APPRECIATION

It has been said that the noblest and best in man pours forth in time of disaster. Surely, the utter truth of this old adage was thoroughly demonstrated to the people of Crowell and Foard County recently in our time of need. The assistance which our town received from the Federal Government, the Red Cross, the Salvation Army, the State, and the people of the surrounding counties and cities was of inestimable value to us; without such, our task would have been well nigh insurmountable. More words are inadequate to formulate any expression of our deep and abiding appreciation commensurate with our innermost feelings. To these outsiders, we can only say: “We thank you from the bottom of our hearts and may God's richest blessings rest upon you.”

Though our appreciation for all outside help is immeasurable, let us not forget the courage and bravery of our local people; amidst utter devastation of their property and loss of life in their families, they carried on in the same manner which so indelibly typifies and characterizes the pioneer spirit of our town and county—chins, though quivering, determined; faces, though grimy, illuminating strength; and steps, though less sprightly, marching on, undaunted.

LESLIE THOMAS, County Judge, for the Commissioners' Court and the People of Foard County.

C. T. SCHLAGAL, Mayor, for the City Council and the People of Crowell.

Red Cross Disaster Relief Office Makes Report of Work Done in Crowell Since Tornado Struck Three Weeks Ago

The Red Cross Disaster Relief office in Crowell has received 322 applications for assistance up to May 19. Already 136 cases have been closed with Red Cross awards having been made on an individual family basis, for assistance in building or repairing homes, for necessary furniture replacement or for hospitalization of tornado victims. Awards included in this amount is the expenditure for meals served on the court house lawn.

The Advisory Committee, consisting of local citizens, meets twice weekly with the Red Cross disaster workers to consider individual cases. At the last meeting held on Tuesday, May 19, 53 cases were presented to the committee. The National Red Cross has sent Mr. Gerald Wessellus to

Crowell as director of the Disaster Relief Operation, and Miss Frances Blackburn as assistant director and case work supervisor. Eight disaster case workers, plus an experienced building man and an accountant, are also here making up the staff lending assistance to victims of the tornado.

The National Red Cross has been assigned a priorities rating by the War Production Board to assist all disaster sufferers (Red Cross beneficiaries and others alike) to obtain necessary materials on the critical list needed for rebuilding. Individual owners needing priorities assistance should make application to the Red Cross office in the Masonic Lodge building.

Mr. Wessellus points out that disaster caused need is the basis for Red Cross assistance. The Red Cross in no case attempts to replace losses, but gladly assists families unable to help themselves to obtain all items essential to normal living.

In order to make certain that all needy families will receive the necessary assistance, Mr. Wessellus has announced that opportunity will be given families not yet registered with the Red Cross who feel they may need assistance, to call at the Red Cross office on or before Monday evening, May 25. This does not mean that the Red Cross office will close, but no registrations will be accepted after that date.

The Red Cross plan of disaster administration permits the immediate payment of all bills from the local disaster office. All payments are made by the American National Red Cross. Merchants, contractors, etc., in and around Crowell are already receiving checks in payment of services rendered to beneficiaries of the Red Cross.

Street Paving Project Approved, Mayor Announces

Two telegrams were received Tuesday by Mayor C. T. Schlagal to the effect that the street improvement project to the amount of \$30,000 had been approved at Washington. The telegrams were from the two Texas senators, Tom Connally and W. Lee O'Daniel.

The application for the appropriation had been made by the City of Crowell several months ago and its approval will give opportunity for the going on with street improvement when the citizens get ready for it.

Our Soldier Boys

Sgt. Carl C. Cobb, brother of Clyde Cobb, has written to his brother, stating that he had heard of the tornado over the radio where he is stationed at Fort Greeley, Alaska. The letter was sent by air mail and was received here 13 days after it was mailed. He has recently been promoted to the place of Technician Sergeant. Mr. Cobb was connected with his brother here in the grocery business several years ago. He enlisted from Crowell. His address is Q. M. 7013050.

Pfc Herman D. Sandlin, son of Mr. and Mrs. Arthur Sandlin, has finished a clerical school at Ft. Logan, Colo., and is now an Air Corps clerk at Camp Bonnersville, Boise, Idaho. He says that he likes his work fine and that he is in a beautiful place.

Letters from John Allen Fish and Hughes Fish, sons of Mr. and Mrs. Allen Fish, who are in the Navy, say that they have been transferred from the Naval Training School at San Diego to U. S. Receiving Station at Terminal Island, Calif. Hughes is in school for Yeomen and John Allen is in a Store-keepers' school. Terminal Island is between San Pedro and Long Beach about 25 miles from Los Angeles.

Elmer E. Porter, son of Mr. and Mrs. A. P. Porter, has recently been sent from Fort Bliss, El Paso, to Camp Roberts, Calif., according to a letter received by his parents this week.

Relatives of Billy Russell have received recent communication from him which says that he is safe and well after having been in the latest sea battle. This came

Crowell Methodist Church Building Under Repair; Memorial Windows to Be Replaced; Parsonage Will Be Rebuilt

Plans for repair on the Methodist Church property is well under way and the committees with the responsibility of the work are operating with full authority from the church in fulfilling their duties to the best of their judgment. A liberal allowance has been granted by the insurance company on the repairing of the property and the contract has been let and the work progresses daily.

The church extension secretary from Louisville, Ky., has been here and assured the committee financial aid on the parsonage. Also, the local conference board has offered aid. Rev. Herschel Thurston, of Spur, secretary and treasurer of the local board has been here to confer with the leaders.

When the job is finished the church will be practically new in appearance and substantial, as well. Services have been held regularly and will continue to be, until the work is completed. Then, of course, the full program of

the church will again be resumed. The windows will be boarded up while the stained glass windows are off for repair, but the lighting system is working so the artificial lights can be used for every service. The hour of the evening service has been changed from 7 o'clock to 8:30 as the schedule was prior to the disaster.

