ADVERTISERS MAKE EDITION POSSIBLE

Business firms and individuals of Crowell whose ads of congratulations and best wishes to the High School graduating class of 1937 and the Crowell schools have made possible the publishing of the "Crowell High School Edition." Without this support, the securing of engravings for the pictures of the graduates and other expense involved, it would have been impossible to publish this special 16-page tabloid edition.

We are very grateful for the splendid co-operation of the "Crowell High News" staff, the sponsors of classes and teachers, and others who in any way assisted us in assembling material for this edition.

The fine photo work and co-operation of L. V. Robertson, local photographer, has also been of great value.

We sincerely thank everyone.

New Additions Makes Crowell School Plant One of Best in State

GRAMMAR SCHOOL BUILDING UNDER CONSTRUCTION; SIX ACRE CAMPUS

Crowell has one of the finest school plants to be found in a town of its size. The campus of the public school contains six acres and the eleven-room high school building, which is a new building, being constructed in 1927, occupies the southwest corner of this tract. One wing of the building houses one of the finest auditoriums in this part of the State.

A new grammar school building is being built about fifty feet east of the high school building and it is expected to be completed for the opening of the 1937-38 term in September. When this building is finished, Crowell will have two of the finest school buildings in West Texas.

The third building that is standing on the campus is the gymnasium. This structure was completed in January, 1934, and will seat about five hundred people. The playing floor is ten feet below the surface of the ground and is as good a court as will be found in high school gymnasiums.

An all-steel frame stadium, with a seating capacity of over 2,000 people, and lighting equipment were added to the Bermuda cov-

ered football field in 1935. There are fifteen rows of seats, 180 feet in length, in the stadium and the first row is seven and one-half feet above the ground, insuring good vision.

The lighting system consists of twenty-four projectors mounted on four 60-foot poles on each side of the playing field with a 1,500 watt lamp in each projector.

Two tennis courts were erected this year. In addition to all this there is ample room for several softball diamonds.

The three buildings are lighted by electricity. The gymnasium is heated by natural gas, but the school buildings are steam-heated.

Faculty

Eight teachers compose the faculty of Crowell High School and have set a record that will be hard to beat. Five of these instructors have taught in Crowell schools for the past ten years. Miss Ruth Patterson taught in the grammar grades for three years and in the high school department for seven, but Supt. I. T. Graves, C. Grady Graves, principal; Walker P. Todd, and Henry Black have taught in the high school for ten years.

GRADUATING EXERCISES FOR GRAMMAR GRADES TONIGHT

Thirty-six grammar graduates will be presented their diplomas by T. B. Burrow, principal, tonight (Thursday) in the graduating exercises to be held in the high school auditorium.

Billy Newton Klepper is valedictorian and Virginia Moseley is salutatorian.

Edwards, Edna Lynn Thompson, Oleta Trammell, Vernon Gibson, Wynona Hembree and Marjorie Spencer have had their names on the honor roll every time that it has printed.

exception of general science but they are in the home economics class. Some of the members enrolled in the typing class this year.
 The grades of the class, as a whole, are good. About one-third of the students on the honor rolls are members of the Freshman Class.

Hunter Jr., from the Margaret community has 36; and Ernest Spears, who serves the Black community, has 33.

In addition to these buses, five private automobiles daily bring 17 more students to the Crowell schools. The private cars cover a distance of 107 miles daily, an average of a little over 21 miles each. Two cars come from the Gambleville community to bring six pas-

1936 GRID SQUAD

With prospects looking very gloomy, Coach Grady Graves started the 1936 football season with one veteran and twenty-nine rookies and developed a team that won half of their district games for a percentage of .500. This is a good record for a young and inexperienced team. Robert Thompson, tackle, was the only player that returned from the 1935 squad but a few of the boys received some experience on the "B" team.

