## Mayor Orders All Unmuzzled Dogs Killed After Mad Dog Bites Six People In City Last Week

Mayor and city council ordered that all unmuzzled dogs in the City of Crowell be killed after a mad dog bit six people in the city last week.

The mad dog was shot and killed by Mayor C. T. Schlagal. The dog was loose in the city on May 28 and six persons were bitten. The city council is helping in this emergency.

The city council also ordered that all dogs which have been found running in the city limits be killed immediately.

Parents are cautioned to be careful with their children when they are out with their dogs. There were no dogs bitten by the mad dog.

It is urged that parents be careful with their children when they are out with their dogs.

## Farmers Favor Market Quota

Producers in Foard County favored the 1941 wheat market quota, according to an official count of the votes cast at a referendum Saturday.

The referendum was held on May 25 and 26. A total of 1,200 votes were cast in the referendum.

## Club Picnic Off Due to Weather Conditions

The wet condition of the roads and the large number of mosquitoes which exist on account of the rains, the picnic scheduled for this week at the Garden Club, has been called off.

The picnic was scheduled for this week at the Garden Club, has been called off due to weather conditions.

## Marines Crack Picket Lines

Trucks, guarded by marines, carried 800 A. F. of L. workers to work at the Moore Drydock company.

Calif., one of the 11 defense plants affected by a strike of A. F. of L. machinists for higher wages.

Photo shows navy trucks passing through picket line formed by striking machinists' union.

## O. B. Smith of Memphis Wins First Annual Spring Lake Country Club Golf Tourney; Defeats T. S. Haney

O. B. Smith of Memphis won the first annual one-day golf tournament of the Spring Lake Country Club held Sunday by defeating T. S. Haney of Crowell.

Smith also won the long driving contest with a distance of 216 yards.

Haney dropped the first hole to Smith by going one over par, but from that point on, the golfers matched stroke for stroke.

Smith shot an even par and Haney's score was one over.

The championship match was followed by a gallery of about 200 people.

Smith qualified for the tournament with a 73 and Haney turned in a 74.

Oswalt Sr. of Vernon, Frank Foxall of Memphis and J. T. Billington of Crowell to reach the finals.

Haney dropped City Walker of Quanah, Guy Crews of Crowell and Gordon Bell of Crowell to go into the championship game.

This was one of the most outstanding golf tournaments that will be held in West Texas this year.

The 110 players, including the outstanding players of the Greenbelt, entered the fast field of play.

The matches were slow in getting started due to a heavy rain early Sunday morning.

The championship flight was very fast as the lowest qualifying score in the bracket was 71 and the highest was 74.

The first flight was made up of golfers who had qualifying scores of 75 to 82.

Quannah, Memphis, Paducah, Vernon, Truscott, Childers, Fort Worth and Crowell were represented in the tourney.

Over \$100 in prizes were awarded to the flight winners, runner-up and consolation winners by Irving Fisch, general chairman.

A gold loving cup, given by the West Texas Utilities Company, was awarded to Mr. Smith, who also received an expensive gladstone traveling bag.

Flight winners—Lawrence Walker of Quannah defeated Ernest Newton of Quannah.

Second flight—H. B. Hill Jr. of Memphis defeated Russell McClure of Memphis.

Third flight—C. O. Davenport of Memphis defeated J. L. Boley of Quannah.

Fifth flight—Ernest Spears of Crowell defeated L. R. Magee of Quannah.

Sixth flight—Lorraine Carter defeated H. D. Shive of Vernon.

Consolation winners—Championship flight—Carl Harrison of Memphis.

First flight—Dick Coffey of Vernon.

Second flight—A. L. Howell of Paducah.

Third flight—Clint Swartwood of Vernon.

Fourth flight—Edward Magee Jr. of Quannah.

Fifth flight—Billy Marrow of Quannah.

Sixth flight—Henry Campbell of Crowell.

A free barbecue was served to the contestants at the club's picnic grounds at the noon hour.

## Thieves Enter Crowell Store Friday Morning

Over 1,500 spark plugs taken from Owens Auto Supply.

Spark plug thieves took from between 1,500 and 1,700 new spark plugs from the Owens Auto Supply in Crowell Thursday night or early Friday morning.

The thieves bored a large hole in the roof with a brace and bit. They cut a hole in the tin ceiling and slid down a rope which had been tied to a rafter.

After collecting the plugs, the unknown prowlers opened the rear door and left with their booty. Three dollars and eighty cents were also taken from the cash register.

The robbery was discovered when the store was opened Friday morning.

A hard rain fell after the hole had been cut in the roof and a part of the auto supplies were damaged by water.

## HOSPITAL NOTES

Foard County Hospital

Patients in: J. A. Stovall, surgery.

Mrs. R. S. Haskew, surgery.

Mrs. E. J. Cummings, surgery.

Patients dismissed last week: Mrs. Lula Myers, surgery.

Mrs. Ura Orr, medical.

Mrs. Leo Beggs, surgical.

OFFICE ENLARGED

Enlargement of the Self Grain Company office in Crowell was completed this week.

The room which was added, and which will serve as the main office, is 12x16 feet.

## Economic Advisor

Isadore Lubin, commissioner of labor statistics, who has been called in by President Roosevelt as his economic advisor on the \$7,000,000 lend-lease program.

## Two Weeks' Vacation Bible School to Close Friday Afternoon

The Vacation Bible School which has been in progress since May 26, under the direction of Mrs. Allen Sanders, will come to a close Friday afternoon with a picnic, and on Sunday evening at the Methodist Church the work done during the school will be exhibited.

There were about sixty enrolled for the school and the meetings were held each week day, except Saturday, at 8 p. m. and lasted until 10:30. Those attending range in age from the beginners to the intermediates.

The work offered covers a wide range from recreation to a close study of the life and travels of Christ.

The work, and the instructors engaged in this two weeks' Vacation Bible School, are as follows:

Music, in group singing—Mrs. Paul Shirley and Mrs. Allen Sanders.

Bible study—Pageantry, for junior and intermediate groups, Mrs. Moody Bursey; Life and travels of Jesus, junior and intermediates, Rev. H. A. Longino; Life of Christ in story form, primary, Lois Pickett and Margaret Claire Shirley.

Recreation—Miss Frankie Kirkpatrick and Billy Klepper.

Hand Craft Work—Wood work, Mrs. Jim Cates, Mrs. Bill Bell, John Clark Long and John Franklin Hutchinson; clay molding, Mrs. Q. V. Wingham; air planes, Hugh Longino; sewing, Mrs. Roy Todd and Mrs. Thomas Hughton.

Beginners—Mrs. Clint White, Mrs. Homer Johnson, Mrs. Jeff Bruce and Mrs. A. Y. Beverly.

The service at the Methodist Church Sunday evening at 8 o'clock will be in charge of those attending the Vacation Bible School.

## QUESTIONNAIRES MAILED

One hundred Selective Service questionnaires were mailed to registrants in Foard County during the past week by the local board, according to information released by J. R. Beverly, president of the board.

Registrants who held order numbers 401 to 500 were mailed questionnaires on May 30 and those holding order numbers 501 to 550 were mailed questionnaires on June 4.

## ATTENDING ASSEMBLY

Mrs. Paul Shirley went to Abilene Monday to take her daughter, Margaret Claire Shirley, and Evelyn Jean Seales and Evelyn Flesher, who will attend the Annual Young People's Assembly of the Northwest Texas Conference.

Mrs. Shirley returned Monday.

At the Assembly, there will be classes of instruction during the morning and interest groups and recreation in the afternoon, with vesper services following.

A consecration service on Friday will close the Assembly.

## IN U. S. ARMY AIR CORPS

Jimmie Williams and Murrell Diggs of Crowell volunteered for service in the U. S. Army Air Corps last week and left Vernon Monday for San Antonio where they will receive training.

## Rains Slow Harvest In Foard; Little More Than 30,800 Bushels Delivered to County Elevators

## Foard County Sets Two 1941 Wheat Records for Nation; Earliest Load Delivered, First Car Load Shipped

Foard County's 1941 wheat crop was the first to open in Texas, but since the first load of wheat was delivered to a Crowell elevator on May 26 only a little more than 30,800 bushels of grain had been delivered to the elevators in the county Wednesday afternoon.

Rains have made combining difficult, but the harvest should be in full sway next week if the weather remains dry.

Estimates on the yield of the new crop dropped to 10 bushels per acre just before the opening of harvest, but the yield is slightly lower in the grain that is now being cut, according to elevator men, however, it is expected that the yield will increase when later wheat is harvested.

A moisture station was set up by the elevators and any wheat with a moisture content of 16.75 per cent, or over, will not be accepted by any elevator. A dockage scale on wet wheat appears on page four.

The moisture content of the grain being brought in Wednesday was fairly low, but tests were running low. The first grain to be delivered tested 61 pounds per bushel, but since then tests are ranging from 41 up to 60, however, the grain is averaging about 54 or 55.

The highest yield reported was 21 bushels per acre. This was 70 acres owned by Pete Gamble of Thalia, which gave this yield. There are many fields in the county which will yield practically no wheat, and probably some will never be harvested. In these fields, the army worms have done much damage and the grain has been driven to the ground by wind and rains.

Reports from the elevators Wednesday afternoon showed that 24,904 bushels of grain had been received in Crowell; 5,042 at Foard City and 860 at Margaret.

Six cars of 1941 wheat have been shipped from Foard County. Five cars were shipped from Crowell and one from Foard City.

There have been a large number of combines and trucks arrive in the county this week and all of these will probably be employed in the harvest, provided dry weather prevails.

RELIEF FOR BRITAIN

The ladies of the Christian Science Church are sponsoring the packing and sending of a box for War Relief for Britain. They are inviting anyone who desires to help in the undertaking in any way, to call Mrs. Clarence Thompson or send things to her home.

Anything from a paper of needles to bed clothing will be accepted. New material will be made up by the ladies, wearing apparel or garments which can be made into children's clothes will be used. Linens, clean rags, shoes and anything of household use, such as soap, powder, etc.

The first box will be packed and sent to Boston on Thursday, June 12. From Boston, it will be sent to the proper authorities for use in war-torn Britain.

## CAMP AT LAKE PAULINE

Ten members of the Boy Scout Troop 49 of Crowell enjoyed a day of camping at Lake Pauline Tuesday, June 3. They were accompanied by the scoutmaster, Howard Ringgold, and Bennett Cooksey, field executive, who assisted in the day's program.

The Boy Scouts making the trip were Perry and Horace Todd, Kenneth and Wayne Greening, John Franklin Hutchinson, John Calvin Carter, Billy Bruce, Dan Campbell, Joe Seales and Travis Vercera.

Besides his wife, Mr. Presley is survived by five sons, S. G. of Chillicothe, Bert of Five-in-One, J. O., Ed and Clayton, of Olney; six daughters, Mrs. E. Huskey of Lytle, Texas; Mrs. L. W. Henry of Olney, Mrs. W. D. Heron of Wichita Falls, Mrs. B. D. Neal of Five-in-One, Mrs. Hines Whitman of Lovington, N. M., and Miss Maurine Presley of Vernon; one sister, Mrs. Frank Thomson of Crowell, and twenty-two grandchildren.

## President Makes Momentous Radio Address

President Roosevelt delivered his momentous "fireside chat" to the nation from the East room of the White House. He declared the existence of "an unlimited national emergency."

His listeners in the White House were cabinet members, diplomats of the Americas and other democracies and their families.

## Foard County's Quota of \$10,000,000 for Soldier-Sailor Service Clubs Is \$150; District Director Here Thursday

A quota of \$150 for Foard County in the campaign to raise \$10,000,000 in the United States by the United Service Organizations for National Defense, Inc., has been announced by the district office in Wichita Falls, which is in charge of J. H. Allison. The quota for the 13th Congressional District is \$14,940.

Mr. Allison was in Crowell Thursday afternoon and held a meeting in the court house with the following business men present: A. Y. Beverly, D. R. Magee, D. N. Bird, L. E. Archer, W. R. Womack and T. B. Klepper.

At this meeting A. Y. Beverly was elected chairman for the campaign in Foard County and L. E. Archer was elected secretary-treasurer.

No definite plan for raising this money has been announced by Mr. Beverly, however, it is believed that this amount can be raised without any sacrifice on the part of any person. Anyone caring to make a donation, can take it to Mr. Beverly or Mr. Archer.

The United Service Organizations, composed of the Y. M. C. A., the National Catholic Community Service, the Salvation Army, the Y. W. C. A., the Jewish Welfare board and the National Travelers Aid Association, has designed a program of service to soldiers, sailors and defense workers which will supply them as far as possible the same comfort, spiritual influence and hospitality they have known in their home communities.

The cost of construction of these proposed service club units will be borne by the government. But the operating costs will be carried by the United Service Organizations, which is the object of this campaign to raise funds.

## NEW CAR REGISTRATIONS

The following new motor vehicles were registered in the office of the tax assessor-collector during the past week:

S. W. Hess, Chevrolet coupe. P. B. Curd, Chevrolet sedan. Ed Wall, Plymouth sedan. E. T. Evans, Chevrolet pickup. Bobbie Burns, Chrysler sedan.

Soundphoto showing President Roosevelt as he delivered his momentous "fireside chat" to the nation from the East room of the White House. He declared the existence of "an unlimited national emergency."

# SAFER TIRES

**9.1% Stronger Cords after 5-million mile test**

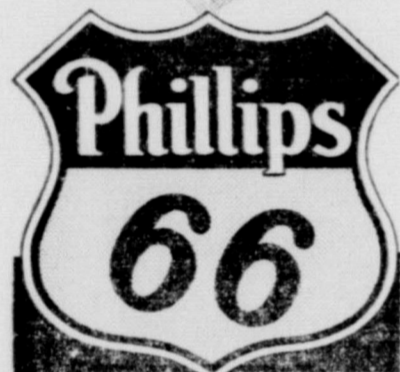

Back and forth, up and down, with every roll of your tires, the cords are constantly flexing... until sometimes they break because of flexing-fatigue.

There is one way to prevent or reduce this type of tire failure. That is to strengthen the cords, which is exactly what Lee has done!

After the famous 5-million mile Florida Road Test, Lee cords averaged 9.1 per cent stronger than the average of the other tire cords.

