Crowell Basketball Team Won Three Conference Games During Week and Are Undefeated in District Race

Sinks Jap Ship

Commander John D. Bulkeley, commander of "mosquito boat" that sank an enemy vessel of 5,000 tons in night attack, under hall of shells. Bulkeley was commended by the navy department.

The Crowell Wildcats won three more conference basketball games the past week to remain undefeated in the district race. Seymour, Chillicothe and Iowa Park were the clubs over which Crowell won. The game at Seymour last Friday night was close all the way with the Wildcats winning by a 30 to 29 count. Two extra periods had to be played to decide the contest. Seymour had a one point lead until Owens' gratis shot tied the count at 25 to 25 just as the regulation time was up. In the first extra period Roark made a field goal to place the Wildcats in the lead, but Warren made two free shots just as the three minute period was up to tie the count again. In the last extra period Nelson's field goal and White's gratis shot was better than Seymour's two free shots and the game ended 30 to 29 in the Wildcats' favor. Nelson led the field in scoring with twelve points while Thornhill of Seymour was scoring eleven points for second place.

The game with Chillicothe here Tuesday night was very one-sided, with Crowell winning by a 53 to 8 count. The Crowell boys looked good in every way except "crip shots." On many occasions the Wildcats did some good passing to only miss set up shots. Pollard, forward for Chillicothe looked fair at times and scored four of the eight points. Lampke and Henry, regulars for Chillicothe, were out of the line up due to illness. Nelson, Thompson, Roark and Blevins divided honors in points with eight, nine, ten and eleven, respectively.

On Wednesday night the Wildcats had very little trouble winning at Iowa Park by a 34 to 15 score. The Hawks never did get close enough to the Crowell boys to scare them, but Coach Graves was forced to use his regulars most of the way. Captain Roark scored thirteen points for the Wildcats, and Nelson played an excellent floor game. The Crowell boys did the best passing that they have done this season. Banning and Turner stood out for Iowa Park.

RUNWAY AT HOSPITAL

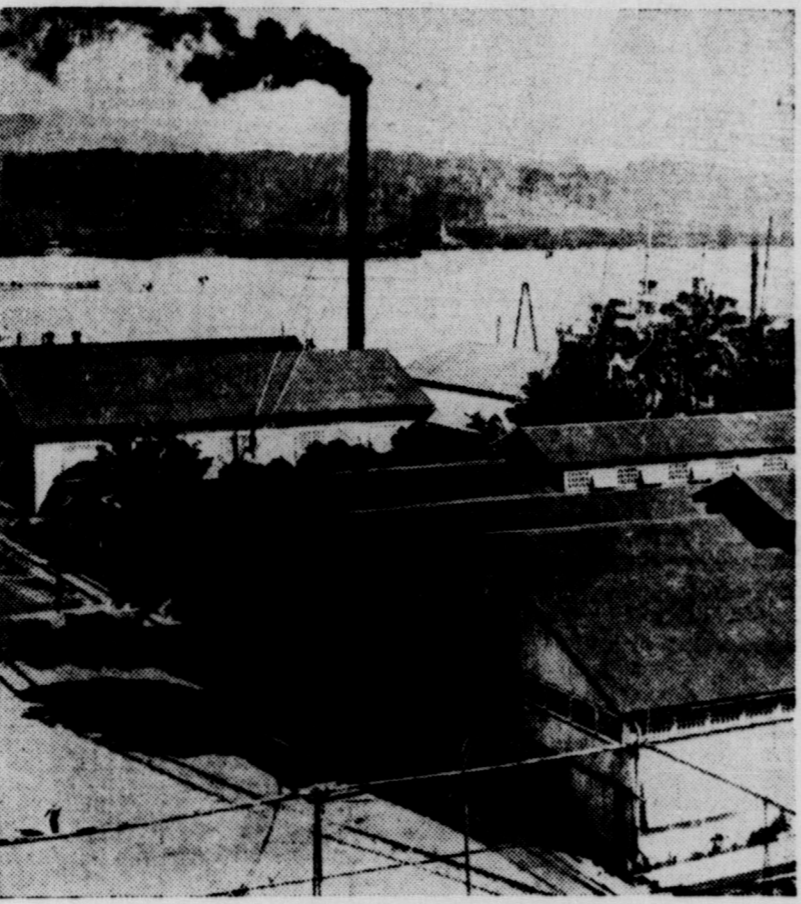

A runway has been added to the Foard County Hospital in the last few days. At the back, a slanting runway has been placed over part of the steps, to facilitate the taking in of new patients from an ambulance or car. The hospital authorities are very proud of the needed addition.

Production Chief

Donald Nelson, named by the President to head a war production board, superseding the supply, allocations and priorities board. Nelson has "final" authority over all matters of production.

Where Japs Got Hot Reception

A view of the yard at the naval station at Olongapo, Philippine Islands, 60 miles from Manila on the Bataan peninsula, where Japanese army forces in a large-scale offensive met with a deadly hail of fire from General MacArthur's embattled defenders. Olongapo is an important submarine base equipped with floating docks.

Former Crowell Resident Succumbs at Vernon Home

Funeral services for Mrs. John Myers, 54, former Crowell resident, were held from the First Baptist Church in Vernon Friday afternoon at 2 o'clock, conducted by the pastor, Dr. E. S. James. Burial was in East View Memorial Park.

Mrs. Myers, wife of County Judge John Myers, died at the Myers home in Vernon Thursday morning at 7:15 o'clock following a long illness. She had been in failing health for several years and had been seriously ill since early December.

County Agents Attend District Meeting

John Nazy, county agent, and Miss Joellene Vannoy, county Home demonstrator, were in Benjamin Tuesday to attend a district meeting which convened there.

Three specialists from A. & M., Jimmie Rosborough, whose specialty is Horticulture; Cameron Siddall, Entomology; and M. S. Bentley, Engineering, talked on Garden and Orchard Varieties; Insect Control and Repair of Farm Machinery. The district agent, J. A. Scofield, was also present.

83RD BIRTHDAY CELEBRATED

J. W. Klepper celebrated his 83rd birthday last Sunday at the home of his daughter, Mrs. Allen Fish of Vivian. Mrs. Fish prepared a birthday dinner, with her children, Mr. and Mrs. John Allen Fish and Mr. and Mrs. J. M. Denton of Paducah, also present for the occasion. Mr. and Mrs. T. B. Klepper and son, Billy, were visitors in the afternoon.

Mr. Klepper, a resident of Foard County since 1885, is in comparatively good health, except for the fact that he is almost totally blind. He is confined to his room all the time, due to his blindness. Mr. Klepper spends his time at Vivian and at Crowell.

Last Rites for Mrs. B. F. Whitfield Held Here Sunday

Death for Aged Former Resident Came Saturday

Funeral services for Mrs. B. F. Whitfield, 90, resident of this county since 1906 until about one year ago, were held from the Crowell Methodist Church Sunday afternoon at 3 o'clock, conducted by Rev. Oby Nelson, Baptist minister of Fort Worth, who was assisted by Rev. H. A. Longino, local Methodist pastor, and Rev. W. B. Fitzgerald, pastor of the First Baptist Church.

John Thomas Raser sang as a solo, "Sunrise," with Mrs. Arnold Rucker accompanying. The remaining songs were favorites of the deceased.

Mrs. Whitfield died in Fort Worth Saturday where she made her home with her daughter, Mrs. J. F. Witherspoon, and her son, Ben Whitfield. She had been in declining health for several years.

