RANGE CONSERVATION STAMP TO BE ISSUED

Conservation leaders here are looking forward to issuance of the world's first range conservation postage stamp by the Post Office Department in Salt Lake City, Utah, James Herring of the local Soil Conservation Office, said this week.

The commemorative 4-cent stamp, printed in 3 colors, will be issued February 2 at the American Society of Range Management's annual meeting at Salt Lake City.

The stamp will go on sale at the post office here on the following day, February 3.

The stamp is in two parts. One part is a reproduction of the famous "Trail Boss," by Charles Russell, the distinguished artist who shows a modern range conservation scene.

The new stamp, Herring said, symbolizes the development of range conservation from the pioneer days of the open range to today's scientific management techniques.

Those who are interested in a "first-day cover," a souvenir envelope, can mail addressed envelopes plus a money order or certified check for the number of stamps required to the postmaster at Salt Lake City, Utah, who will place the range conservation stamp on the envelopes, cancel with a special cancellation mark used only on that day and at that place, and mail as addressed anywhere in the country, Herring pointed out.

G. L. COLE RETIRES AFTER 37 YEARS WITH CITY

G. L. Cole, faithful employee of the City of Crowell for the past 37 years, this week is retiring as an active employee of the city. Mr. Cole will remain in the city's employ as an advisor to the water department, and will be available at any time to assist and advise present city employees and officials.

Named by the City Council to replace Mr. Cole as pumper for the City's water supply is Vernon Whatley. Mr. Cole began working with Mr. Whatley Monday of this week to familiarize the new pumper with the city's equipment.

Mr. Cole began working for the City in August of 1922, and has been water superintendent for 34 years. During that time, he has served under six mayors: the late C. T. Schlager, G. D. Self, Jim Cook, the late W. H. Moyer, Hubert Brown and Claude Callaway. During that time Mr. Cole has seen many changes in the water department — the most outstanding of which was when the city changed from lake water to the present well system near Margaret.

Mr. Cole has always through the years worked for the best interests of the City in his every undertaking, and has earned the respect and admiration of every man who has ever served in the city government, as well as the people of Crowell.

In announcing his retirement, Mr. Cole stated: "I have enjoyed working for the City of Crowell for these many years, and have always done my work to the best of my ability. It has also been a pleasure working with members of the Council down through the years, and I certainly do not envy them their jobs. I would like to thank the people of Margaret who have been kind to me during the many hours I have spent in their community while working at the water wells. I will be available to help the City in any way I can."

Mr. Cole has a wealth of information about the City's water and sewer lines and present plans call for him to assist E. H. Shrode, water superintendent, in making a map of the city's water and sewer lines.

The Importance of a Good Vocabulary

This past week end I went to Wichita Falls to take the Scholastic Aptitude Test. This exam—like the ACT and others—is required for admission to many colleges. I had been learning new words for several weeks in preparation for the test. However, I actually hadn't realized how important a good vocabulary could be.

Yes, part of the test did deal with actual words, their definitions, and opposites. I was encouraged whenever I found that most of the terms were familiar to me. However, as I embarked upon the reading comprehension section, I found—at first to my dismay—that all of the stories used "big" words. I was so thankful that Mrs. Manard had encouraged me (as well as everyone else) to study words. If I hadn't have had a fair knowledge of the words, I would have been "up Salt Creek" so to say. In fact,

...AND "LAYS MONEY ON THE LINE"
 TO BACK UP THE BELIEF

Why is our faith backed by dollars?

Very simply, it is because the Southwest is growing 21% faster than the nation, and the WTU service area is the CENTER OF THE SOUTHWEST.

As a result, one of our major projects is designed to stimulate this growth, and another is designed to add service facilities to meet it. These projects are described briefly below. We will keep you informed of their progress as we go along, since they are of vital importance to this community.

It is our conviction that with faith, vision and cooperative effort on the part of all of us, the Center of the Southwest has a sound foundation for GROWTH UNLIMITED in the years ahead.

