WILDCAT TEST SOUTH OF CROWELL SPUDDER IN WEDNESDAY

A 5,100-foot wildcat oil test was drilled on the J. W. Wishon 11 miles southwest of Crowell in Wednesday. The test was spudded in Wednesday and will be completed by Monday, May 30. The test will be Foard County's first and will be drilled by the Wynne Drilling Company of Tulsa, Okla. The hole will be drilled with a spudder rig, which is used during the first few feet of drilling. In the near future a rotary rig will be moved to the location and the hole will be drilled with that. A scientific surface test of the oil formation has been made on this block of ground. The test has shown very favorable indications of oil formation at the location on which the test was made.

The test will be drilled on a 9-acre block assembled by Ed E. Smith, Vernon geologist. The well is located 230 feet from the south and 2,400 feet from the north of the J. M. Clay survey. Five companies and one individual are holding leases near the test. It is estimated that approximately \$10,400 was paid for the test.

The test will be drilled on a 9-acre block assembled by Ed E. Smith, Vernon geologist. The well is located 230 feet from the south and 2,400 feet from the north of the J. M. Clay survey. Five companies and one individual are holding leases near the test. It is estimated that approximately \$10,400 was paid for the test.

SCHOOL TERM AT TRUSCOTT ENDED FRIDAY

Graduation exercises held in Auditorium Friday night.

Wheat farmers of Foard County are requested by local officers to take precautions with trucks when they haul their wheat to elevators this year. It is advisable to take the truck numbers and names and addresses of all persons employed.

Protection Against Theft
This precaution should be taken so that in the event there is any shortage in grain, as occurred several times last year, officers will be in position to render any needed assistance.

RASCOE RETAINED AS MANAGER OF FARMERS' GIN IN CROWELL

T. V. Rascoe was retained as manager of the Farmers' Co-Operative Gin in Crowell for the 1938-39 season at a meeting of the directors Saturday afternoon in the gin office. Mr. Rascoe has been manager of this gin for the past five years.

S. HANEY WINS COUNTRY CLUB GOLF CHAMPIONSHIP OVER R. D. OSWALT SUNDAY

S. Haney won the Spring Country Club golf championship by defeating R. D. Oswalt, their 36-hole match. Haney won the match with a victory of 1 up. Haney and Oswalt played 18 holes Friday afternoon and finished the match by awarding the trophy, which will remain in possession until next year. Haney becomes the permanent

THALIA SCHOOL GRADUATES 22 FRIDAY NIGHT

Graduation Exercises Held in Thalia Auditorium

The largest number of graduates in the history of Thalia High School received their diplomas at the commencement exercises in the Thalia school auditorium Friday night. The program was given as a Students' Activity Program, of which "Peace and Citizenship" was the theme. Leslie Thomas, Crowell attorney, delivered the commencement address. This program officially closed the 1937-38 term of the Thalia school.

Honor Students
Miss Louise Cox was valedictorian of the class with a year's average of 96 per cent. Miss Jewel Ward won salutatory honors with an average of 94 1/2 per cent during the past term.

CITIZENS OF COUNTY ADVISED TO BEWARE OF "HOT CHECKERS" AND THIEVES DURING HARVEST

It is further suggested that the public beware of "hot checkers" as many transients follow the harvest gangs in this practice. Moving in and taking a check from a stranger, are advised to have the person place his finger print, in ink, upon the back of the check.

HOPPER THREAT FAST BECOMING SERIOUS HERE

Since the start of the unusually rainy period about three weeks ago, the grasshopper menace in Foard County has reached an alarming stage, according to reports from the county agent's office. The period to spread the poison to do the most damage to the pests has been since the first of the month, but the frequent rains washed the poison away, not leaving it long enough for the young hoppers to eat it.

NEW CAR REGISTRATIONS

The following new motor vehicles were registered in the office of the tax assessor-collector during the past week:

Guy Whitfield, Chrysler coupe. A. G. Magee, Ford tudor. G. D. Self, Ford tudor. W. B. Short, Chevrolet sedan. C. G. Graves, Chevrolet sedan. W. I. Thomas, Chevrolet sedan. Charlie Hart, Ford sedan. J. G. Cooper, 3-ton Chevrolet pick-up.

SUMMER SCHOOL

A summer school was started at the high school building Monday and is in charge of Miss Elsie Fay Roark. The school is being taught six days a week which will make it last about five weeks.

Visitor Here

Coke Stevenson of Kimble County, candidate for Lieutenant Governor, was a visitor in Crowell Monday afternoon. Mr. Stevenson was twice Speaker of the House of Representatives and presided over the House four years without an appeal from his decisions. He is seeking election on "Economy, Experience, Efficiency in Government."

Texas Co. Brings In New 5,000,000 Foot Gas Well

A five million foot gas well was brought in by The Texas Company in the producing field 20 miles southwest of Crowell this week when the L. K. Johnson No. 17 was completed and tied into the plant Monday. Tests revealed that the well was capable of producing between five and six million feet of gas.

District Masonic Meeting to Be Held at Thalia May 30

The next meeting of the 90th Masonic District Association will be held with the Thalia Lodge, No. 666, A. F. & A. M., Monday night, May 30.

Contract Let For Topping Hi-Way 16 North of Crowell

The contract for surfacing of State Highway 16 north of Crowell to the end of the pavement in Hardeman County was let to Brown & Root, Inc., Tuesday afternoon. The bids were opened in the office of the State Highway Commission. The information was released by R. L. Bobbitt, chairman, to the daily press.

Five Engineers Will Determine Feasibility of Constructing Dam

A survey to determine the feasibility of constructing a \$3,000,000 dam on Pease River nine miles northwest of Crowell for control of flood waters of the tributary of Red River will start at an early date, it was announced by Lieut. Col. S. L. Scott, district army engineer from Little Rock, Ark., at a hearing of the Pease River Flood Control Board in Wichita Falls Wednesday, May 18. Five army engineers, each an expert in his particular field, will make the survey.

Candidate Speaking at Riverside Friday

All candidates are invited to attend a pie supper at Riverside school Friday night, May 27, according to announcement made this week. A candidate speaking will follow the pie supper which is sponsored by the Riverside P. T. A.

MORE HAIL DAMAGE SUFFERED IN FOARD DURING TWO STORMS SUNDAY; ESTIMATE ABOUT 10,000 ACRES COMPLETELY LOST

LOCAL SCHOOL CLOSED FRIDAY NIGHT, MAY 20

Graduation Exercises Held in High School Auditorium

The 1937-38 term of the Crowell schools came to a close Friday night with commencement exercises for thirty members of the senior class. Riley Griffin was valedictorian for the class and Mary Helen Carroll was salutatorian. The professional was played by Mrs. Arnold Rucker. Rev. W. B. Fitzgerald, pastor of the Baptist Church, gave the invocation. Accompanied by Mrs. Rucker, Miss Doris Oswalt sang "The End of a Perfect Day."

Farmers' Elevator Officers Elected At Annual Meeting

Officers and directors for the Farmers' Co-Operative Elevator Association of Foard County were elected at an annual meeting held last Wednesday, May 18, in the elevator office in Crowell. A. W. Barker was re-elected president, and R. H. Cooper Sr., was selected as secretary-treasurer.

Methodist Revival Draws Good Crowds

The revival meeting that has been in progress at the Methodist Church since Sunday morning has had good crowds. The first service of the meeting at 11 o'clock Sunday morning was conducted by the pastor, Rev. E. L. Yeats, Presiding Elder Cal. C. Wright of Vernon preached at the evening service. Rev. Finis A. Crutchfield, pastor of the First Methodist Church of Vernon, who is to do the preaching for the two-weeks' revival, arrived Monday for the morning service. Rev. Crutchfield is an earnest and forceful speaker and officials of the Methodist Church feel fortunate in securing him as evangelist for this meeting.

FARMERS AND BUSINESS MEN TO MEET AT FIVE-IN-ONE TUESDAY NIGHT; PLAN MOTOR CARAVAN

The May meeting of the Farmers and Business men's Association will be held at the Five-in-One school house, in Wilbarger County, Tuesday night, May 31, at 8 o'clock, according to George Self, president, who announced that an invitation from that community has been accepted.

Motor Caravan

A drive will be made for one hundred and fifty members from Crowell and Foard County and, according to plans, a large motor caravan will be formed for the trip Tuesday evening. The caravan will form on the north side of the square and will leave Crowell at 7:15 o'clock. Everyone is urged to aid in the drive for a larger caravan by placing their cars in the group.

year. This meeting will also give Foard County people an opportunity to inspect this new and modern school building.

The banquet will be prepared and served by ladies of the Five-in-One Parent-Teacher Association. Mrs. Ed Lehman and Mrs. W. A. Daniels will be in charge of arrangements for the banquet. Those in charge of the banquet report that a large representation will be present from the Five-in-One community, as that community is composed of the northeast part of Foard County and a part of Wilbarger County.

Committees
The committees released Tuesday morning by Mr. Self are as follows:
Program Committee
Henry Black, Leslie Thomas and Mrs. A. L. Rucker.
Ticket Committee
A. Y. Beverly, chairman; J. A. Stovall and W. H. Moyer.

PEASE RIVER FLOOD SURVEY TO START SOON

A survey to determine the feasibility of constructing a \$3,000,000 dam on Pease River nine miles northwest of Crowell for control of flood waters of the tributary of Red River will start at an early date, it was announced by Lieut. Col. S. L. Scott, district army engineer from Little Rock, Ark., at a hearing of the Pease River Flood Control Board in Wichita Falls Wednesday, May 18. Five army engineers, each an expert in his particular field, will make the survey.

DEFINITE INFORMATION ABOUT WHEAT PLOW-UP CAN NOT BE GIVEN NOW; AWAITING ORDERS

Definite information can not be given to farmers of Foard County concerning wheat plow-up, according to a release from the county agent's office Tuesday afternoon. The county office contacted the state office Tuesday and definite information could not be released from that office until orders are received from Washington.

Home Coming Day at Thalia Church of Christ May 29

Home-Coming Day for the Thalia Church of Christ has been designated as Sunday, May 29. All who have made Thalia their home at some time and now live elsewhere are given a special invitation to spend the day with members of the Thalia church for the morning services following which lunches will be served at the noon hour. Elder T. G. McCord of Vernon will preach at the 11 o'clock hour. Singing will be held in the afternoon and many visiting singers are expected to be present at that time.

BIRTH
Born to Mr. and Mrs. T. F. Cates, a girl, Doris Ann, May 19.

Items from Neighboring Communities

RIVERSIDE

Miss Ruby Tole and L. Z. Tole, who are attending a business school in Fort Worth, arrived Friday for a visit with their parents, Mr. and Mrs. Sam Tole.

Max Dean Beidleman, who has been ill, is able to be up and about again.

Quite a number from this community attended the closing exercises at the Five-One and Thalia high schools last week.

Rev. John W. Kern of Lockett visited Otto Schroeder and family and Ewald Schroeder Friday afternoon.

Jerry Clark of Rayland spent last week in the homes of Frank Ward and Luther Ward.

