Give that valve a quarter turn, Old Man Texas, when Uncle Sam needs the oil for national defense

With the pioneer spirit typical of Texans, our oil men have found and developed petroleum reserves far beyond all civilian and military needs now indicated.

Even if defense requirements total 150 million barrels more a year, Texas can supply them without waste by a quarter turn of valves on wells already drilled. This can be done at a moment's notice without depriving anyone of a single gallon of gasoline or quart of motor oil. Surplus pipe line capacity is ready to carry all this oil from the fields. Surplus refinery capacity exists to turn it into essential products.

Texas goes ahead in the search for more petroleum reserves. New fields are being found ... more efficient producing, refining and transportation methods are constantly being perfected.... TEXAS IS READY!

CAMPUS CHAT

Whee! I have been doubled! I am now four instead of only two. Isn't it wonderful! You wake up and suddenly find yourself not yourself, but two more people! We often see that little Gilliam gal running around and think she is so cute that we wondered who

her long lost love was, for we felt sure that, despite the fact that she is a little young she must have had a past, so we decided to find out, and sure enough, she does have a past and he lives in Chilli-He must of been somecothe. thing, to hear her talk!

Ye olde ex-senior, Jimmie Williams, just blew into the typing room on his way to Austin and asked me to put in the paper that he loves Marjorie Davidson. So here it is-(he didn't believe I would do it!) Jimmie Loves Marjorie.

Ann Favors doesn't seem to care who knows her loves. When asked who she liked, she replied, "There are really two—Billy Fred Short and A. Y. Olds." Lucky boys! Which is nothing unusual, because all of the girls, little or big, seem to have A. Y. some-where on their list. It must be his beautiful brown eyes! Everyone is so excited about the dance! J. M. the dance! J. M. Hill was heard solemnly declaring that he was going to stay until the very end and maybe all night, if necessary. So, we wonder who will be sleep-ing on who's shoulder! Oh, Jeeps! Oh, Joy! He is so wonderful! The CHS Ideal Boy runs something like this: Hair, Bob Williams; eyes, Bob Williams; height, Bob Williams; dancer, Bob Williams; and so forth. He is slightly new, hails from Oklaho-ma, is sixteen years of age and thrills all the gals! Juanita Brown is a quiet, un-assuming girl. We know nothing about her except that she is. FEBRUARY 7 - 13

". . . On my honor I will do my best-to do my duty to God and my country, and to obey the Scout Law . . . To Help other people at all times . . . To keep myself physically strong, mentally awake, and morally straight . . .

That is the Oath of the Boy Scouts of America. It is an Oath they take seriously, one which they endeavor to stick to . . . and do. It's a good Oath. In a few simple words it embodies many of the finest principles taught in homes, in churches and in schools. These principles, as they are applied in the Scout's training, help to make the Boy Scout of today the outstanding citizen of tomorrow.

This year the week of February 7th to 13th will be known throughout the United States as BOY SCOUT WEEK. During that time Scouts and Scouting will be honored everywhere in the country. Pages similar to this will appear in newspapers in hundreds of communities as part of a nationwide effort to give the Boy Scouts of America the recognition and acclaim that is their due. It is the sincere wish of the firms who are sponsoring this announcement that, through it, the people of Crowell may become more fully conscious of the magnitude and importance of the Boy Scout Movement. It is an activity that deserves the wholehearted support and encouragement of every American citizen.