OUR AREA DEVELOPMENT PROGRAM PROMOTES

Growth Unlimited

For many years we have been engaged in a program designed to inform business executives about the industrial advantages of the Center of the Southwest.

This activity is being continued in 1961 with an expanded area development program.

It includes a new series of ads running in a number of national publications, which depict the growth potential of this area and the status it serves.

The national advertising schedule, the information brochures we are publishing, the trips we will make to industrial centers, and the fine cooperative spirit of communities like this one, all combine to promote GROWTH UNLIMITED.

\$50 MILLION EXPANSION PREPARES FOR

Growth Unlimited

On the shores of Oak Creek Lake in Coke County, construction is progressing rapidly on a large new WTU generating station.

It is tangible evidence of the expansion being made in our generating and distribution facilities, in anticipation of coming growth in the Center of the Southwest.

An area expansion program, costing in excess of \$10 million, is well under way, and will continue through the months ahead. It will permit us to keep pace with the growing needs of this growing area.

It is proof that here is GROWTH UNLIMITED.

the subject matter of each comprehensive test was a type difficult to understand, and if I hadn't known the majority of the words used, I would not have been able to have understood the meaning at all!

So, take this from me. Learn all the words you can. Put them into use, too. You will, as I have, see more and more each day, the importance of a good vocabulary.

Try this paragraph for fun. I have used many of the words from the English Vocabulary Cards.

I hope that you have perceived the gist of my editorial. Work with vigor in etymology, don't let your efforts be perfunctory. The belief that vocabulary study can bring on ennui is quixotic. It's just that study is atypical of many of you. No, I'm not being a prevaricator. I just don't want you to be ostracized because there may be a dearth of words in your vocabulary!

Janise Pritchard Named Homemaker of Tomorrow at CHS

The 1961 Betty Crocker Homemaker of Tomorrow for Crowell High School is Janise Morris Pritchard.

Having received the highest score in a written examination on homemaking knowledge and attitudes taken by graduating seniors in her school, she becomes a candidate for the state Homemaker of Tomorrow award which will be announced in March.

Each school Homemaker of Tomorrow will receive an award pin, manufactured by Jostens and representing the slogan, "Home Is Where the Heart Is." The examination papers of school Homemakers of Tomorrow will be entered in competition to name the state's Homemaker of Tomorrow.

The \$110,000 homemaking education program sponsored by General Mills offers a \$1,500 scholarship to the first ranking girl in each state and \$500 scholarship to the state's second ranking participant.

State Homemakers of Tomorrow and their faculty advisors receive an expense-paid educational tour to New York City, Colonial Williamsburg, Va., and Washington, D. C., April 8-13, the trip culminating in the announcement of the All-American Homemaker of Tomorrow whose scholarship is increased to \$5,000. Second, third and fourth ranking Homemakers of Tomorrow in the nation will have their scholarships raised to \$4,000, \$3,000 and \$2,000, respectively.

The testing and judging is conducted by Science Research Associates of Chicago. With a record 402,786 girls in 12,633 of the nation's schools participating this year, the Betty Crocker search has enrolled more than two million girls in its seven-year history.

The American College Testing Program (ACT) is an admissions, scholarship, guidance, and placement test battery designed to provide helpful information and service to colleges, to high schools, and to you, the student, at a time when it will be most useful.

The basic test battery consists of four tests averaging 45 minutes in length, representing the fields of English, mathematics, social studies, and natural sciences. A total score of the four-test battery provides an overall estimate of your general ability to succeed in college.

Many of the colleges that CHS students are planning to attend in 1961 require the ACT test. 14 seniors are now preparing to take this exam during the next few months.

Library News

We have two new books to add to our library. One is a book by Wilkie Collins, which contains two complete novels. The Moonstone is the first full length detective novel; The Woman in White is a mystery dealing with law, a woman's patience, and a man's resolution.

