THIRTIETH YEAR NUMBER 38

CROWELL, FOARD COUNTY, TEXAS, THURSDAY, MARCH 6 1941

\$2.00 A YEAR EIGHT PAGES

HOSPITAL BOND ELECTION NEXT SATURDAY

People Will Go to Polls to Vote \$12,500 Bond Issue for Purpose of Equipping and Operating Hospital

An important issue for Foard County will be decided on Saturday, March 8, when voters go to the polls to cast their ballots to determine whether or not \$12,500.00 in bonds will be issued for the purchase of equipment for the new Foard County hospital and the establishment of a fund for its operation for one year.

The only objection which could be given to the passage of the bonds has been that it will cause an increase in taxes, but the increase would be very small. In fact, taxpayers would hardly realize that they were paying for the newest and most modern hospital between Wichita Falls and Amarillo. The county has a tax valuation of \$4,000,000.00, and so it can readily be seen that the increase in taxes per \$100.00 valuation would be very slight.

Mrs. J. C. Roberts Buried in Crowell Cemetery Monday

Funeral Services Held from Methodist Church at 10 A. M.

Funeral services for Mrs. J. C. Roberts, former pioneer Foard County resident, were held from the Crowell Methodist Church Monday morning at 10 o'clock, with Rev. R. O. Callahan, pastor of the Altus, Methodist Church, officiating. He was assisted by Rev. H. A. Longino, local Methodist pastor, and Rev. M. P. Hinds of Vernon.

Mrs. Roberts died at the home of her daughter, Mrs. M. T. Lincecum in Altus, Okla., Sunday, March 2. She was stricken with paralysis on Saturday morning, Feb. 8, and was in a coma most of the time from then until her death.

Special music for the services was rendered by a male quartet composed of John Rasor, Sam Mills, J. P. Davidson and C. W. Thompson, and a vocal solo by Mrs. A. F. Wright.

Malinda Jane Standlee was born March 29, 1859, in Barry County, Mo., and was married to John C. Roberts at Rosston, Cooke County, Texas, on March 18, 1880. Eleven children were born to this couple, one dying in infancy, and William H. Roberts, who died here Oct. 11, 1924.

Mrs. Roberts and her husband, the late J. C. Roberts, were among the early settlers of this section. (Continued on Page Five)

Enumeration of School Children Started March 1

Enumeration of children of school age in the Crowell Independent School District was started Saturday, March 1, and will continue through Monday, March 31, according to L. A. Andrews, census taker for the school district.

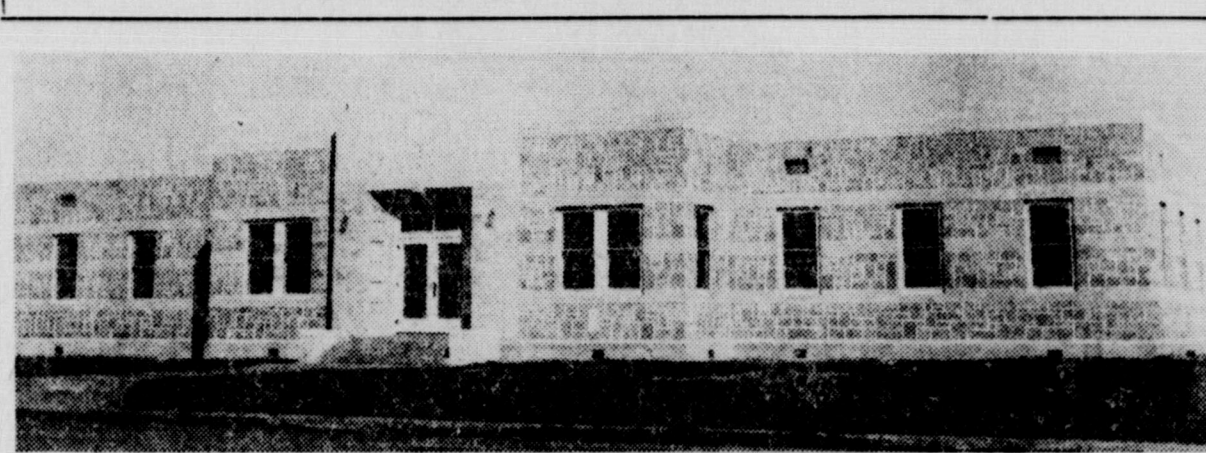

Every child between the ages of 6 and 18 should be enumerated and a record on the greater part of the children is already obtainable, but there are some children in the district who have never registered in the district, either those just becoming of school age, or those who have moved into the county since last March. The parents of these children should contact Mr. Andrews at the school board office in the court house, as it is very important to the child and the school that they be included.

Approximately \$22 in state aid is received for every child enumerated and this will mean much to the interest of the child itself.

SERIOUSLY ILL

W. B. Parkhill is seriously ill at his home in Crowell. He has been ill for about two weeks and his condition is reported to be slightly improved.

Foard County's New Hospital Building

Pictured above is Foard County's new hospital building which was recently completed as a county-sponsored WPA project. The building contains a modern operating room, sterilizing room, nurses' work room, washup room, laboratory, utility room, kitchen, hospital office room, waiting room, two bath

rooms, linen room, X-ray room and dark room, eight private rooms, two wards and a janitor's closet.

The hospital faces the west and the main part of the building is of a rectangular shape, 100 feet long and 36 feet wide, with extensions on the front and back. The rock veneering is of native stone

and it is a very beautiful building, as well as being one of the best designed and planned hospitals in this section.

The building is large enough to take care of the hospital needs of the people of Foard County and the furnishing and equipping it for use is of much importance.

Truscott Calf Wins Reserve Champion at Wichita Falls Show

The calf of Charley Guynn Hickman of Truscott won first prize in the senior division and reserve champion in the 4-H and F. F. A. show held in Wichita Falls last week. The calf had previously won top honors at the Knox County 4-H Show.

