## BRUCELLOSIS LAW TO BE TOPIC OF SEPT. 16 MEET

County-wide meeting of the farmers and ranchers in Foard County will be held in the district room on Wednesday, Sept. 16, 2 p. m. to discuss the proposed Brucellosis law recently enacted. Virgil Johnson, a member of the Livestock sub-committee of the Foard County Production Committee, urges

all farmers and ranchers to attend this meeting in order to obtain first hand information as to just how this new law will affect both the large and small cattlemen.

Dr. W. O. Boaz, educational director with the Texas Livestock Sanitation Commission, will be present to answer group and individual questions pertaining to the Brucellosis program.

Many counties within the State have already laid plans and made preparations to comply with the provisions of the law to preclude restrictions being placed upon the movement of cattle within and without their particular areas, and many of the farmers and ranchers in this county deem it imperative that plans for Foard County's participation in this program be laid immediately.

## WILDCATS WIN OVER SEYMOUR BY 22-0 SCORE

The Crowell High School football team won its opening contest of the season here last Friday night over the Seymour Panthers by the score of 22 to 0. It looked like the game would be just as close as had been predicted for the first two quarters as neither team could start its offense to rolling.

The Wildcats came back on the field looking like a different team after the half-time intermission. Wesley Cummings, left halfback for Crowell, was cleared into the secondary by some splendid blocking by his teammates and the speedy back turned on the steam for 58 yards and the first score of the game on the first play from scrimmage in the second half. The extra point try was no good to leave the count 6 to 0 at the end of the third quarter.

About midway in the final period, Cummings found some more good blocking at the other end of the field that carried him 16 yards to paydirt. Jim Henry, stellar fullback for the Cats, picked up 16 yards in two carries to set

this score up. Henry carried the extra two points over to make the score 14 to 0.

George Moss intercepted a Seymour lateral on the Panther 35-yard line to give Crowell possession of the ball just four minutes before the game was over. Henry set his own score up on a 28-yard scamper. A five yard penalty and a five yard plunge by Henry scored Crowell's last touchdown. Henry again ran the extra two points over to make the final count 22 to 0.

It looked like Crowell had scored another time late in the game when quarterback Ivan Cates threw a thirty-yard pass to left end Bill Graves that went all the way. However, a penalty on the Cats nullified this touchdown.

Crowell's line made up of Graves and Moss and ends; Bobby Powers, Gary Carpenter, Duane Nichols and Bryant Thompson, tackles; Taylor Johnson, Joe Barry and James Borchardt, guards; and Tom Crowell, center, roundly outplayed Seymour's heavier line in both blocking and tackling throughout the last half to spell the difference in this contest. All of the backfield work for Crowell was not performed by Cummings, Henry and Cates. Bobby Barker, Guy Todd and Don Welch did some good playing, too.

Jerry Lee Howell, right tackle, and Jerry Underwood, right end for Seymour, stood out on defense for the Panthers. Seymour did not threaten to score at any time during the evening. Their 196-pound fullback, Joe Bob Chandler, picked up some yardage the hard way out in the middle of the field but their offense would bog down before reaching the 20-yard line.

The Wildcats have an open date this Friday, but will journey to Quannah next week to take on the Quannah Indians. Quannah was one of two teams to defeat Crowell last season.

Statistics of the Crowell-Seymour game:

Crowell	Seymour	
12	First downs	8
234	Yds. gained rushing	100
20	Yds. gained passing	14
0	Passes completed	1 for 4
0	Passes intercepted	1

**HOW MUCH HELP DOES A PENNY BUY?**

When electricity's doing the work, here's one example: 1¢ a day runs the dishwasher for a family of four! Mighty low wages, wouldn't you say? And your electric service is ready to do dozens of other jobs all over your house for the same bargain rates. What a value!

West Texas Utilities Company

### HERE'S ANOTHER EXAMPLE

For less than 3¢ the average family served by WTU can cook a complete meal the modern electric way... and enjoy the cleanliness and convenience of Electric Living. Change now to Electric Cooking.

Electricity costs so little — you can use lots of it!

at Vernon.

### How Important?

Have you ever gotten out of bed "on the wrong side" and had the entire day seemingly go bad because of that bad beginning? It happens to all of us at one time or another and makes us more thankful for days that do go right. But just how important is a good beginning?