The other book is by Victor Hugo. The Hunchback of Notre Dame. The setting is Paris, and the tale is that of Quasimodo, the deformed giant. Hugo is a storytelling genius, and the Hunchback of Notre Dame will never lose its immense popular appeal.

Don's Doodles

The season was over, and Boob decided that he would finish up in proper fashion by getting a post-season medical examination. The doctor was giving him the once over and had progressed to the stage of sounding the player's chest. "Sounds kind of hollow, doesn't it?" remarked the player. "Yes, it does, a little," replied the medic, "but just wait till we get to your head."

Stars to Steer by: Deficiency helps gain sufficiency. People without projects may be problems. Four square men are usually well rounded. Profanity is the language of frustration. The habit of trying to make a grade may develop habit of making the grade. Falling is an act of weakness; climbing is an act of strength. Say this for Rip Van Winkle: he finally woke up. Resist regimentation. Excellent fuel for steaming ahead; enthusiasm to do what the world needs. Develop decision; defeat defeatism. Really sharp people do not make cutting remarks. The process of selling good attitudes proceeds first by example. The more arguments you win, the fewer friends you have.

Resolutions

What is your most important new year's resolution?
 Mickey C.—Go to church more often.

Wilma D.—To get Archie again.
 Gerell W.—Not to make any.
 Jerry T.—I don't have one.

Edward K.—To start going with the Crowell girls.

Barbara G.—To do better in school at W. F. than I did here in Crowell.

Gaye R.—To be good and not to fuss with Jim Mack.
 Carol B.—To have a ball.
 Don W.—To quit speaking 4 languages.

Band Squeaks

The junior students of the band—Wendell Callaway, Arthur Aranda, Jo Carol Cooper, Sue Sanders and Marcia Carroll—have finally received their long-awaited sweaters. Jerry Don Eubanks and Kay Johnson also received sweaters. Jerry Don and Mike received their's for playing in the combo, and Kay received her's for being flag bearer for the marching band this year. The boys have black cardigan sweaters which are trimmed in white and have a white emblem. The girls have black V-necked sweaters which also have white emblems.

Part of the band is planning to attend the "Band Extravaganza" that the Paducah High School Stage Band is putting on January 20-21. They are planning to use more colored lights than would be in fifty houses. It should be an excellent show.

Talks to Quanh Spanish Club

On Monday, Jan. 16, Felipe Rios of Guanajuato, Mexico, was the guest speaker at the regular meeting of the Quanh High School Spanish Club, "Los Companeros." He was accompanied by Ronnie Bradford, president of the Crowell Spanish Club, Wendell Callaway, club secretary and treasurer, Jim Gafford and Arthur Aranda. Rios contrasted the way of life in Mexico and in the United States. He stated that there was much difference in the custom of dating among high school students in his country and in Texas. Their dates consist of walking around the plaza, listening to the band, but not using the family car. He also stated that very few Mexican girls smoke. An American custom to which he had to adjust himself is that of placing all the food on the table; in his country each dish is served in courses. The only American food for which he had to cultivate a taste is that of "son of a gun." He maintains that since he has been given cowboy boots, a western shirt, and a pair of Levis, he could be a regular Texan if he had a western hat and could eat some "mountain oysters."

Hits and Misses

Hi! Back again with the rip-roaring news of the past week. Hope everyone had a "ball."

The scandal wants to know what happened to Alta Saturday night? This sounds interesting!

Sue and Joe were at the show Friday night. We're glad to see that Sue is able to come out at nights now. Joe seems rather pleased with this fact also.

Couples seen at the Plaza Saturday night were Carria-Ronnie, Gaye-Jim Mac, Carol-Jim, Carolyn-Dale, Ruth-James, Lynda-Bob, Ely-Boob, Sharon-Billy Doyle, Claude-Vicky, Gena-Gerald, Jo Carol-James, Carolyn-Bryant, Margie-Duane, Genell-Henry. Also viewing the picture were Coach Wall and Barbara.