This extra safety... and extra miles, too... cost nothing extra in first-line Lee DeLuxe Tires. They sell for less than you guess!

Drive in for new low prices, trade-in offer, and easy-pay plan.

### RAYLAND (By J. C. Davis)

Lester Martin of Bomarton spent last week visiting relatives here.

Ewell Williams of Camp Bowie spent part of last week visiting his mother.

Misses Eunice and Sybil Hartfield of Wichita Falls spent the week-end with Mrs. Ola Williams.

Mrs. Tom Lawson went to Wichita Falls Saturday. Miss Ethelene Lawson returned home with her.

Misses Anna Jo Beazley and Ethelene Lawson returned to Wichita Falls Sunday afternoon. They have finished their business courses and will be employed there.

Mr. and Mrs. Hampton Smith and son, Robert Wayne, of Wichita Falls spent the week-end with her parents, Mr. and Mrs. Buck Clark, and family. Miss Mary Long of Burk Burnett accompanied them.

Miss Nell Clark of Wichita Falls is spending her vacation with her parents, Mr. and Mrs. Buck Clark, and family.

Miss Audrey and Alton Abston of Thalia visited here Friday.

Mrs. Belle Abston of Thalia and Mrs. Winnie Phillips and daughter, Norma, of Odessa visited Mr. and Mrs. Bert Abston and family here last week.

Mr. and Mrs. Robert Garrett of Riverside spent Sunday with Mr. and Mrs. Levi Lewellen and Mrs. Rintha Creager.

Mr. and Mrs. George Key went to Alvord Sunday to bring his father and mother, Mr. and Mrs. A. C. Key, home. Mr. and Mrs. Key had been visiting a daughter in Alvord for two weeks.

About 2 inches of rain fell here last week.

Almost all crops but early corn will have to be replanted on account of the heavy rains in the last three weeks. The sweet potato crops are standing, but almost drowned out. Some are through planting sweet potatoes. The onion crop is not very promising so far, but dry weather could improve it.

Rev. Mentana and family of Chillicothe spent the week-end with Mrs. Dera Faughn.

Steve Clark joined the CCC and left Thursday for a camp.

Mrs. Ora Blanton and Mrs.

Margie Lassiter of Vernon and Miss Billye Jean Barrett of Paducah spent Friday with their father and grandfather, J. C. Davis.

Horace Abston of near Denver, Colo., spent the week-end with relatives and friends here.

### GAMBLEVILLE (By Wilma Carroll)

Mr. and Mrs. Clarence Shultz and children of Oklahoma City and Mr. and Mrs. C. D. Haney of Five-in-One were dinner guests in the home of Mr. and Mrs. R. C. Johnson Sunday.

Mr. and Mrs. Hubert Carroll and children spent Sunday in the home of Mrs. Carroll's parents, Mr. and Mrs. Dave Abston, of Crowell.

Billie McCoy of the Black community spent from Thursday until Saturday with her grandparents, Mr. and Mrs. C. W. Carroll.

Mrs. Robert Hudgens of Thalia spent Friday morning with Mrs. Claude Orr.

Mr. and Mrs. Johnny Marr of the Vivian community spent Sunday evening with Mr. and Mrs. C. W. Carroll.

Mr. and Mrs. Tuck Ingle of Margaret spent Sunday with Mr. and Mrs. Will Tamplin and family.

Cecil Carroll returned home Sunday from Texas Tech where he has been attending school.

Mr. and Mrs. Lee Shultz of Laskie, Texas, visited Mr. and Mrs. R. C. Johnson Thursday.

Lowell Tamplin, who is in the Army camp at Fort Sill, Okla., spent Saturday night and Sunday with his parents, Mr. and Mrs. Will Tamplin.

Mr. and Mrs. Milburn Carroll spent Sunday with Mr. and Mrs. J. A. Garrett of Crowell.

Mr. and Mrs. Eunice Oden and daughter of El Paso, Mr. and Mrs. S. I. Shultz of Vernon, Mr. and Mrs. G. A. Shultz and children of Thalia, Mr. and Mrs. Clifford Clines of Tolbert, Mr. and Mrs. H. L. Shultz of Margaret, and Mrs. Huston Adkins and Mary Evelyn were all visitors in the home of Mr. and Mrs. D. M. Shultz Sunday.

Miss Ruth Patterson of Crowell was a dinner guest in the home of Mr. and Mrs. C. W. Carroll and children Friday.

Mr. and Mrs. Elton Carroll

spent Sunday in the home of Mrs. T. L. Collins of Crowell.

### MARGARET (By Mrs. John Kerley)

A bridal shower was given in honor of Mr. and Mrs. J. S. Owens Jr. Friday in the home of Mrs. C. T. Murphy. Many lovely gifts were presented the bride and groom.

Cecil Ingle is at home from Denton where he has been attending college.

Mrs. Grant Morrison went to Denton where her daughter, Ray Morrison, is attending school. She was accompanied home by Mr. and Mrs. Eldon Williamson.

Melvin Moore went to Lorenzo Wednesday.

Mr. and Mrs. Doyle McKerley went to McLean Thursday. They were accompanied by Joyce Ann Middlebrook, who stayed with her grandparents, Mr. and Mrs. W. R. McKerley.

Mr. and Mrs. Ben Bradford visited Sunday with his mother, Mrs. Sudie Bradford.

## the ROAD AHEAD

Old Man Texas is today looking ahead and planning. Beside the great farming and ranching country which Texans have built, he sees a new industrial empire here.

Already the start has been made. Some industries, such as petroleum, are now showing what can be done to utilize Texas' vast natural resources. Today this industry refines with Texas labor over four-fifths as much oil as the State produces. Its products make up nearly one-half of all Texas manufacturing. Altogether petroleum provides the living for almost one-sixth of our people.

But this is only a beginning. Texas has many other raw materials, unexcelled by any other State. Texas has in oil and gas the cheap and dependable fuel supply essential to industry. Texas is the gateway to Latin America, our new foreign market.

Each new industry means more jobs. It makes added tax values for our State and local governments, bigger payrolls for our workers, and greater prosperity for you and every other Texan.

Miss Elvira Marr, who taught in the Anson High School the past term, returned home Monday of last week.

Two Minute Sermon (By Thomas Hastwell)
A Faith By Which To Live: I can remember when the good old evangelists who went about the country preaching to men and women in revivals and camp meetings struck terror to the hearts of their listeners by telling them of the terrible fate that awaited them in a searing, fiery hell if they did not give up their wicked ways and accept Christ.

# Annual Meeting of The First Church of Christ, Scientist, in Boston, Mass., June 2, Issues Encouraging Reports

Boston, Mass., June 2.—Some 6,000 Christian Scientists from many parts of the world gathered in annual meeting today in Boston were called upon by The Christian Science Board of Directors to consecrate themselves to the defense of the democratic system of government as the best human instrument for preserving the basic rights of mankind to "life, liberty and the pursuit of happiness."

In thus definitely allying this world-wide religious movement with the defenders of democracy everywhere, the Directors stated that it was their conviction that if social and political freedom is to be preserved "democratic forms of government must be maintained."

### Directors' Report

The occasion for the stirring message of the Directors was the annual meeting of The Mother

### HEADACHE or NO HEADACHE I MUST GET DINNER

## Home Making is Fun

When you feel well. It is misery when you don't. Have you ever dragged through a day made miserable by a Headache, Neuralgia, Muscular Pains or Functional Menstrual Pains—a day when only your sense of duty kept you on the job?

### Dr. Miles Anti-Pain Pills

usually relieve Headaches. You will find them effective also in the relief of the other nagging pains mentioned above.

A package of these prompt acting pain relievers may save you hours of suffering.

Read full directions in package.

the election of John Randall Dunn of Boston and Centerville, Mass., as President of The Mother Church for the ensuing year. The chief duty of the President is to preside at the Annual Meeting.

The new President is the son of James Randall Dunn, long identified with the United States Immigration Service. He is a native of Massillon, Ohio, receiving his schooling there and in San Francisco and from private tutors. For a few years he was in the service of the government, but gave up his work for the healing ministry of Christian Science. He has served this movement many years in a large variety of positions including First Reader of The Mother Church and as a Christian Science lecturer, during which he carried the message of Christian Science into all parts of the world.

The incoming president accentuated the theme of spiritual progress with the reassuring statement that "the present mighty world upheaval does not portend the breaking up of Christian civilization or the plunging of humanity into chaotic darkness."

He viewed the present conflict in the light of a world house-cleaning, during which individual and national sin, tyranny, greed, self-will and lust for power are being brought to the surface of world thinking, ripe for destruction. And these ills, rather than world civilization, are the things that will be destroyed.

What does the Discoverer and Founder of Christian Science "tell us of the problems which confront us at this troublous hour?" And he answered: "Fifty years ago, with marvelous prophetic vision she wrote: 'This material world is even now becoming the arena for conflicting forces. On one side there will be discord and dismay; on the other side there will be Science and peace. The breaking up of material beliefs may seem to be famine and pestilence, want and woe, sin, sickness, and death, which assume new phases until their nothingness appears. (Science and Health with Key to the Scriptures, p. 96).'"

Hence, the speaker stated that everyone who names the name of Christian Science should and can remain calm, patient and courageous while this great world-wide house-cleaning seems to occupy the stage of human thought.

Mrs. Margaret Matters, retiring president, pointed to the statement of Mary Baker Eddy, as pertinent to this period: "The spiritual status is urging its highest demands on mortals, and material history is drawing to a close" (No and Yes, p. 45).

### Church Services Uninterrupted

Despite the troublous times in Europe reports presented to the meeting conveyed the interesting fact that church services are being conducted generally without interruption in the countries abroad. Some of the periodicals of The Christian Science Publishing Society were said to be received regularly in all countries of Europe, including the German-occupied territories and the British Isles. It was reported by the trustees of the Publishing Society that a Spanish translation of the Quarterly will be added beginning

with the October issue.

Herbert W. Beck, manager of committees on publication, reported that the work has changed over the course of years from a defensive to a constructive, educational nature. The number of printed attacks upon Christian Science, he said, have decreased and in place thereof careful attention is given to promoting a greater understanding of this religion by means of the radio and through the newspapers.

### Evidences of Spiritual Growth

The Department of Branches

and Practitioners indicated in its report that the urge for spiritual refreshment and regeneration goes on despite the world conflict, and in some places the spiritual urge springs from the current need for dependence upon something more substantial than material instruments.

Evidence of this spiritual growth was found in the establishment of 37 new branches of The Mother Church, seven of them in England, one in Switzerland, one in Africa and one each in British Guiana and the West Indies.

Twenty Societies were reported to have taken the title of Church and five new university organizations were formed and qualified for official approval.

In the report of the trustees under the Will of Mary Baker Eddy, it was announced that since the Trust was established in 1913, more than \$6,000,000 has been expended by it towards Christian Science Church activities throughout the world.

Reports were heard from various parts of the world indicating to those at the meeting that spir-

itual progress is being made rather than diminished rampant forces of quest.

# ATTENTION! Wheat Farmers

## WHEAT WITH TOO MUCH MOISTURE WILL NOT KEEP IN OUR ELEVATORS!

Number 1 Wheat must not have more than 14 per cent moisture.

Wheat that contains 15 3/4 per cent moisture or above is classed as sample grade and is not eligible for a government loan.

We have absorbed the loss between the farmer and the Commodity Credit Corporation on high moisture wheat in the past, but it has become impossible for us to do this any longer.

We have secured the services of Mr. J. O. Harrington, who has had 20 years experience inspecting and milling wheat, and all wheat will be graded by him until such time that all wheat is thoroughly ripe and dry. The loss in weights on wet wheat is tremendous and, of course, our elevators will take this loss up to a moisture percentage of 1.75.

Don't you think that this is fair to you and ourselves? We earnestly ask your co-operation in this matter.

Discounts on tough wheat grading No. 1: 14.1 to 14.5 moisture, 1c per bu.; 14.5 to 15.0 moisture, 2c per bu.; 15.1 to 15.5 moisture, 3c per bu. Wheat of which the moisture content is 15.75, or more, will not be accepted by any elevator. Note: Wheat in excess of 15.5 moisture grades "Sample."

## Farmer's Co-Operative Elevator

### THIS WEEK IN HISTORY

June 9.—Vigilance committee formed in San Francisco, 1851. Charles Dickens, died, 1870.

June 10.—Navigation Acts enforced in the Colonies, 1664. The monoplane Southern Cross, reached Sidney, Australia, after 7,800 miles flight, Pacific ocean, from Oakland, Calif., the longest flight ever made over water, 1928.

June 11.—Committee appointed by Colonial Congress and drew up the Declaration of Independence, 1776.

June 12.—New York incorporated as city, 1665. Coolidge nominated for president, 1924.

June 13.—Lord Baltimore granted charter to Maryland, 1633. Harriett Beecher Stowe born, 1811.

June 14.—United States Congress decided on a national flag, 1777.

June 15.—Franklin proved identity of electricity and lightning, 1752. Arkansas admitted to the Union, 1836.

### Your Horoscope

June 1, 2, 3, 4.—You have a happy faculty of finding some good in every situation. Music, poetry, and inventions interest you. You are proud, ambitious and independent and at times you are almost reckless. You are quiet, reserved and curious, and are given to changing your opinions suddenly.

June 5, 6, 7.—Your literary talents are marked, but you have a caustic vein which makes people distrust you. You want to see justice done. You form your conclusions by impressions rather than by reasoning. You have a high standard of morals. You have a deep love nature but your home conditions are not always happy. Loyalty to your friends is marked. You sometimes make decisions before investigating. Your nature is forceful but slow.

Edgar Bergen began his vaudeville act with Charlie McCarthy as a means of paying his way through Northwestern University. From vaudeville he turned to night clubs. One night in 1936 at New York's Rainbow Room he attracted the attention of Rudy Vallee who invited him to appear on his program. He was an overnight sensation.

### Control of Mosquitos Improve Health Conditions in State

"A marked saving in lives and improved health conditions may be obtained in measure by an educational program for the control of the mosquito," suggests Dr. Geo. W. Cox, State Health Officer.