Rasberry Honored

Garland Rasberry won a place on the all-district team as quarterback and Glen Don Reeder, center; Robert Thompson and Ira Klepper, tackles; John Lee Orr and Que Meason, backs, were given honorable mention which kept up the tradition of Crowell football teams by placing their share of players on the all-district honor team.

From this team, that did so well during their first year, nine full-fledged Wildcats will return in 1937 to carry on the record set by teams of the past. The following—

1937 BASKETBALL TEAM

The Crowell High School basketball team won the Northwest Texas Basketball conference championship by defeating Quanah 28 and 25 in the last of a three-game

play off series. The Wildcats defeated Quanah by a narrow margin in the last scheduled conference game to earn the chance to play the strong Indians for the title. Quanah defeated Crowell 37 to 28 in the first game but the Wildcats evened the series by winning the next game 36-35 and took the trophy for the second time in the next bout. Crowell placed third in the Matador tournament and the district tournament held at Childress.

Kelsey Honored

Richard Kelsey, Wildcat forward, was placed on the all-district team for his play in the tourney. This is the first year that Kelsey has played for Crowell High School. J. S. Owens won a position on the second team at this time.

Six Players Return

Six lettermen of the "Big 5" championship squad will return to the team in 1938. Those who will be lost through graduation are: Clinton McLain, Garrett Middlebrook, captain of the 1937 team; Marion Benham, and Ben Barker. Basketeers who will see service next year are: John Lee Orr, Bernice Fitzgerald, Junior Nelson, Leonard (Dick) Smith, Jim Whitfield, and J. S. Owens.

Richard Kelsey, John Lee Orr, Clinton McLain and Bernice Fitzgerald performed forward duties. Kelsey made a name for himself in this District with his scoring ability. Fitzgerald also played at center.

Garrett Middlebrook was the regular center for the Wildcats and did a good job at that posi-

tion. Dick Smith proved that he could deal any team misery when he replaced Middlebrook in the second play-off game. He hit the goal three times in three minutes and was the outstanding player in the county junior tournament held in Crowell.

J. S. Owens, Junior Nelson and Jim Whitfield were guards. Whitfield started the season as standing guard but was forced from the line-up for a long period when he was stricken with pneumonia, from which he did not fully recover until the closing weeks of the season.

As shown by the scores of the season's record, the Wildcats of 1937 were one of the scrappiest bunches of Crowell cagers ever to perform before Crowell fans. Even though there was only one player to come back from the 1936 team, the first year men played like veterans against more experienced cagers and in the majority of the games came out victorious.

Crowell's basketball record for the entire 1937 season follows:

Represented Crowell F. H. T. at State Rally

Pictured above are the members of the Crowell High School Future Homemakers of Texas Class who competed in the State Rally held in Fort Worth, April 29 to May 1. Their names and the events they competed in are as follows:

Left to right: Helen Harwell, judgment of children's clothes; Daphyn McClure, meal planning and marketing; Juanita Brown is shown wearing the dress with which she won second in the afternoon costume contest; Elsie Vecera is wearing the dress she entered in the school dress contest and Edith Hutcheson was the Crowell F. F. H. T.

The Ellen H. Richard Chapter of the Future Homemakers of Texas was organized in Crowell High School in November, 1936.

The following officers were elected: Camille Graves, president; Marie Wells, vice president; Effie Griffin, secretary; Frances Davis, treasurer; Lois Evelyn Norris, historian; and Virginia Coffey, reporter. The sponsor is Miss Ruth Patterson, head of the Homemaking Department. The color combination is silver and green.

The chapter of 1936-37 leaves behind a lovely console table, and mirror at the entrance of the Homemaking Department. The club has had many interesting and profitable meetings, and the social events have been most successful and entertaining.

Of the 44 members of the FHT Club, eighteen will continue their projects this summer. This will be the first summer that the students will be offered a course in Homemaking. The girls will be allowed to make one-half credit. The course will last the entire summer. Forty-two girls will do home projects during the summer months.