Pall bearers were Guy and Jim Whitfield, Buford Williamson, and T. O. Wilkins, grandsons, and Chas. Ferguson and Henry Black. Mrs. Frank Flesher, Mrs. C. W. Thompson and Mrs. E. A. Dunagan arranged the flowers at the church.

Burial was in the Crowell Cemetery beside the grave of her husband who died April 23, 1918.

Sarah Murphy Watkins was born Sept. 11, 1851, in Rusk County, near Henderson. She was the daughter of Rev. A. B. Watkins, one of the earliest Presbyterian ministers to be ordained in Texas, who came to this state in 1836.

At the age of thirteen she became a professed Christian and united with the Presbyterian Church and remained true and consistent in her beliefs throughout life.

On Sept. 11, 1873, she was married to B. F. Whitfield. Five sons and three daughters were born to this couple, five of whom survive. Two sons died before the family moved to this section, W. E. Whitfield passing away here in 1913.

In the early history of the Crowell Presbyterian Church, Mrs. Whitfield and her husband were active workers in the church, and assisted in the construction of the church building here many years ago. She was recognized for her devotion to her family and for the service she rendered to her generation.

Three daughters and two sons survive: Mrs. A. C. Johnson of Stamford; Mrs. J. F. Witherspoon and Mrs. Sats Wilkins, of Fort Worth; J. A. Whitfield of Crowell and Ben Whitfield of Fort Worth.

Out-of-town relatives and friends attending the funeral were Miss Mary Whitfield of San Angelo; Rev. and Mrs. Aby Nelson and son, Billie, and Mrs. Edna Meroney of Fort Worth, and Mr. and Mrs. M. L. Richards of Paducah.

Grady Roberts Visits in Crowell Monday

Representative Grady Roberts and Mrs. Roberts of Munday were visitors in Crowell Monday afternoon and while here Mr. Roberts made the following statement to a News' representative:

"As your representative of this district, I expect to make a formal announcement of my candidacy for re-election in the near future, but at present, I know you are far more interested in how we are going to win this war than you are in local or state politics. Now, as in the past, I have been so busy with defense work,

For Pan-American Solidarity Against Axis

Undersecretary of State Sumner Welles, center, and U. S. ambassador to Brazil, Jefferson Caffery, are shown talking to Oswaldo Aranha, Brazil's foreign minister, who was also administrator of the Pan-American conference held in Rio de Janeiro. The photo was made just before the third conference of foreign ministers in the interest of lining up all the American republics in a solid 100 per cent Western hemisphere front against the Axis, with a complete rupture of diplomatic relations. Leaders described Aranha as a "tower of strength."

Nation to Mobilize for All-Out Pledge in Gigantic Defense Bond Campaign

House Destroyed by Fire Early Monday Morning

Ten million volunteers to set pace in the most gigantic financial task in the nation's history as Secretary Morgenthau points the way in fight on two fronts. "Every Pay Day, Bond Day," is the slogan.

The Foard County Defense Bond Committee has received preliminary plans from the National Association, excerpts from which follow:

"Nation to be mobilized for all-out pledge in defense bond campaign. A vast civilian volunteer army of men and women of America are geared to wheel into action on a date to be announced in the near future to carry out a pledge to the soldiers, sailors, and marines, under the Stars and Stripes on the seven seas that they will not let them down.

"No worker will be overlooked. Systematically, block by block or by some other systematic plan in the cities and towns, and mile by mile in the rural districts, this vast army will call upon every income receiver to obtain a pledge of bond purchases on a regular basis. And this money so lent the Government in time of war will go to buy the food, the guns, the tanks, the ships and planes, the ammunition and supplies so vital for the support of our army, our marines, and our Air Corps in the total war in which we are engaged against the Axis powers of Hitler."

The Foard County Defense Bond Committee will receive further details later. They do know that every citizen of Foard County will be asked to make a conscientious effort and lay plans to put a part of their savings in Defense bonds and stamps, enough so that they can say "I am Doing My Part for My Country."

Local People Attend Childress Dedication

Bishop Ivan Lee Holt officiated at the dedication services of the First Methodist Church at Childress on Tuesday evening, Jan. 27. The first feature of the program was an interesting sermon by the bishop. The church was then presented to the bishop for dedication.

All officers of the church assembled at the altar for the dedication ceremony. A number of pastors of the district were in attendance. Attending from Crowell were Judge and Mrs. Claude Callaway, H. E. Ferguson and Rev. H. A. Longino.

Dinner was served in the basement of the church preceding the dedication.

Bishop Holt has a number of other churches in the Northwest Texas Conference to dedicate this spring. Crowell will have its dedication on March 22 and the church at Shamrock will be dedicated about the same time. The bishop will preside at both services.

14,141 Bales of Cotton Ginned in County Up to Jan. 16

The harvesting of one of the largest cotton crops in Foard County in several years is almost completed, according to the reports from over the county.

There were 14,141 bales, counting round bales as half bales, ginned in Foard County, from the 1941 crop prior to Jan. 16, 1942, as compared with 7,803 bales ginned to Jan. 16, 1941, the Department of Commerce has announced through its representative in this county, E. M. Crosnoe.

It is expected that the 1941 crop will total nearly 15,000 bales when the ginning season is completed.

HOSPITAL NOTES

Foard County Hospital

Patients In: Mrs. Julia Myers, Mrs. W. B. Fitzgerald.

Patients Dismissed: Mrs. Fred Wachsmuth and baby son, Mrs. L. H. Hammonds, R. R. Lanier, T. N. Bell.

Visiting Hours: 9:30 to 11:30 a. m.; 2 to 5 p. m.; 7 to 9 p. m.

Retires

The Most Rev. and Rt. Hon. Cosmo Gordon Lang, archbishop of Canterbury, who announced his retirement as head of the Church of England. He said that the present crisis needs a man with younger "ardor and vigor."

Patterns Wanted by Red Cross Leaders

Mrs. H. Schindler, chairman of War Relief Production of the American Red Cross for Foard County, is asking the ladies of the county to look through their patterns for men's or children's lounging or bathrobe patterns which they may have and would allow the Red Cross to use. Also, bed jacket or bath robe patterns for women and children are needed. Those responsible for this work will find it impossible to buy the patterns they need.

Those who have such patterns are asked to get in touch with Mrs. Schindler at an early date.

RECEIVES PROMOTION

Edward Gafford, son of Mrs. C. E. Gafford, has recently been given the rating of specialist, fourth class, in the 46th school squadron at Randolph Field, according to an article appearing in Tuesday, James W. Mitchell, of Childress, was also given the rating. Both are airplane engine mechanics.

BUILDING NEW HOME

A new rock veneer home was started this week for Mr. and Mrs. Earl Davis on their farm five miles east of Crowell which they recently bought from J. R. Ford. Leotis Roberts of Thalia is the contractor.

FOUR MAGIC WORDS
SAVE WORRY AND MONEY

You can forget all about the problem of slow, hard starting this winter; if you remember these four words: PHILL-UP with PHILLIPS.

Phillips 66 high test works like magic, no matter how long your car has been standing out in the cold. Starts pronto! Warms up fast. Prevents excessive battery-drain and crankcase dilution.

Remember, the Orange and Black 66 Shield is High Test Headquarters for car owners... because Phillips is the WORLD'S LARGEST PRODUCER of natural high test gasoline.

Your Horoscope

January 26, 27.—You lack confidence in your ability and depend too much on others. Do not be so ready to doubt your own powers to succeed, but concentrate your splendid energies. You are loyal, faithful and love your home and children, and the society of congenial friends. You have an artistic nature, somewhat lacking in endurance and staying qualities.