"Malaria is transmitted to humans," he said, "by the bite of the Anopheles mosquito. This mosquito acquires the malaria parasites by biting a person who has these parasites in his blood. She (it is the female who transmits this disease) then bites a well person. The parasites enter the blood, grow, and multiply there. Poisons are formed and carried in the blood stream to all parts of the body. The person bitten by the carrier mosquito begins to shiver with chills, burn with fever, and to have a headache.

"Prevention of malaria should start with the protection of humans from the bite of the infected mosquito and continue through to the elimination of the mosquito.

The protection of humans may be accomplished by screening all houses to prevent the entrance of mosquitoes. A 16-inch wire screen should be placed over all openings. Be sure that all chimneys, cracks, and other openings are covered.

"The malaria mosquito breeds in still water and the pools and grassy edges of running water, as well as in many places where water is allowed to collect or stand. The female mosquito then lays her eggs on the surface of the water, where they float, and in a few days hatch into 'wiggle-tails.' These changes must take place in the water and require twelve to fourteen days in summer to complete the cycle.

"In order to prevent the malaria mosquito from breeding, destroy their shelters by removing all brush and weeds; and drain or otherwise control their breeding places in water by spraying the surface with oil or putting top-feeding minnows in waters where oil or drainage cannot be used. Such a campaign will be waged around all military areas in Texas."

### Vocational Education

Because national defense calls for skilled and semi-skilled labor, many who otherwise could be utilized in the defense program either are without jobs, or in lower paid classifications.

The national defense training program is paid for by the federal government, offering them opportunity to become employable in industries handling national defense contracts. While there is no great shortage of labor, there is a shortage of skilled labor. In Texas the program is handled through the State Board for Vocational Education. The programs have been set up locally through the public school systems.

Men are being trained upon the recommendation of the Texas State Employment Service and the Work Projects Administration. Training also is provided for out-of-school youth and enrollees recommended by the National Youth Administration. For those out of jobs for several years, refresher training is afforded to make them employable.

Placements are handled by the Texas State Employment Service. The placement record in Texas has been about 85 per cent. Texans in the eligibility class who fail to take advantage of this free instruction placing them in a position for substantial earnings are losing a valuable opportunity. —Austin Statesman.

### SHELTERBELTS MAKE IDEAL PICNIC SPOTS

Wichita Falls, May 31.—(Special)—"Shelterbelts are serving as ideal picnic spots in many areas of Northwest Texas," stated W. E. Webb, State Director of the Prairie States Forestry Project recently. After the long siege of rainy weather, farm and town-folks alike are seeking the shade of the long green lanes of shelter-

### I GIVE YOU TEXAS (By Boyce House)

When I was a boy I lived in Texas until my father's death and then, when I came back after growing up and becoming a newspaper reporter, it was with the determination to write something about the great romance of oil. I'll never forget the thrill of seeing, south of San Antonio, my first derrick, though the view was from a train window and at a distance.

While doing some temporary work for Doc Sellers' Brady Sentinel, I received two offers, one from Coleman and the other from Eastland. Sellers (now publisher of the Rising Star Record) knew of my desire to be in the oil fields and so he recommended that I go to Eastland, capital of the county that had witnessed the development of the famous Ranger and Desdemona districts.

As the one-man news staff of the Eastland Daily Oil Belt News, the slender, young editor had no time for anything else; but all through the crowded weeks that lengthened into months that glided into years (including editorships in Cisco and Ranger), I was storing up information, much of it subconsciously—in short, was absorbing atmosphere, color, incidents, characters.

A few days ago, the first copy of "Oil Boom" arrived from the nationally-known publishers, the Caxton Printers of Caldwell, Idaho—and the long-cherished ambition to write a book about the romance of oil had been achieved.

To tell you of the trips criss-crossing the State to get thousands of facts—to keep your story from being slow and dull, you discard ten facts for each one you use but you have to know the other ten so as to know for sure which should be chosen; of how Col. J. K. Hughes of Mexia said, "I'm giving you information that I have refused to a dozen interviewers, and I don't know why I'm giving it to you"—but he did; of digging up photographs of booms 25 or even 40 years ago; of listening throughout a Sunday afternoon while Walter Cline, with hardly a question necessary, fluently and vividly told of Burk Burnett; of a chance meeting with Garland Adair in Austin who had traveled with Col. Humphreys, "king of the wildcaters"; of discovering an elderly man in San Antonio who is entitled to be called the "father of Spindletop," which was the birthplace of the present-day Texas oil industry; of innumerable conversations with old drillers, teamsters and shoe-string operators; and then finding time, mainly at night, to write—anyhow, enough has been said to show that a book is no slight venture.

At least, "Oil Boom" wasn't for me, anyhow. And if you're interested (and I hope you are) "Oil Boom" is a portrait gallery of famous oil rushes, all but one in Texas: Spindletop, Burk Burnett, Mexia, Desdemona, Ranger and Snackover, the last named being in Arkansas.

Webb declared that hot, sunny days following continual rainy spells have made the cool interiors of the green shelterbelts particularly inviting. The temperature differences vary as much as 26 degrees. When the thermometer reads 90 degrees in the sun, the green canopy often cools the temperature to 70 degrees under the trees.

Many of the belts planted in 1936, 1937 and 1938, make ideal picnic spots. The cottonwood and some of the Chinese elm trees reach 15 to 30 feet up. Many of the other species are also rapidly increasing in height. The green protective walls of the shrub and field rows keep the hot wind out, making the interior of shelterbelts ideal for picnics.

### WILL HE GO FROM High Chair TO High Bench?

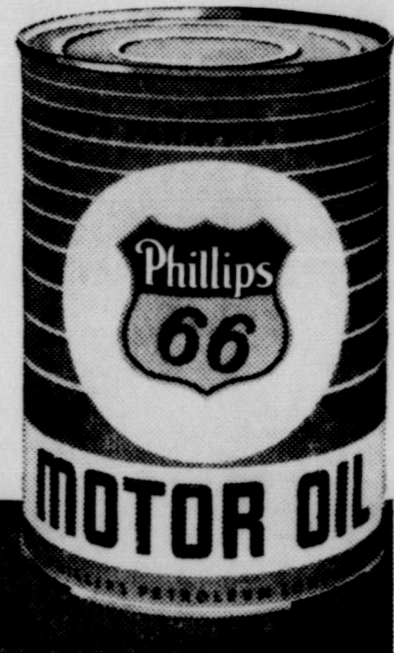

JUDGING BY APPEARANCES this young man appears to be judging, but only a foolish fortune teller would try to guess whether he will ever reach the Supreme Court.

It's HARD to tell... but EASY to pick a winning oil

Obviously, this wide-eyed baby's future is unpredictable. But you can pry into the future when you want a winning oil for your motor. You can easily forecast the high quality of your choice. How?

Phillips refines many oils because car owners' requirements vary as much as their cars and pocket-books. But when you want our best oil, there is no room for doubt or hesitation. Phillips speaks out plainly and directly. Tells you that Phillips 66 Motor Oil is our finest quality... the highest grade and greatest value... among all the oils we offer.

When you replace winter-worn oil with fresh summer grade, or make the regular 1,000-mile change, pick a winner: ask for Phillips 66 Motor Oil.

## Phillips Finest Quality

### Minimum Height Limit for Aviation Students Reduced

A dispatch from the Navy Department received this week at the office of the Naval Aviation Cadet Selection Board, 524 Allen Building, Dallas, definitely reduces the minimum height limit for Naval Aviation students from 5 ft. 6 in. to 5 ft. 4 in. This will be good news to many candidates who were otherwise qualified, but who could not quite stretch to 5 ft. 6 in.

Commander Laverents, Senior member of the Naval Aviation Cadet Selection Board this week stated that he heartily approved of this change, as in his opinion, a man 5 ft. 4 in. tall was physically able to handle the controls of Naval airplanes, as modern planes are equipped with controls which are adjustable to meet the requirements of the individual pilot. He further stated that 5 ft. 6 in. minimum height has always been considered a military requisite instead of physical.

Education requirements for Naval Aviation Training were recently modified eliminating mathematics from the college credits necessary. All other requirements remain the same.

Interested candidates should contact the nearest U. S. Navy Recruiting Station.

### America Really Lies West of the Hudson River, A Native New Yorker Finds

John Erskine, noted writer, will probably have a hard time living down his discovery, but in the current Rotarian magazine he publicly admits that he, born and bred in New York, has discovered that America lies west of the Hudson and south of Staten Island—and that New York is perhaps merely a convenient stopping place!

Roughly, writes Dr. Erskine, the New Yorker thinks of the West and Southwest as peopled by raw-mannered men who prefer the outdoors because there is no room for fire-arms indoors; in the Southwest they live on horseback,

always riding at a gallop. The Deep South is peopled by courteous, energy lacking men and charming women who talk a good deal. In the Middle West the citizens lean on the barbed-wire fence and curse the drought, stopping only to sprint for cyclone cellars. The folk of the Northern border, sometimes confused with Alaska, wear furs and go about on snowshoes.

But Dr. Erskine has made a voyage of discovery—one he began years ago. In Iowa and the Middle West, he writes, "the age-long gulf between the artist and natural people is broken down. For the most part they seem too sensible to withdraw utterly from life and then do nothing but write. It is life they wish to write about, and they get their material from daily tasks."

In South Dakota he discovered the "Friends of the Middle Border. . . Making the region aware of its indigenous creativeness, past, present, future." Kansas and Missouri, he found, "have their own art movements, parallel to Iowa's and somewhat in rivalry with it, as though the States were backing their favorite ball teams."

Everywhere he found art museums and musical bodies—and, most important, public acceptance

and appreciation of them.

A little abashed for his townsmen, perhaps, New Yorker Erskine sees the "new directions of American culture," as he terms them, shaping up not in New York but "west of the Hudson."

### Capitalism No Social Disease, But Servant of Society, Declares Briton

"A great deal of nonsense is talked about capitalism," writes Lord Londonderry, chancellor of Queen's University at Belfast and of Durham University, in the current Rotarian magazine. "Mischievous half-truths have been preached. . . (but) it really is a power for human well-being built by individual initiative and character."

"We have today in the world two finest possible examples of capitalism and communism, in America and in Russia, respectively," the British statesman points out. "The United States has a high standard of living and high wages; Russia, a low standard of living and low wages. These are eloquent facts!"

"Capitalism is so powerful today," Londonderry concludes, "because it has supplied, and still

supplies, the dynamic force necessary for disciplined, organized human effort and development."

# Annual Meeting of The First Church of Christ, Scientist, in Boston, Mass., June 2, Issues Encouraging Reports

Boston, Mass., June 2.—Some 6,000 Christian Scientists from many parts of the world gathered in annual meeting today in Boston were called upon by The Christian Science Board of Directors to consecrate themselves to the defense of the democratic system of government as the best human instrument for preserving the basic rights of mankind to "life, liberty and the pursuit of happiness."

In thus definitely allying this world-wide religious movement with the defenders of democracy everywhere, the Directors stated that it was their conviction that if social and political freedom is to be preserved, "democratic forms of government must be maintained."

### Directors' Report

The occasion for the stirring message of the Directors was the annual meeting of The Mother

JOHN RANDALL DUNN Incoming President of The First Church of Christ, Scientist, in Boston, Massachusetts

Church, The First Church of Christ, Scientist, in Boston, Mass. The Directors stated: "We are moved not by a desire to voice our own views, but to let the world know that we share with our Leader, Mary Baker Eddy, her confidence in the immortality of the sentiment expressed in the Declaration of Independence that 'man is endowed with certain inalienable rights, among which are life, liberty and the pursuit of happiness'."

Continuing the Directors said: "The preservation and incorporation of these fundamental elements of true democracy in the basic law of every nation is a cause to which all Christians are morally committed, and which we as Christian Scientists are determined to defend."

"This cause, it must be understood, is primarily religious in character and involves something more, much more, than a mere political question. It is, in fact, nothing less than the sacred cause of religious freedom and individual salvation to which the Master himself committed all believers in the Christian faith almost two thousand years ago. In the fulfillment of that obligation we must not and we will not falter."

Referring to the aggressive forces in action today throughout the world, the Directors pointed out that "history plainly teaches that when a nation chooses to ignore God and to make matter the foundation stone of its government, such nation commits its cause to failure, and at the same time provides the means for its ultimate defeat and undoing."

Incoming President The Directors also announced

the election of John Randall Dunn of Boston and Centerville, Mass., as President of The Mother Church for the ensuing year. The chief duty of the President is to preside at the Annual Meeting.

The new President is the son of James Randall Dunn, long identified with the United States Immigration Service. He is a native of Massillon, Ohio, receiving his schooling there and in San Francisco and from private tutors. For a few years he was in the service of the government, but gave up his work for the healing ministry of Christian Science. He has served this movement many years in a large variety of positions including First Reader of The Mother Church and as a Christian Science lecturer, during which he carried the message of Christian Science into all parts of the world.

The incoming president accentuated the theme of spiritual progress with the reassuring statement that "the present mighty world upheaval does not portend the breaking up of Christian civilization or the plunging of humanity into chaotic darkness."

He viewed the present conflict in the light of a world house-cleaning, during which individual and national sin, tyranny, greed, self-will, and lust for power are being brought to the surface of world thinking, ripe for destruction. And these ills, rather than world civilization, are the things that will be destroyed.

What does the Discoverer and Founder of Christian Science "tell us of the problems which confront us at this troublous hour?" He answered: "Fifty years ago, with marvelous prophetic vision she wrote: 'This material world is even now becoming the arena for conflicting forces. On one side there will be discord and dismay; on the other side there will be Science and peace. The breaking up of material beliefs may seem to be famine and pestilence, want and woe, sin, sickness, and death, which assume new phases until their nothingness appears. (Science and Health with Key to the Scriptures, p. 98).'"

Hence, the speaker stated that everyone who names the name of Christian Science should and can remain calm, patient and courageous while this great world-wide house-cleaning seems to occupy the stage of human thought.

Mrs. Margaret Matters, retiring president, pointed to the statement of Mary Baker Eddy, as pertinent to this period: "The spiritual status is urging its highest demands on mortals, and material history is drawing to a close" (No and Yes, p. 45).

