed and styled for permanent satisfaction.
3. The refrigerating unit is both air- and water-cooled. The specially designed burners do their day's work in two hours and go out automatically. There is no constant flame. This feature and the exclusive Super-Condenser top make SUPERFEX the most economical refrigerator to run.
4. SUPERFEX has beautiful modern lines and cream-white finish. The food space is roomy, porcelain-enamel lined, equipped with adjustable shelves and handy door racks.
5. Saves miles of steps in meal preparation. Keeps foods fresh and cold—right in the kitchen!
6. Saves waste, keeps left-overs, also foods ready for marketing. You can "cook ahead" for crew meals or other busy days.
7. No more limp salads or "runny" butter. You always have ice—without trips to town.
8. Your family can enjoy frozen desserts, crisp salads and ice-chilled drinks all through the hot weather.
9. With SUPERFEX it's easy to prepare ice-cold field lunches.
10. SUPERFEX is made by Perfection Stove Company, proved by nine years of satisfactory service in thousands of country homes. Sold on easy terms, if desired.
