CHRISTMAS SEASON OPENS HERE FRIDAY

SEVENTEEN REPORT FOR CAGE PRACTICE; TO OPEN SEASON IN SEYMOUR; PLAY HERE TUESDAY

Seventeen Crowell High School cage players reported to Coach Grady Monday afternoon for the first practice session of the season. Among this group there were five lettermen, four of whom were regulars of the Northwest Texas Basketball Conference championship team of last year.

Opens Season Thursday
The Wildcats will open their cage season Thursday night on the Seymour court with the Panthers and the first home game will be played with the Chillicothe Eagles Tuesday night. This will be the fans' first chance to see the veteran defending champions swing into action on the local court.

Six Games Before Christmas
Crowell's quintet will play six games before the Christmas holidays this month, of which three will be played here. They will meet the Seymour Panthers twice, then play two games with the Paducah Dragons and two with the Chillicothe Eagles.

Will Defend Title
Crowell will again play in the Northwest Texas Basketball Conference, which was known as the "Big 5" last season, and will defend their title against the teams that will enter the conference. Final arrangements have not yet been made and the number of teams to be in the race is not known. The schedule will be announced just as soon as the arrangements can be made. The schools in District 2-A and Crowell are included in the Northwest Texas Conference, although only five teams in this area were in the race last year.

Champs Two Years
The Wildcats have captured the title two of the three years that this conference has been in existence and if the Crowell quintet can win the trophy for the third time, it will be awarded to Crowell for permanent possession.

Bright Prospects
The prospects of Crowell again winning the championship are very bright with the return of four veterans and a letterman in addition to strong reserve strength. Coach Graves stated that he would have the strongest reserve strength he has had in several years.

Garrett Middlebrook, center of the 1936-37 quintet, is the only starter that was lost through graduation and his position will be filled by the letterman, Bernice Fitzgerald, or a reserve of last season, Leonard Smith. Fitzgerald turned in good performances last winter and shows great possibilities of capturing the center position. Smith was the star and high point man of the junior tournament last year with the Crowell Juniors and is in line to see much service at the same position.

Richard Kelsey, all-district man of last season, returned and will be ready to start in the forward slot. Orr's brilliant playing aided the Wildcats to snag the championship last year and fans will be watching him this year. These two sharpshooters will be ready to go to work Thursday night at Seymour.

J. S. (Cotton) Owens, Wildcat guard and all-district honor man last year, also returned to the team more elusive than ever before. This scrapping guard was second to Kelsey for scoring honors last season. The remaining guard position will be filled by another veteran, Junior Nelson. He proved last year that games can be won by the player that does not put the ball through the hoop with his consistent defensive work.

Other than those named above, the following boys reported for practice Monday: Jack Fitzgerald, Frank Dunn, Que Meason, Marvin McKown, Wayne Canup, H. K. Edwards, James Everett Long, Frank Priest, Riley Griffin, Sam Russell and W. D. Hudgens.

MARRIAGE LICENSE

Marriage licenses have been issued from the office of the county clerk by the following parties: O. Williams of Tulsa, Okla., and Miss Marjorie Scott of Lubbock on Nov. 24. E. C. Croucher and Miss Vernie Johnson, both of Crowell, on Nov. 27.

Final Plans of Ex-Students Banquet Made

Final arrangements for the annual Ex-Students' banquet, ex-graduates of Crowell High School, will be completed according to Ernest Spears, president of the Ex-Students Association, who stated that the committees in charge of the affair were expecting a record attendance.

The banquet will be held in the spacious show room of the M. & S. Chevrolet Company Saturday night, Dec. 25, at 7 o'clock. Mr. Spears stated that the affair will start at 6:30 o'clock and that the first half hour will be set aside in order that the "home-comers" could meet their old friends and talk over "the good old days." Miss Maymie Lee Teague, chairman of the program committee, has promised "one of the best and most entertaining programs ever presented."

Immediately following the banquet, a dance will be held in the Ringgold hall for those who wish to take part, and those who do not dance will be urged to remain at the banquet room and visit with their friends.

Tickets will go on sale today and they may be obtained from Mrs. Henry Borchardt at R. B. Edwards Co., Henry Black at the Corner Drug Store, or Henry Ashford at The News office. Out-of-town ex-graduates can secure tickets by writing to either of those named above. Mr. Spears urges all those who plan to attend the banquet to make reservations early, as the morning of Dec. 24 will be the deadline for purchasing of tickets.

The committee appointed to decorate the show room are as follows: Miss Elsie Faye Roark, chairman; Miss Maymie Lee Teague, Henry Ashford, and Mrs. Henry Borchardt.

Others on the program committee are: Henry Black, Mrs. Henry Borchardt and Ray Thomas.

Purebred Hogs Bought By Crowell FFA Boys

Six purebred Hampshire hogs were bought by members of the Crowell FFA chapter at Canyon last week from the Tierra Blanco Stock Farms.

The Hampshire breed was selected because of its quality bacon, its ability to farrow and raise large litters of pigs, and its ability to range for food.

The Tierra Blanco Farm is one and a half sections large and has over 600 purebred hogs on it now. They have spotted Poland China, black Poland China, Hampshire and Duroc-Jersey. They have national grand champions in this group and recently delivered a \$26,000 order of purebred Hampshires to Cuba.

The hogs purchased by the Crowell boys will weigh between 150 and 225 pounds and the boys intend to show them in the spring project show about the first of March. These hogs will be bred to farrow about the middle of April.

Those securing the hogs were, Carl Connell, James Welch, Kenneth Halbert, Ed Gafford and Walker P. Todd, adviser. Ed Gafford also purchased the boar. All of the FFA members made the trip to Canyon and brought their hogs back in a trailer.

HERE FOR THANKSGIVING

Mrs. A. S. Hart and mother, Mrs. J. M. Allee, of Rockwood, and Mrs. Hart's son, Jim Allee Hart, teacher in the Journalism department of the High School, arrived here last Wednesday to spend Thanksgiving in the home of Mr. and Mrs. R. Magee. Mrs. Allee had spent several months in Rockwood with Mrs. Hart, but will remain in Crowell the rest of the winter. Mrs. Hart teaches in the Rockwood schools.

Mr. Hart, who is teaching journalism in the Crane school his third year, is a graduate of Texas Tech. The past summer he spent six weeks at the Broad Leaf School of English near Middlebury, Vermont, where he took a special course in writing. He also visited many points of interest in the Northeastern states during that time.

Edison Memorial

Shown after its recent completion at Corning, N. Y., is the giant electric light bulb which will surmount the \$100,000 memorial tower to Thomas Alva Edison at Menlo Park, N. J., where Edison invented the first incandescent electric light. The bulb, 14 feet high, contains 960 electric lights with a 24-inch reflector to be utilized as an airplane beacon.

Canned Foods for Contest on Display at Agent's Office

Canned fruits and vegetables which have been entered in the canned foods contest, prizes for which are furnished by the Ball Jar Company, will be on display in the office of the home demonstration agent from Friday, December 3, through Saturday, December 11.

This display was originally planned for one of the store show windows but was scheduled sufficiently late to interfere with Christmas decorations, so was changed to the agent's office.

Everyone is invited to come in to see the exhibit.

New Law Office to Be Opened in Crowell

Leslie Thomas, son of Mr. and Mrs. R. J. Thomas, has announced that he will open a law office in Crowell this week.

Mr. Thomas graduated from Crowell High School in 1932 with highest honors and attended Texas Technological College the following summer. He later entered Jefferson University in Dallas, where he graduated from the law school of that university with highest honors in May, 1935.

For the past two and one-half years, he has been engaged in the practice of law in Dallas and has also been a member of the faculty of Jefferson University Law School.

During his attendance at the university, Mr. Thomas was a member of the school's debating team and was active in all branches of the public speaking department.

COTTON REPORT

A tabulation card received this week from the Bureau of Census, Department of Commerce, in Washington, D. C., shows that there were 9,306 bales of cotton ginned in Foard County from the 1937 crop, prior to Nov. 17, as compared with 2,348 bales ginned to Nov. 14, 1936.

WILL OPERATE STATION

R. D. Stewart has bought the interest of Frank Weatherall in the Phillips 66 Station, located across the street from Fox-Way Grocery, and took charge of the station Friday, Nov. 26.