Wins Second in State Rally

Juanita Brown won second place in the Afternoon Costume department of the State Rally held at Fort Worth, April 29 to May 1. Other representatives from Crowell were Helen Harwell, Daphyn McClure, Elsie Vecera and Edith Hutcheson.

Ann Mabe and Frances Welch wrote a one-act play that was selected to send in to the State Department of Homemaking Education. The name of this play was

Marion Benham and Garrett Middlebrook, debate team, won first place trophy at area meet in Lubbock and Hughes Fish took second place in the news writing contest.

Affiliates V. A.

O. T. Ryan, area supervisor, visited the V. A. department April 30 and gave Crowell High School 1 1/2 credits affiliation for Vocational Agriculture I. Next year Vocational Agriculture II will be offered.

All of the boys selected two projects and some three to be carried through the year. Records have been kept and a check-up will

be made at the close of the year to see if the projects were profitable or not. Sixteen boys have swine, fourteen have cotton, twelve boys have baby chicks, ten boys have wheat, seven boys have hens for egg production, five boys have dairy cows, five boys have grain sorghum, four boys have gardens, and four boys have beef cattle.

Most of the boys' attention has been centered around four big headings—Conserving and maintaining soil fertility, improving livestock and poultry, improving plants, and making a living at home.

Early in the year the F. F. A. boys planned to beautify the school grounds. Holes were dug and 25 Chinese elm trees have been set out around the high school building, the other trees were pruned and whitewashed. Hedges were put around the foundation of the building and the F. F. A. boys helped the N. Y. A. boys do part of their work.

ing players will graduate from C. H. S. at the end of this term of school: Joe Eddy, Gilbert Lankford, Garland Rasberry, Glen Don Reeder, Glen Shook and Robert Thompson.
Like a depression this team followed in the path of two great Crowell teams and all of the players of these teams have been lost through graduation. As all good teams must do the Wildcats are having to build back up to the high standard set for them. The players were good and lacked only experience so this team could be called a stepping stone as nine lettermen return from this squad with a year of much-needed experience behind them so under these conditions the 1936 grid machine can be ranked with the best of Crowell teams.

MILADY'S SHOP

has achieved one of the greatest one-act play records in Texas. During the eight years that she has directed the one-act play, the local casts have failed only once to win the District Four championship. State championship has been attained once. Crowell lost the regional championship this year to Pampa though really a tie for first place was won. Of the five casts, two were for Crowell, two for Pampa, the fifth was determined by the flip of a coin—Pampa won.

The one-act play record of the school for the last five years is as follows:

1933—First in District Four, first in Regional, first in State. "The Severed Cord" cast—Jim Lois Gafford, Crockett Fox, Mitchell Allee.

1934—First in District Four, second in Regional. "Stocking Money." Cast—Peggy Cooper, Florene Miller, R. B. Cates, George Owens.

1935—Second in District Four. "Her Country." Cast—Peggy Cooper, Frank Hofues, F. L. Rennels.

1936—First in District Four, second in Regional. "Severed Cord." Cast—Peggy Cooper, Glen Don Reeder, John Lee Orr.

1937—First in District Four, second in Regional. "Sparkin'."

Members of the 1937 Crowell High School track team are: Bottom row, left to right: Garland Rasberry, Que Meason, Richard Vecera, Bernice Fitzgerald, Jimmie Williams. Top row: Walker P. Todd, coach; Clinton McLain, John Lee Orr, Carl Connell and Marvin McKown. Absent from picture: Ira Klepper.

LAST OF THE FAMILY

The Class of '37 is one in which the babies, or the only child of the family, are graduating. Among this baby list are Marion Benham, Hughes Fish, Ed Smith, G. D. Reeder, Mozelle Lemons and Mike Rasberry.

Glenn Shook, L. T. Derington and Edith Hutcheson compose the only-child group.

Cast—Joyce White, Wanda Liles, Marjorie Spencer, John Lee Orr.

