Wheat in Margaret Community Ruined by Severe Hail Storm Tuesday Afternoon

INCHES OF RAIN RECEIVED IN COUNTY IN THREE HOURS; HEAVIEST DOWNPOUR IN YEARS

One of the most damaging hail storms in the history of Foard County completely ruined wheat fields in the Margaret community Tuesday afternoon about 6 o'clock, shortly after a heavy rain, accompanied by hail and high wind struck the community.

Four inches of rainfall were recorded at the Crowell Bank Wednesday morning, to make the rains Tuesday afternoon and night the largest during the same period of time since May, 1935. Heavy down-pours were reported in other communities in the county.

Four inches of rain fell in Crowell Tuesday afternoon in very few minutes it was impossible to see more than a few feet in any direction. The hail and wind, fell in a heavy rain, accompanied by hail and high wind struck level ground.

The hail in Crowell during the few minutes after the rain struck was about the size of a pea and a cold wind. A check-up revealed that one inch of rain had fallen in that short time. Again a check-up revealed that one inch of rain had fallen in that short time. Again a check-up revealed that one inch of rain had fallen in that short time.

The 1938 cotton allotments are being issued to farmers of Foard County this week, according to a release from the office of the county agent Tuesday. The check-up on Foard County's 1937 work sheets have been completed at College Station and it was possible for this information to be released to farmers this week.

Foard County is among the earliest to receive its cotton allotments from College Station as only about seventy counties in the state that had been given their cotton allotments when Foard County's was released from the state office last week.

Most farmers of this county can comply with the 1938 Soil Conservation Program and it will be to their advantage to do so, Jodie Boston, assistant county agent, who has been working in College Station with the Foard County work sheets, stated Tuesday.

The percentage of tilled land, total crop land minus wheat base and other commercial crops, is high for this county, compared with counties over the state. The percentage factor for Foard County is 47 per cent.

No penalty will be taken from a crop, except when the cotton allotment has been overplanted. If the soil depleting allotment is overplanted and the cotton allotment is not, penalties will be made on the soil conservation payment, according to Mr. Boston, who made a thorough study of the program while at College Station. As long as the cotton allotment, cotton plus general allotment, is not overplanted, a farmer will be in compliance with the 1938 Conservation Program.

Church of Christ Celebration Sunday

Approximately five hundred members of Foard and adjoining churches gathered at the Church of Christ Sunday to join the members in celebrating the fact that the church building was free of debt. The occasion was an all-day affair with dinner on the ground at noon.

Ministers present were Rev. E. J. Ribble of South Bend, E. J. M. T. Bellamy and Joe C. M. of Medicine Mound. Rev. Ribble preached at the 11 o'clock and E. J. Smith gave the report of the church in the afternoon beginning at 2:30 and at 4:30 expressed the appreciation of the membership for the new building presented by the Methodist church.

The church was organized in 1907 with seven charter members. The Methodist Church building was purchased in 1923. The old building was razed in August, 1937 and the new stucco building was completed in October of that year.

Elevators Being Prepared for County's 1938 Wheat Crop

Appropriation for Basing of 2.7 Miles Of Hi-Way Assured

An appropriation from the State for the laying of a gravel base on 2.7 miles of State Highway 16, south of Crowell has been assured this county, according to a statement made by Judge Claude Callaway after a discussion with Julian Montgomery, chairman of the State Highway Commission, in Austin Saturday. Judge Callaway stated that he felt sure the money would be appropriated in the near future.

John Nabors of Childress, district engineer, has been ordered to prepare plans and specifications for the gravel base on the 2.7 miles in Foard County and work is expected to begin in June. Judge Callaway stated that the contract for the asphalt surface on State Highway 16 north of Crowell to Pease River would be let on May 24, and this work will be done in June.

Surfacing of this road will connect the gravel base road in Foard County with the all-weather road in Knox County. Five miles of State Highway 16 south from the Beaver Creek bridge is now under construction, and the 2.7 miles will connect the end of this base with the Wichita River bridge, which is the county line.

When the 2.7 miles strip receives the gravel base, State Highway 16 will be an all-weather road through the county, north and south.

Open House Will Be Held at Sewing Room on Thursday

Open house will be held at the local WPA sewing room Thursday, May 12, according to announcement made Wednesday by Mrs. Sewell Roy, supervisor. The project will be in operation and the different kinds of garments made in the sewing room will be on exhibit and the public is invited to attend at any time during the day, Mrs. Roy stated.

Revival Meeting to Start at Margaret M E Church Sunday

Rev. D. R. Davidson of Westover has been chosen by Margaret Methodists to lead their revival meeting which will start Sunday. Rev. Davidson will preach his first sermon Sunday night, and will continue to do the preaching throughout the meeting, according to an announcement made Monday by Rev. E. A. Irvine, pastor. A special men's prayer meeting service is scheduled to be held at the church tomorrow night and all men of the community are invited to attend.

CRIMINAL CASES ON MAY COURT DOCKET WILL BE HEARD NEXT WEEK; GRAND JURY REPORT

Criminal cases on the docket for the May term of the 46th District Court, which opened last Monday, May 2, will be heard by District Judge C. Y. Welch next week, beginning Monday morning, May 9, at which time a murder case will be heard.

The grand jury convened last Monday morning, on which day district court opened, and after a two-day session, four true bills charging six people, and no-bills were returned on two charges.

Grand Jury Report
The report of the grand jury for the May term of district court is as follows:
We, your grand jury for the May term A. D. 1938, have been in session a total number of two days and have investigated all felonies called to our attention and beg to submit the following report. We have returned the following true bills, to-wit:
The State of Texas versus

Improvements on elevators in Foard County are being completed for the wheat rush expected by elevator men by the last of May.