Mrs. V. A. Thomas and daughter, Robbie Jo, of Carlisle arrived Wednesday for a visit with Mr. and Mrs. Cap Adkins and other relatives here. She had been visiting her parents, Mr. and Mrs. Joe Huntley, of Lubbock.

Mr. and Mrs. Clifford Cribbs and children spent Thursday with her parents, Mr. and Mrs. Fred Belew, of Fargo.

Ernest Tole and family of Five-One spent Sunday and Monday with Sam Tole and family and Tom Ward and family.

Mrs. Joe Huntley and children, Oleta and Joe Royce, of Lubbock arrived Wednesday for a visit with Mr. and Mrs. Cap Adkins and other relatives here.

WILL SHOW TABLE TOP PICTURE SOON

Buddy Derington spent the week-end with his sister, Mrs. Willie Pearl Davis, of Childress.

Mr. and Mrs. Emmett Powell of Vivian spent the week-end with his mother, Mrs. J. L. Rennels.

Mr. and Mrs. Grady Halbert spent the week-end with his father and brother, E. V. Halbert and son, Kenneth, of Foard City. Mrs. Halbert was visiting her mother at Walnut Springs.

A heavy rain, which fell Saturday night and Sunday afternoon, drenched this community. The rain was accompanied by wind and hail.

John Winston Bradford spent the week-end with Floyd Bradford of Margaret.

Mrs. David Lee Owens and Mrs. Fay Bond and children, Joe Charles and Ometa, of Crowell visited Mr. and Mrs. Ben Bradford Saturday afternoon.

Harry Beidleman and George Mattern left recently for Tennessee.

GOOD CREEK

(By Viedie Phillips)

Miss Ada Groomer and Mrs. H. C. Roark of Crowell spent Wednesday night with Ada's parents, Mr. and Mrs. C. H. Groomer, and Mrs. Roark's daughter, Mrs. Ralph Burrow, and attended the play at the school house that night.

The play was well attended Wednesday night. School closed Friday for a successful 9 months term, with a picnic at Horse Shoe Lake in the Claytonville community.

Mr. and Mrs. Arthur McBride of Crowell spent the week with her parents, Mr. and Mrs. J. P. Whitley.

About 1 1/2 inches of rain fell here Wednesday night. Quite a bit of hail fell. A. L. Davis and Carl Cox being the only ones to have wheat damaged. There was not badly damaged. Rain started falling again about 5 o'clock Saturday evening, and about 2 inches of rain fell during the night. Those who have cotton planted will have to replant.

Mr. and Mrs. Jack Stinebaugh of Eastland spent the week-end with her mother, Mrs. J. T. Cox, and other relatives.

Otha Fortner of Borger spent the week-end with his uncle, A. B. Fortner, and other relatives.

Mrs. Carl Cox and Mrs. Paul Howell attended an H. D. Club meeting at Denton Friday. They went with Miss Myrna Holman, county home demonstration agent, of Crowell.

Mr. and Mrs. Raymond Whitley of Crowell spent Sunday with his parents, Mr. and Mrs. J. P. Whitley.

Mr. and Mrs. L. R. Scott visited Mr. and Mrs. F. A. Hinkle Saturday. Mr. and Mrs. Hinkle accompanied them home and spent Saturday night and Sunday there. Mr. Hinkle also visited his father, A. C. Hinkle, Sunday.

Mrs. O. G. Whitley spent Saturday with her parents, Mr. and Mrs. Joe Clifton, of Crowell.

Paul Howell, accompanied by his brother, Henry Howell, of Claytonville spent Friday with their sister, Mrs. Howard Dunn, of Truscott.

Miss Ada Groomer, who has been staying in the H. C. Roark home at Crowell and attending school there, is spending vacation days with her parents, Mr. and Mrs. C. H. Groomer. Ada and Miss Pauline Stinebaugh graduated from Crowell High School this term.

Miss Marie Dunn, who stayed in the home of her brother, Howard Dunn, of Truscott and attended school there, is spending her vacation days in the home of her parents, Mr. and Mrs. C. E. Dunn. Mr. and Mrs. O. G. Whitley spent Saturday night and Sunday with her brother, Joe Clifton, and family of Foard City.

MARGARET

(By Mrs. John Kerley)

Miss Effie Mae Hawkins of Acme has been visiting Miss Lois Burns for several days. Both girls spent Sunday in Acme.

Miss Thelma White of Black visited here Thursday night.

Miss Peaches Wiseman of Acme is visiting Miss Charley Austin.

Despite the very unfavorable weather much of the time during the past two weeks' revival at the Methodist Church, much good has been done and several conversions are reported during the meeting.

Rev. Davidson did some fine preaching and won the admiration of all who heard him.

Mrs. Tom Burns and daughter, Lois, attended graduating exercises at Quannah Thursday night.

The many friends here of Rev. Tom Burns and family are sorry to lose them from our community. They expect to move this week to Childress where he has been called as full time Baptist pastor. He has been pastor here for the past year. He filled an appointment at Childress Sunday.

Several heavy rains fell here over the week-end. Hail also destroyed crops which had been partially damaged several weeks ago by hail, bridges were washed out, etc. Many hundred acres of wheat are a total loss as much of it was not covered by insurance.

Mrs. J. C. Davis of Rayland and daughter, Mrs. Fred Taylor, attended graduating exercises at Childress Friday night. A granddaughter of Mrs. Davis was one of the graduates.

Mrs. William Bradford, who has been ill several days, was taken to the Quannah hospital Thursday for treatment. She was visited Sunday by her husband and father, S. J. Boman. Her husband and Mrs. Raymond Sikes spent the day there Monday. She is reported not much improved at this writing.

The drag line which left here several days ago, was returned here last week.

Mrs. Grant Morrison visited Mrs. A. J. Dockins of Crowell Saturday, who is ill.

We are sorry we were misinformed last week relative to the building of a new home by A. B. Owens. The building of the new home has been postponed indefinitely.

Mrs. Luther Denton and children of Crowell visited her parents, Mr. and Mrs. W. Ingle, Friday.

Mr. and Mrs. Dolts Pauley and daughter, Ruby Gene, visited his brother, Foy Pauley, and family of Olney over the week-end.

Mr. Cassie Shivers and Mrs. Cecil Ferguson and children, Essie, Peggy and Murray Lynn, of Crowell visited Mrs. Grant Morrison and family Friday. Essie remained until Saturday.

Miss Verna Ray Morrison returned Wednesday from a visit with relatives at Crowell.

Mr. and Mrs. Melvin Moore and little son, Billy Ray, of Lozenzo visited relatives here from Saturday until Sunday.

Mr. and Mrs. Arthur Powers and daughter, Gelene, visited relatives in Vernon Saturday.

Mrs. John Bradford of Riverside visited relatives here Saturday.

Mr. and Mrs. Carl Bradford of Rayland visited Mr. and Mrs. Johnnie Wright over the week-end.

Mrs. S. M. Drew visited the WPA sewing room in Quannah Friday.

The 4-H Club girls of Margaret and Black, accompanied by Miss Myrna Holman of Crowell, enjoyed a hobo stew at the river bridge Wednesday.

Mr. and Mrs. Ed Taylor visited in Quannah Friday.

FOARD CITY

(By Mrs. J. L. Farrar)

Mrs. Carvel Thompson, president of the Home Demonstration Club of Foard City, attended a one-day short course in Denton last Friday. While in Denton she visited her grandmother, Mrs. G. W. Walden, who is spending the summer in Denton with a daughter, Mrs. I. E. Huffaker.

Mr. and Mrs. Johnnie Gamble and family spent Sunday with Mr. and Mrs. Noble Pitman.

Rev. G. E. Tyson of Truscott will preach here Sunday morning.

Sandra Bell and Jane Roark of Crowell are spending this week visiting Sandra's grandparents, Mr. and Mrs. J. H. McDaniel.

Fate McDougle left Tuesday morning for Collin County where he will cut wheat on the Hugh McLain farm near Anna for C. G. McLain of this place. They report a good wheat crop in that section, if it will quit raining so the farmers can get their wheat cut and shocked.

Mrs. E. V. Halbert left Friday for a visit with her mother, Mrs. Rundell, who lives in Walnut Springs.

Mr. and Mrs. Jack Welch of Benjamin spent Sunday visiting his parents, Mr. and Mrs. T. F. Welch.

The Missionary Society met Monday afternoon with Mrs. Joe Morris. Six members were present and Rev. and Mrs. G. E. Tyson of Truscott. Mrs. J. M. Glover gave the devotional, 1st to 11th verses of the 40th Psalm. Rev. and Mrs. Tyson gave the three last chapters of the mission study, "What is this Moslem World."

Rip Welch of Anna is here to spend the summer with his brother, T. F. Welch, and help him harvest his wheat crop.

Mrs. Audrey Johnson and children of Quemado, N. M., are here visiting relatives.

Mr. and Mrs. Grady Halbert of Riverside spent the week-end visiting in the E. V. Halbert home.

Miss Hazel Canup visited Miss Oma Shannon of Vernon Saturday.

Reta Faye and Helen Callaway and Ruth and Bettie Barker of

Crowell spent Saturday night with their grandparents, Mr. and Mrs. A. W. Barker. Mrs. Barker honored her daughter, Dovie, with a birthday party Saturday night.

Mr. and Mrs. Stephen J. Brune and son, David, of Norfolk, Va., spent Monday with Mr. and Mrs. T. F. Welch. The Brune family was en route to the Pacific Coast where he is a Lieut-Commander in the navy.

The rain, hail and wind did a lot of damage to wheat, oats and gardens in this community Saturday and Sunday. Several wind-chargers were blown down during the storm Sunday afternoon, several out-buildings were blown away, and some farmers reported their row crops destroyed by the terrible downpour of rain.

Some of the farmers here have already cut their oats and will begin cutting some of their wheat next week with binders. Recent rains have caused rust to get in the wheat and it is beginning to fall down.

Mrs. Grady McLain had a quilting last Thursday in the home of Mrs. Lee Lefevre. Twenty-two ladies were present and a very enjoyable day was spent quilting two quilts. A covered dish dinner was served at noon. Mrs. Claud Callaway and Mrs. Jim Shook of Crowell were guests at the quilting.

Several men of this place spent last Friday night over on Good Creek fishing. The only thing they reported catching was "chiggers."

TRUSCOTT

(By Estelle Chilcoat)

Mrs. Alice Johnston, primary teacher, left Friday for Cisco where she will spend the summer.

Mrs. Leonard Loyd of Menard, who has been visiting her parents, Mr. and Mrs. Oscar Solomon, returned home Friday.

Mr. and Mrs. Homer Houston of Delwin spent Friday with her mother, Mrs. J. M. Chilcoat. They were accompanied home by her sisters, Misses Estelle and Chrystaline Chilcoat.

Clarence Woodward, who has been in the hospital at Muskogee, Okla., has returned to his home here.

Mrs. A. S. Tarpley, who has been visiting her daughter, Mrs. Laurence Abbott, and husband, in San Angelo returned home Saturday.