Church Services Uninterrupted Despite the troublous times in Europe reports presented to the meeting conveyed the interesting fact that church services are being conducted generally without interruption in the countries abroad. Some of the periodicals of The Christian Science Publishing Society were said to be received regularly in all countries of Europe, including the German-occupied territories and the British Isles. It was reported by the trustees of the Publishing Society that a Spanish translation of the Quarterly will be added beginning

with the October issue. Herbert W. Beck, manager of committees on publication, reported that the work has changed over the course of years from a defensive to a constructive, educational nature. The number of printed attacks upon Christian Science, he said, have decreased and in place thereof careful attention is given to promoting a greater understanding of this religion by means of the radio and through the newspapers.

Evidences of Spiritual Growth The Department of Branches

and Practitioners indicated in its report that the urge for spiritual refreshment and regeneration goes on despite the world conflict, and in some places the spiritual urge springs from the current need for dependence upon something more substantial than material instruments.

Evidence of this spiritual growth was found in the establishment of 37 new branches of The Mother Church, seven of them in England, one in Switzerland, one in Africa and one each in British Guiana and the West Indies.

# ATTENTION Wheat Farmers

## WHEAT WITH TOO MUCH MOISTURE WILL NOT KEEP IN OUR ELEVATORS!

Number 1 Wheat must not have more than 14 per cent moisture.

Wheat that contains 15 3/4 per cent moisture or above is classed as sample grade and is not eligible for a government loan.

We have absorbed the loss between the farmer and the Commodity Credit Corporation on high moisture wheat in the past, but it has become impossible for us to do this any longer.

We have secured the services of Mr. J. O. Harrington, who has had 20 years experience inspecting and milling wheat, and all wheat will be graded by him until such time that all wheat is thoroughly ripe and dry. The loss in weights on wet wheat is tremendous and, of course, our elevators will take this loss up to a moisture percentage of 1.75.

Don't you think that this is fair to you and ourselves? We earnestly ask your co-operation in this matter.

Discounts on tough wheat grading No. 1: 14.1 to 14.5 moisture, 1c per bu.; 14.5 to 15.0 moisture, 2c per bu.; 15.1 to 15.5 moisture, 3c per bu. Wheat of which the moisture content is 15.75, or more, will not be accepted by any elevator. Note: Wheat in excess of 15.5 moisture grades "Sample."

HEADACHE or NO HEADACHE I MUST GET DINNER Home Making is Fun When you feel well. It is misery when you don't. Have you ever dragged through a day made miserable by a Headache, Neuralgia, Muscular Pains or Functional Menstrual Pains—a day when only your sense of duty kept you on the job? Dr. Miles Anti-Pain Pills usually relieve Headaches. You will find them effective also in the relief of the other nagging pains mentioned above. A package of these prompt acting pain relievers may save you hours of suffering. Read full directions in package.

THIS WEEK IN HISTORY June 9.—Vigilance committee formed in San Francisco, 1851. Charles Dickens, died, 1870. June 10.—Navigation Acts enforced in the Colonies, 1664. The monoplane Southern Cross, reached Sydney, Australia, after 7,800 miles flight, Pacific ocean, from Oakland, Calif., the longest flight ever made over water, 1928. June 11.—Committee appointed by Colonial Congress and drew up the Declaration of Independence, 1776. June 12.—New York incorporated as city, 1663. Coolidge nominated for president, 1924. June 13.—Lord Baltimore granted charter to Maryland, 1633. Harriett Beecher Stowe born, 1811. June 14.—United States Congress decided on a national flag, 1777. June 15.—Franklin proved identity of electricity and lightning, 1752. Arkansas admitted to the Union, 1836.

Your Horoscope June 1, 2, 3, 4.—You have a happy faculty of finding some good in every situation. Music, poetry, and inventions interest you. You are proud, ambitious and independent and at times you are almost reckless. You are quiet, reserved and curious, and are given to changing your opinions suddenly. June 5, 6, 7.—Your literary talents are marked, but you have a caustic vein which makes people distrust you. You want to see justice done. You form your conclusions by impressions rather than by reasoning. You have a high standard of morals. You have a deep love nature but your home conditions are not always happy. Loyalty to your friends is marked. You sometimes make decisions before investigating. Your nature is forceful but slow. Edgar Bergen began his vaudeville act with Charlie McCarthy as a means of paying his way through Northwestern University. From vaudeville he turned to night clubs. One night in 1936 at New York's Rainbow Room he attracted the attention of Rudy Vallee who invited him to appear on his program. He was an overnight sensation.

### Control of Mosquitos Improve Health Conditions in State

"A marked saving in lives and improved health conditions may be obtained by an educational measure for the control of the mosquito," suggests Dr. Geo. W. Cox, State Health Officer.

"Malaria is transmitted to humans," he said, "by the bite of the Anopheles mosquito. This parasite acquires the malaria parasite by biting a person who has these parasites in his blood. She (it is the female who transmits this disease) then bites a well person. The parasites enter the blood, grow, and multiply there. Poisons are formed and carried in the blood stream to all parts of the body. The person bitten by the carrier mosquito begins to shiver with chills, burn with fever, and to have a headache.

"Prevention of malaria should start with the protection of humans from the bite of the infected mosquito and continue through to the elimination of the mosquito.

The protection of humans may be accomplished by screening all houses to prevent the entrance of mosquitoes. A 16-inch wire screen should be placed over all openings. Be sure that all chimneys, cracks, and other openings are covered.

"The malaria mosquito breeds in still water and the pools and grassy edges of running water, as well as in many places where water is allowed to collect or stand. The female mosquito then lays her eggs on the surface of the water, where they float, and in a few days hatch into 'wiggle-tails.' These changes must take place in the water and require twelve to fourteen days in summer to complete the cycle.

"In order to prevent the malaria mosquito from breeding, destroy their shelters by removing all brush and weeds; and drain or otherwise control their breeding places in water by spraying the surface with oil or putting top-fording minnows in waters where oil or drainage cannot be used. Such a campaign will be waged around all military areas in Texas."

### Vocational Education

Because national defense calls for skilled and semi-skilled labor, many who otherwise could be utilized in the defense program either are without jobs, or in lower paid classifications.

The national defense training program is paid for by the federal government, offering them opportunity to become employable in industries handling national defense contracts. While there is no great shortage of labor, there is a shortage of skilled labor. In Texas the program is handled through the State Board for Vocational Education. The programs have been set up locally through the public school systems.

Men are being trained upon the recommendation of the Texas State Employment Service and the Work Projects Administration. Training also is provided for out-of-school youth and enrollees recommended by the National Youth Administration. For those out of jobs for several years, refresher training is afforded to make them employable.

Placements are handled by the Texas State Employment Service. The placement record in Texas has been about 85 per cent. Texans in the eligibility class who fail to take advantage of this free instruction placing them in a position for substantial earnings are losing a valuable opportunity.—Austin Statesman.

### SHELTERBELTS MAKE IDEAL PICNIC SPOTS

Wichita Falls, May 31.—(Special)—"Shelterbelts are serving as ideal picnic spots in many areas of Northwest Texas," stated W. E. Webb, State Director of the Prairie States Forestry Project recently. After the long siege of rainy weather, farm and town-folks alike are seeking the shade of the long green lanes of shelter-

### I GIVE YOU TEXAS (By Boyce House)

When I was a boy I lived in Texas until my father's death and then, when I came back after growing up and becoming a newspaper reporter, it was with the determination to write something about the great romance of oil. I'll never forget the thrill of seeing, south of San Antonio, my first derrick, though the view was from a train window and at a distance.

While doing some temporary work for Doc Sellers' Brady Sentinel, I received two offers, one from Coleman and the other from Eastland. Sellers (now publisher of the Rising Star Record) knew of my desire to be in the oil fields and so he recommended that I go to Eastland, capital of the county that had witnessed the development of the famous Ranger and Desdemona districts.

As the one-man news staff of the Eastland Daily Oil Belt News, the slender, young editor had no time for anything else; but all through the crowded weeks that lengthened into months that glided into years (including editorships in Cisco and Ranger), I was storing up information, much of it subconsciously—in short, was absorbing atmosphere, color, incidents, characters.

A few days ago, the first copy of "Oil Boom" arrived from the nationally-known publishers, the Caxton Printers of Caldwell, Idaho—and the long-cherished ambition to write a book about the romance of oil had been achieved.

To tell you of the trips crisscrossing the State to get thousands of facts—to keep your story from being slow and dull, you discard ten facts for each one you use but you have to know the other ten so as to know for sure which should be chosen; of how Col. J. K. Hughes of Mexia said, "I'm giving you information that I have refused to a dozen interviewers, and I don't know why I'm giving it to you"—but he did; of digging up photographs of booms 25 or even 40 years ago; of listening throughout a Sunday afternoon while Walter Cline, with hardly a question necessary, fluently and vividly told of Burk Burnett; of a chance meeting with Garland Adair in Austin who had traveled with Col. Humphreys, "king of the wildcaters"; of discovering an elderly man in San Antonio who is entitled to be called the "father of Spindletop," which was the birthplace of the present-day Texas oil industry; of innumerable conversations with old drillers, teamsters and shoe-string operators; and then finding time, mainly at night, to write—anyhow, enough has been said to show that a book is no slight venture.

At least, "Oil Boom" wasn't—for me, anyhow. And if you're interested (and I hope you are) "Oil Boom" is a portrait gallery of famous oil rushes, all but one in Texas: Spindletop, Burk Burnett, Mexia, Desdemona, Ranger and Snackover, the last named being in Arkansas.

Webb declared that hot, sunny days following continual rainy spells have made the cool interiors of the green shelterbelts particularly inviting. The temperature differences vary as much as 26 degrees. When the thermometer reads 90 degrees in the sun, the green canopy often cools the temperature to 70 degrees under the trees.

Many of the belts planted in 1936, 1937 and 1938, make ideal picnic spots. The cottonwood and some of the Chinese elm trees reach 15 to 30 feet up. Many of the other species are also rapidly increasing in height. The green protective walls of the shrub and field rows keep the hot wind out, making the interior of shelterbelts ideal for picnics.

# WILL HE GO FROM High Chair TO High Bench?

JUDGING BY APPEARANCES this young man appears to be judging, but only a foolish fortune teller would try to guess whether he will ever reach the Supreme Court.

It's HARD to tell...but EASY to pick a winning oil

Obviously, this wide-eyed baby's future is unpredictable. But you can pry into the future when you want a winning oil for your motor. You can easily forecast the high quality of your choice. How?

Phillips refines many oils because car owners' requirements vary as much as their cars and pocket-books. But when you want our best oil, there is no room for doubt or hesitation. Phillips speaks out plainly and directly. Tells you that Phillips 66 Motor Oil is our finest quality... the highest grade and greatest value... among all the oils we offer.

When you replace winter-worn oil with fresh summer grade, or make the regular 1,000-mile change, pick a winner: ask for Phillips 66 Motor Oil.

## Phillips Finest Quality

### Minimum Height Limit for Aviation Students Reduced

A dispatch from the Navy Department received this week at the office of the Naval Aviation Cadet Selection Board, 524 Allen Building, Dallas, definitely reduces the minimum height limit for Naval Aviation students from 5 ft. 6 in. to 5 ft. 4 in. This will be good news to many candidates who were otherwise qualified, but who could not quite stretch to 5 ft. 6 in.

Commander Laverents, Senior member of the Naval Aviation Cadet Selection Board this week stated that he heartily approved of this change, as in his opinion, a man 5 ft. 4 in. tall was physically able to handle the controls of Naval airplanes, as modern planes are equipped with controls which are adjustable to meet the requirements of the individual pilot. He further stated that 5 ft. 6 in. minimum height has always been considered a military requisite instead of physical.

Education requirements for Naval Aviation Training were recently modified eliminating mathematics from the college credits necessary. All other requirements remain the same. Interested candidates should contact the nearest U. S. Navy Recruiting Station.

### America Really Lies West of the Hudson River, A Native New Yorker Finds

John Erskine, noted writer, will probably have a hard time living down his discovery, but in the current Rotarian magazine he publicly admits that he, born and bred in New York, has discovered that America lies west of the Hudson and south of Staten Island—and that New York is perhaps merely a convenient stopping place!

Roughly, writes Dr. Erskine, the New Yorker thinks of the West and Southwest as peopled by raw-mannered men who prefer the outdoors because there is no room for fire-arms indoors; in the Southwest they live on horseback,

and appreciation of them. A little abashed for his townsmen, perhaps, New Yorker Erskine sees the "new directions of American culture," as he terms them, shaping up not in New York but "west of the Hudson."

### Capitalism No Social Disease, But Servant of Society, Declares Briton

"A great deal of nonsense is talked about capitalism," writes Lord Londonderry, chancellor of Queen's University at Belfast and of Durham University, in the current Rotarian magazine. "Mischievous half-truths have been preached... (but) it really is a power for human well-being built by individual initiative and character."

"We have today in the world two finest possible examples of capitalism and communism, in America and in Russia, respectively," the British statesman points out. "The United States has a high standard of living and high wages; Russia, a low standard of living and low wages. These are eloquent facts!"

"Capitalism is so powerful today," Londonderry concludes, "because it has supplied, and still

supplies, the dynamic force necessary for disciplined, organized human effort and development."

The movement to require a certificate of health before a marriage license is issued is slowly growing in favor. Each year the demand increases and a new state is added to the list of states having this requirement. The laws governing marriages are not strict enough or broad enough. Too many persons unfit for marriage and procreation are issued permits to marry in many states. The result is that in these states the insane asylums are all overcrowded. Instead of stopping the evil at its source the people of these states permit the unfit to marry and bring children into the world to be a burden upon the taxpayers as long as they live. The practice is not unlike the situation of having a mad man stationed upon a bridge who would throw into the stream every one who attempted to cross the bridge, keeping busy a crew of life savers farther down stream fishing the victims of his folly out of the stream. Sounds silly but it is exactly what is being done in many states today. A mawkish sentiment stands in the way of the exercise of what is obviously common sense.

The most disappointing thing in life is to be double crossed by a friend. One can reconcile himself to most any disappointment except this one.

To those who think that there is something good, anything good, in Communism and Hitlerism we would recommend the reading of Jan Valtin's "Out of the Night." It is a story of Communism and Hitlerism and their brutality. It is shocking, terrifying, revolting and sickening, but it contains the truth about these "isms" that America should know.