Elevator men interviewed during the past week feel that, although the wheat yield was damaged by freezing weather and snow last month, another large crop will be harvested this season. No one predicted the yield but only stated that "plenty of wheat will be made in the county," and all believe that harvest will begin in about four weeks, or by the last of May.

Improvements for Speed
Improvements have been done so in order to handle wheat faster than it was taken care of last season when a record-breaking crop was gathered.

Install Electric Scales
Two sets of electric Howe "Weight-O-Graph" scales have been installed at elevators in Crowell. This move will speed-up weighing of wheat trucks.

A twenty-ton electric scale has been installed at the Foard County Mill. The weighing platform of this scale is ten feet wide and thirty-four feet long. A concrete top was poured on the platform, giving a permanent and durable platform.

The second set of electric scales were installed at the Farmers' Elevator. The capacity of this scale is fifteen tons and the platform is nine feet wide and thirty-four feet long, and will have a gravel and asphalt topping.

The supports and beams of both scales are steel and each are the newest and most modern scales to be found in larger cities.

A set of Howe scales, identical with the ones in Crowell, with the exception of the electric "Weight-O-Graph," has been installed at the Farmers' Elevator in Foard County. The scales formerly used at the Foard County Mill have been installed in Foard City by Hubert Brown, owner.

The installation of the four scales in both Crowell and Foard City, was done under the supervision of L. L. Saunders, Crowell contractor.

The investment represented by the three new scales is approximately \$3,800.

HORSE TRADERS HOLD BANQUET AT MARGARET

May Meeting of Ass'n. Will Be Held in Crowell

The April meeting of the Farmers and Business Men's Association was held in the Margaret school building Friday night. The banquet was prepared and served by the Ladies' Methodist Missionary Society of Margaret.

The invocation was given by Rev. Tom Burns, pastor of the Margaret Methodist Church, and after the banquet a program was given in the auditorium.

The program was opened by George Self, president of the association, who introduced the guest of honor, W. T. Dunn, of Margaret. Mr. Dunn is one of Foard County's oldest pioneers, having come to this county over 57 years ago. After the introduction, the program was placed in charge of S. J. Boman of Margaret, master of ceremonies.

A number of sacred songs were sung by the assembly. The songs were led by Mrs. J. S. Owens, with Miss Mildred Solis accompanying at the piano. A musical number was rendered by a trio composed of Miss Lois Burns, Estel Burns and Harold Gene Burns, children of Rev. and Mrs. Tom (Continued on Page Five.)

ATTENDING STATE RALLY
Four girls of the Homemaking class of Crowell High School left Wednesday morning for San Antonio where they will attend and participate in the State Homemaking contests Thursday and Friday.

The girls were accompanied by their instructor, Miss Ruth Patterson, and Mrs. Hubert Brown and daughter, Miss Billie. The four girls are: Miss Theda Wright, Miss Billie Brown, Miss Marie Wells, and Miss Pauline Stinebaugh.

MEXICAN TO GO ON TRIAL FOR LIFE ON MURDER CHARGE IN DISTRICT COURT HERE MONDAY

TWO DISTRICTS TRANSFER TO LOCAL SCHOOL

Contracts Signed This Week by Trustees of Black, Foard City

School children of two school districts in Foard County were transferred to the Crowell schools by contracts which were signed by trustees of the districts at a meeting of the Crowell board Monday night. The contracts become effective on Sept. 1, 1938, and expire one year from that date.

The entire district of Black was transferred to Crowell, which means that every school child in that community will attend school in Crowell next term. The high school pupils of the Foard City school were transferred to Crowell High School, also by contract which will be in force for one year from Sept. 1, 1938.

Trustees Meet With Board
Trustees of the Black school district met with the Crowell board at its regular meeting Monday night and made arrangements for the transfer of the Black pupils. A committee composed of Tom Callaway, trustee, and Superintendent F. U. Powell, represented the Foard City district, and made arrangements for that district. Contracts were signed by trustees of both districts.

No Consolidation
The transfer of school children from these districts does not mean that they have consolidated with the Crowell Independent School District, but means that contracts have been signed with the Crowell district in order that the children may attend school in Crowell. Black and Foard City schools have, heretofore, been open only eight months of the year, and the transfer means that the children will attend a nine-months school, which will offer more opportunities for them. A nine-month school for the first seven grades can be operated in Foard City since this move has been made.

Each school will retain its individual identity and taxes will be paid to the individual district as in the past. At the end of the 1938-39 term, if the district so wish, the Black and Foard City pupils will return to school in their own district the next school term.

Raises Scholastics
The scholastics in the Crowell district will only be raised about 36 pupils, including all three districts.

TWO MEN ARRESTED IN CROWELL WEDNESDAY ARE THOUGHT TO BE MONTAGUE JAIL BREAKERS

Two men who were arrested in the outskirts of Crowell Wednesday afternoon by Deputy Sheriff John Todd and City Marshal Lewis Sloan

Floyd Hamilton, brother of the notorious despatched, Raymond Hamilton, and Huron Walters, who stabbed a man while escaping from the Montague County Jail early Saturday night.

Local officials and officers from neighboring cities hold the same opinions as the two men are fugitives and fit descriptions broadcast concerning the jail breakers, who are reported to be in this vicinity. Further suspicions were aroused when the two men refused to answer questions asked them by officials.