Mr. and Mrs. L. J. Abbott are visiting their children in San Angelo.

Brady L. McCoy left Saturday for Amarillo where he will spend the summer.

Mr. and Mrs. Eli Lefler and children, Tommy Jo and Ann, of Carlsbad, N. M., have been visiting her parents, Mr. and Mrs. John Holmes.

Mr. and Mrs. N. R. Barr left Saturday for Dallas.

Miss Eileen Motley left Saturday for her home in Dallas.

SAFETY SLOGANS

Children who are taught safety rules follow them habitually throughout life. Teach your child not to run into the street after his baseball, never to coast where traffic passes, always look both ways before stepping into the street.

Eighty-eight persons are killed every day by accidents in the home, such as burns, falls on faulty stairs, and from slipping rugs.

Five thousand children are mowed down in traffic accidents each year. Sometimes it is the child's fault and sometimes it is the driver's fault. Mothers can't help what the drivers do but they can teach their children habits of safety.

The driver who thinks won't drive when he drinks.

Many housewives are terribly burned or disfigured each year from accidents that result when dry cleaning is attempted with inflammable liquid.

Silk being dry cleaned in gasoline will produce an electric spark from the friction sufficient to ignite inflammable gasoline. Don't use inflammable liquids in cleaning clothes.

If you keep poisons of any kind in your medicine cabinet keep also the antidote directions pasted on the inside of the medicine closet door—it may save a life. When poison has been taken a few seconds delay may cost a life.

It's dangerous to hang curtains or pictures while standing on a chair. Thousands of serious falls result every year from this practice.

The Gazetteer

A gazetteer is a dictionary or encyclopedia of places, rivers, mountains, etc., containing a brief description of each; arranged alphabetically for ready reference.

QUESTIONS AND ANSWERS

He that despiseth his neighbor sinneth, but he that hath pity on the poor, happy is he.—Proverbs 14:21.

We believe that the best thing that can happen to this country, in the way of bringing to an end the depression and relieving unemployment, would be for Congress to refrain for a time from legislation affecting business. For the past several years Congress has badgered business until it has developed a high state of nerves. The result is, that instead of planning for expansion, business is merely waiting until conditions become settled to the degree that it can plan ahead with some degree of assurance that a program once entered into can be carried out without being subject to radical changes and readjustments. In this highly competitive age profits are often figured in fractions and decimals, and it is bewildering enough to figure out a course under natural conditions without having, in addition, to cope with the vagaries of an erratic Congress. There is plenty of money for business expansion and development in this country, but it has gone into hiding until the storm blows over.

An unexplainable thing about the newspaper business is that an editor can run columns, and columns of boasts and publicity for an individual or a project and the individual who should be interested will never see it, but let two lines get in the paper, at the bottom of the last page, and the same fellow will see it and squall his head off about it. This unfortunately, is the invariable rule.

Many an otherwise capable man has destroyed his possibilities and drained himself of his resources because of a single foolish habit which he refused to quit. War is the habit that drains nations of their resources and prevents them, through demoralization and impoverishment, from doing many fine and worthwhile things that they might otherwise accomplish.

It is being predicted that within the next ten years all transport trucks will be powered with Diesel engines which operate at a fraction of the fuel cost of the present type of motors.

One of the most difficult things to recover, once it is lost, is faith and confidence and trust in a fellow man. Strange, when common sense tells how valuable these things are in human and business relationships, that some men will sacrifice them for a trivial personal advantage.

There have been a good many businesses built through advertising, but there is no record of a business ever getting very far without advertising.

Riches kill initiative in some men, and serve to spur others on to still greater effort. It is the necessity of having to rustle for a living, however, that is responsible for accomplishment in most men.

Terrell Will Open Campaign Saturday Night in Corsicana

Austin.—C. V. Terrell, chairman of the Texas Railroad Commission, will open his campaign for re-election on the courthouse square in Corsicana Saturday, May 28.

The opening will begin at 7 p. m. Judge Terrell will speak over a state-wide radio hookup from 8:15 to 8:30 p. m. over the Texas Quality Network with the speech being transmitted by Radio Station WFAA at Dallas.

A committee of four Corsicans and two men from Mexico who handled arrangements for the opening predict it will be one of the largest political gatherings in Texas history. They expect people to attend from as far south as Corpus Christi, as far west as San Angelo, as far north as Wichita Falls, and as far east as Orange. Judge Terrell's home town, Decatur, county seat of Wise, will contribute several bus loads of supporters to the occasion.

"I had many reasons for choosing Corsicana for my opening, but the best one is that the city is Texas' oldest oil city," Judge Terrell said.

"The railroad commission has an important place in the oil history of the state, too. The commission's engineering department estimates that where the first oil men recovered as low as only 26 per cent from such a fine field as Burkhurst, our conservation policies today insure recovery of upwards of 90 per cent in the East Texas field, the world's largest, and other fine new discoveries.

"By no means am I standing for re-election solely upon the achievements of the commission in its work with the oil industry. The commission also has reduced railroad freight rates, cut the cost of natural gas to consumers, supervised as wisely as possible operation of trucks and buses on the highways of the state, and in other ways benefited the producer, consumer, middleman and transporter during my 14 years as commissioner.

"But I must say that I rank the saving of some 64 per cent of the state's great oil wealth as the biggest achievement of government in my recollection, and I'm happy to associate the opening of my campaign for re-election with it by holding the opening in such an historic oil city as Corsicana.

Home-Coming May 13 at Decatur College

The friends and former students of Decatur Baptist College of Decatur are planning a great homecoming occasion to be held on the college campus at 2 p. m. May 31, according to an announcement by Dr. McKinley Norman, pastor of the First Baptist Church of Waxahachie, who is chairman of the home-coming committee.

Talks will be made by Dr. W. W. Melton of Waco, Rev. T. J. Doss of Terrell, and R. H. Eapen of Waco. A sing song will be conducted by H. P. Black of Longview, and the college choral club will render special music.

Dr. George W. Truett of Dallas will deliver the commencement address at 8 o'clock on the same day.

Legislators Fight "Air Monopoly" of American Radios

Fighting for protection of the radio "air way" as the last resource of the American people not completely dominated by trust control, George Henry Payne, member of the Federal Communications Commission, and in his recent inferences that there is a wood pile with a dusky inhabitant which should be shown up in order to protect public rights.

Changes have been laid from time to time against the growing domination of the radio field by chains. The Commission, according to Commissioner Payne, is beset with lawyer practitioners and lobbyists working to get frequencies allotted and then they are sold to monopoly interests. The skirts of the Commission are not to be considered clean. While no definite charges are laid against any fellow commissioner, the needed clean up can only come through an impartial and thorough investigation.

On the heels of this charge by Commissioner Payne, Representative W. D. McFarlane of Texas lays the charge before the House Rules Committee that two former United States Senators, while still in office, interfered with the Department of Justice in prosecuting anti-trust suits against the Radio monopoly. While hearings are still being held before the Rules Committee on the resolution to investigate the Radio trust, it is the estimate of numerous members of the House that this is one of the greatest fights of the Congressional session. One of the most active and powerful lobbies, much of it under cover, is fighting against the investigation. If it is voted by the House, Representative McFarlane will be given the major credit for defeating this lobby.

McFarlane will likely be on the committee to investigate, very likely as the prosecutor, if the interests controlling the far flung radio monopoly do not muster enough support to defeat a real investigation.

To the lay mind Radio is all engrossing but there are far reaching ramifications involving financing, brokerage, advertising, telephone, equipment manufacturing, patents, and broadcasting talent, even reaching to sound motion pictures and television.

Television has been produced in

Thalia School—

(Continued from Page One)

a quartet, composed of Howard Gamble, Bryan Banister, Buddy Derrington, and Reid Johnson, sang "The Last Rose." Banister accompanied on the guitar, and the feature of the number was a chorus whistled by Derrington. "Citizenship" was the theme of a short talk by Howard Gamble.

The next musical number on the program was "The Gold Mine in the Sky," rendered by Miss Mary Jo Johnson and Reid Johnson. Miss Cox gave the valedictory, which was followed by the commencement address.

Commencement Address

Mr. Thomas urged the graduates to "keep the graduation spark of enthusiasm glowing" as they had "only finished to begin again." He told the young people that they had finished their first preparations for the future and they were now beginning their "life."

He pointed out that discouragement might come in the future, but that there are places for them in many professions. Mr. Thomas urged the graduates not to lose faith because careers and success can be found if ambition is there, as there are many undeveloped opportunities today as there were in the days of the pioneers.

The speaker related the dangers of egotism, pointing out that selfishness caused many failures, and on several occasions had been the cause of a nation's downfall. "Think of others and be happy. Serve your generation with high motives and your selfishness will be remembered," he said.

In commenting on the world's "battle for peace," Mr. Thomas told the class that this battle was a part of everyone's life and that they would fight for peace or be unworthy.

22 Graduates

Superintendent W. Lee Cox made a short talk before presenting diplomas to the twenty-three graduates, six boys and sixteen girls.

After the diplomas had been awarded, the class sang, "The Parting Song," and the program was closed with a short prayer by Buddy Derrington.

Baccalaureate Services

Baccalaureate services for the graduating class were held in the high school auditorium Sunday afternoon, May 21, at 3 o'clock with Elder T. G. McCord, pastor of the Vernon Church of Christ, delivering the sermon.

The professional was played by Mrs. C. D. Haney, and the invocation was pronounced by Rev. J. B. Lawrence, pastor of the Thalia Baptist Church. A hymn, "Faith of Our Fathers," sung by the congregation was followed by the sermon.

Rev. McCord's baccalaureate sermon theme was "You shall know the truth and the truth shall make you free." He related the careers of several great persons and told of the advancement each made in his profession. Elder McCord advised the group as to their future, telling the girls that to be a wife and mother was their greatest choice. To the boys he stressed the fact that they could find places in the fields of science, medicine and many other professions.

The services were closed with the recessional by Mrs. Haney.

Class Roll

The roll for the largest graduating class in the Thalia school's history follows:

John Bradford, Howard Gamble, Quinton Bice, Frances French, Sydney Swan, Reed Johnson, Sybil Gobin, Bryan Banister, Johnnie Ruth Wisdom, Mary Jo Johnson, Juanita Jones, Helen Shultz, Edith Wayne Cates, Jewel Ward, Lloyd Blevins, Buddy Derrington, Veda McKinley Mire, Owens, Joy Hudgins, Nell Roberts, Louise Cox and Hazel Gamble.

Seventh Grade Exercises

Graduation exercises for the seventh grade of the Thalia school were held in the high school auditorium Thursday night at 8 o'clock, at which time thirteen students received their grammar school diplomas. The class was addressed by Rev. Erwin Reed, pastor of the Thalia Baptist Church.

The honor students of the class were Floy Marie Huntley and Howard Cook. Floy was salutatorian of the class with an average of 92.5 per cent for the year's work and Howard was valedictorian with an average of 94.5 per cent.