The calf, a Hereford from Jack Idle's herd of Benjamin, weighed 990 pounds and brought fifty cents a pound, which was four cents more than was paid for the grand champion of the show.

Army Recruiting Officers Visit in Crowell Thursday

Col. J. A. Moss of the U. S. Army Recruiting Station of Dallas was here last Thursday in the interest of enlisting young men in the army. He was accompanied by Sgt. F. J. McDevitt of Wichita Falls.

Col. Moss stated that there are many good opportunities for young men who enlist in the Army at the present time. The pay varies from \$21 to \$157.50 per month. Most men start at the lowest rate of pay. Any raise in pay that they may receive is determined by their worth to the Government. Good men can expect to receive promotion and increased pay.

BENEFITS

Among the many benefits which go with an enlistment in the Army are free board, living quarters, clothing, medical and dental care, recreational facilities, and a system of professional training which makes for orderly thinking as well as living. The opportunities for physical and mental development, which will be of material value both in the Army and in civil life, are limited only by the soldier's ability to take advantage of them.

IMPROVED

E. Swaim, who has been seriously ill at his home here for several weeks, is reported to be improving.

Drill Stem Sticks in Wildcat Oil Well North of Crowell at Depth of 4,056 Feet Last Friday Night

Trouble struck at The Texaco company's wildcat test, the No. 1 Erabal, six miles north of Crowell, when the drill stem stuck the hole last Friday night, Feb. 28, and was finally loosened Tuesday afternoon with diesel and acid.

When the stem stuck, drilling within 44 feet of the contract depth of 5,000 feet. It was reworked Thursday morning that a showing had not yet been made and that the hole would be led deeper than the contract depth, however, the exact depth is not known.

Halliburton crew from Wichita Falls was called to do the work in getting the drill stem from the hole.

Hot Lunch Room at Local School Serves 2nd Week

About 250 lunches being served daily; success assured. The hot lunch room will finish second week in the Crowell school with about 250 children at the noon meal there, and thus far shown every indication of being very successful.

The lunch room is a WPA project sponsored by the Crowell Independent School District. The school furnishes the equipment and the government supplies the commodities, such as ham, rice, peas, canned peaches, fresh apples, grapes, dried peaches, lard, flour, Graham flour, grits, meal, and butter. All lunches are carefully planned and well served.

The school also furnishes a bus manager who is Mrs. Standers. The WPA supervisor is Mrs. Mary Opal Overlee. She has taught home economics for several years and is efficient in her present position.

Our Weekly Sermon

By George F. Santa, Member of Radio Staff, The Moody Bible Institute of Chicago.

Kindness Text: Is there yet any that is left of the house of Saul, that I may show him kindness?—II Samuel 9:1. These words of David, king of Israel, held no unusual meaning for us until we realize that Saul and David had been bitter enemies. Saul, moved by jealousy, had attempted to slay David on a number of occasions, but now, after Saul's death, we find David searching for some relative of Saul's that he might show him kindness. Why would David want to manifest love toward one related to the man who had sought to kill him? The verse, quoted in part above, gives us the reason: "That I may show him kindness for Jonathan's sake." David desired to show kindness to someone related to Saul because he loved Saul's son Jonathan. The Bible record tells how David found one of Jonathan's sons, Mephibosheth, yet alive; how he brought him to Jerusalem, and there treated him even as a prince. The story has deep spiritual significance in that it is a picture of the grace of God in His dealings with men and women. Mephibosheth, in himself, had no claim on David. He was the grandson of David's enemy. He was lame, and he was insignificant in the world of men. But David showed him kindness because of another, and invited him to partake of his own riches. God has done the same for unworthy sinners, those at enmity with Him and His Son, Jesus Christ. "When we were enemies, we were reconciled to God by the death of His Son." There is no conceivable reason why God should save us, except that He so loves that He cannot do otherwise. "God so loved the world, that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life." Those who are saved by the Lord Jesus become joint heirs with Him, and are treated by the Father exactly as the Son is treated. All that is the Son's is theirs. All that the Father can lavish on the Lord Jesus, He also lavishes on those who trust in His Son. In Jonathan, unworthy Mephibosheth inherited all things that would rightfully have been Jonathan's. In Christ, we who are unworthy, inherit all things that are rightfully Christ's. HOUSEHOLD HINTS To remove ink spots from varnished surface, use equal parts of vinegar and linseed oil, well mixed, and apply with a soft cloth. Soaking dough-encrusted bowls and dishes in cold water before washing them in hot water makes the task easier. Store chocolate and cocoa in a cool, dry place to prevent important oils from deteriorating.

IT'S EASY TO SEE WHY

Phillips 66 STARTS cold motors faster. You Don't Have To Be a College Graduate to understand why Phillips 66 Poly Gas starts cold motors faster. It's as simple as ABC. A. It is a scientific fact that quick starting in cold weather depends directly on the high test (volatility) of the gasoline. B. It is a scientific fact (revealed by our latest available full-year study of gasolines; June 1, 1939 to May 31, 1940) that: The HIGH TEST rating (Volatility Number) of Phillips 66 Poly Gas is nearly 50% higher than the average high test rating of 12 premium price motor fuels. C. See for yourself, if Phillips 66 isn't the greatest self-demonstrating cold-weather gasoline you have ever used. You ought to get at least one trial tankful at regular-price because you simply cannot get such high test in any other gasoline at any price. This extra high test costs you not a single penny extra, since Phillips is the World's LARGEST PRODUCER of natural high test gasoline. Drive in and get that trial tankful at the first Orange and Black 66 Shield.

What We Think (By Frank Dixon)

Included in a number of laws which were jammed through the closing days of the last session of Congress was an amendment to the Social Security Act...