Together Thursday night after the football banquet were Wes and Alta Neil. This could turn out to be quite a cute couple!

Stags at the Plaza Saturday night were Wesley, Miles, Guy, Delton, Charlie, Bill, Don and Don Keith. They seemed to enjoy the show more than anyone else.

The scandal bug wants to know what happened to Ely in the show Saturday night. First, she seemed to be talking to people that she didn't even know. Secondly, she turned green on the exposure to a certain thing.

Parted ways, but still friends, are Carol and Jim. We wonder how long this will last.

Special message to Wesley Cummings: "I want my ring back."

Together Saturday night were Kay and Jerry. They didn't seem to have much to say to each other.

The scandal knows someone in Vernon that's just crazy about Guy Todd. Her initials are T. W. We think that they make a darling couple.

George is going steady now. Her name is Diane Richardson. Congratulations, George. Everyone thinks that she is really cute!

The freshman girls were really sweating Sunday afternoon. We wonder what they were afraid of doing.

Seen together Sunday afternoon in Vernon were Kay and "Lace." We don't know how this one is going to turn out.

Well, I guess that I had better sign out for the time being. Play it real cool, and stay out of trouble! See ya around.

We Must Spell Out What We Stand for in Regard to Unions

Ralph T. Moore writes in the Oregon Voter: "Sooner or later we must spell out precisely what we will stand for with regard to labor unions. And the time is not far away, in view of the growing tendency to organize just about everything. We can not give the unions a carte blanche because we can not tolerate any uncontrolled political or economic force within our republican democracy. A way will have to be found to control without destroying and it won't be easy because it will involve sacrifice and a degree of surrender. But the public must be sovereign."

Protection of Children Is Everybody's Responsibility

One of the most horrible offenses in the sordid history of crime is the brutal sexual attack on the body of a small, innocent child. The threat of the child molester hangs over each and every community in our country. Swift and decisive action is necessary to assure that these human vultures who prey on children will be removed from our society. A

Still Room for Individual Enterprise

"We like to think that there is still room for individual enterprise, not only in this country in this wide, wide world. We like to think that we get a lot better government right here in Vernon than we get from Washington. And we like to think that perhaps some enlightened self-interest, a lot more friends in this world than our gigantic give-away is gotten for us in the 'post-war years.'"—Esser Junction, Va., 1958

Texas Draft Quota for January Set for 292 Men

The state quota for Texas draft boards in January calls for 292 men, Col. Morris S. Schwartz, state Selective Service director, announced Tuesday.

The state's January call of 292 compares with a quota of 393 for December and 365 for November. The January call is the state's share of a national quota of 6,000 men, all for the Army. The December national quota was 8,000.

Col. Schwartz also announced that local boards would send around 2,250 men for pre-induction physical and mental examinations. These men return home after being examined at examining stations.

The January quota will be filled with men who are at least 22 years old on January 1, with the exception of volunteers or delinquents, who may be younger.

Local board quotas for the January call already have been figured and sent to the state's 137 local boards. Induction call for one registrant from this local board will be on Jan. 17 (open for a volunteer). Pre-induction examination for 8 registrants on Jan. 17 (this will likely be in the 1938 age group for examinations). Orders will probably be mailed to eligible registrants about January 3.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

Austin, Tex.—Texas will need \$215,000,000 in new money during the next two years to pay its debts and make needed improvements.

This is the conclusion of the State Finance Advisory Commission. To get the money, the Commission is officially recommending a one-per-cent, state-payroll tax as a revenue source that would grow as the state grows. Half the tax would be paid by employers, half by employees.

The Commission made a six-months' study of the state's fiscal problems at Gov. Price Daniel's request. It is made up of leaders from the fields of business, labor, and the professions.