The parsonage will be reconstructed within a short time and will be an improvement over the former one. Full allowance was made by the insurance company and other funds will be made available so that an adequate parsonage will soon be erected. The pastor, Rev. H. A. Longino, and his family are comfortably housed in the basement of the church at the present.

The church was used for First Aid on the night of the storm and has constantly served in many useful ways since that time.

Many of the windows of the church are in memory of loved ones of the members, or have been given by way of donation and the names placed thereon. There are yet some windows without names and they are now offered for \$10 per window as long as they last. There are ten or twelve windows that have not been taken. The money derived from this source will be used for the repair and improvement of the church property. Those who are interested may see the pastor, Rev. Longino, or Claude Callaway, not later than next Sunday, May 24.

Baptist Church Plans Incomplete; Garage is Built

The Baptist Church is holding services in the High School auditorium, until plans can be formulated for the erection of a new building, for the church was completely demolished in the tornado. No definite plans have been made but a church building will be built as soon as possible. The debris from the church is being cleared away and the space cleaned off while the necessary routine is being followed for the formulation of plans.

Meanwhile, a garage has been built and the family of the pastor, Rev. W. B. Fitzgerald, is housed in it for the time being. The church has voted that a parsonage be built and it will be erected as soon as possible. Further plans will be announced from time to time.

Holding Services in Grammar School

Members of the East Side Church of Christ are holding services each Sunday morning at 10 o'clock in the auditorium of the grammar school building.

MOVED TO TULSA

Joe Ward is located in Tulsa, Okla., where he is employed by the Government in defense work. Mrs. Ward and children, Donald and Melba, left Saturday for Tulsa where they will make their home.

OPENS BEAUTY SHOP

Miss Mary Ellen Webb, who has been living at Goree, has moved to Crowell to make her home and will operate the Modern Beauty Shop in the Lanier building. Miss Webb is a sister of Mrs. A. W. Owens.

City Water Supply Declared Excellent by Specialists

Mayor C. T. Schlagal has sent a specimen of the city water to the State Board of Health at Austin for examination and the report received by him assures him that the water is excellent and is in perfect condition for drinking. Reports were prevalent that the water might be contaminated, so a test was taken by Mayor Schlagal for the purpose of reassuring the people of the safety of drinking the water.

Red Cross Sweaters Will Be Turned In at an Early Date

The quota of 66 hand knitted sweaters for Foard County has been reached and most of them have been turned in to Mrs. H. H. Rindler, chairman of War Reliance Production for Foard County. These sweaters have been knitted by various ladies, most of whom have made only one sweater, several knitters have made two or more.

Mrs. Arnold Bracewell had a knitting class at her home and sweaters went through her hands. Her pupils were mostly ladies who had never knitted and gave her entire time for several weeks to teaching and to knitting. She gave instructions each Tuesday, Wednesday and Friday afternoons at her home and did not adhere to these hours and worked practically the time for weeks. She, herself, knitted several sweaters.

Mrs. J. A. Stovall also gave instructions at her home and lent her aid she could to the knitters who were issued thread through her. She has 35 sweaters at her home and there are a number out yet and she and Mrs. Rindler ask that they be brought in either of their homes as soon as it is possible or that some report be made concerning them. All the sweaters are in, the quota of 66, which was asked of Foard County, will have been reached.

New Credentials

Mrs. Louise Fox is owner of the building, and Mr. Brooks expects to be open for business by June 4.

Local Drug Stores Consolidated; New Ownership

On last Thursday, a business deal was consummated in Crowell, in which Irving Fisch and Payton Powers purchased the stock and fixtures of Reeder's Drug Store from the owner, T. P. Reeder, at the new location on the north side of the square next door to the Crowell State Bank building where it had been moved after the tornado had badly damaged the building which had housed it for many years. Then, on Saturday, the same men bought the stock and fixtures of the Corner Drug Store from Henry Black and are now operating both stores but will consolidate the two businesses at the new location on or about June 1st.

Messrs. Fisch and Powers plan to operate a modern, up-to-date drug store, complete in every detail. The building for the new store is being renovated and redecorated, will have fluorescent lighting inside and neon lights outside and will be air-conditioned throughout. A strictly modern soda fountain will be installed. Sandwiches and light lunches will also be served. Many other changes are being made which will add to the attractiveness and efficiency of the store.

The balcony space is being remodeled and will be occupied by Dr. Hines Clark with his offices. The space will be made into two modern, well-equipped rooms and an early date. Payton Powers will be the pharmacist, Mr. Powers has been associated with the Corner Drug as pharmacist for the last three and one-half years and has had 14 years experience as a registered pharmacist.

Mr. Powers is also to be manager of the new store and he will be assisted by his wife, Mrs. Estelle Powers, who will have charge of the clerical and the cosmetics departments. Mrs. Powers had had experience in both phases of the work.

Mr. Black plans to join the U. S. Navy in a short time and Mr. Reeder has not announced his plans. Mr. Reeder has been in the drug business in Crowell for many years and Mr. Black has operated the Corner Drug for the past five years.

New Home for Brooks' Grocery

A new building, 30x40 feet in size, is being constructed to house the J. T. Brooks Food Market. The building will have a white oriental stucco finish and plate glass windows. It will be built 15 feet farther back from the street than the former store in order to give more parking space.

Mrs. Louise Fox is owner of the building, and Mr. Brooks expects to be open for business by June 4.

Warning to Adolf!

In a recent radio speech Churchill warned Hitler that if Germany used gas against Russia the RAF would use it against Germany. Apropos of all this, inventor W. Lee Lewis (above), one-time colonel in the U. S. Chemical Warfare service, says the U. S. has at its disposal a gas more deadly than any used in the last war. The gas, known as 'Lewisite,' will be a revelation to Hitler—if he asks for it.