HOME BURNS

The home of Mr. and Mrs. Bill Norman of McAdoo burned early Thursday morning, Nov. 25, when a jar of gasoline accidentally became ignited. The garage was also burned and both structures were total losses.

Gasoline in a fruit jar expanded from the heat of the room and the fumes became ignited from the flame of a kerosene refrigerator. Remodeling of the house had been completed this year.

Mr. and Mrs. Norman were preparing to come to Crowell to spend the holidays with relatives when the accident occurred.

CONDITION IMPROVED

Joe Orr, who has been critically ill in the Quanao Hospital for several days, is reported to be improving, according to latest reports Wednesday.

J. H. AYERS DIES SUNDAY, NOVEMBER 28

Funeral Rites Held in Crowell Methodist Church Monday

Funeral services for J. H. Ayers, resident of this county since 1885, were held at the Crowell Methodist Church Monday afternoon at 2 o'clock with Rev. W. A. Reed of Kirkland, Rev. E. A. Irvine of Margaret, Rev. Marvin Brotherton of Kirkland and Rev. T. L. Burns of Margaret, officiating. A special musical number was a vocal duet rendered by Mrs. W. A. Dunn of Margaret and Mrs. Bob Thomas of McLean. Mrs. John S. Ray acted as pianist.

Pall bearers were John S. Ray, D. M. Davis, Sim Gamble, B. S. Westbrook, U. S. Davis and E. G. Kennedy.

Flower bearers included Mrs. Jodie Owens, Mrs. Walter Johnson, Mrs. Claude Orr, Mrs. S. E. Porterfield, Mrs. Howard Bursey, Mrs. Bailey Rennels, Mrs. Jack Balew, Mrs. Joe Johnson, Miss Emma Belle Hunter, Miss Bonnie Schroeder and Mrs. Ray Hysinger.

Interment was in the Crowell cemetery with Womack Funeral Home in charge of arrangements. Mr. Ayers died at his home in the Riverside community Sunday morning at 4:30 following an illness of more than a year. His condition had been critical for the past month.

J. H. (Henry) Ayers was born in Murray County, Ga., on Sept. 28, 1869. At the age of nine he came to Texas with his parents and the family settled in McClellan County, later living in Coryell, Johnson and Hill Counties, before coming to Wichita County. For about two years Mr. Ayers worked on the Fort Worth & Denver Railroad and in November, 1885, he moved to the section that is now Foard County and settled on the place where he lived at the time of his death. Mr. Ayers later bought the land from his father, N. J. Ayers, who died in Chillicothe in 1911. Mrs. N. J. Ayers died at the home of her son in 1929.

The community in which Mr. Ayers had made his home in this county was known as Ayersville and was named for him. In recent years the school in this community was consolidated with West Bayland school and is now known as Riverside.

Mr. Ayers was a member of the Baptist Church and was a stalwart leader in his community for a half century. During this long period he had endeared himself to hundreds of friends throughout this section of Texas.

On January 1, 1893, Mr. Ayers was married to Miss Frances Lee Mears in Wilbarger County. To this union two children were born, a daughter, Mrs. J. D. Withers, who died in Fort Worth in June, 1928, and a son, Roy, who survives. Mrs. Ayers died on Jan. 22, 1908, and on Nov. 16, 1910, Mr. Ayers was married to Miss Jessie Hunt, who died June 2, 1913. On Sept. 9, 1915, he was married to Miss Annie Crow in Kentucky.

Survivors include the widow; one son, Roy; two brothers, W. J. Ayers of Riverside and R. M. Ayers of Manuel, Mexico; two sisters, Mrs. Stan Westbrook of Truscott and Mrs. Earl Kennedy of Chillicothe, and three grandchildren, Frances Ann, Mary Ray and H. L. Ayers Jr.

Out-of-town relatives and friends present for the funeral were Mr. and Mrs. U. S. Davis, Mr. and Mrs. Lon Goodman, Mrs. S. E. Porterfield and Mrs. Jack Ballew of Vernon; Mr. and Mrs. Pliny Ullum of Cisco, Mr. and Mrs. Will Hembree of Dimmitt, Mr. and Mrs. Earl Kennedy, Mr. and Mrs. Solomon of Truscott.

Crowell Merchants Bid You Come

A hearty invitation is extended to all people in Foard County and surrounding territory to be in Crowell Friday night for the opening of the Christmas shopping season. A good program has been prepared for this occasion and everybody is sure to have a good time.

This issue of the paper is full of advertisements of Crowell merchants who are anxiously awaiting your visit Friday night and are making preparations for your entertainment. Santa Claus will be here and will be glad to see all the kiddies. He will have candy and a gift for each child.

Read the ads in this issue and don't fail to be in Crowell tomorrow at 7 p. m.

Farmers Invited to Attend Meeting of Former VA Students

Farmers of Foard County are invited to attend a meeting of the former Vocational Agriculture students of Crowell High School Tuesday night at 7:30 o'clock in the Vocational Agriculture room of the high school building to discuss the cotton situation, classing of cotton, and the procedure used in getting in for the government loan, according to an announcement made by Walker P. Todd, V. A. adviser. All former V. A. students are also extended an invitation.

Ernest Croscoe, who is connected with the government loan department, will furnish samples and give an explanation of the loan. Three former students met at the high school on Nov. 23 and discussed farm problems and last year's projects. Those attending were Clinton McLean, David Solis, Ben Baker and Mr. Todd.

Brother of Thalia Man Killed in Car Wreck at Sweetwater

E. S. Cox of Ballinger, brother of W. L. Cox, superintendent of the Thalia school, was killed instantly Wednesday, Nov. 17, in an automobile accident 18 miles south of Sweetwater. It is presumed that Mr. Cox became blinded by the sun and crashed into a car that had driven on to the highway from a side road.

Mr. and Mrs. Cox and children attended the funeral services which were held in the First Methodist Church of Ballinger Friday, Nov. 19. Interment was made in the Ballinger cemetery with the Masonic Lodge in charge of the arrangements. Mr. Cox is survived by his widow and three children.

BUYS GROCERY STORE

Will Wood, who has been a tenant farmer on the Miller farm in the Thalia community for the past twenty-six years, bought the grocery store of Mack Edens in Thalia this week and has assumed management of the business.

Mr. and Mrs. Edens will move to the Miller farm where Mr. Wood has been living. They have been in business in Thalia for the past ten years.

Gene Kennedy, Mrs. Guy and Miss Ida Lee Tabor and Miss Fern Kennedy, of Chillicothe; Henry Hlavaty of Seymour, Mr. and Mrs. John Abbott of Wichita Falls, Mr. and Mrs. D. M. Davis and Mrs. Bob Thomas of McLean; Mr. and Mrs. Stan Westbrook of Truscott and their daughter of Abilene; Mr. and Mrs. Tom Westbrook and Mrs. Solomon of Truscott.

SANTA WILL ARRIVE AT 7:00; WINDOW CONTEST TO BE HELD; TEN TURKEYS WILL BE GIVEN

TWO CROWELL BOYS PICKED ON HONOR TEAM

Four Wildcats Chosen On All-District Second Team

Two members of Crowell High School's 1937 Wildcats were selected by the coaches of this district for positions on the all-district eleven and three were picked for the second team. Four Crowell gridders were given honorable mention.

Raymond Joy, 131-pound slick-hipped Wildcat back, was picked as a half back in the backfield that coaches consider to be one of the strongest teams they have selected. Joy was quarterback for the Crowell eleven and his tricky running accounted for many hundreds of yards and a large amount of scores.

Bernice Fitzgerald, 183-pound Wildcat end, was an inevitable choice on the part of the coaches because his ball carrying, passing, punting, place-kicking and brilliant defensive play easily made him one of the outstanding ends in the district. He heaved many passes to completion and gathered several points with extra point conversions from placement. His size and speed gained for him the respect of his opponents.

John Lee Orr, elusive, fast-stopping Crowell half, was voted a position in the backfield of the second team. Orr was the fastest broken field runner of the Wildcats and was a deadly tackler. He was placed in fullback position.