Outstanding honors have been won during this time by Crowell players. In 1933 Jim Lois Gafford was selected as the outstanding girl player in Texas. The same year Crockett Fox won third place in the State in the boy's division. In 1930 Ragsdale Lanier was chosen the best boy actor in the regional tournament. Mitchell Allee won the same honor in 1933 and John Lee Orr took the same honor this year.

Wanda Rose Liles was selected as a member of the all-district cast this year. Many Crowell actors have been placed on this honor cast in the past eight years that Mrs. Graves has been director.

"SAFETY LANE" CONDUCTED IN CROWELL TUESDAY; OVER 270 VEHICLES CHECKED IN 2 HOURS

"Safety lane" was conducted Tuesday morning by officers of the State Highway Patrol on the street south of court house. Cars were routed through the lane by officers stationed at the intersections in business section of Crowell. A total of 274 vehicles were inspected for defects that would be dangerous, especially at night, in the two hours the lane was open. The "safety lane" was scheduled to be conducted Tuesday but due to the fact that the patrol was ordered to Amarillo that day it was held open for only two hours. The officers reported that they returned some time in the afternoon.

The 274 vehicles inspected, 106 of them were found to be defective, which is a very high percentage. The number of defects found are as follows: brakes, 55; mufflers, 5; horns, 19; wind shield wipers, 32. Blue stickers were given those whose cars were o. k. and stickers telling the defects were stuck on the windshields of defective cars. Thirty-three of them had the imperfections repaired and returned through the lane to receive blue stickers. ROCK CROSSING VICTORIOUS IN CROWELL GAME

Speed Ball Pitching of Vicitors Feature of Match

The strong Rock Crossing baseball team ran rough shod over the Crowell nine in a H-W-F league game played here Sunday afternoon by the score of 7 to 2. This is the second defeat for the Crowell team in three league starts. The pitching of J. Gibson of Rock Crossing was the feature of the tilt. He struck out 14 Crowell batters and allowed only six ineffective hits while his mates chased two local pitchers from the mound and scored twice after the third took over throwing duties. Only two of the 12 Rock Crossing players that were used failed to get a safe hit. King led his team by collecting three of his team's runs.

Local F. F. A. Team Places Second in Softball Tourney

The softball team of the Crowell F. F. A. Chapter won second place in the district tournament held at the City Park in Vernon Saturday. They were defeated by Westover 13 to 6 in the final game. Six teams of the district competed in the tourney.

Crowell dumped Harrold 20 to 12 in their first game and in the second tilt they won over Chillicothe, who had beaten Burk Burnett 34 to 1, with a last inning rally, 3-2. Chillicothe lead the local farmers throughout the game until the last half of the seventh inning when Crowell took advantage of two hits and a break to win.

Crowell was trailing 2-1 when they took their turn at the bat in the last inning. Jim Whitfield singled and stole second. The throw from the catcher to second on this play was wild and Jim scored. Simmons singled and scored on Connell's double.

The local F. F. A. boys played more games than any other team in the tourney. They played three games, starting at 11 a. m. and finishing about 4 p. m., with only thirty minutes rest during the noon hour. Westover drew a bye and were idle at the time Crowell played with Chillicothe.

MUCH PROGRESS MADE ON HARD SURFACING OF HIGHWAY 16 IN MONTH; 1ST COURSE ON 2 3/4 MILE

HEADS PHYSICIANS

Dr. William J. Kerr, professor of medicine at the University of California, San Francisco, recently chosen president-elect of the American College of Physicians. Dr. Kerr will serve in 1938 to 1939, following Dr. James H. Means of Harvard University, the incumbent.

Much progress has been made on the hard surfacing of State Highway 16, south of Crowell, since work was started a month ago under the supervision of Tom Seale, resident engineer.

The first course or layer of gravel has been laid on two and a quarter miles of the three mile stretch that will receive the gravel base under the appropriation for this work by the State Highway Commission as a special State maintenance job. The sub-grade of the remaining three-quarters mile has been cut and laying of the first course started.