Christian Church Makes Improvements

While making the repairs on the First Christian Church, which were necessary on account of damages incurred during the cyclone, some other improvements have been made which will add a great deal to the convenience and efficiency of the church.

Three Sunday School rooms, each 12x16 feet, have been added to the east side of the church. The Sunday School space has been very much needed by the church. The church had recently been renovated and wall board had been placed on the walls. This was not damaged by the storm but has been cleaned, new windows have been placed in the church, and the building has been repaired thoroughly.

The house was moved from its foundation but it was replaced and a new roof has been put on. There has not been one service missed since the storm occurred.

What You Buy With WAR BONDS

The Grand semi-automatic rifle, which is the standard issue today for the U. S. army, is superior to the old Springfield rifle in many respects. We literally need millions of these fast shooting powerful rifles to equip our army. They cost \$83 each and are being manufactured at the rate of one a minute. They fire sixty 30-caliber shells a minute.

Every one of the 40,000,000 employed persons in America could easily buy one of these rifles for the army. Not that we need that many, but the reserve could go into shells and other much needed supplies. Buy more and more War Bonds and put the quota in your county by investing at least ten percent of your income every pay day.

War Board Checks Farm Building

College Station, May 18.—Recent War Production Board orders affecting construction of farm homes and buildings near rural families in Texas may build little and repair much for the duration of the emergency. Purpose of the orders is to restrict the sale or use of materials necessary to the war effort.

There are a few exceptions to the order. For example, a farm building which costs less than \$1,000 and will not be used for residential purposes may be built if materials are available. However, cost of several new buildings within any 12-month period must not exceed \$1,000. All agricultural construction exceeding this figure must be authorized by the War Production Board. Individual applications should be filed with County USDA War Boards for transmittal.

New farm residential construction which will cost less than \$500 is also exempt from the order. Mrs. Bernice Claytor, Extension Service specialist in home improvement, says this means many farm families will need to do considerable repair on their homes to keep them in good shape and to protect health during the war period.

Farm residences costing \$500 or more must be approved by WPB unless buildings damaged or destroyed by "fire, flood, tornado, earthquake, act of God or the public enemy" must be reconstructed or restored. Then no permit is necessary.

But how do I do it?

UNTIL PEACE COMES WITH VICTORY no motor cars will roll from the assembly lines which once produced more than 5,000,000 automobiles a year.

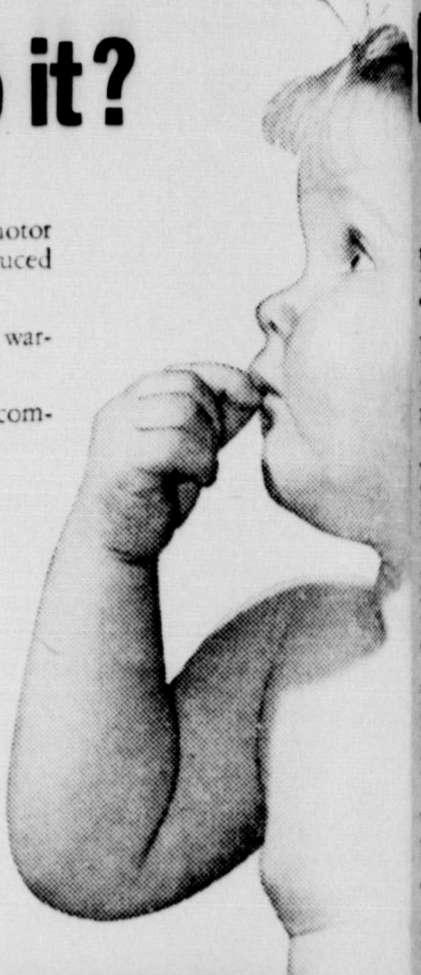

Thus is brought home to every car owner the vital, wartime necessity of making his car last longer.

If you are puzzled as to just what steps to take, a complete answer is ready and waiting for you at any Phillips 66 Service Station. There you will find a free folder, "Ten Patriotic Precautions for Good Citizens and Good Drivers", published by Phillips in the interest of National Welfare. Also trained men to tell you what the Phillips Plan can do to help make your car last longer.

The heart of your car is the motor. Its care is of first importance. So keep the following facts in mind when you are deciding which oil to use:

The famous Phillips organization makes a complete and frank statement which does away with all doubt, if you want our best oil. Without hedging, without reservation, we say that **Phillips 66 Motor Oil is our finest quality**... the highest grade and greatest value... among all the oils we offer.

STORAGE!

As of May 1st, we had only 115,000,000 bushels of empty storage space in the United States. The last government estimate on winter wheat was better than 600,000,000 bushels.

Last week we contacted elevators in Dallas, Fort Worth, and Houston and, in fact, anywhere and everywhere, and could secure no definite assurance for storage space.

Our crop moves first and we hope to have storage space and will do our best at all times to handle this crop satisfactorily.

Our promises are out for two-thirds of the storage space we have in our Crowell plant, leaving us around 50,000 bushels empty space at present.

Allred Launches Action Program For War and Peace

James V. Allred, who resigned a lifetime appointment as United States district judge to re-enter active political life as a candidate for United States junior senator, has based his campaign on vigorous support of President Roosevelt's war and peace program.

For winning the war, the former governor has sounded the demand "There must be no strikes, no slow downs, no violations on the part of either capital or labor to interrupt war production."

In calling for "uninterrupted production," Allred reminded the people of his own spirited fight as Texas' governor against sit-down strikes.

"I mean these commitments now, just as I meant what I said in 1937 when sit-down strikes were sweeping the nation," he declared.

The candidate affirmed all-out support of President Roosevelt's war program and "the Atlantic Charter for winning the peace."