The difficulty with the present management of the strikes and labor laws in this country is that the employer has no friend in court. Regardless of the merits of the case, the unreasonableness of the demand, the employer is always wrong. He has to submit or his plant will in effect be taken away from him.

You have also perhaps noticed that it has not required the creation of a national board to endeavor to induce the boys to go into the army and the navy and the training camp in the interest of national defense. So far the army has not been contaminated by the CIO.

Unless a change comes to this country the old pride of self-reliance and self-support is going to disappear from the land, and with it, much of the initiative that has made this country great.

The man who does the very best he can all day has no need to make any apologies when night comes, he has nothing to be ashamed of when night comes, and the man who does the best he knows how every day of his life has nothing to be ashamed of when the final chapter of his life is written.

It has often been said that riches do not make happiness. For that matter neither does poverty. The conclusion is that happiness is not a question of possession or lack of possessions, but more an attitude of mind.

Just think what a mess things would be in if the boys inducted into the army for \$21 a month were headed by the same type of radical, wild eyed, long haired racketeers who are holding up labor in defense industries.

What We Think

(By Frank Dixon)

The biggest news event of the war in recent months was the flight of Rudolph Hess from Germany to the home of his friend the Duke of Hamilton in Scotland. In our opinion everything about the flight of Hitler's trickery, deceit and misrepresentation. In our opinion Hess was sent to England by Hitler to open the way for peace negotiations.

In our opinion the plan is to have Hess represent that the Germans are open for a peace move. If this can be sold the English people a demand might come that an effort to negotiate peace be made both in England and in the United States. Such a move, if made, either on the part of England or the United States, would be met by Hitler with impossible terms. He would be in the position of having been approached in a plea for peace and as the recipient of the appeal would naturally expect to name the terms. These terms, it goes without saying, would be equivalent to a surrender by England of practically all of the issues involved in the war and would leave Hitler as complete master of the world situation as though he had actually gained a military victory.

Such terms of course would of necessity have to be rejected by England.

The result would be that the morale of the English people would be alienated, and the morale of the Axis partners would be heightened. If the scheme accomplished nothing else it would well be considered a master stroke of war strategy.

In our opinion the only thing that will ever prompt Hitler to sincerely seek peace is the fact that he might be nearing the end of his rope. This I do not believe. As long as there remains any chance to achieve a victory by force Hitler is not going to be sincerely interested in any peace move.

The fallacy and complete insincerity of the whole Hess incident is too clearly obvious to be considered in any other light than just another one of Hitler's clever pieces of strategy.

Germans in the Hitler regime do not desert. The commander of the Graf Spee took his own life because it was considered he made a tactical error in allowing his ship to be taken. He had violated orders. This philosophy permeates the entire organization. Rudolph Hess would have taken his own life before he would have deserted his cause. The relationship between himself and Hitler was such that any condition that threatened the peace and well being of Hess in Germany could have been corrected in Germany. Such things are done there every day. Another significant thing is that news of the flight of Hess came first from Germany as did also the false representation that he had been under guard because they feared just this thing that he would escape to England. It is the sheerest folly to think that if Hitler had had any idea that Hess contemplated such a thing against Hitler's wish that he could have eluded his guard in a fully fueled reserve storage tank and made his escape to England.

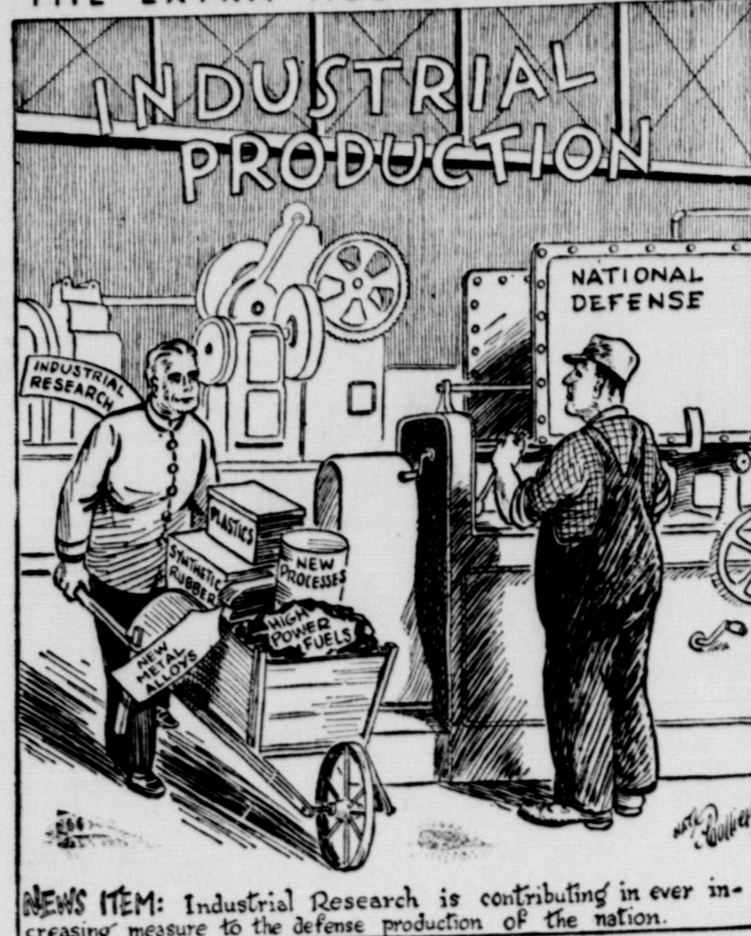

Every element in connection with the whole affair, even to the pictures of Hess taken at different times, which he carried with him to insure identification smacks of German efficiency and thoroughness for detail, and England and the rest of the world should not prove gullible enough to be taken in by such a clever, though obvious ruse.

Observations At Austin

The News is in receipt of the following statement from Senator George Moffett, who represents this district in the State Senate at Austin:

"This session of the Legislature has done a lot of work, and it is

THE EXTRA HELPER HE NEEDS

NEWS ITEM: Industrial Research is contributing in ever increasing measure to the defense production of the nation.

48 YEARS AGO

Items below were taken in whole or in part from the issue of the Foard County News of May 12, 1893, when Blankenship was proprietor:

The Dramatic Club are "hustlers." They are beginning preparation on a new play and will have it ready for presentation at a very early date.

A suspicious looking character was discovered a few days since three or four miles west of town by Sheriff S. J. Moore. The next morning he arrested and searched him, but could find nothing particularly incriminating, so he was released.

Notice to Farmers—If you wish to sell or trade your farm within the next twelve months, please call at my office in the court house at once and see what I can do towards getting you a buyer. —J. P. Cormack.

C. C. Stovall makes boots and shoes. He is also ready for everything in the way of repairing, etc. Prices reasonable. Crowell, Texas.

O. G. Barclay of Diantie was in town Monday.

Miss Ella Nauman of Dallas is visiting her uncle, R. Zeibig.

Mrs. J. M. Allee and family have returned from Collin County.

L. C. Parish was in town Monday and favored us by paying his subscription to the News.

M. L. Raney says he is eating peas and radishes that were planted and have grown to perfection without rain.

An enjoyable sociable was given at the residence of Mr. and Mrs. M. F. Thacker given complimentary to Miss Dora Morrow.

T. F. Hughston of Collin County is visiting in Crowell. He says from reports heard before leaving home he did not expect to see any green vegetation, and was surprised to see any wheat growing.

row time to go home," states Senator Moffett. "To stay in session longer means additional expense without the proper return to the State, and I sincerely hope that an agreement can be reached in the matter of adjournment even before this is published.

"The Legislature has met several emergency conditions relating to pensions, military preparedness, aviation, transportation, etc., by passing laws that seem to be suited to the desired purpose. In fact, more fundamental laws have been passed at this session than at any other in recent years, and should we overstay our time it would probably spoil an otherwise worthwhile session. There are still a few matters that perhaps should be attended to, but the majority of the bills still pending on the calendar could well wait until a future time.

"Perhaps this Legislature has already spent a little too much money. For instance, I am still too old-fashioned to believe that the Legislature did right in appropriating one and a half million dollars for the Big Bend Park. It seems to me in a time of emergency, like the one through which we are now passing, that the State's money should be spent on something of more direct value.

"Doubtless, the necessity of further military preparations will make a special session necessary in the fall, anyway," concluded Senator Moffett. "Therefore, I, as well as a large sprinkling of other members, am most anxious to get home, and I hope that we can persuade a majority of our colleagues to come around to the same opinion in the very near future."

No Parity Payment Made on Castor Beans

Contrary to reports published widely over the state, the Agricultural Adjustment Administration will not make parity payments on castor beans.

A. V. Sheppard, Foard County AAA secretary, has been advised by B. F. Vance, Administrative Officer in charge of the AAA in Texas, that erroneous reports have been circulated to the effect that the AAA would make parity payments on castor beans.

"I do not know the source of the report," Mr. Vance said, "but it certainly was in error. At no time have I made such a statement. The AAA has no plans to make payments of any sort in connection with castor bean production.

"The National Defense Commission has asked that the AAA relax restrictions on castor bean production, and that request has been complied with. At the same time, the AAA is not guaranteeing any fixed price on the sale of castor beans and is explaining to farmers that they may increase their production in accordance with AAA regulations, but they do so without any guaranteed price return."

The AAA official explained that the regulations are being amended so that no deduction from payments will be made for excess soil-depleting acreage up to five acres of five per cent of the farm's crop land, whichever is greater, when such excess acreage is due to the planting of castor beans. Additional information can be obtained at the county AAA office, Sheppard said.

The cost of the Texas State government is now nearly five times what it was twenty years ago, although the State's population is only 38 per cent more.

The cost of expanding the facilities of the Texas petroleum industry has forced Texas oilmen to borrow \$800,000,000 from banks and investors.

Annual Meeting of Cemetery Association Held Monday, May 30

The annual meeting of the Crowell Cemetery Association was held at W. R. Womack's Monday, May 26, and in spite of the fact that the meeting was well advertised in the paper, over the telephone and by word of mouth, only eight persons were present.

Reports from officers and committees were read. The treasurer reported \$100.34 in the cemetery up-keep fund.

Since the annual meeting last May, \$212.10 have been donated to this fund. Twenty-five dollars were given by the American Legion, \$6.18 were received from the sale of miniature boots given by Edgar Kimsey, and \$5.95 came from the sale of cook books at Ferguson Brothers drug store.

The sexton was put to work on March 20. Since the heavy rains, 35 loads of dirt have been hauled to fill sunken graves. Some of the tombstones have fallen and again this is a reminder to those having new stones erected to be there when the stone is delivered and see to it that it is properly placed. This type of poor workmanship has caused no end of trouble and the association cannot pay to have them re-set.

Dr. R. L. Kincaid, president of the Crowell State Bank, was elected a member of the executive board. This office was made vacant by the death of J. T. Gribble.

The excessive spring rains have caused an unusual amount of work and Roy Woodard and his family are doing their best to keep the cemetery presentable. Besides his salary, there are other expense items that come up periodically. For instance, the 35 loads of dirt and now a new lawn mower is needed and new tools must be bought occasionally, especially when the tools are used to dig a "free" grave and the handles are saved off when they are too long for convenience.

The main objective of the association this year is a suitable house for sexton quarters. Claude Callaway is finance chairman for this project and there are almost \$400 in this fund. The goal was \$1,000 and building stone, sand and gravel have been promised to the association for this work.

In commenting on the building project, Mrs. N. J. Roberts, who was re-elected president of the association, stated:

"There has never been a more worthy undertaking shouldered in our community and it is assumed that every citizen wants to have a share, be it ever so small. The committee is open for suggestions on any money-raising program that has been tried successfully. This committee is anxious to pass its obligations over to the building committee."

Since the last report, the following contributions have been made to the building fund:

J. Y. Bradford	\$2.00
Bank at Eddy's	.85
Mrs. Nora Boardman	.50
Mrs. John L. Glover	2.50
Contributions to the upkeep fund:	
Forrest Burk	\$1.00
Ferguson Bros.	10.00
Mrs. John L. Glover	2.50
Cook books	5.95

Oil lease and royalty payments to Texas farmers and ranchers amounted to 22 cents extra cash bonus for every dollar they received last year from their crops and livestock including U. S. Government benefit payments.

Perhaps no fire has ever destroyed your home yet and seems very remote to you. But you can't trust to fate. Rates are so reasonable it's foolish to wait.

HUGHSTON Insurance Agency Ph. 238 Crowell, Texas

Defense Authority Praise Company for Quick Delivery

Waco, June 2.—High praise the part Ideal Company of Texas is playing in the national defense preparedness program is the current issue of the "Army Speedometer," official monthly military magazine published at Fort San Houston. Major B. L. Maloney as Editor in Chief of Credit for unusual cooperation and speed in producing and delivering important defense materials was given this commendation. "These remarkable production and delivery achievements of the Ideal Company typify the hearty co-operation that the can industry has given and is giving to American Defense Preparations," the magazine reports. The Ideal factory, many employees, both in the plant and in offices, uncomplainingly work long hours overtime during a number of weeks in order that the defense building materials be delivered on time without incurring any delay in progress at various camps and forts."

The above comment refers to the supplying of materials for the Ideal Company to Camp Bowie, Camp Wolters, Camp Bowie, Camp Houston, Fort Sill, Camp Claiborne, Camp Polk, and other defense projects.

"Delivery was made in an instance on or before the specified," the article stated. "At the same time Ideal Company supplying its regular customer the building industry with unusually heavy demands for Built-In Woodwork and Standardized Millwork."

One of the fastest growing industries in this country is frozen food industry. From a volume of 25 million in 1938 it has grown to exceed 45 million annually. Frozen foods include vegetables, fruits, fish and meat. A quick freezing process at a temperature causes the food to freeze solid without breaking of the cell structure as is the case when freezing takes place at normal freezing temperatures. This process, garden fresh vegetables and fruits are available all times of the year in any quantity.

More than one-fourth of the total land area of Texas is under lease for oil and gas activity.