The amendment further requires that each state qualifying for federal aid in its Social Security program shall enact laws on or before July 1, 1941...

It is one of the cardinal principles of a democracy that its members have a right, its taxpayers, and those who support its government, have a right to know how their tax dollar is being spent...

This edict removes from every taxpayer of the land that right. It says in effect no man...

In my opinion a Congress that would pass a law of this kind, has ceased to function as a democratic body...

Have we reached a point in our social order where the individuals of this nation who are trying desperately to operate a farm, or a small business, who are often compelled to resort to heroic sacrifices and drastic self-denial...

This does not in any sense presume to infer that aid should not be given by the government to the aged, the blind and the dependent child and others...

Congress, the members of Congress, in their vote for this bill, individually and collectively have said to the taxpayers whose labor and self-denial make their very existence possible...

Three years ago a \$500,000 a year advertising campaign was launched by the Pan American Coffee Bureau and the National Coffee Association to increase the sale of coffee which then was 13.41 pounds per capita...

QUESTIONS and ANSWERS on Cotton Stamp Program

Article No. One

Pointing out the benefits to be derived by individual farmers from the new supplementary cotton program and the special home food conservation program...

"Now that the war has closed many foreign markets, the need for holding down the already huge surplus of cotton continues to be acute," the AAA official said.

The supplementary cotton program puts additional emphasis on the efforts to reach the objectives of the national farm program through special payments...

This week's question and answer article seeks to show how the cotton order stamps, which will be issued farmers for voluntarily reducing their cotton acreage...

How To Earn Cotton Order Stamps

1. Q. How will cotton farmers be compensated for making an additional voluntary acreage reduction in 1941?

A. They will receive cotton order stamps, which can be used to purchase cotton goods. These stamp payments are in addition to the regular payments provided for under the 1941 Agricultural Conservation Program.

2. Q. Will underplanting of the 1941 cotton allotment affect the farm cotton allotment in future years?

A. No. Underplanting of the

cotton acreage allotment on any farm in 1941 will not affect the cotton acreage allotment for that farm in 1942 or subsequent years...

3. Q. Does participating in the Supplementary Cotton Program affect payment under other phases of the Triple-A Program?

A. No. The Supplementary Cotton Program provides for additional payments and does not affect payments under other phases of the AAA Program?

4. Q. Who is eligible to participate in the Supplementary Cotton Program?

A. Any farm owner, operator, tenant, or sharecropper entitled to share in the 1941 cotton crop on any farm for which a cotton allotment was established for 1941, provided cotton was grown on that farm in 1940.

5. Q. How may a farmer earn cotton stamps?

A. By planting in 1941 an acreage of cotton less than the 1941 farm cotton acreage allotment or 1940 measured acreage for the farm, whichever is smaller.

6. Q. Is there any exception to this provision?

A. Yes. If the County Agricultural Conservation Committee finds that the acreage of cotton as measured in 1940 was reduced because of drought, flood, hail, insect pests, or any other natural cause beyond the control of the operator, the 1941 cotton acreage allotment shall be used to determine the acreage voluntarily reduced under this program.

7. Q. Is it necessary for every farmer to give advance notice of this intention to participate in this program?

A. Only the operator of a farm, on behalf of himself and all others interested in the cotton crop, must sign a prescribed form before June 15, 1941, showing the number of acres he intends to take out of cotton production as well as other pertinent information.

8. Q. What will be the result of the 1941 cotton acreage is reduced by more than the amount set forth in the intentions?

A. Stamp payments will be made only for the amount of reduction set forth in the statement of intentions.

9. Q. What will be the result if the 1941 cotton acreage is reduced by less than the amount set forth in the statement of intentions?

A. Stamp payments will be made only for the amount actually reduced.

10. Q. Will there be any penalty for failure to carry out expressed intentions of acreage reduction?

A. No. The Supplementary Cotton Program is entirely voluntary.

11. Q. What is the basis of payment for voluntary reduction of cotton acreage?

A. A farm payment in cotton stamps will be computed at the rate of ten cents a pound times the normal cotton yield determined for the farm under the 1941 Agricultural Conservation Program times the acreage reduced for stamp payment.

12. Q. How would the cotton stamp plan work in the case of a farm operator with no tenants who planted ten acres of cotton in 1940, has a 10-acre allotment in 1941, and has a normal yield, as determined under the 1941 Agricultural Conservation Program, of 250 pounds per acre?

A. This farmer, if he wished to participate in the supplementary program, could reduce his cotton plantings by one acre, leaving him a total of 9 acres. For the acre

voluntarily reduced, he would receive cotton order stamps at the rate of 10 cents per pound for the 250-pound normal yield, or \$25 worth.

13. Q. If this same farmer had planted only 8 acres of cotton in 1940, how much would he have to reduce his acreage to earn his maximum amount of stamps?

A. He would have to plant only 7 acres of cotton in 1941, in order to receive \$25 worth of stamps. (For the maximum stamp payment that can be received by a landlord or tenant, and for the division of stamp payments among landlords and tenants, see Questions 14 and 16.)

14. Q. What is the maximum amount of cotton stamps that may be earned?

A. Each producer may earn a maximum of \$25 worth of cotton stamps on one farm, except that producers interested in more than one farm or an operator of a farm with two or more tenants or sharecroppers may earn up to \$50 worth of stamps. No one may receive more than \$50 in cotton order stamps.

15. Q. What is the minimum stamp payment that will be made?

A. The minimum amount of stamps any eligible producer can receive is 50 cents worth; however no payment will be made to any producer on any farm for which the computed payment for the farm is less than \$5.

16. Q. How are cotton stamp payments to be divided among tenants and landlords?

A. The computed payment for the farm will be divided in the same manner as the payment with respect to the cotton allotment is divided.

