Construction of Office Building Is Started Here

New Structure Being Built for Crowell Abstract Company

Construction of a new 5-room brick office building was started last Monday for the Roberts-Beverly Abstract Company a few feet east of the present office. The building will be 31 feet wide and 42 feet long, and will house three 12x12-foot office rooms, one 12x18-foot office room, and the fifth room will be 16 1/2 x 24 feet. It will also contain a 6x10 foot storage room, and a 6x6 foot wash room. The outside walls will be of brick, covered with stucco, and the inside walls will be plastered. The floors throughout the building will be of concrete. The roof will be metal. Work on this practically fire-proof office building is being done by N. Nelson, Seymour contractor.

Depth of 1,980 Feet Reached on Wildcat Oil Test Near City

The 1,980-foot level on the wildcat test, E. M. Gamble No. 1, one mile northeast of Crowell, was passed Wednesday morning, according to information received here. The test is contracted for a depth of 2,500 feet, and is being drilled by the Thomson Oil and Gas Co. of Wichita Falls.

Press Association Holds Convention at Mineral Wells

T. B. Klepper attended the city-first convention of the Texas Press Association in Mineral Wells Friday and Saturday. Charles K. Devall of the Kilbuck Herald was elected president of the association in the opening session and succeeds Walter Buckner of San Marcos. Mrs. Warren of the Panhandle Herald was elected vice president and Sam Harben of Richardson, secretary-treasurer. New members of the executive board are George Peeler, Taylor, who will represent the dailies, and Mrs. Ross Woodall, Huntsville, and Luther Watson, Sweetwater, who will represent the weeklies.

Award winners were announced by Sam Harben and the Tom Barber Cup for the best daily in news of 25,000 or under went to the Lufkin Daily News which also received special mention for its Southland Paper Mills edition. The Ochiltree County Herald was named the Dallas Morning News cup for being the best all-around weekly in Texas. The W. N. Beard award of \$75 was divided into sections. The Big Spring News won first place in being the paper with the best set ads, thirty inches and over; second place in this division went to the Huntsville Item, and third place to the Mission Times. The Uvalde Weekly News won first place for the best set ads, thirty inches and under; second place was won by the Madisonville Meteor, and third place went to the Ochiltree County Herald.

Visitors Barred

Every armory in New York state has been put under military guard. The buildings have been closed to the public to prevent possible sabotage.

Middies March in June-Week Fete

Middies parade during the presentation of colors ceremony, one of the features of June week at the United States Naval academy, Annapolis, Md. Helen Barbara Engh, 19, Sweet Briar college sophomore, was selected color girl for the ceremony.

\$200 Raised in Red Cross Drive Here Last Week

Contributions Still Needed for Quota Set of Foard Chapter

Two hundred dollars for the relief of war refugees in war-torn Europe were raised by the Foard County Red Cross Chapter's drive in this county last week, and a check for that amount has already been forwarded to the national Red Cross headquarters, according to a statement made by George Self, Foard County Red Cross chairman. Two hundred and forty dollars had been set as the quota for the local chapter and there are still small donations being received and it is believed that the quota will be reached. If you have not already made your donation in this drive, or want to make additional donations, you are urged to see your local workers or Mr. Self. The largest donation of the drive was made by the Gordon J. Ford post of the American Legion which was \$25. The donations ranged from pennies given by children. The Girl Scouts of Crowell aided in the Red Cross drive and are to be highly commended for their excellent work. Members of the organization raised \$44 for the chapter.

Four Men Arrested After Fight Here

Four Crowell men were arrested here last Saturday morning following a fight at a local cafe. Three of the men pled guilty to charges of drunkenness and were fined while a felony complaint charging assault with intent to murder were filed against the fourth. One of the men was painfully cut on the hand when he warded off a knife thrust when he was allegedly attacked during the fight. Two truck drivers were also fined in justice court last week. One was charged with operating a car without brakes and the second was fined for not having a chauffeur's license.

Candidate Speaking Will Be Held at Thalia Sat. Night

Candidates will speak at Thalia Saturday night beginning at 8 o'clock, according to information furnished The News. Ice cream and cake will be sold and a quilt will be auctioned off. People from neighboring communities are invited to attend. NEW CAR REGISTRATIONS The following new motor vehicles were registered in the office of the tax assessor-collector during the past week: Boots William, Chevrolet pickup. Mrs. Estelle Bell, Plymouth sedan. F. W. Jesse, Chevrolet sedan. Nona Olds, Plymouth sedan. A. W. Barker, Ford sedan. I. T. Graves, Plymouth sedan.

Entering Fiftieth Year

With this issue of The Foard County News, this paper enters upon its fiftieth year of continuous publication and, although it has been printed in many different locations in the business section of Crowell, it is now located on the same spot where it was started by J. L. Harper forty-nine years ago. The plant was moved to its present location in July, 1928, by Kimsey & Klepper, owners and publishers. Mr. Kimsey sold his interest Jan. 1, 1929, to T. B. Klepper, who has owned and operated the paper since that time.

The News, during its forty-nine years of existence, has weathered many periods of hard times, along with other businesses of the town, and has also enjoyed prosperous times that have enabled its owners through the years to build up one of the best weekly newspaper plants in West Texas and today it is the oldest business institution in Crowell.

Today we have many things to be thankful for, paramount among them being the warm friendships that exist between the publisher and his readers and advertisers, and other patrons and wellwishers interested in the successful publication of a weekly newspaper for the benefit of Crowell and Foard County.

It has been said that a town is judged by its newspaper. That being true, it is our earnest desire to publish a weekly newspaper that would be a credit to a town much larger than Crowell.

Although we often meet with discouragement, we are grateful and happy for a small place to serve and be busy in assisting in building up a better community.

The first of these two offices is that of the United States Senator in which Guy B. Fisher of San Augustine County, A. P. Belsler of Erath County, and Tom Connally of Falls County, have entered. In the race for this second Congressional office, Charles H. Ripley of Wichita County, Ed Gossett of Wichita County, and W. D. McFarlane of Young County are seeking the office of Congressman. (Continued on Last Page)

OVER ONE-HALF OF FOARD'S 1940 WHEAT CROP HARVESTED; ABOUT 330,000 BUSHEL HAVE BEEN RECEIVED BY COUNTY ELEVATORS

Crowell Woman Injured in Car Collision Wed.

Mrs. R. H. Cooper Sr., was painfully injured when the automobile which she and Floyd Ferguson were driving collided at the Gambelville school house road intersection about seven miles northeast of Crowell Wednesday afternoon.

Mr. Ferguson received minor injuries and was able to summon aid and help bring Mrs. Cooper to a local physician's office for medical treatment.

Mrs. Cooper sustained a fractured elbow and deep laceration on her left arm, painful bruises on the left side of her body and other minor bruises and cuts.

The car driven by Mr. Ferguson was knocked from the road into a bar ditch and the machine in which Mrs. Cooper was riding was overturned. Both automobiles were badly damaged.

CRITICALLY ILL

The condition of J. F. Russell, pioneer resident of the Margaret community, who has been ill for the past three weeks, remains unchanged. Mr. Russell has been seriously ill since last Friday.

France Refuses Harsh German Treaty; Government Will Move to Africa to Carry On Fight With British Ally

From Bordeaux came the news this morning that Germany's major peace terms are unacceptable to the French and that government is moving to Africa to carry on the fight. During the past two days, it has been reported that great numbers of French aircraft have been flying toward Africa. It is believed that the French have been moving all possible equipment and men to their African possessions and that the government will follow if Hitler did not offer an "honorable peace," and now it is thought that the French are ready to leave France to the Germans and carry on activities from another front.

The battle of England, which Hitler has declared his army will win in six weeks, has started, but the far all of the fighting has been through the air, with England and Germany striking at each other with aerial bombing attacks.

Food Fight Win War

A British spokesman has predicted that a famine will spread across Europe within four months and claimed that Germany will "address food and peace appeals" to the United States and the Vatican after November because of the British blockade. Germany's food situation, the spokesman declared, is about what it was in March, 1918.

Paris Falls

Last Wednesday, as the French and Hitler forces were preparing for the "Battle of Paris," the French government abandoned its plans to fight from street to street and declared Paris an "open city" to save it from further damage from German bombs. This week it was announced that every French city with a population of more than 20,000 had been declared an "open city" to save them from being destroyed by enemy bombardments.

Thursday, the Nazi troops beat the French forces back and marched into Paris. Continuing their drive, the Germans have driven the French army back until now Germany claims it has taken half of France.

On Saturday, the Germans took Verdun, shrine of World War valor and famous battleground of World War No. 1, in their drive southward in which they have gone behind the famous Maginot Line and forced France to abandon practically all of this frontier fortification.

Government Changes

Sunday there came a series of fast-breaking events which threw the situation into a most hectic state for the Allies. First, the government of Paul Reynaud, the French premier who swore he

Dick Todd Signs With Washington Redskins For 1940 Grid Season

Dick Todd signed and mailed his contract with the Washington Redskins football team here Tuesday. This will be his second season with the Redskins since leaving Texas A. & M. College.