Allred, who at the age of 19 left a draft-exempt job to join the United States Navy in the first World War, blasted as "false propaganda" reports that President Roosevelt would hold open for him the federal judgeship which he resigned to enter the senatorial race or appoint him as judge in some other district, declaring such reports "a reflection upon the President and myself."

Hitting the campaign trail with the vigor that characterized his successful bids as two-term Attorney General and Governor of Texas, the black-haired, 43-year-old candidate said he would take his program to the people "just as I always have, looking them in the eye, speaking from the record."

Allred said he had pitched his battle "upon the highest plane I know, a record of experience against inexperience, of accomplishment against failure, of respect for Texas."

He said that he would not employ personal abuse but would deal with the written record.

THOUGHTS OF SERIOUS MOMENTS

Love is never lost. If not reciprocated it will flow back and enrich and purify the heart.—Washington Irving.

JUST ROLLING HIS HOOP

What We Think (By Frank Dixon)

For the first time in history the people of the United States know what it means to have food and other items rationed.

Now because of the needs of the defense program and the demands of the war we of America are to experience rationing.

The purpose and reason for the rationing is that because shipping is needed to carry supplies to our soldiers and our allies that ships are not available to bring to the United States sugar from our usual outside sources of supply.

Under these circumstances if some form of rationing is not resorted to the available supply of sugar would be quickly cornered by those with the money and means to bid up the price and those of less means would be left without sugar altogether.

The rationing program therefore, while it is an aid in the defense program primarily is an aid to the American citizen since it is an assurance that he will share and share alike with those of more means, who, but for the rationing program, might deny him his share.

It is an important fact that when the rationing program was announced that a few began planning on how they might circumvent it and secure for themselves a larger share of the available supply of sugar than the fair distribution provided by the rationing program would allow.

I have no doubt that at the time they were doing it and all through the duration of this struggle they are going to feel a sense of satisfaction and pride that they are doing their bit to help win the war.

Service Program of Chevrolet Includes Latest Practices

Prolongation of the period when new parts will be available to motorists who must have them, by repair and reclamation of all parts and assemblies that can be salvaged, is the goal of a new service program instituted by Chevrolet dealers, according to William E. Holler, general sales manager.

A new film, the sixth in a continuing series designed to acquaint dealers and their service personnel with latest approved service practices, has just been released by Chevrolet, dealing with the subject of parts repair.

Livestock Producers of State to Have Meeting in Ft. Worth

State-wide meeting of livestock producers and livestock traffic interests will be held at Fort Worth, Saturday, May 23, at the Blackstone Hotel.

The growing threat to agricultural producers through shortage of transportation facilities has brought forcefully to the minds of all farmers and ranchers the need for saving as many unnecessary miles to market as they can.

All farmers and ranchers are urged to attend the meeting if possible and if not to write to the council for information as to how they can co-operate with other producers in their sections to save their livestock rolling.

At the meeting Saturday, May 23, in Fort Worth, principal discussion will center on the General Order No. 5, issued by the Office of Defense Transportation.

Representatives of the livestock raisers on the council include: George Jones, President, Highland Sheep and Goat Raisers Association.

ing more acute daily." Mr. Holler said. "While it is impossible to predict exactly when the supply of replacement parts will be exhausted, it is not impossible to begin doing something right now to defer that day."

"The new service film affords a modern-to-the-minute training course for the dealer and his service manager in the renewing and repair of partially worn or damaged parts. Inasmuch as many metals are no longer available to us and in the face of parts shortages, production curtailment and military priorities, this new emphasis upon repair as opposed to replacement will conserve new parts for emergency use and will prolong car life at a minimum cost to motorists."

THANKS

To The People of Crowell and Foard County:

Due to the fact that I am soon to be inducted into the armed forces of the United States, I have deemed it expedient to dispose of my business before entrance therein. Accordingly, I have sold the Corner Drug Store to Payton Powers and Irving Fisch, who will continue the operation thereof.

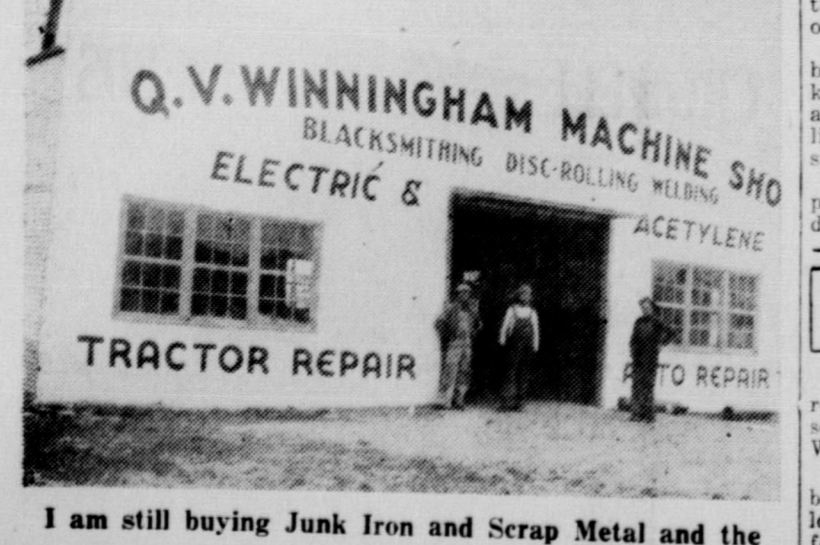

I have deeply appreciated your patronage during my five years' ownership of the Corner Drug Store; it is with regret that I found it necessary to dispose of such store, for from the many happy associations I have been privileged to share with you, I know that I shall ever cherish the happy memories thereof.

Sincerely yours, HENRY BLACK

Raymond, 10 years old, made the trip from Chattanooga, Tenn., to Dallas on the train by himself.