As a second choice, the Commission proposed increasing selective sales taxes. Main emphasis, however, was on the payroll tax which, it was noted, both employers and employees could deduct from federal income taxes.

THIS WEEK —In Washington

With Clinton Davidson

Last summer we reported that some of our friends in Japan did not believe the riots which resulted in President Eisenhower cancelling his visit represented the feeling of the majority of the Japanese people.

A more recent appraisal of what is happening in Japan, and what it means to us, has been written by another long-time friend, Charles W. Doyle, who has lived in Japan for many years.

He reminds us that the difficulties of American-Japanese relations grow out of the fact that each nation's views have been shaped by a different history. The Japanese are fearful of a return to the totalitarian police state that existed before World War II, he points out.

Many of them view the military alliance with the United States as increasing the danger that the Japanese army will again become so strong as to again rule the nation and destroy their new democratic government.

Anti-American "It is definitely a mistake to explain the recent agitation as an outburst of anti-Americanism," Mr. Doyle writes. "On the other hand," he cautions, "to attribute it merely to the work of a noisy minority is misleading. Popular sentiment supported the demonstrators in their general aims."

The demonstrations, he contends, were not so much anti-American as they were anti-military. Mr. Doyle emphasizes that we need to understand the reasons behind the riots in order not to jump to the conclusion that Japan is turning against the U. S.

"Americans see the greatest threat to security, and all of our defenses are alerted in this direction," Mr. Doyle writes. "But the Japanese consider that the greatest menace is from the right."

"To them anything is preferable to returning to the totalitarian police state. This cleavage of thought makes Americans not as acutely sensitive to the signs of resurgent militarism in Japan as we ought to be, and it makes the Japanese somewhat naive in their evaluation of communism."

Japanese Are Puzzled Because of their different background, Japanese find it hard to understand what the true aims of America are, Mr. Doyle says. "On the one hand," he says, "America destroyed the hated militarists; on the other she is now encouraging the creation of a new army. America made the present peace and prosperity possible, but now she seems to be jeopardizing this by pushing measures that antagonize Russia."

"She gave Japan her constitution with the clauses that renounce war, and now seems to be urging disregard of the constitution. She encouraged the Japanese to be politically active, but now frowns upon the political activity of students," Mr. Doyle says. The article by Mr. Doyle emphasizes a point in our international relations which, it seems to me, is of paramount importance: We Americans need to make a greater effort to understand the viewpoint of others, and to take that into account before criticizing them for not seeing communism through the same eyes as we see it.

International understanding must take into consideration what others think, rather than our own views alone.

Brush Planted on Grass Land in Panhandle

A partnership wildlife habitat improvement program is being carried on in the Panhandle of Texas, intended to restore game to the area, according to W. J. Cutbirth, assistant executive secretary of the Game and Fish Commission.

The work is described in an article in the December issue of Texas Game and Fish magazine. It was prepared by J. K. Parson and B. D. Hudgins, wildlife biologists.

The project is located 30 miles northwest of Dalhart, on what is now known as the National Grasslands, owned by the Forest Service. Management is under direction of the Game and Fish Commission.

The primary study right now is on scaled quail (blues), and motts are being produced to provide cover for more of these birds. Plots have been fenced off and Russian olive and squaw brush planted to provide this cover.

Since the first plantings in 1956, approximately 150,000 seedlings have been placed in 34 plots and spaced over 7,000 acres of land. Plantings now are getting larger enough to provide additional cover. The place is closed to hunting.

Striped Bass Introduced in Diversion Lake

California striped bass have been introduced to Texas waters as an experiment in providing additional fishing potentials for state fishermen, according to Marion Toole, director of inland fisheries for the Game and Fish Commission.

The fish were planted in Lake Diversion, near Wichita Falls, last week. There were approximately 800 of the strippers, flown in from California. They are about four inches long.

It has been divided over whether to merge the State Library's Extension Division and the federally financed Rural Library Service.