Burnett Ranch West of Crowell Scene of Crime

Arrests Made Saturday Morning by Local Officers

Two Mexicans, Deciderio Losano, 23, and Guadalupe Losano, 34, were slain about 2 o'clock Saturday morning at the Tom L. Burnett ranch 20 miles northwest of Crowell. The scene of the crime was in a large tent at the camp of Mexicans employed on the ranch. Guadalupe Losano died instantly, but, according to reports, the younger Mexican lived about 15 minutes after fatal wounds had been sustained by bullets from a .320 Savage automatic pistol.

Brothers Slain
The slain Mexicans were brothers and were single. The elder Mexican was from Old Mexico, and the younger came to Foard County from Benjamin, where he was reared. They had been employed at the camp for the past several months and Deciderio Losano was well known in Crowell.

Mexican Goes On Trial
Claudio Quiroz, youthful Wichita Mexican, will go on trial for his life Monday morning in the May term of the 46th District Court before Judge C. Y. Welch on a murder charge in connection with the slayings Saturday morning. Quiroz was indicted by the grand jury Tuesday morning on two charges of murder and one charge of tearing down telephone wires.

Will Ask Death Penalty
District Attorney Jesse Owens said in a statement Tuesday morning that the State would ask for the death penalty.

Five Other Mexicans Indicted
Five other Mexicans, who were with Quiroz at the time of his arrest early Saturday morning, were (Continued on Page Four)

GOOD FEED CROP WILL INCREASE SILOS IN COUNTY

Use of Silos to Store Feed Effects Big Saving

One of the greatest problems that the farmers of Foard County have to contend with, is conserving their feed after it has been harvested, according to a statement issued by John Nagy, county farm agent, this week.

For a number of years all of the feed in this county has been stacked around feed lots, and a big per cent was destroyed or reduced in feeding value each year by insects, rats, mice, and by weather. The per cent of damage depends on the way the feed was stacked, the weather conditions, and the length of time the feed was left in stacks. Some of the feed that was left in stacks for twelve months was damaged around forty (Continued on Page Five.)

IN QUANAH HOSPITAL

Dave Solis was admitted to the Quanah hospital Monday morning. Mr. Solis' condition was critical at the time of his entrance to the hospital, but is reported to be improving.

Mrs. Howard Williams, who was admitted to the Quanah hospital last week, is reported to be improving from a critical illness.

NEW CAR REGISTRATION

The following new automobile was registered in the office of the county tax assessor-collector during the past week:
G. D. Self, Ford sedan.

day. Deep Creek is near Decatur.
The ninth grade class of Riverside school sponsored a party in honor of Erwin Reed, who was principal of the Riverside school last term. The party was given in the home of Mr. and Mrs. Cap Adkins Wednesday night and all members of the high school classes were guests. The honoree was presented several nice gifts by the classes. Refreshments of ice cream and cake were served.

Prisoner

Sally Eilers is seen above as an inmate of the prison for women in "Condemned Women." In the picture, the women are shown as dangerous characters scheming for revenge and little caring for the consequences. Sally Eilers is accused as the ring leader of a prison break in which one woman, Ann Shirley, is killed.

Louis Hayward is the prison doctor who is in love with Miss Eilers and the plot becomes involved when their affair is exposed. "Condemned Women" is a powerful drama with gripping incidents and heartfelt acting. It is showing at the Rialto Theatre Saturday night.

"Buying Power" Gains Bolster Texas' Appeal

Dallas. — Impressive gains for Texas as a whole and for its "big five" of cities over 100,000 population in 1937 retail sales and "effective buying income" constitute further evidence, says a report of the All-South Development Council, of the state's potentialities to provide healthy and growing consumer markets for the industries its business leaders are trying to attract.

A study of authoritative business surveys shows that the total effective buying income of Texas in 1937 was \$2,996,100,000, a gain of \$109,462,000 over the 1936 figure of \$2,886,638,000. While in percentage this amounts to only 3.8 per cent, against the national average increase of 6.7 per cent for last year, in the matter of retail sales Texas ran ahead of the national average. In this, Texas totaled \$1,666,880,000—a gain of 9.3 per cent—whereas the national retail sales were estimated at \$1,590,000,000, an 8.5 per cent gain.

While Dallas retained its hold on fifth place nationally—and leadership in the Southwest—among the "100,000 population group of cities" in effective money income per capita, Houston, Fort Worth, San Antonio and El Paso all made sensational advances in this rating. Houston climbed into eighth place nationally, from 46th in 1936, the per capita income rising from \$770 to \$825. Fort Worth was close behind, moving up from 81st to 14th place by advancing its per capita figure from \$710 to \$900.

El Paso and San Antonio were tied at 45th in 1937 with \$780 per capita. The former was 189th the year before, with \$490, while San Antonio was 74th, with \$720, that year.

The Dallas per capita figure moved up from \$925 to \$940, New York (\$993), Washington (\$976), Des Moines (\$950), and San Francisco (\$946) were the only cities topping the Texas leader, though Los Angeles and Miami tied with it for the fifth position.

Continuance of favorable conditions in business charts by Texas metropolitan centers and the state as a whole could play an important part in attracting more and more industrial enterprises to the state, the Council's report said, especially if there were official re-assurance of the state's receptiveness to industry, lending needed support to vigorous efforts in that direction being made by commercial groups and leading resident industries.

parody entitled, "The Little Red House," presented by a few high school amateurs. The Weatherall sisters, Mrs. Merriman, Mrs. Whitby and Mrs. Marts, gave a lovely rendition of "When You Wore a Tulip."