The professional and recessional of the exercises was played by Mrs. G. B. Neill. The salutatory was given by Floy Marie Huntley

England since December, 1935, and in other parts of Europe since 1934. The communications monopoly have withheld television from the American public, it is believed because of its interference with sound motion pictures, which the same monopoly controls.

The investigation promises to be one of the biggest, if not the biggest, study into interlocking dictatorates, investments and ruthless use of power ever conducted by the government. This is based upon the amount of money involved, the practices followed and the "public interest" to be protected.

Widely separated as to states, different in personality, thoroughly dissimilar in appearance, trained on different schools, yet George Henry Payne of New York on the Federal Communications Commission and W. D. McFarlane, Representative in Congress from Texas, are expected to be the nemesis of the Radio trust. They are similar in two outstanding characteristics, each is a fighter without any trace of compromise on policy or issues, each is noted for personal integrity and unquestioned honesty. The "Monopoly" crowd are expecting no quarter in this impending fight.

NOBODY'S BUSINESS

BY JULIAN CAPERS JR.

Austin.—Whenever the State of Texas has won a court victory in one of the innumerable lawsuits which have grown out of the regulatory authority exercised by the Railroad Commission, there has been a rush to claim the credit for the victory. The Commission, whose most active member is Ernest O. Thompson, originates the majority of the orders falls under the jurisdiction of Attorney General Bill McCraw. Both Thompson and McCraw have been more or less open enemies of the Governor for the past two years. The State has won a lot of lawsuits during that time, and there have been a considerable variety of claims and counter claims for the credit for these victories.

But this week, when the Supreme Court of the U. S. handed down a decision reversing the court of civil appeals at Austin, which had upheld a Commission order reducing the rate charged by Lone Star Gas Co. by 20 per cent in 275 Texas cities and towns, and directly affecting the pocketbooks of well over a million Texans, there was an impressive silence in official quarters at Austin.

The Supreme Court opinion, as quoted in the Washington press dispatches, apparently upheld the procedure followed by Thompson and the Railroad Commission in the long drawn out valuation proceedings held at Fort Worth, and ruled that McCraw and his staff erred in the subsequent court procedure, when they urged, and the Texas appeals court accepted, "in response to the State's pressure," an "untenable standard of proof" in the attack upon the Commission's order.

What Happens Now?

But regardless of who gets credit for the legal defeat, chief interest in the towns whose gas bills are affected, centered upon what the next step in the five-year fight will be. Some lawyers have believed that the Supreme Court ruling would send the fight back into the District Court at Austin, others that it might have to back track no further than the Austin Court of Civil Appeals. The Supreme Court decision, following well established legalistic precedent, used five words where one would have sufficed. So that it will doubtless take several weeks' study by attorneys to determine and translate into English that a newspaper reader can understand, just what the court did decide. Meanwhile, State officials were so busy campaigning for votes that they had not had time, at the week-end, to give the opinion study and to outline a future course of action.

Proration Is Issue

Economists throughout the nation have been amazed at the manner in which Texas has consistently maintained its status as a "white spot" on the business map throughout the business recession which has put millions in the industrial East and Middle West back on relief rolls. The answer, of course, is the uninterrupted flow of about \$1,500,000 daily of new money into Texas from the production and sale of crude oil. Oil is produced in 150 counties, but this flow of new money permeates into every hamlet and village of the State.

For five months now, there has been produced in the United States a great deal more oil than a recession-hit nation has been able to consume. Stocks of crude oil, gas

and the valedictory by Howard Cook. The class history was read by Edna Mae Wisdom, after which a piano number was played by G. B. Neill Jr. After the address by Rev. Reed, a song, "School Days" was sung by the class. Superintendent W. Lee Cox made a short talk. The diplomas were presented to the seventh grade graduates by Bailey Rennels, principal.

Those who received grammar school diplomas Thursday night were: Marjorie Banister, Howard Cook, Billie Huntley, Floy Marie Huntley, Edgar Johnson, Sherman McBeath, Louise McKinley, G. B. Neill Jr., Stanley Solomon, Edna Mae Wisdom, Lucy Wisdom, Charlie Wood and Ray Hudgens.

HAIL—HAIL—HAIL

oline and by-products have risen to staggering totals. The Railroad Commission, carrying out the law which says it shall prevent physical waste of oil, has reduced allowances to the minimum, then put into effect Sunday shutdowns, and finally, Saturday shutdowns as well, in an effort to prevent chaos in the industry.

At the largest-attended proration hearing held in two years here this week, oil operators solidly backed the Commission's policy of curtailment, and howled down John Schroder of Longview, a dissenter who wants the Federal government to take over control of the oil industry. The forthcoming order of the Commission is expected to maintain Sunday shutdowns, and possibly extend also the Saturday shutdowns. Operators here frankly declared to open the wells will cut the price. They feel it is better to sell less oil at a high price, leaving the remainder in the ground, than to run more oil and get less for it, without increasing their total income appreciably.

One painful result of the curtailment program was an order reducing by 5 per cent pay of 335 employees of the Commission's oil gas division, which gets its operating money from a special production tax on crude produced. Curtailment of oil run has cut the monthly income of the Commission from this source by about \$18,000 a month.

Politics Warms Up

A week of vigorous campaigning by most candidates for state offices apparently has influenced some life into a campaign which has been abnormally quiet to start this year. . . . Urged relief for farmers, and limited the waste involved in maintenance of over 100 special funds in the State treasury. Ernest Thompson sought votes in half a dozen scattered communities. . . . McCraw, voicing his opposition to a sales tax, and pleading no "mud-slinging" in the campaign took his drive for ballots into Southeast Texas. . . . Lt. Walter Woodul, opening fire for Attorney General at Groesville, pledged himself against vacancy racketeers, while protecting the interests of the State's school funds in the lands. . . . Land Commissioner McDonald, who vigorously opposed a bill providing for a leasing board in January, ago, came out with an announcement for such a board in a San Marcos. . . . Fifty days ago this week, Texas' new capitol building was dedicated. Gov. Sul Ross, presiding, land traded by the State for building today is worth \$100 million dollars. The capitol is now practically complete to house the State's departments, many of which occupy state buildings, or rent space in Austin from private owners.

Ragland of Memphis, Tenn.; and Beverly Ragland of New Orleans, La., arrived here Saturday for a visit with their daughter and sister, Mrs. C. W. Thompson, and family. Mrs. Thompson's nephew, Bays Bryant, of Lubbock was also a guest in the home.

Members of fishing contest, take notice! Closing date is extended to 6 p. m. July 16, 1938. Reason—unfavorable fishing conditions.—W. R. Womack.

Softball Games Postponed Sunday Because of Rains

The Foard County Softball League games scheduled to have been played last Sunday were rained out. Margaret traveled to Vivian Tuesday afternoon to play their matched game and came home with the bacon, 8 to 5. Arrangements for make-up games will be released later.

Sunday's Schedule

Foard City will travel to Margaret, and, although they will put up a good fight, Margaret's pitchers and sluggers will get the better of them. The scrap of the day will be staged between Riverette and Vivian at Riverette. Vivian should take this tilt. Four Corners will present "pickin'" for the Thalia bunch on the Thalia diamond. Black has promised a rejuvenated team, and unless it has Crowell should win in a walk when they meet on the Black grounds.

PROGRAM AT GAMBDEVILLE

A May Pole program will be given at the Gambdeville school house Friday evening, May 27, at 7 o'clock. An invitation is extended to everyone to attend.

SPANISH CHURCH MEET

The annual conference of the North Texas and Oklahoma Assemblies of God, Spanish, was held in Crowell Tuesday and Wednesday. Pastors of Assembly of God churches in this section met in the Crowell Spanish church, with L. O. Valero, pastor of the local church, in charge of the meeting. Rev. H. C. Ball of San Antonio, superintendent of Latin-American District Council of the Assemblies of God in the United States, was present for the two-day meeting.

(Continued from Page One)

of the largest, if not the largest, grasshopper hatches this year that it has ever had. At present, the pests are of unusually large size, and when they start traveling from field to field many crops in the county will be damaged if not completely ruined. County Agent John Nagy stated that if steps were not taken immediately to curb the grasshoppers, a very large portion of cotton planted will not be able to live long before being ruined by the pests.

Many farmers have been co-operating in the hopper war, but to date have been waging a losing battle because of the rains. Mr. Nagy urges the continued warfare on them to save crop damages, and asks everyone to co-operate in evading this menace by spreading poison. It has looked during the past three weeks the work was only lost because of unfavorable weather, but at least an effort should be made to curb what could very easily be an invading horde of hungry grasshoppers which could very easily leave ruined and stripped plants behind them.

If favorable weather conditions prevail during the next few days, every farmer is urged to come to the Farmers' Gin in Crowell and get an abundant supply of poison. This poison mixture costs the farmers a very small sum, as the expensive ingredients, arsenite and bran, are furnished free. All that is asked of the farmer is that he bring a sack or sacks, buy the cotton seed hulls from any local feed store; a small quantity of banana oil at any drug store; and a gallon of syrup. In co-operating with the drive, the Commissioner's Court has obtained a large quantity of syrup, ideal for use with the poison, and has placed it at the gin where farmers may buy it at the very low price of twenty-five cents per gallon. A man will be stationed at the gin three days each week, Monday, Wednesday and Thursday, for the purpose of mixing the poison.

Farmers are urged to get a supply of the poison mixture and spread it immediately before the hoppers leave the fence rows. It is said that one man in the county stated that he would spread poison when the grasshoppers started eating the barbs on the fences. That stage would come after the fields are stripped and the poison would be wasted.

Announcing . . .

That This Bank Will Be Closed All Day Monday, May Thirtieth, Memorial Day

CROWELL STATE BANK

Mr. and Mrs. R. G. Moody and daughter, Marjorie, of Tulsa spent Monday and Tuesday in the home of their son and brother, Dwight Moody, and family of Crowell.

Mr. and Mrs. J. E. Bell of Jicarilla, N. M., arrived here Tuesday afternoon for a visit with relatives. They expect to remain here until after the wheat harvest.

No longer necessary to get down on hands and knees to light oven burners. See Perfection's new table top oil range.—W. R. Womack.

Mrs. S. J. Ferguson left Saturday for Waco to visit her sister, Miss Hattie Darrow. She will also visit another sister, Mrs. Florence Gaither, of Chilton, and will be gone about three weeks.

Mr. and Mrs. O. W. Orr and children, John Lee and Jean, returned Sunday afternoon from Nowata, Okla., where they were called last Thursday by the death of Mr. Orr's brother, G. T. Orr, who died at his home in that city following a long illness.

Lieut. Commander and Mrs. S. J. Brune and son, David, of Norfolk, Va., spent Sunday and Monday visiting Mrs. Brune's sister, Mrs. S. H. Ross, and her brothers, J. Y. and T. F. Welch, and their families. They left Monday for Long Beach, Calif., where they will make their home. Mr. Brune having been transferred to the Pacific Coast for a three-year period.