17. Q. When will cotton farmers who take part in this program get their cotton stamps?

A. As soon as possible after cotton on the farm has been measured and performance certified by the AAA County Committee.

Oil Produced in Texas Bears Heavy Tax, Survey Shows

Dallas.—More than half of all the oil produced in Texas already pays a tax of over 10 cents a barrel, a survey just completed by Texas Mid-Continent Oil and Gas Association statisticians shows.

The survey, based on tabulation of tax records of all 254 counties and of independent taxing subdivisions, shows that more than half of the State's oil bears taxes of 10.26 cents a barrel. All of the oil produced in Texas pays an average tax of 9.23 cents a barrel, while in some counties the taxes amount to 15 and 20 cents per barrel.

"Texas oil producers now pay 22 separate taxes, or 21 in addition to the State gross production tax," a statement today from the association points out. "In fact, analysis of the various tax levies borne by oil produced in 33 leading Texas oil counties (which produce over half of the State's total crude output) show that the State gross production tax of 29 cents of each dollar collected in State and local taxes on oil production and producing properties. The fact that so much of this oil already pays over 10 cents a barrel is noteworthy in view of statements heard that Texas oil should pay 10 cents a barrel tax."

These 22 taxes do not include any paid on refining, pipe lines or any branch of the industry except production. Nor do they include the gasoline taxes paid by the individual motorist.

"The oil tax situation is different from that of any other State," the association statement explains. "There are more than 9,000 separate local taxing subdivisions in our State, each of which is empowered under the Texas constitution to levy and collect taxes. Many of these are independent taxing agencies such as cities, independent school districts, water districts, road districts, etc. Every oil field within the jurisdiction of any of these taxing agencies is subject to property assessments and tax levies deemed necessary by the respective taxing officials. And all of these taxes must be paid by the Texas oil producer from the money he receives for his petroleum, his sole source of income."

Automatic Windshield Washer Is Popular Accessory of Pontiac

Winter road splash, drying on windshields and obscuring drivers' vision, is skyrocketing the sale of a unique Pontiac accessory—the Automatic Windshield Washer, according to D. U. Bathrick, general sales manager of Pontiac Motor Division.

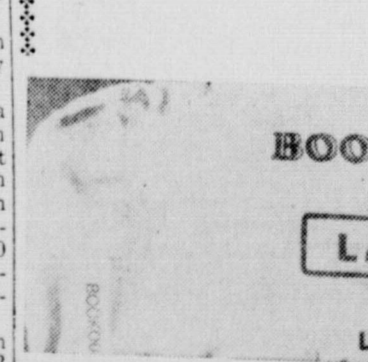

The accessory has a year round value, Bathrick points out, because windshields are dust covered 90 per cent of the time, intensifying the glare of oncoming headlights at night and causing unnecessary eye strain.

With Pontiac's Automatic Windshield washer, a press of a button sends a spray of water on to the windshield, allowing the wipers to clean bugs, dust and mud. The spray stops automatically after six seconds and one filling of the reservoir lasts 400 to 600 miles of normal driving.

It is said that coffee consumption is effected less by price changes than any other food commodity. When the price increased from 14 cents a pound in 1919 to 22 cents the following year the per capita consumption instead of falling off increased 40 per cent.

prescribed in the by-laws; and shall hold an annual meeting at least three weeks prior to the meeting of the commissioners' court at which appropriations for the ensuing year are to be considered.

In this connection the Board has already tentatively agreed that it will employ a graduate nurse as superintendent who shall be responsible to the Board for the internal workings of the hospital. This, of course, will eliminate the overlapping of authority and consequently insure smoother operation of the hospital. The Superintendent, it is to be borne in mind, is directly and at all times responsible to the Board and is subject to discharge at any time by such Board.

We appreciate your co-operation in this matter and invite you to consider carefully the information that has been furnished you in this article and other articles in The Foard County News in order that you may satisfy yourself as to the status of the hospital and any further information that you might desire will be furnished without hesitation, as our prime purpose is that the people be fully enlightened in all respects appertaining to this hospital.

THOUGHTS OF SERIOUS MOMENTS

I have learned silence from the talkative, toleration from the intolerant, and kindness from the unkind; yet strange, I am ungrateful to those teachers.—Kahlil Gibran.

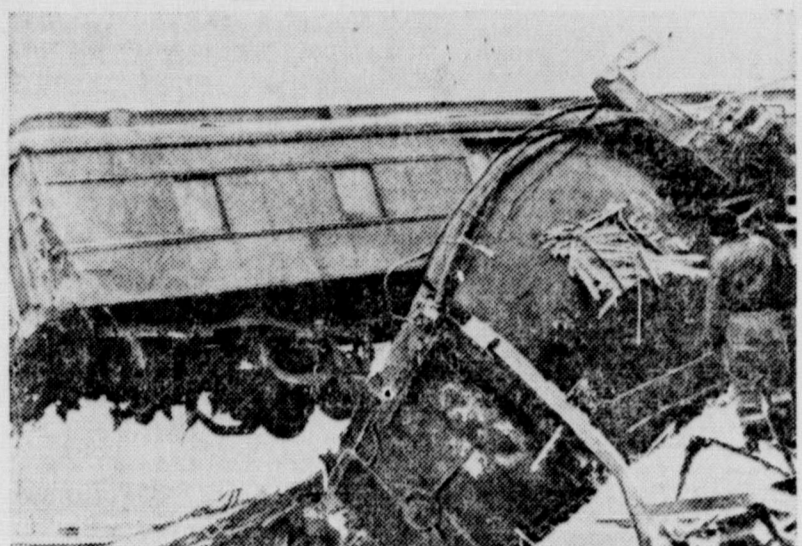

The more we know, the better we forgive; who'er feels deeply, feels for all who live.—Mme. De Staël.