Here are a few opinions of the CHS faculty and students that may answer this question:

"We have all heard of the old adage, 'A good beginning makes for a good ending.' There is another one which states that the first impression is lasting. A good beginning in school may be compared to a good foundation in a structure. A weak foundation makes a weak building, and it is also true in our school work. Many subjects necessitate a student to have a thorough knowledge of the basic elements of the course if he is to comprehend the subject matter later. This is true in practically every subject in high school or college. Salesmen are required to dress well in order to make a good impression when they meet a prospective customer. A good beginning usually brings better understanding, a greater interest, more happiness and ultimately, a better opportunity for success. Can we afford not to have a good

beginning?"—Henry Black.

"Mr. Black covered a good beginning in school work, in business, and life in general, but good beginnings apply to sports, too.

"In football a good beginning is the basis for confidence. Without the right kind of a beginning, a team may never gain the confidence it takes to reach the top and stay there. A good beginning is the best platform for moral and spirit for a team."—Coach Thyne Ammonett.

How good a beginning have you made this year? It's not too late to make it good, you know. I think I'll "backtrack" a little and see if I can't do better. Want to come with me?—Judy Borchardt.

### 1959 Yearbooks Received

Congratulations go to Kirk Walters, editor in chief of the '59 year book, to the other staff members, and to Mrs. Kenner, sponsor, for the attractive year books received during the summer.

The covers are blue leather, bearing 59 and Roundup in gold. An outstanding feature that adds to the beauty of the back is the colored nature scenes used as division pages. These scenes were given to the staff by the Texas Highway Department and they were selected by Frances Kincaid. "Fall" is a scene on Lake Austin, "winter" is a scene on a lake on US 59 north of Nacogdoches, "spring" is cypress trees in Garner State Park. Advertising is a scene on US 77 between Cameron and Rockdale.

### Meet the Seniors

Perhaps some of you have never had a chance to become acquainted with our seniors, so we would like to present them to you now.

Margaret boasts Janie Bowers and Arlos Moore, and Joe Coufal, Louis Kajs and Loy Hopkins claim Riverside as their stomping ground.

Our lone wolf from Vernon is Bill Taylor. Jean Halbert and Henry Black are class sponsors.

We would also like to introduce our class officers who were recently elected. Tom Crowell has been chosen to serve as president. This is the third year Tom has been president of his class. Bill Taylor is vice president and Jo Frances Long is secretary. Appointed as reporter is Judy Johnson. Other officers have not been chosen.

### Wildcats Off to Good Start

Looks as though the sports writers know their business this year. At least, the men who gave Crowell a two touchdown lead over Seymour proved to be correct.

The first half of Friday night's game was give and take, making the score 0-0 at the half. But when those Wildcats pounced back the second half, the Panthers moved over and let 'em through. Jim Henry, Wesley Cummings and Bobby Barker did most of the running, Bless George for catching that extra point pass! The team looked good together, even if Slim does get a little over-anxious at times!

Since this week is open, the Crowell fans and team will have time to prepare for the "big blow" with Quannah next Friday. We hope the crowd and spirit there for Crowell are as good as they were Friday. Mr. Hesse and the band, the cheerleaders, and the pep squad really kept the enthusiasm high. Let's repeat those 22 to 0 scores several times this year.

Wildcats!

### F. H. A. News

Last Friday, the FHA met and made nominations for the FHA team of 59-60. The winner will be the boy who receives the most money donated by those who wish to vote for him. Each penny will count as one vote. There will be jars placed in obvious places in the school so that those who wish to vote for one of the nominees may do so. The boys nominated are as follows: senior, Jim Henry; junior, Joe Barry; sophomore, Edward Kajs; and freshman, Lupe Diaz.

Tonight, Thursday, Sept. 10, at 7:30 p. m., a family night will be held at the country club for all FHA members and their immediate families. Each family is asked to bring a basket supper, which will be spread and served buffet style.

### Library Club Meets

The Crowell High School Library Club held its first meeting of this school term Tuesday afternoon, Sept. 8, in Mrs. King's room. The new officers presiding over the club this year are Helen Vessel, president; Dorothy Wehba, vice president; Sharon Wharton, secretary; and Lou Ann Summers, reporter.

To begin the new year, hostesses Carolyn Aydelott, Linda Johnson and Rachel Rodriguez served Cokes and cookies. The devotional was given by Lois Ann Painter. The president's message was given by Helen Vessel; this was followed by roll call, and each member present answered. After a sponsor's report, finishing touches were added by the introduction of the new members: Theda Green, Karen Willson and Linda Johnson.

### Football Fashions

If you were at the ball game last Friday, I'm sure that you saw most of the following fashions. This write-up is especially for those of you who missed the game.

Those handsome creatures running around on the football field were the Crowell Wildcats. Their new black suits with gold stripes and numbers made them the best dressed people at the game.

