day morning.

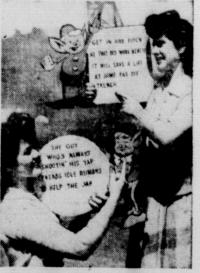

Postmaster Spencer says that the equipment is complete with the exception of an electric clock which has been shipped and is expected to arrive soon.

The postoffice building and all 11, 1921, and lived in Foard the contents were totally destroyed by the tornado and fire one time Mr. Spencer and his force have done an excellent job of serving patrons with temporary equipment picked up here and there. The postoffice is permanently located on the west side of the square in the building formerly occupied by Reeder's

TEXAS EXCEEDS QUOTA

Frank Scofield, War Bond Administrator for Texas, releases Series E War Bond Sales of \$27,-014.554.25 for the month of March against a quota of \$24,500,000.00 for Texas. This represents an increase of 10.2 per cent over the quota despite the impact of Infor the knitting of sweaters or helmets, to turn them in as soon as they can, together with the three months in E. W. D. history. The people of Texas are responding to the appeal "It takes both—Taxes and Bonds."

Twins, Hepnomads

The Teeter Twins, California shipyard workers, with a pair of hepnomads with pep rhymes. Hepnomads are benevolent elves, the opposite of gremlins. They "speed up war production."

May Day-May 1: The observaion of May Day in this country has lost all of its symbolism and ritualism characteristic of the early Old World observances. Chief among the activities of its observance are the hanging of May baskets filled with flowers by little girls on the doors of their friends, the winding of the May pole, or attractive festivities. In many schools and colleges May Day is observed with festivities, which are presided over by a May Queen. The girls in Wellesley College, Wellesley, Mass., have for years had hoop rolling con-tests, the winner of the contest it is presumed will be the first to be married. Following the contest the contestants stand in parallel ines and form an arch with their ops through which the girls in the lower classes march. Occa-sionally the girls don little boys play the games they played as children. Colorful festivities are A hearing has been called by observed each year at Vassar Colgevernment agencies against Hen- lege, Bryn Mawr, California State The general comment by cause of its associations with

A survey recently completed by the Federal Crop Reporting Board indicates that farmers of the United States will plant 10,
O00,000 acres more in 1943 than income taxes are sure Florida. We have noted at the following levels:

Any law that holds people in bondage is bad and un-American. Yet the current income tax law makes peons of all taxpayers, because it forces them to start each year in debt for previous year's Foard County has quite a large the United States will plant 10, 900,000 acres more in 1943 than were planted in 1942. The largest increase in among the corn growers who will plant 6,000,000 seeds of ruin. Any taxpayer whose acres, bringing the total corn acreage up to 96,827,000 acres. The next biggest increase is in the three main oil producing crops — soybeans, peanuts and flaxseed — which will account for an additional 3,300,000 acres.

AGRICULTURE

Ten pounds per 100 hens is a good guide and may be scaled up or down to suit conditions. Frequently hens get some grain about the place, hence, should have less

Sweet potatoes are in demand at various dehydrated plants. The Rev. S. H. Holmes of Vernon preach at the Christian 6 months during 1943.

To encourage planting sweet potatoes this season, a floor price has been fixed for this year's crop.

Some Facts About Cotton

(D. F. Eaton, County Agent.)

Feeding Laying Hens Usually growers feed grain late in the evening which is a good practice, the amount fed is usually ten pounds for one hundred

It is better to feed it on the mash in the hopper than scatter on the ground. There is danger of worm infestation when fed on the ground; there is little danger of over feeding. We feel sure, however, over-feeding has bad results, such as reduced produc-tion, excessively fat birds, and in some cases, death.

fed them.

The aim of good feeding

production. A hen properly fed grain and laying mash should produce her capacity if other conditions are favorable. She gets her capacity from her breeding which is fixed by nature; however, when poorly fed she may not even approach her capacity. The poorest hen you have is laying now. When she fails to pay a profit over the cost of her feed she should find her way into the family meat

building and filling trench silos later in the year by planting good acreages of grain sorghums, milo, There are many examples of where the use of silage is practical acres to untreated seed and a like squash as from a pound of cares to untreated seed and a like squash as from a pound and profitable here in the county, number to treated and delinted ter. especially where there are sveral

A father is fighting... So his boy may tinker with Electricity

Over 160 of our men (and one woman) are in the U.S. armed forces. Last week one of these men, a good electrician who had been with the company for many years and who is a veteran of World War I, came home on leave. (He's a volunteer in the Navy.)

With him when he dropped around to say "hello" and talk shop with the fellows was his 13-year-old son ... wearing his Boy Scout uniform.