The blocking of W. F. Statter and Franklin Evans, Wildcat guard and center, gave to them the praise of the coaches as well as that of the fans. These two lads paved the way for many of the long gains made by the Crowell backs. They were chosen as guards.

Marvin McKown was selected as the left tackle for the second team as he was one of the strongest players in the Crowell forward wall. His play was consistent and at times damaging to the opponents.

Football authorities stated that the first and second teams are so evenly matched that should the two teams play the game would be decided on breaks.

Wildcat players who were given honorable mention were: Oran Johnson, tackle; Canup, end; Gibson, guard.

First Team

Fitzgerald, Crowell, Left End. Hibbits, Throckmorton, Left T. Whitton, Burkburnett, Left G. Hageman, Burkburnett, Center. Starkey, Seymour, Right Guard. H. Elliott, Burkburnett, R. G. Mikeska, Seymour, Right End. T. McKown, Burkburnett, Q. Willett, Burkburnett, Right H. Joy, Crowell, Left Half. Cribbs, Throckmorton, Fullback.

NEW CAR REGISTRATIONS

The following new motor vehicles have been registered in the office of the tax assessor-collector during the past week:

R. W. Bell, Plymouth sedan.
Mrs. N. Z. Martin, Chevrolet sedan.
Mrs. E. M. Frost, Ford tudor.
W. H. Hammonds, International pick-up.

Santa Claus will arrive in Crowell Friday night at 7 o'clock to take part in the annual pre-Christmas festival, which will open the Christmas shopping season here.

The Yuletide season will be officially opened with the sounding of the fire siren tomorrow evening at 7 o'clock at which hour the Christmas lights will be turned on, the merchants' windows will be unveiled and Santa will arrive. Old Nick's arrival will feature a parade led by the Crowell band and during his stay in Crowell, the jolly old fellow will distribute a sack of candy and a gift to all of the kiddies in attendance.

One of the features of the festival will be a "Christmas Window Contest" which will start at 7:30 o'clock, and everyone is eligible to take part, with the exception of those employed by the firms participating in the contest.

Forty-six local firms are taking part in the contest and at 7:30 o'clock those who wish to enter the contest can secure blanks at Self Motor Co., Ferguson Bros. Drug Store, Reeder's Drug Store, Corner Drug Store, or The News office.

The names of the forty-six firms will be printed on the blanks in vertical form with two blanks by each name to be filled in by the contestant.

After securing the contest blanks, the contestant must go to the window of each firm and find the letter there. It may be hidden or it may not, but after the letter is found, it must be written by the name of the firm and then three articles in the window that the merchant sells must also be listed by the name of the firm.

Forty-Six Prizes

When the contestant has completed the contest blank, it must be filed with the judging committee at the Self Motor Company and the first forty-six contestants who turn in correct lists will be awarded a prize, each of which is worth working for.

Turkey Chase

Another feature of the evening will be the "turkey chase" in which ten turkeys will be given free. Starting at 8 o'clock the turkeys will be released, one at a time, from each corner of the court house and the person catching a turkey becomes the owner.

Completing Decorations

A real Christmas atmosphere will prevail in Crowell Friday night. Colored Christmas lights that have been strung across the four intersections of the square will be turned on and gaily decorated windows of the merchants will add much to the glamour of the occasion. In keeping with the Yuletide spirit, attractive Christmas trees will line the streets of the business section. Merchants have also provided appropriate decoration for their stores.

Committees

Committeemen who have arranged the festival and will be in charge tomorrow night are as follows:

General committee: A. Y. Beverly, chairman; Jack Seale and Leon Speers.

Window contest committee: Ernest King and A. F. Wright.

Judging committee: George Self, chairman; Miss Mozelle Lilly and Dwight Moody.

Iowans Visit Here En Route to Los Angeles for Winter

Mr. and Mrs. Henry Wiegold of Fort Madison, Iowa, and their son, Carl, of Chicago, spent Thanksgiving Day with Mr. and Mrs. O. D. Rader. They were en route to Los Angeles, Calif., to spend the winter. Mr. and Mrs. Wiegold and Mr. and Mrs. Rader became friends in Trinidad, Colo., last summer when both couples were on their vacations. This was Mrs. Wiegold's first visit to Texas and the first time she had ever seen growing cotton which she inspected closely during her visit here. Mr. Rader took the visitors through the Crowell Farmers Gin Thursday afternoon.

Young Wiegold is a talented musician of Chicago and plans to locate permanently in California. Mr. and Mrs. Wiegold and their son gained a very favorable impression of Texas, and expect to visit the state again some time. They were traveling in a specially constructed Pontiac automobile.

GUESS WHICH IS FASTER!

BUT- YOU DON'T HAVE TO GUESS WHICH GASOLINE STARTS FASTER!

Sensational high test makes Phillips 66 Poly Gas sensationally fast-starting. But it costs no more than ordinary, lower test gasolines because Phillips is WORLD'S LARGEST PRODUCER of Natural High Test motor fuel. Try a tankful! Feel that difference in quicker warm-up and smoother running. Note the extra mileage resulting from greatly reduced use of the choke. So end slow starting and save money with Phillips 66 Poly Gas.

ANSWER: World's record airplane speed, held by Italy, is 410.6 miles per hour. The American Museum of Natural History says the male deer fly (Cephenomyia) is almost twice as fast, speeds 818 miles per hour—fast enough to fly around the world in 17 hours.

NEW MANAGEMENT

I have recently bought the interests of Frank Weatherall in the Phillips "66" Station east of Fox-Way Food Market and took charge of the business Nov. 26. No petroleum products exceed those of the Phillips Petroleum Co. and I will appreciate a share of your business.

SAFETY SLOGANS

There are just as many reckless and foolish pedestrians as there are reckless and foolish car drivers. Pedestrians who jay walk, who cross the street in the middle of the block, who do not walk with the traffic lights, who walk at night on the wrong side of the highway, are both foolish and reckless.

Hundreds of persons are killed each year as they step into the street from between parked cars. Be smart. Don't do it.

NEW FORD MODELS FOR 1938 PUT ON DISPLAY IN SHOW ROOMS OF SELF MOTOR CO. TUESDAY, NOVEMBER 30

Ford V-type 8-cylinder cars for 1938 went on display in the show rooms of Self Motor Co. Tuesday, Nov. 30, as well as all over the United States. They are offered this year as two distinct lines, differing in appearance and price. Both are in the lowest price field.

One is a newly-styled standard Ford line, in coupe, Tudor and Fordor body types, powered either with the 85 or the 60 horsepower V-8 engine. The standard cars are designed to meet requirements of the many motor car owners, whose means dictate maximum economy in first cost, as well as in maintenance and operating costs.

The other is a newly-designed de luxe line for owners who desire additional style and appointments. Powered only with the 85 horsepower V-8 engine, the line includes eight body types, the coupe, Tudor and Fordor sedans, as well as the club coupe, convertible cabriolet, club convertible cabriolet, convertible sedan and the phaeton.

The two lines of cars have the same improved V-8 chassis, but their styling is distinctly different.

The de luxe cars are larger in appearance. The hood has been lengthened. Its nearly vertical front is carried in a "V" well down into the radiator grille, with the familiar V-8 emblem at the tip of the "V." Horizontal lines of the grille bars and the louvres are echoed in a bright rustless steel band which is carried along the belt to the rear.

The new standard line cars also present a larger appearance, with a newly-designed front end, grille, hood and fenders. The front end is formed in a "V," with the horizontal grille bars extending unbroken along the hoodside to form the louvres.

Fenders in both cars are massive, formed lower to provide more complete coverage of the running gear and extending of the running gear. Headlamps are again recessed in front fender aprons, new type tail lamps in the tips of rear fenders.

Interiors of the two cars are roomy and attractive, styled in keeping with the exteriors. The de luxe sedan interiors are larger.

A new instrument panel adds measurably to the beauty of the front compartment. The panel of the de luxe line cars is in walnut

grain finish, that of the standard line cars in mahogany finish.

Instruments are arranged in two groups directly in front of the driver. In the middle of the panel is a grille, for radio speaker installation when specified. At the right is a glove compartment. In de luxe cars a lock is provided for the compartment and a clock is recessed in the compartment door.