Surfacing of the road started at a point one and a-half miles south of Crowell and when the first course was completed on the pavement on Main Street last week work was continued at the starting point and the gravel is now being laid south toward the Wichita River.

When the laying of the first course of gravel is completed on the three miles for the foundation to be finished under the present appropriation, work will continue and when the second layer of gravel is laid, the job will be ended unless the Commission allows more money to continue the work. If this is done more of the two-course gravel base will be laid toward the river.

An asphalt top will be put on the road some time in the future but probably not until the entire base is finished.

Each of the two courses will be approximately five inches thick, which will make a ten inch deep when completed. The base will be twenty-two feet wide, except for the first 3,500 feet south from the end of the pavement on Main Street and that will be forty-two feet wide, making a good entrance to Crowell from the south.

Twenty-four trucks are being used to haul the gravel. Twenty men and the foreman, P. D. Moseley, are working in the pit on Grover Nichols' farm, northwest of Crowell on Pease River. Three dump teams are also used in the pit. There are three men working on the south end of the job, using a tractor and a 4-up team to level the gravel. The water truck and driver completes the men and equipment used on this part of the work.

Since first gravel was laid one month ago, there were 6,386 yards put down on the road at the close of work Wednesday afternoon. Approximately 4,857 yards of gravel will be used to the mile for both courses. Work has progressed at the rate of 300 feet per day. The gravel used on the first three miles of the road will be taken from the Nichols' pit but when surfacing is started on the remainder of the job the gravel will be dug from the bed of the Wichita River.

All of the concrete bridges between Crowell and the river, which is the county line, have been completed except for some minor details, but the road is open to traffic all the way through.

Brief Bits of News From Here and There

Treasury officials think they have discovered a leak by which considerable income has been escaping taxation by the income department. The plan involves the use of American owned foreign corporations which buy American dividend earning securities and receive the dividends. The dividends being paid in a foreign country escape taxation in this country, yet their actual recipients live in this country.

The Federal Trade Commission has taken exceptions to the advertising of automobile financing corporations in which they advertise an interest rate of 6 per cent. The Commission held that the advertising was misleading since a rate of 6 per cent was assessed against the entire amount involved in the purchase and no account taken of the reduction of the amount at risk produced by monthly payments. The Commission held that the rate was nearer 12 per cent and this fact should be made clear in the advertising. All but General Motors and Henry Ford agree to make the corrections suggested in their advertising.

STRETCH YOUR MILEAGE

...with this 100% Custom Tailored Gasoline

Let's get right down to the facts. Let's talk about why and how Phillips 66 Poly Gas saves you money.

The reason is simple. Into every gallon of this new-type, cost-cutting gasoline, Phillips packs extra energy units by means of the patented POLYmerization process. The result is twofold. Your motor not only gets more power out of every gallon, but also delivers more miles.

But sudden changes in climate would endanger the economy and improved performance of Phillips 66 Poly Gas, if it weren't 100% custom-tailored, matched in advance to your weather in accordance with U. S. Weather Bureau standards. Why 100%? Because Phillips pioneered the idea of custom-tailoring gasoline to break the vicious connection between changes in weather and changes in motor performance. Because Phillips has carried the process further and made it function more successfully. Because Phillips has greater facilities for custom-tailoring than any other refiner.

That is why no other gasoline, not a single one, is so accurately matched to your weather as Phillips 66 Poly Gas! The Orange and Black 66 Shield is the sign that you can get this improved gasoline which does more—but costs no more.

CCC Extension—The House considered Tuesday and finally passed on Thursday a two-year extension of the CCC camps, eliminating the civil service provisions and providing for an enrollment not to exceed 300,000.

Legislation Enacted—The Congress has so far enacted the following legislation this session: Extension of the R. F. C. Guffey-Vinson Coal bill.

Retirement of Justices of the Supreme Court. The following appropriation bills are through conference: First Deficiency. Independent Offices. Treasury and Post Office. Navy Department. Legislative.