Friday, the thirteenth, is an odd day for school to be out, in fact, it is an odd day, and reminds us of the time of Ichabod Crane and headless horsemen, and the superstitious people of Sleepy Hollow. However, this very superstition which still lingers, makes May the thirteenth a perfect date for the high school farce, "Black Cats." In this play LaVoyce and Polly play friends who have much trouble trying to untangle a mystery, while Blaine and Eugene try to block their plans. Anita as the mother-in-law, who sees all, knows all and tells everything, finds Mary Elizabeth (Kate, the maid), the only one in the household unafraid. Joe is an obstinate, tenor detective, and C. J. an ambling "Step 'n Fetchit," handy man. Hoot is Hiram Hanibal, constable de luxe.

Foard City Scholastics

(By School Reporter)
The "Amateur Hour," sponsored by the Missionary class last Friday night unearthed quite an array of local talent. First prize went to Bewley's Chuck Wagon Gang, composed of the two Messrs. Evenson and Mary Elizabeth, Joe Farrar, Estelle Autry and LaVoyce Lefevre. Second place went to Estelle Autry, singing and playing in a Gene Autry fashion—there must be something in a name.

Third place was taken by a mad "Leto's" for the Gums
Are your gums irritated? Do they itch? Do they burn? Do your gums cause you annoyance? Druggists return money if first bottle of "LETO'S" fails to satisfy.—Reeder's Drug Store. (2)

Prophets and Profits

Jim Farley, famous predictor of election results, and Alf Landon, who missed one guess and refuses to bet again, prognosticate pro and con on Governmental spending-lending and pump-priming. General Farley spoke on the birthday anniversary of Thomas Jefferson, and said in effect that except for what President Roosevelt has already done, is now doing, and wants to continue to do on even a bigger scale, the country would be in a sorry mess, a plight calculable of making the present depression look like a pink tea party. Now, parenthetically, Thomas Jefferson, in his day, was accused of taking extrajudicial short cuts in consummating what is known as the Louisiana Purchase, and of making licentious waste of the people's money by paying the then stupendous sum of fifteen million dollars for that vast empire which is now an important part of the nation's meat and bread basket—not to mention dust bowls.

Gov. Landon, who has definitely erased his own name from the list of suspicious characters seeking the Republican nomination in 1940, declares in effect that we are threatened with national bankruptcy. Both Farley and Landon are plenty smart and ought to know, but whether one is all right and the other all wrong, or whether both are partly right and partly wrong, is difficult for common mortals to decide, and remains for us to find out for sure in the years to come. We do know that both these worthy gentlemen are, by force of circumstances, influenced by emotional and partisan perspectives. Right now, remote possibilities and what may happen in the distant future do not receive as much of our concern as they should. For most of us are too deeply engrossed in more pressing matters, like making a living. This brings to mind a recent quip made by a bright editor who declared that when it comes to going broke we are not worried about it being

Worries Never Cease

Harking back to the President's Reorganization Bill, it seems that after the bill was recommitted and the barrage of telegrams had ceased, many sorely beset Congressmen looked forward to at least a brief respite from intra-party controversies. But alas and alack, rest comes to the weary but seldom, and almost never on election years. It was fervently hoped by those who earn their livings at running for re-election that the Reorganization bill had been safely buried, face downward—so that if it ever came back to life and started scratching it would dig itself deeper in, instead of out.

But soon, it is alleged, letters began to pour in, and the longed-for respite proved just another mirage to torment the burning souls of those weary pilgrims who trek the hot sands of another political campaign. It appears that the telegrams were sent first, or in traveling—faster they arrived ahead of the letters . . . or that the voters who favored reorganization were too poor to say their story by wire. Anyhow, so the story goes, letters from home are causing some sleepless nights to be spent by some who spend their afternoons in Congress.

Not Heaven
The Japs, piqued at China's stubborn resistance to unlawful invasion, hurl their snarling military machines at defenseless civilians, and make quick work of slaying swarms of starving Chinese women and babes. The Japanese, a people afflicted with leaders rich in the insanities of military aggression, call their rulers Sons of Heaven, Hah. After reading about their cowardly crimes against innocent noncombatants, we are ready to concede they are sons of something, but it is not heaven.

In spring a young man's fancy lightly turns to thoughts of a new car and so does the fancy of some not so young.

MAGIC IN "MONICKERS"

(An editorial from the Rotarian Magazine.) Not all men have names. So say the ethnologists. A baby goes nameless in certain less civilized tribes lest "the evil eye" take a fancy to his cognomen and haunt him through life.

over him... which must make life one long guessing game. More civilized man pool-poohs such magic, and it is meant that he should for he has found it to be but a man-made hoax.

THREE TEAMS SET PACE IN SOFTBALL RACE

Thalia, Margaret and Foard City Remain Undefeated

Thalia and Foard City stepped out into the lead in the Foard County Softball League race Sunday.

Four Corners also went wild in their half of the ninth inning, and won a game that only a few minutes before had seemed lost.

A protest was entered Monday by W. H. Weed, manager of the Riverette team, as to the eligibility of a Margaret player.

Table with 5 columns: Team, GP, W, L, Pct. Thalia 2-2-0 .1000, Foard City 2-1-0 .1000, Margaret 2-1-1 .500, Riverette 2-1-1 .500, Four Corners 2-1-1 .500, Crowell 2-1-1 .500, Black 1-0-1 .500, Vivian 2-0-2 .1000

Guadalupe. The pistol was removed from the body by Deputy Todd. Examination revealed that the pistol had been fired three times.

Guadalupe died instantly when a bullet plowed through his heart, struck a rib and ranged downward, as was shown in an autopsy Saturday morning.

Deciderio died from a wound caused by a bullet which entered his body from left rear under the ribs, ranged downward and emerged on the front side of the body.