Mrs. W. B. Johnson left today for Columbia, Mo., to be present at the graduation of her daughter, Miss Frances Henry Johnson, from Stephens College there. There will be many activities for the parents which she will attend. She will be joined by her sister, Mrs. J. H. Lowrey of Fort Worth, for the trip. Mrs. Lowrey will meet her at Wichita Falls. Miss Johnson has attended Stephens College for the past two years.

For OPA Chief

Leon Henderson, head of OPA, the organization in charge of gasoline rationing, will have to get along with "A" ration cards for his two cars. Mrs. Henderson is shown holding the two "A" cards which entitle the Henderson family to six gallons of gasoline per week.

CARD OF THANKS

We desire to express our heartfelt thanks and appreciation to the many friends who were so good to us at the sudden death of our dear mother. Every ministrations will ever be remembered and appreciated by each of us.

Rodeo Performers at Stamford Rodeo to Feature Amateurs

Stamford.—Featured rodeo performers of the Texas Cowboy Reunion are cowhands who ride for cowhand wages. And while some of them could give the professionals a run for their money, they are rated as amateurs. But the Reunion show includes some of the world's most accomplished professionals.

When the chuck wagons are parked, each in its assigned place, on the Reunion grounds, skilled cooks swing into action, cooking up batches of the best chuck wagon grub ever dished out to a hungry gang. Menus run the full scale, including barbecues, deep pot fried steaks, beans, stewed fruits, and always onions. One meal ticket entitles the guest to choose any or all of the wagons in the field. It's one of the few places where one can really get all he wants to eat at one setting.

The wagons are the real things, being used throughout the year to trail the riding ranch hands, and must be ready to serve meals, regardless of what remote or desolate section the crew may be in when it's eating time. Wind, rain or sand, the wheels roll just the same, and chuck is readied on time.

This section of the Texas Cowboy Reunion, like the rest of the show, is not run for profit. Each

wagon boss presents to the commissary head just each day of the foods he needs, and cooking is done on a day to day basis. The Reunion management pays for all provisions and all receipts are turned over to the management. Ranch owners and employees of the ranches bringing wagons, and members of The Texas Cowboy Reunion Association are given passes.

Grady Bowdry, city manager, has been in charge of the commissary for years. Experience has taught him how to have his official business in shape so that he can devote his full time to the big order of having enough food to take care of the thousands who eat from one to nine meals on the grounds during the three days of the Reunion.

Battered and weather-scared, but strong and sturdy, the chuck wagons are a true picture of the real old West. Tarps are stretched from the wagon to afford a bit of shade to some of the help as they cook over open fire. Guests aren't furnished cushioned seats or folded linen napkins. Eating is done squatted on the haunches or sitting cross-legged on the ground.

Sugar rationing won't have much effect on this year's chuck wagon menus during July 2, 3, and 4, since fancy sweets just don't have a place in the average cowhand's eats.

Mr. and Mrs. J. C. Self of Wichita Falls were here the first of the week attending to business.

Cotton Stamp Program to Be Discontinued on Saturday, May 30

Austin, May 18.—The Cotton Stamp program will be discontinued on May 30, 1942, the Department of Public Welfare has been advised by the Agricultural Marketing Administration. Executive Director J. S. Murchison explained that this action was made necessary because the gov-

ernment finds it imperative to release all manufacturing facilities of the cotton industry.

Cotton stamps were exchangeable for cotton goods and were issued to public assistance recipients in seven counties of Texas. These included Tarrant, Dallas, Hill, McLennan, Travis, Harris and El Paso.

Texas has 12 egg-drying plants in operation with a potential production of 40 million pounds annually.

Thanks A Lot

We wish to take this opportunity to sincerely thank our many friends and customers for their loyal patronage during the past years. It has been a pleasure and happy privilege to serve you.

Wishing you the best of good luck in the future we shall ever remain your friends.

The Great Storm of April 28 Left Our Stock of Furniture but with Very Little Damage

We are co-operating fully with the American Red Cross and Hospitals, doing everything to help the homeless, the sick and wounded.

Our big store was used by the Red Cross as headquarters for several days. We were glad for them to use it.

Now, Folks, those who have lost your household furnishings, will need to replace some or all of them from some source.

We feel that Crowell Merchants should be given first consideration over other towns, if Crowell merchants have the goods at reasonable prices. Crowell merchants have to pay taxes to keep schools and other institutions going. How can they do this unless Crowell people patronize Crowell merchants since the great disaster.

We have a big store of practically everything that will be needed by those who will require replacements, and we have big shipments of Living Room, Bed Room, Dining Room and Breakfast Room Suites, Odd Dressers, Odd Chests, Odd Tables and Chairs to match, Studio Couches, Rockers, Pull-up Chairs, Iron Beds, Springs and Mattresses, Folding Cots,

Pillows, Oil and Gas Stoves and Ranges, Hot Water Heaters, Luggage, Cane Chairs, Kitchen Cabinets, Utility Cabinets, Unfinished Tables and Chairs and Chests.

Linoleum, Congoleum, Quaker Felt in Rolls and also O' Cedar, Golden Star and Cactus Mops, and Furniture Polish and Johnson Wax and Glo Coat, Stove Wicks, Micas, etc. Window Shades. We have a big selection of fine Wall Paper, Canvas, Tacks, Paste, Lining Paper, Housepaints, inside and out; Putty, Window Glass, Dryers, Colors, Linseed Oil, and Turpentine.

Some very beautiful Wall Paper Patterns in stock and sample books to select special orders.

Lawn Mowers, Garden Hose, Rakes, Spades, Shovels, Scoops, Trimmers, Hoes, Forks and Files, all at reasonable prices.