Auto Vacuum Aids Anglers

To many the call of the open road also means the call of the open water. The automobile and good roads have brought thousands of beautiful lakes and streams within reach of the vacationist or the week-end. Fishing seasons throughout the country are opening, and these young people were among the first to seek their favorite stream. They carry their own boat, lashed to the top of their Chevrolet, and held securely with a new vacuum-grip holding device actuated by vacuum power from the motor. Note the tube connecting boat rack with motor vacuum.

NOTICE DOG OWNERS

The situation in Crowell concerning dogs running loose is very serious, and will be until the end of the six weeks period, according to the City Health Officer. We are working under orders of the City Health Officer to remedy this menace.

Some have asked if it is alright for their dog to run loose in town because it has been vaccinated or inoculated. This will not do as the officers do not know which dog has been vaccinated or inoculated. All dogs will positively have to be muzzled if they are running loose in town. All dogs caught running around town without a muzzle will have to be killed, as this is a serious emergency.

Parents are warned to be careful with their dog they have tied up or locked up at home. There were so many dogs bitten by the mad dog, and no one will know before it is too late. So be very careful about letting your children play with your own dog as it may have been bitten by a mad dog.

I hereby ask the co-operation of the citizens of Crowell in helping in this emergency.

C. T. SCHLAGAL, Mayor, City of Crowell, Texas.

# Locals

See the inlaid linoleum—self sealing to floor.—W. R. Womack.

Irving Fisch and Judge Leslie Thomas made a business trip to Dallas Wednesday.

The new Norge sealed-in unit, electric refrigerator. See them.—W. R. Womack.

Mrs. Doyle Parks and daughters, Mary Sue and Janice Jenell, of Matador are visiting Mr. and Mrs. J. V. Allen.

Charlie Clark returned home last Friday from Austin where he has been attending Texas State University.

Gordon Thomson, who has been a student at Oklahoma City University, is at home for the summer.

See that poster bed room suite made of solid pecan wood. It's beautiful, it's durable.—W. R. Womack.

Mrs. Lee Crews and small daughter, Mary Margaret, left Tuesday for their home in Newburg after visiting Mrs. Crews' parents, Mr. and Mrs. S. T. Crews.

Mrs. Carrie Edens of Bertram and Mrs. Ben Kilgore, Mrs. Georgia Capps and son, Billy Ray, of Austin visited their niece and cousin, Mrs. E. A. Duncan and other relatives in Crowell last week.

Don Hecker of Gainesville is here visiting his aunt, Mrs. Lewis Sloan, and husband.

Servel Electrolux refrigerators, gas or Butane gas, \$186.50.—W. R. Womack.

Mrs. P. P. Cooper, Mrs. Sewell Roy and Mrs. O. M. Gentry visited in Bowie Friday.

Wonderful bargains in oil stoves and ranges, both new and used.—W. R. Womack.

Misses Beulah Patton and Thelma White left Monday for Alpine to attend summer school at Sul Ross Teachers' College.

Who wants used \$103.50 High Power oil range for only \$65.00? No trade in.—W. R. Womack.

Miss Dorothy Winingham is at home for the summer vacation from Norman, Okla., where she has been attending Oklahoma State University.

Who wants \$104.00 Nesco, new, only \$75.00 cash.—W. R. Womack.

Mrs. Clifton French and little daughter, Carolyn, and Mrs. Maggie French of Corpus Christi are here for a visit with relatives and friends.

Servel Electrolux gas refrigerators last longer, no moving parts, economical, no noise.—W. R. Womack.

Lunsford Sanders of Knox City is visiting in the homes of his sisters, Mrs. Ernest Anderson, Miss Ellie Sanders and Mrs. Henry Ashford.

No. Folks, Butane gas has not been advanced, still \$2.00 for refills for cylinders and 6c per gallon in underground systems.—W. R. Womack.

James Braswell has accepted a position in the Panhandle & Santa Fe depot as helper for the agent, J. V. Walden, to take the place of Charles Davis, who recently resigned.

Mrs. P. P. Cooper has returned to Crowell after a ten-day visit in the home of her son, J. G. Cooper, and family in Sweetwater.

Ted Crosnoe returned to Lubbock Tuesday after a two days' visit with his parents, Mr. and Mrs. E. M. Crosnoe. He will attend the summer session of Texas Tech where he has been in school the past year.

Mrs. H. C. Brown, Misses Juanita and Billie Brown and H. C. Brown returned to Austin Wednesday after visiting their husband and father, Hubert Brown, in Crowell. Miss Juanita and Billie will attend the summer term of the University of Texas. H. C. will return to Crowell to spend the summer.

Bernice Fitzgerald, who has been a student at Baylor University in Waco and Jack Fitzgerald, who has attended Texas State University at Austin, have returned to their home here. They were accompanied by Jonah Parke, of Hawaii, who is a medical student at Baylor. He is spending the week in the home of Rev. and Mrs. W. B. Fitzgerald.

When you are told that a top burner pilot light is unsafe and you're advised not to use it on Butane, just have it demonstrated, you'll find out why. The top burners are not made for Butane, but are made to try to burn both natural gas or Butane. This will flash, spit, crash-poppet. Buy only a Butane gas range and use the pilot light, it's safer.—W. R. Womack.

Tom Ray Roberts returned home from Galveston Sunday where he is a medical student in the College of Medicine of the State University. He will return to Galveston on the 13th of this month to attend the summer term. By attending school this summer and also next summer, he will graduate in November of 1942.

Margaret Long returned home last Thursday from Lubbock where she was a student in Texas Tech for the past term.

Butane cylinders filled for only \$2.00. Bring us your empties.—W. R. Womack.

Sam Crews Jr., who recently was graduated from the Texas A. & M. College in College Station, is visiting his parents, Mr. and Mrs. S. T. Crews, in Crowell.

Buy your Butane systems now. Save further advances.—W. R. Womack.

Mrs. K. H. Erwin and daughter, Mrs. Julia Bell Gibson, and Mrs. Jeff Todd made a trip to Galveston recently for a visit with Mrs. Mattie Erwin.

Mrs. S. E. Woods and Miss Little Woods of Wichita Falls have returned to their home after a visit here with Mrs. J. A. Johnson and other friends.

Jimmy Cotton of Lamesa, former resident of Crowell, visited friends in Crowell for a short time Wednesday afternoon. He had been to Seymour to attend a funeral.

Price advance! Butane cylinders and underground tanks, piping and copper fittings have advanced about 10 per cent for full installation. The gas has not advanced yet.—W. R. Womack.

Mrs. Tom Reeder of San Diego, Calif., arrived in Crowell this morning for a visit with her parents, Mr. and Mrs. B. W. Self. She was met in Amarillo by her mother.

The Safetee-Kee Grand gas ranges. Just turn a key, remove it. No gas at all either to top or the oven burners.—W. R. Womack.

Mr. and Mrs. Harold Hinds and small daughter, Clarice, of Little Rock, Ark., arrived here Sunday for a visit in the home of Mr. Hinds' father, B. F. Hinds, and wife.

Miss Mary Frances Bruce has arrived in Crowell to spend the summer in the home of her parents, Mr. and Mrs. J. W. Bruce. Miss Bruce is a student in the West Texas State College at Canyon.

Mrs. Alva Spencer and Misses Bertha Womack and Joellene Vannoy spent from Friday until Sunday visiting relatives in Brownwood. They were accompanied home by Mrs. Bill Moore and daughter, Roxie, who are visiting in the Womack home.

Our Butane gas ranges all have and use the top pilot lights. Safetee, automatic, do no pop-crack or flash.—W. R. Womack.

Mrs. Lizzie Taylor and two daughters, Misses Velma and Nell, and her sister, Mrs. Cordie Elrod, of Durant, Okla., spent Tuesday and Tuesday night visiting in the home of their cousin, R. J. Roberts, and wife. They left Wednesday morning for Amarillo to visit other relatives.

Folks! Nothing is quite so quiet as a Servel Electrolux, Butane or natural gas refrigerator.—W. R. Womack.

Mr. and Mrs. R. R. Magee and their son, Milton, left this morning for College Station where Milton will receive a B. S. degree from Texas A. & M. College at commencement exercises there Friday. Milton has been at home for the past several days.

Fishing tackle, cane poles, lines, hooks, sinkers, corks, buckets, everything; reels, rods, lines, lures, stringers, boxes, seines, just what you need.—W. R. Womack.

Miss Dorothy Flesher and Edward Roark, who have been attending John Tarleton College in Stephenville, have returned to Crowell to spend the vacation months in the homes of their parents, Mr. and Mrs. F. B. Flesher and Mr. and Mrs. H. C. Roark.

Our Butane systems have proven 100 per cent satisfactory, for cooking, hot water heating and Servel gas refrigeration.—W. R. Womack.

Mr. and Mrs. I. R. Vannoy of Corpus Christi were in Crowell for a short visit Monday. Mr. Vannoy is a former merchant and resident of Crowell.

Lee Allen Beverly and Fred Allen Beverly of Wichita Falls were guests in the home of J. R. Beverly and A. Y. Beverly last Thursday. Fred Allen has finished his education at Texas State University at Austin and will leave soon for Beaumont where he will be employed by the Magnolia Petroleum Company.

Folks, those who failed to put in your Butane systems before June first, will now have to pay a little more, but buy now—steel, copper and fittings may advance again soon. Buy your Butane system now.—W. R. Womack.

A. Y. Olds returned to Austin Monday after spending the weekend at home in Crowell. A. Y., a member of the 1941 graduating class of Crowell High School, is now employed as a page in the Texas Senate and has entered the University of Texas, starting with the summer term.

Our big store is full of good furniture, floor covering, rugs, shades, gas and oil ranges, paints, enamels, fishing tackle, gun shells, picture frames, water hose, lawn mowers, rakes, spades, forks, hoes, etc., Butane systems.—W. R. Womack.

Mrs. E. L. Howard left Monday for an extended visit with her daughter, Mrs. R. R. Swindell, in Los Angeles, Calif., and son, W. M. Howard, and family in Sacramento, Calif. Mrs. E. W. Burrow has been employed in the office of Dr. Hines Clark during Mrs. Howard's absence.

The top pilot light on a Butane gas makes top burners automatic, but some makes do not work. Have a burner that works with a pilot on Butane. Every Butane gas range we sell has safe top pilot light burners.—W. R. Womack.

Previous to the war most of the spinach seed sown in this country came from Europe. Because of the war none is being imported from Europe and the price, instead of the usual 11 cents a pound, has been advanced to 60 cents a pound.

British Captives of Nazis in Africa

This picture, taken somewhere in Africa, shows a group of British soldiers fresh from the fighting lines of the see-saw battle of the dark continent. They are shown in the prison camp to which they were removed after the capture by the successful Nazi and Italian forces.

Mr. and Mrs. Claude Callaway and Tom Callaway, also Jim Callaway of Sayre, Okla., went to Rosebud the first of the week to visit their sister, Mrs. R. A. Davis, who is seriously ill.

Dr. Hines Clark and son, Charley, went to Austin Wednesday night on account of the illness of his brother, C. S. Clark, chairman of the State Board of Water Engineers.

There are thirteen banks in the United States operated wholly by negroes. Their combined resources are \$10,000,000.

There were 52 persons in the United States in 1939 who had net incomes of a million dollars or over.

Britain Finds Its Soul Asserts Noted Educator of Bomb-Torn England

"Tribulation and difficulty are the tonic of virile peoples," writes T. A. Warren, director of education of Wolverhampton, England, in the current Rotarian magazine. "Out of darkness cometh light" proclaims the coat of arms of my town."

The first World War started England out of a complacency, and even while matters were at their worst, plans for a better life were set in motion. Farren declares. New education laws, new social-security laws, were put in motion. Instead of building more planes and tanks, education was stressed—and tuberculosis deaths and maternal and infant mortality were halved.

Even the frightful destruction of the cities may be a blessing. The rebuilt cities will be more healthful, better designed. The mistakes of centuries will be overcome at last. "In this and a thousand other ways, war has hastened progress," Warren points out. "Britain can be a happy and a busy land in the days that lie beyond the ghastly nightmare."

According to Attorney General Jackson there are 6,000 deportable aliens in the United States at the present time.

### Twelfth Annual Texas Cowboy Reunion Will Give \$3,500 in Prizes

Stamford, June 2.—Premiums and cash prizes amounting to \$3,500 will be awarded in various events in the twelfth annual Texas Cowboy Reunion here July 3, 4 and 5.

Expensive saddles will be awarded to the champion calf-roper, the champion wild-cowmilker, the winner of the cutting-horse contest and the winner in the sponsors' contest. Sterling silver belts, with gold overlay and set with rubies will be presented to the champion bronc rider and champion steer rider. A grand prize of similar value will be awarded in the bareback bronc-riding contest. Other trappings will be awarded for place winners in some of the events.

In the rodeo events, day money will be paid in calf-roping, cowmilking, saddle-bronc-riding, steer riding and bareback bronc riding. Cash prizes amounting to \$650 will be paid in the quarter-horse show being held jointly by the Reunion and the American Quarter-Horse Association.

The most typical cowboy over 55 years of age will be presented a cowboy Stetson hat and the most typical cowboy under 55 will receive a gold watch.

Cash prizes of \$105 will be awarded for best entries in the various sections of the grand parade. Cash awards in the old riders' contest will total \$32.50.

### Long-Term Loans To Buy Farms To Be Made By FSA

Loans with which worthy tenant farmers may buy family-size farms are again to be made in Foard County, according to an announcement received today from Julian Wright, Farm Security Administration supervisor.

For the second year, Foard County has been designated by Secretary of Agriculture Claude R. Wickard as one in which this program will operate. Loans which bear three per cent interest and are payable over a 40-year period are to be made to worthy tenants, sharecroppers, and farm laborers to establish themselves on their own land.

"This program is very important now that we are engaged in this defense work," Mr. Wright said. "Ownership of land by people who farm it is a good defense against foreign 'isms' as well as possible invading armies."

Loan applications may be had from the Farm Security office located in Crowell, Texas.

White farmers are eligible for these loans.

You can never replace fire waste.

### CHURCHES

Christian Science Church Sunday School at 10 a. m. Sunday services at 11 a. m. Wednesday evening services at 8:00 o'clock. Sunday, June 8, 1941. Subject: "God the Only Cause and Creator." The public is cordially invited.