The following appropriation bills are in conference: Agriculture. Second Deficiency bill. The District of Columbia and Interior Departmental bills are pending in the Senate.

Now that the President has returned, it is believed that the important legislation, held up by the Supreme Court jam, will now go forward. It is well recognized that the Court Bill is the most im-

portant legislation that the President has recommended during his term of office and on its outcome will largely depend perhaps whether or not he and his Administration are remembered or forgotten in history.

It is recognized that the passage of a reasonable Court Bill will allow the Court to function as provided under the Constitution, not for the privileged few but for all the people. It is well recognized, the Court's recent opinions reversing completely its previous opinions were on account of political pressure, thus correctly showing the political status of the Court. Justice Roberts is already being prominently mentioned as the Republican nominee for President in 1940.

Gulf Team Wins Two Games from Sinclair

The Gulf Oilers defeated the Sinclair Dinosaurs in two softball games during the past week.

In the first game played Friday the Oilers came out victorious by one point, 10 to 9. The Sinclair team rallied in the sixth inning and jumped into a two run lead, but the Oilers promptly evened it up in their half. The Dinosaurs pushed across another run in the first half of the seventh to take the lead for the second time. The Gulf boys blasted out enough hits to score the tying run and place a runner on third, who scored on a ground ball. The two teams gathered 10 hits each. This is the fourth time that the Gulf softballers have won over the Sinclair team by one score.

The second tilt was held Wednesday afternoon and the Gulfers emerged on the heavy end of a 9-7 score and led in hitting with 16 hits to 14 for the Sinclair delegation.

A last inning rally, which netted three runs for the Dinosaurs, was nipped in time to keep from threatening the Gulf lead.

"AMERICA" AS WORD, BORN IN 1507 IN FRENCH TOWN

Although America was born, historically speaking, in 1492, it was not named and christened until 15 years later at Saint Die, a small and attractive French town in the Vosges district, writes a Paris United Press correspondent.

The baptismal certificate is still there as well as the baptismal found where this historical christening took place.

The baptismal certificate consists of a map upon which the newly discovered continent was designated for the first time as America, by Martin Waldseemuller, one of the cartographers, and the baptismal font is the building, still standing, where those cartographers of four centuries ago labored.

It was at Saint Die that a small group of scholars carried on their researches and made eager use of the new art of printing. In an introduction to an edition of the "Cosmography of Ptolemy," in which was included an account of the journeys of Americus Vesputi, it was suggested that the name America be given to this newly discovered continent.

Wrote for Posterity

When Samuel Butler, the English author, wrote his first book the public received it coldly, in other words it remained unread and unnoticed. Butler declared he would write no more for his contemporaries but would write for posterity only. And sure enough, he was right. He died in 1902, he and his books almost unknown, and immediately after his death his "Erewhon" took the world by storm, and he was placed among the great writers of his generation.

Chief Colors in Cats

The chief colors which appear in cats are black, white, red, gray, and silver, says a writer in London Answers Magazine.

All the breeds of cats known sprang originally from two types, one of which inhabited Europe and the other Northern Africa. It was the latter type which was tamed by the Ancient Egyptians, the greatest cat-lovers and worshippers in history.

"DUE PROCESS OF LAW" IN USE AS FAR BACK AS 1325

The phrase "due process of law," referring to the regular course of legal or judicial proceedings in any case, appears in the Fifth and Fourteenth amendments to the federal Constitution. In the first of these: "no person shall be deprived of life, liberty or property without due process of law," the limitation is on acts of congress. In the other amendment: "no state shall deprive any person of life, liberty or property without due process of law," the limitation is on the laws of the states.

According to Professor Munro's "The Government of the United States," the phrase is an approximate equivalent of "by the law of the land," contained in Magna Charta.

Daniel Webster's definition of due process was "the process of law which hears before it condemns, which proceeds upon enquiry and renders judgment only after trial. The meaning is that every citizen shall hold his life, liberty, property and immunities under the protection of the general rules which govern society."