The cheerleaders were wearing black skirts and blouses and white sweaters. There were many wild Wildcats in the stadium. Carol Bell and Gaye Ramsey were wearing styles of dresses that are very good this season. Carol's dress was made of small gold print material trimmed in black rick rack. It had the old fashioned look. Gaye's dress was olive green with a black design. It had a white collar and very puff sleeves.

Mary Anne Myers was wearing an avocado green skirt and blouse. The blouse had a design down the front like the print in the skirt.

I know all of you saw the Bermuda clad cats named Jimmy Rader, David Carpenter, Gerald Bradford, Speedy Rettig, Bubba Monkres and Ray Thomson, who were wandering in and out, here and there, between everyone and everything.

### News and Nonsense

Hi, all you Crowell cats! Hope you had a fine summer and did everything that you didn't want to do because we are peeping around every nook and corner just waiting to catch you off guard. Something tells me we don't keep secrets either!

Crowell is talking about everything and everybody including all the new couples summer has brought.

Kay Johnson and Jerry Golden from Quannah make a real cute, steady couple who have loads of fun. Boob hasn't settled to one yet, but he's been seen in Q town with Jeanetta Holcum. Also, the Suzy Q seems to be a favorite spot—Ernestine no doubt.

If Carol Bell seems to be in a daze at the football games, it's because she's got her eyes on number 12. Needed in CHS: a dance where everyone dances. The skies are blue for Taylor and Elly. Taylor has been seen with Vicky. Elly seems to be interested in—you guessed it—Charles Golden from Q town. If you're wondering what happened to James Borchardt, he's been dating Barbara Bell.

A habit, CHS guys and gals going to Quannah: Joe Barry - Carolyn Wheat, Charlie Gidney and Gary Griffith-Nelda Davis, Bryant Thompson - Wanda Bullock, Bobby Barker - Marcia Fields, Wes Cummings - Patricia Brazal (Vernon too), Bill Graves - Marquita Boynton, Jerry Eubanks - Barbara Wooten.

Song with a purpose, "Put Your Head on My Shoulder."

Something worthy of headlines: Jimmy Mack and Gaye claim they have never had an argument.

Familiar two-somes that survived the summer: Ginger - Bobby, Wanda - Don, Sue - Jackie (although it was stormy), Margie - Duane, Barbara - Freddie, Jo Carole-Robert, Judy-Mike, Earlyn - Denny.

Quite a few Quannah rings in Crowell. Mary Anne has one of them, John Marshall's; Jo another, Eddy Wood's.

A gal on the go — Carria — which will it be: George, Ronny Joe?

Jerry and Alta finally called it quits.

Dorothy Wehba has a Q town admirer—Gary Swindell.

A happy gal—Sharon Wharton — at the football game because of Jay. A lucky gal — Charlotte

Sledge because Butch Newsome came all the way from Fort Worth just to see her. A contented gal—Linda Johnson because of Lee Gravelly.

Boys, don't complain if your girl went to sleep in the show Saturday night. It was the result of a Friday night slumber party.

Seniors had a fine canteen. Latest invasion. Crowell at the opening of the Quannah canteen. Swinging around were Don Tole, Mary Ellen Breedlove, Bill Marquita, Jerry-Kay, Jo-Eddy.

Sitting on the edge of their seats at the Plaza were Carria-Joe, Judy-Aldon, Sue-Jackie, Jim Mack-Gaye, Carole-Jim, Freddie-Barbara, Bob-Carolyn.

If you see a black Cadillac in Crowell, it's just Faucine and Carl Curry, Alta and Buddy Southall.

Have you gals noticed Charles Carroll's new Skyliner?

Happy pair at the game Friday night—Janis Morris and Jerry Pritchard from Quannah.

Most in demand — Janie Bowers. Lucky in love, Ruth Ellen and Lucky Miller. New in town, LuAnn and O. L. Bronner.

Signing off for now but remember to tell us all your friends' secrets. Just put it in the scandal locker number 59. Always watching you! P. S. Does this sound like the Quannah scandal?

## News From the Congress

by Frank Ikard, 13th Dis.

As Congress moves into the final days of this session, there still remains several "must" pieces of legislation that must be acted upon before this session closes. They are a labor reform bill, on which a conference committee is now seeking to work out an acceptable compromise between the House-passed version and the Senate bill, the development of additional financing for the federal interstate highway system, and final action on mutual security appropriations. It is hoped that these matters can be resolved shortly and that this session can be brought to an end within the next week or ten days.