January 28, 29, 30.—You are very hospitable and your latch string is always out, while you are fond of being entertained socially, you much prefer to entertain others. You are capable of accomplishing great things, but you let them seem distant and beyond your reach. Nothing is out of your reach if you will but grasp it.

January 31, February 1.—Women born under this date are generally beautiful and have a mysterious, fascinating power. You make up your mind hastily, but frequently change it. You are much influenced by your early ideas and training.

children, Billie and La Nelle; Mr. and Mrs. G. M. Canup of Crowell, Mr. and Mrs. J. L. Farrar and son, Joe, and Hughston McLain. The evening was spent playing progressive 42.

J. N. Banks of Royse City returned to his home Tuesday morning after a several days' stay in this community where he attended to his farming interests. Mr. Banks plans to build a new house on his farm in about a month and he and his family will move here when this term of school is out. His son, J. N. Jr., will graduate from the Royse City High School in May.

Mr. and Mrs. Hughston McLain moved Tuesday to their new home in Foard City. Hughston McLain recently purchased the place from M. N. Morris of Vernon. The house was papered, painted and repaired last week.

Mr. and Mrs. Glenn Shook moved to the J. E. Stone farm one day last week. Glenn purchased this farm through the Government and it has been quite commented and it has been considerably repaired lately.

Mr. and Mrs. Sandifer Warren and children, who have been living on the Minniek ranch for the last two years, left for Norman, Okla., last week where they will make their home. Jack Walker and family of Crowell will move to the ranch about Feb. 1.

Mr. and Mrs. Ernest Patton and son, Don, of Crowell visited Mr. and Mrs. J. L. Farrar and son, Joe, Sunday.

Mrs. Ruth Marts and daughter, Helen Ruth, of Crowell visited her mother, Mrs. A. Weatherall, who is ill, on Sunday afternoon.

CATS, PETS SUPREME

A cat curled up on a rug communicates an air of luxury; cats alertly crouching at cracks and crannies fill one with a sense of security and peace; five cats... change a mere set of robes into a home.—Louis Untermeyer noted poet, in the current Rogentian magazine.

GIVE YOUR CAR A BEAUTY TREATMENT

Get rid of those dents and scratches your car has accumulated, add one of our wash and polish jobs, and have the satisfaction of driving a better looking car during the miles ahead.

3 BIG REASONS

Bring your Ford "Back Home" for service to make it last longer—for here is where you'll find:

1. Skilled Ford mechanics, experienced on Ford cars.
2. A completely equipped shop, where the job is done right without wasted time and added expense.
3. The Ford Parts Exchange Plan, which saves money for you when parts need replacing.

The Lord is my light and my salvation; whom shall I fear? The Lord is the strength of my life; of whom shall I be afraid?—Psalm 27:1.

Now that we have entered the war every individual may as well become resigned to the fact that he is going to be called upon to carry it to a successful conclusion. This will mean more work and harder work. It will mean doing without a good many things that many of us have come to regard as necessities. It will mean cheerful, and willing, and complete compliance to the rulings of those in authority. Some of the orders are going to seem drastic and harsh, but it is a drastic and harsh situation that we are facing, and victory is going to be worth any inconvenience and any sacrifice on the part of those permitted to remain at home in sheltered security.

One of the thrilling things about the attack upon the Philippines is the fact that Filipino soldiers are fighting side by side with Americans to defend the island. This is, of course, as it should be, but in this world where so many things that should be often are not, it is a source of infinite satisfaction that the Filipino soldiers and even the savage and semi-civilized Moros, who but a generation ago were human head-hunters, should now be lined up on the side of the democracies of the world, fighting side by side with Americans to oppose the invaders.

Business and industry throughout the country has begun to feel that labor is getting more privileges and more representation in the government than is industry and business. Business and industry both feel that if the rule is "No business as usual," the rule should in fairness be "No strikes as usual."

One of the good things that is coming out of the war, we are informed, is that automobile "grave yards" are going to be emptied for their scrap metal. Every community in the country has one or more of these. It will be a relief to see them cleaned up and especially to know that the old material will be put to a good use.

With the coming of rationing of automobile tires a lot of people in this country are going to discover what a really healthful and enjoyable exercise walking is. It will be slower but it will have its compensations.

The thirty-one degrees below zero weather that Hitler is encountering on the Russian front is stifling compared to the temperature that will greet him when he presents himself at the peace table.

When it comes to trickery, deceit, lying, treachery, and duplicity, Hitler and Japan are perfect affiliates. If there was ever two better mated deceivers and liars we have never heard of them.

What We Think (By Frank Dixon)

With the unprovoked and unwarranted attack by the Japs on Pearl Harbor the fighting blood of this country was whipped to a high pitch even before the wires had ceased humming with the news of the attack. The nation as one man rose up and signified its willingness to do whatever might be necessary to do to avenge the wrong. In a few hours Congress declared war, and a people, whom the day before had been divided as to the course this country should take, became united. All differences were laid aside and the one paramount issue common to all became the winning of the war. It was with such a background and stage setting that President Roosevelt went before Congress and asked for the biggest program of national defense that this world has ever known. The program called for thousands of airplanes and tanks, and millions of tons of shipping, the greatest army America has ever known, and a vast supporting program of preparation. To support this and to make this possible the President pledged the wealth and resources of the nation, its treasure, its man power, its gold, its industrial resources and even its hope of the future—all were pushed into the center of the table in the last final stand of democracy against totalitarianism. Everywhere men flocked to recruiting stations with offers of service in whatever branch of the service they might be needed. Seldom had such complete unanimity of purpose been witnessed in this country. To support the program and fight this war is going to require sacrifice, much sacrifice on the part of everyone. It is going to mean disruption of the peaceful, orderly tenor of our lives. It is going to mean tax burdens, the like of which we have never before known. We are going to reach a point where the well to do are going to have to give up most of their wealth, per-

THE WAVE WILL RISE

Brief Bits of News From Here and There

haps all of it. We are going to reach a point where the worker, the wage earner is going to have to give up many things. He is going to have to accept a lower standard of living. He cannot expect to maintain present standards through increased pay. There would be no sacrifice on his part in this. He is going to have to carry part of the burden himself. Hereafter we of this country have only read of such things and talked of them. Now we are going to have to experience them, to be a part of them. We are going to have to labor and strain and sweat under the burden of this war that has come to us. This is going to be the real test of our patriotism. It is one thing to declare one's patriotism with flag waving and cheers and salutes and quite another thing to declare it cheerfully, and willingly, and generously, and fully in acts of calm heroism and sacrifice, and stern self-denial. Upon the degree of our acceptance of this obligation will rest our fortunes and our fate in this war. It cannot be a lip service. It must be a heart service, a truly selfless, patriotic service. This is America's challenge. This is liberty's price. If an increase in food prices comes during the coming months it will be, authorities state, due to the fact that food is being purchased in advance of needs and hoarded. The disposition of many, in a position to do so, is immediately upon hearing the rumor of a threatened shortage of any item, to rush and buy a quantity of it. The result is a shortage and a sharp advance in price. This starts the agitation which is communicated to other items. For example, in the depths of the depression, when sugar was a drug on the market, if every one had gone to their grocer and bought a hundred pound bag of sugar it would have created a scarcity and a rise in prices. Food prices increased almost four points in December. None of this increase, authorities state, was due to any scarcity of any item. It was due wholly to a rush to buy before prices would advance. According to authorities there is plenty of food in sight for all, and prices will remain fairly level as long as buyers subject the supply to normal purchases only and refrain from a hoarding raid. One of the hoped for resources of rubber in this country, in the event the supply from the East Indies is cut off, or in the event this country desires to make itself independent of an outside rubber supply, is the Guayule shrub, a low growing weed-like shrub that abounds in semi-desert areas in the Southern part of the United States. Experiments have shown that rubber could be produced at the rate of 750,000 tons annually from this source by the end of 1943. This rubber is comparable in quality to second-best East Indies rubber, would be slightly less costly, and would give equal service. New York now has a financial liability law for car drivers. The new law stipulates that an uninsured car owner involved—regardless of who may be at fault—in a bodily injury or property damage accident of \$25 or more must immediately deposit with the state \$11,000 in securities or cash and prove future responsibility for the full amount. Otherwise, his license may be revoked. When the law was passed, last spring, it was estimated that about 30 per cent of New York's car owners possessed liability insurance. At the present time about 60 per cent of the state car owners possess liability insurance. While no one knows when the war will end everyone knows that it will end some day. Maybe soon,