Fishermen! We have a big stock of all types of Fishing Tackle of all kinds. Life Preservers, Boxes, Buckets, Minnow Nets, Rods, Reels, Lures and Lines.

A WEEK of the WAR

The Office of Price Administration announced amounts of gasoline that motorists in 17 Eastern States will be granted upon presentation of rationing cards from May 15 to July 1.

Drivers for pleasure or those who drive less than six miles a day will receive 21 gallons, or an average of three gallons a week for the 47-day period.

Drivers for pleasure or those who drive less than six miles a day will receive 21 gallons for the period; those who drive from 10 to 14 miles daily, 45 gallons; and drivers of 14 or more miles daily, 57 gallons.

Preliminary figures showed 123 million persons, approximately 91 per cent of the total population, registered for sugar rationing.

The War Department said the Chicago Ordnance District is about to produce more tanks and tractors monthly than it produced in the entire World War I period.

The War Production Chairman Nelson said emergency coal rationing is probable unless consumers immediately build up their reserve supplies to "the limit of storage capacity."

SUBSTITUTING FOR SUGAR

College Station, May 18.—By observing several simple rules, homemakers successfully can substitute honey or molasses for part or all of the sugar required in their favorite recipes.

Hazel Phipps, Extension Service specialist in food preparation, says the characteristic flavors of molasses and sorghum make many foods more delicious. Both vary in moisture and acidity, she says, so the amounts she recommends, for sugar substitution are "approximate."

It takes about 1½ cups of molasses or sorghum to equal one cup of sugar in sweetness. Each cup contains approximately one-fourth cup of water so the liquid in a recipe should be reduced in proportion. In products which are leavened about one-fourth teaspoon of soda should be used for each cup of molasses or sorghum.

Miss Phipps gives this caution: Molasses and sorghum burn easily, so the temperature for baking should be lower than the temperature for baking mixtures made with sugar.

Rules for substituting honey for sugar are quite similar. Mixtures with honey brown easily and high heat changes the flavor of honey, so cooking temperatures should be lowered. A cup of honey gives approximately the same amount of sweetness as one cup of sugar, so the exact amount may be substituted. However, each cup of honey, like molasses, contains about one-fourth cup of liquid, so the liquid requirements of the recipe should be reduced one-fourth cup for every cup of honey used.

The specialist's final advice is: Use approximately one-eighth to one-fourth teaspoon of soda per cup of honey in baked products such as cakes or quick breads.

The Christian Endeavor Society met at the Christian Church Sunday evening at 7:30 o'clock. John Clark Long called a business session and new officers were elected, as follows: John Clark Long, president; Ray Burrow, vice president; Ann Favor, secretary; Winifred Greening, reporter; Mrs. Roy Steele and Mrs. Frederick Ross, sponsors; Winifred Greening, recreation chairman; Roy Joe Cates, extension; Marjorie Young, parliamentarian. Officers will be elected semi-annually. Ann Favor was leader with a very interesting program on "Christian Missions Today."

Methodist Church
Services will be held as usual next Sunday even though the windows are barred. We will have artificial lighting. Sunday School will meet at 9:45, morning worship will be at 11 a. m., and the evening service will be held at 8:30 p. m. You will note that the evening service will be held at the hour set before the disturbance. All clothing which was sent in has been distributed and more can be used if there are those, escaping the storm, who care to bring it in. We had to disappoint one little girl about 11 years old by not having a dress for her. A man, wearing a suit, 36 or 37 in size was also disappointed. A call for a dress for a rather stout lady was turned down. On the other hand, we have been able to pass on dozens of dresses and some coats and suits. Many pairs of shoes, that were sent in by local people and from adjacent towns, have been given out. Dalt-hart sent three boxes, this being the farthest shipment to arrive. Many thanks to all who made it possible for that many people to be made glad.

Now that we are getting reinstated in our home living and are more able to resume the normal status of life, let us not forget the goodness of God in sparing our lives, and doubtless, they were spared for some noble purpose. The church invites you to attend its services and let us reconstruct in a Christian way.
H. A. LONGINO, Pastor.

"Soul and Body" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, May 24.
The Golden Text is: "Why art thou cast down, O my soul? and why art thou disquieted within me? hope thou in God: for I shall yet praise him, who is the health of my countenance, and my God" (Psalms 42:11).
Among the citations which comprise the Lesson-Sermon is the following from the Bible: "We are confident, I say, and willing rather to be absent from the body, and to be present with the Lord" (II Corinthians 5:8).
The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "To be 'with the Lord' is to be in obedience to the law of God, to be absolutely governed by divine Love,—by Spirit, not by matter" (page 14).
Hot Springs National Park, Arkansas, was visited by 182,583 persons in 39,066 private automobiles during the 1940 season.

Weekly Sermon

By the Rev. Warren Filkin, Ph. D., Member of Faculty, Moody Bible Institute, Chicago.

The Master Workman
A few days ago the latch on my car door refused to work. I took the car to a garage, where the mechanic told me he could fix it by putting in a new spring. When he had completed the job, the key would not turn in the lock. So he said I would have to bring the car back later when he had the part necessary to repair the lock. When he had repaired the door, the inside latch on the door was loose. Finally, this "mechanic" left my car in something like the same condition it was in before the latch spring broke.

Now the way this mechanic worked on my car and bungled the job is much the same as the way men bungle the job of saving their souls. They see that something is wrong, and they try to "fix it up," but while they are "fixing" that up, something else goes wrong, and they never finish the job. The mechanic finally saw to it, after my numerous trips to his garage, that my car was put back into condition again, but this we can never do to our souls. Every one of us needs someone to make us over, make us again—and that is just what the Lord Jesus Christ delights in doing.