Instruments in both cars are lighted by improved fringe illumination, designed to provide safer lighting for night driving. Interior lights are located on the right and left pillars of the sedans and over the rear windows of coupes.

Steering wheels of the de luxe cars are of flexible multiple steel spoke, with hubs of rich brown bakelized material and rims of lighter contrasting color. Standard car steering wheels are of three-spoke type, finished in beige. The upper spokes are widely spaced to give the driver unobstructed view of the instrument dials.

Night driving safety is also increased by addition of a headlamp beam control on the toe-board of both lines. The control is operated by the foot. A tell-tale light on the instrument panel indicates the position of the beams, whether high or depressed.

Both front and rear seats are wide enough for three persons. Seat cushions and backs are finished in piping and pillow treatment. In the de luxe cars the finish is set off with rows of ornamental buttons. Ash trays are recessed in rear seat arm rests of the de luxe closed sedans.

Light taupe mohair or broadcloth is optional in the closed de luxe cars, tan and buffed antique finish genuine leather or taupe bedford cord in the convertibles, and tan leather in the phaeton. The seat cushion and back of the rumble seat in the convertible cabriolet is finished in artificial leather.

In the standard line, mohair and broadcloth are optional in cars equipped with the 85 horsepower engine. The mohair is available only on special order in the 60 horsepower cars.

The driver seats of all cars except the phaeton are adjustable and the amount of adjustment has been increased.

One of the unusual new features is the front seat of Tudor sedans. The seat cushion is full

width. Seat backs are divided, each being hinged diagonally so as to swing inward as it is tipped forward. This provides a wide passageway on either side for entrance to the rear compartment.

Clear vision ventilation is continued in all closed bodies. Rear quarter windows of de luxe Fordor sedans and club coupes are pivoted for additional ventilation.

Bodies of both car lines are all-steel. There is no metal-to-metal contact between body and frame, the result of thorough use of insulation. Safety glass is used throughout in windshield, doors and windows.

The luggage compartments in all cars is closed off by a wall from the passenger space, and locked with a separate key. The compartment door hinges are concealed, the doors opening from the bottom.

A new feature of the rear deck design is a combination handle, license bracket and light, formed in the shape of an airplane propeller hub. Spare wheel and tire are carried in all compartments except in the convertible cabriolet. In this type, because of the rumble seat, the extra wheel and tire are mounted back of the seat.

The V-8 112-inch wheelbase chassis has been improved. Its features include "centerpoise" construction, rubber-cushioned engine, easy steering, softer springs, improved cable-controlled brakes, semi-centrifugal clutch, full torque tube drive and straddle-mounted rear axle driving pinion.

Refinements in the V-8 engines to provide better performance, particularly at lower car speeds, and brake improvements increase the ease of control by the driver. Riding is made more comfortable by the improved springs.

The eight principal caverns include Austin Cave, Cascade Caverns near Boerne, Longhorn Cavern near Marble Falls, the third largest cave in the United States, and Wonder Cave at San Marcos. Unexplored ones are Devil's Sink Hole in Edwards County, Jeff Davis in the county of that name; Robber Baron's Cave near San Antonio, which has one known channel two miles long; and Treasure Cave near Richland Springs which is said to be the location of buried treasure. Piney Woods Prospects

A two hundred million dollar industry is not to be sneezed at, and that's what speeded up the pulses of Texas business men when the possibilities of large scale newsprint production in this state became known. The discovery that young slash and yellow pine had no resin and was therefore suitable for manufacturing into newsprint opened the way for predictions that the huge industry now centered along the Canadian border will move southward eventually. The Southern pine belt extends through East Texas and along the entire gulf coast to the Atlantic, and the growth of trees is much more rapid than in the north.

1938 Ford V-8 Standard Tudor Sedan

MOST popular of all the Ford V-8 body types is the standard Tudor sedan, shown above. A longer hood, more sweeping lines and newly-designed front end, grille, louvres, fenders and hubcaps are featured. The car is available either with 85 horsepower or 60 horsepower V-8 engine. Interiors are attractively appointed. The front seat is full width. The seat back is divid-

ed. The sections are hinged diagonally and swing inward as they are tipped forward so as to leave a wide passageway on either side for entrance to the rear seat. Like all Ford body types the Tudor sedan has a large built-in luggage compartment. The standard cars are engineered for owners who demand the maximum of economy in first cost and operating cost.

FORD offers two new cars for 1938—the Standard Ford V-8 and the De Luxe Ford V-8. They are different in appearance—but built to the same high standard of mechanical excellence—on the same chassis.

Because people liked our 1937 car so well, they bought more than of any other make. They liked its looks, its smooth performance, and the way it handled. We have improved on that car in the newly styled Standard Ford V-8.

But some folks wanted still more size and style, with the same Ford advantages. For them, we designed a new De Luxe line.

The De Luxe Ford V-8 Sedans are longer with more room, larger luggage space, and finer appointments all around.

De Luxe cars are equipped with the 85-horsepower engine only.

The Standard is even lower priced than the De Luxe. It has graceful new lines and well-tailored interiors—with a choice of engine sizes—85 or 60 horsepower.

Before Ford made V-type 8-cylinder engines available to every one, they were used only in expensive cars. Since then, four million Ford owners have learned the genuine enjoyment of driving an eight-cylinder car with all-around economy.

The thrifty "60" engine, especially, makes possible in Standard models a very low first cost and equally low operating cost. With two distinct designs, two engine sizes and two price ranges, you'll find a 1938 Ford car to fit your needs exactly.

PRICES FOR CARS DELIVERED IN DETROIT—TAXES EXTRA

Standard Ford V-8 (60 hp.)—Coupe, \$599; Tudor, \$644; Fordor, \$689. Standard Ford V-8 (85 hp.)—Coupe, \$629; Tudor, \$669; Fordor, \$714. De Luxe Ford V-8 (85 hp., only)—Coupe, \$689; Tudor, \$729; Fordor, \$774; Convertible Coupe, \$774; Club Coupe, \$749; Convertible Club Coupe, \$804; Phaeton, \$824; Convertible Sedan, \$904.

Standard and De Luxe cars equipped with bumpers, bumper guards, spare wheel, tire, tube, tire lock and band, cigar lighter, twin horns, and headlight beam indicator on instrument panel, at no extra charge.

In addition, De Luxe cars are equipped with extra tail light, windshield wiper, sun visor; also de luxe steering wheel, glove compartment lock, clock, and chrome wheel bands, at no extra charge.

YEP, EXES, YOU ARE WELCOME

With homecoming activities just around the corner, the resident students are extending a most cordial invitation to the exes and alumni to come on masse. However, the ex-students should not feel that they have to wait for an invitation to come back to Crowell High for the day set aside for them.

Children do not linger away from home until they receive a call to come back for a visit; they come because they get sheer delight from seeing the folks and reliving the past and discussing the future. So it is with the children of Crowell High. They are expected to wend their way homeward without the formality of an invitation.

The campus will be the stomping grounds of all former Wild-cats for one brief golden day. For them the minutes will be filled with diamonds; minutes that will sparkle with the pleasures that come only from remembered pranks, good times in general, moments recalled of classes, clubs and other activities.

Climaxing the period of reminiscences will be the banquet and the dance which will be on Christmas night.

The CHS students are yearning for your visit.

SCRAPBOOK SCRIBBLINGS

Pre-War Gloom? Well—
 "Looks like a big war in Europe," the senior observed to his coffee and the four other occupants of the booth.
 "Who's fighting?" a feminine voice interrupted.
 "China and Japan."
 "Who's winning?"
 "It don't say here, but I guess Japan is. Says here England is mad at Japan. They killed two of their soldiers."
 "What were the soldiers doing there? England isn't fighting, is she?"
 "No, but they may be, if any more soldiers are killed."
 "Say, won't we look good fighting in Hong Kong?"
 "Who said we were?"
 "Oh, we will be before long. Say, those Japs can throw a hold

on you and toss you out of a tea garden."

"What are they fighting for?" (It's that girl again.)
 "Japan wants China."
 "Let them have her, who cares? I don't."
 "Well, say, it says here that the C. I. O. may run a man for president."
 "What's the C. I. O.?"