maybe in several years. Whether it ends soon or several years from now there will be the problem of transition from a war time economy to a peace time economy. Many men, will of necessity, be released from war time industries to be absorbed in peace time industries. The shift will result in a period of unrest and perhaps a depression. If the war continues for a considerable length of time there will be inflation and a period of high prices. Following the ending of the war will come the readjustment or the settling back of prices to a normal level. This deflation will, as do all inflations, take its toll. Values will fall rapidly and some are bound to be injured in the process. The government is planning to cushion, insofar as possible, this readjustment. Even this will not prevent many feeling its shock and perhaps getting hurt in the process. Even a powerful government cannot protect all of its members in their varied situations and business transactions.

It is reported that Hitler may dismantle the famous Eiffel Tower of Paris that the metal may be used in the war. The announcement is an admission of the scarcity of metal in Hitler's munition plants. The Eiffel Tower was built fifty-two years ago. It has become one of the best known structures in the world. It received its name from Alexandre Gustave Eiffel the French engineer who built it in 1889. Its construction required 7,000 tons of steel. The tower was built as a display for a World's Exhibition held in Paris. The Eiffel Tower is an institution on the continent and has become to thousands in Europe what Niagara Falls is to American newly-weds.

Not the least effective unit in the Russian army is the Cossack brigade. This group once thought outmoded because of the entry of mechanized equipment into warfare has staged a brilliant comeback. The Cossacks are marvelous horsemen performing brilliant feats of horsemanship on parade. The old time Cossack was a terror to his enemy although he carried only a sabre or a lance. The modern Cossack carries a rifle and hand grenade or a machine gun, in addition to his sabre. He sweeps down swiftly upon groups of invaders wiping them out to the last man. For centuries back the Cossack has been a fighter and loves a battle. The Russian army has 100,000 of these fighters of the Russian plains who are taking a terrible toll of the invaders.

Most of the critical things in life, which become the starting points of human destiny, are little things.—Robert P. Smith.

Every rose is an autograph from the hand of God on His world about us. He has inscribed His thoughts in these marvelous hieroglyphics which sense and science have, these many thousand years, been seeking to understand.

Industrial ethyl alcohol, which is made principally from black strap molasses, a sugar-cane by-product, is used extensively in the manufacture of smokeless powder. Because of the demand for this purpose and because of the shortage of tankers to transport molasses from the West Indies a shortage in alcohol is predicted in 1942. To help relieve the shortage the OPM recently arranged with the Commodity Credit Corporation to release 20,000,000 bushels of surplus corn for conversion into industrial alcohol to supplement the output of regular ethyl alcohol producers.

Jim Whitfield, who is attending Trinity University at Waxahatchie, was here Saturday night and Sunday to attend the funeral of his grandmother, Mrs. B. F. Whitfield.

Miss Ruth Burns, who is teaching near Ranger, visited in the home of her grandmother, Mrs. N. A. Crowell, and other relatives and friends, over the week-end.

Jesse Dishman of Ogden, former resident of the Vivian community, was in Crowell Wednesday. His small daughter, Aline, is seriously ill in the Quannah Hospital.

Miss Dorothy Winningham, accompanied by her roommate, Miss Peggy Whetstone, of Lubbock, were visitors in Miss Winningham's home over the week-end. Mr. and Mrs. Winningham took them back to Lubbock Sunday. Joe Wallace Beverly and Bill Klepper returned with them.

Mrs. E. C. Bennett, who was in a critical condition from injuries received in a fall near her home during the recent cold spell, is reported improving. Her sons, Ira and Deward Brisco, of Graham and Jessie Brisco of Dumont, were here to visit her during her illness.

Mrs. Eunice Deakins of McMinnville, Tenn., who spent Christmas with her son, Joe Deakins, of Albuquerque, N. M., was here for about four weeks visiting her uncle, J. J. Brown, and family. En route to Crowell she visited J. R. Brown and family at Ft. Sumner, N. M. Mrs. Deakins left Tuesday for Fort Worth to visit a brother before returning to her home in Tennessee. Mrs. Deakins was formerly Miss Eunice Brown and taught school at the old Catesville school in this county 31 years ago. She also taught at Baker Flat.

Enlistment of Men for Lubbock Air Base Announced

Announcement that enlistments for units of the Advanced Flying School 10 miles west of Lubbock will be handled locally was made Monday afternoon by Col. Thomas L. Gilbert, commanding officer of the Base, who said that Capt. C. L. Prichard will serve as recruiting officer and has set up enlistment headquarters at 702 Main Street, Lubbock.

Approximately 1,000 men will be enlisted, Col. Gilbert said. Necessary qualifications for enlistment were outlined as follows, for men between the ages of 18 to 35:

Those under 21 must have consent of parents.

Those applicants who are not high school graduates must pass an orientation test.

Married Men Acceptable
Married men are acceptable provided they are willing to sign a statement that their dependents do not have to rely on them for support.

All applicants for enlistment 20 years of age or older should present to the recruiting officer a statement from their local selective board that they are not employed in technical positions in war production for the Army or Navy and they have not been ordered to report for induction. They must be physically fit.

Local enlistments for units of the new flying school should prove especially interesting to men in this entire area, Col. Gilbert said. Those enlisting, after proving themselves, will have an opportunity to enroll for courses in technical training. This training for highly technical jobs will be of great value in the future and is

CARD OF THANKS
We want to express our deep appreciation for the wonderful assistance given to us following the loss of our clothing and household furnishings by fire early Monday morning. This thoughtfulness will always be remembered.
Roy M. Fox and Family.

Claude Callaway Enters Race for Representative

Claude Callaway of Crowell, former County Judge of Foard County, has authorized his announcement this week as a candidate for State Representative of the 114th Legislative District of Texas, subject to action of the Democratic primary in July.

In making his announcement for this important place in the Legislature of the state, Judge Callaway gives the following review of his many and varied experiences which he believes will, if elected, aid him in the discharge of his duties of making the people of this district a good representative:

"In offering myself as a candidate for the place of State Representative of the 114th Legislative District of Texas, composed of Hartman, Knox, King and Foard Counties, I do so, subject to action of the Democratic primary.

"For the benefit of those who do not know me personally, I was born and reared on a farm in Collin County. I began farming for myself when I was 15 years old and have farmed continuously since that time. I was elected tax assessor of Foard County in 1926 and served in that office for four years, but lived on my farm, 12 miles from the court house.