The amount called for in the contract was not revealed but it is understood that Todd received an increase over last year. He plans to leave Crowell in August for Spokane, Washington, when the Redskins will start their fall training.

IN CALIFORNIA

Mr. and Mrs. W. H. Moyer have leased their produce house to Robt. T. Lane of Electra and have gone to Compton, Calif., for an extended visit with their daughter, Mrs. Wilburn Johnson, and family. Mr. and Mrs. Lane have moved to Crowell and are in charge of the business. Mr. and Mrs. Moyer will probably be gone for about six months.

TO ATTEND FUNERAL

Merl Kincaid and Mrs. Dale Grimes left this morning for Dallas to attend the funeral of their uncle, Arthur P. Stephens, which will be held from the East Dallas Christian Church this afternoon. Mr. Stephens, brother of Mrs. R. L. Kincaid of Crowell, died in a Dallas hospital Tuesday night.

Over one-half of Foard County's estimated crop for 1940 of slightly more than 600,000 bushels of wheat had been harvested and delivered to the elevators of the county Wednesday morning, according to elevator reports which showed that 333,541 bushels of new wheat had been received up to that time. Reports last Wednesday gave a total of approximately 165,000 bushels of wheat from the 1940 crop had been harvested.

The elevator reports show that 256,737 bushels of wheat have been delivered to Crowell; 71,166 bushels to Foard City; and 5,638 bushels to Margaret.

Rains Still Come

The harvest in Foard County is being prolonged by rains which have come every few days since the season opened on May 30 and it now appears that it will take a greater number of days to gather the crop than was first thought.

Wheat fields were wet by scattered showers last Thursday which slowed the flow of grain trucks to the elevators until Friday, and Saturday night 70-inch rain was received and again harvesting operations were stopped. Combines started in full swing again Tuesday and Wednesday night it was reported from the elevators that rain had fallen in various sections of the county, seemingly heavier in the southern portion.

When harvest first started farmers were cautioned about cutting their grain while too wet or green, but since then, due to the frequent rains, some damp wheat has been taken by the elevators, while a greater portion of it has been refused.

Many farmers are exceedingly anxious to get their grain cut as soon as possible because in many fields of the county weeds are growing so fast that weeds that are cut with the wheat lowers the grade of the grain. It was said that in a few fields of the county, the weeds are offering a serious problem. If favorable weather conditions had prevailed since the opening of harvest, the grain would have been gathered before the weeds became large enough to do any damage.

Tests Still High

In spite of the fact that a portion of the wheat is not testing 60 pounds or more because of moisture and weeds, the greater part of the grain being delivered is still being graded as No. 1.

No Storm Damage

As yet, there has been no damage to the wheat from the elements, regardless of the fact that the grain has been forced to stand in the fields longer than in previous years. There have been threats of wind storms and some hail, but so far Foard County has luckily escaped, and should the farmers receive sunny, favorable weather during the next two weeks, all of the wheat will be taken from the fields.

BIRTH

To Mr. and Mrs. John E. Van Winkle, a boy, Jimmie Ray, June 18.

Interned by Nazis

F. G. Woodhouse, British humorist, and his wife (shown) were giving a cocktail party in Le Touquet, French channel coast town, when the Germans came along. He was interned, but his wife was allowed to leave.

Two visitors, Mrs. Owens and Mrs. Foy McRay, were present. The club will meet June 25 at 3 p. m. in the home of Mrs. Herman Gloyna.

Mr. and Mrs. Roy Ayers visited Mr. and Mrs. W. F. Havaty of Thalia Sunday.

Mr. and Mrs. J. A. Blevins and Miss Rudell Blevins of Thalia visited Mr. and Mrs. Claude Carr Saturday night.

According to a survey recently completed by the Brookings Institution, an independent fact finding organization, the revival of new capital investment in American industry depends largely upon the removal of "unnecessary impediments" of taxation and regulation and on restoring investor confidence now undermined by governmental deficit spending and lending competition. The institution indicated that with these deterrents removed, \$10,000,000,000 of private money might be absorbed annually for generations in meeting requirements of housing and industrial expansion.

The Ford Motor Company, according to a statement filed with the Massachusetts Commissioner of Corporations and Taxations, made a profit in 1939 of \$16,402,746. In 1938 the company lost \$18,560,459. These figures are exclusive of any dividends that may have been paid the Ford family who are the sole owners of the stock.

Shelterbelt Concentrations

Wichita Falls, June 5.—(Special)—"Concentrations of Shelterbelts are now developing in 32 counties in northwest Texas," stated W. E. Webb, State Director of the Prairie States Forestry Project, recently. Wheeler, Cottle, Hall, Collingsworth, Donley, Wilbarger, Childress and Motley Counties have well over 100 miles of tree belts planted during the past five years. Wheeler County alone has over 350 miles of shelterbelts.

Mr. Webb declared that concentrations of tree belts are important in developing farm, and particularly community, stability; this is accomplished by reducing sand blowing and the effect of burning by the hot summer winds. This is one of the big reasons for concentrating tree planting in the older areas instead of expanding into new areas. The greater the number of shelterbelts in an area, the greater the protection given to the farms.

This year a considerable number of intermediate or narrower three to five row belts were planted to augment the wider ten row multiple use belts. The wider belts are usually planted a half mile apart and the narrower belts are used as fill-in to provide complete protection to the farm and community. Wolf Flat in Motley County, Dunlap in Cottle County, Pakan in Wheeler County are a few areas where maximum protection is becoming possible as a result of shelterbelt concentrations.

Mr. Webb also stated that applications for shelterbelts to be planted next winter are being accepted by all county agents as well as at Shelterbelt offices.

A plan has been worked out whereby airplane bodies may be moulded from ply wood and plastics. Under such method of manufacture it is stated that a plane can be turned out in two hours under mass production methods. Two companies in the United States, the Timm Aircraft Corporation of Van Nuys, Calif., and the Bennett Aircraft Corporation of Fort Worth, Texas, are equipped with machinery necessary for this type of production.

Your Horoscope

June 16, 17, 18.—Doubt and melancholy are forceful factors in your inner makeup. A dejected spirit makes it difficult for your friends to be of assistance to you. You have a happy reserved disposition with a love of ease. You are attracted to the finer arts as music, poetry, etc.

June 19, 20.—A vein of sarcasm rather offsets a sincere, kind and beneficial nature. This is

softened by a witticism and refinement of good nature. You may be classed as a free thinker. You are a keen designer in artistic home decorations and are skilled in fine needlework.

June 21, 22.—You are quick to feel neglect of any kind. You do many acts of kindness and generosity which are unknown to others. You are given to good learning and have an accented imagination.

QUESTIONS AND ANSWERS

1. Of what European country is Leopold III king?
2. Which of the belligerents in the European war operates the Stukas Bomber airplane?
3. For what is Gar Wood known in the sporting news?
4. Which birthday was recently celebrated by the quintuplets?
5. How many members did President Roosevelt recently appoint to the National Defense Commission?
6. What position is held by Edward R. Stettinius, who was recently appointed by President Roosevelt as one of the members of the National Defense Commission?
7. What position is held by William S. Knudsen, who was recently appointed by President Roosevelt to a place on the National Defense Commission?
8. What industrialist recently announced that his plant under own supervision and without aid by the government would produce 1,000 airplanes a day?
9. For what is Wendell L. Kies known in the news?
10. What position in the Bush war setup is held by Al Duff Cooper?

(Answers on page 3).

Notice To Voters of Foard County

I wish to take this opportunity to announce my withdrawal from the race for the office of Sheriff and Tax Assessor-Collector of Foard County.

I also wish to thank the people of the county for support and encouragement given me during the past few weeks and to express my appreciation. I have enjoyed the contacts which I have made with the voters of the county before withdrawing from the race.

Mr. and Mrs. Buck Spivey were in Knox City last Tuesday.

A birthday party will be given next Wednesday in honor of Mrs. W. R. Myers in the home of her daughter, Mrs. Eron Boyken.

Mrs. E. W. Eubank, who has been visiting in the home of Mr. and Mrs. J. C. Eubank, returned to Wichita Falls last Thursday.

Lewis Eubank was home from Lubbock last Sunday where he has been attending Texas Tech. He received his B. A. degree at the close of last term. He is also attending the summer term there and is taking a health course.

Connally-Smith Bill Aimed Against Aliens Sped Toward Passage

Washington, D. C., June 10.—The Connally-Smith anti-alien bill rapidly sped toward passage by the Senate and House, is meeting with acclaim throughout the United States as a measure expected to aid materially in the control of "fifth column" activities in America.

Offered by Senator Tom Connally of Texas on behalf of the Senate Judiciary Committee, the measure requires deportation of certain classes of aliens and the fingerprinting of aliens seeking to enter the United States.

"In addition," states Senator Connally, "the bill forbids tampering with military or naval forces of the country, or advocating overthrowing or destroying the government by force or violence."

"Aliens subject to deportation include those aiding any other alien to enter the United States in violation of law, any carrying a gun designed to shoot more than one shot without reloading, and those violating the Alien Registration Act," Senator Connally explained.