HOLIDAY HIGHLIGHTS

Why did Mary Housouer give a young man's ring back to him? Was it because he went with another Saturday night after seeing Mary every day and night until then? Mike, here's your chance, if she's mad at him.

Who was the gallant Romeo that escorted Margaret Woods home from the Junior party? Could it have been Raymond Joy?

It seems Edward Gafford is twitting Frances Henry. We took special notice that he escorted Lenagene Green to the Junior party.

Marie likes big fat boys. (Granville.)
 Pauline Stinebaugh likes to dance. (Especially with Gordie Taylor.)

Billie Brown is still seen with Buster nearly every night. Buster, you may rest easy since Ray has gone.

Louise Euhank is seen with Horace Starnes quite a lot. Is this a new romance just beginning? Juanita Johnson seems to like tall people. (Is that why she likes Ike?)

Ruth, what is meaning of this? What do you mean trifling on J. D.?

FROM OTHER RANCHES

The only male enrolled in the Home Economics department at Purdue must wear a bright pink powder puff sewed on his freshman cap. He wants to become a dietician.

It's really a social error if you choose the wrong fork—especially if it's on a five mile tour.

After a slight interruption, Major George A. Mason received his degree from the University of Michigan. At 21, within a few weeks of his graduation, he enlisted in the Civil War, and 72 years

later was graduated at the age of 93.
 An etiquette-conscious student at Michigan State wrote to the society editor to inquire, "In case of an auto accident, who should speak first, and should the gentlemen precede the lady through the windshield?"

Campus Oddities: Northie Miller has been the campus mailman at Gettysburg college for over 35 years. He has walked 160,000 miles around the campus.

NAUTICAL TERMS

Boom—How a person who falls down goes.
Row—Gutteral noise made by dogs, usually followed by wow.
Rudder—To do otherwise. That is, "I would rudder go to the show than to school."
Mizzen—Lost, gone, as in "They can't find the mizzen witness."
 An Austin boy entered college in September at the age of 12. Educators think his speedy advancement is due to his ability to read rapidly and remember what he read. He can read backwards easily.

LEARNING TO CO-OPERATE

The young man or woman who learns to live and work agreeably with other people has learned one of the most important of all lessons. One must co-operate in order to be happy. It is more needful that one have a helpful, reasonable, co-operative spirit than that he advance in any of the conventional studies usually pursued in the schools. Yet, many fail to reach the goal of reasonableness and co-operation. There is quite a little evidence to the effect that few students make progress in that direction while they are in high school and college. Unfortunately there is some evidence indicating that the average person becomes more selfish rather than less so during the later years of school life. One who goes in that direction is failing in the most essential aspect of his educational work.

JOKES

Old Lady: "Little boy, are you good?"
 Little Boy: "Yes, ma'am."
 Old Lady: "Go to Sunday school?"
 Little Boy: "Yes, ma'am."
 Old Lady: "Then I think I can trust you. Run over to the bakers with this penny and get me a bun and remember—the angels are watching you."
 Samuel F. B. Morse was an eminent painter before he invented telegraphy. He painted a scene showing a man in death-agony, and asked a physician friend to examine it.
 "Well?" Morse inquired, after

the doctor had scrutinized the picture, "What's your opinion?"
 The physician removed his spectacles, turned to Morse and commented: "Malaria!"

The nurse entered Professor Todd's room and said softly, "It's a boy, sir."
 Mr. Todd looked up from his desk, "Well," he said, "what does he want?"

WAYS FOR FRESHMEN TO BE POPULAR

Act like you own the place and that upperclassmen are only here for your convenience.
 Be nasty to the faculty members. They lap it up just like your parents do.
 When you go to school dances, make all the girls think you love them. Give one girl a rush so no one else can meet her. Talk all the time you are dancing. Use all the new and different steps you know. Go in the opposite direction to everybody else. Girls, don't let the fellows hold you close enough that you can tell what they are going to do. Use your initiative. Make them follow you. You are a better dancer than they are anyway. Don't you leave the boys gasping at the last dance?
 Wear all your best clothes the first week. Go dressed up like a million. Make everyone think you're Mrs. Astor's horse.

NEW CLUB?

We suggest that CHS have a Red Head Club. The membership of the organization would consist of Carl Connell, Wilma Jo Lovelady, Clyde Teal, Shorty Russell, Sam Russell, Beverly Hughston, Reed Thompson, Ada Groomer and Ray Steele. Ada Groomer, a red head since Thanksgiving, would make an excellent president of the organization. (It is rumored that henna did the trick.)

"SLANGUAGE" TAKES PLACE OF ENGLISH IN HIGH SCHOOL LIFE

"Phooey on you!"
 "I'll smack ya, in the kisser."
 "Oh, yeah!"
 Old stuff the above is. Any time any of you students hear such language, hang a "mouse" on the user's eye and tell him to go swat a ganny. Rhetorical repercussions like these are just not used any more. They went out of date with the passing of bustles and puncture-proof buggy tires.
 In its stead there is rising a new idiom, no, not idiotic, method of expression. The new grammar is essentially the work of high school pupils and to them goes all the credit. Here's an example:
 "He's a B. M. O. C."
 "I been quilling."
 "She can't wheel a sled."
 New, yes, but more than that.

It is so new that you can't call it English in any form and it certainly isn't language so we hereby christen it "slanguage."
 After diligent research the following dictionary has been compiled. In order not to cause Webster any more rummaging in his grave, we decided to change the name "dictionary" to "slanguage," (pronounced "Slang-guig-gi.")

The English department that will wringe when they read this will dedicate this opus.

B. M. O. C.—Big man on the campus, i. e.—grafter, gambler or superintendent.

In the swish—To be in the know.

O. A. O.—One and only.
 Kee wee—Good, swell, or almost anything, for that matter.

Nub—Unattractive person.
Pitching woo—Known as necking, petting, sparking, or snuggle bunnying.

Hang a grooper—Gentle art of osculation.

Quilling—Make up to the teachers.

Rum dumb—An uninteresting person.

Sklooking—Unromantic term for the amorous urge to make love.

Morgue—Superintendent's office.

To jelly—Soda and cigarette date.

Cribbing—To pass an exam.

To rate—Owning a car with a radio.

Wheel a sled—Drive a car.

Lay an egg—Telling a joke that flops.

Wolfing—Snaking others girls' dates.

Hang the hardware or plant a pin—Give a class pin to a girl.

Struggle buggy—Anything with wheels and a yumble seat.

High School—A place for the football boys to get the best dates, best food, and privileges of sleeping through classes, and doing just as they please. The one catch is, they have to go out to the cars to smoke a cigarette.

High School girl—A young animal of the female gender who thinks the male sex has pockets lined with gold, and has chorus girl characteristics as to appetite, cosmetics, and disposition. Every one is dumb, but her—so she thinks.

BIG FESTIVAL

OPENING THE CHRISTMAS SHOPPING SEASON

With the sound of the siren at 7 p. m. the Big Pre-Christmas Festival will be opened. Santa Claus will appear, windows will be opened, Christmas lights will be turned on, ten turkeys will be given away, a window shopping contest will be conducted, and the spirit of Christmas will be here. Come, fun for everyone.

WINDOW CONTEST

Everybody is urged to participate in the Window Shopping Contest, which starts at 7:30 o'clock. There are 45 windows in the contest and there will be 45 prizes and each will be worth working for. Contest blanks can be had at Ferguson Bros., Reader's Drug Store, Corner Drug Store, Self Motor Co., and The News office. The rules follow:

Rule 1—Contestant must find letter in merchant's window.
 Rule 2—Contestant must list names of three

articles that are sold by the merchant in which window the letter is found.

Rule 3—Everyone is eligible to participate with the exception of those who are employed by the firms entered in the contest.

Other details can be found elsewhere in this issue of The News.

TEN TURKEYS FREE

At 8 o'clock, after Santa has given his gifts and candy to the kiddies, ten turkeys will be

given absolutely free. They will be thrown from the top of the court house, one at a time, and the one who catches one will be the owner of a nice Christmas turkey.

Santa Fe spends 125 million .. in Eleven States!