One time a man who had spent years serving sin, approached a doctor and asked, "Would God save an old Swede?" This is what the doctor replied, "Yes, man, God specializes in Swedes." And He does. He specializes in Swedes, and Germans, and Frenchmen, and Americans—all He works on are specialties with Him. And He'll not do a "botch

job" on you either. He will not leave you in worse condition after one visit to Him than you were when you went. He will go the job right, and keep you right. So heed His invitation, "Come unto me, all ye that labor and are heavy laden, and I will give you rest."

VICTORY FASHIONS

College Station, May 18.—Since clothing for this spring and summer is practically all manufactured and on the market, women and children likely won't be wearing many Victory fashions until fall or winter, says Mrs. Dora R. Barnes, clothing specialist for the A. and M. College Extension Service.

Women who do their own sewing, however, should become acquainted with recent orders of the War Production Board which will streamline ready-made garments to save cloth. Skirts and coats will be narrower. Two-piece dresses are out. So are big sleeves, woolen inner-linings, patch pockets, capes, hoods, all-over tucking and wide belts.

Like the men, women will give up cuffs on their slacks and the trouser legs may be only 19 inches wide. This should make them

safer to wear, Mrs. Barnes says. Where color is concerned, black, brown and blue may no longer be leaders, for these dyes are getting low. Gingham will be available as long as the dyes hold out, and print materials in four colors are allowed until Sept. 1. After that, dresses may be more somber, the specialist says.

No grade A leather is now available for civilians' shoes. The men in the armed forces will have the best.

Principal headache for women just now is the price and supply of hose. Nylons are playing out. Silk hose are also becoming scarce, are expensive and of poor quality. Rayon hose, recently introduced to the market, appear to be durable but 18 hours is required for them to dry properly. One war-time innovation is bemberg hosiery, but these have not been tested by consumers thus far.

Only 150 Federal Land Bank borrowings out of 68,000 lost their farms during the first 11 months of 1941.

Some people learn how to relax. Others never learn how to do anything else.

Texas Game and Fish

W. J. Tucker, Executive Sec'y.)

Austin.—An increase of 13 per cent in the number of Hill Country deer placed on cold storage during the 1941 hunting season, as compared to the 1940 season, is reported today upon completion of a check of the deer kill in that region by Game Department biologists.

The turkey kill in that section so increased last year, as is indicated, the Executive Secretary of the Department said, by a jump of 144 per cent in the number of turkeys placed on storage during the open season in three of the principal cities located in the Hill Country deer and turkey range.

The scarcity of rain during the early months of this year already has been broken and if additional rain falls in abundance over the wide-spread deer and turkey ranges of Texas, a food and cover supply for these excellent game species equal to that of last year would result, and the deer herds and turkey flocks would show an additional increase. Field Biologists of the Department are encouraging ranchers and farmers to overgraze their land that wild game may hold its own in the Hill Country, and in some instances ranchers have cut down large numbers of live oak trees in an effort to produce more browse for deer. Many of the best deer hunting grounds in the Hill Country are badly over-grazed by sheep, cattle and goats, with the result that deer in some localities are lucky if they get minimum food requirements.

Heep Big Fish

J. C. McGlothlin had a lot of fun on the opening day of the fishing season, reports the Wood County Record of Mineola.

First he caught a five-pound bass. Then, with a fly rod, he hooked a nine-pound grackle that according to all the evidence put up one wing of a fight.

The evidence is McGlothlin's broken fly rod.

New Dope On Bullfrogs

In wartime all sources of food are important, and the bullfrog never held in disrepute by food fanciers, has assumed even more importance as a vital natural resource.

For years many Texans have advocated a shortening of the season on taking frogs, which now may be giggered at any time of the year. Two local bills introduced during the last two sessions of the Legislature failed to pass, however.

The supply of frog-legs at Texas restaurants and hotels is in danger of diminishing because, in the opinion of Game Department biologists, the supply of these cold-blooded animals is being rapidly depleted because of over-hunting.

Bullfrogs will not thrive in captivity. This has been demonstrated time and again.

But if their native marshy habitat is properly managed the frogs will multiply and the landowner can get a fancy price for his product.

To assist landowners in properly managing their property for bullfrog production the Game Department recently issued a bulletin on this subject, written after considerable research by a field biologist.

You may obtain a copy free of charge by writing the Game Department, Austin, Texas.

One interesting fact recorded in the bulletin is that Texans are estimated to consume 300,000 pounds of bullfrogs annually.

High School Senior Class Enjoys Last Picnic May 15th

The Senior class of 1942 enjoyed their last picnic together on Friday evening, May 15, at the Country Club. First, some of them went swimming; then all of them ate sandwiches, potato chips, pickles, olives, cookies, punch and to top it all—ice cream.

A very appreciative class presented their sponsor, Miss Mildred Cogdell, with a lovely gift. Also, they voted to give the Junior class, whom they did not get to entertain, twenty-five dollars. The remainder of the Senior's money will be given to the Red Cross.

Everyone played games from "London Bridge" and "Ring Around the Rosy" to "Red Rover" and "Slingin' Beauty." At dusk the class joined together in singing "Auld Lang Syne."

The following class mothers and teachers were present: Mrs. Thomas Hughston, Mrs. Tanner Billington, Mrs. Paul Shirley, Mrs. S. B. Hord, Mrs. Lewis Sloan, G. C. Foster and Mrs. Foster; and the class sponsor, Miss Cogdell.

THALIA IDLE HOUR CLUB

Thalia Idle Hour Club met Thursday, May 14, in the home of Mrs. John W. Wright.

The afternoon was spent in pleasant conversation and doing fancy work. After a short business meeting the hostess was presented with a beautiful magazine rack.

The hostess served ice cream and little cakes to the following twelve members and one visitor: Mmes. W. J. Long, T. R. Cates, Ed Cates, Isaac Shultz, Allen Patty, C. H. Wood, J. A. Stovall, C. C. Wheeler, G. A. Shultz, Marlin Woodson, Mrs. Woodson's sister, Mrs. Mike Fanning, of Beverly Hills, Calif., Miss Minnie Wood and the hostess, Mrs. Jno W. Wright.