Additional information as to the motive and method of the slaying could not be found at the camp.

NOBODY'S BUSINESS

Austin.—The political pinwheel, set off by the Governor's race, whirled merrily on in Texas.

Allred told reporters he wouldn't get in, even if the Ferguson did, and said he would be enjoying Gulf breezes at Galveston during the summer while other candidates were perspiring and laboring each other.

Ernest Thompson stepped out of the State to attend an interstate oil compact commission meeting in Wichita, Kansas.

stated that knowing many of the Mexicans were intoxicated and trouble might arise, he armed himself, placing a pistol in his belt.

Immediately Deciderio leaped upon him waving a black-jack, Quiroz said, and although catching the blow upon his arm he was knocked to the ground.

Quiroz told that he saw Guadalupe, while at the dance, instruct a Mexican youth to go to his tent and get a gun.

Another point in which their stories differed was the telephone wire. Lopez told that Quiroz left the car when it was halted at a gate, climbed upon a fence post and severed the wire by twisting it.

The statements of the remaining four of the six arrested Saturday morning conflicted with Quiroz's on the telephone wire question and one or two other places.

Essay Contest on "Wells Fargo" is Sponsored by Rialto

An essay contest for local school students over twelve years of age on the subject, "Why the American Railway Express Company Advertised the Picture, 'Wells Fargo,'" is being sponsored by the Rialto Theatre. Literature for material may be found in the Crowell High School library.

The essays must be 250 words or more in length and will be judged, mainly, for historical value, simplicity of statements, and originality of thought. A suitable prize will be awarded to the winner.

For children under twelve years of age, the theatre is offering a prize to the best drawing of a stage coach, either free-hand or traced.

A special matinee for school children will be run at the theatre Monday afternoon with an admission of ten and fifteen cents, as a special treat of the theatre manager to the school children to see "Wells Fargo" at that time.

FFA Chapter Meets Twice in Past Week

Members of the Crowell F. F. A. chapter met twice during the past few days for the purpose of planning an FFA picnic and practice events in which local boys participated at the district meet held in Vernon last Saturday.

At a meeting Monday night, it was decided to hold the picnic Friday night, May 13, at 8 o'clock. Each boy will invite his "best girl friend." If a boy does not invite a girl to accompany him, he will not be permitted to attend.

Plans for meetings during the summer months were also made at the meeting Monday night. Members of the chapter voted to hold meetings twice during each of the summer months.

Those who were present at the meeting Monday night were James Welch, Glendon Russell, Bill Russell, Bill Ownbey, Fred Ely, Fred Borchardt, Clyde Teal, Wayne Cobb, J. S. Owens, Bob Middlebrook, Sam Russell, Ralph Fleshback, Granville Mullins, Ed Gafford, and Walker P. Todd, adviser.

F. F. A. CERTIFICATES

Seventeen F. F. A. boys of the Crowell High School chapter received 32 certificates of merit from O. T. Ryan, area supervisor of Vocational Agriculture, April 21.

This is an unusually large number of certificates of merit to be issued to one chapter and at one time. In order to obtain these certificates, the boy must do some outstanding piece of work well and take an examination on the technique of the operation before he can even fill out a request for a merit. His examination paper must then pass a local and district committee, the local adviser, and finally be approved by the area and state supervisors of Vocational Agriculture.

Generally one or two certificates of merits gained in one year by an individual marks him as an outstanding member, but several of the Crowell boys have six or more to their credit and only two years of V. A. has been taught in Crowell High School. One certificate is required before a member may be promoted from a "green hand" to a future farmer, and three are required for promotion to a Lone Star Farmer along with other qualifications.

Members of the Crowell chapter received the following certificates: Sam Russell, 3, broiler production, culling poultry, fitting and showing poultry. William Simmons, 2, culling poultry, showing pigs; Bob Middlebrook, 1, planting trees; Glenn Shook, 1, culling poultry; James Welch, 5, contouring and terracing, showing poultry, killing and curing pork, cull-

ing poultry and woodwork; Kenneth Halbert, 3, showing poultry, showing hogs, and showing calf; Clyde Teal, 1, culling poultry; Bill Russell, 1, showing poultry; Glendon Russell, 1, showing poultry; Fred Ely, 1, rope work; Ed Gafford, 1, killing and curing pork; Bill Ownbey, 1, setting out trees; Jim Hill Erwin, 1, woodwork; Cecil Carroll, 3, showing poultry, killing and curing pork and rope work; Tommie Haseloff, 2, wood work and castrating farm animals; Leroy Gibson, 1, culling poultry; Carl Connell, 4, showing hogs, sharpening tools, castrating farm animals and judging meat.

There are still several members of the second year V. A. class who have not as yet secured a certificate of merit, while several members of the first year class have obtained one or more.

Everything For the Farm and Home

Improving

M. S. Henry, who was injured when struck by a running horse last Thursday, is reported to be improving, although he is still confined to his home.

No "smelly" or "twangie" tasting water or tea if your ice cubes are made in Norge-Rollator refrigerator.—W. R. Womack.

Hardware Sale

The hardware store of M. S. Henry & Co. is making special prices on household needs in connection with National Hardware Week which is scheduled for May 9 to 14, all next week.

Here From Canada

Mr. and Mrs. Robert Long arrived in Crowell from their home near Camrose, Alberta, Canada, Wednesday night and will remain in Foard County until harvest. They expect to stay here for about two months before returning to Canada.

Mr. Long said that he planted wheat in Canada last week and then came to Crowell in order to harvest his wheat crop in Foard County.