"No visas are allowed any alien entering the United States who has not been registered and fingerprinted and all those without visa, re-entry permit or registration card shall be excluded," Senator Connally continued, adding:

"Every alien in the United States over 14 years of age must be fingerprinted and registered. Applications for registration are to be made at designated post-offices, and aliens are required to give notification of change of residence within five days."

Candidates For The Legislature Oppose Sales Tax

Austin, June 19.—More than 90 per cent of all candidates for both houses of the legislature running for the office in this election are opposed to a sales tax, according to a survey completed here Saturday night by the Texas Statistical Bureau.

The survey was started when announcements first began being made and a late check-up Saturday, showed that in making their announcements and in campaigning for the House of Representatives and the Texas Senate that candidates are opposed to a sales tax in any form.

The passage of the two bills by overwhelming majorities at the last session of the legislature showed that the House at that time highly favored a tax on oil, gas and sulphur, but due to lack of support from the governor's office both of these bills died in their early days of passage in the Senate.

There are almost 400 candidates for the two houses of the Texas legislature now making the race. Many of these are seeking re-election and they are standing by their "guns fired in the last session," and the new candidates, according to the survey, are also opposed to the sales tax, be it called transaction tax, or gross receipts tax.

Two Minute Sermon

(By Thomas Hastwell)

God is Ready, But Man is Not: "Why is it, if God can control such things," some one asked in a group in which I was present recently, "does He permit wars and injustices and ruthlessness to exist on this earth? Why doesn't He put an end to war and stop once for all the suffering that it causes? Why doesn't He bring about now the Kingdom of God upon earth?" The answer to these questions is found, I think, in the fact that while God controls the physical universe, man is a creature of choice and decides his own actions. Since war is a man made activity it can only be stopped by man. The Kingdom of God cannot come upon earth until it first comes in the hearts of men. God has a plan for man and this earth, the goal of which is the creation of the Kingdom of God upon earth, when wrong and war and suffering shall be no more. God is ready now to bring to completion his plan, but man is not. Until man is ready and willing, the coming of the Kingdom of God on earth will be delayed. It may take hundreds, or thousands, or millions of years for man to acquire knowledge and accept God's will. However long it is delayed, God's plan will endure. It will not be changed, but it must wait upon the acceptance of man.

Texas Editors Back President's Defense Program

ANSWERS (Questions on page 2). 1. Belgium. 2. Germany. 3. As a speedboat racer. 4. Sixth. 5. Seven. 6. Chairman of the United States Steel Corporation. 7. President of the General Motors Corporation. 8. Henry Ford. 9. He is a Republican candidate for the presidency. 10. Minister of Information. For every 100 barrels of oil produced in Texas during the past five years, the Texas oilman found 193 barrels of new oil reserves. For every dollar spent for Texas government in 1929, the State spent \$1.80 in 1939, or nearly twice as much.

Pledge of full support of the President's program of preparedness was voted as first order of business in the 1940 convention of the Texas Press Association at Mineral Wells. Some convention photographs show: (1) Walter Murray, host publisher of The Index. (2) Charles K. Devall (with Mrs. Devall), Kilgore Herald, new president. (3) Secretary Sam P. Harben, registered 20-year-old Ed T. Merriman (4) of Corpus Christi. (5) Retiring President Walter Buckner, San Marcos Record. (6) Editor-Legislator James E. Taylor, Kerens Tribune. (7) Franz Zeiske, Belleville Times, who reported Austin County's predominantly German population is 100 per cent ready to shoulder arms for Uncle Sam. (8) Sam Kora, Florence Chronicle-Journal, who responded to welcome to Mineral Wells, sounded preparedness keynote of convention.

She had to raise her boy to be a soldier. In many lands today, mothers are forced to give up their children—even the youngest. Dictators demand them—and dictators are all-powerful. In peace as in war, they control business and industry, capital and labor, life itself. Men and women are told what work they must do. There is no prize for ambition, no hope for the man who would like to choose his own career.

How different it is in the United States! Here, governed by men responsible to the people, we choose our life-work for ourselves. This system of free enterprise makes the United States the world's greatest nation. Because men are free to dream and work as they see fit, scores of industries have grown great in America: the automobile, radio, telephone and electrical industries are just a few. As typical Americans, the employees of your electric company are devoted to the American principle of working together, producing more of the good things of life and making them available to more people. Through their efforts electric service steadily improves; at the same time, its price steadily comes down. What inspires the people of your electric company? The best answer is this: the employees of this company are proud of their part in keeping America great. They work as free men to bring better service and value to other free men. They are glad to create wealth instead of destroying it. This company has been built by free Americans. It is built to serve other free Americans. It is free from political dictation. Like all industry, it will succeed as long as there are free Americans to work for it and free Americans for it to work for.

The Lord is good to all; and his tender mercies are over all his words.—Psalms 145:9.

TRUE, BROTHER, TRUE!

Everybody appreciates compliments and the newspaper man is the weakest and most willing listener there is to good, old-fashioned compliments and just plain flannel-mouthed blarney.

Millions in the United States have never known the pangs of acute hunger. Millions in other sections of this world do not know what it means to have all they want to eat every day.

It is truly helpful philosophy in times like these to believe that the universe has been planned for good and that right will one day rule.

Some men are such poor story tellers that even a good story falls flat when they tell it. Now and then one meets up with a story teller who can make even a dull story most entertaining.

Within the last few weeks several thousand young people have received diplomas signifying that they have graduated from high school. They are now ready for the next step in life either to continue their education or seek employment.

The most difficult thing that invaded nations of Europe have had to contend with is the presence of foreign spies and representatives who carry on a secret sabotage in the minds of the people and cause the nation to crumble from within.

The schools should pay more attention to teaching the student to think and talk on his feet and make impromptu talks or set speeches. There are few attainments that prove of more value, to men especially, than to be able to get to their feet in a group and to make an acceptable talk.

There is this to say for the snake. He never tries to be anything else but a snake. In this he has it on some of God's creatures who walk upright.

It is yet to be proven that a democracy or all the democracies of the world can stand against even one dictator when it comes to waging war.

The silliest of all the many silly old sayings is that a young man must sow his wild oats and get it over with.

Last year the Netherlands bought 39 million dollars worth of American farm products, Belgium bought 27 million dollars worth and the Scandinavian countries 29 million dollars worth.

The plain home town girl who goes away to college very often comes back to the home town at the end of the year a glamorous young lady.

No alibi can ever be offered by this administration if it permits the fifth column of foreign spies and sympathizers to flourish in this country as it has in several European countries to their detriment.

The parents who fail to teach their children thrift, industry, courtesy and discipline do them a great wrong. They will be handicapped all their lives because of this failure of the parents.

Why is it that when you desire people to point out your faults that you may set about to correct them that they are unable to do it, but at any other time they can tell you a thousand things you ought to change about your conduct.

The whole country was thrilled when Henry Ford announced that his plant, if not interfered with by government meddling and red tape, could turn out 1,000 planes a day.

The trouble with most everyone these days is that they are so busy making a living that they do not have time to live.

Some one has defined success as an idea developed to its fullest. If this is true the world is full of ideas, hence full of possibilities for success.

The United States may well believe that Germany who has set out to conquer and rob the entire world is not going to overlook the United States in her march to world domination.

Some one has aptly and truly said that a democracy is the best form of government to live under and a dictatorship is the best form of government under which to wage war.

The only reliable critic is the fellow who is in possession of all the facts involved. Any other critic is merely a guesser. He doesn't know what he is talking about.

Most folks, who are inclined to look at things in this world realistically, believe that adequate preparedness is the cheapest war insurance the United States can buy.

Working and praying are a good team. Praying isn't enough alone, but the worst combination is the individual who neither works nor prays.

We would rather get all ready for a war and never have to fight it than have to fight one that we were not ready for.

The United States is to date the richest unplucked war prize in the world.

What We Think

(By Frank Dixon)

I agree with the small group in this country today that counsels the United States coming out in the open and giving every possible material aid in the way of airplanes, guns, munitions, and food to the Allies in their fight against the German dictator.

I believe that unless this is done the German war machine will crush the spirit of the Allies to a point where neither munitions or credits from this country will be of any avail.

England, and France too, were caught napping. Ever since the World War they have stood by and watched Germany reassemble its war machine.

In the face of all these things England and France slept on, hoping that something might happen that would prevent Hitler carrying out his plans.

But we of the United States are in no position to criticize either France or England. We are as guilty as they.

I am not predicting that Hitler will land an army on the shores of the United States. This will not be necessary.

I am predicting that Hitler's next conquest in the event he defeats the Allies is going to be for domination of world trade. With an industrial nation trained to work long hours at low wages it can readily be conceived that he can also accomplish this objective.

The danger, therefore, in my opinion, may not be the actual invasion of our territory so much as it will be the invasion of our foreign trade areas, with the resultant loss to this country of revenue and employment.

Two Minute Sermon

(By Thomas Hastwell)

No Enduring Triumph for Ruthlessness: In a group in which I was present recently the discussion turned to world conditions and the ruthless attack by Hitler against peace loving and peace desiring people.

If things don't take a turn for the better the world not only is not going to be safe for democracy but also little value for anything else.

Texas refineries produced 185,616,000 barrels of gasoline last year.

Gold stocks in the United States have passed \$19,000,000,000—approximately 70 per cent of the world's supply of monetary gold.