East Side Church of Christ Each Lord's Day—Bible classes at 10 a. m. Worship service at 10:45 a. m. Evening service at 7 o'clock. Mid-week Bible class each Wednesday evening.

Methodist Church The activities of our churches are much more inclusive now than a generation ago. We do have much machinery and "stream-lining" of the work in general, but it is all to specific purposes. There is not an age group, from the baby in his basket to Grandpa and Grandma, or any other person not privileged to attend church, but there is a place for them in the church's program and literature. In our program for this summer we have arranged a "Vacation Bible School," now in progress; a young peoples' week's meeting with a traveling squadron of your young persons and an adult sponsor, giving the entire summer to Christian work with the youth of our churches. They will be in Crowell on June 28, through July 4, and through this week's activities we hope to lay a foundation for our regular revival, with services morning and evening, beginning on July 20, and continuing for some two weeks.

The church will also be opened at stated hours for recreation, council, round-table discussions, and a room for magazines, good books, and general gatherings of committees, etc. The pastor will be available in the mornings for council with any one wishing to talk over matters of personal, or general interest. The church is here to assist you, in a troubled

### Peace Comes to Coal

John L. Lewis, head of the United Mine Workers of America, who, with Maj. W. W. Inglis, chairman of joint board of miners and operators, signed the coal peace pact officially ending the wage dispute in the coal industry. He is shown here addressing wage conference in New York just before pact was signed.

age, to find your way to noble and purposeful living. We urge you as an individual, and the general public to let the church be of service in stabilizing life for its future days.

On next Sunday evening those who have had an active part in the Vacation Bible School will be in charge of the services and will exhibit their work and put on a program of wide interest. We appreciate the fine co-operation of the parents in sending their children for these two weeks and we are anxious that you see, in this program, some of the work they have been doing.

Our regular church services are: Worship services, 11 a. m. and 8 p. m.; Sunday School, 9:45 a. m. and W. S. C. S. on Mondays, 3 p. m.

H. A. LONGINO.

#### Christian Science Services

"God the Only Cause and Creator" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, June 8.

The Golden Text is: "Great and marvelous are thy works, Lord God Almighty; just and true are thy ways, thou King of saints" (Revelation 15:3).

Among the citations which comprise the Lesson-Sermon is the

following from the Bible: "Thou art worthy, O Lord, to receive glory and honour and power: for thou hast created all things, and for thy pleasure they are and were created" (Revelation 4:11).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Creator; Spirit; Mind; intelligence;... God, who made all that was made and could not create an atom or an element the opposite of Himself" (page 583).

The manufacture of corn cob pipes, usually known as Missouri meerschaums, was started in 1870 by Henry Tibbe, a cabinet maker of Washington, Missouri. He was working in his shop one day when a farmer brought in a pipe made

of a corn cob that had been allowed out with a knife and requested Tibbe to smooth the exterior of the bowl. Tibbe then inserted a reed stem in the hole and the pipe was ready. Tibbe's outfit, now known as the Missouri Meerschaum Co., and owned by E. E. sold 30,000,000 corn cob pipes.

According to news reports new Lockheed interceptors made 458 miles an hour. The speed the plane appeared in and disappeared before the eyes of its motors could be heard.

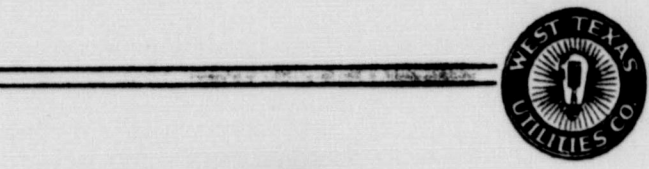

Germany and Great Britain even while they are entering into agreements and patents in two countries continue to renew fees to the host country.

### PREPAREDNESS

Your income is worth more to your family than all else in the world. Insure this, your greatest asset for your family's future need. Sooner or later it will stop, from unemployment, disability, old age, or death. Plan your family's future through Life Insurance. The sooner you plan your future the better your future will be. Is your family secured? Preparedness is meaningful.

#### JOE COUCH

13 years service with The Great National Life Insurance Co.

## WHAT'S YOUR SCORE ON THIS QUIZ?

Like to know more about Your Electric Servant? Run through this quiz... full of facts and explains why Electric Service is GOOD... and CHEAP... West Texas.

- Q. How much more light do you get for your money now than you got 10 years ago?
  - A. You get, for about the same money, two or three times as much Electric Service as you did then. And bulbs today give about twice as much light with the same amount of electricity. Twice as much service for twice-as-good bulbs means four times as much light for your money!
- Q. How much per day do most families spend for electric service?
  - A. The majority of our customers pay us less than 10 cents a day (the cost of a shoe shine or a good cigar), using, say, lights, vacuum cleaner, radio, toaster, and refrigerator.
- Q. What do you say to a husband (or wife) who fusses at you for letting a 100-watt light burn all night?
  - A. "Don't get excited, dear. Believe it or not, it costs only about a nickel—and maybe it scared a burglar away!"
- Q. Who owns Your Electric Servant?
  - A. You do. Every family who has a bank account or a life insurance policy is part owner. The money you put in the bank, or pay to an insurance company, is invested in various businesses, including electric utilities. This makes you one of the millions who have a stake in the American system of private initiative and enterprise.
- Q. Just how dependable is electric service in West Texas?
  - A. Equally as good as any in the nation. And better than in any foreign country.

Yes, electric service has constantly improved and rates have steadily gone down. Remember that this BETTER SERVICE at LOWER COST to you has been brought about by our trained and experienced organization of over 1,000 men and women, working under a system of private initiative and enterprise... the only kind of system ever to bring better living conditions to ALL the people.

### West Texas Utilities Company

#### HERE'S THE OFFER

Send your old electric bill to our nearest local office. If yours is the oldest we receive by June 15, it is worth \$50 to you—if one of the 10 next oldest, we will pay \$5 for it. It must be for service in the home, dated 15 or more years ago, and must be accompanied by a letter, 100 words or less, telling something about the kind of service and the cost at the time the bill was paid. All present customers of the West Texas Utilities, or its predecessors in this community, (excepting employees) are eligible.

### ATTENTION—BOYS AND GIRLS

Prepare to make money and at the same time be of service in the nation's Defense Program. A father was in our office a few days ago to arrange for the enrolling of his daughter who was graduating from high school and he remarked: "This is a splendid time for a young man or woman to attend a business school and secure their business training for it looks like there is going to be plenty of good positions for them." That father was right. We are receiving more calls each week for Byrne graduates than we can supply. Get specialized training for a good position. Our courses are complete and thorough. Upon graduation, there will be opportunity for employment either with the national government in Dallas, or in Washington, D. C., or you may accept a position with private business firms in Dallas and in the Dallas trade territory.

#### The World's Greatest Need

A generation ago a poet sang: "Do you know the world is dying for a little bit of love?" The theme still calls for accent and repetition, but now we have reached the deep step in human suffering. The world not only is dying for lack of love—it is committing suicide through its propagation of hate. Is it not strange that after a generation of emphasis on brotherhood we should have the sudden outbreak of the worst epidemic of hatred human history has known?

Christianity or the Bible cannot be blamed for this condition. The Bible is a discredited book in the lands where hate is the strongest. All of these lands have majored in education, in science, and in philosophy. They scoffed at both the justice and the love of God. Men were doing very well, and God was not needed, and then the prairie fire of passion

children, Carrol and Don Henry, spent Friday with his sister, Mrs. Clyde Cobb, and family.

Miss Yvonne McLain of Crowell visited Dorothy Hall a while Monday afternoon.

The Home Demonstration Club will meet in the home of Mrs. J. A. White Friday, June 6, at 2 p. m.

swept the world. Yes, the world is dying for love—because it has rejected the love of God in Christ.

How significant these Bible sentences should be in this dark hour: "For God so loved the world, that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life" (John 3:16). "The Lord hath appeared of old unto me, saying, Yea, I have loved thee with an everlasting love; therefore with loving kindness have I drawn thee" (Jer. 31:3).

Over against these declarations of God's love are the verses of Scripture which show man's ungrateful denial of that love: "Hear, O heavens, and give ear, O earth: for the Lord hath spoken, I have nourished and brought up children, and they have rebelled against me. The ox knoweth his owner, and the ass his master's crib; but Israel doth not know, my people doth not consider" (Isa. 1:2, 3). "O Jerusalem, Jerusalem, thou that killest the prophets, and stonest them which are sent unto thee, how often would I have gathered thy children together, even as a hen gathereth her chickens under her wings, and ye would not" (Matt. 23:37).

You who are embittered by hatred, you who expect by slaughter to achieve peace, why not see that the root of all war is rebellion against a loving God? Why not close in with His offer of mercy and with the free gift of salvation in Jesus Christ? And you who profess to be Christians, why not yield your life to Him, so that He can love through you?

of aiding the eye to see big distant stars and microscopic germs are made of sand—this silica.

It would be a mistake to suppose that to make lenses for spectacles, microscopes and telescopes all one has to do is gather sand from any beach and melt it. Window glass can be made that way, and so can common glass utensils. But not the lenses of spectacles and fine optical instruments like range finders that enable a battleship to hurl shells at another just visible on the horizon; binoculars that enable one to follow his favorite horse in a race; spectroscopes that split up light into its many hues; or periscopes that enable submarines to fire torpedoes under water accurately.

#### A UNIVERSE IN A GRAIN OF SAND

A white beach stretches before you. Hundreds of millions of grains of sand. And each grain is a little world of its own. Look at one such grain through a microscope. It is a jagged, rough world, with mountains and valleys. Germs can hide in the valleys or perch on the peaks—and do. Millions of these germs can live on that infinitesimal world.

These grains of sand are what the chemists call silica. An eighth of the earth's crust is composed of silica. It is about the commonest stuff known. It glows in the sun, in the distant stars. With its aid, mere sand, science has been able to find why the sun shines and that germs are the cause of many diseases. We know about the little world that is a grain of sand because we look at it with transformed sand. By this I mean glass. All the spectacles, all the lenses of microscopes, telescopes, all the ways

unless it is shaped it cannot bend light—bring it to a focus so that the eye can see the invisible or magnify a star, or watch horses on the track. It is the most delicate job in the world—this shaping of a lens. Skilled men must grind it so that its curve does not vary more than a millionth of an inch. A little more, a little less, and scores of disease germs, millions of stars would not have been discovered. Light must be bent in just the right way to be focused.

Unless that special kind of sand or silica had been found, unless skills had been developed which made it possible to shape glass so that it could be bent with mathematical accuracy, one would hardly know more about life than Columbus did. No photography, no science of astronomy, or optics, no knowledge of bacteria, no way of projecting motion pictures on a screen, no spectacles to renew the world of knowledge and beauty for countless millions; in short, very little of what is called "science."

Texas oil producers pay more in State and local oil taxes than the producers of all of the seven next largest oil-producing States combined.

### Happiness Girls Visit Crowell

Pictured above are two of the Happiness Girls who were in Crowell Thursday to inaugurate Duncan Coffee Company's program whereby the Crowell Fire Department will receive five cents on each pound of Admiration coffee bought from local grocers during a 30-day period from May 30 through June 30.

# PRESIDENT SIGNS BILL

Placing the loan value of wheat at 85 per cent of parity if the wheat marketing quota referendum carries Saturday.

## Bonded Warehouse

We are a bonded and Government approved warehouse and issue Government approved warehouse receipts and check covering loan without delay, providing you have complied with the government program and are eligible for such loan.

## Private Storage

To those who are not eligible for government loans we will be glad to buy or store your wheat and can make loans on private stored wheat.

## Highest Market Prices

We will pay highest market prices for wheat, oats, barley or mixture.

## Appreciation

We are very grateful for the volume of business you have given us in the past, and will continue to give you fast and courteous service.

We hope to see each of you personally before harvest.

## Exchange Your Wheat for Flour!

We Will Exchange

100 Pounds of "BELLE of CROWELL" FLOUR

For

3 Bushels of Number 1 Wheat

(Every Sack of "Belle of Crowell" Flour Unconditionally Guaranteed)  
No Storage Charge on Wheat Left For Flour

## Miss Vera Patton and Earl Manard Married Saturday

Miss Vera Patton and Earl Manard were married in the parsonage of the Methodist Church in Childress Saturday afternoon at 6:30 with the pastor, Rev. Oran W. Carter, officiating.

Following the ceremony they went on to Amarillo for a short honeymoon, returning home Monday afternoon.

Mrs. Manard is the younger daughter of Mr. and Mrs. G. H. Patton and was born and reared in this community. She attended Crowell schools and was graduated with the class of 1926. Following her graduation, she attended Trinity University in Waxahachie and received her B. S. degree from that institution. She has taught school for a number of years and was English teacher in the Crowell High School four years and for the past two terms has been English instructor in the Paducah High

School. Mr. Manard is a nephew of S. E. Tate and has been reared in the home of Mr. and Mrs. Tate near Crowell. He is an employee of the State Highway Department. Mr. and Mrs. Manard will make their home in Crowell.

## Crowell Girl and Dallas Man Married in Altus Sunday

Miss Nora Carl Zeibig and Fred DeJarnette of Dallas were united in marriage at Altus, Okla., Sunday evening at 8:30 o'clock. Immediately following the ceremony the couple left for Dallas to live in a home previously prepared for the bride's reception.

They were accompanied to Altus by Kerley Lamb of Dallas and Miss Lorene Odle of Crowell. Mrs. DeJarnette is the youngest daughter of Mr. and Mrs. Carl Zeibig and the granddaughter of Mrs. J. L. Glover and was born and reared in this community. She was a junior in Crowell High School during the term just closed.

Mr. DeJarnette was reared in Dallas and is employed as a mechanic in the construction of an airplane factory in Dallas.

## Mrs. Coy Ward Is Honoree at Shower Monday Afternoon

Mrs. Coy Ward, who, until her recent marriage, was Miss Yvonne Weaver, was the honor guest on Monday afternoon when Mrs. Glenn Goodwin and Mrs. Jake Moore entertained with a miscellaneous shower in the T. E. L. class room at the Baptist Church. The room was attractively decorated with the season's flowers. In a short program, Paula Plunkett sang an appropriate number. She was accompanied by Mrs. Woodrow Lemmons, who also played piano selections.