"I was elected County Judge in 1930 and moved to Crowell just five days before I was sworn in as County Judge and Ex-Officio School Superintendent. In 1932 I was defeated for re-election, and for four years I worked in the real estate business and operated my farm. I was again elected County Judge and Ex-Officio School Superintendent of Foard County and served in that capacity until Jan. 1, 1941. For the past year, I have been in the real estate business and operated my farm, raising a few cattle and lots of hogs.

"I feel that my experience as an absolute necessity now to 'keep 'em flying.'

For Base Only
After enlistment and basic training has been received, they may become eligible to attend the following Air Corps technical schools, providing they meet the necessary requirements. Electrical instruments, airplane mechanics (22 weeks), aircraft armor, aircraft machines, aircraft metal workers, aircraft welders, air corps supply and technical clerk's course, link trainer instructor course, parachute riggers, photograph, weather observer, radio and teletype.

Applicants will receive their physical examinations at the Lubbock examining office. The information given covers enlistments for units of the flying school only, and all regular enlistments for other assignments will continue to be handled through the district Army recruiting facilities, it was said.

John Lewis won his demands in the captive coal mine fight. The point at issue was that of a closed shop. A closed shop means that only men belonging to John Lewis' organization can be employed in the mines. It also means that any worker who fails to pay his union dues, assessments and other required payments, as well as any man who does not submit to any union policies, shall be dismissed. The "check off" means that the employer deduct from the employee his union dues and pay them direct to the union each week. Under the check off plan the union takes no chances with the doctor or the grocer or the rent. It dips into the pay check first, and the worker and creditors get what is left. It is reported that the Lewis organization has over \$5,000,000 in cash on hand secured from these dues.

The Japanese Empire which consists of the Island of Japan and a number of neighboring islands has an area of 260,644 square miles and a population of 105,000,000. Tokyo, the principal city, has a population of 6,600,000. Japan imports cotton, wool, oil, machinery, iron, beans, rubber and coal. It exports silk, cloth, fish, yarns, potteries and toys.

CARD OF THANKS
We wish to express our deep appreciation to everyone who administered help during the long illness and death of our loved one, Mrs. L. V. Johnson. May God richly bless you. Her Relatives and Their Families.

ORR'S Veri-Best Bread

CARD OF THANKS

We want to express our sincere appreciation for kindnesses extended to us following the recent death of our mother, Mrs. B. F. Whitfield. May God's blessing be upon everyone of you.
Children of Mrs. Whitfield and Their Families.

tax assessor four years and the six years that I have served as county judge, has given me a thorough knowledge of tax matters and county business. I also think that in the six years that I had supervision of the schools of Foard County, I learned to know every problem that confronts the schools of this section of the state.

"Realizing that the 114th District depends directly or indirectly on agriculture and stock raising, I feel that my life's experience in this work, together with the many years of experience in tax matters, county business administration and school supervision, qualifies me to represent my district in legislative matters.

"In view of the fact that the war has brought many restrictions and, perhaps will bring many more, I will not say positively that I will see all of the people of the district before election, but being a strong believer in the old adage, 'Where there is a will there is a way,' I hope to see you all, either personally or in groups. Should I fail to see any of you individually, I ask that you please consider this announcement as my personal solicitation for your vote and influence."

Rotarians Spencer Marrow and Earl Morley of Quannah were visitors at the meeting of the Crowell Rotary Club Wednesday at noon.
Floyd Thomas and George Self were present at the meeting after being absent for several weeks.
Jack Seale was in charge of the program which included a talk by Dr. Hines Clark, chairman of the Medical Division of the county's national defense program, and gave an account of what has been done in that division. He stated that two first aid classes had been started with a good attendance. They are under the direction of W. V. Favor and Adrian Thomson of the Highway Department.
Miss Mary Hughston served as pianist in the absence of Mrs. J. R. Beverly.

haps all of it. We are going to reach a point where the worker, the wage earner is going to have to give up many things. He is going to have to accept a lower standard of living.

Brief Bits of News From Here and There

The total farm income is estimated at \$11,000,000,000 annually. This is the highest since 1920, 25 per cent greater than 1940, and 2 1/2 times as much as the low income point nine years ago.

maybe in several years. Whether it ends soon or several years from now there will be the problem of transition from a war time economy to a peace time economy.

It is reported that Hitler may dismantle the famous Eiffel Tower of Paris that the metal may be used in the war.

Not the least effective unit in the Russian army is the Cossack brigade. This group once thought outmoded because of the entry of mechanized equipment into warfare has staged a brilliant comeback.

Most of the critical things in life, which become the starting points of human destiny, are little things.

Every rose is an autograph from the hand of God on His world about us.

Industrial ethyl alcohol, which is made principally from black strap molasses, a sugar-cane by-product, is used extensively in the manufacture of smokeless powder.

While no one knows when the war will end everyone knows that it will end some day.

M. O'Connell went to San Angelo Wednesday on account of his son, Bryan O'Connell, being seriously ill.

Mr. and Mrs. Hubert Smith of Margaret are spending the week with relatives at various places on the Plains.

Cecil Carroll, who attends college at Texas Tech at Lubbock, spent a few days of last week with his parents, Mr. and Mrs. C. W. Carroll.

Mrs. L. E. Tackett and baby son spent the week-end in Borger visiting her father, Joe Cook, and her brother and his wife, Mr. and Mrs. J. B. Cook.

Miss Lillie Brown and Mr. and Mrs. Robert Brown and little daughter, Barbara, of Abilene, visited their aunt, Mrs. Lulu Walthall, Monday.

Mr. and Mrs. Dan Callaway have moved to the Foard City community and will reside on the farm of his parents, Judge and Mrs. Claude Callaway.

Jim Whitfield, who is attending Trinity University at Waxahatchie, was here Saturday night and Sunday to attend the funeral of his grandmother, Mrs. B. F. Whitfield.

Miss Ruth Burns, who is teaching near Ranger, visited in the home of her grandmother, Mrs. N. A. Crowell, and other relatives and friends, over the week-end.

Jesse Dishman of Ogden, former resident of the Vivian community, was in Crowell Wednesday. His small daughter, Aline, is seriously ill in the Quannah Hospital.

Miss Dorothy Winningham, accompanied by her roommate, Miss Peggy Whetstone, of Lubbock, were visitors in Miss Winningham's home over the week-end. Mr. and Mrs. Winningham took them back to Lubbock Sunday. Joe Wallace Beverly and Bill Klepper returned with them.

Mrs. E. C. Bennett, who was in a critical condition from injuries received in a fall near her home during the recent cold spell, is reported improving. Her sons, Ira and Edward Brisco, of Graham and Jessie Brisco of Dumont, were here to visit her during her illness.

Mrs. Eunice Deakins of McMinnville, Tenn., who spent Christmas with her son, Joe Deakins, of Albuquerque, N. M., was here for about four weeks visiting her family. En route to Crowell she visited J. R. Brown and family at Ft. Sumner, N. M. Mrs. Deakins left Tuesday for Fort Worth to visit a brother before returning to her home in Tennessee. Mrs. Deakins was formerly Miss Eunice Brown and taught school at the old Catesville school in this county 31 years ago. She also taught at Baker Flat.

Enlistment of Men for Lubbock Air Base Announced

Announcement that enlistments for units of the Advanced Flying School 10 miles west of Lubbock will be handled locally was made Monday afternoon by Col. Thomas L. Gilbert, commanding officer of the Base, who said that Capt. C. L. Prichard will serve as recruiting officer and has set up enlistment headquarters at 702 Main Street, Lubbock.