Locals

Jodie Boston of Stratford visited friends in Crowell last week.

Mrs. Morris Flynn of Oklahoma City is here this week visiting Miss Alyne Lanier.

Mr. and Mrs. A. J. Norton and children of Midland visited her uncle, J. W. Shelton, and other relatives in Crowell last week.

The Crowell Township Club will meet in the District Court room this evening at 8 o'clock. The public is invited.

Mrs. D. L. Reavis returned home last week from a week's visit with Mrs. Robt. Cole of Vernon.

Miss Mildred Johnson, who has been visiting her parents, Mr. and Mrs. L. V. Johnson, will return to Dallas Saturday.

Dr. Roy Sloan of Terrell and Mrs. Denny White of Dallas visited their parents, Mr. and Mrs. A. L. Sloan, Monday and Tuesday.

Mrs. Ernest Johnson left Wednesday for her home in Corpus Christi. She had been visiting her mother, Mrs. J. B. Rasberry Sr.

Mrs. C. W. Henry and small daughter, Carol Ann, of Pampa are here visiting Mrs. Henry's sister, Mrs. R. G. Gribble, and husband.

Mrs. S. E. Woods and Miss Lottie Woods have returned to their home in Wichita Falls after a visit in the home of Mrs. J. A. Johnson and other friends.

Mrs. Clarence Gosden of Lakeview is spending a few days of this week here visiting her husband, who is employed by Ferguson Bros. Mr. and Mrs. Gosden are in the home of Mrs. C. W. McKown.

Mr. and Mrs. Paul Wallace and son, A. G., went to Vernon Sunday morning where Mr. Wallace submitted to a tonsil operation. They returned home Tuesday and he is recovering satisfactorily.

Mr. and Mrs. W. L. Jackson and sons, Albert and Andrew, returned to their home in Crowell last week. They were accompanied by Miss Virginia Sanderson who returned to her home after a visit with Mr. and Mrs. Ferguson of Knox City.

Mr. and Mrs. M. F. Meadors came in from Mineral Wells to visit their daughter, Mrs. Homer Meadors, and family and other relatives. She will leave soon for Dallas, N. H., to visit relatives and will be accompanied by her daughter, Miss Faye Zeibig.

War—

(Continued from Page One)

arm herself against any possible threat that might be made against this hemisphere.

Industry is fast being geared to manufacture war materials in vast quantities. Henry Ford is preparing his plant to construct 1,000 fast pursuit planes per day and other automobile factories are being equipped to manufacture airplane motors, armored cars, trucks and other equipment.

In another step of being prepared in case of necessary defense, President Roosevelt disclosed that he was working on a huge plan for an eventual government service for all of America's young men, some of whom would be the fighting forces and the rest used in other vital activities.

The House Naval committee has recommended a \$4,000,000,000 additional naval program, to give the United States far and away the mightiest navy that ever sailed the seas. The tremendous bill is designed to give the nation a fleet strong enough to meet any threat from Germany, Italy and Japan to defend both the Atlantic and Pacific coasts at the same time.

In a story which appeared in a magazine this week, Louis Johnson, Assistant Secretary of War stated, "If we went to war our mechanized army could be the best on earth," and brings out this point by stating "on a moment's notice our mechanization program can be thrown into high gear. We have unparalleled resources in this country for production of motor vehicles of all types. No foreign industry can match ours in efficiency and organization."

French Fleet Problem During the past few days, the question of whether or not Germany will demand and get the French fleet has been asked many times. A recent press release stated that the fleet would not go to Germany in case the French surrender, as it is already under English command, and has been since the start of the war.

New Miniature Golf Course Opened Here A new 18-hole miniature golf course was opened in Crowell today south of the Spears Blacksmith Shop by E. G. Spears, who announced that everyone would be given one free game today or Friday.

The course is equipped with lights in order that persons can enjoy the game in the cool of the evenings and at night.

This is the first miniature golf course to be opened in this city in several years, and it is one which will furnish much entertainment as it has been patterned after and improved over those courses to be found in larger cities.

Mrs. W. B. Hicks and daughter, Miss Christine, visited her father, John Knight, in Canyon from Friday until Monday.

Miss Faye Zeibig returned to her home Sunday from Wichita Falls where she has been taking a business course. She will remain at home during the summer months.

Mrs. Frank Hofues returned to her home in Dallas Monday afternoon following a visit with her parents, Mr. and Mrs. J. C. Thompson.

Mrs. R. D. Cato and Miss Iva Cato have been visiting in the home of Mr. and Mrs. Joe Smith. They returned to their home in Oklahoma City Tuesday.

Rev. and Mrs. W. B. Hicks and daughters, Christine and Claire Jo, spent the first part of last week in Memphis visiting Rev. Hicks' mother, Mrs. J. T. Hicks.

Miss Elsie Cook of Jal, N. M., is spending her vacation with her parents, Mr. and Mrs. Jim Cook, of Crowell. She is manager of a Speer Variety Store at Jal.

Mr. and Mrs. I. T. Graves and daughters, Camille and Larue, left Wednesday afternoon for Stephenville to visit Mr. Graves' parents, Mr. and Mrs. W. T. Graves.

T. W. Russell of Longview was here last week visiting his father, J. F. Russell, of the Margaret community, who has been seriously ill. Mr. Russell had been away from Foard County for the past fourteen years.

Mrs. A. S. Hart and son, Jim Allee, of Lubbock spent the weekend in the home of Mr. and Mrs. R. R. Magee visiting Mr. and Mrs. Magee and Mrs. J. M. Allee.

Roy Ricks of Colton, Calif., arrived here Tuesday morning for a visit with his parents, Mr. and Mrs. W. L. Ricks, and to attend their fiftieth wedding anniversary celebration which will be held Sunday.

B. C. Newton of Oklahoma City, Okla., spent Saturday and Sunday in the home of his sister, Mrs. T. B. Klepper, where his brother, W. K. Newton, of San Antonio was also a visitor.

Miss Onnie Rhea Braswell of McKinney, who has been visiting her mother, Mrs. S. A. Rutledge, and brothers, James and Billy Braswell, returned to McKinney Wednesday.

The Four Bandits of the Cotton Field By T. C. RICHARDSON, Associate Editor Farm and Ranch

No part of the Southwestern cotton belt is entirely free from insect depredations and most of this area is subject to attack by all four of the "cotton bandits" at one time or another through the growing season. Happily enough we seldom have all four in the same field in the same season, but no season passes where they are prevalent without some damage to the crop. Like weeds, they are a constant threat, and also like weeds, they can be controlled by the timely use of right methods.

The cotton flea hopper and the boll weevil are the most common and most dangerous of the four bandits which are annually robbing Southwestern cotton farmers of approximately one bale out of eight. They are first in the field, and often appear together. The flea hopper is difficult to see unless one is trained to look for it, but its presence is suggested when the tiny fruit buds fall off before they grow to be "squares."

This is often attributed to lack of moisture or excess moisture, which may be the case later in the season when the plants are loaded with fruit, or take a spurt of growth after a rain succeeding a dry period. At early fruiting time, however, the stalk is not overladen, and if it is failing to hold the fruit buds, it is highly probable that the flea hopper is responsible.

At this time boll weevils are coming out of winter quarters, and if they are present can usually be found in the cool of the day around the terminal buds. They cannot multiply until squares are large enough for egg deposition. Those which die naturally or are killed by poison at this stage of cotton growth (early fruiting) will never have progeny. "Pre-square poisoning" is therefore a measure of insurance to delay heavy summer infestations of boll weevil.

It is quite practical to dust for both boll weevils and flea hoppers with one operation, using a mixture of calcium arsenate, one part, and dusting sulphur two parts. It has been found that the mixture is more effective against both insects than the same materials used alone—calcium arsenate for boll weevil and sulphur for flea hoppers. When both are present, therefore, the mixture should be used.

A machine which blows the material directly into the foliage of the cotton plants can be had in various sizes to suit the acreage, from a hand gun costing \$20 or less to a horse-drawn or tractor machine costing up to \$350. It is a waste of effort and materials to merely sprinkle it on the plants with a gunny sack or other makeshift.

At early fruiting stage of the cotton, (it is important to save the first fruits, which make the early crop and best bolls) it requires only a small amount of dust to thoroughly cover the plants. At all stages the amount applied is governed by the size of the plants and luxuriance of foliage, the rule being to get a complete coverage at each application.

Pre-square poisoning, especially if flea hoppers are present, is the first battle of the war and one of the most important, but it is not enough alone if conditions are favorable for the multiplication of the insects. It is well known that hot, dry weather reduces boll weevil numbers, but the conditions which bring the flea hopper into the cotton fields are not so well understood. Nothing but close observation in the field can tell whether the insects are present in damaging numbers.

The price of a cotton crop is eternal vigilance, with insects as with weeds. Keeping ahead of them is more effective and more economical than waiting for them to get a good start. If a regular dusting schedule for the control of boll weevils and flea hoppers is carried out, the early broods of leaf worms will also be held down. Sulphur also reduces the numbers of aphids (cotton lice) which sometimes dwarf the plant by sucking the succulent foliage.