Shortly after adjournment, I expect to return to the district and to remain there through the fall. While in the district, I hope to visit each one of the nineteen counties in our Congressional district. In view of the fact that I do plan to visit all the counties

in our district, I will not be in the district office a great deal; however, that office will continue to be open at 206 Federal Building, Wichita Falls. The phone number there is 322-8379.

While most of us in this country are preoccupied with domestic issues and are being bombarded with propaganda with respect to the new peace offensive that has been launched by the Russians, Communism continues to move on to new victories. Few of us realize or are concerned with the importance of the Communist activities in moving into Laos and the Far East and the aggressive acts that are being committed by the Chinese Reds against India. These events should teach us that we cannot relax and enjoy an intimate peaceful existence with Khrushchev, and that despite all they say to the contrary, the Communists are still dedicated to world conquest and to our destruction.

While we all hope that the Khrushchev visit will be a fruitful one and that real gains will be made toward reaching a peaceful solution to the many problems that exist between the Free World and the Communist bloc, we must not let it lull us into a false sense of security.

On Nov. 2, the committee on ways and means will start comprehensive tax hearings which will be broader in scope than any held in many years. The purpose of these hearings is to bring about broad tax revisions in an effort to reduce the many inequities that now exist in our federal tax law.

High Soil Fertility Need for Top Yields

You wouldn't run your automobile until it is out of gas, says Joe Burkett, county agent, so why keep cropping your land until the plant food runs out? To maintain profitable yields, he adds, additional fertilizer should be applied to cropland before the plant food gives out completely.

To know exactly where your land stands in regard to the amount of plant food available, take soil samples and send them to the state soil testing laboratory at College Station or Seymour for analysis.

Soil samples should be sent to the lab several weeks before planting season so the lab will have sufficient time to test them.

Among the crops generally planted in the fall are alfalfa, small grains, clovers and other legumes. Many of the soils on which these crops will be grown will need fertilizer and if this is

the case, the fertilizer should be applied before planting, making a soil test now doubly important. Use on your farm to help determine the level of fertility in your soil and how much fertilizer is needed to add for most profitable production.

### Going to the Dogs

Christianburg, Va. — This one thief who went to the dog pound... and the dogs enjoyed the minute of it. Somebody broke into a station, stole eight pints of cream, and fed it all to the dog at the local dog pound.

**Nyet on Trailers**  
Del Mar, Calif. — Sergi Yeager, a touring Russian aircraft designer, was inspecting an exhibit of house trailers at the San Diego County Fair.

"Do you have house trailers in Russia?" a newsmen asked.

"Nyet," Yeager replied in a word.

The newsmen had a pretty good idea what the word meant, but he asked Yeager's interpreter for an explanation anyway.

"He says," the interpreter replied, "that they do not like houses on wheels in Russia. They prefer a more permanent stable type of housing."

## Struggle to Gain Equal Pay

"Now, women are found in every responsible financial position of trust. . . . From the penny-pinching housewife to the woman president of a bank, they are recognized for their good business sense. And the men don't seem to mind anymore that members of the fair sex have taken over these positions of trust."

"It is all part of the struggle of woman to gain an equal part with her counter-part in society."—Canton, N. C., Enterprise.

Exhibits from All Over the World to Be at State Fair

Exhibits from literally all over the world will be among the sights to see at the 1959 State Fair of Texas, Oct. 9-25, in Dallas.

The foreign exhibits will be part of the second annual Texas International Trade Fair, which will occupy more than half of the area of the General Exhibits building, largest exhibit hall on the fairgrounds.

There will be exhibits from Italy, Belgium, Sweden, Germany, Great Britain, Japan, Korea, the United Arab Republic, Israel and Austria, and possibly from Finland, the Netherlands, France, Canada and Mexico as well.

The exotic International Bazaar, where imports will be offered for sale to the public, will also have at least a dozen countries represented.

Another international touch to the State Fair will be added by the 43rd annual Southwestern Automotive Exposition, which will include a large number of foreign cars. A great majority of the new 1960 model cars of American makers will also be on display, with practically all of the new models due to be exhibited before the Fair closes.

Other major exhibitions at the Fair will include a show with emphasis on leisure-time pursuits called "Playtime U. S. A.," a three-acre tract with all farm machinery exhibits combined in one location, a large antique automobile show, one entire building devoted to the Electric Show which will feature a "see yourself on color TV" gadget, armed forces guided missiles and other defense equipment, and the first United States showing of the fabled "City of Nikko" which depicts a famous Japanese shrine.