The Santa Fe, in 1936, paid out more than 125 millions of dollars for materials and supplies, fuel, wages and salaries, and other items of operating expense, in the eleven states in which it operates. The amount assignable to each state was as follows:

Table with 2 columns: State and Amount. Includes Illinois (\$8,600,282), Louisiana (\$137,989), Iowa (\$1,086,406), Colorado (\$4,865,701), Missouri (\$8,197,033), New Mexico (\$15,111,396), Kansas (\$27,069,366), Arizona (\$12,919,152), Oklahoma (\$9,606,664), California (\$21,251,768), Texas (\$16,216,061), Total (\$125,061,818)

From 1927 to 1936, inclusive, the monies disbursed by the Santa Fe in these states for operating expenses totaled \$1,350,499,728.

This average annual expenditure of more than 135 millions of dollars over the past decade, devoted entirely to the purchase of goods and services, has been of inestimable value in promoting local industry and trade, and in providing varied employment for thousands of persons, throughout Santa Fe territory.

WHO PAYS FOR ADVERTISING?

We are often confronted with the question, "Who pays for advertising?" and everyone seems to think he or she is the one who indirectly pays for the service of this great servant, advertising.

The following article was written by John H. Casey, professor of journalism and advertising in the University of Oklahoma and is on the way to becoming a newspaper classic.

What is advertising? One form of salesmanship.

Purpose? To sell.

Who pays for it? John and Mary Public say they do, indirectly.

Solomon Isaac Business Man says he knows too well that he pays for advertising.

But I say the customer does not pay an advertising bill if the advertising is effective, efficiently

done, run in the right medium at the right time, and in every other respect, right.

For when greater demand for more goods can be manufactured in larger quantities, and shelves restocked at less cost per unit of production per item of merchandise, in consequence of that created demand, either at less cost or with more quality at the same cost—which amounts to the same thing.

There you have the theory of mass production and quantity buying packed together in a pecan shell.

Yes, the merchant is sure he pays the advertising cost. But I say he does not, for the larger the volume of business the retailer can do, the less his percentage of overhead, of which advertising is but one of many items. No more light, no more heat, no more of several other overhead items required for \$110,000 turnover than for \$100,000.

Well, if the customer doesn't pay and the merchant doesn't pay for advertising—then, who does pay for it?

Why, bless your soul! The truth of the matter is that effective advertising is self-supporting, self-liquidating. Nobody pays for good advertising, unless, if we must find somebody to pay for it, I guess it comes pretty near being the non-advertising merchant who pays—and pays—whose overhead goes up as his sales volume goes down.

And there you have the answer to the old, old question: Who pays for effective advertising, in the final analysis? Not the buyer of advertised goods, not the merchant who sells the goods and uses the advertising space but the non-advertiser who fails to get the business and the non-ad-reading public.

The statements in these last two paragraphs, it seems to us, not only supplement but add emphasis to the truths which the releases moving by Consumers Information are going across to the buying public.—Exchange.

SELLING MAGAZINES AN EDUCATION

Under our present scheme of living, with its highly competitive practices, the timid, retiring individual is at a distinct disadvantage. He is pushed aside by the more aggressive, self-assertive individual. This is true even though the least assertive person may be in every way superior to the more forward individual. To some, the aggressive trait is natural. To others, it must be taught. The best time to teach this is when the individual is a child.

man is to send him out on the street to sell newspapers and magazines. Here he learns how to approach people, how to present and sell his wares. As he learns how to sell his magazines, he at the same time learns how to sell himself, and before he realizes it, he has mastered the art of selling to people, not only his wares, but himself.

Even though a boy sells but a few papers, the training is received. He has a chance to measure his efforts along the measuring rule of competition just the same as when he grows up and enters the field of business as a man. It is better to receive this training as a boy, when lessons are easily learned and when mistakes involve no financial loss or embarrassment as is often the case later in life.

So important is this training that it is an injustice to a boy today to send him out in the world without it. It is worth often times more than a college education, because it is training in the terms of every-day living, training in which mind and hand and heart and all articulated. The roster of successful men in this country contains the names of many men who as boys had their first introduction to, and training in, business as newsboys, or young magazine salesmen.

One of the reasons why our form of government is so expensive is that it places into the hands of men of little or no ability the management of large institutions and the handling of large sums of money. By the time they have learned the ropes the administration changes and a new group comes in and the costly program of education must be repeated.

LIBRARY NOTES

Ellen Glasgow, a popular writer of modern fiction, was born in Richmond, Virginia, and, unlike other novelists of that time, she insisted on picturing people as they actually were. She wished to break away from the false sentiment and romanticism of the traditional novel of the South. Adherence to reality was the center of Miss Glasgow's revolt. Her novels contain irony, social satire, wit and reality. She has had eighteen books published.

Her latest book, "The Sheltered Life," is in the library. Others to be found here are "Life and Gabriella," "Vein of Iron," "The Battle Ground," and "Miller of Old Church." The last one has been purchased recently and is a very interesting story, coinciding with Miss Glasgow's unusual style of writing.

Letters to Santa

Dear Santa Claus: I have been a good boy and want you to bring me a BB gun, steam shovel, football, China clipper and some candy, oranges, apples and nuts. I am 7 years old and go to school. If you don't have a BB gun, send me other kind. Thank you. Presley Thomson.

Dear Santa Claus: I want a big blue car, a bicycle, a football suit, a football and a pair of skates. Jane wants a tricycle, a white doll, a Negro doll, teddy bear and a big blue car. With love. Bobby Cooper.

NOBODY'S BUSINESS

BY JULIAN CAPERS JR.

Austin.—The attention of Texans were turned anxiously this week toward Washington, where the House and Senate prepared to begin work on farm legislation. With the low price of cotton affecting adversely the prosperity of the nation's largest producer of the fleecy staple, and with Texans, including Reps. Rayburn, Jones, Connally, and Senator Tom Garner, taking a leading part in the drama of farm relief legislation that is in the making, hops was high that some political panacea may be found for an intolerable economic situation.

Crop restriction, soil conservation, subsidy, tariff readjustment, domestic allotment, processing tax—such plan has its adherents—and the harried Congress is considering them all.

Would Prorate production

With the virtue of being new, at least, was the latest suggestion, offered to the House Agriculture Committee, by Ernest O. Thompson, Texas railroad commissioner, who journeyed to Washington at the invitation of Marvin Jones. He suggested that the proper application of prorated production—the method which brought the Texas oil business out of the doldrums of huge overproduction and ten-cent oil into steady reasonable prosperity—might be applied to the cotton situation. He told how consumer demand for oil is estimated in advance by the Federal Bureau of Mines, and production allowances are fixed by the various producing states, by co-operation through the Oil States Compact Commission. He suggested such a plan might be used to control cotton, prorating production of domestic requirements among the producing states, exporting the surplus at a world market price, and using tariff revenue to compensate farmers when home markets fail. Export of the surplus at low world prices, he believes, would go far toward regaining the lost export markets on a competitive price basis.

Meanwhile, a mild furor developed over conditions in the production of Texas' other and greatest "crop"—crude oil. With the 24,000th well completed in the giant East Texas field, and with a State law prohibiting the Railroad Commission from reducing any well below the marginal minimum of 20 barrels daily, the Commission took cognizance of recent alarming drops in pressure in East Texas, and also of a seasonal slump in market demand, and ordered a shutdown of East Texas for four consecutive Sundays, in order to make pressure tests. The weekly shutdown passed off quietly, with no reported violations, despite protests against the restriction from various Chambers of Commerce and others in the East Texas field. Rail Commissioner Lon Smith, at outs with the majority of the Commission, as usual, demanded the Commission permit East Texas operators to make up

WHAT WE THINK

(By Frank Dixon)

A new note has come into American politics, and the champion of that new note is Fiorello La Guardia, recently re-elected mayor of New York City.

It is remarkable that this man, the son of Italian parents, should be elected to this, the third highest office within the gift of the people of the United States. It is remarkable that he should be the only man ever to secure a reelection in opposition to the powerful Tammany Hall organization, but it is even all the more remarkable that his campaign should be successfully conducted and that he could ride to a brilliant victory on a platform of strict honesty and integrity in public office, without the aid of any machine or organization of the people who desired a clean, honest, decent government.

Fiorello La Guardia's victory is an example and a challenge to every mismanaged, corruption ridden, vice infested major metropolis in this country. It is an inspiring example of what the right thinking people can do when led by an honest, sincere, incorruptible, and wholly fearless, dynamic leader.