Miss Mildred Cogdell is visiting her sister, Miss Bonnie Cogdell, in Mobeetie this week. Miss Bonnie spent the past week-end in the home of her parents, Mr. and Mrs. W. A. Cogdell, of Crowell, and was accompanied to her home by her sister.

Ivanhoe, 5 long burner oil range for only \$52.50 (old Perfection with modern frame.)—W. R. Womack.

Mr. and Mrs. S. R. Swindell and children of Altus, Okla.; Mrs. W. D. Boynton and children of Los Angeles, Calif.; and Mr. and Mrs. L. P. Glover and children of Foard City spent Wednesday night of last week in the home of their father and grandfather, B. T. Meason.

Texas Special cotton seed, \$1.00 per bushel, sacked.—M. S. Henry & Co.

Mrs. O. S. Easley of Lubbock, who was reared in Crowell and known to pioneer residents as Miss Maggie Weathersby, step-daughter of the late Dave Boren, was here for a short visit Saturday morning. She was accompanied by her daughter, Mrs. O. C. Todd, of Wichita Falls, and was en route to that city for a visit with Mrs. Todd.

Perfection oil ranges, regular or newest "Table Top" with sliding-removable oven burners, \$106.50. I will trade for your old stove. Can be financed \$5.22 per month.—W. R. Womack.

Mr. and Mrs. Grover Cole, Mr. and Mrs. A. Y. Beverly and Joe Wallace Beverly went to Vernon Wednesday night to attend the graduating exercises of Vernon High School Senior class of which Joe Couch Jr. was a member. Joe is a nephew of Mr. Cole and the son of Mr. and Mrs. Joe Couch, former Crowell residents.

Mr. and Mrs. Allen Cogdell of Paducah, who have been visiting in the home of Mr. and Mrs. W. A. Cogdell in Crowell for the past week, left Saturday for Shamrock where Mr. Cogdell will participate in a golf tournament. Mrs. Cogdell will visit in the home of Miss Bonnie Cogdell in Mobeetie this week.

Hypoid Lubrication

LUBRICATING hypoid gears is one of the most difficult problems which the oil industry has ever had to solve. The oil industry has solved it—and is now producing a product which meets with general approval among motor manufacturers.

BUT—these highly specialized hypoid gear lubricants require careful handling—absolute protection from contamination, adulteration or substitution. Oil companies and compounders are therefore packaging their product in refinery sealed tin cans.

Dispensing Hypoid lubricants with standard grease equipment would not only mean an enormous cost, it would also expose the product to all sorts of contamination and possible substitution—resulting in endless claims for damaged gears and lost trade.

To insure safe, economical, dependable dispensing of hypoid gear lubricants from refinery sealed tin cans, we have purchased a dispenser for this purpose.

CHURCHES

East Side Church of Christ
Bro. Roberts of Forestburg will preach at the East Side Church of Christ at the morning services at 11 o'clock and the evening services at 8 o'clock Sunday in the absence of Bro. E. L. Garner. Bible classes at 10 o'clock Sunday morning.

BAPTIST TRAINING UNION

The Baptist Training Union of the First Baptist Church of Crowell will meet at 7 o'clock Sunday afternoon.

There is a union for every age.
Margaret Curtis, Director.

Church of Christ
Elder C. M. Walkup of Gould, Okla., will preach Sunday at the Church of Christ at both morning and evening services at 11 a. m. and 8 p. m.

Christian Science Church
Sunday School at 10 a. m.
Sunday services at 11 a. m.
Wednesday evening services at 8 o'clock.

The public is cordially invited. Sunday, May 29, 1938. Subject: "Ancient and Modern Necromancy, Alas Mesmerism and Typnotism, Denounced."

Christian Science Services
"Ancient and Modern Necromancy, Alas Mesmerism and Hypnotism, Denounced" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, May 29.

The Golden Text is: "Take heed that no man deceive you." (Matthew 24:4).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Put on the whole armour of God, that ye may be able to stand against the wiles of the devil" (Ephesians 6:11).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Never fear the mental malpractitioner, the mental assassin, who, in attempting to rule mankind, tramples upon the divine Principle of metaphysics, for God is the only power" (page 419).

THOUGHTS OF SERIOUS MOMENTS

Man's inhumanity to man makes countless thousands mourn.—Robert Burns.

On their own merits modest men are dumb.—George Colman, the younger.

Our doubts are traitors, and make us lose the good we oft might win by fearing to attempt.—Shakespeare.

Heaven from all creatures hides the book of fate, all but the page prescribed, their present state.—Pope.

A man used to vicissitudes is not easily deceived.—Samuel Johnson.

They that give up essential liberty to obtain a little temporary safety deserve neither liberty nor safety.—Benjamin Franklin.

HOUSEHOLD HINTS

Chocolate Ice Cream: 3 cups milk—heat, 3 tablespoons cocoa, 1 cup sugar, salt, 2 tablespoons flour sifted. Mix together. Put dry ingredients in hot milk, cook until thick. Chill. Add one cup of whipped cream and freeze. Makes one quart.

Sprinkle a little lemon juice over chops before broiling. Gives better flavor.

When clothes are sent to the laundry they are usually paid for by weight. Money can be saved if the housewife makes certain all articles are dry before they are sent out.

Nearly Half of World Sales

American business spends more money for advertising than is spent for the same purpose in all the remainder of the world. The result is that, while American people represent only one-seventh of the world's population, their purchases represent 47 per cent of the world sales.

GAMBLEVILLE (By Opal Garrett)

Mr. and Mrs. Guy Morgan of Los Angeles, Calif., moved to his farm in this community last week.

Miss Opal Garrett spent the week-end with Miss Juanita Johnson of Crowell.

A big rain fell in this community this week. The hail damaged the wheat considerably.

Mrs. Frank Gamble spent Wednesday evening with Mrs. W. A. Johnson of Thalia.

Sim Gamble is taking medical treatment at the Quannah Hospital.

Mr. and Mrs. Willie Garrett of Margaret spent Monday with Mr. and Mrs. Frank Gamble.

Several men in this community have been busy repairing their combines.

Miss Wanda Gamble spent the week-end with Mr. and Mrs. Willie Garrett of Margaret. She attended church services at Margaret Saturday night.

Mr. and Mrs. Clarence Garrett of Crowell spent Monday night with Mr. and Mrs. J. A. Garrett and family.

Joe Gamble returned from Fort Worth Sunday. He had been visiting Mr. and Mrs. J. B. Porter.

J. A. Garrett and sons, Willie, Sidney and Clarence, went fishing at Lake Kemp Tuesday.

Several from here attended the commencement exercises at the Crowell High School auditorium Friday night.

There will be a May Pole party at the school house Friday evening at 7 o'clock. Everyone is invited to come.

E. W. Kidd of Crowell visited school here Tuesday.

Miss Bernice Coffey of Crowell spent Wednesday night in the home of Mr. and Mrs. O. A. Solomon and family.

Mrs. C. W. Carroll returned Wednesday from the Quannah hospital where she had been taking medical treatment.

Miss Mildred Solis visited Miss Alice Bowley at Wichita Falls Saturday. She then went to Fort Worth to visit relatives.

Two Minute Sermon (By Thomas Hastwell)

The Christ of the Human Heart: Between the two countries of Argentina and Chile, near the summit of the Cumbre pass, in the Andes mountains, stands a great bronze statue of the Christ. The base of the statue was hewn from the rugged granite of the mountain, and the statue itself was cast from solid bronze obtained by melting cannon. The statue was erected in commemoration of the peaceful settlement of a boundary dispute between the two countries of Chile and Argentina and is known as "The Christ of the Andes." Silent and majestic it stands, a constant reminder to the world and the people of both nations, that, in accordance with the teachings of Christ, these two great nations of South America elected to lay aside their differences and live together in peace and in harmony. As the statue towers above the international highway there is nothing in its solid bronze that would influence the men of these two nations to forget their quarrel. Of itself it is impotent to stay a single hostile hand or calm a single hate. Its power lies in the spirit it represents—the spirit of the Christ. So it is with men today who have within their hearts the spirit of Christ. In a world filled with wrong, and greed, and jealousy, and fear, and hatred they are a constant power and influence for good. Even more remarkable than the influence of the Christ of the Andes is the influence of the human heart.

Brief Bits of News From Here and There

Labor pickets have been picketing the Edgewater Beach hotel in Chicago for four years. It is estimated that the picketing has cost the labor organization to date \$30,000.

In Lawrence, Kansas, recently Glenn Cunningham lost to San Roman his first mile run in 22 starts. Strangely enough the defeat occurred in Cunningham's home state, or the state in which he was born and reared.

In one Soviet chess tournament held last winter 900,000 players competed.

It is estimated that there are over 100,000 active chess players in this country. The number of chess clubs has increased from 250 to over 5,000 in the last forty years.

The finest briar wood from which pipes are made comes from the mountains of Albania. The briar roots from which the choicest material is secured are from 200 to 400 years old.

It is estimated that there is something like 250,000 miles of electrified fence in the United States. Stock and animals that receive a shock from an electrified fence will not go near the fence again. An electrified fence does not need to be as sturdy built as the non-electrified type.

The new Jefferson nickel will shortly replace the Buffalo Indian head nickel which has been in circulation its minimum statutory life of 25 years.

The Jefferson nickel to be issued soon bears on one side of it the profile of Thomas Jefferson, the other side his Monticello, Virginia.

May 29—Wisconsin was admitted into the Union, 1848. Americans capture Cantigny, 1918.

In The News 15 Years Ago

The items below were taken in whole or in part from the issue of The Foard County News of May 25, 1923.

33 Graduate from CHS

The commencement exercises of Crowell High School were held Friday night at the high school auditorium with Rev. Albert Fisher delivering the address. Thirty-three seniors, 13 boys and 20 girls, composing the largest graduating class in the history of the school, were seated on the rostrum to receive their diplomas. The salutatory was given by Miss Evelyn Jones. The class poem was read by Miss Virginia Borehardt, and the prophecy spoken by Miss Maye King. The valedictory was delivered by Henry Black.

Following is the class roll: Roy Awrey, Tom Beverly, Henry Black, Roy Buckley, Paul Crews, George Cates, Henry Ferguson, Sam Eise, Glenn Jones, Millard McDowell, Roy Sloan, Garland Shultz, Jack White, Lois Buckley, Mary Billington, Virgie Billington, Annie Lee Cannon, Nathalie Dickerson, Anna Mae Ellis, Dollie Fish, Myrtle Fish, Ruth Grimm, Annie Hardy, Evelyn Jones, Susie Johnson, Jewell Kenner, Beulah Kenner, May King, Beulah Patton, Martha Lou Ray, Lattie Russell, Pearl Saunders, Mollie Belle White.

Foard City School Closes

The Foard City school closed last Friday night with the play, "The Wren." There were two to finish the course in that school, Miss Minnie Belle Barker and Ray Austin.

In McLean Storm

Owen Rader and sister, Miss Myrtle, and Ernest Crosnoe, wife and baby were visiting in the McLean country Monday when the destructive cyclone passed through that country. The home of the family that they were visiting was totally destroyed and the family and visitors saved themselves by going into the storm cellar.