The "four bandits"—flea hopper, boll weevil, leaf worm, and boll worm—may be defeated with one implement and two materials—a good dusting machine, calcium arsenate, and dusting sulphur. It's too late to get ready for war after the enemy has already done serious damage.

Our Weekly Sermon

By Rev. C. B. Nordlañd, Director of Extension Department, The Moody Bible Institute, Chicago.

The Glory of the Lord Text.—But as truly as I live, all the earth shall be filled with the glory of the Lord.—Numbers 14:21.

Many, many centuries have passed since these words were spoken by God to His faithful servant, Moses. Much has transpired in the world's history, and it would seem, as the world is plunged again into a conflict that threatens the existence of our present civilization, that the promise given by God is utterly impossible of fulfillment.

The student of history looking back over the centuries sees kingdoms arising only to fall, civilizations attaining to great heights only in turn to disintegrate. The history of mankind is the history of conflict, war, and oppression. There has hardly been a time in the history of the world when peace has been an actuality.

There have been times when the earth seemed to have a glory, but many of the cities and nations which felt that they had attained to a condition that bordered on the Utopia, now lie buried beneath the dust, and are revealed to the eyes of men only as the archaeologist takes his spade and uncovers again the long forgotten ruins of things that used to be.

Nor would it seem that in the realm of sin and death any marked progress has been made toward the realization of a promise of an earth filled with the glory of the Lord. Such a promise presupposes the ultimate victory of a great God over those things that make for chaos and ultimate destruction, sin and death. The forms of sin may change, but the wickedness of men's hearts continues to express itself in new ways and in manners more gross than ever before.

Fear seems to be a dominant factor in the life of men, and perhaps in this day as never before it is becoming literally true that "men's hearts are failing them for fear."

But John has a word for such a day as this. He said: "This is the victory that overcometh the world, even our faith." Ours is a God who cannot lie. He is one who makes even the wrath of men to praise Him. It is well to remember in such a day as this that our God who has made the promise is abundantly able to fulfill that promise, and though the time would seem to be inauspicious, these very days make it imperative that the interven-

ORR'S Veri-Best Bread Grateful for Your Patronage

Brief Bits of News From Here and There

It is generally believed that those who have given much thought and study to the question that if Hitler defeats the Allies that America will in a short time become a second rate power due to the loss of foreign trade. Trade beyond our immediate borders, it is believed, would consist in our selling only such goods and at such prices as Hitler and his dictator satellites deemed to their advantage. Since it is our foreign trade that has made us the rich nation that we are Hitler's victory and the resultant loss of foreign trade may result in curtailed industrial production, reduced employment, and a lowering of living standards. This country has its choice. It may take its chance with Hitler, or continue to take its chance with England and France. It is for America to decide.

A new type of detector has been devised in this country which will detect an airplane approaching through fog, cloud or darkness as far as fifty miles. Forty of these detectors will be installed at strategic points of America and its island possessions. Their cost is approximately \$150,000 each.

The child of God shall be revealed. The child of God has a glorious hope. There is a Prince of Peace whose name is Jesus Christ. He promised to return to His people and establish a kingdom of everlasting peace. An ever darkening day presages the soon coming of a brighter dawn. "When these things come to pass," said Jesus, "then look up, . . . for your redemption draweth nigh." Men cannot bring order out of chaos, but our God who lives will yet perform His promise therefore, be of good cheer, of quietness in mind and heart, and through faith look up and have hope.

ROTARY CLUB

Raymond Burrow was in charge of the program of the Crowell Rotary Club Wednesday at noon. Mr. Burrow led a discussion on ways and means for the local club to be of assistance to the United States government in this critical period of its history which is being brought about by the war in Europe.

Visitors for the meeting were Mr. and Mrs. Jack Harrington of Oklahoma City and A. J. McDowell, junior hydraulic engineer with the United States Geological survey in the surface water division. Mr. McDowell lives at Childress and has under his supervision two stations on Red River, one on Pease River, one on Wichita River and one on Little Wichita.

CARD OF THANKS

We wish to express our heartfelt thanks to our many friends and neighbors who were so kind and sympathetic during the illness and death of our loving husband and father. The beautiful floral offerings were deeply appreciated. May God's richest blessings rest upon those who assisted in any way to make our time of sorrow easier to bear.

Children Should Rest Before Meals in Summer Time

"The child's day during vacation this summer should be scheduled to include a period of rest before meals, because uninterrupted, strenuous play tends to spoil appetite and may retard digestion," stated Dr. Geo. W. Cox, State Health Officer.

"There is no doubt as to the value of play and exercise in stimulating appetite, vigor and endurance. However, when carried out to the extent of bringing about definite fatigue, play and exercise often exert an opposite effect.

"The average child enters wholeheartedly into play both physically and emotionally. When allowed to play hard up to meal time, he comes to the table in a fatigued, excited state with poor appetite, temporarily impaired digestive capacities and a tendency to gulp his food hastily. Therefore, a rest period before

Quite a Difference

Christian Science Church Sunday School at 10 a. m. Sunday services at 11 a. m. Wednesday evening services at 8 o'clock. Sunday, June 23, 1940. Subject: "Is the Universe, Including Man Evolved By Atomic Force?" The public is cordially invited.

By Rev. Nathan J. Stone, Member of Faculty, The Moody Bible Institute of Chicago. True Knowledge Text—My people are destroyed for lack of knowledge.—Hosea 4:6. These words of the text were spoken about 2,700 years ago. Someone will say, "Surely that cannot be true of today." For there was never a time when man knew so much, when he had such amazing forces under his control, when it was possible to enjoy life through the accumulation and acceleration of knowledge.

Interest in Keeping This City's Record Low Prompts Offer of Examination After nearly two and a half years' use on the cars of average Americans under all types of driving, survey and test records have shown, declares M. F. Crowell, local Goodyear dealer, that the Marathon tire, has piled up billions of highway miles proving itself an entirely satisfactory product.

After producing nearly one and a half billion barrels of petroleum since 1938, Texas crude oil serves are 68 per cent larger day than at the beginning of the year. Texas oil workers and farmers and landowners received over \$403,000,000 a year from Texas oil industry. This is nearly three-fourths of its total operating expenditures of \$550,000,000.

Christian Science Services "Is the Universe, including Man, Evolved by Atomic Force?" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, June 23. The Golden Text is: "Lo, he that formeth the mountains, and createth the wind, and declareth unto man what is his thought, that maketh the morning darkness, and treadeth upon the high places of the earth, The Lord, The God of hosts, is his name" (Amos 4:13).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "For as the new heavens and the new earth, which I will make, shall remain before me, saith the Lord, so shall your seed and your name remain" (Isaiah 66:22). The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "All things are created spiritually. Mind, not matter, is the creator. Love, the divine Principle, is the Father and Mother of the universe, including man" (page 256).

Longview, Texas, June 17.—With this platform built entirely around oil conservation and national defense, Bailey Sheppard, 33-year-old Longview attorney and for several years an assistant attorney general, has announced his candidacy for the office of state railroad commissioner.

This is important now, when a large percentage of the middle-class group of Americans is thinking about a trip, or about putting new casings on their cars to insure against accidents in summer traffic when tire failures may be the beginning of a great deal of trouble.

The first use anywhere of oil as fuel for a locomotive was in 1898 on a train operating between Corsicana and Hillsboro. More than one-fourth of all petroleum produced in the United States to date has been produced by Texas.

Thalia Methodist Church Regular church services will be held at the Thalia Methodist Church Sunday, preaching both morning and evening. Sunday School at 10 o'clock. Don Culbertson, Pastor.

We know too much. The world is destroyed because of knowledge. We could very well do with less of this knowledge. But the knowledge of which the Bible speaks is absolutely indispensable, for it is spiritual knowledge—the knowledge of God. And that alone can save the world. Do you know that "the fear of the Lord is the beginning of wisdom" that "man does not live by bread alone, but by every word that proceedeth out of the mouth of God"? That "except a man be born again he cannot see the kingdom of God"? Do you know that "God commandeth his love toward us, in that, while we were yet sinners Christ died for us"? Do you know that if you believe on the Lord Jesus Christ you will be saved, and that if you do not you will not be saved?

"Oil is by far the most important commodity needed in America's defense program," Sheppard said, "and it is highly essential that our oil reserves be carefully safeguarded and used to the advantage of our state, our nation and our people. In announcing my candidacy for railroad commissioner, I am fully aware of the gravity of the situation faced by Texas and America today. With its vast reservoirs of oil, Texas almost controls the destiny of our nation, from a military as well as an economic standpoint. Therefore, the responsibility of the Texas Railroad Commissioner is a heavy one. I am wholeheartedly in accord with President Roosevelt's national defense program, and I pledge the people of Texas that I will work tirelessly and unselfishly in doing my part to the utmost of my ability.

"Opportunity to spread the application of new tires to old cars with an attractive proposition is provided in the two and four-tire sets which we are offering," Mr. Crowell continued. "Largest percentage of tire replacement is either for two or four tires, seldom for one or three he pointed out and figures show that the majority of tire buyers would prefer to purchase either two or four rather than just one, which is usually all they can afford, if they buy a good grade tire made by a recognized manufacturer.