Wheat Plow-Up

Many farmers have asked the question, "How much will I be paid if I plow up some of my wheat?" and the following explanation is given by County Agent John Nagry:

If a farmer is a straight wheat farmer, that is, he does not receive a cotton allotment for 1938, a payment of 12 cents per bushel times the normal yield times the allotted acreage, which will total about \$9.50 per acre, will be made for wheat that is plowed under. This average is about 14 per cent of the total cropland. The penalty to overplant wheat acreage will be 90 cents per bushel times the normal yield times the number of acres overplanted. This will represent a penalty of about \$12 per acre on acres overplanted, which will be taken from the conservation payment.

If a farmer is issued a cotton allotment, then the wheat to be plowed under will be based on the cotton program. This payment will be a little below that which will be made on a straight wheat farm.

Understand that if the soil conserving acreage has already been set aside, and from this plans are being made to plow under wheat, then no payment will be made on wheat plow-up.

May 15 Plow-Up Deadline

Wheat to be plowed under must be considered as a soil depleting crop, and no payment will be made.

Norge - Rollator refrigerators have flexible shelf arrangements. A flat pan or a large watermelon can be put in an instant.—W. R. Womack.

ONE-CENT SALE

Ferguson Bros. drug store is conducting a Rexall One-Cent Sale this week, Wednesday, Thursday, Friday and Saturday, featuring Rexall products at special prices.

The following ladies and young ladies attended the 17th annual convention of seventh district of Texas Federation of Women's Clubs in Childress on Tuesday, Wednesday and Thursday of last week: Mrs. Verne Walden, Mrs. I. T. Graves, Mrs. M. S. Henry, Mrs. N. J. Roberts, Mrs. L. A. Andrews, Mrs. Geo. Self, Miss Frankie Kirkpatrick, Misses Margaret Long, Helen Harwell, Jean Borchardt, Joyce White, Lenagene Green, Mary Frances Bruce and Marie Wells.

Presbyterian Church

We will have our regular preaching service next Sunday at 11 a. m. with Sunday School at 10 a. m. We cordially invite all who can and will to worship with us. Let us honor our parents not with mere sentiment but in a constructive helping of the cause of righteousness which, after all, is what makes us to "live long in the land which the Lord our God has given us."

Be with us next Sunday if at all possible.
C. C. DOOLEY, Pastor.

Allotments--

(Continued from Page One)

earned on soil conserving acreage, only fifty cents per acre will be lost. Every unit that is not earned on conserving acreage, a penalty of \$1.50 per unit will be made and taken from the Class B payment.

If all the conserving acreage is planted in sudan and is grazed or harvested, or sweet sorghum (red top) is planted and harvested for hay, only the Class B payment will be denied, not affecting the other payments in any way.

Banquet--

(Continued from Page One)

Burns, which was followed with a song by "The Bluebonnet Quartet," composed of Miss Burns, Mrs. Fred Taylor, Miss Faye Ingle and Miss Billie Barker. The piano accompanist was Miss Solis. The quartet also sang again later in the program.

A string band under the direction of Ebb Scales, composed of Homer Johnson, Malcolm Reinhardt and J. B. Carroll, played several numbers, with Mr. Scales playing the violin.

Following the musical part of the program, a short, humorous talk was given by Rev. E. A. Irvine, pastor of the Margaret Methodist Church.

The second speaker of the program was Rev. Burns, who spoke upon the need of co-operation in an organization such as the Farmers and Business Men's Association. In his talk, he pointed out the need of a strong foundation, and the foundation was laid many years ago by the pioneers. The people of Foard County have used this foundation to good advantage, he added.

Co-operation can be found in every man if the good in him is sought, Rev. Burns stated. Look for the good in a man and his co-operation will be obtained. In summing up his speech, Rev. Burns said, "success is obtained by laying a good foundation and then giving whole-hearted co-operation."

It was announced at the close of the Margaret meeting that the May banquet will be held in Crowell, although details as to the time and place will not be given until a later date.

Court Opens--

(Continued from Page One)

in Juvenile matters.

We desire to submit to the Court that from our investigations we find that law enforcement in this county is being carried on with a degree of efficiency by its law enforcing departments, and there is but little lawlessness in the county as disclosed from our investigations, and we, therefore, pay our compliments to those in charge of enforcing the law in this county.

We also made an examination of the county jail and report that it is being kept in an excellent condition.

No further business being called to our attention, we humbly beg to be discharged for the term.

A. B. WISDOM, Foreman.

Silos--

(Continued from Page One)

ty per cent, Mr. Nagry stated.

In 1936 a campaign was started to get farmers and ranchmen of the county to dig trench silos, however, very little progress was made as only three silos were dug during that year with a capacity of two hundred and sixty tons. Since that time the total number of trench silos in Foard County has been increased to twenty-two with a capacity of fifteen hundred and seven tons, and one thousand, three hundred tons of feed were put down in seventeen of that number in 1937.

Some of these silos have been opened and the farmers and ranchmen have been convinced that their feed losses can be reduced to approximately nothing by putting it in trench silos.

Prospects at present are, if there is a feed crop made in Foard County this year, that there will be twenty more trench silos dug in Foard County in 1938.

IDEA CLICKS

Fort Worth.—Harry Roberts is working his way through Texas Christian University. Harry has a 1933 model car. Most of the boys have no car at all. So Harry got an idea.

For \$1 he will let any upstanding young Romeo use his car until 11 p. m. (current running expenses to be paid by Romeo). For every additional hour after 11 p. m. the charge is 50 cents extra.

Rates during the week of full moons are double the regular charges.