We should endeavor to be long-suffering, faithful, and charitable with all. To this small effort let us add one more privilege—namely, silence whenever it can substitute censure.—Mary Baker Eddy.

As soon as you can say what you think, and not what some other person has thought for you, you are on the way to being a remarkable man.—J. M. Barrie.

The glow of one warm thought is to me worth more than money.—Thomas Jefferson.

moving to Old Margaret, Hardeman County, (now Foard), on March 20, 1885. Mr. Roberts, first judge of Foard County, passed away in Denton County Feb. 19, 1912.

In the summer of 1906, Mr. and Mrs. Roberts and children moved to High Rolls, N. M., where they resided for about two years. From High Rolls they moved to El Paso, from El Paso to Comanche County, and from Comanche County to Denton. After the death of her husband Mrs. Roberts claimed Denton as her home, but most of the time was spent in the home of her daughter, Mrs. M. T. Lincecum, at Altus, Okla.

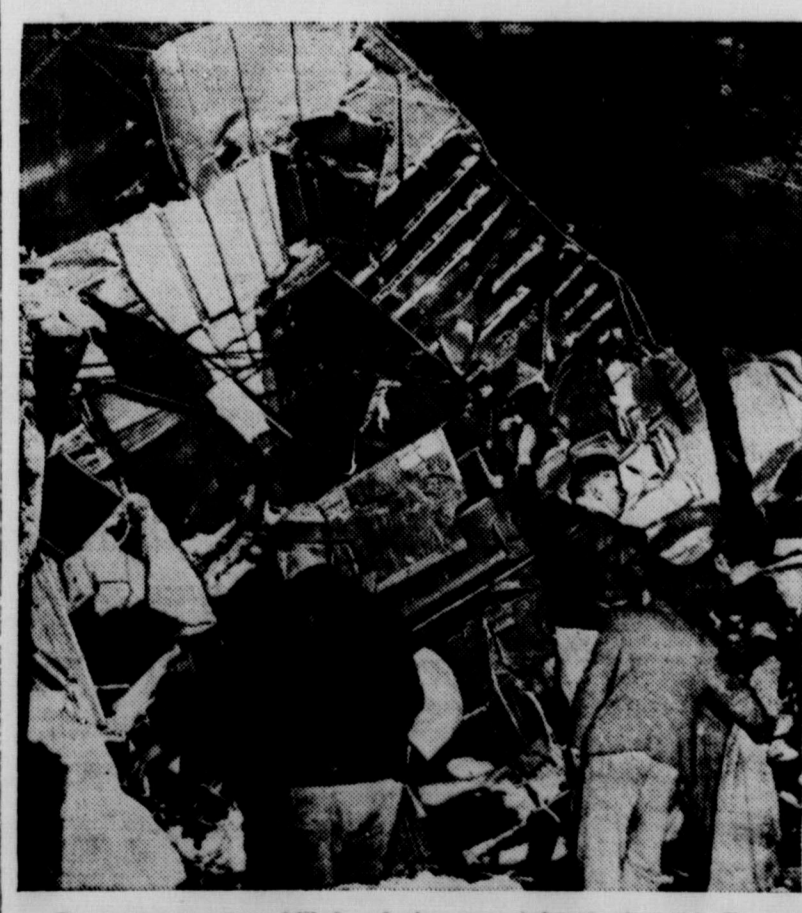

Mrs. Roberts was converted and joined the Methodist Church at 12 years of age and had lived a consistent Christian life, a truly great character. She was a charter member of the Old Margaret Methodist Church and the Crowell Methodist Church.

Her father, Andrew Jackson Standlee, was killed in the Confederate service, and her husband was also a Confederate soldier, serving the cause of the South through four years of the conflict.

She is survived by seven sons and two daughters, N. J. Roberts of Crowell, M. V. Roberts of Overton, J. C. Roberts of San Antonio, Standlee D. Roberts of Phoenix, Ariz., Ben H. Roberts of Greenwood, La., Dr. Ector Roberts of Denton, Pat N. Roberts of McKinney, Mrs. M. T. Lincecum of Altus, Okla., and Mrs. Claude C. Donaldson of Tahoka; 19 grandchildren, 4 great grandchildren, one step-daughter and several step grandchildren.

Out-of-town relatives and friends attending the funeral are as follows: M. V. Roberts of Overton and his son, Monroe Roberts, of Tuleo; Mr. and Mrs. John C. Roberts and son, John Clarke, of San Antonio; Mr. and Mrs. Ben H. Roberts and daughters, Ruth and Marilyn, of Greenwood, La.; Mr. and Mrs. H. E. Roberts, Mrs. Roland and Mrs. Montgomery, of Denton; Mr. and Mrs. M. T. Lincecum and children, M. T. Jr., Roberts and Mary Lois, and Mr. and Mrs. Sam Lincecum of Altus, Okla.; Mr. and Mrs. Claude Donaldson and children, Claude Jr. and Jane, of Tahoka; Mr. and Mrs. Pat Neff Roberts and children, Pat Neff Jr. and Helen Jane, of McKinney; Mr. and Mrs. Joe Y. Roberts and children, Joan and Jackie, of Pampa; Judge and Mrs. M. M. Hankins, Stayton Hankins, Mr. and Mrs. W. C. Wheat and children, and Mr. and Mrs. Ray Wheat, of Quanah; Mrs. Mary Faulkner and son of Childress; Miss Sarah Wheat of Dallas; Mr. and Mrs. Mike Baker of Greenville; Mrs. Don Curnutt, San Antonio; Miss Mary Standlee, Monday; Mr. and Mrs. Ed Standlee, Coates; Jack Standlee, Mr. and Mrs. Bryan Standlee, Mr. and Mrs. Hayden Ritchie and Miss Naomi Lincecum, Vernon; Mr. and Mrs. Geo. Vaughn and daughters, Farmers Valley.