Wins Over Frederick

Crowell High School won two of the three-game series with Frederick here last week, Friday

WHAT WE THINK (By Frank Dixon)

I attended a Chamber of Commerce meeting in my town one evening recently. The program, which lasted over two hours, included about everything that a town could do in the matter of civic betterment and trade promotion.

I thought, as I sat and listened, that if the town ever got half of the program carried out it would easily rate as the outstanding small town in this country.

I felt like getting up and telling the organization that unless they selected one project and centered their attention and effort on it and stayed with it until it was finished that they would come to the end of the year and find that they had accomplished exactly nothing.

It seemed strange to me that a group of business men, each good in his own line of business, would spend a whole evening discussing a group of projects that they must have known could not be completed in any one year.

After all, the thing that the Chamber of Commerce in my town did, was no different than that which is done by similar organizations in most towns. They all scatter their fire and try to cover everything at once.

If any town, regardless how small it is, will select one worthwhile project within its means and resources and behind the project and stay with it until it is put over, it will get the surprise of its life.

It will come to the end of the year with the satisfaction of having actually accomplished something worthwhile.

Not only that, but it will enter next year with a feeling that it is able to accomplish things, and the next year's program will go over easier than the program of the year before.

It sounds simple, and it is simple, but strange as it may appear, not one town in a hundred has grasped the idea of the value of one thing accomplished at a time.

It may be improved sidewalks, a public drinking fountain, a lighted sign at the entrance of town, a park program or any one of the common needs of the average small community.

The main thing is to select one thing, center all energies on it, and stay with it until it is finished. This is the secret and the guarantee of a satisfactory and fruitful community program for any town.

The design was selected from 390 designs submitted. It is the work of Felix Schlag, 46-year-old Chicago sculptor who received \$1,000 for the design. It is said that Schlag received the \$1,000 sooner it might have saved the life of his 28-year-old bride of less than a year who died of pneumonia after 22 weeks illness. Schlag could not afford to send her to a hospital. He worked on his design for the Jefferson nickel during his spare time as he nursed her.

Frederick rallied in the afternoon

Crowell's pitcher, brye, and heavy sluggers to win the first game, 8-4. The high school fame, demonstrated his supreme ability as a pitcher by an unequalled exhibition of moundman art Saturday night, composing the largest pitching class in the history of the school, with only a ton scattered hits.

Frederick rallied in the inning of the first game to win, but the bats of the second game barked loudly in the second inning to give the local team a win. Beverly drew a walk, received a nasty blow on the head in the last few minutes of game and was forced to return to the dugout.

Albert Schooley and L. Whately bought the day from W. L. Huntley this week. Whately has been employed by Mr. Huntley for a number of years and Mr. Schooley is and favorably known to the people of Crowell.

Dodson-Self Wedding

Mr. George D. Self, one of Crowell's most popular young men, was married to Miss Dodson at Chillicothe Tuesday afternoon of last week. Mr. and Mrs. Self arrived in Crowell Tuesday afternoon after a brief honeymoon in Dallas and are living in a new home in the north part of town which had previously been prepared for their reception.

Ross-Lisenby

Clarence Ross of Margaret married April 4 to Miss Bess Lisenby at Matador. The couple are making their home in the old home place of the family near Margaret.

A Girl

A girl was born to Mr. and Mrs. Adolphus Wright Friday of week.

We Wonder

(Taken from a short edition) When the Bible tells us to love our neighbors as we love ourselves, why should wives kick just because the neighbors happen to be just and pretty?

1938 Soil Conservation Program

This is the second series of articles in which the 1938 Soil Conservation program will be explained for farmers. These County agents are released from the Foard County farm and will deal with the points mentioned by the farmers. Agent John Nagy advises all farmers to read and these articles.)

Why Farm Program

question of "units" has come before farmers than any other in the new farm program. Units may be earned in many ways and each unit is worth \$1.50. Units have been earned in terms of soil conservation, but there may be other ways to earn them. Some non-crop pasture land or your crop land or cultivated land. If you do not have pasture land then your units equal to one-third of your acreage. Pasture range program is not in with this. To make the units of units more easily understood, a typical farm will be used.

we will say, has 160 acres of land with 100 acres in pasture and 60 acres in cropland. We will have 20 acres of this pasture land of one animal unit. It is not overgrazed. This pasture then will take three animal units for a year without any additional feed. An animal unit is one cow, one horse, five sheep, two calves, two goats, two calves, two pigs, or the equivalent thereof. The cost of pasture is \$1.50 per acre and he will get 50c per acre which will be in this case \$12.50 plus \$4.20 equals \$16.70.

To get the number of units on this farm get the amount of \$16.70, which will be divided by \$1.50 and you will get 11.13 units. As you can see each unit is worth \$1.50 and if you fail to make it will be denied you.

There are many ways in which you can earn your units but those here are only applicable to this county.

Each of the following practices specified shall be as one unit: 1. Contour listing or furrowing non-crop land.

2. Strip cropping other than the protection of summer fallowed acreage.

3. In Oklahoma and Texas protecting summer-fallowed acreage from wind and water erosion by contour or basin listing, strip cropping, or incorporating small grain stubble and straw into the surface soil.

4. Each four acres of the following shall be counted as one unit: 1. Contour listing or furrowing non-crop land.

2. Strip cropping other than the protection of summer fallowed acreage.

3. In Oklahoma and Texas protecting summer-fallowed acreage from wind and water erosion by contour or basin listing, strip cropping, or incorporating small grain stubble and straw into the surface soil.

4. Each four acres of the following shall be counted as one unit: 1. Contour listing or furrowing non-crop land.

2. Strip cropping other than the protection of summer fallowed acreage.

3. In Oklahoma and Texas protecting summer-fallowed acreage from wind and water erosion by contour or basin listing, strip cropping, or incorporating small grain stubble and straw into the surface soil.

4. Each four acres of the following shall be counted as one unit: 1. Contour listing or furrowing non-crop land.

2. Strip cropping other than the protection of summer fallowed acreage.

3. In Oklahoma and Texas protecting summer-fallowed acreage from wind and water erosion by contour or basin listing, strip cropping, or incorporating small grain stubble and straw into the surface soil.

4. Each four acres of the following shall be counted as one unit: 1. Contour listing or furrowing non-crop land.

2. Strip cropping other than the protection of summer fallowed acreage.

3. In Oklahoma and Texas protecting summer-fallowed acreage from wind and water erosion by contour or basin listing, strip cropping, or incorporating small grain stubble and straw into the surface soil.

4. Each four acres of the following shall be counted as one unit: 1. Contour listing or furrowing non-crop land.

2. Strip cropping other than the protection of summer fallowed acreage.

3. In Oklahoma and Texas protecting summer-fallowed acreage from wind and water erosion by contour or basin listing, strip cropping, or incorporating small grain stubble and straw into the surface soil.

4. Each four acres of the following shall be counted as one unit: 1. Contour listing or furrowing non-crop land.

2. Strip cropping other than the protection of summer fallowed acreage.

3. In Oklahoma and Texas protecting summer-fallowed acreage from wind and water erosion by contour or basin listing, strip cropping, or incorporating small grain stubble and straw into the surface soil.

4. Each four acres of the following shall be counted as one unit: 1. Contour listing or furrowing non-crop land.

2. Strip cropping other than the protection of summer fallowed acreage.

3. In Oklahoma and Texas protecting summer-fallowed acreage from wind and water erosion by contour or basin listing, strip cropping, or incorporating small grain stubble and straw into the surface soil.

Course in Public Health to Start at Texas Tech June 9

Austin. — Announcement was made this week in Austin by Doctor Geo. W. Cox, State Health Officer, of the inclusion in the Texas Tech College curriculum of a public health course in sanitation to be offered this summer from June 9 to August 25.

This public health course is the first ever to be offered by any Texas college or university and is made possible at Texas Tech College in co-operation with the State Department of Health and the League of Texas Municipalities.

The course is designed for water purifiers, sewage plant operators, and sanitarians in the smaller Texas cities who have for some time now demanded Texas public health courses offered within the State by men familiar with Texas problems. For the public health personnel of larger cities, the course will offer an opportunity to broaden their knowledge of public health and its trends.

The public health course will consist of training in plumbing, water works and sewage problems, garbage disposal, rodent control, mosquito control, swimming pool operation, proper handling of milk for distribution, and general sanitation with the inclusion of some field survey work and laboratory exercises.

"We feel that the inclusion of this series of public health courses in the curriculum of Texas Tech College is a step forward in public health work in this State, because it makes accessible to so many more men an opportunity for study of these problems than if they were forced to go out of the State for these courses. We should like to call attention to this series of courses to the smaller cities particularly, so that plumbing inspectors, food and drug inspectors, and sanitary inspectors may be given a chance to attend these courses this summer with resultant bettered operation and maintenance of the municipal health program."

"Whenever we find a farmer who has successfully survived the droughts and low prices which have plagued the country of late years, we usually find that he is 'manufacturing' finished products by running his crude materials through those live, walking machines which cackle, moo or baa about the farm. Several tons of grass, fodder and grain (most of which could not have been sold as raw material) went to market wrapped in steer hides when H. C. Lippe sent two truck loads to Fort Worth and cashed them for \$2,000 a few months ago.

The acreage diverted from cotton under the new farm program will be planted, mostly in feed crops. It will not bring much cash if sold in its raw state. Much of it will be grazed off, saving the labor and expense of harvesting. Much will be harvested and stored, either dry or as silage for later feeding. In the form of meat

or milk these crops may, as they often have done, bring in more dollars per acre in net profit than the same number of acres in cotton.

Farms which are not fenced and cross-fenced a fence, cannot be grazed, but temporary fences may be quickly set up to confine stock on the field to be grazed. The kind of livestock to best utilize the crops, whether grazed or harvested and hand-fed, will of course, be chosen according to the crop itself and the preference of the owner.

whistles in the country; that the dairy cow's synthesis of grass and grain into milk and butterfat is more wonderful and more potent for human good than anything chemists have ever done with coal tar or soy beans.

The new farm program provides both the incentive and the opportunity for many farms to change to a system that will utilize both the land and the manpower better than cotton or other cash-crop farming.

Not an acre of the land diverted from cotton but can be turned to profitable account, by "putting it on legs." We are so accustomed to nature's own "manufacturing machines,"—farm livestock—that we are prone to forget that the cackle of the hen means more in the total than all the factory

units may be earned in many ways and each unit is worth \$1.50. Units have been earned in terms of soil conservation, but there may be other ways to earn them. Every Farm a Factory

By T. C. Richardson, Secretary Texas Breeder-Feeder Ass'n.

Cheap raw products are the basis of all manufacturing. The raw products of the farm do not always have to travel far away to an industrial plant to be manufactured. Farm livestock and poultry are nature's own machines for turning crops into concentrated, finished products, for the use of the human race. The miracles of modern chemistry fill the public eye, but none of them approach the marvelous efficiency of the miracle of life, through which the animal world transforms plant life into meat or eggs or milk or wool, "each after his own kind."