Mrs. Garland Foster was in charge of the bride's book, where a large number registered.

Punch was served by Mrs. Goodwin, Miss Yvonne Williams assisting her.

The hostesses were assisted in entertaining by Mrs. Frank Moore and Mrs. W. B. Fitzgerald.

### VIVIAN H. D. CLUB

"There are a number of reasons for having grass in the yard," said Miss Joellene Vannoy, home demonstration agent, told the Vivian Home Demonstration Club which met with Mrs. Johnny Marr Thursday, May 27.

"Grass looks inviting to those who drive up," continued Miss Vannoy. "It keeps one from having so many walks, and helps to keep the house cleaner and cooler."

Three good types of grass for this area are Bermuda, mesquite and buffalo. Grass should be set about 6 or 8 inches apart in small pieces.

Among those present were Mesdames J. B. Easley, J. W. Carroll, R. N. Beatty Jr., Misses Elvira Marr, Thelma and Lilly Faye Beatty, Alice Bowley and Miss Vannoy.

The next meeting will be with Mrs. Ike Everson Thursday, June 12.

### RIVERSIDE H. D. CLUB

"There are three kinds of grass that do good in this country," Bermuda, mesquite and buffalo grass," stated Miss Joellene Vannoy, to members of the Riverside Home Demonstration Club at the

home of Mrs. Earl Kennedy on Tuesday afternoon, May 27. "You should always use small plants of grass, when you go to put out grass. Grass always makes a place cool and keeps away some of the dust," stated Miss Vannoy.

A round table discussion on new ways of preparing vegetable dishes was held. Refreshments of punch and cookies were served to seven members and Miss Vannoy. Next meeting will be family night at the school house. Miss Vannoy will have charge of the program.

### COUNTY FEDERATION

The Riverside Home Demonstration Club was hostess club to the County Federation in its meeting on Wednesday, May 28.

A large number was present to answer roll call for the various clubs. Mrs. H. Schindler, president, called the meeting to order and conducted a short business session.

Mrs. A. D. Campbell was the program leader. Mrs. S. S. Bell gave, from the Christian Herald, an article entitled "Churches Must Be Beautiful." Mrs. Grady Halbert talked on "The Virgin Islands, Barbados and Trinidad," stressing the importance of each to the United States at the present time.

Following a delicious covered dish luncheon at the noon hour, Mrs. R. L. Kincaid gave an interesting report of the district meeting recently held at Amarillo, to which she was delegate from the County Federation. Mrs. T. B. Klepper reviewed Kathleen Norris' "Mother."

Of the 33 ladies present, 12 represented the Garden Club and this was the largest number for any one club. This meeting closed the work of the County Federation for the current club year.

### CHRISTIAN ENDEAVOR

The Christian Endeavor met Sunday afternoon, June 1, at the First Christian Church of Crowell.

"What A Friend We Have In Jesus" was the opening song of the program and the subject of lesson was "People Living In Slums." Mary Elizabeth Roberts was leader. Talks were given by Junior Hennessey, Geraldine Davis, Marion Boley, Dorothy Teague and Paula Plunkett. The song, "My Prayer," was followed by sentence prayers.

Every child is invited to attend the Endeavor each Sunday afternoon at 5 o'clock.

### ROTARY CLUB

The program of the Crowell Rotary Club Wednesday at noon was in charge of Hubert Brown with Rev. Hugh Longino giving an interesting talk on "human nature."

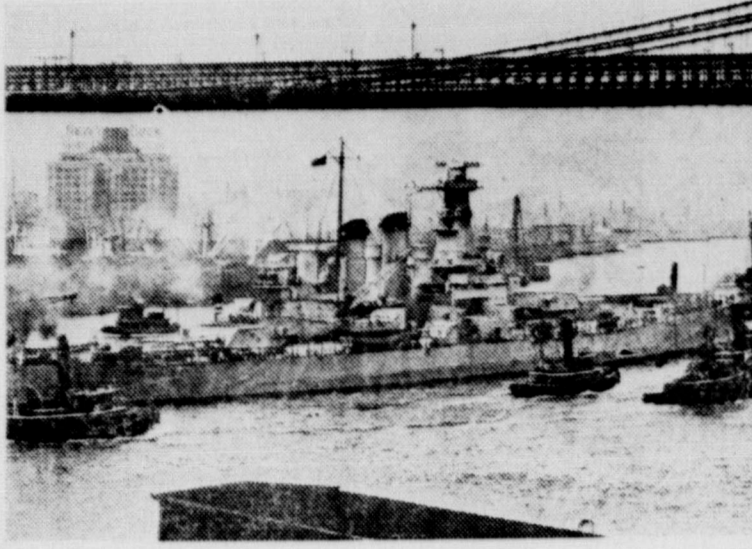

Frank Kirkpatrick and T. B. Klepper were appointed for the program committee for the next two weeks.

The president, Dwight Moody, announced the Crowell club had dropped out of the first high ten in attendance in the district for the month of May. Crowell was in the 19th place in the district report.

A strike of 3,500 members of the C. I. O. Transport Workers Union recently tied up two bus lines in New York City causing some 200,000 persons to walk to work. The strikers demanded a 25 per cent wage increase, a reduction in hours and three weeks vacation each year with pay. The increase in wages demanded represented more than the earnings of the two companies. The strike was called by Mike Quill, one time Irish revolutionist, who declined to condemn the Hitler-Stalin pact.

A total of 288,000 Texas school children, or one-fourth of all the school children in the state, are educated through taxes paid by the Texas petroleum industry.

## U. S. Giant of Deep Leaves New York

View of the 35,000-ton superdreadnaught "North Carolina," mightiest of the warships in the United States navy, pictured as she slipped down the East river, beneath the Brooklyn bridge, bound for the open sea. Her destination was veiled in mystery. The ship is able to fire a broadside of 20,000 pounds for 20 miles.

## Thoughts of Serious Moments

Instruction increases inborn worth, and right discipline strengthens the heart.—Horace.

Enlighten the people generally and tyranny and oppression of both mind and body will vanish like evil spirits at the dawn of day.—Thomas Jefferson.

Real knowledge, in its progress, is the forerunner of liberality and enlightened toleration.—Lord Brougham.

To reach port, we must sail, sometimes with the wind and sometimes against it, but we must sail, and not drift, nor lie at anchor.—Oliver Wendell Holmes.

Our thanks should be as fervent for mercies received as our petitions for mercies sought.—Charles Simmons.

We ought not to look back unless it is to derive useful lessons from past errors and for the purpose of profiting by dear bought experience.—George Washington.

I go with what I am about as if there were nothing else in the world for the time being. That is the secret of all hard-working men.—Kingsley.

What is defeat? Nothing but education. Nothing but the first step to something better.—Wendell Phillips.

The highest reward for man's toil is not what he gets for it but what he becomes by it.—Ruskin.

The things which hurt, instruct.—Whittier.

The greatest events of an age are its best thoughts. It is the nature of thought to find its way into action.—Bovee.

Spiritual force is stronger than material; thoughts rule the world.—Emerson.

Secret study, silent thought, is, after all, the mightiest agent in human affairs.—Channing.

All thoughts that mould the age begin deep down within the primitive soul.—James Russell Lowell.

The morality of an action depends upon the motive from which we act.—Samuel Johnson.

In the works of man as in those of nature it is the intention which is chiefly worth studying.—Goethe.

The measure of a man's real character is what he would do if he knew he would never be found out.—Macaulay.

## USO DRIVE ON

E. B. GERMANY

As Southwestern chairman of the United Service Organizations for National Defense, E. B. Germany of Dallas is regional director of the nation-wide campaign to provide recreational and welfare facilities for soldiers, sailors, and defense workers.

Endorsed by the President and Army and Navy officials, the USO expects to raise \$10,765,000 to operate service establishments built by the Government. Texas' quota is \$400,000, and committees appointed to raise this fund began their drive officially June 3 in every Texas county.

Mr. Germany urged all citizens to contact local USO workers and participate in this patriotic movement.

## Per Cent of Coffee Sales Go To Fire Boys

The Crowell Volunteer Fire Department will receive five cents from the Duncan Coffee Company for each pound of Admiralty Coffee that is bought from the local grocers during a thirty day period, May 30 through June 30.

Two of the company's "Happiness Girls" were in Crowell last week and took inventory of this brand of coffee which was on the grocers' shelves at that time. At the close of the thirty day period a second inventory will be made and the local fire department will receive five cents for each pound of Admiralty coffee which has been sold.

## Brief Bits of News From Here and There

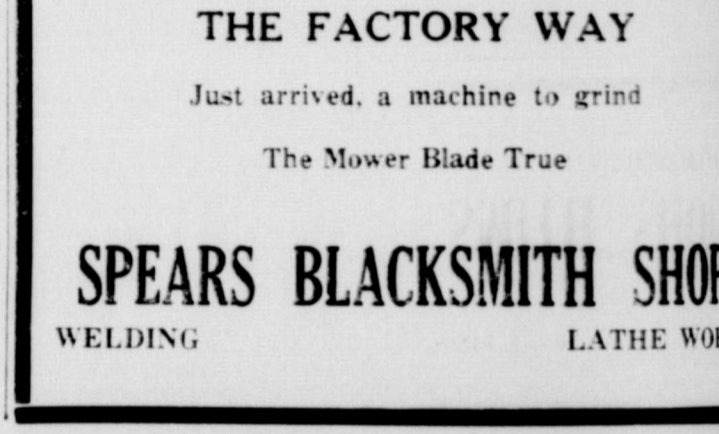

It is predicted that 90 per cent of the tooth brushes manufactured in the United States in 1940 will be bristled with a nylon filament instead of the usual bristle.

Until recently the government of the Island of Bermuda has banned automobiles from the island. Since the establishment of a United States defense base recently, the ban has been lifted but only in respect to army officials and army trucks. One governor, Gen. Sir Reginald John Thornton Hilyard resigned because he was not permitted use of an automobile when on duty.

Nearly 200,000 oil and gas wells have been drilled in Texas since 1920.

The American Red Cross is aiding six nations—Britain, occupied France, Finland, Greece, Spain and Greece. The total relief amounts to \$27,000,000 which \$13,000,000 has gone to Britain.

## Testifies

Mary Spargo, before Dies committee in Washington, testifies before 150 government employees about an American peace mobilization. New York as official delegates, said these employees have been reporting the Communist AP.

## Needless Accidents Prove Greater Threat To Defense Than Sabotage, Says Expert

"Save fingers for defense," urges Paul W. Kearney, expert on safety, in the current Rotarian magazine. "Nonfatal occupational injuries in 1940, in the United States put the equivalent of 30,000 workers off the job for 30 days." This cost 600 million dollars—more than enough to train, house, feed, clothe, and pay the 1941 draft army, he adds.

Though the industrial accident rate has been cut 69 per cent since 1926, it is still too high, this safety publicist maintains. During the past year, 234,000 workers drew compensation because they "pain fell down" and 312,000 more were injured while lifting or handling objects.

Small plants have an accident frequency rate 58 per cent higher than large establishments. "In a nutshell," Kearney declares, "the greatest field for further industrial safety progress is in selling the 'safety habit' to the personnel of the average sized plant."

Advances in safety protection of machinery have gone far beyond the average worker's thinking of safety, Kearney maintains. Further savings will come in educating the workers to think and live safely. Interdepartmental contests, interplant contests, and city-wide contests are powerful weapons. But the newer idea of foremen's safety schools, such as is operated by organized business in the city of Milwaukee, is the most potent factor now in use and spreading. Here safety methods and the newest ways of teaching them to others so as to make them habits are stressed.

A new record of 11,114,000 man hours without an accident in a machinery plant lasted just long enough to be broken by a chemical industry record of 11,361,846 man hours. "Such records aren't established by prayer and fasting," Kearney notes. "They breed from a painstaking, relentless campaign to sell the safety doctrine to every man and woman on the payroll! It must be done collectively instead of individually—this year of all years. Fingers are needed for defense."

## LAWN MOWERS SHARPENED THE FACTORY WAY

Just arrived, a machine to grind The Mower Blade True

## SPEARS BLACKSMITH SHOP

WELDING LATHE WORK

Where's the best place to choose your new car?

**ON THE ROAD!**

WELL MATCH the "showroom value" of the Ford with anyone... but if you want to know how great a car this is, take one out on the road!

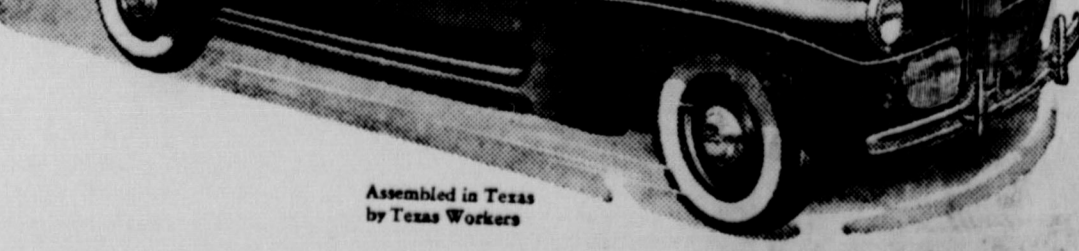

TEST THE PERFORMANCE... IN ACTION. There never was another low price engine like this 90 horsepower Ford V-8. Take it out in traffic—then step out on the open road—challenge the toughest hills. Draw your own conclusions!

TEST THE RIDE... IN ACTION. Ride on the pavement, then ride the roughest road you know. You'll find the new Ford ride is the kind of ride you like. Smooth where the going's good. Soft and steady over the bumps.

TEST THE ROOM... IN ACTION. Measurements show this Ford greatest in its whole field in actual passenger space. A ride will show what this means. Bigness counts and here it is!

TEST THE VALUE... IN ACTION. Stop with the biggest hydraulic brakes anywhere near the price. Rest your toe on the pedal of a fine-car type of semi-centrifugal clutch. Flick through the gears with the easy, silent kind of finger-tip shift that high-priced cars use.

90 HORSEPOWER -V-8 SMOOTHNESS

Assembled in Texas by Texas Workers