Texas oil refineries refined 400,000,000 barrels of petroleum in 1939, or over four-fifths of State's total oil production. The first use anywhere of oil as fuel for a locomotive was in 1898 on a train operating between Corsicana and Hillsboro. More than one-fourth of all petroleum produced in the United States to date has been produced by Texas.

Government Money Will Not Affect Red Cross Program

Washington, D. C., June 15.—In connection with the \$50,000,000 European relief appropriation now pending before Congress, Chairman Norman H. Davis yesterday sent the following communication to 3,700 Red Cross chapters throughout the United States: "I want to emphasize that the bill pending before Congress for an appropriation of \$50,000,000 for the purchase of surplus food and other supplies for the relief of refugees does not provide for any appropriation to the Red Cross of any money. The Government is not proposing to finance the Red Cross and neither has the Red Cross asked any financing by the Government. The Red Cross has been and is expecting to continue to be an organization supported by voluntary gifts. The proposed legislation provides that the purchases shall be under the control of the President, but that he may select as the agency for the distribution of the foods and other supplies, the American Red Cross or such other agency as he may designate.

"If the proposed legislation passes and the President asks the Red Cross to distribute surplus foods or supplies to refugees, it will enable the Red Cross to do a better and more complete job, and the Red Cross will be keenly sensitive of the confidence thus expressed in the effectiveness of its organization. It will endeavor to render efficiently this supplementary service just as it tried to do in the past with respect to the distribution in this country of surplus Government wheat and cotton.

"The President's request to Congress called attention to the fact that the recommended purchase of surplus food in no way lightened the burden which the American Red Cross has assumed, and he specifically said, 'The appropriation I am suggesting will supplement the Red Cross relief program. The needs of refugees are many in addition to their need for food. It must be made plain to everyone that it has not even been suggested that any money be paid from the United States Treasury to the Red Cross. These are the facts, and if the Red Cross successfully does the work it has undertaken, it will need all and more than the minimum of

Banks Half Billion

Mrs. Essie Ept, in charge of Ohio's gasoline revenues, has deposited \$540,316,659 to the state's credit since 1926. This great sum was collected in dimes, nickels and pennies. It took a lot of 'em—but Mrs. Ept didn't mind.

THOUGHTS OF SERIOUS MOMENTS

Rightly to read and to practice the Scriptures, their spiritual sense must be discerned, understood, and demonstrated. God being Spirit, His language and meaning are wholly spiritual.—Mary Baker Eddy. A country man is as warm in fustian as a king in velvet, and a truth is as comfortable in homely language as in fine speech.—Charles Haddon Spurgeon. Language is only the instrument of science, and words are but the signs of ideas.—Samuel Johnson.

INTERESTING FACTS OF THIS AND THAT At the present time over 100,000 workers are employed in this country in the manufacture of airplanes. It is expected that within a year the number will have reached 300,000. Over 96 per cent of all the beef consumed in the United States is supplied by American farmers. There are 814 radio stations in the United States, one-third of which are owned by newspapers. Although Alaska has a population of but 60,000 over \$44,300,000 worth of products were purchased by Alaska last year from the United States, a figure exceeded by only eight of the 31 European countries. American automobile users consumed 20,638,000,000 gallons of gasoline in 1939. The Black Death (Bubonic plague) of the 14th century took 25,000,000 lives. The influenza in 1918 took 10,000,000 lives.

HOUSEHOLD HINTS Oil cloth table covers should not be washed with hot water. Use warm water and wipe dry with a clean cloth. To prevent one-sided growth in house plants kept in windows, turn pots around frequently so the sun will get to all sides. In making kraut allow 1 pound of salt to 40 pounds cut cabbage. Can juice for grape jelly in half gallon jars and when needed make up fresh jelly and it will be free from crystals. \$20,000,000 for which it is now appealing to the American people. Every day brings new and urgent needs."

\$230,769,230 Per Ounce!

Between 1935 and 1940 federal expenditures have increased by \$3,000,000,000, and the budget has gained 13 ounces in weight. This means that every time the budget becomes an ounce heavier the spending increases, so an average, by \$230,769,230. The picture was prepared by the National Small Business Men's association with headquarters in Chicago.

Children Should Rest Before Meals in Summer Time

"The child's day during vacation this summer should be scheduled to include a period of rest before meals, because uninterrupted, strenuous play tends to spoil appetite and may retard digestion," stated Dr. Geo. W. Cox, State Health Officer. "There is no doubt as to the value of play and exercise in stimulating appetite, vigor and endurance. However, when carried out to the extent of bringing about definite fatigue, play and exercise often exert an opposite effect. "The average child enters wholeheartedly into play both physically and emotionally. When allowed to play hard up to meal time, he comes to the table in a fatigued, excited state with poor appetite, temporarily impaired digestive capacities and a tendency to gulp his food hastily. Therefore, a rest period before eating is of benefit to a child. "Careful studies have also shown that excessive as well as insufficient activity reduces one's physical capacities. The reserve capacity of children is relatively small, varies with individuals and may be easily exceeded. "Hard play in the evening up to bedtime usually disturbs sleep. The ill effects of overactivity are more likely to be observed in the spring after the relatively sedentary life of the winter season. Another period when play becomes excessive, is at the beginning of summer vacation when children have their first opportunity at day long physical activity. "Properly regulated camps, city playgrounds and other community recreational facilities for the children offer model schedules for supervised play with a good balance of exercise and rest."

Sam Gets Bigger Battle Wagon

Decked with flags and bunting, the U. S. S. Washington, 35,000-ton ship just completed at the Philadelphia navy yard, is shown sliding down the ways to the Delaware river. The 750-foot ship cost \$80,000,000, the biggest warship ever built on this continent. It is the first unit of 68 warships under construction.

Cotton Insects and January Weather

By T. C. RICHARDSON, Associate Editor Farm and Ranch

More than two weeks of freezing weather in January brought the usual optimistic chant "well, at least it has killed off insects." If severe winter would have destroyed insects, especially cotton insects, should have been wiped out ago. Since the boll weevil is a century ago we have had more severe winters than one just past, but the boll weevil continued to survive and until all but a few minor insects in the cotton belt have been wiped out.

Spring and summer weather conditions have a great deal more to do with insect infestation than winter. In midwinter boll weevils are in a dormant state, are less susceptible to cold when they are active, in early spring. Also, in midwinter, the hibernating boll weevil is protected to a certain extent by its hiding place. It is of record that boll weevils froze in the cotton belt and crawled away. We are only cheating ourselves when we assume that winter weather will prevent a damageable boll weevil infestation next year. It is quite true that the boll weevil, the later they can be applied to damaging numbers, the warmer, showery weather in spring and early summer usually brings a heavy infestation of boll weevils to seriously damage the crop.

The observant farmer who inspects his cotton crop will find boll weevils present before they are in form. At that stage they are around the terminal buds, some of them die before they have a chance to reproduce. When they are large enough for egg deposition, future boll weevil infestation will be largely determined by weather conditions. Along the Georgia-Florida line the boll weevil is present in the first part of July in the Southwest. A dry period at the time that first punctured squares begin to form, the proper cultural method in connection therewith, tends to hold down weevil infestation. All thinking farmers know. If weather man does not cooperate, however, weevils multiply and cut the yields by puncturing the buds.

Now that we know that January cold did little or nothing to prevent cotton insect damage next summer, it behooves us to be on the alert to prevent the insects "getting the jump" on us. If the first fruit buds of cotton are falling, and the "cotton is not fruiting at the bottom," as we say, it is pretty strong evidence that the flea hopper is at work. Dusting with sulphur is the remedy. Calcium arsenate dust is the best control for boll weevils, early or late, and since the flea hoppers and early boll weevils are often in the field at the same time, a mixture of calcium arsenate and sulphur, (one pound to two) may be used. The sulphur-calcium arsenate mixture does a better job on both flea hoppers and boll weevils than either insecticide used separately, and if both insects are present, the time and labor is the same to control both that it would be to control one. Those who do not know how to recognize the insects, or the signs of their presence, will continue to produce cotton under a handicap. Those who fail to use control measures will seldom produce cotton at a profit.

Mrs. Melvin Morgan, who is attending a beauty school in San Angelo, spent Saturday night and Sunday with her husband. Dan Heninger and daughter, Ruth Marie, of Wichita Falls, visited in the home of Mr. and Mrs. T. W. Cooper, Thursday. Mrs. Charlie Carroll and daughters, Wilma Faye and Leta Jo, of Gambleville and Miss Bernice Collins of Crowell spent Thursday in the home of their daughter and sister, Mrs. Johnny Marr.

NOBODY'S BUSINESS BY JULIAN CAPEPS JR.