Approximately 1,000 men will be enlisted, Col. Gilbert said. Necessary qualifications for enlistment were outlined as follows, for men between the ages of 18 to 35:

Those under 21 must have consent of parents.

Those applicants who are not high school graduates must pass an orientation test.

Married Men Acceptable
Married men are acceptable provided they are willing to sign a statement that their dependents do not have to rely on them for support.

All applicants for enlistment 20 years of age or older should present to the recruiting officer a statement from their local selective board that they are not employed in technical positions in war production for the Army or Navy and they have not been ordered to report for induction. They must be physically fit.

Local enlistments for units of the new flying school should prove especially interesting to men in this entire area, Col. Gilbert said. Those enlisting, after proving themselves, will have an opportunity to enroll for courses in technical training. This training for highly technical jobs will be of great value in the future and is

CARD OF THANKS

We want to express our deep appreciation for the wonderful assistance given to us following the loss of our clothing and household furnishings by fire early Monday morning. This thoughtfulness will always be remembered.
Roy M. Fox and Family.

Claude Callaway Enters Race for Representative

Claude Callaway of Crowell, former County Judge of Foard County, has authorized his announcement this week as a candidate for State Representative of the 114th Legislative District of Texas, subject to action of the Democratic primary in July.

In making his announcement for this important place in the Legislature of the state, Judge Callaway gives the following review of his many and varied experiences which he believes will, if elected, aid him in the discharge of his duties of making the people of this district a good representative:

"In offering myself as a candidate for the place of State Representative of the 114th Legislative District of Texas, composed of Hardeman, Knox, King and Foard Counties, I do so, subject to action of the Democratic primary.

"For the benefit of those who do not know me personally, I was born and reared on a farm in Collin County. I began farming for myself when I was 19 years old and have farmed continuously since that time. I was elected tax assessor of Foard County in 1926 and served in that office for four years, but lived on my farm, 12 miles from the court house.

"I was elected County Judge in 1930 and moved to Crowell just five days before I was sworn in as County Judge and Ex-Officio School Superintendent. In 1932 I was defeated for re-election, and for four years I worked in the real estate business and operated my farm. I was again elected County Judge and Ex-Officio School Superintendent of Foard County and served in that capacity until Jan. 1, 1941. For the past year, I have been in the real estate business and operated my farm, raising a few cattle and lots of hogs.

"I feel that my experience as an absolute necessity now to 'keep 'em flying.'

For Base Only
After enlistment and basic training has been received, they may become eligible to attend the following Air Corps technical schools, providing they meet the necessary requirements. Electrical instruments, airplane mechanics (22 weeks), aircraft armor, aircraft machine, aircraft metal workers, aircraft welders, air corps supply and technical clerk's course, link trainer instructor course, parachute riggers, photograph, weather observer, radio and teletype.

Applicants will receive their physical examinations at the Lubbock examining office. The information given covers enlistments for units of the flying school only, and all regular enlistments for other assignments will continue to be handled through the district Army recruiting facilities, it was said.

John Lewis won his demands in the captive coal mine fight. The point at issue was that of a closed shop. A closed shop means that only men belonging to John Lewis' organization can be employed in the mines. It also means that any worker who fails to pay his union dues, assessments and other required payments, as well as any man who does not submit to any union policies, shall be dismissed. The "check off" means that the employer deduct from the employee his union dues and pay them direct to the union each week. Under the check off plan the union takes no chances with the doctor or the grocer or the first, and the worker and creditors get what is left. It is reported that the Lewis organization has over \$5,000,000, in cash on hand secured from these dues.

The Japanese Empire which consists of the Island of Japan and a number of neighboring islands has an area of 260,644 square miles and a population of 105,000,000. Tokyo, the principal city, has a population of 6,600,000. Japan imports cotton, wool, oil, machinery, iron, beans, rubber and coal. It exports silk, cloth, fish, yarns, potteries and toys.

CARD OF THANKS

We wish to express our deep appreciation to everyone who administered help during the long illness and death of our loved one, Mrs. L. V. Johnson. May God richly bless you.
Her Relatives and Their Families.

JUNIOR PAPER

The guest editors of the paper this week are the Juniors. The paper is good and we hope that you enjoy it as much as we enjoyed resting and letting them do it. The sophomores and freshmen will have their turn in about two weeks. So you underclassmen get your thinking caps on and give us a good paper when it comes your time.

Press Club.

EDITORIAL

Last night, Saturday, January 24, I was given the inspiration to write this editorial. While I was attending the moving picture show, the "Star Spangled Banner" was played following a series of pictures concerning the war in which our nation is now fighting. I looked all around me, but not a person did I see standing; therefore I did not stand. After going home that night, I began to think about the event and felt very ashamed of, not only myself, but also that whole crowd for not standing; therefore I decided to write an editorial in the Wildcat about the "Patriotism in Our City."

The population of this city is very small when compared with that of other cities in our nation, but despite this fact it is as much involved in this war as are those larger cities. In New York, when the "Star Spangled Banner" is played, not one person may be seen who is not standing with his hat removed. Those people are closer to the war than we are in this small city and realize more fully what we are fighting for. The people in this town must be, in some way, made to realize to the fullest extent those things which we have at stake. Our liberty, our equality, and our fraternity are all threatened by this dreadful menace to civilization, the Nazi party.

If we are to win this war, we must all be filled with patriotism and a willingness to sacrifice every possible thing among our possessions which may be of assistance to good old Uncle Sam.

I sincerely hope that this editorial will inspire someone in our town to buy more defense bonds and stamps and, by all means, to stand proudly the next time he hears "The Star Spangled Banner" no matter where he is or what he may be doing.

Lowell Campbell.

THE CALL TO THE COLORS IS A CALL FOR DOLLARS!

Dig deep. Strike hard. Our boys need the planes, ships, and guns which your money will help to buy.

Go to your bank, post office, or savings and loan association. Tell them you want to buy Defense Bonds regularly, starting now.

F. H. T.

The F. H. T. Club met Tuesday night, Jan. 27, in the Home Ec. Department.

The topic under discussion was "Women in Defense." The leader was Margaret Claire Shirley. The following girls were on the program: Virginia Thomas—"Women in the War;" June Billington—"A Letter Written by an English Woman;" "Mrs. America"—Margaret C. Shirley. The hostesses were Mary Jo Brock, Rita Callaway, Wanda Ketchersid and Jean Orr. Delicious refreshments were served to many members.

"TOMMYCAT TIRINGS"

Evelyn Flesher seemed to have a wonderful time Sunday night with a certain Margaret boy and his name might have been Taylor. We wonder how Clonita Russell enjoyed church Sunday night. I think every one should attend church.

We wonder how Jean Scales and "censored" made it out Sunday night and the other nights.

Evelyn Flesher seemed to have been having a swell time with a certain Truscott lad by the name of Lee J. Stout.

Mary Edwards sure has a flame for a certain person at Swearingen. Good luck, Mary Evelyn.

We wonder how Albert Bird and Dorothy Greening made it at the show Saturday night or did they attend.

Howard Lee Black seemed to be stepping out on Jean Orr. He was at the preview with another girl Saturday night. What is wrong, Jean?

Virginia Thomas and Charlie Thompson seem to be getting along fine these days. Nice going, Virginia.

Rita Callaway seems to be getting the best of the struggle between her and Betty Zeibig over Truman Taylor.

Wilma Carroll seems to be holding her own with Junior Young of Truscott.

Wanda Evans is still going strong for Arnold Smith. They were seen together most of last week.

Dorothy Greening still has a flame for Rusty Russell for they were seen together Sunday night. What is the matter, Albert?