All the guys were darn glad to see him and know he has a swell Navy rating as an electrical technician. Naturally they asked a lot of questions and learned that Uncle Sam's Navy thinks mighty high of its men who come from America's electrical companies where they got their training and experience. They learned, too, that electric power is behind most of the Navy's great punch ... building ships, guns, bombs, torpedoes and the like with which to win the victory.

Finally someone asked: "Well, Don, have you decided-just what are YOU fighting for?" He answered right off, pointing to his son.

"Me-I'm fighting for this kid. He's a Boy Scout, see, and it teaches 'em to be independent and self-reliant. Well, dictators and bureaucrats don't like that-they want regimentation. So I'm fighting so he-and millions like him-will be free.

"Too, the kid's kinda like me. He has a knack for tinkering with electricity ... likes it, see. Well, the kid may not be another Edison. But I want him to have the same opportunities that Edison had-and a lot of other guys who helped make this country great.

"I want him to be free to tinker all he likes. And if anything comes of it, if his tinkering creates something useful to the world, like Edison's tinkering, I want him to share in the profits."

Out of this freedom of individual opportunity grew America's great industries that today are pouring out the weapons of war ... as in peacetime they pour out the comforts and conveniences of everyday home life to give us the highest of all standards of living.

This freedom is worth fighting for. Free men and women, working out their own destinies with their own hands and minds . . . building, inventing, improving ... taking the risks and enjoying the rewards. And bettering the world as they better themselves!

Eyes For The Blind

The world was a total eclipse to a little Mexican boy of El Paso, for the first twelve years of his life. Born blind, his eyes had always been covered by heavy, opaque cataracts. He did not even realize his loss; for all he knew, the world was something made up of words and noises, things to feel, smell, and taste. His pitying parents had not en-couraged him too much to hope for sight, for fear their efforts

But finally the surgeons decided to operate. For weeks he lay with his eyes swathed in bandages, CHS and CGS PRESENTS U. S. ARMY WITH JEEP! Then they were taken off, and shielded by dark glasses; he ran to the hospital window and looked out upon a new world. their "Jeep Drive" today (Monday, April 19, 1943). The school "Look, there's the car I came re in. And there's a bicycle. had a total of \$963.60. leaves a remainder of \$63.60, as it only takes \$900 to buy a Jeep.

I know it's a bicycle. And, oh, there's a tree. It's beautiful. One by one he saw the faces ly. It lasted only one week. Evof his friends, the furniture, and the innumerable commonplace objects that make up the kaleidoscope of our world. Everything was \$869.80. The total for the was an amazing curiosity. He had no words to describe the shimmering pageant of lights and colors except "wonderful," and Harris Scales bought the second he stood there several minutes before the joy of it overcame him and he began to cry. His parents pils bought 325 and \$35 bonds. and the doctors wept too. And in a few weeks he was fitted with schools. glasses and he learned for the first time, how to be a boy.
Millions of people whose sight

has always been normal are blind, erusted with the cataracts of ig-norance, prejudice, and dull in-sensibility to the rights and needs Lacking the excuse of natural handicaps, their lives are bound within the petty lives are bound within the petty routine of personal self-interest, and they cannot see the world with appreciation or sympathy.

with appreciation or sympathy.

While ink is drying.

Bell—A happy noise heard evwith appreciation or sympathy. In this year of 1943 when there so much uncertainty in the orld, it would be a good time cram—The most restricted to the control of the contr to remove these cataracts from method of study.

THE 2ND WAR LOAN DRIVE IS ON!

Vinnef olde A

There is one stark and simple fact about war which you had better get straight...and quickly, too

THERE IS NO SECOND PLACE IN A WAR-IT'S EITHER WIN OR LOS

This war is being fought for tremendous stakes ...

... for your life and your liberty.

::: for your church and your children. ... for your freedom and your future.

And it's WINNER TAKE ALL. Don't forget that for a minute.

The winner will dictate whether tomorrow you shall be a free citizen of a free world, or a helpless serf to a "master race."

The winner will dictate whether you shall live and prosper under the Four Freedoms, or toil hopelessly in the darkness of a "New Order." The winner will dictate : . . because the winner

takes all.

The winner takes all. All you own, all you hold dear.

The winner is being decided right now...today... this very minute . . . on battlefields all over the world. Will you stand idly by . . . or throw all your weight on our side?

The weight of mighty tanks and planes. The weight of thousands of guns and millions of shells. The weight of billions of dollars ... 13 billions which your country asks you to lend during this Drive.