F. H. T. GIRLS TO ATTEND AREA MEETING

Next Saturday, March 7, the officers of the Crowell F. H. T. Club, along with the nominees for area officers will attend Area II meeting to be held in Spur. They will leave Crowell early Saturday morning and return some time Saturday night.

NONSENSICAL NONSENSE

Me and Pa was settin' by the ice box one cold summer day when he told me if I wanted to go hunting. I asked him I didn't care so I called up all the dogs except old Shorty and I called him up too. We went down to the pumpkin patch planted in corn where we saw a coon. I chased the coon around and around and up a tree. I was up in the tree chasing that coon around and around and around when I heard something fall. I looked around and it was me. All the dogs ran over me except old Shorty and he ran over me, too. I decided that I'd had enough of the place so I went to see Polly, that's my gal. I put the saddle off my horse, led the fence up to him and got on and went a walking down a public highway when my horse threw me right in the middle of a briar patch. That skinned me up some but I didn't care 'cause I was going to see Polly; that's my gal. When I got there I tied my horse to a bantam rooster's hind leg, knocked on the horse and went in. I threw my hat in the fireplace and spit in the middle of the bed. Me and Polly set around discussing, recussing, and cussing ticks and politics when she told me if I liked to pick beans. I asked her all right, so we went down to the oat patch planted in wheat. She told me if I could climb that tree. I asked her I reckon I could since I'd climbed all the trees in the country except one and I'd climbed that one, too. So I climbed down the peach tree to pick cherries to make a huckleberry pie with. Soon I heard something hit the ground. I looked around and it was me! I fell right straddle of a smooth bare wire fence, both feet on the same side. I thought I'd had enough of that place so I went back and untied my horse from the bantam rooster's hind leg, led the fence up to the horse and got off. I went home, threw the saddle up on the bottom of the barn, pitched the horse in the water trough and I ain't been back that since!

F. H. T. MEETING

The Crowell F. H. T. Club met in the home economics department Thursday, Feb. 20, for its regular monthly meeting. The program was on glamour, with Mary Evelyn Edwards as leader. Those who took part on the program were Mary Edwards, Virginia Thomas, Doris Campbell and Yvonne McLain. The hostesses were Evelyn Seales, Lois Pickett, Wanda Evans, Dovey Barker and Betty Zeibig.

F. H. T. NOMINEES

The officers of the Crowell F. H. T. Club met for a called meeting last Tuesday morning to elect nominees for the Area officers. Those nominated were: June Billington, president; Virginia Thom-

as, vice president; Margaret Claire Shirley, recording secretary; Mary Evelyn Edwards, corresponding secretary; Wanda Ketchersid, treasurer; Joyzelle Tysinger, parliamentarian; Marjorie Davidson, reporter.

The girls will attend the area meeting to be held in Spur next Saturday, and from the group of nominees representing all the chapters in this area the officers will be chosen.

Good luck, girls, we're betting on you!

CAMPUS CHAT

Well, the seniors still haven't gotten their party after all that fancy petition they got up! Oh, well! We may have gotten one by senior day—think so maybe? Crowell High School has some really good looking girls. (Quote an article dropped in Locker 44). Some of them are Ludell Murphy, Lois Pickett, Margaret Claire Shirley, Reed Sanders, Virginia Thomas, Jane Roark, Mary Curtis, Wanda Evans, Marjorie Pechacek, Virginia Sanders, Jean Orr, Lavonne Kenner, Mary Edwards, and oodles of others.

Well, we are certainly glad to hear that Mary B. Curtis and T. L. Owens are still sweet on each other!

Evelyn Seales is noted for her swell personality and lovely eyes. She likes a boy named—oh, well, you guess!

Virginia Sanders is really lucky about her boy friend (we wonder who?), but no wonder, what with those dreamy eyes and long eyelashes!

Mr. Foster has some funny ways, but after all he is a grand sport and he helps to brighten up Crowell high school, as well as do many more teachers—and I do mean you!

Say, who was Lois Pickett riding around with the other day? You are not doing bad, kid! (Ed's note: Your guess is as good as mine!)

Now, Jane Roark is certainly one cute freshman. Who, we wonder, is her boy friend, or is she immune to them like me?

Have you noticed that Reed Sanders hasn't got a temper? She is one of the sweetest girls in school!

What is Betty Shaw Kimsey's main interest in Tech? Anywho? A flying student, maybe? Is her theme song: "Who Will My Pilot Be?"

And we wish to know why Edna Lou Brisco takes such an interest in typing speed tests? Speaking of typing, Richard Bird is fast driving all the typing students mind. Richard types so much that he has practically a perfect grade, which makes all of the other grades look like zero compared to his. You see he types all of his study halls, at noon, after school, after supper and way on into the night. Say, what is this? That guy must be nuts! He is—about typing!

Geel! Bobby, we're really sorry that you have to move to Sweetwater. So long, Buck! We wonder why Bobby Cooper likes hooks instead of girls; Who John Hutchinson's girl at Holiday is; Where John Carter got that cute little curl; Who Doris Denton's boy friend is; Why Charles Waters gets so much attention.

WHEN THE SENIORS TOOK OVER

"Slightly late," you'll probably say, when you read this, but it just couldn't be helped. There's several things that you may not know about.
 For instance, Sammie Gene Mills, who worked at Plunkett's cafe, looked for quite a long time before she found out that there was no such thing as a pie-stretcher.
 Frances Haseloff found that her work at Ferguson Bros. wasn't all ice cream sodas! And speaking of drug stores, the soda jerk-er blood must run in the Haseloff family since Junior worked at Reader's.
 Did Stanley Sanders really report to work at Fox-Way Grocery

Methodist Church
 Will you fancy with me that God is taking away, with him, all people of America who attend church and make possible our moral fabric. He is taking them out of the world and leaving the church buildings intact. Then you and I, placing ourselves in the position of those left, just what would we do about world situations? Would we let the churches become neglected and delapidated? Would we take the attitude that this organization of civilization was never worth what it cost and its going is not to be regretted? And now since those who supported it are out of the way, we who are supposed to be left have the chance of ordering a new form of living, just what kind of institution would be created to meet that enate moral consciousness of man?