Austin.—All of the fantastic schemes for raising millions to pay old age pensions and other gimme-rat benefits in Texas which have been thought up by the numerous crop of candidates for every office from Governor to constable are apparently so much love's labor lost. The war situation, in addition to making the voters show less than no interest at all in the revenue-raising platforms, has already made it pretty certain that there will not be any new millions of state revenue raised by the next legislature. The reason is that the Congress, working nights and Sundays in Washington, has worked out a Federal tax program, to pay for the defense of the nation, that is going to take the hide off taxpayers—big and little—in large patches. Its final details will not be known for several weeks yet, but it is already a cinch that incomes of \$800 up for single persons, \$2,000 up for married folks, are going to be taxed plenty; Federal gasoline, amusement, liquor and other "nuisance" levies are going up by leaps and bounds; and doubtless many new taxes will be laid before the bill is sent to the President. Calls For Economy That means dreams of pensions for everybody which the State politicians have nourished so feebly are "out." The new Legislature will be largely new members—with only 97 of the present 150 standing for re-election in the House—and regardless of campaign promises, Federal taxes are going to be so high that large new State taxes are not even going to get serious consideration. Natural resources, chief target of the promisers, appear now to be the poorest prospect for new money, because oil is what is meant when the politicians talk about "natural resources" and the war, with European markets shut off completely, already has put the Texas oil industry in a hot spot, with shutdowns of a month or more of all fields being proposed as the only method of preventing a flood of overproduction which nobody can use. About the only hope the taxpayer has for the next few years is to go to work on state and local officials—particularly the latter—and demand some efficiency and some reductions in the cost of local and state government. It has got to go even further than that—the people of Texas are going to have to do away with some costly services rendered by the Government that they have enjoyed, and which they no longer can afford, in order to shoulder the burden of necessary Federal defense taxation. The Germans for years lived on a bare subsistence diet, did without many things regarded as absolutely essential in other countries, and built up the world's most powerful war machine with the proceeds of their savings—which were forced down their throats. The people of Texas and the rest of the United States have but one hope of protecting themselves against that war machine—to deny themselves, voluntarily and not at the order of a dictator, many things they thought they had to have. There is going to be less money available for politicians to build up state and local political machines, fewer government jobs, less money for pensions, less money probably for schools, less money for relief. A lot of folks who have learned to look to the Government for a living are going to have the alternative of going to work, or starving to death. Very few of them will starve.

RAYLAND (By J. C. Davis)

Mrs. Tom Lawson and daughter, Barbara Ann, and Horace Abston went to Wichita Falls Sunday where they visited Miss Ethelene Lawson, who is attending the Hardin-Simmons Junior College of that place. Misses Juanita Mansel and Nell Clark visited Miss Thelma Raines, who is employed at Necona, but is visiting her mother, Mrs. T. A. Raines, and brother, Will Raines, of Prairie View. Roscoe Wiseman and Dea Mills-rough of the Kinchloe community were business visitors here Thursday. Mr. and Mrs. L. D. Mansel visited relatives in Electra during the week-end. George Lewis of Electra visited relatives here last week. "Miss" Mrs. Lewis Webb and children of Thalia spent Sunday with her sister, Mrs. Hubert Abston, and family. Fred Duffie of Vernon was a business visitor here Sunday. Mr. and Mrs. Hampton Smith and son of Pampa have returned to their home after several days' visit with relatives here. A doctor was called Thursday night to see Mrs. Lewis Mansel, who was ill. The onion crop here totaled almost 6,000 bushels and has brought a fair price to the growers. Mrs. Berry Green and son, Kelton, and Jim Green of Sweetwater visited relatives here over the week-end. We extend our sympathy to Mrs. Otto Schroeder and children in the loss of their husband and father. The onion crop is harvested and the yield was as good or better than expected. H. T. Faughn's average was 285 bushels per acre, totaling a crop of about 2,600 bushels; Tom Lawson's average was 265 bushels per acre from 4 acres; Bob Rhey's 3 1/2 acres made an average of 300 bushels; Herman Schwarz made about 200 bushels per acre; A. T. Beazley gathered about 175 bushels per acre. A doctor was called Thursday night to see T. F. Lambert, who was recently brought home from a Wichita Falls hospital. He was returned to the hospital Saturday for treatment. Mr. and Mrs. Bert Blanton of Vernon visited her parents, Mr. and Mrs. J. C. Davis, Sunday. Judge Claude Callaway and wife and Mr. and Mrs. Henry Ferguson of Crowell visited friends here Sunday afternoon and attended the singing. A large crowd met at the Baptist Church Sunday evening and organized a singing class. J. C. Davis was elected president. Further election of officers will be at the next meeting the third Sunday in July. The class will buy 50 copies of Stamps-Baxter's latest song book. The public is invited to attend. The house was full of people and it is hoped those interested in music will come and help make a success of this class. Everybody invited to come. About one inch of rain fell here Saturday night and Sunday.

Chevrolet Builds Its 900,000th 1940 Car

Here is the 900,000th car of Chevrolet's 1940 model production, as it left the assembly line at Flint, Mich., June 12, less than one month after No. 800,000 was completed. Beside the car are M. E. Coyle, general manager of the Chevrolet Motor Division (left), C. E. Wetherald, general manufacturing manager (right), and Arnold Lenz, assistant manufacturing manager, who were present in the plant when the car was produced. "Chevrolet has built 300,000 cars in less than three months," Mr. Coyle pointed out. "The 600,000th of these models was built on March 21, the 700,000th on April 16, the 800,000th on May 13, and the 900,000th on June 12. This production rate closely parallels the consistently heavy sales volume since the introduction of the 1940 models last October, sales during March, April and May alone totalling 307,345."

for another five weeks, this reporter predicts Texas will have a new Governor next January—one who can instill some confidence into a people who are jittery over Texas' mistake in electing a vaudeville clown to govern six million people in a war crisis.

SAFETY SLOGANS

Fools used to blow out the gas, now they step on it. You pay most for safety when you try to get along without it. Matches have heads — but no brains. You have both — use them. Texas produced 48 barrels of oil in 1889, compared with 48,000,000 barrels last year, or ten million times as much. In 1929 the cost of Texas government was less than \$92,000,000. In 1939 it amounted to more than \$164,000,000. An average of 18 1/2 new oil wells per day were completed in Texas last year.

Miss Maple Edens Married June 3rd to Amarillo Man

Announcements have been received of the marriage of Miss Maple Edens of Vernon to Mr. Johnnie W. Wilson of Amarillo. The marriage took place in the First Christian Church at Canyon with the minister, Rev. Massie, officiating. The attendants were Hamill Wilson, brother of the groom, and Willard Pierson. Mrs. Wilson will be remembered as the daughter of A. K. Edens, resident of Vernon, but formerly of Thalia, where she was reared. For the past three years she has been a teacher in the Four Corners school south of Crowell. The bride received her college education in the West Texas State College at Canyon, and Mr. Wilson attended a college in Amarillo.

Crowell Man Weds Paducah Girl in Las Vegas, Nevada

Miss Nola Huff of Paducah and Jim Hines Carter of Crowell were united in marriage in Las Vegas, Nev., on June 3, with Rev. C. G. Sloan, officiating. They were accompanied by Miss Lola Mae Bynum and Mr. Jim Parker of Shafter, Calif., who also took the vows of matrimony. Mrs. Carter wore black with black and white accessories and Mrs. Parker was attired in blue with white accessories. Both couples will make their home in Shafter, Calif. Mr. Carter is the son of Mr. and Mrs. J. H. Carter of Crowell and was born and reared here. Mr. Parker is the brother of Mrs. Frank Moore and Mrs. John Nichols of Crowell and a former resident here.

Shower Given in Truscott for Two Recent Brides

Members of the Young Ladies Sunday School class of the Truscott Baptist Church and ladies of the Missionary Society of the church gave a miscellaneous shower for Mrs. Hughston McLain of Foard City and Mrs. Lester Patton of Crowell in the Baptist Church at Truscott on Wednesday afternoon, June 12. Both honorees were former Truscott residents and recent brides. The church was beautifully decorated with a pink and white color scheme and salt cedar used in the decorations. The program was in charge of Mrs. Frank Brown with the following numbers: A toast to the brides in song was given by Mrs. Marion Chowning and Rowena Nichols; readings by Mildred Black and Bennie Joyce Brown; quartet by Christalene Chilcoat, Frances McMinn, Billie Nichols and Neva Mills. The bride's book was in charge of Frances Casey and over fifty guests were registered. The

Orville White and Maxine Thompson Marry Here Sunday

Orville White and Miss Maxine Thompson of Crowell were married last Sunday afternoon in the First Methodist Church with the pastor, Rev. W. B. Hicks, performing the ceremony. They were accompanied by Rex Haney and Cecil Marshbank of Truscott. The bride is the daughter of Mr. and Mrs. J. E. Thompson of this city and was born and reared in Crowell. She attended the local school and was graduated from Crowell High School in May. The groom is the son of Mr. and Mrs. H. White of Crowell. He was born at Greenville and has lived in Foard County for the past fifteen years. He attended schools at Gambelville, Margate and Crowell. Mr. White is employed at the Crowell Service Station and the couple will make their home in Crowell.

Miss Ala Ketchersid Wed to Colorado City Man on Mon., June 8

Miss Ala Ketchersid of Crowell and A. B. Hays of Colorado City were married in Lubbock on Saturday, June 8. Mrs. Hays is the daughter of Mr. and Mrs. C. V. Ketchersid of Crowell and was born and reared in Foard County. She attended the Crowell schools from which she was graduated as valedictorian of her class in 1935. After finishing her high school education, she entered West Texas State College in Canyon and was in her senior year there at the time of her marriage. Mr. Hays is the assistant supervisor of the Farm Security Administration, serving Floyd and Motley Counties. The couple will reside in Floydada.