Whenever we find a farmer who has successfully survived the droughts and low prices which have plagued the country of late years, we usually find that he is "manufacturing" finished products by running his crude materials through those live, walking machines which cackle, moo or baa about the farm. Several tons of grass, fodder and grain (most of which could not have been sold as raw material) went to market wrapped in steer hides when H. C. Lippe sent two truck loads to Fort Worth and cashed them for \$2,000 a few months ago.

The acreage diverted from cotton under the new farm program will be planted, mostly in feed crops. It will not bring much cash if sold in its raw state. Much of it will be grazed off, saving the labor and expense of harvesting. Much will be harvested and stored, either dry or as silage for later feeding. In the form of meat

or milk these crops may, as they often have done, bring in more dollars per acre in net profit than the same number of acres in cotton.

Farms which are not fenced and cross-fenced a fence, cannot be grazed, but temporary fences may be quickly set up to confine stock on the field to be grazed. The kind of livestock to best utilize the crops, whether grazed or harvested and hand-fed, will of course, be chosen according to the crop itself and the preference of the owner.

University of Texas Recipient of Letter Written Jan. 21, 1843

Austin. — Congressman Maury Maverick of San Antonio has presented to the University of Texas Library the original of a valuable letter written by his grandfather, Samuel A. Maverick, Texas pioneer and patriot, while he was imprisoned at Perote prison in Mexico.

The letter, dated January 21, 1843, was addressed by Maverick—a Yale University graduate, participant in the Battle of San Jacinto, signer of the Texas Declaration of Independence, and first Texas Congressman from Bexar district—to Jose Maria Bocanegra, Mexican secretary of state and foreign affairs. After detailing that he was one of 55 Texas prisoners imprisoned at Perote and giving particulars of their arrest, Maverick wrote in part:

"Here at Perote, after being locked up twelve hours, on cold stone floors, without sufficient clothing, in chains and misery, we were turned out to a breakfast consisting of a very small cup of hot water of a darkish color and a fragment of bread which weighs three little Mexican ounces. We are then hurried out, with hand barrows and cart, loaded with horse manure and the multiplied filth of this place.

"We are then marched off to the adjacent mountain to pack in loads of stone, a distance of one league,—or to a considerable distance for loads of sand—a labor which the human machine cannot stand on three ounces of bread and the false coffee of Perote.

"It is not the work, but the kind of work, and the work without adequate food, that I would complain of."

"Mr. Tull's Wheat Drill is a Wonderful Invention, but it being the first invented of its kind, no wonder if it be intricate, as indeed it is, and consists of more wheels and other parts than there is really any need of. This I was very sensible of all along, but knew not how to mend it. Therefore I applied myself to the Reverend Mr. Clap, President of Yale College, and desired him for the regard he had for the Public and to me that he would apply his mathematical learning and Mechanical Genius in that affair, which he did to so good Purpose that this new modeled Drill can be made for the fourth part of what Mr. Tull's will cost."

Elements Little Known Of the 87 known elements, 17 or nearly one-fifth, are rare earths, says a report to the American Chemical society. Sixteen of the 17 rare earths have been isolated and their atomic weights determined, yet very little is known about this group of elements.

Chickens—Turkeys Star Sulphurous Compound

Given in water or feed keeps them free of germs and worms that cause disease of blood sucking lice, mites, fleas and bluebugs; in good health and egg production. Eggs that Hatch Strong Baby Chicks. At very small cost. Money back if not satisfied.—Ferguson Bros., Druggists. 51

How to Earn Units

There are many ways in which you can earn your units but those here are only applicable to this county.

Each of the following practices specified shall be as one unit: 1. Contour listing or furrowing non-crop land.

2. Strip cropping other than the protection of summer fallowed acreage.

3. In Oklahoma and Texas protecting summer-fallowed acreage from wind and water erosion by contour or basin listing, strip cropping, or incorporating small grain stubble and straw into the surface soil.

4. Each four acres of the following shall be counted as one unit: 1. Contour listing or furrowing non-crop land.

2. Strip cropping other than the protection of summer fallowed acreage.

3. In Oklahoma and Texas protecting summer-fallowed acreage from wind and water erosion by contour or basin listing, strip cropping, or incorporating small grain stubble and straw into the surface soil.

4. Each four acres of the following shall be counted as one unit: 1. Contour listing or furrowing non-crop land.

2. Strip cropping other than the protection of summer fallowed acreage.

3. In Oklahoma and Texas protecting summer-fallowed acreage from wind and water erosion by contour or basin listing, strip cropping, or incorporating small grain stubble and straw into the surface soil.

4. Each four acres of the following shall be counted as one unit: 1. Contour listing or furrowing non-crop land.

2. Strip cropping other than the protection of summer fallowed acreage.

3. In Oklahoma and Texas protecting summer-fallowed acreage from wind and water erosion by contour or basin listing, strip cropping, or incorporating small grain stubble and straw into the surface soil.

4. Each four acres of the following shall be counted as one unit: 1. Contour listing or furrowing non-crop land.

2. Strip cropping other than the protection of summer fallowed acreage.

3. In Oklahoma and Texas protecting summer-fallowed acreage from wind and water erosion by contour or basin listing, strip cropping, or incorporating small grain stubble and straw into the surface soil.

4. Each four acres of the following shall be counted as one unit: 1. Contour listing or furrowing non-crop land.

2. Strip cropping other than the protection of summer fallowed acreage.

3. In Oklahoma and Texas protecting summer-fallowed acreage from wind and water erosion by contour or basin listing, strip cropping, or incorporating small grain stubble and straw into the surface soil.

4. Each four acres of the following shall be counted as one unit: 1. Contour listing or furrowing non-crop land.

Recent Letter

A recent letter from College Station informs us that no penalty will be made if you sell part or all of the hay that is grown on your soil conserving acreage.

All farmers who received a cotton allotment and who will not plant any cotton in 1938 come to the office and sign a statement to that effect and your general allotment will be raised and in turn your soil conserving acres will be lowered. This contract will not have any effect on your cotton allotment in later years.

Wild Life Preserves With so much ranch land in this county, we shall have pasture teeming with quail, wild turkey, duck, geese, and possibly deer and other wild animals. Dams are built across creeks and ravines in order that stock may have sufficient water throughout the year and at the same time these watering places are just paradises for wild game. But this statement is only surface deep unless we preserve and protect this game.

It is a known fact that in many parts of this state game is rapidly replenishing itself. Unless the farmers and ranchmen co-operate in this matter, all efforts are lost. If you are living in an area or along a creek or river and wish to preserve the game, then, to get satisfactory results all the farmers in this area will have to co-operate. To be classed as a co-operator you will have to buy some signs which can be bought at a small price and these signs are to be placed at the entrances to your pasture. Your pasture will then be protected by a game warden and the responsibility is lifted from your shoulders. Many have already signed to preserve the wild life in this county. If you are interested in such a project, new species of game will be imported.

If you are interested or wish to know more about this, come to the county agent's office and it will be explained more fully.

Wheat Drill a Product of Professor's Ingenuity

Long before the Revolution, Colonial farmers knew about a "wonderful" drilling machine which could be used for planting certain crops. Just how successfully it operated the records do not state, but Eliot, in his "Fifth Essay on Field Husbandry," published in 1754, says:

"Mr. Tull's Wheat Drill is a Wonderful Invention, but it being the first invented of its kind, no wonder if it be intricate, as indeed it is, and consists of more wheels and other parts than there is really any need of. This I was very sensible of all along, but knew not how to mend it. Therefore I applied myself to the Reverend Mr. Clap, President of Yale College, and desired him for the regard he had for the Public and to me that he would apply his mathematical learning and Mechanical Genius in that affair, which he did to so good Purpose that this new modeled Drill can be made for the fourth part of what Mr. Tull's will cost."

Elements Little Known Of the 87 known elements, 17 or nearly one-fifth, are rare earths, says a report to the American Chemical society. Sixteen of the 17 rare earths have been isolated and their atomic weights determined, yet very little is known about this group of elements.

SOCIETY

Mrs. T. B. KLEPPER, Editor
Phone 163J or 43J

Harold Barry Weds Seguin, Texas, Girl

Miss Carrie Gombert became the bride of Harold Barry in a quiet wedding ceremony Wednesday evening, May 11, in Comanche, Okla., with Rev. John V. Ray officiating.

Mrs. Barry is the daughter of Mr. and Mrs. H. A. Gombert of Seguin, Texas. Prior to her marriage she was cashier for a drug store in San Antonio.

Mr. Barry is a son of Mr. and Mrs. A. P. Barry of Wichita Falls, former Crowell residents, and a brother of Mrs. Hartley Easley of Crowell.

For the past several years Mr. Barry has been engaged in playing polo. He was a member of the Menmouth County Country Club team of Eatontown, N. Y., which won the Northeastern Intra-Circuit polo championship last summer at Brunt Mills. He was also a member of the Austin Polo Club which won the Southwest Intro-Circuit at San Antonio this past winter.

Mr. and Mrs. Barry are at home at 714 North 10th Street, Duncan, Okla., where Mr. Barry is playing polo during the present season.

JUNIOR ADELPHIAN CLUB

The Alpha Junior Adelpian Club met on Wednesday, May 4, with Helen Harwell as hostess. Thelma Jo Ross was leader of the afternoon's program. Margaret Long, delegate from the club to the Seventh District convention of Women's Federated Clubs recently held at Childress, gave a report of that meeting.

Mrs. George Self gave an interesting and instructive talk on "Know Your Federation." The club was given a drill on parliamentary law by Miss Frankie Kirkpatrick.

A delicious refreshment plate was served to the club members. The club met Saturday, May 21, with Margaret Woods as hostess. Mary Frances Bruce gave a lovely selection "Dreams."

"Friendship" was given by Wilma Lovelady. Marie Wells, the leader for the afternoon, gave "Ambitions." These parts were taken from "Beautiful Girlhood."

A lively refreshment plate was served and the club adjourned for the summer.

Will Be Presented in Recital May 30

The three children of Mr. and Mrs. Ed Lehman of the Rayland community will be presented in a musical recital by their teacher, Mrs. J. J. Cockerell of Vernon, Monday evening, May 30. The Methodist Church at Vernon at 8:15 o'clock.

CROWELL GARDEN CLUB

The May meeting of the Crowell Garden Club was held at the Christian Church on Friday, May 13, with the president, Mrs. H. K. Edwards, in charge.

Mrs. T. V. Rascoe, reporting for the finance committee, told that 175 feet of garden hose had been donated to the Garden Club by the Farmers' Co-operative Gin for the City Park.

The club has purchased a locked box for the hose and plans have been made for the watering of the trees and shrubbery throughout dry weather.

Chairmen of committees to attend to this are, Mrs. H. K. Edwards, Mrs. L. A. Andrews, Mrs. H. Schindler and Mrs. O. R. Boman.

The program was presented by Mrs. C. C. Ribble. She told of the advantages of peat moss and where it can be secured.