More people attend church in spring and fall than do in winter and summer. Now that the spring months are on us and weather conditions seem more favorable, those who have stayed with the church during the winter months would be delighted to have the recruits rally to the cause and lend their support.
 The hours of services are: Sunday School 9:45 a. m.; church, 11 a. m. and 7:30 p. m. Epworth League meets each Sunday in the social hall at 6:45 p. m. The Woman's Society of Christian Service meets on Monday, 3 p. m. Other services announced each Sunday as to time and place of meeting. If you are a Methodist, Methodist inclined, or are in town without a church home, why not avail yourself of the services above announced. Let's make America more Christian.

 "Man" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, March 9.
 The Golden Text is: "Beloved, now are we the sons of God, and it doth not yet appear what we shall be; but we know that, when he shall appear, we shall be like him; for we shall see him as he is." (1 John 3:2).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "If any of you lack wisdom, let him ask of God, that giveth to all men liberally, and upbraideth not; and it shall be given him" (James 1:5).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Spirit imparts the understanding which uplifts consciousness and leads into all truth. This understanding is not intellectual, is not the result of scholarly attainments; it is the reality of all things brought to light. God's ideas reflect the immortal, unerring, and infinite." Marriage of Local Couple Announced Here Last Week

The marriage of Miss Syble Mullins to Sam David Russell took place on February 7th at Altus, Okla., and was announced here last Thursday.

The ring ceremony was performed at the Methodist parsonage with the pastor of the Altus church, Rev. R. O. Callahan, performing the rites. The couple was accompanied by Miss Beatrice Mullins, sister of the bride.

Mrs. Russell is the daughter of Mr. and Mrs. C. D. Mullins and was born and reared in Foard County. She is a member of the Senior class of the local High School and will graduate in May.

Mr. Russell is the son of Mr. and Mrs. Tom Russell and the grandson of Mr. and Mrs. W. S. J. Russell, and he also was born and reared in Foard County. He was graduated from the Crowell High School in 1939. He then attended a business school in Wichita Falls. Since finishing a business course, he has been employed by the West Texas Utilities Company here.

For her marriage, Mrs. Russell was attired in a blue costume suit with black accessories.

Mr. and Mrs. Russell are at present living in the home of his parents, Mr. and Mrs. Tom Russell.

OKLAHOMA COUPLE WED IN CROWELL WEDNESDAY

Cecil Henry Watkins and Miss Bonnie Rhodes of Cotton County, Okla., were married Tuesday afternoon in the parsonage of the First Methodist Church of Crowell with the pastor, Rev. H. A. Longino, performing the ceremony.

Truscott Girl Chosen for Sweetheart Honor by Texas Tech Club

Miss Catherine Browning, daughter of Mr. and Mrs. C. C. Browning of Truscott, was one of six members presented at the Las Chaparritas annual sweetheart presentation ball held at the Lubbock Hotel Feb. 14, according to a news release from the Toreador college paper.

The club carried its traditional theme of Valentine in the form of an old-fashioned garden with trailing dog-wood, primroses and jonquils as the background.

Miss Browning entered from the blue shadows of the garden onto a white bridge with entwined heart rails which arched over blue reflectors. She was met at the "garden gate" by her escort after walking down "Sweetheart Lane" to the tune of the club song, "Sweethearts on Parade."

The miniature fence across the corner of the ball room separated the setting from the dance floor. Around the entire ball rooms were lattices with huge primroses and jonquils and hearts covered with pastel colored flowers. The ceiling was shaded into blue indirect lighting to resemble heavy and light shadows.

Miss Browning wore a pearl pink marquisette frock with a sweetheart neckline, full sleeves and bouffant skirt with inserts of lace. She wore a single strand of pink pearls and carried an arm bouquet of pink roses, blue iris and acacia and two blue iris in her hair. She was escorted by Bill Potts of Lubbock.

The Las Chaparritas is the oldest woman's social club on the Tech campus.

FORTY-TWO CLUB

Mrs. Paul Shirley entertained the members of the "42" Club and a number of additional guests at her home on Tuesday afternoon.

The game was enjoyed for an hour and a half and the "84" prize went to Mrs. W. C. McKown.

The hostess served a delicious refreshment plate to the members present and to Mrs. Allen Sanders, Mrs. Stella Brooks of Mineral Wells, Mrs. Grover Cole, Mrs. A. F. Wright and Mrs. Charles Ferguson.

ADELPHIAN CLUB

The Adelpian Club met Wednesday, Feb. 26, at the club house for a book review.

Mrs. John Razor discussed interesting points from the life of the author, Ben Ames Williams, one of the nation's youngest writers.

Mrs. W. B. Johnson gave a splendid review of "Mr. Secretary," which is a biography in the form of an autobiography. It is the life and thoughts of Stanton, one of the most interesting and influential politicians of Civil War days. Williams, in order to get material for this book, studied over fifty books of history.

The club will meet for a "Texas Day Tea" on March 12.

FOARD CITY H. D. CLUB

"The best way to set out roses is not to put them too deep in the ground," Miss Joeline Vannoy told the Foard City Home Demonstration Club members at the club meeting Tuesday at the home of Mrs. J. R. Merriman. "If they are dried out, soak them about an hour before setting them out," continued Miss Vannoy.

Two programs were outlined at this meeting. The latest methods on cooking meats was the second program.