The next meeting will be with Mrs. Isaac Shultz on May 28.

H. D. COUNCIL MEETS

The Foard County Home Demonstration Council met in the office of Miss Joellene Vannoy, home demonstration agent, Saturday, May 16. Each of the six home demonstration clubs were represented.

The Farm Land Use planning committee will be called the Agricultural Victory Council for the duration of the war. A human chain has been perfected, whereby information of an emergency nature from Washington, D. C., can be released to every farmer in the county within a period of six hours. Foard County has been divided into twelve communities, with a man and a woman community leader in each one who will relay the information to sixty men and women Victory leaders.

Each home demonstration club is asked to send a list of their club members to Congressman Ed Gossett, Washington, D. C., in order that he may send them bulletins. Mrs. G. H. Kinchloe, delegate to the district home demonstration association meeting at Graham on May 6, gave a report of the meeting.

VIVIAN H. D. CLUB

The Vivian Home Demonstration Club met at the home of Mrs. R. S. Haskew on Thursday, May 14, with 17 members and 16 visitors present.

A double bridal shower honoring Mrs. Buster Dishman, and Mrs. Clyde Cummings, was given during the afternoon.

The visitors were: Mrs. Roscoe Pierce of Crowell, Mrs. Allen Holly, Mrs. Charlie Burns, Mrs. Dick McKinney, Mrs. Walter Teel, Mrs. Clyde Cummings, Mrs. Walter Birthead, and Mrs. Stephens of Ogden, Mrs. George Benham, Mrs. Wayne Dishman, Mrs. Buster Dishman, Mrs. E. L. Bishop, and Misses Marion and Glenna Self.

Miss Joellene Vannoy will begin a First Aid School at the Vivian School house Thursday, May 21, at 2 o'clock. Anyone in the community who wishes to take this course is invited to be present Thursday.

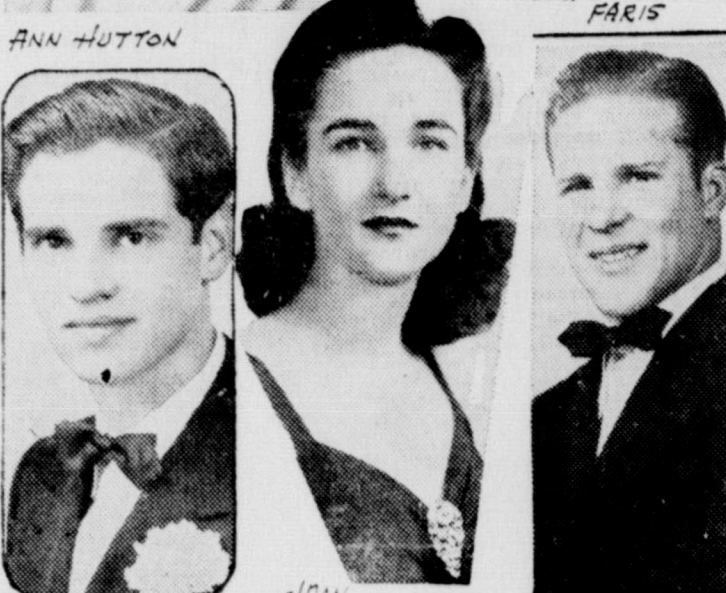

The club adjourned to meet at the home of Mrs. E. T. Evans on Thursday, May 28.

COUNTY LIBRARY

On account of the condition of the court house, and also due to the fact that no other building is available for the housing of the County Federation Library, the books of the library have been stored and will remain so until some place can be found.

The library will probably be opened in the early fall and further announcement will be made con-

Margaret School To Close with Picnic

The 1941-42 term of the Margaret school will come to a close on Friday, May 22. A picnic is planned for Thursday, May 21, and everybody is invited to bring lunch and attend. Arrangements have been made to transport the children to the North Pocket Park.

The closing school program will be on Friday, May 22, at 10 o'clock a. m. in the school auditorium. The theme of the program is "Texas, the Lone Star State," and will consist of Texas songs, facts about Texas, readings and musical numbers.

This is the fourth year of standardization for the Margaret school. The teachers for

two years have been C. E. and Mrs. Jimmie Hemminger, of whom were re-elected next term. Mr. Moore signed and has accepted with the Department of Public Safety.

To Aid War Drive

A portrait of General MacArthur with his promise of "I'll Do My Best" serves as the key poster in a war production drive program inaugurated by Fisher Body. Inscribed across the poster is the pledge of every worker on the production line to the man at the battle line: "Me Too, Mac." This poster has been erected as a permanent display in all Fisher Body plants.

Men put off things they ought to do, and women put off things they ought to wear.

New CCC Camps Have Been Established; Only 5 Camps Closed

Austin, May 18.—New CCC camps have been established at Camp Bowie, Brownwood, and Camp Walters, Mineral Wells, where boys will be assigned to work on military reservations. Only five of the camps, which previous announcements indicated would be closed, have been closed thus far. These were at Coleman, Denton, Memphis, Newton, and Waxachachie. Closing orders are expected in June for eleven additional camps. These camps include three for white boys, located at Wolfe City, Morton, and Humble. Eight for colored boys, located at Bogota, Mt. Pleasant, Winnboro, Nacogdoches, Yoakum, Seguin, Huntsville and Austwell. If all expected closing orders are received the state will then have ten CCC camps. Seven of these will be for colored boys, located at Waco, San Augustine and Zavala.

Boys now being selected for CCC services will be sent for induction to the camp nearest their home on May 20. All boys enrolling must be willing, however, to leave the state.