The Supreme court in its interpretation of this phrase has, according to Munro, "assumed a considerable censorship over the economic legislation of congress." The Oxford dictionary quotes the

use of the phrase "process of law" as early as the year 1325.—Detroit News.

Ear-Piercing Social Event

The young lady of Burma who reaches the age of 12 to 14 years is introduced to the marriageable status by an ordeal which takes courage to endure. This consists of the ceremony of ear piercing which has been arranged by the family astrologer. When the proper hour and minute arrives the young lady is surrounded by happy relatives and friends who enjoy music and feasting and, therefore, help to divert attention away from the ominous needle. Afterward comes the glory of wearing handsome earrings of glittering jewels and heavy filigree work, or if she is of lowly estate, then gaudy glass adorns the ears.

Goodbye, C. H. S.

TYPEWRITING

Typewriting has proved to be one of the most popular courses in CHS. It is indeed a very practical subject. Typewriting helps the student in his English, spelling, punctuation, letter writing, and also it is useful in written work in all his other subjects. There are 33 students taking typewriting in CHS. A few of them have been taking only a few months and will receive their credit at mid-term of next year. To receive a whole credit a student must be able to write 50 words per minute, and to receive a half credit he must write 30 words per minute.

Ed Brisco, Billie Brown, Lois Evelyn Norris, Tom Andrews, Juanita Boman, James Erwin, Daphny McClure and G. D. Reeder will receive a whole credit each. The list who will receive a half credit is as follows: Ben Barker, Charlie Clark, Ted Crossnoe, Jim Hill Erwin, Sam Russell, Jim Whitfield, Adolf Slovak, H. K. Edwards Jr., Wynonah Hembree, Fern Pearce, Edna Lynn Thompson, Frances Welch, Louise Ebank, Dorothy Flesher, Wanda Gamble, David Solis, Joe Eddy Jr., Clinton McLain, Raymond Roberts, Guyton Sikes and Bernice Fitzgerald.

JUNIOR CLASS RECEIVES BUCKLES AND WRISTLETS

Belt buckles and wristlets were received last week by members of the Junior Class who made deposits on their Senior rings for next year. The rings were ordered some time ago and the buckles and wristlets were given to those making the small deposit. The Senior of next year will get their rings at the beginning of the school term next fall instead of having to wait until the latter part of the year as the rings will be made during the summer.

The large belt buckles are gold plated with a large, black "C" in the middle of it and "High School" under the initial. The wristlets are made of silver and the mounting is of the same style as the buckles. Fourteen boys received buckles and wristlets by thirteen girls.

SENIOR ODITIES

The '37 Seniors have had a different sponsor every year. The class has more Vivianites than any preceding class.

It has more students from Margaret than any other class has had.

It has for a member the C. H. S. student that has to travel the farthest to get to school. He has traveled in one year approximately 6,480 miles merely going to school. He travels 36 miles per day.

For three years one person has served as president.

Twenty-eight Seniors live in the country; thirteen live in town.

They are the first Seniors to receive two banquets instead of one, thanks to the Baptist ladies.

Of this class of forty-two only three started together in the first grade.

It has had four post graduates to remain in school the full nine months.

It is the first class to go to Mexico on Senior Day.

It has four step-children.

THE FISCAL YEAR

The fiscal year is the year between one annual time of settling accounts and another. Our government fiscal year begins July 1 and ends June 30. The fiscal year is always spoken of as being in the calendar year in which it ends. Originally our fiscal year ended September 30, but in 1843 it was changed to June 30 in order to give department heads more time to prepare their reports for the opening of congress in December.

Women of Vivian H. D. Club Makes Home Improvements

The kitchen furniture including the cabinet, table, safe, and wash stand has been painted by Mrs. C. H. Carroll of the Vivian H. D. Club. The furniture was painted ivory with a green trim and a new rug of the same colors was added. New curtains made of unbleached domestic with scalloped edges bound in green added to the attractiveness of the room.