Gordon Erwin joined his regular crowd last Saturday night after Ruth Diggs turned him down. Tough luck, Erwin, try again.

Darnelle Morrison sure has a flame for a certain freshman by the name of Pat McDaniel. Nice going, Pat, little Pat.

Shirley sure has been "working" on Charlie Thompson. Seemed she did alright at the Press Club Monday night.

Wanda Evans seems to be rather amusing to the little fellows by going like a goat.

The Press Club went over like a bang Monday night. Many lovely, well at least couples, were there.

Jean Orr seems to be quite happy since Saturday night.

Is that love-light that is in Harold Canup's eyes burning for Julie Halencak or Juanita Tarweck?

Wonder what happened to Lowell Campbell and Betty Johnson. Jean Scales surely goes for Harry Traweck.

Betty Owens sure gets lonely without "Lefty" Nelson.

It's over—June Billington and Hugh Longino's romance. It seems as if another man has come into the picture.

Paul Vecera surely was surprised the other night when he went to the door at Evelyn Flesher's house and Garland Taylor came to the door.

Bill Owens gave a dance last Wednesday night and several couples attended. A good time was had by all.

Rudolf Halencak still goes to Lockett.

Mrs. I. T. Graves started to work on the one act play Monday night. The play promises to be a good one.

Tom Westbrook from the Truscott community seemed to enjoy the show a lot last Friday night. The only lady in the case was Minnie Mouse.

Some of the ex-seniors of Crowell High School are coming back to school on a vacation. They are Gus Russell, Garland Taylor and Fay Griffin.

John Thomas Rasor took Ada Jane Magee to the Press Club party last Monday.

More about this Press Club party next week. We'll give you the low down on everything and everybody.

See you next week only next week it will be under the auspices of the Press Clubbers again.

So Long.

JOKES

Bill Owens: Did you ever get overseas?

Paul Vecera: Nope, never got

At Anglo-U. S. Press Conference

Prime Minister Winston Churchill and President Roosevelt in a side-by-side press conference in the White House answer questions put by reporters. This conference was held prior to the meeting of the war council.

Suggestions Given to New Farm Income Tax Payers

Farmers and ranchers who will be required to make their first income tax return by next March 15, have the choice of two methods in computing the tax on their 1941 incomes. One is the "accrual" and the other "cash."

According to Tyrus R. Timm, economist in farm management of the A. & M. College Extension Service, "accrual" means that beginning and end-of-the-year inventories, as well as cash expenses, cash incomes, accrued incomes and prepaid expenses are used in determining profits. Those who keep no records, or only records of cash receipts and disbursements, must use the "cash" method. Timm suggests that farmers and ranchmen who have not paid income taxes prior to this year should study the alternative methods before making their selections as the one chosen is binding for succeeding years unless another method is authorized by the Internal Revenue Bureau. Even in that case certain adjustments of income are necessary.

More than 95 per cent of Texas farmers and ranchmen who paid income tax in 1940 used the "cash" method.

Examining both methods, Timm points out that unmarried farmers whose gross incomes were \$750 or more, and married farmers with gross incomes of \$1,500 or over, are required to file returns. A deduction of \$400 is allowed for each eligible dependent.

Under the "cash" method, all cash received from sale of livestock, livestock products, crops and other income from similar sources, together with cash received for work and other services outside the farm are subject to tax. All government payments received also should be included. Income not subject to tax include increases in inventories still on the farm, farm products used by the family (if production costs not included) and state refund on gas tax, provided the net cost of gasoline is reported.

Cost of livestock, livestock products and crops purchased

which are sold within the year are expenses which may be deducted in the tax return, Timm says. If desired, as capital asset, depreciation may be taken on livestock for work, breeding, or dairy purposes. Other deductibles permitted include ordinary and necessary expenses on feeding and raising livestock, as well as all other disbursements in crop production, cultivating and processing; depreciation on farm buildings (except residences), permanent improvements and major improvements; depreciation on small orchards, usual charges on small tools; death losses of purchased livestock; state, county, school, poll and gasoline taxes; automobile and truck licenses; and gifts to charity, religion and the charitable institutions.

Timm says that county agricultural agents have record books and other forms which will be helpful to farmers in preparing their returns.

Care of Wardrobe Important, Says A. & M. Specialist

With many kinds of clothing and textiles becoming limited or unobtainable because of war demands, taking care of clothing grows more necessary every day.

The first step in taking care of clothing intelligently is knowing fabrics and their proper treatment, says Mrs. Dora R. Barnes, clothing specialist for the Extension Service of A. & M. College. It will help to study labels and consult clerks and store buyers about materials... whether the color is fast or light and washing, and how much a garment is likely to shrink. The specialist adds

After British Raid on Nazi Base

This radiophoto shows members of the British Commando force that raided the German base at Vaagsoe, Norway, helping their wounded comrades into one of their invasion barges as they retired from the Norse isle after dynamiting German plants, warehouses, etc., and spiking coastal guns. They practically annihilated the German garrison.

Army Heads Discuss War Plans

Army heads are shown above as they studied and discussed war plans and maps in Washington. They are, L. to R.: Col. E. F. Sorenson, Material and Supply division; Lieut. Col. H. L. George, Air War Plans; Brig. Gen. C. Spaatz, Chief of Air Staff; Maj. Gen. H. H. Arnold, Air Corps Chief; Maj. H. Hansell, Air War Plans; Brig. Gen. M. Scamion, Chief of Staff, Air Intelligence; and Lieut. Col. A. Vanaman, Secretary of Air Staff.

Dr. W. F. BABER

that there's nothing to the old custom of soaking materials in a solution of salt and water to "set" the color. It doesn't work.

The right way to wash wool is to use warm, soft water and neutral soap. Squeeze the suds through the cloth—don't rub it—and rinse in water the same temperature as first used. Dry wool in a warm place, but not in the sunlight. Wool garments should be pressed while they're still damp with a medium-hot iron. A pressing cloth should be used, too.

Washable rayons require heavy, lukewarm suds of neutral soaps, the specialist says. These should not be rubbed and they should be handled with particular care while they are wet. It's also important to rinse rayons in water the same temperature as that in which they were washed. Ordinary rayons may be ironed with a moderately warm iron, but acetate rayons require temperature even lower.

The sensible way to clean most cottons is to wash them. If colored cottons are colorfast both to

washing and light and if they won't shrink more than two per cent, there's little to worry about.

An organic sulphur dust when mixed with seeds before planting protects onion seeds from smut during the vulnerable first two or three weeks growth, it is announced by the Cornell University Experiment Station.

THIS WEEK IN WAR

Chairman Nelson of the War Production Board abolished the WPM and transferred its functions regarding production, purchasing, priorities, materials, civilian supply and subcontracting to a new streamlined organization under the Board. In addition, Mr. Nelson created under the new Board a progress reporting and planning unit to suggest improvements from time to time. Mr. Nelson stressed two fundamental differences between the old and new organization: an increased amount of authority and a more definite delegation of responsibility to promote speed. He said the main objective of the new organization was the full mobilization in the war effort of every national resource, large and small. Mr. Nelson named Ernest Kanzler to convert auto industry facilities to war use. Mr. Kanzler will have complete authority to do whatever is necessary, Mr. Nelson said. He said that he expected to appoint as many other men with similar authority for other industries as are necessary.

The War Front

President Roosevelt told his press conference an inter-allied supply council and similar joint commands are in existence, and excellent progress is being made to strengthen the position of the United Nations in the Southwest Pacific.