Significant also, is the fact that

the back allowable, resulting from the shutdown, but was quieted effectively when his colleagues pointed to the ruling by the Attorney General holding the Commission cannot permit such a makeup. Continued drilling in East Texas eventually will bring on a crisis, in which Texas will either have to amend the margin allowable law, or disregard the Federal estimate of consumer demand for oil, unless demand for oil should take a sudden and unexpected upturn.

Government Costs Up

The State, during the fiscal year ended August 31, took in \$192,078,728, and spent \$186,336,244, a study by R. S. Calvert, statistician for Comptroller George Sheppard showed this week. But the general revenue fund is some \$15,000,000 in the "red" because most of the State's income is earmarked for special funds, such as schools, roads, unemployment compensation, old age pensions, etc. Of the State's income, significant contributions were made by the gasoline tax, which accounted for 26.32 cents of each dollar; gross receipts taxes 12.71 cents; ad valorem property taxes 11.68 cents; cigarette taxes 4.18 cents; liquor taxes 2.44 cents; beer tax 1.14; automobile licenses 4.73 cents; Federal, county and other aid produced 4.76 cents.

Highway building and maintenance and school maintenance continued to lead the list of governmental expenditures, roads accounting for 36.75 cents of each dollar spent and schools 20.96 cents. Pensions stepped into third place with \$20,519,716, or 14.17 cents out of each dollar spent. Excluding non-revenue items, the State took in \$154,120,274 and expended for governmental costs a total of \$144,770,274 during the fiscal year. Incidentally, the cost of the legislature rose from \$325,146 in 1936 to \$958,109 in 1937.

with La Guardia was elected a young district attorney, Thomas E. Dewey, who has made a name for himself in the prosecution of racketeers, that insidious cancer, that has fastened itself upon the vitals of nearly every large city in the land, a sinister force that wields an unseen power over business and government, that few leaders have dared to defy, and none has defeated.

Dewey, a young country lawyer, dared to defy the most powerful entrenched racketeers in this country, and secured 72 convictions out of 75 indictments, a record never before approached in this type of prosecution.

In the selection of his appointees La Guardia defied all known precedents of politics and selected men especially fitted for the work they were called to do rather than successful politicians and voters.

La Guardia's machine, if he has one, exists only in the hearts of those of his constituency who want to see an honest, fearless administration of public affairs in the nation's greatest city.

During his first term as mayor of the City of New York, La Guardia brought about more helpful reforms, eliminated more wrong and wasteful practices, than any other mayor the city has ever had. His civic improvement program, consisting of highway construction, park construction, and the elimination of tenement districts, that have long been a reproach to the city, constitutes a piece of civic work that will long be a monument to his constructive genius.

Scotfield, revenue collector, all bagged deer on a trip to the Schreiner ranch and two other Senatorial hunting groups reported limit bags on their trips to Medina County.

Nobody, of course, can assure the Governor what the Legislature is going to do in advance. The politicians here are freely offering odds that the Governor will change his mind again, and call another special session not later than March.

Notes

W. E. James, of Austin, veteran former assistant Superintendent of Education, who was "fired" on Christmas Eve without advance notice by Supt. Wood, is the first State candidate to announce formally with a platform. He will seek to replace his former chief, who is serving his third term, and will seek a fourth. Wood is considered to have built up one of the strongest political machines in Texas, and odds are against anybody defeating it. . . . Dr. C. M. Rosser, of Dallas, a Democratic leader in Texas for 40 years, and close friend of William Jennings Bryan, has written a life of the Great Commoner which will interest Texans of a previous generation. Titled "The Crusading Commoner," Dr. Rosser's work reflects his years of intimate personal association with Bryan. . . . Thirteen ecologists, a striped bobcat, many game birds and other small game constituted the bag of Gov. Allred and Gov. Ammons of Colorado on their Mexican hunting trip. . . . Cold Weather Causes Spread of Influenza

Austin.—Reports from widely separated parts of Texas to the State Health Department indicate that influenza is on the increase. Recent snows and colder weather account for the increase, according to Dr. Geo. W. Cox, State Health Officer.

Colds, grippe, influenza or whatever we may call them are believed to be spread from person to person through discharges from the nose and throat. To protect yourself and others from such discharges, here are precautions to be followed:

Influenza is highly infectious. Practically everyone is susceptible to it. No matter how many times you may have had the disease, you may contract it again. Therefore, keep away from people who are sneezing, coughing, or sniffing, or who are actively ill with colds, influenza, or pneumonia.

Keep away from crowded places. Have your own towel and drink-cup and always wash your hands before eating.

Keep yourself as fit as possible. Drink plenty of water, eat simple, nourishing food, exercise out of doors every day, dress according to the weather, get plenty of sleep in a well-ventilated room.

If you feel an attack of flu, or even what you may think is an ordinary cold, coming on, go to bed, send for your doctor, and follow his directions. A cold can too easily develop into a fatal mistake.

Christian Science Church
Sunday School at 10 a. m.
Sunday services at 11 a. m.
Wednesday evening services at 8 o'clock.
Sunday, Dec. 5, 1937. Subject: "God the Only Cause and Creator."
The public is cordially invited.

Christian Science Services
"God the Only Cause and Creator" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, December 5.

The Golden Text is: "The heavens declare the glory of God; and the firmament sheweth his handiwork. There is no speech nor language, where their voice is not heard" (Psalms 19:1-3).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "The Lord reigneth, he is clothed with majesty; the Lord is clothed with strength, wherewith he hath girded himself; the world also is established, that it cannot be moved" (Psalms 93:1).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Spirit diversifies, classifies, and individualizes all thoughts, which are as eternal as the Mind, competing them; but the intelligence, existence, and continuity of all individuality remain in God, is the divinely creative Principle thereof" (page 513).

Two Minute Sermon

(By Thomas Hastwell)

New Teaching of An Old Religion: A new trend in education requires that a child, instead of memorizing a list of facts and rules and history, be taught to connect all education with the facts of life and experience, to use his own initiative in finding a solution to his own real life situation, to make his own decisions, and develop his power to think constructively to the end that he will learn how to live in this machine age with its accentuated tempo. I believe there is something in this for church and religious leaders. All over this land are churches whose ministers preach to empty pews. These pews are not going to be filled, and the church becomes the force it should become, until men and women attend church because they desire to attend, because they can't happily remain away, and because in the service they receive a spiritual rebuilding that sends them back home renewed and strengthened and inspired. When this is done there will be no problem of church attendance. We as teachers are going to have to adjust our teaching to a new day. The gospel of Christ and the facts of life are the same as they were when Christ first taught them in the Jordan Valley, but human beings are living in a new world, a mechanized world, a man-made, machine world, and religion must be something more than a set of historical facts and doctrine, pigeon holed for ready reference. It must be a part of life, so woven into the things of living that it is inseparable, a vital, usable thing. Until a generation can be brought up with this concept, the church pews will continue to remain empty.

MESCAL IKE

By S. L. HUNTLEY

Will Be in Wichita Falls December 3, 4 and 5

The General Motors Parade of Progress Exposition, which is sometimes known as "A Little World's Fair on Wheels," will be on display in Wichita Falls on Friday, Saturday and Sunday, Dec. 3, 4 and 5. The huge scientific exposition which requires a crew of 53 highly trained technicians and which travels with a caravan of 14 giant transport trucks and passenger cars, will be on display on the vacant property at Harrison and Keeley Streets.

Space equivalent to a city block is required for the exposition. Several of the huge transport trucks are placed parallel and by an ingenious method are joined together to form truck exhibit halls. In these halls the new is compared

to the old. Old livingrooms of the 190's are compared to a living room of today. The old living room has kerosene lights, horse hair sofa and corner cupboard and the new living room is as modern as any today with indirect lighting and modernistic furniture. Dramas, show the advancement in transportation by comparing a street scene of a city of 1900 with a street scene of a city of 1938.