Snowflake Real Entity of Art

"A snowflake," recites a book on "Weather" by Free and Hoke, "is not merely a feathery piece of ice that melts into water on the cheek; it is a miniature design as truly ruled, as symmetrically assembled, as conscientiously ornamented as though a skilled draftsman with more than a touch of genius had worked on it for days. It is no unit of another design, but is a real entity of art in itself. One flake never duplicates another's pattern. There may be billions of billions of patterns made day after day in the heavens!"

Sicily Filled With Ruins

At the very tip of Italy lies Sicily which at one time or another since 1500 B. C. was ruled over by Phoenicians, Greeks, Carthaginians, Romans, Saracens, Normans, Spaniards, and finally the people of Italy. Sicily is filled with the ruins of old temples, lying in state, in fields of multi-colored flowers. At Syracuse the tragedies of the Greeks are presented in an open-air theatre, while ancient baths draw the ailing to Acireale, Palermo is the capital and chief port of the island, while Taormina is its most famous resort.

The items below were taken in whole or in part from the issue of The Foard County News of May 4, 1923.

Saw A Monster Snake

Two Foard County men going home saw a rattlesnake near Pease River bridge, which they claim was at least twenty feet in length and must have had over thirty-five rattles. There used to be a still in the brakes of that neighborhood which may still be affecting the eyesight of the passerby.

Accepted Method to Restore Life From Drowning Is Given

Austin.—May is the month when most Texans take a look at the thermometer, make a dive for their bathing suits and hunt the nearest swimming pool or lake. Swimming is a fine sport but it does involve certain hazards.

ARKANSAS DESIRES MORE INDUSTRIES

In Arkansas, where factories are needed, as in Texas, to balance the state's economy so that its prosperity will not be wholly dependent upon sale of raw material, a movement has been started to exempt new industries from taxation.

Two Minute Sermon

(By Thomas Hastwell)

Who Profits Most? In the book of Luke is found the parable of the man who, as he journeyed down to Jericho, fell among the thieves who stripped him of his raiment and wounded him, and departed, and left him for dead. A priest and a Levite came by and passed him, one on one side, and one on the other, and left him lying in the road. But, as the story goes, a certain Samaritan came where he was and rendered first aid, and took him to the inn where he was cared for.

There are fourteen good working hours in each day which still leaves ten hours for thought and rest. No man has yet discovered the limit of accomplishments that may be crowded into them. They are yours—today—Selected.

SENIOR DAY

It was a tired but happy group of seniors that rolled into Crowell at 3 a. m. Monday morning after several almost sleepless nights. They left Crowell at 3 p. m. Thursday and arrived in San Antonio at 3 a. m. Friday. The bus rolled into Galveston at 3 a. m. Saturday. Among the interesting things seen were the Alamo, San Jose Mission, Buckhorn Saloon (Don't get alarmed; it isn't really a saloon), the Sunken Gardens, the Capitol Building (never again), the Medical School in Galveston (some fun when the girls got sick).

IS DANGEROUS

dangerous to sell a SUBSTITUTE for 666 just to make three cents more. Customers are not assets; lose them and your business. 666 is three or four times as much SUBSTITUTE.

Sow Farrows Litter of 25

Mrs. Albert Marlatt of Medway, Ohio, claims a world's record for her Durac-Jersey sow with its litter of 25 pigs. Mrs. Marlatt, shown here with the sow and some of the 20 pigs which survived, has found it necessary to resort to bottle feeding for most of the piglets, as the mother can care for only eight.

Among the seniors we find a budding romance: Ora Mae and Riley. One could not help noticing the persistence with which Riley refused to sleep.

The robbery caused quite a lot of excitement for Shanya and Franklin escorted Mary to report the robbery bare-foot, while Mike, Joe, and Mr. Black ran up and down the streets yelling and wearing sheets and bedspreads.

A purse is being made up to buy a book on banking for Camille. It was bad enough for her to carry her funds in her stocking, and it was worse when she had to remove both shoe and stocking from her right foot in order to pay for her lunch in Austin. But when she held up her stocking by the toe and shook the money out—right there in the Longhorn Cafe in Austin—it was just too much. Any contributions to the purse will be appreciated.

Chemurgic Meet At Omaha Holds State Attention

Dallas.—As a leading supplier of many raw materials, both agricultural and mineral, involved in the modern magic of "putting chemistry to work for the farmer," Texas has especially keen interest in the fourth annual National Farm Chemurgic Council conference this week at Omaha, Neb.

Conversion of agricultural crops, of merely the otherwise waste portions of those crops, into industrial commodities such as starches, alcohols, plastics and synthetic clothing and building materials, is the chemurgic theme, says a report of the All-South Development Council.

INTERESTING FACTS OF THIS AND THAT

The temperature of molten lava is estimated at from 2200 to 3600 degrees Fahrenheit.

In addition to the meat, packing houses secure 140 by-products from the slaughtered animals.

Man's first weapon was the club; second the sling shot and third the javelin.

In the northern hemisphere, the coldest season occurs when the earth is nearest the sun.

Onions and lilies belong to the same family.

HOUSEHOLD HINTS

Macaroni-Cheese Souffle: 1 cup cooked macaroni, 1 cup soft bread crumbs, 1 cup milk, 1 tablespoon melted butter, 1 tablespoon each—green and red pepper, onion, parsley, 1 teaspoon salt, 3 egg yolks beaten with milk, 1/2 cup grated cheese. Mix together, fold in beaten egg whites, steam or bake 1 hour.

An effective way to remove cream stains from garments or linens is to rub the spot with cold water and soap, then rinse in cold water. When children skin the toes of their shoes, shellac it, then polish over and no one can tell where the skinned place was.