Your country wants to borrow every idle dollar you have-every dollar except what you need for the barest necessities of life.

You'll have to give up some luxury or comfort which was dear to your heart. You'll have to postpone some pleasure which you had been eagerly anticipating.

Your sons and brothers and husbands are dying out there . . . fighting your fight. Surely it is no sacrifice to lend your dollars while they are giving their lives.

They need your help. They need the weapons your money can buy. If one of the War Loan volunteers calls on you ... greet him with open pocket-book. Remember, Uncle Sam's goal is 13 billion dollars in April.

Don't wait to be asked. Go to your nearest bank, investment dealer, broker, Post Office or issuing agency and lay your money on the line. Remember, it's an investment you're making - an investment that pays a good return and insures a happier future for you and your loved ones.

So lend up to the limit. You'll sleep better for it.

There are 7 different types of U.S. Government securities-choose the ones best suited for you:

United States War Savings Bonds—Series E The perfect investment for individual and family savings. Gives you back \$4 for every \$3 when the Bond matures. Designed especially for the smaller investor. Dated 1st day of month in which payment is received. Interest: 2.9% a year if held to maturity. Denominations: \$25, \$50, \$100, \$500, \$1000. Redemption: any time 60 days after issue date. Price: 75% of maturity value.

21/2% Treasury Bonds of 1964-1969: Readily marketable, acceptable as bank collateral, these Bonds are ideal investments for trust funds, estates and individuals. A special feature provides that they may be redeemed at par and accrued interest for the purpose of satisfying Federal estate taxes. Dated April 15, 1943; due June 15, 1969. Denominations: \$500, \$1000, \$5000, \$10,000, \$100,000 and \$1,000,000. Redemption: Not callable till June 15, 1964; thereafter at par and accrued interest on any interest date at 4 months, acrise. Prices par and date at 4 months' notice. Price: par and accrued interest.

Other securities: Series "C" Tax Notes: 7/8% Certificates of Indebtedness; 2% Treasury Bonds of 1950-1952; United States Savings Bonds Series "F"; United States Savings Bonds Series "G."

to anything but rats and mice. Subject of the Lesson-Sermon of communion and mutual love. Prepared baits, also non-poison-ous and poison liquids. Guaran-of Christ, Scientist, on Sunday, teach, and show me, O Lord, by April 25.

The Golden Text is: "God will redeem my soul from the power of the grave: for he shall receive me" (Psalms 49:15). Among the citations which com-prise the Lesson-Sermon is the following from the Bible: "Who

shall ascend into the hill of the Lord? or who shall stand in his holy place? He that hath clean hands, and a pure heart; who hath not lifted up his soul unto vanity, nor sworn deceitfully" (Psalms carefulness.

24:3, 4).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to News office.

the Scriptures," by Mary Baker Eddy: "Man should renew his energies and endeavors, and see

Weekly Sermon

By the Rev. Wendell P. Loveless, Director of WMBI, Chicago.

Psalm 25

The psalms may be studied lustrations of truths emphasized and revealed in the New Testament. We may read them Messianically, seeing Christ predictively declared. We may read them spiritually, as being a read them spiritually as being a read them are read them are read them as the read them are r them spiritually, as being a presentation of spiritual truth applicable to God's people in every age. But for our present study

1. Deliver me (v. 20). This is the beginning of the Christian life. Herein is the grace and power of God through Christ manifested, in redeeming the sinner from eternal death and delivering him from eternal judgment (Col.

2. Bring me (v. 17). One may missed an Easter at church in be delivered from eternal wrath sense they are like a crew of ten years, but had only gone to and yet not be brought out of dis- carpenters standing with tools in church ten times during that period. All of us should at least do that well just to show our appreciation for the Christ's sacritics in our interest.

This is accomplished through an experimental knowledge of God's purposes for us preciation for the Christ's sacriting God's view of things concerns.

I realize that it will be a full day everyone else may forget you, for all of us, but we must not forget that it was a full "week" for you.

If the evening service at 8 0 clock. In the country of the c

time reading, studying and meditating on the Word, the Holy Spirit, who is the Author of the Word, will be our Teacher.

6. Show me (v. 4). The psalmist asks the Lord to teach him the path, but to show him the way. This is the most intimate stage of relationship in the Christian experience. In Psalm 103:7 we read: "He made known his ways In Psalm 103:7 we unto Moses, his acts unto the chil-dren of Israel." A knowledge of acts may be dependent merely upon sight, but an apprehension of ways is a product of faith and "Probation After Death" is the trust, based upon intimate seasons

Deliver, bring, remember, lead, teach, and show me, O Lord, by Thy marvelous grace!