Candidates for Mayor and Aldermen Announce This Week

The News is authorized to announce this week C. B. Graham as a candidate for mayor of the City of Crowell, and J. R. Beverly, M. L. Hughton and Hubert Brown as candidates for aldermen, in the election to be held on April 1.

These men have decided to make the races for these offices after receiving urgent solicitation from many friends.

GOURD-SHAPED EGG

W. C. Bond of Thalia brought a gourd-shaped egg to The News office Friday. A figure "7" was imprinted on the neck of the peculiarly shaped egg.

Mr. Bond told of another oddity that he had at his place in Thalia. He has three cats that possess eighteen feet. The two extra feet on each cat are on the front paws. One of the cats also has an extra toe on its hind feet.

Here's A Good Investment: Send A Police Officer To The National Police School

Uncle Sam's G-man school will make a superleuth of any policeman, writes Fulton Oursler, editor of Liberty magazine in the February number of The Rotarian magazine. There is no charge for tuition, but the student has to pay his own expenses. "As an advance in law enforcement," he asserts, "the value of the school work is incalculable."

Oursler, whose writing of thriller tales is backed by research in crime prevention, says, "I believe that law enforcement would be greatly accelerated if every community in the U. S. would send one student to the National Police Academy." Over 500 have already graduated from the 12-week course, and it is estimated they have shared their knowledge with 100,000 brother officers.

Stories of scientific crime detection by backwoods officers are recounted, and some knowledge of what the local police forces with the "G-men" in a co-operative service is given. The greatest drawback to complete use of the school, Oursler points out, is the cost of living while at school. "While tuition is free, a man's way must be paid to Washington, D. C., and he must be able to live during three months' training. Yet was there ever a bigger bargain in civic improvement?"

Many officers have sacrificed their time and borrowed money to take the course, and many of them have been able to train their whole city or county police in scientific ways to combat criminals, to get all the evidence and make it stick in court.

Last, Oursler tells that "students also learn the principles of crime prevention, of working in the fields of juvenile delinquency. They come back to their communities not only man hunters, but boy savers."

a moderate temperature, said Mrs. Grady Halbert. She also stated water should never be added to the pan in roasting meat.

Sanitation and Government inspection on meat, was given by Mrs. Dock Borchardt, which was very interesting.

Next meeting will be at the club house, March 18, with Mrs. W. M. Morris as hostess.

ROTARY CLUB

Rotarians Spencer Marrow, Tom Preston and Lewin Plunkett of Quanah were visitors at the Wednesday meeting of the Crowell Rotary Club. The program, in charge of Ernest Spears, consisted of two interesting talks by Merl Kincaid and Hubert Brown. Mr. Kincaid talked on European conditions and Mr. Brown on the growing of wheat.

Police Clash With Pickets at Steel Plant

Police try to force hole through pickets to allow car to pass through Number 1 gate of the big Lackawanna plant of the Bethlehem Steel company, near Buffalo, N. Y., during the C. I. O. strike, which periled defense production. The Bethlehem company has 1 1/2 billion dollars' worth of military orders.

Two Minute Sermon (By Thomas Hartwell)

Tares In the Garden of Memory: Few of us but have planted gardens. We have watched them, and tended them, and nursed the desirable flowers and fruits and vegetables into full fruition, carefully removing the weeds and brambles before they become large enough to do harm. We desire that our gardens shall be fruitful and well kept and well arranged. There are many kinds of gardens, vegetable gardens, fruit gardens and flower gardens. There is also the garden of our minds and our memory. It is important that our flower garden be kept free from weeds and free from brambles, but how much more important is it that the garden of our memory be kept free from harmful things, that will, if we let them, overrun it, and choke out all the good things. To accomplish this there must be eternal vigilance, there must be a lot of forgiving, and a lot of forgetting of harmful and evil things, and a lot of cultivating and nurturing of the good and wholesome and the beautiful things. Christ brought to the world a new philosophy which concerned itself with our mind and our thoughts. According to this philosophy if we are to have clean, strong, wholesome lives, we must have clean, strong, wholesome minds—for as a man

thinketh so is he. We must keep clean the garden of memory.

The three United States mints in Philadelphia, Denver and San Francisco turned out last year a total of 1,209,478,982 coins worth \$50,157,850.32. This was an all time record.

A survey of 160 companies of this country producing 95 per cent of the nation's steel shows that in excess of \$282,000,000 will be spent during 1941 to increase productive steel capacity in the United States.

A check up of the campaign expenses of the major parties during the recent campaign showed that there was spent a total of \$22,740,313 of which \$14,941,142 was spent by the Republicans and \$6,095,357 was spent by the Democrats.

Margaret Cast to Present Play at Riverside School

The 3-act comedy, "Aunt Emma Sees It Through," which won so much favor in two previous performances, will be presented by the Margaret Parent-Teacher Association at the Riverside school auditorium Friday night, March 7, under the auspices of the Riverside Home Demonstration Club.

Following the second performance the cast was disbanded, but after a second urgent request came from a single community, an informal meeting of the original cast was called in Margaret by Mrs. A. B. Owens, president of the local unit of the P. T. A., at which time it was decided to reopen the play.

Rehearsals are under way this week by the seven featured players, Mrs. A. B. Owens, Miss Ethel Kempf, Mrs. John L. Hunter, Rev. Don Culbertson, Raymond Sikes, William Bradford and Cecil Ray Moore.

SAFETY SLOGANS

Use caution—it beats blazes. You can buy spare parts for your car but not for your body. Careful workmen always make good and are seldom injured. New legs do not grow quickly, either, come to think of it. "Brake inspection"—your protection. A good job and a careless man are soon parted. Fire feeds on careless deeds. The cost of safety is only a thought. Pour oil on troubled waters, but not on the fire. Subscriptions to the Congressional Record are accepted by the Government Printing Office at the rate of \$1.50 a month or \$7.50 for five months from January to June. Your protection—brake inspection.