CHRISTENS DESTROYER

Mrs. Louise Smith Thayer of Newport, R. I., a great-granddaughter of the late Rear Admiral William T. Sampson, pictured as she officiated at the launching of the new United States navy destroyer, Sampson, named after her noted great-grandfather. The newest navy fighting ship was built at the Bath Iron Works, at Bath, Maine, and is a 1,850-ton vessel.

SAFETY SLOGANS

The law that deals leniently with a drunken or habitually careless driver is a greater criminal than the erring driver.

One of the most dependable passports out of this world is to attempt to light a fire by pouring kerosene out of an oil can upon smoldering embers.

A quarantine sign is for the protection of the other fellow. No person in a quarantined home should violate the rules of the quarantine.

Remember, every cut, or scratch that penetrates the skin offers an opportunity for infection. Sterilize such wounds at the first opportunity.

Brief Bits of News From Here and There

According to Printers Ink, for the third consecutive year General Motors was the largest advertiser in newspapers. R. J. Reynolds Tobacco Company was second, Liggett and Myers Tobacco Company third, J. P. Lorillard Tobacco Company fourth, and Ford Motor Company fifth.

The world's largest meteor fell in Central Siberia thirty years ago. Its weight was estimated at 80,000,000 pounds. It was reported that the force of the impact knocked down horses 435 miles away.

The U. S. Bureau of Internal Revenue announced recently that during the past year it had paid \$75,641.18 to 77 persons who tattered on income tax evaders. The law permits a payment up to 10 per cent of the amount recovered by the government as a result of the information received from the tatter. Most informers, it is said, were dismissed bookkeepers, disgruntled partners and divorced wives.

The Mexican government has announced that it would pay 20 per cent of the receipts from the sale of oil to foreign countries to the owners of the expropriated oil companies.

At the Owens, Illinois, Glass Company experts have spun glass threads so fine that a pound of glass will produce a thread 13,000 miles long.

Germany will produce 25,000 tons of synthetic rubber during 1938. This is equal to one-fourth the rubber consumed in Germany in 1937.

A net work of 5,000 outdoor loud speakers will be installed in the principal German cities during the next six years. The purpose of the loud speakers is to afford facilities for German government officials to address the people of Germany. The loud speakers will eventually be extended to the smaller cities.

The Ethyl-Dow Chemical Company of Kure Beach, North Carolina, recently announced that while 22,000,000 tons of sea water would contain 860,000 worth of gold it would require several million dollars to extract it.

WHAT WE THINK (By Frank Dixon)

Previous to the invasion of China by Japan the country was split up into many factions. Some of the factions fought against the government and some of them fought against other factions. There was little unity of force. With the coming of the war all of the factions have united against a common enemy and the announcement has been made that China will continue to fight as long as any Japanese invaders remain in China.

I have seen towns which I think would be benefited greatly if there were some way to put them on the defensive against a common enemy. It would have the effect of causing petty local differences to disappear and the forces of the community to unite in one common cause as they should be.

I think most small towns have this situation if they would but recognize it.

I have had occasion to observe the merchants and business people of my own town. To a degree they are all suspicious of each other and distrust each other.

One of them, especially, stands at the front window of his store to see how many of what he regards as his customers, go into his competitor's store.

When he observes one going in he becomes all upset about it and begins to wonder what fast one his competitor is pulling to be able to do this.

He nurses these things along, magnifying them in his imagination until he has himself in a frame of mind where it is difficult for him to treat his competitor civilly when he meets him.

Such a state of mind among the merchants of any town is unfortunate. The man in business in the same town in the same line of business after all is not his competitor. His real competitor lives and does business in the big town twenty, thirty or fifty miles away. He is the fellow who is robbing the merchant of my town of the business that is legitimately his, not the man across the street or across the square.

If all the merchants of my town would just realize this and forget local differences and work together against the real competitor they would all fare better.

It is not likely that an outside enemy will invade my town and like the people of China cement all forces together in one solid front against a common enemy, but sometimes I think it might be a helpful thing if something like that should happen.

Your Horoscope

April 30, May 1—You are dependable, anticipate your needs, and lay your plans accordingly. While you love comfort and ease, when emergency comes you will buckle down and see it through. You are not afraid and will never surrender once you have started on a proposition, even though you know it is going against you.

May 2, 3—You like mystery and never tell others regarding your own business or personal affairs. You are susceptible to flattery but do not dispense very much of it yourself. You can be very sarcastic when talking of the wrong doings of others. You love your home and are unselfish in this regard, although things do not always come out to your satisfaction or desire.

May 4, 5, 6—You have a strong imagination, sometimes too strong. While you do not always get within reach of your ideals you have a love for the beautiful. You do not always use good judgment in your undertakings.

Negative Work Costs Money

When photographs are made the negative work must come first and is the most expensive phase of having pictures made, but to make a photograph this work must be done and paid or when only one picture is desired. When pictures are ordered in large numbers this expense is absorbed by the number ordered. If you go kodaking the films for your kodak cost as much or more than the finishing of the pictures.

Some people in Crowell are like the Irishman who went to have his picture made. The photographer said, "On account of the negative work the picture will cost you \$2.00 and each picture thereafter will cost \$1.00."

The Irishman replied, "Faith, and I only want one, so I will take the second one and let some other chump take the first one."

We will appreciate your photograph work in any quantity, but please don't ask us to lose money on the first picture.

Our studio has been improved to an extent that we are now able to turn out full-length pictures of best quality.

We are prepared to take care of school work such as groups on the stage in the school building or any other place where group pictures are desired.