The kitchen walls are to be painted ivory in keeping with the color scheme chosen for the room.

Part of her canning budget of leafy or yellow colored vegetables has been filled with wild greens, according to Mrs. Clyde Bowley of the Vivian H. D. Club. She reports having canned 31 quarts of lamb's quarters. She says that these were obtained from a patch near her home and not as the city-bred girl supposed "from the butcher shop." The greens were canned in the same way that cultivated ones are canned.

H. D. COUNCIL MEETS

Representatives from all home demonstration clubs except one, were present Saturday afternoon for a meeting of the Foard County Home Demonstration Council.

Clubs were asked to send the name of their delegate to Short Course to Council so that three delegates may be chosen from the list to represent Council at the State Home Demonstration Association which meets at College Station in August.

Every Council delegate reported club in favor of sponsoring the Ball Canning contest, proceeds to be divided equally between Council and the individual winners. Council voted to accept this project.

A Council delegate to State H. D. association will be elected at the June Council meeting. The time, place and kind of encampment wanted by the clubs will also be ascertained.

RIVERSIDE H. D. CLUB

The most important method of food preservation is prolonging the garden according to the Home Demonstration agent, Miss Myrna Holman, in a demonstration on "Food Preservation" at a meeting of the Riverside Home Demonstration Club at the home of Mrs. C. L. Adkins Tuesday afternoon.

In order to have a garden for a longer time Miss Holman recommended a canvas garden. This garden is to be made not more than 9 feet wide and as long as desired with a cover of canvas.

Mrs. W. B. Tysinger reviewed the book, "Oil for the Lamps of China," in a most interesting manner.

At the close of the meeting refreshments were served to club members.

ADELPHIAN CLUB

Mrs. A. D. Campbell was hostess to the members of the Adelpian Club Wednesday afternoon, May 12, at the Adelpian Club House.

Mrs. T. S. Haney led the afternoon program and gave the review of Bess Streeter Aldrich's "Spring Came on Forever," and the outstanding facts of the writer's life. Miss Frances Hill gave a report from "Correct English."

Refreshments were served to club members.

LIBRARY NEWS

"The Klonop Murder Case," by S. S. Van Dine, has been added to the library this week. This is the tenth case of that famous amateur detective, Philo Vance, and is the most exciting and baffling of them all; it tells of a man, Karl Kenting, who painted his house purple, so that his enemies would have no trouble finding him, and it would seem that, indeed, they did not.

Due to the great demand for the novels of Lloyd C. Douglas, and "The Green Light," particularly, the library has added this novel in book form. There is also a

WEST SIDE CLUB

Nine ways of food preservation are: prolonging the garden, storing fresh, canning, drying, curing, brining, pickling, preserving and canning. Miss Myrna Holman told the members of the West Side Club at the meeting held in the home of Mrs. Gus Patton on May 12.

Fresh vegetables are always preferable to be canned, therefore, prolonging the life of the garden heads the list. A small canvas garden may be much help by getting a garden planted early and covering with canvas to protect it from the cold and the small plot can be watered even with waste water. These coverings are usually about 8x16 feet and rows placed close together, making about 300 feet of row space to the plot. Place a board around it to protect it from the wind and hold the canvas cover up off the young plants.

Mrs. T. S. Patton and Mrs. J. T. King were visitors for the afternoon. The club will meet again on May 26 with Mrs. Curtis Ribble with a program on "Happiness through the use of leisure time."

VIVIAN 4-H CLUB

When the Vivian 4-H Club met Thursday, May 20, at the school house the members went to a farm north of Margaret to learn about a canvas garden. They were accompanied by Miss Myrna Holman, home demonstration agent.

The club will meet on Thursday, May 27, and will answer roll call with the "Hobby I Have."

copy in magazine form. This novel has been filmed, and has proved very interesting to readers and screen fans alike.