The Army announced Gen. MacArthur's forces have repulsed continuous heavy attacks by reinforced Japanese units on Bataan Peninsula, inflicting heavy losses on the enemy with comparatively low losses to the defenders. The entire Japanese 14th Army, together with other units, landed on Luzon. U. S. Army forces sank a Japanese cruiser and a large tanker 100 miles off Jolo, and shot down 16 enemy planes in the Philippines.

The Navy announced the freighter SS Brazos was sunk in a collision 120 miles southwest of Cape Hatteras, and during the past week U-boats sank the City of Atlanta, the Latvian freighter Cilvaira, the tankers Coimbra and Allan Jackson, and torpedoed the tanker Malay. The Navy did not announce number of U-boats sunk or captured but said "some of the recent visitors to our territorial waters will never enjoy the return trip portion of their voyage." The U. S. Navy sank three enemy merchant ships off Tokyo Bay and torpedoed a 5,000-ton enemy vessel in Binanga Bay.

keep the public informed of the war effort, issued a 62-page booklet, "Report to the Nation," outlining the defense and war programs from the beginning to the present. In separate chapters the report discusses price control activities, alien control, economic warfare, production of all necessary war items, civilian defense, war financing and all other phases of the national effort.

Autos, Trucks and Tires The WPB ordered all production of passenger cars and light trucks for any purpose halted February 1. The announcement of the order said all military demands can be filled from the stockpile of autos that will be on hand by that date and which cannot be sold without Government permission. OPA announced that there is no prospect of rationing for used cars or of commandeering of private cars. OPA amended the auto freezing order to permit transfer of title to any vehicle under the terms of installment contracts drawn up before January 1 and repossession of any vehicle involved in a breach of such contract. The agency also amended its tire freezing rules to allow clergymen to purchase new tires and tubes. OPA put a ceiling price on materials used in re-treading used tires.

Transportation The Interstate Commerce Commission granted railroads permission to increase passenger fares 10 per cent. Exempt from the increase are special fares granted to military or naval men on furlough. Permission was also granted to the Railway Express Agency, Inc., to make an emergency additional charge of 10 cents per package sent at first, second or third-class rates.

The President said the United Nations are collaborating with the U. S. to effect transfers to the American armed service of the Americans who had enlisted before the war under foreign flags. War Secretary Stimson announced completion of plans for the formation of a 6th Armored Division and two additional all-Negro units: an infantry division and an air pursuit squadron. The House passed and sent to the Senate legislation appropriating \$12,500,000,000 to provide 33,000 new Army planes and equipment for them.

Navy

President Roosevelt asked Congress for \$15,900,000,000 for the Navy and signed a bill authorizing establishment of a special limited-service Marine Corps composed of World War veterans and older men to be used in patrolling and guarding vital facilities. The Navy announced that students in school or college who have not yet reached their 20th birthday may enlist in the Naval Reserve with permission to complete the current school year before reporting for duty.

Civilian Defense

President Roosevelt asked Congress for \$1,900,000,000 to be used for the OGD for air raid protection of civilians. Congress authorized the appropriation and formally placed the responsibility for civilian protection with the OGD. The FBI announced it will conduct special war traffic schools for police of 120 strategically located cities. The War Department announced that in co-operation with the OGD it will establish six more schools to teach civilian defense workers protection against chemical weapons such as incendiary bombs.

Labor

Labor Secretary Perkins reported hourly earnings of wage earners in manufacturing industries rose 1.5 per cent to a new high of 78.1 per cent—15 per cent above the same time last year. Average hours worked per week, (40.3 hours) were 4 per cent above last year and weekly earnings \$32.81, 2 per cent higher.

Labor Director Hillman announced regional labor conferences will soon be held in Philadelphia and Columbus, Ohio, "to bring labor organizations into the war effort on their own ground." Labor organization officials, Government officials and representatives of universities and colleges will attend the meetings.

Agriculture

The Department of Agriculture announced it will increase purchases of eggs to support market prices at a level at least 85 per cent of parity. The Commodity Credit Corporation announced it will offer 100,000,000 bushels of wheat for sale to aid livestock producers to attain new production goals. Agricultural Marketing Administrator Henderson reported more than 2,650,000,000 pounds of agricultural commodities valued at \$300,000,000 had been shipped to Britain under the Lend Lease program up to December 1. He said the war in the Pacific had not changed the basic program for agricultural operations—"we are continuing heavy purchases to make available the vital supply of foods for England and Russia."

Ships

The Maritime Commission awarded contracts for construction of 660 vessels. This brought the total of Liberty ships contracted for to 997. Labor Director Hillman proposed a plan to place shipyard workers on a six-day, 48-hour week in the Atlantic, Gulf and Great Lakes zones.

Priority Unemployment

President Roosevelt asked Congress for \$300,000,000 to aid workers who lose their jobs temporarily because of conversion of civilian industry to war production, if the worker is willing to take special training to fit him for a war industry job. Under the program workers would receive a weekly benefit payment equal to

Weekly Sermon

By Rev. John H. Cable, D. D., Member of Faculty, Moody Bible Institute, Chicago.

The Birth of the Redeemer

The birth of a prince occasions joy. At Christmas time we celebrate the birth of the Prince of Peace. And just now the world is in some need of One who can and will lead us into peace. For of the world's leaders it can be truly said, in the words of Paul, "And the way of peace have they not known." Then what should be our attitude to Christ as we commemorate His birth? What of those who welcomed Him more than nineteen hundred years ago? The "just and devout" Simeon, "waiting for the consolation of Israel," saw in the Christ Child "a light to lighten the Gentiles, and the glory of thy people Israel" (Luke 2:32). The nations would do well today to walk in His light, and Israel's age-long blunder has been her failure to recognize Christ as her chief glory. The aged Anna, of the tribe of Aser, noted for women of surpassing beauty, devoting her life to fastings and prayers in the temple, thanked the Lord for the Infant Jesus "and spake of him to all them that looked for redemption in Jerusalem" (Luke 2:38). Such a pious soul sees Christ as the One who purchased our salvation at the price of His

own blood.

To the shepherds under the starry dome of heaven came the angel of the Lord saying, "I bring you good tidings of great joy, which shall be to all people" (Luke 2:10). "A Saviour... Christ the Lord" was announced. The heavenly host praised God saying, "Glory to God in the highest, and on earth peace, good will toward men." We read that these same shepherds went to Bethlehem and found Mary and Joseph, and the babe lying in a manger. Then they published the story and praised God. So should we do. Faith cometh by hearing. The story of Christ must be told to the praise of God.

And came the Wise Men from the East following His guiding star which led them to the Child Jesus. Many unusual phenomena accompanied the birth of Jesus. God gave these signs that men might know of the certainty of His Son's identity. How can men reject these supernatural manifestations?

Then we recall how Joseph, the foster father, and Mary, the moth-

Christian Science Services

"Love" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, February 1, 1942.

The Golden Text is: "We have known and believed the love that God hath to us. God is love; and he that dwelleth in love dwelleth in God, and God in him" (I John 4:16).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "The Lord thy God in the midst of thee is mighty; he will save, he will rejoice over thee with joy; he will rest in his love, he will joy over thee with singing" (Zaphaniah 3:17).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "God is Love." More than this we cannot ask, higher we

cannot look, farther we cannot go." (page 6).

NO EXTRA COST. All of these "extra" features are included on the Ford Tractor with Ferguson System as standard equipment. FERGUSON SYSTEM OF IMPLEMENT LINKAGE AND HYDRAULIC CONTROL.