Mrs. L. A. Andrews gave a talk on "Ground Covers" and reminded that they both protect the ground and improve the soil when used.

At the close of the meeting, the club members present made a garden pilgrimage to a number of "yards" throughout town.

GARDEN CLUB MEETS FRIDAY

The last meeting of the Crowell Garden Club for the year 1937-38 will be held Friday (tomorrow) in the home of Mrs. R. L. Kincaid. This meeting will be in the form of a covered dish luncheon and each member is urged to be present.

A short program will be rendered and games will follow.

Bus Drivers Hosts To School Children At Barbecue Friday

The drivers of six buses which brought school children from the rural districts of Foard County to the Crowell schools during the 1937-38 term were hosts to the rural children, their parents, and other guests at a barbecue given at noon Friday, May 20, in the roadside park south of Crowell. Over 200 school children and other guests were present.

The barbecue was prepared by F. C. Borchardt, Tom Bursay, and C. E. Gafford. The meat was cooked in the barbecue pit at the Self Grain Co. elevator in Crowell and taken to the park Friday morning. Over 150 pounds of mutton and beef were barbecued. F. C. Borchardt donated 52 pounds of dressed mutton and the remainder was beef which was furnished by the bus drivers.

Cakes and pies were furnished by the women of the communities represented.

Following the serving of the barbecue short talks were made by I. T. Graves, C. P. Sandifer, Rev. W. B. Fitzgerald and Mrs. I. T. Graves. C. E. Gafford was in charge of the program.

The hosts were W. W. Boyd, Ernest Spears, Roy Fox, Dal Jones, W. C. Golden and Horace Starnes.

Foard Women Attend Denton Short Course

Several Home Demonstration Club ladies of Foard County attended the annual one-day short course held at the Texas State College for Women in Denton Friday, May 20.

This course was made possible by the State College for Women and the Texas Agriculture Experiment Station in Denton in co-operation with the Extension Service of the A. & M. College of Texas.

The Foard County ladies attended the all-day program which consisted of lectures by outstanding people of Texas in this line of work; a motion picture of Texas wild flowers, shown in natural color; inspection of the experiment station; a picnic on the college campus; and an assembly program.

Those attending from Foard County were: Mrs. Carl Cox, Mrs. P. H. Howell, Mrs. Carvel Thompson, Miss Bernita Fish, Mrs. Marion Crowell, and Miss Myrna Holman, Foard County Home Demonstration agent.

Mrs. Graves' Pupils Presented in Recital

The expression pupils of Mrs. I. T. Graves were presented in recital Wednesday evening of last week at the high school auditorium at 8 o'clock to a large number of parents and friends. Mrs. Graves was assisted by Mrs. Arnold Rucker.

The following list of pupils took part in the program: Patsy Dodde, Alva Thomas, H. A. White, Betty Jean Seale, C. D. Campbell, Doris Campbell, Billie Billington, Larue Graves, Ruth Barker, Sharon Sue Haney, Betty Brown, Camille Graves, A. Y. Olds and Joe Harris Seales.

The projects of the following boys were visited: Carl Connell, Reid Thompson, Leroy and Vernon Gibson, Ed Gafford, Bob Middlebrook, Tommie Haseloff, Frank Dunn, J. S. Owens, James Welch.

The group visited Joe Orr's farm near Margaret and inspected a trench silo from which silage was being used.

FFA Boys Make Inspection Tour

A tour of the various FFA projects in the county was made by a group of Crowell FFA boys and their adviser, Walker P. Todd, last Thursday afternoon. The group visited the home of several members of the local chapter and was shown what each boy had done there during the year and were told what his plans for the future were.

A prize was offered to the four boys who had made the most improvements at his home and for the interest shown in the work. The prizes were won by James Welch, Kenneth Halbert, Bob Middlebrook and Bill Ownbey.

The projects of the following boys were visited: Carl Connell, Reid Thompson, Leroy and Vernon Gibson, Ed Gafford, Bob Middlebrook, Tommie Haseloff, Frank Dunn, J. S. Owens, James Welch.

The group visited Joe Orr's farm near Margaret and inspected a trench silo from which silage was being used.

School Closes—

(Continued from Page One)

son Starnes, Fern Pearce, Jean Opal Borchardt, Reba Trammell, Billie Brown—honorable mention for second highest one year average and also a year average for girls; Lynn Thompson McKown, Dorothy Erwin, William Simmons, Juanita Brown, Vernon Gibson, Elmer Nichols—honorable mention for highest average for boys and a scholarship to any school in Texas; Virginia Mae Coffey, Ann Mabe, James Everett Long, Marjorie Spencer, Garland Rasberry, H. K. Edwards Jr.—honorable mention for second highest 4 year average for boys; James Erwin, Ora Mae, Owens, Mable Hall, Jean Camille Graves—a certificate given by the state for the highest 3 year average in Home-Making department, and Franklin Evans.

Grammar School Graduation Graduation exercises for seventh grade pupils were held in the High School auditorium last Thursday evening, at which time thirty boys and girls received grammar school diplomas.

The procession was played by Miss Anne Lee Long, who also accompanied two musical numbers, "Follow the Gleam," sung by the entire class, and "Dancing Leaves," by a quartet composed of Virginia Adams, Virginia Thomas, Willford Ellis and Richard Carroll.

Rev. E. L. Yeats, pastor of the local Methodist Church, addressed the graduates, giving them many things to remember, and giving it in a way which held their undivided attention.

I. T. Graves presented diplomas to the following graduates: Riley Adams, Ruby Adams, Virginia Adams, June Billington, Rita Jo Bruce, Julie Halencak, Isabelle Lankford, Jean Orr, Clonita Russell, Margaret Clair Shirley, Virginia Thomas, Lois Ueslton, Yvonne Weaver, Richard Carroll, George Cates, Jimmy Claude Cates, Billy Diggs, Willford Ellis, Rudel Halencak, Harry Harwell, Glendon Hays, J. T. Hughton, John Clark Long, Leland McKown, Charles Nelson, Billy Nichols, Alton Roark, Truman Taylor, Charlie Thompson and Donald Ward.

The program for the weekly meeting of the Crowell Rotary Club Wednesday at noon at O'Connell's Lunch Room was in charge of Claude Callaway, Rev. Finis A. Crutchfield, who is doing the preaching for the Methodist revival, gave a splendid talk on "Understanding the other fellow and consideration for the load he carries in performing the duties of his profession."

Visitors at this meeting were Rev. Crutchfield and Rev. E. A. Irvine.

Plans for the meeting, June 6, to celebrate the 10th anniversary of the organization of the Crowell Club, were discussed. Invitations have been mailed to former out-of-town members of the club.

ROTARY CLUB

Flood Control—

(Continued from Page One)

group headed by W. H. Wright of Vernon, secretary of the flood control board, Roy Gough of Vernon, with the Soil Conservation office, and M. S. Henry, director of the flood control association of Crowell.

The advantages to the area by control of floods, of the benefit of irrigation systems which could be built on the project, and the possibility of using the project as a source of city water supply were pointed out.

A previous examination of the proposal by army engineers resulted in an unfavorable report. Congress, however, has authorized another survey.

Members of the Peace River Flood Control Board, which is backing the Crowell dam project, are E. R. Brown of Electra, president; Harry Koch of Quanah, J. H. Allison of Wichita Falls, Dr. Hines Clark of Crowell, M. S. Henry of Crowell, C. E. Carlock of Chillicothe, R. H. Nichols of Vernon, W. H. Wright of Vernon and W. O. Jones of Paducah.

Mrs. Walter L. Waechter of Austin arrived here Saturday to visit her parents, Mr. and Mrs. C. B. Graham.

Silkworms Hearty Eaters The silkworm eats its weight in foliage daily for the first few days of its life. Silkworms molt four times while growing. When six weeks old and with nothing further to obtain from life, they start spinning their cocoons.

Glendon and Sam Russell, Kenneth Halbert, Bill Ownbey and James Welch.

The group visited Joe Orr's farm near Margaret and inspected a trench silo from which silage was being used.

Crowell Pupils Awarded Honors for Handwriting

Five students in the Crowell Grammar school received honorable mention in the annual nation-wide writing contest conducted by "The Good Writers' Club of America." They were presented with certificates as an award of merit in recognition of fine achievement in the study of handwriting. The awards were presented to the students by Mrs. E. C. King, Crowell penmanship teacher, who received them from national headquarters.

The five Crowell students receiving national recognition in penmanship were Jean Orr, Dimple Carter, Ray Davis, Mary Ellen Ford and Wanda Ketchersid.

The following pupils in the Crowell school were presented with the Graves' Penmanship Awards: Sandra Jo Bell, Helen Jo Callaway, Jane Roark, Naomi Teal, Billie Jean Hale, Betty Marie Johnson, Jean Thompson, Wanda Ketchersid, Mary Jo Brock, Clifford White, Joyzelle Tysinger, Yvonne McLain, Evelyn Jean Seales, Lois Evelyn Flesher, Charles Diggs, June Billington, Rita Jo Bruce, Isabelle Lankford, Riley Adams, Ruby Adams, Jean Orr, Truman Taylor, Virginia Thomas, Clonita Russell, Margaret Clair Shirley, Julie Halencak, John Clark Long, Glendon Hays, and Richard Carroll.

Activities of Foard County H. D. Women (Myrna Holman, Agent)

Gardens

Gardens are possible in spite of April snow blizzards, rain and hail, according to Evelyn Crosnoe, member of the Foard City 4-H Club.

Evelyn and her mother prepared and planted two frame gardens, one of them at the side of the house. These are covered with wire to protect them from chickens and can be easily covered with canvas to prevent damage by extreme cold or heat.

Beets, carrots, and other favorite vegetables of the family are thriving in these gardens. The plots are small and the products planted close together. As soon as one portion is used another product may be planted in its place, thus keeping a year-round garden.

Remodeling The entire house and outbuildings are being remodeled at the home of Mrs. Egbert Fish. Misses Rosalie and Bernita Fish, kitchen demonstrators for the Vivian Home Demonstration Club, are "bossing" the job and the men of the family are doing the work.

A new screened front porch has been built recently, the living and bed room papered, and the woodwork refinished. The entire kitchen is being re-done with built-in cabinet, running water, and all other conveniences.

On the outside, a new rock cellar has been completed and a rock poultry house is under construction.

Canning Season The canning season is "just around the corner" and pressure cookers are going to be used so much. We need to realize the importance of checking pressure gauges with a maximum. So many have been used over a period of years that like any other piece of machinery they need to be checked.

The checking process is very simple, the thermometer is placed in the cooker, the pressure run up to the desired point, and then when the cooker is cool the thermometer is read just as a fever thermometer.

If the gauge is off only one or two degrees, it may be corrected and used, otherwise a new gauge is advisable.

A master thermometer and her assistance in using may be found at the home agent's office.

Pineapple is one of the most delicious and popular fruits. We buy it canned and enjoy it, but had you ever stopped to think that you might have the pleasure of canning it yourself?

At times during the summer pineapple may be bought in this country at