BIRTHDAY CELEBRATION

Mrs. Walter Thomson honored her husband with a lovely dinner party on his birthday, Wednesday, June 12, at 7 p. m. The affair was a complete surprise to Mr. Thomson. The house was beautifully arranged with yard flowers. The meal, a three-course dinner, was served at quartet tables. A large birthday cake centered the dining table and was surrounded by roses. Those present for the dinner party were: Mr. Thomson, his mother, Mrs. Frank Thomson; Mr. and Mrs. Mason Brown and small son; Mr. and Mrs. Henry Earl Thomson and three children; Mr. and Mrs. Adrian Thomson and son, Gordon; Mr. and Mrs. Grover Cole; Bobby Spears and the Walter Thomson family. Brides were introduced by Marguerite Westbrook and Sibyle Spivey. Mrs. Grady Spivey and Mrs. O. S. Turner presided at the refreshment table. Many useful and beautiful gifts were received by both of the honorees.

June in January at the Fair

Showing what curious things happen at the Forty-Fair in New York, here's January harmonizing with June sweetly as you please, in the 1940 Ford Exposition. The girl at the keyboard is January—Lois January of musical comedy fame and of Texas, too. She came to the World's Fair as official guest of honor one fine day in June. So, naturally, at sight of this inviting musical instrument, she sat down and paraphrased, "It's June in January." That popular tune was January's theme song for her recent national radio hour. Since then she's been singing on Broadway and in one of Manhattan's swankiest night-clubs, sixty-five stories above the

Champion Calf-Roper at Cowboy Reunion

Philip Williams Jr., of Tokio, Texas, won the championship in calf-roping in the Texas Cowboy Reunion at Stamford last year and carried home a special-made saddle as prize. Year before that, he won the championship in wild-cow-milking. Williams, who is 29 years old and employed on the Mat Williams Ranch, is shown here on his new horse, "Chigger," which he has been riding for only a few months. He will be back at Stamford for the annual Reunion July 2, 3, 4, and will likely compete for some of the \$2,700 prizes offered in the cowboy rodeo.

Parents of Mrs. J. S. Ray Celebrate 50th Wedding Anniversary

The following story taken from the La Grange, Mo., Indicator under date of June 12, tells of the celebration of the 50th wedding anniversary of Judge and Mrs. W. A. Mussetter of La Grange on Sunday, June 9. They are the parents of Mrs. J. S. Ray of the Riverside community. The article follows: Sunday was the golden wedding anniversary of one of La Grange's best known couples, Judge and Mrs. W. A. Mussetter. The happy occasion was quietly observed with a family dinner in the home, and during the day many friends called to express felicitations. Mrs. Mary Mussetter Ray of Vernon, Texas, and W. L. Mussetter of St. Louis, daughter and son of the honored couple, came to join in the observance of the anniversary. Other relatives present at the dinner were Rev. and Mrs. W. K. Moore of this city and Mr. and Mrs. John Franks of Quincy. In August 1888, Professor Willis A. Mussetter came to La Grange to become superintendent of the city schools. His first graduating class, in 1889, included in its number the girl who was to be his bride—Miss Minerva A. Simpson, daughter of George H. and Minerva Hagood Simpson. A year later, on June 9, 1890, they were married in the presence of near relatives at the ancestral home of the bride west of town, built by her grandfather, William Hagood, one of the earliest settlers here. Rev. B. H. Smith of Canton, pastor of the La Grange Christian Church, officiated. The couple went to housekeeping July 4 in the residence now occupied by Mr. and Mrs. Eli Dresden, at Main and Monroe.

Judge and Mrs. Mussetter have been among the town's most useful citizens, always ready to take part in movements for civic welfare and to extend aid to persons in distress. Both are members of the Christian Church, and Mrs. Mussetter in particular has been prominent in the activities of the local church. Judge Mussetter, as well as his wife, is a native of this county, born near Williamstown October 15, 1860, a son of L. W. and Sarah Ann Huffman Mussetter. He was graduated from Christian University, now Culver-Stockton College, at Canton in 1888. Prior to his admission to the practice of law in March 1894 he had taught school in the county fourteen years. He served three terms as county school commissioner and filled out an unexpired term as county school superintendent. His interest in education is shown by his service as a member of the local board of education for forty years. He held the office of postmaster under President Benjamin Harrison for four years. He earned his present title when he served as presiding judge of the county court for a year and a half by appoint-

ment to fill out an unexpired term. Disposed by nature to lend a helping hand where needed, Judge Mussetter has been called upon to give, and has rendered, more assistance of various kinds to more persons, without consideration of returns to be expected, than would be required of the average man in several lifetimes.

VISITORS COMPLIMENTED

As a compliment to Mrs. Dee Roberts and Miss Lottie Woods of Wichita Falls, who were visiting in Crowell last week, Mrs. W. C. McKown entertained a group of ladies last Thursday evening at her home. Games of forty-two provided diversion for the evening. The home was decorated with tastefully arranged bouquets of sunflowers. Guest favors, pottery vases, were presented to Mrs. Roberts and Miss Woods. At the close of the games, a lovely ice course was served to the honor guests and Mrs. Jeff Bruce, Mrs. D. R. Magee, Mrs. Jim Cook, Mrs. M. S. Henry, Mrs. A. Y. Beverly, Mrs. Paul Shirley, Mrs. C. W. Thompson, Mrs. W. B. Johnson, Mrs. F. A. Davis and Mrs. Claude Brooks.

THALIA IDLE HOUR CLUB

The Idle Hour Club of Thalia met Thursday, June 13, with Mrs. Mack Edens as hostess. The meeting was an all-day affair with a covered dish luncheon being served in Mrs. Edens' beautiful out-of-doors living room at quartet tables, each of which was decorated with spring flowers. After lunch, games of forty-two, Chinese checkers and contact were enjoyed by the guests. A short business session was held in which it was decided to contribute five dollars to the Red Cross to be used in helping the war refugees of Europe. The following members were present: Mesdames W. J. Long, Ino. Wright, G. A. Shultz, C. H. Wood, C. C. Lindsey, Lee Sims, Royce Cato, Raymond Grimm and Miss Minnie Wood and the following guests, Mrs. Fred Dennis of Quanah and Mrs. Bud Temple. The next meeting will be with Miss Minnie Wood.

42 CLUB MEETS

Mrs. Paul Shirley was hostess at her home Wednesday afternoon to members of the 42 Club and one additional guest, Mrs. Allen Sanders. The reception rooms were attractively decorated with bouquets of shasta daisies. Sandwiches, cake and punch were served during an intermission and, at the close of the games, rainbow brick ice cream and cake were served. Small containers, holding shasta daisies, centered each table for the refreshments.

Gasoline consumption by Texas motorists increased 5 1/2 per cent last year over 1938.

Candidates--

(Continued from Page 1)
gnessman from the 13th District. Mr. Gossett is the present incumbent.

Other State Offices
Chief Justice of the Supreme Court: H. S. Lattimore of Tarrant County, Gordon Griffin of Hidalgo County, Tuck Chapin of

VIVIAN H. D. CLUB

"Recreation is what we do with our leisure time," said Miss Joelent Vannoy to eighteen members, one new member, Mrs. W. C. Golden, and eleven visitors at the Vivian Home Demonstration Club which met at the home of Mrs. Johnny Marr on Thursday, June 13. Games to each children fair play more than anything else and games played at home save money that would be used for picture shows or other entertainment," continued Miss Vannoy. Several games were played and enjoyed by all. Patches were taken off aprons and an apron was given to the person whose name was drawn. Mrs. Byron Davis was the lucky person and received an apron.

Visitors were, Mrs. Charlie Carroll and daughters, Wilma Faye and Leta Jo, of Gambelville; Miss Bernice Collins of Crowell, Mrs. J. M. Marr and daughters, Elvira and Geneva, Miss Bessie Fish, Myrtle Davidson, Mrs. Lem Davidson and Miss Vannoy. The club will meet on Thursday, June 27, in the home of Mrs. Bert Mathews with an all-day meeting.

Hathaway; precinct No. 7, Clyde McKinley; precinct No. 8, M. L. Owens; precinct No. 9, Tom Bursey; precinct No. 10, Otis Gafford; precinct No. 11, A. T. Beazley; precinct No. 12, G. C. Owens.

Almost every week somewhere in the country some one pours kerosene on the fire from a kerosene can and is burned to death from the explosion that results. Even with all the publicity these accidents receive and their terrible consequences they never learn.

For every barrel of petroleum produced in Texas last year, 46 cents was paid in wages and salaries to Texas oil workers.

"SEEING EYE" DOGS
At Morristown, N. J., is a training school for German police dogs for blind women. These dogs are called "Seeing Eye." They are trained to guide their blind owners safely through city streets around obstructions. They are first tested for courage, intelligence and trustworthiness and only the best are trained to the high type of dog required and the time and expense of training only a comparatively few blind persons can afford. Seeing Eye dogs.