The entire exposition is free and there will be nothing for sale. Science will predominate and anything may happen in "The Circus of Science" performance, which is given in the big tent which seats 1,500 people. Scenes typical of a research laboratory are shown in order to give the public an idea

of what goes on behind the scenes. Demonstrations are shown which show the work behind such everyday necessities as the electric light bulb and the telephone and telegraph. Hints of things to come are given in a vivid manner. For example, an egg is fried on a perfectly cold, heatless stove. Music is carried across the stage on a tiny beam of light and rings are made to jump in the air.

On Friday, Dec. 3, the exposition will be open from 7 p. m. until 10 p. m., and on Saturday and Sunday, Dec. 4 and 5, the truck exhibits will be open from 2 p. m. until 10 p. m., although the Circus of Science will be closed from 5 until 7 p. m.

RUBY FIRST JEWEL MADE FOR THE GENERAL TRADE

The ruby was the first precious stone to be manufactured commercially, according to a writer in the Washington Post. It is simply oxide of aluminum with a small amount of oxide of chromium, which gives to it the brilliant red color. Many methods of making the ruby were tried from 1870 to 1890, all more or less successful from the chemical standpoint, but failures from the commercial point of view. It happened, however, that rubies appeared on the market of Geneva, whose origin could not be accounted for.

As a matter of fact, a curate of Geneva had succeeded in fusing chips of natural ruby given him by the lapidaries into large stones. This brought about a revival in the synthesis of the ruby, for it was argued that if ruby chips could be fused, the oxide of aluminum, of which they are composed, could be fused.

Professor Verneuil, the famous French chemist, finally succeeded in making the ruby, though only after many years of painful research and hard toil.

PENNY WISE

(By Wayne Knew)

Old Meeker was a frugal soul about the price he paid, whenever he was buying he always ham'd and he'd. He ordered out of catalogs for all his shoes and socks, and boasted to his neighbors how he saved the rocks. He didn't care a lick about the town right next his door, and said they'd have to sell for less because he wouldn't pay them more. As time went on

and he grew rich a hoard'n up his kale, others looked with envy and followed on his trail. They wouldn't buy a single thing that could be bought at home; they'd drive their car a half a day to buy a ten cent comb. Then local merchants, one by one, folded up their shelves and their stocks to other points with profit for themselves. Old Meeker and his neighbors had reaped the seeds they'd sown, for all their land and property is forty miles from town.

A nurse writes that she suffered from frequent headaches. Nothing stopped them until a friend recommended DR. MILES' NERVINE. She says Nervine stops headaches before they get a good start.

Three generations have found DR. MILES' NERVINE effective for Nervousness, Sleeplessness due to Nervous Irritability, Nervous Irritability, Headache, Travel Sickness. Get DR. 26th day of February, 1937, and judgment against the defendants J. K. French and Mae French, for the foreclosure of a Deed of Trust lien on the East 80 acres of land out of the South 160 acres of Fractional Section No. 3, G. C. & S. F. Ry. Co. Survey, situated in Foard County, Texas, and judgment against the defendant Cicero Smith Lumber Company, a corporation, declaring plaintiff's deed of trust lien superior to defendant Cicero Smith Lumber Company's lien; and

Whereas, Cicero Smith Lumber Company, defendant, in said suit recovered judgment against its co-defendants J. K. French and Mae French, for the sum of \$1,677.37, with 10 per cent interest thereon from the 26th day of February, 1937, with the foreclosure of its deed of trust lien on the above described real property; said Order of Sale having been placed in my hands for service, I, A. W. Lilly, as sheriff of Foard County, Texas, did, on the 30th day of November, 1937, levy on the above described real property, and levied upon as the property of J. K. French and Mae French, and that on the first Tuesday in January, 1938, the same being the 4th day of said month, at the Court House door, of Foard County, in the town of Crowell, Texas, between the hours of 10 o'clock a. m. and 4 o'clock p. m. by virtue of said levy and said Order of Sale I will sell the above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said J. K. French and Mae French.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Foard County News, a newspaper published in Foard County.

Witness my hand, this 1st day of December, 1937.

A. W. LILLY, Sheriff,
Foard County, Texas.

Beware Coughs from common colds That Hang On

No matter how many medicines you have tried for your cough, chest cold, or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with any remedy less potent than Creomulsion, which goes right to the seat of the trouble and aids nature to soothe and heal the inflamed mucous membranes and to loosen and expel the germ-laden phlegm. Even if other remedies have failed, don't be discouraged, try Creomulsion. Your druggist is authorized to refund your money if you are not thoroughly satisfied with the benefits obtained from the very first bottle. Creomulsion is one word—not two, and it has no hyphen in it. Ask for it plainly, see that the name on the bottle is Creomulsion, and you'll get the genuine product and relief you want. (Adv.)

Foard City Scholastics

(By School Reporter)

Each program—the learning of parts, innumerable rehearsals, and the final exciting presentation—is a milestone in the year's school work.

For learning to stand before a group of people without the knees and hands doing queer things is as much a part of one's education as the 3 R's.

We nominate Mrs. Canup as one of the most appreciative of the program audience. By the way her son, Harold, with his two lines and continuous, absorbing activity of eating, almost stole the show in the high school play, "A Mad Breakfast."

Friday night Supt. Grady Halbert of Riverside delivered an impromptu address—what we mean is, "Grady came home and gave a swell pep talk."

Some of the primary pupils sang their Thanksgiving song and gave readings at the program at the church Sunday.

The ping pong raquets (and racket) are in full swing, and what we need most are balls that won't crack when stepped on. Talk about people learning to skate—did you ever watch anyone learning to ping pong? Watch one, and see those wild swings and rising temperature as he crawls under objects searching for the ball.

Last week Ye English Clubbe chose as its motto: "Speke Ye No Eville," which, says your reporter, isn't a bad motto for anyone.

As a result of the coffee and candy selling, for which the mothers who made it get the praise, five new books are being ordered.

Four for the reading list are: "Penrod and Sam," Booth Tarkington; "Call of the Wild," Jack London; "Seventeen," Booth Tarkington; "Prince and the Pauper," Mark Twain; and one for pure enjoyment is a clean cowboy romance by H. M. Boner called "Chip of the Flying U."

The new hectograph is a most helpful addition, a valuable time-saver.

The Yuletide days loom ahead. It might be easier for Santa Claus to bring each little Foard City hopeful a bale of cotton instead of the expected toys. To make the child happy, though, Santa will probably take the bale of cotton to town and trade it for a ball.

Let your reporter be the first to wish you A Merry Christmas.

The cocktail is said to have been originated about 1779 by Elizabeth Flanagan, keeper of a Westchester County, N. Y., tavern.

4-H Boys and Girls Guests of Santa Fe at National Congress

Texas boys and girls of the 4-H Club, representing the largest State delegation among the 61 winners of the Santa Fe Railway's educational prizes for 1937, today are preparing for the National Congress of the organization as guests of the Railway.

Nineteen of this State's young farmers won awards and Oklahoma placed second with sixteen. J. F. Jarrell, manager of the company's agricultural department, announced. Other States represented by winners are New Mexico, Kansas, Missouri, Illinois, Arizona and Iowa.

Winners are determined by the agricultural extension services of each state, based on outstanding performances, and the Railway provides the award to enable them to take part in the National Congress, held in connection with the International Livestock Show, November 26-December 4.

The winners are to be guests of the Railway at a breakfast and entertainment. Charles H. Woods, general solicitor, is to be toastmaster.

The plan to encourage 4-H Club work was adopted by the Santa Fe soon after the establishment of the National Congress fifteen years ago. Since inception more than 1,000 boys and girls have benefited by the awards and many are leaders in the industry today, according to Mr. Jarrell.

giving good service. Musical concerts, sermons, lectures, market reports, etc., are received over the radio every day.

HOUSEHOLD HINTS

To keep macaroni or spaghetti from becoming mushy and sticking together, rinse in cold water after draining off the water in which it has been cooked.

The white marks made by liquids on varnished surfaces can often be removed if rubbed at once with a cut lemon or a little vinegar. Then rinse off with clear water and polish dry.

Soiled window shades may be washed by spreading each shade

on a flat surface and then rubbing it with a clean cloth or sponge and soapsuds.

CARD OF THANKS

We wish to express our sincere thanks and deep gratitude to our friends for their kindly deeds, loving sympathy and floral offerings in the loss of our beloved mother and grandmother.