In the Women's Building, the myriad exhibits will include a fabulous collection of diamonds. The various museums on the fair-

grounds will all have special exhibits, ranging from art masterpieces to a preview of space travel.

As always, the exhibits in themselves will make a visit to the State Fair well worth while.

Many thanks to all the people in Crowell and Foard County for remembering me so kindly while I was in the V. A. Hospital in Dallas.

Old Soviet Trick

"It is difficult to see how an artist's political coloration could sensibly be used as a basis for deciding whether his work was good enough to represent the United States in an art exhibit. . . . The judgment of art and literature by political standards—by the criterion of how well they conform to government views—is a Soviet trick, one we would do well not to emulate. Anyone who doubts that the Kremlin goes in for this sort of judgment need only view the art displayed at the Soviet exhibit in New York. . . ."

—Fredonia, N. Y., The Censor.

Inflation Much Discussed

"Today's most discussed problem is inflation. All kinds of answers are uncovered, but what interests most of us is how it affects us personally. This question-and-answer gimmick supplies the answer:

"Question: If a man with a family of four earned \$57 a week 20 years ago, how much would he have to get today to have the same buying power?

"Answer: \$135 a week . . . \$62 for inflation and \$15.40 more in taxes!" — Tempe, Ariz., Daily News.

We Will Pay for Schools

"Let's not fool ourselves. We, the people, are going to pay for

our schools. We can pay to a city or special school district, a county school organization, a state department of education or a federal education bureau. Whichever one raises taxes and meets the needs will handle the funds and set up the standards by which the schools should be run.

"If the financing is federal, sooner or later the federal bureaucrats will be calling the tune. We believe we would rather pay a piper who is a little closer to home. . . ."

Cotton Harvesting Methods Important to Farm Income

Good harvesting can mean as much as \$25 per bale more for the grower, according to Joe Burkett, county agent. If growers will use good harvesting methods, many dollars can be added to the farmer's income this year.

To harvest better cotton, Burkett stated that cotton should be picked only after dew or rain has dried off and that green bolls, grass, stalk parts or other trash should be kept out of seed cotton.

Enough seed cotton should be taken to the gin for a 500 pound bale of lint cotton. Farmers will be docked for undersized and oversized bales. Also, he reminds, bales weighing less than 275 pounds or more than 700 pounds cannot be sold to the Commodity Credit Corporation.

Other harvesting practices recommended include: not picking cotton in tar bottom pick sacks; pick cotton grouping for hand picked and machine picked cot-

ton, or machine picked cotton of different quality; defoliating at the proper time; not tramping seed cotton in trailers or storage; and keeping mechanical harvesters in good condition and using only well trained operators.

When the seed cotton is delivered to the gin yard, the effects of harvesting do not end. It's easy to see that clean, dry cotton can be ginned much better than damp, trashy cotton. Remember that you have a sizeable investment in your crop and in a great many cases proper harvesting practices can mean the difference between profit and loss, added Burkett.

Reverses Its Stand

"After seven years of opposition to laws for protection of union members' rights within their unions, the American Civil Liberties Union has reversed its stand.

"The ACLU had contended that 'self-policing' of the unions was the answer. It took a lot of evidence to change the ACLU's mind, but that evidence has been piling up."

"When a man's right to hold a job is dependent upon his membership in a union as the result of Federal policy, the government owes it to him to see that he's not forced to serve union dictators."—Cherryvale, Kansas, The Republican.

**New Licenses  
Required to  
Hunt and Fish**

"Don't ruin your hunt by overlooking the game laws," warned the Director of Law Enforcement, E. M. Sprott, Texas Game and Fish Commission. "Before taking your gun from the rack, be sure you know all laws concerning game in your particular area.

"Old hunting licenses expired August 31. Be sure to have your new licenses on you when you go out to hunt. Check your gun for a plug. Only three shells, including one in the chamber, are allowed in it by law.

"Don't hunt on a piece of property unless you have permission from the owner or person in charge of it. Don't fire near a home or in a direction that might endanger some person, house, or even livestock.

"Hunting from a public road is prohibited by law and it's illegal to shoot from a moving vehicle. These are laws that have been in existence for quite a long time," said the director.

He then reminded hunters that many of the birds taken during the hunting season will have tags on their legs. "These tags should be returned to the Game and Fish Commission with information telling when and where the bird was killed."

He then warned hunters not to forget the changes in the water-fowl regulations. "If they can't be found in print," he said, "check with the warden in your area; he'll be more than happy to help you."

More decorations for valor have been awarded, per man, to the submarine service than any other Navy branch.
